An Attack on China's Capital

Made by the Russian Relieving Forces.

Their Timely Arrival Said to Have Checked the Attempt to Destroy the Legations-Report of General Massacre of Europeans-The French as Well as the German Minister Murdered-700 Chinese Killed in

the Taku Forts.

The Russian relieving force arrived outside of Pekin this morning, says the Shanghai correspondent of the Daily Express, and immediately began to attack the city, on both sides, employing numerous artillery. The force apparently arrived in the nick of time, for the Chinese assert that the attack upon the legations had

been successfully renewed. On the night of June 16 the Chinese troops, under Gens. Tung Fuh Siag and Tun Ching, attacked the legations and set on fire five European buildings. GENERAL MASSACRE OF EURO-

PEANS REFORTED. Nothing definite is known as to the result, except that the Chinese were disappointed, although other reports, uterly discredited by foreigners here, are that the Chinese, infuriated by the destruction of Taku, have since massacred all the foreigners in Pekin. A modified version of these rumors received at Berlin is that the French. as well as the German minister, has been killed. The English at Shanghai think that the Chinese had foreign advice in organizing defenses at Taku, because of the precision with which connecting with the harbor mines were

The Boxers then wounding more than fifty. It is re-ported that no fewer than seven hundred Chinese were killed in the forts. The Shanghai correspondent of the Daily Express says he is officially informed that Japan is mobilizing 25,000 men for immediate transportation.
The British cruiser Undaunted arrived at Shanghai yesterday, cleared for action, and took up a position com-manding the Chinese forts. There are three Chinese cruisers in the harbor. The new Chinese cruiser built by the Armstrongs, new Chinese cruiser Hai Yang,

AT PEKIN. The Shanghai correspondent of the Daily News, telegraphing yesterday, says: The Chinese officials here assert that they have news from Pekin up to June 17. The situation was then very serious. Beyond that they claim they have received nothing, but deny that dispatches have been withheld. Although I am not willing to adopt the alarmist reports, impression gathered from the consuls and the Chinese authorities is that the worst is to be feared in Pekin. miral Seymour's column is in the middle of an arid plan, with no food and no good water, and surrounded by hostile forces.

The Japanese consul at Che Foo does not report anything concerning the destruction of the legations at Pekin.

THE FRENCH FORCE. The French Government will have 4,200 troops at Taku when the reinforcements just ordered out arrive there. Two thousand will reach Taku before July 3. The dispatch of a crutser division, which was decided upon today, will give France a strong naval force, consisting of seven mod-ern cruisers, three of the first-class four of the second-class, four gunboats and a dispatch boat.

A WOMAN MISSIONARY'S STORY. San Francisco, June 20.-Mrs. A. P. Lowrie, a Presbyterian missionary, who has been stationed at Pao Ting Fu for the last six years, arrived here on the Doric. She reports that on the night of May 16 many native Christions, principally women and children, were murdered by the Boxers while fleeing from Pao Ting toward Tien Tsin. This was about ten miles from Mrs. Lowrie's station, which was not disturbed. The native Christians had been attacked on May 13, and had successfully repulsed the horde of murderers, but in trying to Lach Tien Tsin returned to Pao Ting and burned all

Heard From at Last-Krugersdorp Occupied by the British-Methuen Defeats Dewet's Force - General Kitchener Very Narrowly Escapes

London, June 20 .- The war office has received the following dispatch from Lord Roberts: "Pretoria, June 20. -Hunter's advance column occupied Krugersdorp without opposition, June 18. Methuen, who was escorting a large convoy to Helibron, yesterday routed a force under Christian Dewet, who endeavored to prevent him from entering the little town. Methuen had only three casualties.

"Baden-Powell left this city today on his return to Rustenburg. The country is quieting down in that direction. This satisfactory state of affairs will be materially assisted by the capture between here and Rustenburg, June 19, of two guns by Hutton's Mounted Infantry, and a body of the enemy under Commandant Duplessis. "Railway and telegraph communica-tio with Cape Town is now completely

restored. "All is quiet here and at Johannesburg. The shops are open and the market is daily becoming more crowd-ed and businesslike."

KITCHENER'S NARROW ESCAPE. Noon.—According to a Cape Town dispatch, Gen. Kitchener had a narrow escape from capture in the engagement at Loeuw Spruit, on June 14. He was sleeping in the repair train, when the latter was attacked and many of the engineers captured. Gen. Kitchener's sleeping car was at Kopjes Station, when the Boers, under Gen. Dewet, suddenly opened a rifle fire at 3 a.m. Kitchener managed to reach his horse and galloped to Rhenoster, two miles distant. The Boers numbered 900 men, with three guns. They burned the culvert, which had just been rebuilt, and derailed the train. The Boers alleged to be hemmed in by Gen. Rundle began shelling Ficksburg on June 19. It is said they apprehend that a force is marching from the north upon them, hence they will endeavor to break

through southward. ANNAPOLIS LIBERALS.

HAS RESIGNED

Principal Rose, of the London School of Art, Leaving the City-Financial Aid Needed by the School.

Mr. E. Rose, principal of the London School of Art and Design, has resigned his position and will soon remove with his family to Ann Arbor, Mich. There is a possibility that Mr. Rose will return to this city in the fall. will depend largely upon the financial condition of the school, which, for some time past, appears to have been far from satisfactory. A committee was recently appointed by the board to devise schemes for its betterment. Mr. Rose is of the opinion that this city affords such splendid opportunities for a successful school that it would be a pity to allow it to go down for want of some practical assistance. The annual report for the past year that has just been issued. contains evidence of the work that has been done, and it shows also that it is not for lack of students that the school would fail. There were five evening and five day classes held, making a total of 360 during the year. The freehand drawing classes were attended by 28 pupils; those in mechanical drawing by 17. The day classes were attended by 46 pupils. Miss Carlyle had 20 pupils in oil, water color and life work, and Miss Burnett had 22 in china painting. A total of \$522 was collected in pupils' fees. During the year a series of lectures was given by Messrs. Angus, Yates, Sifton, Graham and Bowman. These gentlemen and many others are willing to give more extensive series next term if the school continues successfully, and other citizens have said that they were willing to give financial aid in order that it

may be put upon a better footing. The people of Dawson City have subscribed \$8,078 25 for the immediate benefit of the fire sufferers' fund at

Governor Stephens, of Missouri, has issued a proclamation shutting out the cattle from a number of states in which, he says, tuberculosis exists, and also the Dominion of Canada

Report That the Imperial Government Has Ordered Military Conscription in Jamaica-The Revolution in

ATTACKED BY REBELS. London, June 20 .- A dispatch from Prahsu to the Daily Express, dated yesterday, says: "Capt Wilson and Sergt. Humphries, with 140 West African frontiersmen, while reconnotering between Bekwai and Kusha, were attacked by the rebels. Capt. Wilson and ten men were killed and seventeen wounded. Sergt. Humphries brought the detachment to Fumsu."

JAMAICANS EXCITED. Kingston, Jamaica, June 20.-The community has been excited by the receipt of news that the secretary of state for the colonies, Mr. Joseph Chamberlain, has ordered a military Conscription at St. Kitts and Nevis, by which every male between 17 and 40 is Mable to compulsory military service. The local press denounces the step.

IRISH NATIONALISTS. Dublin, June 20.-The Nationalist convention opened yesterday under the presidency of John Redmond, chair-man of the united Irish parliamentary party, and was largely attended, many Roman Catholic clergymen being pre-sent. The Healyites were absent. Mr. Redmond said it was the most representative assembly of Irishmen since the union. No attacks, he added, would be permitted on their absent brother Nationalists, but the hand of tellowship was held out to everyone willing to work on their lines. Resolutions were adopted, declaring there was no longer anything to prevent the Nationalists from reuniting, pledging Mr. Redmond their unflinching support, and asserting that the first ob-ject was to secure independence for Ireland as a nation.

THE FIGHTING IN PANAMA. Kingston, Jamaica, June 20.-The following details have been received here, furnished by passengers who arrived here from Panama on board the British steamer Don, from Colon, of a battle which was fought June 13 and 14 on the Bejuca Plain and Antom Hill between the government forces, composed of three battalions, numbering about 1,500 men, and a force of revolutionists under Gen. Belasarce It is asserted that 400 soldiers and 35 officers of the government force were killed, and that the remainder of the government army was divided. One portion, it appears, retreated to Emprador, on the Atlantic side of the isthmus, from where the troops were conveyed by the Panama railroad cars to Panama. The other portion proceeded to La Boca, on the Pacific side. Among the latter were, it is asserted, 25, car loads of wounded, who were taken to the Panama hospitals after

the battle of June 14.

The passengers of the Don further assert that Gen Parra addressed a letter to Gen. Campos, the governor of Panama, demanding the surrender of the city, and adding that otherwise the place would be taken by force. The following day consuls and merchants

DOMINION

Ottawa, June 19.—This afternoon Sir Charles Tupper moved an amendment to a motion to go into supply, declar-ing that immediate provision should be made for the representation of the Yukon Territory in the Canadian Parliament. In support of the amendment the opposition leader quoted a resolution passed at a mass meeting in Dawson giving reasons for the demand, among these being the statement that the Yukon yielded 1-25th of the gross federal revenue, that there was suffici-ent population, according to the mounted police census, to warrant the right of electing two members, and that it was un-British to enforce taxation without representation. The premier pointed out that there could be no controversy over the fact that, according to the spirit of the British constitution, the people should be represented in all legislative assemblies; but he added, the intent of the constitution also was that legislative action which would disturb the existing condition of things should be slow and gradual, and not precipitate. A law was passed last session conferring the power to elect representatives to the territorial council, and the government would issue a proclamation, immediately putting the law into force, so that the elections might take place at an early date. As to representation in the Dominion House, it would be better to wait until the exact condition of things in the Yukon had been determined by the cen-sus. The suggestion had been advanced that the Yukon should be granted two members, but that number would not be in accordance with what was acknowledged to be the unit of represen-tation in all parts of the Dominion, which was one member for some 22,000 electors. If the Yukon were allowed two members on what was believed to be the present population, the representa-tion of the gold territory would be in excess of that enjoyed by the rest of the Dominion. When the people of the Yukon had elected two members to the territorial council, the House of Commons would be placed in possession of valuable suggestions as to the parlia-mentary representation to which that

region was entitled.

Mr. Foster spoke for some time in criticism of the large powers which he said were enjoyed by irresponsible officials in the Yukon. He attacked Mr. Ogilvie's course in regard to liquor permits, and blamed the minister of the interior for prohibiting liquor permits and then departing from the order in response to political pressure. The amendment was defeated on vote of 72 to 46.

The supplementary estimates for the current year were then taken up.
At 2 o'clock the house was still in session on the Nova Scotia public

TURF.

A GOOD AFTERNOON'S SPORT. The best that was ever attempted in

London. That was the opinion of the horsemen and sports who attended the opening day of the annual June meet of the London Driving and Turf Assignment, at Queen's Park yesterday Wellesley; Jennie Mac, b. m., H. sociation, at Queen's Park yesterday afternoon. The entries were the largest of any similar meet here, and among the "ponies" were some fast ones. The day was a perfect one for racing, and the track was in the best of condition, which made it easy for the horses to pull out some pretty fast time. Exciting finishes were the order of the day, and in a couple of instances it looked as if dead heats would have to be called. The attendwas about 900. Music was provided by the Musical Society Band. There was a plentiful sprinkling of the fair sex on the stands. Many sportsmen from all sections of the country were in attendance and expressed great satisfaction and pleasure at the splendid three-day meet that the association have provided. The sum of \$3,400, hung up in purses, has attracted some of the fastest horses in the country, many of them coming from Toronto and Fort Erie tracks with a string of newly-won victories. The steppers are not confined to Canada alone, but the entry list includes several fast ones from over the border. The starting is in the hands of A. W. McElroy, of Chicago, who officiated here before, and there is no more competent or more fair starter in the business. His word was law with the horsemen, and what he said was heeded by them, which made the "getting away" much more pleasurable. Just previous to calling on the first heat, Mr. McElroy complimented the management on securing such a splendid field of horses for the various event. The drivers could depend on it that they would get fair play, as that was one of the mottos of the London association. Every courtesy and fair treatment would be extended to the horsemen, and the association would expect the same in return. The programme passed off without a hitch, with the exception of a couple of trivial delays. The track has been undergoing preparation for the meet for several weeks, and is now one of the fastest in Canada, and it is expected that some record time will be made today and tomorrow. The a pretty lively business.

THE 2:35 PACE.

The entries in all the events were unusually large. Seventeen were entered in the above event, but only twelve came to the wire. Little Tim had the pole, and got away in good style, leading the entire half-mile, followed closely by Harold H, Prince Vale, Queen's Baron, and John R. Gentry, in the order named. The finish of this heat was great, and caused all kinds of excite-Harold H, Prince Vale and Little Tim passed under the wire almost neck and neck, and many horsemen thought it a dead heat. Harold H got the decision, with Prince Vale second. The second heat also fell to Harold H, with John R. Gentry a good second, and Mixer, who was seventh in the opening heat, third.

was the same story in the third heat, Harold H pulling away from the field, and winning easily. Mixer, who held a rear place for the major portion of the mile, suddenly sprang forward, and came under the wire a good second, with Prince Vale third, and John R. Gentry in the next place. Harold H was awarded first money, Mixer second, Prince Vale third and John R. Gentry

Mutch interest was centered in the half-mile run. The final heat was between Sir Wilfrid Laurier, owned by F. Smith, of Southcote, and Tally-Ho, a Cleveland horse, each having cap-tured a heat. If the London management can appreciate when they made a beautiful mistake, they can see the same in the release of Freeland. Recently he shut Chatham out, and the story would have been the same yesterday, but for a wild throw by McAndrews to first, which allowed the runner safe. Only five scattered hits were secured off his delivery. Two of these were to the infield, and not more than one hit was secured in any inning. He issued but two passes, and kept the locals completely guessing throughout the entire game. This makes three straight games lost on the home grounds. This gait, if kept up, will soon displace the Cockneys from first place in the pennant race.

New York, June 19.—Miss Marguer-ite Gast finished her 1,000-mile ride over Merrick road at 11:23 a.m. yesterday, accomplishing the marvelous feat in 113 hours and 23 minutes, just 6 hours and 37 minutes ahead of her schedule time. Her physical condition was perfect and her strength and speed at the end phenomenal. "I could go twice the distance," she exclaimed as she dismounted. Her trainers and pacemakers agreed with her. All other long-distance performances by wo-men are put in the shade. Miss Yat-man, Mrs. Lindsay and the rest now have seats far back. Mrs. Lindsay's creat record for 800 miles was beaten

What Becomes of the Patient?

Doctors have their hobbies as well as other people and in the treatment of disease often carry them too far for the patient's good. For instance in the treatment of indigestion or dyspepsia many doctors give bismuth and nothing else, others rely on pepsin to bring their patients through, still another doctor treats stomach troubles with the various vegetable essences and fruit salts.

Now one or the other of these excellent remedies becomes a hobby with the doctor who has had most success Batteries-Miller and Kleinow; Clarke with the particular one in question, because all of them are first-class remedies for indigestion and dyspepsia, but not one of them alone is so good as a combination of all of them, such as is found in Stuart's Dyspepsia Tablets, which contain not only vegetable essences and fruit salts, but also the freshest, purest pepsin and bismuth, making altogether a remedy unsurposted for your form of indirection passed for every form of indigestion, sour stomach, nervous dyspepsia, belching of gas, distress after eating, sleep-lessness, headaches, etc.

Stuart's Dyspepsia Tablets is not a secret patent nostrum, but you can see for yourself what it is and knowing this, its success as a dyspepsia cure is not surprising. All druggists recommend and sell them at 50 cents

Public Debt Decreased.

The Montreal Shareholder, in an article showing the financial standing of the Dominion, says: "It must be highly satisfactory to the people of the Dominion to know that the public debt, instead of being greatly increased, as they have been led to infer by some of the croakers who make it a rule to avail themselves of every opportunity to parade their views, is being decreased, and that at the end of May last the net public debt of the Dominion was lower than at the end of both April and May, 1899, the decrease in the former being \$235,659, and that in the latter \$1,509,413."

Considering the amount that the country has been called on to spend to deepen the canals of the St. Lawrence -an imperative public improvementto aid in the settlement of the newer parts of the country, and to provide means for getting our products to the markets of the world in the best possible condition, to say nothing of the splendid aid that has been given to several contingents to South Africa, those in authority at Ottawa ought to management of public affairs.

The country has prospered and advanced. The people have shown confidence in the statesmen they have charged with the management of its national affairs, and the Dominion has been so advertised by its trade policy in favor of the motherland, as to secure for Canadian products such attention in the markets of Great Britain as is of immense benefit to our producers.

There is thus good cause for the felicitations of our non-political contemporary in its demonstration that all this is being done without adding to the indebtedness of the country.

An Experience in Scotland.

But one member in the Canadian Parliament questioned the course of Sir Wilfrid Laurier in proposing a message of congratulation to Her Majesty on the success of British arms in South Africa. There is no such unanimity in public gatherings in the old land, an earnest study of their proceedings has convinced us. For example, the Edinburgh Scotsman of last week has the following:

"A gratifying incident occurred in the Free Church Assembly on Saturday, which showed that less than half the members present were pro-Boers. In other aspects the incident might be regarded as unfortunate. It was held to be regretable that anything like a political discussion should arise over a loyal address to the Queen, and some people may be sorry to learn that there are so many pro-Boers in the Free Church. What happened was that a committee, headed by Dr. Stewart, of Lovedale, presented for approval an address to the Queen, which made mention of the South African war as 'un-happy and unavoidable.' Exception was at once taken to the word 'unavoidable.' Mr. Macneliage did not want to be committed to that word. and many agreed with him. A show of hands showed 62 for the word and 60 against it. Mr. Macneliage demanded a division by the door, but under the advice of Principal Rainy and the moderator. Dr. Stewart withdrew the offensive word. Of course, it is a pity that so many Free Church ministers and elders should still cherish pro-Boer sympathies, and be so blind to the revelations of the last six or seven months as still to think that any wise policy or statesmanship on our part should have averted the necessity of sooner of later subduing and disarming the Boers. But, as has been said, It is satisfactory to see that the pro-Boers are not more, and are probably much less, than half of the Free Church office-bearers."

The pro-Boers in Canada are decidedly in the minority. They are few in numbers, but they might have been larger if the effort to suppress free speech had been successful. The great safety-valve of a free people is free speech. When mistaken men are allowed their say and courageously met. their influence for harm is very small.

Then and Now.

Late reports from the Yukon say there is no let-up to the yield of gold. One statement is that the yield for this year will be \$20,000,000, and another says it is estimated at \$30,000,000.

But the other day the San Francisco speculators and their friends, the Opposition in the Canadian Parliament, were bemoaning the fact that the Yukon was made to pay its way by means of the collection of royalty on all yields over \$5,000 in amount. They told the country that if the royalty on June 14 three were killed, five was not abolished, and the money for running the Yukon, of course, paid by the taxpayers generally, everything there would go to the dogs.

The Minister of the Interior, however, better interpreted public sentiment, and the Government at Ottawa WAKKERSTROOM'S SURRENDER. backed him up.

We now see, by results, that the bogey of those opposed to the imposi- guard of Wakkerstroom has surrendtion of the royalty was raised by the rich alien speculators, who begrudged erican manufacture, have been handthe Canadian people getting as much ed in. Gen. Hildyard has returned out of the Yukon as would supply ef- here. fective government for the protection

of life and property. It is a good thing that we have a Government in power that cannot be for 30,000 men, and is arranging restampeded by greedy speculators. If transport for a portion of his army, we had, we would have a duplication although his plans are not to take efof the timber limit distribution which took place in the eighties under the late administration at Ottawa. We would, as then, have heavy expendiire in looking after the public do-

main, and protecting the interests of a desparate attempt to steal some of to do so would come out of the taxpayers generally instead of being collected as is now the content of the taxlected as is now the content of taxlected as is now the content of the taxlected as is now the content of the taxlected as is now the content of taxlected as is now the co lected, as is now the case, from the beneficiaries.

Pekin.

Though the city of Pekin, on which all eyes are now centered, has 1,000,000 inhabitants, the railway is not allowed to go nearer it than five miles from the walls, such is the hatred of this abominable innovation! The city stands in a desert, without sewers and without a public water supply. The declaration that the filth of the place smells most offensively and that it is almost unbearable to foreigners can readily be credited. The journey from the station to the sacred city is made over the worst possible kind of road in a jolting Chinese country cart. Indeed, everything in China seems to be so ordered as to make the movement of the people as slow, difficult, and uncomfortable as possible. Time is of no accouptt with John Chinaman.

Sir Charles Tupper says he has no use for the independent in politics. No doubt of it; the independent in politics say they have really no use for Sir Charles. This is reciprocity.

Luke Green, a traveler in Rhodesia, maintains that he drove off a the motherland by the sending of the troop of five lions and many hyenas, which had attacked him, and were not frightened by his gun, by firing Engbe congratulated on the results of their lish periodicals at them. This experience is noteworthy. Wonder what effect a seven-hours' speech by Sir Charles Hibbert Tupper would have on the average beasts in Rhodesia? It has the quality of driving away from his neighborhood even his best friends, when delivered in Ottawa.

> When in almost the same day and on the same facts Laurier is de-nounced by the Orange Grand Master (Hon Clark Wallace, Conservative M. P. for West York) as too little of a Britisher, and by French-Canadian Conservatives as too much of a Britisher, the Prime Minister has probably not much the matter with him.-Quebec Telegraph.

That is a reasonable deduction. Nevertheless, the despicable warfare engaged in by these fomenters of strife is none the less worthy of condemnation. The object in both cases is votegetting, and that by means that no patriotic Canadian can defend. We believe, however, that the large majority of the Canadian people will stand by the Prime Minister in opposition to his traducers.

Gathering in Force in Front of Gen. Rundle.

Interruption of the Enemy's Flow of Supplies From Delagoa Bay.

Lord Roberts Getting Huts for 30,000 Men-The Wakkerstroom Surrender.

London, Wednesday, June 20-3:25 a.m.-The Boers are gathering in force in front of Gen. Rundle near Ficksburg. His forces stretch forty miles. As some parts of the line are weakly held, the British fear that the Boers may break through. Outpost skirmishes are of daily occurrence. Boers there are commanded by Devilliers and Hermann. Mr. Steyn is at Bethlehem, the temporary capital of the Free State.

FLOW OF ENEMY'S SUPPLIES CHECKED.

According to dispatches from Lorenzo Marquez, dated yesterday, the Malana bridge has been destroyed. One account says it was blown up. Another asserts that it was undermined by a patrol from Swaziland, and so collapsed under the weight of a train. This will temporarily interrupt the flow of supplies to the Boers from Lorenzo Marquez.

The Lorenzo Marquez correspondent of the Times says: "Three escaped British prisoners are believed to have tampered with Malana bridge. A freight train pitched into the stream, and two men were killed."

WIRES MAY HAVE BEEN CUT. The Daily Mail points out that it is quite possible the wires have again been cut in Lord Roberts' rear, as no dispatch later than June 16 has been

received. The casualties made public by the war office, including a long list of missing, show British losses in engagements hitherto not reported. In an attack on a reconstruction train at Loeuw Spruit wounded and sixty captured. Loeuw Spruit is 40 miles north of Kroonstad. This was the day of the Zand River fight, 80 miles distant. Another list 9 wounded and 11 missing, in an action at Vredefort on June 7, no previous mention of which had been made.

HAD NO PICNIC.

Kroonstad, May 20, via London, June 18.—The two battalions of Canadian Mounted Rifles started for Pretoria this morning They again constitute a portion of the advance guard of the invading army. One hundred men from each battalion returned yesterday from a 60-mile march in a semi-circle through the adjacent country, in the course of which they captured 24 prisoners, among them a commandant, several field cornets and four members of the Johannesburg Mounted Police. Col. Herchmer, who has been ill at Cape Town, came up just before we started, ready to resume command, but because of the colonel's age, his recent illness and the arduous nature the work in which the Mounted Rifles were likely to be engaged, Major-General Hutton decided to maintain Col. Evans in command. Major Howe remained behind in the remount depot.

A WEEK OF IT.

Kroonstad, May 13, via London, June 18.—Globe's special service.—A, B, C and D Squadrons of the Canadian Mounted Rifles came into Kroonstad yesterday after seven days' hard marching and continuous fighting. A Squadron, under Major Forrester, being among the first of the British troops to enter the town. They were a portion of the advance guard of Lord Roberts' main army, and fought daily from Brandfort to Zand River, a distance of almost 100 miles.

PLUCKY FEATS. Among the plucky feats performed by some of the Canadian force was the swimming of the Vet River by Lieuts. Borden and Turner, with five men, who put 40 Boers to flight. Lieuts. Taylor, Van Straubenzie and Cosby were in a tight place on no less than three separate occasions, but extricated their men with miraculously good luck. The only casualties so far sustained are Capt. Pearce. Lieut. Van Luven and Troopers McCulloch, Fergus, Brown and Wildman, all wounded, none of them, however, more than slightly, a marvelously lucky record, considering the fighting in which they have been engaged. Four troops under Capt. McDonell undertook to blow up a culvert north of Smaldeel a few nights ago, and succeeded after overcoming great difficulties, but the Boers had moved their guns and baggage, which would otherwise have certainly fallen into our hands. As it was, the achievement was a brilliant one. The troops engaged in this undertaking were in the saddle continuously for 24

The Settlement

MUST BE FINAL.

London, June 20 .- Mr. Joseph Chamberlain addressed a meeting of the Woman's Liberal-Unionist Association yesterday. "Now that the war is concluding," he said, "all were unanimous that whatever the final settlement might be it must be final, and should not leave behind it the seeds of further mischief."

Referring to continental criticism, Mr. Chamberlain, after remarking that England always expected this, went on to say: "But there are quarters whence even a note of disapproval would be a matter of serious concern. I refer to our colonies and to the United States. I think we are happy in that we have their good opinion and approval. It is true this good opinion of the United States is not unmixed with other sentiments. I will not now enter upon the causes, partly political and partly sentimental, which have led certain Americans to sympathize with what they call a republic, although its whole existence and whole practice has been one perpetual denial of the principles upon which their great republic is founded. I believe the great majority of the Americans recognize that our aims in this war are as high and unselfish as those which animated themselves in the Spanish-American They fought then for justice and liberty, not for their own subjects, indeed, but for those whom they believed to be the victims of oppression; and we did not enter into quizzical disquisitions or technical discussions, but recognized that they were carrying out, as Anglo-Saxons, a great work of civilization and humanity. Now we are asking their sympathy, and we believe that in the long run we shall gain the final seal of their approval."

Like a flash of lightning, sudden and startling, disease strikes down many a man. Yet there have been warnings upon warnings, unheeded. Food has lain like a heavy weight in the stomach after eating. There have been belch-ings, bitter risings in the mouth, nervousness, sleeplessness and growing irritability. Instead of listening to these warnings, recourse has been had to some of the nerve numbing palliatives that cover but never cure disease. Many serious diseases begin in a diseased condition of the stomach and organs of digestion and nutrition. For such diseases there is one medicine which rarely fails to effect a complete cure. Dr. Pierce's Golden Medical Discovery cures ninety-eight per cent. of all who give it a fair and faithful trial. It is a temperance medicine and contains no alcohol.

ance medicine and contains no alcohol.

"I was afflicted with what the doctors called nervous indigestion," writes Mr. Thos. G. Lever, of Lever, Richland Co., S. C. "I took medicine from my family physician to no avail. In looking over one of Dr. Pierce's Memorandum Books, I found my case described exactly. I wrote to you and made a statement. You sent me a descriptive list of questions, also some hygienic rules. I carried those out as best I could, but thought myself incurable as I suffered so much with pain under my ribs and an empty feeling in my stomach. At night would have cold or hot feet and hands, alternately. I was getting nervous and suffered a great deal mentally, thinking that death would soon claim me. Always expected something unusual to take place; was irritable and impatient, and greatly reduced in flesh. I could scarcely eat any thing that would not produce a bad feeling in my stomach. After some hesitation, owing to my prejudices against patent medicines, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pellets.' After taking several bottles of each, found I was improving. I continued for six months or more, off and on until I was cured."

Dr. Pierce's Pleasant Pellets are positive cure for constipation.

KIDNEY TROUBLE FOR THREE YEARS.

A Young Lady of Middlesex Co. Tells How She Was Cured at Last by Doan's Kidney Pils.

A great deal of suffering that women are called upon to endure is the

result of kidney trouble. When the back, the head and the limbs ache, when there is tiredness and weariness, dizziness and dimness of vision, in all probability the kidneys are out of order and poisons are being absorbed in the system that these organs should carry off.

The most effective remedy to cor-rect the kidneys so that they will re-move all poisons from the blood is Doan's Kidney Pills. Just read what Miss Gertie F. Steele, Belton P. O., says about them; "For three or four years I have suffered very much from pain in my back, especially in the mornings, and felt run down and worn out. I doctored off and on for some time and took a good deal of medi-cine, but derived little benefit from

A Letter From Rev. Walter

Rigsby. To the Editor of The Advertiser: Your article in regard to the selfdenial and sobriety of the army in active service in Africa certainly is a very effective reply to the opinions expressed by Col. Aylmer and others in regard to the mistake of having no canteens in camp at Carling's Heights. Last Wednesday, on the camp ground, I was the unwilling hearer, under peculiar circumstances, of a conversation I dared not interrupt, between a father, who had two sons in camp, and a senior officer, who said: "I am very much pleased to have you visit the grounds, that you may see for yourself how orderly it is. Many people think we have none but the toughs We want first-class young felwere consuming whisky and soda.

No doubt it is eminently proper that the men in camp should receive kindly consideration, and some think it quite the proper thing to afford them every facility for drinking, and then have an officer preside at a court-martial and give an unseasoned private or "non-com." suitable punishment, because of his deplorable inability to carry as much intoxleating drink as his commanding officer. The sooner Canadian officers learn what the African campaign teaches, that the use of intoxicants, like "frontal attacks," "pipe clay," "red tape," etc., must be rele-gated to the "limbo" of all mistaken and worn out military opinions and methods, the better for all concerned. It won't be long before this country will demand of its soldiers what the railways require of their employes total abstinence when on duty. I was a volunteer in youth, and approve of military drill, if for no other reason than as a means of physical training. An old soldier who heard my boy in-tended going to camp, said to me: "Don't you know a volunteer camp is hell?" I certainly did not. I must admit it is not heaven, and many hesitate to let their boys join the vol-unteers because of the drink. I am pleased to hear that the chaplains exerted a good influence this year. I feared they were more tolerated than

By the way, as one interested, how is it our Anglican friends seem to have the monopoly? Isn't that another of those slow-to-die usages connected with our military system? Perhaps I've asked a question that "nobody don't understand."

The thing I rejoice in is that despite the various private arrangements for drinks, intoxicants in officers' mess, and the proximity of a large city, the present camp at London has been very orderly-no doubt because of the absence of the open canteen. So far so good. Yours,

WALTER RIGSBY. Kincardine, June 16, 1900.

Just Her Way.

A woman, her matrimonial ventures and her disinterested distribution of her chilren, are just now engaging the attention of Inspector Sanders, of the Children's Aid Society. At one time the woman's name was Robinson. What it is now is matter of conjecture, for the erstwhile Mrs. Robinson is not esthetic in her choice, nor does she let such little things as past alliances deter her from making new ones. As Mrs. Robinson, she had two children. Robinson and not provide for his family as a husband should, and for a while the children were nourished in the shelter home. Afterwards, however, when it was represented that the parents were living together in comparative felicity, the children were returned to them. Mr. Robinson there-upon made a quiet departure from the scene. Mrs. Robinson waited, but he did not return. She essayed to enshe was not successful until she went to the Muncey Indian Reserve, where she attracted the attention of the fam-ous Dan Kick, who wooed and won her. As she did not personify his ideal Dan kicked her out. Before going she very generously gave her two children to some Indians, and it will be to obtain possession of these that Mr. Sanders will journey to the red men's home at Muncey some time this week.

A SURE CURE FOR HEADACHE.-Billous headache, to which women are more subject than men, becomes so acute in some subjects that they are utterly prestrated. The stomach refuses food, and there is a constant and distressing effort to free the stom-ach from bile which has been unduly secreted there. Parmelee's Vegetable Pills are a speedy alterative, and in neutralizing the effects of the intruding blie relieves the pressure on the nerves, which causes the headache. Try them.

THE RUNIANS, GRAY, CARRIE CO 208, 210, 210 1-2, 212 Dundas Street, London, Ont.

"She is trying to take him from me, this strange girl," she told herself. "I hate her. I should like to see her dead. She makes me feel hot, and angry, and murderous, just as that hateful Vixen used to do at Sunnyside.'

A sudden suspicion tore through her brain and paled the color on her cheeks. She fixed her blazing eyes eagerly on Dawn's smiling face. Good Lord, suppose it should be Vixen!" she thought, terrified: "I will watch her. I will wait, and if I find her out I shall kill her, I know."

She saw that the likeness was very great between the Vixen of old and this eplendid beauty, and her heart stood still with fear. After two years had she come back to oust her from the place she had usurped, and to take Tracy Tempest away?

'And I can do nothing, nothing to hurry him into a marriage. He will not be forced to name the day again, although his mother gets better every day," she thought in fierce unrest. By and bye the dance was over, and he band discoursed waltz music again. He left her with a gentleman friend and went to claim Dawn. Lettie looked on with burning eyes as they whirl-

ed past, utterly absorbed in each other,

his dark eyes raining admiration on the that night when we met in the ruined fair young face. When it was over he led her to Mrs. Douglas, who quickly made room by

"My dear, I have been wishing to know you; you have fascinated me, attracted me," the lady said warmly, and wondered why the small hand in hers grew so cold and trembled so, and why the girl's arch self-possession seemed to fail her for the moment. The blue eyes held a wistful tenderness as they looked up, and Dawn's voice faltered as she thanked the lady for her kind words.
"And your name is the name as my own. I have been wondering if we could claim a relationship," Mrs. Douglas went on, questioningly; and Dawn ga-

thered courage as she talked, and answered presently: "I presume no one has told you that I am an adopted daughter, and bear the name of Douglas only by courtesy?" To herself sine added:
"Heaven forgive me for this deceit

with my own dear mother, when I am longing to throw myself into her arms and claim her for my own!"
"Oh!" said the lady, looking vaguely disappointed, and Tracy Tempest said with a smile:

"I am disappointed, Mrs. Douglas. I have been struck by the likeness of Miss Douglas to yourself, and hoped to fearn that a relationship existed between you Dawn had grown pale and agitated. The strange yearning in the eyes of her mother touched her heart with exquis-

ite pain.
"My dear, dear mother! her heart instinctively claims me, even as it did

wing at Cedarhurst, and when I in my ignorance denied her right," she thought; and se was glad that Lettle's jealous eyes were not by to mark her emotion.

With an effort at calmness she said: "I will ask my adopted father, when I see him, if there can be any relationship between his family and yours."
"Ch, no, my dear, it does not matter," Mrs. Douglas answered hastily. "You see, it was yourself, not your father, I was anxious to claim." "Ah, did she but know the truth,"

thought the girl, sighing. But she had vowed to take a deeper revenge upon false Lettie than by merely ousting her from her proud position, and she held her peace bravely, saying to herself that she would pay her parents in added love and tenderness for the time that she yet kept them apart.

telling him all that had passed since she came. she is still young and beautiful, in spite of the fact that she has a daughter eighteen years old; but there is a wistful sadness in her eyes, that shows a yearning for the loved and lost ones' so soon to be restored to her. approached her. Her gentle face looked grave and earnest as she took the vacant chair beside Dawn. "My dear, your beautiful face looks true and good, so I shall speak to you without reserve," she said, almost de-

precatingly; and Dawn bowed wonder-"Lst night you gave all the waltze to one man-to Tracy Tempest," Mrs. Douglas said, abruptly.

The blue eyes came back from the sea to her face, and Dawn flushed a rosy pink, like the heart of a seashell. "Do you not think," Mrs. Douglas went on falteringly, "that the preference was too pronounced?—that it—it looked as if you favored the young man above all others, and—and pre-ferred his society?"

"All of which is quite true, dear Mrs. Douglas," Dawn answered, frankly, though the blush grew deeper on her sensitive cheek at the admission. She wrote to her father next day, "You did prefer his society? Oh, forgive me, Miss Douglas! I had no right to ask that," penitently.

"I will answer you just the same, Mrs. Douglas," said Dawn. "Yes, dear madam, I liked Mr. Tempest and gave him the waitzes because I enjoyed his

She watched the fair face anxiously Trust me, dear father, to carry out my and saw the blue eyes flash and the warm color deepen on Dawn's cheek. The next afternoon, as she sat for a "You did not know it; you had not moment alone watching the sea waves heard, I am sure," she repeated, and gleaming in the sunight, Mrs. Douglas then the clear eyes lifted to here, with

an almost defiant expression, and Dawn said calmly: "Yes, my dear, I knew."

Astonishment held Mrs. Douglas dumb, and Dawn continued eagerly: "I have been told that Mr. Tempest was betrothed to some young lady here, but that it was solely a mercenary match on his part-a marriage de convenance, as they say in France. She felt sorry for the poor lady, hose lovely face flushed crimson as she said:

"Perhaps you did not know that the young lady is my daughter?"
"No, I did not know it," Dawn answered, with perfect composure.
"But it is true," said Mrs. Douglas,
"and, unfortunately, it is a marriage de convenance, as you say, on his side.

The match was arranged to, or rather, for family reasons "Ah!" said Dawn quietly. "But yet there is another side to the story," Mrs. Douglas went on, with deeper shame and reluctance. "However indifferently Tracy Tempest may regard his betrothed, my poor Aurora is deeply attached to him. It is for her sake I have spoken to you, Miss Doug-las, for last night her jealous, unhappy nature was maddened by his attentions to you and your favorable reception of My dear, you have already many admirers, and your beauty will win you many more. Will you not be

genorous to my daughter and repulse attentions from her betrothed?" It was hard to repulse that sweet pleading woman, hard to refuse her prayer; but Dawn knew it was for the best, so she said smilingly:
"Dear Mrs.Douglas, I think you make

too much of trifles. What harm can ! do your daughter if I dance now and then with her handsome intended? He is mercenary, all admit, so there is no chance that I should win him from her-I, who am poor, and have nothing of my own but what my adopted father

gives me.' "Then, of course, you could not marry Tracy Tempest even if you took him from Aurora, for he is also poor. Love in a cottage would not suit you, my dear; you were born to grace a palace," Mrs. Douglas said, eagerly. [To be Continued.]

Great Britain and Ireland. Another notice of motionw as to the effect that this synod regrets the adverse report and action of the provincial synod upon the memorial of the Diocese of Huron relating to the meetings of the provincial synod and the merging of the Domestic and Foreign Missionary Society in the general board of missions for Canada, and that a committee be appointed with the object of making less expensive and more useful the provincial synod system and of making more efficient the general synod of Canada and the board of missions thereof, and that this committee also report in regard to the formation of a provincial synod for the Province of Ontario.

committee to consider the annual report of the executive committee. The following are extracts from it: The sum of \$4,690 13 has been received in paid subscriptions towards the diocesan indebtedness the regular collections for purposes of this synod

have come within \$16 68 of those of the previous year. The mission fund overdraft has been reduced during the year from \$8,691 05 to \$6,589 55, the general purpose over-draft from \$3,593 50 to \$3,562 60, the see house debt from \$9,827 95 to \$8,-423 95, and the balance to the credit of the widows' and orphans' fund increased from \$280 10 to \$478 66. This is the more satisfactory from the fact that the grants made from each of these funds are for a period of thir-

teen months, from the 1st of April, 1899, to 1st of May, 1900. The total contributions received, including free-will contributions and synod assessments, amounted to \$28 .-495 12, of which \$16,498 61 was for diocesan and \$11,996 51 for outside purposes. The total for the previous year was \$26,773 85; of which \$16,565 49 was for diocesan and \$10,208 36 for outside purposes. It will be observed that the increase was altogether for the outside objects, and consisted principally of the Canadian patriotic collections, which amounted to \$1,963 18.

The subscriptions, collections and assessments received for the mission fund show an increase of \$120 43 over the previous year, and amounts to \$4,-494 48; collections on bishop's visits, \$80 11; donations, \$110 33; interest from mission fund investments, \$178 42; sustentation fund interest, \$2,302 38, and surplus interest from commutation fund, \$427 11. The hearty thanks of the synod are due to the Huron branch of the Women's Auxillary Missionary Association, from whom received during the year \$377 40 to-wards the current mission fund account and \$596 66 towards the debt-a total of \$974 06. The grants paid during the year amounted to \$6,903 44.

Two parishes have become self-supporting since the 1st of May last, viz.—(1) Kingsville, Ruthven and Grangers, and (2) Forest and Thed-

The sum of \$2,114 65 was transferred from the diocesan debt subscription account, and the overdraft at the end of the year was reduced to \$6,589 55.

There were eighteen clergymen who had served over fifteen years in full orders in the diocese entitled to regrants from the commutation fund in order to bring their incomes up to \$800. An unexpended balance of \$427 11 was transferred to the mission fund.

The amounts credited to the general purpose fund account include subscriptions, assessments and parochial association collections \$3,432 30, a donation of \$5, and \$387 70 transferred from the diocesan debt subscription account. There was paid out for Indian missions, school teachers, etc., for 13 months, \$554 90; special grants for 13 months, \$720 83; widows of commuted clergy for 13 months, \$324 99 transferred to widows' and orphans' fund, as directed by the can-on, \$765 transferred to balance synod expense account, \$187 85. The over-draft is now \$3,562 60, a reduction of \$390 90 during the year.

The work of Rev. Franklin E. Roy, the diocesan agent, in the canvass for diocesan debt, has been vigorously prosecuted during the year.
