No 36] SAINT ANDREWS, N. B., WEDNESDAY, SEPTEMBER 13, 1854 [Vol. 21]

**NORTHERN LIGHTHOUSE OFFICE.**  
EDINBURGH, 16th August, 1854.

**SIR,**  
Referring to the Board's Circular of  
21st February, 1847, intimating that copies  
of the Notices of new Lighthouses erected  
by the COMMISSIONERS OF NORTHERN LIGHT-  
HOUSES would be transmitted to you, I am  
directed to enclose copies of the Notice of a  
Light which is to be temporarily exhibited  
on the Out-Skerries of Whalsey, East Coast  
of Shetland, on and after the night of Fri-  
day, 16th September, 1854, during the erec-  
tion of a permanent Lighthouse at the same  
station; and I have to request that you  
will give the same as much publicity as  
you can.

Please to acknowledge receipt.

I am, **SIR,**  
Your most obedient Servant,  
**ALEX. CUNINGHAM,**  
Secy.

To the Collector of Customs  
at St. Andrews.

**NORTHERN LIGHTHOUSES.**  
**NOTICE TO MARINERS.**  
**WHALSEY SKERRIES, SHETLAND.**  
**TEMPORARY LIGHTHOUSE.**

The Commissioners of Northern Light-  
houses hereby give Notice, that they are at  
present engaged in erecting a Lighthouse on  
the Out-Skerries of Whalsey, on the Eastern  
Coast of the Shetland Isles, and that  
until the completion of the permanent Light-  
house, a Light will be shown from a tempo-  
rary Tower, and will be exhibited for the  
first time on the night of Friday the 15th  
September, and every night thereafter, from  
the going away of day-light in the evening,  
till the return of day-light in the morning.

The following is a Specification of the  
Lighthouse, and the appearance of the Light,  
by Mr. David Stevenson, Engineer to the  
Commissioners:

The Lighthouse is situated on the East-  
ern part of the Island of Gruna, in N. lat.  
60° 25' 24", and W. long. 0° 44' 20",  
the Bound Skerry of Whalsey bearing from  
the Lighthouse about E. by compass. The  
outer or seaward extremity of the Bound  
Skerry is about half a mile or thereby from  
the site of the Lighthouse, so that vessels in  
rounding the Light must give it a wide berth.

The Whalsey Light will be known to Ma-  
riners as a REVOLVING LIGHT, which  
shows a bright white Light, every minute.  
The temporary Light will be exhibited  
from a Tower of Timber Frame Work, and  
is elevated about 105 feet above the level of  
high water of ordinary spring tides, and  
may be seen at the distance of about 16 nautic  
miles, and at lesser distances according to  
the state of the atmosphere. To a near ob-  
server, in favourable circumstances, the Light  
will not wholly disappear between the  
intervals of greatest brightness.

The Commissioners further give Notice,  
that by Order in Council, dated the 3d day  
of July last, the following Tolls are author-  
ized to be levied in respect of the said Light-  
house, viz:—

For every Vessel belonging to the United  
Kingdom (the same not belonging to Her  
Majesty, her heirs or successors, not be-  
ing navigated wholly in ballast), and for  
every Foreign Vessel privileged to enter  
the Ports of the United Kingdom upon pay-  
ing the same Duties of Tonnage as are  
payable by British Vessels which may pass  
or derive benefit from the Light, the Toll of  
Two-Sixteenths of a Penny per Ton of the  
burthen of every such vessel for every time  
of passing or deriving benefit therefrom, if on  
a Coasting Voyage.

For each time of passing or deriving ben-  
efit on an Oversea Voyage. One Penny per  
ton for every such vessel.

For every Foreign Vessel not navigated  
wholly in ballast, and not privileged in man-  
ner before specified, double the respective  
Tolls above set forth.

Which Tolls are liable to the following a-  
batement on payment:—for a Coasting  
Voyage Ten per cent; for an Oversea Voyage,  
twenty-five per cent.

By Order of the Board,  
(Signed) **ALEX. CUNINGHAM,**  
Secy.

Northern Lighthouse Office,  
Edinburg, 12th August, 1854.

**THE COMFORT OF THE CHRISTIAN IN AF-  
FLICTION.—Beautiful Similarity.**—In the fol-  
lowing, penned by a Minister when suffering  
under the pressure of domestic bereavement  
and sorrow, one scarcely knows what to ad-  
mire most—the tenderness and depth of the  
piety which the sentiment exhibits, or the  
delicacy and beauty of the illustration which  
is employed. "I feel that repeated afflic-  
tions come, as not lightning on the scathed  
tree, blasting it yet more, but as the strokes  
of the sculptor on the marble block, forming  
it into the image of life and loveliness."

Let but the Divine presence be felt, and no  
lot is hard. Let me but see his hand, and no  
event is unwelcome."

**An Extraordinary Time Piece.**—There  
is now in the possession of, and manufactured  
by Mr. Collings, silversmith of Gloucester-  
shire, England, a most ingenious piece of  
mechanism, an eight day clock, with dead  
beat escapement maintaining power, chimes  
the quarters, and plays sixteen tunes in  
twelve hours, or will play at any time re-  
quired. The hands goes round as follows,  
one, once a minute—one, once an hour—one,  
once a week—one, once a month—one,  
once a year. It shows the moon's age, the  
time of rising and setting of the sun, the  
time of high and low water, half ebb  
and half flood; and by a beautiful contrivance  
there is a part which represents the water,  
which rises and falls, lifting ships at high  
water tide as if it were in motion, and as it  
recedes leaving these little automaton ships  
dry on the sands. It shows the hour of the  
day, day of the week, and month of the year.  
In the day of the month, there is a provision  
made for the long and short months. It  
shows the zodiac; it strikes not just as  
you wish; it has the equation table, showing  
the difference of clock and sun every day in  
the year. Every portion of the clock is of  
beautiful workmanship, and performs most  
accurately the many different objects which  
are called into action by the ingenious pro-  
prietor, who is most willing to describe all  
its various achievements to any one who may  
feel a pleasure in paying him a visit.

**NOVEL SCENE.** The ex-Postmaster of  
Boston is in Germany. He sends home an  
account of a dinner to a railroad congress,  
at which a locomotive appeared on the table  
to which was attached a train loaded with  
dishes of the choicest and most solid food.  
The excellent train advanced slowly in imi-  
tation of all passenger trains upon the Ger-  
man roads. After having made the tour of  
the table without stopping, in order to give  
a view of the good things with which it was  
freighted, the train again started, making a  
station in front of each guest, and permitting  
him to fill his plate according to his appetite  
and fancy. The trains followed each other  
in constant succession for two or three hours,  
departing each time well loaded with com-  
estibles, and always returning empty to the  
depot. This is just the thing for an Ameri-  
can eating table, where the fashion is, accord-  
ing to English authority, to gulp everything  
with railroad speed.

**ORATORS AND EDITORS.**—Compare the  
orator with the newspaper, and we gain a  
faint glimpse of the ubiquitous power of the  
latter. The orator speaks but to a few hun-  
dreds or thousands: the newspaper addresses  
millions. The words of the orator may die  
on the air: the language of the newspa-  
per is stamped on tables as imperishable as  
marble. The arguments of the orator may  
follow each other so rapidly that a majority  
of the audience may struggle in a net of re-  
futation: the reasoning of the newspaper  
may be scanned at leisure without a fear of  
perplexity. The passion of the orator in-  
flames an assembly: the feeling of a news-  
paper electrifies a continent. The orator is  
for an edifice, the newspaper for the world;  
the one shines for an hour, the other glows  
for all time. The orator may be compared  
to lightning, which flashes over a valley for  
a moment, but it leaves it again in darkness:  
the newspaper to a sun blazing steadily over  
the whole earth, and "fixing on the basis of  
its own eternity." Printing has been hap-  
pily defined "the art which preserves all arts."  
Printing makes the orator himself more than  
an orator. It catches up his dying words,  
and breathes into them the breath of life. It  
is the speaking gallery, through which the  
orator thunders in the ears of ages. He  
leaves from the tomb over the cradle of the  
rising generation.

**A Foul Question 'Funnily Decided.**—At  
the close of a lecture on physiology, a few  
nights since, the lecturer remarked, that any  
one was at liberty to ask questions upon the  
subject, and that he would answer them as  
far as he was able. A young lady with much  
apparent sincerity, remarked that she had a  
question to ask, though she was not certain  
that it was a proper question; she would  
however venture to ask it. It was as follows:  
"If one hen lay an egg, and another sit on  
it and hatch out a chicken?" The lecturer  
said, "I will answer you in Yankee style, by  
asking you a question. If a little, pretty,  
white, genteel, native pullet sits on an egg  
of Oriental extraction, and hatches a great,  
homely, long-legged, splinter shanked, slab-  
sided, awkward little Shanghai, would you,  
if you were that little white pullet, own the  
great homely monster?"—"No," said the  
young lady, "I wouldn't."—"Very well,"  
said the lecturer, "that settles the question,  
for it is a principle in physiology that all hens  
think and act alike in essential particulars."

[FOR THE STANDARD.]

SAN SALVADOR.

Sweet April had come, and all nature was gay,  
While still overhead, at the full tide of noon,  
Coursed the bright blazing sun enlightening the day  
And at night shone o'er all, the pale silver moon,  
While wrapped in devotion, did piety pray,  
Round the glad and the grave, light zephyr's did  
play.

As in our own land, in the mild month of June.

Easter Sunday dawns, and all well is the cry  
Of the watch from the streets of San Salvador;  
The morning dyes past, and all waving on high  
Are pennons and palm-trees her palaces o'er!  
Saints move in procession, unrelenting draws nigh,  
And though ended the day, all joy still the more,  
While thousands of rockets, like thunderbolts dy,  
And dash through the heavens, as still upwards  
they soar.

Loud notes of rejoicing harmoniously swell—  
They float on the breeze, and they spread through  
the gloom:—  
For darkness, like Egypt's fall o'er mountain and  
dell,  
O'er the festal hall, and the lone silent tomb;  
Yet still drift through the dance, the gay beaute-  
ous belle,  
And thousands are round her, in life's joyous bloom  
While the mother and sure, their fond children tell,  
To-morrow will dawn their delights to resume.

The midnight bell tolls, and the festival's o'er,  
And slumbering are all: but what dull heavy sound  
Now startles the sleeper in SAN SALVADOR!  
Hark! hark!—'tis no dream; for 'tis trembling the  
ground;  
Rack! louder and nigher comes the earthquake's  
roar,  
While the shrieks of despair, are heard far and  
near,  
And many do sleep, that shall waken no more,  
Who unconfined a grave in their couches have found

And whole thousands are rushing, they know not  
where,  
While the temple and palace around them fall,  
And the yells of fear, and the short muttered prayer  
Are heard in the field, in the hut and the hall;  
Now startles the sleeper again; what a spectacle there;  
All mangled and bloody, from beneath each ruined  
wall,  
Sons dragging their sires, mothers tearing their  
hair,  
While frantic with grief, their cries they call.

But 'tis vain their cries; for all lifeless are they—  
They then disencumber, but to tomb them again,  
In their last resting place, and hush away,  
Now startles the sleeper again, in sorrow & pain,  
While tears of emotion like dew-drops in May  
Roll down from their eyes, as they fly o'er the plain  
That threatens to swallow, all these who should  
stay.

As heaving it waves, like the dark stormy main,  
While in ruins and heaps, lay San Salvador,  
And the robbers did revel, and plunder there;  
But his reign is gone, and it rises once more,  
From the wrecks of the past, while thither repair  
The wanderers again, to their own native shore,  
To weep o'er the graves of the loved and the fair,  
Who in life were most dear, in death they adore,  
And in all their thoughts must still have a share.

While they mourn o'er the past, look backward  
now,  
To recall to our minds, our gladness and woe,  
And Memory's curtain lift upwards to see  
The cup of rejoicing well nigh overflow.  
Just were we plunged in extreme misery,  
Which fails to our lot, as blind mortals we shew.  
Our fates are not ours, hence humble should be  
And strive our own weakness, and folly to know.  
ALPINE.

P. S.—San Salvador was destroyed by an earth-  
quake on Easter Sunday, April, 1853.

**A Wife's Influence.**—Colonel V., of  
the U. S. Army, was stationed for some years  
at Little Rock, while his family still resided  
in their native home, New England. Mrs.  
V. was a professor of religion; her husband  
was not. As the means of beguiling the  
tedium of his lonely hours, he once sent to  
his wife in B. for a quantity of novels. Mrs.  
V. was pained that the world-specified should  
have been her husband's exclusive choice.—  
She hardly knew her duty; but after a ses-  
sion of prayer, concluded to send the desired  
novels, accompanied by some select religious  
tracts; and the following message in a post-  
script to her letter:—"As an obedient wife,  
I send the books for which you wrote. As  
an affectionate friend, I also send the accom-  
panying tracts, begging your perusal of them."

This delicate and judicious expedient  
touched the colonel's heart. The tracts were  
read. The result was the reader's conver-  
sion to God. He afterwards became a useful  
and happy member of the Church militant,  
and in the Church triumphant rejoices with  
abundant love and joy in the deep sense of  
the utility of religious tracts.

A petition is circulating in Paris among  
the citizens of the United States, praying  
Congress to appoint a committee for the pur-  
pose of examining the French system of  
weights, measures, and money, with a view  
to its adoption by the United States, and ul-  
timately by all other nations.

If your sister, while engaged in a tender  
conversation with her sweetheart, requests  
you to bring her a glass of water from the  
adjoining room you can start on your er-  
rand but you need not return. You will not  
be missed.

**Millerism and the Burning Forests.**—Pri-  
vate accounts from Maine state that in the  
vicinity of some of the burning forests, quite  
a number of persons, chiefly females, have  
become insane, in consequence of excite-  
ment, the result of a belief that the general  
conflagrations in the woods there is a sign  
of the speedy ending of the world, in ac-  
cordance with the prediction of the Millerites.  
Some of them have been taken to the State  
Asylum.

**POOR PROPERTY.**—Steamboats to be used  
for the conveyance of passengers on the  
Hudson river, are becoming the poorest kind  
of property. These elegant boats, the Ore-  
gon and New World, are lying in the river,  
just below the Esopus Light House, the  
Francis Skiddy is opposite this place in a  
similar condition, the Empire lines in the  
creek below Fort Montgomery. Each of  
these vessels cost a large sum of money, and  
are still capable of several years good service  
but lie idle and useless to rot, because it  
seems there is nothing they can do that will  
pay. Among night boats running through,  
we believe the Isaac Newton and Hendrick  
Hudson are the only first-class boats re-  
maining, and they are as much devoted to  
freight as passenger service more so. No  
definite radical cure of this evil has been  
effected, and we suppose no more will be  
effected for—Poughkeepsie Eagle.

**Water from Gas.**—The Paris correspon-  
dent of the Atlas says that the Hotel des In-  
valides is now lighted up with gas from wa-  
ter.

**Crops at the South and West.**—Cincin-  
nati, Aug. 29.—Advices from Tennessee,  
Alabama and Georgia, speak favorably of  
the Western States there have been rains,  
which have greatly improved the condition  
of the crops. The indications now are that  
taking the country through, the yield will  
not be much below a fair average.

**Compasses at Sea.**—An English paper no-  
ticing the danger to which the transport  
screw ship Tynemouth was lately exposed by  
the incorrectness of her compasses, says  
that an investigation of the binoculars by the  
aid of a small magnet, led to the discovery of  
a piece of iron wire inside the rim which  
strengthened the cover used at night to hold  
the lights. The compasses had the name  
Hewitson, Newcastle, on them. No doubt  
many a ship has been lost by similar neg-  
lect.

**GOOD ADVICE.**  
Always have a book within your reach,  
which you may catch up at your odd minutes.  
Resolve to edge in a little reading every day,  
if it is but a single sentence every day, it  
will be felt at the end of the year. Thoughts  
take up no room. When they are right,  
they afford a portable pleasure, which one  
may travel or labour with, without any trou-  
ble or incumbrance.

Man has in maturity and health sixty bones  
in his head, sixty in his thighs and legs, sixty  
two in his arms and hands, sixty seven in  
his trunk. He has also four hundred and  
thirty four muscles. His heart makes sixty  
four pulsations in a minute; and therefore,  
3,540 in an hour, 84,160 in a day. There  
are three complete circulations of his blood  
in the short space of an hour.

**ABILITIES.**—The abilities of man must fall  
short on one side or the other, like too scanty  
a blanket when you are a-bed; if you pull  
it upon your shoulders you leave your feet  
bare, if you thrust it down upon your feet  
your shoulders are uncovered.

Our success in life generally bears a di-  
rect proportion to the exertions we make;  
and if we aim at nothing, we shall certainly  
achieve nothing. By the remission of la-  
bour and energy it often happens that pov-  
erty and contempt, disaster and defect steal  
a march upon prosperity and honour, and over-  
whelm us with reverses and shame.

A Dutchman describing a span of horses  
which he had lost, said, "Dey was very  
mooch alike, especially de off one. One  
looks so much like both I could not tell 'to-  
ther from which; when I went after the offe  
I always caught the oder, and I whip the one  
most deal, because the oder kicked at me." He  
thus describes an accident:—Once a  
long vile ago, I went into my abbe orchard  
and climbs a bear tree to get some beeches,  
to make my vrow a blum budding mit, and  
ven I geff on the toppermost branch, I falls  
from the lowermost limb, mit one leg on both  
sides of the fence, and like to stove my out-  
side in."

Before you commit suicide take a cold  
bath. What people term despair is very of-  
ten dirt.

If we all had windows to our breasts, what  
a demand there would be for blinds!

#### LAW RESPECTING NEWSPAPERS.

Subscribers who do not give express no-  
tice to the contrary, are considered as  
wishing to continue their subscriptions.

If Subscribers order the discontinuance  
of their papers, the publisher may continue  
to send them till all arrearages are paid.

If Subscribers neglect or refuse to take  
their papers from the office to which they  
are directed, they are held responsible till  
they have settled their Bill, and ordered  
their papers to be discontinued.

If Subscribers remove to other places  
without informing the publisher, and the  
paper is sent to the former address, they  
are held responsible.

**FUNNY.**—To attempt to break up a love  
match by shutting up the girl and abusing  
the lover.

There are minds, as well as streets, that  
want draining.

The farmer whose pigs got so lean that  
they would crawl through the cracks of their  
pen, stopped their "fun" by tying knots in  
their tails.

A paper down east says the reader will  
see some errors on its first page which he  
will please to overlook.—Am. Paper.

At Mackinaw, the year is divided into two  
seasons, "six months Winter, and six months  
cold weather."

**A LOVE OF A PLACE.**—It is said the little  
town of Meredith, in Illinois, is inhabited  
chiefly by fever and ague, mosquitoes and  
fleas, with an occasional straggling moccasin  
snake or porcupine.

A negro being caught stealing from a hen  
roost, excused himself by saying, "Dat he  
only came dar to see if de chickens sleep  
wid dar eyes open."

Somebody once said figures cantlie—there  
is a mistake somewhere for if figures don't  
sometimes lie, it is certain those who often  
make figures.

The man who eq George DeLanoe girl

**A fatal Steamboat Explosion.**—An ex-  
plosion, occurred on the Missouri river, which re-  
sulted, as usual, in great destruction of hu-  
man life. From 17 to 20 persons were kil-  
led, including all the passengers who were  
on board at the time. The boat was named  
the Timour No. 2, and the force of the ex-  
plosion made a complete wreck of her.

**Two German Jews,** passengers in the  
Steamer Washington, which arrived at  
New York, were arrested last Thursday  
on board that vessel, and from \$12,000 to \$15-  
000 worth of smuggled jewelry taken from  
them, which they had about their persons.—  
They were placed in custody.

**A correspondent of the Journal of**  
Commerce, takes the ground that the defici-  
ency of the Corn Crop will have the effect  
of decreasing rather than augmenting the  
prices of Pork for the ensuing season.

**MOVEMENT OF TROOPS.**—In consequence  
of the war which is now being prosecuted  
with Russia, the reduction of the military  
establishments in the Colonies is in course  
of being carried out. The 54th, 60th, and  
71st Regiments are to be withdrawn from  
Canada, and only the 26th Regiment and  
the Canadian Rifle Corps will be left for the  
defence of the Province.

The 72d Regt. is to be sent home from  
Nova Scotia, and we learn that only one  
Regt., the 76th, at present stationed in New  
Brunswick, will be retained in the two Pro-  
vinces. A company of Royal Artillery is  
also under orders from this Province. Ten-  
ders were advertised for yesterday, by the  
Commissionariat Department here, for a ship  
to carry home the troops from Halifax.

It is a source of gratification to know that  
Her Majesty's subjects in these Colonies are  
able and willing to defend her possessions,  
from all foreign aggression during the ab-  
sence of the regular troops, and who would  
voluntarily services with alacrity in case  
of necessity.—[New-brunswick.

age so liberally extended to him for upwards of  
twenty years; and can state with confidence, that  
he is now  
RECEIVING AND OPENING  
The most Extensive and Select  
STOCK OF  
Dry Goods.  
Ever offered in this Market.  
And in addition, he begs to state, that these Goods  
have been selected from the best cash establish-  
ments in London, Manchester, Leeds, Bradford  
and Glasgow, which his Patrons will find from the  
extraordinary change in prices this season. His  
present stock being so much more extensive than  
any previous year, he will be satisfied with the  
cost alone of many of the goods, although the prices  
are from ten or fifteen per cent. less than goods  
purchased in this Province.  
The Goods from Leeds have been received by  
the packet ship "Liberal"; from Bradford by the  
"Middleton"; from Manchester per "Dundonald";  
via St. John, and direct to this port per ship "Star

The Subscribers have been induced to take  
this step from a conviction that the people of St.  
Andrews have not hitherto enjoyed those advan-  
tages for buying goods from a  
LARGE, WELL ASSORTED, AND FASHIONABLE  
Stock, that the extent and importance of the  
place, would warrant them in expecting. With  
the view of affording this desideratum, a portion  
of this Establishment has visited the European  
and American markets, and bought with great ad-  
vantages, a stock of Goods, which for taste, varie-  
ty, quality and CHEAPNESS, cannot be sur-  
passed by that of any house in the Province. It  
will be impossible in the limits of an advertise-  
ment, to particularize, but on inspection it will  
be found to contain everything that is supplied by  
the most extensive houses in the first cities in B.  
N. America, from the minutest article in Haberdashery  
to those of the more costly character in  
DRESSES, SILKS, SHAWLS,  
VELVETS, &c. &c.  
Particular attention has been paid to the Wool-  
len department, which will contain every novelty  
of the season, together with a large supply of  
BROADCLOTHS, DOESKINS,  
CASSIMERES, &c.  
with a full assortment of Linings, trimmings &c.  
In making this announcement we trust the public  
will encourage us in this undertaking and we  
pledge ourselves to carry on this business in a  
spirit of liberality and continue to offer to purchas-  
ers advantages which will have no doubt be  
appreciated. The above will be disposed of for

**Holloway's Ointment.**

A most astonishing cure of Scrofulous Ul-  
cers—a case certified by the Mayor of  
Boston.  
Copy of a letter from J. Noble, Esq., Mayor  
of Boston, Lincolnshire.  
To Professor Holloway.  
Dear Sir,—Mrs. Sarah Dixon, of Liquor-  
pond street, Boston, has this day deposed  
before me, that for a considerable time she  
was severely afflicted with Scrofulous Sores  
and Ulcers in her arms, face, legs, and other  
parts of her body: and although the first  
of medical advice was obtained, at the cost  
of a large sum of money, she obtained no  
abatement of suffering, but gradually grew  
worse.  
Being recommended by a friend, to try  
your Ointment, she procured a small pot,  
and a box of the Pills, and before that—was  
all used, symptoms of amendment appeared.  
By persevering with the medicines for a  
short time longer, according to the direc-  
tions, and strictly adhering to your rules as  
to diet, &c., she was perfectly cured, and  
now enjoys the best of health.  
I remain, dear Sir, your truly,  
(Signed) J. NOBLE.  
Dated August 13th, 1852.

An extraordinary and rapid cure of Erysip-  
elas in the leg, after medical aid had  
failed.  
Copy of a letter from Mrs. Elizabeth Yeates,  
of the Post Office, Aldwick Road, near  
Bignor, Sussex, dated Jan. 12th, 1853.  
To Professor Holloway.  
Sir,—I suffered for a considerable period  
from a severe attack of Erysipelas, which  
at length settled in my leg, and resisted all  
medical treatment. My sufferings were  
very great, and I quite despaired of any  
permanent, when I was advised to have re-  
course to your Ointment and Pills. I did  
so without delay, and am happy to say the  
result was a perfectly successful, for I ef-  
fected a radical cure of my leg, and re-  
stored me to the enjoyment of health.  
I shall ever speak with the utmost confidence  
of your medicines, and have recommended  
them to others in this neighbourhood simi-  
larly afflicted, who derived equal benefit.  
I am, Sir, your obliged and faithful servant,  
(Signed) ELIZABETH YEATES.

A dreadfully diseased Ankle cured after  
being given up by the Faculty at Malta  
and Portsmouth Hospitals.  
The following important communication  
has been forwarded to Professor Holloway  
for publication, by Mr. B. Dixon, Chem-  
ist, King st. Norwich.  
Copy of a letter from Captain Smith, of  
Great Yarmouth, dated January 19, 1853.  
To Mr. Dixon.  
Dear Sir,—I send you the particulars of  
a cure effected by Professor Holloway's in-  
valuable medicines.—Mr. John Walton,  
late in Her Majesty's Service, in the British  
fleet at Malta, had a very bad ulcerated  
ankle, and after being in the Malta Hospital  
for six months, was sent to England as an  
invalid to Portsmouth Hospital, where he  
remained an inmate four months, there, as  
at Malta, refusing to have the limb amputat-  
ed, he was turned out incurable. He then  
came to Yarmouth, and was under a medi-  
cal gentleman for about three months, but  
his ankle became so much worse that all  
hope was lost. At this period, by my advice  
he tried Holloway's Ointment and Pills,  
which by unremitted application, healed  
all the ulcers, and restored him to per-  
fect health and strength.  
I remain, dear Sir, your truly,  
(Signed) JOHN SMITH.  
Albert Hotel, Great Yarmouth.

Surprising cure of a bad Breast, Nervous  
Debility, and general ill health.  
Copy of a letter from Mr. T. F. Ker, Chem-  
ist, &c., Lower Maclean Lane, Manchester,  
dated Feb'y 12th, 1853.  
To Professor Holloway.  
Dear Sir,—I have great pleasure in for-  
warding to you the particulars of a very  
extraordinary cure of a bad breast, effected  
solely by the use of your celebrated Oin-  
ment and Pills. Mrs. Maria Bell, of Pitt  
street, in this town, had been for a con-  
siderable time labouring under nervous debil-  
ity; loss of appetite, and general ill health,  
occasioned by ulcerated wounds in the  
breast. She had much experience in the  
use of all the known remedies for the cure  
of ulcers, but without any beneficial result,  
in fact she had nearly lost all faith and  
hope of a cure being effected. In this dis-  
tressing and painful condition of body and  
mind, she was persuaded to have recourse  
to your invaluable Ointment and Pills,  
which she immediately did, and in the  
course of a very short time the effect pro-  
duced was most astonishing; her appetite  
was speedily improved, the sores and ulcers  
in the breast gradually healed, and the  
nervous excitement of her system was  
wholly removed.  
I remain, dear Sir, your faithfully,  
(Signed) T. FORSTER KER.

ON THE  
Philosophy of Marriage and the Secret In-  
fluences of Youth and Maturity.  
With fifty Coloured Engravings on Steel,  
In a Sealed Envelope, price 2s 6d sterling.

**SELF-PRESERVATION:** an Analytic  
cal Investigation of the Physiology  
and Functions of Marriage, in all the bear-  
ings in which that important subject affects  
the health and happiness of man, with its  
disqualifications, and impediments, tracing  
their origin to the effects of juvenile solita-  
ry habits, youthful excess, tropical climates,  
or close study; followed by practical re-  
marks, founded on twenty years experience  
in the treatment of impotence, nerv-  
ous debility, local weakness, spermator-  
rhoea, syphilis, and all diseases of the urinary  
and generative system. Illustrated by  
fifty Coloured Engravings on the anatomy  
of the reproductive organs and their rela-  
tive conditions in health and disease. By  
SAMUEL LA MERT, M. D., No. 37,  
Bedford-square, London, Doctor of Medi-  
cine, Matriculated Member of the Universi-  
ty of Edinburgh, Honorary Member of the  
London Hospital Medical Society, Licenti-  
ate of Apothecaries' Hall, London, &c.

The essential object of this treatise is to  
point out, the fearful consequences result-  
ing from certain habits, irregularities and  
excesses, which have produced more mis-  
ery in youth, degradation in manhood, and  
premature decay at all stages of life, than  
perhaps, any other class of disease known  
to modern pathologists. Its perusal is par-  
ticularly recommended to persons entertain-  
ing secret doubts of their physical condi-  
tions, and who are conscious of having haz-  
arded the health, happiness and privileges  
to which every human being is entitled.—  
The contents embrace the origin, effects,  
prevention and treatment of the detestable  
catalogue of maladies connected with ner-  
vous debility, exhaustion of the vital ener-  
gies, prostration of mental and physical ca-  
pacity local and general weakness, acute  
and chronic spermatorrhoea, and their en-  
dless modifications. They secured to them  
by the experience of  
the most eminent practitioners, both in Great  
Britain and in Continental Europe. Every  
peculiarity relating to the physiology, pa-  
thology and general treatment of the dis-  
eases incidental to the generative system is  
clearly explained, and the means of imme-  
diate relief and ultimate cure described in  
detail. The professional reputation of Dr.  
La Mert, who has taken the most distin-  
guished medical and academic honours, at  
home and abroad, is in itself a sufficient  
guarantee that those who may place them-  
selves under his care will, in every instance  
meet with that delicate consideration and  
inviolable secrecy which are so requisite in  
the treatment of these cases.

THE LIFE AND TIMES OF THE LATE  
**Duke of Wellington;**  
By Lieut. Col. Williams; (a Companion at  
Arms, of His Grace.)

Comprising the Campaigns and Battle-  
Fields of Wellington and his Comrades,  
the Political Life of the Duke and his  
Contemporaries, and a detailed account  
of England's Battles by Sea and Land,  
from the commencement of the Great  
French Revolution to the present time,  
interspersed with Anecdotes Personal  
Incidents, and Adventures, &c.

**ADDRESS.**  
The earthly career of Arthur Duke  
Wellington has closed; one of the greatest  
men of the nineteenth century, the fore-  
most military commander of any age has  
paid the debt of nature. The time has not  
arrived for giving to the world a History  
of the Great Captain—of the Events of his  
Life and Time—a life marked by patriotism  
probity and honour, and events the greatest  
which have ever agitated the civilized  
world, and whose influence will be felt  
upon society till the end of time. Such a  
work must appeal to the best and proudest  
feelings in the heart of every Briton—the  
glory of his country, the honour of its name  
and position among the nations—may his  
own existence as a freeman, are recorded  
and engraven in the annals of the "wel-  
fought fields," and the deadly imminent  
breaches, the immortal battles and the glo-  
rious sieges in which Wellington and his  
Companions in arms gathered unfading lau-  
rels, placed their country's honour and  
renown on the highest pinnacle of fame and  
glory, and tore the victor's wreath from the  
brows of heroes decorated with the trophies  
of Italy, Egypt, and Germany.

To supply such a desideratum in Eng-  
lish literature, the publishers of The Life  
and Times of the Duke of Wellington have  
determined to produce a work which shall  
present to the reader, not only the dry  
details which a mere biographical sketch  
would afford, but a comprehensive work,  
embracing the contemporaneous history of  
the period; exhibiting the circumstances  
in which the Duke and his contemporaries  
were engaged, and giving to the reader a  
connected narrative of the lives and actions  
of the Warriors and Statesmen of the nine-  
teenth century; and this from the pen of  
one who was a companion in arms of the  
great hero, and participated with him in  
many a well-fought field.

In order to carry out their views, the Pub-  
lishers have determined that the work shall  
be profusely illustrated by Portraits of the  
Warriors and Statesmen of the last half  
century who have shed a lustre upon the  
history of their country; also representa-  
tions of the most important engagements by  
sea and land from the period of 1750 till  
1852; so that the work, when finished, shall  
form an illustrated Gallery of the Naval and  
Military Exploits of England.

It has been well said, "Character is the  
true strength of nations; true glory their  
best inheritance. When the time shall  
come that the British heart no longer thrill  
at the names of Cressy, Poitiers, Agin-  
court, Blenheim, Ramillies, Oudenard,  
Malplaque; of Talavera, Salamanca, Tou-  
ouse, Waterloo—the last hour of the  
British Empire will be struck." The pro-  
motion and elevation of national spirit and  
feeling is therefore the duty and interest  
of every true and loyal son of England.  
May Heaven inspire the hearts of every  
one of us with that spirit and feeling.

Conditions of Publication.—The work  
will be issued on the 1st and 15th of every  
month, in Parts at 1s. 3d. and Divisions  
handsomely bound at 9s. 4d. printed on Im-  
perial 8vo. double columns, each part will  
be embellished by two highly finished steel  
Engravings, and will contain 32 pages of  
letter press. A beautiful steel Engraving  
13 by 19 inches, the storming of Seringapa-  
tam, the first victory in which the late Duke  
of Wellington was engaged in India, to  
every subscriber to the work.

#### HOLLOWAY'S PILLS.

Surprising Cure of a confirmed Asthma,  
after five years' suffering.

The following testimonial has been sent to  
Professor Holloway, by a Gentleman  
named Middleton, of Scotland-road, Li-  
verpool.

SIR,—Your Pills have been—the  
means, under Providence, of restoring me to  
sound health, after five years of severe  
affliction. During the whole of that period  
I suffered the most dreadful attacks of  
Asthma, frequently of several weeks du-  
ration, attended with a violent cough, and  
continual spitting of phlegm intermixed  
with blood. This so shook my constitu-  
tion that I was unfitted for any of the active  
duties of life. I was attended by some of  
the most eminent medical men of this town,  
but they failed to give me the slightest  
relief. As a last remedy I tried your Pills,  
and in about three months they effected a  
perfect cure of the disease, totally eradica-  
ted the cough, and restored tone and  
vigour to the chest and digestive organs.—  
I am, Sir, your obedient servant,  
(Signed) H MIDDLETON.  
Dated Jan. 1st, 1853.

A Permanent Cure of a Diseased Liver,  
of many years duration.  
Copy of a letter from Mr. Gamis, Chemist,  
Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills  
command a more extensive sale than any  
other proprietary medicine before the public.  
As a proof of their efficacy in Liver  
and Bilious Complaints I may mention the  
following case. A lady of this town with  
whom I am personally acquainted, for years  
was a severe sufferer from disease of the  
Liver and digestive organs; her medical  
attendant assured her that he could do  
nothing to relieve her sufferings, and it was  
not likely she could survive many months.  
This announcement naturally caused great  
alarm among her friends and relations, and  
they induced her to make a trial of your  
Pills, which so improved her general health  
that she was induced to continue them un-  
til she received a perfect cure. This is  
twelve months ago, and she has not experi-  
enced any symptoms of relapse, and often  
declares that your Pills have been the  
means of saving her life.

I remain, dear Sir, yours truly,  
(Signed) J. GAMIS.

An astonishing Cure of Chronic Rheuma-  
tism, after being discharged from the  
Hospital incurable.

Copy of a Letter from Mr. W. Moon, of  
the Square, Winchester.

To Professor Holloway.

SIR,—I beg to inform you that for  
years I was a sufferer from Chronic Rheu-  
matism, and was often laid up for weeks  
together by its severe and painful attacks.  
I tried every thing that was recommended,  
and was attended by one of the most emi-  
nent surgeons in this town; but obtained  
no relief whatever, and fearing that my  
health would be entirely broken up, I was  
induced to go into our County Hospital,  
where I had the best medical treatment the  
Institution afforded, all of which proved  
no avail, and I came out no better than I  
went in. I was then advised to try your  
Pills, and by persevering with them was  
perfectly cured, and enabled to resume my  
occupation, and although a considerable  
period has elapsed, I have felt no return  
whatever of the complaint.

I am, Sir, your obliged servant,  
(Signed) W. MOON.

An extraordinary Cure of Dropsy, after  
suffering for eighteen months.

Copy of a letter from Mr. G. Briggs, Chem-  
ist, Goole, dated February 15th 1853.  
To Professor Holloway.

SIR,—I have much pleasure in in-  
forming you of a most surprising cure of  
Dropsy recently effected by your valuable  
medicines. Captain Jackson of this place  
was afflicted with Dropsy for upwards of  
eighteen months, to such an extent that it  
caused his body and limbs to be much  
swollen, and water oozed as it were from  
his skin, so that a daily change of apparel  
became necessary, notwithstanding the  
various remedies tried, and the different  
medical men consulted, all was of no avail  
until he commenced using your Pills, by  
which, and a strict attention to the printed  
directions, he was effectually cured, and  
his health perfectly reestablished. If you

deem this worthy of publicity, you are at  
liberty to use it.  
I am, Sir, yours respectfully,  
(Signed) G. BRIGGS.

These celebrated Pills are wonderfully  
efficacious in the following complaints.

#### THE SUBSCRIBER OFFERS FOR

SALE THE REAL ESTATE HERE-  
—INAFTER MENTIONED—

A FARM situated one mile  
from the lower, and 7 miles  
from the upper Falls, on the  
beautifully romantic River,  
Maguadavic, containing a-  
bout 300 acres of excellent

LAND, well timbered with the usual in-  
digenous growth, suitable for fuel, fences, ship  
timber, and other purposes. The River  
forms its Western boundary, and Lake U-  
topia constitutes its Eastern limit. There  
are on the place a convenient Farm HOUSE,  
Barn, and Out Houses, good fences, and  
about 40 acres on the front, well cleared.—  
The Farm is 45 miles from St. John, 20  
from St. Andrews, and from Eastport, by  
water, about 6 leagues. The scenery on the  
margins of the River and Lake, and of the  
surrounding country, cannot be surpassed for  
native beauty in any other part of the Province.

A Tract of LAND, some 300 acres, front-  
ing on the East side of Lake Utopia, situated  
on the highway leading from the St. John  
Road to Fredericton, and being about 3 miles  
from the Maguadavic Village. There are  
some 60 acres cleared and under improve-  
ment; the tract is covered with all sorts of  
wood common to the country, and is abun-  
dantly supplied with brooks and springs of  
salubrious water.

A Lot of LAND situated on the St. John  
Road, 5 miles from St. Andrews, about a mile  
from the railroad, and the beautifully cul-  
tivated and extensive improvement appertaining  
to J. Wilson, Esq. The Lot contains  
120 acres; it fronts on Passamaquoddy Bay,  
where there are 30 acres cleared, and culti-  
vated; on the rest there are several Dwell-  
ing Houses, a good Barn, and other im-  
provements.

A Lot of LAND, 90 acres, fronting on  
the River Digdegwash, its rear bounded by  
the Fredericton Road, situated between lands  
belonging to John Cassilis and Charles Car-  
son, and in the midst of a flourishing settle-  
ment.

A FARM LOT, 200 acres, on the West  
side of Lake Utopia, having about 30 acres  
under improvement; there are a House and  
Barn on the place, and a small Orchard, and  
the premises afford opportunity for the  
grazing of cattle and it abounds with a fine  
growth of wood, of all the varieties common  
to the country; this Lot is on its front bound-  
ed by the lake shore, and is in immediate  
proximity to the most famous trouting  
streams.

Also, a small LOT of LAND, about 30  
acres, on the North East side of the Digde-  
gash River, near to the Episcopal Church,  
being part of a farm belonging to Alexander  
Cockburn.

A liberal time will be given for the pay-  
ment of the purchase money, 4, 5, or 6  
years, in annual payments, one fifth of the
