CAMPBELLTON, NEW BRUNSWICK, THURSDAY, MAY 14, 1925.

FIVE CENTS PER COPY

HOSPITAL DAY FITTINGLY OBSERVED IN THE TWO CAMPBELLTON INSTITUTIONS

Tuesday A Busy Day At Both Hospitals—Many Visitors Take Advantage of This Opportunity To Become Better Acquainted With Hospital Work Here—Different Events Of Both Very Successful.

Tuesday, May 12th, National Hospital Day was fittingly observed in Campbellton, and both local hospitals made special preparations in order that all visitors might find the day an interesting one. That this was accomplished is evident from the large number of visitors who called at those institutions throughout the day.

At the Soldiers' Memorial Hospital Tuesday was a busy day. The Hospital was open to visitors and scores of people took advantage of this opportunity to visit the sick and to become more intimately acquainted with the work there. Pupil nurses were in attendance and courteously showed all visitors through the building. The Alumnae Association of the S. M. Hospital put on a Tag Day, the badges used being arranged in the victory colors of red and white and marked "Let Us Forget." In the afternoon tea was served at the Linmac from 8 to 5.30. The taggers were out bright and early, Messrs S. S. Harrison, W. H. Miller, G. A. Wallace and L. Sullivan placed their cars at the disposal of the Association and the taggers were enabled to cover all parts of the town in a short time. The day being fine, many people were about and all proved interested and generous in their contributions. As a result the fine sum of over two hundred dollars was realized and this will be placed toward hospital improvement.

The afternoon tea at the Linmac proved a great attraction and the sum of \$43.75 was secured. The tables were decorated with quaintly dressed men in full evening attire, white ties, red and wearing tiny Red Cross veils. A double attraction was the good music furnished by the Linmac Orchestra. This was much enjoyed by all present.

At the Hotel Dieu a Hospital Day was an equally busy one at the Hotel Dieu. The Hospital held "open house" from 9 to 6 and in the evening from 8 to 8.30. It is estimated that about 300 people visited the hospital. The interior of the large building was pleasantly decorated with cut flowers, ferns and flags and music, echoed softly through the corridors during the afternoon and evening when the Linmac Orchestra rendered many fine selections in their most approved style.

Visitors to Hotel Dieu were much interested in the Food Exhibits, showing the different diets required in sickness and in health. X-ray and Laboratory demonstrations were also given and visitors were conducted through all departments of the hospital. Tea was served by the ladies to all visitors from 2 till 5 o'clock and although there was no charge for this a fine sum was received in voluntary contributions. Hospital literature especially prepared for the occasion and government buttons were distributed. Another successful event on the Hotel Dieu Hospital Day program was a Bean Supper and entertainment in the Campbellton Catholic Club Rooms on Tuesday evening. The Club put on its regular entertainment for the benefit of those attending and an appetizing spread and good music combined to assure a particularly pleasant evening.

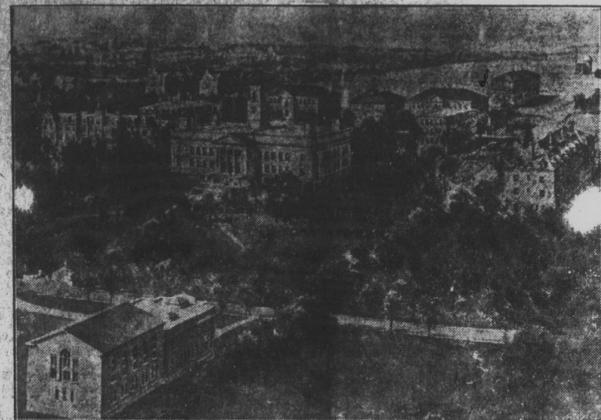

The object of Hospital Day is to educate the public at large in the splendid work being carried on by our institutions for the care of the sick. That this day should prove so successful here is indeed gratifying in view of the splendid work being done here by our two fine up-to-date hospitals.

FRANCE WILL PAY UP DEBT TO U. S.
Paris, May 12.—The anxiety caused by newspaper despatches from the United States to the effect that the United States was about to prevail upon France to settle her war debts has been allayed by corrections issued in Washington and Paris.

The explanation of the commotion appears to be that the new French Finance Minister, M. Caillaux, is continuing the negotiations started some time ago by his predecessor, M. Clemenceau, but in a more practical and definite manner.

St. John's, N.B., May 12.—The work in that province, said De Bevoise, is being carried on in a most satisfactory manner. The three-fold departments of social hygiene, child welfare and tuberculosis are being given the most careful attention.

St. John's, N.B., May 12.—The present government has given no indication that it proposes to discontinue the payment of the total sum borrowed.

NEW BUILDING OF ACADIA UNIVERSITY, WOLFVILLE, NOVA SCOTIA. The central building, the first of its kind in Maritime Canada, will be opened on May twenty-four in connection with the eighty-seventh convocation of the university. The gymnasium, shown in the foreground, is said to be the largest in the Maritimes. Acadia University is situated in the heart of the Evangeline country.

MUSICAL REVUE PROMISES WELL

Tonight's Bill At The Opera House One That Theatre Patron Should Not Miss

When a theatrical entertainment is staged in Campbellton by local talent theatre patrons can always expect something good. This expectation is not a misleading one in the case of the Musical Revue which will form the full bill at the Opera House tonight. In making this statement the writer is not basing his assertion on hearsay for we secured a peep behind the scenes last night when the performers had their dress rehearsal at the Opera House.

The program is one of generous length and ample variety. Besides two decidedly interesting plays, which are particularly well acted, there is a wealth of music and monologues. Besides this the spirited chorus of two dozen voices is a feature of the bill.

The different players as well as those who make up the Chorus have all proven their ability in the past and their work on this occasion is still nearer perfection. All those who have neglected to reserve a seat for this evening should take a rush seat rather than miss what promises to be a memorable entertainment of its kind.

SEVENTEEN YEAR OLD BOY SENTENCED TO TWO YEARS IN PENITENTIARY FOR A SERIES OF ROBBERIES

WINNIPEG, May 9.—Immaculately dressed and looking anything except a criminal, Hollis Walker, 17-year-old Winnipeg youth, just out of school, pleaded guilty to a series of robberies, in police court here yesterday. He was sentenced to two years' imprisonment in Stony Mountain penitentiary. He confessed to "one well" burglary, extending over a period of five years.

DEPUTATION TO VISIT RUSSIA

LONDON, May 12.—The British Labour party has decided to accept the official Russian invitation to send a deputation to Russia this summer. Its purpose will be to study the possibilities of an improvement in Anglo-Russian trade.

NO PARKING

After spending seventy-five thousand dollars in paving our main business thoroughfare we would suggest that the "No Parking" bylaw be put into operation. At times Water Street is congested with traffic, and the indiscriminate parking of cars along both curbs, morning until noon, and from noon until evening does not help matters, and besides detracts from the appearance of the street. Of course if a motorist has business in a store or office parking should be allowed for a limited time. Business men who ride to business should park their cars on side streets or vacant lots near their places of business. We think that the police should be instructed to enforce the bylaw at once.

EXPERTS TRIBUTE TO WONDERFUL WORK OF LIVE PUBLIC HEALTH MINISTER

Toronto, May 12.—New Brunswick and its health services are being given the most careful attention.

St. John's, N.B., May 12.—The work in that province, said De Bevoise, is being carried on in a most satisfactory manner. The three-fold departments of social hygiene, child welfare and tuberculosis are being given the most careful attention.

LORD MILNER'S DISTINGUISHED CAREER ENDED

Rose From Obscurity to Loftiest Positions in Empire Was War Minister

LONDON, May 13.—Lord Milner, former war minister, who has been ill for some time, died here Wednesday at his residence, Barry Court, near Canterbury. He had been suffering with sleeping sickness.

LUMBERJACKS SLIP FROM LOGS AND GO TO THEIR DEATH

Quebec, May 13.—Damas Gauthier and Arthur Villeneuve, two residents of Ste. Anne de Chateaugay, met death by drowning yesterday while they were engaged in floating logs near Lynton Junction on the Jonette River between Quebec and Lake St. John.

WORLD'S GREATEST MONUMENT

It is indeed a soulless people who evince no desire to perpetuate, by some means, the memory of those who have performed signal services to their race. It is a duty which the living owe, not only to the memory of honored men and women, but as an example to the generations of the present and the future.

KLAN WOMEN IN ROBES LED FUNERAL CORTEGE

PATCHOQUE, L. I., May 12.—Fifty-five members of the Women's Ku Klux Klan, known locally as the Acirema (America spelled backward), headed the funeral cortege today of Mrs. George Silliman, who died Saturday at her home on Carman Street.

THE WIRELESS PIRATE IN EVIDENCE

LONDON, May 9.—The super-radio pirate has appeared in the person of the man who not only listens without paying a license fee, but who makes records of the voices of famous singers when they appear before the microphone. He can sell such pirated records much cheaper than the photograph companies, who have to pay a big fee to the singer for his services.

WAGER \$100 ON THE JEWETT CAR

Local Dealers Bet \$100 That Jewett Excels As A Hill-Climber

An announcement that should interest many local motorists is made this week by the Jewett and Paige car dealer here, Messrs. J. E. Boudreau & Co. They are offering a wager of One Hundred Dollars to the owner of any car that can excel the Jewett in a fair test of hill climbing.

The Jewett is known as a great hill climber and there are many other car-owners who believe they have the best hill climber car on the market. This announcement will likely cause considerable discussion and probably a contest that will be interesting to watch.

700,000 EMPLOYES TO ATTEND FUNERAL

Viscount Leverhulme to be Buried in Churchyard of Christ Church.

LONDON, May 9.—Elaborate preparations are being made for the funeral of Viscount Leverhulme, who died of pneumonia Thursday. The services will be held at Port Sunlight model industrial centre created by the late captain of British industry and the body will lie in state in a gallery which Leverhulme had with treasures and delicate memory of his wife.

ATHLETIC ASSOCIATION WILL BE FURTHER ORGANIZED AT MEETING TOMORROW NIGHT

Field Question Likely To Be Solved By Then—Large Gathering Hoped For As Other Matters Likely To Be Discussed Outlook Promising For More Active Summer In Sports This Year.

GLEE CLUB IS FORMED HERE

New Musical Organization Formed Here Last Week—Are Planning Minstrel Show—Officers Elected.

Campbellton now has a Glee Club. The new organization was formed last week and already has a membership of between 25 and 30. Mr. H. J. Currie is the president and leader of this new musical body; Mr. C. J. McCluskey is secretary-treasurer and Mr. E. Floyd Rattray is the assistant leader. The pianists are Messrs. H. C. Burley, Harold Wilson and E. F. Rattray.

This new organization has already had two enthusiastic meetings and plans for a Minstrel Show are already being discussed. This entertainment will in all probability be put on in aid of the Athletic Club or to assist some worthy cause. The regular meetings of the Club will be held at the Linmac every Tuesday night and it is expected that before long this new body will have a large membership list.

THE GREAT TAKU GLACIER

There are many notable sights to be seen by the tourist who has the opportunity to visit Alaska, but none more impressive than the famous Taku Glacier, which lies between Wrangell and Juneau. This is one of the largest ice fields in the world, where the ice breaks off in great bergs that fall into the sea with a roar like a peal of thunder. The glacier is one wide and from there it extends ninety miles back into the heart of the mountains that girdle this rich and beautiful land. It is one of the few great advancing glaciers left in North America and it is a sight which impresses itself deeply upon those who are privileged to view it. That number will be greatly increased this Summer by the inauguration of a steamship service by the Canadian National Railways from Vancouver and Prince Rupert as far north as Skagway, Alaska, with ports of call enroute at Ketchikan, a typical Alaskan town built at the foot of the mountain, Wrangell, a city where bejewelled ladies of the Russian Court danced in rustling silks when other belles were threading the mazes of the Minuet in towns on the Atlantic Coast; Juneau, the modern and attractive capital of this northern outpost of the United States and Skagway, the portal to the famous White Horse with the great gold-rushes where men gambled their lives for the sake of hidden gold.

GOVT. MAKES CHANGES IN TARIFF

Small Cheques and Money Order to be Exempt From Stamp Tax.

Ottawa, May 12.—Budget resolutions passed the House today after discussion covering the greater part of the afternoon and evening. Following adoption of the resolutions, bills based on their provisions were introduced and given first reading. Second reading went over to another day.

Principal changes made during the day were:

- 1—All cheques, money orders, postal notes, etc., under five dollars to be exempt from stamp tax.
- 2—Ninety-nine percent drawback on coal for cooking to be confined to plants exclusively making coke as a product.
- 3—Legislation of last session creating a lien on the assets of a taxpayer for unpaid excise taxes to be repealed.

PROROGATION IN JUNE

Ottawa, May 13.—Parliament is speeding up. Evidence before the ocean rates committee is expected to be complete by the end of next week. Rapid progress is now being made with routine business in the House. There is talk of prorogation by June 15.

WONG FOON SING

Under arrest at Vancouver in connection with the murder of James Smith. This case has baffled the police for months, and the young Chinaman's disappearance about six weeks ago under circumstances that suggested kidnapping added to the mystery. He was found wandering in a dazed condition near Vancouver and claimed the kidnapping story was correct. He had been employed as a house boy at the same time as Smith was employed as a maid.

The Car of Tomorrow Is the New Studebaker of Today

THE New Studebaker cars are different. Different because they are 365 days ahead of current motor car design.

Long graceful bodies, including the exclusive Studebaker Duplex—an open-closed car combined; durable lacquer or enamel finish; the oval grouping of all instruments under glass; the lighting control on the steering wheel; new-type emergency brake; completely machined crankshaft; force-feed oiling system; and full-size balloon tires, with steering gear especially designed for their use—these are a few of the features that distinguish the advanced design of the New Studebaker cars.

Because the New Studebakers are the forerunners of a new era of motor car design it naturally follows that the Studebaker you buy today will be worth relatively more tomorrow than any other car.

See the New Studebakers before you buy. It costs nothing to look.

STUDEBAKER

THIS IS A STUDEBAKER YEAR.

SPAN OF LIFE EXTENDED TO 150 YEARS FOR SIXPENCE A HEAD, SAYS NOTED ENGLISH SCIENTIST

Alotted Span of Three Score and Ten Should Find Man in Prime of Life—Work Done in Last 80 Years.

That the span of life can be extended to 150 years at the cost of a sixpence a head is the argument of Sir Ronald Ross, the English scientist whose researches have led to cures for malaria and sleeping sickness. Sir Ronald claims that a sixpence from the pocket of every Englishman spent in scientific research; would result in new medical knowledge that would keep germs and old age away for at least 150 years.

This start on cheating eternity has just begun, the speaker continues. Nowadays the equivalent of one penny a head is being spent in Britain for research, and he asserted that the spending of a sixpence a head would make the monkey gland useless. A scientist of the Pasteur Institute in Paris has predicted that in 100 years from now the average man will live to be 150 years old. Mechnikoff, the Russian scientist, has made the same prophecy. These visions of a future race of Methuselahs are to be materialized through the agency of the research laboratory, in Sir Ronald's opinion.

The laboratory worker in the next generation, if allowed full scope, will trace all destructive diseases to their source and exterminate them instead of combating the after they have appeared, Sir Ronald said. Already research laboratories are at work on important medical problems. The Pasteur Institute is seeking to destroy cancer and tuberculosis and the Ross Institute in London is working for the eradication of leprosy.

Advanced English scientists hope to see research laboratories in every large city in the world, financed by the state or municipality. In them the search will be carried on for unseen enemies of the human family until the last germ has disappeared. If the medical world could spend \$10,000,000 annually instead of \$90,000 a now, Sir Ronald avers, our children and grandchildren would all be centenarians, and at that be only pickers to their posterity.

Advanced English scientists hope to see research laboratories in every large city in the world, financed by the state or municipality. In them the search will be carried on for unseen enemies of the human family until the last germ has disappeared. If the medical world could spend \$10,000,000 annually instead of \$90,000 a now, Sir Ronald avers, our children and grandchildren would all be centenarians, and at that be only pickers to their posterity.

RESTIGOUCHE RIVER REVERIES

PART I.
(The Restigouche "is the most noted trout and salmon stream in the world"—Can. Geography.)
Although with world waterways
You doubtless have no place;
An atlas of the universe (Map of world otherwise)
Would not your windings trace.

Yet, Restigouche, you have a name
To other streams unknown;
A little place of prominence
That is just yours alone.

And not an ample Amazon
Nor "lordly Niger" free
Nor Mississippi—Missouri
That seeks, in state, the sea.

Can claim the fine distinction of
Your waters of the north
With all their finny treasure
To mankind to such worth.

For here the silver salmon swim
That make for you this name,
And "speckled beauties" in your
depths
Share equally the fame.

Attend also on the spring
Come ansett in shining shoals
Past plowshare parted intervals
And liesle whence plenty rolls.

Oh Restigouche! I see again
For high and rocky bank
Where as a child
Your scenery wild
Into my spirit sank.

GIN PILLS FOR THE KIDNEYS

Don't trifle with a Pain in the Back—It may mean Kidney Trouble! Gin Pills will relieve you. Get a box to-day.

TENDERS FOR ROAD CONTRACTS

Sealed tenders for the following contracts will be received up to 12 o'clock noon of the 23rd day of May, 1925, at the Provincial Highway Engineer's office, Fredericton, N. B.

Tender for Contract No. 57, College Hill culvert and fill, Bathurst, 0.2 mi. Tender for Contract No. 58, Diversion at Archarrette, 0.6 mi. Tender for Contract No. 59, Hammond River—Rothsay, 6.1 mi. Tender for Contract No. 60, Aroostock River—South End Long Swamp, 4.5 mi. Tender for Contract No. 61, Whites Brook—Grog Brook, Restigouche Co. 11.0 mi. Tender for Contract No. 62, Grog Brook—Robinsonville, Restigouche Co. 12.0 mi.

Plans, profiles, specifications and approximate total quantities for all the above contracts may be seen at the office of the Chief Engineer at Fredericton, N. B.

Profile, specifications and approximate total quantities for Contract No. 57 may be seen at the office of L. L. Theriault, Bathurst, N. B. Profile, specifications and approximate total quantities for Contract No. 59 may be seen at the office of W. H. McQuade, St. John, N. B.

Profile, specifications and approximate total quantities for Contract No. 61 and No. 62 may be seen at the office of H. J. Currie, Campbellton, N. B.

Blank forms of tender may be had on application to the Chief Engineer at Fredericton, N. B.

LOWER STUMPAGE RATE IS LIKELY

Premier Veniot Discusses the Lumber Situation—The Grand Falls Project.

St. John, N. B., May 7.—Premier Veniot and his colleagues of the Executive Government propose to do everything possible to help the lumbermen of the province during the present trying period, according to announcements made to-day by the Premier, who is in the city to-day.

"I read with considerable interest," Premier Veniot said, "a discussion that took place at a meeting of the lumbermen here yesterday, and I wish to say that the matter of the serious competition they are meeting in the lumber markets of the world, particularly in the United States, has already engaged the attention of the Government. The matter was considered fully at our last meeting and we have decided to investigate thoroughly into market conditions with a view to ascertaining what could be done to help our lumbermen. Among other matters was discussed the adoption of a new system of grading, such as is in vogue in the Province of Quebec."

Asked concerning stumpage rates, Premier Veniot said that the date on which that is fixed annually is August. While no definite decision was taken at the last meeting of the Government, he said, it was hoped that something along the lines of regulating the stumpage market would take place before August 1st. He declared that if market conditions continued as they were at present he felt that, in justice to this important industry of the province, something of a tangible nature should be done.

Regarding the Grand Falls project, Premier Veniot said he would leave the matter to the International Pulp and Paper Company, which is to be a settlement of the company's claim in connection with rights and property at Grand Falls. He said that Hon. J. E. Michael, Hon. Dr. E. A. Smith, chairman of the New Brunswick Electric Power Commission, J. D. P. Lewin, solicitor, and probably R. Weston, Chief Engineer, would also go to Montreal. H. G. Acres, Niagara Falls, consulting engineer of the commission, also will attend. Asked regarding the personnel of the new power commission, Premier Veniot said he had the statement to make at present.

Premier Veniot also declined to discuss matters in connection with provincial elections or cabinet reorganization. He will remain in the city to-morrow and then return to his home in Bathurst.

HEAVY ROLL FROM AUTO ACCIDENTS IN THE U. S.

New York, May 4.—An average of fifty-two persons were killed and 1,180 injured in the United States every day during 1924 through automobile accidents. These figures became known to-day when the National Bureau of Casualty and Estimates for last year, showing that the deaths of 5,700 children and 13,800 adults were directly attributable to motor accidents. Approximately 450,000 persons were injured during the year.

KILL A HUSBAND TO GET A WIFE

Common Eskimo Social Custom According To Dr. Rasmussen

If cost the Canadian Government \$50,000 and \$75,000 to execute two Eskimos at Herschel Island, about a year ago, said Dr. Knud Rasmussen, Danish explorer, in an interview here, and it was figured with medical missionaries at around \$1,000 a year would do much better work among these primitive people than hanging them for infraction of laws of whose import they were totally ignorant.

Dr. Rasmussen spoke of traces he had discovered of the ill-fated expedition of Sir John Franklin, which was lost in the Victoria Straits in 1845, and of conversing with natives whose forefathers had told them of the destruction of the Franklin party. He had seen skeletons and parts of clothing that had belonged to Franklin's men.

Eskimo folk-lore had been collected by Dr. Rasmussen, to the extent of 2,000 different legends and songs. The explorer said the natives of the interior of the Canadian Northland had the same sagas and the same speech as the Eskimos of Greenland and all over the fringe of the Arctic Circle. None of the legends of poetry dealt with the sea, indicating that the Eskimos were originally an inland people.

Dr. Rasmussen painted a depressing picture of the social life of these people in their summary manner of disposing of surplus population. Their practice was to kill female children. Hence when the male Eskimo of marriageable age desired to espouse himself, he chief part in the ceremony was to murder the husband of the woman he wanted to marry. In one community he visited, he had estimated that 65 per cent. of the males were murderers.

The Federal government desired to do something for these people, and to this end, the project of importing herds of reindeer from Alaska had been mooted. It was also intended to maintain trading posts throughout the country, and to have mounted police stations established at frequent places so that the reindeer might gradually be taught the Eskimo.

At present the great Northern plains still produced great herds of caribou, which were hunted by the Eskimo in addition to fishing and seal hunting.

Dr. Rasmussen thinks that the Eskimo population is decreasing.

FUNERAL OF LATE RICHARD H. SMITH

Former C. N. R. Resident Engineer Here Died In Toronto Last Week

Toronto, May 12.—The funeral of the late Richard H. Smith, assistant engineer in the Engineer of Standards' office, Canadian National Railways, at Montreal, was held from the chapel of F. W. Matthews, funeral director, Spadina Ave., Sunday afternoon. The death of Mr. Smith occurred Saturday morning, at the residence of his mother-in-law, Mrs. Wake, Winchester Apartments following an illness of four months duration. The late Mr. Smith was a well known figure in railway engineering circles in both western and eastern Canada, having been identified with construction work in Manitoba, Ontario and the Maritime Provinces.

Deceased was born in Sydney, N. S., in May 1881, the son of the late Archdeacon Smith. He received his early education in his home town commencing his engineering career with the Dominion Iron and Steel Co. of Sydney. In 1903 he went to western Canada on construction work with the Grand Trunk Pacific Railway, with headquarters at Portage La Prairie. He remained in the Province of Manitoba until 1914, when he returned to Nova Scotia as resident engineer at the Halifax ocean terminal. Five years later he was transferred to Campbellton, N. B., as division engineer on maintenance for the Canadian National Railways, where he remained until last year, when he was transferred to Montreal as assistant engineer in the Engineer of Standards' Office.

Of a cheery disposition and by his willingness to help all with whom he came in contact, the late Mr. Smith was an unusually popular figure 26 and 27, to discuss matters in connection with his fellowmen, and through his attention to his duties he was probably one of the best known officials among the operating staff in the Atlantic Region. He will be genuinely missed. A large number of railway officers and men were present to pay their last respects to his memory, including W. A. Duff, Engineer of Standards, Canadian National Railways, Montreal; S. B. Wass, terminal engineer, C. N. R., auditor of pay rolls; S. J. Potter, assistant treasurer; James Whitehead, assistant engineer, Montreal; H. F. McLean, Andrew Watson and Geo. S. Deeks, well known railway contractors.

Interment was made in Mount Pleasant Cemetery. The late Mr. Smith is survived by his widow and daughter Margaret, aged five years; his aged mother, who resides in Sydney, and two brothers, Charles Smith of Sydney, and Frank of Halifax, both members of the Nova Scotia Bar Association.

MAY OPERATE GASPE LINES

Decision Believed to be Result of Recent Interview in Ottawa

Quebec, May 11.—As a result of an interview held between Premier Taschereau, the Minister of Railways and the head of the Canadian National Railways, Sir Henry Thornton, the Telegraph is in position to state that unless unforeseen developments arise the Quebec Oriental Railway which links the Gaspé peninsula with the other centres of the province will be operated by the National Lines within a few months. Last year an important meeting of residents of the Gaspé region was called by His Grace, Mr. Boss, Bishop of Gaspé to which Sir Henry was also invited. The object was to discuss means of improving the railway service in that section of the province. At the time, Sir Henry stated that he was in favour of the idea of purchasing the railway as the national line, but also possible in shares of a public company without adding to it. However, Sir Henry added that should the Federal Government take over the railway and ask the C. N. R. to operate, the line he would consent to do so. This appears to be the terms on which the Canadian National will operate the Gaspé lines, which connect directly with its eastern service in this province.

Lally—Hume At St. Ignace Rectory, Winnipeg, Man. Saturday, May 2nd, 1925. Gertrude Hume, Sellerville, P. Q. was united in marriage to John Joseph Lally of Winnipeg, Man. by Rev. A. J. Primeau, Mr and Mrs. Lally reside in Winnipeg, Man.

most important of kind since the election of Mr. Moore as labor representative on the C. N. R. directorate.

LADY ASTOR HAS HER OWN TROUBLES

One of Them is a Husband Whose Horses Win Races

Wives have sometimes been hindered to politically minded husbands. If a lady is somewhat indiscreet in action or given to speaking out her likes and dislikes, the "honorable her husband" is likely to find the consequences reflected when the votes are counted. It now happens that husbands are embarrasments to wives who depend on the suffrages of their fellow citizens.

Lady Nancy Astor is a case in point. Her husband, the Viscount, who sits in the House of Lords without the trouble of getting himself elected, is given to racing horses after the manner of an English gentleman. Recently he started two horses in the same race. One was the favorite at odds of 5-4, and the other a mere pacemaker quoted at 20 to 1. The pacemaker was victorious and the British public, which always has something on a race, wants to know about the Astor entree.

Viscount Astor has gone to the trouble of explaining in a letter, not to the London Times, but to the Daily Herald, the labor paper. He declares that he does not bet on his horses, and that he fully expected the favorite to win.

No doubt his explanation is adequate, but his wife must be somewhat worried. A lot of her constituents probably lost money in the race. A few more such happenings and Mrs. Astor will have a first-class contest on her hands at the next general election. It must be a terrible coup de do was done she paid away on Friday morning at ten o'clock.

Mr. John Cooling and daughter Beatrice were in Gloucester on Monday.

Mrs. Magnus Firth, Miss Mary Firth and Miss Hazel Walling were in town Friday.

Misses Ida Cooling and Edna Macdonald were the guests of Mrs. MacFirth on Saturday.

We are glad to hear that Mrs. W. M. Firth was well enough to be up and about again.

Mr. John Beebe has returned home from the Soldiers' Memorial Hospital much improved.

We understand that Mr. James Pollock has been appointed road supervisor in place of Mr. Anthony Boudreau and we trust that the new man will make a great change in our road as the road here is in very bad need of repairs.

Mr. Albert Nichol, foreman for W. H. Miller Co. Ltd., has successfully completed his drive on Christopher Brook. This drive has been taken out in the shortest time since the Brook has been operating. Quite a number of the young men have returned from the drive.

Misses Bella and Ruth Kierstead and Freda Gallie were in Gloucester on Saturday.

Mr. Gordon Kierstead was in Gloucester on Tuesday.

CONFERENCE OF THE C. N. R. MEN

Representatives of Brotherhoods to Meet Tom Moore in Montreal

Montreal, May 11.—Representatives of all railway brotherhoods and shop At St. Ignace Rectory, Winnipeg, Man. Saturday, May 2nd, 1925. Gertrude Hume, Sellerville, P. Q. was united in marriage to John Joseph Lally of Winnipeg, Man. by Rev. A. J. Primeau, Mr and Mrs. Lally reside in Winnipeg, Man.

most important of kind since the election of Mr. Moore as labor representative on the C. N. R. directorate.

SELLERSVILLE NOTES

The Misses Ines and Beatrice Hume, Murter Sears and Johnny Parker moved to Sellersville on Sunday.

Mr. George McLeod spent the weekend at his home here.

Mrs. John Hume accompanied by her daughter Blanche was the guest of Miss Edna Downs on Saturday.

Mr. and Mrs. Stanley Pelletier are receiving congratulations on the arrival of their son, Stanley Victor.

The many friends of Mr. Graham's airplane flight to the North pole for Sellers are glad to hear that he has three weeks by reason of the unfavorable returned home from the Soldiers' able ice conditions and wintry weather.

THE SPRING STORY OF THE MEADOW

Examine your new meadows now. A half hour's walk over them may save you future loss by indicating whether or not your cropping practices in this connection have been correct.

Each young plant, especially of the various clovers, stands out fairly distinctly at this time of the year, and we are able to see wherein our seeding has either succeeded or failed to measure up to what we might rightfully expect.

Some of the plots at the Central Experimental Farm, when examined in April, were almost completely covered with live plants of the same kind as seeded, while others presented a sorry contrast. These latter plots had been planted with seed from regions where weather conditions were not so severe as at Ottawa, consequently the great majority of the plants had winter killed.

Unevenness of seeding, and the presence of large clods of earth or large stones, were reflected in either the absence of plants in definite spots or in the patchy, uneven appearance of the sod. Some spots, however, were bare where the ground was smooth and in good condition with no

CURIOSITY SATISFIED

The curiosity of a motorist on a country road was aroused by the lettering, too small to read, on the spare tire of a car ahead.

Anxious to know what it said, he put his foot on the accelerator and read:

"If you can see this you are too damned close for comfort."

 THE SILENCE OF THE
 "They're coming back into style again."
 Toronto Telegram.

KEY TO CROSS WORD PUZZLE

Horizontal

- Pertaining to tilling the soil.
- To sow temporarily.
- Seeps out; comes out slowly as a liquid.
- A boy's name (ab.)
- To sorry, miser.
- Prince of Wales' ranch (ab.)
- For cleaning floors.
- A land measure (Metric system)
- Improve.
- A snare.
- Spasmodic twitching of muscles.
- A symbol; a eupheme.
- To acquire knowledge; memorize.
- For boring holes.
- The quality of being habitually silent; disinclined to conversation.
- To aid or encourage; assist.
- A stick or rod.
- Royal Society (ab.)
- Three odd letters.
- A coin.

Vertical

- A northern water bird.
- To fondle; a shything.
- Two odd letters.
- A contraction of "sewer" (ancient word).
- To get sight of.
- A heavenly body.
- Path.
- Moulded.
- A kitchen utensil.
- A residue.
- Pertaining to paintings and pictures.
- And so on (ab.)
- For favoring eatables.
- Stop; refrain from.
- To rip.
- A nickname for a political party.
- A beverage.
- Meaning "three"
- A woman devoted to a religious life.
- Used to keep a woman's hair neat.
- Account (ab.)
- Gills (ab.)

WORTH CONSIDERING

Last year a Tourist's Carving Ground at Campbellton was discussed and it was thought that some provision of this kind would be made here for summer visitors to the North Shore. Nothing however was done and would now appear that such an undertaking has been abandoned. Yet with the yearly increase of summer visitors to this country, towns everywhere have been making better and more thorough preparation for them. Large amounts of money are being spent in this work, such expenditure inspired by the belief that it is a good investment. If it is, Campbellton and Restigouche should not be behind. There is no doubt but what tourist traffic to the North Shore is only in its infancy. While other places have reaped a harvest from this comparatively new industry, ours is yet to come. That that benefit should reach considerable proportions is a very reasonable expectation in view of our attractions for health and pleasure seekers. Considering these things it should pay us to make more preparation. If we don't our revenue from tourist business will be correspondingly small. This matter is at least worth careful consideration.

TOO SLOW

Despite the fact that we have enjoyed a little fine weather and few rainy days this spring numerous complaints about the dust of our streets have recently been heard. We have seen the water-wagon out too but this antiquated vehicle does not seem able to cope with the task of laying the dust. Considering the present dimensions of our town this job is one that requires more time than it did formerly. Keeping the dust out of eyes of pedestrians and the houses of local ratepayers requires that a very considerable territory be repeatedly covered. Evidently a horse is too slow for the job. What we need is a motor vehicle. We believe that the town has a spare motor truck somewhere. Why not mount the water tank upon the chassis of this truck. It would mean much more effective work. The entire street mileage could be gone over in less than half the time and the result would be ample compensation for any additional expense involved.

Having failed to influence the Quebec legislature to refuse friendly co-operation to New Brunswick in its hydro development policy, the Montreal Gazette now predicts that the enterprise will not be able to market its product and so will prove a burden to the province. This unfriendly attitude toward New Brunswick enterprise is evidently inspired by whether political or financial considerations prompt the great daily is not easy to determine. It is significant, however, that in both the Quebec and New Brunswick Legislatures, the Conservatives voted solidly against the legislation to make the Grand Falls development, and in both Quebec and New Brunswick this Conservative opposition was seen as the voice of

private interests seeking to secure a control against the public.—St. John Globe.

SOME FACTS

Statistics given out by the United States Government in regard to Canadian migration to the United States are prominently displayed by The Montreal Star. They show that the peak was reached in 1923, and that there was a reduction of 22,910 in 1924. If the last six months are taken, a still better showing is made, the difference in favor of the last six months of 1924 being about 40,000. The improvement continued in 1925, the returns for January and February being 14,839, as compared with 29,566 in the same two months of 1924. If this rate continues, the migration for 1925 will be little more than half that of 1924. The Star's comment, while dwelling upon the loss of Canadians, contains some constructive suggestions which are worth considering. Then we should prepare to meet American competition. We have in many ways a much better country than they have. We can offer an aspiring young family much richer and more promising opportunities. For the hard-working, the ambitious, those who have their "pile" or their place to make, the Canadian West beats the American West all hollow. The decrepit, the aged and the tired may prefer the softer climate of California. But red-blooded men and vigorous women find more room to make progress in the bracing climate of Canada.

We are encouraged to believe that many farmers in the Middle West of the greater opportunities of the Canadian West, and are moving over the border. They are abundantly welcome. They make excellent settlers—for they understand farming under North American conditions.

There is now a rebate of returned Canadians on the figures quoted above. There is a further rebate composed of incoming Americans. Let us do what we can to swell both streams flowing north; and let us seal up the gaps through which our life-blood has been flowing south.

Evidently the tide is turning. Reports from the West are encouraging, and this will help the movement for bringing farmers from the Middle West of the United States to Canada. The Manitoba Free Press recently said that conditions were propitious for an effort to obtain increased immigration from the United States. "The American well-to-do farmer spying out the land and looking for a home for himself and his descendants is again becoming a familiar figure on the trains, in the hotels and in the land of Western Canada; and one can note in the local press of the West constant references to property changes due by incoming Americans. This process ought to be speeded up by every agency within our power."

It went on to say that Canada had a valuable advertisement in the official reports of the Department of Agriculture of the United States, which asserted that farm land and transportation were cheaper in Canada, while grain yields were higher. The opening up of the Peace River District would give an impulse to the movement. "Farmers from the United States gave an impulse to the settlement of the Canadian West in the first decade of the century, and there is an opportunity to repeat the experience. The movement promises advantage to the United States as well as to Canada. The Middle West of the United States is largely populated by farmers who have land enough for themselves, but not for their sons, and the tendency at present is for these sons to drift into the cities where their progress often is the cities where their prospects of becoming independent are far less than in the country. The Canadian West affords them just the opportunity they need, and this is especially true of the Peace River District. The American farmers' sons need the land and Canada needs the farmers, who are accustomed to Western methods of agriculture. In the Middle West there is already a friendly feeling toward the movement and this can be strengthened by co-operation on both sides.

REGULATIONS OF GAME OF QUOITS

Good Games for Spring and Summer Evenings—in Town or Country

1—Quoits

Quoits shall be made of gun metal composition, of uniform pattern, and of the weight of two and one-half pounds each.

2—Rinks

Rinks shall be level from one pitching crease to the other. Rink beds shall be of clay loam, slightly inclined upwards and backwards from each other, and with a diameter of eight feet.

3—Hubs

Hubs shall be made of hardwood, rounded, one and a half inches in diameter at the top, fifteen inches in length, and tapering towards the end. They shall be driven in the centre of, and normal to, the sloping surfaces of the rink beds, and project four inches above ground. A hub shall not be replaced if disturbed during the pitching, unless broken or completely knocked out.

4—Pitching Crease

The pitching crease shall be a plainly marked line drawn across the rink about ten feet from the hub, or about six feet from the inner edge of the rink bed.

5—Distance

The distance from pitching crease to opposite hub shall be 21 yards.

6—Ringers

(a) A quoit encircling the hub with proper side up, and not having first touched the ground, shall be called a fair "ringer," and shall count two (2).
(b) A quoit as above, but having first touched the ground, shall count one (1).
(c) A quoit encircling the hub with wrong side up, not having touched the ground first shall count one (1).
(d) A quoit as above, with wrong side up, having touched the ground first, shall not count. It shall be removed at once from the ground and scored as the case may be.

7—Hits

A quoit which strikes the hub, without first touching the ground more than a quoit's length from the hub, shall be called a "hit" and be considered the best or "in" quoit. It shall count one (1); be scored at once, and be removed from the ground before the next quoit is pitched, otherwise it cannot be claimed as a hit. Should a hit be made on each side, both shall be counted. When the score of each side is twenty, and a hit is made on each, both hits shall be counted, and the game be decided by the next end.
8—Best Quoit (Or Quoit to Score)
When neither ringer or hit is made, the quoit being nearest to the hub at the termination of the pitching is the "in" or best quoit. But no quoit more than thirty-six inches from the hub shall be counted.

9—Dead Quoits

A quoit which is past the perpendicular (i.e. whose lower surface when quoit has lodged forms more than a right angle with the horizon) is to be considered dead and must be removed before the next quoit is pitched; if this is not done it can be claimed as counting. A quoit which may turn over, or be knocked over, after it has lodged is not to be considered dead.
A quoit falling on the standing ground, or anywhere outside of the rink bed proper, and rolling or sliding on to the bed shall not score, but must be instantly removed. This rule shall apply to all games, whether matches or not.

10—Measuring

In measuring between a quoit and a hub, the distance between nearest wood and nearest metal shall be taken, the earth being cleared away for the purpose. No interference from the opposite end shall be allowed. In case of dispute the matter shall be left

to some disinterested member.

11—Umpire

In match games or competitions an umpire shall be appointed, to whom any question which may arise shall be referred. His decision shall be final.

12—Position When Pitching

When delivering a quoit, the player must have both feet behind the crease when the quoit leaves his hand, otherwise the quoit shall not count.

13—Points.

The game shall consist of twenty-one (21) points, unless otherwise arranged before commencement of pitching.

Rules for Prize Competitions

(a) A measurer and scorer for each rink, and an umpire, who are not interested in the competition shall be appointed.
(b) Each competitor shall pitch (36) thirty-six quoits, two at each time of pitching.
(c) Competitors shall be divided equally, and positions drawn for; tickets shall be numbered from No. 1 upwards; 1, 2, 3, 4—playing at No. 1 Rink; 5, 6, 7, 8 playing at No. 2-Rink and so on.
(d) New regulations to be approved.
(e) The distance of each quoit from hub shall be measured and recorded; the player making the smallest total winning.
(f) All quoits over three feet from the hub shall count thirty-six.
(g) In scoring a quoit that is past the perpendicular and within 36 inches or less of the hub, six inches shall be added to its measurement.
(h) In measuring, the number of inches shall be taken from the nearest wood to the nearest metal. Fractions of inches of one-half and over shall be counted as next highest inch; under one-half as next lowest (e.g. 1-1-4 inches count one inch, 1 1/2 count two inches.)
(i) A hit shall count minus two (2).
(j) A fair ringer shall count minus five (5).
(k) A ringer, proper side up, having first touched the ground, shall count minus two (2).
(l) A ringer, wrong side up, not having first touched the ground shall count minus two (2).
(m) In the event of the measurer being in doubt, he shall consult the scorer; if they do not agree the decision of the umpire shall be called for and be final.

—Judge—Have you anything to say, please, before sentence is passed upon you?
—Prisoner—No, your lordship, except that it takes very little to please you.

A romance of the peerage and the steersman was personified by F. E. Bailey, grandson of the late Lord Glanusk, who arrived at St. John, N.B., last week among the third-class passengers on the "Montrose." Bailey, who is just 17 years of age, was so struck with Canada that he ran away from Bray Court College at Maidenhead and after a number of adventures realized his ambition by sailing on the "Montrose."

The largest batch of Clydesdale horses that has ever sailed from the Clyde, valued at \$10,000, was embarked recently on the "Marion." It consisted of 14 stallions and 3 fillies, and there were also ten Percherons from Antwerp on the "Marburn," while ten more Percherons and Belgians will be shipped at a later date. The horses were purchased by Mr. W. J. McCallum, of Brampton, Ontario, and Brandon, Manitoba.

George E. Buchanan, of Detroit, believes in romance. He believes in it so much that last year he took 48 Detroit boys for a trip to Alaska. This year he is going to take a good many more and he will include Canadian youngsters. He has been visiting in Toronto and his object is to find some boys willing to take a holiday in the Far North next July. Mr. Buchanan, who was born near Chatham in Ontario, has developed this unique hobby owing to having himself been taken on a trip to Alaska forty years ago when he was a boy.

Local Items of Interest

Newsy Notes of Town and Country
Happenings Gathered by Graphic Reporters

MISSION BAND CONCERT

In the Baptist Church, Tuesday, May 19th, at 8 p. m. Program and lantern slides on Bolivia. Admission 25 cents.

NEW S. S. SERVICE

Mr. H. A. Ellis of the Ellis Shipping Co. of Montreal, was in town Monday making arrangements for the S. S. "Gaspé County" which will sail from Montreal about May 20th for Campbellton and Gaspé ports. The new steamer, recently purchased in Europe arrived in Halifax last week and is now in Montreal.

LECTURER COMING

On Friday night, May 22nd, in the Presbyterian Church Hall, Miss Anne M. Marne, Canadian Corresponding Secretary of the Greatfell Medical Institute of Jamaica, will give an illustrated lecture on Dr. Greenfell's work in that district. A silver collection will be taken at this lecture. The public are cordially invited to be present.

SWEEP OVER FALLS

While engaged clearing logs over the dam at Grand Falls on Wednesday, May 13th, a large quantity of logs, weighing about 100 tons, fell off the dam into the falls and was not seen again. The logs had been employed for years by the Baddeck Company, Ltd., as a form of dam in the woods and on the drive.

BASEBALL MEETING

A meeting of the newly organized Baseball Club was held here in the Town Hall on Friday evening last. Only two teams were presented at this meeting. It was decided to extend the time allowed for teams to enter until May 22nd, when it is hoped that three or four teams will have been arranged for.

WHY NOT HERE?

A Woodstock, N. B., paper contains the following interesting paragraph: "The Garden Club, which was organized last November, held a meeting on Thursday night at the residence of the president, Miss Hazel Moore. The object of the club is the beautifying of the town by a clean-up campaign, and prizes will be given during the exhibition for the best improvements made during the summer in the case of lawns and the cultivation of flower gardens. Max Schilling, of New York, America's leading florist has donated 200 shrubs to the Garden Club."

MUCH IMPROVED

The extensive improvements made in the Uptown Bookstore are now completed and the remodelled store presents a pleasing and up-to-date appearance. Chief among these improvements is a side window at the front of the store and the provision of much more room for window display purposes. These improvements have also contributed to make the store more airy and cheerful and in addition to this a large quantity of the new stock is in evidence. New goods are arriving daily and the Uptown Bookstore under the management of Mr. J. R. Cameron is now ready for the season's business.

SALMON FISHING SEASON

The salmon fishing season on the Miramichi is now open and from reports received promises to be a fruitful one. Notwithstanding the early date on which the river was clear of ice this season, reports come from different sections that this valuable industry is already making returns and the indications are that those engaged in it will meet with more than the usual success.

SEVERAL CLAIMS

Several claims have been made for the honor of catching the first "bright" salmon, but it would appear that the first one was caught on Thursday, May 7th, which date, it is said, established a record. On this date Ernest Brennan was fortunate enough to catch a fair sized salmon in his nets at Chatham Head, while Joseph McDonald enjoyed the same good fortune at Fox Island. As neither report stated the hour the honors are so far equal.

The first salmon to arrive at Chatham was offered for sale on Saturday, at forty cents per pound.—Canadian Commercial.

TROUT FISHING

Some nice trout are being caught at Tide Head. The run of smelts has also been very numerous.

WILL BE OUT OF TOWN

Dr. Brennan will be out of town from the 3rd of June to 22nd, attending a Post Graduate. May 14-27.

MUSICAL REVUE MATINEE

The Musical Revue will be repeated on Friday afternoon at 3.30. All parents are asked to bring or send their children. Prices 50c and 85c.

IN PORT

The S. S. "Gaspé-County" was in port over the week-end, having some repairs made to her machinery. She had a general cargo for Gaspé Coast points.

DIED FROM INJURIES

Henry Melanson, of Big River, Gloucester County, has received word that his eldest son Ben Melanson, who has been away from home for the past nineteen years, was so severely injured in a mine accident that he had succumbed to his injuries. The deceased was residing in Wilkesbarre, Pa. Besides his parents, the deceased is survived by a widow and one small child; he also leaves six brothers and four sisters.

BIG SHOW POSTPONED

The Originals in "Stepping Out," the big musical show which was announced as coming here on May 22-23 has been postponed owing to instant demands that the Company visit Newfoundland before closing their eastern tour.

A definite date for Campbellton is not available as yet, we understand it will be along the early part of June.

PRESENTATION TO CURLEES

A feature of the evening's program at the dance recently given by the members of the Campbellton Curling Club was a presentation to Mr. and Mrs. E. K. Shives and the awarding of the Alexander and Smith Trophies. In recognition of his valued services to the Club Mr. E. K. Shives was presented with a fine set of pipes worth \$100. Mrs. Shives was remembered with a beautiful silver cake basket. Mr. Arnold W. Jardine was the winner of the Alexander Trophy while the E. E. Smith Trophy went to Mr. L. J. Hunt.

In the absence of the President Mr. Geo. G. McKenzie made the presentations with appropriate remarks.

EXPRESS THANKS

The Alumnae Association of the Soldiers Memorial Hospital takes this opportunity of thanking all their friends and co-workers who so generously gave of their time in preparation for Hospital Day and the good will and generosity shown the association and Hospital Staff during the day. They desire to thank those who so kindly gave the use of their cars to assist in Tag Day activities and also all friends who contributed so generously towards hospital funds. The proprietors of the Linnaea are especially mentioned for their many kindnesses shown the Association in the use of their Tea Room, Orchestra etc.

CARD OF THANKS

The administrative Staff of the Hôtel-Dieu Hospital hereby expresses their grateful thanks to all who contributed the sale of bricks on May 9th, and to the following:

The editors for valuable space on our local papers.

The merchants, druggists, etc., for window displays, contributions, etc.

The Club for selling tickets and helping on Hospital Day.

The Ladies who received visitors and served tea at the Hospital.

The Young Ladies who so ably gave the musical program in the afternoon and evening.

To the orchestra who contributed their usual good music during the Bean Supper.

To the President and Members of the Catholic Boys' Club for their entertainment in aid of the Hospital.

To all who generously gave contributions.

OFFICIAL OPENING

The official opening of the Eastgospa Country Club will be held on Monday, May 25th. Many golf enthusiasts have already enjoyed many rounds.

OBITUARY

Elizabeth Thompson

On May 1st, occurred the death of Elizabeth Thompson, at her home at Dalhousie Junction, N. B., after a short illness of two weeks. She was seventy-three years of age. The bereaved family will have the sympathy of a large circle of relatives and friends.

John Edward Matheson

The many youthful friends of Master John Edward Matheson, son of Mr. Thomas Matheson, whose death occurred at the Soldiers Memorial Hospital, on Monday evening, are called upon to mourn the loss of a favorite playmate and one to whom all acquaintances were much attached. The little fellow was attacked by influenza about two months ago, and complications which followed left him with a weakened heart. About six weeks ago the little chap was removed to the hospital in a deplorable condition from which he never recovered.

Besides his bereaved father he leaves to mourn three brothers, Fred, Francis and William to whom the heartfelt sympathy of the community is extended. The funeral services which were held yesterday afternoon, the Rev. Rev. W. W. McNair officiating, were largely attended.

Albert Dolron

The passing away of Albert Dolron whose death occurred at his home here on Wednesday morning at four o'clock will be regretted by a wide circle of friends and acquaintances. The deceased was a son of conductor John Dolron and was twenty-eight years of age. He was a former member of the 122nd Battalion and later on was transferred to the 87th Grenadiers Guards.

The late Mr. Dolron had been in failing health for some time and was brought home a few weeks ago from the Laval Hospital, Quebec, everything possible was done to restore his health.

Besides his father and step mother he leaves to mourn two sisters, Miss Albertine and Bertha, at home, eight brothers, Ernest of Mont Joli, Mr. L'Abbe Alexis Dolron, of Holy Heart Seminary, Halifax, Edouard of Copper Cliff, Sudway, and Antonio, Philippe, George, Sylvio and Maurice at home. The funeral services will take place Friday morning at 8 o'clock in the Church of Our Lady of Snows.

THE GREEN LANTERN

Campbellton now has another fine new restaurant. This is the "Green Lantern" which is located next the Bank of Nova Scotia Building on Water Street.

The Green Lantern had been opened here by strangers it might be some time before much could be safely said about it but since this new restaurant had for its proprietor, Mr. W. A. Rogers who formerly conducted a restaurant business on the same street, any statements we may make will be verified by former patrons.

As a more comprehensive knowledge of the tastes of hungry patrons. And the Green Lantern is admirably well equipped for its work. The interior of the new restaurant has been fixed up in a most pleasing way and is faultlessly clean and tidy this fact alone should draw a large patronage. The Green Lantern is open from 7.30 a. m. to 12 p. m.

Here and There

Southern Alberta is to have another addition to its growing list of other ranchers, according to report. The Duc de Nemours, a descendant of Louis Philippe of France, it is stated, is sailing in April to visit Lord and Lady Rodney, who have a ranch at Fort Saskatchewan, and, later, to acquire a homestead near the establishment of the Prince of Wales.

The Nova Scotia Technical College assays under direction of the Dominion Council of Scientific Research indicate Nova Scotia oil shales to be the richest in the world, giving fifty gallons of high-grade paraffin to a ton of shale. One hundred million tons of the shales are readily accessible and vast oil industries similar to those of Colorado and the Western States might well come into being in this province.

A special train of forty-two cars, containing nearly 200 head of stock, was shipped from the Dominion Pacific Railway's East End stock yards, Montreal, to Vancouver, B. C., for shipment to other points in Ontario and Quebec, made up what cattlemen claimed to be the greatest concentration of Dominion cattle for export in the history of the trade. From the yards the cattle were shipped by special train to the ship's side at St. John, N. B.

Grandmother (quite pointedly to Alice, who is getting up at 11 o'clock)—When I was your age I used to watch the sun rise every morning.
Alice—Why, grandma! I've never stayed out that late but twice!

The Old Woman Who Lived in a Shoe

Could have saved trouble, worry and a considerable sum on Shoe Leather had she brought her Children here for Shoes.

We could have fitted every one of the Youngsters nicely with good wearing, good looking Shoes, that would have given service.

BUT NO!

Like many other short-sighted people, she bought some cheap Bargain Shoes, that wore out in a few days; then she bought another pair, and so on.

It pays to buy our satisfactory Children's Shoes at a fair price. It's saving money to do so.

Shoes for Everybody—Prices Reasonable.

This Little Brandon Lassie Is Never "Dosed" for Colds

The Browns Now Use the "External" Treatment for Croup and Cold Troubles.

Mrs. John Brown, of 426 1/2 24th St., Brandon, Man., is the mother of this fine little girl and one of the many Canadian mothers who now use the vaporizing salve, Vicks VapoRub, in treating the colds of all the family. After using Vicks for some time Mrs. Brown writes:

"I have eight small children—aged from one to twelve years—and can certainly say that Vicks is the only cold remedy I have in the house all winter. If the cold is in the child's head I just put a little up each nostril and it gives relief in a short time. If it is in the chest I rub Vicks well in at night and by morning the cold has almost disappeared. I also use Vicks for chilblains and for burns—in fact, I use it too for severe headaches and find relief in a very short time. I always recommend Vicks

to my friends especially those who have children. Vicks is the external direct treatment for cold troubles—absorbed like a liniment and inhaled as a vapor. It is the ideal treatment for children's colds. Just as good, too, for adults.

Insist on getting the RED and WHITE package which contains crisp, flaky Cream Sodas fresh from our ovens to you

MONTREAL · ST. JOHN · HALIFAX · MONTREAL

Old Dutch assures Healthful Cleanliness

Always clean the kitchen sink with Old Dutch. The soft, flat, flaky particles remove all the grease or dirt, visible or invisible, leaving it spotlessly clean and sanitary. Won't scratch or injure the hands. Save time, labor and money all through the kitchen with Old Dutch.

CONTAINS NO LYE, ACIDS OR HARD GRIT

No Satisfactory Substitute for Knitted Summer Underwear

EACH season brings new underwear ideas and innovations, yet knitted underwear—Penmans Balbriggans—still leads in underwear value.

Penmans Balbriggans can be obtained in all styles including loose-fitting styles, so desirable for summer. These loose-fitting garments have all the advantages of flimsy summer underwear with twice the strength and three times the wear. They do not tear.

Made in bleached white and cream shades with no sleeves, half sleeves or full length sleeves, or in ankle and knee lengths.

"The best known numbers are 222 and 40. The number appears directly below the trade mark in the cloth label attached to every garment. Also made in loose-fitted lines, which, however, always bear the trade mark. If your dealer has the trade mark, he can obtain it."

SHED TREES A BEAUTIFIER OF PROPERTY

Careful Selection Necessary as Quick Growers Sometimes Prove Harmful to Adjacent Grass and Shrubs.

In the selection and planting of trees on the small lot care should be exercised in their location and in the selection of the varieties when they are planted. There is a tendency to plant trees which make quick growth and in this way obtain immediate effect. The unfortunate part of this is that the trees which make the quickest growth, such as the chestnut, poplar, Manitoba maple and the soft maple, by their voracity in feeding, make it impossible after a few years for grass to be maintained underneath them. They are the trees which generally grow to a large size, and on account of their soft wooded limbs and other features later become a nuisance. The planting of the larger growing trees should in general be confined to the boundaries, where they will give the shade which is required and may also allow shrubs to be planted about their base, the cultivation of which will tend to hasten their growth. Very many times it is found desirable and not too expensive to move certain moderate sized trees in, where immediate shade seems desirable.

Smaller Shrubs
The arrangement of the shrub beds should be made so that the plantations by their mass serve the purpose of softening otherwise hard lines, and form a background for either flowers or turf. The selection of the shrubs should be made in every case to conform to the purpose of each bed, and be such as will do best there, those thriving in shade, such as the spiraea, hydrangea, viburnum, dogwood, rhododendron, forsythia and honeysuckles, should be used at the north side of the house and fence. Those of erect or dwarf habit, such as the kerria, Indian currant, and the dwarf spiraea, should be used where space is restricted. Aside from one or two specimen shrubs, the shrubs should be grouped, using at least three of each variety to a group, even if this means comparatively few varieties. The varieties of shrubs used should be planned so that the bloom and foliage coloring will take place at the season when it is most desired.

Winter Effect
The residence occupied by the family the year round should have the winter effects considered, and dwarf evergreens, such as dwarf pines, and the hardy varieties of taxus should be included, as well as large evergreens, placed at such points as will otherwise be left bare by the falling leaves from deciduous trees and shrubs. If the occupants are to be away for the summer, spring and autumn effects should be obtained in the selection of shrubs and perennials.

It will be seen from the above that the whole problem for solution in the design of the surroundings for the house on a city lot is one of an intensive treatment, in harmony with the architecture of the residence, and that its best effects of beauty must be obtained in a limited space, and avoid the impression that the grounds have been overcrowded in the attempt.—From "The Home Plan Book" (Toronto: The Home Builders' Service Bureau.)

FARM HANDS INNOCENT PRANK

Leads to Arrest and Suicide—Mirth of People Causes Trouble

Brooding over the disgrace that followed what he considered a mere prank, caused Floyd Rutan, fifty-eight, to hang himself in the barn of his employer, Edward Hockenberry, in Wantage Township, Sussex County, N. J., Friday.

Rutan was a farm laborer. Early in February he visited the farm of John Spears and secretly took out Spears' horse, which had grown old and thin. Feeding the animal, Rutan drove it to town, and after much bargaining traded it for another horse, younger and stronger. Then he returned to the Spears' barn, replacing the old horse with the new one, while Spears remained none the wiser.

The next day Spears discovered the change. He had formed an attachment for the old horse, and, learning what Rutan had done, had him arrested.

Unable to get bail, Rutan spent March in the Wantage jail. Several weeks ago he was bailed out by his former employer, who assured him the Grand Jury, which was to consider the case next week, would take no action.

But Rutan could not endure the gibes of his fellow townsmen. Friday, he told Hockenberry "he couldn't stand it much longer."

Hockenberry found him hanging in the barn, dead.

All sailors are superstitious, but none is so completely under this influence as the old deep-sea fisherman. He puts the deepest faith in "signs" and omens of all kinds. Nothing would induce a skipper of the old school to sail on a Friday. One intrepid believer who dared to leave the docks at Grimaby, England, on a Good Friday, was hooted through the lock gates by the scandalized populace. In spite of this challenging the fates, however, he returned safely with ship and crew.

HER NERVES BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario.—"I started to get weak after my second child was born, and kept on getting worse until I could hardly do my own housework and was so bad with my nerves that I was afraid to step alone any time. I had a girl working for me a whole year before I was able to do my washing again. Through a friend I learned of Lydia E. Pinkham's Vegetable Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course, I don't feel well every day because I don't get my rest as the baby grows. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women asking about the Vegetable Compound."—Mrs. CHARLES GIBSON, 27 Forsythe Street, Chatham, Ontario. Mrs. Gibson is willing to write to any girl or woman suffering from female troubles.

FIND LOST CITY DEEP UNDER SEA

Diver off Coast Discovers Streets of Submerged Town

Discovery of the ruins of an ancient city beneath the sea off the coast of Tunisia was revealed recently by Sir Edward Desclaux Rose, Director of the School of Oriental Studies, who has just returned from Tunisia. The discovery was made by an Arab fisherman from the island of Jerba in the Gulf of Gabes. Looking over the side of his boat recently he saw in the water beneath him the remains of a city with street outlines plainly visible. Later, diving for his catch in native fashion, he came to the surface with an archaeological specimen which Sir Edward said immediately excited the curiosity of experts. "A party at once set out to investigate the matter," he continued. "Sure enough, they saw the city under the sea and also could distinguish streets. The French Commissioner at Le Kef described this find to me in detail a few days ago, and elaborate plans are being made to push research work. I am told that the French authorities and the Tunisian School of Archaeology will be in charge of the undertaking."

Children Always Thrive ON SCOTT'S EMULSION OF PURE COD-LIVER OIL IT ABUNDANCE IN VITAMINS

be used to survey the city under the sea. The ruins are about 500 yards from shore. Original Carthage Not Found. Sir Edward said he had stayed some time in the city of Tunis, where he learned the site of the original city of Carthage is not yet known and that 500 yards from shore the original port was. Some say the ancient port was at La Marsa and others at La Goulette, he explained. Describing the exploration work at the Phenic city of Utica, he continued: "During the last few weeks, and while I was there, many treasures were found. There were Punic inscriptions and sarcophagi were inscribed with bodies inside. Fingers in many cases were covered with the finest jewelry. Even razors and shaving materials were discovered." She—Can you tell me why a black cow gives white milk and makes yellow butter? He—For the same reason that black-herrings are red when they are green.

WHERE MACHINES BEGIN TO WEAR

Mostly Adjustable of Inexpensively Replaceable Parts.—Lubrication Is Very Necessary. Suppose the case of a car, which has been driven at least 10,000 miles. If its lubrication has been neglected it may be partly worn this time—a wobbly, ratty wreck—with a wobbly steering gear, spring bolts all loose, a transmission and rear-end that grind protestingly and an engine, with its cylinders and bearings scored or pounded out, from the use of gasoline-thinned oil. But even if it has had the most conscientious lubrication at all times, at somewhere between 10,000 and 15,000 miles, a car is pretty likely to commence to show some legitimate and practically unavoidable wear, even if it is a very well constructed one. Wear is inevitable and will first become noticeable in different parts and models, but the following are some of the parts that usually show it first: The steering gear, which begins to develop undue lost motion at a number of different points, among which are the steering device itself, the drag link and the tie rod connections and the knuckle bolts. The body springs which begin to show side play on their eye-bolts and possibly some wear of the bolts and eye-bushings themselves. The universal joints, if of the mechanical type, which sometimes are the seat of lost motion, due to the wear of pins and bushings, which manifests itself by noise and jerky action, especially when the car is started or reversed. As to the engine, the development of excessive clearance between parts of the valve gear is usually the first sign of wear, unless it may be the deterioration of exhaust valve face and seats, which calls for valve grinding, but the wearing away of the breaker points, are to be expected. All wear above mentioned can be compensated for, either by adjustment of the replacement of small, inexpensive parts and the car be made to run like new. Contrary to widespread belief, there should be hardly any other noticeable wear found in a good car, that has been well cared for and moderately driven up to the mileage when specified above, are to be expected. All wear found even at all the points above enumerated. No engine bearings should require taking up, piston-rings should still be in satisfactory condition and there should be nothing wrong about the transmission or rear or even about the clutch. Please note that these statements are based explicitly on the assumption that all parts have always been kept properly oiled and greased, and the car never subjected to any kind of abuse.

EX-BANK CLERK IS MURDER SUSPECT

Cobalt, Ont., May 11.—That Pete Vanghelluwe was brutally murdered and the evidence pointed to J. H. Joannise, formerly employed in a bank near Rockland, Ontario, being implicated in the crime, was the verdict returned by a jury which under George Tucker investigated the circumstances surrounding the death of Vanghelluwe in a shack at Smooth Rock Falls at Easter. Blood-stained clothing which Joannise is said to have been wearing was found in the bush near Jackson Boro, and Miss Foster, a clerk in a store there, testified that she had sold a new outfit to a man who corresponded to the description of Joannise. She also identified tags taken from the articles she sold, and which had been found with the old clothing. Joannise had occupied a room in the bank house, the window of which was immediately above the shack where Vanghelluwe lived.

MISTAKEN IDENTITY

The young girl tripped lightly up and down the room in front of a huge pier-glass. She was arrayed in a beautiful gown of shimmering silk and it was the night of her first ball. Slowly she turned this way and that, joyfully admiring her slender figure; then, turning to her mother, who stood proudly watching her said: "Mother, isn't it queer that this wonderful frock should have come from an insignificant little worm?" Her mother, whose knowledge of natural history was not too extensive, replied: "Oh, my dear, I don't think you ought to speak of your father like that!"

TIME FOR A CHANGE

He and his young wife were taken for a motor trip by some friends. She admired his anxiety about her comfort. "Are you all right?" he asked. "Quite, dear." "Cushions comfortable?" "Quite darling." "Not being jolted?" "Oh, no, sweetheart." "Not in a draught?" "No, lambkin." "Then change seats with me."

A DECIDED CHANGE

Irate Customer—Here! look what you did! Laundryman—I can't see anything wrong with the lace. Lady—That was a sheet!

OLD CHUM

The Tobacco of Quality

For Creamy Custards—Delicious Puddings

Custards and puddings can be no better than the milk with which they are made. Carnation Milk is ideal for such dishes. It is just pure, fresh milk, evaporated to double richness, kept safe by sterilization. Pure—Sweet—Doubly Rich—No wonder Carnation-made custards are good! Your grocer has Carnation—store it in your pantry—order several tall (16 oz.) cans or by the case of 48 cans.

BIRD'S BOARD

New Walls, Quickly!

Many thrifty house owners have finished the walls of their cottages and bungalows quickly, economically and durably with Bird's Combination Wall Board. It may also be used—

1. Divide large rooms.
2. Refinish old walls.
3. Repair leaky ceilings.
4. Cover walls of basements and garages.
5. Make backgrounds for store windows.

Bird's Combination Wall Board has a creamy white finish on one side that does not need painting, and is oak-grained on the other although you may paint it any color you wish.

Manufactured by Bird & Son, Limited (Est. 1795), manufacturers of Neponset and Canadian Black Building Paper. There's a Bird product for every sort of building.

We are manufacturers for Bird's wall board, ceilings and building paper.

Dalhousie Personals

Miss Beatrice Taggart of the Dalhousie Lumber Co. Office staff is spending a couple of weeks holidays with friends in St. John, N. B. Daniel McAllister, Jacquet River, spent Tuesday in the Shiretown a guest at the Queen Hotel.

Mr. and Mrs. R. M. Smith, Salmon Beach, Gloucester Co., were guests at the Queen Hotel on Sunday.

Charles J. Bernard, Sunnyside, N.B. returned home on Tuesday after spending a few days in the Shiretown with his family.

Miss Peletier, stenographer for A. P. Belle Isle, Dr. and Mrs. Pineault, Mrs. J. G. Christie, Mrs. Day, Mr. and Mrs. Joseph Boudreau, Mr. and Mrs. Sam Cormier and Miss Rosa Boudreau of Campbellton.

Val Magee, Campbellton, spent Sunday with his family in Dalhousie.

Miss Bernice LeBlanc, Campbellton, spent Sunday at her home in town.

Miss L. R. Loubert of the Campbellton Telephone Central Office and Miss Peletier, stenographer for A. P. N. McLaughlin, Barrister, Campbellton, spent Sunday in Dalhousie, the guests of Miss Cecelia Savoie.

James Green, Fishery Overseer, Maguasha, P. Q. was in the Shiretown on Thursday. Mr. Green has not been enjoying good health of late. His friends were glad to see him looking so well.

The recent death of Edmund Murphy, who for many years has been a Locomotive Engineer with the C. N. R., was a shock to his Shiretown friends. He had worked on the Dalhousie Branch Railway and therefore was well known in Dalhousie, where he made many friends. His wife and family will have the deep sympathy of many in their sad bereavement.

Mr. and Mrs. Rene Vermette, Campbellton, paid their Dalhousie friends a visit on their return from their wedding trip.

It is with deep regret that friends in Dalhousie of the family of J. P. Gauthier, Postmaster and Hotel Keeper of New Richmond, P. Q., read of the recent death of Miss Gratielle Gauthier, who at the age of 16 had won the esteem of all by her kind and courteous manner, while assisting in the Post Office and home. She was a talented young lady and her parents will have the deepest sympathy of very many friends in their sad bereavement. The late John F. Guite, Ex M. P. for Bonaventure Co. was an uncle of the late Miss Gauthier. The funeral service was held on Thursday, April 30th, in the R. C. Church, New Richmond. Over 100 teams were in the funeral cortege from the home to the Church. The floral and spiritual offerings were many. Rev. J. A. Gauthier a relative of the family celebrated the Mass. The organ was played by Notary J. Alphonse Dorais, New Carlisle. A solo "Jesus Salvator Mundi" was rendered by Mr. George Clapperton and "O Salutaris" by Mr. Romeo Fournier and at the conclusion of the service A. H. McIsaac, Agronomer, New Carlisle, sang "Le Crucifix" and "Intramus". Interment was made in the R. C. Cemetery New Richmond.

Rev. Geo. S. Gardner, Sackville, was a visitor to Dalhousie on Friday.

Arthur E. Coleman who is the guest of his parents Rev. R. J. and Mrs. Coleman at the Rectory, Dalhousie, graduated from the University of King's College, Halifax, N. S. on Thursday with the degree of B. A. He also completed his first year in theology. The Bishop has appointed him to Eldon, Restigouche Co. for the summer months. He has distinguished himself in the field of athletics, having captured King's University first hockey team, and also playing as a member of the Dalhousie University first hockey team, elected vice-president of K. C. A. A., he was also elected the first all round athlete student for the year 1924-25. He played as a member of both the Dalhousie and Kings football teams. He won the silver medal for the six-mile road race. As he is known to his former school-fellows here in town, is a pretty home, "Glen Cottage." Miss Stewart is receiving a hearty welcome from her many friends.

John McBeath, Tide Head, Restigouche Co.

Mr. Frank Synette has returned from the Soldiers' Hospital, St. John, much improved in health.

Mr. and Mrs. Edgar J. Melanson returned home on Monday from an enjoyable week end trip to Grand Anse, Gloucester Co., the native place of Mrs. Melanson.

Mr. and Mrs. Frank Kish Savoie are being congratulated on the arrival of a baby boy at their home on Thursday May 7th.

Use the Want Ad. way

Here and There

A total of 1,003,872 barrels of apples have been shipped to the English market from Halifax since the beginning of the shipping season up to February 24. London took 354,715 barrels and Liverpool and Manchester came second and third with 287,823 and 172,885 barrels respectively.

Eighty-four thousand automobiles are now being operated by citizens of the Province of Quebec equivalent to an average upkeep of \$800 per year each, a total expenditure for maintenance alone of \$25,000,000 every year, according to figures supplied by the Montreal Automobile Trade Association.

Around 16,000 horses were shipped from western Canada to eastern Canada in 1924, most of them coming from Saskatchewan. This province is maintaining its lead as the greatest horse-breeding centre of the Dominion, with a total of 1,170,745 head, an increase of 33.44 per cent over 1923.

The steamship "Princess Marguerite" successfully passed her trials on Clydebank when she developed an average speed of 22.56 knots and a best run of 23.2 knots per hour. Together with the "Princess Kathleen" she will be used on the Seattle-Vancouver-Victoria route this coming season.

Monsignor Hejlen, Bishop of Neuchâtel, Belgium, and permanent president of the Eucharistic Congress, arrived at St. John, N.B., last week on the "Montrosa." His Lordship will make arrangements for the Congress to be held there in June, 1926.

Ivan Shvigel, Canadian Pacific Railway representative in Yugoslavia, interviewed here recently, stated that his countrymen were 89 per cent agriculturists and that he felt "certain that in the future interests of both countries the future will, in the field of immigration, lead to closer and closer relations between Canada and the Kingdom of the Serbs, Croats and Slovenes."

DODGE BROS. MOTOR CARS
