Post Office to Follow Trains in  
Adhering to New System—  
Petition by Suburbanites— Re-  
ports From Other Cities

It is probable that the citizens of St. John will be given an opportunity to express their views on the subject of the local adoption of daylight saving time. The board of trade and other organizations have expressed their desire for the change while the trades and labor council has taken the opposition position. The decision of the railways to run their trains on the daylight time has brought the matter to an end and the action of the post office department in announcing their intention to follow railway time makes a local decision still more urgently required.

Under legislation adopted at Fredericton in 1916 each municipality was given authority to adopt the change in time in connection with all matters over which it has jurisdiction. The city council adopted the act that year and the city council adopted a by-law bringing the daylight time into effect from the last Sunday in April until the last Sunday in September. At the end of the season the by-law was amended to end the daylight time on the first Sunday in September. During the summer the new time was found to work out satisfactorily with regard to purely local matters, but that the local time did not agree with that under which the railways operated caused some confusion and the next spring the by-law was repealed. Last year when daylight saving was generally discontinued were eliminated and the majority of the citizens expressed their appreciation of the change.

A Word at Ottawa For Low  
Salary Man

CIVIL SERVICE AS PROFESSION

Prince Edward Island Member  
"Wouldn't Put a Dog in It"  
Increase in Number of Illicit  
Suits

Ottawa, March 28.—In the House of Commons yesterday the House then went into committee of supply on the estimates of the department of customs and inland revenue. An item of \$408,287 to provide for salaries caused some discussion. Dr. Reid, acting minister of customs, explained that the salaries of deputy ministers had been increased from \$5,000 to \$6,000 during the year.

Edmond Proulx wanted to know if deputy ministers weren't earning enough before this increase. The government, he said, had plenty of employees earning salaries of about \$1,500 a year who needed an increase, and it did not seem anxious to grant them assistance. It looked as if the government was more anxious to help the high than the low salaried men.

An item of \$4,000,000 for salaries and contingent expenses of the several ports service commission also drew some comment. J. A. Robb said that, as this was the first occasion on which parliament had been asked to vote supply, he thought the government should present to the House a statement of the financial condition of the dominion.

Dr. Reid promised to draw the attention of the minister of finance to Mr. Robb's request. He said he had no doubt that the minister would make such a statement when the House was considering the war appropriation vote of \$850,000,000.

Captain Read of Queen's P. E. I. expressed grave doubts of the value of the service as a profession. "Who," he asked, "has the right to say that his ambition is gone. His career is finished. He commits economic suicide. By proposing you have got people persuaded that the civil service is a desirable place to get into. I wouldn't put a dog in it."

Ottawa Rumor  
Of Elections Here

Has Polling Set For June; Matter Not Considered by Government, Says Premier Foster

Montreal, March 28.—The Montreal Star publishes the following from Ottawa: A general election is to be held in New Brunswick, probably in June, according to rumors received in political circles. "While the term of the Premier government will not then be out, its plans are to go into the country, and the present excitable session of the legislature is a recognized precedent to this effect."

The Montreal Star submitted this despatch to Premier Foster this morning and he replied: "I am sorry for me that the government has not considered the matter of a general election."

Dr. Reid said that since prohibition came into force the seizures of illicit stills throughout the dominion had increased from one hundred per cent in 1917 to one hundred per cent in 1918. He said, however, that this year it had grown to more than 100, as follows: Ontario, thirty-seven; Quebec, twenty-five; New Brunswick, one; Nova Scotia, three; Manitoba, six; Alberta, thirteen; Moose Jaw, seven; Vancouver, eleven; and Victoria, twenty-two.

The Duke of Albany, who is a cousin of King George, and the Duke of Cumberland, a cousin of the late King Edward, both served with the German forces for a part at least of the late war. Each man was a royal duke of Great Britain. Both were British born.

Disarmament  
Is An Essential

Necessary to Discuss  
By League Of  
Nations

Statement by Lloyd George

London, March 28.—(Canadian Press Despatch from Reuters, Limited)—General Monash of the Australian army in France, in paying tribute to the generosity of presenting Vimy Ridge to Canada, suggested that it would be a noble action if France similarly honored Australia, New Zealand and South Africa, thus establishing an everlasting fraternity between the dominions and the great republic.

General Monash expressed the hope that the war office authorities would find it possible to arrange for the march of a representative body of dominion troops in London. He said the march must be held before the end of May, as the troops were repatriating rapidly.

Manchester, England, March 28.—(Reuters)—In a special edition on the question of a league of nations, the Guardian prints articles from many prominent statesmen, including Lord Haldane, former secretary for war; Viscount Bryce, a former Liberal leader; and Premier Lloyd George.

"Nothing is more important than that public opinion should inform itself on this subject. All our hopes of saving the world from a repetition of the unfathomable catastrophe of 1914, centre upon our working out practical means by which the nations of the earth can conduct the common affairs of the world in friendly co-operation instead of jealous rivalry. The league of nations represents the greatest attempt which ever has been made to substitute reason and justice for force and intrigue as the governing principle of international relations."

"The principle of a league of nations has been accepted, but the league will prove fruitless if it is to be no more than a new piece of international organization. What matters is that the units which make up this organization shall be inspired by a real determination to work in close harmony together for the betterment and liberty of mankind. Nations must not let themselves be misled by having drawn up a paper constitution while at the same time they have made no effective instrument for the solution of every international problem by their own readiness to make sacrifices in its behalf."

"The United States and Great Britain, which have taken such a leading and honorable part in promoting this beneficial scheme, must give a practical demonstration of their belief in it. "Disarmament is an essential condition of success. We cannot expect the nations ravaged by the war to trust their depleted lands to the protection of the league if its advocates hesitate to show any confidence in themselves in its guardianship. To set up a society of nations to insure fraternity among the peoples of the earth, while at the same time increasing the armies and navies to impose effective fratricide, is to make mockery of a great ideal."

British Airship That  
Will Carry 100 People

London, March 28.—(British Wireless Service)—The Daily News says that a trial flight of a Tarrant super-triplane will take place next month. The newspaper says the machine is capable of carrying more than 100 passengers. The speed of the machine, according to the newspaper, will be from eighty to 100 miles an hour, and it possesses great possibilities for continual flying.

HOME FROM WAR

More of Our Soldiers Welcomed  
by Eager Oaes in St. John

Frederick T. Chesley, eldest son of John A. Chesley of this city, arrived in St. John yesterday on his return from the front. This was the first time his father had seen him since the occasion, twelve years ago, when the latter left for South Africa as Canadian Trade Commissioner. Frederick Chesley served through the entire South African war with the Canadian Artillery and on his return to Canada at that time enlisted with the permanent force, in the Royal Canadian Regiment, and has been a member of that unit ever since. When the great war began, his regiment was in Bermuda to relieve a regiment of British regulars. After ten months of service there, they went to England for a final training in bayonet fighting and then proceeded to the front.

Mr. Chesley fought through the rest of the war and was in Mons when the armistice was signed. He had escaped unscathed through the Boer war and was almost as lucky in this campaign, suffering only a minor injury to the head, which did not keep him out of the fighting long, being his only casualty. He returned to Halifax this week and since his return to St. John has been receiving a warm welcome from former friends here.

Gunner Kenneth McAuley of Brooklyn, N. Y.—the American-born son of Mr. and Mrs. James McAuley, formerly of this city, who arrived via the Cedric yesterday, is visiting his aunt, Mrs. Arthur K. Henderson, Wentworth street, and his grandmother, Mrs. William Sinclair at the same address. Kenneth is at the age of sixteen years and went two years service at the active front. He was gassed in the much-discussed Mons finale.

The lad is visiting his parents' old home more by fluke of fate than by intention and is naturally very glad to have it so. When American enlistments were at their height, he had grown to more than 100, as follows: Ontario, thirty-seven; Quebec, twenty-five; New Brunswick, one; Nova Scotia, three; Manitoba, six; Alberta, thirteen; Moose Jaw, seven; Vancouver, eleven; and Victoria, twenty-two.

Daylight saving scheme received much support from the suburbanites, as was shown by a petition passed among yesterday and today to ask the city to adopt the new time. K. S. Kennedy, of Hampton, was given the petition, and secured more than 300 signatures. He passed it from person to person on the Sussex Suburban and Maritime express trains and everyone seemed anxious to have the new time, as nearly every person coming into the city in the morning and going out in the evening signed the petition.

SERGEANT MAGDONALD'S INDEX. Sergeant Leslie C. Holder was one of the St. John men to return by the steamer Olympic landing in Halifax and arriving in St. John on Wednesday evening. Sergeant Holder went overseas as a sergeant in the 104th Battalion, reverted to the ranks in order to get to France; won back his stripes and was transferred to the Canadian Engineers. He was in France when the armistice was signed and was one of the first to enter Mons. He also won military medals. His home is with his sister, Mrs. Gilbert MacLaughlin, 14 Victoria Street, and at present he is visiting his parents in Holderville.

He was regarded a breathless crowd with a sensational story of shipwreck, and how he and his mates had escaped on a raft and after many exciting adventures had landed on a desert island. "And the beach of that desert island," he said impressively, "was red with lobsters."

"But" interposed the objectionable person who glories in juggling a good story, "that won't do, Jack. Lobsters ain't red before they're boiled."

Jack was silent for a moment; it seemed that he had at last met his Waterloo. But soon a smile lit up his face. "But who didn't know that?" he asked, scathingly of his persecutor. "This 'ere was a volcanic island, and, of course, the waters was all boiling 'ot!"

C. P. R. AND DAYLIGHT SAVING

It has been decided by all railways in Canada in order to protect their international connections to advance all railway clocks and watches in Canada one hour at 2 a. m. on Sunday, March 30th to be in accord with United States action in regard to daylight saving time.

The change is also made necessary in order to protect commuters' traffic into the larger Canadian cities that have signified their intention of adopting daylight saving time and avoid conflict between through trains and commuters' trains.

Effective on and after Monday March 30th all Canadian Pacific trains in New Brunswick will be moved on Eastern Standard Daylight Saving Time, which will mean that their arrivals and departures will be in each case one hour earlier than at present.

To demonstrate—The McAdam local train which now leaves St. John at 7.40 a. m. local time, will after Sunday next leave at 6.40 a. m. local time. Corresponding earlier arrival and departure will be made by all other trains with the exception of the early morning train from Fredericton which, for the convenience of commuters coming into St. John, will still run on the old time.

The same arrangement applies to the S. S. Empress between St. John and Digby, that is, the boat will leave at 6.00 a. m. instead of 7.00 and will arrive at 4.00 p. m. instead of 5.00 a. m. as at present.

Many women look all over the city, when a new coat or hat is to be purchased, to save a few dollars, but in buying groceries, which in a year's time amounts to many times the amount spent on clothing, they are negligent to find out where to get the best for their money.

AS IT USED TO BE.

In 1898 gasoline sold for six cents a gallon. The first New York motor car show was held in 1900.

The first four-cylinder car was brought out in 1900. In 1896 Barnum & Bailey announced they would exhibit throughout the country a "horseless vehicle."

In July, 1898, the news was given that a plant would be built to turn out "one motor carriage a week."

It is hard to conceive that in 1898 there were but four motor cars in the United States.

The first long distance tour was made from Cleveland to New York. It took from July 28 to August 7.

In March, 1897, in the New York Journal a writer described his first motor car ride as follows—

"In search of a new sensation I went yesterday and rode in a horseless carriage.

I dreamed once that I walked down Fifth Avenue in my pajamas in the full tide of the afternoon promenade and almost died with shame before I awoke.

Yesterday I had something of the same strange feeling as I sat there and felt myself pushed forward into the very face of grinning, staring and sometimes jeering New York."—New York Telegram.

#### A PAINFUL SITUATION.

Four members of the legislature of this province have been censured by a vote of the house and asked to resign. If this happened in another province, following such revelations as those which made the people of other provinces mock them, we would expect the censured members to resign.

But it has not happened in another province. It has happened in New Brunswick, in the province which valued high ideals so much that it sent thousands upon thousands of its sons to face death in their behalf.

And the censured men do not resign. Are they still to be the leaders of their party? What does the party say about it? What are its ideals? Are they expressed in the formula: \$10,000 to Westmorland county, \$10,000 to the Fredericton Gleason, \$8,000 to Carleton county—and so on—the funds to be got as the price of a railroad contract?

Possibly The Times and Telegraph and Globe—are unscrupulous partisans. Let it go at that. But what of the sworn testimony and the reluctant admissions, and the "regret" and "deprecation" of the whitewash amendment? The record stands.

Of course the people will pay no further attention to the utterances of members of the opposition party in the house. Why should they? Those men no longer truly represent their constituents. They have chosen to reject the course the people expected them to follow; for this pretence that political spite was behind the resolution of censure is quite too transparent. Had the government not presented such a resolution the cry "they are all alike" would have been heard throughout the province. The plain truth is that the opposition members have decided to stand together in public opinion.

It is a most regrettable situation. The most unrelenting partisan cannot but regret that we have come to such a pass in the political life of this province. There is but one thing to do. The people must see it through and choose other representatives than those who have betrayed their trust. The lesson must be driven home. The good name of the province must be restored. It is not a question of politics but of the purity of public life. If the present government should fall in its honest duty to the people it would deserve the same loss of public confidence and support, and the same stern condemnation of its course.

#### PROTECT THE BOYS AND GIRLS.

The city is to be asked to grant money and sanction the use of a public playground on the West Side for baseball of the sort for which those who follow it should be invited to provide their own grounds and pay their own bills. The west side recreation field should be reserved as a young people's playground, for those who want clean amateur sport, with no paid players, and for the benefit of the boys and girls of the West Side.

The establishment of neighborhood play grounds in the south, west and north ends has laid upon the city council a serious responsibility. A false step now would prevent the proper development of playgrounds for the future. No matter how many people may want to participate in professional or semi-professional sport, their desire to be gratified in that respect should not be permitted to stand in the way of clean athletic sport and plenty of it for the boys and girls. That is what neighborhood playgrounds are for and grown men should not thrust their own desires and inclinations in the way.

What has happened to the West End Improvement League, which was organized last year? True, it was utterly ignored by those who should have rallied to its support; but is there no love for children and no public spirit on the West Side?

The West Side clergymen should get together, with leading members of their congregations and take up this playground matter in the interest of the boys and girls. We are told that juvenile delinquency in St. John has increased and is increasing at an alarming rate. It is one thing to cheer semi-professional ball players at no expense, and quite another to put forth a little effort for the benefit of the boy and girl life of the city. So far as the city council is concerned, its duty is plain. It must preserve the children's playgrounds for the children, and it should encourage the formation of such organizations as the South End Improvement League to assist in making them a real success. If Com. Fisher calls a meeting in City Hall, West Side, and notice in advance to all the churches, suit would probably be a response could be a delight to him and a fact that the West End playground conducted as it should be for of the young people.

rs should pay a portion of ng is a principle adopted St. John should either ulatory or drop it altogether over this mat- nowhere. What is action. If the pol- no paving with- butions on my should stand down in such no further

#### WORLD-WIDE PROHIBITION.

The Washington correspondent of the Christian Science Monitor learns that there is to be, after all, a great movement for world-wide prohibition. He writes—

"Plans have been completed for holding in Paris, in the first week of April, an international conference to inaugurate in European countries the movement for world-wide prohibition. Delegates from the United States will, it is understood, confer with representatives of the government in other countries and formulate a programme along lines discussed at a similar conference on a smaller scale recently held in Paris, in which Col. L. B. Musgrove of Birmingham, Alabama, chairman of the National Committee on the Ratification of the Prohibition Amendment, took part. Announcement of the forthcoming conference was made yesterday by the Anti-Saloon League of America following the arrival in this country of Colonel Musgrove, who has spent three months in Europe, where he studied the prohibition movement, particularly in relation to the social and economic problems accentuated by the great world war."

It is contended that economic conditions will render it necessary for other nations to follow the example of the United States.

"Industrially, commercially, and otherwise, the United States will make such progress as a sober nation that the other countries will have to become dry in order to compete with it industrially," said Colonel Musgrove. The movement for world-wide prohibition, he asserted, should be considered as part of the international reconstruction which the Peace Conference is attempting to accomplish. Colonel Musgrove, continues the correspondent, states that labor, which was generally regarded as antagonistic to prohibition, now understands the sense of power and responsibility for social welfare, realize that sobriety and the elimination of the liquor strongholds constitute the stronger assets of efficiency. The campaign, he predicted, will rest particularly on the question of the efficiency of labor.

It can no longer be questioned that prohibition and efficiency of labor go hand in hand. When Europe recognizes the fact Europe will adopt prohibition.

The newspapers next week will start on daylight time. They must do so or lose the mails, since the railways have adopted the change. Business houses with out of town trade will face the same necessity. It will probably be found to the advantage of the whole city to adopt the new time, although it will not apply to the rural districts. If it is to be adopted here the friends of the change must express their views in no uncertain manner. Otherwise no civic action will be taken and we will have some concerns using the new time and some the old, with endless confusion.

Mr. Potts made a contribution to the cause of unity in Canada by expressing regret in the legislature yesterday that a permanent road system would bring Quebec somewhat nearer to New Brunswick. Of quite a different nature were the remarks of Mr. Michael, who appeared on both sides of the house to do what they could to bring about unity among the different elements in this country.

It is said in the corridors at Fredericton that if the opposition party should call a convention Mr. Potts would not coldly reject an offer of the leadership, although he would insist that the proposition be put to him in plain English. N'est-cepas?

Nothing here written should be construed as an objection to the strongest possible baseball league in St. John. The objection is to the usurpation of children's playgrounds for the benefit of those who can well afford to provide other grounds.

The bill based on the Carrier report is before the legislature. It is now the duty of the city to fight that bill and have it so amended that even its author would not recognize it. And there is no time to lose.

In the senate yesterday second reading was given to a bill to compel householders to take greater precautions against fire. It is a wise measure.

The opposition members at Fredericton have certainly cut out some work for that proposed provincial convention.

The news from Australia indicates that the Commonwealth is about to adopt a strong protective policy, in the hope of developing its industries.

Bankruptcy Bill and Other Federal Measures—Matter of Indemnity From Germany

Ottawa, March 28—(Canadian Press)—Sir Thomas White, when the house opened this afternoon, referred to a report from London attributing to Sir Robert Borden the view that no indemnities should be exacted from Germany. Sir Thomas said he had taken the liberty of drawing the matter to the attention of the prime minister, who, in reply, had sent the following cablegram: "Report alleged to be absolutely unfounded and indeed absurd. You are authorized to give absolute and explicit denial to any such statement. We are making every effort to procure from Germany the fullest indemnity that she is able to pay."

Hon. Mr. Rowell referred to a question asked by Mr. Lemieux yesterday whether it was true that Halifax had been substituted for Rimouski for the reception of trans-Atlantic mails.

with the result that what we see here has the greatest of all artistic qualities—vitality.

It would be surprising if some spokesman for the mother country did not betray his reluctant conviction, that the gawky child has really grown up.

"In a short preface to the catalogue, those responsible for the gathering of the material for the Canadian War Memorial exhibit the heights and depths of their scheme. The scheme is broad and great in its conception, the art of this war-record has been chosen from every variety of the artistic development of the day, and much of it has been specially designed to fit into a comprehensive scheme."

THE SAFETY LEAGUE

(Toronto Saturday Night)

It is encouraging to note the Ontario Safety League is planning a fuller development into an organization to be known as the Canadian National Safety League, operating from ocean to ocean.

Considering the fact that the Ontario Safety League came into existence shortly before the war, and has therefore encountered some difficulty in financing, its fifth annual report shows that it has been an enormous success. It is manifestly impossible to say how many fatal accidents have been prevented by the vast educational work it has carried on, but the number must be great.

speed and electricity, such a work is absolutely essential. The possibilities of fatal accident have been immeasurably increased by modern invention; and since we cannot set back the clock of progress, the only logical course is to educate humanity to avoid the dangers. This the Ontario Safety League is doing in a marvellously original, detailed and efficient way. Its methods and objects should undoubtedly be extended throughout this country.

"Gentlemen, you do not use your faculties of observation," said an old professor, addressing his class. Here he pushed forward a pot containing a chemical of exceedingly offensive smell.

"When I was a student," he continued,

"I used my sense of taste," and with that he put his finger in the pot and then in his mouth. "Taste it, gentlemen, taste it," said the professor, "and exercise your perceptive faculties."

"The pot was pushed toward the reluctant class, one by one. The students resolutely dipped their fingers into the concoction, and, with many a wry face sucked the abomination from their fingers."

"Gentlemen, gentlemen," said the professor, "I must repeat that you do not use your faculties of observation, for had you looked more closely at what I was doing you would have seen that the finger which I put in my mouth was not the finger I dipped in the pot."

The Story of the Diamond

Chapter 4.—The Word "Carat."

As frequent reference will be made to the term "carat" it might be well to explain here that this word as applied to gold refers to quality only, whereas applied to gems it refers to weight only.

In the case of gold, pure gold is composed of 24 parts, but since such gold is unworkable and in any case would be too soft for wear, more or less alloy of silver or copper is necessary. The term "carat" gold simply means 18 parts of pure gold with the remaining 6 parts alloy required to make the full 24 parts.

In the case of the diamond, however, "carat" means weight only and is said to take its name from a small

Oriental seed, not to be confused, however, with our "ordinary garden variety" of carrot seed. It is equal to or rather more than three grains in weight, giving 161 1/2 carats to the ounce.

In appearance, the end of an ordinary lead pencil will convey the idea of a 1/4 carat stone, but care must be taken not to suppose that a large stone, say of 15 carats weight, is equal in appearance to a dozen such pencil ends as the weight is distributed over the entire stone, depth as well as surface, and would not be equal to more than 4 or 5 such surfaces in appearance.

Monday we'll speak of the uses of the diamond for industrial purposes.

### MR. SPENCER'S PLAN TO BRING BIG ONES HERE

Change in Plan Simplifying the Operation

Hope to Have McCormack and Galli-Curci Here Next Fall—The Revised Plan Detailed

St. John, March 28, 1919.

To the Editor of The Times:

Mr. Spencer had intended earlier following my letter of two weeks ago with reference to the local musical situation, relating to the presentation of artists of world prominence, which opportunities have admittedly been painfully lacking in our city.

My plan has been to raise a guarantee fund of from \$60,000 to \$80,000 from local business men, and the event of a loss, to draw upon the guarantors in proportion to the amount subscribed. In short, it really consisted of a syndicate with the object of presenting three concerta yearly for three years, during which time the world's greatest artists would be heard, as the really prominent ones can probably be counted on the fingers of two hands.

As I anticipated, I found the public receptive, and the amount readily procurable, although it was impossible to find the time to interview all that might be thought of as good prospects. Only two of those approached hesitated about subscribing to the fund and none refused.

The weakness of my original idea, however, is that the amount of detail which would be involved in the writing is more than ten per cent, so I have decided that instead of any definite, preliminary plan for a series of concerta, to treat each individual one as a separate proposition. For instance, I have placed my plan for the presentation of John McCormack and Galli-Curci, who are unquestionably the two most sought after singers of the present day, and when either one is procurable I will try to associate with me just a few of those who have expressed interest in the so-called underlying plan, and on the occasion of the second concert would not require those associated in the first. In the possible event of a profit, it would be placed in the bank in anticipation of a loss in later concerta. This plan, although possibly not so comprehensive, involves less detail and is more convenient and practical for the writer. As a matter of fact, it is much more likely to get the artists one really desires for an undertaking of this kind than the detailed operation, as many are they in demand in all parts of the United States, notwithstanding the fact that their fee is \$5,000 nightly for each.

This correspondence, it must be understood, refers only to artists who are so expensive as to be a business impossibility in St. John, and there is no disposition on my part to interfere with any musical undertakings that suggest opportunities for profit making. Since the publication of my previous letter there seems to be something of a musical awakening, indicated by the fact that the Misses Lugin announce their intention of bringing Arthur Hackett, one of the most popular tenors in the eastern States, whose concert will be delightful. Miss Anna Case, a soprano of prominence, is also promised for April, while June will bring us a grand opera company. Partly in view of these conditions, any undertaking of mine will be deferred until later in the year when I shall bring out John McCormack and Galli-Curci at the first possible opportunity to secure from them a suitable date.

Thanking you, Mr. Editor, for your valuable space, and so many of our citizens for words of appreciation and endorsement.

Yours very truly,  
F. G. SPENCER.

the American producers, and the benefit will be immediately passed on to the consumer.

Machinery dealers report that they are handling a fair volume of trade. Although it cannot be called large, it is much more than they had expected during the first three or four months following the war. In some circles it is still contended that the actual signing of peace is needed to put things on a right basis for good business. As long as matters stand as they are at present there is room for an unsettling influence to get in its work in a way that is very hard to meet or combat.

There is still a good demand for used equipment; in fact, the bulk of the business being done is in this class of goods. Buyers of tubes, chains, wire ropes, and other lines have hastened to announce that they will not reduce prices, following the cuts in the steel market. Tubes are still much in demand, especially the two-inch kind. There is a feeling that there will have to be reductions in a good many of these lines, now that the pace has been set by the steel group. There are cases where present prices are 200 per cent over the pre-war levels.

### THE FUR MARKET

(Funsten Bros. & Co's Circular.)

Receipts of furs in this and other markets have decreased during the past week and are expected to decline noticeably from now on. Arrivals also, especially from the southern districts, are showing pronounced signs of spring. The mild winter weather all over the States and Canada, has caused animals to shed their winter coats sooner than usual and the daily offerings, heretofore, of seasonal furs will be quite limited. First class good quality furs will command, in our opinion, surprisingly satisfactory prices for the balance of the season.

There has been a decided improvement in prices recently over January for most northern furs and the available supply of goods from those sections is quite small. The anticipated heavy imports of foreign furs have fallen far short what was looked for by the trade, and contrary to general expectations, have been advancing in price since our January auction.

The market here continues strong and the daily offerings are being actively competed for. Staples are all selling well and reasonable stocks of these goods are expected to go even higher.

Red foxes and good quality weasels are in strong demand.

Silver foxes, especially fresh skins, are selling at better prices than have prevailing rates for some time. The fur trade, in fact, foxes of all kinds are wanted.

Wolverine and beaver are also wanted at advanced prices.

Fisher and Russian sables are in particularly strong demand, with an upward tendency.

Russian squirrels, flying squirrels, Australia opossums, marmosets and practically all Chinese and Japanese goods, holdings of which in this country are limited, are likewise commanding very good prices.

With the advent of spring, business operations, especially in the fur trade, will undoubtedly become much more active, producing a symmetrical picture, in practically all lines. This should make itself felt and express in an increased demand for most commodities. The fur trade, in our opinion, will enjoy its share of this prosperity and with such a future and a bright outlook for the present demand, we feel warranted in predicting to shippers unusually good results in our spring auction.

The reigning style in waterproof coats is ready.

### PERSONAL AND SOCIAL NEWS OF THE WEEK IN ST. JOHN

The Daughters of the Empire are in future to have the benefit of being able to avail themselves of the advice and guidance of a municipal chapter, an advantage which they have not possessed until Thursday of this week. Each chapter will be as heretofore entirely independent of any other chapter, but the municipal chapter issues to these organizations co-operation in all the work undertaken where one and the same object is to be attained.

The annual dinner of the Daughters of the Empire was held on Wednesday afternoon at the home of Mrs. E. Atherton Smith, provincial organizer of the L. O. D. E. and the ability with which she performed her duty as presiding officer on so important an occasion as organizer of a municipal chapter, elicited many complimentary remarks from the ladies who attended the meeting. The officers elected for the ensuing year were: president, Mrs. Hugh Mackay; 1st vice-regent, Mrs. George K. McLeod; 2nd vice-regent, Mrs. W. I. Fenelon; secretary, Miss Gertrude Lawson; treasurer, Miss Helen Sidney Smith; exchequer secretary, Mrs. Heber Vroom; educational secretary, Mrs. J. Mariner Reed; standard bearer, Miss Ethel Jarvis. By a unanimous vote, Mrs. William Pugsley, Mrs. W. E. Foster, Lady Haen and Mrs. E. Atherton Smith were made honorary regents of the municipal chapter.

Lady Haen was hostess at a handsomely arranged tea at her residence in Haen street on Thursday afternoon. In the drawing room when receiving her guests, Lady Haen wore a very becoming embroidered grey satin and gorgette gown. Spring flowers adorned the mantelpiece and tables in the drawing room, and in the dining room where Mrs. Andrew Jack and Mrs. Hugh Mackay dispensed the tea and coffee the centerpiece consisted of yellow and white tulips and ferns combined. The ladies who assisted with the refreshments were Miss Sidney Smith, Miss Snider, Miss Frances Tibbets, Miss Ethel Sidney Smith, Miss Heronie Lowry, Miss Althea Haen. Among those present were Mrs. William Haen, Mrs. Balloch, Mrs. Busby, Mrs. Kuhring, Mrs. James Jack, Mrs. H. A. Powell, Mrs. J. S. MacLaren, Mrs. Arthur W. Adams, Mrs. S. Bridges, Mrs. Cortland Robinson, Mrs. George K. McLeod, Mrs. J. M. Christie, Mrs. Leonard Tilley, Mrs. Boucher, Mrs. Gilmour Brown, Mrs. Stewart Skinner, Mrs. Walter Foster, Mrs. H. B. Robinson, Mrs. Gilbert and Miss Keith Gilbert (Bathurst), Mrs. Percy Thomson, Mrs. Heber Vroom, Mrs. Ernest Barbour, Mrs. J. B. Cudlip, Mrs. J. Lupton McAvity, Mrs. C. W. deForest, Mrs. J. Lee Day, Mrs. R. Cruikshank, Mrs. Ward Haen, Mrs. James U. Thomas, Mrs. David P. Chisholm, Mrs. Roy Campbell, Mrs. A. C. Skelton, Mrs. F. G. Bishop, Mrs. Charles Skinner, Mrs.

shown under the auspices of Royal Standard Chapter, of which the regent is Mrs. E. Atherton Smith. Tea was served during the afternoon while the pictures were on view. On the opening day His Worship Mayor Hayes made reference to the benefit to be derived from viewing these official pictures. Mrs. William Pugsley came from Fredericton, lately returned from France, where a gun captured by the 26th Battalion excited the interest of those attending the exhibition.

Mrs. J. Earle and Mrs. Albert Wilson were joint hostesses at bridge on Wednesday afternoon at Bond's. Cards were played at twelve tables and the prize winners were Mrs. Robert Saucier and Miss Geraldine Sears. Among the large number of guests present were Mrs. F. J. G. Knowlton, Mrs. Theodore Edwards, Mrs. Moore, Mrs. E. L. Rising, Mrs. Alexander Patterson, Mrs. W. Clark, Mrs. D. W. Harper, Mrs. A. M. Rowan, Mrs. John Tilson, Mrs. Lively, Mrs. Harvey Tapley, Mrs. Frank Tilson, Mrs. Barton, Mrs. W. J. Wetmore, Mrs. Lovell (Alaska), Mrs. Percy Bonnell, Mrs. Mary, Mrs. Wesley Miles, Mrs. L. Robertson, Mrs. Curran, Mrs. A. E. Crawford, Mrs. Roy Fenwick, Mrs. Lancaux, Miss Audrey Ross.

Two officers born in St. John who have been actively engaged in war work in France and in Russia, have recently been promoted to the rank of major. They are Captain D. King Hazen, now in Russia, and Captain Gerald Furlong, lately returned from France. Both officers went across in the early months of the war. That Major Hazen and Major Furlong have distinguished themselves in the duties which they were called upon to perform is shown by their promotion. That both officers have hearty congratulations of their host of friends in St. John need scarcely be added.

CHAS. ROBINSON'S VISIT TO NORTH SHORE

Secretary of Returned Soldiers Addresses the Veterans in Campbellton

Campbellton, N. B., March 27—Charles Robinson, secretary of the Returned Soldiers Commission with headquarters at St. John, arrived in Campbellton last evening and addressed a large gathering of the members of the Mesogouche Branch of the G. W. V. A., at their weekly meeting in their rooms, Murray Hall. Mr. Robinson's address was very timely and was well received by all present.

Although he is not a resident of Campbellton, Mr. Robinson is of North Shore birth. He has not left a stone unturned to help further any worthy object that will benefit this part of the province. It might be mentioned here that Mr. Robinson was largely instrumental in securing the appointment of the Labor Bureau for Campbellton and that this bureau will be in full swing in the course of a few days.

A resolution was passed by the veterans at last night's meeting that a letter be sent to the deputy minister of the department of Soldiers' Civil Re-education, Ottawa, petitioning that a bridge be built across the Restigouche river from Campbellton, N. B., to St. Anne de Restigouche. Mr. Robinson heartily approved of this resolution and promised to do his utmost to aid in having the bridge built as he considers it a very necessary piece of work, not only as a means of giving employment to returned soldiers, but as a long-felt need linking the provinces of New Brunswick and Quebec and that it will be a great impetus for tourist travel.

This contemplated bridge has been talked about for years, being an issue at every election but it is not a political issue this time in that sense of the term but a vital matter concerning the welfare of the two provinces and will greatly help to solve the unemployed returned soldier question in this section of the country.

Mr. Robinson has done great work for the N. B. returned men, placing hundreds of them in good paying positions, as these men can testify.

Before the close of the meeting a hearty vote of thanks was passed to Mr. Robinson for his able address and for the great work that he has and is accomplishing for the N. B. returned soldiers.

Mr. Robinson made a very feeling reply thanking the Restigouche branch for its vote of thanks and he assured the members that he had always done what he could to assist the returned men in their welfare and that his heart went with them and that he would always go out of his way to do any returned man a favor if it laid in his power to do so.

Mr. Robinson left on the Maritime Express this morning for St. John.

JURY'S VERDICT ON THE KINNEL RIOTS

Men Who Fired Fatal Shots Not Identified—The Death of Dorchester Soldier

Rhyl, Wales, March 28—(Canadian Associated Press)—An open verdict was brought in by the coroner's jury which investigated the death of five Canadian soldiers during the rioting at Kinnel Park on March 5. The inquest was completed today, when the following verdict was brought in by the jury at the coroner's suggestion:

"That the soldiers came to their deaths by the wounds described by the doctors, but that there is no evidence to show how the wounds were inflicted."

Testimony was taken which showed that both the rioters and the defenders of the camp fired all ammunition but no one was identified as having actually killed one of the soldiers.

Private Jack Merritt said he had seen a bunch of men breaking the windows of the guard room of No. 1 camp, then they went across to the A. S. C. lines and the witness, out of curiosity, followed."

The coroner—"How did you know anything was going to take place?"

The witness—"Well, the men having broken open one place and found nothing in it, I naturally thought they would be going somewhere else."

Gunner Hickman, of Dorchester (N. B.), one of the victims, was perfectly sober, Merritt said, and was not carrying any weapons. Witness said he had not been able to point the exact spot where Hickman was, but the explanation had been given for this time was that he himself was under the influence of liquor at the time.

The coroner—"Are you prepared to swear that Hickman did not receive a bayonet wound?"

NOT ENOUGH DOCTORS AND NURSES TO FIGHT FLU RETURN TO ENGLAND

London, March 29—The return epidemic of influenza finds England so short of doctors and nurses that according to reports from various parts of the country there are not enough even to give casual attention to patients. The strain on the medical men who are trying to cope with the emergency is so severe that there is danger of many of them breaking down.

This is said to be a real possibility in north of England where the epidemic is raging with unusual violence.

RED TRIANGLE WORK

Mrs. G. A. Kuhring, president of the women's executive which assists the management of the Y. M. C. A. Red Triangle called a special meeting yesterday for the purpose of introducing to the executive the new secretary of the Red Triangle, Captain Dixon, who takes over the duties relinquished by Captain Corey.

Mrs. H. A. Powell, Mrs. D. E. Pigeon, Mrs. J. L. Day and Mrs. F. B. Schofield.

A vote of appreciation of his kindly co-operation as a fellow-worker was heartily extended to Captain Corey and Mrs. Kuhring, on behalf of the ladies, promised to his successor every support in his work saying that every effort would be made to bring the work of the Red Triangle, which might be of short duration, to a successful conclusion and to show the returning men that their services had been appreciated.

Mr. Dixon, who has himself served overseas and has had two years' experience, as overseas secretary of the Y. M. C. A., gave a very inspiring and comprehensive outline of the work which he proposes for the programme of the association.

Mrs. Day, reporting the financial standing of the canteen, said that there was on hand \$87 and that the expenses had all been met, these having included Christmas and New Year's entertainments and the serving of free meals on one or two occasions. It was said that all of the societies working at the Red Triangle had been unceasing in their efforts and had more than fulfilled their pledges adding much social work to what was asked of them.

The entertainment committee reports were most gratifying. Mrs. D. Mullin asked that special arrangements should be made by those who were out of town during the summer months to see that someone was on hand to act as substitute in their absence. The decoration committee report specially thanked Mrs. Percy Thomson for the beautiful Christmas decorations that had been put up under her supervision at very short notice.

The dormitory committee appointed was as follows: Mrs. W. H. Shaw, Mrs. F. C. Beatty, Mrs. W. P. Bonnell, Mrs. Frank Peters, Mrs. R. T. Hayes, Mrs. A. J. Mulcahy and Mrs. F. R. Taylor.

The committee which had previously had charge of the Beaver had in the exhibition building. The canteen committee appointed includes Mrs. H. A. Powell, Mrs. L. F. D. Riley, Mrs. D. P. Pigeon, Mrs. J. L. Day, Mrs. F. B. Schofield, Mrs. A. J. Mulcahy, Mrs. Frank White, Mrs. Sherwood Skinner, Mrs. Franklin Travers, Mrs. John Keith, Mrs. Daniel Mullin, Mrs. Belyca, Mrs. Ted, Mrs. Arthur Bowman and Mrs. Frank Ellis.

Those appointed as an entertainment committee are Mrs. H. B. Peck, Mrs. D. B. Pigeon, Mrs. A. J. Mulcahy, Mrs. James H. Doody, Miss deSoyres and Miss Dorothy Bayard.

COAL MATTERS

Bangor Commercial—Coal is on the drop, but unfortunately for the average household the reduction affects only users of soft coal, anthracite still holding firm and strong. On the soft variety the price now quoted is \$10, a drop of \$2 a ton, which means a lot to the users of this kind of fuel. It is rather early in the season for the anthracite kind to be affected, local dealers say, but after April 1 they will be in a position to announce the early season price, also the schedule for the year, barring unforeseen contingencies.

Lemon Juice Clears Skin

Make a beauty cream cheaply to soften and whiten the complexion. Massage the face, neck, arms and hands. Read directions!

What girl or woman hasn't heard of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms, and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist or toilet counter will supply three ounces of orchard white, then shake at very little cost and the grocer the well and you have a whole quart jar of lemon.

SURVEY OF COAL FIELDS OF ALASKA

Naval Commission to Look Into Development of the Matanuska Region

Washington, March 29—A naval commission, which is being sent to Alaska to look into the development of the Matanuska Coal Fields, will consist of three naval officers, a geologist, and a mining engineer. They will go with the vessels April 1 to patrol Alaskan waters, and will be under the direction of a line officer of rank. The party will include a geologist, a mining engineer, and Theodore Chapin, geologist.

The work to be undertaken is in line with a provision of the appropriation which failed to pass in the last session of congress, but which will be taken up by the secretary of the navy at the next congress with the additional advantage of having the results of this investigation to give force to the bill.

The provision in the recent bill was for "One million dollars which, or as much of which as may be necessary, may, in the discretion of the secretary of the navy in mining coal or transportation of the same, and the construction of coal bunkers and the necessary docks for use in supplying ships."

The city against the New Brunswick Power Company, and it was voted to assist the city in any way possible.

Regarding daylight saving the following resolution was adopted:

The City Council Band played last night at the exhibition of war pictures at Reed's Point. Lieut. G. Shondie, of the Dominion Aepher's Department, Ottawa, took the boys of Wiggin's Orphanage to see the pictures, and they enjoyed the time splendidly.

One St. John woman has recognized two of her sons in the pictures, and Major "Nick" Carter can be seen quite distinctly in one of them.

TRAINS AND DAYLIGHT SAVING

The Big Industrial Plants—Meeting of Trades and Labor Council

Although the dominion and provincial governments have declined to adopt daylight saving measures Canada will have more or less of the new time this summer, with the recent undoubtful agreement. Beginning at 2 a.m. Monday morning the Canadian Pacific railway will move the clocks and watches an hour ahead to correspond with similar action in the United States with which country it has close connections and in which it owns much trackage.

Numerous business houses, factories and shops here will turn the hands of the clock about an hour next month and the newspaper offices will be obliged to do that tomorrow in order to make train connections. Most of the churches are expected to hold services according to daylight time after tomorrow.

The delegates to the recent convention of the New Brunswick Federation of Labor held in Fredericton submitted their report in which they stated that the convention had been most successful.

The pulp workers' strike was taken up again by the council. Several delegates pointed out that some of the saw mill owners were declining to employ men who left the pulp mill, and it was claimed that a black list was in effect. A committee was appointed to help the pulp workers in every way possible.

The council declared itself in favor of daylight saving.

The Monthly Cheque That Never Fails

It is all so simple and effective! Just a few dollars set aside regularly, and the Canada Life will guarantee to your home a continuous monthly income.

While you will probably live to draw the proceeds of the policy yourself, what a relief to know that no matter what may happen, the monthly cheque that never fails, issued regularly by the Canada Life, will come to your home.

Your present Life Insurance will no doubt "clear the mortgage," pay off the obligations of your estate, and leave something for your family, but

Consider This: In addition to a "lump sum" of money, you should provide a definite income that cannot fail.

A weekly or monthly income is the natural thing for most people.

A woman can keep a family together on even a small income, provided it is regular.

Financial problems should not be thrust upon a woman who is not used to business deals.

The hands of unscrupulous men are always outstretched for money held by the unwary.

The Monthly Income Plan

You will be surprised to learn what a reasonable proposition can be made to you; how only a few dollars saved and set aside from your regular earnings can be multiplied into a substantial income for your Beneficiary.

An interesting letter from Captain Arthur Anglin to his parents, Dr. and Mrs. J. V. Anglin, states that Captain Douglas White, M. C., son of Dr. W. W. White, this city, was in command of troops stationed in Brussels when he wrote.

It was with very sincere regret that friends of Mrs. Sherwood Skinner heard of the death of her mother, Mrs. Edge,

on Sunday at her home in London (Ont.). It was only a short time ago that Mrs. Skinner was called upon to bear the loss of her father. That she has the sympathy of her numerous St. John friends in the double bereavement which she has sustained she may feel assured.

Mrs. N. M. Barnes, after spending the winter in St. John in Mr. Walter Holly's residence in Germain street, which she rented for the winter months, expects to return to her home in Hampton this week.

The Lieutenant-Governor and Mrs. Pugsley spent Friday and Saturday at the Royal returning to Fredericton on

Saturday evening. On Monday Mrs. Pugsley was again in the city and was accompanied from Fredericton by Mrs. Carleton Allen. Both ladies returned to the capital the same evening.

Mrs. Shirley Peters entertained very informally at bridge on Thursday evening at the LaTour.

Dr. Walker's numerous St. John friends congratulate him on having celebrated his 79th birthday and they hope for him the continuance of his usual good health. He was tendered a dinner party by one of his friends on the occasion of his birthday.

Mrs. H. L. Waring received on Wednesday and Thursday of this week for the first time since her marriage when she wore a pretty pale green satin and georgette gown, trimmed with silver lace. The drawing room was decorated with red carnations. In receiving the hostess was assisted by Mrs. Wisely who wore a handsome black satin gown trimmed with gold embroidery and black georgette. In the dining room on Wednesday the tea table, ornamented with pink and white carnations, was presided over by Mrs. R. T. Hayes and Mrs. E. J. Fleetwood. Those who assisted were the ushers, Mrs. P. L. Jordan and Mrs. L. A. Armour who ushered and Mrs. M. E. Anderson, Mrs. J. L. McLean, Miss Elsie Nevins, Miss Alice Hayes, Miss Morrie Wisely. The ladies presiding at the tea table on Thursday were Mrs. W. B. Purdy, Mrs. L. A. Armour. Assisting in the dining room were Mrs. E. J. Fleetwood, Mrs. Percival Bonnell, Miss E. Ritchie, Miss Mary Shaw, Miss Morrie Wisely, and little Miss Vivian Armour who received the guests at the door.

Mrs. George Winslow, son of Mrs. Warren C. Winslow, La Tour apartments, is expected to arrive in St. John this morning from overseas service.

At a meeting of St. George Society it was announced that Masonic Hall had been secured in which to hold the dance and bridge which the society intends holding to celebrate St. George's day.

Mr. Walter Gilbert, who has been in England for several weeks, has returned home.

Mrs. Tilley and Mrs. Boucher after a short visit to Fredericton, arrived home early this week.

Mr. and Mrs. Stanley Elkin are in New York to spend ten days.

Mrs. George F. Smith of this city, and Mrs. Frank Oliver, of Edmonton, were guests of honor at a recent bridge given in Ottawa by Mrs. J. Loyola Siggar of that city. Mrs. Smith is visiting her daughter, Mrs. Norman Guthrie.

Mrs. Bruce Kelly is the guest of Mrs. George B. Hegan, Hazen street.

Colonel Beverly R. Armstrong in the near future is to again take up his resi-

dence in St. John. Mrs. Armstrong expects to leave soon with their two children to visit her parents, Dean and Mrs. L. W. Jones, at Cricketh, Wales.

Mrs. Louis Barker was hostess at a small tea at the Green Lantern on Thursday for Mrs. Boucher, of London (Ont.).

Miss Alice L. Fairweather, acting president of the Y. W. P. A., on behalf of that association, presented a furnished rest room to the nurses in the St. James street dependents' hospital. Mrs. C. H. Fairweather, who made many of the useful articles in the room was present at the opening of this apartment. The Y. W. P. A. has accomplished many acts of a patriotic and philanthropic nature since the formation of the association, but no other undertaking will exceed in usefulness the gift made by these young workers last Wednesday.

Many friends were at the depot on Friday to bid good-bye and God speed to Mrs. G. L. Geddie who was leaving St. John to join her husband, Captain Gordon L. Geddie in Regina, where in future they are to reside.

The sympathy of the community will go out to Mrs. Beverly Macaulay and her family in the great loss they have sustained by the death of Mr. Beverly Macaulay, on Friday morning. Mr.

Macaulay's death was due to pneumonia contracted four days before his death.

To Dr. Roberts and members of his family, very sincere sympathy is extended on account of the death of Mrs. Roberts, mother of Dr. Roberts, which took

place at the Roberts homestead, corner Main and Douglas avenue, on Thursday afternoon.

Mr. and Mrs. Allan G. McAvity are being congratulated upon the arrival of a son, born March 24.

THE British are noted as great tea drinkers and are naturally good judges of tea.

So when we learn that over 70% of the tea used in Great Britain is Indian tea we can be sure that Indian tea is of the very-best quality.

In Canada the preference for Indian tea has become just as strong, as evidenced by the success of Red Rose Tea which consists chiefly of ASSAMS—the richest and strongest of Indian teas.

Red Rose is always sold in sealed packages.

### LOCAL NEWS

#### MARRIAGES AND BIRTHS.

Nine births were reported to the registrar this week, seven girls and two boys. Ten marriages were reported.

#### A FAREWELL GIFT.

A party of friends gathered last evening at the home of Mrs. Charles Vail, 288 Princess street, to bid farewell to Miss Maud Fairweather, who is to leave this evening for Boston for a much needed rest. During the evening a handsome leather purse was presented to her as a parting gift and as a token of the esteem in which she is held.

#### PRESENTED ELECTRIC LAMP.

The ladies of the Portland street Methodist church gathered last evening at the home of Mr. and Mrs. Robert Jenkins, 55 High street and spent a pleasant time with games and music. During the evening a handsome electric lamp was presented to Mrs. Jenkins. Refreshments were served.

#### KING'S CIRCUIT COURT

In the King's circuit court yesterday the case of Price against Bell was still before the court. The witnesses had all been examined and it was expected that the address to the jury would be proceeded with today. George H. V. Belyne and M. H. Parice appeared for the plaintiff; Daniel Mullin, K. C., for the defendant.

#### TWENTY-ONE DEATHS.

Twenty-one deaths were reported to the Board of Health during the week. They are as follows: Old age, pneumonia, bronchial pneumonia, chronic nephritis, each two; influenza, paralysis, meningitis, myocarditis, malnutrition, heart disease, fracture of hip, arterio sclerosis, whooping cough, cerebral hemorrhage, pulmonary tuberculosis, carcinoma of liver and leucemia neonatorum one each.

#### NO SUCCESSORS YET

General Secretary S. B. Stokes of the Y. M. C. A. does not yet know who will succeed Arthur G. Greig, chief of the boys' branch and Physical Director Maughan, both of whom will retire from their duties by the end of April. Several names are being considered but no announcements are yet forthcoming. Mr. Maughan will continue his physical training until the winter season is practically over and doubtless the new director, whoever he may be, will assume charge when the summer camp plans are being decided upon.

#### TELL THE CHILDREN ABOUT IT

Again the caretaker of the old burying ground is striving to direct the eyes of the masses at the north eastern corner into the regular asphalt path, having roped off the place of trespass. This new footpath has been created mostly by schoolchildren and certainly indicates a sad lack of veneration and respect for St. John's honored Loyalists buried there. Possibly a few remarks from school teachers and a case or two in the juvenile court would clear up this flagrant abuse and create at least a spark of community spirit among the kiddies, who after all are only children.

#### VERY ACCEPTABLE GIFTS

Several motion picture exhibitors in this city have received boxes of oranges, langesines, nuts, figs, etc., from Los Angeles, California, in appreciation of L. Ernest Outmet, Canadian general manager of the Specialty Film and Import Company, who has an agency in this city. Mr. Outmet is spending a month or two in the west where he joined his wife and family after the sudden death of his invalid daughter who is buried at Los Angeles. The boxes of fruit were packed in the foliage of their own trees and made a fragrant as well as delicious gift.

#### POWER COMPANY BILL.

The draft of the power company bill, laid on the table in the legislature yesterday afternoon by Premier Foster, was presented simply as part of the report of the Currier committee, and no action was taken on it. Through an apparent misunderstanding the Standard this morning said that the bill was introduced. This was not correct, as the draft was merely laid on the table to be taken up when the proper time arrived. As the citizens' committee of St. John has expressed the intention to introduce another bill on the same subject, it is probable that the fate of the rival measures will be settled in committee before either bill is recommended to the house.

#### THE SMOKE NUISANCE.

A correspondent writes to complain of the smoke and soot belched forth from tall chimneys, making it impossible to keep the windows in a living street clean. The writer adds:—  
"This would not be tolerated in any other city, and on more than one occasion visitors have drawn my attention to the awful density of smoke that comes in perfect clouds, at times reaching a London fog. There is no excuse for this, as there are devices on the market for consuming smoke, and in any well governed city it is a breach of its by-laws to allow chimneys to smoke longer than a given period after a fresh fire has been started, and a fine is imposed for each and every violation of the law. If there is such a by-law in St. John why is it not enforced? And if not, it is up to the commissioners to get busy and make one."

#### POLICE COURT.

George Kelly, James Kane and Albert Connell, who were acquitted in the County Court yesterday on a charge of stealing articles from the residence of L. R. Ross, were in the police court this morning charged with stealing a goose from John O'Leary. They were recommended for further hearing.

One man was charged with being drunk. It was found that the cause of his intoxication was lemon extract.

A short session of the juvenile court was held this morning. Some lads were charged with truancy.

Daniel Doherty, John Glynn and William Daley, coachmen, were charged with soliciting passengers inside the railing at the Union Depot. Policeman Pierce reported the incident. The three men paid their fines.

#### MILITARY.

Three conducting staffs consisting of about forty-five officers and other ranks embarked on the Metagama today for England.

Capt. A. W. Gregory, who has been on the staff of the engineers' depot, is to leave in the near future for Ottawa to resume his civil life and has taken a position in the engineers' department of the Public Works at Ottawa. Capt. Gregory enlisted with the 53th and on reaching England was transferred to the "Fighting 26th," with which he went to France, and where he remained until the armistice was signed. He was returned to Canada last December and has been on the engineers' staff ever since.

### ST. JOHN DOGS

#### Mrs. E. A. Sturdee's Position in the New York Show With Her Irish Setter

In a recent issue of the American Financier and Stockkeeper, published in Boston, the following reference to St. John's dogs is made under the caption "Irish Setters at the Madison Square Garden Show."

"A good lot of Irish setters faced the judge and the Westminster Kennel Club show hasn't seen as much class in this breed in years. In notice Boash Law first and St. Joe Kenmore's Boy second. These dogs were closely followed by Mrs. E. Alban Sturdee's (St. John, N. B.) Glencho Connemara, a home-bred dog by her own Glencho Morfy O'Callaghan. Some judges would have put her dog in first place but the judge liked the higher standing type and the puppy had to be content with third. He ought to clean up in Canada, but is a bit short in neck and perhaps, too low to the ground. A nice dog, though, and one that will always be asking for the money."

In the team contest the Lismore's Kennels won with no opposition, but in brace this large well-known kennel was beaten by Mrs. Sturdee's brace, the Canadian woman showing her pet so attractively that Judge Chase did the only thing he could do.

The Irish setter, Glencho Morfy O'Callaghan was exhibited in the night show here on Thursday, Mrs. Sturdee handling him.

### FIVE STEAMERS ARRIVE TODAY

St. John Record for This Month  
Outdoes That of March a Year Ago

Never before in the history of this port was a more spectacular or welcome sight witnessed in the harbor than this morning when five large ocean going liners entered and anchored in the stream. Prior to their entry there were seventeen large liners occupying the principal piers along the harbor front, so the new arrivals will have to await an opportunity to dock. In the meanwhile the energetic harbor master, F. D. Alward, is working overtime looking after the interests of all.

As predicted in the Times recently, the record of last March has been smashed. Last year forty-four steamers entered the port during March and to date this year forty-eight have arrived and there are still two days left during which time others are expected.

Twenty-two steamers in port at one time is quite an unusual occurrence and equals records established in times gone by.

### PRESS COMMENT ON THE POTATO SCANDAL

The New Freeman today says:—  
"In the old Gaelic phrase, 'O tempora, O mores,' is sometimes translated 'O times, O ways,' but we think the old-fashioned Irish expression, 'What's the world coming to?' would express the spirit, if not the letter, of the classical passage, and we think the people of this province have something to be thankful for in not having this kind of thing put under their noses every day. From the days of responsible government agitation to the present—under other parties, there has been no outcrop of scandal, or hardly the suggestion of it, such as has prevailed in our sister province."

### MOTHER DEAD HERE; SON NOT ALLOWED HOME FROM WAR

Harriet Jane, wife of Sgt.-Major Lockett of the clearing depot here, expired at her home, 214 Queen street, this forenoon after a lingering illness. She leaves, besides her husband, a son overseas and an unmarried daughter, Nellie, who faithfully nursed her ailing mother. The Lockett family are English-born and came to St. John in 1909. Mrs. Lockett was the granddaughter of an imperial army soldier, her father also was a soldier and she married a soldier. Her only son rushed to the colors in the then Major Frank Magee's battery in 1915 as did also his father and they were bright and early in the fray.

In 1916 Sgt.-Major Lockett, the father, was allowed a furlough because of his wife's declining health and finally secured military employment here when it was decided Mrs. Lockett was suffering from an incurable ailment. However, much to the sorrow and disappointment of the dying mother and family, the lad who had served so eagerly for four years was twice officially denied a furlough or discharge that he might reach home before the break in the family circle took place. A month ago a physician's certificate to the effect that the mother could not recover accompanied the request for transport home, but it was refused.

### WOMEN'S ENDORSATION OF LEAGUE OF NATIONS

St. Louis, March 28.—The National American Woman's Suffrage Association today passed a resolution endorsing the League of Nations and urging the United States government "to bring about the prompt redress of all legitimate grievances" as a safeguard against revolution by violence.

## Always An Extra Bed-Room When You Have a Divanette

Serving two distinct offices in a home a Divanette is easily one of the most useable pieces of furniture in the house. At one time an accommodating lounge—at another, taking care of the welcomed guest.

Offering as it does the maximum of service in the minimum of space, a Divanette means that you always have a spare bedroom that isn't a dead weight in the day time.

Our list of Divanettes is especially attractive just now, and we are anxious that you should see the line. Fold in an ordinary heavy mattress, this ensuring extra comfort when used as a lounge. They are covered with tapestry or imitation Spanish leather.

The Price range from \$55.00 to \$88.50, thus affording a Divanette for every purse.

Also a complete line of the larger Davenport for those with room to carry.

FUND STARTED FOR 16TH FIELD AMBULANCE

Three City Men Trustees—Matter Arranged by Lieut. Col. G. G. Corbet, M. D. It will be of interest to the relatives and friends of members of the 16th Field Ambulance, C. F. of which Lieut. Col. G. G. Corbet, M. D., of St. John is commanding officer, to learn that a fund has been started, established, no doubt on the thoughtful idea of Colonel Corbet, looking to the financial benefit of the members of the unit when the war is finally of the past, or, meantime, to assist should distress arise among the members of the unit or their dependants.

This fund is being placed in one of the local banks and the first deposit to the credit of the account was made yesterday on receipt of a check from Ottawa. Lieut. Colonel Corbet has entered into a trust agreement with his brother, Alexander Corbet, Union Street merchant. His Worship Mayor Hayes and Joseph A. Murdoch, whereby the latter became trustees of the fund. It will be custodians of the money sent deposited here. In addition to monetary trust agreement covers property, unit, such as band instruments, etc.

Lieut. Colonel Corbet evidently had all this across the water for intimation of it came a few days when his brother received the letter and copies of the fund. The check has been signed by the trust agreement signed by the gentlemen named and returned to Colonel Corbet accounts had been in Ger leave for Belgium. There is no occasion Corbet's good work say that this trust with what would be in the interests of JURY RECOMM

PORT OF MONTREAL IS GETTING READY

Busy Navigation Season Anticipated But no Definite Plans Laid Yet

(Montreal Gazette) All available space in the Montreal harbor has been engaged for the coming navigation season, reports M. P. Fenell, and although shipping companies are for the most part not yet in a position to say much as to their plans, the general idea prevailing among them is that a busy season may be expected from around the 20th of April next and throughout the summer and fall in marine activities. Preparations are being made by harbor officials to handle thousands of tons of cargoes, both foods and building materials, which will go overseas to help in the feeding of war-weary peoples and the restoration of their devastated areas. From the enquiries already received it is evident that there will be an unusual amount of lumber pass through the port, both from Western Canada and from across the line. One class of shipment which has been much in evidence on the quays here in former years will be conspicuous by its absence and that is some eight million cases of gin which used to come over from Holland every year. But the most interesting element in the port's shipping this year will be the human—the troops being brought back to their homes and their families. All arrangements have been made on Victoria pier for the reception of troops and women and children who may be with them, or who may come on ordinary passenger ships. The upper floor of shed No. 16 is being converted into a landing depot for soldiers, and particularly for their dependents. Canteens will be operated by the Patriotic Fund, and there will be the usual ticket offices, rest rooms, as well as special accommo-

be maintained by Furness-Withy Company, who on account of increasing business have changed from No. 18 shed, which they have held for some years, to No. 16. They are looking forward to a big year. Ice in the harbor and river is still solid, but if the present mild spell continues, open navigation should come fairly early this year. The ice-breakers, Montcalm and Lady Grey, are doing all they can at Quebec and on Lake St. Peter respectively, to expedite the making of a passage. CAUSE FOR CHEER. Optimism and good cheer mark the survey of present conditions in Canada in the monthly commercial letter of the Canadian Bank of Commerce, for March: "Although labor unrest and peace problems are occupying public attention, there is substantial evidence that progress is being made in the transition from the conditions of war to those of peace without serious disturbances occurring. Official reports as to the extent of unemployment indicate that conditions compare favorably with those prevailing at this season of the year immediately preceding the outbreak of war. Despite the fact that large numbers employed in making munitions of war have to find other occupations, the actual increase in unemployment from week to week is nominal, and we understand that in certain lines of industry factories are working on full time. Decreases are taking place in wages and in the prices of some staples, such as wool, iron, steel, food-

FOOD WILL PREVENT DISEASE. Food is always a better preventive of disease than serums, toxins or other drugs—but be sure the food is pure, clean, nourishing and easily digested. Shredded Wheat is the most thoroughly cooked cereal in the world. it is the whole wheat boiled in steam, drawn into filmy, porous shreds and then baked crisp and brown in coal ovens. Epidemics of disease may be traced to under-nourishment. Keep yourself fit by eating foods that fortify you against disease. Serve Shredded Wheat with hot milk or cream and fruits. MADE IN CANADA

dation for sick persons. Dining-rooms, kitchens, baths, and even beds will be available, and the railway arrangements will be such that the arrivals will be en-train direct from the boats. It is claimed in fact that no port in Canada will show better facilities and greater expedition in such work. The arrangements of this equipment for the troops and their families are in the hands of Sir Herbert Ames as head of the Patriotic Fund. New Craft Coming. There will be many new ships seen in the port this year. Some of them were built and launched in complete silence, and their swaddling clothes consisted of camouflage stripes. Among early arrivals will be the old "Devonia," which was torpedoed, but was not sent to the bottom. During the war the port of Montreal has received visits from captains, who were not in the habit of coming here, and who had not been here for twenty or thirty years, but the victims

of war, or rather the instructions of the British Admiralty, sent them here. Some of them could have told interesting yarns if the censorship had not existed. Until the peace conference is through nothing can be said about possible shipping to the German ports, but it seems likely that direct communication will soon be opened up with France by the Compagnie Generale Trans-Atlantique, of which Messrs. Traudens & Co. are the agents here. Inquiries at their office, however, indicate that there is some uncertainty whether this will be possible this year. Having lost twenty-six ships through U-boat activities, that company is waiting to see what the Allies will do in the way of transferring some German shipping to them. If this is done Montreal may yet see German ships coming up the St. Lawrence under the Tricolor. There is, however, already a freight service to a French port, for which McLesna, Kennedy, Limited, are the agents. Provisional Plans. The Canadian Pacific Ocean Services will occupy Nos. 7, 8, 9, 10 and 11 berths at King Edward pier. New boats that come here will be the Melita and the Minnedosa. The company is making every preparation for a busy season, but the losses made during the war makes it uncertain as yet, what tonnage will be at their disposal. The Dominion-White Star Line will operate between Montreal and Liverpool and Avonmouth, the latter port for freight. The Megantic and the Canada will be here, but the Laurentine will be missing, as she went to the bottom with a torpedo. Nos. 6 and 6 sheds will be used as before the war. The Cunard Line and other lines, for which Robert Reford & Company are agents, expect to resume their old services and possibly to inaugurate some new services. Plans and orders have been put out for new boats to replace those lost in war time, and it is stated that these new vessels will be more commodious than those which suffered. But at present nothing is definite as to what will be done this season. Elder-Dempster Company will resume their regular monthly sailings under government contract to the South African ports, and as agents of the Royal Mail Packet Company will set for the service from Halifax and St. John to the West Indies. Notwithstanding all the talk of the Canadian Trade Mission about developing trade with the West Indies and also with South Africa, it appears that the shipping companies are not at all sure whether such trade can be made to pay as far as freights are concerned. The Manchester and Hull services will

STUFFS and mixed grains, but not as yet to a material extent. Many industrial establishments are preparing to manufacture articles not hitherto produced in Canada, and agents are being sent out to home and foreign fields to find a market for them. Unrest will prevail to some extent until the political questions now before parliament are disposed of, especially those which are of fundamental importance in the planning of industrial enterprises. It is desirable that a settled policy should be determined upon as early as possible so as to permit labor and capital to adjust themselves to conditions which, it is anticipated, will necessarily be different from those existing prior to the war. It is quite clear, however, that whatever may be the attitude of parliament, the highest industrial efficiency and the greatest national economy will still be necessary. This efficiency is essential if we are to offer our products at a price that will ensure a market for them, and frugality is equally necessary in order that we may meet the national obligations arising from the war, and at the same time furnish capital to develop the resources of the country so as to ensure satisfactory employment under peacetime conditions. "Are you in favor of a League of Nations?" "Of course," answered Senator Sorghum; "the same as I was in favor of the airplane and wireless telegraphy. But I made sure they had a piece of machinery that would work before I advised my friends to invest everything they possessed on earth in either of those great ideas."—Washington Star.

The Choice in Big Enterprises —Where Quality Counts! BIG enterprises are manned by big people—with big ideas—with breadth of vision—with preference for things of ultimate quality over mere immediate first-cost. It is with these firms that Laco Lamps have found continued and increasing preference. For Laco Lamps have proven their supremacy—in better light, for less current consumption, and longer life. They have proven it by laboratory tests and by use in leading Canadian enterprises since 1909. In support of these statements the distributors of Laco Lamps give each lamp an INDIVIDUAL GUARANTEE OF 1500 HOURS' LIFE, against the next-nearest guaranteed life of 1000 hours! Laco Lamps are the 50% Longer-Life Lamp. Their guaranteed candle-power is that required by the U.S. Standard specifications. Popular in Canada Since 1909. Allies to Lift it When Sure That Things Will Not Get Through to Germany; New Body Organized by Peace Delegates

Paris, March 28—The blockade of German Austria will be lifted as soon as measures can be perfected for preventing imports into that territory being exported to Germany, it was decided at a council of the foreign ministers of the powers held here this morning. The council named a commission to inquire into the Moroccan question and then took up the question of the frontiers of Schleswig.

**New Body at Work**

Paris, March 28—A council of the foreign ministers and foreign secretaries of Great Britain, the United States, France and Italy has been created to work simultaneously with the premiers and President Wilson, but on different branches of the great technical questions involved in the peace settlement.

This action has been taken in the interest of speed. Japan is not given representation in the new council because its delegation does not include its foreign minister.

Paris, March 27—(By the Associated Press)—Containing neither any reference to the Monroe Doctrine nor the Japanese proposal for recognition of the racial equality of nations, the draft of the covenant of the League of Nations

today is in the hands of the special drafting committee.

The draft was completed Wednesday night at a sitting of the full commission, and the covenant is expected to be ready in completed form early next week. These two amendments around which has centered the greatest interest and much divergence of opinion, however, may be offered either in the council of ten or to the plenary peace conference, to which the covenant must go for final action.

Among other amendments adopted Wednesday night was one directly recognizing the principle of women's suffrage, in that it provided that the offices of the league are open to women as well as to men.

The much discussed question as to the possibility of the withdrawal from membership in the league of a nation was

settled by an amendment permitting withdrawal on two years notice, but not until such nation has filled out its international obligations.

Article ten of the covenant, to which the Monroe Doctrine amendment would apply, stands in its original form, President Wilson having reserved for the present the amendment which had been prepared as expressing the views of the American delegation. It is now explained that it was not the exact text, but only the general form of the amendment which was given to the press, and hence criticism must be withheld for the present. Careful soundings are being taken to ascertain the reception that is likely to be given this amendment by other delegations. If unfriendly sentiment develops or the pressing of other obnoxious amendments is threatened as a consequence of insistence upon the Monroe Doctrine, it is said the amendment may be withheld.

**For Freckled, Rough or Spotty Complexions**

The freckling, discoloring or roughening to which delicate skins are subjected after exposure to wind or sun, often appearing in early spring, may readily be avoided. Freckled skin, when spread lightly over the face before rising and removed in the morning with soap and water, completely peels off the discolored skin. Get up copies of the wax at any drugstore. It is the most effective way of banishing freckles or other unsightly defects. Little skin particles come off each day, so the process doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful complexion. Freckles caused by weather, worry or illness are best treated by a simple solution of powdered salicylic acid, dissolved in one-half pint witch hazel. Bathing the face in this produces a truly marvelous transformation.

In other countries, the Japanese delegates have not pressed their amendment before the commission itself. They have, however, been canvassing the delegations for various forms of such an amendment, endeavoring to find out the feeling toward it. They ran purely on one reef today, when Premier Hughes of Australia, declared without qualification that the Australian delegation would not support or stand in favor of any amendment of any kind whatever, containing the Japanese desire.

An important amendment adopted last night provides for the creation of a committee on organization of the league which is to be empowered to proceed with arrangements for the assembly, securing the necessary buildings and perfecting the secretarial forces, all in advance of the ratification of the treaty. But the acts of this committee will be subject to the approval of the ratifying body. The purpose is to speed up the beginning of the workings of the great league to meet the critical issues that now daily are arising throughout the world.

Another amendment gathers into one section all of the separate conventions which are to be incorporated in the covenant, such as those relating to labor, commerce and finance, so that these are not made a part of the treaty, but that the countries signatory agree to do the things set forth therein. This would leave the league only to execute the terms of such conventions as may be agreed upon by the separate states.

Provision is to be made for similar treatment of other conventions on other subjects, such as white slavery and the opium traffic, which are likely hereafter to be inserted in the covenant.

# Free Yourself of Rupture Without Pain, Operation or Loss of Time

FOR the benefit of our readers we take pleasure in publishing the Brooks offer to save all who are ruptured from wearing painful makeshift trusses that do not cure

The Brooks Appliance Co. gladly sends their remarkable patented Appliance ON TRIAL to prove that it holds the rupture back, keeps it in place, prevents it coming down or slipping out and finally assists Nature to heal up the rupture.

No man or woman ever can look and feel his or her best while suffering the torment, pain and discomfort of rupture.

Every day that you suffer from rupture—every hour of truss torture that you endure—after you read this page is your own fault.

For many years we have been telling you that no makeshift truss will ever help you. We have told you about the harm ill-fitting trusses are doing. We have told you that the only truly comfortable, sanitary and scientific device for holding rupture is the Brooks Rupture Appliance.

Now we offer to prove it to you, entirely at our risk. We will send you a Brooks Rupture Appliance on trial. If you really want to be rid of your rupture fill out the coupon below and mail it today.

Instead of wearing a steel spring or inflexible harness, try the velvet-soft Brooks Appliance.

Instead of the old hard or stuffed pad, use the soft rubber automatic air-cushion of a Brooks Appliance.

The Brooks Appliance clings to you without force and you are hardly conscious of its presence. But above all else, it HOLDS always.

Within an hour after you receive the Brooks Appliance, if you take advantage of this remarkable trial offer, you will throw away your truss forever.

### Over 685,000 People Have Accepted This Offer. Why Not You?

Doesn't that prove that the Brooks Appliance is not an experiment but a positive success—that it does all we claim for it? Among these 685,000 men, women and children there must be hundreds whose condition was identical with yours. Can you afford not to investigate and satisfy yourself when it costs you nothing to prove what the Brooks Appliance will do for you?

This wonderful device is a triumph of scientific and mechanical genius, the outcome of more than 30 years experience and the results accomplished by its use are little short of miraculous.

Mr. C. E. Brooks, inventor of the Appliance. Mr. Brooks cured himself of rupture over 30 years ago and patented the Appliance from his personal experience. If ruptured, write TODAY to the Brooks Appliance Company, Marshall, Michigan.

Many hundreds of physicians and surgeons recommend the Brooks Appliance and condemn makeshift trusses as more harmful and dangerous than any other method of retaining and treating rupture. Thousands of people have written us testifying to the amazing results they have secured from this great invention. Many of these people live right in your vicinity and we will be glad to send you copies of their thankful letters if you will ask for them when you write.

### Men, Women and Children Find the Brooks Appliance Equally Effective.

No matter if your rupture is old and severe or only recently developed, no matter if you are young or old, you should not fail to profit by this No-Risk Trial Offer.

No other rupture support, truss, lock, device, pad or plaster is offered to the public under so broad a guarantee of satisfaction.

If for any reason whatever you do not wish to keep the Brooks Appliance after you try it, send it back. You don't have to give any reason. You are to be the sole judge. There will be no argument, no dispute or misunderstanding.

### Ten Reasons Why You Should Accept This Offer.

1. It is absolutely the only Appliance embodying the principles that inventors have sought after for years.
2. The Appliance for retaining the rupture cannot be thrown out of position.
3. Being an air cushion of soft rubber it clings closely to the body, yet never blisters or causes irritation.
4. Unlike ordinary so-called pads, it is not cumbersome or ungainly.
5. It is small, soft and pliable, and positively cannot be detected through the clothing.
6. The soft, pliable bands do not give the unpleasant sensation of wearing a harness.
7. Nothing to get foul; it can be washed without any injury.
8. There are no metal springs in the Appliance to torture one by cutting and bruising the flesh.
9. All materials are the very best that money can buy, making it a durable and safe Appliance to wear.
10. Our reputation is so thoroughly established and our prices so reasonable, our terms so fair that you should not hesitate to send the free coupon today.

**POWER COMPANY  
BILL ON LINES OF  
THE CURRIER REPORT**

Fredericton, N. B., March 28.—The draft bill prepared at the instance of the Currie commission which investigated the affairs of the New Brunswick Power Company, which was laid on the table in the legislature this afternoon by Premier Foster, follows very closely the recommendations of the commission, as was expected.

The first section provides for the control of the operation, maintenance and service and rate of the company by a board of seven directors with equal voting powers, four elected by the stockholders of the company and three called public directors, appointed by the governor-in-council, in the first instance for terms of one, two and three years, and thereafter for three year terms. The salaries of directors shall be not more than \$1,000 annually. Salaries of the public directors shall be paid by the city of St. John and of company directors by the company.

Section two provides that an impartial accountant experienced in public utilities and engaged in general practice shall be chosen annually to report semi-annually respecting the property and distribution of charges and the results of the preceding six months' operations.

Section three gives the directors power to fix rates.

Section four provides for appeal to the Public Utilities Commission on complaint by the public directors.

Under the fifth section, the rates heretofore fixed by interim order of the commissioners shall remain in force until July 1, 1919, and thereafter until revised by the directors.

By section six the directors shall determine the extent and character of railway, electric and gas service which public necessity and convenience may require. In case of disagreement between company and public directors the question shall be referred to the utilities commission. If a capital expenditure of over \$25,000 is involved and the company directors say it will endanger the minimum return of rate base, the company may appeal to the governor-in-council who may refer it to arbitration.

Provision for an annual depreciation allowance of at least 75,000 out of earnings until the fund is at least \$200,000, is provided by section seven.

Section eight says the directors shall charge to the semi-annual cost of service, as a return on the rate base, seven per cent of such rate base.

**RAMSAY'S  
PAINT**

**"The right PAINT to PAINT right"  
FOR SALE BY ALL DEALERS**

Section nine requires the accountant to determine semi-annually the average rate received for the various services, the rates for the first six months to be the standard for future comparisons. In future periods a return on the rate base shall be allowed the company of seven per cent plus one-tenth of one per cent for each one per cent reduction, or minus the same amount for each one per cent increase in the standard rate, provided that the rate of return shall not be less than six nor more than nine per cent.

Section ten authorizes the sale of additional shares or other securities as are necessary for any development, improvement or addition, which in the judgment of the directors is in the public interest. In case of disagreement the decision of the utilities commission shall be final.

Under section eleven any expenditures made for addition as to the plant, property or working capital shall be an addition to the rate base.

Section twelve provides that in lieu of all other rates, taxes or assessments the company shall pay annually three per cent of its gross earnings. This section relieves the company of all existing obligations for upkeep of streets, removal of snow, etc.

By section thirteen the company may continue the business now operated under the name of the Eastern Electric Company, but all profits shall go to the power company.

Under section fourteen the cost of the present investigation is to be charged to operating expenses, spread over five years.

Section fifteen provides for the sale of the company to the province or any subdivision thereof, at the value of the rate base plus ten per cent.

By section sixteen, preferred and common stock are given equal voting power.

Under section seventeen, on the acceptance of the act by the company, the par value of the common stock is reduced from \$100 to \$25 per share and no dividends shall be paid on common stock until a surplus fund of \$200,000 has been accumulated from earnings.

Section eighteen provides for a general

Your physician will tell you that appendicitis is an inflamed condition of the little sack called the Appendix at the lower right-hand corner of the Colon or large intestine. By cleansing this Colon with purified warm water by the "J. B. L. Cascade" this sack is cleaned and the inflammation subsides. Hundreds of operations have been avoided by using the warm water cure for Appendicitis. Mr. Jas. McLaughlin, 91 Evanston street, Winnipeg, writes:

"I had spent over fifty dollars with doctors trying to cure Appendicitis. Finally the doctor said I must go to the hospital at once for an operation. Your advertisement interested me. I bought a 'J. B. L. Cascade' which relieved me at once, and am now completely cured. Never felt better in my life; all pain and soreness gone, and I eat and sleep like a boy. I am grateful to Dr. Tyrrell for this wonderful health-giving invention. 85 per cent of all human ills are caused by accumulated waste in the Colon. Internal Bathing with the 'J. B. L. Cascade' keeps this large intestine as free from all waste and as clean as nature demands it should be for perfect health. Ask E. Clinton Brown, Druggist, Corner Union and Waterloo Streets; also F. **HENRY FORD'S PROMISE  
OF AUTOMOBILE TO  
COST \$250 OR \$300**

(Commerce and Finance.)

From California Henry Ford sends word that he is going to give to the world for \$250 or \$300 a better automobile than the one that made him famous and which sold for considerably more. If he does so he will be a benefactor indeed and, incidentally, he will make all other automobile people sit themselves as they never did before.

Apparently the verdict of the high court, which makes it necessary for him to distribute the profits of the Ford Motor Company in the form of dividends which he insisted on holding back, has angered him greatly. He has conducted his business on the principle that it is well to store money so as to discount bills to the limit, but material to the best advantage, he free of any possibility of money pressure and be so independent as to be beyond the danger of outside detraction or interference.

By the decision he must pay \$19,000,000 or more to former partners with whom he has had disagreement and must adhere to the court's ruling henceforth so far as the Ford Motor Company is concerned.

He chafes under restraint. His California announcement would indicate that he intends to develop a new enterprise, in which he will have no partners and therefore may do as he pleases, and with this new company produce his \$250 or \$300 car "better than the Ford ever was or could be."

He has enough money to do anything he wishes to demonstrate his idea. He can duplicate the present Ford plant without impairing his fortune. His wealth is enormous and to a large de-

gree it is in liquid state. Few men of great fortune in America have so much money at their command.

It would be unique to see him engaged in rivalry with the Ford Motor Company of which he is the principal stockholder, but that is what he will be if he carries out his announced intention.

Detroit can look with equanimity upon his undertaking as he no doubt will choose that city for his new plant.

The most interesting question is, can he produce a better car than the Ford for \$250 or \$300. If so, why didn't he do it at the Ford plant? If so, why did he raise the price of the Ford?

His fame rests on the Ford car. It is a wonderful vehicle. Aside from the car Henry Ford is a wonder in getting world wide advertising of the most valuable kind without having to pay a cent for it.

He has made a marvellous showing in quantity production and has done more perhaps than any man of his time to prove the virtue of economic facts in manufacturing that previously were no more than theories.

The tendency is for higher prices for automobiles.

Now Mr. Ford bobs up with a promise of a better car than he ever produced and at a much lower price. He has a genius for troubling his fellows in the automobile field. He forces them to expenditures they do not like to make, but which they cannot dodge without heavy loss and all the while he benefits.

If he gives an excellent \$300 car to the public the others will have to do a world of advertising to be anywhere in the cheap car field.

But it is up to Mr. Ford to produce the car.

**M**EN buying cars today are giving this present day Maxwell searching consideration. For where, this moment, can you get a car, like a Maxwell, the chassis of which has had a 300,000 manufacturing run and the beauty of which has been improved to an astonishing degree?

They're weighing the soundness of the 300,000-alliance-for-five-years logic and they translate that into reliability supreme.

They know in their own business what changes in plan, in program, mean—how serious the losses in good will and profits—the dissatisfied customers.

Many of them have been "burned" by "new models" in days gone by, and have joined the "never again" club.

So this present day Maxwell has a deep appeal to them; and thousands since January 1 have reached for their check books as soon as they laid eyes on this new Maxwell.

Perhaps it is unfair to say "new" because the chassis is five years old in design. When we say "new" we mean its vastly improved appearance.

There are twenty-four things done to the Maxwell to make it better looking. Sharp angles have been removed; lines straightened; certain corners eliminated; bonnet vents increased in number; three more coats of paint added; fenders lowered; seats thickened three inches; a circassian dash installed; gas tank put in the rear, etc.

See the latest Maxwell, and you'll want one, too.

**LARGE MILLINERY STORE ADDS TO ITS PROPERTY**

New Space Provided For Business of The Marr Millinery Company—How Its Activities Have Expanded.

St. John will see one of the largest and most up-to-date millinery stores in the whole dominion opened in the city within a few months. The Marr Millinery Company has purchased and on May 1 will take possession of the building directly in the rear of its store owned by the Eastern Trust Company. The present store fronting Charlotte street is a three-story building thirty-five by forty feet, and the newly purchased building which is to be added to it is three and a half stories high with a frontage on Union street of thirty feet and a depth of sixty feet. The two buildings are to be combined by tearing down the separating wall and rearranging the interiors in order to give the most splendidly fitted and appointed and the most conveniently arranged millinery store that can be contrived. Edward Bates, of Duke street, has the contract for the work and the fittings, which will be very costly, are to be provided by the St. John Desk and Show Case Company. Amongst the special features of the enlarged store will be the cosy and comfortable private rooms for the use of customers desiring privacy while trying on the latest creations of Dame Fashion. When perfected in all its details the combined store will be more than twice as large as the present store and as the entire space will be utilized by the Marr Millinery Company the new store will in all probability be the largest one in Canada devoted exclusively to millinery. The firm is a well-known, long established and well respected one throughout the province. Next year will mark the sixtieth anniversary of its founding in 1859 in Montreal. Success has attended the firm in a marvellous way, and twenty-two years ago last September E. G. Marr opened the store in St. John, which has now grown to be the main store. Ten years ago the business was transferred to its present building and Mr. Marr was at that time confident that his new store would be more

than large enough for all possible development. The rapid growth of his trade has, however, proved his calculations at fault and his building not half large enough for his requirements. J. H. Marr, son of H. G. Marr, also takes an active interest in the business. The public of St. John will be greatly interested in the opening of the remodelled store and it is confidently expected that all will be delighted with its novelties and special conveniences.

**ROBBERS GET \$75,000 IN DAYLIGHT BANK ROBBERY**

Detroit, Mich., March 28—Herdling fourteen persons, including several women patrons, into the lavatory and the vault of the West Side branch of the

Commonwealth State Bank here, six unmasked bandits, this afternoon, robbed the institution of \$10,000 in cash and unregistered Liberty bonds, which officials say may exceed \$65,000 in value. Fifty thousand dollars in currency had been removed from the branch to the main office only a few hours before the hold-up, according to J. W. McCausery, president of the bank. The hold-up was one of the most daring in recent years. Two of the men stood guard outside the entrance to the bank while four entered with the man at their head waving a sawed-off shot gun.

"I hope the critics didn't roast the play I wrote for Madame Flubdub." "I dunno whether you'd call it a roast or not," responded the Old Colger. "They agree that it serves admirably as a vehicle for her lack of talent."—Louisville Courier-Journal.

**Make Your Car Look Peppy**

A great deal of pleasure is lost driving in an automobile that looks dilapidated and old. The appearance of a machine should be the pride of every car owner. Your car can be kept in good condition at very little expense by using a good Auto Finish, such as we sell. We carry a full line of Auto Finishes and Polishes and shall be pleased to explain their respective merits. Drop in and talk it over.

**Pratt & Lambert's Effecto Auto Enamel**

For use on entire body, dash, wheels, springs, gear and fenders. Gives a beautiful fine finish which dries over night.

There are eight live colors and the Finishing Varnish, which is a clear varnish intended for use where the old finish is not badly marred.

**Pratt & Lambert's Effecto Top and Seat Dressing**

Gives the upholstery and top the richness of a new one. It waterproofs and renews old and faded tops, making them look like new.

**Robt. Ingham Clark's (London) Durable Gear Finishing Varnish**

Is, as its name implies, a durable varnish that will withstand the mud, water and grit of the road.

**Robt. Ingham Clark's (London) Quick Black Rubbing Varnish A Time Saver.**

**Robt. Ingham Clark's (London) Quick Rubbing**

A pale varnish for natural wood or over colors.

**Sherwin-Williams Auto Enamel**

Dries with a hard impervious surface, and is not affected by rain or snow, and retains its gloss for the greatest length of time. It is very easy to apply and gives a finish to your car that makes it look like new. This enamel can be applied without any experience or skill, and good results attained.

**Sherwin-Williams Tire Paint**

Colors usually used are, for tires, grey. It is not affected by water, protects the surface from snow, dust and dampness, and prevents the rubber from cracking and rotting. It is easily applied and adds 100 p.c. to the good appearance of your car.

**Sherwin-Williams Rim Paint**

Prevents squeaking rims, and rust, naturally making it much easier to take off or mount a tire. Prevents the rubber from becoming congealed with the rim surface when the tire has been running for some length of time, thus preventing the tearing and spoiling of the outer case when it is found necessary to remove it from the rim.

If you use these finishes your car will look like new from bumper to tail light, from tire top.

**Robt. Ingham Clark's (London) Elastic Carriage Varnish**

is a medium, quick-drying body for Autos and Carriages.

**Sherwin-Williams Engine Enamel**

Is not affected by extreme heat or cold, nor injured by gasoline, kerosine, oil or grease. An engine covered with S-W Engine Enamel is easy to keep clean, enabling you to take care of the motor plant of your machine.

**Sherwin-Williams Auto Bras-Brite**

For putting a high finish on all brass, nickel or silver parts of your automobile, preventing rust and corrosion. It does not wear away the metal, and produces a high finish with very little effort.

**Sherwin-Williams Flaxoap**

An absolutely pure linseed oil soap. It renews the life of the Varnish or Enamel on your automobile, removes grease, oil, and dirt, and is in no way injurious to the hands. It can be used on the finest fabrics without injury. Works into a fine lather, and is the best soap for all garage purposes.

**Johnson's Auto Liquid Wax**

Produces a hard, durable wax finish that covers scratches and marks. It is absolutely waterproof, and will not collect dust; is easily applied and gives a high brilliant polish.

**Johnson's Cleaner**

Will accomplish wonders. It immediately removes mud stains, tar, alkali and spots of all kinds. It contains no grit or acid so cannot scratch or injure the finest finish—simply cleans it and puts it in perfect condition for the Wax polish.

**Johnson's Black-Lac**

Tops, side curtains, etc., are subject to very hard wear and soon become shabby. One coat of Johnson's Black-Lac will give them a rich, black, waterproof finish—just like new. It goes on easily and quickly without a lap or streak, and does not rub off on the hands or clothing.

**How the Hot Spot Makes Chalmers One of the Few Great Cars**

The cylinders of an engine are like the stomach of a man. Unless food is thoroughly chewed up before it reaches the stomach there is liable to be indigestion.

In most cars today gas arrives in the cylinders in too large globules. The Hot Spot in the Chalmers prevents this. For it "cracks up" and heats the gas. As soon as it strikes the Hot Spot gas is "pulverized" into a most minute "vapor powder." Engineers call this "dry gas."

Then the gas is passed quickly through the Ram's-horn which equally distributes the gas among six cylinders and makes it arrive at each cylinder at exactly the same time and travel the same distance.

Which means not only more power from less gas, but hitting on all six all the time, amazing ease in starting on a cold day, less friction, less vibration, and hence a cool running engine on a red hot day.

To miss a demonstration in a Chalmers nowadays before purchasing a car—no matter what price you pay—is to miss an experience worth making a day's march to find.

SPORT NEWS OF THE DAY; HOME AND ABROAD

Four Strings to Decide. An interesting bowling match was played last night on the Victoria alleys between a team from the Dominion Rubber System and one from Ames-Holden McCready, Ltd. In the three strings they tied, so they rolled a fourth string to decide and the Dominion Rubber System aggregation won by ten points.

The scoring follows: Dominion Rubber—Total Avg. THE TURF

Poethlyn Wins Good Steeplechase. London, March 28.—(Canadian Associated Press)—Poethlyn won the Grand National steeplechase today. Ballyogan was second and Pollen third. Poethlyn was the favorite, according to London papers of March 14. The betting on this horse was 13 to 2. The price on Ballyogan was 20 to 1.

SWANS TAKE THREE

The Swans took three points and the obins one at the Y. M. C. I. last evening. The feature of the match was the work of McMahon who rolled for 115 in the second, making a total of 397 and an average of 102 1/3. HOCKEY

Ottawa Victorious. Vancouver, B. C., March 28.—The Ottawa Senators defeated the local hockey players in an exhibition game here tonight, 6 to 5. Ottawa assumed the lead in the opening period and maintained it throughout.

THE RING

Dempsy in Bout. Detroit, March 28.—Jack Dempsy boxed six exhibition rounds with Terry Kellar of Dayton here tonight. The aspirant to the heavyweight title extended himself at no time but succeeded in keeping Kellar at a safe distance throughout. Dempsy weighed 197, slightly more than he plans to carry in his forthcoming titular match.

Three Men Matches.

On Feb. 15's alleys, last evening, four special two-men team matches were run off, and the honors went to Wilson and Seitzley who had a total score of 333. Wilson had a three-string total of 333, while his highest individual string was 99. The rest of the scores and teams are as follows: Wilson 110 189 104 853 Seitzley 82 107 91 280 838 839 840 841 842 843 844 845 846 847 848 849 850 851 852 853 854 855 856 857 858 859 860 861 862 863 864 865 866 867 868 869 870 871 872 873 874 875 876 877 878 879 880 881 882 883 884 885 886 887 888 889 890 891 892 893 894 895 896 897 898 899 900 901 902 903 904 905 906 907 908 909 910 911 912 913 914 915 916 917 918 919 920 921 922 923 924 925 926 927 928 929 930 931 932 933 934 935 936 937 938 939 940 941 942 943 944 945 946 947 948 949 950 951 952 953 954 955 956 957 958 959 960 961 962 963 964 965 966 967 968 969 970 971 972 973 974 975 976 977 978 979 980 981 982 983 984 985 986 987 988 989 990 991 992 993 994 995 996 997 998 999 1000

COLONEL'S FAREWELL TO THE PRINCESS PATS

Toronto, March 28.—An impressive and historic valedictory has been issued by Lieut-Col. A. Hamilton Gault, D. S. O., to the officers and men of the Princess Patricia's Canadian Light Infantry whom he organized as a regiment and with whom he fought in France, and led home in victory. The message is in the form of a "special order of the day" to the battalion on demobilization. After referring to the raising of the corps, under the patronage of Princess Patricia, the colonel says: "During the past four and a half years the battalion has ever carried out its duty faithfully; in defence, invincible; in attack, supreme; it never lost a position during the early days of the overwhelming German offensives and when the time came to attack and the initiative passed into our hands, it never failed to capture the objectives allotted to it. The battalion's record has been a proud and glorious one; on its color will be emblazoned the names of hard fought battles and stubborn fights, including those of St. Etienne and Ypres, 1915; Sanctuary Wood and the Somme, 1916; Vimy and Passchendaele, 1917; Amiens, Arras and Cambrai, 1918; and to you, my comrades, go all the credit due, for giving the best that was in you, by always playing the game, you have proved your loyalty to the color and have made the battalion what it is today.

AMERICAN HOUNDS TO BE SENT TO ENGLAND TO REPLENISH PACKS

New York, March 28.—To export fox hounds to Great Britain would have not so very long ago suggested the adage of folly, "to send coals to Newcastle." But war has wrought the miracle. Charles E. Mather, master of the Brandywine hounds at West Chester, Penna., father of Victor and Gilbert, both well known in racing, with whom fox hunting has been a passion for twenty or thirty years, is in a position to prove the old saw to be a false one this time.

Will Train The Disabled Troops. War Department Asks Mooseheart to Give Wounded Men Vocational Training.

Mooseheart, Ill., March 28.—During the war Mooseheart was called upon to train a great many soldiers in concrete construction for military work. Naturally this work ceased when the armistice was signed. However, the Mooseheart government received a great deal of commendation from the war department for the work they did which, had the war continued an indefinite period, would have been in vain. The message is in the form of a "special order of the day" to the battalion on demobilization. After referring to the raising of the corps, under the patronage of Princess Patricia, the colonel says: "During the past four and a half years the battalion has ever carried out its duty faithfully; in defence, invincible; in attack, supreme; it never lost a position during the early days of the overwhelming German offensives and when the time came to attack and the initiative passed into our hands, it never failed to capture the objectives allotted to it. Potato Quartette in Seats in Legislature

Murray, Smith, Jones and Baxter; Daylight Saving Question; Budget Debate Continued

Fredericton, N. B., March 28—Censured by the majority of their colleagues, with notice served upon them that their resignations would be welcomed, the four leading members of the opposition went slowly to their seats in the legislature today.

It is to their credit that they seemed to recognize the shame of their position. There was little show of bravado in their bearing which was marked rather by an air of depression and anxiety, but neither was there in their attitude anything to indicate contrition or to show that it was their intention to exhibit a proper appreciation of the decency of public life by withdrawing from it.

Messrs. Murray, Smith and Jones sat grimly through the entire afternoon session. Mr. Baxter came in late and went out early. Mr. Murray and Mr. Smith took their usual part in the activities of the House. It may be said also that Mr. Jones took his usual part in the business of the House as continued his role of silence which has been broken only by the reading of his defence yesterday.

Mr. Baxter took no part in the proceedings while in the House other than to furnish some information asked for by his despatch, the leader of the opposition. On the order of the day being called, Mr. Michael continued the debate on the budget. In a clear cut speech in which he dealt effectively with opposition criticisms and reviewed some of the accomplishments of the administration during the last year.

The house cheered up a bit when Mr. Potts arose. In his usual jocose manner, alternating at times with attempted flights of oratory, Mr. Potts happily taken subject to subject, hilariously greeted many of his opponents who scored against the government. Mr. Potts claimed the credit for the opposition members for the resolution of censure, saying that they had passed severe judgment on their fellow members of the opposition. They had shown that they did not approve of the methods adopted in the potato transaction and that they were willing to go as far as the law allowed.

Mr. Potts returned to his demand for the abolition of the French language, much to the distress of his colleagues, who had troubles of their own after his last remarks on the subject. Mr. Potts moved the adjournment of the debate. Assembly Chamber, Fredericton, N. B., March 28—The house met at 8 o'clock. Mr. Burchill presented the report of the committee on standing orders. Mr. Leeger (West) rose to a question of privilege. He said that he noticed his name was omitted from the division list of the vote of yesterday and published in the morning papers, and he felt that he should call attention to the matter. He had cast his vote against the amendment and for the resolution.

LIFT OFF CORNS WITH FINGERS

Doesn't hurt a bit and costs only few cents

Drop a little Frezzone on an aching corn, instantly that corn stops hurting. You lift it right off. Yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

was to be congratulated on the success of his administration in general. He was glad to know they were grasping with the great problems connected with reconstruction. The resources of New Brunswick were capable of great development and in that respect he thought more attention should be given to the subject of colonization. Good roads were also a necessity. Success could only be brought about by co-operation, not only between capital and labor but between the different elements composing the population. All should work together for the common good.

His honorable friend from St. John (Potts) had stated, he thought, that it was well perhaps that nobody paid much attention to the French language. It might be a good thing to grant him leave of absence so that he could air his views on the subject of the Balkan States among whom he would be in the interest of the province at large. He would not have referred to the matter had his friend not brought it up.

Striking Appeal For Unity. Mr. Michael said he thought all languages were being used over there. The honorable member in a previous speech had cast reflections on the province of Quebec. He (Michael) said in brief for Quebec, but he could say that in political matters and in the moral life of its people it worked comparatively favorably with the other provinces. The honorable member had said that only one language should be used in the country. He (Michael) would like to join him in that but he did not think it would be in the interest of the province at large. He would not have referred to the matter had his friend not brought it up.

If so, It's Time You Got Wise to Catarrhosis, the One Certain Cure.

By no other means can you get relief so quickly as from Catarrhosis. It's the most direct remedy—direct because you breathe it to the very spot that is irritated and full of catarrhal germs.

Nothing round-about in the Catarrhosis method. It acts instantly, clears the throat of phlegm, stops the hacking cough, relieves tight chest, removes bronchial irritation.

So healing and soothing is Catarrhosis, so full it is of curative essences that winter ill fits before it. Carry a Catarrhosis Inhaler in your purse, in your pocket, use it to ward off your little colds before they grow big.

up and he hoped it would not be necessary to deal with it again. He appealed to both sides of the house to do what they could to bring about unity among the different elements and in that respect they should not forget that it was men of different languages serving under Marshal Foch who had achieved the greatest victory of modern times.

Mr. Potts said he was privileged on a second occasion to follow a speaker from the other side who had raised a question of language. The minister of public works in his speech on the address had said that the English was dying out and that the French population was increasing. As an independent member he (Potts) was prepared to give his views and if necessary go so far as to propose that the English language was the official language of New Brunswick and there was no law for any other.

Mr. Burchill asked if the C. G. R. management did not have notice at railway crossings in both languages. Mr. Potts remarked that what the honorable member had said was not true as what he (Potts) had been saying. That was a reason why they should work together.

He was proud that he was on the side of the house where could be seen some of the most honorable men who ever legislated for the province. He would not have said that yesterday, but he could today. It had been the unpleasant duty of his colleagues and himself to sit in judgment on his honorable leader and others and pass a verdict upon their conduct. It had been a severe judgment and it had been brought before the house. He thought credit was able to members of the opposition for going the length they had.

Permanent roads had been the cry and he wished both houses to understand that he (Potts) would support any policy for permanent roads if a competent man were at the head. Buses for \$500,000 were voted and yet there was not one mile of permanent roads. He believed \$200,000 a mile would be the best cost for a good road for there was no such thing as a really permanent road.

Mr. Smith (Carleton)—"Not that much." Mr. Potts—"I said \$200,000. I mean permanent roads and not bad roads." Mr. Veniot—"Let him alone."

Continuing the speaker said permanent roads would bring Maine and Nova Scotia very close together and he regretted to say Quebec somewhat nearer. Mr. Potts moved the adjournment of the debate which was made the order of the day for Monday evening at 8.30 o'clock.

HONOR TO THE WOMEN

Sons of England Express Gratitude for Their Noble Support During War

A social and concert was held in the Orange Hall, Germain street, last evening by the members of Lodge, Marlborough, No. 207, Sons of England, for the purpose of "doing honor to our ladies, our wives and sweethearts who stood by us so nobly during the great war."

There was a very large attendance present, and the hall was filled by the members accompanied by their wives and lady friends. The worthy president, F. J. Punter, presided, and with him on the platform were District Deputy Lawrence and F. S. Purdy, president of the Portland Lodge.

The programme was long and varied and consisted of vocal and instrumental solos, dancing, recitations and short addresses. Every number was well carried out and the committee were in excellent charge. Mrs. Charles Ledford, convener; Mrs. H. W. Brown, Mrs. John Silliphant, Mrs. E. J. Betts, Mrs. Burt Rayner, Mrs. A. F. Webb and Mrs. Walter Stone.

The programme was opened by a short address by the chairman, F. J. Punter, who in a few words welcomed all present and explained the purpose of the entertainment. There were nineteen other numbers on the programme and were as follows: Solo Miss Eva Spencer; piano solo, Miss Till; song, Frank O'Leary; dancing, R. H. A. Merritt; monologue, George Duplisse; clarinet solo, Herbert Newton; speech by F. S. Purdy, president of the Portland Lodge; dancing, Miss Lemon; song, Walter Brindle; dialogue, Fred J. Punter and Robert Casson; recitation, Walter Spencer; song, W. C. Parker; dancing, Miss Lemon; song, E. C. Tremaine; song, W. C. Parker; stories by Fred J. Punter; and a short address by the secretary, Charles Ledford. The evening was brought to a conclusion by the singing of the national anthem.

FREDERICTON ASSESSMENT

Fredericton, N. B., March 28—At a meeting of the city council tonight the assessment was adopted for the year, standing at \$150,000 practically the same as last year. Reduction effected by relief from patriotic fund assessment and the Halifax contribution was balanced by larger votes in other departments, the vote for schools of \$53,000 being more than one-third of the total assessment. The council also decided to grant \$1,900 to make up the deficit, if any, at the Victory Fair of the Agricultural Society, No. 84, up to this amount. A daylight saving resolution, submitted by Mayor Hanson, was not favorably received.

A Pimple Remover That Never Fails

Dr. Hamilton Stands Behind His Formula

Bad blood is always responsible for pimples, blackheads and skin eruptions. Pimples, eczema and boils are the common result.

I contend that to cure these ills, the liver, kidneys, and bowels must receive attention.

My remedy, known as Dr. Hamilton's Pills of Mandrake and Butterbent, invariably reaches the trouble.

By putting life into sleepy organs, for forcing out every kind of waste and foreign matter, for making health-sustaining blood, where can you find such efficiency as in Dr. Hamilton's Pills? In a thousand cases I have demonstrated that Dr. Hamilton's Pills cure facial blemishes and skin diseases.

I look upon these pills as the best blood purifier and system builder of the age and guarantee they will cure every complaint having its origin in a weak or debilitated blood supply.

If Dr. Hamilton's Pills will not cure that tired, run-down condition, if the will not change lack of force into energy and vim, then nothing will.

By creating an abundant supply of rich, nourishing blood they maintain that standard of health so much desired by those participating in the strenuous life we live today.

COLDS

"The Greatest Little Revolution Since 1776"

Less than four years ago, when the sense of economic grievance that rankled in the hearts of North Dakota's farmers had been fanned to a flame by the refusal of the legislature to establish a State-owned terminal grain-elevator, a man named Arthur C. Townley jumped into a small hired automobile and began by a farm-to-farm canvass the organization of the Non-Partisan League. For months the old line politicians regarded this "flivver campaign" as a joke, but today they see Mr. Townley's league of farmers grown to a membership of more than 200,000 with a political organization in thirteen states, representation in the U. S. Congress, and completely in control of North Dakota's government.

The St. Paul Dispatch terms the league "the most revolutionary political machine that ever gained complete autocratic control of legislative affairs in any state in the Union," while the Minneapolis Tribune speaks of it as "Townleyism, the political prairie fire that is now raging in North Dakota and spreading to surrounding states," but as the New York World reminds us "North Dakota and her people will pay the bill and the rest of the country will profit by the demonstration."

In the course of an illustrated article, comprising more than three pages in this week's LITERARY DIGEST, every phase of this movement is explained, together with public opinion upon it from all angles.
