

WESTMORLAND COUNTRY IN LINE

LABOUR LOSING HOLD ON QUEBEC

That Province Has Followed "The White Plume" for the Last Time.

As in Other Parts of Canada, the Tide is Running Strongly Against Liberals.

Many Nominating Conventions Reported Yesterday that Conservatives are Everywhere Gaining Ground Rapidly.

Montreal, Aug. 9.—The immense success of the anti-Laurier meeting at Three Rivers on Sunday has caused consternation in the ranks of the government supporters.

At previous meetings it was almost impossible to attract Sir Wilfrid Laurier in this province without the strongest dissent, but now he is being assailed even in Liberal strongholds.

This shows clearly that the independent French-Canadian voters are up in arms against the government for its administrative sins.

MR. AMES AGAIN. Montreal, Aug. 9.—H. B. Ames, late member for the division of St. Antoine, once again received the Conservative nomination at the party convention tonight.

MR. BORDEN'S OPPONENTS. Ottawa, Aug. 9.—Hon. Walter Scott, who has been spending some time in Ottawa left for the west tonight. He declared that Saskatchewan "will do about the same" in the federal election.

MAY MAKE TROUBLE FOR MURPHY. Ottawa, Aug. 9.—It is the expectation of the men who were dismissed from the printing bureau by Hon. Charles Murphy, that they will be reinstated.

The men dismissed received their appointments in the civil service through the recommendation of Mr. George McLaurin, who retired from the Liberal candidature in Russell in favor of Hon. Chas. Murphy at the last general election.

CONSERVATIVE OUTLOOK BRIGHT IN NOVA SCOTIA

Party is Better Organized Than For Years and Sweeping Victory Is Expected All Along the Line.

Special to The Standard. Halifax, Aug. 9.—With the Dominion elections rapidly approaching, the two great political parties in Nova Scotia are preparing for the campaign with their fighting blood at its highest temperature.

So far as can be learned, every county in the province will be contested. Candidates have been nominated in several counties, and it is believed that all will have their men in the field by the last of next week.

Never before were the Conservatives so well organized in Nova Scotia as at the present time. Under the direction of Dr. Hays, provincial organizer, every county has been systematically put into excellent fighting trim.

Reciprocity will be the momentous question. The Conservatives in this province believe that the Fielding-Taft pact will sound the death knell to the Laurier government in Nova Scotia.

The fight, it is understood, will not be waged under strict party lines. Reciprocity will be the chief canvass of both parties.

Reciprocity will destroy the prospect of inter-imperial preferences and without a preference in the other parts of the British Empire, no industry, agricultural or otherwise, located in Canada, would enjoy any advantage over a rival industry situated south of the border.

MR. BELL IN PICTOU. Halifax, N. S., Aug. 9.—A. C. Bell, of New Glasgow, was nominated by the Conservatives of Pictou County to contest the county in the Dominion election against E. M. MacDonald, the present member.

Special to The Standard. Halifax, Aug. 9.—The Liberals of Halifax county met in convention tonight and nominated Hon. A. K. MacLean, attorney general of Nova Scotia and Dr. E. Blackadar to represent the party in the federal election.

THE GRITS ARE FIGHTING. Ottawa, Aug. 9.—At the Liberal convention tonight Hal. B. McGivern received the English-speaking nomination by a unanimous vote, and A. Pinard the French on the first ballot.

As he is an English Protestant he is also the choice of that branch of the party. Mr. Murphy is depending upon the solid Irish vote, and a large section of the French as well as the Roman Catholic clergy in the lower end of the country have been actively opposing him, however.

STRONG MAN CHOSEN IN WESTMORLAND TO STRIKE BLOW AGAINST GRIT RULE

Councillor Siddall will Voice the Sentiment Against Reciprocity.

Selected on First Ballot at Sackville Convention and Enthusiastically Endorsed by Entire Party.

Conservatives Confident and in Fine Fighting Trim will Put Up Spirited and Successful Fight Against Hon. H. R. Emmerson.

Special to The Standard. Sackville, Aug. 9.—It was a large and most successful convention of the Conservatives of the grand old county of Westmorland, that met here today.

Five candidates were placed in nomination. Robert W. Hewson, barrister of Moncton; Frank B. Black, merchant, of Sackville; C. Lionel Hanington, barrister, of Berchester; Dr. O. B. Price, of Moncton; and Medley G. Siddall, municipal councillor, of Port Elgin.

Mr. Siddall received a majority on the first ballot; and on motion of Mr. Hanington, seconded by Dr. Price, the nomination was made unanimous.

Moved by A. W. Chapman, of Dorchester and seconded by George A. Fawcett, of Sackville: "That the convention desires to place on record its appreciation of the great services rendered the Liberal Conservative party in this county, and elsewhere throughout the province by the Hon. Josiah Wood, who by his energy and zeal for many years successfully headed the party in this county and its sincere hope States are may rapidly be restored to health and spared for many years to the public service."

Moved by Thomas Clarke of Moncton parish, seconded by James Keenan of Salisbury: "That this Liberal Conservative convention of the county of Westmorland place on record its high appreciation of and loyalty to our esteemed leader, R. L. Borden, and its full confidence in his ability to give the country honest and progressive government."

Moved by C. A. Blackney, Moncton, seconded by S. D. Gaudet and Frank B. Black: "That this convention desires to express emphatic condemnation of the trade pact with the United States and especially to condemn the action of the government in trying to force it through parliament without giving the people an opportunity to express their views in regard thereto."

There was a swing about the convention today that has not been

SOMETHING FOR EVERY NEW BRUNSWICK FARMER

The Toronto World publishes a signed statement as to Canadian live stock and Reciprocity from H. G. Whaley of Rice and Whaley, Toronto live stock market, which will be read with interest by every New Brunswick farmer.

But something else is undeniably true: that the only "wider market" that the farmer will get from reciprocity is a "wider market of COMPETITION."

Mr. Whaley says: Receipts of Canadian live stock at the port of Buffalo, for the year 1910, were as follows: Sheep and lambs, 2,445 head; cattle, 35 head; hogs, 2,106 head; horses, 127 head.

The receipts of sheep and lambs have gradually fallen off since the year 1899, when there were 197,086 head sold on the Buffalo market. Up to and until about that time Canadian lambs sold at a premium over American ones.

Under the present conditions I do not see how reciprocity would possibly help the Canadian sheep and lamb trade, as they have nothing to offer that suits the American markets.

I have sold great numbers of Canadian stocker and feeding cattle on the Buffalo market at 3 1/4 to 4 1/4 cents for the best with the common and medium stock steers, heifers and bulls at 2 1/2 to 3 cents.

It costs very little more, if any, to get them to the seaboard from the Toronto market. All classes of fair to good butcher cattle are higher on the Canadian markets than they are on the American side.

As a general rule, Canadian hogs sell from 15c. to 25c. per cwt. lower on the American markets than our own hogs.

Our firm does not handle horses, so I am not posted on the horse market here (Toronto), wanting to buy horses on the Buffalo market.

I have been handling Canadian live stock for the last twenty-five years on both sides of the line. The above are facts just as they exist at the present time.

MR. BLACK. Mr. Black, who as an extensive farmer, lumberman and business man, is well qualified to speak with authority in such matters, gave facts and figures and quoted in one case the experience of a Liberal firm in Westmorland in shipping hay to the U. S. to show that reciprocity would be of no advantage at the present time to our agricultural interests but rather the reverse.

Then came the nominations and when the vote was announced the victorious applause that greeted Mr. Siddall showed that while the convention had other good men to choose from, no mistake had been made.

VETO BILL VOTE CLOSED IN LORDS

COULDN'T MIX POLITICS IN THIS PICNIC

Col. McLean And His Henchmen Not Allowed to Speak at Foresters' Picnic in Queens County Yesterday.

Special to The Standard. Chipman, Aug. 9.—The hero of the peanuts and lemonade campaign met with a sad reverse today at the Range, about 3 miles from here. In company with Senator King and Hon. L. P. Farris he made a raid upon the Foresters' picnic being held here and attempted to carry it by assault and convert it into a political talk-fest.

It is expected that it will be some time before the colonel rallies up his courage and his forces and attempts to capture another picnic.

Some of the Foresters said they would be willing to give the Colonel a hearing if he would bring along his opponent, but they would not allow him to have things all his own way.

A good deal of amusement was created by the report in the Telegraph relative to the Colonel's meeting at Chipman on Tuesday.

Despite the frenzied attempts of the Grit press to confuse the issue, the fact remains that the people of Canada in ratifying the Reciprocity Agreement will be turning aside from the path that leads to Empire to follow the straight road that leads to Washington.

Lord Lansdowne, the opposition leader in the upper house, who followed Lord Morley, complained that it was quite clear that there was not the slightest prospect of the Unionist views obtaining a lot of consideration, if they persisted in their amendments. They have been voted down by the exercise of prerogative. There was no room for a compromise suggestion, and an appeal to the country had been scouted by the government.

When the Unionists returned to office, the opposition leader said, they could address themselves to the question of constitutional reform, and it would be awkward to find themselves confronted in the House "Dr. Pugsley tells of great harbor work," says the Times.

That is unnecessary. No one doubts Dr. Pugsley's ability as a teller. In fact his worst enemies are quite willing to admit that as a teller he is in a class by himself.

Instead of putting more men in the shops, their act after election three years ago had been to put men on short time in mid-winter and they had discharged hundreds.

Then Mr. Hanington evoked ringing cheers when he moved that the nomination be made unanimous. His

Insurgents are Still Fighting and Showing No Signs of Ultimate Surrender.

It May Yet Become Necessary for Government to Raise Majority by Creation of Peers.

Yesterday's Muster in House of Lords Greatest Since Days of Home Rule Bill—Debate Adjourned for Another Day.

London, Aug. 9.—The Lords' Veto Bill, bereft of the trills added by the Peers when it was last in their hands, re-appeared in the House of Lords this afternoon, but whether it is to be a farewell or only a penultimate appearance cannot be foretold.

Should the bill be thrown out its next coming to the Upper Chamber would be in the company of a battalion of new barons, strong enough to swamp any combination of Unionists.

Moving the consideration of the amendments of the House of Commons and the reasons for disagreement with the Lords' amendments Morley said that the Lansdowne amendment providing for the submission to a referendum of any grave issue before it received royal assent, had raised an inseparable barricade to an agreement between the government and the Unionist majority in the Upper House.

Lord Lansdowne, the opposition leader in the upper house, who followed Lord Morley, complained that it was quite clear that there was not the slightest prospect of the Unionist views obtaining a lot of consideration, if they persisted in their amendments. President Taft on The Reciprocity Compact

How the President of the United States Views Opportunity which Laurier Government has Given—Will Help to Conserve Timber Resources of United States at the Expense of Canada—Food for Serious Thought.

President Taft, in Leslie's Weekly for Aug. 10 gives his ideas of the effect of the Canadian reciprocity agreement. His statements are worth studying. He thinks, with certain reason, that in operation the bargain he made with Mr. Fielding will work to save United States timber resources at the expense of Canada's. He believes as regards farm products that under reciprocity more will go from the United States to Canada than from Canada to the United States, and he shows that now what he expects will be the rule is the rule. He argues that it is more important to the United States, wheat into the United States will not depress the price paid for wheat to the U. S. farmer, though the price of doubled under the agreement, and increased a few cents by access to the market nearer at hand, which will not reduce the price of his wheat to the American farmer.

Under reciprocity with Cuba, which reduced the duties on each side 20 per cent, our trade with that country has increased. Under the same reciprocity or free trade with Porto Rico our trade with that island has increased nearly 15 times; under reciprocity with the Philippines, our trade with that island has nearly doubled, in less than a year, and yet, in the case of each of these countries, there is no discussion, no bitter opposition and wild prophecies of disastrous results.

One of the great objects of the treaty is to give the United States an advantage over our own farmers, who live behind a high tariff wall, and to give them a great deal more for the cost of living than do Canadian farmers, whose protective system is not so prohibitive. This argument is not true in the case of the United States, which is not higher than that of England, and the duty being 33 1/3 per cent, less than that imposed on goods from other countries, the United States imports into Canada \$225,000,000 of goods of the widest variety of manufactures, all of them entering into the cost of living, while Canada, with the preference in favor of England, imports from England goods to the value of only \$93,000,000.

It is of the highest importance not only to the consumers, but to the manufacturers of print paper, in order that they may secure their raw material at a reasonable price, to regulate a letting down of the tariff on Canada for the exportation of pulp wood. The provinces of Canada have control over the pulp wood in which they are interested, and they have imposed restrictions and export duties of various kinds upon the pulp wood in the crown lands, in Canada, to prevent the export of the wood except in the form of paper. In order to induce the Canadian provinces, over whom the Dominion has no control, to accept the restrictions upon the exportation of their pulp wood, it is provided in the agreement that when paper is made in Canada from wood grown on land not under export restriction, the paper may come into the United States free; and it is hoped that the duty on paper from restricted wood will be lifted, in order to prevent the export of the wood except in the form of paper.

Canada's Farm Limitations... Canada is so far north that her agricultural products are not so valuable as those of the United States. She is limited to wheat, rye, barley, oats, potatoes, live cattle, horses and dairy products. She cannot and does not raise more than a small amount of corn, the crop of the corn of the United States. She raises no cotton, she raises but few vegetables, she raises but few hogs, because she has not the corn to feed them with; she is at present a great importer of all fruits, citrus and otherwise, from the United States; she imports a large amount of cottonseed oil, which the Canadian reciprocity treaty is now made free; she cannot fatten cattle here, even with the duty on them, and to fatten them for the Chicago market. The United States exports to Canada a great many more horses than she imports from Canada. She sends to Canada a much larger amount of potatoes than she receives from her. The United States exports to Canada about fifteen times as much of meat and dairy products as Canada exports to the United States.

SAINT JOHN, THURSDAY MORNING, AUG. 10, 1911.

THE DEGRADATION OF THE BENCH.

What The Standard protested against some months ago, as a possible outrage upon the administration of justice in Canada, seems now to have been consummated. Mr. Brodeur is to be, or has already been appointed to the Supreme Court of Canada. A man, who should never have been made a minister, and whose administration as minister was contributory to and coterminal with one of the worst exhibitions of graft, corruption and incompetency ever unearthed in a Government department, has at last to be got rid of.

Never a lawyer of any consequence, always known as a come and go in ward and political party contests, constantly depending, in default of more reputable equipment, on appeals to sectional prejudice, to race and creed susceptibilities, the bludgeon and the dollar bill for his political triumphs, and never suspected of any unnecessary fealty to fact or truth in or out of the House of Commons, Mr. Brodeur's training has certainly not been conducive to improvement in either his law or his practice. Discredited as a minister and broken in health, a place has at last to be provided for him, and, of all places, a seat in the highest court of the land is designated to hold him for the remainder of his life, be it long or short.

If Mr. Brodeur was of the right order of manhood, he would for his own comfort decline to be placed in such a position. A sensitive man would be sensible of his shortcomings and hesitate to enter a company where there would be so much in evidence to the public and so ever present with himself. A man who properly understood the meaning of the high service required and the high trust imposed, would shrink from seeming to undertake what he should well know he could not adequately perform. But Mr. Brodeur is neither sensitive nor troubled with extremely high ideals of service. He will take the position and wear the robes, and draw the salary. Fortunately there are yet men on the bench who can do the work they are so well able to perform, and overtake the margin which Mr. Brodeur cannot do. But they can never make up for the loss of one so adequate and helpful factor, and the injection of another who promises to be neither.

We beg to sympathize with the distinguished elder brethren of the Bench in their present affliction. But what of the Premier who is responsible for the appointment? He has degraded public office by many an appointment notorious for ineptness and inefficiency. He has degraded the Senate by making it a scrap heap for disused party heeled, and in this present appointment he has cynically informed the people that he holds the Supreme Court Bench as none too good for a resting place for his political incapabilities.

The Premier, who is capable of no higher ideals, and who considers the Supreme Court worthy of no better treatment than the appointment of Mr. Brodeur as one of its members, has surely finished his work and should be forthwith dismissed from responsibilities.

COMPETITION FOR THE FARMER.

It has probably never occurred to the New Brunswick farmer to take any interest in so distant a country as Argentina as a possible competitor in his home market. Secure within the safeguards of Protection, he has grown to look upon this market as exclusively his own. Should the Reciprocity Agreement with the United States become operative, the new conditions will prove a disagreeable surprise. Argentina is one of the twelve favored nations which will have the free run of the Canadian market. Any tariff advantage granted by Canada to the United States must also apply to the following countries: Argentine Republic, Austria, Hungary, Bolivia, Columbia, Denmark, Japan, Norway, Russia, Spain, Sweden, Switzerland and Venezuela.

Recent reports leave no doubt that the farmers of the Argentine will make active competitors when opportunity offers. Mr. Jules Hurst in a recent number of the Paris Figaro gives some interesting facts about Argentina and calls attention to the great progress which that South American republic has made in the last few years. Argentina, according to this writer, owes her rapid increase of wealth recently to the Italians, who have come into the country in large numbers and whose ancient genius for agriculture has done wonders in the transformation, from cattle keeping to crop raising. The Spaniard was inert and wedded to methods of farming that were centuries old; the descendant of the Caesars has become a modern agriculturist and uses the latest improved American machinery.

The land under cultivation in Argentina has increased ninefold in the last twenty years and the country is being developed by means of railways constructed with British capital. It will provide in the near future not only a large share of the world's meat supply, but also a considerable proportion of the grain supply. Mr. Hurst foretells the time, not far distant, when the country will be one of the controlling factors in the world's markets.

The free entrance of farm products from this great food exporting country alone will provide the Canadian farmer with a formidable competitor in his home market. Besides the advantages given to the twelve favored nations, already mentioned, and to the United States, the privilege of free entry extends to Great Britain and several of the British Colonies. Can the Canadian farmer see any advantage coming to him under Reciprocity, while thus placing himself open to world-wide competition?

"Larger markets in the United States" is the inducement held out to him. Let us see what the United States farmer is doing now with the tariff against him. In Ontario, where conditions are much the same as in New Brunswick, and the farmers are engaged in dairy, stock raising and fruit growing, a striking instance of what will happen under Reciprocity recently developed. The Toronto World publishes the photographs of two great droves of animals which had just arrived from Buffalo at the Toronto live stock market. In one case the animals were sheep, in the other lambs. These animals had come in to compete with the Canadian farmer upon his own market, and to lower the prices which he could demand for his lamb and mutton. They came in, too, despite the fact that there is a duty of 25 per cent. upon them.

Reciprocity will remove this duty. Will that benefit the Canadian farmer? Yet the advocates of Reciprocity ignore this feature of the deal. They would have the Canadian farmer believe that it is his mutton which will go into the United States market, not the American mutton which will come into his own.

Or take the question of horses. Hear the opinion of Senator Beveridge addressed to the farmers of the United States, and let the Canadian farmer who reads judge for himself. He said: "Take horses and mules, we now ship to Canada every year thousands more of horses and mules than Canada ships to us. Canada has an under supply of horses and mules. Comparatively we have an over supply. So the free interchange of horses and mules between this country and Canada means an enlarged market for horses and mules raised by our farmers. And our farmers want that enlarged market do they not? Why then should we make it hard for them to enter the market with their horses and mules?"

Senator Beveridge spoke also of cattle. His view is that the advantage is all with the American farmer. Dealing with the question of the home market the Senator declared that at no point could the American farmer be hurt by Reciprocity, but that on the contrary he would be helped in every way. And he gave another example. He said that though the United States were not able to get most of their manufactured products on the free list, as they earnestly desired to do, yet they did secure very heavy reductions in large numbers of them.

What this side of the issue from the standpoint of the Canadian farmer is carefully concealed from him. The fact cannot be denied that Reciprocity will open his home market to the competition of the millions of farmers in the United States, and make it a dumping ground for the farmers of the twelve countries under the favored nations clause. Does the experiment seem a safe or an inviting one?

What WIT!
The Standard wildly demands:—"Do Canadians want to lose the greatest market in the world? Do Canadians want to sever their connection with the Empire? Do Canadians want to sacrifice their Canadian nationality? Do the people of New Brunswick and the citizens of St. John want to see the winter port of Canada sidetracked for Boston and Portland?" One important question appears to have been omitted from this fearful list. "Why is a hen?"—The Times.

The following extract from Aids to Editors of Grafters Organs may help to explain the distressing situation: "When arguments are advanced by your opponents which cannot be disputed and the evidence is dead against you, don't be discouraged. Refer to the subject lightly, taking care not to make your opponents' statements intelligible, and wind up by asking some such question as 'Why is a hen?' The brilliancy of this repartee is calculated to send your readers into paroxysms of mirth and the want of an effective answer may be overlooked. N. E. This method will be found particularly useful in dealing with troublesome arguments against Reciprocity."

PLAIN TRUTHS FOR CANADIANS.
(Chicago American Miller.)

In a letter to Senators Clapp and Nelson of Minnesota, the millers of Minneapolis give some facts and opinions in regard to free wheat that are worth pondering. They say, for instance, that Minneapolis mills have a capacity to grind 100,000,000 bushels of wheat per year and that last year, an exceptionally good one, they ground only 70,000,000 bushels or practically two-thirds of their capacity. They assert that free wheat will mean \$1,000,000 MORE IN WAGES EACH YEAR IN MINNEAPOLIS; THAT FREE WHEAT WILL GIVE MINNEAPOLIS MILLS A CHANCE TO RECOVER THEIR FOREIGN TRADE AT NO COST TO THE GOVERNMENT, and state their belief that Reciprocity will not materially affect the price of wheat in the United States except possibly along the boundary. AT THE SAME TIME THE MILL OFFAL FROM THE 30,000,000 BUSHELS OF FREE WHEAT WOULD FEED MORE THAN 5,000,000 HEAD OF STOCK.

It might be suggested to Mr. Pugsley that he should arrange to supply free railway tickets to the farmers on occasions when they would prove more acceptable than as a bait to attend Liberal Conventions and listen to his arguments in favor of Reciprocity. The New Brunswick farmer appreciates the value of a protected home market and knows when he is well off, but transportation costs money.

Current Comment
(Ottawa Journal.)

What can a decent man either in Canada or South Africa who does not desire to consult racial prejudice or sectional selfishness think to himself candidly of the proposition: "We are British. We take every advantage of the privileges of the British flag. We reserve the right not to help if the British flag gets into a row." Advocacy of Canadian independence is a decent thing. Separation for both peace and war would be honorable. The other is a pitiful thing, raising a contemptible refuge under the plea that betrays high indignation in an unjust war—an insult to the honor and the fairness and the common-sense of the Mother Country.

No Partnership With Uncle Sam

In the United States to be the middleman-nation through whom Canada's surplus products are to be disposed of in the consuming markets of the world?

Are the grooves in which Canada's external commerce has now become settled to be switched and brought into connection with the channels in which the United States' external trade runs?

Are we to efface our national trade mark, haul down our commercial flag, obliterate ourselves as a separate trading community, and lose our commercial identity in that of the United States?

If so, we shall not long retain any other identity. Once a trade merger is formed with the United States, a political merger will not be long deferred.

What is it that gave Britain her marked individuality and conspicuousness among the nations of the world but her commercial enterprise and her commercial fame?

The British name was brought into respect no less by trade than by arms.

But the British name was kept to the front. It was not covered by the label of some other nation acting as Britain's selling and buying agent.

Then Canada can hope for a career like that of the Mother Country—Mail and Empire.

GRAND LODGE OF ODDFELLOWS IN SESSION IN NEW GLASGOW

Annual Meeting Opened with Large Attendance of Delegates—Grand Master Smith Heard in Fine Address—Order has had Most Encouraging Year.

New Glasgow, Aug. 8.—The 56th annual meeting of the grand lodge of Odd Fellows of the Maritime Provinces opened yesterday in St. Andrew's church, Kirk Hill. Delegates were present from 107 lodges, including Newfoundland. It is one of the largest gatherings of Odd Fellows that ever assembled at the grand lodge.

Grand Master Smith said: "Again we are assembling in an annual session to transact the regular business that shall be brought before this grand body. I trust the deliberations on the building of our beloved order, and it is with pleasure I extend to each of you a hearty welcome to this most beautiful and prosperous town of New Glasgow. Twenty-four years ago there were 43 subordinate lodges with a membership of 2381, today we have 107 subordinate lodges with a membership of almost 19,000.

Twenty-four years ago there were 43 subordinate lodges with a membership of 2381, today we have 107 subordinate lodges with a membership of almost 19,000. The following are the new lodges instituted: King Edward, No. 108, instituted August 20th, 1910, at New Waterford, N. S.

King Edward, No. 108, instituted August 20th, 1910, at New Waterford, N. S. Empire, No. 109, instituted October 11th, 1910, at Petite Riviere, N. S. Fraternity, No. 110, instituted January 20th, 1911, at Fairville, N. B.

There were 32 deaths during the year. The treasurer reported the year's receipts, including a balance of \$385.40, were \$1,232.02. The Home fund now amounts to \$1,544.34. At the meeting of the Grand Encampment the Grand Scribe reported that one encampment, Premier No. 1, St. John's, Newfoundland, had been instituted. There were 11 deaths during the year. The membership report shows:

Table with 2 columns: Category and Amount. Membership 1,119; Paid for relief \$8,425.50; Total receipts 1,755.00; Expenses 1,266.42; Invested funds 4,994.32.

There was a loss during the year of 29 in membership, of which 26 was in Millidgeville Encampment in this city. The Grand Scribe says: "The cause of this loss is pretty hard to understand, but the greatest loss is in Encampment No. 2, who were carrying on their books a number of names which should have been dropped years ago, in fact they drop 21 members by errors in last report."

AT DEATH'S DOOR FROM KIDNEY DISEASE

Saved Only by "Fruit-a-tives"

Clanbrasse, Ont. "Two years ago, the doctor made forty-four calls on me, and then said he had done all he could for me. I was suffering with intense kidney trouble and inflammation had set in. Two other doctors were consulted and agreed that nothing could be done to help me.

"Fruit-a-tives" by its marvelous action on the kidneys—completely restores these vital organs to their normal strength and vigor—and cures every trace of kidney trouble. "Fruit-a-tives" is the only medicine in the world made of fruit.

602, admitted by card 131, and reinstated 79, a total increase of 1,105; withdrawn by card 173, deceased 69, left for other causes 321. This figures the net increase was 540. The total membership is 9,909.

I beg to present my report of the work of this office for the past year, together with the condition of the order in the jurisdiction on June 30 last. The year has been a record one as regards the number of new lodges. Ten subordinate and two Rebekahs have been instituted making our roll now 107 Subordinate and 55 Rebekah Lodges, and the Grand Master has every reason to feel proud of the result of the year's work, more especially as out of the ten new subordinate lodges six are in his own province of New Brunswick.

At the meeting on Tuesday of the Rebekah Assembly the reports showed that the charter of Maple Leaf Lodge, Summerside, P. E. I., had been recalled, that new Lodges had been instituted at Sydney Mines and at Lockeport, N. S. The gain in membership for the year has been 29 brothers and 183 sisters. There are now 55 lodges with a membership of 1,532 brothers and 3,996 sisters. The total receipts were \$4,422.53, and the sum of \$130.22 was paid for relief. The cash now on hand was \$520.65. The expenditure for the year was \$608.60. There were 32 deaths during the year. The treasurer reported the year's receipts, including a balance of \$385.40, were \$1,232.02. The Home fund now amounts to \$1,544.34.

SHREDDED WHEAT BISCUIT

in the home—the food that is ready-cooked, ready-to-serve, full of nutriment and easily digested. You can prepare a delicious, nourishing meal with Shredded Wheat Biscuit and Triscuit without building a fire in the kitchen. Place two Biscuits (whole or crushed) in a deep dish and cover with berries of any kind—raspberries, blackberries, huckleberries or other fresh fruits—and then pour over them milk, adding a little cream and sugar to suit the taste. Serve Triscuit instead of ordinary toast with butter, soft cheese or caviar. It is a crisp, delicious snack for the Summer days.

CONSERVATIVE HEADQUARTERS.

The Conservatives have opened their headquarters at Rooms 9 and 11, Ritchie's Building, second floor, 50 Princess street, Phone, Main 2334.

AROUND THE CITY

A Hackman Reported. Murray Northrup has been reported by the I. C. R. police for going beyond the stand for coachmen at the depot.

A Police Report. Thomas Clarke has been reported by the police for allowing his horse to run at large on Lancaster and Winslow streets, West End.

Stationary Engineers Meet. A special meeting of the stationary engineers was held in the Market Building last night when only routine business was transacted.

An Unlicensed Dog. Oliver Emery has been reported by the police for keeping a dog without a license and allowing it to run at large whereby Doris Urquhart was bitten.

H. M. S. Polymorphian Club. A meeting of the H.M.S. Polymorphian Club was called for last evening. Some of the members assembled and adjourned until next week without transacting any business.

Escaped From Chain Gang. Michael McKeown is being held in a team on the chain gang for intoxication and resisting the police. The gang were at work on the general public hospital grounds yesterday morning when about 10:30 o'clock it was discovered that Michael was missing. He escaped through the backdoor of the building and is still at large.

A Farewell Dinner. E. J. Robertson, physical director of the Y. M. C. A., will be tendered a farewell dinner Friday evening at 8 o'clock in White's restaurant by the Y. M. C. A. classes. Mr. Robertson will leave on Saturday for Fall River. During his term as director he has been active in the athletic work of the Y. M. C. A. and has been very popular with the boys.

A New Story. Last evening a woman called at police headquarters and was disappointed in a request that she made. She stated that her 14 year old son had run away from home and was one of the crew of a vessel. The woman asked the police to give her enough money to send to Windsor, N. S., where the boy is, and thus enable him to return home to her. Policemen, as a rule, are kind-hearted and generous, but are not dipping into their pockets to supply cash to recover runaway boys.

WHAT THE FARMERS CO. HUMAN WINKS OF IT

Although a Liberal, he will Not Support McAlister this Time—He is Opposed to Reciprocity.

Coming down from Sussex last evening a reporter remarked to one of the farmers who had been attending the Liberal rally there: "How did the meeting strike you?" "It was a fair meeting," said the farmer, "Doc McAlister is personally very popular, but—"

"But what?" "Well, he is not a good representative. He doesn't strike you as a man who knows much about public questions, and he hasn't done anything for the constituency."

"After attending his nomination meeting I should imagine you would be an enthusiastic supporter. You don't spend money on railway fares to help nominate a man you don't want to represent you, do you?"

"It did not cost me anything for a railway ticket," said the farmer, "I like McAlister, and have usually voted Liberal. But I am not going to do it this time. I don't believe in reciprocity, and many farmers are of my way of thinking. I don't think the doctor will be elected this time. There is a very strong feeling against reciprocity, and that will probably kill him."

"I was reading an interview in The Standard this morning with an Indiana man about reciprocity. He hit the nail on the head, I reckon."

LIST OF CONVENTIONS CALLED IN PROVINCE

Nearly Every Day for the Next Week will See a Convention Held by One of the Parties.

The following conventions to nominate candidates for the federal elections have been called: August 10th, Conservative convention at Dalhousie, Restigouche Co., Liberal convention at St. John. August 11th, Conservative convention at Sussex, Kings, Albert counties. August 14th, Conservative convention at St. John. Conservative convention at Buxton, Kent Co. August 15th, Conservative convention at Gagetown, Queens-Sunbury counties. August 16th, Conservative convention at Fredericton, York Co. August 17th, Conservative convention at Woodstock, Carleton Co.; Liberal convention at Campbellton, Restigouche Co.; Conservative convention at Bathurst, Gloucester county.

MR. LOWELL'S IDEA FOUND NO FAVOR

Liberals Pleased with Mr. Hazen's Rule Refused to Have Local Candidates Selected Tonight.

It is understood that at a recent meeting of the Liberal executive a motion was made by James Lowell that at the approaching convention candidates should also be nominated for the local legislature. Several prominent Liberals present objected to the motion on the ground that they had every confidence in Mr. Hazen. No action was taken. The incident is significant, showing as it does that Liberals in Dominion politics appreciate the administration of the Hazen government in provincial affairs and that it is generally recognized that Mr. Hazen's pledge to give the province good and honest government is being efficiently carried out.

INTERVIEWING MR. PUGSLEY

When the representative of the Daily Tell-a-graft called on Mr. Pugsley last evening, he found that gentleman ready and waiting to receive him. "Oh, good evening. How are you this evening? Very glad to see you. You are quite well I hope?" etc., etc., etc., ad nauseam. "What can I tell you this evening?" But the reporter did not get a chance to ask a question. Mr. Pugsley is not interviewed that way, at least not by the Tell-a-graft. Without waiting for an answer Mr. Pugsley handed the reporter a cigar. He smoked good ones, and motioned his interviewer to a chair. Then it happened. "You may say that I expect to complete arrangements tomorrow—no, better say next week or the week after, for a new post-office which will be the largest in the world, 21 stories high, electric elevators, baths and all modern conveniences. This would never have been possible if I had not been in Ottawa. But you may say that the new building will have accommodation for the hard worked postoffice clerks and their families. Every clerk will have a separate apartment with steam heat and electric lights. I also expect to arrange for free groceries and clothing for the clerks and their families with an allowance for amusements and other contingencies as they may arise. "Now in connection with Pugsley Park, you may say that I have plans in the making; they will be ready just after election day, whereby a shoot the chump will be provided for the direct workers of the North End. It will start from the highest part of Fort Howe, cross Main St., go over the roofs of the houses and will have its delivery in the waters of the harbor. Motor boats will be provided to convey the passengers from the harbor back to a landing stage where another electric carrier will convey them to the top of Fort Howe in readiness for another slide. I have several friends who own motor boats and this will be a good way to employ them."

TONIGHT'S BANQUET WILL BE BIG AFFAIR

Many Prominent Men will be Among Those Present at Banquet to be Tendered to Premier Hazen.

What promises to be one of the most notable functions of the kind ever held in this city, will be the banquet tendered Hon. J. D. Hazen this evening at 8 o'clock in the Assembly Rooms of the Nickel Theatre. Over three hundred and fifty have signified their intention of attending to do honor to New Brunswick's Premier. The number includes representatives of different parts of the Dominion, members of the provincial legislature and many of the most prominent citizens of St. John and other towns throughout the province. Among those who have arrived in the city to attend are Hon. J. E. Flemming, Hon. W. C. H. Grimmer, and Major J. T. McBride of Montreal. W. H. Thorne will act as chairman, and there will be several vice-chairmen. A number of prominent speakers have been chosen to respond to the toasts of the occasion.

The following is the menu: Little Neck Clams on Half Shell. Iced Celery. Cucumbers Mayonnaise. Green Turtle Soup Anglaise King Radishes. Boiled Fresh Harbor Salmon. Sunbury County Sauce. Potatoes Belvedere. Roast Young Provincial Turkey. Potato Dressing and Jelly. Roast Sirloin Beef. Au Jus Dressed Lettuce. St. John Valley Green Peas. Creamed Potatoes. New String Beans. Coronation Punch. Lobster Salad Mayonnaise. Chocolate Pudding a la Hazen. Blueberry Pie. Queens County Golden Cake. Pound Cake. Fruit Cake. Bique Tortoni Ice Cream. Fruit. Biscuit and Cheese. Cigars. Candy. Demi Tasse.

The toast list and speakers will be as follows: The King, proposed by the chairman. The Governor General, proposed by H. A. Powell. The Lieutenant Governor, proposed by the chairman. Our Guest, will be proposed by the chairman, and responded to by Hon. J. D. Hazen. Hon. Daniel, O. S. Crockett, Hon. J. K. Flemming, Hon. John Morrissey, Hon. W. C. H. Grimmer, Hon. Dr. Landry, Hon. Robt. Maxwell, J. A. Murray, Jr. City of St. John, proposed by Hon. H. McLeod, responded to by Recorder J. B. M. Baxter.

THE PROVINCE WILL GO AGAINST RECIPROCITY

O. S. Crockett, M. P., Expects that New Brunswick will Line Up Strongly Against Suggested Trade Pact.

"The outlook has never been brighter in this province for the Conservative party," was the opinion expressed by O. S. Crockett, M. P., of Fredericton, while in the city yesterday. "The party will sweep New Brunswick on the reciprocity issue, and everything points to an overwhelming majority. I have been through different parts of the province, and the sentiment of the majority is against the Tait-Fielding agreement. The farmers are strongly opposed to the pact, and even in those parts of the province adjoining the American Republic, loyal feeling is very marked. Nor is the opposition to reciprocity confined to the Conservative camp alone, but many staunch Liberals in the province have signified their disapproval of the agreement. In York county, Mr. Crockett stated, the Conservatives are already actively preparing for the fray."

TONIGHT'S CONVENTION WILL BE NO LOVE FEAST

The Grits are Having Their Own Troubles in Finding a Running Mate for Mr. Pugsley.

The Liberal convention which is called for this evening to choose candidates to represent the party in the coming election promises unforeseen developments. The names of W. E. Foster, F. J. G. Knowlton, Dr. James H. Frink and James Lowell have been freely mentioned as possible or likely running mates for Mr. Pugsley, but it is generally recognized that Edward Lantulum, ex-M. P. P., holds the key to the situation. Mr. Lantulum took the precaution to have a majority of his friends chosen as delegates at the primaries last January and is in a position to dictate terms. It is reported that Mr. Lantulum has other ambitions

than as running mate for Mr. Pugsley; a position which apparently can be his for the asking. This promise in writing of a senatorship would probably relieve a situation which is causing Mr. Pugsley considerable embarrassment, but so far it is believed the document on which Mr. Lantulum insists has not been signed. It is thought possible that Mr. Lantulum may be satisfied with the chairmanship of the harbor commission, when that body materializes, and negotiations along this line were reported, to be in progress yesterday. Mr. Lantulum claims that his wing of the party represents a majority of the Liberals in the constituency and that their claims for recognition can no longer be ignored. Much may happen before the convention this evening. Disinterested spectators are watching the outcome with interest.
