The images appearing here are the best quality
possible considering the condition and legibility
of the original copy and in keeping with the
filming contract specifications.

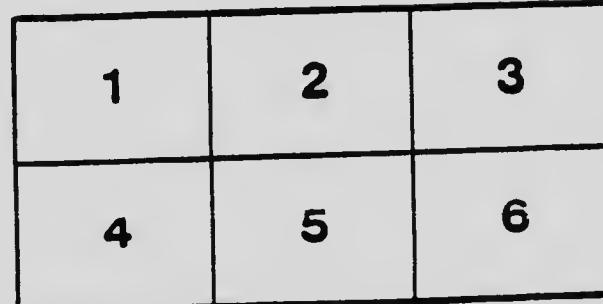

Original copies in printed paper covers are filmed
beginning with the front cover and ending on
the last page with a printed or illustrated impres-
sion, or the back cover when appropriate. All

The last recorded frame on each microfiche
shell contain the symbol → (meaning "CON-
TINUED"), or the symbol ▽ (meaning "END"),
whichever applies.

Maps, plates, charts, etc., may be filmed at
different reduction ratios. Those too large to be
entirely included in one exposure are filmed
beginning in the upper left hand corner, left to
right and top to bottom, as many frames as
required. The following diagrams illustrate the
method:

Les exemplaires originaux dont la couverture en
papier est imprimée sont filmés en commençant
par le premier plat et en terminant soit par la
dernière page qui comporte une empreinte

originaux sont filmés en commençant par la
première page qui comporte une empreinte
d'impression ou d'illustration et en terminant par
la dernière page qui comporte une telle
empreinte.

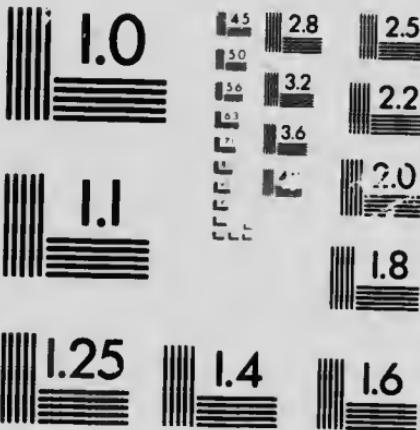

Un des symboles suivants apparaîtra sur la
dernière image de chaque microfiche, selon le
cas: le symbole → signifie "A SUIVRE", le
symbole ▽ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être
filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être
reproduit en un seul cliché, il est filmé à partir
de l'angle supérieur gauche, de gauche à droite,

THE NEW NORMAL MUSIC COURSE BOOK THREE

PREFATORY NOTE

BOOK THREE of the **NEW NORMAL MUSIC COURSE** covers the work of the sixth and seventh school years. It contains nearly all the exercise material which appeared in the "Introductory Third Reader" and in the "Third Reader for Unchanged Voices" of the original Course. In this exercise material has been graded with the utmost care. To it has been added a large body of new songs.

These songs represent the best work of many eminent composers. At the same time, the entire book, with its profusion of part songs, contains less than a dozen that appear in any other music series. This notable addition to the list of available school songs was made possible by a thorough survey of the whole range of song literature.

Characteristic songs from the great song writers of the world are here, side by side with songs in which the modern note predominates. The leading American composers have written most attractive songs for the book, using verse which is worthy of the music. Equally distinctive are the songs by continental composers, whose work will make strong appeal to our cosmopolitan school population. Many charming verses by well-known writers are here set to music for the first time.

In Part One the sectional arrangement of the preceding books is maintained; but there appeared to be no advantage in carrying this sectional division into Part Two. The "Outlines of Study" on pages 128 and 254 show the salient features of the respective Parts.

The treatment of the Minor Mode, for which careful preparation has been made in the earlier books of the Course, here finds a fulfillment carefully adapted to the powers of pupils in the respective grades. The users of this book will not share the apparently prevailing impression that the Minor Mode is chiefly adapted to the treatment of doleful subjects. But since many consecutive pages of minor exercises and songs would necessarily be monotonous and therefore depressing, care was taken to provide throughout the book ample variety in rhythm and mode.

Toward the end of the book will be found a few pages devoted to practice in reading from the bass clef. This is preparatory to the work of the eighth year. In providing these pages, the Editors have pursued the policy which prompted them in Books One and Two to treat the earliest stages of the more advanced work which would be developed in the next grade.

The courtesy of the following authors and publishers, in allowing poems which they control to be set to music, is gratefully acknowledged.

D. Appleton & Co for verses by William Cullen Bryant, "The Gladness of Nature" and "To the Fringed Gentian." Harriet F. Blodgett for "June" and "Shadows" from "Songs of the Day and the Year." Edward B. Birge, Mus. B., for his arrangement of Gounod's "Pretty Village Maiden" from Supplementary Song Series, Number Four. George R. Brill for verses from "Rhymes of the Golden Age," "The Butterfly," "Summer Spoils." The Century Company for a poem from *St. Nicholas*, "The Boy Who Forgets," by Pauline Frances Camp. Herinan DaCosta for "A Spring Lilt." Sarah J. Eddy for the words and the music of "Dancing Waves," from "Songs of Happy Life." Houghton Mifflin Company for "The Happiest Heart," by John Vance Cheney; "The Prairie," by John Hay; "The Rivulet" and "Calling the Violet," by Lucy Larcom; "A Vision" "Egypt," "Daybreak," "Curfew," "A Day of Sunshine" and "The Arrow and the Song," by Henry Wadsworth Longfellow; "Confidence," by Alice Freeman Palmer; "Good Night," by Edna Dean Proctor; "Morning Song," by Celia Thaxter; "Awake," by Edith M. Thomas; "Leaves at Play" and "The Four Winds," by Frank Dempster Sherman; "Nature's Tribute of Praise," by John Greenleaf Whittier. The *Independent* for "The Bell Buoy," by Walter Kerr. Little, Brown & Co. for "Down to Sleep," by Helen Hunt Jackson. Clinton Scollard for "The Pillow" and "The Holly." *Youth's Companion* and the authors for "Cheerfulness," by Marian Douglas; "The Paths," by Mary R. Parkman; and "Kinship," by Kate Whiting Patch.

HUNTING SONG

Sir WALTER SCOTT

Allegretto

1. Wak-en, lords and la-dies gay! On the mountain dawns the day;

2. Wak-en, lords and la-dies gay, To the greenwood haste a-way;

D.C. Time, stern huntsman, who can balk? Staunch as hound, and fleet as hawk?

Allegretto

All the jol-ly chase is here, With hawk and horse and hunting-spear:

For-est-ers have bus-y been, To track the buck in thicket green.

Think of this, and rise with day, Gen-tle lords and la-dies gay.

Hounds are in their couples yelling, Hawks are whistling, horns are knelling;

We can show you where he lies, Fleet of foot, and tall of size:

*D.C. al Fine*

Mer-ri-ly, mer-ri-ly min-gle they, "Waken, lords and la-dies gay!"

You shall see him brought to bay, "Waken, lords and la-dies gay!"

March on! march on!" followed by a repeat sign and "All hearts re-solved On vic - to-ry or death!". The second section begins with "on! All hearts re-solved On vic - to-ry or death!".

Once having felt thy gen'rous flame,
Can dungeons, bolts, and bars confine

Still be the aim to which we aspire.
May each spirit ever be lighted

All may be won; be but united,
Our foes we will crush 'neath our feet;
No more then Frenchmen will repeat
That dread cry which hath our land

RUDIMENTARY FACTS OF MUSIC

(Adapted for study by pupils of Grammar Schools)

NOTATION

The elements of music are TONE and RHYTHM.

A Musical Tone has *Pitch*, *Duration*, *Force* and *Quality*, each of which has its appropriate means of notation.

The means of indicating (notating) Pitch are:

The STAFF,— five lines, with the spaces which they make;

LEGER LINES (or ADDED LINES) with their spaces;

CLEFS, which, by indicating the pitch-meaning of one line, show the meaning of all the lines and spaces of a staff;

LETTERS, which give definite pitch-names to all tones;

SHARPS, FLATS, and NATURALS (CANCELS) which modify the pitch-meaning of lines, spaces and letters;

BRACES, which, by joining staves, determine the pitch of any number of parts (or instruments) performing together.

The musical features of Pitch are embodied in:

SCALES, which associate tones in series in definite relations to one another;

KEYS, which associate each scale with a tone of definite pitch, called the Key-Tone (or Key-Note);

MODES, which determine the melodic and harmonic character of a composition;

CHROMATICS, which modify and vary the character of Scales, Keys, and Modes.

The means of indicating DURATION are:

NOTES, which, while calling for tones of definite pitch, show the relative lengths of tones;

RESTS, which show the relative lengths of silences;

METRONOME-MARKS, which show the exact time-values of notes and rests.

The musical features of DURATION are recorded in:

TERMS and SIGNS of speed and of variations in speed (See Glossary).

The means of indicating FORCE are:

TERMS and SIGNS of force and of variations in force (See Glossary).

The musical features of FORCE are embodied chiefly in RHYTHM. Rhythm is indicated by

BARS, which show the place of accent; or, in other words,

MEASURES, which comprise the rhythmic groups of which the whole composition consists.

... al rhythmic
... in the bars. Each measure
... rhythm-groups of which the whole

QUALITY may be indicated in a general way by certain marks of expression; but it is chiefly dependent upon the means (voice or instrument) and method by which the tone is produced.

Musical Notation can then definitely record the essential tonal and rhythmical features of any composition. But, as is the case with language, the printed signs leave much to be done by the interpreter.

TABLE OF NOTE-VALUES, WHOLE NOTE TO THIRTY-SECOND NOTE

This division of every note into two of the next lower denomination is the normal one. The most common of irregular groupings is that of three notes for the time-value of two. This is called a TRIPLET, and is marked with a 3.

$$\textcircled{0} = \begin{smallmatrix} \textcircled{0} \\ \textcircled{0} \end{smallmatrix} \quad \textcircled{0} \mid \textcircled{0} = \begin{smallmatrix} \textcircled{0} \\ \textcircled{0} \end{smallmatrix} \quad \textcircled{0} = \begin{smallmatrix} \textcircled{0} \\ \textcircled{0} \end{smallmatrix} \text{ or } \begin{smallmatrix} \textcircled{0} \\ \textcircled{0} \end{smallmatrix} \quad \text{etc.}$$

A Dot after a note prolongs its value by half.

$$\textcircled{0}. = \textcircled{0} \text{ } \textcircled{0} \mid \textcircled{0}. = \textcircled{0} \text{ } \textcircled{0} \mid \textcircled{0}. = \textcircled{0} \text{ } \textcircled{0} \mid \textcircled{0}. = \textcircled{0} \text{ } \textcircled{0}, \text{ etc.}$$

A second dot adds to the total tone-value half the value of the first dot.

$$\textcircled{0}.. = \textcircled{0} \text{ } \textcircled{0} \text{ } \textcircled{0} \mid \textcircled{0}.. = \textcircled{0} \text{ } \textcircled{0} \text{ } \textcircled{0}$$

RESTS

The signs of silence corresponding to the various notes are:

Dbl. Whole Rest	Whole Rest	Half-Rest	Quarter-Rest	8th-Rest	16th-Rest	32d-Rest
—	—	—	* or *	-	—	—

Rests may be dotted like notes. The Whole Rest is generally used for a whole measure of silence, irrespective of the time-signature; but notes conform to exact time-values. The Half-Rest may not be used in 3-4 measure, but the Half-Note may be used. The dotted Half-Note fills a 6-8 measure; but the Half-Rest, with or without a dot, is not used in 6-8 measure.

These and other peculiarities of notation are not of great importance; but it is well for the pupil to observe current usage.

METRONOME-MARK

A METRONOME-MARK ($\text{♩}=112$) means that the piece is to be performed at such speed that there will be one hundred and twelve quarter-notes to the minute.

MODES, SCALES, KEYS

There are two MODES, *Major* and *Minor*.

There is one MAJOR SCALE.

There are three MINOR SCALES, *Primitive*, *Harmonic*, *Melodic*.

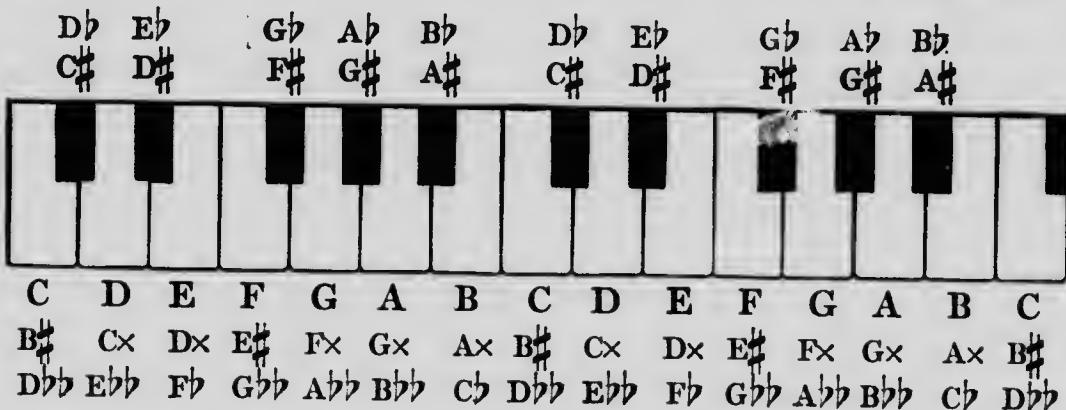

The Primitive Minor Scale is also known as the Normal or Natural Minor Scale. Other scales and modes exist, but are so rarely used that they need not be mentioned.

There are thirteen KEYS in each Mode.

Other keys exist; but practical convenience of notation restricts the number to thirteen, and also determines in certain cases the notation of the Key-Tone. For instance, G-sharp, not A-flat, is taken as a Key-Tone in Minor; but A-flat, not G-sharp, is taken as a Key-Tone in Major. In one case (F-sharp and G-flat in Major, D-sharp and E-flat in Minor) the same tone-series is known in different notations.

Staff-Notation was developed primarily for the convenience of players of keyboard instruments like the piano and organ.

Many attempts have been made to perfect and introduce other systems of notation; but the staff-notation has not been superseded. And in perfecting one's understanding of Notation, it is well to refer to the source of it,—the PIANO KEYBOARD:

This keyboard shows every pitch-name which any tone can receive in any of the thirteen keys, major or minor, either as a regular (so-called *diatonic*) tone, or as a chromatic tone.

The simplest notation of the Major Scale is from C to C. This involves only white keys of the piano; hence a plain staff, with the proper clef, is suitable for writing music in the key of C major. We have:

C	D	E	F	G	A	B	C
1	2	3	4	5	6	7	8
do	re	mi	fa	sol	la	ti	do

The numbers are *Scale-Degrees*. The syllables are the names of these scale-degrees for use in singing. There are so-called *Whole-Steps* between contiguous tones, except between E and F, and B and C, where there are *Half-Steps*. If we wish to form the major scale on any other tone than C, we must keep the whole steps and half-steps uniform with these; for there is but one Major Scale.

We shall find, for instance, beginning at G:

G WHOLE Step to A WHOLE Step to B HALF Step to C WHOLE Step to D WHOLE Step to E WHOLE Step to F# HALF Step to G

or, beginning at E-flat:

E \flat , F, G, A \flat , B \flat , C, D, E \flat

We see here the need of Sharps and Flats, which are defined in the Section on Chromatics.

In order, then, to write a scale or any composition in G, the sharped F-degree must be used, not the F-degree; and, if E-flat is the key-tone, A-flat and B-flat must be taken as the fourth and fifth scale-degrees.

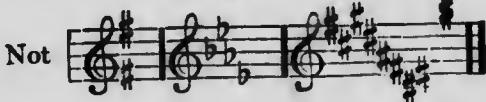

The notation of these facts of key is embodied in a KEY-SIGNATURE, which may be said to put the staff-degrees into the proper condition to notate music in the respective key; for, at the beginning of the piece, it marks as sharped or flattened the appropriate lines or spaces.

But it does not duplicate its information for symmetrical degrees. It selects, in each case, a convenient staff-degree and marks that. Other degrees named by the same letter are understood to be included in the marking. Thus we have, as key-signatures,

G E-flat B

G E-flat B

By using the keyboard representation, which shows all possible letter-names for every degree (including chromatics) in every scale and key, the pupil can discover why the various keys have their respective signatures.

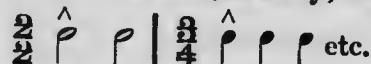

The Minor Scales, however, not being uniform, cannot be summed up once for all in a key-signature. The Primitive form of the respective scale determines the signature; the variations from this form are recorded by the necessary chromatic signs, which are called ACCIDENTALS. The same name is given to chromatic signs which record temporary modifications of any scale-degree in any key, major or minor.

The difference between regular and temporary Accidentals will become clear if one observes the full notation of the Minor Scales in various keys, in PART ONE of BOOK THREE of the NORMAL MUSIC COURSE. Full treatment of this and other matters of Notation is given, in convenient form, on White's Keyboard Chart.

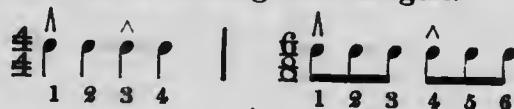

TIME-SIGNATURES, MEASURES, ETC.

The measure-form is indicated at the beginning of every piece in the form of a fraction, called the TIME-SIGNATURE. The numerator expresses the number of beats in each measure; the denominator, the kind (note-value) of beats. $\frac{4}{4}$ is sometimes represented by E ; $\frac{2}{2}$ by E .

Simple measures are those of two or of three beats; others are *Compound*. Simple measures have but one accent, namely, on the first beat:

Compound measures are formed of two or three simple measures, and thus have two or more accents, the first being the strongest.

THE TIE, SLUR, HOLD

The TIE (—) combines notes of the same pitch in such a manner that they are held as one note of the value of all the notes so joined.

A SLUR () connects notes that are to be sung to the same syllable, or are to be phrased together.

A HOLD or FERMATA () placed either over or under a note or rest approximately doubles its time-value.

SYNCOPATION

When a tone is sustained from a weak to a strong beat, there is a transfer of accent to the weak beat. The same effect sometimes results from the presence of a rest on the strong beat. There are, then, two common kinds of SYNCOPATION, Syncopation with Tie and Syncopation with Rest.

Syncopations also occur on subdivisions of the beat, with similar effect.

CHROMATICS

Besides the regular (so-called diatonic) tones of the major and minor scales, there are intermediate tones called CHROMATICS. These are between the regular tones of the scale, except where half-steps occur. For instance: *sharp-4* is a tone between 4 and 5; *flat-7* is a tone between 6 and 7.

A half-step is also called a *semi-tone*, and a whole step a *whole tone*.

A SHARP ($\#$) causes the line or space on which it stands to represent a pitch a half-step higher than the original pitch. Likewise, a FLAT (\flat) means a half-step lower. A NATURAL or CANCEL (\natural) annuls the effect of a sharp or a flat.

A DOUBLE-SHARP (\ast or \times), causes a sharped line or space to represent a pitch a half-step higher. Likewise, DOUBLE-FLAT ($\flat\flat$) causes a flattened staff-degree to represent a pitch a half-step lower. A single sharp or flat is the ordinary cancellation-sign (or restoration-sign) for these. The $\#$, \ast , \flat , and $\flat\flat$, are *chromatic signs*, and affect only the measure in which they appear.

Tones sounding alike but differently named and written (B and $C\flat$, $C\sharp$ and $D\flat$) are *Enharmonic Tones*.

THE CHROMATIC SCALE

A scale progressing by half-steps is termed a *chromatic scale*.

The ascending Major Chromatic Scale is usually written with sharps, the descending Major Chromatic Scale with flats. Flat-5 (*se*) is a rare scale-degree.

In the key of C, with syllables, the chromatic scale is:

do di re ri mi fa fi sol si la li ti do do ti te la le sol se fa mi me re ra do

This scale is written uniformly with the above in any key. Thus, in the key of A, it appears:

and in D-flat:

The Minor Chromatic Scale is written:

la li ti do, etc., may serve as syllables.

OUTLINE OF STUDY-MATERIAL, PART TWO

IN GENERAL

Songs and exercises in all major and minor keys, including keys whose signatures have five or six flats or sharps; practical review of all topics earlier treated, and application of the knowledge to music suited to the respective school-year; special attention to study of the minor modes, and to time-problems of all kinds; the study of the fundamental types of syncopation, with ties and with rests, including all those likely to be met in standard vocal music; preliminary study of the bass clef; further observation of terms and marks of expression.

IN DETAIL

ABBREVIATIONS: 134-3 means page 134, exercise 3; 157-S means song on page 157

Part Two of the Third Reader is not divided into sections. While the material is carefully graded, there has been no occasion for systematic treatment of individual problems which have already been twice or thrice presented in the foregoing books. An enumeration of the salient features of Part Two, divided somewhat arbitrarily into paragraphs, follows:

The thorough review of the practice of three-part singing in keys with sharps, 129 to 144; in keys with flats, 145 to 165; chromatization by sharps, 132-4-5, 134-3; by flats, 134-5, 135-1, 136-1; minor effects, 138, 142-3; nine-eight measure, 142-2.

Extended practice with the tie and with slow syncopations, 128-144; easy syncopation in six-eight time, 145-1; three-four and six-eight contrasted, 146; syncopation in dance rhythm, 153-2; accented syncopation, 154-1-2; rests on the first beat of the measure and further studies in syncopation, 154-3-4-5; the triplet in contrast with the divided beat, 157-S.

Song with considerable variety of major and minor mode, 158-S; detailed studies in syncopation, 166-172; the triplet, 174-3, 176-3.

Six-eight and three-four compared and sharply contrasted, 181-1, 182-1; lengthy exercises in syncopation, 182-2; twelve-eight, 182-3; the before-the-beat note and the after-beat note contrasted, 183-S.

Typical passage, with syncopations, from a celebrated work, 185-1; another exercise on the same, 187-1.

Songs and exercises intended to strengthen the sense of key and to give practical experience in modulation, 186 to 209; a minor song with a major ending, 199; songs with optional humming accompaniment, 201, 205; two-part song with a typical change of key and change of signature, 210.

Exercises to develop agility, 209-1, 211-2, 218-2; a ballad part-song, 216.

Keys with signature of five or six flats or sharps, 212 to 224; identity of the keys of G-flat and F-sharp, 220-1; minor exercises, 218-1, 222-2, 224-2 (showing the identity of D-sharp minor and E-flat minor), 224-3; a celebrated oratorio number, 228.

Devotional and patriotic songs, 231 to 238; standard selections (including one foreign patriotic song) arranged in three parts.

The bass clef, 239 to 244; simple exercises, 239, 242; part-songs with easy bass, 240, 243.
