PROGRESS IN SPRUCE LAKE PIPE EXTENSION

Motion to Complete Agreement with Pulp Company Passed

Matter of Contract for Construction Now Being Considered—Another Meeting This Afternoon.

A motion to complete an agreement with the Nashwaak Pulp and Paper Co. regarding the proposed water extension from Spruce Lake was passed by the common council in committee this morning.

The matter of the contract for the performance of the work was also taken up and discussed.

G. G. Hare, city engineer, explained the methods of computing the measurement of overflow from the lake as mentioned at yesterday's meeting.

Regarding the recent inspection of the wood stave pipe near Lattimer's Lake, which was laid fifteen years ago, the mayor said it was apparently in good shape.

Dr. J. B. M. Baxter, K. C., city solicitor, explained that the proposed agreement provided that if the city had available 4,000,000 gallons for the company's use and the company did not use any or less than that amount, the minimum \$3,150 could be collected.

The city engineer said that it would be possible to give the proposed increase supply for nearly a year from the storage of the lake alone.

The motion to supply water under the terms of the agreement was again put by Commissioner Bullock.

Commissioner Thorton said he still thought that the city should have the right to demand that the company should show some consideration for the city.

On question being put, it was carried, the mayor and Commissioner Bullock and Jones voting for and Commissioner Thorton and Frink against.

Commissioner Jones took up the question of the contract for the work. Commissioner Frink asked "Why all the frantic haste in getting this matter put through?"

Mr. Jones said that the matter was for a year and the public was complaining on the delay.

Commissioner Jones read the report of the city engineer who stated that the cost of the Canada Lock Joint Pipe was the only one which complied with all the specifications.

French Troops And People in a Clash In Upper Silesia

Eleven Killed and Twenty-Six Wounded

Crowd Mad Attacked Detachment of French Cavalry—Strike in Protest Against War—Armistice Terms Are Read to Poles.

Berlin, Aug. 18.—French troops clashed with inhabitants of the town of Katowice, an important mining town of Upper Silesia today, eleven persons being killed and twenty-six wounded.

Polish troops attempted to break up a mass meeting at Rybnik, about twenty-five miles southwest of Katowice, and in the resulting disorder one person was killed and four wounded.

Workers in all the towns in Upper Silesia struck a noon yesterday as a protest against the war between Russia and Poland.

All public utilities were halted from twelve to seven o'clock in the evening and all restaurants and stores were closed. Meetings of trade unions were held everywhere in the interests of neutrality, and demands were made for the creation of a committee to control the transportation of troops.

A crowd at Katowice attacked a detachment of French cavalry, killing one trooper, who carried a machine gun and grenades, killing nine and wounding twenty-six. A lawyer and a local Polish leader, threw a grenade from a window and was dragged from his house and killed. The security police, two of whose comrades were killed by French fire, have refused to continue duty.

After the disturbance the French troops were withdrawn from the town. Terms Read.

Moscow, Aug. 18.—(By the Associated Press)—The Russian Soviet peace terms were read to the Polish delegation at their first meeting with the Soviet representatives in Minsk yesterday.

The Polish answer will be returned today.

Paris, Aug. 18.—The Polish counter-offensive with Thorn as its base, has successfully cleared the Danzig corridor of city troops and the Polish mission in Poland today.

The city says that the Polish forces are still driving eastward.

Vienna, Aug. 18.—A Danube gunboat on Monday seized a large outside Vienna. The cargo was munitions, war materials and ammunition.

Paris, Aug. 18.—A meeting of the united Socialist party tonight in the chamber of commerce in the city of Paris, called an extraordinary session of that body in view of the gravity of the general situation.

Too Many for the Jail; May Have to Sleep in Relays

Windsor, Ont., Aug. 18.—There are sixty-seven prisoners now held in the county jail at Sandwich, approximately 100 per cent more than capacity.

Most of them are O. T. A. violators. Cots and hammocks have been placed wherever room can be found for them but even with this makeshift some are sleeping standing up.

Two of the prisoners are under consideration by Governor Wantless as a solution, and if this is found impracticable the prisoners may have to sleep in relays of six hours each.

Kingston Police Are Out on Strike

Military Called Out and Arresting Them—Trouble Spreads in Jamaica.

Kingston, Ja., Aug. 18.—The military was called out yesterday in conjunction with a general strike of the policemen, and those of the policemen who are refusing to work were arrested and placed in cells.

The prison wardens also have gone on strike. The military, which walked out on Monday, resumed work yesterday afternoon pending a settlement of their demands for more pay.

The strike fever is spreading in the island. This is due primarily to the increased cost of living.

Winnipeg, Aug. 18.—The Mennonite question took on a new angle yesterday. A local paper states that negotiations have commenced with the Quebec government and that official delegates of the "colon" colony will be sent to Quebec to discuss the proposed "treaty making" powers.

Quebec, Aug. 18.—Commenting on the Mennonite question, the Quebec press stated that the government had been apprised of the fact that the Mennonites intend to send delegates here to study conditions in this province.

Ceremony of Interest in St. Peter's Church This Morning

A wedding of much local interest was solemnized in St. Peter's church at nine o'clock yesterday.

As Hiram Sees It

"Hiram" said the Times reporter, "the Hiram people, over an evening pipe on the veranda, were discussing how many of these raspberries were rotted by the rain."

"An' they was wet an' soft, it didn't rain every day, it was damp an' foggy an' we never seen the sun. You see, they was rotting the berries. For every one we picked today there was three or four too soft an' mildewed to put in the basket."

"An' every morning for a week," said the reporter, "you should look at the sky an' say, 'There goes another case of two of raspberries.'"

"An' they them raspberries we dug to-day," said Hiram, "on that dry salt. You see how small they was. That was because we had to much dry weather afore the wet spell come. But I ain't findin' no fault. The rest of the potatoes is a good crop, an' I got a good price for them berries I had. An' look at them there cots. Did you ever see any 'finer better' they by cut them this week. The Good Book says we'll have seed-time an' harvest, an' I never seen it yet. But you got to do your share—an' you got to take the good an' the bad an' be thankful. The feller that's himself planted, where he'll be under potato coat."

PUT NO BAN ON U.S. GRAINS AT CANADA'S PORTS

Montreal, Aug. 18.—The minister of Trade and Commerce, Sir George E. Foster, announced yesterday in a communication to the House of Commons, that the harbor commission's advice that there will be no embargo placed upon grain from the United States or other products passing through Canadian ports.

In connection with the grain movement, it was stated that the C. P. R. was ready to bring to Montreal 250 cars of grain a day, equal to 400,000 bushels. The total capacity could bring 150 to 175 cars a day, while there will be the usual movement of grain by all water routes.

A LITTLE DROP IN WEEKLY BUDGET

Ottawa, Aug. 18.—(Canadian Press)—During July the cost of the weekly budget of staple foods dropped slightly, according to figures in the current issue of the Labor Gazette.

The average was \$18.84 at the middle of July as against \$19.92 in June; \$18.77 in July, 1919, and \$19.22 in July, 1918. The index number of wholesale prices again declined, being 366.8 for July, as compared with 366.3 for July, 1919, and 364.6 for July, 1918.

CANADIAN MAKES WORLD RECORD AT THE OLYMPICS

Earl Thompson Wins 110 Metre Hurdles

Our Men Out of Hapmer Throw—Sensational Contest Yesterday in Half Mile Race—Declared Greatest Ever Run.

Antwerp, Aug. 18.—Earl Thompson of Prince Albert, Sask., who is representing Canada in the Olympic games, today won the final heat of the 110 metre hurdles, hanging up a new world's record of 14.4 seconds.

The final heat of the 10,000 metre walk was won by Frigiero, of Italy, J. Pearson, United States, was second; C. E. J. Gunn, Great Britain, third; McFadden, South Africa, fourth; Heir, Great Britain, fifth, and Moroney, United States, sixth.

William Plant, of the Morningtide A. C., New York, reported that he had won this morning which it is believed will put him out of further competition in the present games.

In the first round of the tug of war the British team defeated their United States opponents. The latter had little chance against the Brits, being out-tugged in the first contest in 19.2 seconds and in the second 84 seconds.

British and United States fencers met in a contest for third place in the fencing with foil competition yesterday. Each team won eight bouts but the United States fencers scored thirty-two touches against thirty-one for Britain.

Olympic Stadium yesterday, two athletes were disqualified for unsportsmanlike and disappointing showing of Swedish athletes in the seventh Olympic programme, which there have been rumors for several days, culminated last night in a report that E. Hjerberg, trainer of the team, had requested that he be relieved of further responsibility.

The Olympic committee, which is reported to have taken any action at this late date.

Hjerberg will not go to Paris with the Swedish team and some of the United States athletes who will participate in triangular games with French stars at Pershing Stadium on August 29.

Victory in the final heat of the 800 metre run went to Great Britain. A. G. Hill of the British team, finishing first ahead of Earl Eby of the Chicago A. A., the second man. B. G. D. Hudak, South African runner, was third.

The Olympic and world's records for this event are identical 1 minute, 51.80 seconds, held by J. E. Meredith, United States, who made the record at Stockholm in 1912.

Rudd dropped in his tracks at the finish of this race and was lifted off the course. Thomas Campbell of Yale University, another competitor, collapsed during the race.

Western qualifying heat in the 10,000 metre walk was won by Frigiero of Italy. J. B. Pearson, United States, was second; Parker of Australia third, Faresi of Italy, fourth, C. E. J. Gunn, Great Britain, fifth, and J. Moroney of Belgium sixth.

ST. JOHN MAN WEDS IN ITALY

Dr. W. E. Thompson and Miss Rowntree Married—Now in Holy Land.

A wedding took place between William Egbert Thompson, B. A., M. B., Ch. B., son of Mrs. Frederick Somerville Thompson, of 160 Gernall street, St. John, and Marjorie Annie Rowntree, eldest daughter of Mr. and Mrs. R. Stanley Rowntree, of Genoa, Italy, on May 16, 1920, at the British Consulate and Church of the Holy Ghost, Genoa.

Dr. Thompson was lately with the British army in Italy and after demobilization there, proceeded to Nazareth, Palestine, to take charge of the British hospital there. After a period of nine months, he joined the government medical service, which is being newly established in O. E. T. A. (occupied enemy territory administration), and he has charge now of the traveling ophthalmic hospital for Palestine, and acting as surgeon specialist to the administration. Later, he hopes to return to Canada in a surgical work.

The bride, Miss Marjorie Rowntree, is the daughter of R. S. Rowntree, Lloyd's surveyor for Genoa and district. After the ceremony the bride's mother gave a small reception at the Hotel de Genoa, where the bride and groom were bidden a "bon viaggio" for their long trip through Italy and Egypt to Palestine. They are now at Mejid, Gaza district, in close proximity to the scene of one of the principal battles of the war, the Battle of Gaza. Near by are the ruins of the ancient city of Ascalon. The hospital is composed of tents and is functioning in the combatting of the prevalent eye disease, trachoma, the results of which are said to affect more than 80 per cent of the people. Beside clinical interests, there is much in the district of historical value and the real eastern surroundings and life make camp in the Holy Land particularly attractive.

INGENUITY IN INVENTIONS

Americans Hear Rush of Applications for British Patents.

The period of grace allowed by the Peace Treaty for the filing of patents in England having lapsed in mid-July, a great rush of applications was noted just previous to that date, three thousand more having filed from Jan. 1 than during the same period in 1919, exceeding 20,000 in all. The majority of applications were from the United States and Germany, says a London dispatch.

American applicants were particularly interested in filing and the ingenuity of our inventors concentrated largely on flying boats, on subsidiary vases for counteracting the instability of airplanes and on parachute devices to be carried on the back of the aviator.

German inventors were more domestic in their interests. Self-heating curling tongs seemed to several the great desideratum, but one went a little further, a field in suggesting a device for intermittently feeding moving picture films.

Sweden, not to be left behind, with an eye fixed on her next war, proposes a new explosive containing pine bark. Multitudes of "witty" inventions came from all parts of Great Britain—new safety razors, rubber for aircraft, scissors, and also with an eye to the next war, a means for making a torpedo float after it has done its work.

A Canadian inventor developed an automobile signal in the form of a bird for indicating the direction in which an automobile is about to turn, and for signalling for a car in the rear to stop.

GASOLINE SUBSTITUTES. There are approximately 8,000,000 registered automobiles in this country, and the automobile industry is still in its infancy. The price of gasoline is getting to a point where the operation of pleasure cars will be an expensive luxury, while the cost of motor haulage in commercial practice has already attained alarming heights.

Experts say motors can be built to run on kerosene. This makes the outlook somewhat brighter than it now appears, and it is likely that some relief will come from advances in engine construction which will enable motorists to get more mileage out of a gallon.

An Italian chemist asserts he has discovered a method by which liquid hydrogen is cheaply produced, and it may be used in driving motor vehicles.

Of all things alcohol offers the greatest hope of being a substitute for gasoline. Ways have been devised to produce alcohol from nearly any available source of saccharine or starchy materials. Just before the war the Germans were producing about 100,000,000 gallons of alcohol annually. More than two-thirds of this was obtained from potatoes, one-sixth from grain distillates, and the remainder from yeast, molasses and fruits.

In 1918 France was producing nearly 70,000,000 gallons of alcohol each year, of which nearly two-thirds came from beets and the remainder from molasses and grain.

QUIT WIFE NOT HER TABLE

"Desertion" Divorce Pleas Wins Though Husband Lives in Wife's Home.
Newark, N. J., Aug. 18.—A husband may board with wife, live at her table and still be charged with deserting her, according to an opinion just filed here by Special Master Child in which a decree of divorce is recommended for the wife.

Mrs. Andreas Blum of 48 Jacobs street, sued her husband for divorce on the ground of desertion. It was brought out in the testimony of the woman that her husband took a room in her home after he had previously deserted her and their three children. She said her husband ate his meals at the same table with her and children, but only spoke to them when absolutely necessary. She said her husband was an inventor, and was able to "make everything but money to pay the rent and other expenses."

LEAGUE OF EX-CONVICTS.
London, Eng., Aug. 18.—A dispatch from Strasbourg states that a curious league of reformed liberated convicts of Southern Germany has been formed there. Many of the men fought in the war. The officers were chosen according to their service in prison. A murderer and burglar named Eggers was chosen president. The league aims to suppress crime and aid the police.

LONG DISTANCE KISS COSTLY.
Chicago, Aug. 18.—It cost Samuel Domko \$8 a week alimony to throw a kiss to a blonde across the street.

"Kisses, long distance or otherwise, belong to your wife," ruled the judge when Mrs. Domko brought her complaint to court. "And \$8 a week out of your wages will belong to her from now on."

WASP'S STING OF DEATH.
London, Eng., Aug. 18.—John Rogers died fifteen minutes after being stung by a wasp. At the inquest the doctor was asked if the wasp sting really caused death, and said he could account for it only in that way. Rogers had an enlarged heart and apparently died from shock.

WIFE TORTURED BY MICE.
London, Eng., Aug. 18.—A nervous woman complained to the Crofton court of a peculiar form of cruelty which her husband indulged in. She said he brought home live mice and turned them loose in the kitchen. Once he tried to put a mouse on her. A separation order was granted.

52 MURDERS IN NEW YORK.
New York, Aug. 18.—According to Assistant District Attorney Joyce, there were more murders committed in New York city during the first six months of 1920 than in many previous years for the same period. There were fifty-two murders. Three of the victims were women.

The Late Charles Forbes.
The funeral of Charles Forbes, who was drowned in Gardiner's Creek, was held from his home at Gardiner's Creek on Saturday afternoon. Service was conducted by Rev. Mr. Murray of the Presbyterian church at St. Martins and interment was in the family lot. The funeral was attended by many friends and many floral tributes testified to the popularity and esteem in which the young man was held in the community. Friends acted as pall bearers.

BLAST KILLS 6 HURTS 3. 4 More Believed to Be Dead From Explosion Near Graham, Va.

Graham, Va., Aug. 18.—Six persons were killed, four others are thought to have lost their lives and three were injured in a premature explosion at a nestone crusher at Pounding Mill, near here.

The explosion was caused by the ignition of a fuse by a spark from a drill, setting off three charges of dynamite which were loaded for use tomorrow.

The known dead and injured were taken from the debris, but the bodies of four others are thought to be under the tons of rock which fell into the pit.

Winter Furs at Summer Prices

PERSONAL comfort is an important consideration with everybody. When Winter winds begin to blow, one naturally thinks of the cozy comfort of nice, warm furs. But how much more practical and economical it is to think of Winter comforts while still enjoying the warmth of Summer.

Our August Fur Sale

offers many opportunities for the exercise of this practical policy.

Pre-season selling helps to reduce the costly overhead of idle sales periods in Summer. This saving is passed along to our customers in lower prices that will be out of the question this coming Winter.

That is putting the facts plainly,—but why shouldn't you know the truth? Those who fail to buy furs now are sure to pay more for them next Winter, for higher prices on furs are inevitable.

Practical economy should prompt you to anticipate your Winter needs and buy furs at Summer prices.

TOO BUSY.

Hon. Mr. Meighen has declined a proposal which the people of Canada would have been very glad to have him accept. He professes to be too busy to discuss the reasons for or against a general election, although the opportunity afforded him was one of the most inviting characters. A Peterboro despatch says that the prime minister has written a letter to Mr. J. H. Burnham, who recently resigned from the House of Commons, declining Mr. Burnham's invitation to discuss at a joint meeting in Peterboro the propriety of a general election. Mr. Burnham's resignation calling for such election, and the state of affairs in Canada generally. Mr. Meighen, says the Peterboro despatch, declines on the ground that he has not the time to spare and that the proposed discussion might not be of general interest.

Mr. Burnham resigned from the House of Commons because he believed the time for a general election had come. He told his constituents that as a follower of the Union government he felt that he had served the purposes for which he was elected, and that the time had come when the country should be given a chance to register its views on the domestic issues of the hour and to make these views effective through a newly elected parliament. The question raised by Mr. Burnham in his letter to the prime minister, and which Mr. Meighen says he has not time to discuss, is much more interesting to the people at large than many of the matters to which the premier has found ample time to address himself. He is a busy man, but two or three hours at most would serve to give the country the information Mr. Burnham thinks it should have.

In his recent speeches Hon. Mr. Meighen has avoided the question of a general election, not because he has not had the time to discuss it but because he believes it is not a profitable subject for himself and his party. If he were frank he would tell the country that the elections are not deferred indefinitely because the people do not want them, but because the Meighen administration is convinced that it could not at this time survive an appeal to the electors. Mr. Meighen avoids public discussion of the demand for a general election just as he has avoided the question of living with the matter of charges on harbor traffic here and at Vancouver under the commission plan.

MORE CHEERING OUTLOOK.

The International Institute of Agriculture, which has special facilities for gathering information regarding world crop conditions, sees nothing in the present outlook to cause anxiety concerning the world's bread supply. In its July Bulletin the Institute says:—

"On 1 April 1920, there were still 103 million quintals of wheat and rye available for shipment from the exporting countries (59 million in North America, 32 million in South America and 13 million in Australia). The importing countries are shown to require between 1 April and the periods of their respective harvests, 81 million quintals. The stocks at that date were consequently sufficient not only to supply all requirements up to harvest-time in the northern hemisphere, but also to leave a surplus available in the coming season. According to the figures just quoted, this surplus should be 24 million quintals, on 1 August 1920, but it may be even larger, in the probable event of insufficient means of transporting the whole of the 81 million quintals within the limits of the four closing months of the current campaign."

"Turning to this year's crop it is found that there is every prospect of a good harvest in Europe, with correspondingly less demand for imports from America and elsewhere. The summary of conditions in the exporting countries is as follows:—

"It is quite doubtful whether Roumania can do anything material towards the world's supply next season, owing to the seriously reduced area sown last autumn. As regards Russia, there is no means of forming a definite opinion. "British India has had a larger crop than last year and even over average. It therefore seems probable that exports will recommence next season, after their present suspension."

"The United States expect a crop falling short of that of 1919, but above the average of pre-war seasons. There are no official Canadian estimates, but it is stated that the crop is doing well and the yield may be considerably larger than last year's."

"The latest reports confirm what has been said about the United States crop, and only this week it was predicted that Canada would have 50,000,000 to 75,000,000 bushels more of wheat than last year. Hence, if there is a surplus of 24,000,000 quintals of cereals held over from last year's crop, the Institute is justified in saying:—

"The outlook for the coming year may therefore be summarized, so far as the present situation indicates, as one which does not justify any serious anxiety, either with respect to the needs of the importers or to the extent of available supplies in the exporting countries."

FINANCIAL WIZARDS.

The financial adventures of Ponsi in Boston, and the experience of many thousands whose hunger for mighty dividends at short notice clouded their reason, have caused reviewers to recall many famous swindlers. In the list which should have been a warning are mentioned the South Sea Bubble, the schemes of John Law, and, in more recent times, "220-per-cent. Miller," Mrs. Chadwick, and Madame Humbert. In spite of all the warnings there always is an army of people, usually of small means, to whom the promise of large profits, or something for nothing, has a fascination too great to be resisted. The usual method of the "financial wizard" is to give people back some of their own money and call it a dividend, to pay the few who drop out with the money of the much greater number who come in, and, as long as possible, to "keep them coming."

To those who express amazement that nearly 40,000 people entrusted Ponsi with their money it may be said that his glittering scheme which gets a start is strongly bound to have supporters even though it is opposed to all the rules of common sense. In this connection the New York Evening Post recalls the famous failure with which the name of General Grant was unfortunately associated. "Such achievements as those of Ponsi," says the Post, "are in fact by no means confined to relatively humble ventures. Old Wall Street men will possibly remember how the ingenious Ferdinand Ward deceived his innocent special partner, General Grant, with the story of fabulous winnings on the Stock Exchange, and deceived the Stock Exchange itself by whispered tales of 'War Department contracts' obtained through the General's influence, while all the time he was engaging in an infatuated speculation of his own in South American securities. No pretext, one would say, could have been more easily proved to be pure deception. Yet even in the heart of Wall Street, Grant & Ward were able to fall with credit liabilities of \$25,000,000 and assets of about \$25,000."

Those interested in harbor commission should read in today's Times a letter from the deputy minister of marine to Messrs. Cashin and Company dealing with the matter of charges on harbor traffic here and at Vancouver under the commission plan.

ONTARIO TO HAVE A THOUSAND NEW HOMES BY WINTER

Provincial Housing Commission Has Used Up \$8,750,000 It Received From Dominion Government.

(Toronto Telegram.)

More than 1,000 new homes will be erected this summer under the provincial housing scheme throughout Ontario, and no less than \$4,000,000 will be spent in this direction. The points most directly concerned in this effort to provide homes at a reasonable cost are Windsor, Ford City, Niagara Falls, London, Guelph and Ottawa. About 250 new houses are being erected under the scheme in the Township of York, where about \$2,000,000 will be spent on the work this year. Twenty houses are being erected in the Township of Etobicoke, where about \$100,000 is being spent on the work.

The best work in the province, according to the authorities, was done in New Toronto, where about 250 houses were put up at a cost of about \$200,000. New Toronto is, however, not doing anything this year.

Most of the money loaned under the provincial housing scheme was to men owning their own lots. The provincial commission, which received \$8,750,000 from Ottawa, loaned \$4,000,000 for brick houses and \$5,000,000 for frame houses. The builder gave his deed for the land as security and the Housing Commission of the municipality in return gave back its debentures with the Provincial Housing Commission as collateral.

The Provincial Housing Commission has no more money to loan.

GIBBS DISCOVERS SCULPTOR.

Praises Canadian's Conception of Modern Work-a-Day Men.

Sir Philip Gibbs, known through his graphic descriptions of battles and the men who fought them, has discovered something new in art through the work of a Canadian sculptor, on exhibition in London.

"The artist is Dr. Tait Mackenzie, a Montreal physician, formerly attached to McGill University and the Montreal General Hospital, and of his work the famous British war correspondent says:—

"Here is something new and something good in the art of sculpture. Not but not ugly or violent or wild, like so much modern work which attempts desperately to break with old traditions. Dr. Mackenzie believes in beauty and achieves it, though he has gone beyond classical ideals and adventurous purpose to express modern life with the most intimate and realistic understanding, to reveal the character of modern manhood in its ordinary workaday dress, and to show beauty of physical energy as it is seen in our playing fields and training camps."

EVERGREEN.

You'd say I'm in the yellow leaf, if you should count my years; but I don't travel much with grief, or shew around in tears, and so I work enough for anything on earth. I have all kinds of pea-green pains along my legs and back; but when a lot of Jakes and Janes are calling at my shack, on maladies I waste no words, I don't discourse of woes; I talk of hams and hummingbirds and cheerful things like those. A man is old when he begins to talk of ailments dire, to sigh all day and to boast his shins before a stiff breeze. A man grows old when he is prone to boast the vanished time, to view the present with a groan, and swear it is a crime. If I should live eight hundred years, composing helpful rhymes, as Noah and such prophets hinge on in ancient times, I'd still be young as I am now, though others might be old. For when I see what old men do, I shudder and whicker my waist. For when I see what old men do, I shudder and whicker my waist. For when I see what old men do, I shudder and whicker my waist. For when I see what old men do, I shudder and whicker my waist.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

FORT WILLIAM HENRY.

On August 16, 1757, Montcalm, the great French general of the pioneer regime, burned Fort William Henry, which he could not occupy himself, and which he was determined no one else should have. It was a strong position at the southern end of Lake George, held then by 2,200 English troops under Lieutenant Colonel Munro. Fourteen miles away, by an easy route, was Fort Edward, where Colonel Webb had a force of 3,000 Englishmen under his command. The two officers, knowing that Montcalm was intending to strike Fort William Henry, had agreed to unite for the defence, but a few days before Munro was attacked, Webb wrote his associate that he did not intend to come to his assistance and advised him to surrender.

On August 6 of that year the English Ferdinand Ward deceived his innocent special partner, General Grant, with the story of fabulous winnings on the Stock Exchange, and deceived the Stock Exchange itself by whispered tales of 'War Department contracts' obtained through the General's influence, while all the time he was engaging in an infatuated speculation of his own in South American securities. Stories That General Delivery Clerk Can Tell

The man who stands behind the "General Delivery" window at the post office becomes an involuntary participant in perhaps more of the little incidents that make up the life of the business and personal life of a city than any other man. And through his hands also pass what might be termed the rough ends of the postal business.

In his case he placed a multitude of letters which drift in and which, in spite of the efforts of the carriers and a thorough search of the street directory, are main undelivered. These are held for a time and then returned to the sender when his address is known, or otherwise to the dead letter office.

St. John receives perhaps more misdirected mail than any town of its size on the continent. This is due to the fact that there exist so many cities and towns of the same name and also that the abbreviation "N. B." has various interpretations. Only just weeks ago letters addressed to Nebraska, North Britain (commonly used in the old country to designate Scotland), and North Brabant, Holland, arrived at the St. John post office. The peculiar fact in the case of the letter for Scotland was that it originated in a town in England.

Another line of work handled through the general delivery window is the collection of fees on unpaid or under-paid letters and other pieces of postal matter. "Dead" mail is a term used by the post office to designate letters which are not returned to the sender when the address is known and the mail is not able to miss a mail, or otherwise it is sent forward for the collection of the deficiency at the delivery end.

The post office people here say that the greatest offenders in mailing under-paid letters here are the American visitors. In the United States today a two-cent stamp will take a letter and one cent a postal card to Canada, but they forget that in moving the other way the mail costs a cent more.

The monthly postal guide which was issued by the St. John office was discontinued last May for various reasons, including the expense and the fact that it was not appreciated by those to whom it was intended. On the occasion of each issue, copies placed in the boxes were found scattered over the floor of the post office lobby. Now changes in the schedules and all important closings of mails are posted on a bulletin board in the post office.

J. S. Flagg, assistant postmaster, in talking with a Times reporter yesterday, said that the business at the local office was showing a steady increase from month to month. This is particularly noticeable in the matter of registration in Canadian mail order houses. One house last May sent out 4,000 catalogues to postmen in the city. Last month the same firm sent out more than 8,000, the total shipment weighing more than 100 tons. In cases where addresses of these catalogues have moved from the city, through the assistance of a known address package must be returned to the sender.

Speaking on the matter of undelivered letters, Mr. Flagg said that a great deal of time and trouble could be saved the post office if firms and their customers would be more careful in addressing mail and moreover to see that sufficient postage was affixed before letters are dropped into the mail box.

YORK COUNTY FARMERS FORM ORGANIZATION

York County was organized yesterday by the United Farmers of New Brunswick, and is the second county to be organized. Twenty-four immediately took out membership cards at \$10 each.

Officers and directors were elected with the power of filling vacancies. They are as follows: President, Douglas Clark; vice-president, Frank Brooks; secretary-treasurer, Hiram Mann; directors, Herbert Crowdon, Prince William; Z. R. Estey, Kings Clair; Gen. R. Sloan, Marsville; John Mitchell, Devon; Chas. Anderson, Meadon; Bliss Nason, New Maryland; David A. Essena, Munners; Sullivan, Webster; Fredericson; T. J. Bird, Douglas; Hanford Dunphy, St. Marys; Edward Jarvis, Stanley; Arthur Wetmore, Stanley; Roy Jones, Mrs. Allison Miller, North Lake; William Hawkins, Queensbury; William Reed, Mrs. W. Reed, ex officio; Alex. Brewer, Southampton; John Inch, Bright.

The speakers were C. Gordon Sharp, secretary of the New Brunswick council; Farmer, S. C. McKee, of Ontario; T. W. Caldwell, M. P., and John M. Pratt of Winnipeg, a member of the Canadian council of agriculture.

CAR DITCHED.

S. H. Brantton, of Beckville, had a narrow escape from serious injury when the car which he was driving left the road at the Hampton river bridge and plunged through a wire fence into a ditch several feet below, last night. Mr. Brantton was alone in the car at the time. It is supposed that something went wrong with the steering gear as the car was approaching the bridge. Mr. Brantton though stunned was able to get clear of the wreckage and was taken to Hottel's in another car. On examination by a doctor it was found that the only injury he suffered was a scalp wound.

BARTENDERS FROM AMERICA FLOCK TO GREAT BRITAIN.

London, Aug. 15.—Due to prohibition in the United States, Great Britain has been almost engulfed in a tidal wave of American bartenders. With the advent of these mixologists from the United States, tourists can now get any kind of a drink they formerly used to be able to indulge in in their own country. One bartender inserted an advertisement for a position, saying he could make more than 500 different drinks.

LOCAL NEWS

The regular meeting of the ship carpenters and joiners was held in the Oddfellows' hall, Union street, last evening with 1. Patterson in the chair. There was a good attendance present, and the meeting was occupied with the transaction of routine business.

At a meeting of the executive of the Exhibition Association held in the office of Secretary H. A. Porter in Prince William street yesterday afternoon, arrangements were made with Captain C. H. Stevens, the Truro (N.S.) aviator, for a programme of flying stunts during each day of the exhibition.

A break in the East St. John water main, under the Municipal Home bridge, was repaired yesterday morning by workmen from the department of water and sewerage. Another break was discovered near the old fertilizer works in Red Head road and will be repaired this morning, an official of the department said last night.

Commissioner Thornton said last night that the overcrowding of cars must be stopped. He refused to allow a car, crowded to the danger point, to run last night. He is going to Halifax to attend the regatta and while there will make a thorough inspection of the one-man car in use in that city.

The meeting of the W. C. T. U. yesterday was more particularly devotional in its character. The president was in the chair and, having read the second psalm, she spoke very helpfully of the promises and of the conditions under which they were to be fulfilled. Mrs. R. D. Christie was the first to lead in prayer. Arrangements were made for holding the quarterly meeting of the

RECENT WEDDINGS

A quiet wedding was solemnized at the residence of the officiating clergyman on Saturday, Aug. 14, when Rev. Ernest Styles, pastor of the Carmichael street church, united in marriage Herbert George Shirley and Mrs. Murray Macdonald, both of St. John. Mr. and Mrs. Shirley left after the ceremony by automobile for a wedding tour through Nova Scotia. On their return they will reside in St. John. The bridegroom's present to the bride was a handsome set of furs. The many other beautiful and useful gifts which they received bore testimony of the high regard of many friends.

RECENT DEATHS

William H. T. Spinney, oldest son of Hon. E. K. Spinney, M. P., died on Monday at his home in Yarmouth. He was forty-six years of age. He was managing director of E. K. Spinney, Ltd., hardware merchants. He is survived by his parents, wife, formerly Miss Brenner Ross, of St. Stephen, a daughter, Miss Katherine, two brothers and a sister.

Many will hear with regret of the death of Mrs. W. G. B. Brodie, which occurred on Tuesday morning at Brown's Flats at the advanced age of eighty-eight. Mrs. Brodie, who was born in Forres, Scotland, came to Canada to become the bride of Mr. Brodie. She was married in St. John and lived in Fredericton, returning to St. John in 1883 she had made her home here since that time. She leaves four sons, William and P. Neil, architects, of this city;

TWO ACCIDENTS AT ST. STEPHEN

Mrs. Thomas McGrath of St. Stephen was severely injured in an automobile accident yesterday. In the car were a man and two other women. The car went over the side of a bridge into a creek where there was tide water. A feature of the accident was the heroic efforts of Miss Charlotte Clarke, a member of the party, though herself stunned and bleeding from her head and arms, she braved the water repeatedly and dragged first one and then the other of the women to safety. The victims were taken to the Calais Hospital where it was found that Mrs. McGrath was suffering from severe injuries to her head and spine as well as her chest. Frank Campbell, the driver of the car, was placed in the Calais jail but had to be removed to the Calais Hospital on account of injuries to his head and spine.

SON TO MRS. MARCUS DALY.

Caesarian Operation Brings Into World Heir of Late Copper Magnate.

(New York Times)

A son was born to Mr. and Mrs. Marcus Daly yesterday morning at the Radium Sanitarium, 208 West Seventh street. The child is a grandson of the late Marcus Daly, the Montana copper magnate, who left a large fortune.

Mrs. Daly went to the hospital early yesterday, where the rare Caesarian operation was performed by Dr. B. F. Roller. Last evening it was said at the Sanitarium that the condition of both Mrs. Daly and her son was satisfactory.

Mr. and Mrs. Marcus Daly reside at 1,067 Fifth avenue. They were married in March, 1919, at the Church of the Ascension. Mrs. Daly is a sister-in-law by marriage of former Ambassador James W. Gerard. Her maiden name was Leticia von Harrneth and she comes from a noble Austrian family.

Dr. Roller, who performed the operation, was a famous professional wrestler of this country prior to his retirement four years ago, since when he has devoted all his time to the practice of medicine. The Caesarian operation is so called because it is said to have been the means whereby Julius Caesar came into the world.

A BRIGHT BILL AT OPERA HOUSE

Vaudeville Acts Please Mid-Week Patrons—Clever Acrobatic Dancers and Musicians Make a Big Hit.

The Opera House has another bright programme for mid-week patrons and, judging from the appreciative applause tendered the participants at all three performances yesterday, it is being thoroughly enjoyed.

One of the feature acts of the new bill is that of the Bentall Bros., who appeared in a clever and well executed acrobatic dancing and musical offering. After playing a very pretty duet on a telephone they gave a demonstration of dancing which would be hard to excel. They are talented and they made a big hit.

Eugene Davis was also well received in an acrobatic offering of merit. He is a highly entertaining performer and did many difficult feats with apparent ease. He was tendered appreciative applause.

Green and Lafell also made a hit with a pleasing skit, which consisted of songs and dances. The lady member sang several catchy songs and her partner accompanied on the piano. They will undoubtedly be favorites during their stay here.

Colonel Walters and Lady evoked prolonged applause with their old time southern songs. They are good singers and, although well along in years, are able to handle the difficult passages in a most acceptable manner.

Lewis and Bards, in a comedy singing skit entitled "Oh Swartie," also were well received and won a good share of the plaudits.

In addition to the vaudeville programme there was another episode of "The Silent Avenger," featuring William Duncan. It is a very interesting serial and continues to increase in popularity. This programme will be repeated tonight and again on Thursday.

POST TOASTIES

EXPECT MANY IN HIGH SCHOOL

It is expected that this will be a record year in the St. John High School, preparations are being made for 700 and in order to accommodate that number forty desks are to be placed in the old Hazen avenue synagogue which was purchased last year by the school board. In spite of this additional space it is expected that some of the rooms in High School will have to take forty or forty-five pupils. There will be three rooms of grade XI or thirty-five each; five of grade X with an average of forty-five pupils and nine rooms of grade IX averaging forty-two to forty-five pupils each.

Doctor Bridges said yesterday that there will be no shortage of teachers in any of the larger centres of the province, but that some of the rural schools might have to be closed on account of the lack of teachers.

MEANEST HUSBAND FOUND.

Willesden, Eng., Aug. 18.—"My husband is so mean that he makes me pay him for an egg from his own fowls," a wife complained to the magistrate. She said he charged her the market price and made her put her money down before she got the egg. She said she was the mother of ten children. The magistrate said he regretted he had no power to deal with mean husbands.

RED CROSS OFFICERS.

At the organization meeting of the first branch of the Provincial Red Cross he formed under the new peace policy which was held in Buctouche recently by Miss L. HARBOR COMMISSION

St. John and Vancouver—Correspondence Bearing Upon the Question of Port Charges and Policies.

The Telegraph publishes here a letter sent by George S. Cushing, manager of Cushing & Co., Ltd., of this city, to the minister of marine and fisheries, the reply received from the deputy minister, the subject being that of harbor commission. Mr. Cushing enclosed a clipping from the St. John Globe of July 19 containing certain statements made by the president of the Vancouver Harbor Commission, which article was as follows:

"NATIONALIZING VANCOUVER." In Vancouver, where a harbor commission was recently appointed, and where a very extensive harbor development project is now being pushed, a letter to dispute has arisen over new port charges. The board has announced a tariff of approximately five cents a ton on freight handled over local wharves, commencing Aug. 1. When questioned by the board of trade, the head of the commission, Colonel Kirkpatrick, said the move was in the general direction of port nationalization, explaining that when the new government pier is completed it is intended to abolish wharfage charges altogether. In the meantime the board will levy the five cents per ton on all freight. Harbor dues and port wardens dues will also be done away with in the future. The board is really giving private wharf owners two years' notice of its intention of abolishing wharfage charges, and while the chairman admits that the transportation companies and the wharf owners would suffer for a time being, in the end the scheme would result in a far cheaper port. Another interesting feature of the conference between the board of trade delegation and the harbor board was the declaration of Colonel Kirkpatrick that it is intended to fashion the port of Vancouver after that of Montreal, now the leading shipping port of Canada, which was staged until taken over by the harbor board. These Vancouver facts must make St. John think, and should make St. John act. The Vancouver harbor board is in close and intimate touch with the minister of marine and fisheries. The plans being developed to make Vancouver practically a free port under commission undoubtedly have its approval. Similar plans for St. John would undoubtedly receive the same government support. St. John, instead of standing in the light of its own development, should get busy in its own interests."

Mr. Cushing's letter was as follows: St. John, July 20, 1920. Hon. C. C. Ballantyne, Minister Marine and Fisheries, Ottawa, Canada. Dear Sir—The enclosed is a clipping from the St. John Globe, July 19. I had understood that Vancouver was developing under a harbor commission set similar to the act for the harbor of Montreal. Does the act provide for free wharfage or for such a low rate as is mentioned in the article? How do they arrange for their interest, sinking fund and administration expenses? Would it be too much trouble to send me a copy of the Vancouver act? If it provides for free wharfage, side and top could not the St. John act be made to correspond? If this was arranged, together with the question of ferry approaches, a great deal, if not all, of the opposition to harbor commission in St. John would probably be removed. Yours respectfully, GEORGE S. CUSHING, LTD., George S. Cushing, Manager.

The Department's Reply. The reply by the deputy minister of marine was as follows: Department of Marine, Ottawa, July 28, 1920. Messrs. Cushing & Co., Ltd., St. John, N. B. Sirs—The department acknowledges your letter of the 20th inst. enclosing a clipping from the St. John Globe containing statements credited to the president of the harbor commissioners of Vancouver (H. C.) with reference to the commissioners' policy in the administration of the harbor. In response to your request I am enclosing you a copy of the Vancouver Harbor Commission's Act, and on comparison I do not think you will find there is much difference between the act passed creating the harbor commission of St. John (which has not yet been put in force, and that of the Vancouver harbor commissioners. Both acts provide that the commissioners may make by-laws fixing various charges for harbor services which are subject to the approval of the governor-in-council before becoming effective, the initiative in fixing the rates to be charged, however, remaining with the harbor commissioners. With regard to the policy purported to have been announced by the president of the Vancouver harbor commission in the clipping you enclose, this department has no information as to the authenticity of this report, but if such a policy was announced by the president of the board it was without the department's confirmation or sanction, so far as the abolition of wharfage and other port charges are concerned. "Port nationalization" may in interpretation be rather an intangible term. The policy of this government is to endeavor to restrict port charges to the minimum necessary to produce sufficient revenue to meet the expenses of harbor administration and operation and to provide for the payment of interest on harbor improvements, and to make the port charges in force in all our national harbors, as far as possible, uniform. I have the honor to be, Sirs, Your obedient servant, A. JOHNSTON, Deputy Minister of Marine.

THE ARMY WORM (By V. B. Darling, Entomologist, Laboratory, Annapolis Royal.) The Army Worm is now very prevalent in parts of Nova Scotia and doing a very considerable amount of damage. Considering this, and remembering the seriousness of the outbreak in 1914, it will be well to be on the look out for these devastating caterpillars. The Army Worms are about 1 1/2 to 2 inches long and the variety this year are particularly dark in color. The eggs are laid in long lying areas and the young caterpillars feed on almost any large enough to become active, when they assume the marching habit over grain fields.

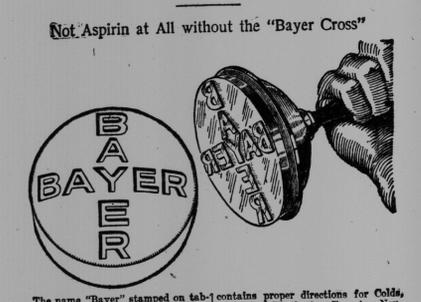

Method of Control. A good method of control is to dig trenches 8-12 inches in depth, in advance of the line of march of the caterpillars with post holes spaced five feet along the trench. The side of the trench next to the protected field should be straight and the earth loose so it will not be possible for the worms to climb out. The caterpillars wander along the trench and are caught in the post holes and can be killed by pouring kerosene oil on them.

Poison Bait. A poison bran mash has given good results. When used as a bait, a strip of poisoned mash is sown along the field in front of the line of march, and if the worms are already in the field it can be sown broadcast (twenty pounds to one acre) with good results. The mixture is as follows: Bran, twenty pounds. White arsenic or Paris green one pound. Molasses, two quarts. Oranges or lemons, three. Water, enough to make a paste. Mix the bran and poison thoroughly in a tub while dry, squeeze the oranges or lemons into the water and cut pulp up finally and add to water. Dissolve the molasses in the water and wet the poison with the mixture stirring at the same time, so as to make the mash into a good paste.

SEES LOWER FOOD PRICES. U. S. Chamber of Commerce Finds Crop Reports Indicate Reduction. Washington, Aug. 18.—Crop reports indicate somewhat lower prices for foodstuffs, according to the monthly bulletin of the United States Chamber of Commerce Committee on Statistics and Standards. Slackness in textiles, some leather products and metal lines, however, are classed as indications of "more awaiting and readjustment periods in a moderate way than the prelude to any marked change."

MRS. LUCY DOUCETTE, of Manchester, N.H., who says she's just so happy over the way Tanlag restores her health can't keep from telling people about it.

"I am just so happy over the way Tanlag has restored my health that I can't keep from telling people about it. I said Mrs. Lucy Doucette, of 76 Stark street, Manchester, New Hampshire, a few days ago. 'I suffered so long with chronic indigestion that I didn't know what it was to sit down and enjoy a single meal. My stomach was so badly disordered I had to live on the strictest diet, and nothing seemed to agree with me. At times my breath seemed to pour out, and I would suffer terribly for hours at a time. 'I lost my strength completely and became so weak and run-down I would give out several times during the day and would have to stop and rest. I was extremely nervous and irritable, and just felt like I would break down completely. 'One day I saw a statement from a friend of mine who said Tanlag had helped her wonderfully, so I was convinced this was a dependable medicine and I began taking it immediately, and I am now as happy as a lark. My stomach is now in the best of health. My appetite improved right from the first, and the horrible indigestion from which I suffered so long has entirely disappeared. 'I have now finished my fourth bottle, and can't say anything I wish without any bad after-effects. I also sleep better and have more strength and energy. It is a pleasure to tell you where Tanlag has done my case.'"

Tanlag is sold in St. John by the Ross Drug Dispensary, 175 Water Street, G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, High Street; John E. DeBer, 175 Water Street; Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Street; and the leading druggists in every town.—(Adv't.)

THE NATIONALIZING VANCOUVER. In Vancouver, where a harbor commission was recently appointed, and where a very extensive harbor development project is now being pushed, a letter to dispute has arisen over new port charges. The board has announced a tariff of approximately five cents a ton on freight handled over local wharves, commencing Aug. 1. When questioned by the board of trade, the head of the commission, Colonel Kirkpatrick, said the move was in the general direction of port nationalization, explaining that when the new government pier is completed it is intended to abolish wharfage charges altogether. In the meantime the board will levy the five cents per ton on all freight. Harbor dues and port wardens dues will also be done away with in the future. The board is really giving private wharf owners two years' notice of its intention of abolishing wharfage charges, and while the chairman admits that the transportation companies and the wharf owners would suffer for a time being, in the end the scheme would result in a far cheaper port. Another interesting feature of the conference between the board of trade delegation and the harbor board was the declaration of Colonel Kirkpatrick that it is intended to fashion the port of Vancouver after that of Montreal, now the leading shipping port of Canada, which was staged until taken over by the harbor board. These Vancouver facts must make St. John think, and should make St. John act. The Vancouver harbor board is in close and intimate touch with the minister of marine and fisheries. The plans being developed to make Vancouver practically a free port under commission undoubtedly have its approval. Similar plans for St. John would undoubtedly receive the same government support. St. John, instead of standing in the light of its own development, should get busy in its own interests."

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things. Either they eat on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excessive acid secretion or they can eat as they please in reason and make it a practice to counteract the stomach acid by the use of a little Bismarated Magnesia at their meals. There is probably no better, safer or more reliable stomach antacid than Bismarated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestant. But a teaspoonful of the powder or couple of five grains with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and abundantly without need of either powder or tablets. It never comes as a liquid, milk or citrate and is the best advice you ever had on what to eat. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on what to eat."

SELF-DETERMINATION. The semi-monthly meeting of the Self-Determination for Ireland League took place last evening in the Y.M.C.A. auditorium, the chair being occupied by the president of the local league, M. E. Agar. Reports were received from the local and provincial organizations. Peter Sharkey and J. D. O'Connell addressed the meeting. The following resolution was adopted and a copy ordered that Premier Lloyd George and His Grace Archbishop of Canterbury be invited to attend the Self-Determination for Ireland League of Canada. The chair was occupied by the Hon. J. J. O'Connell, M.P., who presided over the meeting. The chair was occupied by the Hon. J. J. O'Connell, M.P., who presided over the meeting.

F. C. McLEAN IN NEW POSITION

Former Insurance Man Here Takes Appointment in Indiana.

Many friends in the city will be interested in the success of Fred C. McLean for many years identified with the local branch of the Metropolitan Life Insurance Company. He is now superintendent of the Fort Wayne, Indiana, office of the Public Service Insurance Company with a staff of twenty-two men. Mr. McLean left the city a few months ago to organize the Fort Wayne branch for the Conservative Life Insurance Co. and on the completion of that work was offered and accepted the lucrative position which he is now holding. He was in the city a short time ago to take his wife and family to their new home. A large circle of friends will extend best wishes for further success to this popular young man.

THIS MORNING AT THE TENNIS TOURNAMENT

Excellent tennis marked the playing in the New Brunswick tennis tournament at Robesey this morning. The weather was ideal and the courts in good condition. In the men's singles, Malcolm McAvity won from Dr. Bigelow with the scores 7-5, 2-6 and 6-2. This game was closely contested and provided many thrills for the spectators. In the other event Jack Thomson won from P. Starr. In the ladies' singles Miss E. Schofield won from Miss M. G. Giddens, and in the ladies' doubles Mrs. J. R. Thomson and Miss Mabel Thomson won from Miss C. McAvity and Miss D. Blizard.

N. B. APPLES.

Fredrick, Dominion fruit commissioner; E. P. Brunt, deputy minister of agriculture; and A. G. Turney, provincial horticulturist, on a motor tour of the Gagetown district and between there and Fredericton, found the apples remarkably free from disease. The yield is less than that of last year.

BELL PHONE RATES
The mayor today received a telegram from the Union of Canadian Municipalities, asking if the city would co-operate in opposing the increase being asked for by the Bell Telephone Company and asking if the city would be represented at Ottawa when the matter came up. The mayor is securing more particulars before the council will take action.

SPEEDING AT QUISPAMIS
That automobile owners and chauffeurs are making a practice of driving at terrific speed through Quispamis and thus endangering the lives of women and children, was a statement made to the Times today by a resident there. Last evening, he said, his young son narrowly escaped being killed by an automobile which was traveling about fifty miles an hour. An effort is being made to put a stop to the practice.

HOME FROM MAINE

J. M. Woodman, general superintendent of the C. F. R. New Brunswick district, returned home this morning from Annapolis, Me., where he was in company with A. Price, general manager of the C. F. R., who was appearing before the Public Commission in connection with the installation of a block signal system on the C. F. R. lines in Maine. Mr. Price returned to Montreal last evening.

PRESENTATION

As a mark of esteem in which he has been held, Warren L. Gray, manager of the local private office was invited by the members of his staff and gold mosaic fountain pen and a gold pencil were presented to him, accompanied by the good wishes of all the staff. Mr. Gray will leave on Friday for Sackville where he will assume the management of the branch of the Provincial Bank of Canada there.

FINISH TOMORROW

The school teachers' and cadet instructors' training course which has been going on at the army since July 20 will finish tomorrow. The examinations have been conducted this week by Lieut. Col. H. C. Sparling, D. S. O., G. S. O., M. C. and Lieut. Col. A. B. Snow, O. and I. C. C. The tests are severe in practical and written work but very satisfactory progress has been made as all the candidates are school teachers and being used to mental application adapt themselves readily to the work. About thirty are taking the course.

CITY HALL INCIDENT.

After a motion to conclude the agreement with the Nashua Pulp and Paper Company had been passed by the city council this morning, a tense situation developed which required the pacifying influence of Mayor Schofield to straighten out. Commissioner Jones proceeded to bring up the matter of the consideration of tenders for the work, when commissioner Frink objected on the ground that it was a special meeting called to consider the agreement and as that had been concluded he would like to withdraw unless it was the mayor's wish that he remain. He started for the door when the mayor explained that while he did not wish to hurry the proceedings, he was anxious to have the matter disposed of as soon as possible. So the commissioner returned to his seat and the business was proceeded with.

CHAMPION FLY CATCHER.

James Johnson has increased his season's catch of flies until he now has 27 1/2 quarts of dead flies to his credit. This is approximately \$34,000 flies, despite the fact that he works all day as a messenger boy. But the money consideration is small compared to the good he has done.—Sun, Et. Record.

POTATO CROP DAMAGED.

Fredrickton, Aug. 16.—Hon. J. P. Tweeddale, who has returned from Victoria county, reports that the recent close hot weather has worked serious injury to the potato crop.

OPEN NEW MINE FOR DOMINION COAL COMPANY

Amherst, N. S., Aug. 18.—The first report of the British Empire Steel Corporation's scheme of development for the Dominion Coal Company's properties at Springhill was evident this morning when the soil was broken up by a new mine at 100 yards distant from Number 1, which was opened a short while ago. The new slope is known as Number 2, and is expected to tap a rich seam of coal from four to six feet in width.
Amherst, N. S., Aug. 18.—The strike in the Dominion Coal Company's mines at Springhill amicably settled on "two bits" basis as denominated by striking firemen, the 1,000 men affected were all back at work this morning. The management agreed to give the firemen the two fire schedule for a trial of one month.

London, Aug. 18.—A despatch to the Times from Paris says that it is reported that Sir Reginald T. Tower, high commissioner at Danzig under the league of nations, has issued an order that no ships with munitions for Poland shall be permitted to enter Danzig.
Paris, Aug. 18.—The French government intends to protest energetically against the decision of Sir Reginald T. Tower.

FRASERS PREPARE BIG DEVELOPMENT

Fredrickton, Aug. 18.—In preparation for proceeding with the construction of dams on the Tobique and a pulp and paper manufacturing plant at Tobique, a few miles from Andover, the Fraser Companies, Limited, are said to be obtaining options upon properties which will be required in carrying out their immense new project.
Hon. J. P. Tweeddale said this morning it was generally believed along the Tobique that the Fraser interests were about ready to start work under the charter they obtained from the provincial legislature last spring for a \$10,000,000 development scheme.

DECISION IN PROTESTED GAME IN NOVA SCOTIA

Halifax, N. S., Aug. 18.—The Amherst team has been awarded the game played against the Crescents of Halifax last Saturday, which was won by the locals, but protested by the visitors on the ground that Whalen, of the Crescents, was still the property of the Amnapola team.
The first game between Amherst and the Crescents, played at Amherst, was won by the Halifax team, but awarded to the Cumberland county players on a somewhat similar protest. These games were part of the elimination series for the Nova Scotia championship.

MAY BAR MAYS FROM BASEBALL

Players Are Discussing This Action

Boston and Detroit Will Consult Speaker First - Another Suggestion Is General Strike If Mays Is Kept On.

Boston, Aug. 18.—A decision to consult Speaker of the Cleveland Americans, before taking any action toward asking that Carl Mays, pitcher of the New York team, be barred from further participation in organized baseball, was reached by members of the Boston and Detroit teams after a meeting yesterday.

Sentiment among his fellow players indicated that no opposition to such an arrangement was probable from members of his own club.

Washington, Aug. 18.—A suggestion that players of the American League baseball clubs strike against any further participation by Pitcher Mays of the New York Yankees in league contests was made yesterday by St. Louis

players who joined members of the Washington team in informal meetings to discuss the death of Ray Chapman. Washington players took no action pending a decision by the league authorities as to their course.

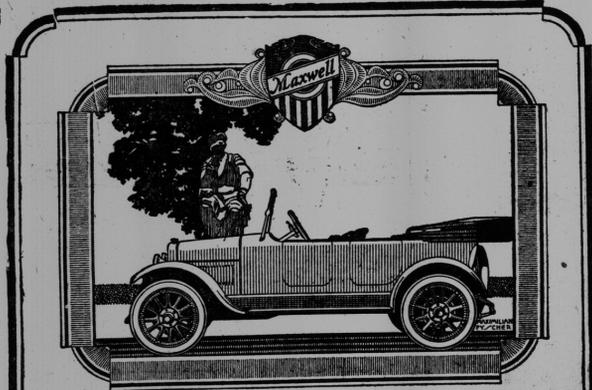

St. Louis players were said to have favored a general appeal to all other players of the league to refuse to play in any game where Mays was included.

The Simplicity of a MAXWELL is Due to Special Steels

A Maxwell is a simple car. Its engine, axles, clutch, transmission and gears are the utmost in simplicity, which is the goal of scientific engineering.

Special steels have made this possible. They are steels made to Maxwell's own formulae, the result of thousands of tests and years of analysis.

These steels give a Maxwell the remarkable combination of extra strength and lightness in weight.

In this way complicated construction has been avoided. Simple design has naturally followed and to this simplicity rare strength

has been added by the use of these special steels.

Strains, twists, thrusts, shocks and blows are protected against in many other cars by reinforcements, extra weight in metals used, and a design that obviously is anything but simple.

In a Maxwell this simplicity has made the car easier to build, and it therefore is better built, easier to drive, and easier to care for.

That this should win friends for Maxwell is almost too obvious to call attention to.

Nearly 400,000 persons now drive a Maxwell, which is a very definite endorsement.

CHAMPION LEAVES TO DEFEND TITLE

Dempsey Starts for Benton Harbor, Where He Will Box Mike on Labor Day.

(N. Y. Times Saturday.) Jack Dempsey, accompanied by his manager, Jack Kearns, left this city yesterday afternoon for Benton Harbor, Mich., where he is scheduled to box Billy Mike on Labor Day.

The heavy-weight champion will finish his training on the ground where he is to engage in the first real bout he has fought since he won the title from Jess Willard at Toledo a year ago last July 4.

As Dempsey boarded the train he appeared to be in the proverbial pink of condition. He has been indulging in light training in this city for the last several weeks, and announced that he was perfectly satisfied with the condition he had attained.

"I'm feeling as fit as a fiddle," declared Dempsey. "As a matter of fact, I never felt better. I believe that I am within a few days' work of being as well primed as I was when I entered the ring at Toledo to fight Willard for the championship. You can say for me that I feel like a two-year-old."

Asked if he expected Mike to give him a hard fight, Dempsey replied:—"I have boxed Mike before and I know that he is the kind of boxer no man can afford to take any chances with. He has a very snappy punch that is powerful enough to knock any one out. I am not going to take any chances with him. Of course, I expect to win, but I do not anticipate a cake walk or anything that resembles it."

Before leaving the city Jack Kearns stated that nothing of a definite nature had been done in connection with the Dempsey-Brennan match other than the signing of articles on last Wednesday.

"I have received several inviting offers," said Kearns, "but I do not intend to close the bout with any promoter until I am reasonably sure that all of them have had ample time in which to send in their bids. Leo Flynn, who manages Brennan and myself agreed to allow the promoters thirty days in which to bid for the bout."

Jack Kearns admitted that among the bidders are the International Sporting Club, represented by Tex O'Rourke, the club's matchmaker, and Tex Rickard, who recently acquired a ten-year lease on Madison Square Garden. Jim Dougherty, the Philadelphia promoter, is still in the bidding, and Kearns admitted that all of the parties concerned would rather have the bout staged in New York state and as near New York City as possible.

"The International Sporting Club has been talking to me about the match," said Kearns, "but thus far it has not made me a definite offer. I expect that it will do so in a few days."

He declined to state whether Rickard had made a definite bid for the bout or not, but it is known that Kearns and Rickard have held at least one conference and that the topic of discussion was the Dempsey-Brennan bout. Kearns declared that he would return to New York just as soon as the Mike bout was over and that he expected to make his city headquarters for some months thereafter.

A RECEIVERSHIP.

Boston, Aug. 17.—It was agreed in the federal court today that Charles Ponzi's quick-riches scheme should be placed in receivership for the benefit of the 10,000 outstanding creditors whose claims run into several millions of dollars. Counselors and Attorney-General Allen in an agreement that a receivership was advisable, had advanced the possibility that Ponzi would prove to be solvent after all, and asked for representation in the receivership.

STRIKE SETTLED.

Springhill, N. S., Aug. 17.—The strike of the firemen in the mines here was settled late tonight, and the men on the night shift resumed work at midnight. The men's demand that they be paid two times instead of three was conceded by the company. The mines will be in full operation tomorrow. One thousand men were idle.

MAY NECESSITATE READJUSTMENT OF ASSESSMENT LIST

Solicitor's Report on Tax Case Recently Before Courts - Advises Against Appeal.

A decision which may upset the whole system of taxing stocks in trade for taxation purposes was considered in a report submitted to the common council yesterday.

A letter was received from Dr. J. B. M. Baxter, K.C., expressing the belief that the amount of taxes assessed against the Dominion Coal Company, Limited, which was paid under protest, and the costs of the subsequent court actions should be paid by the city. The amount involved includes \$1,477.01 and costs. Dr. Baxter's letter said in part:

"On the tenth instant Mr. Justice Barry delivered judgment in the matter of the Dominion Coal Company, Limited, vs. the city.

"This was an action to determine the meaning of the words 'average value of stock' in our assessment act. My own view from the beginning has been that the mode of assessment by the board of assessors was not justified by the act, but in view of the very strong opinion held to the contrary by the board I thought it advisable to have a judicial interpretation of the act, which ought to set the matter at rest. I have put the case on the strongest possible point of view in favor of the claim of the board of assessors but I think that the judgment of Mr. Justice Barry is unimpeachable. I was driven to argue precisely that assessment could be based upon the average value of the total aggregate of the coal handled by the company in St. John during the year, and as the learned judge points out, assessment on this basis would be excessive, exceeding by a considerable amount the total net income of the company. On the other hand, the law as it has been construed, and I believe the construction is correct, does not enable the assessors to impose adequate taxation upon a company doing such an extensive business. The whole question of the valuation of stocks in trade for assessment purposes, in my judgment, needs to be reconsidered and legislation sought by which some fair principle will be laid down for their valuation.

"I enclose a copy of the judgment and would recommend that no appeal be taken, but that the money paid under protest by the Dominion Coal Company be refunded and the cost of the action paid. (Sd.) J. B. M. BAXTER."

It was moved by Mr. Bullock that the

report of the city solicitor be received and the recommendations followed, but in this connection Mr. Frink said that such a course might call for a readjustment of the whole assessment list.

Mayor Schofield said that assessments should be made on the total annual sales instead of the gross stock carried each year.

Mr. Jones endorsed the motion of Mr. Bullock and it passed unanimously.

PROHIBITION ACTIVITIES IN ONTARIO

(Canadian Press Despatch.)

Port Arthur, Aug. 17.—As a result of a round up of bootleggers and other vendors of liquor, in an illicit way in northern Ontario, carried out under the direction of John A. Yearst, chief license inspector for Ontario, last week, fourteen convictions, three sent to jail, and fines amounting to \$6,650 were registered.

The list of those convicted includes: Dr. Murdoch, mayor of Rainy River, who besides being fined \$2,000 and costs, was sent to jail for ten days. He was charged with selling liquor contrary to the Ontario temperance act. Most of the others convicted were hotel men and clerks, it was reported here today following the arrival of Inspector Yearst.

HARRY SHANNON DEAD. Montreal, Aug. 18.—Harry Shannon, one of the veteran trainers of the American turf, died last night in the General Hospital where he had been taken on Monday suffering with pneumonia.

Philadelphia, Aug. 17.—It was "valentine day" at the start of the fourth Grand Circuit meeting at the Belmont Driving Club's track at Nubertville today. C. A. Valentino, Columbus, Ohio, capturing three of the five races on the double header card carried over from yesterday on account of rain. The Ohio reinsman won the 2:08 pace with Gold Quarta, the William Penn stake for two-year-old trotters with Bogaluis, and the \$2,500 Bellevue-Stratford Hotel stake with Peter Coley.

The 2:06 trot was the feature of the card, and brought Peter Coley and Baron Coganite together for the first time this season. The latter made a disappointing showing, however, and Valentine's trotter won the first two heats handily, leading Charlie Rex in the first heat and Selka in the second through masterly driving in the stretch. In the third heat Jim Jax came from behind and beat Charlie Rex in a furious drive with Peter Coley, fourth.
