VIOLA REID IS FREE. REVOLVER BULLET ENDS THE LIFE OF NORTH SHORE YOUNG MAN. John Blaine Was Handing Loaded Pistol to Companion as They Were Driving—Dead Before Home Could Be Reached.

(Special To Times) Chatham, N. B., Sept. 29.—A fatal hunting accident occurred late last night near the Grand Downs, whereby John Blaine, aged twenty-one years, the only son of his widowed mother, Mrs. Annie Blaine, of Fabyville, lost his life. He was with William Currie in a team, and while passing a revolver in his companion it was discharged. He died before his companion could bring him home.

Currie himself very near collapse. He says that they were driving and had with them a revolver in case they came across any small game. As John handed the gun over to Currie, he held the butt first, so that the barrel pointed at his own body. As Currie took the gun it is thought that he accidentally pressed upon Blaine's index finger which was in front of the trigger. The hammer had been left uncocked.

EIGHTY-FOUR ACRES AT ROTHESAY ARE TRANSFERRED. Montreal Syndicate Buy and Will Prepare Building Lots—A Cheery View of St. John Prospects.

The transfer of a block of eighty-four acres of land at Robb's Bay, from William C. Innes and George W. Shoen to a syndicate headed by R. B. McDonald and R. G. McDonald, representing a Montreal syndicate, was completed on Saturday, when the deeds were delivered to the new owners.

REDMOND STRONG IN HIS FIRST SPEECH SINCE THE COMPROMISE PROPOSAL. (Canadian Press) New York, Sept. 29.—A cable to the Tribune from London this morning says John E. Redmond, by his speech at Cahiltree, in Kerry, yesterday, virtually killed all prospect of a settlement to the home rule crisis by consent.

The judge traced the movements of the prisoner from the time of her leaving the Evangelical House, going to the Dufferin Hotel, and taking the train to Fredericton Junction, until her arrival there. He went fully into the evidence submitted concerning it. He spoke of the finding of the body of the child and the various conclusions which might be arrived at regarding it—as to the possible intentions of the prisoner, if the body there—as to whether it was or was not alive when left in the bushes. He dwelt upon the various theories given, which upon each at considerable length.

His honor placed before the jury what might be considered the most important evidence. If there was any hypothesis in favor of the prisoner, he said, it must be adopted. If there was reason to believe that the evidence against her was sufficient to show that she had committed the crime charged, nothing should restrain their giving a verdict accordingly.

Richardson-Mackenzie. The Boston Post says "Miss Florence L. Mackenzie was united in marriage on Sept. 22 to Amasa L. Richardson of Somerville, Mass., by the Rev. W. S. Holland. Miss Mackenzie is a daughter of Mrs. Wm. M. Mackenzie of St. John."

JURORS WERE OUT ONLY HOUR AND QUARTER. GIRL IS DISCHARGED. Court Has to Stop Spectators Giving Expression to Feeling as Verdict is Announced—The Charge by Judge White.

After deliberation of one hour and fifteen minutes the jury in the case of Viola Reid, charged with the murder of her infant child, in the circuit court this morning before His Honor Judge White returned a verdict of "not guilty" and the prisoner was discharged on motion of the attorney-general, Hon. Mr. Grimmer. The verdict seemed to meet the approval of spectators who showed their interest in the case by remaining about the court room until the jury had returned, and who began to stamp their feet as though applauding, until the court was compelled to call for order.

The address of Judge White to the jury was most pertinent and of great value. It showed carefulness of thought and preparation and was given with able discretion. In opening he read over the indictment charging the prisoner with murder, explaining that the jury were really trying two offences at once. He likewise charged manslaughter. "If you," he said, "find that she is not guilty of murder you must determine whether or not she is guilty of manslaughter or not. I must instruct you as to what is necessary for the crown to establish as to what constitutes murder and what constitutes manslaughter. You are to judge as to questions of fact and of law. It showed carefulness of thought and preparation and was given with able discretion.

STABS TWO POLICEMEN IN NEW YORK "L" CAR. Foreigner Had Been Warned Against Actions in Annoying Young Woman.

New York, Sept. 29.—When warned that he must cease annoying a young woman sitting near him in a Second Avenue elevated railroad train last night, an unidentified foreigner became infuriated at the interference of Sergeant Joseph McEaney and Patrolman William J. Deesen. Drawing a knife, he stabbed both officers in the abdomen.

COLLISION OF AUTO AND CARRIAGE; THEN TRAFFIC LAW REPORT. As the result of collision between a carriage and an automobile in Mill street this morning, a report has been made in the police court by Policeman J. H. Ross, against Donald F. Pidgeon, on a charge of violating the street traffic by-law. The report says that Mr. Pidgeon in his automobile was driving along the wrong side of the street, and that in consequence of this a collision occurred between his car and a buggy in which George Raymond, of Bloomfield, and E. A. Schofield of this city were driving. The occupants of the carriage were thrown into the roadway and slightly shaken up, while the vehicle was considerably damaged.

ACTIVE WINTER IS PLANNED BY MEMBERS OF THE ST. PETER'S M.A. Plans for the winter season are now being considered by the members of St. Peter's M. A., and an active programme has been arranged, opening with a reunion tomorrow evening, in the room in Douglas avenue which has been nicely renovated. The success of the M. A. baseball team in winning the pennant in the City League has encouraged the members to make an effort for honors in other lines, so that it is probable that the hockey team will be formed, while plans will be made for a bowling and pool tournament. An interesting course of lectures and debates has been arranged for, opening about October 26.

GIVEN HIM TO PAY HIS DEBTS. Sulzer Plans To Tell Story On Witness Stand. AN EXPOSE OF TAMMANY? New York Governor Preparing Testimony in His Impeachment Trial—Contends Money Subscribed to Start Him in Office Clear of Encumbrances.

(Canadian Press) Albany, N. Y., Sept. 29.—Samuel Bell Thomas, one of the few Sulzer adherents who continue to see him daily, is authorized for a statement that Governor Sulzer's present intention is to take the stand before the high court of impeachment, in his own defence, as he believes no one can present his story as well as himself. Mr. Thomas expects a human interest story from Governor Sulzer and he believes it will at first startle the people of the state and then win their sympathy to such an extent that there will be a great public sentiment demanding that he be permitted to continue as governor.

Sulzer Preparing His Story. Governor Sulzer has been working night and day outlining the story he is to tell on the stand. The success of this story depends upon many personal references to the political activities of Charles F. Murphy and prominent Tammany legislators. (Continued on page 7, seventh column)

WORKERS OR SHIRKERS

(Ottawa Bulletin.) Those dairy farmers who are carefully noting the total production of each of their cows for the season are finding some curious differences. For instance, in one Ontario herd the yield of a nine-year-old grade that freshened March 5, was 4,080 pounds of milk up to the end of July; her stable mate, also nine years old, that freshened March 19th, receiving the same feed and care, gave only 2,970 pounds of milk. Warding Off "Old Age"

A London Physician says:—When a distinguished scientist like Dr. Newsholme, of the Local Government Board, warns us that we are ageing prematurely as the result of the strain modern life throws on our hearts and arteries, it is worth thinking what can be done to stop this health wastage. Dr. H. Strauss, of Vienna, in a recent number of the "British Medical Journal," makes the timely suggestion that much can be done to retard this premature wear and tear by paying a little ordinary attention to the diet.

Another Trial of Gatun Locks—Flooding the Culebra Cut

Panama, Sept. 29.—The tug Gatun was again passed through Gatun locks on Saturday, this time from Gatun lake to the sea. The operation consumed a little more than an hour and a half, as compared with two hours on Friday.

The first large vessel that will be passed through the Gatun locks probably will be a canal dredger on Oct. 9. The date for the admission of water into Culebra Cut by means of four 36-inch pipes extending into Gatun lake underneath Gamboa dike, has been advanced to October 1, five days earlier than originally planned. This is due to the cleaning up of the cut earlier than had been expected.

Calculations made by Acting Division Engineer Zinn indicate that the water will enter the cut at such a rate that by October 10 there will be fifteen feet of water all the way from Curacahe slide to Gamboa, a distance of about six miles.

A serious accident occurred about five o'clock on Saturday afternoon on the Loch Lomond road when a motor party, composed of F. E. Williams, owner of the car who was driving, A. H. Campbell, K. J. MacRae, J. H. Pullen, and John S. McLean, were thrown out of the machine when it turned a complete somersault. Mr. McLean was the most badly injured. He sustained a broken thigh bone by being pinned tightly to the ground by the rear of the car. Dr. T. Walker was summoned and Mr. McLean was taken to the hospital, where he will be confined for some weeks. Mr. Pullen had one of his shoulders painfully wrenched, while Mr. Williams' legs were bruised. Mr. MacRae was cut about the nose and lips, while Mr. Campbell was thrown clear of the car.

AN OFFER BY THAW'S COUNSEL. Poughkeepsie, N. Y., Sept. 29.—John F. Ringwood, of counsel for Harry K. Thaw, upon his return to this city last night from Concord, N. H., gave out a statement authorized by Thaw in which he said:

"Thaw will consent to waive extradition from New Hampshire and discontinue all the proceedings now pending and will voluntarily come to Dutchess county and answer the alleged indictment, if there be one in existence, if Mr. Jerome will make good the statement made at the hearing before Governor Peck, that an indictment was found and signed, by producing the indictment or a certified copy and forwarding the same to Governor Peck."

During the latter part of last week the tug Pejepocot owned by the Pejepocot Lumber Company, conveyed Hon. J. D. Hazen, J. A. Cowles, president of the company, Robert Connolly, manager, Hon. J. E. Wilson, Senator Daniel, W. F. Hatheway and W. A. Ewing to Quaco, where the work on the new wharf there is being carried on. The return was made soon after.

The Gurney-Oxford advertisement featuring an image of a kitchen range and text describing its features: 'Why it is the Best Range Procurable', 'It stands to reason that the foundry of national reputation for its equipment of the most notable hotel, restaurant, and institutional kitchens throughout the Dominion, also makes the best range on the market for the home kitchen.', 'Perfect Control. The entire range is controlled practically by one handle, called the Economizer. It turns around a series of six notches to determine the exact degree of heat required. Such control saves time, fuel and labor.', 'Saving of Fuel. Then again the special Reversible Grate saves coal bills by burning the coal to a fine white ash. No unburnt coal can lodge in the rounded corners of the firebox.', 'It's Sanitary Too. Its smooth, clean top is polished and requires no black lead. The Gurney-Oxford is "different" from all other ranges—its exclusive devices make an irresistible appeal to every woman.', 'CALL ON US—ASK FOR OUR NEW CATALOGUE, "STOVES AND RANGES" C. B. LAW AND THE HOME

Those who are interested in the welfare of women and children, and in the problem of protecting them from brutal and drunken husbands and fathers, will be glad to know that an amendment to the criminal code adopted at the last session of the Canadian parliament places a new weapon in their hands.

The following section has been added to section 242—
"Everyone is guilty of an offence and liable on summary conviction to a fine of \$500 or to one year's imprisonment or to both, who (a) as a husband or head of a family is under a legal duty to provide necessaries for his wife or any child under 16 years of age; or (b) as a parent or guardian is under a legal duty to provide necessaries for any child under 16 years of age and who if such wife or child is in destitute or necessary circumstances, without lawful excuse neglects or refuses to provide such necessaries."

Complaint is frequently made in this city of drunken fathers who neglect to take care of their wives and children. It would not solve the problem in every such case to have the man locked up for a year, but there are certainly cases where the family would be able to get along very much better if the worthless husband and father were put away. No doubt there are also cases where the fear of a year's imprisonment would prompt a man to remain sober and provide for his family. Indeed there are some men who do not properly provide for their families against whom the charge of drunkenness would not be brought. They are sober savages, to whom fear would speak much more strongly than duty, and upon whom the new law might be expected to have some effect.

So far as the children are concerned, some advantage has already been taken in this city of the Children's Protection Act passed by the New Brunswick legislature at its last session, but the full benefit of this law cannot be enjoyed until further legislation has been secured to incorporate a Children's Aid Society, and make it possible to provide a children's shelter and the necessary machinery to care for the little ones temporarily, and place them eventually in good homes.

SIR WILFRID'S LOYALTY

The St. John Standard loses no opportunity to question the loyalty of Sir Wilfrid Laurier. Today it quotes a sentence from a speech made by Mr. Borden in Halifax in which he said—
"The unity of the Empire cannot be maintained if its greatest dominion adopts a policy of scamping under the cover of neutrality in time of danger or of trouble." The Standard says that Mr. Borden here advocates the maintenance of British connection, while Sir Wilfrid Laurier denies our responsibility to the Empire. The Standard has not the fairness to say that it was Sir Wilfrid Laurier, who declared that "when England is at war, Canada is at war." Neither does it care to tell its readers that the Rt. Hon. Winston Churchill recently described Sir Wilfrid Laurier as "that Sir Wilfrid Laurier denies our responsibility to the Empire is a falsehood so gross that only an utterly reckless and irresponsible journal would give it utterance. The Liberals and their leaders are quite as loyal as the Tories and Mr. Borden. They do not, however, permit their loyalty to thrust them into a position of self-confessed inferiority, such as the Borden naval policy involves.

WEST INDIA SERVICE

An Ottawa despatch says that the minister of trade and commerce has closed a contract with the Royal Mail Steam Packet Company for a five years' service between Canada and the West Indies, beginning November 1. The steamers are to have a carrying capacity of 5,000 tons, with a speed of 11 or 12 knots, and suitable passenger accommodations. They will sail from Halifax direct and will return by way of St. John. It is announced that an arrangement has been made whereby perishable cargo may be taken from St. John to Halifax without increased cost.

There are two objections to this service. One is that none of the steamers sail direct from St. John, and thus this port is placed in a subordinate position when it should have at least equal treatment with Halifax. The other objection to the service is that the steamers are too slow. The Standard's Ottawa despatch says that a heavy subsidy is granted, and is contributed entirely by Canada. An effort is made to give Mr. Foster great credit for the establishment of this service, but it will probably be found before the term of the contract expires that he has been responsible for another very costly experiment, from which Canada will derive very little real benefit.

A correspondent of the Financial Times of Montreal describes Waterloo, Ontario, as "the Hartford of Canada," since it has the head offices of no less than five insurance companies.

COAL TRADE OUTLOOK

(Coal Age)
Bituminous operators again out of the market and tonnage difficult to obtain. Occasional congestion reported, but the season is now sufficiently advanced to look for a hard situation at any time. Wholesale anthracite continues dull.

The retail anthracite trade received a slight impetus during the week, due to the first appearance of colder weather. Greater activity is noticeable among dealers and consumers, but the movement is not of sufficient proportion to affect the wholesale situation. Mines continue working under curtailed production and some of the smaller sizes are still going into storage. The most interesting development during the week was the recent announcement of a proposed increase in the water freights out of New York harbor. The companies claim that this business has been done at a loss in the past and they are determined to eliminate all such unprofitable features of the trade.

Bituminous operators who were in the market a few weeks ago, have again withdrawn and the situation is notably stiffer. The short coal supply is having a steady influence while the spot market is stronger and the outlook even more perplexing. There is a particular scarcity of West Virginia grades and quotations are showing a strong tendency to increase on what little prompt coal is offered. The season has advanced to a point where a firm situation may develop very rapidly.

New York—Bituminous market steady and well supported and quiet. The normal withdrawal of the railroad buyers. Anthracite continues dull and production restricted. Retail trade production for Pennsylvania grades. Bargain rates on anthracite from New York to advance October 1.

Philadelphia—Anthracite trade is slowly becoming more active. Curtailed operations still continue, but there are indications of a recovery likely to be resumed shortly. Bituminous market continues strong with demand good, and prices on about a parity with the week previous.

Boston—Hampton Roads coal firm, and the outlook more perplexing. Receipts still heavy. Georges Creek in short supply. Signs of increasing demand for Pennsylvania grades. Bargain rates on anthracite from New York to advance October 1.

Philadelphia—Anthracite trade is slowly becoming more active. Curtailed operations still continue, but there are indications of a recovery likely to be resumed shortly. Bituminous market continues strong with demand good, and prices on about a parity with the week previous.

WEDDED IN SEATTLE

Frederick Glenzer—Word has reached Fredericton telling of the marriage of Mr. and Mrs. W. T. Whitehead, eldest son of Mr. and Mrs. W. T. Whitehead of this city, and Miss Margaret Hazel Girdle, said to be a Vancouver, B. C., young lady, on Aug. 18, in Seattle. Little is known here of the wedding, any more than it took place secretly and that Mr. Whitehead has since left his bride and joined the rush to the Shushanna gold diggings to seek his fortune.

TWICE PROVEN CURE FOR NERVES

Irritable, Hysterical, Sleepless, Dr. Chase's Nerve Food Restores Health.

There is a message in this letter for thousands of women who are suffering from broken-down nervous systems, sleepless nights, mental irritability over little things, spells of dizziness and nervous sick headaches are among the symptoms.

You may not realize the nature of your ailment until nervous prostration comes upon you. But, in whatever stage you are, Dr. Chase's Nerve Food is ready to help you.

Mrs. W. J. May, 88 Anson street, Toronto, writes: "Some years ago I suffered from nervous trouble, and took Dr. Chase's Nerve Food, which completely cured me. About six months ago I received a shock which again shattered my nervous system to such an extent that I was irritable and hysterical, and could not sleep nights. I began to use the Nerve Food again and was not disappointed. Improvement was apparent from the first box, and now I am entirely well."

HELD MORE C. P. R. SHARES THAN ANY OTHER MAN IN WORLD

Late James Ross Said to Have Owned 25,000 — Large Sum From Estate to Quebec Province

The late James Ross, millionaire railroad builder, who died at his home in Montreal on September 20, is supposed to have been the largest individual shareholder of Canadian Pacific Railway stock in the world. It is understood his outright holding of that stock was in the vicinity of 25,000 shares.

Mr. Ross, it is estimated, left an estate valued at from twelve to fifteen millions of dollars, and as there was no transfer to anyone up to the time of his death, the province of Quebec will come in for a vast sum in the way of sub-cession tax.

The name of the deceased engineer and financier is closely affiliated with the construction of the first Canadian Transcontinental railway, the C. P. R. At the age of thirty-five he was entrusted with the difficult task of building the road west of Winnipeg through the then Canadian wilderness. Two years later he had completed the line over the Rocky Mountains.

ANONYMOUS LETTER AIDS THE THEATRICAL MANAGER

Well Known Bank Burglar Big Factor in Success of Popular Play

No matter how cosmopolitan an audience may be, and this may be particularly applied to the first nighters of a New York theatrical production, one would scarcely expect a criminal, wanted by the police in practically every big city of the country, to publicly mingle with the people and freely express his opinions to whomever his neighbor might be. This is just the kind of thing that happened the first night, The Liebler Company produced "Alias Jimmy Valentine," to be presented by the Thompson Company, at their opening bill October 6, at the St. John Opera House.

No one outside the famous Jimmy company can realize just the amount of nervous excitement which attends an opening performance. To the producers the success of the first night may mean thousands of dollars; to the "star" his or her reputation as an actor; in the entire company, future engagements. So, from the call boy to the manager, all are in a state of expectancy until the morning papers are received and they read the verdict of the public as to whether or not the play is to stay a few days or many months.

This was the exact condition just before the curtain went up on the first act of "Alias Jimmy Valentine," some two years ago. Everything was finally in readiness, the orchestra began the overture, the players were waiting their cues, and in a few moments the house was darkened and the play began.

Valentine began his long and prosperous career. The first, second and third acts passed very uneventfully and enthusiastically received by the audience, but the fourth act, the act which they were positive would be the greatest climax of the play, did not come up to their expectations. Something was wrong, just what they did not know and had no means of finding out, as they had in rehearsing the act obtained all possible knowledge they could from the police officials and well known detectives of New York city as to the exact methods used by experienced bank robbers. They were greatly perturbed over the fact that the thrill which they had planned to make the biggest scene of the play lacked the intensity they desired to obtain.

However, the answer came the following morning from a most unexpected source. It seemed that a notorious safe-cracker, known and wanted by the police all over the country, had not been able to resist the temptation to see a play based upon the life of a fellow craftsman. He immediately saw the mistake which the last act contained. It was not in the writing of the act, but in a few stage mechanics which only one familiar with the methods used by safe-crackers could know. The next morning he sent an anonymous letter to The Liebler Company in which he informed them that no crook in the world using the methods which Jimmy Valentine employed to open the big vault could possibly do so in a light room with his eyes uncovered. The Liebler Company acted upon his suggestion and in the next performance of "Alias Jimmy Valentine," the last act showed Jimmy, blindfolded, working before the vault in a darkened room.

To this "crook" in real life "Alias Jimmy Valentine" owes its lasting success, for as originally played the most important climax was the weakest, while now it is said to be the strongest and most powerful ever written.

Why Coal Is Scarce.

New York, Sept. 27.—William V. Toffey, who controls the Jersey City Coal Company, declared at yesterday's hearing of the assembly investigating committee that the railroads are unable to supply the demand because of a scarcity of miners. Harry Bell, the expert employed by the Department of Justice to investigate coal conditions, denied this and said the trouble is that the colliers are working only 200 days in the year and that the operating companies have sought to curtail production.

The third session was held in Trinity parish hall during the afternoon and evening of Saturday, A. E. Stone, of Montreal, in the chair. The subject for discussion was "The Church's Problem: How to Get Boys to Work and Men to Lead." The first of these questions was dealt with by J. V. Johnson, of Lunenburg (N. S.), and Marilyn Harding, of St. John. M. E. Hildey, of Sydney, spoke on the problem of getting men to lead.

At 8 p. m. a special preparation service for corporate communion was held. His Lordship Bishop Worrell spoke on the Communion Service, bringing up many interesting points in an inspiring address.

Sunday morning's proceedings were more general than had been those of the previous days. A corporate celebration of Holy Communion was held in Trinity church at 8 a. m., and the regular morning services in all the city churches were marked by special sermons.

BROTHERHOOD MEETINGS CLOSED YESTERDAY

Church services, meetings and Sunday addresses, occupying Saturday and Sunday, completed the proceedings of the sixth maritime conference of the Brotherhood of St. Andrew, which began on Friday afternoon and terminated last evening with a farewell meeting in Trinity church.

The third session was held in Trinity parish hall during the afternoon and evening of Saturday, A. E. Stone, of Montreal, in the chair. The subject for discussion was "The Church's Problem: How to Get Boys to Work and Men to Lead." The first of these questions was dealt with by J. V. Johnson, of Lunenburg (N. Rt. Rev. C. L. Worrell, D. D., Lord Bishop of Nova Scotia, spoke at 10 a. m.

ternoon at the men's public mass meeting held in the Opera House at 4 o'clock, Rt. Rev. Bishop Richardson in the chair. Jesus Christ and National Life, was the subject of Bishop Worrell's address, which he opened by referring to the large gathering present as auguring well for the future.

In order to understand the relation between our national life and Jesus Christ, the speaker began, we must get to the root of the matter and investigate what would be the state of affairs were Christ actually at the head of our life. In the very beginning of Christianity, the apostles asked their Master how to pray, and He, in answer, gave them a prayer in which every human desire is concentrated. The first words of this prayer, "Our Father," show us the importance of the conception of God's universal fatherhood, irrespective of creed, nationality, etc. This great fact of universal fatherhood is the very kernel of our religious life.

Regular evening with special services were held in every church in the city, after which a farewell meeting was held in Trinity church, Rev. F. C. Ward, rector of St. John's church, Lunenburg (N. S.), being leader.

Five minute addresses were also given by W. A. Stepper, of St. John, Canon Vernon, of Halifax, editor of Church Work, and J. A. Birmingham, of Toronto, secretary of the Brotherhood, who briefly summed up the proceedings of the conference. The meeting broke up about 9.30.

His Lordship, Bishop Richardson, paid a glowing tribute to the work of the Brotherhood of St. Andrew in two

sermons yesterday. The first was in the morning at St. Paul's church and the night address was given in St. Luke's pulpit. Both were among the best the bishop has preached here and were listened to with intense interest by large congregations.

Today the bishop will go to Kingston to perform a confirmation ceremony.

Owing to the increased cost of manufacture steel pens have gone up in price. Note-paper and envelopes, however, remain stationary.

BEQUESTS OF JAMES ROSS

Montreal, Sept. 27.—Public bequests in the will of the late James Ross, president of the Dominion Coal Company, amounting to nearly half a million dollars, were made public yesterday. The list includes:

Montreal Art Association \$100,000
McGill University 100,000
Royal Victoria Hospital 60,000
Montreal General Hospital 50,000
Montreal Maternity Hospital 50,000
Alexandria Hospital 25,000
Ross Memorial Hospital 25,000

The estate is estimated at between twelve and fifteen millions.

Before his death Mr. Ross gave the Montreal Art Association more than \$100,000, and \$50,000 to McGill University and \$25,000 to the Alexandria Hospital. He also founded the Ross Memorial Hospital in Lindsay.

CURED ECZEMA LIKE MAGIC

Suffered for Years—Tried All Kinds of Treatment—Surprised at Results from Dr. Chase's Ointment.

You can soon tell when people are enthusiastic about medical treatment by the language they use. After experimenting with all sorts of ointments in a vain effort to obtain relief and cure, the writer of this letter was astonished at the quick and satisfactory results obtained by the use of Dr. Chase's Ointment.

"It worked like magic," he writes. Indeed, it is surprising the healing that is often effected in a single night by this great ointment. The stinging and itching are relieved at once, and cure is only a matter of time and patient treatment.

Mrs. Clements, 18 Strangest street, Toronto, Ont., writes: "I have suffered from eczema for years, and after using all kinds of ointments, at last tried Dr. Chase's Ointment. It worked like magic and proved a God-send to me. I would advise anyone suffering from eczema to try one box and be convinced." 60 cents a box, all dealers, or Edmanston, Bates & Co., Limited, Toronto.

USE THE WANT AD WAY

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "Fruit Laxative" Cleanses Stomach, Liver And Bowels

A harmless cure for sick headache, biliousness, sour stomach, constipation, indigestion, coated tongue, salivaceousness, take "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels. A tablespoonful tonight means all constipation, poison, waste matter, fermenting food and sour bile gently moved out of your system by morning without griping. Please don't think of "California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative can not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Your only difficulty may be in getting the genuine, so ask your druggist for a 50 cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." This city has many counterfeit "fig syrups," so watch out.

MR. SPENCE ON TEMPERANCE
"It is the greatest of modern reforms—this magnificent fight against a worst of human curses," was the cry in which F. S. Spence, president of the Dominion Temperance Alliance, opened his address in St. David's church at 1 o'clock yesterday afternoon. The church was not filled, but there was a very creditable audience.

"I need say much about the evil of intemperance," said the speaker, "because they are too well known. I intend to tell you something of the marvelous success the temperance cause has had since the Christian church took to the fact that it was her fight and her alone."

The speaker went on to say that the temperance movement was a comparatively new one, after all.

"But now," said the speaker, "every church preaching the gospel of Christ advocates temperance—no-ocast it as one of its cardinal principles; it vocates it strenuously, continuously, and ceaselessly. The statute books are loaded down with laws for the suppression of intemperance. And the suppression of ultimate suppression, my friends—of the phantasm traffic in liquor and of the eternal souls of men is just as certain as it is certain that the sun will rise tomorrow morning beyond the rim of our beautiful earth."

Mr. Spence spoke yesterday morning in St. Stephen's Presbyterian church just ending in Queen square Methodist church.

MAINE FIGURES OF LUMBER CUT

(Continued from page 1.) The operations have already commenced, but the camps are not all definitely located yet, and by the first of next month it is possible that figures will show somewhat of an increase in the proposed cut, although the amount will not be up to the usual cut in this section, which is normally close to 100,000,000 feet.

Some of the Cut—The following figures show the estimated cut of the various operators on the Maine side of the St. John river: Arthur L. Noble of Fredericton, N. B., will cut about 4,000,000 feet on the upper St. John waters for the St. John market probably the Stetson C. C. Cutler Company.

Albert M. Currier of Seven Islands, Maine, is to cut for the Stetson C. C. Cutler Company and plans to take out 8,000,000 feet on the upper St. John river. Naire Belletier of St. Francis, is to operate on the main St. John river and will cut about 10,000,000 feet on the main St. John river.

J. J. Wheelock of St. John, Maine, will take out 4,000,000 feet on the St. Francis river for his shingle mill at St. John and the general market. W. H. Camille's Sons of Fort Kent will cut from 6,000,000 to 8,000,000 feet on the Alleghash waters which will go to the Stetson C. C. Cutler Company.

The St. John Lumber Company of Van Buren will operate on the Alleghash waters to the extent of about 6,000,000 feet. The Fish River Manufacturing Company will cut about 15,000,000 feet on the Fish River waters for the mill at Maple Lake.

On the same river the Portage Lake Mill Company, which has the mill at Portage Lake, will cut about 6,000,000 feet, considerably less than usual, owing to the large amount of logs on hand. The Ashland Company is to cut from 8,000,000 to 10,000,000 feet on the main Aroostook river for the big plant at Ashland.

T. H. Phair of Presque Isle is cutting railroad ties on the Aroostook river waters and expects to take out between 180,000 and 200,000 ties.

GIVEN HIM TO PAY HIS DEBTS—Governor Sulzer will then his condition when he received the Democratic nomination for governor, to that of "Yan. McKinley when he was elected governor of Ohio. At that time Mark Hanna raised a fund of \$100,000 to clean up Major McKinley's debts. Regarding all campaign contributions which the prosecution is able to trace to Governor Sulzer, the governor will contend that they were given him for his personal use, because the donors knew that he was heavily in debt and they were well wishers of the governor's political future, who desired that he should pay off his debts before he assumed the office of governor, so that he could go in untrammelled and unafraid to do his duty, according to his own conscience.

Governor Sulzer himself has told his friends that he had no intention of using these moneys in paying off just debts before he became governor as he realized that a nomination last fall was equivalent to election.

The other important Sulzer witness is Frederick L. Caldwell, whose whereabouts is a mystery to the prosecution.

Regarding the Peck testimony that he was asked to perjure himself, Governor Sulzer's friends argue that it is a question of veracity as between the governor and the state superintendent of elections, and that the governor "can beat Peck to it" when it comes to a little matter of testimony.

FAMILY REUNION AT WICKHAM ON SUNDAY—The old homestead of the Black family at Wickham, formerly the residence of the late Dr. R. Black, and now occupied by his only surviving son, Robert F. Black, was the scene of a happy family reunion yesterday when the sons and daughters of the latter, for the first time in many years, assembled again under the same roof.

The members of the family present included Mrs. Helen Jones, Upper Greenfield, N. B.; Mrs. William Norton, New York; Robert Black, Jr., Boston; James W. Black, Moncton; Harry H. Black, Wickham; and A. W. Black, St. John. The Union Jack and the Stars and Stripes, flying side by side, formed a graceful tribute to the adopted country of some members of the family. A very pleasant day was spent and photographs of the group, which were taken, will help to keep fresh the memory of the occasion.

ATTACHMENT ON THE SARDINE YACHT RAISED—Eastport, Sept. 29.—The \$8,000 gasoline yacht, Mildred McColl, of the Canadian Sardinia Company, which was attached here on Sept. 18, by Deputy Sheriff Clarence Dow, for a bill of about \$800, said to be owed by a Boston marine engine company, was released late on Friday afternoon.

A short time later she was taken to her owners at Chamcook, sixteen miles up the St. Croix river from Eastport, and will probably not again be attached by the American creditors.

Lawyer I. G. McLaren of this city, representing the Canadian Sardinia Co., demanded the release of the yacht, and showed that she was included in the recent mortgage of the Chamcook factory property to the Royal Trust Co. of Canada, so the Boston creditors concluded not to fight the case further. There had been another claim against the yacht by the Eastport hardware firm of S. S. Wadsworth & Son, for more than \$1,000, but this attachment was withdrawn. All costs for local watchmen, etc., were paid by the yacht owners before she was turned over by the sheriff.

CANADA TO CUT TARIFF TO MEET NEW U. S. RATE?

Producers and Traders Now Ready For Big Trade With Southern Neighbor

Ottawa, Sept. 28.—With the enactment of the United States tariff bill in sight, Canadian producers and consumers are putting on their thinking caps and trying to find out how the bill will affect them.

There is one-half of the old reciprocity "pact" as its opponents two years ago always referred to it, about to become law. The United States is taking down the tariff bars that have for a long time been put up against Canadian products.

The Canadian consumer is wondering how he is going to be affected. No one can tell exactly what is going to happen, but there are signs aplenty that with the removal of the United States tariff bars in many cases and their lowering in many others, great changes will speedily occur in the character and volume of trade between the two countries.

That Canada's exports to the United States of the most important food products will increase enormously and almost immediately is a foregone conclusion. A glance alone at the list of distinctive Canadian products now subject to duty on entering the United States and now exported to the states in great quantities is sufficient to prove this.

Table with 2 columns: Commodity and Value. Includes items like Cattle, Sheep, Swine, Buckwheat, Oats, Bran, Flank and boards, Coal, Lard, Hides and skins, Fish, Eggs, Fruit, Agricultural implements, Explosives.

Great increases in the exports of all these articles are confidently expected. In fact in many of these lines extraordinary activity is evident at all the principal shipping points in anticipation of the date when the tariff bars disappear.

Cattle buyers, both Canadian and American throughout Eastern Canada are buying all the live stock in sight. In the Ottawa district and throughout Ontario and all along the Quebec-Ontario boundary, the cattle buyers are preparing to invade the Buffalo market.

In the interior of Quebec province and on the Montreal live stock market American buyers are seen everywhere securing live stock for the Boston market. At St. John, N. B., and at Halifax, the fish companies are looking forward to slating increases in their shipments of fish to the states.

The United States duty on fish is now three-fourths of a cent a pound. In spite of that duty the Canadians were able last year to sell to the United States fish worth more than five million dollars the prospect for doubling their exports during the next year seem very good. And so all along down through the list.

Cattle now pay duties on entering the states of from \$2 to \$3.75 a head up to 1 1/2 per cent of their value, and in spite of that heavy tax the Canadians sold to the United States last year almost a million dollars' worth. The duty on hay is reduced from \$4 to \$2 a ton, and last year Canada, in spite of that \$4 a ton duty, sold to the Americans \$3,197,727 worth.

The Nova Scotia coal companies, which sold nearly two and three-quarter million dollars' worth of soft coal, dutiable at 45 cents a ton, will unquestionably increase their output and their exports to the New England States.

Probably the most prominent thing about Fletcher is his chin. It is as noticeable as the Statue of Liberty is in New York bay, or the Washington Monument is to a party of Cook's tourists from west of the Mississippi, or as a balloon ascension in Yonkers. It is probably the most noticeable thing in the world. It sticks out in front of him as prominently as the chest of an actor on pay day. But so far it has not interfered with Fletcher's playing. He has never yet been featured in the literature of beauty specialists, however.

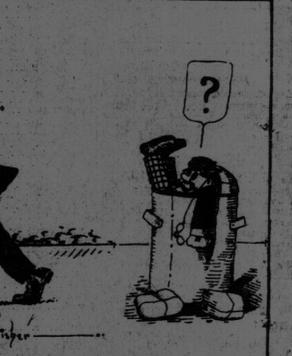

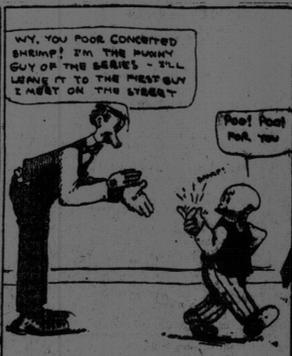

The Giants' shortstop is twenty-six years old and married. You can see from this data that he is a full grown man and a regular Big Leaguer now. He covers ground like a circus tent, and in pursuing batted balls, he has the average to the bone and lets the chips fall where they will.

He is not playing for an average, but for his club. He tries for everything. Fletcher first saw the light of day, such as it is, in Edwardsville, Ill., but he did not begin to play baseball until he was five or six years old, thus avoiding the possibility of his neighbors declaring he was a precocious child. Arthur got his first professional engagement in 1906, through Cluskey Barrett, at present scouting for the St. Louis Browns which is no criterion of his tastes in ball players. Barrett was then managing the Staunton, Ill., team of the Trolley league, so-called because all the jumps on the circuit could be made by Trolley, I suppose. I know no other reason for it.

It was not long before Fletcher slipped along to the Dallas club of the Texas league, where McGraw saw him playing and left word with "Doc" Gardner, a scout, to keep his eye on the young shortstop. So favorable were the bulletins which reached McGraw from Texas about the infielder that he purchased him in the middle of the season, and Fletcher reported to the Giants in the spring of 1908.

For a long time, Fletcher appeared as a utility infielder, that post which covers a multitude of sins and positions. At first Fletcher was nervous in the Big League.

ARTHUR FLETCHER, THE GIANTS' NIMBLE SHORTSTOP

New York, Sept. 28.—Many Giant rosters have been inclined to scoff at the work of Arthur Fletcher, the New York shortstop, in the past. He is a man who is rated much higher by players than spectators because they appreciate more fully his value to his club. No less an authority than John McGraw says Fletcher has the "nicest pair of hands" he ever saw on a ball player.

Probably the most prominent thing about Fletcher is his chin. It is as noticeable as the Statue of Liberty is in New York bay, or the Washington Monument is to a party of Cook's tourists from west of the Mississippi, or as a balloon ascension in Yonkers. It is probably the most noticeable thing in the world. It sticks out in front of him as prominently as the chest of an actor on pay day. But so far it has not interfered with Fletcher's playing. NOTE FOR REPEAL OF LEMIEUX ACT RECONSIDERED

But Labor Congress Says Hon. Mr. Crothers Application of it is Unsatisfactory — No Labor Temple Yet — Socialists Repealed

Montreal, Sept. 27.—For the third consecutive year the Canadian trades and labor congress has been dragged into a controversy over the Lemieux Act, and this year narrowly escaped asking for its repeal.

During the morning session a resolution asking that the act be repealed was rushed through to passage upon the recommendation of the resolutions committee.

Several minutes later Secretary Draper discovered that the resolution had been passed. He immediately moved that it be put again to the council. Scarcely had he commented his argument when Delegate Miller, of Toronto, appealed from the decision of the chair in recalling the resolution. The chair was sustained, and Secretary Draper once more started out to beg the life of the Lemieux Act. He expatiated on the fact that government had practically promised they would listen to suggested amendments to the act, and that these as far as advisable, but would not repeal the measure.

Vice-President Bancroft explained that the congress had twice refused to ask the repeal of the act, and the executive had gone ahead, taking the matter of amendment up with the government.

Delegates O'Dell thought they had decided at the Guelph congress to ask for its repeal. He produced the proceedings of that congress and read the section to which he referred, proving to his own satisfaction, and that of several others, that the repeal of the act had been demanded.

Vice-President Bancroft contended that the section meant that the repeal of the act was asked, only if amendments were refused. The congress had no right to ask something, he held, which would take away from them a useful club. If the administration of the act had been wrong, that did not affect the principle of the act, which was good, and in the interests of the workman.

The debate was long and involved with a final decision to reaffirm the congress' previous stand. What that stand was, did not appear clear to many of the delegates.

A resolution that the congress build a temple in Ottawa proved unpopular for numerous reasons, among which was a lack of desire on the part of the executive to mix in anything which would give opportunity for charges of graft and against them, as would be almost certain in the purchase of land and the erection of a building.

A final attempt by the Socialist faction of the congress to have their platform concurred in by the trades and labor body met with failure.

ROYAL BRIDE UNHAPPY?

Berlin, Sept. 27.—The more or less detailed rumors of the existence of serious differences between the houses of Hohenzollern and Cumberland, which have been in circulation for some time past, received fresh impetus tonight from the report that Princess Victoria Louise, the German emperor's daughter, who was recently married to Prince Ernest August of Cumberland, will take an extended trip for the benefit of her health, probably to Corfu or the Riviera. She will be accompanied by the empress.

Prince Ernest August left yesterday for Garmisch, Austria, on what is reported to be a month's hunting trip. It was explained the Princess Victoria Louise was not well enough to take such a long trip, but the trip announced tonight is much longer.

On Thursday last the Tagblatt reported that a wrangle over the formalities in connection with the betrothal of the Princess Victoria Louise and Prince Ernest August had almost led to a split in the German imperial family and the withdrawal of the prince and princess from Germany.

A tablet marking the birthplace of Sir William Turner, principal of Edinburgh University, was unveiled at Lancaster on the 7th inst.

NEGROES KILL SEVEN AND ARE LYNCHED

Harrison, Miss., Sept. 28.—Two dyed rascals, mulatto boys, brothers, "negas," reign of murder here this morning ended only after three white men, 11 negro men, and a negro woman had been killed. Several persons were wounded and the two boys lynched. A serious clash between the races was prevented by the arrival on a special train, of a company of National Guardsmen, from Natchez.

The trouble started at about 2 o'clock Sunday morning, and continued until midnight until 10 o'clock, when "Wag" Jones, the eldest of the two boys, started the firing, was lynched just after the soldiers arrived, his brother, W. Jones, had been shot and killed by a soldier earlier in the day. Citizens of the town who had barricaded themselves in their homes then began to emerge at noon the town was quiet. No more trouble is feared.

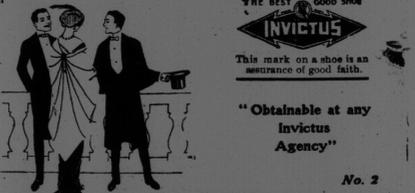

There's a Reason Said a careless young lady named Ann When she stepped on an empty busan "Now, what do you see?" "That you stare so at me?" And the bystanders cried, "Hosanna"

LOCAL NEWS

WENT BY AUTOMOBILE Not being able to make train connections a party of relatives of the late Mrs. Margaret Meahan, accompanied by Rev. D. S. O'Keefe, went from here by automobile on Friday evening to attend the funeral in St. Andrew's and returned to St. John after the funeral. In the party were Mrs. F. G. Mahoney of Miramichi, Westmorland; Hon. F. J. Sweeney and M. D. Sweeney, all cousins of Mrs. Meahan; and T. J. Sullivan of Farnborough, N. S., a brother.

STILL BORING The boring for natural gas near Sussex is being continued. The drill has now been sent down 1,600 feet, and it is the intention to continue the work until a depth of 2,000 feet has been reached, if necessary. There is strong hope that gas may be struck between 1,500 and 2,000 feet. The operators were unlucky enough to break a drill a few days ago, and this has caused some delay, but the work is to be resumed at once. The indications are said to be most favorable.

CHILD DEAD The sympathy of many friends will be extended to Mr. and Mrs. William J. Brundage in the loss of their little twelve year old daughter Amelia (Mulle), whose death occurred at their home, 129 Rodney street, on Saturday, after an illness of about four months. The funeral was held today at two o'clock. The child had been a pupil at Albert school, west side, where she was well liked by her little chums. Besides her parents, three brothers survive, J. Ralph, of Summerside, P. E. I., Dillmore and Russell, of this city.

WEST INDIA SERVICE BY ROYAL MAIL CO. AFTER NOVEMBER 1 Pickford & Black Lose Subsidy They Have Long Enjoyed Reduction in Cable Rates

The arrangement of a new steamship service between St. John, Halifax and the West Indies, to be performed by the Royal Mail Steam Packet Company, has been announced at Ottawa. With that company the minister of trade and commerce has now closed a contract for five years for a service from St. John and Halifax beginning November 1. There are to be four vessels capable of carrying 5,000 tons with a speed of 11 or 12 knots at sea, and suitable passenger accommodations. They will sail from Halifax direct to the West Indies, returning by way of St. John. An arrangement has been made whereby perishable cargo will be taken from St. John to Halifax without increased cost. As the company has the connections to both coasts of South America it will be possible to make through rates on Canadian goods to ports in the West Indies included in the trade agreement. Cable rates to the West Indies will be cut in half under a new agreement by which Canada and Great Britain will contribute a subsidy of \$2,000 per annum.

CATHEDRAL WELL FILLED BY WOMEN AT FIVE IN MORNING

Mission By Redemptorist Fathers Was Opened on Sunday

Soon after half past four o'clock this morning, while yet night held its sway over the city, Waterloo street and the avenues leading to it became astir with women making their way to the Cathedral of the Immaculate Conception for the first morning service of the mission opened on Sunday evening by Redemptorist fathers. By five o'clock the large church was well filled, and again at eight o'clock for the second mass. This week the mission is for the women and next week will be for the men. The services are at five and eight o'clock in the morning and at half past seven in the evening. At the five o'clock service there is no reservation of pews and at the other services pew-holders must be in their places at the opening for after the hour the pews will be available for all. The priests conducting the mission are Rev. Fathers Kane, Walsh and Hogan, the latter, who is in charge, will arrive in the city tomorrow. The mission for the children was begun yesterday afternoon at 2.30 o'clock. The special children's services will continue each afternoon for three days following the close of the schools. A large number of children were present at yesterday's service.

HOSPITAL WAS TAXED TO CAPACITY LIMIT

The pressing need for greater accommodation at the General Public Hospital has been illustrated recently by the demands which have been made upon the existing facilities. The number of patients recently reached a total of 124 and this taxed the hospital to the limit. The chief contributing cause of the congestion was the fall epidemic of typhoid, but since new cases have become less plentiful and the earlier patients have been discharged, conditions are easier at the institution and there is now sufficient room for all ordinary demands.

THE CABINET MINISTERS

Ottawa, Sept 29.—Hon. Thomas Crothers will return to Canada this week. It is not expected that he will be transferred from the government to the bench for some little time. The managers of the Conservative candidates' campaign are planning to have him address meetings in East Middlesex. Hon. J. D. Hazen has returned to Ottawa. Hon. Robert Rogers has not made arrangements to visit St. John this week. He expects to remain in Ottawa for some time.

THE TYPEWRITTEN WILL HOLDS GOOD

Judge Armstrong Decides in Miss McGoldrick Case

CUSTOM MAKES IT SO

Judgment Given This Morning on Interesting Point and Will is Proved—Matter of Two Other Estates

At the opening of the adjourned hearing of the probate court today to prove in solemn form the will of Miss Elizabeth McGoldrick, the court stated this morning that the objection made by Recorder Baxter to the will that it was typewritten and not written, the act making use of the term "in writing" was probably the first time that the question had been raised in this province, and probably the first time it had ever been raised in a jurisdiction where, in the same statutory requirements are in force with an interpretation act identical with our own. Probably in Great Britain the most conservative conveyancer and engrosser would hesitate to use the medium of the machine in the preparation of so solemn a document as a last will but here, ever since the introduction of the use of typewriting machines the contrary has been the custom and, although this has not been for a very long period, still it has been sufficiently long to establish what might be called a custom which would no doubt be recognized by the higher courts. Accordingly the ruling is that the objection to the will on the ground that it is typewritten will be over-ruled. The court then announced that, upon the evidence already given by the witnesses to the will, a prima facie case had been established, and thereupon, no other witnesses being called the will was declared proved in solemn form, and Mary Alice Morgan, the executrix named therein was sworn in as such. Stephen B. Bustin is proctor for the executrix, Amos A. Wilson, K. C., proctor, for one of the legatees, Recorder Baxter, K. C., proctor for one of the legatees who opposed the will. The estate is sworn at \$14,000 realty \$40,000 personal, a total of \$54,000.

The will of Mrs. Margaret Donahue, widow of Dennis Donahue, was proved. She directs that after payment of debts her executor shall pay the sum of \$50 to the Rev. Arthur W. Meahan, then rector of the Cathedral of the Immaculate Conception, or his successor in office for religious purposes, and a like sum to Rev. J. Joseph Walsh for like purposes, the balance of her estate she bequeathed to Patrick Costello of St. John, laborer, and she nominates her brother, Thomas Cogger, grocer, executor. He was sworn in as such. There is no real estate personally about \$165. John A. Barry is proctor. The matter of the estate of Howard D. Troop, merchant, J. Roy Campbell, the administrator with the will annexed, filed his accounts as such and asked to have the same passed and an order for distribution made. A citation was issued returnable on Monday, November 10 at 11 a. m. Messrs. Barnhill, Bwing & Sanford are proctors.

MUST MAKE TIME! IS ORDER ON I. C. R.

Accidents Only Reason Accepted For Delay Under Recent Bulletin

(Moncton Transcript) The following bulletin has been posted for some weeks at various points on the North Shore division of the I. C. R.: Campbellton, Sept. 16, 1913 To All Concerned: The General Superintendent writes as follows:— "Our passenger trains, especially the express trains, Nos. 15, 16, 23, 24, 199 and 200, are still making wretched time and such reasons as "heavy train and travel," "baggage and express goods," "delays in running time," etc., are given to explain such delays. These are not reasons and will not be accepted as reasons for losing time. You must do so, you will have to ask your master mechanic to pick engineers who can and will do so."

E. PRICE, Superintendent. "Losing time waiting at a station for a crossing train which is late in arriving. Asked as to exactly what this order means, a Moncton engineer said:— "It just means what it says, that no excuses except accidents, such as run-offs and break-downs, will be accepted when trains are late. It doesn't make any difference if the engineer is delayed twenty minutes at some station while a car of fruit is unloaded. According to that bulletin he's either got to make up that twenty minutes somewhere on the road or else another man will be put on the engine."

"If I have to haul a passenger train which is too heavy for the locomotive, that doesn't count at all. I've either got to make up the time or else it comes my head."

"It is simply urging us to reckless speed, under penalty of losing our passenger runs. You know what the result of reckless speed on the New Haven road was, and it would be the same here."

"In a nutshell, the drivers of the express trains are in this enviable position. If they run too fast, because of time lost through means over which they have no control, or because the train is too heavy, and a fatal wreck results, they are liable to indictment for manslaughter if they are lucky enough to escape with their lives. If they consider the lives of their passengers and do not run recklessly to make up time, Mr. Brady threatens to make them give up their express runs. Nice, isn't it? However, they have not yet succeeded any engineers, and I don't think they will try to do so. If they do, there will be compensation done about same."
