FIVE PRIESTS ARE KILLED BY REBELS

Convent Burned, Cathedral and Small Church Looted

REFUGEES BRING REPORTS

Rumor of Battle Begun Near Torreon—United States to Probe Killing of Postmaster and Burning of American Customs House

(Canadian Press.)

New Orleans, La., March 16—Five priests have been slain by rebels in the Mexican state of Tamaulipas since November 18 last, three are held for ransom, a convent has been burned and a cathedral and a smaller church looted, according to two Catholic priests, Fathers Jose Moreno Medina and Raymon Gonzalez, who arrived here yesterday from Brownsville, Texas. Both said they had been driven from Victoria, Mexico.

"Three weeks ago, soldiers under Colonel Cavero demanded money," said Father Medina. "We gave them what we had, but it was not enough. Being angered, they took away the gold and silver vessels and wrecked the side of the building. The figure of the Saviour was smashed in bits and other statues broken and trampled under foot."

"Archbishop Jose Guzman and his staff were thrown in to the street by the marauders," continued Father Medina. Father Guzman died two days later and just before we left we heard he was dying. The rebels then went to the American convent, drove out the sister and her charges, and set the building on fire."

At Tula, a church was looted by rebels in the same manner as at Victoria, said Father Medina, and his two assistants, Basilio and Louis Romano, were lynched. He said they were taken to the hills where they are being held in a room of 200 pesos each. Their names have been notified that some ransoms are paid the priests led to death."

BACK UP PROPOSED YEAR'S SUSPENSION IN BUILDING WARSHIPS

Representative Committee to Organize a Movement in Baltimore

Baltimore, Md., March 16—Cardinal Gibbons, Bishop Murray of the Protestant Episcopal church, Governor Goldsborough, Dr. Ira Remsen, of Johns Hopkins University, and B. Howell Griswold, Jr., have consented to form a preliminary committee to organize a movement to bring together in Baltimore in November of this year an international peace conference designed to crystallize international sentiment behind the proposal of Winston Churchill of England for a year's suspension of battleship construction.

LOSSES SIX CHILDREN FROM SCARLET FEVER

New Jersey Woman Now Has Only One of Family of 17

Florence, N. J., March 16—With the death of her infant daughter, Mrs. Arthur lost her sixth child within the last two weeks in a scarlet fever epidemic here. Of thirteen children, six of whom died previously in epidemics, Mrs. Carter has only one child living, a seventeen-year-old daughter, who is absent from home because of her illness. While the infant had contracted scarlet fever, physicians attributed the immediate cause of death to blood poisoning resulting from a cat's scratch. Mrs. Carter, exhausted by her vigil at the bedside of one after another of her children, has collapsed and is under a doctor's care.

MOUNTED POLICEMAN FOR THE COUNTY TO BE PROVIDED AGAIN

After struggling along for some time without police protection for the county, the municipal council has decided that the salary of a mounted policeman is a good investment. At a special meeting of the council this week the appointment of another man for the position will be considered. At this meeting the council will also consider tenders for the construction of a hospital for tubercular patients. In order to be in a position to accept any of the tenders, a vote of additional funds will be necessary. The sum of \$60,000 was voted for this purpose, but the tenders received were about twenty-five per cent. in excess of the appropriation.

WOMAN WHO POISONED SON FOR INSURANCE DIES IN PENITENTIARY

Chicago, March 16—Mrs. Louise Lindorf, convicted on February 28 of having poisoned her son for his life insurance, and sentenced to twenty-five years in the penitentiary, died in the county jail here last night.

SEVERAL CONTRACTS FOR SOUTHERN SHORE OF NEW BRUNSWICK

The dominion department of public works is completing arrangements for half a dozen contracts to be carried out during the summer along the southern shore of New Brunswick. These works include the construction of breakwaters at Little Dipper Harbor, St. John county; at Welch's Cove, Mac's Bay, Charlotte county; at Woodwards' Cove and Seal Cove, Grand Manan, Charlotte county; wharf and dredging at Choccolate Cove, Deer Island, Charlotte county, and a breakwater extension at Alma, Upper Salmon River, Albert county. The contracts for all of these, with the exception of the work at Woodwards' Cove, have been let and the contractors will have ready to commence work as soon as the weather conditions permit.

CHARGES AGAINST TWO HAMILTON BUSINESS MEN

Hamilton, Ont., March 16—The cases of A. B. Mackay and James Goo, prominent Hamilton business men, in which girls are witnesses, was adjourned this morning. They refuse to discuss the case.

MEMORIAL BRIDGE TO CELEBRATE PEACE OF 100 YEARS

BRIDGE AT HAGMAN FALLS TO CELEBRATE ONE HUNDRED YEARS' PEACE. Designed by DR. T. KENNARD THOMSON

The cause of international peace was recalled from many viewpoints recently at a luncheon in the Republican Club in New York city, the subject for discussion being "A Century of Peace Between the Niagara and Great Britain and the Present World Condition of International Affairs."

At the luncheon drawings were exhibited showing the memorial bridge which will span the Niagara River as a lasting memorial to the celebration of the centenary of the peace anniversary. The drawings are by T. Kennard Thomson, which it was announced, in all probability will be accepted as the model for the permanent memorial.

Great Loss of Life In Earth Shock and By Tidal Wave

(Canadian Press.) London, England, March 16—A despatch from Tokyo says that there was a severe earthquake today in the Prefecture of Aikita on the island of Honshu, 800 miles north of Tokyo. Many persons were killed, and many houses were destroyed or damaged. There were many casualties in the village of Kowakubo, which was ruined.

The volcano Asama-Yama, ninety miles southwest of Tokyo, is in eruption. Full details of the disaster have not been received owing to the interruption of communication. Sixty dead bodies were found in the basin of the Omura river, where 800 houses were destroyed. The village of Kitamuro was burned. As a result of the earthquake, the population of the 800 workmen in the mine is unknown.

Alfida's a garden town on the sea of Japan. It does a considerable export trade, especially in rice. The population of the city is about 80,000. Asama-Yama is the largest active volcano in Japan. Hundreds Die by Tidal Wave London, March 16—Meagre despatches report that 1,500 lives have been lost as the result of a tidal wave from the sea of Aso. There are no reliable details.

W. ALEX. PORTER SEVERELY HURT

Knocked Down by Carriage, Arm Broken and Knee Cap Injured

W. Alexander Porter, governor, of the former of Waterloo and Union street, is in the hospital with a broken arm and a dislocated knee-cap, as a result of an accident near his store this afternoon between one and two o'clock.

Mr. Porter was crossing Union street on the way to his store when a carriage in which were a man and woman drove down the street, knocking Mr. Porter to the pavement. The carriage, it is said, was taken into his store and was later removed to the hospital. It was found that he had suffered a fracture of his right arm and his left knee-cap was also dislocated. It is not known who the occupants of the carriage were.

WILL RECOMMEND THE SALE OF THE LAND

City Property on Which Home of Late Chief Justice Stood

Several patterns of interest will be dealt with at the meeting of the Common Council this afternoon. Tenders for the purchase of three acres of city land in Fairville will be opened and tenders for the printing of the city accounts will be dealt with. Mayor Prink will recommend that the harbor fishery lot which was not sold with the others, be sold by auction on next Thursday in the committee room at city hall. The mayor will also recommend the sale of a city household lot on the corner of Orange and Westworth streets to Dr. W. P. Broderick for \$600. This is the last day a radio telephone conversation between warships in motion succeeded perfectly, and with a minimum expenditure of energy. Communication under these conditions was kept up between vessels forty-five miles apart, and up to sixteen miles when land intervened between the communicating vessels.

FISHERY OVERSEER MCKAY HAS RESIGNED

Several Want the Post—Condition of Fredericton's City Clerk Unchanged

Fredericton, N. B., March 16—James D. McKay, fishery overseer for the dominion government for the last ten years has resigned. There are several applicants for the position but it is understood that Thomas A. Niles of this city has the inside track.

The preliminary examination of George Betts, charged with robbing the I. C. R. station, was held this morning and resulted in his being committed for trial. There is no change today in the conditions of the prisoners in the jail. A special meeting of the council is to be held on Wednesday night to consider the application for a new building to be built at the mayor's residence. Recorder Baxter was unable to act as counsel for the mayor, and Messrs. Slipp and Lawson have been retained.

CONDENSED DESPATCHES

The new lighthouse service depot for the South Atlantic coast will be located at Charleston, South Carolina at Chesholm's Mill Landing.

Hon. A. L. Sifton, premier of Alberta, has arrived in Paris from Egypt, accompanied by his family. After a few days' stay in Paris, they will proceed to London.

Hon. Phillipps Roy, Canadian commissioner in Paris, represents Canada on a committee representing the British colony in Paris, organized to prepare a programme for the forthcoming visit of King George and Queen Mary. Russia may increase her army to 460,000 men.

Predicting that he would be dead within twenty-four hours, and pointing out the exception of the work at Woodwards' Cove, have been let and the contractors will have ready to commence work as soon as the weather conditions permit.

CHARGES AGAINST TWO HAMILTON BUSINESS MEN

Hamilton, Ont., March 16—The cases of A. B. Mackay and James Goo, prominent Hamilton business men, in which girls are witnesses, was adjourned this morning. They refuse to discuss the case.

KRAFCHENKO IN DUAL ROLE IN BANK CASE

Witness Today in Case Against Lawyer; Then Defendant on Murder Charge

Winnipeg, March 16—The crown has submitted practically the bulk of its evidence in the case of P. E. Hagel and John Wraslow, charged with assisting Krafchenko, a bandit, to break jail. The defense will likely open this afternoon the first witness to be Krafchenko to himself.

As soon as he has finished on the stand he will be taken to Morden to stand trial on the charge of murdering H. M. Arnold, of Sussex, N. B., manager of the Bank of Montreal at Ft. Collins, Colo.

SAYS MOSHER THE BEST BET FOR SHERIFF TODAY

No new candidates for the office of sheriff have appeared since Saturday and the light is among those already announced, as far as can be learned. The appointment will be made on the recommendation of the city and county members, and so far they have not met to consider the matter. There has been a delay owing to the absence of one of the members from the city, but as soon as he returns a meeting will be held and the recommendation will likely be dealt with as promptly as it is made and the new sheriff will be occupying his office before the end of this week.

C. B. Lockhart, whose name has been mentioned as an applicant, has announced emphatically that he does not want the post, in which he differs considerably from a dozen other citizens who just as emphatically do want it. Although the selection cannot be foreclosed with any degree of certainty, the betting odds were said today to favor J. P. Mosher. Amos A. Wilson's name will probably be given consideration, although he has not applied for the office this time and the other candidates all have their claims and their friends are urging their appointment. There is one of the lot who will not get it and who would not ask for it if he knew what he would have to expect if he did succeed. It is said that in a discussion regarding this man's application, a member of the county council intimated that his appointment would be followed by a vote on the salary to the effect of \$1,000 a year and one of the members of the legislature expressed the opinion that that would be about \$1 too much.

PHONE SIGNALS BY WIRELESS FROM CANADA TO SICILY

Marconi Gets Them Very Clearly From Ireland, 1750 Miles Away—Experiments at Sea

New York, March 16—A cable to the Tribune from Rome says that William Marconi has achieved notable success with his experiments in long distance wireless telephonic communications. The inventor has been conducting a series of tests from the Italian battleship Regina Elena on the high seas. During these experiments he used his newly devised high sounding receivers in connection with photographic registers and repeaters.

The first day, while the warship was off the Sicilian coast, Signor Marconi received very clear messages from Clifton, Ireland, 1,750 miles distant. The next evening the first received signals from Canada, 4,002 miles away, by means of wireless telephony. On the last day a radio telephonic conversation between warships in motion succeeded perfectly, and with a minimum expenditure of energy. Communication under these conditions was kept up between vessels forty-five miles apart, and up to sixteen miles when land intervened between the communicating vessels.

GETS BRAIN CONCUSSION WHILE CRANKING AUTO

Toronto, March 16—Dr. R. R. Hopkins, a member of the Toronto Board of Education, is suffering from concussion of the brain. While cranking his automobile he slipped on a piece of ice and fell, his head striking the cement floor. It is expected that he will recover.

FORMER TREASURER OF PRINCE ALBERT TO FACE MISAPPROPRIATION CHARGE

Prince Albert, Sask., March 16—Herbert H. Hutt, formerly treasurer of Prince Albert, was committed today for trial, charged with the misappropriation of \$8,000 of the city funds.

NOT THE GIRLS WHO WORK

Addressing the Women's Council on Saturday Hon. R. J. Ritchie referred to a statement that had been made in one newspaper to the effect that the girls who are classed as street walkers in the evenings are really working girls who are out to take the day after a day of indoor toil. The magistrate said he wished to speak in defense of the street walkers, and other girls who earn their living during the day, and who, unlike so many of the young men, take their earnings home to the family. These are not the girls who parade the streets from two to three hours every evening. "We know who the street walkers are," said the magistrate, "and they are not the industrious working girls of the city."

APPEAL WILL STAY EXECUTION OF SCHMIDT

New York, March 16—Notice of appeal from the sentence of death imposed upon Hans Schmidt for the murder of Anna Arnold, will be filed this week. The appeal will act as a stay of sentence. He was sentenced to die in the week beginning next Monday. Months are likely to elapse before the new matter is heard.

WRECKED STRAHER MEN AT NEW YORK

London, March 16—A committee which includes the Duke of Wellington, Lord Roberts, and the Lord Mayor of London has been formed to raise a public fund of \$50,000 to purchase the Waterloo battlefield to preserve it from a speculative builder.

Not Yet Captured

Montreal, March 16—Further details to the "confession" of Arthur Foucault, alleged driver of the gang which shot and killed Constable Honore Bourdon on last Wednesday morning, was the only development of last night in the case. The three men alleged to have been involved in the shooting are still at large.

TORCH NOW TO RAILWAY CARS

Militants Set Fire to Nine On Midland Line

SUMMARY ACTION

Scotch Prison Commissioner on Whom Suffragette Used Dog Whip, Fells Her With Fist, Then Declines to Prosecute

(Canadian Press.) Birmingham, England, March 16—Nine coaches belonging to The Midland Railway were burned by a militant suffragette squad, last night at King's Norton, six miles from here. Suffragette literature was found littered about the vicinity.

Glasgow, March 16—Dr. James Devon, prisoner commissioner for Scotland, when attacked today by an irate militant suffragette armed with a dog whip, took the law in his own hands and knocked his assailant down with a left hand blow.

The woman whose identity was not discovered, met the prison commissioner at the entrance to the Dalm street prison, six miles from here. Suffragette literature was found littered about the vicinity.

Doctor Devon, who is an advocate of forcible feeding and is bitterly opposed to what he considers the farcical release of suffragettes because they are suffering from the effects of "hunger strikes" promptly knocked her down. The woman was picked up by a policeman, and placed under arrest, but Doctor Devon refused to prosecute her and she was released.

DEAF MUTE WORKS WAY THROUGH CAMBRIDGE TO MASTER'S DEGREE

London, March 16—Cambridge University has just conferred the degree of master of arts on Armand Mackenzie, the first deaf and dumb man who ever won the master's hood in a British University.

Mackenzie, who was born deaf and dumb, paid the university fees out of his scanty earnings. He married a deaf wife.

POTOMAC DRIFTING TOWARD THE STRAITS

Curling, N.B., March 16—The United States naval tug Potomac, abandoned six weeks ago in the ice near Boonville Bay, was sighted last night off Pearson's lake, fifty miles farther up the coast. The Potomac was drifting northward toward the Straits of Belle Isle.

Curling, N.B., March 16—Two Newfoundland fishermen today started along shore with pumps which they hope to place on board the Potomac should the vessel show signs of drifting. They seek to mark her a prize.

NINE ON TRIAL AS SPIES

Austria Trying to Get at Bottom of Leakage of Secrets

Vienna, Austria, March 16—The second stage of the attempt to unravel the alleged extensive Russian espionage campaign in Austria, was opened today by the Austrian government. Nine Russian subjects were placed on trial on charges of being in the communication of the Russian general staff for the purpose of ferreting out Austrian military secrets, especially in regard to General Staff, where the Austrian and Russian frontiers run side by side.

The accused are all civilians. They include two women, one of whom, Nora Baron, is youthful and very attractive, and is alleged to have succeeded in securing much information from susceptible officers at Lemberg.

VALUABLE FOXES ESCAPE FROM NOVA SCOTIA RANCH

Guyabon, March 16—Two valuable silver black foxes recently escaped from the ranch of Alexander Bruce, at Boylston. One was since been seen five miles from the ranch. Mr. Bruce is offering a reward of \$1,000 each for their capture alive.

KILLS HER HUSBAND

Three Shots Fired by Wife Who Then Makes Vain Attempt to Kill Herself

Buffalo, N. Y., March 16—During a quarrel today Mrs. Ida Widrig, aged thirty, of Springville, shot and killed her husband, John Widrig, at Woodlawn near this city, firing three shots into his body. She then set on herself in the left side. Physicians say she will recover.

INFORMATION WANTED.

Registrar J. B. Jones has received a letter from Bridgetown, Glasgow, Scotland, asking for information concerning Archibald Smith, who came to St. John twenty years ago. He worked in a paper mill in Glasgow and it was thought went to work in a sawmill here, with the intention of later taking up farming. Mr. Jones would be glad to receive any intelligence concerning this man.

DISMEMBERED BODY FOUND AND MYSTERY CLEARED
Jewelry Salesman Had Been Murdered in Lawrence, Mass.—Four Men Are Arrested
Lawrence, Mass., March 16.—The Law-pole have cleared up a mystery which baffled them for more than a week by recovering the dismembered body of John K. Shanahan, a Boston salesman, who came to this city in the afternoon of February 8, who had not been seen alive since 10 o'clock that night. Postmen were alerted under arrest.
For two weeks or more the police had been convinced that Mike Zakolan, who was a coffee house at 31 Valley street, was something of the disappearance of Shanahan and repeated efforts have been made to have him divulge certain information they believed him to have. Finally the breakthrough came and Zakolan disclosed the secret to the police.
Zakolan went to Haverrill and finding Gregory Chabodan, brother-in-law of the murdered man, revealed the story of the killing of Shanahan to him and requested that he return to Lawrence with him that he might tell the story to the police.
Chabodan communicated Zakolan's story to the Haverrill police and Inspector Hussey accompanied them to Lawrence.
At police headquarters Zakolan said that Shanahan was murdered at Royal Michaelson Hall, on the night of February 8; that the body was dismembered there and the following day taken to a woods in West Andover and buried. Zakolan denies that he had any part in the murder but said he knew the man who killed Shanahan and could take the police to the spot where the dismembered body was buried.
Without delay the police went in an automobile with Zakolan to the woods, and with an ice chisel and shovel unearthed the body.
Then the inspectors hurried back to Lawrence to apprehend the man Zakolan had implicated, and before nine o'clock Zakolan and three other Armenians had been arrested, charged with the crime.
NO NEED TO STOP WORK JUST BECAUSE ONE'S YEARS ARE MANY
Work Hard, Live Long—Active Interest in Human Affairs Best Means to Prolong Life
" Don't stop work at seventy; do more of it," remarked Sir Gilbert Parker a few days ago, and Sir James Critchlow, an acknowledged authority on age, agrees with Sir Gilbert thoroughly.
If you want a feeble and miserable old age, give up working," said Sir James, who, although born as long ago as 1840, is one of the busiest men in the kingdom today. "The most vigorous period of human life in its entirety is obviously between twenty-five and forty years of age," he added, "but to say that men above the latter age are comparatively useless is to fly in the face of the biographical dictionary. Much of the best work of the world has been done by men over forty, and we should by no means stand where we are but back in the twilight age if bereft of what these men accomplished."
Reason Comes Late in Life
"Musical expression, like speech, reaches its acme in late middle life. But higher in the cerebral hierarchy than speech or musical centres are others concerned in the manifestation of purely intellectual power such as reason and judgment, which come to perfection late, and may long preserve their integrity."

NOT GUILTY OF MURDER OF HUSBAND; WIFE IS FREED
Chicago, March 16.—Mrs. Louise Van Keuren, on trial for shooting and killing her husband, John D. Van Keuren, last June, was found not guilty of murder. Her defense was that she mistook him for a burglar.
The prosecution introduced evidence that Mrs. Van Keuren had been receiving the attention of George Penrose, a jeweller. Penrose was a co-defendant, but the judge took his case from the jury and ordered him discharged.

FRATERNAL PRESCRIPTION FOR NERVOUS WRECKS
(From "Medical Reports.")
Thousands of men, nervous wrecks, have found the following "fraternal prescription" a blessing and a boon. Such men lack aggressiveness, they are timid, nervous, easily discouraged, lacking in self-esteem and confidence. They suffer from cold, catarrhs, thin watery blood, nervousness, sleeplessness, frightful dreams, unsteady gait and an absolute inability to perform the ordinary natural and rational acts of duties such as any healthy normal man can.
A vigorous man works, plays, eats and sleeps always with the keenest enjoyment. The greater his exertions are, the stronger becomes his appetite and slumbers.
The nervous man, seems always tired and worn out. Retiring brings no relief. Sleep brings no refreshment, all because of an abnormal condition of the nervous system, brought about by—well, no matter what—the desire is for relief and freedom with rich, red blood surging through the body supplying the sensitive nerves with all the power of sensation, so that sleep is refreshing, food is delicious, work is play, and play is pleasure.
This treatment is thorough, simple, and correct. The ingredients are used in filling various prescriptions and can be obtained of any well stocked druggist and mixed at home without embarrassment or questions.
Omit three ounces of syrup sarsaparilla compound in a six ounce bottle. To this, add one ounce of compound fluid balsam, and let stand two hours. Then add one ounce of tincture codonopsis, and one ounce of compound essence castile. Mix, shake well, and take a teaspoonful after each meal and one when retiring until a vigorous bounding new-hatched takes hold of the tired, exhausted nerves. Only a few weeks treatment will astonish, and rejuvenate. Rejoice in the treatment, and do right thing at the right time, and contains no deceptive opiates.

The Evening Times and Star

ST. JOHN, N. B., MARCH 16, 1914.

The St. John Evening Times is printed at 27 and 29 Cornhill Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

IS ST. JOHN ASLEEP?

The spring is approaching and there is still no definite information concerning that section of the Valley Railway between Gagetown and St. John. The engineer in charge of construction on the eastern section of the Grand Trunk Pacific says that this railway will be ready to handle through trains next fall. It would be impossible now in any case to complete the connection with St. John, and make the connection with the Grand Trunk Pacific at Napadogan, in time to take advantage of the completion of the Grand Trunk Pacific, before the end of 1914, even if it could be done by that time.

and arrive at conclusions and pass resolutions without having the machinery to carry them into effect. Let us have a social engineer for St. John. Is it not time the board of trade again asked some questions about the St. John Valley Railway and the terminals at Courtenay Bay? No province in Canada has ever had a government with such docile supporters as the present government at Fredericton. Everything goes, especially the money; and no questions asked. The number of those who favor the appointment of a postwoman in St. John has been growing very rapidly. The authorities will no doubt take note of the fact. The reports from Ottawa indicate that the Borden government is having a good deal of trouble with its followers in regard to some suggested tariff changes, as well as the proposed bond guarantee for the Canadian Northern. The Woman's Council at its annual meeting dealt with many matters of importance. It is a representative body whose plan for action along various lines to improve social conditions should receive the respectful consideration of those in authority. The Fleming government has succeeded in increasing very materially the debt of the province, while it has spent all the money it could lay its hands on and increased the burden upon the municipalities. How much longer will the people of the province stand for an administration of this kind? Two thousand five hundred new settlers were landed at Halifax during the last few days. It may be hoped that they will not swell the army of the unemployed in Canadian cities, but that all of them are financially able to make a good beginning in their new home. There is as yet no authoritative confirmation of Mr. Baxter's assurance that the Conservative Club that he had in on good authority that the Empire steamships would return to St. John next winter. Some further information on this point would be greatly appreciated by the citizens. Those citizens who desire a good administration of civic affairs will be cautious about pledging themselves to candidates on personal grounds until they learn who all the candidates are. The ablest men should be elected, and a form of government which in the last two years has proved very successful should be given the fairest possible chance for the next two years. Rev. Mr. Harcourt addressed yesterday in his address on the Social Service Congress at Ottawa that the emphasis to day is placed not so much upon saving souls for a future state of happiness upon saving lives both here and hereafter. The distinction is important. Properly observed it means social regeneration. That was a significant statement made by Mr. Winston Churchill in his speech in Bradford on Saturday, when he said in relation to Sir Edward Carson's threats of rebellion in Ulster that the issue between civil government and an armed force had been fought out two centuries and a half ago at Marston Moor. The latest outbreaks of the suffragettes in Great Britain have been directed against art galleries, churches and other valued institutions. The more they attempt upon constitutional methods, the more they will deserve public contempt, and the more discredit they will throw upon a cause which under ordinary circumstances commands the sympathy of increasing numbers of people in all countries. By sending out to the country a grossly partisan summary of the Ouellet report on the Transcontinental Railway, the Borden government itself effectively discredited any injury the report might do to the Liberal party, and by the time the Liberal leaders in parliament had discussed the report the government and its cause had been thoroughly discredited as Mr. C. H. Cahan, who describes himself as a Tory of the Tories, declares that it has discredited itself.

SOCIAL EFFECTS AND CAUSES Because the social conditions under which men live have a tendency to make criminals, it is the duty of society to do what it can for the criminals and for the delinquents who through committing minor offenses are also numbered in the jail population. Nevertheless organizations for social betterment would commit a fatal blunder if they confined their attention to effects and ignored the causes. It is worth while to remember that in the present state of society, in the city of St. John for example, the man who has been a persistent violator of the law and a burden upon society, to whom sympathy is extended and for whom work is found, is taking the place of a man who has never been in jail and who would be very glad indeed for the sake of his family to receive sympathetic consideration and to be given something to do. Misplaced sympathy does nothing whatever to lessen the social total of human misery, and falls utterly to reach the cause by which that misery is produced. Of two organizations, one of which deals with causes and the other with effects, which should command the most sympathy and support? It is well to show some consideration for what is called the "down and out," although in the vast majority of these cases experience has shown that only in exceptional instances do the results warrant the expenditure of time, money and sympathy. What is of infinitely more importance is to make the few less dangerous for the children, from whose ranks will come in later years the wastrels and delinquents of human society.

SOCIAL ENGINEER NEEDED A great many busy men and women in St. John at the present time are discussing social problems and means of bringing about improved conditions. This is a healthy sign, and it may be hoped they will not become discouraged in well-doing. It must have occurred to the most thoughtful among them that the greatest social need at this time is a trained community worker, who could direct movements, co-ordinate forces and get practical results. There never was a finer example of what can be accomplished in that way than is now afforded in connection with the Separation Army Metropole. Several trained men who know what they want and how to get it have organized one of the most effective combinations of citizens of various creeds that has ever been brought together to effect a common purpose. If there were in the city all the time a community leader, connected with no particular organization, but representing all of them in social work in which all are alike interested, there would be more practical work for social betterment. At the present time there is a disintegration of force because groups which are not federated in any way meet

and arrive at conclusions and pass resolutions without having the machinery to carry them into effect. Let us have a social engineer for St. John. Is it not time the board of trade again asked some questions about the St. John Valley Railway and the terminals at Courtenay Bay? No province in Canada has ever had a government with such docile supporters as the present government at Fredericton. Everything goes, especially the money; and no questions asked. The number of those who favor the appointment of a postwoman in St. John has been growing very rapidly. The authorities will no doubt take note of the fact. The reports from Ottawa indicate that the Borden government is having a good deal of trouble with its followers in regard to some suggested tariff changes, as well as the proposed bond guarantee for the Canadian Northern. The Woman's Council at its annual meeting dealt with many matters of importance. It is a representative body whose plan for action along various lines to improve social conditions should receive the respectful consideration of those in authority. The Fleming government has succeeded in increasing very materially the debt of the province, while it has spent all the money it could lay its hands on and increased the burden upon the municipalities. How much longer will the people of the province stand for an administration of this kind? Two thousand five hundred new settlers were landed at Halifax during the last few days. It may be hoped that they will not swell the army of the unemployed in Canadian cities, but that all of them are financially able to make a good beginning in their new home. There is as yet no authoritative confirmation of Mr. Baxter's assurance that the Conservative Club that he had in on good authority that the Empire steamships would return to St. John next winter. Some further information on this point would be greatly appreciated by the citizens. Those citizens who desire a good administration of civic affairs will be cautious about pledging themselves to candidates on personal grounds until they learn who all the candidates are. The ablest men should be elected, and a form of government which in the last two years has proved very successful should be given the fairest possible chance for the next two years. Rev. Mr. Harcourt addressed yesterday in his address on the Social Service Congress at Ottawa that the emphasis to day is placed not so much upon saving souls for a future state of happiness upon saving lives both here and hereafter. The distinction is important. Properly observed it means social regeneration. That was a significant statement made by Mr. Winston Churchill in his speech in Bradford on Saturday, when he said in relation to Sir Edward Carson's threats of rebellion in Ulster that the issue between civil government and an armed force had been fought out two centuries and a half ago at Marston Moor. The latest outbreaks of the suffragettes in Great Britain have been directed against art galleries, churches and other valued institutions. The more they attempt upon constitutional methods, the more they will deserve public contempt, and the more discredit they will throw upon a cause which under ordinary circumstances commands the sympathy of increasing numbers of people in all countries. By sending out to the country a grossly partisan summary of the Ouellet report on the Transcontinental Railway, the Borden government itself effectively discredited any injury the report might do to the Liberal party, and by the time the Liberal leaders in parliament had discussed the report the government and its cause had been thoroughly discredited as Mr. C. H. Cahan, who describes himself as a Tory of the Tories, declares that it has discredited itself.

THE HUSBAND OF DISS DEBAR AGAIN APPEARS New York, N. Y., March 14.—Papers have been placed on file here in a suit for the annulment of the marriage of Mrs. Harriet Sharp Jackson, to Francis Dutton Jackson, performed at Niagara Falls, N. Y., on December 16 last. Francis Dutton Jackson, it is said, is none other than the man who was known as the husband of a notorious swindler, Ann O'Neil, the Debar. Mrs. Sharp alleges that Jackson forced her to marry him, by hypnotizing her while pretending to give her massage treatments for headaches. She is more than seventy years old. Jackson is forty-seven.

BIRTHDAYS OF NOTABILITIES

MONDAY, MARCH 16 Lieut. Col. Lennox Irving, who was born fifty-one years ago today in Pembroke, Ont., was, in his student days at Queen's University a noted athlete. He was captain of the championship football team of 1886 and a member of the first Queen's hockey team, said to be the first hockey septette in Ontario. To him belongs the honor, if such it may be considered, of having scored the first recorded goal in a hockey match in the province. Today he has settled down as a country barrister, living in the town of his birth. Here he has taken an active interest in military affairs and was for several years commanding officer of 46th Regiment.

LIGHTER VEIN A Kansas farmer returning home late at night saw a light moving about the farm yard. When he investigated he found a neighbor's farm hand carrying a lantern. "What are you doing here?" demanded the farmer. "Courtin' a girl," replied the man. "No, sir," replied the farm hand as he moved off. "We can all see you didn't."

The teacher trying to impress on her children the rightness of kindness toward all animals, took them for a walk to bring the lesson home to them. Hearing a scream from little Johnny, she asked: "What's the matter, Johnny?" "I've been sitting on a hornet," was the tearful response, "and I'm afraid I've hurt the poor thing."

The teacher had explained the geography lesson when a questioner asked the forms of government, and had made an interesting talk to her third-grade pupils on the succession of kings, election of presidents, etc. This lesson occurred during the latter years of Victoria's reign, and to see if they understood clearly she asked a few questions. "Now Queen Victoria would die, what would the Prince of Wales be?" "No answer."

"Why do you remember I told you that the Prince of Wales was Queen Victoria's eldest son? Now if she should die, can't you think what he would be?" "One small boy knew. "An orphan," he answered.—The Delinquent.

Victor (to village reprobat): "Good morning, John! I am pleased that you turned over a new leaf, and that you have begun to attend our Temperance Society. I saw you in the hall last night." John—"Oh, is that where I was?"

MORNING NEWS OVER THE WIRES J. E. DeL Tache of St. Hyacinthe, P. Q., has been appointed King's printer at Ottawa, succeeding the late Chas. Farnelle. Fred Fisher, formerly of St. John, a son of W. B. Fisher, was nominated for the Conservative Club that he had in on good authority that the Empire steamships would return to St. John next winter. Some further information on this point would be greatly appreciated by the citizens.

The Canadian Vickers Co. will build a powerful ice-breaker for the St. Lawrence River. They have been given the contract at \$888,000. Commissioner Ross, commander of the eastern division of the Salvation Army, sailed for Canada from London on Saturday, greatly improved in health. About 3,000 passengers were landed at Halifax yesterday, and on Saturday from England. Several steamers arrived at the city before returning to the London Sunday Times announces that it is reliable information that the Duke of Connaught in Canada as governor-general will not be extended. It further states that he will visit the Yukon before returning to Canada in December next. Nansen, Germany, March 14.—Communication was held today between the wireless station here and one at Windhoek, Cape Colony, South Africa. The messages that passed were clear and distinct.

COUNCIL OF WOMEN

Reforms Urged at Annual Session — Magistrate Approves of Appointment of Policewoman as "Rescue Officer"

In addition to the report of the president, Mrs. T. H. Bullock, as given in the Times on Saturday, the Council of Women, at their closing session on Saturday afternoon, heard a report from Mrs. Alice Rising on the work of the "Daughters," and the annual report of the corresponding secretary, Mrs. C. N. Steeves. Addresses were given by Mrs. Lane, of Toronto, on the work of the Y. W. C. A., by Rev. Gordon Dickie on the need of a home for delinquent girls, and by Miss Constance Linton, of Toronto, on the work of the local council in that city.

Fearing that hunters might mistake their pet deer for a wild animal, and shoot at it, the citizens of Coaticook, Idaho, have equipped it with a large cow-bell, which is the distinguishing feature of Colonial Silver.

Was Confined To His Bed For Four Months With Rheumatism.

Mr. W. H. Riley, Ruddell, Sask., writes:—"It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured, and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who saw me then would not know me now, as I am strong and active since taking your valuable medicine."

THE CHURCH CROWDED

Parade Make Good Showing—Eloquent Sermon on the Day and Its Significance Preached by Father McLaughlin

In honor of the feast of St. Patrick, Ireland's apostle and patron saint, several of the Catholic societies of the city paraded to special service in the Cathedral yesterday afternoon, turning out in large numbers and making a good showing. They formed in King street east and marched by way of Sydney and Waterloo to the Cathedral where they listened to an eloquent sermon of Rev. C. McLaughlin, pastor of the great building was filled by those who paraded and a general congregation.

THE PUBLIC PRINTING

Monoton Transcript—When the Tories came into power at Fredericton, it will be remembered that there was much bombastic outcry about an alleged saving of public money by a contract for the Royal Gazette, at the rate of \$1,200 a year. Last year the contract expired, but was it renewed at the much vaunted price? Not the new contract was at an advance of \$600 a year or fifty per cent, and in addition \$69,438 was paid for extras in connection with the Gazette. In other words, instead of the Royal Gazette costing \$1,200 a year, it actually cost \$2,494.38, or an advance of one hundred per cent. over the vaunted original contract price.

Don't Let Your Truss Make Operation Necessary

Operation for rupture would hardly ever be heard of if it weren't for the mischief done by elastic and spring trusses.

Many few people ever have to be operated on when first ruptured.

But wearing makeshift trusses year after year is sooner or later sure to make work for the surgeon.

You know that from your own experience - you know that you in worse now than a year ago - you are only getting worse all the time.

Especially when you can make this sixty-day test without having to risk a penny?

60 Days' Trial to Prove How Good It Is

Here is something - a guaranteed rupture truss - which has saved thousands of people from ever having to be operated on.

It has so thoroughly proved its merits that we are willing to send it on 60-days' trial.

We'll make it especially for your case - make it fit you - and we'll guarantee to refund it to you just for a test.

It doesn't keep your rupture from coming out or from bothering you, in any way, then you can see it back and it won't cost you a single penny.

Don't Send Any Money Simply write for our free book - that will tell you everything you want to know.

It shows how our guaranteed rupture holder is made on an absolutely new principle. How it is made and automatically PROTECTS YOU against every strain you can make it fit you - and we'll guarantee to refund it to you just for a test.

The book tells how our guaranteed rupture holder - the famous Charles Automatic Mending Truss - is so beneficial that physicians in all parts of the world recommend it instead of advising operation. How it has completely cured thousands of people who were considered hopeless. How it is made of pure rubber and waterproof and will hold you up for such a long time that you can get on such a long trip without having to risk a penny, and how little it costs you to keep it.

This Free Book is Full of Facts Never Before Put in Print This book sums up all we have learned about rupture during forty years of experience. Shows just why elastic and spring trusses are the rupturee's worst enemies. Explains the "humbus" appliances, "methods," "plasters," etc. Explains why operation is simply always a needless gamble with death - and why, even if you manage to live through it, you may have to keep on working it for the rest of your life.

Sydney May Not Play This Year.

Montreal.—The maritime province unions, the Sydney team, may not have a chance to play for the Stanley cup this year, according to the announcement of President T. Emmetson, of the N. H. A.

The maritime title was finally decided last night, it being necessary to play a game in the National Association, to

play home and home games to break a tie between New Glasgow and Sydney. Had both leagues decided their championship over the ordinary schedule route, there would have been no difficulty about the post-season series, but there is every indication now that the easterners will have to wait. The Victoria club's games for the trophy cannot be completed before March 21. "If one team or the other wins the Victoria-Toronto series in three straight," said President Quinn, "there will be a chance for Sydney. But if the series runs into four or five games, which is quite possible, I'm afraid the easterners will have to wait until next season."

All Teams But Two Paid

Toronto, March 15.—With the exception of the Wanderers and Ontario, it is said here that all the other clubs in the N. H. A. made money this year. The Ontario and Wanderers are said to have lost each \$8,000. Canadiens made \$9,000, Ottawa \$6,000, and Quebec \$8,000, while Toronto will finish more than \$8,000 ahead. The Blue Shirts would have made more than this, but the injury to Cameron early in the season cost them \$1,500, as they had to buy and pay Com Corbea and George McNamara. The latter cost the club \$600 for his release from the Ontario.

Many friends in St. John heard the news of his death with regret.

ADDRESS EVERY DAY CLUB

At the Every Day Club last evening, James R. Brown said that in the United States in slavery days many well intentioned people sent clothes, Bibles, tracts and missionaries to the slaves in the south to improve their conditions. Today the people in dealing with social problems are not so well intentioned. The speaker contended that the single tax system, which would eliminate the land speculator, make vacant lands productive, and bring them within the reach of the people, providing more work and ensuring greater production, would do more than any one single reform that is projected to improve social conditions. Before Mr. Brown delivered his address, A. E. Beidling played selections on the piano, and E. A. Beidling sang a solo. Mr. Brown went to Fredericton this morning, but will return to the city on Wednesday.

HEAVY STORM ON COASTS OF ENGLAND AND FRANCE

The Swedish bark Tritonum was driven ashore on Lands End during Sunday night and Captain Olsen and four sailors were drowned. Storms all along the coast did damage to small craft and there also were several vessels wrecked in Queenstown and Liverpool harbors.

Paris, March 15—A terrific gale and the highest tide of the year tonight's made great havoc along the coasts of Normandy and Brittany. Three hundred feet of the sea wall at Graville were swept away. The damage at Dieppe was very great. Pebbles were washed in by the sea in such quantities that the River Seine was dammed-at its mouth and the valley of the river flooded for several miles.

London, Eng., March 16—Severe rain storms prevail throughout England and the country is flooded at many places. Several rivers have overflowed their banks.

At Queenstown several houses were unroofed, and the sea was so high yesterday that the Cunard liner Andania from Boston for Liverpool, was unable to land her passengers and had to proceed to Liverpool with her Queenstown pilot. The American liner Haverford was five hours late in starting from Liverpool, and did not call at Queenstown, and proceeded to Philadelphia, carrying her Liverpool pilot with her.

The cable steamer Telocita has for five days tried in vain to repair a broken cable and returned to Queenstown yesterday.

TWO YEARS IN PENITENTIARY

Judge Forbes Says Breaking into Summer Camps Must Cease

Two years in Dorchester penitentiary with hard labor was the sentence pronounced this morning by Judge Forbes on James Lockhart, a youth of about eighteen, who came before His Honor under the Speedy Trials Act on a charge of breaking, entering and stealing from several summer camps in Millidgeville.

On this charge the prisoner had previously pleaded guilty. He was arrested with a lad named Arthur Doyle, and both acknowledged their guilt. Doyle was out on suspended sentence and was a few days ago sentenced to serve three years in Dorchester penitentiary with hard labor. A warrant has been issued against Lockhart for stealing from his employer, but this was not executed.

His Honor said this morning that he was determined to put a stop to the breaking and entering of summer camps.

CAPT. W. R. KENNEDY'S HEAVY LOSS IN FIRE

His Beautiful Home Near New York Burned and Many Souvenirs Lost

Numerous friends about St. John will hear with regret of a happening in New York in which a former resident, Captain William R. Kennedy, sustained heavy losses by fire which destroyed his beautiful home at Monsey. The fire occurred a few days ago and made devastation of the property, which was one of the oldest in New York state. One of the papers of the metropolis described it as "a landmark of a century." It was one of the fine residences of one hundred years ago.

The home was valued at \$25,000. It was beautifully located at Monsey, about forty miles from New York city, and surrounded with extensive orchard and garden. His destruction by fire was not only a heavy personal loss to Captain Kennedy but to the citizens of Monsey the loss cannot be much regret for they looked with pride upon the rich, old-time edifice. The house was filled with rare souvenirs gathered to his savings from all corners of the world and these were practically all destroyed in the flames. In addition to this he lost \$200 in cash which had been kept in a piano in one of the rooms. Many pieces of rare old furniture were destroyed.

Friends of Captain Kennedy will learn of the loss he sustained with regret. He was a visit to his old home here about three years ago. It is about thirty five years since he first left St. John. He has been going to sea since he was sixteen years of age, and is known in many of the larger ports of the world, and particularly along the Atlantic seaboard. Captain Kennedy is a brother of George K. Kennedy of Somerset street and Mrs. G. M. Bennett of Duke street. It is understood that his loss was insured.

It is an old-time custom of this store to give away St. Patrick's Day these pots of Shamrocks.

We have for free distribution 2,500 tiny pots Shamrocks, which were grown from seed imported direct by us from Alexander Dickson's Son's Limited Royal seedmen of Belfast and Dublin.

These Shamrocks will be distributed tomorrow morning to first comers between the hours of nine and 12 o'clock noon. They faintly breathe of old Ireland and her patron saint.

Neckwear for St. Patrick's Day

We are making a special display of Green Ties for St. Patrick's Day. They are in plain and fancy effects. The newest novelties are plain green grounds with fancy Shamrock and Duden patterns.

Real Custom Tailoring

Amid Ideal Surroundings

Every worker is influenced by his surroundings. He's fired with the optimism of "I'll Do My Best," or frozen with the pessimism of "What's the Use!"

The best tailoring is done with a flood of daylight for prying eyes, a flow of fresh air for pumping lungs, and a glimpse of grass and river.

Our new remodelled tailoring shop is the most perfect in equipment and environment in the city. These perfect working conditions enable our experts to produce perfect fitting clothes.
