BAY CHALEUR BOYS WIN MILITARY MEDALS

John Bois of Dundee, Henry Arseneau and Pte. Caldwell all Receive Honors

In writing to a friend here Lt.-Col. A. E. G. McKenzie among other things says:—
 I've come through the Somme shows without a scratch. It was some little hell while it lasted. I wish you could have seen what our chaps went through. The Divisional General stated to the Battalion that if it had not been for the good work of the Battalion, we could not have held Courcellette. John Bois, of Dundee, has received the Military Medal and Henry Arseneau, of Nouvelle, a bar to his Military Medal, and a Caldwell from New Carlisle a Military Medal. We draw the only D. S. O.—Major J. A. McKenzie—and drew the most Military Medals of any Battalion in the Division.
 This is the first mention of these decorations, except the last, to come through and will be interesting reading in this section. Our boys of the 26th are sure doing their share.

MUNITIONS WORKER INJURED MONDAY

Slipped When Taking Shell From Lathe and Shell Fell on Him.

Edward Chatterton, of Hopetown, Que., was quite badly injured at the McLennan Foundry & Machine Works, Monday.

The young man was working one of the shell lathes. In lifting the shell, which weigh about a hundred pounds, from the lathe his foot slipped and he fell to the floor, with the shell on top of him.

He was rendered unconscious. First aid was rendered by employees and Dr. Price called. It was thought advisable to remove him to the hospital for treatment. There it was found his breast was quite badly bruised, but so far as can be ascertained no internal injury was sustained and the young man will be about again in a short time.

BAD FREIGHT STILL NEAR JACQUET RIVER

Special Leaves Rails and Cars Badly Broken Up—Trains Delayed.

Monday evening about 7 o'clock while travelling at a good rate of speed in order to climb the grade about two miles south of Jacquet River a special freight in charge of Conductor Charles Morton and Driver Murray left the rails and a very bad mishap resulted.
 The locomotive and fifteen cars left the rails and tore up the roadbed in a most disastrous manner. Cars of mixed freight were broken up and strewn along the right of way.
 By some miracle, at present unexplained, the engine crew and trainmen riding on the forward end of the train, escaped not only with their lives but without sustaining any serious injury.
 Extra 301 left Moncton at 1.25 o'clock Monday morning and was north bound to Campbellton. The train consisted of locomotive 301, twenty-nine loaded cars, and a van. Fifteen of these cars are included in the wreckage about the heavy locomotive, which is reported to have been turned cross-wise of the track.
 Wrecking crews were ordered out from Campbellton and Moncton and every effort was made to clear the rails for the regular trains, these were all considerably delayed. The express, No 3 arrived here about 2 p. m. Tuesday. The line was cleared about noon.
 The cause of the accident is not officially known at present, but it is supposed to have been due to a broken rail. However, this is only speculation.
 This is the second serious accident which has taken place on the North Shore within a week.

Two residents are at loggerheads and all because of a dog. One owns a valuable Airdale and the other, without leave or liberty, just a joke, loaned the dog to a Dalhousie resident. The owner laid information against the lender and it took two days to thresh the preliminary examination out. Judgment has been reserved.

Sent Down for Three Months on Sept 19th is Set at Liberty This Week.

Upon gaining his liberty it is said that he embarked too freely and met with an accident whereby he suffered a fractured leg. He is now an inmate of the hospital.

It is also claimed that this is not the first case of the kind that the sheriff has figured in and it is a fact that the prisoners are allowed considerable freedom which has resulted in numerous escapes, and some free of the straitened very few have been recaptured.

TRICK, GLOSSY HAIR FREE FROM DANDEUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is shiny and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scour robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

says:

"British Admiralty officials are de-

the building of new dreadnoughts.
Wonderful results which have not up to
this time been made public, have been
accomplished in this direction.

"Twelve new battleships of the super-

"Neolin" soles, a composition that is
giving excellent satisfaction and one
that bids fair to take the place of lea-
ther soles, as it is waterproof and of
superior wearing qualities.

Considering the advancing cost of
leather and the high quality of material
used in the manufacture of the
"REGAL," the prices are very reason-
able, ranging from \$5.50 to \$6.75.

Mr. Andrew will be pleased to show
you the different styles and even
though you are not in need of a pair
of shoes at the present time, it will re-
pay you to call and inspect the line.

A young woman called at the Bos-
ton post office and inquired if there
was a letter for her. "Business or
love letter?" jokingly inquired the
clerk.

"Business," was the hesitating reply,
accompanied by a deep blush. As
there was no such letter to be found,
the young lady took her departure.
She came back, however, after a little
while, and said in faltering tones,
"Please, would you mind looking
among the love letters."

ANNUAL PASSES TO
OLD EMPLOYEES

System in Vogue in United
States May Well be Adopted
by C. G. R.

The Montreal Gazette says: The
annual pass system is in use on sev-
eral of the big roads in the States—
that is, the rule of giving annual pas-
ses over the hole line to those employ-
ees who have served a certain number of
years—say 15 or 20. That might mean
that the employees would do a great
deal of travelling; in practice, that is
not the case. The employees are pret-
ty well stationary, and can only get
away as a rule on the regular holiday
time, but the fact of having the pass
in his pocket identifies him more com-
pletely with the company. It has been
said that this annual pass custom
might lead to abuse, but this is not the
experience in the States. The Grand
Trunk is the only road in Canada giv-
ing its employees passes, but the rule
will probably be followed.

PASSENGER STRAMER SUNK
WITHOUT WARNING

London, Nov. 8.—The Peninsula and
Oriental Line steamship Arabia, which
was sunk by a submarine, was torped-
ed without warning, the Admiralty
announced to-day. All the 437 pas-
sengers, including 169 women and child-
ren, were saved. Two members of the
crew are believed to have lost their
lives. The Admiralty announcement
follows:

"The homeward bound Peninsular
and Oriental Mail steamship Arabia
was torpedoed without warning and
sunk in the Mediterranean at about
noon on November 5th. The vessel
had 437 passengers, including 169 wo-
men and children.

SPASMODIC ADVERTISING

That Advertising is a science, and not
a game of chance, has long since been
proven.
The wreckage which has strewn the
business world of the past bears grim
evidence of the fallacy of spasmodic
Advertising.

The non-advertising merchant who
notes a continued falling off in busi-
ness, and looks for a remedy, of a ne-
cessity turns to Advertising.

Unless he is well advised, he is lia-
ble to attempt a one-time ad, just to
try it out, and, as a rule, the 'one-time
ad' process is fatal to future Advertising.

The element of chance is always con-
spicuous in spasmodic Advertising,
and the results seldom warrant the ex-
penditure.

If you would really Advertise, if you
would increase your volume of busi-
ness, Advertise persistently in The
Graphic which has a rate permitting
of a generous space for a small out-
lay of capital, and a circulation lar-
gely of an exclusive nature.

THINKER OR DOER,
WHICH TYPE ARE YOU?

Someone rightfully says, "People can
be divided into two main classes, the
thinking type, those who plan or plot or
map out a true policy of business, and
the Doer type who put the plans into
action—the production end of the busi-
ness."
Putting thinkers into jobs
that call for the other class of
men is like putting round pegs
into square holes, misfits—in-
evitably spells disaster for the
business and failure for the men.

Proper direction of your job
selection is included in our
Service.
It is worth much to you!

PROHIBITION AND LOYALTY TO LAW.
In December, says the North Battleford Optimist, "Saskatchewan is going to vote out the dispensary system, a hardy creation imported by the late Scott Government from South Carolina."

It was going far afield to get standards of temperance legislation from either South or North Carolina—all of which reminds one of the observation of the Governor of South Carolina—"It's a long time between drinks." The dreary interval was shortened by the dispensary system, which it is to be hoped, Saskatchewan will knock in the head or go back openly, brutally and sinfully to the license system.

The curse of most of the temperance legislation we have had is this—people, who assist in enacting it, do not mean what they say. They are willing to carry a prohibition law, but once the law is carried they piously fold their hands and assume great moral superiority, while doing nothing to enforce the law.

A prohibition law unenforced is worse than a nuisance, and advocates of prohibition that will not assist in enforcing prohibition are nothing but bothersome hypocrites. Prohibition is now on trial in several Provinces, and the only way in which to give it a fair trial is to enforce it to the letter. If that is the sort of a law the people want let them have it; and so long as it is the law the citizen who seeks to violate it is guilty of disloyalty. Enforce the law and make the people obey it; but let the limelight be shone upon that spurious righteousness which would howl its head off to secure the law but would not raise a finger to enforce the law after it had been secured.

ISCARIOT
Who follows Judas and betrays a Christ
Must sell his soul for what is paltry pelf;
Is not the Christ—thou hast sacrificed thyself!
Ye paid Him homage and ye bent the knee,
For well ye knew that He was Son of God;
But age on age thy cruel treachery
Is like a shadow on the path He trod.

They paid the price who sought thy Master's life,
Did jingling silver fill thy heart with bliss?
Ye lied, and swore the Saviour nourished strife;
Thy lips were red that killed Him with a kiss.
But, lo, the cross on which thy victim died
Is sacred symbol of a God who came
That Truth might live though He be crucified;

A Judas falls because his choice is shame!—Edward S. Van Zile.
A PAUSE FOR PRAYER

A remarkable movement is on foot in the city of Hull, which has resulted from the message sent by Admiral Beatty to the Society for the Promotion of Christian Knowledge at Birkhead, in which he said:—

"Until England is taken out of her self-satisfaction and complacency, just so long will the war continue. When she looks out with humbler eyes and prayer on her lips, then she can begin count the days towards the end." This message was printed on cards, and it is a most remarkable fact that four hundred and fifty public houses have displayed one of these cards, and have shown the utmost readiness to give them a prominent position. There is now a suggestion that these cards should be distributed throughout the length and breadth of England.

In this same city there is an announcement of a "business man's pause" of twenty minutes' duration for private prayer for our fighting forces. This is surely an idea that might be universally adopted with nothing but the most excellent results, for—"More things are wrought by prayer than this world dreams of."
A man must stand erect, not be kept by others.—Marcus Aurelius.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

HATTIE WARREN
Port Robinson, Ont., July 6th, 1915.
"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

EARLY MAILING OF CHRISTMAS PARCELS

Those for the Boys at the Front Not Later Than November 15th.

Ottawa, Nov. 6.—The early mailing of Christmas parcels for the front is counselled by the Post Office Department in an official memorandum today. It says:—
In view of numerous enquiries as to the last date on which parcels can be posted to ensure delivery to overseas soldiers before Christmas, it is thought well to state, having regard to the irregularity in the Atlantic service, and the possibility of congestion, that the earlier parcels for overseas soldiers are mailed the better, if it is desired that they should be delivered before Christmas; this being particularly true as regard parcels for soldiers on the continent which should be mailed as early as possible so that the greatest latitude will be afforded in order to ensure delivery before Christmas. In every case the mailing of these parcels should take place before the middle of the present month. It is possible that letters might be mailed as late as the last week in November and be delivered to the overseas troops before Christmas, but letters should be mailed as early as possible in order to provide for all contingencies.

Their Rest—Hix—"I understand your Church has sent the minister to Michigan for a month."
Dix—"Yes, that's right."
Hix—"For a vacation, I suppose?"
Dix—"Yes; the congregation decided that we were entitled to one."

BEG, BORROW OR STEAL CHILDREN

Is the Advice Given to Women's Institute Members by a Prominent Woman.

Ottawa Free Press—"The present high cost of living will prove itself a blessing in disguise to many women who are pushing their husbands to dishonest business by their extravagance and poor house-keeping. Forced back into their kitchens and made to put thought into their housework instead of frivolous competition with their neighbors, they will learn many things that will cause them to open their eyes."

So Mrs. Rose Stephen, of Huntingdon, Quebec, put the much agitated question of elevated prices to the women of the rural communities assembled in the annual Ontario Women's Institute, which closed with a luncheon today.
"Women are found working in every field today," she declared, "and to the world's benefit, but the centre of woman's activity will never be other than the home, and the woman who leaves to the world the legacy of even one child, sound in soul, mind and body, does more for future generations than if she left a great mansion and a fortune."

STEAL CHILDREN

"Women must learn self mastery. Selfishness, self-interest and self-indulgence are three greatest enemies, and the very enemies which keep many children from this world. If you haven't children of your own, buy, beg, borrow, or steal them. They are the greatest soul builders in the world. You forget yourself in the love of a child.

"The greatest work a woman can do to-day is to bring up children. In the face of the great war, there will be no national asset so valuable and I agree with the school teacher who in reply to the question: 'Who is the greatest woman in the world?' declared that she was the wife of moderate salaried man made a home, reared a healthy family and still had time for self-cultivation, and the interest of the community."
"As Andrew Carnegie says, 'Wealth can afford no man more than competence.' I would rather be able to appreciate what I cannot possess than to have what I cannot appreciate."

Awful experience—"How dreadful it must be," exclaimed Mrs. Twickenbury, "to be sailing along quietly and suddenly see a peristyle pop out of the water."
