LABOR PARTY MEETS LOSSES

Australia State Elections Show a Set Back

MAJORITY SMALL

Latest Returns Show Only Two Seats to the Good—Lloyd George and the Veto Conference—England and Church Matters in Canada

Times' Special Cable Sydney, Aust., Oct. 15.—The state elections indicate a great decrease in the labor vote. It is believed the Wade majority has been wiped out and Ministers Hogg, Oakes and Moore are defeated. The latest returns show:—Liberals, 44 seats; Labor party, 46.

London, Oct. 15.—Because the veto conference will meet four successive days, Lloyd George telegraphed to Wales that it would be undesirable and difficult for him to appear as arranged at the present moment. Rufus Isaacs yesterday spoke in optimistic terms regarding the results of the conference in Manchester last night as having effectively brushed away rumors prevalent at the beginning of the week that negotiations had proved a failure. The predominant feeling in well informed circles here is that the conference is going to succeed, though it is held, as already explained, that great issues than the lords' veto will be raised. Rev. E. R. Weeks, of Winnipeg, addressing the Colonial Missionary Society yesterday said the policy of the veto was to starve churches which were likely to become self-supporting, and undertake missionary work themselves. Dr. Burford Hood, who said that the chaplain at Quebec up to August had met 1,600 Congregationalists on arrival and arranged that they should be provided with a minimum of financial assistance. He appealed for \$200 to be raised before the meeting of the Atlantic conference said that almost all preference and ordinary stocks of the company had been acquired by friends on the Pacific in accordance with terms of the circular of May 12. The report was that the chairman said the Dominion government led the company to believe a duty of 10 shillings a ton had never been imposed. The board was consequently surprised when asked to pay a royalty not only for the future, but \$19,884 in respect to royalty on the total output from the time of opening to the end of 1909. The report was adopted.

Bacon Market Today's Denmark boat landed 276 bales of bacon. The market is irregular, but the buyers' favor. Irish was reduced 2 to 3; Danish one; Canadian ruled quiet at 67 to 72, supplies being light. Canadian hams, long cut were near 84 to 86; medium cut, 84 to 86; fine 34 and 34, 6d.; finest deep red, 35c. 6d. to 36c. 6d.

John Rogers & Co's Liverpool cable today states that there was a strong trade in the Birkhead market and everything was readily sold, although prices did not advance any on last week's quotations. The undertone of the market rang firm and gave indication that there would be no reduction in prices at present, quotations being:—Steers, from 13 to 14 cents; Canadian steers from 12 to 13 1/2 cents, and ranchers from 11 1/2 to 12 1/2 cents a pound. The Standard thinks the copyright question in Canada is approaching settlement soon. It says, with respect to Mr. Fisher's effort to prevent American investment in literature that it is no disrespect for a great friendly nation to say: "we do not wish the process of 'Americanization' carried too far." Most Canadians are of the same opinion.

Paris, Oct. 15.—The Journal contains notice of the Algonquin Central and Hudson bay railway incorporated under the Canadian company law, having head offices at Sault Ste Marie and capital of \$10,000,000. It is authorized to issue \$6,750,000 in debentures.

In the free trade controversy he has been active as becomes a member of the executive committee of the Golden Club—for he believes that the preservation of the system that has built our great shipping interests is necessary to the national well-being. That is a skeleton of the career of Mr. Vivian since he became member for Birkhead in 1906, when by a majority of 100 he defeated the late Sir Elliott Lees. Prior to his election he had done much for the organization and education of the working classes and a sketch of his life is of encouragement to young men and should win the admiration of the older generation. He is a Devonian, and as proud of the fact as was Charles Kingsley, with whose views on the sweating evil he has so much sympathy.

NOTED MAN IS HENRY VIVIAN, M.P.

St. John Canadian Club Will Hear Him on October the 26th

CHARACTER SKETCH

Started Business Life as Carpenter—His Great Work in England in Solving the Housing Problem—Man of Many Activities

Members of the Canadian Club will have an opportunity on October 26 to listen to one of the cleverest parliamentarians of the mother country. In the person of Henry Vivian, M. P., for Birkhead, Mr. Vivian will probably speak on the subject of "City Garden Plots," a topic with which he is perfectly familiar and in which he has taken a very great interest.

A Sketch of Him The following character sketch of his career, which appeared in a London paper, will give an insight into the activities of the man.

Observers of national affairs have watched the progress of certain politicians with great interest during the life of the present parliament. Favored by circumstances strengthened by previous legislative experience, they have stalked before the notice of St. Stephen's, commanding universal notice. They are the front bench members of the government, and in the country their powers coming surely to the front. Among the most prominent of these is Henry Vivian, M. P., for Birkhead, whose appreciative parliamentary work has had the crowning touch given to it by the presence of Mr. Vivian, who is his friend, but only at the beginning of his career as a statesman.

The work he has done on grand committees in shaping the small holdings bill, has made him recognized as a sound and instructive parliamentarian. On the royal commission on canals and waterways to which he was appointed early in the life time of the present parliament, he has rendered good service and has acquired much information with regard to the canals of France, Belgium, Germany and Holland, as well as those of the United Kingdom, which should appeal to constituents of such a maritime town as Birkhead.

Recently parliamentary interest has been largely concerned with the housing and town planning bill introduced by John Burns—a measure of vast importance based upon the report of the select committee on housing to the membership of which Mr. Vivian was appointed, his advice being sought because of previous experience in housing questions—from the practical, building and administrative points of view. Similarly, too, last year he was invited by the home secretary to act on a departmental committee to enquire and report as to the cause of the great increase which has been noticed in the number of reported industrial accidents and their possible remedies. His acquaintance with working class conditions and active workshop life has made him one of the most useful members of the committee giving a thorough practical trend in the nature of the enquiries.

Apart from these conspicuous incidents in his parliamentary career, Henry Vivian has watched the proceedings of the house of commons with interest that it is no disrespect for a great friendly nation to say: "we do not wish the process of 'Americanization' carried too far." Most Canadians are of the same opinion.

Y. M. C. A. INTERNATIONAL CONVENTION AND BIG MEN WHO WILL ATTEND

Richard C. Morse, M. A., New York, General Secy, International Com.

Almost every city in Canada where there is a Y. M. C. A. established will have one or more delegates at the international convention which will open on October 28, in Toronto. Extensive preparations have been made for their entertainment and the Toronto city council for this purpose has granted \$1,500. An interesting and attractive programme has been arranged for the convention, which will last four days. The Times today presents pictures of men who will be prominent in the convention. It is expected that more than 2,000 delegates, representing a membership of 500,000 in the association will attend. Once in three years the convention meets to discuss vital matters, but not since 1874, a third of a century ago, has it met in Canada. This will be the largest convention ever held and representatives will be present from all parts of Canada, Great Britain and the United States.

I. C. R. WINTER TRAIN SCHEDULE

Time Table in Effect on October 24—The Changes in the Time of Arrivals and Departures

The winter time table on the International Railway will go into effect on Oct. 23, and it will be well for prospective travellers to take note of the changes in the train service. There is but little change from the schedule of last winter. The morning express No. 2 for Montreal and Toronto will leave at 7 a.m., instead of at 7:10 a.m. as at present, and will make better time to Montreal, arriving there at 10:15, and as usual connecting with No. 55 express for Campbellton. No. 28 express known locally as the A. P. R. will, as last winter, run through to Halifax, leaving St. John at 12:40 a.m. as at present.

There is no change in the time of the Sussex express, and No. 34, the connection with the Maritime express, will leave usual at 10:30. There is no change in the time of the night express for Halifax, No. 10, which will leave at 23:30. The suburban service between St. John and Moncton, No. 136 will leave St. John at 12:15; No. 138 at 18:15, and No. 139 at 23:30. The arriving suburban will be No. 131 at 7:30, No. 137 at 14:40 and No. 135 at 20:20.

There will be no change in the arrival time of the through and local expresses, except in the case of No. 123, the connection with the Maritime Express from Quebec and Montreal, which will arrive at 11:00 instead of at 10:40 as at present. The through express No. 3 and No. 4, between here and Point du Chene will go off the route until next summer.

BRITISH SHIP HAS RECORD LUMBER CARGO

Loads Five Million Feet at Portland, Ore., for Shanghai

Portland, Ore., Oct. 15.—When the British ship Knight of the Garter sails today for Shanghai with five million feet of lumber on board, she will break her own record for the largest cargo of timber ever put afloat. On June 10, she sailed from here with 4,920,000 feet of lumber, until today, the largest cargo floated.

WOMAN ASTRONOMER DISCOVERS NEW STAR

Cambridge, Mass., Oct. 15.—Another new star has been discovered by Mrs. Fleming of the Harvard College Observatory. There have been only sixteen stars found during the last twenty-five years and of these thirteen have been discovered by the women assistants of this observatory. The new star, whose approximate position is right ascension 16 hours, 53 minutes, 4 seconds; declination minus 82 hours 10 minutes 45 seconds, was discovered by Mrs. Fleming in the constellation Ara, on Thursday.

The Los Angeles Outrage

Los Angeles, Cal., Oct. 15.—Coroner Hartwell has set next Tuesday as the day for the inquest in the Times' disaster. Contributions for the relief of the victims' families now total \$27,000.

HIRAM SERIOUSLY AFFECTED.

"I see," said Mr. Hiram Hornbeam, "the Standard says that an expert in the New Brunswick road the best in Canada, and they compare favorably with any in the world. Well, sir—"

At this juncture Hiram was seized with a sudden spasm that convulsed his features in a most extraordinary manner, while a sound very like suppressed giggling issued from his lips.

SILIKER CAR WORKS DEAL

Halifax Brokers Make Offer for Messrs Rogers and Douglas Who Have Greater Part of Common Stock, and Special Meeting Called for Oct. 24

Halifax, N. S., Oct. 15.—F. R. McCurdy & Co., acting for Messrs. Rogers & Douglas, who have secured a majority of the common stock of the Siliker Car Co., Ltd. have made an offer to purchase the whole business of the company. The directors called a special meeting to deal with the offer on Oct. 24. McCurdy & Co. offer to purchase the whole business, property and franchise, including the entire assets and undertakings, and all unpaid calls due or accruing, due by and from members holding preferred shares, and to assume the outstanding liabilities and obligations in exchange for shares in a company proposed to be formed, the shares to be taken up by the members similar to those of the present company.

FIRST OF WORLD'S SERIES ON MONDAY

Overall Will Pitch for the Chicago Cubs—New York Match Receipts

Chicago, Oct. 15.—With today's game between Chicago and St. Louis, the National League baseball season will close. At 7:30 tonight the Cubs will leave for Philadelphia, where on Monday they will meet the Philadelphia Americans in the first game of the world's series. According to present plans, Overall is to pitch the first game for the Cubs in the world's series. He pitched the opening game of the series last year, and was successful in each contest. The National Commission's representatives announced last night that the number of paid spectators at yesterday's game between the Nationals and the Americans was 10,000. The receipts were \$8,672.50. Of the whole of Canada the condition of rye at the end of September was \$3.30, which is ten per cent. better than two years ago and 2.30 better than last year. Peas and beans are nearly eight per cent. lower in condition than a year ago, but wheat is ten per cent. better than two years ago. Corn for husking compared for the three years 1909, 1908, and 1908 shows percentages of 83.12, 86.77, and 82, and corn for fodder of 86.82, 87.18, and 92, for the respective years.

UNREST AMONG EUROPEAN LABOR

Hon. Mr. King Declares it Noticeable in Britain and Other Countries

Toronto, Oct. 14.—Hon. W. L. Mackenzie King, in the course of an interview here, said that, speaking generally, one could not observe a condition of unrest among the laboring classes in Great Britain and Europe. It had come about in large part through the increased cost of living, which was being felt generally and was especially noticeable in the large European centres. This unrest was part economic and part political, exhibiting itself in strikes and retaliatory lock-outs on the one side, and in an effort to secure governmental action or intervention in one form or another on the other. The workers seemed anxious to test the power of organization on a large scale.

WELLMAN AWAY IN BALLOON

Trial Trip May Become Real Ocean Air Voyage

A GOOD START

Engineer Said That They Would Not Return Until They Had Made Effort to Cross the Atlantic—Six Men Aboard the Airship

Atlantic City, N. J., Oct. 15.—The airship America, which has been preparing for a flight across the Atlantic under the supervision of Walter Wellman, was this morning given a trial. At 10 a. m. the great cigar-shaped balloon went up in the air and started seaward. In two minutes it had disappeared in the dense fog which prevailed. The trip was scheduled as a mere trial but the grim statement of Chief Engineer Merwin Vaniman that "We won't come back until we have had a try at Europe" is believed to mean that the men will not return unless some accident befalls the ship or the crew is forced back by adverse winds.

Just before starting Chief Engineer Vaniman informed Mrs. Vaniman and friends that there is every reason to believe that the almost perfect weather conditions will warrant the trip being continued in an effort to cross the ocean. Thousands of people were on the beaches and board walk at 8:30 a.m. watching for the big balloons to give a return was made by means of the American flag, which was being hoisted with the aid of a derrick. The balloons were being hoisted with the aid of a derrick. The balloons were being hoisted with the aid of a derrick. The balloons were being hoisted with the aid of a derrick.

LOWER AVERAGES IN CANADA'S CROP REPORT

Reduction Chiefly Applies to West East Showing Well

Ottawa, Oct. 14.—The census office published this week a bulletin on the condition of crops in Canada at the end of September. The reports show lower averages of condition for the whole of Canada than those of a year ago, but the reduction applies chiefly to the northwest provinces. In the eastern provinces a high per cent. is maintained for nearly all the crops, and quantity and quality are better than a year ago. In Manitoba, Saskatchewan and Alberta there is a drop of about twenty per cent. in the quality of grain and roots, but the threshing indicates that the yield will be larger for wheat, oats and barley than was promised at the end of August.

WINNERS AT THE NEW ORLEANS MEET

Sixteen Orleans, Oct. 15.—The winners in the all-time events yesterday were: Sixteen pound shot put—J. J. Elliott, Irish American A. C., New York; 44 feet 1 1/2 inches. 120 yard hurdles—R. Case, Illinois A. C., Chicago, time 17 seconds. One mile race—J. W. Monument, I. A. C., New York, time 4:38.25. 400 yard run—W. J. Hayes, St. Gregory A. C., Philadelphia, time 54 seconds. Pole vault—E. H. Schroth, Y. M. C. A., New Orleans, 11 feet 5 1/2 inches, breaking his own southern record of 11 feet 3 1/2 inches.

Alautian Islands Scene of a Terrific Upheaval

WORSE THAN EVER

Bagoslow Sending Smoke and Ashes Mile and Half in Air—Flames Mount High, Lava Runs and Huge Boulders are Thrown Far.

Seward, Alaska, Oct. 15.—The famous Bagoslow volcano, in the Aleutian Islands, is in more violent eruption than ever before, according to a report by the revenue cutter Tahoma. Smoke and ashes are rising a mile and a half above the crater, according to the triangulations made by the Tahoma's officers. Flames are shooting from the cone, lava is flowing down the sides, and huge boulders are flying high in the air. A lake in the centre of the Bagoslow is boiling.

The island formerly was the rendezvous of numerous sea birds, all of which probably perished. Not one live bird was visible from the Tahoma but great numbers of dead ones floated in the sea. The Tahoma anchored ten miles from the volcano, not daring to approach nearer. The cutter's decks were covered with hot ashes according to the former Mr. Burns arranged day in view of the magnificent spectacle, and in making photographs.

G. P. R. BUILDS TWO TUGS IN ENGLAND

Liverpool, Oct. 14.—Two tugs have been launched at Garston from the yard of Messrs. H. and C. Grayson, Limited for the C. P. R. They are named Musquash and Gopher respectively. They will be utilized for towing purposes in the river and docks in connection with the Canadian Pacific Railway fleet. They each measure 100 feet in length (between perpendiculars), breadth (moulded) 13 feet.

COMPROMISE OFFER BY SHELDON REPORTED

Montreal, Oct. 15.—(Special)—One of the largest creditors of C. D. Sheldon was called by him on Friday afternoon to the broker and asked if he would negotiate a settlement with the other creditors. The offer was spurned and he has been in New York immediately after the offer was refused.

STAGE FAVORITE DIES FROM YEAR OLD INJURIES

Chicago, Oct. 15.—Mrs. Josephine Bartlett Perry, wife of Harold Perry, of New York, known to the public as "Josephine Bartlett," died on Thursday night. From injuries received in an automobile accident in Chicago a year ago last spring, Mrs. Perry began a career on the stage in 1888 in New York.

Woodstock Man's Death

Woodstock, N. B., Oct. 15.—(Special)—Wm. Jones, a well known resident of Woodstock and formerly of Northdale, York county, died last night. He was ill only a short time with typhoid pneumonia. He was about sixty-five years of age. He is survived by his wife and three sons—Herbert of Hartland, Woodford of Fredericton and Hoove of Woodstock, and one daughter, Mrs. Stanley Hamilton of this town.

A Girl Succides

our roads. The only thing I'm afraid of is that strangers coming into town might find it a bit queer, or think they were in England or the states, or somewhere where they got good roads. If they thought they might go out for a spin on the boulevard, and come back in the ambulance, it ain't just right—do you think it is? "Well," pursued Hiram, "I must be gettin' busy. I got some things to do so I kin see them fellers run that foot race this afternoon. We got a long-guard young feller out to the Settlement that I'm gonto bring in next year to show 'em how to run. POLITICAL POT STIRRED OVER SUSPENSION BRIDGE REPAIRS

People in Fairville are very much amused over an incident which occurred a few days ago, in connection with some repairs being made to the Suspension bridge of the provincial government. It seems that the provincial engineer instructed the caretaker, Mr. Harris, to engage someone to make repairs to some of the overhead work on the structure. Following his directive in other years Mr. Harris arranged with W. J. Linton, of Fairville, to do the work. Mr. Linton ordered his materials, and had men ready to go on the job when it is said, a rumor reached Mr. Maxwell, that in the last election Mr. Linton had voted for the Liberal candidates. Mr. Linton and to engage supporters of the local government. Now the work is being done by Allyn Brothers, of Fairville. The humorous side of the story is, however, that Mr. Linton and all members of his family have been staunch Conservatives for many years, and the two men who had been engaged by Mr. Linton to do the work, Messrs. Cunningham and Miller, are life-long Conservatives. It would appear that a mistake had been made after all.

SHIPPING LEVIS DRY DOCK DEMAND TOO HIGH

Project Temporarily Hung up—Favorable View of Montreal Dock Scheme

Ottawa, Oct. 14.—It is understood that the plans and proposals of the Dominion Dry Dock Company for a \$4,000,000 dry dock of the first class at Levis have been referred back to the company after an examination by the engineer of the public works department, and unless the company makes a very great revision of its demand for a subsidy their application for aid is not likely to be approved.

The application of Vickers Sons & Maxim for subsidy for a first class \$4,000,000 dry dock at Montreal is likely to be favorably received by the government.

The British government has finally agreed to give Canada full control over foreign copyright in the dominion.

At the same time Hon. Mr. Fisher will introduce a new copyright bill into the Canadian parliament requiring a copyright in the dominion to obtain protection. This is in accordance with the Berlin convention of two years ago.

FAMOUS GEMS OF PROSE

NECESSITY FOR RELIGION BY VICTOR HUGO

From a speech in the French assembly.

GENTLEMEN, it is not because I would prevent religious instruction, but because I would prevent the union of church and state, that I oppose this bill. So far from wishing to proscriber religious instruction, I maintain that it is more essential at this day than ever.

Our first duty, then, whether we be clergymen or laymen, bishops or laymen, priests or writers, is not merely to direct all our social energies to the attainment of physical miseries, but at the same time, to lift every drooping head toward heaven—to fix the attention and the faith of every human soul on that ulterior life where justice shall preside, where justice shall be awarded!

SOME REMARKABLE RECORDS IN SHOOTING

Kaiser Brought Down 928 Pheasants in a Day—Lord Walsingham Killed 824 Grouse

The famous Dr. W. F. Carver, who on the last day of August, 1880, broke 1000 glass balls at Hamburg in 34 minutes, using six repeating rifles, is the holder of the record for having fired off the greatest number of cartridges in the day. It is estimated that he used 10,000 cartridges.

On Aug. 28, 1872 Lord Walsingham killed by his own gun 928 grouse, using six repeating rifles, with some small exceptions the income tax will be increased by lessening the exemptions.

The highest cableway in the world is in the Argentine republic. The line traverses a mountain stretch of 34 miles in the region of the Cordillera. It starts from Chulucillo, 2500 feet above sea level, and rises to an altitude of 16,000 feet.

Stockings first came into use in the 11th century. Before that time cloth bandages were wound around the feet.

MOTHERS WHO HAVE DAUGHTERS

Find Help in Lydia E. Pinkham's Vegetable Compound

Those who have become prematurely gray or who are troubled with scalp or hair diseases, such as falling hair, dandruff, baldness, itching scalp, etc., know full well the humiliation that they cause.

There is no need, however, of such conditions. These troubles can be quickly overcome by Crystals, the new drug recently discovered at the Creolo Laboratories at Scranton, Pa. Since its discovery, a little over a year ago, Crystals has been found to contain marvelous properties for producing a new growth of hair.

In subjecting it to various tests in the worst cases of baldness, dandruff, itching scalp, etc., the results obtained by the experimenting chemists were considered almost miraculous. In every case it was found that where there were any hair roots, it would produce a new and luxuriant growth of hair in from four to six weeks' time. Gray or faded hair was often restored to its natural color in from 10 to 14 days' time.

In cases of scalp and hair diseases, such as dandruff, falling hair, itching scalp, etc., it was found that these unsatisfactory conditions were corrected and often completely cured by two or three applications. The discovery of Crystals is without doubt, put an end to the hairless scalp and hair disease that has troubled so many men with the American People. Women who have been troubled with falling hair will greatly appreciate the marvelous product, aside from its many other virtues, it adds a beautiful gloss and lustre to the old hair. Besides it contains no oil and has a tendency to make the hair light and fluffy.

The managers of the Creolo Laboratories have endeavored to make the following remarkable offer: They will forfeit \$1,000 in gold if it is proved that Crystals actually grows hair. They will forfeit \$1,000 in gold if any one can prove they were the first discoverers of Crystals. They will forfeit \$1,000 in gold if it can be proven that it contains any oil, dye or coloring matter of any kind. They will forfeit \$1,000 in gold if every testimonial and sworn statement which they publish is not absolutely genuine. Arrangements have been made with the Laboratories to furnish free information in regard to this new process to all Daily Telegraph readers. Merely cut out and send in the coupon below, and you will receive free particulars of this marvelous new product by return mail.

Baldness, Dandruff, Itching Scalp, Etc.

POLITICAL TIE-UP IN MASSACHUSETTS CONTINUES

Boston, Oct. 14.—Political events today served to complicate still further the Democratic situation in Massachusetts. The secretary of state, upon the advice of the ballot law commission, rejected the name of Clifton Loring of Medford, as the candidate for lieutenant-governor, on the ground that the convention in Fannell Hall last week failed to make any nomination whatever for that office, and no committee had any power to name a candidate.

The convention did name a candidate for governor, Frederick W. Mansfield, with the idea that he would withdraw when a committee of four had selected a permanent candidate. The convention also named four other candidates for state office, and one of these, Z. E. Charest, for secretary of state, has withdrawn.

The Democratic situation tonight is as follows: As to the governorship, Frederick W. Mansfield, a Boston attorney, nominated by the convention, has until 5 p. m. Oct. 20 to withdraw. A special committee of four is designated over a substitute for Mansfield, and has until 5 p. m. Oct. 24 to make a selection.

For lieutenant-governor the party has no candidate, and can name none as a party, but 1,000 registered voters can make a nomination before 5 p. m. Oct. 17.

The party has no candidate for secretary of state, but the committee of four chosen to select a candidate for governor, has until 5 p. m. Oct. 24 to find a candidate.

The other nominees for state office are: Treasurer, General B. F. Peach, of Lynn; Auditor, Charles C. Paine, of Barnstable; attorney-general, John Ratsgan, of Worcester.

Edward Colby of Manchester, N. H., says that while he was casting his line into the brook in which he was fishing the line became entangled in a bush behind him and while he was figuring out how best to untangle it a sparrow swallowed the bait hook and all.

BOTH CONFIDENT COMMERCIAL
Cameron and Wood Ready for Race at 4 o'clock on E. D. C. Grounds
The Every Day Club track, which is one of the fastest in the province, is in best condition for the race at 4 o'clock this afternoon between Abbie Wood, of Montreal and Fred Cameron of Amherst. Both men are in the pink of condition, and it will be the greatest distance race ever seen in St. John. It is to be a twelve mile race.
Seen by the Times-Star this morning, both Wood and Cameron declared their determination to win, and fast time is assured. A wire from Montreal this morning indicates that great interest is felt in this race, as it is recognized that Cameron is getting up among the leaders in distance events. There has been a steady growth of interest locally in this great race, and a large crowd is expected. The race will start at 4 o'clock sharp. At the last race between Wood and Cameron at Amherst, 1200 people paid from fifty to seventy-five cents each and cheered themselves hoarse. Amherst is probably the greatest sporting town in eastern Canada.

OUT OF PARIS TO CHERBOURG BY THE HIGHWAYS

London, Oct. 15.—The following marconigram was received from the royal mail steamship Amazon last night:—"Over 100 first-class and a large number of second class passengers were together with their luggage, suitcases, etc., embarked at Cherbourg for Brazil and River Plate today, having been transported by road from Paris."
The passengers left Paris in the early hours of the morning in taxicabs, motor cars, lorries and other vehicles, wet weather with a gale blowing. After many exciting adventures they arrived at Cherbourg at 9 p.m. very fatigued and weather beaten, the ladies especially suffering.
The motor also brought a large quantity of mails which had been delayed in Paris. All were quickly embarked and the steamer left only six hours late. The passengers expressed their unanimous praise of the wonderful manner in which the motor service was organized by the Royal Mail Steamship Company.
"Nicholas Mihanovich a millionaire ship owner, returning to Buenos Aires, had almost the last passenger embarked, he having been delayed on the road by a slight motor accident."

EDMONTON MAKING MONEY ON SERVICES

Edmonton, Oct. 14.—That the whole deficit of \$100,000 on last year's operation of the electric light and power department will be wiped out this year and a substantial surplus provided in addition, is indicated by the statement of the department's revenue and expenditure for the ten months of the financial year ending August 31.
For that period the surplus is \$13,427.27, representing an expenditure of \$117,062.99 and a revenue of \$130,490.27. The estimated surplus for the year is \$15,000, but this will probably be exceeded. The much larger surplus which was shown on the department working earlier in the year was due to the fact that the statement then included the heaviest months of last winter, while in the present statement the winter surplus is balanced by deficits of the lightest months of summer. The indications are that the surplus will be so increased as to more than cover last year's deficit.
For the ten months the total revenue from the sale of electric light and power was \$120,000, so that in order to realize estimate it will be necessary that the present month should represent three months of the year, and the surplus show a total revenue of \$134,477.85, it is evident that this revenue will be much more than doubled during September and October.
A surplus of \$672.48 is shown by the statement of the telephone department for the ten months ending August 31. The actual expenditure during this period was \$36,614.84, and the revenue \$37,287.32.
The accounts in the telephone department are audited quarterly, the quarters corresponding to the calendar, and not the financial year. The collections during the present month will represent three months of the year, and three months of heaviest business in the department's history. It will not be until the end of October that figures giving an accurate showing will be available, but it is safe to predict that the surplus will be considerably in excess of \$10,000.
At the year ending October 31, 1909, the telephone surplus was \$14,577.10, but the deficit was \$10,000. This year it has to its credit the handsome surplus of, at the very least, \$25,000.

THE BACKDOWN IN MAYES DRESSING CASE

Another Misstatement by Tery Paper is Answered—Again, the Eloquent Figures
The Standard asserts this morning that the statement of the Times-Star that Mr. Mayes' claim for \$5,000 was not disputed by the crown is incorrect, and that the government requisited liability.
In reply to this it is only necessary to say that when the case opened Mr. Wallace, for the crown, offered to grant this claim if the others were withdrawn. This was before negotiations for settlement began.
Now what were the other claims? Five of them, for \$25,236; \$13,330; \$1,231; \$837 and \$1,247, making a total of \$42,181, were utterly abandoned by Mr. Mayes. Two others, one for \$5,000 and the other for \$1,500 or a total of \$6,500, were compromised for \$4,000.
Mr. Mayes also asked for interest on \$5,000, from August 22, 1908, and this also he abandoned.
That is to say, Mr. Mayes gets \$5,000, which was not disputed, and gets \$4,000 settlement for \$9,731 which he claimed.
Who backed down? Certainly not the public works department.

NOTED MAN IS HENRY VIVIAN, M. P.

(Continued from page 1.)
There was no science and art centre in the district where he lived, so he got into touch with the authorities at South Kensington, brought some students together and formed a technical school for himself, the subjects of applied mechanics, building, construction and geometry. The incident is characteristic of the man.
At the age of twenty-one he joined the Pimlico branch of the Amalgamated Society of Carpenters and Joiners, and became a large branch in London and within twelve months he was unanimously elected president of the district, and securing a series of important minor factors. Market literature and comment are more cheerful, though there are a good many stubborn bear views expressed, as usual at such time.

FINE FRUIT YIELD

And Some of the Apple Trees Were Planted 30 Years Ago
Spokane, Wash., Oct. 15.—Philip Miller, a pioneer rancher at Millerside, in the Wenatchee valley, central Washington, has just harvested sixty boxes or 3,000 pounds of fine fruit from a single tree in an orchard planted thirty years ago. Three other trees of the same age produced forty boxes each. These apples are of the Spitzenberg variety.
Other portions of the old orchard planted to Ben Davis trees will yield twenty boxes of apples each, while sixty trees of Rhode Island Greenings yielded 800 boxes, an average of thirteen boxes to the tree.
Pearl Hatfield has one tree in her orchard in the same district that produced seventy boxes, or 3,500 pounds of apples this season. Miller settled in the valley thirty-seven years ago and planted many of the trees he planted at that time are thriving today. He originally owned 320 acres of land. This was cut up into small tracts four years ago, and sold for \$150,000.

THE INLAND EMPIRE
Fruit Returns Show Big Increase—Wheat Less Than Last Year
Spokane, Washington, Oct. 15.—One hundred and seventy million dollars or about \$285 per capita, is the value of agricultural, forest and mineral products in the Inland Empire for 1910, according to reports compiled by A. W. Lindsay, cashier of the Fidelity National bank of Spokane, who has made a close study of the situation in this part of the northwest for twenty years.
"The value of this year's wheat crop, at the lower prices, is about \$33,000,000. To this must be added the wheat carried over from last year, bringing the total up to \$38,000,000. But this is not a fair figure, as the crop, principally because there has been a long season, was harvested far more cheaply than usual. In other words, the crop this year has a money value of \$41,000,000, as against \$40,000,000 last year. The crop of 1910 was valued at about \$54,300,000, but 10 per cent was held over by farmers."
Mr. Lindsay predicts that the production of minerals and lumber will be about the same as in 1909, when the value of the first named amounted to \$43,000,000 while the timber crop had an estimated value of \$10,250,000. He adds—
"It is in fruit that a big increase will be seen. The value of the crop was \$15,000,000 in 1909, and it is estimated that the yield will be from 35 to 50 per cent greater this season. This is owing to the fact that orchards planted so widely the last few years have come into bearing this season. Against this, however, must be set a lower price for apples."
"On the whole, it can be readily seen that the production of wealth within the Inland Empire for 1910 will not fall far behind, if it is all that of 1909. If the crops in the grain districts were not as large as formerly the difference is made up by a greater fruit yield, and the result to the community is the same as last year."

VISIT OF PRESIDENT HAYS

The chief event of local interest in St. John next week will be the board of trade banquet in honor of President C. M. Hays of the Grand Trunk Pacific, at the Union Club, on Thursday evening. Mr. Hays comes to inspect the site of the company's terminals at Courtney Bay, and the event is one of the importance of which, from the commercial standpoint, it would not be easy to overestimate. This city and province have much to gain from the advent of the new transcontinental, and the development which will take place at Courtney Bay within the next few years will be but the beginning of a great and continuous expansion. Looking back for a few years, and noting the change that has come about in respect to the position of St. John, in relation to the general trade and transportation system of Canada, there is ground for the most optimistic views of the future. The company which Mr. Hays represents, and he is one of the great railway men of the continent, will play a very important part in the future of the city and province. His visit next week is therefore an event of universal interest.

THE BEATEN PARTISANS

The Standard this morning returns to the Mayes case and attempts to weaken the force of the exposure in yesterday's Times-Star of the Hazen organ's unblinking attempt to misrepresent the facts. Today the Standard does not boast about the glorious vindication of Mr. Mayes, who sued for \$62,871 and cheerfully settled for \$6,750, but devotes itself to what it calls "Mr. Pugsley's backdowns." The false statement is repeated that Dr. Pugsley capitulated because he feared disclosure. Every reader knows perfectly well that if there were the slightest possibility of disclosure that would politically injure the minister of public works, Mr. Hazen would never have counselled a settlement. Having made the settlement, and thereby himself closed the door upon the disclosures at which he hints, he cannot now successfully assume the role of a political moralist yearning to purify public life. Friends of Mr. Mayes and Mr. Hazen have been talking in a mysterious way about "dreadful exposures" that would be made when this case came to trial. That was part of the political game. The dispute between Mr. Mayes and the department over the amount due him was seized upon by the politicians in the hope that in connection therewith they might in some way arouse suspicion or create a prejudice against the minister of public works. All hope of doing so faded when the man who sued for \$62,871 settled for \$6,750, and the disclosures failed to appear.

ALBERT OIL AND GAS

The gas and oil discoveries in Albert county are the subject of an interesting article in the Victoria Colonist, evidently from the pen of Mr. C. H. Lugin, who was once editor of the St. John Telegraph. Noting the fact that gas and oil have been found in Albert, and that pipe lines may be laid to Moncton and St. John, the Colonist writes:—

"It may be mentioned that twenty-seven years ago the St. John Telegraph published some information that had received which in its opinion justified a thorough prospecting of that part of the province, and urged that it should be undertaken. The idea was not entertained by any one with the necessary amount of money and dare the discovery of this valuable commodity was postponed for a quarter of a century. This seems to prove that sometimes the alleged visionary ideas of newspapers may not be so very visionary after all."

There was a time when Albert county was very much in evidence in the matter of illuminants. Some fifty years or more ago a mineral was discovered in that country that was thought to be coal. There was some keen litigation on this point, and those interested in such things will find the story in the Reports of the Supreme Court of New Brunswick. The mineral was densely black and glistening. It broke with a shell-like fracture and its edges were almost razor-like. It could be lighted with a match. As the result of the litigation a special name was devised for

it and it was called Albertite. As a matter of fact it was solidified paraffine. It occurred in pockets of greater or less size. The deposits were acquired by a company of United States capitalists, and the mineral was shipped away and refined into a very high-class illuminant. The pockets were soon worked out, and as the discovery of petroleum in large quantities and its commercial utilization were announced at that time, it was not felt worth while to continue prospecting for Albertite; but those who were well informed contended that there were probably many other pockets, and, as has been said above, afterwards a few people were convinced that oil and gas could both be found in quantity. The new announcement is therefore no surprise to persons familiar with the history of Albert county."

NAVAL CONTROL

The Conservative press seeks to convey to the public mind the impression that, because Sir Wilfrid Laurier has insisted upon the principle of autonomy in relation to the Canadian navy, therefore the navy will be of no use whatever to the empire in the event of an outbreak of war. This contention is well answered by the Montreal Witness, as follows:—

"In Sir Wilfrid's assurance that the Canadian navy 'would remain absolutely independent of the control of the Canadian government, and that it would not take part in any engagement in which the safety of Canada was not concerned without an order-in-council,' there is nothing to alarm the most sensitive loyalist. It was doubtless politic to give this assurance to an audience which might have been made more or less uneasy by Mr. Bourassa's bugaboos. But who doubts that such an order-in-council would be given the moment there was need of Canada's assistance to the Motherland? We believe that a government far more French in its tendency than the Canadian government would promptly send the required aid. Nay more, we almost believe that Mr. Bourassa himself when a few years have given him a broader outlook, will be eager that Canada should give the most thorough support to Britain in any hour of danger. Every one knows that the empire's danger is Canada's danger, and that in defending the interests of the empire Canada would be defending herself."

Why should the residents on one side of Germain street have a wide sidewalk and those on the other side a narrow one? Is this the last word in street engineering—or only Engineer Murdoch's word?

A Montreal despatch states that Principal Falconer somewhat astonished the provincial teachers in session there by stating that mere lapse of time would not make Canada the greatest nation the world had ever seen. There does not appear to be anything astonishing in the statement. A nation is great or otherwise according to the moral standards of its people and the character of its citizenship.

Sir Oliver Lodge—answering the question put to him by the editor of Public Opinion: What has science done for human progress in the last fifty years?—replies in that journal:—Fifty years ago Darwin's evolution theory was born indeed, but was passing through a tempestuous childhood. It was opposed not so much on scientific grounds, but because it ran counter to natural prejudices and contradicted some mistaken religious teaching. One of the results of the last fifty years has undoubtedly been a clearing away of a great mass of superstitious growth which clung to, and defaced the fair edifice of religion. The broadening and cleansing of man's outlook on the universe, the realization of his place in the scheme of things, and of the help which is expected from his conscious co-operation towards progress and enlightenment, are perhaps the greatest of all the results of the last fifty years."

THE TRUTH ABOUT THE HOBBLE

Hobble, little maiden,
Hobble as you go
Hobble to the party,
Hobble to the show,
Hobble to the ball room,
Hobble day and night,
Hobble if you want to.
But, gee, you are a fright!

Hobble, proud and haughty,
Hobble, meek and lowly,
Hobble dance naughtily,
Or devout and holy,
Hobble, I am married,
It's the truth I write,
Candidly, fair lady,
You're a perfect fright!

I'm not seeking favors,
I am fat and old,
Now my pulse is normal
And my blood is cold,
Frowns or smiles don't matter,
I'm above your spite,
Honest, hobble lady,
You're a holy fright!

Men in love dissemble,
Friends dare not offend,
Sweethearts all are liars,
On them don't depend,
Ours bald and old men,
Dare to face the light,
Sore, perhaps, you may be,
Still you look a fright!

A FEW DOSES MAKE KIDNEYS ACT FINE ENDING BACKACHE

Pape's Diuretic Regulates Your Kidneys and Ends the Most Severe Backache of Bladder and Urinary Misery

Don't wait until it settles into Dropsy, Gravel, Diabetes or Bright's Disease—the time to cure kidney troubles is while it is only a trouble.

The moment you suspect any kidney, bladder or urinary disorder or feel a constant dull ache in the back, sides or loins or a burning or itching or irregular passage of urine, begin using Pape's Diuretic as directed with the knowledge that there is no other medicine, at any price, made anywhere else in the world which will cure so thoroughly and promptly.

Pape's Diuretic acts directly upon the kidneys, bladder, and urinary tract; cleanses, vitalizes and regulates the ducts, organs and glands, ending at once such miserable symptoms as lame back, headache, nervousness, rheumatism, and darting pains, infrequent or painful urination, sleeplessness or suppressed, painful or frequent urination (especially at night) and other distress.

Don't be miserable another moment with a lame back or clogged, inactive kidneys or bladder misery, for after taking Pape's Diuretic a few days you will be relieved and know all danger is passed.

Your pharmacist, physician, druggist or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

AUTUMN WANDERLUST

I am restless, somehow, Bill,
As the air grows slightly chill
There's a tingle in my blood that comes
With Fall.
For the haze is in the sky,
And the ducks are soon to fly—
I can almost hear their leaders as they call.

I've been furishing my kit,
(Guns and all the rest of it,
And the outfit lying ready on a chair;
Boots and corduroys and hat
And my pipe—be sure of that)—
And the sweater that I always used to wear.

Hunting fever, I think,
Stronger than the thirst for drink,
Every year it leads me outward and I
To the haunts of beast and bird
Where the hunting call is heard,
And the reds are all-squiver to and fro.

Aren't you coming, Billy, too?
Oh, I know you've lots to do,
But you follow my example—let it slip
When the air is like champagne
It goes bubbling in your head—
And I take my rod and gun and lithe-ly slip.

Now, don't sit there looking glum,
Needn't shake your head, you'll come,
Though your act is good enough to fit
A play.
But you might as well confess
That your negative means "Yes"
For I saw you buying powder yesterday.
—Berton Braley, in Puck.

THE CUP AND THE SLIP

In fear and trembling Jonathan Jenkins took his seat at his office desk at 9:30 punctually. Of course it was most improbable that anything would be discovered, but his guilty conscience gnawed at his heart.

The "chief" approached him sympathetically.

"I understand, Mr. Jenkins," he said kindly, "that you had a half-day off yesterday to attend your son's funeral?"

"Yes, sir," murmured the quaking clerk, "and did all go well at the final ceremony?"

Jenkins looked up quickly.

"Oh, it wasn't the final sir," he said thoughtlessly shaking his head; "it was the semi-final."

OUR THIRTY-SECOND BIRTHDAY

It is just thirty-two years ago today since we started to develop our extension business, and every year of that thirty-two has shown an increase in the volume of business, giving unmistakable evidence that the people of St. John and vicinity have appreciated the values we have offered. Many and varied are the changes that have taken place since 1878. The most pronounced pessimist must admit that St. John has materially advanced and we have advanced with it.

The small beginning of thirty-two years ago has developed into one of the largest boot and shoe establishments in the province. To attain that enviable position has been no easy task, and would have been impossible but for the co-operation of the purchasing public. Our heartiest thanks are publicly extended to each and every one of our numerous friends and customers. In the future we shall endeavor, by every means in our power, to merit a continuance of that generous patronage extended us in the past.

Winter Overcoats

Have you seriously considered the importance of having your Winter Overcoat THOROUGHLY good, made of strictly all-wool materials, tailored with care and skill, and as perfect in the "inside" details as in the external parts.

A Winter Overcoat is exposed to all sorts of weather. If not THOROUGHLY good its original elegance soon wanes. It looks commonplace, shrinks or stretches, wrinkles—takes on the appearance of the ruffled plumage of a moulting bird.

Gilmour's Overcoats are genuinely good all the way through. They "stay young" and retain their clean-cut outline and air of sartorial superiority.

We do not hesitate to GUARANTEE them in both material and tailoring.

Grave Will Be Marked

North Shore Leader—Jack Sprague, a lumberjack, who died and was buried in the Miramichi woods seventy-eight years ago, will have his last resting place marked by a handsome bronze tablet. It will be erected to his memory this week by Guide Henry Braithwaite and John Ungar, W.

W. Stanton, C. E. Dinkley and H. D. Williams, sportsmen of Pittsburg. The gentlemen have been annual visitors to the Miramichi woods for several years and Sprague's lonely grave with nothing but a blazed tree to denote it aroused their sympathies and they decided to erect a tablet.

Fashion Hints for Times Readers

NOW THE HAT BOW IS AT THE BACK

Very few blocked felt hats are seen in the milliner's windows. Most of the models are of satin, silk, velvet or some other material folded or shirred over a frame. And most often the frame is a modified turban shape of some sort or other. The close-fitting turban pictured here is a favorite model, and this shape is particularly easy to manage by the same milliner. The top of the crown and edge of the brim are covered with velvet, the remainder of the hat being draped with handsome silk. At the back is placed the trimming—in this case a bow of satin ribbon, arranged in rising loops.

The Evening Chit-Chat

By RUTH CAMERON

LETTERS OF A SUCCESSFUL WOMAN TO HER NIECE.

DEAR NIECE—What's all this I hear from your mother, about your working evenings and lying awake nights worrying about some important document?

My dear Joan, you are right about the bread of independence being sweet eating, but let me tell you one thing. There's one mighty good way to make it sour on your stomach, and that is, buttering it with the butter of overwork and nervous exhaustion.

I don't believe you father will think that a few dollars a week repays him for having his jolly, sweet tempered daughter transformed into a nervous, irritable creature who flings off the handle over nothing and has hysterics every time her big brother teases her a little.

Of course, you are nothing like that yet, but that's the goal you seem to be aiming for.

Now, niece, no doubt, you've read a good deal in the newspapers, and so forth, about the clerk who doesn't see Miss Opportunity when she beckons to him, because he is too all-fired busy watching the clock.

Of course, there's plenty of truth in that kind of dope. But as usual, there's another side to that question. There's the man who's worked evenings and laid awake nights worrying over his business so much that he's too dead asleep to open his eyes enough to see the lady of the beckoning finger even when she shakes it right under his very nose.

To keep yourself bright, and alert, and efficient, is your duty, both to yourself and your employer.

And that doesn't mean that you should always refuse to work overtime either. That would be absurd. There are exigencies in every business that demand that occasionally, and the girl who has her hatpins all poised ready to run them into the correct holes at the first stroke of five, and who acts like an abused wife when her employer asks her to stop a few moments and take an important letter, loses as many jobs as she deserves to. But being asked to work overtime or in the evenings is a regular thing, is something that no girl could stand. When that happens it means that your employer is trying to make you do to work two-thirds. And you can't do that even though you think you'd like to except by drawing on the future. That means that some day you will have to pay up on that over-drawn account by not being able to do the work of one. And that doesn't pay.

Now for the lying awake and worrying. That's got to stop right here, niece. Believe me, if you spend your first year just learning to leave your work at the office when you come away at night, and learn nothing else, you will have done well.

And during that isn't lack of devotion to your employer and your business, either. It's the height of devotion.

Which do you think a business man would rather have come to work in the morning for him—a fagged-out, nervous girl who was so devoted to his interests that she spoiled her evening's relaxation and her night's rest worrying over a fancied mistake, that she couldn't correct until morning anyhow, or a bright, efficient young person who had put her business out of her head the minute she left the office, and rested and relaxed for all she was worth and came back to her desk with a clear, steady brain, ready to correct any past mistakes and to minimize mistakes in the future?

Well, then niece, why don't you prove your common sense by being the right kind and justifying the sky-high good opinion of.

Your fussy but devoted-to-your-interests
Old Aunt.

Daily Hints for the Cook

MUSHROOM CATSUP
Do not peel the mushrooms for catsup. Simply wash and break in bits, then place in a stone jar with an ounce and a half of salt allowed for each quart of mushrooms. Let them stand in a cool place for three days, stirring several times a day with a silver spoon. On the third day put over the fire in a porcelain kettle and heat slowly. In about half an hour the juice will flow freely, then strain through a hair sieve, return to the fire and simmer 20 minutes. Measure and to each quart allow an inch of ginger root, a blade of mace, a bay leaf, pinch of cayenne, an ounce each of allspice and black pepper. Boil down to half the quantity, which will require several hours. Stand all night in a cool place until clear and settled. Pour off from the sediment and bottle, filling the flask up to within an inch of the top and filling the space left with olive oil as a preservative. Seal tightly, dipping the cork in molten resin. The bottles should be very small, as mushroom catsup soon spoils when exposed to the air.

Spread Paste—It's COMMON SENSE!
If a house is over-run with roaches, bugs, and similar vermin, be sure to use COMMON SENSE Bug Paste. About 1/2 lb. of it is their last meal. 25c. and \$1. at all dealers.

GRAPE CATSUP
For grape catsup allow a pound of sugar to five pounds of the fruit. Boil the sugar in a cupful of vinegar for a quarter of an hour with half an ounce each of cloves, mace and cinnamon. Meanwhile bring the pulp and skins of the grapes to a scalding point, cool and rub them through a sieve. Add the pulp to the vinegar and cook for 20 minutes. If the catsup is too thick it may be reduced with vinegar.

GINGER CAKE
Cream together one half cup brown sugar, one half cup white sugar, one half (generous) cup lard and butter mixed, and the yolks of two eggs. Add one teaspoonful each of ginger and cinnamon, one quarter teaspoonful cloves and one fourth nutmeg. Mix together one cup molasses, one cup sour milk and one teaspoonful bicarbonate soda. Add this mixture to the creamed sugar alternately with three cups of flour sifted with one large teaspoonful baking powder. Lastly fold in the beaten whites of two eggs. Bake in a dripping pan. Frost with boiled frosting flavored with the extract of ginger.

GRAPE CATSUP
For grape catsup allow a pound of sugar to five pounds of the fruit. Boil the sugar in a cupful of vinegar for a quarter of an hour with half an ounce each of cloves, mace and cinnamon. Meanwhile bring the pulp and skins of the grapes to a scalding point, cool and rub them through a sieve. Add the pulp to the vinegar and cook for 20 minutes. If the catsup is too thick it may be reduced with vinegar.

OPPORTUNITIES FOR BOARDS OF TRADE

(Financial Post.)

The Financial Post's reference in its issue of September 24th to the alertness of the Saskatchewan Board of Trade has led the secretary of the Halifax Board of Trade to write us thus: "About a fortnight ago this board was the means of stopping what is believed would have been an advertising fraud in this city—the name of a local charitable organization being used for the purpose of soliciting money."

It was, however, by threatening to take legal action against the people, we succeeded in collecting a fair amount of money for the organization referred to, and are led to believe that the people who were about to perpetrate the fraud left this city much poorer, but wiser."

Evidently not all Boards of Trade, however, are on the outlook or are able to serve the community. The Central Alberta, of Westsaskatoon, published in its last issue a tirade against inefficient Boards of Trade, under the heading "A Hand-

THE ELGIN MEETING

(Sackville Tribune)

Some writing editorials for the St. John Standard recently used two or more columns of space in trying to belittle the Liberal gathering in Elgin, Albert county, and in attacking Dr. McAllister, Hon. C. W. Robinson and every one else who spoke at the meeting. The Standard's editorial board of late has been said to be composed of three politicians and as the St. John Telegraph well says the Standard's article sounded "very much like Mr. Hazen at his worst."

But the meeting must have worried the Conservatives a good deal to call forth two columns of Standard editorials. It will take more than the winning ways of Organizer Dickson to carry Albert for the Conservatives when the next local campaign comes on.

Thomas A. Frisell, said to be a consistent advocate of prohibition in the town of Hinesdale, advertises that his store is on the "sunny, light and sober side of the street."

Did you ever hear any one say they could not get good coffee except in the States?

I have heard it, scores of times, and it's one of the reasons that made me decide to go into the Coffee business.

Of the Americans who visit us in summer, hundreds take home a supply of Red Rose Tea because they have never tasted such good tea before. I determined to put up a coffee that would make for itself just as good a reputation. It has not been easy, but I am sure I have succeeded.

Estabrooks' Red Rose Coffee, put up in sealed tins is—well, it's good coffee. You and your American friends will say so.

You Can Work Near a Window

In winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

PERFECTION OIL HEATER Absolutely smokeless and odorless

You do not have to get close to the stove, which is usually far from the window. You can work when you wish and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with the filling of the indicator always shows the amount of fuel in the tank. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for re-wicking. The Perfection Oil Heater is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Dealers Everywhere. If not at yours, write for descriptive circular to the nearest agency of the Imperial Oil Company, Limited.

The home of Abraham T. Watters, a retired sea captain, of 63 Metcalf street, was plunged in grief yesterday afternoon with the sad tidings of his instantaneous death, while employed in stevedore work aboard the S. S. Manchester Commerce. Mr. Watters was acting as winchman, and about five minutes before he was to have ceased his labors for the day, they were brought to an end for all time, when an iron pivot attached to the lead block, connected with the front of the derrick, gave way and struck Mr. Watters on the head. The wire leading from the winch into the derrick recoiled, and striking him, swept him over the winch into the hatchway, where he fell headlong into the steamer's hold, a distance of about thirty feet.

So quickly did the accident occur, that his fellow-workmen did not realize its awful significance until all was over. Running to the place where he lay, they found Mr. Watters lying there had drawn his last breath. Coroner Berryman, gave permission to remove the body to the undertaking rooms of Mr. Chamberlain.

Mr. Watters was a man of very genial disposition, having a great host of friends not only in this city and province, but in many parts along the coast, where in bygone years he moored his vessels. It is about twelve years ago since he abandoned his work as a sea captain, and settled for a life at home with his family. Mr. Watters was sixty-two years of age, and is survived by his wife, three daughters, two sons, a brother and three sisters. The sons are—Edward, and Guy G., of this city. Misses Louise E. Watters, of Boston, Mass.; Gladys M. and Helen M., at home, are the daughters.

The funeral will take place from his late residence on Monday afternoon at 2:30 o'clock, service being held at 2 o'clock.

ARE KNOWN AS THE FARMER'S FRIEND

Dodd's Kidney Pills Doing Great Work in the Prairies

Michael Anderson Joins the throng who are shouting their Praises—They Cured His Gravel and Rheumatism

Pine Valley, Man., Oct. 15.—(Special)—Michael Anderson, a well known farmer, living near here, added to the number of those who have sworn to the efficacy of the farmer's friend, Dodd's Kidney Pills, when he writes that he has cured his gravel and rheumatism.

"A strain and a cold started my troubles," says Mr. Anderson, "and twelve long years I was a victim of kidney trouble, rheumatism and gravel. Doctors attended me and I tried many medicines, but they did not cure me. Dodd's Kidney Pills cured me in less than one month."

It is easy to do anything when you know how. Mr. Anderson went right to the root of his trouble. He cured his kidney by using Dodd's Kidney Pills and with the root gone the other diseases disappeared. Dodd's Kidney Pills always cures kidney troubles and with healthy kidneys, you can't have rheumatism or gravel.

LUMBER CARGOES AT BOSTON FROM PROVINCES

(Christian Science Monitor, Boston.) Large amounts of lumber, lumber, came up the harbor today from the British provinces in the holds of several schooners. Less than a week ago, the schooner required for the run from Windsor, N. S., by the three-masted schooner Archie Crowl, Captain Nicholson, when the American Captain Doucette, also completed a fast run from Salmon river. The Bobs, Captain Burrell, completed the passage from Clementsport, N. S., in three days, bringing besides her cargo of 13,000 feet of pine and 25 cords of wood, a bathtub and some other domestic articles.

The schooner G. H. Perry, Captain McDonough, also arrived today from St. John, N. B., and was over two weeks in coming here. This was due to the vessel putting in at several ports along the route, and when at Portland she was forced to lie at anchor several days, due to unfavorable weather conditions.

Mrs. Peter Boardman of Skowhegan, Me., who is 55 years old, is said to be the youngest great-grandmother in the young at great-grandmother in the state.

TECH GIRL TALKS IN BOSTON STREET FOR VOTES FOR WOMEN

A recent issue of the Boston Journal says:— "Mounted on a box in the glare of an electric light at Boylston and Charles streets, last night, Miss Florence Luscomb, graduate from the architectural course at Tech, a mere slip of a girl—held the attention of 600 persons for an hour in the chilly air while she propounded the principles of woman suffrage, which have found a zealous advocate in her mother for forty years.

"While she was speaking Miss Alice Carpenter, the presiding officer of the meeting, which was held under the auspices of the Massachusetts Woman Suffrage Association, patrolled the outskirts of the gathering, holding aloft a big yellow flag with the slogan Votes for Women for the benefit of the people passing along Boston street.

"Miss Luscomb declared that the seven million working women in America are looking for relief from their bondage through the ballot. It is perhaps the biggest thing to which we can give thought tonight," she said. "We call this country of ours a democracy, but it is not a democracy, because it has subjects in it. The women are the subjects. Women need the ballot today. There is no more reason for restricting the voting privilege in this country, to men than in restricting it to red-headed men. Miss Margaret Foley, the militant English suffragette who took part in the suffragette movement in Massachusetts during the past summer, was present and paid earnest attention to the Tech lassie, but did not make any remarks herself. Miss and Mrs. Edwin D. Mead were the other speakers of the evening."

The Pap-Fed Press

(St. Andrews Beacon) The Chatham World is punished for its independent attitude toward the provincial government by getting a very small slice of government printing. It says that "the bulk of the local government printing goes to a company in which the members of the government are stockholders. The insiders get the plums." The Gleason of Fredericton is one of the "insiders" that captures the greater part of the provincial printing plums. The auditor's report shows that nearly \$7,000 of government printing fell into its lap last year. Most of this was handed out without tender, too. Its righteous indignation when any one attacks the provincial government is easily explained.

MORNING NEWS OVER THE WIRES

C. D. Sheldon, the broker, whose sudden departure from Montreal has been much exploited, was heard from yesterday. His former manager and an agent both received letters dated New York, in which he said he had gone away to try to raise money. He said he hoped to soon be able to meet all his liabilities.

Mrs. Lillian M. Glover, widow of Clarence F. Glover, the murdered Waltham laundry man, has won a suit for possession of the Glover homestead. The property stood in her brother's name, but the evidence showed that her money had paid for it.

Thirty motormen and conductors of the Winnipeg street railway were dismissed on Thursday. They were charged with drinking while in uniform, and other violations of rules.

At a mass meeting in Moncton last evening, under the auspices of the Orange Order, there were addresses by Rev. Messrs. B. H. Thomas, E. B. McLatchey, D. MacOdrum, J. J. Pinkerton, W. E. Clarke, and J. L. Beatty. The first report of the recent articles in the press from Dr. Roche's speeches were largely in the nature of a reply to the utterances of Father Faugham at the Eucharistic Congress.

The general board of missions of the Methodist church, meeting in Toronto, yesterday, approved of a scheme for four great missionary organizations to unite in establishing a Christian University at Chengtu, West China.

Toronto, Oct. 14.—(Special)—Rev. Canon Tucker, secretary of the missionary society of the Church of England, was this evening released by the board of management to accept the rectory of St. Paul's cathedral in London (Ont.).

IS YOUR COAT DUSTY?

You Probably Have the White Scab of Dandruff on It. If your coat or shoulders have a white dust upon it, the chances are that it is from dandruff. The only way to permanently cure dandruff is to remove the cause, which is germ. Sewing's Herpicide kills the germ. Every dust table should have a tin of Herpicide, which contains a dose of the germ-killer, sweet and wholesome. It is so simple that something claimed to be "just as good," will not do the work. Herpicide is the Sold leading dermatologist. Send 10c. in stamps to The Herpicide Co., Detroit, Mich., or Dollar Drug Store, Montreal, E. Clinton Brown, Special Agent.

MORNING LOCALS

Capt. E. C. Elkin has been requested to appraise the damage to the schooner Helen M. Maguire, which collided with a British steamer in Boston harbor last Wednesday. He expects to leave for Boston on Monday next.

The general committee of the Every Day Club fair met last evening. Besides the club members fully a score of active lady workers were present, and great progress was reported by all the committees. At no period since the club was organized nearly four years ago, has it shown greater evidence of vitality than during the past week.

Yesterday was the 25th anniversary of the wedding of Rev. A. W. Daniel and Mrs. Daniel, of Rothesay. A large number of their friends gathered in the rectory to congratulate the popular pastor and wish him many more years of happiness. A pleasant evening was spent during the course of which a silver tray, suitably engraved, with a purse of gold, were presented to Mr. and Mrs. Daniel in behalf of the congregations of Rothesay, Goudale Point, Riverside and Hammond River.

The opening meeting of Herbert Booth's evangelistic campaign will take place in Main street Baptist church this evening. Tomorrow Mr. Booth will preach at 11 a. m. and 6:30 p. m. In the afternoon at 3:30 a mass meeting for Sunday school children, teachers and parents will be held when Mr. Booth will deliver his object lecture on Toys and Their Uses. Evening meetings will take place during the week at 8 o'clock, and afternoon services on Tuesday, Wednesday, Thursday and Friday for Bible expositions and addresses on the laws of spiritual life.

Ald. Potts, who will leave for Woodstock on Tuesday to attend the municipal convention, will, on his return, go to New York with Perry Superintendent Waring, to inspect several ferry boats for sale there.

Patrolman Charles H. Hughes, of the city police force, has been appointed chief of police of Campbellton. He left for there last evening.

An immigration society was organized last night to look after winter port work and assist foreigners. The officers are A. Poyas, president; Mrs. Louis Green, vice-president; Mrs. L. Isaacs, secretary; Samuel Lewis, treasurer.

An excellent concert was given in the Queen Square Methodist church last evening, when two new singers were introduced to local musical circles. Miss Gaetz, soprano and Hew Walker baritone. Both showed much talent. Miss Gaetz has a sweet, well trained voice. Mr. Walker sang Asthore with much acceptance. Others taking part in the programme were—Mrs. Goudou, in vocal selections; Miss Isaacs in readings; Mrs. Gunn, violin selections; Miss Hawker, piano and organ; and Mr. Bambury, in vocal solos.

Mrs. Margaret Selenka, widow of the Dutch scholar, Dr. Ernst Selenka, has been chosen to lead a scientific expedition that will soon start to the island of Java. The expedition is backed by the Dutch government and the Berlin academy of science.

If You Want to be Sure of Quality Buy

NA-DRU-CO

Medicinal and Toilet Preparations

You can't judge the quality of complexion cream, of talcum powder, of headache wafers, of indigestion tablets, or of laxatives, in the drug store. You must either take chances on their quality—or buy by the NA-DRU-CO Trade Mark.

You certainly take no chances when you buy any toilet article or medicinal preparation which bears the name NA-DRU-CO and this trade mark. As soon as you see "NA-DRU-CO" you can be absolutely certain that the article is the very best.

The National Drug and Chemical Company of Canada, Limited, has spent thousands of dollars in perfecting this line of over 125 NA-DRU-CO preparations. The formulae are the best known to medical science. The purity and strength of the ingredients are assured by rigid tests.

The compoundings are by expert chemists, who are thoroughly qualified to do work so vital to your health. Knowing that everything has been done to make them right, we guarantee, positively and unreservedly, each and every NA-DRU-CO preparation. If you find any one unsatisfactory we want you to return it to the druggist from whom you bought it and he will refund your money.

Ask your physician or druggist all about the NA-DRU-CO line. They are men of standing in your community, worthy of your confidence, and in position to tell you, for we will furnish to any member of either profession, on request, a full list of the ingredients in any NA-DRU-CO preparation.

The local men speak in the highest terms of the manner in which they were entertained.

NEW GERMAIN STREET LINES MAKE TROUBLE

Distance Between Houses and Curb Wider on One Side Than the Other

Residents on the west side of Germain street are indignant in the manner in which the lines of the improved street have been laid out by Engineer Murdoch. An arbitrary line for the curb has been run from Princess to Queen street without taking into account a deflection in Germain street near Duke. The result is that there is for a considerable distance a difference of three to five feet in the width of the space between the curb and the houses on the east side compared with the west side. The west side people argue that they are entitled to as great a width from the curb to the line of the houses as those of the east side, and they could have had it but for the engineer's insistence on an arbitrary line from Princess to Queen. They assume that if the line had made it necessary to move their houses back, or take them front out, the engineer would have heaved to the line.

It is said to be explained that, by adopting the arbitrary line, the street will be laid out that a person standing at the Stone church will have a clear vista down Germain street to the harbor. This assumes that persons who like vistas are the only ones to be considered. At any rate, there is a vigorous protest, but as the harbor country, the around which the line was laid this morning at the very place where the protest is made, it is evident that the Harasan company do not profess to lose any time while the matter is being argued with the engineer.

LAD HAD REVOLVER AND CARTRIDGE BELT

Thus Armed He Braved the North End at 1:30 This Morning

Two waitresses a boy and a woman, charged with wandering about the streets without accounting for themselves satisfactorily, were in the police court this morning, and were remanded. The boy is aged about sixteen years, Benjamin Waterworth, of New Bedford, Mass. He was arrested in Main street about 1:30 o'clock this morning. He evidently had the idea that the North End was a wild and barbareous country, as around his waist he wore a hunter's belt, swarmed with cartridges, and in a pouch attached to it was a long barreled revolver, every chamber loaded. The woman was Rebecca Blakeney, who told the court this morning that although she had lived for about three years in the city she did not know her way to her home when found in Water street at an early hour today. The police say they guided her correctly, but she would not go home.

POLICE COURT TODAY

King Comes Back on Several Charges—Trouble in a Workshop

On Tuesday last promising to take the pledge, Robert King, aged 24, was allowed to go in the police court where he was charged with drunkenness. Apparently, he did not bind himself to the pledge, as he was again in court today, charged by his mother with being drunk, disorderly, and fighting in her home in Brook street last night. The mother said that her son had come home and fought with his brother, and made things unpleasant for the others in the family. King was remanded. Michael Cogwell was fined \$4 on a charge of drunkenness.

The case against Ellsworth Tufts, charged with assaulting Rankine Grant, aged 16, and with using language to him in the store of Peter Campbell, where each was employed, was dismissed this morning. But D. Mulh, K. C. counsel for the plaintiff, said that he would appeal on the charge of assault. E. S. Ritchie appeared for Tufts.

The lad said that when he had been working in the place for four days, Tufts had called him insulting names, and had abused him by laying hands on him. The defendant denied that he assaulted the boy. The court found him not guilty of abusive language, but guilty of a technical assault, but because of its nature no fine was struck.

TRUANTS TO BE DEALT WITH SEVERELY

Before Judge Ritchie this morning a session of the juvenile court was held and the cases of three boys charged with truancy were dealt with. They are James Stackhouse, Herbert Pitt, and Walter Kelley. Young Pitt was allowed to go as he promised to attend school hereafter. Kelley was not in court, his mother appearing to say that she could do nothing with him, as he refused to go to school, or to obey her.

The Stackhouse boy was sent below to a cell by himself, while His Honor said he would consider whether or not he would give him a term in the Boys' Industrial Home. In future, said the judge, boys brought to court for truancy would not get off easily. It was told in court that Stackhouse slept last night in a barn.

FRESH FISH SCARC

The local fresh fish market is about cleaned out and to use the words of a prominent wholesale fish merchant "people who want to eat fish will have to eat salt fish."

The recent heavy gales are given as the cause of the present situation as fishing has been greatly interfered with and hitherto rendered impossible. Pinched conditions commenced to be felt about two weeks ago, and the supply shortened till there are practically no fresh fish to be had. "We haven't seen a halibut for a week and while there are a few halibut and mackerel, they're not far enough," said a disconsolate wholesale merchant. It is hoped however, that matters will improve.

Improve The Comfort of Your Home This Winter With a Glenwood Range

A Glenwood Range in your kitchen this winter will keep the frost out of your house and you will have your meals cooked right and you will enjoy solid comfort. The Glenwood Ranges are built with direct draft that enables you to get a quick fire on and have your kitchen warm and your kettle boiled in a few minutes. This is a very desirable advantage to a kitchen stove, especially on a cold morning. The removable grate, the sliding oven shelf, the patent nickel, the large clean-out door, the removable oven bottom, etc., all goes to make the Glenwood Range A1 in every respect and have been the means of placing the Glenwood Ranges in the first rank among stoves.

Ask those that are using them what they think of the Glenwood.
