Near the End.

LAST NIGHT'S BULLETINS. At 4 p.m. the president's physicians reported that he was only slightly improved since the last bulletin. The McBurney, who arrived after 8 o'clock; pulse and temperature remain the same at that hour. (Signed), George B. Cortelyou, secretary to the presi-

The 5:45 p.m. bulletin said: "The president is dying. His physicians have so announced to those near him.' At 6:30 p.m. the physicians reported that the president's condition was most serious, in spite of vigorous stimulation. The depression con- desired. tinues and is profound. Unless it can

be relieved the end is only a question of time. At 6:30 it was announced that the president did not respond to the oxygen, and his physicians announced that unless he responded to stimu-

lation it was only a matter of a short THE FINAL PREPARATIONS. Before 6 o'clock it was clear to those at the president's bedside that he was dying, and preparations were made for the last sad offices of farewell from those who were mearest and dearest to him. Oxygen had been administered steadily, but with little death. The president came out of one period of unconsciousness only to relapse into another. But in this period, when his mind was partially cleared, occurred a series of events of pro-

With tear-stained faces, members of ous waiting. They knew the end was near, and that the time had come when they must see him for the o'clock. It was an awful moment for them. One by one they ascended the stairway - Secretary Root, Secretary Hitchcock and Attorney-General Knox. Secretary Wilson also was there, but he held back, not ;wishing to see the president in his last agony. There was only a momentary stay of the cabinet officers at the threshold of the death chamber. Then they withdrew, the tears streaming down their faces, and the words of intense grief

choking in their throats. ASKED FOR HIS WIFE. After they left the sick room the physicians rallied him to consciousness, and the president asked almost immediately that his wife he brought

Milburn House, Buffalo, Saturday, asked for her; she sat at his side and shadows of the room as Mrs. McKinley came through the doorway. The strong face of the dying man lighted up with

> conscious words, as taken down by Dr. Mann at his bedside, were: "Good-bye, all; good-bye. It is God's way. His will be done.' Then his mind began to wander, and soon afterwards he completely lost consciousness. His life was prolonged for hours by the administra-tion of oxygen, and the president finally expressed a desire to be allowed to die. About 8:30 the administration of

iod of consciousness, which ended

about 7:40 o'clock, chanted the words

oxygen ceased and the pulse grew Mr. Roosevelt's being so far out of faint, very faint. SINKING TO SLUMBER. He was sinking gradually like a child into an eternal slumber. By 10 o'clock course, resign in a body, and President the pulse could not longer be felt in Roosevelt will have an opportunity of his extremities and they grew cold. Below stairs the grief-stricken gathering forming a new cabinet if he so desires, waited sadly for the end. All the evening those who had hastened here as against the president's assassin when them continued to arrive. They drove up in carriages at a gallop and were whisked up in automobiles, all intent One of the last to arrive was Attorthe jail, and the entire police force of ney-General Knox, who reached the house at 9:30 p.m. He was permitted to

go upstairs to look for the last time THOSE PRESENT.

Those in the house at this time were Secretaries Hitchcock, Wilson and Root, Senators Fairbanks, Hanna and Burrows, Judge Day, Col. Herrick, Abner his wife: Dr. and Mrs. Mary Barber, Miss Mary Williams, Mrs. McKinley's John G. Milburn, John N. Scatcherd, Harry Hamlin, all of this city; Secretary Cortelyou and a number of others. Rev. C. D. Wilson, a Methodist minister, of Tonawanda, N. was the president's pastor for three years at Canton, called at the residence o inquire whether his services were eded, but did not enter the house. Another Methodist minister, who has a church near by, remained at the Milburn residence for two hours in

the belief that his services might be At 9:37 Secretary Cortelyou, who had been much of the time with his dy-president was announced. ing chief, sent out formal notification

LINGERED ON. his pulse growing fainter and fainter. At 11:50 p.m., when Dr. Janeway arrived, the president was just barely There was no need for official builetins after this. Those who came from the house at intervals told the same story—that the president was dying, and that the end might come at any time. His tremendous vitality was the only remaining factor in the result. and this gave hope only of brief postponement of the end. Dr. Mynter thought he might last until 2 a.m. Dr. Mann said at 11 o'clock that the pres dent was still alive, and would probably live an hour. Thus minutes lengeffect in keeping back the approach of thened to hours and midnight came with the president still battling against

AT MIDNIGHT.

At the midnight hour the Milburn

death.

house was a center of a is animated as though it was midfoundly touching character down- day, although a solemn hush hung stairs. The entire lower part of the house aglow with light and the many atthe cabinet were grouped in anxi- tendants and friends and relatives could be seen within moving about and occasionally coming in groups to the front doorway for a breath of air. In the upper front chamber the last time on earth. This was about 6 lights, were low, and on the north side, where the chamber of death is located, there were fitful lights, sometimes becoming bright and then turned low. Secretary Root and Secretary son came from the house about midnight and paced up and down the sistance. At nine o'clock they had been sidewalk. All that Secretary Root said was, "The end has not come yet." Despite the fact that vitality continued to ebb as midnight approached, no efforts were spared to keep the spark of life glowing. Dr. Janeway, of New York city, arrived at the Buffalo depot at 11:40 o'clock. George Urban was waiting for him, and they drove at a breakneck pace to the Milburn house. He was shown to the president's room at once and began an examination of the almost inanimate form. Secreted in despair, was begun in hope. The tary of the Navy Long arrived at the trouble that came on Friday after-Milburn house at 12:06 o'clock. This noon, when the organs of digestion to him. The doctors fell back into the was his first visit to the city, and he refused to handle the solid food that

had the extreme satisfaction of seeing the president alive, even though he was not conscious of his visitor's presence. Secretary Long was visibly affected.

The Next President

WILL HAVE A NEW CABINET. Vice-President Roosevelt had been notified early in the day of the critical state of affairs, and word had come from him that he was on his way in a special train. There was no longer a doubt that in the approaching death of a faint smile as their hands were the president a complete change in the clasped. She sat beside him and held executive administration of the government would ensue. When Mr. Roosebravery and fortitude with which she ness, she bore up bravely under the velt would take the oath of office was has borne the grief of the troud. The president in his last per- wholly a matter of conjecture. President Arthur took the oath at 2 a.m. after the death of Mr. Garfield, and in that case Justice Brady, of New York, administered the oath. There is no requirement that the oath shall be administered by a justice of the United States supreme court, although that procedure is adopted when circum-

stances permit. Without unseemly haste the members of the cabinet will tender their resignations, and the new president will then be free to initiate his own policy and choose his own cabinet. Mr. Wilcox said, in explanation of "The vice-president was at all times very optimistic, and when he went away was absolutely positive that

the president would recover and that

the convalescence would be rapid. He

certainly never expected the day's sad occurrence. AN AUTOPSY.

It is almost certain that an autopsy on the president's body will be held to determine the exact cause of death This is the wish of all the surgeons and physicians who are in attendance. The peculiar action of the president's heart was more or less of a puzzle to them all, and Dr. McBurney expressed the opinion that in the interest of science as well as in the interest of the government and the world, it would be desirable that the exact cause of death be determined. Though the president's heart gave trouble from the beginning, its erratic action was at first thought to be due to the shock of the wound, but when the wound began to progress favorably the heart gave more trouble and anxiety than ever. Its action became feeble and finally gave out altogether. The president's death is practically due to exhaustion, but some of his physicians do not believe there was organic heart trouble, The theory of at least one of the physicians is that the original shock of the first bullet over the heart had

much to do with the trouble which caused death.

BUFFALO EXCITED. The city, not only in those parts near the Milburn house, but all over, and even out in the exposition ground, went into a state of ferment when the news of the sudden collapse of the of the early day had been somewhat that the president was dying, but he softened by the later afternoon announcement that there was a slight improvement, and the sudden announcement of the approaching disso-

lution came as a great surprise.
At the Pan-American grounds it was announced that he was dead, and the immense crowd as a majority turned towards the city. In the city itself the papers refrained from any anticipation, but made it understood that there was no hope. It seemed but an instant when crowds formed at every corner, swarmed towards the newspaper bulletins, and when they found that the rumors were confirmed, somebody shouted, "Let's find the assassin!" With one impulse the crowd started for the station house, where Czolgosz is confined. Telephones were utilized and the police notified. and when the crowd arrived they found the police out in force. Superintendent Bull, anticipating trouble, called out the city force, and, in addition, asked the brigade headquarters in readiness to assist. Welch, in charge, answered by ordering two companies each from the 65th and 74th Regiments to their armories to await immediate call.

AROUND THE PRISONER'S PLACE OF CONFINEMENT.

Around the station house at eight o'clock it was estimated that at least 6,000 people were gathered. They were not particularly ugly, and were quite quiet, and when the police proceeded to drive them back there was little resent back two blocks on each side of the police station, and before ter o'clock, weary with waiting for definite news, they had disappeared, et gone to the newspaper bulletins.

His Last Day

BEGAN IN HOPE. The president's last day, which end

had been taken earlier in the day, had seen that the end was near at hand, and those nearest and dearest to the and when the new day came it found the president were summoned for the president relieved and resting.

Hope that had suddenly dropped from the offices of the last farewell. He came out of a stupor about 7 o'clock, the high place which it had held began to revive. The healing of the wounds had progressed favorably, general conditions were, in the main, quite satisfactory and the health general conditions were, in the main, quite satisfactory and the health general conditions were, in the main, quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the main quite satisfactory and the health general conditions were in the health general conditions were an expectation of the health general conditions were an expectat factory, and the immediate future of the case seemed to hold no threat. The and the last good-byes. physicians, who had been in almost constant attendance during the night, parted, and the watch in the sick

room was reduced. Suddenly there was a failure of the heart, which for several days had been manifesting signs of weakness, and the president sank toward un-consciousness. This was at two o'cock in the morning. There was an immediate application of restoratives, and a general call went out to the absent physicians and nurses. Digitalis strychnia and saline solution were administered to the patient, but there was no immediate response to treat-ment. The physicians admitted that he was desperately ill, and Private Secretary Cortelyou decided to send for the relatives and close friends of the president, the vice-president and the members of the cabinet. Those the members of the cabinet telephone within reach were called by telephone or messengers, and telegrams were rushed to those who had left the city. The first of the messages went out at 2:30 o'clock, and within half an hour the Milburn house began to fill again. the general call sent out gave rise to a general feeling of alarm that

was never again allayed. Desperate measures were resorted to the sinking spell was over by 4 o'clock. It was decided to continue the treat-ment, and the physicians laid their greatest hope on weathering the day. It was agreed that if the wounded man could be carried for 24 hours that his chances would be very favorable, for the wounds were healing splendidly. It was decided to summon Dr. W. J. Johnston, of Washington, and Dr. E. G. Janweay, of New York, heart spe cialists, and telegrams were hurried out asking that they come at once.

Before dawn a dozen of the relatives and friends of the president arrived at the Milburn house. They assembled the drawing-room, where they waited for tidings from the sick man above them. The physicians assured them that the president had a fighting chance for his life, and to the hope that in the end victory would be his they clung all day. Hundreds of visleors came during the morning, and if the police had not kept the streets clear and barred the entrance to Delaware avenue there would have been thousands. Senator Hanna, close personal and political friends hurried up from Cleveland by special train. Other friends arrived by regular trains, and all through the day they came in increasing numbers. Their regret and sympathy were profound.

the forenoon the president made a slight gain of strength, and held it well into the afternoon. His physicians announced that they had again ans announced that they had again members of the cabinet had expressed given him nourishment, and it was the belief that the body of the dead thought that possiby there was a chance for a further gain of strength. It was known, however, that he was in a very serious state, and every interest centered in the room in Milburn house, where the struggle was in pro-

in the presence of the stricken man knowledge soon spread to the street, and the waiting newspaper men bulletinel it to the world. Everyone who came from the house was besought for Each succeeding report was worse than its predecessor, and the official bulletin was absolutely without hope.

PEACEFUL TERMINATION

for Life.

Farewells in the Death-Chamber-The Cabinet Notified-Speculations as to Roosevelt's Course.

LAST GOOD-BYES. Milburn House, Buffalo, N. Y., Sept. 14.-William McKinley, 25th President of the United States, died at 2:15 o'clock this morning from the effects

of an assassin's bullet. Thedore Roosevelt, 26th President of the United States, succeeds to that exalted office under the constitution and laws of the country, and with the administration of the oath of office today he will begin the exercise of the functions of president.

In these statements are embraced the consummation of an awful tragedy and the historic event by which the entire administration of government is changed and a new administration comes into being. But for the moment the transfer of the government is forgotten in the great sorrow which has fallen on the nation in the passing of President McKinley. Soldier, statesman, president devoted husband and he was beloved by all who knew him.

The death of President McKinley nant. came in the small hours of the morning under circumstances of peculiar weirdness. For hours he had lain unconscious, with all hope of his survival abandoned. As early as 6 o'clock last night the doctors pronounced him a dy-ing man, and soon thereafter the rigors of approaching death began to creep upon him. The administration of pow- with the president, Mrs. McKinley erful stimulants was maintained un- was urged to go to her room and obtil 7 o'elock, but with no effect. It was lain some rest. She was sleeping when

In this interval of consciousness the president asked for Mrs. McKinley, and she was brought into the death-chamber. She came and sat beside him, held his hand, and heard from him his last words of encouragement and comfort. Then she was led away, and not again during his living hours did she see him.

The president himself fully realized that his hour had come, and his mind turned to his Maker. He whispered feebly, "Nearer, My God, to Thee," the words of the hymn always dear to his heart. Then in faint warms. heart. Then in faint accents he murmured: "Good-bye all; good-bye. It is God's way. His will be done-not ours." With this sublime diplay of Christian fortitude the president soon after

lapsed into unconsciousness, and so re-mained until the end, when he passed SAD EVENT ANNOUNCED.

Mr. Cortelyou was one of the first to rouse himself after the stunning effect of the announcement of the death He passed from the room and down The serious condition of the president the stairway. There in the larger drawing-room were still assembled the members of the cabinet, officials high in the administration and in the confidence of the president. As he appearin order to stimulate the heart, and ed at the threshold of the room they seemed to realize that the message of death had come. Mr. Cortelyou halt-ed at the door, and summoning up all of his efforts, said: "Gentlemen, the president has passed

Realizing, too the momentous nature of the event to the people of the country, Mr. Cortelyou stepped through the outer doorway of the Milburn house, and advancing down the walk to the newspaper men at the front gate, calmly announced:

"The president died at 2:15 o'clock."
Thus closed the final chapter in the

life of William McKinley. FUNERAL ARRANGEMENTS. Within half an hour a carriage had brought those who were to take charge of the body. The autopsy, which had been decided upon for the early forenoon, rendered impossible the immediate embalming process, so the corpse was laid upon a stretcher and covered by a sheet, and left in the chamber where death had occurred. A uniformed guard of the United States Army Hospital Corps was detailed for duty at the

temporary bier. At 8:30 o'clock the long crepe emblem of mourning was hung from the door

As to the funeral arrangements, but little could be determined during the The day developed but small encouragement for them, however. During of the cabinet had been summoned, and this would adjust the necessary preliminaries of the obsequies. In their hasty exchanges of last midnight, the president would be borne to Washington, there to lie in state in the rotunda of the capitol, and later to be re-moved to Canton for final interment. THE NEW PRESIDENT.

The arival of the new president. Suddenly at 5 p.m. there was a re-petition of the heart attack, and those Theodore Roosevelt, was awaited with anxious interest. Mr. Roosevelt was expected to reach Buffalo about knew that the end was at hand. This p.m., and it was the belief that he would take the oath upon his arrival. Under the constitution, he is now president of the United States, and the taking of the oath is merely a preliminary requisite to beginning the exercises of his presidential functions. The assumption by him of the office president means the disintegration of the present cabinet. The resignations of all the cabinet officers will be sub-mitted to Mr. Roosevelt at once, and he will be left free to formulate his own policy of government and to select his own advisers.

MAY NOT SUMMON CONGRESS. Washington, D. C., Sept. 14.-It is not believed here that President Roosevelt will find it expedient or necessary to summon congress to meet in spe-To the President's Battle cial session. There is only a very meager sprinkling of senators and members of the House of Representatives in Washington, but those here generally held the opinion above expressed. Some even go to the extent traordinary session of the senate, though on this point there is a difference of opinion. The matter is entirely optional with the new president.
The conscensus of opinion however, is that he will ask the present members of the cabinet to continue in of-fice certainly until next December,

when congress will assemble. PAN-AMERICAN CLOSED. Buffalo, Sept. 14.—The gates of the Pan-American Exposition are closed and will remain shut until Monday. The city is crowded with exposition visitors, but they, like all others, are in deep mourning for the loss of their president, and the holiday decora-tions now seem a badge of mockery. Everywhere there are signs of sorrow. Flags fly mid-mast, and preparations are in progress to give the public buildings a draping of sombre

black. At all the city churches tomorrow there will be services in memory the martyred president. Plans for formal civic action and for a large escort of military and civic organizations when the body is removed to the train that will carry it to Washington are under consideration and probably will be completed by night. people of Buffalo feel especially keen regret in that the president was stricken down while their guest, and the los therefore seems more poignant. the loss therefore seems more poig-

the end came, and up to this time had not been informed.

Milburn House, Buffalo, Sept, 14 .-Dr. Wasdin came from the house at 8:40. He said that Mrs. McKinley had rested well during the night and was feeling quite strong. She bears up wonderfully well in her grief, and some of the apprehension as to her is passing away. The cabinet will meet at 10 o'clock to discuss the arrangements for the funeral. The autopsy on the body of the president will take place at 11 o'clock

Milburn House, Buffalo, Sept. 14-The conference of the members of the cabinet will be held at the Glenny house adjoining the Milburn residence

Milburn House, Buffalo, Sept. 14 .-Coroner James Wilson viewed the president's body at 10:15. After the autopsy at noon he will issue a certificate of death and a permit to allow the removal of the remains. He intended to impanel a coroner's jury, fully. but the district attorney informed him it was not necessary.

GENERAL MOURNING IN OLD ENGLAND

Flags on Public Buildings at Half-Mast-Message From the King.

London, Sept. 14.-From the towers of Westminster Abbey, from the gray buildings where the government of the empire is administered, from the Mansion House and law courts, from churches, hotels and business and private houses in London, Union Jacks sympathy for the murdered president. All the stock and commercial exchanges

At the United States embassy a quiet and sorrowful crowd, many of the visand out recording their last respects for President McKinley. The first name signed was that of Mr. Charles Francis, United States minister to Greece. All the papers are issuing extras lined with deep black.

MESSAGE FROM THE KING. King Edward telegraphed to Ambassador Choate as follows: "Most truly do I sympathize with you and the whole American nation at the loss of your distinguished and ever-

to-be-regretted president. Edward, Rex." Telegrams are pouring in from prominent Englishmen, societies and muni-cipalities. It seems as if every little town in England were individually telegraphing an expression of

SYMPATHY AND HORROR. Everything as yet is rather unsettled, but it is probable that a memorial of predicting that there will be an ex- service of imposing proportions will be held in Westminster Abbey, as was done at the time of the death of Gen. Grant. Whether the British Govern-ment will issue an official notification of mourning rests chiefly with King

Affecting scenes marked the an-nouncement of the death of the president at the Ecumenical Methodist Conference, which passed resolutions de-claring that the whole Christian world sympathized with the American people.

WIDESPREAD GRIEF. Throughout the length and breadth of Europe feelings similar to those evinced in the British metropolis seem to have been evoked. Perhaps the best is voiced by the Vienna Neues Weitner Tageblatt, which says:

'The ocean is not wide enough to hold all the sympathy that is streaming from the old world to the new." Several of the Madrid newspapers publish editorials upon the death of President McKinley, of whom they all speak in terms of respect.
Dantzic, Sept. 14.—When Emperor William heard of the death of President McKinley, he immediately ordered the German fleet to half-mast their flags,

and to hoist the Stars and Stripes and their main tops. Paris, Sept. 14.—The news of Presiient McKinley's death became known here generally at about 10 o'clock, and the central portion of the city immediately was hung with furled and crepe draped American flags. The United States embassy and consulate, all the hotels and American business houses, and the establishments of many French firms on the Avenue de l'Opera, the Rue de la Paix, the main boulevards, and in the Champs Elysees quarter,

displayed this mark of respect. Ambassador Porter, who has not been well for the past fortnight, was upset yesterday by the sudden change worse in McKinley's condition. His physician, therefore, forbade that the news of the president's death be communicated to him this morning. His condition is not at all serious, how-

President Loubet and Minister of Foreign Affairs Delcasse called at the embassy at about ten o'clock, but could not be received.

IN WASHINGTON.

Washington, Sept. 14.-After a conference this morning between Secre-tary Hay and Acting Secretaries Gillespie and Hackett, an order was is-sued by direction of the secretary of state closing all executive departments of the government for the day as a mark of respect for the memory of the president, and by 10 o'clock all em-ployes were dismissed for the day. The order was telegraphed to all branches of the executive departments throughout the country.

AT THE WHITE HOUSE. At the White House this morning the only evidence of the president's death was catering business. the fact that the flag was at half-mast. The White House will not be draped in mourning, nor will any of the public

years ago.

Rochester, Sept. 14.—On account of the president's death, the endurance race of automobiles from New York to Buffalo has ben declared ended here.

What is Going On in the Leading Churches of the City.

Militia Changes.

Ottawa, Sept. 14.—The following militia changes are announced among others:

J. F. Rex of the C. P. R. Offices Describes His Feelings.

A thankful man is J. F. Rex, of the C. P. R. Audit Office, Montreal. Any man would be grateful who had come through what he has done so success-At one time not so very long since, as his friends in the railway office know, Mr. Rex was in the close grip

of Dyspepsia. He has broken that grip, however, and with the aid of grip, however, and with the and Dodd's Dyspepsia Tablets has shaken Dodd's Dyspepsia Tablets are com-

parts of the city from Westmount to Point St. Charles, people may be found who will tell you of the good work Dodd's Dyspepsia Tablets have done for them.

Mr. Rex writes a strong letter in praise of Dodd's Dyspepsia Tablets. But it is no stronger than the words of many another sufferer released from the miseries of Indigestion by the same wonderful medicine.

"I can highly recommend Dodd's Dyspepsia Tablets," writes Mr. Rex. "For years I suffered all the horrors of Indigestion—choking sensation, Heartburn, Wind on the Stomach, an indisposition to eat, and all the rest. After the first two boxes of Dodd's Dyspepsia Tablets which I was finally induced to try, I found I could sleep all night without awakening with the feeling of somebody clutching at my throat, like I used to do. I can now eat meat also without feeling that I are floating at half-mast as a mark of sympathy for the murdered president. eat meat also without the have swallowed a hot stone. I am thankful that I ever heard of Dodd's Dyspepsia Tablets."

ROYAL VISIT TO THE DOMINION

A Brilliant Reception Arranged All Along the Route.

Who Come With Their Royal Highnesses.

[Special to The Advertiser.]

Ottawa, Sept. 14.—The preparations the whole route to be traversed by them. Never has greater enthusiasm

beer shown for distinguished visitors evinced to demonstrate the welcome which is theirs. Their royal highnesses will, it is believed, arrive at Quebec, the ancient capital of Canada, on time-that is, on September 16. There will be a naval as well as a civic flemonstration in their honor, Quebec, with its romantic and historic surcoundings, being admirably adapted for spectacular effect, and no effort is being spared to make the welcome truly Canadian in its warmth. Montreal will be the next stopping-place, and here the entire city is being prepared to intensify, if that were possible, the cordiality of which the populace will greet the heir to the British throne and his charming wife. While in Montreal, the royal party will most appropriately be the guests of Lord Strathcona and Mount Royal, who has

come specially to Canada to aid in doing honor to the distinguished visitors. Here, in Ottawa, the magnificent Parliamentary Buildings, on the even- has edited the "Colonial Office List, ings when the royal party are at the capital, will be illuminated as they have never been before. They will be mass of splendor, eclipsing even the Pan-American display in point of wonderful electrical effects. This is rendered less difficult because of the unexcelled situation of the government ment, and what with electrical illumon the principal thoroughfares, and of the success of the demonstration in capital of the Dominion. After they leave here, the royal visitors will make magnificent special train placed at their service, the next regular stopping-place being Winnipeg. Though I have tour.

be interesting to contrast the account of the Times, and corresponds for his paper during the this occasion, with the story which tour. place being Winnipeg. Though I have no doubt there will be brief stops at all the leading towns passed by day en

route, it is not probable that the delay will be greater than to enable the peo-

ple to get a glimpse of the prince and his charming consort. It will be pretty

near the middle of October before the

 \emptyset fore they sail from Halifax, N. S., for Newfoundland, and then home the duke and duchess will make the most of the time at their disposal, and will visit many central points in the eastern portion of the Dominion.

The Dominion cabinet ministers, along shadow of a foundation. with the lieutenant-governor and gov-ernment of Quebec, will unite with the governor-general in welcoming their royal highnesses upon their arrival. and it is expected that Premier Lau-rier will join the royal party and ac-Some Gossip About the Notables company them across the continent, afterwards giving them a Scotch convoy as far as Newfoundland.

Everyone knows that the Duke of York is the son of King Edward, and that his name is George Frederick Ernest Albert. He was born on June 3, 1865, and when but a lad visited Cancoming as far west as Hamilton for the welcome of the royal visitors with his deceased brother. On July 6, 1893, he married H. R. H. Victoria Mary of Teck, and they have four interesting children, who, in their absence, are being well taken care of by the queen grandmother. The youngest is only 18 months old. No Canadian to Canada or greater determination mother will cavil at the shortness of the visit of the royal couple when they are seized of this fact.

> The suite of the royal visitors embraces a numerous and distinguished company, composed of members of their highnesses' permanent house-with special additions chosen with great care for this tour only. Never before have they had such a large personal following. Their household numbers nineteen, and they have twenty-eight servants, including six The governor-general's maids. to accompany their royal highnesses will embrace eight or ten persons, and

they have seven servants. Lady Mary Lygon, lady-in-waiting to the duchess, has been long a close associate of her royal highness. Since her marriage she has been a member of her household. It was with great reluctance that the princess consented to her temporary absence as mistress of Government House at Sydney dur-

ing her brother's term as governor-general of New South Wales. The duke's secretary for official business is a Scot-Sir John Anderson, of colonial office. He was secretary to Mr. Chamberlain at the conference of colonial premiers four years ago, and is credited with a more thorough acquaintance than any other official with the personnel of the various colpointment brought with it his G. C. M

Sir Donald Mackenzie Wallace, K. C. headquarters. The citizens are cor- I. E., is a Scotsman, a bachelor, a dially co-operating with the govern- traveler, a journalist, an official, and is distinguished in all departments. His inations, great arches at many points official life was covered by the period when he acted as private secretary to novel fireworks, there can be no doubt | two viceroys of India-Lords Dufferin and Lansdowne-and when he was athonor of the duke and duchess in the tached as political officer to the staff of the Czarewitch during his tour in Ceylon and India ten years ago. For their way across the continent on the some years he has been editor-in-chief of the foreign department of the Times,

> Sir Arthur Bigge, who occupies the very important post of private secre-tary for personal affairs to the duke, has the distinction of having learned his business in the very best school, having served in a similar capacity to

vas disbanded at her death, the King, having his own private secretaries already about him, suggested Sir Arthur for his present position.

As the chaperone of Lady Mary Lygon comes Lady Latherine Gray Coke (pronounced Cook), daughter of the second Earl of Wilton, and wife of Hon, Henry John Coke, to whom she was married in 1861. Lady Katherine was lady-in-waiting to the Duchess of Teck, and has seen as much of Princess May almost from the time of her birth as if she had been her own daughter. Lady Katherine is pos-sessed of very considerable dramatic talent, which she has apparently trans-mitted in full measure to her one daughter, Sybil Mary (wife of Lieut. Col. Chas. Crutchley), who has the reputation of being, perhaps, the best amateur actress alive. Lady Katherine is greatly devoted to music. She was one of the earliest friends of Sir Arthur Sullivan, and, perhaps, the sincerest mourner at his funeral.

Prince Alexander of Teck, C. V. O., is the popular and agreeable brother of the duchess, and is acting as A. D. C. to his brother-in-law. He is a captain in the 7th Hussars, and served in Matabeleland and South Africa, whence he returned last year. From an article on Prince Alexander, by "Banjo" Paterson, the well-known war correspondent, I take the following: "Alexander of Teck is about 28 years of age, tall and well set up, with the swarthy complexion of a Spaniard. He quite won the hearts of the New South Wales troopers with whom he was associated, and when he left the Inniskillings to go to Mafeking, the men of the New South Wales squadron turned out on their own initiative to give him a cheer on his departure—a thing that steadfast qualities were recognized as was not known to happen to any other marking him for high places of reofficer in the campaign. While on the march he roughed it as much as His modest worth as a soldier was anybody. He and some other young known to President Lincoln, and he anybody. He and some other young officers shared a small cart, which carried their belongings, i. e., their canvas sleeping valises, cooking pots, tinned meat, etc., and if, as often happened, they were sent out on outpost duty and got separated from their cart, he and the others were quite prepared to roll a blanket round themselves and lie down on the wet ground among the men without anything to eat. If young Teck found himself cartless at night he did not stand on his royal dignity or expect to have things brought to him because he was a prince; no, he hustled round with the rest to raise a spare blanket or a horserug to keep himself out of the bitter cold, or the leg of a fowl or a half-tin of bully beef to eat, and when he had his goods at hand he was always ready to lend in his turn. He had previously seen active service, and is, in fact, very well up in his profession. He has a fair share of humor, too. One day, near Bloemfontein, a troop of Australian horse were on outpost duty on a hill in sight of the Boer position. The next hill was occupied by Teck with his troop of Inniskillings, and when the Boers began to move about on their hills the Australian Horse officer galloped over to Teck in a great state of excitement, and asked for advice. He was only a young volunteer officer, and felt the responsibility very keenly, and was anxious to get some approval of th way he had placed the men, because if the men were cut up he would be responsible. He was starting to explain how he had placed them when Lincoln. worth; that's all you can do." "Well, I've done that," said the Australian officer, "but what should I do myself while the attack is on? What would you do if you were me?" "I would lie flat on my face till the danger was Then, when you're quite the Boers are running, get up and have shot at them," and, as anyone who knows him well, with the best results. The other brothers are very good soldiers, and the extraordinary story that one of the Tecks was responsible for the Sanna's Post disaster has not the

The Hon. Derek Keppel is the duke's equerry. Handsome, and very much of the exquisite, he nevertheless, like his elder brother. marle, is a type of the best of sporting Englishmen. One of the principal functions of an equerry is to wear a multitude of uniforms (not all at the ne time, of course), and to look well in each of them; and, as everyone who knows him will tell, the Hon. Derek home Keppel has ability in this respect which amounts to positive genius. The family has "colonial" traditions, Mr. Keppel's mother having been the daughter of Hon. Sir Allan Napier Mcthe daughter of Hon. Sir Allan Napier McNab, Bart., one time prime minister of ton, of Canton. (Two daughters both Nab, Bart., one time prime minister of ton, of Canton. (Two daughters both Canada. He is 38 years of age, was to Mr. and Mrs. McKinley—Katie in 1871, and Ida in 1873—both died in early Carrington. For the rest, he is credited with an absence of "side,"

Commander Sir Charles Cust, R. N. served as equerry to the Duke of York for nine years. He is the eldest son of Leopold Cust, Bart., was born in 1864, and succeeded his father at the age of fourteen. He is a popular member of the Naval and Military Club.

Viscount Crichton, one of the A. D. es, is the eldest son of the fourth Earl of Erne. He is captain in the Royal Horse Guards, is a festive bachelor, and a good sport. He is Irish.

Lord Wenlock possesses all those qualities which should make him an ideal chief of staff-suave, smart, socially alert, abundantly tactful. He was governor of Madras for five years, and has had a certain amount of parliamentary experience, having sat for Chester as a Liberal. In 1872 he married Lady Constance Lascelles, daughter of the fourth Earl of Harewood. Although connected with the Grosvenors-his mother was daughter of the second Marquis of Westminster-he is blessed with only a very moderate allowance of this world's goods. he stands high in favor with the King is evidenced by his elevation to the Privy Council a few days before the

Hon. Mrs. Derek Keppel is a sister of Lady Carrington. She has at least one thing in common with the duchess -she had to say good-bye to a very young baby when she came abroad.

Rev. John Neale Dalton, M.A., C.M. G., precentor and canon of St. George's, Windsor, like Sir Arthur Bigge, nas had a long association with royalty. His first post was that of a tutor to Prince Albert Victor and Prince George of Wales, whose "governor" he was on board the Bacchante. It will Canon Dalton supplied of the cruise of the Bacchante. The canon, who has now passed his threescore years and ten, was one of the three divines who recently assisted the rites at the funeral of the late Queen at Frogmore.

party get back from the Northwest the late Queen. The son of a north and British Columbia, in which far-off country clergyman he entered the spontaneity await them, and then there will be only a few days left be-

1880, when, at the age of 31, he was appointed groom-in-waiting, rising step by step to the private secretaryship. When the household of the late Queen was disbanded at her death, the King, the marriage market. Rumor, indeed, has already associated his name with that of a charming American heiress.

> Two other notable members of the party are Mr. Sydney Hall, the well-known artist of the Graphic, who was with the Prince of Wales on his Indian tour, and Chevalier de Martino, a dis-tinguished artist, who for some time was marine painter to Queen Victoria.

The Esculapius of the tour is Dr. Alan Reeve Manby, a physician of ex- on Canadian soil.

Major Bor represents the marines. He has a distinguished service record, and is assistant deputy agent-general of the marine forces. Like Lord Crichton, he hails from Erin.

The Canadian member of the staff is Major S. J. A. Denison, C. M. G., of the Royal Canadian Infantry, who has been specially selected as A. D. C. to their royal highnesses while they are

William Freel, of Thamesford, has sold his imported Clydesdale stallion to his partner, W. E. Butler, of Ingersoll, and the animal is to be sent out to the Pacitic coast. The price was \$2,000. It is likely that Mr. Freel will see him to his destination. Alanson Elliott, one of the most prominent men of Essex county, died at his home near Oxley on Thursday from the effects of a stroke of apoplexy which occurred three months ago. The deceased

was born in Amherstburg 67 years ago, and when a young man he went into partnership with his brothers, who were carrying on a general mercantile business at that place. He remained with them for a number of years, when he purchased a farm near Oxley, on which he lived until his death. He always took an active part in municipal politics and served his township as school trustee, councilor and reeve, the latter office entitling him to a set in the county council. In 1883 to a seat in the county council. In 1883 he received the appointment of license inspector for South Essex, a position he retained until a few months prior to his death. He is survived by the following children: George, Sandwich; William H., Windsor; Joseph and Arthur, now sailing, and Andrew and Bessie, at home.

Death of the President.

President McKinley is dead.

vertiser, Lendon, Ont.

The shock comes with added force, inasmuch as all the indications up to a day or two ago were as favorable as could have been desired. The conflicting telegrams yet leave in doubt the immediate causes of the unexpected retrogression and physical collapse. On this point the autopsy that will, doubtless, be held, may give additional light to the public.

The civilized world seemed to standing anxiously by the bedside of William McKinley; king and subject, prince and peasant, all animated by the common bond of genuine sympathy. In thought they will now follow him to his honored grave.

The dead President, a ruler of splendid and balanced mind, a chief magistrate of rare executive ability, simply as a man was of singularly attractive and winning personality. Courteous and manly, gentle and considerate, justly was he beloved. His devotion at all times to his invalid wife, and especially during her alarming illness while on the tour to the Pacific Coast, had shown a manly chivalry of disposition which appealed to that which was best and most universal in human affection. The sympathy then shown the President because of Mrs. McKinley's illness, will now be bestowed on his devoted, surviving invalid wife.

From the death of President McKinley we do not anticipate any trade or other disturbance in the United States. Fortunately, the stability of a great nation such as the United States is not now, nor will ever be, at the mercy of any anarchist or other foe to organized society. Deep and unfathomable is the riddle of Providence; but all past history proves that the Divine Dispenser overrules such happenings in a way to produce resu'ts very different from those intended by the evil perpetrators of wicked deeds. There will come to the people of the United States through this dispensation lessons that only some great and overshadowing event could

Time will reveal the calyxes of gold.

The New Chief Magistrate.

'According to the constitution Vice-President Roosevelt becomes President of the United States for the unexpired portion of the term for which Wm. Mc-Kinley was elected.

There are those who think of Mr. Roosevelt simply as the dashing Rough Rider of the Spanish-American war. Those who limit themselves to this view know little of the new President. Mr. Roosevelt is a strong man, physically and intellectually. His speech is full of expressions as pithy and characteristic as those of Lincoln. He is a writer as well as a reader of books; s man of high courage and unflinching determination; under a somewhat aggressive exterior, a man of tender heart; and, while hating cant and not disposed to wear his heart on his sleeve, inwardly dominated by religious principle. Jacob Riis, the wellknown New York philanthropist, whose interesting autobiography is now appearing, found no one so competently willing as Col. Roosevelt to fight with him in endeavoring to improve the con-

It is fortunate that the United States has had in reserve so able and upright a Vice-President to take up and carry on the work of William Mc-Kinley so ruthlessly cut short by an

The Gentleman Usher of the Black leader. Rod in the British Parliament is now and he may last till he reaches "by gap-

The Character of "Fairs."

of them have done their work,and made their yearly record. These "fairs" are a part of the life of the country; they manifest its character, and in some ways help to form it. We hope, then, that the question with regard to them that has been raised, will be well threshed out. It is this, Do they need to be quite as much as they are, places of "pleasure"? In future, perhaps, there will me more specialization at these fairs; they will not all of them be a tural and industrial products. That, however, is not the point before us. It ought to be a pleasure as well as an education to go to a fair. There is a pleasure in seeing fine products and a a horse cover the ground in short time with good form. But is it necessary to grown up around the fairs? Aerial navigation is no doubt a fair subject for scientific investigation, but the balloon business that is done at some of the fairs is of a questionable order. People go up into the sky who are scarcely in a condition to keep steady on the earth. The life and limb that are risked may not be considered very precious, but from even the standpoint of the general public many of these performances are to be regretted. Besides, the directors of a big show, who are catering for the public on sensational lines, have an increasingly difficult task before them. In this case, also, the appetite grows by what it feeds on; like Oliver Twist, it "asks for more." We are not particularly squeamish; we like to see young men who have worked hard on the soil have some good hearty enjoyment. But we question very much whether the more intelligent class of young men care for the performances which are advertised as daring and sensational, but which often turn out to be a wretched fizzle. It is time now to regard the fair as an nstitution that can instruct and elevate as well as please.

Don't Make a Hero of Him.

Notwithstanding that the members of the United States Cabinet have specially requested that the assassin of President McKinley should be given no opportunity to be regarded as a "hero" by that portion of the community who are inclined to glory in any deed intended to injure the existing forms of government, there seems to be a disposition on the part of the local press of Buffalo to make too much of the scoundrel. They profess to have noted for them, by trusted officials, his every movement, and they chronicle his sayings as if they were of the greatest importance. The sooner the man is let go into oblivion until such time as he is put on trial for his dastardly and cowardly deed, the better. To magnify his importance is but to pander to his vanity and supply incentives to ill-balanced men and women to follow his example when an opportunity presents itself to aim

a blow at constituted authority. Then, according to Buffalo papers, the jail authorities are feeding Czolgosz, the assassin, as if he were a 'fighting cock." The following is given as his bill of fare for one day: BREAKFAST.

Fried ham and eggs. Fried Potatoes. Home-made Bread and Butter, Coffee. DINNER. Boiled Potatoes. Sliced Tomatoes. Succotash.

SUPPER. Boiled Eggs. Cold Lamb. Fried Potatoes. Bread and Butter.

Bread and Butter.

We make bold to say that this is a more ample diet than the great majority of the law-abiding citizens of Buffalo are able to obtain. It would better fit the situation if the prisoner were placed upon bread and water, or at least the ordinary prison diet. Why should he be regarded as a firstclass misdemeanant?

Can't Stand Criticism.

The Hamilton Spectator has fallen foul of the president of the Conservative Association of that city, because ne has stock in a newspaper which freely criticises-indeed, shows up-the shortcomings of Mr. Whitney, and it berates him for having the temerity to say aught against the Opposition leader in the Legislature.

Now, if this critic had been a Liberal, and if he had been "saying things" against Hon. George W. Ross, or Sir Wilfrid Laurier, the Spectator would have been lauding him to the skies as a patriot-as one worthy of every honor. But it cannot stand to bler, is a delight to the Canadian readhave the weaknesses of Mr. Whitney exposed by a candid friend. That there is much in what has been said in the United States seems to us to to the detriment of the Opposition be unnecessarily wrathful. They are leader by his own friends cannot be not all "sensational scribblers," or gainsaid. Even so strong a Conservative in past years as Mr. Marter, who In Canada we have a large French was Mr. Meredith's right hand man in population where there is much litthe Legislature for many years, has erary activity and appreciation of lituttered the strongest condemnation of Mr. Whitney's attitude with regard to lion English-speaking Canadians are the progressive measures brought for- placed so close to the great American ward by the Ontario Gevernment, and Republic that we must feel the influpassed into law with Mr. Marter's sup-

Their Price.

The following story goes to show theory held by some. It also emphasizes the fact that a rebuke can be more efficiently given quietly than in anger. There was in this case no opconglomeration of all kinds of agricul- portunity for the would-be briber to

> "Once when Gen. Ludlow, then a colonel of engineers, was in charge of some important government contracts, dian manufacturers can do when the slipped into his hand a bill of a large denomination, and at the same time sent over a thousand harvesters to Gerspoke of the size of his bid for certain Government works. Col. Ludlow at once made the contractor feel at home great satisfaction. We can send three by smiling and inviting him to take a chair. Then he handed the contractor the demand. We sold three mowers to in high feather over the apparent success of his attempt at bribery, but his idea of Ludlow was suddenly changed. always been a strong supporter of the the colonel, and stepping to the fireplace with the bill he lighted it and politely handed it in a flame to the ontractor's eigar, where he held it until it was entirely consumed. It is related that there was a deep silence; then the contractor went away gloomily and never returned.'

There are many men above being bribed; men, for instance, who might do for a contractor, as a favor, what no bribe could induce them to do.

The Fast Line Project.

Hon. W. S. Fielding, Dominion Fin ance Minister, holds out the assurance that at an early day such action will be taken as will assure to Canada a steamship line between Great Britain and this country, of which the Dominion may be proud. Action has not been hitherto taken, he says, because all the shipbuilding yards have been so busy and materials have been dear, but a lull is expected, and the work of providing a fast line will no doubt be proceeded

We think that with our short sea pasage, the stipulated number of knots per hour might well be reduced to 19 or 20, and that the fast line steamers should be built to carry a fair amount of freight as well as passengers. Vessels making 22 to 25 knots an hour, because of their construction, necessarily carry next to no freight.

Literature In Canada.

The editor of the Canadian Magazine, in a recent number, writes very strongly on the literary tastes of Canadian readers. It would seem from his statement our literary tastes are de praved, and we show lack of "patriotism" in the way we indulge our tastes. We have recently quoted from a Canadian writer on the danger of mixing up literature and patriotism in in the House of Commons ever had the a crude fashion, and we are afraid that Mr. Cooper is rather carried away by his patriotism. He says: "Talk of patriotism-there isn't enough patriotism in the literary tastes of Canada to keep one good novelist from starvation. Talk of patriotism-and flesh on paper-covered trash and subscription books, all the work of literary hacks who never had an ideal in their lives." Coffee.

Well, we are prepared to talk of patriotism, or any other profitable subject, but we suggest that this is not an "ideal" style of writing on such a theme. Patriotism, especially certain kinds, is apt to make one hot, and the discussion of literary tastes "requires a considerable amount of coolness. Now we agree that many people read "trash." That is true in England, the United States, Canada, and wherever there is a reading public. That means, the public taste is not so pure, classic and discriminating as we would like to see it. Still, as we have said before, there are hopeful features in the situation. We believe that education will do much good, though as long as there is depravity in the human mind it will find its reflection in literature and in literary tastes. But the special point that Mr. Cooper wishes to make is that the "trash" we read is American, and that our "patriotism" ought to prevent us from indulging in such foreign vanities. Canadians today are surfeiting themselves on foreign fiction. A tale of Maryland, Kentucky or New York fills them with satisfaction: an historical romance of the time of Henry VIII., or Louis XIV., written by a United States sensational scrib-

ing public, etc., etc. The references to authors who live literary hacks who never had an ideal. erature. Then the three or four milence. It is not all bad, and we must take it as it is and make the best The Spectator may hate to confess it of it. We could, perhaps, keep a good can go outside and compete for the time when the United States was more It will not help to elect Whitney dependent than now on English liter-

cess even when these are not of the ity in the United States, and we believe also an improvement in its qual-The Theory That All Men Have ity. The English public reads books from all quarters, and so will the Canadian, and while we hope that everything will be done to uplift the public taste, we do not think that loud appeals to patriotism will accomplish much in this sphere.

Selling Abroad.

Mr. Frank Frost, the head of the agricultural implement industry at Smith's Falls, Ont., in a recent interview, shows what enterprising Canamany this year, and they have given cigar. The visitor by this time was Cecil Rhodes for his own farms in South Africa last month." Mr. Frost, who has Won't you have a light, too?' asked Liberal party, ably represented South Lanark in the last Parliament of Canada. When that gerrymandered con stituency failed to re-elect him, i worked again its own interests, as well as against the country at large, for Mr. Frost was one of the best-equipped representative that sat in the House.

> The arrangements for the disposal the time of the Duke and Duchess of York are all in the hands of the Governor-General, and Major Maude is his general agent.

If the Duke and Duchess do not come this way-and the matter is not yet settled-society nabobs will be saved the turmoil of bending low exercise which is giving so much trouble a Montreal and Ottawa.

In future, the legal long vacation i the Yukon Territory will be observed in the winter time, when, owing to the shortness of the day, very little work is done. The Yukon legal fraternity, in thus resolving, have acted wisely. Besides, many suitors, who spend the summer in the gold region, come out for the winter, and live at their old

Mr. Borden, the Opposition leader is the Dominion House of Commons, is out in Nova Scotia organizing his friends against the Liberal Government of that province in the general election that takes place on the 2nd of next month. We shall see whether he is any more successful than his predecessor in office. The indications are not at all favorable for him.

In his own peculiar way, Sir Charles Tupper is still "out of politics." His dian preferential tariff in favor of British products, as against the products of foreign countries. It must not be forgotten, however, that neither Sir Charles nor any of his political friends courage to propose a straight resolution in favor of the preference.

There is something significant in the fact that assassins are, as a general thing, comparatively young, Perhaps this can be accounted for by the fact that youth is more impressionable the whole nation fattens its literary than age. Traits, which are capable of being the very essence of an ideal

Pimples, Blackheads, Red Rough, Oily Skin

MILLIONS OF PEOPLE USE CUTICURA SOAP, MILLIONS OF PEOPLE USE CUTICURA SOAP, assisted by Cuticura Cintment, for preserving, purifying, beautifying the skin, for cleaning the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for seftening, whitening, and soothing red, rough, and sore hands, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and nursery. Millions of Women use Cuticura SOAP in the form of baths for anneying tritations, inflammations, and excertations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sansitye antiseptic purposes form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women and mothers. No other medicated soap is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet seap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, and the BEST toilet and baby soap in he world.

CLEARING SALE OF MEN'S CLOTHING.

Men's Clothing, as well as Boots, must go. In this department we intend to give our attention solely to Boys' Clothing and Gents' Furnishings, and keep an up-to-date stock in these lines. We have a large and good tock of Men's Suits and Overcoats, and out they must go, as we must have the space for our Boys' Clothing. Men's Suits-\$7 00, for \$4 50; \$10 00, for \$5 95; \$11 00, for \$6 75. Overcoats-\$8 00, for \$6 00. Space won't permit a list of prices, but about half price will rule at this sale.

The Runians, Carson, Mckee Co.

208, 210, 2101/2 and 212 Dundas Street.

character may become, when diverted into improper channels, extremely poisonous. It remains then only to safeguard the youth of the land by placing noxious and inflammatory speeches in the same category as ob-

scene and contraband literature. The Chicago Building Material Trades Council have denounced anarchy in any form, declaring that the anarchists' alleged blow for freedom is a real blow against the rights labor leaders are endeavoring to secure and

County Population Elsewhere.

[Victoria Colonist, Con.] It helps Ontario out a little bit to be told that over one-third of the counties of New York State show a diminution n population during the last decade.

Has a Field of Its Own.

[Hamilton Times.] The Buffalo Fair is not a permanent thing. That at Toronto shows signs of a break-down from old age and over-stimulation. The London Fair has a separate field of its own.

An Indisputable Fact. [Philadelphia Record.]

The fact is that too much stress has been laid upon the forward or backward movement of population. Men and women go and come with lawless freedom and indirection; but the rapid increase in the wealth and industrial development of Canada remains an indisputable fact. The per capita distribution of resources and prosperity is most satisfying."

Industrious Galicians.

[Edmonton, N. W. T., Post.] The fact that the Galicians in town and the adjacent country are starting a library and reading room in the town is evidence of the advancement of this industrious people. They have already sixteen members and they expect many more. A meeting will be held tonight at John Kiloisky's for the purpose of perfecting the organization. For the present the library and reading room will be at his house. Galician literature and newspapers will be kept there, and also English papers for those who read in that language which they are all anxious to learn.

Fatal Foolishness. [Pittsburg Dispatch.]

The great tragedy of last Friday was so overpowering that public attention was not attracted by a smaller one not many miles away from the exposi-

tion. The idiotic performance of going through the Niagara rapids in a barrel has been made so much of that and peace. a foolish woman was induced by the craze for notoriety to attempt it, and was taken out dead, or in the last stages of dying. This should stop that dangerous and criminal nonsense. ing, and nothing but the mania for

doing something that would cause talk would lead anyone to try it. were responsible for sending this woman to her death should be criminally prosecuted; and if there are any public officials in that locality responsible to anyone but the hotel and hack | grocer. they should be severely disciplined for permitting it.

allegations.

[Nelson, B. C., Economist.] Once more this paper announces that under no circumstances will it publish anonymous communications. The man who attacks another and is afraid to give his name supplies the strongest evidence of his own vicious nature and the falsity of his

Result of Advertising.

[Vancouver World.] When Larkin, the rich soap man of Buffalo, started business by making soap in his kitchen, carrying the materials in a wheelbarrow, he used his first profits to advertise in the newspapers. As the profits increased he enlarged his purchase of newspaper space. He now employs nearly 1,000 men, and credits his success to news-

Militarism.

paper advertising.

[Bystander, in Weekly Sun.] If in private life you wish to show

special hospitality to a guest, you do not display your bowie knife or your revolver. Why should public hospitality always take the form of a display of military force? Such however, is now the fashion. The first aim of all who are preparing a reception for royalty is that our streets shall be found lined with soldiery. The love of military show and parade has clearly been growing of late. The jubilee was military; there was an immense display of the war machine, but hardly anything to represent the peaceful glories of the reign. The funeral was military, and an aged lady was incongruously borne to her grave on a gun carriage. It may be said that scarlet is brighter than drab. So it is; but that is not the whole or probably the principal account of the matter. The military sentiment has been growing. On the ratification of the American constitution, rather more than a century ago, there were more than a century ago, there were immense jubilations and processions; but we are specially told that nothing military was seen; that all the emblems and mottoes were of industry It would not be so not even in the United States, though peace has still a better show there than it has in the old military monarchies or their colonial imitations.

The first patent was issued to There was absolutely no good purpose to be served by the foolhardy proceed-Samuel Hopkins, in 1790 for making "pot or pearl ashes."

Ants and Lemonade.

"Did you ever know that ants will make lemonade?" asked the talkative "Yes, it's a fact. I happened to cut a lemon the other day, and left it on the counter. A couple of minutes later I noticed a bunch of ants making a great to-do around the lemon. The antics of the little insects were so methodical that I took a few minutes off to investigate. A little Brooklyn Workingman's Wife (in sugar had been spilt on the counter near the spot where the lemon lay, and the aats were busy making trips between the sugar and the fruit. You may not believe it, sir, but every time one of the little creatures made a trip he carried back a grain of sugar, which was dropped into the lemon juice and then eagerly dewoured.

"It struck me that maybe the manufacture of lemonade was only an accidental process, due to proximity of the sugar and the lemon. so I carefully swept the sugar away. It seems incredible, but as true as I am standing here those ants hunted around until they found the sugar barrel, when the whole burnch trooped laden with sugar, which they dipped into the juice and swallowed. Wonderful is no name for it!"--Philadelphia Record.

That Deceptive Statement "Something Just as Good."

The use of Diamond Dyes in the coloring of the finest fabrics or the heaviest materials means success, true economy and happiness. inferior dyes such as are sold by some dealers, means loss of your money and complete ruin of your goods.

When you ask your merchant for Diamond Dyes, never allow him to substitute another kind, the "something just as good" that he recommends for the sake of larger profits. No other dyes in the world can equal the Diamond Dyes in strength, fast-ness, beauty and brilliancy of colors. Would you like to make up a pretty mat or rug? If so, ask your dealer to show you the artistic Diamond Dye Mat and Rug Patterns made of the best Scotch Hessian and in all the best sizes. If he does not keep them in stock, write to The Wells & Richardson Co., Limited, Montreal, and they will send you free of cost, sheets of designs to select from.

The British Islands are better provided with rivers than any other country of the same size on the globe.

Between the years 1760 and 1776 100,000 pounds of silk were exported from Georgia to England. Recipe for Making a Tomato Catsup

That Looks Nice and Will Not Spoil. Instead of using spices and darkening the catsup, as well as driving off the fine flavor when stewing, you add, last of all, when the catsup is made, a 25 cent bettle of Parke's Catsup Flavor to a bushel of tomatoes. Full directions on each bottle. See sample of catsup. Sold

"He is a many-sided man, not re-

Mr. McKinley had no special advan- of his opponents would have us betages. He had good parents, a good constitution and brain—no greater opportunities than legions of young men portunities than legions of young men | McKinley was a force of strength and have today. He had neither wealth nor power that brushed aside jealousies great family name to aid him. Of and littlenesses, that hurried forward Scotch and Irish ancestry, William great movements, that blocked the way of schemers and swept all before McKinley was born at Niles, Trumbull him. He dominates his administracounty, Ohio, Jan. 29, 1843. In the countion, but whether by force or gentle ty of Antrim, in the north of Ireland, persuasiveness, he is the strong man stands a square-built old farmhouse, at the helm. His methods are direct. He has able men about him at his that is now pointed out as cabinet table; men of keen minds, of the original home of the house independent thought, but who has other presidents of the United States, his youth was humble enough; born of the common with the controlling mind among of the common stock, he fought his them he is the friend and counselor, way slowly upwards through years af but when the decision comes, when the resteady labor. The early years of his the government is to act, when the remanhood were spent in the citizen soldiery of the United States. Joining a regiment of volunteers as a private he saw much active service; and was mus- stricted in his equipment. In the vatered out a sergeant. Returning then ried fields of administrative duty he to Ohio he studied law, was admitted has been called upon, during his years to the bar, married the girl of his choice, and settled down in the little town of Canton to the humdrum career of a country lawyer.

Soon he began to take a small part in local politics, and thus placed his foot on the first rung of that ladder which, in his case, led to the presiwhich, in his case, led to the presi-dency. Success in small things led to have become a part of the history of greater responsibilities being imposed, his administration were inspired by as is the way in self-governing communities; and so Mr. McKinley passed His mastery of diplomacy has been from the filling of local offices to a the wonder of diplomats, but he separticipation in state politics; and cret of it has been his Americanism, thence to the National House of Representatives as the representative of his a certain Yankee shrewdness in the Ohio congressional district. There he re- presentation of a subject or in the dismained for fourteen years, becoming the leader of his party in the house, and imposing upon it his will in the matter of the operations. In the conduct of tariff legislation. As chairman of the committee on ways and means he drafted and secured the adoption of the McKinley bill, which first made his name known beyond the frontiers of presentation of a subject of in the distribution of a subject of in the distribution of the weak points in an adoversary's contentions. In the conduct of the operations of our army and navy he has been the real commander-in-chief. When the history of his time is written his masterful hand will be seen at every turn. He took

dent; and defeated Bryan, the Demo-eratic candidate, in a decisive man-ner. As president it was his destiny to be confronted with new issues and to be confronted with new issues, and new questions of the greatest moment, these he met in a manner which showed unexpected wisdom and strength of will. Dealing with his course during the months preceding the Cuban war a writer in an American paper recently said: A STRONG MAN.

"A weak man would have taken the easy alternative and yielded with much show of reason to the almost universal cry for vengeance. No greater test has come to any public man ready for dinner at 7 o'clock. After in the history of this country than to dinner the evening is spent in compresident, during those days. Through it all the man in the White House kept his head. He comes of Scotch - Irish parentage; good stock. The women of that stock are model housekeepers, thrifty, helpful in communities. The men are steady, self-God - fearing, peace - loving; they think for themselves; when they are assailed they take a firmer grip HIS FINE PRIVATE CHARACTER. on things. He had been educated in the common schools, and had been before the people for a generation in the various walks of public employ where men come to know and to be known by one another. His career has been constantly upward. He has broadened in intellect and sympathies with each year of service. Aftectionate and tender in the domestic relations of life as he was, some unonsciously had lost sight of the sturdy Scotch-Irish strain in his character. With the record of his administration as president before them, his friends now realize what these years were doing for him. They look ack now upon his services as representative in congress and as governor of his native state, and recall the most reasonable of men, the most actraits which only needed wider fields commodating. No citizen is too lowly, for their development. They recall frequently when before the people for their suffrages, he surprised his supporters and counfounded his enemies by the simplicity and directness his dealings with vexed questions. Time and again they had heard him insist that a course mapped out for him must be right rather than expedient. He saw fourteen years of service in that school of statesmanship, the national House of Representatives, and deserted the standard of the great doctrine of which he became the exponent and defender. So it was that his friends of these years watched with eager and hopeful interest his dis- says that it is not denied by the police charge of the great duties of the presi-

A TYPICAL AMERICAN CITIZEN. "William McKinley" is a typical American citizen. He stands for what is best in American life and character. He is without ostentation, simple in his tastes, deliberate in his speech, which is now in the hands of District conservative in judgment, spotlessly Attorney Penney, was forced from pure in his private life, devoted to his me and his friends. There has been no stain upon his integrity during all the years that he has been under the taken before Superintendent Bull he searching egl of public scrutiny. His devotion to his wife is one of the most beautiful and touching things | McKinley. in the lives of our public men. He lieves in harmony. He is a fighter, but not a vindictive one. He fights with sense. If he has an object to accomplish, he will accomplish wears well. There is nothing erratic will not say a word." complish, he will accomplish it even known that any sign was given; it is though he may have to sacrifice the not known that the policeman had any small distinction of winning a personal authority for their strenuous actions; victory. He keeps faith. He fulfills his promises. He believes in party obligation. He wants a united party. He | glad to confess. believes that such a party can best serve the great interests committed to its charge. He knows that we can but approximate to our ideals and to its charge. He knows that we can but approximate to our ideals and that it then becomes our duty to secure the best results obtainable. The Republican party, under the leadership of William McKinley, is more harmonizing more forceful, more dominant, than at any other time in its history. In his state and nation he has a united party. Could this have been the work of a weak man, as some been the work of a weak man, as some but approximate to our ideals and the thirty-third degree. I cannot tell you what was done to him, but sufficient was done to persuade him to talk. He thought he was lucky to get away alive, and he was right. Yes, Czolgosz was tortured. He was given a vigorous treatment, and it is probable that he will be tortured been the work of a weak man, as some been the boxels.

to justice."

The good results following the forcwhere. "It has been proven beyond anyone's denial that a number of know anarchists, including Emma Goldman, met by prearrangement in Buffalo and talked with Czolgosz at different times a very short time before the effort was made on the life of the president. It is known that others had foreknowledge of the tention of Czolgosz to assassinate President McKinley." These remarks were made today by Superintendent Bull, who was commenting upon the fact that in some quarters it is believed that the attempt on the life of the president was not the result of conspiracy, but was originated and planned by Czolgosz alone. Superintendent spoke for publication since the arrest

A BRITISH PEER

The Return of Lord Mount-Stephen to His Native Village.

[British Weekly.]
"Our fathers' sepulchres are here,
And here our kindred dwell."

church of Mortlach has finished, and a group lingers outside the church door. The man with easy, unobstrusive manners, with short beard, almost gray, and mers, with short beard, almost gray, and with smiling, kindly face, is Lord Mount-Stephen. His carriage is drawn up at the gate, and the footman stands ready. Farmers are getting into their "traps," while the townsfolk watch the group at the church door, even the aglie, unceremonious provost sharing for a few moments the curiosity in which they look upon the native who has returned for a visit with wealth and honor.

"Born at Dufftown, Banff, 1829," George Stephen went in 1850 to Canada, "where"—in the laconic words of Dod's Parliamentary Companion—"he became president of the Canadian Pacific Railway, and held that post till 1888." George Stephen became Sir George in 1886, and five years later he was elevated to the peerage as Lord Mount-Stephen.

There is an increased demand at Hamilton for goods for the fell sort.

peerage as Lord Mount-Stephen.

Dufftown is proud of him, and when
he arrived last week to open an industhe McKinley bill, which first made his name known beyond the frontiers of the United States.

After the great Democratic revival of 1891-1892 he lost his seat in congress, but he was immediately afterwards elected governor of Ohio and was subsequently re-elected. In 1896 he became the nominee of the Republican party for the position of cratic candidate, in a decisive manner. As president it was his destiny to be confronted with new issues, and Sir Peter Lumsden-one a man who had

the stipends of the parish ministers of his native district, and during his visit he submitted a scheme of old age pensions for poor persons in the neighborhood. Then on Sunday he worshiped in the church at the foot of the brae, leading down to the Dullan Water, where as a boy he fished and waded. The church has a thriving, comfortable, almost fastidious aspect, and the minister, Mr. Cumming, has a gentlemanly bearing, with clear, refined, business-like face. His sermon, dealing with the presence of Christ in the church and in the home, had been carefully prepared and was delivated carefully. and was delivered carefully. The prayers also betokened care. Prayer was made for the "royal and imperial" house. An English visitor—even a Scottish Presby-terian who had been long resident in England—might have been surprised by the singing of the Psalms and the Paraphrases, not from a hymn book, but from the end of the Bible. The 100th Psalm was sung, and then came the 2nd Para-phrase, Lord Mount-Stephen, no doubt,

entering with feeling into the lines: "God of our fathers! be the God Of their succeeding race.'

The hymns seemed to be particularly appropriate. They included what is truly a national hymn with the allusion to "our fathers' sepulchres," and there was the hymn in which the superconstruction. hymn in which the singer says:

> "We give Thee but Thine own, Whate'er the gift may be; All that we have is Thine alone; A trust, O Lord, from Thee.'

A borrowed Bible opened at Isaiah. The first lesson was from that prophet, and the second was from Revelation. Both passages related to the new heaven and the new earth. Seated in the gallery was an old woman, sad, timid, dejected as if life had left her without pleasure and without hope. She looked meekly before her. But when the preacher quoted the description of the new heaven, her memory seemed rekindled, she raised her head, a little animation returned to her features and she glonged with hyperet features and she glonged with hyperet features, and she glanced with interest around her as if she had found a place. One recalled the remark given in a letter of Robertson of Brighton that heaven was made for those who have failed in

this world. was interesting to note that the anthem sung during the collection included a solo, and that, unlike the practive still prevalent in some Scottish churches, the congregation did not rush out immediateafter the last syllable of the benedicion had sounded, but waited decorously or some moments. The air was exquisitely clear and fresh, and the trees were full of charm while Lord Mount-Stephen stood at the church door chatting to friends. Evidently he enjoyed the scene. He did not pose, but stood with the most natural gait—the peer who, 60 years ago, had stood here a sillerless boy. The minister came round from the years with minister came round from the vestry with group of stalwart men-pillars, sturdy pillars of the church, and each was in urn presented to Lord and Lady Mountephen, who chatted with them pleasant-Pity there was not a camera! The er, the minister in his gown, the elders the door; the carriage and the crowd the gate; the churchyard, where some peer's kindred may dwell-the would have formed a picture worth pre-

THAT CUTTING ACID that arises gles, is caused by fermentation of the food in the stomach. It is a foretaste of indigestion and dyspepsia. Take one of Dr. Von Stan's Pineapple Tablets immediately after eating, and it will prevent this distress and aid digestion. 60 in a box, 35 cents. Sold by C. McCallum & Co.-16

tion, and silks possibly, and in fact of timber. all kinds of wearing apparel have been in good demand, with shipments on an enormous scale. Raw cotton has de-

ber 182, as against 169 last week, 167 in this week a year ago, 149 in 1899, 173 in 1898 and 169 in 1897. Refined sugar has been very active, but prices have receded. Raw sugar still downward. Coffee is steady. Lumber has held steady and firm, with primary markets still quite active. Boots and shoes are in good demand in distributive markets, though rather quieter at eastern manufacturing centers. Profits in shoe manufacturing are limited by the strength of leather. Sole leather and rough splits for heavy shoes are

DUN'S REVIEW.

An assassin's bullet checked the progress of a nation. For a time projected undertakings were abondoned, and orders held back that were about to placed. Speculators sacrificed stocks and options on grain and cotton. Detter news early in the week brought recovery in prices and postponed business was transacted, but anxiety was again in evidence on Friday. Even if the cowardly attack proves successful, it probable that there will be a gradual return to former conditions, because the solid foundation of the country's prosperity is too deep to be permanentdisturbed.

Shoe shops still operate full force while the large producers of New England have the most noticeable activity, manufacturers all over the country share the heavy demand. Leather is sharing the benefits, higher prices being general, with the largest advances in glazed kind, of which the supply is inadequate.

Drygoods enjoy exceptional activity the demand for current needs exceeding expectations, and distribution by jobbers is of enormous proportions, at many points packers working both day and night. Slightly easier terms from the stomach and almost stran- prevail in most of the great staple commodities. An enormous gain in

Lands and goods go to the strong,

A Cold Water Story.

Somewhere lives a small farmer of such social habits that his coming home intoxicated was once no unusual does, but something quite different, thing. His wife urged him in vain to however valuable.

"Why, you see," he would say, "I Hon't like to break it off at once; it ain't wholesome. The best way is al-

ways to get used to a thing by degrees, you know."
"Very well, old man," his helpmeet would rejoin, "see, now, if you don't fall into a hole one of these days, while

you can't take care of yourself, and nobody near to take you out." Sure enough, as if to verify the prophecy, a couple of days after, returning from a wretched frolic, the old fellow reeled into his own well, and, after a deal of useless scrambling shouted for the "light of his

yes" to come and help him out.
"Didn't I tell you so," said the good soul, showing her cap-frill over the edge of the parapet; "you've got into a hole at last, and it's only lucky I'm in hearing, or you might have drown this there can be no conversation; ed. Well," she continued, after a pause, there can only be discourse, which in letting down the bucket, "take hold." And up he came, higher at every turn of the windlass, until the old lady's grasp slipping from the handle, down he went to the bottom again. This occurring more than once made the temporary occupant of the well

"Look here," he screamed in fury, at the last splash, "you're doing that

on purpose; I know you are!"
"Well, now, I am," responded his old woman, tranquilly, while winding him up once more; "didn't you tell me it's best to get used to a thing by degrees? I'm afraid if I was to bring you right up on a sudden, you wouldn't

The old fellow could not help chuckling at her application of his principle, and protested that he would sign the pledge on the instant, if she would lift him fairly out. This she did and packed him off to sign, wet as

How To Be Happy

son saw this clearly with regard to teachings of his mother as at another. son saw this clearly with regard to No young man need seek the "darker married people, when he said "wretch-side of life." The Lord knows that ed would be the pair above all names it forces itself upon our attention soon of wretchedness, who should be doom- enough. It does not wait to be sought. ed to adjust by reason every morning, all the minute details of a domestic day." But the application should be it, and without any seeking on his much more general than he made it: There is no time for such reasonings, and nothing that is worth them. If you would be loved as a companion, unnecessary criticism upon those with whom you live. The number of people who have taken out judges' patents for themselves is very large in any society. Now, it would be hard for a man to live with another who was always criticising his actions, even if it were kindly and just criticism. It would be like livlike their prototypes, are very apt to have the persons they judge brought before them in the guise of culprits. One of the most provoking forms of fect.-Sir Arthur Helps.

The Art of Conversation.

The fine art of conversation is little cultivated. Yet how much of positive value it lends to life! Of all the means by which one can give pleasure to another this is the best; yet, although it would seem to be within the reach of everyone, there are few of us, indeed, who have ever taken part in a really good conversation.

It is an art worth cultivating; but how? There is no text-book of conversation, no method of talking prescribed in the schools. It is one of the things that must be learned by

rule that, to converse well, three things are necessary: the first is sympathy, while on the other hand, the mediocre and the second is sympathy, and the third is sympathy. To go outside of the hill of life, gaining steadfast foot-one's self, to meet those with whom ing at every step, and, often, attainone talks, not half-way, but clear upfrom their best thought-that is the their own. The best seminary of secret of good conversation.

talking makes the ready conversationalist. Not monologue, nor talk in which the center of interest is in the talker. There must be the clash of counter-interest, the friction of mind and mind, the shuttlecock play of

words thrown quickly to and fro. Anthony Trollope lays down as a rule for novelists that conversation around a candle until it scorches itself should be broken into short sentences; to death .- Henrik Ibsen.

*********************** that no one utterance should be allowed more than a certain number of lines. The rule holds good beyond the limits of the novel; short sentences, unencumbered by parenthesis or explanatory clauses, are absolutely es-

sential to conversation.

It is not politeness, but the nature of things which forbids the speaker to monopolize conversation. Conversation ceases the moment talk becomes a monologue. A great man now and then, like Coleridge, might be permitted to do all the talking; but that is not conversation which he

We have heard of a talker who at dinner table kept on with his egotistical conversation till, at last, during a pause in it, he observed a quiet gen-tleman and asked who he was. He was then to his confusion informed that he was Sir John Ross, just returned from his long imprisonment in the Arctic seas and whom the company were eager to listen to when he should cease his inopportune and conceited babble.

A Frenchman remarked to a gentleman in company, in whom he could not discover, any other quality susceptible of a compliment, that he had "a great talent for silence." This, under an equivocal appearance, is a compliment, for to possess the self-control required for the holding of tongue is no unimportant gift. It is well to be able to talk; but it is also well to be able to listen. Without company must ever be a bore.

A Young Man's "Wild Oats" Over the hill the farm boy goes,

So far as a young man "sowing his wild oats" is concerned," writes Edward W. Bok, it has always seemed a pity to me that the man who framed that sentence didn't die before he constructed it. From the way some people talk one would imagine that every man had instilled into him at his birth a certain amount of devilry, which he must get rid of before he can become a man of honor. Now, what is called "sowing wild oats" is nothing more nor less than self-degradation to any young It doesn't make a man one particle more a man because he has passed through a siege of riotous liv- Into the yard the farmer goes, ing and indiscretion when he was 19 With grateful heart, at the close of day; or 20; it makes him just so much less of a man. It dwarfs his views of life Harness and chain are hung away. far more than it broadens them. And In the wagon shed stand yoke and plow; he realizes this afterward. And he The straw's in the stack, the hay in the doesn't know one iota more of "life" With Other People. except a certain phase of it, which, if it has glitter for him in youth, becomes If people wish to live well together, they must not hold too much to logic, and suppose that everything is to be settled by sufficient reasons. Dr. Johnstelled by sufficient part either. And even if he does fail

Genius Will Perish

he is the gainer.

It seems to be sup- And the white stream into the bright pail posed that, if a young man be sent ing between the glasses of a micro-scope. But these self-elected judges, first to a grammar school, and then When to her task the milkmaid goes, to a college, he must, as a matter of Soothingly calling course, become a scholar. The pupil himself is apt to imagine that he is The cheerful milkmaid takes her stool, the criticism above alluded to, is that to be the mere passive recipient of And sits and milks in the twilight cool, which may be called criticism over the shoulder. "Had I been consulted," atmosphere which surrounds him. But "Had you listened to me," "But you this dream of indolence must be disalways will," and such short scraps of sipated, and the student must be scentences may remind many of us awakened to the important truth that, The apples are pared and the paper read, of dissertations which we have suf- if he aspire to excellence he must befered and inflicted, and of which we come an active and interested co-ope-cannot call to mind any soothing ef- rator with his teachers and professors, and work out his own distinc- Makes shrill the silence, all night long tion with an ardor that cannot be quenched and a perseverance that considers nothing done while any-thing yet remains to be done. Every man makes his own fortune, both in

morals and in intellect. How else does it happen that young men, who have had precisely the same opportunities, are continually presenting different results and rushing to destinies? Difference talent will not explain it, for that differnce is very often in favor of the disappointed candidate. There are graduated from the same collegeeye, often there issue from the bosom of the same family-two young men, of whom one is admitted to be a genius of a high order, while the other is scarcely above the point of oing it.

Yet we set down as a fundamental genius sinking and perishing in povone plods his slow but sure way up ing eminence and distinction. on their own ground; to lift the veil whose control is this? Manifestly, in learning that can open its portals It is talking, as Bacon tells us, which a student can do no more than afford makes the ready man; but not all an opportunity for instruction. It depends wholly on the student whether he will be instructed or not, or to what point he will push his instruction. There is no progress without great labor. It is the fiat of fate from which no power of genius can absolve a man. Genius, unexert-

Blank Cartridges.

By Arthur J. Burdick. This world's a world of toil and strife,
Of turmoil, tug and tussle;
And those who reap the fame and cash
Are they who hump and hustle.

Life without faith is like a roofless house. It lets all the storms in and offers no protection against the ills of living.

THE POETS. 00000000000000

EVENING ON THE FARM.

His shadow lengthens along the land,

In the poplar tree, about the spring, The katydid begins to sing; Into the stone-heap darts the mink, The swallows skim the river's brink, And home to the woodland fly the crows When over the hill the farm boy goes, Cheerily calling

"Co', boss! co', boss! co'! co'!" Farther, farther, over the hill, Faintly calling calling still, "Co', boss! co', boss! co'! co'!"

Harness and chain are hung away,

mow. The cooling dews are falling. The whinnying mare her master knows,

His cattle calling: "Co', boss! co', boss! co'! co'! co'!" While still the cowboy far away, Goes seeking those that have gone astray, "Co', boss! co', boss! co'! co'!"

The cattle come crowding through the

Lowing, pushing, little and great; About the trough, by the farmyard pump, The frolicksome yearlings frisk and jump, While the pleasant dews are falling. The new milch heifer is quick and shy,

"So boss! so boss! so! so! so! Saving "So. so. boss! so! so!"

The stories are told, then all to bed. Without, the cricket's ceaseless song The heavy dews are falling.

The housewife's hand has turned the lock Drowsily ticks the kitchen clock: The household sinks to deep repose, But still in his sleep the farm boy goes Singing, calling,

"Co', boss! co', boss; co'! co'! co'!" And oft the milkmaid in her dreams Drums in the pail with flashing streams, Murmuring "So, boss! so!"

-J. T. Trowbridge.

THE FOUNTAIN OF LIGHT AND HOPE. 'Twas August, and the fierce sun overhead Smote on the squalid streets of Bethnal Green.

And the pale weaver, through his windows seen

In Spitalfields, looking thrice dispirited.

I met a preacher there I knew, and said: "Ill and o'erworked, how fare you in this scene?"

"Bravely," said he, "for I of late have Much cheered with thoughts of Christ,

the living Bread."

O human soul! so long as thou canst so Set up a mark of everlasting light Above the howling senses' ebb and flow To cheer thee, and to right thee if thou

Not with lost toil thou laborest through the night! Thou mak'st the heaven thou hop'st

indeed thy home. -Matthew Arnold.

The Prairie Hen's

Home and Habits.

The distribution of the prairie hen or chicken, as it is more generally known, has been very wide. In truth, it is the only one of our game birds that has been found from the Atlantic to the Pacific and as far south as New Orleans.

In the Texas prairies they are still quite abundant, while in the fine old prairie country of the Attakapas and Opelausas section of Southwestern Louisiana there are still a number remaining; and, oddly enough, they are

They were very abundant in the prairie region of Kentucky a century ago in the country by a strange misnomer called the barrens, now making the counties of Barren, Hart and some the country generally will not the least sign of disease.

It mated, and who can judge so wisely or so well for her chick as the mother than the game laws of Louisiana are very strict and are fearlessly enter the who hatched her out, and who hatched her out, and who hatched her young henhood, and now will end her duties by selecting for her young one a suitable mate.

Conscious of her value to her great neighbor, fully apreciating the necessity of the goodwill of that neighbor, to her own prosperity, she is chagrined bt the rebuff she believes she has met. With anxious interest, she is now watching the war of Europe against the commerce of the United States. not in the hope that Europe will win, but in the expectation that all parties thereto will in time reach the conclusion that commercial war is a useless expenditure of valuable forces which should rather be utilized in the mak-ing of conventions to enable the trade of one country to fit advantageously into that of another. Canadian statesmen look wih confidence to the future to bring about some such result, and anticipate with equal optimism an early awakening of the United States to the promise of her neighbor to become the first instead of the greatest consumer of the products of Americal labor.

NEWSIE" DESCRIBES HOSPITAL DOCTOR There is a newsboy in the Row who went to the hospital the other day. Before he went he told de gang he had sold his last paper, gave his badge to a friend who had none, and handed round tearful good-byes. Now he is telling his experience as he would tell of a ball game, where Boston licked 1 to 0 in 17 innings by a homer over the left field fence after two men were out and there were two strikes on the bat-

It appears that a week ago youngster was bitten on the hand by what he calls a dragon fly. The hand and arm swelled until moved by the pain and threats of his mother he went

to the hospital. "Say, he is great, de doc. He called me mister and was just as perlite an' smilin' as if I had come in a carriage widout any horses. 'Do you play ball?' says he, a-feelin' of my arm like, 'Sure I do,' says I, an' I told him how we's done up de gang on de common last Saturday wid me in de box. 'And do you play football?' says the doc, paintin' my arm wid some stuff out of a bottle. 'You bet,' says I, tellin' him how our 'leven knocked de stuffin' out of anythin' our age last fall. 'And what do you call dat on de wall?' says de doc. I looks an' looks, but I didn't see nuthin'. Den I looks back at de doc. He was wipin' my arm an' it was all over blood. I begun to git scart den, but de doc he laughed an' said he guessed I was all right an' might go. I hadn't felt nothin' nor seen no knife; he had kept me so busy talkin' and lookin' at de wall. He's great-

here can be much said; but before

volved. It is in his later work that

In attempting to deal critically with 1 1864-1892. His best works, those the work of Browning, it may be wise abounding most in human interest, were produced during the first period. to briefly outline the vital points of Some of these are Saul, Bishop difference between the methods of lit-erary criticism in the eighteenth and cleon, Fra Lippo Lippi, and Andrea del Sarto. His later work is not so nineteenth centuries. Dr. Johnson may fairly be taken as the greatest critic of the eighteenth century, and Matthew Arnold as the founder of the modern school of English criticism. Speaking generally, the eighteenth century critics were concerned most about the form, while the nineteenth century critics are occupied about the spirit of the literature. Merely mechanical qualities were the chief aims of the poets who imitated Pope, and of the poets who imitated Pope, and How much has he written? What to overthrow this superficial art was good came of it? Browning was born the avowed object of Wordsworth, who in 1812, and his first work was pubwent to the opposite extreme and proclaimed his intention of avoiding what was usually called poetical dic-

It is in their choice of subjects that the eightenth century poets differ mostly frem those of the ninetenth century. Again we may cite Pope, who was undoubtedly the greatest who was undoubtedly the greatest nold holds to be a vital point in crit-poet of the eighteenth century methicism. He contends that all literature ods. Some of his subjects are "The Rape of the Lock," "Satires," "Sappho With these compare Wordworth's "Michael" and "The Afflictions of Margaret." Here we notice the great difference between the two schools of poetry. The eighteenth century poets deal with classical whimsical, and curious themes, while the nineteenth century poets are concerned mostly with real life with possible men and women, moving and acting in a world replete with fire and life. Another point in which the nineteenth century poets differ from those of the preceding century is their treatment of nature. It was Wordsworth who showed that nature could yield a pleasure unsurpassed by the life in crowded cities and the whirl of

Prose is always later in its development than poetry, and so we see Carlyle in prose, following Wordsworth, in his struggle to escape from the thraldom of old standards and wornout forms. This revival of the early part of the nineteenth century was not confined to literature-it embraced music and art as well. Wagner instituted the new school of music and Turner's work shone in all its glory. England. In Germany, Goethe, Schiller and Heine were of the new birth. and in France, Victor Hugo. But since these writers there have been few great names. England, however, has had a second growth represented by Tennyson and Browning in poetry.

and Carlyle and Ruskin in prose. Of these Browning makes the greatest effort to represent life from a new point of view. Browning represents the last great effort of the nineteenth century in the way of expansion of ideas to include more of the field of human knowledge than was before attempted. As an illustration of his wide range we may cite some of his poems and also of what each treats. Andrea del Sarto deals with painting at the time of Michael Angelo; Abt. Vogler, the capabilities of music; Greek philosophy; Caliban upon Setebos' theology. And by this is meant that he touched upon these subjects with the hand of a master. John Ruskin said of one of Browning's art poems-"The Bishop Orders His Tomb"-that in thirty lines it contained as much on the art of the renaissance as thirty pages of one of his own books on art.

Browning's works may be divided into two groups, those produced between 1833-1864 and those between

essentially dramatic. Not in the way of Shakespeare, but in a manner, the product of Browning's genius. Shakespeare's dramatic art unfolds itself in three ways-by speech and dialogue, by action, by soliloguy or monologue. Browning can make no effective use of the first or second of these, but is a master in the use or the dramatic monologue. This is merely in keeping with the psychological and introspective tendencies of the age in which we live. We are continually analyzing our feelings and trying to solve the springs of action. Browning has none of Tennyson's lyrical grace. In the form of his poetry he is distinctly inferior to Tennyson. His metre is rugged and his grammar is faulty, and his style is involved. But in his range of subjects he is wider than Tennyson and more cosmopolitan. Yet, with all his defects, his peetry will repay careful study. There is real education in the study of poetry, notwithstanding the fact that there are people who hold that it is more educative to know the principles of the common pump than "Keat's Ode to a Grecian Urn." It is good. During this period he produced "The Ring and the Book," a huge novel not necessary nor desirable to spend all our time in the study of one poet, but in giving due attention to each. Neither should one study a poet be-cause of his obscurity; such study into nedantry.

misses its true aim and degenerates A word as to Browning's obscurity: It has already been stated that this is chiefly noticeable in his later work, when his skill in dialectics outweigh ed his imagination. Another peculiarity is that many of his short poems are the most obscure. Sairy Gamp is said to have liked her beer mild, so the average Englishman likes his poems short, and thus the casual reader chances upon Browning's difficult or obscure poems. Before condemning Browning let us read him. How many can solemnly affirm that they have read "All's Well That Ends Well?" Let us not, like his majesty George III., condemn before reading. Yet in Browning as in Wordsworth, there are many poems that are not high poetry or likely to be extensively read. It may be that the great poets, like mountain peaks, have higher glimpses human life; that is, its influence on of things than we who dwell on the human action and thought. To this he level plain of life, and what appears unintelligible to us is clear to them. C. B. EDWARDS.

REAL RELIGION FROM THE HEART.

George H. Hepworth Discourses on the "Open Window."

The Windows of the Soul-Intellect Magnificent-The Heart Godlike-Real Religion—Its Origin.

And ne said. Open the window eastward .- II Kings, xiii., 17.

After a beautiful summer day I was once sitting in the gloaming by the side of a friend whose earthly life had also ing's work is helpful. Throughout his reached its twilight, and for a while not poems, there runs a thread of cheer-

There are times when speech seems to be a very poor vehicle of thought. The landscape, with its purple hillocks on the horizon line, had a language of its own.

horizon line, had a language of its own.

The shrill chirp of the cricket, the clear note of joyous birds seeking their nests for the night, the rippling of a nearby stream hoping to soon lose itself in the river, the swaying of a field of wheat in the evening breeze, the soft music of the pines, like a harp touched by unseen hands, were so impressive that silence was a part of our worship.

At length he said: "The soul has its windows as well as our houses. If we would lift the curtains on the heavenward side we should know better how to live and have a less dread of death. We see too much of the present and too little of the future. To lean on the window sill and look out into the busy throng is a pleasure, for God has offered us many opportunities for work, but to lift the window on the other side and give the winds that blow from the far East free course through the house is a great comcourse through the house is a great com-fort, a refreshment a consolation. There are angels round about us, but we do not see that they are there. We need their

new movement. Still great poets are rare and we must take our poetry as we do eur meals—as they are served. His work is a continual "psalm of life," and its value is in the real power with which he combines the real and the ideal. He has no prejudices. The character of Browning's style is the old man had said, and when I reached my study I felt that the greatest of all privileges is to keep the windows of the soul open on the heavenward side. We are keenly alive to every word that this life utters, and if with the ears of the spirit we could also hear what the good God and His loving Christ are saying we should walk with lighter step and bear our burdens with more buoyant energy. It is the lack of a personal relation to the All Father that puts us out of harmony with our destiny and makes our duty hard to perform and our faith frigid.

our faith frigid.

No man can become a good musician unless the soul of music is in him. The cold ambition to attain perfection is nothing in comparison with that thirst for melody which insists on finding melody everywhere. It is not the strings of the instrument which make music, but the soul. When the heart is in the fingers, the tones which make the air vibrate bring tears to the eves and suffuse the whole being with emotion.

In like manner real religion has its origin in the heart rather than in the

origin in the heart rather than in the head. Intellect is magnificent, but heart is godlike. It has never occurred to us to declare that Jesus had a great mind, for we always think of Him as the lover of mankind. His thoughts were as wide as the firmament, indeed, and no secrets were hidden from Him, but somehow when we bend the knee to His divine excellence these thoughts all brush themselves aside, and we see only the glory of that earth embracing love which pours over the ages from the sacrifice

glory of that earth embracing love which pours over the ages from the sacrifice of Calvary. Philosophy profound as creation was His, but above it surges the infinite sympathy and charity of His life, as the waves of the ocean dash over the jutting rocks on the coast.

It is not so much what a man thinks as what he feels that makes him great; not his intellectual conception of God, but his consciousness of God's presence. The poor woman's faith, abiding amid storm and wind, is more available than the scholar's treatise.

There is a godward side of life which seems to be clouded and dim. Great truths are there, the greatest of all truths, but we see them through a glass, darkly. The Christ saw them with clear vision, and therefore He is our spiritual ideal, and the wear and tear of the centuries have not frayed His glorious garments.

A blessed world lies all about us:

ments.

A blessed world lies all about us; a more blessed world looms up on the horizon line. In the light of the latter we walk and are happy. Heaven is close at hand, and through the open windows of the soul we can catch glimpses of it. the soul we can catch glimpses of it.

Its dear ones are our dear ones, and their
unseen hands are downstretched to lift
us over the rough places. Give us an
eye to see and nothing will be too much
to endure, for he who is going home can
bear the dangers of the journey with a
light heart.

Religion teaches us that this is true,
and therefore let us have religion sooner

and therefore let us have religion sooner than wealth or fame or aught else that earth affords. GEORGE H. HEPWORTH.

The transactions of the New York clearing house for the fiscal year of 1900 were more than fifty billions. In 1894 they were twenty-four billions.

OLD WAR TIMES

Reminiscences for The Advertiser by Rev. W. W. Smith.

It is astonishing to look back, and | not know him), was sowing buckwheat think of the excitement in the country at the time of William Lyon Mackenzie's futile "Rebellion," in December. 1837. One morning I was not early enough out of bed to see a "company" of militia-about 20 or 24 strong-march past our farm on second concession of Dumfries; it was all one township then. They were going to the village of Scotland, where, it was said, some rebels had made a stand. Our next neighbor was one of the company. Col. George Stanton, afterwards postmaster at Paris, Ont., was in command. They marched to Brantford, and, I suppose, sent out scouts, and got information; and waited till next morning before marching to Scotland. They went westward early, passing over the covered bridge (toll bridge) that then spanned the Grand River. The bridge was strictly guarded. Our next neighbor was very tired with his nine-mile march the day before, and overslept himself; and was not in the march! When afterwards he hurried to the bridge, with his gun over his shoulder, the guard would not let him pass! "He might be a rebel! If he was a volunteer, what was he doing there at that hour?" So he came home again, quite as well pleased, as we thought, to escape the dangers of the "field."

About 1840, the "Queen's Bush," comprising Garafrana and several other surrounding townships, was just being settled; and when "haying and harvest" came, the hardy settlers would come down into Dumfries to get work: to achieve Canadian independence! and sand, washed up by the sea. Some of the neighbors threatened "to the Western Fair.

of 1812. He had heard the news a few beacon hill took it for an English warmiles further east, and came tearing beacon, and fired his. All followed; and "The Americans has declared war!" name-as it was before my day. I did be killed wi' the French!"

-war was declared the latter part of June-and he lifted up his hands in astonishment: "What do they mean?" he exclaimed in dead and flery earnest, 'what do they mean, declarin' war at this time, when everybody's busy sowin' their buckwheat!"

Old Grandfather Vanevery used to tell us of the American revolutionary war. He had been one of Butler's Rangers, and was "down on" the Americans, and President Madison in particular. He was never weary of telling the exploits of "Cap-tain Mac-don-ald," as he would

shake the words out, in his palsied speech. As a sample of the useless rubbish with which the old man's memory seemed filled, he would often tell us the tale of one of his companions in arms, whom he one day heard scolding his mother, just as if the old lady had been present. "I said to him." said the garrulous old man, "your mother must be dead long ago, for you're an old man; and why do you talk about your mother in that way?" "Well," said the man, "she used to tell me when I was a boy to take care and not cut my fingers, but she never told me not to cut my thumb. And there I've gone and cut my thumb!"

Some forty years ago, I came across an old man, living in the woods in the county of Grey, who had been at the defense of Acre, under Sir Sydney Smith, when besieged by Bonaparte in 1800. He said that when there, he and a companion "got leave," and rambled along the seashore southward, to the knowing that their own little fields of foot of Mount Carmel. "Then you crossspring wheat would be ready for cut- ed the Kishon, at the foot of the mounting when they got back. They got 75 tain," I said. "No," he said, "we crosscents a day for haying, with board and ed a little river (the Belus), just after lodging, and a dollar in wheat harvest. We left Acre; but there was no other One old man named Butchart came to river all round the bay, till we got to us for two or three years in succes- Mount Carmel." We could not agree sion. He had come into the Queen's about it; but I found afterward that Bush just about the time of Macken- the old veteran was right enough. PROF. TRIGGS ON LONGFELLOW

Chicaga Professor Criticises the Greatest Poet of the United States.

He Calls Longfellow's Poetry "Drivel" and "Stuff"-Walt Whitman His Ideal of a Poet.

When Prof. Oscar Lovell Triggs, formerly editor of the Graphic and now one of Dr. Harper's celebrated collection, went from his simple home to his struggles and triumphs in Chicago, his quick-coming greatness was not foreseen by his little mates at the Uni-versity of Minnesota. He had smashed no idols. He had shown no itching to tear down the Hall of Fame. Nothing in his life or conversation indicated the future smasher. He is said to have read the hymn book and the school speaker meakly. To his elders he may have seemed only a chicken or a goose. They little knew that grand raptorial beak that was to be!

In an hour that literature cannot think of without a quickening of the heart, Mr. Triggs went to Chicago. He heard of Wait Whitman. That was a bad day for other poets:

"Fly, spawn of jingles and of jigs, Before the mouth of Oscar Triggs.

"I will scatter the feudal poets. will be full of hustle and elan; thump and throttle all the poets except my Walt, the yawper, the universal, cried Triggs the Terrible; and well is he keeping his word. He eats a poet every day. He began with Shakespeare. He swallowed the hymn writers at a gulp. Dr. Holmes was hardly a bite. Longfellow's poetry is "drivel" and "stuff." It does very well for boys and girls, but the "adult mind," the full-grown, full-orbed majestic mind

of a Triggs, "must seek new and higher fields of thought." Meat for strong men and milk for babes. It was Taine, wasn't it, who decided that Tennyson couldn't be a great poet because Tennyson was respect-able? Prof. Triggs is positive that on account of the "environment of Purit-anism Longfellow could not be a great poet." So Longfellow is pitched out of the poet's corner and sent after that wretched Puritan, Milton. "Ethics cannot produce poetry," Prof. Triggs tells his classes, "because ethics is barren; it bears no fruit; it is a system which destroys itself." So the Sermon on the Mount, Job, Isaiah, Ecclesiastes cannot be poetry. Finally, Longfellow was too cultured, too refined to be truly American." It is not for us to question the assertion of a gifted being like Prof. Triggs, but it seems a little sad, if true, that a man must be uncultivated and unrefined to be truly American. Is there not a danger, too, that the children for whom Prof. Triggs says that Lonfellow's "writings are excellent" may grow up, "too cul-tivated, refined and un-American?" May not Longfellow's "mere jingle, un-worthy the consideration of any man,"

let alone a professor in the university of Chicago, become a positive evil? It is clear from the insistence with which Prof. Triggs dwells upon Longfellow's baldest and tritest poems that he is unfamiliar with the wide and various range of subjects treated by Longfellow and ignorant or scornful of the essential charm which many low-spirited creatures continue to find in the Portland poet. It is best for a critic who is looking for doggerel to be able to skip judiciously and above all not to be tempted into being just. Longfellow isn't the greatest poet in the world; Wilt Whitman is the man for me: therefore Longfellow wrote doggerel and drivel. Hearing a man denounce Bryant's poetry as the worst balderdash in the world, we ventured to ask him-we were younger then-if he had read Bryant's so-and-so and so-and-so. "Never read a line of him in my life," yelled that sublime and delightful dogmatist: "wouldn't degrade my mind by reading him." That is the proper attitude of the militant and un-yielding critic.

It is curious that Mr. W. E. Henley who is all for vigor and action, puts Longfellow very high among the sea poets. If we remember right, he puts him next to Byron in that regard. Mr. F. T. Bullen, a practical sea dog and sea rover, is also a great admirer of the marine Longfellow, and we have heard that many other sailors are. We should not think of defending the man after Prof. Triggs has attacked him; but children like Longfellow, and it is permissible for sailors to do so.

We suppose that it is the translation of the "Divine Comedy" that is so attractive to the children. Prof. Triggs was advertised to demelish Whittier last Saturday. When all the American or un-American poets have been executed, will not Prof. Triggs make short work of Dante? He was "a cultured cuss," a natural enemy, therefore, Prof. Triggs.

Object to Term "Fanatics."

United States, something about the temperance question having grown so big that it has gone out of the hands editorial writer in the current issue of the Canadian Royal Templar and then

he proceeds to say:
"Do they mean to speak disparagingly of the fanatics who have nursthe temperance business from its infancy until it has now grown to such proportions that it engages the best consideration of the greatest men of the age?

"Surely the advanced state of the temperance question must entitle the fanatics to great credit. They hold of the alcohol question when scientists were proclaming it as the most efficacious medicine in the world, and when statesmen were sending fleets of ships to force it upon heathen countries who were not supposed to know what a godsend liquor would be to them. They taught the church all the temperance it knows.

"The fanatics have worked and prayed and educated and spent their money for nearly a century educating the churches and scientists and statesmen to a knowledge of the evils of alcohol, and now we learn that the question has grown too big for its

THE BIOLOGIST AND MEDICINE!

of the fanatics.'

Modern Medical Science Is More Indebted t

the Scientific Than to the Practical Man. [Dr. G. B. Ferguson.]

Pondering over medicine as it strikes me about it is how much more the chemical rays of the electric arc, owes to the biologists and to the devised by Finser, of Copenhagen. men of pure science than to the so-The practical called practical men. man is indispensable,

The cell theory, for example, lies at the foundation of modern medicine, and this theory certainly originated with the biologists. The term "cell" was first used in reference to plants by Hooke, who with his contemporaries foreshadowed the cell theory of modern time. Next came Hugo von Mohl, who recognized that we call protoplasm in the cells of plants, the identity of which with a similar substance in the cells of animals was soon afterwards proved by Conn and Remak. To Max Schultze we owe not only the extension of the term protoplasm to the contents of animal cells also, but the best description of an animal cell. This work on the cell theory gave inspiration to Pasteur, and Pasteur leads up to Lister, of whom I will forbear to speak, for he

needs no speech. The cell theory, further, leads up to bacteriology, the most imposing and the most impressive department medical biology. Now bacteriology, which originated with botanists, rests on cultivation and staining; and year by year more and more of the germs of disease are recognized it is because improved methods are constantly being perfected for coloring and making visible these formerly in-

visible entities. The modern practice of staining, so essential to the physician and surgeon of the day, began with the botanists who used carmine in 1849, and here again the pure scientists showed the way to the practical investigators o medicine, who first applied the metho to anatomy. Weigert, another scien tist, later found the acid that is spe cially useful in the nervous system while another botanist demonstrated the figures which are of such impor-tance in embryological work. Nor need I pursue the matter much fur-ther than to state that Koch, who had previously devised the method for the cultivation of bacteria, discovered the bacillus tuberculosis, the consequences and far-reaching results of which discovery are well known to all. As an admirable instance of the kind of debt that modern medicine owes to

bacteriology, of its power and prom-

ise, as also of the extreme difficulty and complexity of the subject, I cannot do better than to refer to typhoid

point is to strengthen my contention that the true basis of modern medicine is essentially scientific.

In surgery the discovery of Roentgen rays has been of priceless benefit. Most certainly Roentgen was thinking of nothing less than of surgery when, in the modest Physical Institue of Wurtzburg, he undertook his epochmaking research.

We owe the great discoveries of the anti-toxins, among the most valued resources of remedial art, to strictly scientific investigators.

In thinking of the standpoint of today I next recall the splendid workpurely scientific again-of the French and Italian investigators of malaria, who first proved that the feverish attacks coincided with the sporulatum of the malarial amobae. The study of tropical diseases has, in fact, now be-

come a refined department of biological investigation. Then consider the benefits conferred by electricity. It may be that great results will follow some day from the electrolytic introduction of drugs. There is no doubt in my mind as to the benefits conferred by such treatment in certain diseases. Then there is the stands today, the main fact that marvelously successful treatment by scientifice chemists? To cite a

scientifice chemists? To cite a few benefits only: Iodine given us by a chemist in 1811, bromine given by another in 1826, iodoform given in 1822, chloroform discovered by another in 1831, chloral discovered by another in 1832, cocaine produced by another in Not one of these was a prac-1860. titioner of medicine.

The animal extracts stand on a different basis, the basis of secretion; destined for internal and bodily us as first devised by Claude Berna and so indispensable that withou them disease or discomfort at once arises. They have doubtless a great future in practical medicine, and ere long many more will be in use. This should be enough to prove that

the progress of pure science medical progress also, and that it is to the men of pure science that we must still look to hold aloft for us the torch of progress.

EASE AND DISEASE

A Short Lesson on the Meaning of a Familiar Word.

Disease is the opposite of ease. Webster defines disease as "lack of ease, uneasiness, trouble, vexation, disquiet." It is a condition due to some derangement of the physical organism. A vast majority of the "disease" from which people suffer is due to impure blood. Disease of this kind is cured by Hood's Sarsaparilla, which purifies, enriches and vitalizes the blood. Hood's Sarsaparilla cures scrofula, salt rheum, pimples and all eruptions. It tones the stomach and creates a good appetite, and it gives vigor and vitality to the whole body. reverses the condition of things, giving health, comfort and "ease" in place

"disease." NIRVANA. [Academy.]

We talk and work, we come and go, And then, the close of all we do Is gentle sleep.

Then all our weary liv In endless sieep.

We gather up some little store, Yet when 'tis ours we want no more Than dreamless sleep, We praise and blame, we smile and frown,

City Missionary Sinclair

If you have Kidney Disease you should know that Powley's Liquified Ozone will cure that ailment. We have evidence to offer you to show that it does. Our evidence is personal testimony; you can prove or disprove.

We are satisfied for you to investigate facts. We offer the case of P. Sinclair, City Missionary, 363 St. Dominique Street, Iontreal, for investigation. This is his statement:

Dear Sirs,-

Having been affected with kidney trouble for about a year and seeing your advertisement or Ozone, I was induced to try it. After taking two bottles, can bear cheerful testimony to the good it has accomplished. I have recommended to several, and intend doing so to many of the sick poor with whom I come in contact, as I believe it to be Nature's own remedy.

Yours faithfully.

(Signed) P. SINCLAIR, City Missionary, 363 St. Dominique St. Montreal, P.O. Nature can do more to cure disease than any human igency. In Powley's Liquified Ozone we make use of nature's greatest purifying and health-giving element—oxygen. It's use is beneficial for those diseases suffered in summer weather

as in the case herein mentioned. You should get a bottle. Consult our physician about your case, Write full details and you will get a' specialist's advice free. Your letters are absolutely confidential. Address the Consulting Department, The Liquid Ozone Co., 229 Kinzie St., Chicago, U.S.A.

He awakened and looked around burst upon him. He looked at her. Dead? O no! no! not dead—only asleep. She looked so calm, so beautiful, as she lay there with her pale, intil the deluge bid fair to drown his marble-like face upturned to the eyes of the man who loved her. She had been magnificent-a pure and stately ence. She had learned to know him woman-yet never had he seen her look so; wear such a calm air of dignity as death left on her. Nay, no

mortal ever wore that look and lived. It was as if the angels had appeared and given her a peep into paradise before her soul had yet left this earth. Perhaps she had even seen-but God alone knows what she had seen. Outside the gale was still howling and the blizzard showed no signs of

abating. The man leaned forward on the and, burying his face in his hands, groaned aloud. Was it a pun-What had he done that he was left? Why was he not taken, too? Surely it was a mistake. Yes, yes, a mistake. He, too, ought to have gone. Why, there was nothing to live for now; nothing, nothing, nothing, only existence, only misery. Then his thoughts turned to trivial things, back to his boyhood in far away Devon, to his manhood, to his coming to Canada, and then finally, as thoughts always will do, narrowed down to the pre-

He rested his elbow on the table, and his head dropped in the hollow of his hand. His face was haggard and drawn, and his glance never wavered from her clear-cut features. A look, first of pleading, then of determination crept over his face. One hand strayed, first nervously, then steadily, toward the drawer in the table. His fingers closed over something hard and shining. One sharp twitch of his fore-finger and they would be together Lovingly he looked down at the gleaming weapon. He could have kissed it in his mad joy at the pros-

pect of joining her.

But when he looked back at the bed he started forward, and the pistol nearly slipped from his grasp. Had her face changed? Was that a prayer trembling on her mute lips? If the eyes were opened he imagined he might read in them such pleading as never came from mortal lips.

He rose unsteadily. Yes he was a coward, and she knew it. The other way would have been death — death hand in hand with her; but this was no, no, not that hated word! passion of remorse he flung himself beside the bed, and clasping her pulseless hand, covered it with kisses.

Ah, he was strong again! The wraps? Yes, one by one he drew them from the bed, and rolled them tongue.

These are some the danger signals about his chilled figure. There was about his chilled figure. There was at night with a big cob right where I storm to come. And he must fight— must lie down. SUGAR AS FOOD

Can Be Converted Into Fat and Be Productive of Heat and Energy.

[Boston Herald.]

less sense than I.

The Cobden Club of England has taken decided exception to some of the changes in the customs schedules of the United Kingdom, and has put in circulation a leaflet, in which it makes the argument that, as the duty upon sugar is a tax upon one of the prime necessaries of life, it is an entirely unjustifiable means of raising government revenue, provided other means can be found. The leaflet in question contains a reprint of an article in the British Medical Journal entitled "Sugar as a Food." This scientific authority points out that it has been clearly demonstrated that under certain circumstances sugar can be converted invery small space, and can be kept for practically an unlimited time.

By careful experiments, made by Mosso, it was found that much less sugar diet, and that when muscles are muscular deterioration occurs under a fatigued and incapable of further work a sugar diet quickly brings them into surgeons as to the effect of sugar upon men both of weak and strong muscular physique. In the early days of these investigations it was found that in a half or three-quarters of an hour an ounce of sugar would restore the power of work to muscles so tired that they had previously given hardly any

appreciable results. In the army maneuvers of 1898, which took place at Metz, twenty men were selected from each company, four ounces of sugar was issued to ten out of each twenty thus chosen, with "Congress should be petitioned to results in favor of the sugar eaters. While they increased in weight, their able to support the hard work with much less distress. None of the sugar eaters were overcome with exhaustion, and their pulse rate and

The use of a lump or two of sugar is described as acting like a charm, quantity of sugar. It has been found that those so fed bear the training jurious, and that in the voyage of the Fram he had the place of spirits sweets, which appeared to be far more conducive to the health of the ship's company.

Since that time I have been what
the Americans would call a "fiend"

after the motor machines. Every morning at 6 o'clock, unless the weather dinarily used by women, but I find no

trouble in riding it. In taking this ride, of course, I dress in accordance with the weather. If it is cold I wear a thick gown. If it is warm, shirt waists and bloomers suffice. In the winter I need nothing to protect my eyes, because the sun is not hot, but when its rays are too bright I wear great, green, glaring goggles. I know that they are hideous and that they make me look unsightly enough as I go spinning along the road, but what is one to do? The eye specialist tells me that the sun makes the eqe squint, and that it is the squinting of the eye that is responsi-ble for the ugly little wrinkles that every woman wants to avoid. As the result, I wear the glasses, even if they

When I have returned, however, it is breakfast that I want, and I eat heartily, and after this there is no more active exercise until after the hour of luncheon. Then my automobile is brought around, and for another hour I revel in the delightful sensations that come from riding in this new kind of vehicle. In addition to this I get the fresh air. It is not active exercise, that is true, but it is almost as beneficial.

The remainder of the forenoon I devote to my work. If it is necessary to do so I go to the theater; if not, I study, for there is always something new to learn about the English language. Toward evening, however, no matter how busy I may have been all the afternoon, I break away from my engagements, and take another spin on the motor tricycle, and this time I can leave off the ugly goggles, because there is no sun to make the eyes squint. This ride, as you may imagine, no sun to make the eyes makes me ready enough for dinner, and when I go to the theater after-ward I feel as if I could work all night. This is my secret, and it is certainly a pleasant one. Several times in my life I have been advised to adopt certain forms of exercise, and I have usually followed the instructions of my physician, but in no in-stance has the recipe brought such a delightful and immediate return.

LENGTHENED HUMAN LIFE!

Mortality in City and Country-Death From Alcohol Greater in the Country.

[By Prof. A. T. Stewart.]

"It is true that, individually, we are living under a higher social strain, and in a way we are indulging in many appetites that serve to deteriorate the vital forces; but there is in this problem to consider three distinct vitalities-the physical, the mental. the spiritual. While the physical, left to itself, might go down under the present 'pace that kills,' the fact is that never in the history of the hutaken by fruit and various kinds of man race has the development of mind been so general or so vital a force, and never has man been more spiritual or more aspirational and benevolent than he is today. So that while the pace of general life is swifter it has a stronger grip of things through its increased will power and the larger recuperative agencies stored up in its later knowledge of things. Ignorance in all things goes to the shall be as applicable to national as to ecclesiastical politics; to the polling-is the greatest concentration of nutriment, lacking in the spiritual, and the balis the prayer-meeting." "In a way this fact is borne out by the statistics of our own country. The contrast between city and country life shows it. As a rule the same pessi-

mistic opinion of the world condemns the city as a hotbed of vice and laudthe country. Now, statistics, when rightly understood, have a coldblooded way of revealing the truth. In the light of this revelation, city life is seen to be the ideal life in all ways.

"Take nearly all the prominent diseases; it will be found in contrast that the mortality will be greater in the country than in the city. Naturally, wou will ask, why? The answer is easily to be seen-in the higher sanitary conditions of the city, the hos"I woman's advice may be no great thing, but a man is a fool that doesn't take it" is true and she will probably advise you to try Blue Ribbon Cerflon Teal.

pitals, benevolent institutions, trained nurse and the skilled physician, to say nothing of the comfort of residence, the nearness of help at any hour. Then again, it is felt that the city life is more vicious than the country, and yet the number of deaths from vicious diseases is greater in the country than in the city. And the reason is again plain—in the greater means at hand in the city for timely cure, and in greater and more imme diate knowledge of the fact, which sounds the warning before it is too

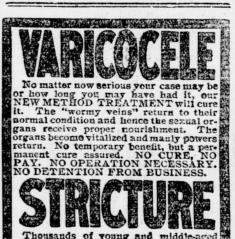

"And death from alcohol is greater in the country than in the city. The drunkard in the country has no pity shown him. He is the subject of town gossip, a drunken bum. In the city he may be overlooked until in some this, however, they are much mista-ken. Few women pay less attention falls into pace with the better progress of things, and is rescued. Now, to my mind, there is just one secret that a woman must learn before she can be beautiful, and that is, she must be healthy. They would be a secret that a woman for the growth of cancer is due to the greater in classification of diseases. she must be healthy. There are excel- which now pertains to the school of lent cosmetics on the market for skins | medicine, and this nicety of classifithat have been ruined by poor health. cation has been of steady growth of

The grain supply was light today prin-

The grain supply was light today, principally oats and wheat, with a sprinkling of corn, peas and beans. Prices varied very little since Thursday, the only interesting change being a narrower range for new wheat, with the top price \$110 as a basis. The sample was better than usual. Nearly all sales were made at \$110.

Oats brought 95c to 97c for new and \$105 to \$110 for old.

Peas sold at \$1; corn at \$105; beans at \$125 per bu, and red clover at \$5.

Dressed hogs were \$9, and live hogs \$7.

Hay was dull, at \$7 to \$8.

A THOUSAND THANKS.

Quebec Man Cannot Be Too Grateful

for Dodd's Kidney Pills. St. Elyear, Que., Sept. 9, (Special) .-A feature about the work of Dodd's Kidney Pills is the great gratitude they arouse in those whom they restore to health. Health and sickness are as different from each other as happiness and unhappiness, misery and joy. Is it any wonder that those who are transported from sickness to happiness and joy by Dodd's Kidney Pills are grateful to that wonderful medicine? And as Dodd's Kidney Pills have cured people all cure and a poole a pool people all over the world, one may judge of the multitude which bless the name of Dodd's Kidney Pills.

Here is what a Quebec man says:
"I thank Dodd's Kidney Pills. They
cured me of Kidney disease which forced me to rise every hour at night. Today I am perfectly well. I sleep without rising. You can believe am glad to have regained my health, Thanks a thousand times to Dodd's Kidney Pills."

There are 1,700 Indians in Arizona owning farms.

Minard's Liniment is used by phisicians The tramways, omnibuses and unlerground railways in and around London, within a radius of five miles, carry each year, it is calculated, about 453,000,000 of passengers. MOTHER GRAVES' Worm Extermina-tor does not require the help of any purgative medicine to complete the cure. Give it a trial and be convinced. Forest City Plunged in Sorrow Over President's Death.

LONDON'S GRIEF

Assassination of President Lincoln Furnishes an Historic Parallel to the Present Tragedy---How London Received the News.

It would be impossible to measure head, John Cousins, A. & A. J. G. he depth of the sorrow manifested McIntosh, Frank Church, and others. the depth of the sorrow manifested throughout Ontario over the sad intelligence flashed over the wires from Buffalo early this morning. So hopeful had been the dispatches of the previous days that the ultimate recovery of President McKinley was looked upon as almost a certainty; and when the bulletins announcing that he was dying were posted in front of the newspaper offices in London, a great crowd gathered in front of them as if by magic. Until a late hour at night the streets in the vicinity of Newspaper Row were filled with anxious people, awaiting further intelligence from the president's death bed. It was a quiet crowd. Men spoke in hushed, subdued voices as if they were standing in the presence of death, and above the heartfelt expressions of sorrow for Mrs. McKinley and the sister nation whom her distinguished husband had served so well, was the general feeling of indignation and horror over the dastardly crime.

The most dramatic scene of the evenng occurred in the London Opera House. During the progress of the evening's bill the bulletin announcing that Mr. McKinley had been given but twenty minutes to live and that his last words before he lost consciousness had been "Nearer My God to Thee," was read from the stage. For an instant intense silence fell upon the audience; then a strange sobbing sound swept over the house. It was like a great sigh of sorrow coming simultaneously from hundreds of throats. It was at this juncture, while deep silence still hung over the crowd, that a voice from the gallery called out: "Good for him! I hope he dies!" The words had scarcely been uttered before the theater was in an uproar. Cries of "Throw the beast out" arose, and men sitting in the auditorium of the house rushed for the doors and the sympathy with the nation harm to the man who had uttered the brutal words. The latter had in the meantime fled from the theater, followed by an angry mob of men and boys. Dodging into a lane he disappeared, leaving behind his hat which had fallen off in his wild flight. Robbed of

AN HISTORIC PARALLEL. The present occasion is not the first upon which the people of Canada have been called upon to mourn with its sister nation to the south over the assassination of their ruler. Many people today are recalling the terrible intelligence which reached London on the night of April 14, 1865. In a country that had long been an asylum for the persecuted slaves of the south, President Abraham persecuted Lincoln was regarded with feelings of deep love and reverence. An Advertiser extra, issued early on the forenoon of April 15, was the first medium through which the citizens of London learned of the awful tragedy of the previous night in Ford's Theater, Washington, when one of the noblest men the soil of America ever produced fell a victim to an assassin's bullet. The sorrow and indignation displayed in London on that occasion was profound and sincere. At a time when public sympathy in Britain and in every British dependency was overwhelmingly with the south, the expression of grief over the horrible crime was spontaneous and general. It was felt that in the passing of this heroic figure Britain and Canada had lost their best friend in the war-swept states. It was felt that the dawn of peace, which had been so prayerfully anticipated, had been delayed by the sickening tragedy, and that a terrible retaliation would be inflicted for the deed, a retaliation that would create a

reign of bloodshed more terrible than the world had ever known. As soon as President Lincoln's death was made known in the city, a special meeting of the board of trade was called by President Charles Hope. There was a full attendance, and the president, in stating the object of the gathering, said it was with feelings of deep regret he, in common with every right-thinking citizen of London, heard the startling and awful news of the death of Abraham Lincoln; it was a loss that would be felt throughout the civilized world, and particularly in Canada. While mourning him as a great and good man, Canada could mourn him as one of the best friends she ever had. On motion of Mr. Walter Simpson, seconded by Dr. Farrar, a resolution of sympathy was sent to the governor-general for transmission to President Johnson.

On the same evening, the city council met and passed a similar resolution which was sent to the authorities at Washington.

LONDON'S SYMPATHY. President Lincoln's funeral, all business was suspended in this city beclamation of Mayor David Glass. The often proclamation was very generally ob-served, and many stores remained un-opened for the rest of the day. The Union Jack floated at half-mast from the city hall, the Great Western Railway depot. North street fire hall, customs house, King street fire hall, Tecumseh House, Strong's Hotel, and the establishments of J. Birrell & Co., Kerr, Macdonald & Co., R. S. Murray, weight M. Anderson, F. Smith & Co., G. More-

At noon the Wesleyan Church on North street (Queen's avenue) was densely crowded by ladies and gentlemen anxious to evince their sympathy for the Americans in their affliction, and to mark their regret for the loss of a true friend of progress and free-dom. Around the gallery on either side and from the chandeliers was suspended mourning drapery. The plat-form erected for the speakers was also draped in mourning, and the organ and stand for the choir was decorated with the Stars and Stripes blended with the Union Jack, in token of perfeet harmony. The impressive music was rendered by a choir selected from the various churches of the city, led by Mr. Ashworth and accompanied on he organ by Mr. Herman Kordes.

Mayor David Glass took the chair, and seated around him on the platform were Rev. John McLean, A.M., Episcopal; Rev. Prof. Halpin, Huron College; Rev. John Scott Presbyterian; Ven. Archdeacon Brough; Revs. J. R. Gundy and J. Clearer, Methodist New Connection; Revs. John Potts, R. Jones and N. English, Wesleyan Methodist; Rev. Andrew Kennedy, Presbyterian; W. G. Moncreiff, Esq., and other prominerat citizens. The meeting opened with an appropriate hymn,

"How feeble is our mortal frame, What dying worms we be."

Mr. Rock read a note from Hon. John Carling, regretting his inability to be present, and adding: "I deeply sympathize with our neighbors on the occasion of the great calamity that has befallen them, and participate in the general feeling of detestation at the act of the assassin.

On motion of Rev. John McLean A.M., seconded by Thomas Scatcherd A.M., seconded by Thomas Scatcherd, M.P.P., the following resolution was passed: "That we, the citizens of London, Canada West, in public meeting assembled, at the hour when the solemn obsequies of Abraham Lincoln are being performed at Washington, are moved by our common feelings of humanity and our regard for the American people to express our profound sorrow at the sudden and mournful death of the late excellent and humane president of the neighboring republic, and we hereby record our heartfelt been visited with such an appalling calamity; with the widow and other relatives of the deceased president, who are plunged into grief by his assassin-ation; and with the Hon. W. H. Seward and his family in the barbarous

cruelty inflicted on his person." MR. W. G. MONCRIEFF'S ADDRESS The principal address was delivered by Mr. W. G. Moncrieff, father of the late Geo. Moncrieff, of Petrolia, who died in this city recently. Some of his remarks are peculiarly applicable

to the present occasion. "Mr. Lincoln," he said, "has filled the highest position possible for an American to arrive at, and filled it with an ability never surpassed. Alas. that he should come to such an untimely end. History will place him as a moderate, humane, just and genial ruler, and we should be proud that the nineteenth century has produced such a worthy man. The assassination was a crime unjustified by the laws of nations, unjustified by the laws of God or man; you may kill Abraham Lincoln, but his virtues are not lost; his name is written for all time amid the world's benefactors as a shining example to coming ages."

This morning the sad intelligence

conveyed over the city by Janitor Merritt, of the city hall, who tolled the bell for an hour. The White Plague Advances. The White Plague Advances.

Consumption is gaining headway. Why? Bad colds are allowed to run on neglected, Catarrh sets in, is not checked, and Consumption is the result. Why not use Catarrhozone regularly? It cures colds in a few hours, and no case of Catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air, which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under

THE ASSASSIN!

Czolgosz Likely to Meet Death in the Electric Chair.

Extra Precautiens Taken to Hold the Menacing Thousands at Bay-All the Police Force and Two Regiments of Soldiers on Duty.

The wretch Czolgosz now stands accused of murder. It was with malice aforethought, and as such was murder in the first degree, the punishment for which under the laws of the state of New York is death in the electric chair. Had the death of the president occur-red at any other time than in the early hours of the morning it would have boded ill to the evil genius of this fearful episode. The angry spirit of the people here reached an intense pitch last night. Foreseeing the danger of a possible riot, the police headquarters where Czolgosz was confined was roped off, and the

MENACING THOUSANDS HELD AT

BAY. The entire police force of the city, regulars and reserve, was held on duty all night. Two regiments of the Na-tional Guards of New York were at their armories ready for instant service. If the president's death had come before midnight it would have been difficult to avoid a conflict. But the crowds gradually broke up as the new day came on, and by 2:15 a.m., when the death announcement came, the down-town thoroughfares were deserted. For the moment the anger of the outraged people is forgotten in their poignant grief, and this will doubtless consign Czolgosz to the safe and in-evitable punishment by law.

EMMA GOLDMAN HEARS THE NEWS

She Expresses Sorrow for Mrs. McKinley-Otherwise Unconcerned—Spirited Away.

Chcago, Sept. 13.-When shown the Associated Press dispatch announcing the inevitable death of the president, Emma Goldman, the anarchist, now being held at the Harrison street station, carefully adjusted her glasses, read the bulletin, and after a moment's pause, without a change of expression, said, "Very sorry." Absolutely no shade of regret or pity showed itself upon her countenance. "I do not see how that can affect my case," she added, "if it is carried on lawfully and legally. They have no evidence against me. Chief Bull and Chief O'Neill have admitted they have none. They are holding me without evidence. The death of McKinley would only lengthen my term of imprisonment if they convicted me. I feel very bad for the sake of Mrs. McKinley; outside of that I have no sympathy."

Chicago, Sept. 14.—Emma Goldman was spirited away from the woman's

annex of the Harrison street police station early this morning in a cab when it was learned that the president was dead. Capt. Mahoney refused to tell where the woman had been taken. Her re-

moval, he said, was merely a precautionary measure, and it was probable she would soon be brought back.

While she was being hurried to safety in a cab, a crowd numbering about 100 men started for the annex, loudly threatening to lynch Miss Goldman. They had waited in front of the bulletin board until all hope was gone and then started to execute vegeance. After proceeding a few blocks, how-ever, cooler heads in the crowd succeeded in checking the excitement, and some time later the crowd dispersed.

No disturbance was reported by the officials at the county jail, where the local anarchists were locked up. It was the belief this morning that the president's death would make it extremely unlikely that the court would admit them to bail. Chief of Police O'Neill is quoted as saying that it would be murder to let them on the street with the citizens in their present temper.

News in a Nutshell.

Mrs. Patrick Fitzpatrick, of Asphodei, committed suicide by taking car-

bolic acid. Major W. Forster, Royal Canadian nominated Mr. John McKay for the legislative assembly. Lord Kitchener has sent the King a characteristic story of the bravery of

the Gordon Highlanders. At Almeda, N. W. T., John Gilchrist, farmer, while driving to a threshing was struck by lightning and killed,

with his team. Major W. Foster, Royal Canadian Dragoons, has been appointed honorary aide-de-camp to his excellency the

governor-general. An order in council has been passed which provides that all the timber cut in berths in the railway belt in British Columbia shall be manufactured within the limits of the Dominion.

The Dominion postoffice department has received a notification that the imperial penny postage has been extended to British possessions in the Pacific Ocean contiguous to New Zealand That colony already enjoys the privilege.

Pain in the Joints

may be muscular or rheumatic. The joints are hard to get at, and it requires a powerful, penetrating remedy to reach the affected parts. Polson's Nerviline exactly meets the requirements, for it is both powerful and penetrating. The pain is expelled as if by magic, for one drop of Nerviline equals in strength five drops of other remedies. You won't often call the doctor if Nerviline is in the house. Price 25 cents.

There is danger of a grain blockade in the Portage la Prairie district owing to the bountiful yield and the scarcity of rolling stock. Many farmers are threshing half the night with the aid of burning straw stacks TRIAL PROVES ITS EXCELLENCE.

The best testimonial one can have of the virtue of Dr. Thomas' Eclectric Oil in the treatment of bodily pains, coughs, colds and affections of the respiratory organs, is a trial of it. If not found the sovereign remedy it is reputed to be, then it may be rejected as useless and all that has been said in its praise denounced as untruthful. W. J. Wagner, station agent on the

Great Northern at Waneta, Washington, has been arrested in Vancouver, charged with embezzlement.

For cuts, wounds, rheumatism, stiff joints, burns, scalds, bites of insects, croup, coughs, colds, Hagyard's Yellow Oil will be found an excellent

COL. CULVER KNEW DEAD PRESIDENT.

William McKinley.

the Hearts of the People of His Country.

At noon today an Advertiser reporter found Col. H. S. Culver, local United States consul, at his home on King street. Asked what he had to say for death of President McKinley, Col. Culver said:

"All I can say is that it is a terrible affair. I could hardly realize its my own family, and I am sure that is how it feels to millions throughout the United States. McKinley came closer to the hearts of the American people than any president since Lincoln. He came from the common people kept in close touch with them and had faith in them, and I dare say he never believed, when mingling with them, that one could be found among them to fire a murderous bullet at his heart. He certainly never avoid-ed mingling with them through any

fear of assassination. "President McKinley, in his occupa-tion of the high office of chief executive of the United States, proved himself a man of wonderful ability and statesmanship. No president since Lincoln has been called on to meet so many momentous questions. He met them satisfactorily, and the people had come to have confidence in him, regardless of party or political faith. It had been said of him that ne had not a personal enemy, and it is probably he had few, if any, for all through his political career, as member of congress, as governor of Ohio, and as president, he had treated his oppon-

ents with courtesy and kindness. "In his home life President McKinley has been an example to the world. He has been a devoted husband and faithful Christian believer, and his life throughout was a thoroughly consistent one. He was a clean man, personally and politically."

Asked as to his personal acquaintance with the dead president, Col. Culver replied: "I first became acquainted with Mr. McKinley when he was governor of Ohio, my native state. I lived only about a hundred miles from where he

"President McKinley was a warm friend of the British nation and of the Canadian people. I am gratified begreatly appreciate Canada's expresmasted flags this morning prove that the American and Canadian peoples are very close in heart. This manifesto the feeling in the United States at Dr. Munson Queen Victoria's death, which was government hospital at the exposition. felt there as though she had been their

own ruler. "As to President McKinley's successor in office, the people have great faith in Theodore Roosevelt. There will be no hitch in the carrying on of gov-ernment, and the words are true now as when said at the time of Lincoln's assassination: "Though the president is killed the government still lives." Roosevelt was a good governor of New York State and should make a good president. There will be no formal inauguration, the incoming president merely taking the oath of office before the chief justice. The members of the cabinet immediately hand in their resignations, and it rests with the new president whether he retains any or all of them for his cabinet."

AT OTTAWA

Flags Fly at Half-Mast-President McKinley's Death Not Likely to Affect the Duke's Programme.

[Special to Advertiser., Ottawa, Ont., Sept. 14.-All ministers of the crown, except Sir Richard Cartwright, will be in Queboc to receive their royal highnesses. It is not thought here that the death of President McKinley will materially change the tour of the duke and duchess, although anything approaching gaiety will be dropped.

A letter of condolence will be sent by the premier, and some of the Canadian ministers will likely attend the funeral. The Union Jack floated at half-mast from the parliament build-

HEPWORTH GAS WELLS

A Tremendous Flow Secured-Importance to Wiarton.

Wiarton, Sept. 14 .- A deputation of 200 citizens visited the Hepworth gas Roosevelt should reach Buffalo about 1 wells Thursday night to see an illum-ination of No. 2 well. The spectacle was a magnificent one and demon-strated the tremendous store of gas this well has tapped. A two-inch pipe was attached to the well and carried out a dozen feet. About fifteen feet from the end of the pipe a stout post was set up with a circular saw for a target. The flow was then fired and turned on full. The gas rushes from the pipe with a terrific force, the noise at a great distance resembling thun-Turned on full no flame is visible till the gas strikes the target, which becomes the center of a tremendous conflagration, spreading out 30 feet in circumference. The heat is terrific, and the saw becomes red hot in a few seconds. This well, as well as No. 1 well has a pressure of 450 pounds to the square inch, and the estimated combined output for 24 hours is about 800,000 cubic feet. Wiarton citizens are contemplating piping the gas to the town, where several large indus-tries would become considerable users. It would also furnish fuel for the beet and we expect an equal sugar factory to be erected in the lively Fall Trade. We are spring, and which otherwise would consume 35 tons of coal per day when in operation. The events of the last few days here have precipitated an incipient boom, several parcels of real estate having advanced from 20 to 35 per cent since the announcement of the closing of the contract for the plant and buildings of the sugar company yesterday.

SWEET FACED WIDOW OF THE WHITE HOUSE.

United States Consul's Tribute to Police Sergt. McGuire Knew the Late President's Wife.

Next to Lincoln He Came Nearest to Describes Her as the Prettiest Woman He Ever Saw-Some of Her Personal Traits.

Sergt. Arthur McGuire, the popular officer of the London police force, has taken even keener interest in the terrible affair at Buffalo than was mani-Advertiser readers about the lamented fested generally throughout the city. He knew the president when he was a young man, hardly known even in Canton, the city that now mourns him as its most illustrious citizen; and he truth when I got news last night of knew also the sweet-faced woman, the president's sinking. It seemed to beautiful Ada Saxton, who captured be a personal loss, coming right into the heart of the youthful veteran of the civil war, and whose great sorrow now is shared by the whole civilized

world. "I went from London to Canton in 1867," Mr. McGuire said this morning to The Advertiser, "and McKinley went there the same month-that was April. "Ada Saxton had just come back from school then. She was the pret-tiest girl I have ever seen. Her father was one of the most popular men in the place and was quite wealthy.

My brother was express agent there at that time, and I went to work as a driver. Soon after that I saw young McKinley on the street. He was a man you'd notice. He was quite slim then, and walked very straight. He wore a black suit all the time, a Prince Albert coat and a wide-brimmed felt hat, a Grant hat. I was so struck by the man's appearance the first time I saw him that I asked my brother who he

'Why, that's Major McKinley,' he told me, and I said that they must have pretty young majors over there. "'Well,' he said, 'it's different here from in the British army. A man can rise from the ranks if it's in him.' Mc-

Kinley was about 23 then. "He had no practice. People just knew him as Major McKinley, of Niles. People just drove his first lot of law books from New York over to his office. Several times I did business with him that way, and with the Saxtons, too."

It was not until some time after that McKinley met the young woman to whom he was afterwards so passionate-

GREAT HAND AT FIGURES. "Yes, my wife is great at mathematics. I sometimes feel that she ought to have gone in for astronomy or something of that kind, where clever handling of figthat kind, where clever handling of fig-ures would bring success.

"You ought to have been here last night. She did some calculating that was simply remarkable. How old do you suppose Mrs. Lammerson is? Forty-three, Yes, sir, my wife has figured it. How did she do it? Well, I don't know that I can explain exactly, but she heard Mrs. Lammerson say yesterday afternoon that she was twenty-three when she was mar-ried, and that two years later they mov-

ried, and that two years later they moved to Bristol, where they lived for nine months. Four years after that they lived in London for a while, and then they spent a year and a half abroad.

"Now comes the clever part of the figuring. When they were in France the lady bought a ring, which she wears to day. It weighed twenty-one carats when day. It weighed twenty-one carats when it was new, but probably isn't more than half that heavy at present. This, according to my wife's figures, shows that the ring has been worn at least ten years.

All these totals added together, multiplied by two and then substracted from the age of the pony which Lammerson bought for his wife fourteen years ago,

show that she was forty-three her last birthday.
"No, I can't tell just how it's done, but any woman can explain it to you."-Tid-

ELSIE.

| State | Comparison | Anderson had a pair of soft, but pene-trating eyes. She looked kindly at Elsie w, but she looked curiously.
ou are quite shivering, miss. I would

not remain so long again in a room with-out a fire. It's absurd! If they can't find you, you should come away at the end of five minutes. It's not as if it were "Oh, no," said Elsie, with a faugh; "it's anything but summer weather, and I am lly very cold." Warm yourself here, then, miss, for

"Warm yourself here, then, miss, for five minutes, and then go up that staircase and cross the landing. The door is the one by the side of the statue of Venus rising out of the sea."

"Thank you," said Elsie. She held her hands before the blaze and shivered a little. "I must try and forget all that I overheard", she said to herealf. "but I overheard," she said to herself, "but I am afraid when I see that poor Lafonte, the foreign secretary, I shall look at him as if I pitted him. I wonder if Miss Bracegirdle really wants to marry Lord Arthy or to become a great actress. I

am afraid when I see that poor Lafonte, the foreign secretary, I shall look at him as if I pitied him. I wonder if Miss Bracegirdle really wants to marry Lord Arthur, or to become a great actress. I feel sure she is as false as the sirens who sang to the sailors and lured them to their deaths, as we learn in the mythology at Coome Hill."

When Elsic's hands were warm she ran upstairs and found her way into the gay room where the games were going on. Little Miss Ferrers darted towards her.

"Wherever have you been?" she ask-

"Wherever have you been?" she ask-"I found the door of the crimson locked, and thought you were inside; but it's locked still.".
"I must not tell you where I have been," said Elsie, with a smile.
Looking up as by instinct, she found Lord Arthur's bold blue eyes fixed on her. How handsome he was with that crown of curling auburn hair, and that Greek nose forming a straight line with the white brow. How tall and statuesque the white brow. How tall and statuesque he was—like a young Hercules cast in a grand mold; but his eyes made Elsie shrink from their bold gazing. The son of a mother who was a saint—this young sinner was beautiful as an angel in the loving eyes of the countess, and Elsie wished that she could turn him from darkness and folly towards wisdom and light. It was for his mother's sake that the schoolgirl cast such wistful glances upon the earl's heir; but Basil Byrne, watching her, decided that the girl was watching her, decided that the girl was fascinated by the young lord's beauty, and he resolved to warn her accordingly. Game followed game, and then a dance was loudly called for. Elsie sat apart,

was foundly called for. Elsie sat apart, and saw the couples forming for two sets of quadrilles in the long, wide room. "May I have the pleasure?"
She glanced up. There stood Lord Arthur before her, tall and magnificent, with a bouquet in his button-hole and gloves on his hands. Elsie rose and was led off. Where—where was Pauline, whom he had talked of marrying in Elsie's hearing about an hour ago? Pauline was posiing about an hour ago? Pauline was positively dancing with that brilliant barrister, novelist and politician, Basil Byrne. They stood in the side couples that formed the set in which my lord had placed himself and Elste. You gave that burglar a hiding, so they tell me," said the horsey young lord with a smile that showed his magnificent teeth.
"I heard myself credited with having" dragged the robber by the collar all the way from Coome Hill House to the police station at Allanbury," said Elsie, with a demure look, a smile lurking meanwhile in the corners of her eyes.

Lord Arthur said to himself "This girl's eyes are the very dickens."

Just then a new figure began, and Elsie was led through its mazes by her noble

was led through its mazes by her noble partner. When they stood again, the side couples went through the same evolutions, and Elsie glanced at Pauline Bracegirdle. Bracegirdle.

That young lady was most sumptuously arrayed in evening dress—a gown of green satin brocaded with gold; her white neck and shoulders set off by a fantastic trimming of rich, dark fur; her throat was encircled by a row of great pearls, which judges pronounced to be worth a very large sum of money. Pauline had stated that a Russian princess had given her this magnificent pecklage with its her this magnificent necklace, with its emerald clasp, as a reward for a service she had rendered her by dint of her cour-age and presence of mind, when the said princess was in danger for political reasons. Miss Bracegirdle never said what the political difficulties of the princess had been, nor did she name the name of the high and mighty dame. Certainly the necklace was a handsome gift from the necklace was a handsome gift from somebody, a Russian princess or other-

Pauline's flaxen fringe and jet-black eyebrows, alabaster skin and vermilion-colored lips, all seemed pointed at, turn-ed towards Elsie Carew, and Pauline's eyes shot sparks upon Elsie, so that felt almost as one under an electric tery. Perhaps if Miss Carew had not heard that very singular conversation between the noble lord and Miss Brace-grdle she would not have noticed the venom, the eagerness, the concentrated of the young woman's glance; but she felt their force in every fiber of

"So. I suppose, the fact was that you did not lay hands on the rufflan at all?"
"My lord, look at my hands; is it pos-

Now, Elsie had only a very small spice Now, Else had only a very small spice of coquetry in her nature, which showed itself now and anon on occasion. At the present moment she was assuredly inspired by that little vanity; but it was not so much that she wished Lord Hammond to admire her pretty white hands as that she felt something defiant rise up within her when she saw Miss Bracegirdle desking woon her such fierce score. flashing upon her such fierce scorn "You have awfully pretty hands!" responded my lord, with a glance that Miss Bracegirdle, watching her, saw and ap-

preciated.
"That Carew girl-that Irish hussy with the dark hair and green eyes"—so Pauline termed Elsie in her thought—"that green-eyed Carew girl must be crushed somehow-somehow, no matter how; but some-how she must be sent away in disgrace from Charteris Court before the holidays are over; got rid of, put out of Lord Arthur's way"—for certainly he was look-ing at her as Pauline was determined he should look at no martel women says look at no mortal woman save

Miss Bracegirdle had a strong will, an unscrupulous conscience, a hard heart; she had also a cruel nature. Circum-statices and education had done much to foster all that was evil in this clever and beautiful young woman. It was a distorted soul; it was a hideous discord in that harmoy of human life, designed by the Creator to be good to true and beautiful. But Lucifer and his emissarles Pauline Bracegirdle was selfish to the core, and she had no pity.

Christmas Day was over. What a dif-ferent day it had been to Elsie Carew from the Christmas she had anticipated a day spent in the large, cold, bare-floored schoolroom; the piano in one corner, the dinner served on a tray at one end of the long, clean deal table; Jetty waiting on her in a smart blue cap, recommending the greens, praising the potatoes, and explating on the rich delights of the mince pie she had herself

delights of the mince pie she had helsel manufactured.

After dinner Jetty was to have gone into the village to take tea with a friend, and the said friend was to have come up to supper at Coome Hill House with Jetty's young man.

Jetty was to have been made as happy circumstances permitted, and Elsie

as circumstances permitted, and Elsie was to have exercised self-control, courage, patience and other virtues, so as to enable her to get through the desperate duliness and utter loneliness of the desc-

blazed in the wide chimney place. Anderson, the maid of the countess, was arranging some ornaments on a little oak cabinet. She turned when she saw Elsie. "I have been hiding," said Elsie, "and they could not find me. Will you show me the way, please, back to the room where the company are assembled?"

Anderson had a pair of soft, but pene-

day a countess, and I don't believe in her love for Shakespeare one bit."

Elsie herself had a genuine love for Shakespeare, so much as she had read of him in the extracts from his works in her aunt's library at Upper Tooting. There was nothing hoble or sublime in Pauline's handsome face.

"No, she does not care for Shakespeare, whatever she may say." Elsie repeated to herself. "She is a wicked sort of girl; she is leading that young foreigner astray, and he will do some awful thing when he finds she won't marry him. It is nothing to me. It wish Lord Arthur Hammond was not quite so handsome. I can understand his turning the head of a foolish girl."

Elsie was not a foolish girl, but she had a strong admiration at this time of her life for handsome people, and Lord Arthur was certainly the very handsomest man she had ever seen in her life. terday. Durnan is expected here in a day or so. The race between these two is exciding considerable interest. Sullivan's offer to row Rumohr for \$500 has been taken up by a friend of Rumohr's and a race probably will come off BASEBALL. NATIONAL LEAGUE. At New York (first game)— R. H. E. Alarming Prevalence of Brain and Nerve Diseases Among Children.

Weak Bodies and Defective Eyesight Caused by Cramming for Examinations-A Warning to Parents.

dren who are being ruined in mind and body by the excessive exertion brought upon them in cramming for examinations. Early and late they are bending over their beoks, contracting their lungs, ruining their eyesight and consuming nervous energy at an enermous rate, and this is at the very period in life when, on account of important physiclogical changes, every resource of nature is taxed to the utmost to supply nutrition for the functional development.

Fond parents, anxious to see their children rank high at examinations, forget that the nerve force which is being so lavishly spent must sap the vitality of the body and ultimately result in nervous exhaustion, St. Vitus' dance, epilepsy, paralysis, brain congestion or some dreadful form of brain or nerve disease. What hosts of weak, puny, nervous children are to be seen everywhere these days. Unless prompt action arrests their declining health they cannot possibly develop into healthy, robust men and women.

If your boy or girl is weak, puny or nervous do not suppose for one moment that the trouble will wear away of itself, It will not. Nervous diseases do not get well of themselves. External assistance is necessary in order to overcome the constant waste of vital energy. Dr. Chase's Nerve Food contains in concentrated form the very essence of the most effective nerve resteratives found in nature. Gradually and naturally it recreates nerve cells, forms new red corpuscles in the blood, rekindles the spark of life and builds up weak and wasted bodies. 50 cents a box, 6 boexs for \$2.50, at all dealers or Edmanson, Bates & Co.,

OUT. New York, Sept. 14.—At a meeting of the Eastern League here Thursday, it was unanimously decided to play out the schedule of games for the present season with seven cities. No new club will be taken into the circuit until next season. The clubs represented at the meeting were Providence, Rochescircuit question occupied the atten-tion of the magnates during the greater part of their session. There was some little talk of trying to fill ent cities that are anxious to get into our league," said President Powers, "but we have decided to stand pat un-

til next year. We will play out the schedule for this season with seven clubs. As to the dates left open by the passing of the Hartford club, exhibition games will be arranged by the various clubs. For instance, the New York club will play in Providence next Sunday instead of Hartford." Asked if the Players' Association had sent him any communication regarding the failure of several of the clubs of the Eastno such communication. What's more I don't think I ever will. If it does come the players' organization will hear an entirely different story than was poured into their ears last Sun-President Powers was asked to name the cities that sought member-ship in the Eastern League in place of Hartford, but he refused to answer.

As soon as the meeting was over the various magnates started for home. THE WHEEL.

MCEACHERN DEFEATED PIERCE. Washington, Sept. 14.-Archie Mc-Eachern, of Canada, Thursday hight won the 20-mile metor-paced race in a walkaway from Burns Pierce, of Canada. Time, 32:15%. Pierce immediately announced he had given up professional racing.

LONDON AFTER THE CUP. London is right after the cup again this year, and the men who have been so impatient for the last two weeks to get in the game again will have their chance Monday, when practice will start in earnest. All the players of last year's championship team will be on hand. Manager Doc Sippi wants to see every junior as well as senior out right at the start, and get in shape for a game next Saturday with Ingersoll. It necessary that the new men should be tried out before the opening of the with Sarnia in London, London should work in two games before that date in order to be sure of their men. New players are especially requested to be on hand Monday. The management has made arrangements with a reli-In nearly every school in this Province there are chilpractice, as a number of the players last year caught colds through having to don damp garments after a work-out the night before.

Municipal Convention.

St. Catharines, Ont., Sept. 13.-The Ontario municipal convention resum-ed its session yesterday. Solicitor Reynolds, of Brockville, submitted the report of the special committee, recom-mending certain matters for consider-ation. On motion of Mayor Morris, of

DURNAN VS. TOWNS Ottawa, and City Clerk Kingston, of London, the report was received and considered clause by clause. Several clauses of the report of last year were recommended and a few amended. A clause adopted unanimously was to the effect that politics should be elim-inated from municipal affairs. Brockville was chosen as the next place of meeting. The election of the officers for the coming year then took place, resulting as follows: President, E. J. Reynolds, town splicitor, of Brock-ville; first vice-president, Mayor Slater, Niagara Falls; second vice-president, Mayor McIntyre, St. Catharines, societary, S. H. May. arines; secretary, S. H. Kent; assistant secretary, Mr. Clark, Hamilton; assistant secretary, J. T. Hall, assessment commissioner, Hamilton; executive committee, Mayor Colling, Dunctive committee, Colling, Dunctive Colling, Cultivative Colling, C das; Mayor Kennedy, Guelph; City Solicitor Caswell, Toronto; Ald. Champagne, Ottawa; Mayor Hendrie, Hamilton; Ald. Hubbart, Toronto. It was decided to meet next year, in the second week in September, at a special meeting to be held in Toronto after the report of the assessment commissioners is presented. Then the con-

> GOOD EMIGRANTS FOR THE DOMINION

Premier Ross' Scheme Declared Practicable

Montreal, Sept. 14.-A London cable

to the Star says: Premier Ross of Ontario leaves Liverpool today with his wife. The Times yesterday devoted an editorial to his demand for the attention of British statesmen to the urgent necessity of encouraging British emigration to Canada. He pleads that it is most unwise to allow so large a proportion of British emigrants to drift to the United States for want of encouragement to remain British citizens in Canada. The Times cordially agrees that it is desirable to stimulate British settlement in Canada. It says: "The pro-blem lies in the fact that British emigration prefers the United States to the British colonies. Can we divert such part of this stream as is really fertilizng to make it flow into the channel of the British Empire, now thirsting to receive it? The answer does not, perhaps, lie upon the surface, but it is well worth looking for. Hon. Mr. Ross is certainly entitled to no little credit for suggesting a practicable and hope-

ful way of looking for it."

MR. R. MORRIS,

of Brockville, Ont., Would Have All Sufferers Know How He Banished Terrible Neuralgia and Dyspepsia.

WAS THE GREAT DELIVERER

AFTER FAILURE OF

PHYSICIANS.

The Wells & Richardson Co., Limited. Gentlemen,-Having suffered with euralgia in the head for two years, I tested the skill of doctors and made of many kinds of medicines as well as the electric battery, but got no relief from any of these sources. I decided to give Paine's Celery Com-pound a trial, as I noticed by the press that it was highly recommended for my troubles. I used several bottles and it cured the neuralgia as well as the dyspepsia from which I suffered. Now I am able to work all winter. In the past I had to lay off several months in the cold weather. I am happy to say the neuralgia has not troubled me for over a year. I re-commend Paine's Celery Compound to any one suffering as I did with terri-ble neuralgia and dyspepsia. I trust you will insert this letter in the press so that others may be benefited.

Faithfully yours,
R. G. MORRIS.

Bightly.

Garfield fell in a time of peace, and the blow was the heavier because it seemed so uncalled for. And now, just as the nation is entering upon a century of prosperity and at peace with all the world, President McKinley is shot, as were Lincoln and Garfield, in white places surrounded by friends. a public place, surrounded by friends, and by a stranger.

HOW LINCOLN FELL.

The story of how Lincoln was shot at Ford's Theater by J. Wilkes Booth so familiar to Americans as to be almost a household tale.

Accompanied by Mrs. Lincoln, the president sought relaxation from the a helpless cripple today. For it was through his brother keeping store that boring by witnessing a performance of he came to try Dodd's Kidney Pills. "Our American Cousin." His presence at the theater had been advertised in advance, and near the presidential party, which occupied a private box, were others high in official and army circles. The playhouse was crowded and the audience was a brilliant one.

Everything was progressing smoothy and none there appeared to enjoy the play more thoroughly than president, who was seated near the front of the box and frequently leaned forward to obtain a better view of

During the third act, and while there was a brief pause for one of the actors to enter, the sharp report of a pistol rang through the house. The noise did not attract attention nor suggest anything serious until a man rushed to the front of the president's box, waving a long dagger, exclaiming "Sic semper tyrannis." The assassin leaped from the box to the stage, ran to the opposite side, fled down the stairs, mounted a waiting horse and was off It was Mrs. Lincoln's scream of anguish and terror which first gave way his pain left him and his back the audience a clew to what had happened during that sudden commotion in the president's box in the second tier. The audience was on its feet The surgeon's examination disclosed the fact that the president had

en shot through the head, just above and back of the frontal bone. He was immediately carried to a house just across the street from the theater, where he was attended by the surgeon general of the army and other phy-sicians, who had been hastily summoned. The anxious crowd pressed in so close that a military guard was placed about the house to keep it back. In a few moments the party at the bedside was increased by the hurried arrival of the prominent men of the national capital, among them Messrs. Colfax and Farnsworth, Sumner, Colfax and Farnsworth, Judge Curtis. Gov. Oglesby, Gen. Meigs, Col. Hay, now secretary of state, and other personal friends. Surgeon-General Barnes and his assist-

ants were doing all in their power to stay the ebbing tide of life. President Lincoln lay in a state of syncope, insensible and breathing slowly, the blood oozing from the wound at the back of his head. Within three hours after the fatal bullet had been fired, Secretary of War Edwin M.

Stanton issued a bulletin announcing the sad tidings. At 2:30 a.m. a bulletin was sent out

from Washington announcing that the president still lived, but his case was absolutely hopeless. It was at 7:22 Sunday morning that resident Lincoln breathed his last, closing his eyes as if falling asleep, his

features bearing the repose of perfect serenity. There was no indication of pain, and only the gradual cessation of his respiration to show that the end had The Rev. Dr. Gurley, pastor of the New York Avenue Presbyterian Church, knelt at the bedside and offered fervent prayer, again voicing his grief a moment later in the adjoining parlor, where there were waiting Mrs. Lincoln, Capt. Robert T. Lincoln and Mr. John

Hay, the private secretary. Surrounding the death-bed of the president were Secretaries Stanton, Welles, Usher, Attorney-General Speed, master-General Dennison; M. B. Field, assistant secretary of the treasury; Judge Otto, assistant secretary of the interior; Gen. Halleck, Gen. Meigs, Gen. Sumner, F. R. Andrews, of New York; Gen. Todd, of Dakota: John Hay, Gen Oglesby, of Illinois; Gen. Farnsworth Mr. and Miss Harris; Capt. Robert Lincoln, E. W. Abbott, R. R. Stone, C. D. Gatch and Neal Hall. Secretary Hay and Robert Lincoln joined Mrs. Lincoln as soon as the end had come.

LINCOLN'S ASSASSIN KILLED. A cabinet meeting was immediately called and held in the room where the martyr president lay dead. At 11 o'cleck that day Vice-President Andrew Johnson was inaugurated president. John Wilkes Booth, the the president, made good his escape. A reward of \$50,000 was offered for his apprehension and \$25,000 for each of his accomplices.

It was on Thursday, April 27, that

the news came of the death of Booth while trying to escape from a burning barn near Port Royal, Md., where he and his accomplice, Harold, had been brought to bay by a party troops under command of Lieut. Edward Dougherty. Booth was shot by Sergt. Boston Corbett and lived two hours, dying uttering blasphemies against the United States Government. Harold was arrested.

GARFIELD SHOT.

President James A. Garfield was shot down in the Baltimore and Potomac Railroad station, at Washington, at 9:20 o'clock on the morning of July 2 Charles Jules Guiteau, an erratic and disappointed office-seeker, was his assassin. He was captured at once, and executed for his crime.

The president, accompanied by James G. Blaine, then secretary of state, entered the station to take a train for New York, where he was to join his family, and, with other members of the cabinet and government officials, a weak condition of the kidneys,

William McKinley is the third presi- | make a tour of the New England

As they entered the street doors of the station Guiteau stood waiting near shot in Washington on the night of the center of the women's reception April 14, 1865, and died on the following room. The president and Mr. Blaine walked through the room while the assassin circled about until he was behind them. He drew a revolver and ington, July 2, 1881, dying at Long fired. No one seemed to realize what had happened. The president half turned, with a bullet through his left shoulder. An instant later Guiteau Like the tragedy of Sept. 6, both of fired again. This time the bullet struck these came upon the nation like bolts Mr. Garfield in the back, over the left kidney. He staggered forward, sank to his knees and then pitched to the

> Outside in the train nearly the entire cabinet was waiting the president's arrival. At first they refused to believe the excited shouts as signals of disaster to their chief. They were chatting and laughing in the mild summer weather. When they realized what had happened they rushed to the reception room, where several hundred wildly excited people were struggling about and the police endeavoring to shut the

heavy doors.

Secretary Blaine was shouting for help. The president was upon the floor. His son Harry stood almost over him. frightened and defiant. Robert T. coln, secretary of war, and son of the assassinated president, was calling for

Secretary Lincoln sent orders holding all the troops in the city in readiness for duty, and the secretary of the navy sent his orders to the marines. The police reserves were hurried to the

The rush of the couriers of the station to the capitol and department buildings, the converging of the police and the bugle calls about the barracks aroused the whole city, and thousands of persons were soon gathered about the railroad station shouting threats of lynching the man whom the police held

Mr. Parks, the ticket agent, saw the shooting through the window of his office, and as the second shot was fired. ran out and grabbed Guiteau as he dodged to get into the street. He held him until a policeman ran up. In his hand Guiteau waved a letter, which he shouted was for Gen. Sherman, and

explained everything. The president himself was the first to realize his condition. In the station, after Dr. Townsend had made a hasty examination, he asked his opinion. The physician replied that he did not consider the wound serious.

REALIZED HIS FATE. "I thank you, doctor," said the presi-"but I am a dead man." All that day the president talked calmly and courteously to those about him. He was suffering great pain, and rush towards the president's box which have fractured the eleventh rib and was stopped only by the united efforts penetrated the liver. It was seen then The surgeon's examination disclos-exceedingly serious. It was believed that he could not live beyond mid-

Mrs. Garfield was at Long Branch when told the news. She left at once for Washington, where she arrived soon after 7 o'clock and hurried to the president's bedside. They talked together for a few minutes and later for half an hour. Her presence seemed to improve the president's condition. The next day Mr. Garfield was worse, and from that time, during the three months that life lasted, he improved and failed intermittently. His great vitality fought steadily for his life. At times he was unable to sit up and at other times was reported dying. He was removed to Long Branch, Sept. 6, to escape the heat of ington, and improved somewhat there, but on Sept. 19 he died.

Guiteau was indicted for his crime on Oct. 9 and was arraigned on Oct. 15, pleading not guilty. His trial began on November 15. George M. Scoville appeared as his attorney, alleging insanity as the defense. Judge Cox presided over the trial, and former Judge Porter was the prosecutor. Much bit-terness was aroused by some expressions of friendliness for Guiteau. He was found guilty on Jan. 26, 1882, and sentenced to death on Feb 4. An effort to obtain a reopening of the case failed, and he was executed on June

-Hensall Observer: The following are the officials in charge of the new cement walk: Mr. Ironside, assistant engineer of London, who was here on Tuesday taking the levels; Sam Baker, of London, who represents the council as inspector, who acts for the council. and is said to be the best inspector in Ontario, and L. Langlay, one of the and nerves. firm of contractors, who acts as foreman. These superintended a force of

eighteen workmen, besides teamsters. -Mr. C. B. Riley, a former Londoner, arrived here yesterday direct from the Philippine Islands. When troops were called by the U.S. government for that far-off land, Mr. Riley was employed on the "World-Herald," of Omaha, Neb., and he proffered his services as correspondent for that journal. He left Manila on the 5th of August, and reached the residence of his mother here as stated. He says there are great opportunities offered for young men in the Philippines and intends returning as soon as possible.

aroused in England. His duties are to see that fruit is properly packed, and if necessary, instruct growers in

CLAIM FINES. The finance committee, which met last night, received through Police Court Clerk Moule, a letter from Crown Attorney Magee, in which the latter claims that fines to the amount of \$210 have been wrongfully paid to the Wallaceburg public school, in place of city treasurer, and must be paid to the provincial treas-The crown attorney writes behalf of the provincial urer. behalf on treasurer and refers to fines that date back as far as December last. They were imposed for the following offenses: Assault, assaulting a peace officer, fighting in a public place, keeping house of ill-fame and frequenters of same, breach of the fishery act, vagrancy, and undertaking to tell for-The advice of the city solicitor tunes. will be taken. Several applications for remissions

Amusements.

A satisfactory audience last night reeted the second performance of "Superba" at the Grand Opera House, and all were delighted with the performance. Both the matinee and concluding performances tonight should be well-attended. The week's business as a whole has been most gratifying to the man-

"Humbug," one of the most fascinat-

Concluding Performance and Races Were Excellent.

Fine Weather Marked Closing Day, But Failed to Draw Large Attendance.

The concluding day of the Western Fair was favored with weather that of the treasury had it been forthcoming on the three previous days. The fine weather, however, did not avail to offset the impression that the concluding afternoon is not as good as previous ones, and the attendance was smaller than the brightness of the day warranted.

All the departments, except that of live stock, were in full operation until the gates were closed. Some of the live stock was removed for shipment to Ottawa Fair, which opens on Monday. The rest of the exhibits remained in their places, as required by the regulations. The sideshows closed by the directors had, of course, ceased operations at 1 o'clock, but most of the others kept going as long as there were prospective visitors in sight. Both the sideshow people and the vendors of refreshments report having a poor week's business

THE ATTRACTIONS. The full programme of attractions was given in front of the stand, the performers being in excellent form. The races were among the best of the week, and were not concluded until about 5:30. The mixed race, left unfinished from the previous day, fell to N. Wade's Dolphy W. Well-contested consolation races for runners and for trotters and pacers were run. The

LONDONER'S LUCKY FIND IN AFRICA!

Picked Up a Valuable Diamond Ring on a Battle Field.

A ring that is attracting more attention than most rings do, is shown in the window of Mr. Chas. Ward's jewelry store. It came into the possession of a London soldier on one of John, of Mount Forest, are spending a few days with Mrs. E. J. Liddicoatt, St. the South African battle fields, and Mr. Ward purchased it from him. The lucky fellow who discovered it was one of a party sent out under command of a British officer to bury those slain in battle. The usual thing in such cases is that the officer gets all the valuable findings, but this time the young Londoner secured one of the rings worn by a Boer general. It is a circlet of fine diamonds of an unusually pure color, and the whole ring is of rare beauty. It is 18 karat gold, of exquisite workmanship, and Mr. Ward values it at about \$200. Some-Walkerton Telescope: Mr. Robert Marr is leaving town. He is going to thing that had been engraved inside it had been filed off. The man on whom it was found wore also diamond bracelets and bands of gold on Mr. Freeman Taylor, of Buffalo, who his clothing.

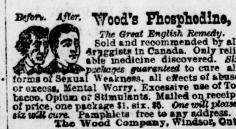

Recuperative Effect.

Considered with reference to its recu-perative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla. The latter costs \$1; the former—well, that de-pends; how much did yours cost last year? year?
Hood's Sarsaparilla refreshes the tired blood, sharpens the dulled appetite, restores the lost courage.
