MENTLY CURED, To illustrate he use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of eivilization, DYSFEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nervous and muscles of the stomach, afford temperary relief, but which leave the petient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic, sufferer, even in the worst symptoms of an strack, and simply the the Belt around the Sedy, using the Magnetic Fluid as directed. In a short persod the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSFEPSIA are PERMA. NENTLY CURED. A FEW DAYS IS AMPLY SULFIGIENT TO ERABICATE THE DISEASE OF YEARS. sen given up, and every-

CLERGYMAN Montreal, Oct. 14 . 1950.

De. A. H. Censers. New Jersey, July 12, 1945.

De. A. H. Censers. Deer. Sir: You wish to knew of me what has been the result in my own case, of the application of THE GALVANIC BELT AND MECKLACE. My reply is a follows:

For about twenty years to symptoms became worse, nor could I obtain permanent relief from any source of medical treatment whatever. About fewres years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumation, which for year after year, caused me indescribable anguish. Farther: in the winter of 48 and 48, in consequence of preaching a great deal in my own and rarious other churches in his region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspansion of my pastoral inhors. My nervous system was new twenty to site trade, and so my Bronchitis become worse, to site trade, and so my Bronchitis become worse, to site trade, and so my Bronchitis become worse, to site trade, and so my Bronchitis become demonstrate with evincing that these disorders were became of the reach acceptance of the ECELACE, with the first subject, and though the property of assertion and anamous representation.

I have recommended the RELT and Figure to have been likewise enforing from New raigie affections. They have fried them, were married and it am, dear siz, very respectfully year. LANDIS.

CAPITAL - ONE MILLION STERLING. ed by Special Act of Parliamen 4 Vict., Chap. 9. EDUCED RATES OF PREMIUM-HALF

CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this institution, has induced the Directors to MEDUCE the RATES originally required in British North America, to the ordinary Ruropean Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lower Rates of Prestium than those of any other Assurance Company? I conscious business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CKEDIT RATES of PREMIUM which have been so highly approved, and are so CREDIT RATES OF PREMIUM. MONTREAL.

ANNIVERSARY MEETINGS.

Using Mindennery Rectup.

From the Mosent Gazonic.

This mention was below that the wider of Christianity, The window of the second transport of the se more than 5000 years more must elapse before the Kingdom of the Saviour would become universal in the world; but God's works did not proceed in an arithmetical p.ogression. According to the Geologist, deposits might be of long and slow formation at the bottom of lakes, or seus, or oceans, and yet, by some mighty apheaving power, they might at once be raised high above the surface, in the form of tocks or dry land. So in the moral and spiritual world, there are agencies which God employs to produce the most stupendous changes within a very short period. He instanced revolutions in States, and revivals in the Charch—such revivals as those in

period. He instanced revolutions in States, and revivals in the Church—such evivals as those in The Popish regions of the earth formed a vast Missionary field. Popery had been well described at other meetings. Being comparatively a stranger in Montreal, he had been particularly struck at the uranjmity with which all the speakers, on former evenings, had pronounced Popery to be an anti-Christian system. He did not think that the fervor with which it had been denounced was, to any great extent, referable to sympathy with the agitation now felt in the Mother Country at the Bulls of the Pope, but to this great fact, that all their agencies came into direct collision with Popery. Whether they circulated the VILIDAT PRINCIPAL SECURITY STATES AS CONTROL OF THE PRINCIPAL PRIN

now. Nor were the instances solitary, but tens of thousands were in that state. He asked them to contemplate that idea, while they were quietly worshipping in peace and security. He then discovered attention to West Africa, and described the tion of 4000 victims on the death of a king. He asked what must be the state, of society where such cruelties were practised? What the state of society where licenti usness, and adultery were such cruelties were practised? What the state of society where licenti usness, and adultery were a sanctioned by the priesthood? He feared that as fresh portions of Africa were opened up that fresh horrors would be revealed. He said let us pause, and drop a tear for Africa, that had been injured by Britain, and that was still more injured by the United States. He went of to refer to China with its immense population. Paganism there, might be more refined and metaphysical, but there was not less of ignorance and darkness. It exhibited a not less of ignorance and darkness. It exhibited a not less of ignorance and darkness. It exhibited a line of the house knew that they had drop a unit by an unit of they would in teel so much ublighed to render aid as they would if they would in theel so much ublighed to render aid as they would in theel so much ublighed as trong hawer. The following, on factures, is not without interest, both for its truthfulness and style.

" I reiterate the fact, that Cenada pos rast resources for Home Manufactories, both natural and industrious; and, while adverting to his subject, I may here mention some facts in the history of one of our neighboring institutions at Lowell, in the United States, which, I flutter myself, will afford some interest to the temale por tion who form a part of this respectable audience ecounted for.

of the ruins stated that

The Manufactory alluded to, consists (with the exception of the male artizans necessary for mechanical purposes) entirely of young women and of them are independent of the precarious issues of the world, and all of them are remarkable for their exemplary morals, habits of good order, neatness, and respectable mental acquirement Many of them have gone forth into honorable and useful society, married into the best circles of wealth and distinction, and become patronemes to some of the less fortunate of their companions in the humble walks of industry. These young women, many of them excel in polite literature, and, at this very period, rublish, under their patronage, Literary Journal, whose columns are enriched with mary of their own effusions. Such is this this Manufactory, conducted, as it is, under the humble title of 'The Lowell Factory Girls." What an honor to the sex - What a triumph for umanity! Here are Industrial Resources worthy f universal patronage. Now, Mr. President, and adies and Gentlemen, contemplate for a moment he establishment of such a Manufactory contiguous to the City of Montreal, amply endowed and rich in the resources of the various raw maerials of the Province, such as wool, flux, and other staple productions-transfer to its hal's of industry the poor girls who, as paupers, daily fill our streets, and at night shame, by the degrading necessity of poverty, the chaste stars that shine above them - and how changed would be their condition. Let discipline, order, moral government, and habits of industry, give place to idleness, crime, and evil example, and the scene at Lowell, and the results of its well-regulated establishment, would be renewed on the banks of our St. Lawrence and the

> Beards, &c. MONTREAL, January 28, 1851.

To the DUKE OF WELLINGTON: FIELD MARSHAL! - Order the Army to heir moustaches and beards. The Cavalry and Horse Artillery already wear moustaches; why should not all the other corps? God caused beards and moustaches to grow; why counteract his order ? Is it that we, human worms, know better than He what is beneficial and becoming? Moustaches and beards were intended (as eyebrows, eyelashes, and the hair on our heads) to protect those parts on which they grow; it is nearly as absurd to shave off our moustaches and beards as it would be our eyel-rows and eyelashes. It is said that medical men have found less diseases of the cliest in regiments which wear moustaches than in those which do not. Sampson's strength consisted in his hair. Perhaps the decrease in the North American Aboriginal population may, in some degree, be attributed to their flacking out much of their hair. The Orientals look much more like men than we. The adoption of my suggestion would render annecessary shaving apparatus, though it would require increased work with the comb. Now, all the fellows with frowsy hair will vociferate against the proposal; while all those with jet-colored, or dark brown or chestnut, or flavous hair, will receive it w t acclamation. But neither applause, nor disapprobation, can influence "The Iron Duke ? he will adopt my suggestion, if he thinks it right.

Field Marshal! Your sincere admirer,

CANADIAN AFFAIRS. (FROM OUR OWN CORRESPONDENT.)

Toronto, January 23, 1851. Mr. Merritt has at length vacated his employ ment as Chief Commissioner of Public Works and gone to his quiet home at St. Catherines. to rebut that by which the charges were sus-There are various rumors respecting the cause of tained. his sudden departure; but the most probable appears to be a disagreement between himself and Bill for amending the Charter of the University Mr. Bourrett, as to the direction of certain affairs of Toronto, to which I referred in a previous connected with the Department. The retirement letter. He accompanied its publication with an partment precisely in the position it was prior to partment precisely in the position it was prior to belief that the University, as at present constituted, like common hydrogen. In repeated experiments the chiefe common hydrogen. In repeated experiments in my laboratory, I have not yet been able to prothe appointment of Mr. Wetenhall. We shall "will never answer the objects contemplated by see if the same doctrines that were then held will the Act, under which its proceedings are now prevail now. It was then contended, on the part being carried on." The sfill ation proposed by does upon his by passing it through turpentine.

A Mr. J. R. Nichols, of Haverhill, who writes like a scientific man, has given a description in one of the Boston papers of a visit lately made to with an ingreased de-Mr. Paine, of Worcester. He says that he was Exchanges having in point, whether, upon the application of the Roman Catholics, the Board of Trustees were bound to establish a separate School in each section, whether they thought it right to do so or not—the Attorney General replies, that "there is, perhaps,

series of Grove's batteries.

Dr. Walter Channing, of Boston, was present

States a settled the construction to be put upon the Act. during the investigation, and will probably give fives, 1858 and 1868, 95 settled the construction to be put upon the Act.

A very random kind of legislation must that be some account of the highest scientific attainments.

France—Great excitement had be is a person of the highest scientific attainments, his opinions will go far towards deciding the Paris during the we k question as to what Paine has done.

pressed by the compelition of private Medical "Mr. Paine was particularly anxious that we testation of the min Schools, is about to propose the abolition of fees should witness experiments upon the decomposition of water, the results of which had led him from medical students. I am told that the cost of to adopt the extraordinary opinion that water is a simple clement. The experiments were made with twelve pairs of Grove's batteries, with electrodes of copies and obtains and opinion that water is a simple clement. The experiments were made with twelve pairs of Grove's batteries, with electrodes of copies and obtains adjucation for every medical student in that insti-Laiontaine has been diving with Dr. Rolph, and some curiosity has been awakened respecting the possible indication of such an occurrence. My impression is, that, politically, it means nothing.

We have all boen laughing here, for some time past, at the proceedings of the control of the cont dulated water, by the detonation which followed as was proved by the detonation which followed from the application of the spark. In the use of this decrees it to abolish the perfection of the spark. In the use of this decrees it is by General Changarner. General Period from the application of the spark. In the use of he copper electrodes, with the batteries, it is highly probable, although there is apparently no erolution of gas at the oxygen pole, that the oxygen unites with the copper, forming an oxide with this metal, and is thus disposed of, while the Whatever the past, at the proceedings of the Bar of Quebec and Three Rivers. The testy gentlemen of the long Scarcely do their own brethren extend to them a particle of sympathy—and that tittle is only a class sympathy, the value of which does not amount to much.

The Globe of this morning denies my statement, that the evidence taken by the Council of the Board of Trade in the Meudel case was not transmitted with the charges to the Government, and that the Government decided against inquity without evidence. The evidence of the contract of the charges to the Government decided against inquity without evidence. The evidence of the contract of the parameter of the contract of the contract of the contract of the production of his chydrogen light, without evidence. The evidence of the production of his chydrogen is at the oxygen poie, that the contract of them and is thus disposed of, while the hydrogen is set free, and escapes. Whatever the hydrogen is set free, and is thus disposed of, while the hydrogen is set free, and escapes. Whatever the hydrogen is set free and escapes. Whatever

electrodes, unless there is some mysterious and unexplained action there, which renders them perfectly inexplosive by the application of frame.

What is the nature of the gas which he produces What is the nature of the gas which he so copiously from water? Is it hydrogen, analagous to that produced from water by other methods of decomposition? When lighted, before passing the turpentine jar, it does resemble the common hydrogen jet, but this, it seems to me, is histilizing produced that it is constanted precisely duce that effect upon the purest hydrogen, pro-cured from water by zine and acid, which Mr. P. perimenters, that they have succeeded in imparting illiuminating properties to this gas when procured by common methods, yet I am very much disposby common m characterizes Mr. Paine's light.

WEST WARD.

TO THE ELECTORS OF THE WEST WARD.

CENTLEMEN,—It has afforded me muca gratification to learn that the result of the double canvass of the West Ward, which has just been made by Messrs. R. P. ISAACFON and A. B. STRWART. on behalf of myself and JOHN FISHIN, Esq.,—and by Messrs. J. H. ISAACFON and G. SMITH, on behalf of myself and H. H. WHITNEY. Esq., is that my name has been almost unanimously placed on both tickets. If the considence thus so generally expressed should place me, at the approaching Municipal Election, in the Corporation as one of the Councillors for the West Ward, I beg to assure you that I shall endeavor to promote the interests of the City to the best of my ability.

the City to the best of my ability.

I have the honor to be, GENTLEMEN, Your most obedient servant, JOHN LEEMING.

Montreal, January 17, 1851. H. H. WHITNEY, Esq. : DEAR SIR,—I enclose you a requisition, numerously signed by Voters of the West Ward, begging you to allow yourself, in conjunction with Mr. John Leeming, to be named as a

Candidate for the said West Ward at the next en-suing Municipal Election.

On my own part, I have to Inform you, that, in connection with Mr. J. H. Isaacson, I have carefully canvassed the Ward, and do not hesitate to affirm, that a majority of the Voters therein have pledged themselves to support you.

Yours very truly, GEO. SMITH. Montreal, 17th January, 1851.

My DEAR Sis.—I beg to acknowledge the receipt of your note, and also the requisition accomparying it: In reply, I beg to state that I feel highly honored by the call made on me by so large a number of the Voters of the West Ward, and shall be happy to comply with their request.

With many thanks for the trouble you have taken in the matter, believe me. taken in the matter, believe me,

DEAR SIE,
Yours very truly,
H. H. WHITNEY. Montreal, 17th January, 1851. TO THE ELECTORS OF THE WEST

WARD. GENTLEMEN.—I have just received, through the hands of Mr. GEORGE SMITH. a requisition, numerously signed by Electors of your Ward, renumerously signed by Electors of your Ward, requesting me to allow myself to be nominated as a candidate with Mr. John Leening, for the said Ward, at the next Municipal Election. I feel honored at the call so made on me, and have much pleasure in acceding to the wish contained in the said requisition, and assure you, Gentlemen, that if I am elected as your representative in the City Council, no effort on my part shall be wanting to prove that the confidence reposed in me has not been misplaced.

I have the honor to be.

I have the honor to be, GENTLEMEN,
Your obedient servant,
H. H. WHITNLY. Montreal, 17th January, 1851.

DR. HALSEY'S FOREST WINE.

PROY to our bests said goat major, this will be for the said becoming the feverite medicine manny every class of people. Known with most efficient remedy for general Biblity, Nervous Advertimes, Community Declare, Complaints of the Known, Heart Lange, and adver all, for discusses arising from impure Bload and habit of the Systems, eminent members of the Medical Faculty have sentenced and at free the use of R.

Dr. L. A. STANLY, a calebrated Physician, in a letter from Princ ton, New Jercey, dared Novembr. 16, 1849, declare that in all his apprehense he had never seen inglining to compare with the Forest Wine and Pille, at the same time relating sex-rainess of constitutional Debility and Secondary affections which is cured in an incredible short inne. Among the members of the Medical Faculty of New York, who have minessed the great results of the Forest Wine, and recommended it is committee majorist, will be found the names of the celebrated Dr. M. T. Goodowan, Dr. S. I. Mott, Dr. L. Guessenint, Dr. Quilton, Dr. Withom Bown, Dr. Marvin, Dr. J. M. M. reau, and others.

TESTEMONY of Johnson Burke, a highly respectable ett 2 as of Warverly Place, New York and failed to do in as many years. In 1847, I became a victim of the Heart Disease and Kervous Affections, wifer have been growing on me ever since, until I procured y are Forest Wine and Pille, in though I had wasted a varial hourded dolters for medical attendance. During the last two years I was obliged to keep my house nearly all the time, and gave up business in consequence of my ill health. Thas nearly lost all hours in him to the last. was obliged to keep in house and gave up house in monacquines of my its least. I had nearly lost all hope of resovery, my complaint was of that class under which "nature sinks and life her mrs a burthen." Seeing your Forest Wine adventised I concluded to give it a trial, and before finishing the third buttle I felt like a different person, had war able to reasone business a ain, entirely exceed by taking five buttles. For the benefit of those offliced with statiar complaints ou are at litterty to publish this. Yours, dee, JOHNSON BURKE, Waverly Ph.ce, N. Y.

HEMPSTEAD; Dec. 1, 1847. Ds. HALSEY: A bottle of your Forest Wine and b meef Pills, which I produced of Mr. James Cerr, (your Agent for this place,) has done, must reforme. I had been in a state of decline, for more than a gent, illiered with a dr. ad'ul cough, p. in in the beat of mount of deliberty and has of aspetite. for me. I had been in a scale design, p. in in than a year, if flieted with a dr ad'al cough, p. in in the breast, general debits, and had been mable to leave my room for more than two months, my iriends told me I had the Consumption, and despaired of my recovery. Seculd not obtain any permanent relief from any midicine I had taken, or my physician; mail-your Wine and Pitts were procured. The first dose of the Pills brought up from my stonach much phlegu and greenist matter, and my stonach much phlegu and greenist matter, and my stopla were parfertly black. It then commenced taking the Forest Wine three times a day, my appetite begins to retain innicidiately, my cough left me, and in less then two weeks I was alm at well. I now enjoy better health than I ever did before, I now erjog better health than I ever did before, now enjoy sever nearth mass z ever an octore, having increased twenty five pounds in seven weeks. Your Forest Wine and Pills are highly valued in this vadinity, and I own my recovery entirely to their ritruiss. Yours, respectfully, MARTIN CALDWELL.

The following Cor ificate, voluntarily given by Mr. E. G. Mussey, a respectable and well-known gitizen of Cohoes, New York, is an evidence which must remove all dubts of the great efficacy of the Forest Wine in GENERAL DEBLLITY, NEURAL GIA, AFFECTIONS OF THE SPINE AND TIMEYS.

AND KIDNEYS:—
This is to certify, that I have used Dr. Halsey's This is to certify, that I have used Dr. Halsey's Forest Wine in my family with the most entire success. My man be as biddy afflicted with Neural-man behilley. She found speedy relief, and regained her health, by the use of the Forest Wine.

From my by a knowledge of this excellent medicine, I confidently recommend it for the good of others who may be suffering with similar complaints. It is the best medicine with which I am acquainted, and those who are afflicted with the

acquainted, and those who are afflicted with the above, or any similar discases, may saidly rely the Cobses, Marcin 6, 1850. E. G. MUSSEY.

of these Springs. Drs. Nelson and Gibb placing them above all other Minaral waters on this Continent.

\*\*\* I believe I meas one of the first Practitioners of this city who recommended the mas of the Plantagenet Spring Wager, and since that time I have prescribed it to a very large nature of my patients with invariable advantage.

\*\* Two members of my family, of feeble and delicate constitutions, have derived marked tenerist from the face of the Water. Oge both early lost all power in the right arm, the result of a severe and protracted branch of Rheumann, the other was excessively debilinated from downingsment of the digestive and attenuitary organs.

\*\* The administration of the Water is attended with the happiest result, in constiguation, arising from accuracy lumints, and in aged persons.

\*\* In heterbura, morning sickness, and the other complists to which women are subject under certain circumstances, in use most agreemby and effectually, but in these derangements, as well as where there is over action of the kidneys unit havele, it should be tasked in smaller quantities at a time, but more frequently.

\*\* From an extensive experience I am well satisfied with the operation of the Water; to weak persons it is quite palarable, and I deem if proferable to any other of the Mineral Waters as a great boon conferred by Providence on mankind.

\*\* WLF, NELSON, M, D., V, R, Col., Apply, & Sur., Canada East.\*

"Many months experience in the use of the Plantagenet Waters in my practice have fully contrinued me of
their value as a reinclud agent, and I have not had reason on any single occasion to regret their use. I find that
they seldsom disagree with the stomach, and always act
as a goulde aperient and alterative, and, from their composition, they possess, in addition, decidedly tonic pronerties.

perties.
"Certainty, too much hus not been said in their favor, for they are, probably, the most valuable Waters on this Continent. " Groser D. Gras, M. D. "Licentiate Royal College of Surgeous, Irela "Physician to the Montreni Dispensary, Montreal, 5th August, 1850."

The following certificate is from the Hon, Peter Metill, a Member of the Legislative Council of the Province, and President of the Bunk of Montreal:

vince, and President of the Bank of Montreal:

"Star—Having during the year past used the Plantagenet Water, so well known and so highly commended
to public favor by many of our most oament. Medical
Practitioners, I can bear testimony to its substary effects
on my own immediate health, and doubt not its efficacy
in contributing to strengthen and navigorate the constitution of those who many freely use it. The value of this
water has been generally acknowledged in this community, and my own experience of its excellent qualities,
fully warrants me in giving my testimony to its beneficial
effects.

" Moutreal, October 24, 1850." For Sule by A. MANN, 4, ee d'Armes.

MEGRETANT TESTIMONIALS.

Bir. WM. Bolle.—Sir.—The preparation invested by you for the hair, has been extensively used in any family, and they give to the decided preference over all other compositions of the kind. It investigates and beautifies the hair, and clears the skin of all impurities, without producing any attinuate delectrious effects, which are so preducing any attinuate delectrious effects, which are so producing the result of many well-known parented compromises. IMPORTANT TESTIMONIALS.

It is an indispensable article for the Ladies, as it keeps the hair m piace and carl, and the skin or parting of the hair free from danfurd and scurf. For children, it has the foundation of a good head of hair. IMPORTANT TESTIMONIALS.

Copy of a Letter from "Colonel Houcker," (the sections as the section of the section o BOGLE'S AMOLF;

A COMPOUND FOR SHAVING.

This delightful article is totally different and far saperior to anything yet invented for shaving. The base of it is derived from the Amels, or "acap plant," of Californa, and thus the use of strong alkali, so harful to the skin, is a voided. Its vegetable and detergent properties have the unit almys irritation, and has a fine, thick, oreany lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable scap. It is done up in elegant etyle, calculated either for the dressing case of the "cough and ready" i may ealier, or the toilet of the most fastidious commonseeur.

The following is from Summer F. harrett, Saratoga Street, East Boston;

EAST BOSTON, Feb. 8, 1647.

Mr. William Bogle.—Dear Sir: For several years past, my wife has been iroubied with bahiness on the Crown of the head, about six or seven inches in circumterence.—After repeated failures of other six-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that is effect has been to cause the hair to give, all over the part affected. Six has used only two bottles, and that very irregularly; had she used it oftener and more regular, I am convinced that the growth of the hair would have been accelerated. I am, Sir, yours respectfully, SCMNER F. BARRETT.

To Mr. KEATING.

| MEDICAL WARKHOESE, Halifax, N. S., August 15, 1846. |
| Fir.—In mentioning the receipt of your letter, with second consignment of Lozenges, by the 'Racer,' we are gratified in being able to inform you that they have given very general satisfaction here, (having proved singularly elluracious in the removal of COLGHS AND COLUNA) of which the increasing demand is a sufficient evidence. We shall, probably, require for the Winter a voicence. We shall, probably, require for the Winter Ayou'ra frapeological for Your's respectfully, MORTON & Co.

254

How many remedies are offered for this agonizing disease, and how few have succeeded even to give temporary relief! We have no apace here for argument; suffice it to say, that the sent of Rheumatism is other mistaken, and this may be the cause for its bistimery to medical treatment. Some say it is in the blood, some in the bouses, some in the tissues, while the truth is, that Rheumatism is a disease of the artres. Now as Electromagnetism is acknowledged to be the only agent which and the paper printional to assert that in all Rheumatic affections, his matter low severe, whether elsonic or inflammators, the most certain and instantabeous reliet is afforded by Dr. Sherwood's Glavanic Embrocation,—this is the truth, strange as it may seem. The following letter was hately received by a well-known Physician in New York, who had recommended to a Rheumaic puttent a trial of Pr. Sherwood's Gulvanic Embrocation, as all other prescriptions had failed:—

My Dran Doer, —I suppose you woulder why I have not written you before this time, to report progress, but to foliate in I haven been as little of an invalid, that I have

all other prescriptions and march."

My DEAR Doct.,—I suppose you woulder why I have not written you before this time, to report progress, but the fact is, I have been so little of an invalid, that I have hed nothing to write to a Dr, about. When you requested me to procure a bottle of Dr. Sherweod's Gaivanie Embrocation, I had so little faith in any remedy that it was with great reluctance that I could try it, but to my surprise I commenced getting better after the first application, and it was not two weeks before I chi as well at lever was. Lwould now recommend you to prescribe it hereafter to every one that may be so unfortunate as to be afflicited with the disease.
