THE PRESIDENT AND DIRECTORS

OF THE

WESTERN ASSURANCE COMPANY,

FOR THE YEAR ENDING 30TH NOVEMBER, 1864.

The Directors have to present the Thirteenth Annual Report of the Company's affairs, ending the 30th ultimo, accompanied with the General Statements of Assets and Liabilities, the Balance Sheet, also, the several accounts in detail, together with Auditors' Report: all of which, it is hoped, will be found fully explicit to a right understanding or the business for the year, as well as the position of the Company, in reference to the past, and prospects for the future.

The Premium Receipts show, as usual, an increase over any former year, which is the more satisfactory, as at no time previously has competition for business been greater, attributable in no small degree to new companies having entered the field, undertaking risks at reduced rates. This, however, will necessarily be corrected, as these offices gain more experience.

The losses sustained by the Companies generally, during the past year, is ample evidence in itself for the necessity of an increase rather than a reduction in the rates; and it is to be hoped that a more uniform basis of rates will in due time be generally adopted, fair and reasonable in its terms.

Your Directors adhered to the rule of past years, in undertaking risks for moderate amounts only—the excess over usual limits being covered by Reassurances, which, for the year, on 195 Policies, protects a liability of \$349,092.

The following is a classification of the losses paid, which while it exhibits the force of keeping strictly to limited amounts, affords at the same time statistical testimony to the more than ordinary casualty from Fire, so far as this Company is interested:

146 Claims in all, amounting, as before stated, to...... \$77,278 85

The funds at deposit in the Bank amounts to \$19,382 09 a sum amply sufficient, with incoming revenue, to meet the requirements of the Company in commencing the business of the current year.

The advisability of resuming the Marine Business, as regards Cargo Risks, confined with restrictions to our inland waters, has engaged the attention of your Directors, and they refer to the subject now with a view to its consideration by the Shareholders.

Without urging its adoption, the Directors would state that there are inducements of some weight, worthy of notice in considering the renewal of this branch of Marine Business. Since the year 1857, when the Marine Business was discontinued, great improvements have taken place in the lake navigation, while a better class of seamen has been employed, with, at the same time, more efficient appliances in case of disaster, for the prompt saving of vessels and their cargoes from serious loss; and further, an important consideration is the fact of having at command a reliable registry of all vessels engaged in the trade, and their classification as to sea-worthiness, tonnage, &c.

With the Statements and Accounts now laid before the meeting, the Directors, in closing their Report, beg leave to state, that a Dividend of Four per Cent. for the year has been declared.

The Directors have only further to call the attention of the Shareholders to the election of Directors to serve during the present year.

All which is respectfully submitted.

GEORGE MICHIE,
President.
