GREAT BIKE TRADE NOW GOING ON

Did You Lose Your Wheel?—Ask Police For it.

Round-Up Made on Dundas Street is Most Remarkable.

Bicycles of every size and description, old and new, well and ill-assorted were scattered about the official portion of the police court this morning, when Magistrate Livingston took his seat. All the bicycles and accessories had been found upon the premises of Mark Smick who lives at 175 Dundas street, and he along with Harry Braddick were charged with theft. Braddick rents a room from Smick, and although there were many found in the room, there were many on the landing outside of his room in which a vice had been fixed and various small accessories had been found. The two men admitted doing a business in these machines and also stated that the trade was carried on quite honestly. They, being mechanics bought old bicycles and parts and renovating them, they were taken to the market, in some instances, and in others to private buyers and sold. From the brand new appearance of some mounts they did not appear to need a great deal of work to make them as good as they ever were. Alterations to the mounts had been carried out in an expert manner. The identification numbers had been scraped and filled with lead and then enamelled over and parts of bicycles substituted until a machine was almost unrecognizable. The machines were supplied with different wheels, seat, handlebars and tires, this identification was almost impossible. The first witness, J. Gilman, said he was a grocer at 12 King St. He bought a wheel from C. J. Mitchell, a bicycle dealer on Dec. 16th, for \$45, and it was stolen from the shop three days later. Since then he had seen no trace of the machine. He recognized a frame in the court as his, although the number had been filled in and other alterations made. C. J. Mitchell corroborated, and said he had no doubt that the bike produced was the one he had sold in December to Gilman. Other machines found upon the premises tallied descriptions of missing bikes which had been given to the police by two young fellows named O'Brien and McMinnes. Replying to this Braddick said he had bought the wheel mentioned from a youth for \$4.50, and owing to its new condition he wanted to return it to the police as he had some doubt about its origin. Smick, however, retained the wheel and said he could soon make it look different. He had bought a great deal of bicycle junk from a blacksmith next to Montgomery's store.

The Magistrate could not understand why these two men should try to change a new bicycle to an old one when it would sell much better as it was. Braddick went on to say he had been in this city for two years and had worked at the Malleable Iron works, but had not worked for some time.

A curious state of affairs was then revealed which showed that had these men not had a quarrel, their profitable business might never have come to public knowledge. Braddick, at the time when he had bought several items for his business, had applied for city aid and asked for coal. These he did not get, but Smick had been successful in obtaining coal. Smick

STRIKE AT M. H. CO. IS NOW OVER

Massey-Harris Men Accept Rather Stiff Cut In Wages.

Conciliatory Attitude of Men Shown in Negotiations

The walk-out of the coremakers at the Massey-Harris Works developed into a walk-in this morning. The men went back. They reached some sort of a compromise yesterday, not one that could be considered a satisfactory one from their standpoint, but nevertheless one in which a conciliatory attitude by the strikers was the dominant feature. This is borne out by the admission of the firm and representatives that the coremakers returned to work to-day with a reduction in their piece work of 15 to 20 per cent. In going back to work under these conditions the men asked that a practical representative of the firm which one of their own men go over the piece work in the core room with consideration of the new schedule of pay therefor, and if these men found an adjustment necessary it should be made. The men returned on the stipulation, and promise that this would be done immediately.

When asked to-day if the trouble was over, Mr. Franklin Grobb, general manager, refused to commit himself.

Bar High Heals and Slit Skirts By Law

Bill Before Maryland Legislature Also Prohibits Tango and Similar Dances.

ANNAPOLIS, Md., Feb. 19—A bill was introduced in the State Legislature here yesterday by Representative Andrew W. Snowden, which, if carried, will prohibit the wearing by women and girls of high heeled shoes and slits skirts, and also the dancing of the turkey trot, the bunny hug, the tango and similar creations.

The bill prescribes that money collected from fines for violations of its provisions shall be used to educate "girls how to dress decently."

COMMITTEE NAMED ON REDISTRIBUTION

Names of Those Who Will Prepare the Schedules of the New Act.

OTTAWA, Feb. 20.—The committee which is to prepare the schedules of the Redistribution Bill was appointed in the House of Commons yesterday on the motion of Right Hon. R. L. Borden. It is to consist of Hon. Messrs. Pelletier, Reid and Rogers and Messrs. Bennett (Carleton), Deland, (Beauce), Buchanan (Medicine Hat), Pardee (W. Lambton), Rhodes (Cumberland, N.S.), and Macdonald (Picton, N.S.).

Mr. Borden adhered to the view that a committee of seven members would be preferable to one of nine. However, he had no objection to the adoption of the latter number.

Sir Wilfrid Laurier agreed that a small committee would carry out its task better than a large one. He thought that with nine members, eight would represent the various groups of provinces and the ninth could "act as umpire."

ASK APPOINTMENT OF A COMMISSION

To Investigate Unemployment Throughout the Dominion.

(By Special Wire to The Courier)

WINNIPEG, Feb. 20.—At a meeting of the Trades and Labor Council a deputation was appointed to wait on the City Council next Monday evening to request that body to officially suggest to the Dominion government the desirability of appointing a Dominion commission on the question of unemployment throughout the country. Addresses were delivered by J. W. Bruce of Toronto, organizer of Plumbers and F. W. Bush of Toronto, international vice-president of the Garment Workers. The last named urged a stronger demand among labor men for the union label on clothing and other goods purchased by them.

Temperance Hotel Will Is Too Vague and Fails

Michael Patrick Doyle, of Pushtech Township, who died on August 29, 1912.

He left \$1,000 to accumulate in investment till a temperance hotel might be established in Guelph, when payments were to be made from the accumulated sum under the approval of the Bishop of Hamilton.

His lordship says such a hotel as the testator had in mind may never be established in Guelph, and even if it should be, the approval made a prerequisite to payment may not be given.

The bequest is too vague and indefinite to be supported and fails.

WARNS ASQUITH THERE IS PERIL OF CIVIL WAR.

The new battle over home rule for Ireland—main feature of a session programme which it is predicted will be history making and filled with danger lines—began promptly with the reopening of parliament by King George. Walter Long, formerly Unionist Chief Secretary for Ireland, fired the first gun, which he loaded with a challenge to Premier Asquith to submit the question to a vote of the people.

The uncompromising tenor of the Unionist position was shown in Long's declaration that if the government sought to put its home rule bill into effect it would succeed only by the use of bullets and bayonets. He declared the empire to day is facing the peril of civil war.

He flung into the faces of the Cabinet Ministers the charge that their recent course in South Africa was pusillanimous and the taunt that they dared not risk conflict with the government there.

Long's bitter attack created a sensation, and aroused enthusiastic approval on the part of the Unionist members. Premier Asquith in his reply promised that the government would take the initiative in putting forward suggestions for a settlement by agreement of the Irish difficulty.

DUBLIN IS A CITY OF SLUMS SAYS REPORT

Some Conditions Found Which Were Unprintable—One Room Houses.

(By Special Wire to The Courier)

NEW YORK, Feb. 20.—A London cable to The Tribune says:

The report on the recent inquiry into the housing conditions of Dublin issued last night is sensational in character. Unprintable details are given of horrible and degraded conditions of life in many tenements and they are supplemented by pictures of some of the wretched homes of the poor in Dublin. Serious charges are made against members of the corporation who are owners of slum property, and also against Sir Charles Cameron, chief medical officer of health for the city. It is stated that 14,000 new buildings are required at a cost of \$17,500,000. Of 25,822 families living in tenements, 20,108 live in one room. Among 12,000 families, the average number of occupants per room is six.

The fifth met with is indescribable, and the conditions disclosed are manifestly responsible for much immorality. Children scarcely realize the meaning of the word home and acquire a precocious knowledge of evil from early childhood.

A MAN WITH ONE \$50 NOTE WOULD STARVE IN MEXICO

—TORONTO MAN WRITES—

Everything Crippled—The Banks Can Refuse to Pay Deposits and Yet Not Go Into Liquidation—What Warfare Means.

(By Special Wire to The Courier)

TORONTO, Feb. 20.—How disturbed are the finances of Mexico is related in the Monetary Times in a letter received in Toronto this week by a gentleman whose son is in business in the troubled republic. The Mexican government he says, is on its last financial legs, and is printing bills by the bale to meet the demands for currency. Metallic currency cannot be had anywhere for any consideration as there is none in the country. According to the writer of this letter, who obtained his information from a high authority the scarcity of the currency in Mexico is due to the exportation to the United States of gold and paper money in millions of dollars with the object of crippling the present administration in Mexico. "They have done that," says the writer, "but have played the dickens with the few who are still trying to hold their business together and do some business."

"Taxes have been raised on all things to a prohibitive point," he continues, "and with this they cannot hope to cover by more than half the daily cost of maintaining the army which they have to pay every day to hold its confidence. The banks have been given (what the government calls) a holiday from the middle of last December up to the 31st of March. That means that the bank's cannot be compelled to meet any obligation unless they see fit to do so, but can push collections as in other

Unionist Majority Is Reduced In Bye-election

Radical had 6,713, a Unionist majority of 2,331. The electorate numbered 18,268.

At the general election in 1910 the Unionist majority with an electorate of 16,866 was 2,556.

As admitted by all parties Home Rule was the paramount issue and the deduction is regarded as significant of growing distaste of the moderate Unionist for the policy of Sir Edward Carson.

VICTORIA IS CLOSED.

NEW YORK, Feb. 20.—The Victoria Hotel at Broadway and Twenty-Seventh street, popular for many years as headquarters of Canadian visiting New York, and more recently of labor leaders, is to be made way for a 24-story office and loft building to cost \$3,000,000. The hotel will be closed next Thursday. It was erected in 1871.

INDIAN'S CASE TRIED IN OSGOOD

George Miller is Suing Mohawk Institute for Damages.

Major Ashton Files His Defence in Toronto Today.

(By Special Wire to The Courier)

TORONTO, Ont., Feb. 20.—Alleging that his two daughters were punished, imprisoned, improperly fed and permanently injured and disfigured at the Mohawk Institution or School, near Brantford, George W. Miller is suing Superintendent Major Nelles A. Ashton for \$5,000 damages and also seeks at Osgoode Hall an order to change the place of trial from Brantford to Simcoe.

Miller, who lives on the Reserve says that Major Ashton has a large family connection and that he is related to prominent and well connected families in Brantford. Under these circumstances, according to Miller, a Canadian could not get a fair trial in Brant County.

Miller alleges that Ruth and Hazel Miller were assaulted and punished in August last by having their hair cut off, thus sustaining injury and disfigurement. In the same month, Miller says, Ruth was imprisoned in a dungeon and served with bread and water for three days, and Hazel was confined to a room on simple diet. He charges, too, that Ruth was cruelly whipped on the bare back. Miller complains of stale food, separated milk, wormy oatmeal and spoiled meat.

Miller says Major Ashton did these things personally or instructed others.

HOLMEDALE CASE TO BE TRIED HERE

Celebrated Case Has Been Transferred Back to This City.

Argument Took Place at Osgoode Hall This Morning.

(By Special Wire to The Courier)

TORONTO, Feb. 20.—Gladys Meredith's actions against Chief of Police Slemm and Dr. Ashton of Brantford will go to trial in that city at the assizes beginning on March 31st. The claims against two police constables will not be tried out until security for costs are given. Before Master-in-Chambers Cameron, at Osgoode Hall to-day, counsel for defendants asked that venue be changed from Simcoe to Brantford.

"We brought action in Brant County," said J. M. Godfrey, "and they said that feeling was so strong they could not get a fair trial in Brantford. Then the venue was changed to Norfolk, and in the town of Simcoe my client was given \$1500 damages. Now Norfolk having gone against them, they want to go back to Brantford."

"The only feeling in Brantford now," remarked the defendants' lawyer, "is one of indifference."

"I think that the venue should be changed to Brantford," said the Master. "The witnesses are there, and the preponderance of convenience rests with Brantford."

Guelph P. M. Orders Spanking For Boys

Parents Consent and Stalwart Policemen are to Apply the Hand.

GUELPH, Feb. 20.—Taht Police Magistrate Watt is a believer in the deterring effect of corporal punishment was evidenced yesterday, when he decided that two boys should be thus punished for stealing several small articles. With the parents' consent the boys were given a good, sound spanking by two policemen.

A couple of weeks ago Magistrate Watt sentenced a wife-beater to ten days in jail and five lashes of the cat-o-nine-tails.

SEVEN KILLED AT GLASGOW.

GLASGOW, Scotland, Feb. 20.—Seven workmen were killed, a large number injured and many buildings destroyed to-day at Arder, Ayrshire, by an explosion at the Nobel Gunpowder works.

The Meredith case excited a good deal of interest some time ago. The girl charged the Chief, Doctor and policemen with false arrest, assault, etc. The defendant

War Office Condemned In Damage Suit Case

Must Pay \$10,000—System of Confidential Reports Scored by Judge.

LOONDON, Feb. 20.—The British War Office system of confidential reports on which officers of the army may be condemned and sentenced to professional ruin without being heard in their own defence, was severely censured by the Judge of the King's Bench Court yesterday. A jury awarded Major W. Augustus Adams, formerly of the Royal Irish Lancers, the sum of \$10,000 damages against Sir Edward Ward in his capacity as Permanent Secretary of the War Office.

Major Adam, who distinguished himself at the siege of Ladysmith, South Africa, and was at one time employed on special service in Japan,

brought a suit for libel alleged to be contained in a letter written and published by Sir Edward Ward, saying that Major Adam had had to retire from the army in consequence of adverse reports.

Major Adam contended that the letter suggested he had been guilty of dishonorable conduct and incompetence.

The letter was written in consequence of an attack made by Major Adam while he was a member of the House of Commons on the late General Scoble, who had made the adverse reports.

Colonel Sedy, Secretary of State, for War; Sir John French and Sir Reginald Brind were among the witnesses called in the case.

The Secretary for War refused to produce the alleged defamatory reports in court on the ground that they were against the public interest.

An Excellent Coat Opportunity for SATURDAY Purchasers

To women who have left their coat buying until now we only ask you to inspect these many new coats which have been added to our broken size assortments only this week. Echo Place Women's Inst.

The Echo Place Women's Institute met Thursday afternoon at the home of Mrs. J. J. Burke, Mohawk Lodge. The minutes of the last meeting were read and adopted. The business of the day was then taken up.

Mrs. George Hall then gave a good paper on "water" its uses to the body health and disease. Miss Jessie Edmondson read a fine paper "St. Valentine", telling us who St. Valentine was, and why we always remember Feb. 14th.

Mrs. Hurley of the Moyle-Tranquility Institute, gave some sketches on the life of "Our own poetess" Miss E. Pauline Johnson. Mrs. Kitchen, our district president gave a few ideas on "How to promote happiness in the home."

NAMED ONLY ONE
Nat Goodwin, 5X husband and actor was standing in front of the Lambs' club Sunday night with J. Hartley Manners, author and husband, (but only in the first degree). A stranger approached. "Excuse me," he said, "are you members of this club?" "Yes," answered Goodwin. "Well," the stranger went on, "I was wondering if a friend of mine is inside—tall, thin, red-haired chap with one eye, named Lambton." "What's the name of his other eye?" asked Manners. "And Mr. Manners is an Englishman, too!"—New York Times.

CANADIAN SINGERS GET FREE MEALS

Stranded Company Guests in Municipal Lodging House.

DENVER, Col., Feb. 20—The Canadian Grand Opera Company yesterday cancelled all its future engagements. The singers, chorus, and ballet are planning to start for New York as soon as possible. Two benefit performances, matinee and evening, were given here at the Auditorium yesterday, and it was declared enough was taken in to send the stranded troupe to New York.

At noon to-day 100 members of the company will be guests of Denver at the municipal lodging house. A big dinner is assured them. Mme. Marie Raphael, one of the stars, took \$40 out of her own pocket and bought "grub" for the whole bunch. Meantime the actors declare that \$6,000 of the receipts taken in here the first night has disappeared. Leo Slezak, the tenor, who "fled," was condemned yesterday by the other stars for "deserting."

THOMAS EDISON NOW SIXTY-SEVEN, ON 10 CENT OPERA

Birth day of Electrical izard is Celebrated—Still Loves Phonograph

NEW YORK, Feb. 17—Thomas A Edison, celebrating his sixty-seventh birthday on Wednesday said he is going to give Poldunk grand opera for ten cents. "Wait till I get my movies fixed the way I want them," he said to a reporter; and he added that when he finished, the big diamond horseshoe in the Metropolitan would not have all the grand opera to itself. Forty-foot screens with three or four hundred people on the operatic stage were mentioned. "The voices and the action, with perfect reproduction of the orchestra and all the stage decorations and fine costumes, are what we're going to have," said Mr. Edison. "We've barely started on moving pictures."

15 Hours Daily Work
Mr. Edison has cut his working day down to fifteen hours, beginning at half-past eight in the morning and continuing until twelve at night. He explained that this was a concession to Mrs. Edison, who objected to his working longer. "She cut down my work hours," he declared with a smile. "When a man is as young as I am and has his head cram full of ideas, he doesn't need to sleep more than five hours; and I'm getting Mrs. Edison trained in so that she doesn't want more than five or six hours sleep and nine or ten ounces of food in a day. Most people eat too much. I live on ten ounces of food myself, eating whatever I want but not very much of it."

Mr. Edison looks not one day older than he has for years past. He is deaf, as he has been since boyhood; but this does not prevent him from "playing," as he puts it, with all sorts of instruments and inventions for the transmission and preservation of sound. His hair is growing white, but the wrinkles stay away from his broad forehead and his clean-shaven face still bears the ruddy color of youth. The phonograph is his favorite invention. He has been trying to bring it to a state of perfection for three years and is willing to spend three years more at it. By that time he expects to have it absolutely complete.

AGREEMENT BROKEN.
WINNIPEG, Feb. 20—A resolution was adopted by the convention of the C. P. R. system federation, declaring "that the G. T. R. had not lived up to the spirit of the agreement made at the termination of the strike of its machinists and boiler-makers and in view of the fact that the men were only asking for rats and conditions similar to those prevailing on competing roads, their demands were not unreasonable."

THEN THERE'D BE NONE LEFT.
Author—I have put a good deal of my own life into this story.
Editor—I wish you had put all of it into it.

Social and Personal

The Courier is always pleased to see items of personal interest. Phone 1281.

Mr. Lloyd Almas is in Toronto attending the Motor Show.

Mr. W. F. Tisdale of Leamington, is a guest at the Belmont Hotel.

Miss Elsie Cockshutt and Mrs. Glen Ellis were visitors on Thursday in Toronto.

Miss Weinaugh has returned home after an extended visit in Toronto and Rochester.

Mrs. R. W. Leonard who has been in Ottawa has returned to her home in St. Catharines.

Mr. E. Wilson and wife of Hamilton are among the guests registered at the Belmont Hotel.

Mr. and Mrs. A. F. Armstrong of Owen Sound are the guests of Mrs. Todd, 172 William Street.

Mr. and Mrs. Louis Scruton, of Toronto, are the guests of friends in the city for a few days.

Mrs. W. P. D. Broderick of Toronto, is visiting this week with Mrs. A. D. Garrett, Brant Avenue.

Miss Carson of the Brantford General Hospital, has been called to Toronto on account of the illness of her sister.

A very pleasing birthday party in honor of Mr. Tom Dowling, 29 Sheridan street, was held last evening. There were four tables of progressive euchre, Mr. and Mrs. W. A. Tuck were the prize winners. Mr. Bert Wismer won the consolation. Refreshments brought a delightful evening to a close.

The O. N. O. Euchre Club held their usual gathering at the home of Mr. and Mrs. F. Kemp, Marlborough street on Wednesday evening last. After the usual games were played a dainty luncheon was served the first prizes being carried off by Mrs. A. Waldron and Mr. J. Waldron.

A pleasant time was spent Tuesday when Miss A. Howden, with a sleigh-load of her friends from Alford drove in to Alfred St. rink for a skating party. During the early part of the evening they worked up an appetite for the good things to come. When they had skated until all were tired, they wended their way back to Miss Howden's home, Dalhousie street, where a delicious oyster supper was served and much enjoyed. The remainder of the evening music and games were indulged in and it was a joyful party which left in the early hours of the morning singing as they glided down the street, "For She is a Jolly Good Fellow." Owing to the fact that the driver was a baseball player as well as an expert horseman, the party also enjoyed the interesting as well as fancy curves which he exhibited while handling the ribbons.

Pleasing Event Mrs. Gandier Rendered Excellent Program at Brant Ave. Church.

The coffers of the Ladies Aid of the Brant Avenue Methodist Church were enriched last night as the result of the splendid efforts of Mrs. Gandier, who, with a little assistance from the Rev. A. E. Lavell, conducted an entertainment solely from her own repertoire. Her versatility was amazing, for she sang, recited and gave pianoforte solos in a very commendable way, to a very appreciative audience. Several readings were rendered, as the others excellently. Pastor Lavell revealed to be a second Bengough, for he accompanied his numerous recitations by drawings upon a blackboard in a manner which showed no mean ability. Opening the programme, Mrs. Gandier said she was giving the concert with a little assistance. She was chairman, committee and performer. Among the numerous songs, which were rendered in an accomplished manner were: "I cannot help loving thee," "Tis seventy years ago," Scotch song, "Tis there where my heart wants to be," "My Queen of May," "I dreamt I was a child, and Spring is calling." She recited in touching manner a tale of the civil war which contains a pleasant little love theme. It was entitled, "I'd lay me down and die." An expert on the piano, she rendered Schubert's works perfectly. Taking quite a minor part, but nevertheless a thoroughly enjoyable one, was Pastor Lavell. Telling the story of an ancient time calf, which wandered and lo, its wanderings subsequently affected a city of importance, he illustrated with facility. Brantford streets were the butt of a pun when the audience was asked if they knew why the streets were not good. He answered that an Indian wanted the city drunk who was not of the Indian list. The "eleven goat," and the "Turnip" sketch recitations were very well taken and smiling in acknowledgement the pastor said he was glad to be of service to the ladies. The singing of a hymn brought the proceedings to a close.

LITTLE PUPPY BY PARCEL POST.

Mrs. Borman, a resident of Waterloo street, received yesterday a real live parcel by post. It was a fox terrier puppy, who came through the mails from Oshawa in fine shape, although a trifle hungry from his journey. The little fellow was on the road two days and a night, and naturally his hunger was of the voracious kind.

SOME TOASTS.

Here's to Home, the place where we are treated best, and grumble not.
God made the world—and rested; God made man—and rested; Then God made woman; Since then neither God nor man has rested.
Here's to the heather, who worries about style
That gentle folks all follow; He merely wears a happy smile, A sunburn and a collar.
To vomankind I raise mein stein
U'd drink away der bubbles;
She is der cause of care and strife,
Der greatest foolishness in life,
Und hit me! such a troubles!

HOMESEEKERS' EXCURSIONS AND SETTLERS' TRAINS TO THE WEST.

Those taking advantage of above Excursions should bear in mind the many exclusive features offered by the Canadian Pacific Railway in connection with a trip to the West. It is the only all-Canadian route. Only line operating through standard and tourist sleepers to Winnipeg and Vancouver. All equipment is owned and operated by Canadian Pacific Railway, affording the highest form of efficiency. Homeseekers' fares will be in effect each Tuesday, March 3rd to Oct. 27th inclusive, and round-trip second-class tickets will be sold via Canadian Pacific Railway from Ontario points (Aglida and East) at very low fares—for example from Toronto, also West and North of Toronto, to Winnipeg and return \$35, to Edmonton and return \$43. Other points in proportion. Fares from points East of Toronto will be slightly higher. Return limit two months. Homeseekers' trains leave Toronto each Tuesday during March and April. Each Tuesday during March and April the Canadian Pacific will run Settlers' trains to Winnipeg and West and for the accommodation of settlers travelling with live stock and effects, a colonist car will be attached to the settlers' effects train. This car will leave Toronto on the regular train at 10.20 p.m., and on arrival at West Toronto it will be attached to settlers' effects train as mentioned above. For those not traveling with live stock and effects, special Colonist cars will be attached to regular trains from Toronto running through to Winnipeg without charge. No charge is made for accommodation in Colonist cars. Tourist sleeping cars are also operated on regular train leaving Toronto 10.20 p.m. Full particulars from any C.P.R. Agent or write M. G. Murphy, District Passenger Agent, Toronto.

put it in a double boiler, add some milk and grated cheese, sufficient flour to make a batter, form into little cakes and fry. Darning thin places in blankets is better than waiting till there is a hole and other patching. A slight grease spot on the carpet or rug may be rubbed out with ordinary cornmeal. A weak solution of saleratus is better than soap for cleaning paint.

Radium for Cancer.
Alderman Edward Holt, an ex-Lord Mayor Manchester, announced that he was prepared to provide £2000 for the purchase of radium for use in Manchester hospitals for the treatment of cancer.

MARKET REPORTS

CHICAGO, Feb. 19.—Suggestions of crop damage in Northern Texas, Western Oklahoma and parts of Kansas, Nebraska, tended somewhat to dispel heaviness today in the wheat market here. As a result, prices moved fairly steady, shade off to a like amount up. In corn, the market was unchanged to 1/2c lower and for oats virtually the same as yesterday. Provisions finished all the way from last night's level to 1/2c.

TORONTO GRAIN MARKET.
 Wheat, fall, bushel... \$0.92 to \$1.00
 Barley, bushel... 82 to 84

THE COURIER

Published by The Brantford Courier Limited, every afternoon, at Dalhousie Street, Brantford, Canada. Subscription rate: By carrier, \$3 a year; by mail to British possessions and the United States, \$5 per annum.

SEMI-WEEKLY COURIER—Published on Tuesday and Thursday mornings, at \$1 per year, payable in advance. To the United States, 50 cents extra for postage.

Foreign Office: Queen City Chambers, 82 Church Street, Toronto. H. E. Smallpiece, Representative.

Friday, February 20, 1914

WAR AND HUMAN NATURE

Norman Angell's peace movement is based on the belief that men will not go to war against their financial interests. It is merely a revival of one of the tenets of the Manchester School of Political Economists.

REFORMING JERUSALEM.

It is not strange that the Jew wandering to America gravitates to the cities. He seems to belong by ancient tradition to a city. The Jews came first from Jerusalem the old home place of the race.

Water is a scarce article in Jerusalem, what is drunk being kept in cisterns under lock and key. Pumping stations are to be provided, if Mr Straus' plans work out, to raise the water from its plentiful sources in the region around.

THE UNEMPLOYED AND JOBS

The need of a national system of labor bureaus to bring work and workers into touch grows daily more apparent. At Georgetown, 30 miles from Toronto, a strong and prosperous church was without a regular janitor for many weeks.

tion of those 'out of work' know nothing of farm life and have no agricultural skill. A still greater number dislike the country and cleave to the city out of sheer love of city life even in the face of most distressing odds.

BLESSING OR CURSE?

The attempt of the United States to stem the tide of foreign immigration somewhat by including an elementary literacy test in the regulations under which men are admitted to the country will be followed with interest by Canadians.

BRITISH COLONIZATION.

In the recent book by Mr. Cory on "The Rise of South Africa" (Longmans), an account is given of the early British settlers in that country. Though the English took the land from the Dutch in 1806, it was not till 1820 that anybody came from Britain outside of the official establishments.

NOTES AND COMMENTS.

It appears that George H. Primrose "the millionaire minstrel" used to be a bell boy in the Tecumseh House, London. Who couldn't get rich by the combination of two such professions?

GREAT BIKE TRADE

(Continued from Page 1) would not share his coal with Braddick and then arose a business split, and the latter as retaliation took the wheel mentioned to the police and gave it up, saying he thought it was stolen and that he had bought it for \$4.50 from Smick.

HOLMEDALE CASE

(Continued from Page 1) ants believed that public feeling was such in Brantford that a fair trial would be out of the question, so they obtained a change of venue to Norfolk. Judgment went against them, but on appeal the judgment was set aside, but Miss Meredith was given leave to sue the defendants individually. This she is doing.

POPE AGREES TO RISE AT 6 A. M.

ROME, Feb. 20.—The frequent reports that the Pope is indisposed have induced a correspondent to make an inquiry as to what the real condition and present mode of life of His Holiness. He will be 80 years of age on June 2, 1915, and he is nearly eleven years older than when he was elected Pope.

THE MINER'S TACT

A miner got killed and a tactful associate to break the news to the widow. So the tactful fellow called at her house and said: "With your golden hair, blue eyes and pink-and-white complexion, ma'am, you'd break every heart in town if you wore widow's weeds."

CAN'T FOOL ALBERT.

Young Albert was a practical joker and everything that he learned at school he endeavored to apply in his daily life and work. The lad had recently become very friendly with a little boy who had lately moved in that vicinity and one afternoon his mother asked him to look good in black, though?—Philadelphian Record.

TO THE Electric Consumers OF THE CITY OF BRANTFORD:

We have made arrangements with T. J. Minnes & Co., 64 COLBORNE STREET to distribute the Efesca Patent Wire Lamps. These Lamps are BEST BRITISH make, have stood the test against all good lamps.

UNCLE WALT

The Poet Philosopher

SUPERSTITION.

Last night, to my intense despair, a black dog howled beneath my casement; and at his head I threw a chair, and all the stove-wood in the basement. And still he howled to raise the dead, as though his soul were torn by devils, while I kept throwing at his head old hammers, planes and spirit levels.

THE MEANEST THIEF

Robbed Blind Man

Threatened to Beat Him if He Did Not Hand Over Fifty Dollars

COBALT, Feb. 20.—One of the meanest thefts ever perpetrated in the North Country was brought to the attention of the Cobalt police yesterday when Adolphus Meloche, a blind man considerably over middle age and totally unable to defend himself against attack, reported to Chief Burke that an unknown person, supposed to be a French-Canadian, had lured him out to a lonely spot beyond the Hudson Bay Camp and there held him up and robbed him of \$50, leaving him to get back to town as best he could.

Robbed Blind Man

Threatened to Beat Him if He Did Not Hand Over Fifty Dollars

COBALT, Feb. 20.—One of the meanest thefts ever perpetrated in the North Country was brought to the attention of the Cobalt police yesterday when Adolphus Meloche, a blind man considerably over middle age and totally unable to defend himself against attack, reported to Chief Burke that an unknown person, supposed to be a French-Canadian, had lured him out to a lonely spot beyond the Hudson Bay Camp and there held him up and robbed him of \$50, leaving him to get back to town as best he could.

POPE AGREES TO RISE AT 6 A. M.

ROME, Feb. 20.—The frequent reports that the Pope is indisposed have induced a correspondent to make an inquiry as to what the real condition and present mode of life of His Holiness. He will be 80 years of age on June 2, 1915, and he is nearly eleven years older than when he was elected Pope.

THE MINER'S TACT

A miner got killed and a tactful associate to break the news to the widow. So the tactful fellow called at her house and said: "With your golden hair, blue eyes and pink-and-white complexion, ma'am, you'd break every heart in town if you wore widow's weeds."

CAN'T FOOL ALBERT.

Young Albert was a practical joker and everything that he learned at school he endeavored to apply in his daily life and work. The lad had recently become very friendly with a little boy who had lately moved in that vicinity and one afternoon his mother asked him to look good in black, though?—Philadelphian Record.

TO THE Electric Consumers OF THE CITY OF BRANTFORD:

We have made arrangements with T. J. Minnes & Co., 64 COLBORNE STREET to distribute the Efesca Patent Wire Lamps. These Lamps are BEST BRITISH make, have stood the test against all good lamps.

UNCLE WALT

The Poet Philosopher

SUPERSTITION.

Last night, to my intense despair, a black dog howled beneath my casement; and at his head I threw a chair, and all the stove-wood in the basement. And still he howled to raise the dead, as though his soul were torn by devils, while I kept throwing at his head old hammers, planes and spirit levels.

HYDRO RATES

THE CHURCHES EXPLAIN

Claim Made That Than Western Charge

At the Hydro-Electric question was asked this morning regarding Hydro-Electric churches. The following was obtained: The rate of commercial lighting rate is as follows:

Three cents per kilowatt-hour for the first thirty hours of installed capacity.

One and one-half cents per kilowatt-hour for the next ten hours of installed capacity.

Seventy-five one-thousandths of a cent per kilowatt-hour for the remainder of the month.

Ten per cent, discount from the entire bill for payment. This brings the churches down to an equality with the private companies.

monthly consumption large, and in churches many evening meetings the week the net above graduated scale is considerably less than the private rate. This fact realized by the boards of churches in the city and of the church business been secured and there still more of the decide to use Hydro-Electric for lighting, very

The Miner's Tact
A miner got killed and a tactful associate to break the news to the widow.
So the tactful fellow called at her house and said:
"With your golden hair, blue eyes and pink-and-white complexion ma'am, you'd break every heart in town, if you were widow's weeds."
The young woman laughed and blushed for pleasure.
"O, go on!" she said.
"And you are a widow, too," said the tactful miner quickly seizing his chance. "Bills legs and arms was just blown off in an explosion. But by Jimminy ma'am, ain't you goin' to look good in black, though?"—Philadelphia Record.

Can't Fool Albert.
Young Albert was a practical youth and everything that he learned at school he endeavored to apply in his daily life and work.
The lad had recently become very friendly with a little boy who had lately moved in that vicinity and one afternoon his mother asked him if his little playmate was an only child. Whereupon Albert looked very wise and triumphant.
"He's got just one sister," he said. "He tried to catch me when he told me he had two half sisters, but I guess I know enough about fractions for that."—Harper's Magazine.

HYDRO RATE FOR THE CHURCHES IS EXPLAINED

Claim Made That it is Lower Than Western Counties Charge.

At the Hydro Electric office a question was asked this morning regarding Hydro-Electric rates for churches. The following information was obtained. The rate quoted to all churches is exactly half the regular commercial lighting rate which makes it as follows:
Three cents per kilowatt hour for the first thirty hours' use per month of installed capacity.
One and one-half cents per kilowatt hour for the next seventy hours' use per month of installed capacity.
Seventy-five one thousandths of a cent per kilowatt for all additional consumption.
Ten per cent discount is given on the entire bill for prompt payment. This brings the net rate for churches down to practically an equality with that quoted by the private company even where the monthly consumption is not very large and in churches where very many evening meetings are held during the week the net rate on the above graduated scale will come considerably less than the private company's rate. This fact is being fully realized by the Boards of the various churches in the city and a good share of the church business has already been secured and there is no doubt that still more of the churches will decide to use Hydro-Electric current for lighting, very shortly.

Galt Suffers From The Gas

Members of Ontario Legislature Appealed to by Mayor.

Galt, like Brantford is still wrestling with the Tibbury, gas nuisance. Mayor A. E. Buchanan and Dr. Vardon, M.O.H., on Wednesday afternoon went to Preston and interviewed George Pattinson, M.P., re the government taking some action to compel the Dominion Natural Gas Company to purify its gas. Hon. George A. Clare, M.P., of Preston, and Wm. Wiechel, M.P., have also been asked to use their influence with the Dominion Government on this matter.
The action of His Worship Mayor Buchanan is the result of the failure of the gas company to notify the authorities of the progress made in getting a system of purification on which the company claimed its engineers were working. At the last conference the gas company had with the council three weeks ago, the representative of the company, Mr. Frank B. Tomb, promised that the company would give some information in a week's time, but failed to do so. The action of the company seems to be to see how long they can delay purification.

CAMERON NOW OUT,
WINNIPEG, Man., Feb. 20.—Cameron of St. Thomas was put out of the last competition in the bonspiel last night when McAskill of Gladstone, defeated him 11 to 8 in the McLaren finals.
Pomford of St. Thomas, the only other eastern rink has been out of everything for several days.

VIOLENT STORM ON THE ATLANTIC IS REPORTED

Weather Has Been Tremendous With Great Trouble to Traffic.

MONTREAL, Feb. 20.—Tremendous weather has been reported from all sides of the Atlantic, the storms extending practically from the British shores to this side. It is stated that such a series of hurricanes has not been experienced since the bad weather of February of 1912. As a result most of the boats coming into Halifax or St. John are a day or two late and it is expected they will pull into port in a more or less battered condition.
In the absence of the customary wireless notices from the Alsatian, due at St. John today, the Allan Line officials yesterday sent out radios asking what was then the cause of delay. The reply came that almost from the time the Alsatian left Liverpool she had run into a series of hurricanes, which had compelled her for hours at a stretch to go at half speed. It is not expected that the Alsatian will reach port until some time Saturday.
Similar reports were received by the Canadian Northern. It was reported yesterday that the Royal Edward was struggling in the teeth of a tremendous gale to reach St. John, and that she was expected to be docked some time today. She had experienced similar weather to that which caught the Alsatian and was running at reduced speed a good many hours late.

Many Items Worth a Trip Down Town

Towels and Towelling at Prices Greatly Reduced

- Towels of Heavy Double Huck, all linen, ready for use, plain hem or hem-stitched 25c
- Heavy Every-day Hemmed Linen Huck Towels, size 18 x 36, for 12 1/2c

To Elect Officers
The football referees will meet at the Y. M. C. A. to-night and elect officers of their association.

Boys Waterous Engines
Waterous Engine Works has sold a marine engine to the Dominion Government worth \$10,000, for use on one of the government boats.

Work Progressing
Work proceeds steadily in regard to the lighting up of the three remaining sections of the city still without hydro electric. They are the North ward, West Mill and Brant Avenue.

Must Face Court
The two Hungarian women, who were smuggled into this city, will probably appear before Magistrate Livingston some time next week, as the immigration authorities are going to take action in the matter.

About Mr. Heyd.
A little story about Louis Heyd, K.C., of Toronto, formerly of Brantford, and his office boy, who said he got \$2000 a year, "\$5 a cash and the rest in the shape of legal advice," is now gaily travelling, says the Toronto Star, all across the United States with the name of one Senator after another attached to it.

Calvary Baraca Class.
A pleasant evening was spent last night when the Senior Baraca Class of the Calvary Baptist Church assembled at the home of Rev. and Mrs. W. E. Bowyer, 628 Colborne street. With the president in the chair, a short business meeting was held. It was decided to hold an entertainment in the latter part of April; \$25.00 was also voted towards the completion of the renovation of the basement of the church. At the invitation of Mr. and Mrs. J. Fitts, the class will meet at their home for their semi-annual business meeting and election of officers on Tuesday evening, Mar. 31st. During the refreshments, Mr. Bowyer, during the refreshments, Mr. Bowyer manipulated the Victrola to the delight of all. The presence of Dr. Barber, the former teacher, gave an additional pleasure to the gathering. A hearty vote of thanks to the host and hostess was proposed by Mr. H. Fitts and responded to by Mr. Bowyer.

Moose at Hamilton.
Hamilton was the Mecca for men of note in the Lobkin, the Loyal Order of Moose last evening. The occasion was the dedication of the north Moose hall, James street north. Among the distinguished visitors present were M. M. Garland, Pittsburg, Pa., Supreme Vice Dictator; Norman Heyd, Toronto, Grand Dictator; Grand Lodge of Canada; Jas. Meade, Sergeant-at-Arms, Buffalo, N. Y.; Charles Birrell, Detroit, Supreme Dictator; Rodney Brandon, Moose Heart, Ill., Supreme Secretary; H. J. Davis, Cleveland, Ohio, Supreme Councillor; and R. Foley, West Toronto, dictator; Bert Ingles, Brantford, dictator, accompanied by 25 members of the lodge, over which he presides, was also present. A delegation of the members from Toronto likewise attended. Supreme Vice Dictator Garland of Pittsburg, assisted by Grand Dictator Heyd of Toronto; Sergeant-at-Arms Meade, of Buffalo, and Bro. Hubert of Hamilton, officiated at the ceremony of dedication, after which a buffet luncheon was served in the I. O. O. F. Temple, followed by an interesting programme of speeches and music in the lodge rooms.

ANDREW McMEANS PASSES AWAY

One of the Old Pioneers of Brantford is Called by Grim Reaper.

One of the oldest and best known residents of Brantford slept away last night in the person of Mr. Andrew McMeans, 320 Dalhousie street. The demise occurred at 7 o'clock last evening, Mr. McMeans only having been in bed a couple of days. Heart failure was the cause of death. The name of Mr. McMeans and the early history of Brantford are closely associated in business, real estate and in many other activities. The late Mr. McMeans perhaps was the best known of all the old guard of early pioneers in this city. For years he conducted a grocery store where the Apollo theatre now stands. Recently he had been living retired but withal was a very active man for his age. He retained his faculties to the last day of his illness, and it was a source

of delight to his many friends to hold converse with him on the early days in Brantford.

The late Andrew McMeans was a successful business man and by his thrift and enterprise, accumulated numerous holdings of real estate in this city which formed a competence for him in the evening of life. He was also the head of a splendid Canadian family, two sons, Dr. McMeans now residing in Mexico, Leonard McMeans, M.P.P., South Winnipeg, and one daughter, Mrs. Harrison, at home being left to survive his loss. This wife predeceased him several years ago. A familiar figure and a genial old resident has been called to his last rest. He will be greatly missed in the community.

St. Basil's Club Social Evening

The members of St. Basil's Young Men's Club entertained upwards of two hundred of their friends at a social evening held in their club rooms, Crown St. on Wednesday the 18th inst. The hall and stage were tastefully decorated. The large crowd present thoroughly enjoyed the progressive euchre, lunch and music provided. The evening's proceedings were opened by the chairman of the entertainment committee, Mr. T. Fred Stewart, who thanked those present on behalf of the officers and members of the club and explained the program for the evening. After progressive euchre, a dainty lunch was served followed by a musical program in which the following took part: Misses Marie Cahill, Etta Schuler, Helen O'Riley and Messrs Gordon Mitchell and Wm. Darwin. The prizes were then presented. The lady's prize, a pair of beautiful hand-painted water colors, donated by Mrs. C. J. Mitchell, Sr., was won by Mrs. Skelly; the gentlemen's prize, donated by Mr. Jack Kelly, a handsome pipe, was won by Mr. Locke. Among the guests of honor were Very Rev. Dean Brady, D.D., pastor of St. Basil's, and Rev. Father T. J. Cloherty, also of St. Basil's.

Much credit is due the ladies of the parish who so kindly assisted, and the committee in charge composed of Messrs R. Mitchell, K. Waller, R. McGraw, and T. Fred Stewart.

Big Collection.
The collection at Zion Church Wednesday evening was \$163.93, the largest ever received by the Brantford Bible Society.

Military Ball At Burford

The Armories at Burford last night were the scene of the grand annual military ball given by the officers of C Squadron, 25th Brant Dragoons. The ball was the most successful ever held in the village and the success of which is due to the untiring efforts of Major M. K. Muir and the other officers. The interior of the armories was very tastefully decorated for the occasion. A large number of Brantford people were in attendance whilst guest were present from numerous out of town places.

Tony Cortese's London Harpers provided the music and over 100 couples danced until the early hours of the morning.

The committee left nothing undone to make their guests feel at home and did all in their power to make the ball the grand success it certainly was.

Ladies Cut Off.
The Western Counties Electrical Company have notified the Hydro-Electric Commission that they have cut of 49 arc lamps in Eagle lace including South Market St. bridge.

FIGURES DO NOT SUPPORT THE CHARGE OF THE LIQUOR PACT

---MR. HANNA SPEAKS---

Rowell Policy is Wrecked by Reference to Grey By-Election.

LEADER WOULD MAKE ISSUE ONE OF PARTY

TORONTO, Feb. 20.—A prediction by Hon. W. J. Hanna in the debate on the speech from the throne in the Legislature yesterday that Sir James Whitney would yet return to serve the country from his position in the House was received with great acclamation.

The provincial secretary took vigorous exception to some remarks from the Opposition in which Mr. Rowell referred to liquor alliances with the Government.

"If the honorable gentleman," he said "will take the pains to analyze the returns of the bye-elections he will find that the figures are directly contrary to the statement that the Conservative party and liquor interests are in any way allied. In Middlesex the figures showed the county very strongly temperance, and the votes for the new member were almost identical with those of the local option vote. Every time Mr. Rowell speaks in that way he is doing a last injury to the temperance cause, and tending to make the question a party one."

"You will find the Liberals saying

to the temperance people, "if you don't get behind the Liberal candidate we won't get behind local option when it comes up next January. That happened in Middlesex more than once."

Hon. Mr. Hanna asked if there was a liquor alliance in North Grey, where once a Liberal member had been returned with a majority of 750, and which was now converted into a majority of 400 for the Government. It was not fair to suggest that 1,100 Liberals had entered a liquor alliance and gone to the polls.

The main part of the Opposition leader's speech in the debate dealt with social conditions, and included a reference to the Men's Federation survey in London, Ont. Industrial unrest, said Mr. Rowell, is increasing in the country. The rural population had decreased by 11,000 over that of 40 years ago, and as the cities grew larger, so did social unrest increase. In a day's trip among the poor of Toronto the speaker had found deplorable cases. He told of husband and wife out of work and supporting a family by the selling of furniture and pawning of heirlooms. About 42,000 were directly affected by conditions in Toronto, and the same state prevailed in London, Ottawa and Hamilton. He had found that they were in the main English families, but not recent arrivals.

London's Survey.

A survey in London had shown that a family could not live on less than \$397, and yet the average in-

come of many was only \$445. It was good to help men in prisons, but it was better to help them when out. The labor exchanges of the old land might work well here.

In conclusion Mr. Rowell moved that the Government consider a commission to better the condition of workmen by uniting the bureau of labor and the factory inspection branch, and that conditions be studied with a view to remedying the whole affair.

Mr. Rowell paid a tribute to the absent premier and to Hon. Dr. Pyne who had so patiently stood beside him in his illness. He waxed warm at discovering that tax reform was not mentioned in the address from the throne, took a drive at the deferred completion of statute revision, and inquired about the outline of the new Government House interior.

Colin S. Cameron, of North Grey, and George S. Henry, of East York, who carried the honor of proposing the address in reply to the speech, united in glowing hopes of the future, both urban and rural, and backed up their positions with blue book statistics.

Mr. Cameron referred to the regretted absence of the premier and spoke of the latter's wonderful work in making administration methods clean and businesslike. There had been a general increase of prosperity in the province and good roads and the coming of automobiles had bettered the life of the farmers, he said.

Ontario's mineral productions led the world and prison reform farms were making new men for Canada. The Fort William farm had especially worked well for the men of the North. The plan of industrial farms was taking hold.

Tribute to Mr. Hanna.

In this connection he paid a tribute to the provincial secretary for the self-support of the asylums and other institutions. Then there was the Hydro Electric Commission, which was a thing above others that he was proud of. There were 66 municipalities now contracting and 106 negotiating for it.

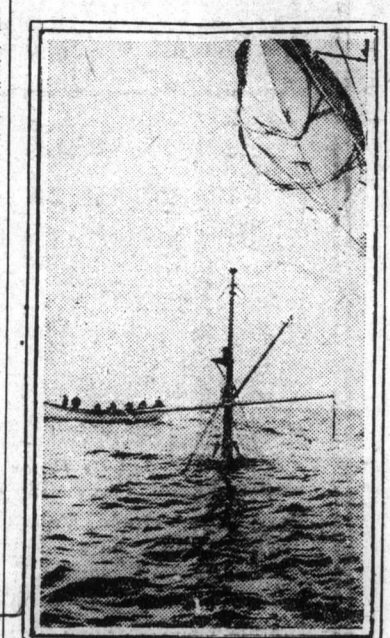

He referred to the way in which employers had formerly neglected workmen when injured and would now be forced to mend their ways.

To yet see Ontario a maritime province, with the T. N. I. extended to tidewater, was the candid ambition of Mr. Henry in his opening words.

The talk of rural depopulation he could deny to some extent. On the census of 1911 he found that the number of people holding from five acres up had greatly increased. It was contrary to the general impression of a rush to the cities.

"Allow me to suggest," he said, "that with the development of highways and the installing of radials that the farm life of the future will be much more enjoyable. Let us look

DIVERS SAY BODIES OF MONROE'S VICTIMS CAN BE RECOVERED

MAST OF THE MONROE SHOWING WITH THE CLUTTERED GONDOLA ANCHORED NEARBY.

Sealed up in the steamship Monroe, which sank in collision with the Nantucket in the fog off Hog Island, are the forty-one bodies of those who went down with her. Expert divers, who made a thorough examination of the wrecked vessel, say that while the bodies and cargo can be recovered the vessel will be a total loss.

forward to not building large cities, but to establishing radials that will take the artisan out to rural and urban homes."

The province was increasing its fodder production and catering to the beef and dairy products and the Ontario Agricultural College was doing a great work. Milk production of cows had been raised above 600 pounds. Land had increased in value 14 per cent. and buildings 48 per cent in the last decade.

NO PICTURES MISSED.

LONDON, Feb. 20.—Officials of the British Museum said to-day that no pictures were missing from the institution. This announcement was made in reply to inquiries as to the authenticity of the report from Paris that canvasses of great value had been stolen from the museum by a band of international art thieves. At police headquarters in Scotland, it was stated that the authorities had no knowledge of any such thefts.

General Huerta yesterday celebrated the anniversary of his ascension to the Mexican presidency with a review of the garrison.

CHOIR BANQUET A REAL SUCCESS

Pleasing Event at Park Baptist Church Held Last Night.

Beneath the alluring glow of crimson shaded lights, in a scene almost Oriental in its splendor, the third annual banquet of the choir of the Park Baptist church took place last night. The fare was sumptuous and the entertainment was carried out on a like lavish scale.

The choir and many of their friends attended, and they were treated in a right royal manner.

At 7:45 when the chairman and toastmaster got up to announce the beginning of good things, the scene was one which might have been taken from the "Arabian Nights" and the lecture room presented an appearance calculated to make everyone forget Brantford and its drab associations. The ample menu disposed of, the program was commenced. Miss E. Healey, president of the choir, spoke in eulogistic terms of the success of the choir. She ascribed the achievements to the efforts of Mr. Cornelius, and she felt sure that under his guidance greater heights would be reached. She was indeed pleased to welcome all to their banquet.

Rev. C. W. Rose spoke of the church, its work and its aims. The work done by the choir was magnificent. The progress of the Baptist church was something to be proud of, he felt that the past year had been very successful in many regards.

Mr. C. S. Tapscott proposed "The Choir." He was not a member, for he remembered in the old days at school how he had been rejected to his sorrow. He had remained outside of the ring ever since. He thought Baptists had not the best hymn book under the sun, but they had the best. If he had his way, he would dig up some of the hymns which never got a trial. In the Baptist hymn book there were many most beautiful hymns. He did not expect the use of hymns in the first tense. Hymns were a means of praise and he advocated the use of the grand old hymns of praise in preference to many of the more modern hymns which lack the meaning and feeling of the old ones. He had great pleasure in giving the toast: "The Choir."

Mr. F. W. Buck replied for the choir in a very acceptable manner.

Mr. F. Grob, toasting "The Organist," said he thought they had the best choir they had had for many years. He gave Mr. Cornelius the

credit, and by way of a tribute, he suggested that in future the distinction of musical director should be placed the word "organist," used in connection with the "choirmaster's" name. They had never been better served with a music master, and they would not only have the best choir in the city but in the country under his direction. Without further ado he would drink the toast to the musical director. With a hearty round of "For he's a jolly good fellow," the toast was honored.

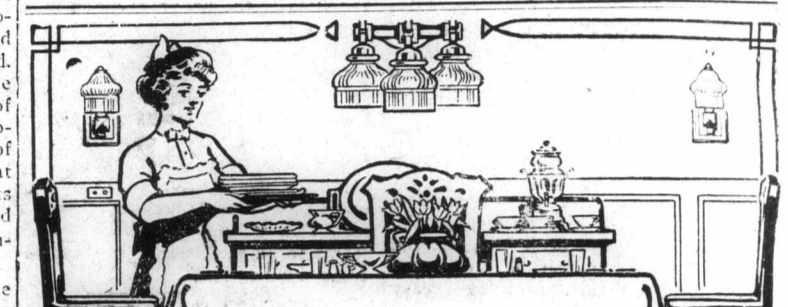

In a humorous little speech, M. C. Burton proposed a toast to the Ladies, and Mrs. S. G. Read, replying for the fair members placed the gentlemen first. She did not feel fit to speak after such a repast. The braids does not work so actively after a hearty meal, she said. She thought that whatever the brain of men cut; that could be accomplished by the feminine brain. She gave an instance of a girl who had risen in commercial ranks and challenged the men to beat it. They could not. Anything which appertains to the moral side of life, to the home, appeals to women.

and it was her duty to look after those things at church and at home. She closed an eloquent discourse by declaring that women would never be driven to the depths if men did their duty and look after the home.

In a very modest address, Mr. Cornelius said he was grateful for the kind words and would try to the best of his ability and merit them. He thanked those responsible for the good things provided. "We do our best for Him that made us," he said. He was never happier than when he was among the choir.

The program of music and vocal items was excellent. Two violin solos by Errol Gamble were splendidly rendered, whilst a reading by Miss Cora Gould, "By Courier," undoubtedly an appealing little story and revealed a deep sense of human nature in the reader. Pianoforte solos were given by Miss A. Gibson and songs by Mr. T. Southworth.

Miss Jessie Houlding who has completed a year's course in St. Luke's Training School, Chicago, has returned home.

The Well Lighted Dining Room Aids Digestion

The soft glow of light falling on snow white linen and upon sparkling silver, adds to the enjoyment of a meal.

Food, to be enjoyed, must not only taste good, but must look good, as well.

Tastes differ in dining-room illumination. Some prefer ceiling fixtures, giving an even light to the entire room, while others have shaded lamps or domes; in fact, lately we have been installing semi-indirect fixtures in dining-rooms.

IT MATTERS NOT WHAT YOUR TASTE IS. We have one of the most up-to-date displays of fixtures in Western Ontario.

Why not enjoy the benefits of Hydro by having us wire your home for electricity? You know we will do it right.

SEE OUR WINDOW DISPLAY.

ARREST PASTOR WITH AFFINITY

Police End the Illicit Honey-moon of Pennsylvanians In Toronto.

TORONTO, Feb. 20.—After living as man and wife for three weeks in a Toronto boarding house, Rev. James T. W. Williams, Congregational minister of Newcastle, Pennsylvania, and Mrs. George Thomas, one of his congregation, were arrested yesterday afternoon on

the complaint of the woman's husband, and will be deported for breach of the Canadian immigration laws. Mrs. Thomas was placed in the custody of her husband, with whom she consented to return to Pennsylvania, though declaring that she would never live with him again. Williams was locked up at the police station for the night, and this morning will be sent to Niagara Falls, Canada, in charge of an immigration officer, on a face trial for entering the Dominion under false pretences.

Until the middle of last month Williams was the respected pastor of Welsh Congregationalists at Newcastle, where he had been minister for about a year. He has a wife and family still living in that place. Williams asserts that he resigned his pastorate a week before his elopement with Mrs. Thomas, but Thomas denies this.

AMAZING VALUES IN Whitewear

Worked as Realty Agent Williams and Mrs Thomas entered Canada on the 27th of January, came to Toronto and secured lodgings as man and wife at 425 Sherbourne Street. He secured employment of sorts as a free lance real estate agent, selling properties on a commission basis for various concerns. He passed under the name of Wilson. About the same time that the couple arrived here the local Detective Department was asked by the Newcastle police to watch for them, as they were expected to travel in this direction. Williams and Mrs Thomas were located in the Sherbourne Street boarding house about the beginning of this week. Information was sent to Newcastle, and a request came back to keep the couple under surveillance until they could get to Toronto. This was done, and his arrival yesterday was the signal for the arrest of his wife and her affinity. Detectives Twigg and Cronin were in charge of the case.

Williams and Mrs Thomas are both short, stout and well dressed. He is about 50 years old, and she is about 45.

General Conference Opens September 23

Rev. T. Albert Moore Makes Deni- nite Announcement of the Date.

TORONTO, Feb. 20.—Rev. T. Albert Moore announced definitely yesterday afternoon that the next general conference of the Methodist church will be held in Ottawa on September 23.

Recent rumors had it that the conference would be held in Toronto at a later date, owing to the fact that Victoria College opened on Sept. 23. Dr Moore stated that there was nothing in the rumor.

Descriptive. He was accustomed to drinking straight, plain drinks. But one day they invited him into taking one of these mixed affairs, one of those that not only includes a combination of liquids, but also organic peel, pineapple, a cherry and other rank outsiders.

"Well, what do you think of it?" he was asked by the bunch that had done the inviting.

He looked disapprovingly at the sunken garden before him, "Boys," he said, "I object to drinking a mince pie."—New York Times.

Ex-Mayor Griffith and Elgar Jones, labor candidate, were nominated at Welland last night for the vacancy in the Town Council caused by the designation of Ald. Scott, who could not qualify.

THE WORD "OBEY" IS STILL PART OF MARRIAGE

Although Large Number of Bishops Favor Its Omission.

[By Special Wire to The Courier] LONDON, Feb. 20.—The omission of the word "obey" from the marriage service of the Church of England appeared to find considerable support to-day among the bishops attending the house of convocation of the province of Canterbury now in session in London.

A formal motion to omit the word, of which the bishop of Lincoln had given notice, was withdrawn however. The bishop gave as his reason that he thought he was unlikely to carry a large majority of the house in favor of the proposed alteration. The bishops of Winchester and Hereford, spoke strongly for the insertion of similar undertakings by both husband and wife. They, however, thought there should be some reference to the leadership of the man in the home, as they said it would be obviously inconvenient to have two heads of the family.

The Archbishop of Canterbury emphasized the opinion that the Church of England to face this proposed change and other questions of a far reaching character arising out of it. He believed, however, a better occasion than the present would be found at an early date for handling such great social questions.

HARD LUCK SITUATION. We met by chance. Yes, it was no more your fault than it was my misfortune.

FATE OF KARLUK IN ALASKA IS MUCH IN DOUBT

Stefansson Sends Word That Boat May be Entirely Lost.

NEW YORK, Feb. 20.—A cable to the Tribune from London says: In a despatch to the Daily Chronicle from Point Barrow, Alaska, V. Stefansson, the leader of the Canadian Arctic expedition, gives further details of the disappearance of the Karluk, which was announced in December. Though far from sanguine that the Karluk will be saved, he has little doubt about the ultimate safety of those on board. If the vessel should be crushed by winter ice, he will be little trouble about the men getting ashore safely, but whether any of the material aboard the Karluk can be saved depends upon its distance from shore and the roughness of the ice. If the Karluk is crushed during the coming summer, the danger to life would be somewhat increased, although it cannot be considered serious, for the Karluk is equipped with three skin boats, any one of which could carry the entire party.

The despatch, of which the above is a summary, was brought to civilization by dog team across the frozen wastes of Alaska. "It has been," writes the leader of the expedition "a monotonous chapter of misadventures, for all who travelled by ship or boat along the Arctic coast of Alaska in the winter of 1913."

John McDougall and S. J. Vincent, members of the H. C. of L. Commission, arrived in Quebec yesterday and made inquiries regarding fresh fish and general conditions connected with farm products in Quebec and the increased cost of shoes.

and it was her duty to look after those things at church and at home. She closed an eloquent discourse by declaring that women would never be driven to the depths if men did their duty and look after the home. In a very modest address, Mr. Cornelius said he was grateful for the kind words and would try to the best of his ability and merit them. He thanked those responsible for the good things provided. "We do our best for them that made us," he said. He was never happier than when he was among the choir.

The program of music and vocal items was excellent. Two violin solos by Errol Gamble were splendidly rendered, whilst a reading by Miss Vera Gould, "By Courier," unfolded an appealing little story and recited a deep sense of human nature in the reader. Pianoforte solos were given by Miss A. Gibson and songs in instances by Mr. T. Southworth.

Miss Jessie Holding who has completed a year's course in St. Luke's Training School, Chicago, has returned home.

City News Items

Miss Hazel Huffman is visiting relatives in Dundas.

The choir of the Gospel abernacle went out in sleighs on Thursday evening to visit Mr. and Mrs. W. Oliver, Tutela Heights, who kindly threw their house open for their entertainment. After a social time, lunch was partaken of and a vote of thanks passed to the host and hostess, all agreeing that the evening had been most enjoyable.

The Tutela Glee Club of Wesley church held a valentine tea yesterday afternoon and evening in aid of the Brant Sanatorium and the affair proved a great success. The program included solos by Miss Anush, Miss Hilda Wood; duets by Prof. Porcer and daughter, Miss May, Misses Ward and Carter, reading by Miss Edmondson and instrumental by Misses Hall and Laurence.

Court of Revision.—The Court of Revision on ornamental street lighting will be held on Monday afternoon next at 3 o'clock.

Invitations Received.—The Toronto Board of Trade has issued invitations to the local representatives to a banquet at the Prince George Hotel next Tuesday evening.

The B. C. I. Girls Basketball team go to Hamilton this evening where they play a crack girls' team of that city. A number of supporters accompany them. The Hamilton girls have a big reputation as basketballers and the local team look for a hard game.

The Dufferin Rifles Indoor bad team had an easy victory over the 91st at Hamilton last night, the score resting at the double figures. The Hamiltonians could do nothing with Hetherington's pitching. The Duffs were given a supper after the game.

Game Wardens Johnson and Kerr yesterday made their rounds of the game preserves near Paris and Galt and found three breaches of the Game Act at Pa. Three young men were shot rabbits out of season and the result they will appear before Magistrate Patterson in Paris next Monday morning at 10 o'clock.

Rowan Cooper was charged at the instance of James Whitaker, water inspector, in the police court to-day with the theft of water. He had frozen water and stored it in his cellar on Sarah street, until he had quite a good stock. He pleaded ignorance of the law on the subject and was quite unable to settle up for all claims. He was fined \$2 and costs, amounting to \$7-85 in all.

The Board of Works, met last night at the council chambers of the city call, and a few matters of minor importance were dealt with. The only problem of work which confronted the Board was the hauling of cinders from the Malleable Iron Works to Brock Street from Campbell St. north. The board recommended that the contract be let to Mr. Burtch, teamster. A deputation from Glandville Avenue, Eagle Place waited on the Board in reference to the construction of a sanitary sewer on that street. The matter was turned over to Mr. Eli Riddolls, who will look into the job. These were the only two items of business which took up the time of the Board and the meeting adjourned at an early hour.

Not having anything else to do and both being partly under the influence of liquor, two of the city's unemployed started a fist encounter on the corner of Market and Dalhousie streets this morning, about 11 o'clock. The men had gotten into a rather heated argument after an exchange of a few names which would not look good in print, one of them shot out his fist and hit the other on the point of the chin. The other glanced hastily around and not seeing a policeman in sight, he countered with a vengeance. Here some friends took a hand in the proceedings and parted the two. The crowd then moved up Dalhousie street to the Strand and the men got it again, fighting like wild cats, until some one yelled, "Here comes a cop." One of the combatants immediately made tracks up Dalhousie street before the officers of the law could reach him. Quite a crowd had gathered to witness the fun which had all the earmarks of a good preliminary for tonight's bouts at the Grand.

THE COURT INSTRUCTS THAT —STREET RAILWAY CASE— AN AGREEMENT BE WRITTEN

It Will Then be Approved and Street Railway By-Law Will be Submitted to the Ratepayers—Committees Are Meeting Today.

Brantford and the various Grand Valley interests received instructions yesterday to draw up an agreement satisfactory to all parties and submit the same to the High Court for approval. Mr. Justice Middleton issued the instructions to the different counsel yesterday afternoon at Osgoode Hall. There seems no reason why the agreement cannot be satisfactorily reached according to civic authorities to-day. After the court approves the agreement, it will go to the ratepayers. Mayor Spence was not sure to-day whether the by-law would be ready for Monday night's meeting or not. It depended on the City Solicitor who will be present at the combined meetings of the railway and finance committees this afternoon, when the amount of money the ratepayers will be called upon to raise will be decided upon. The legal note from Toronto referring to the proceedings in court yesterday is as follows:—Trusts and Guarantee Co. v. Grand Valley Railway Co., National Trust Co. v. Grand Valley Railway Co.—G. H. Watson, K.C., for receiver and Grand Valley Railway Co., moved for directions as to offers to purchase the assets of the railway company. J. A. Paterson, K.C., for the a-National Trust Co. W. T. Henderson, K.C., for City of Brantford; M. H. Ludwig, K.C., of Woodstock; Thames Valley Railway Co.; A. C. McMaster for bond holders. The court was of opinion that a contract should be drawn setting out all the details of offer to be submitted to and approved by all parties, and then when assured that the parties are ad idem the court will sanction it.

HYDRO FOR ECHO PLACE BY THIS SUMMER

Councillor Scace Makes Announcement at Meeting Last Night.

The Echo Place Improvement Association met last evening in Mohawk Park school, President Morley Myers was in the chair. In his remarks to the members he said he was more than pleased with the manner with which each and every member of the association was taking such active interest in their work, and the harmony that prevailed among the members must mean success for any organization. He thanked them for showing such interest. The chairman of the social committee, Mr. A. Williams, stated that from what he saw and heard of the work and the progress that is being made by Miss Josie Whitney, in preparing for the concert to be given by the association on March 3rd, it will be one of the best Echo Place residents have had the opportunity to see and hear.

A most interesting talk and information was given by Councillor Scace on Hydro Electric. He stated he was assured that before the mid-summer or not later than the fall, Echo Place would be illuminated with hydro for street and domestic purposes. This good news was appreciated by all the members. He further stated that any time he could be of service to them personally or otherwise, he would be pleased to assist in any way. A vote of thanks was tendered him for his kind remarks.

Communications were read from the Grand Valley Improvement Association inviting Echo Place to send delegates to their next meeting. It was moved by Mr. A. Williams that the very worthy president, Morley Myers, and the genial secretary, Mr. H. C. Thomas be delegates to attend this meeting. This was seconded by Mr. Edmondson and carried. The question came up as to when is a member not a member. This matter the executive officers find is covered by the association laws. The association wish to thank those who are so kindly assisting the social committee in any way for the coming event.

A FULL PAGE OF O. L. & CO. BARGAINS

"We have had splendid results from our full page ad last Friday," said Mr. W. C. E. Greenhill, advertising manager of Ogilvie, Lochhead and Co., to a Courier representative yesterday. "Our store was filled nearly all day, and we were so pleased over the results that we will use another full page of the Courier this week."

The full page is No. 14 of this issue, and tells of bargains in sheetings, pillow cottons and embroideries. Turn to it now and be prepared to shop to-morrow.

CITY RELIEF CONTRIBUTIONS

The following statement of contributions and disbursements to date in connection with the work of the Associated Charities, was submitted to-day by the treasurer, Mr. H. T. Watt: Total amount of cash receipts to date \$841.01 Total amount of cash disbursements 295.84 Balance on hand \$545.07

HON. FRANK OLIVER FOR PROTECTION

Says So Himself in the Commons in "Free Wheat" Debate.

OTTAWA, Feb. 20.—Hon. Frank Oliver has put it on record that he is a protectionist until the tariff divergencies of the Liberal party in the Commons are still further defined. "I am a protectionist," shouted the member for Edmonton last night in the course of a heated argument for free wheat.

"Since when?" asked J. A. M. Aikins, of Brandon. "Always," said Mr. Oliver with vehemence, and the Conservative side wrapped their desks.

It was about the most interesting moment that sprung up on the question of ocean-going freight rates during consideration of estimates of Hon. George Foster's department.

Mr. W. F. MacLean raised this question and asked if it was being considered by the Dominion commission and Mr. Foster replied in the affirmative.

Mr. MacLean criticized this handling of the question. The ocean rate pool was one of the worst combines of the dead. It consisted largely of the three water combines. They were guilty, he asserted, of "conspiracy against the people of Canada." Parliament had jurisdiction over them and should assert it.

Mr. Foster stated that the government had not divested itself of one title of its power, in referring to this question to the Dominion's commission. The report would be ready the end of this year or the first of next.

Hon. Frank Oliver also criticized the government for not dealing with this problem.

Mr. Foster replied by pointing out that the late government had dallied with the question. In 1910 the late Chairman Mahoe had advised the establishment of a joint commission by Canada and Great Britain to control ocean rates. This report had been sent to the secretary of state for the colonies, but after that, in spite of three despatches from Mr. Harcourt, the late government had done nothing.

"I might say that in 1911 we were too busy," began Sir Wilfrid Laurier. "Too busy to look after the farmers," interrupted Mr. Foster. "The farmers have told us again and again to give them the American market for their wheat. That is the best way of dealing with this question," replied Sir Wilfrid.

"They were very busy in 1912," said Mr. Foster, "busy looking after the farmer's votes, but not their freight rates. It is clear that in August, 1910, they had the details worked out and submitted them to the colonial secretary. To-day, there is not only an arrangement made, but a joint tribunal looking into this question, the new broom has swept clean."

Hon. Mr. Oliver argued for free wheat, contending that the government would not be doing its duty by the country if it did not try the experiment of letting the farmers have what appeared to be an improved market.

THE TUTELA RINK CARNIVAL —THE PRIZE WINNERS— PROVED TO BE MERRY AFFAIR

Cold But Lively at the Popular Eagle Place Stamping Ground Last Evening—Judges Had Very Difficult Time Making Selections.

Tutela Rink last night was the scene of much fun and merriment, it being the annual fancy dress carnival. It was indeed a great success—the first that has ever been held at this popular stamping rink. Long before the stumps were started, the four sides of the rink were lined with people, which shows the great enthusiasm shown in making this event the highlight of the season.

Sporting Comment

Yet some people wonder that reporters sometimes blunder! Charles Weeghman and President Gilmore had agreed to unite with the A. A.

The New York Giants were to secede from the National League and join the Feds.

At last the Expositor has accepted the Courier's challenge, but their acceptance has more force than politeness.

Mr. C. W. Murphy appears to have thrown the bull once too often; this time it seems to have alighted in the china shop.

Hamilton hockey fans are after "Pro" hockey and to get into the N. H. A. No doubt the two O.H.A. teams have encouraged them this year.

Those Romans who wanted to stop the White Sox and Giants for fear baseball is a brutal game may have read what the Athletics did to the Giants last fall.

We were informed yesterday that Charles W. Murphy had agreed to sell the Chicago club to Charles Weeghman and end the baseball war.

The American League, American Association, International League, Coast League and the Federals had demanded that the National surrender and unite with the Feds. to end the war.

One of the odd things about the Federals is that when they meet in Chicago every reporter in New York, Pittsburg and Cincinnati knows more of the doings than do the reporters sitting just outside the door.

When a man, aged 48, who has spent 20 years of his life using purity in athletics and reforms, is informed by his son, aged 20, that he can get free tuition, board and a bit of money playing for a certain college, what's the reply?

Two cities in the Canadian league Ottawa and Erie, are planning to have Sunday ball this year. The Ottawa club has secured a park over in Hull on which to play its Sunday games, and while it is against the law to charge admission to Sunday games in the state of Pennsylvania, the Erie people have a way of over-coming that drawback.

Conservation. "You may say for me," said the mag-nate. "As he dealt out a black cigar, "That they will not last another week. "They haven't signed one star." So the wise reporter wrote his words And carefully filed them away T'l he saved up enough of the same sort of guff!

Next week a similar event will take place on Tutela rink, but it will be for children only and will be absolutely free. It is sure to be a success, as the boys and girls will not be slow to take advantage of the fun.

The smallest fancy dressed person on the ice was the son of Mr. P. W. Knight. The little fellow made a hit and is a real good skater.

The carnival was easily the most successful ever held at Tutela rink. Much credit for the success is due to Caretakers Johnson and Westbrook who have all season kept the rink in the best possible condition.

TO-NIGHT'S SCHEDULE O. H. A. Senior Toronto R. and A. A. at Midland. O. H. A. Intermediate. Sarnia at Hamilton. O. H. A. Junior. Kingston at Orillia.

Northern League. Elmira at London (Western University). Midway at Drayton. Seaforth at Clinton.

Church League—Juniors. King Street vs. Dundas Center. Askin Street vs. Adelaide Street.

Seniors. Askin Street vs. Dundas Center. Exhibition. Preston vs. London All Stars.

COFFEY PUTS ROSS OUT NEW YORK, Feb. 20.—Jim Coffey, the "Dublin Giant" knocked out Tony Ross, of Lancaster, Pa., with a right hook to the jaw in the sixth round of a ten round match here last night. Coffey weighed 199 pounds; Ross, 204.

Rev. Principal Scrimger was nominated by Lanark and Renfrew Presbytery for Moderator of the General Assembly.

WILL ADDRESS LACROSSE MEN

Our Own J. J. Kelley to Make "Big Talk" at London Gathering.

London Free Press: A big delegation of lacrosse enthusiasts of Canada, including J. H. Hughes of Toronto; Joseph Lally of Cornwall; President Sinkins, of the Ontario Amateur Lacrosse Association; Frank Dyle secretary O.A.L.; J. J. Kelley, of Brantford, will address a gathering of local lacrosse enthusiasts on Wednesday, Feb. 25, at the Alexandra school.

The London Board of Education, Mayor Graham, the aldermen and all the principals of the schools will attend this meeting as it is for the promotion of the national game of lacrosse throughout the public schools. A sweeping campaign is being waged to revive the game in every locality, not only in this province, but throughout the whole Dominion. Lally, the big lacrosse stick manufacturer, is providing sticks at cost to the young Canadian schoolboys with the idea of creating school leagues of eight or more teams in each series.

Castillo, a notorious Mexican bandit, was captured by United States troops in New Mexico.

FRANK CHANCE IN ROLE OF A HERO

GLENDORA, Cal., Feb. 20.—Frank Chance, the baseball manager, saved the lives of his brother-in-law, Karlos Pancake, and two other men in the floods caused by the storm yesterday.

Pancake, Charles Gordon and S. Riser were riding in a motor car when a retaining wall gave way and loosed a wall of water five feet deep on them. The car was overturned and the men swept through an orchard near Chance's place.

Chances witnessed the accident and procuring ropes floated them down to where the imperiled men were clinging to trees. All managed to grasp the ropes and were dragged to safety.

SLEEVE PASSES AWAY. TORONTO, Feb. 20.—William Snee, a well known rugby football enthusiast, died yesterday. He was successively secretary and president of the Ontario Rugby Football Union and of the Canadian Rugby Football Union. Throat trouble, which had its beginning about 5 years ago, and which for more than a year had confined him to his bed, was the cause of his death. Mr. Snee was about 35 years of age, and leaves a wife and four children. The funeral will be on Saturday.

Stovall, manager of the Kansas City Federal League Baseball Club arrived yesterday from his home in Los Angeles. "I have put in two months hard work signing players for the Federal League," he said. "Twenty men have affixed their names to Kansas City contracts."

Delehanty With Feds. CLEVELAND, Feb. 20.—Jim Delehanty, former Detroit second baseman and last season with the Minneapolis American Association team, said here last night he has signed with the Federal League. He expects to play with the Buffalo team, Delehanty lives here. He was given his unconditional release at the close of last season and is a free agent.

MORE MEN SIGN WITH FEDERALS

"ARTIE" HOFFMAN AND "JIMMY" BLOCK JOIN INDEPENDENTS.

CHICAGO, Feb. 20.—According to an announcement last night by Jas. A. Gilmore, president of the Federal League, Artie Hoffman, one-time Chicago National League player, and Jimmy Block, former Chicago American League catcher, were signed yesterday.

Conferences which indicated that Jake Stahl, former Boston American Club manager, might undertake the leadership of the Brooklyn Federals, had not ended in an agreement last night. Robert B. Ward, president of the Brooklyn Club, Stahl and Gilmore spent the evening together. Afterward Stahl said he had gone so far as to make a proposal which had not yet been accepted.

Stahl said he would take the management of the Brooklyn Club if his terms were met by Gilmore and Ward.

Stovall Has 20 Men. KANSAS CITY, Mo., Feb. 20.—Geo. Stovall, manager of the Kansas City Federal League Baseball Club arrived yesterday from his home in Los Angeles. "I have put in two months hard work signing players for the Federal League," he said. "Twenty men have affixed their names to Kansas City contracts."

Delehanty With Feds. CLEVELAND, Feb. 20.—Jim Delehanty, former Detroit second baseman and last season with the Minneapolis American Association team, said here last night he has signed with the Federal League. He expects to play with the Buffalo team, Delehanty lives here. He was given his unconditional release at the close of last season and is a free agent.

KING EDWARD DEFEATED PARIS

School Boys Battled for One Hour With Locals Winning 8-0.

An interesting game of hockey was played on Tutela rink yesterday afternoon between the Paris Public School and the King Edward School of this city, which resulted in a win for the local puck chasers by the one-sided score of 8 to 0. The game was all King Edward. The Parisians did not have a look in at any stage of the game, which is something unusual for a hockey team that originates in the lively little burg of Paris.

The King Edward goal tender said after the game, that during the one hour of play, he did not touch the puck once, which speaks well for the defence he had before him. The play for three-quarters of the game was in the vicinity of the Paris goal, which was bombarded with shots. The Paris team asked for a return game, but the King Edward manager could not say whether they could go up or not. One of the Paris players is only eight years old, which is pretty young, but is the making of splendid material for Paris in years to come.

Circuit Clippings Of The Canadian League

(Ottawa Free Press.)
Joe Lill sent in his signed contract to the Ottawa Baseball club yesterday. Lill is down in St. Louis for the winter, and announces he will be fit and ready when spring practice starts. Manager Shaughnessy turned the big fellow over to Brantford the middle of last season, as he believed a little schooling with a losing club would do him good. Lill had about all the stuff of the rest of the Canadian League pitchers combined, but couldn't locate the plate. He was of an erratic temperament, due no doubt to his youth and inexperience, and his sojourn with the tailenders did him good. Shag declares if he ever gains control he will be a second Walter Johnson.

Shortstop Witcraft, whom the Ottawas are trying to purchase from the Portsmouth Virginia League club is held at pretty high value down south. He hit .266 and was the second best shortstop in the league last season. Several clubs are after him, including London. Ottawa is prepared to pay a reasonable price for his services, but will not touch any major league figures.

Shaughnessy believes he can make a good short fielder out of Al Tesch. This kid has natural ability, and is fast as lightning. It is likely the Ottawa pilot will turn him round and endeavor to make a left hand hitter out of him.

Negotiations are now under way in which Outfielder Murphy of the Canton Central and Inter-State League club will hook up with the Senators. In 1912 Murphy was one of the most brilliant outfielders in the Central League, a swell base runner and average hitter. He is a little fellow, and in the Central was called "Robber" Murphy on account of his ability to speed back to the fences and cut off home runs and triples.

London's Training Program.
LONDON, Feb. 20.—Plans for a spring training trip, which shapes the destinies of many a baseball club in organized ball and one which is only rivalled by the league teams which go farther south than Ohio, is the one which Manager Reising, of the London club, has planned for the 1914 team.

No less than 15 exhibitions games have been arranged for, one as far south as West Virginia, and this points to a well seasoned team by the time they land in London on May 6, when the league games open.

The squad has the use of the col-

lege grounds and gymnasium equipment at Marietta, Ohio, for about 10 days previous to 15 days' trip. League teams of all classes will be encountered during the trip, including Dayton, of the Central League, Adrian and Jackson of the South Michigan, and Ypsilant, of the Border League.

So far the Peterborough Baseball Club has not received a signed contract from any of last year's team, although contracts were sent out some weeks ago. The management is not worrying any, however, and expects to get the documents back before the call to spring training comes. Four of the players, Pitchers Sterling, Tracey and Cresswell, and Third Baseman Bryne are holdouts, and have written the Club intimating that they would like to find a few bits of Canadian currency in their envelopes every two weeks. The players under reserve or under contract to the Peterborough club just now are:

Pitchers—Ken Tracey, Stan Cresswell, Kent Belting, Bob Sterling, Louis Scheletter.
Infielders—Joe Bryne, Frank Fox, Eddie Price.
Outfielders—Manager Curley Blount, Willie Schwartz.
Catchers—Elphege Chapdelaine—Peterborough Examiner.

YOUNGSTOWN, O., Feb. 20.—Eddie Price, a local boy, who played with the Steelmen last year until the disbandment of the league, and who finished the season with Marty Hogan's Fond-du-Lac Club, has signed a contract to play with the Peterborough club of the Canadian league for next year, which is managed by Curley Blount. Curly secured Eddie's signature to a contract Saturday night, and he will report in April to play shortstop. With the experience he gained last year, Price should make a valuable addition to Curley's club.—Peterboro Examiner.

The Canadian League club in Toronto is safe from opposition. The Feds. will not be in the Queen City. With Class B ball and five good sized cities in the league the Canadian circuit should put up the goods this summer.—Ottawa Journal.

Things are moving slowly in baseball circles in the Canadian League so far. The Senators have a few players signed, but Manager Shaughnessy has not yet started campaigning to round up a team.

Tommy Smith Is Best Scorer

Ottawa was the only club not to add to their score in the scheduled week-end games of the National Hockey Association. The leading goal scorers of the other five clubs added to their total, increasing their lead over the Ottawa players. Tommy Smith, formerly of Brantford, did not increase his lead, although he added two goals to his already great total. Walker of Toronto is accredited with another assist, but failed to score. The following is the standing of the goal getters:

PROTESTS IN N.H.A. ARE DISMISSED

Quebec and Ottawa Fail to Make Out Their Cases Says President.

MONTREAL, Feb. 20.—The N. H. A. at its special meeting here yesterday sustained President Emmet Quin in his ruling dismissing the Quebec Club's protest following the game with Ottawa. He was also upheld in

the appeal by Ontarios against Ottawa. The penalty question was brought up by the Wanderers' president, who considered that the penalties should be made more severe so as to keep the players under better control. Mr. Lichtenhein would do away with all the minor penalties and rule a player off for three minutes for the first infringement of the rules and increase the time for each following offence. President Lichtenhein was also in favor of giving the president of the league more power and making his decisions final regarding fines and punishment to players. Under the present rules the penalties, in his opinion, are something of a joke. **Must be Good.** Although no direct charges were

made against Alf. Smith for his conduct of last Saturday night, such behavior will be discontinued at future matches. The rules for the matches for the worlds series between the N. H. A. winners and the coast champions were discussed. The following is the off-side rule to be used during the games played under the Western rule. The rink shall be divided into three equal sections by drawing a colored line, four inches or more in width, across the ice and up the side fences at right angles to the length of the ice. In the middle section there shall be no offside, but the off side rule shall remain in force in the two end sections. No player shall take the puck off-

side in the middle section, it may be played by one of his own side from the end section. Further when the puck strikes the side fences in the middle section, when played by any player in the middle section, every player shall be on side, even if the puck goes into either of the end sections. It is permissible to loaf in the middle section, but any player loafing there must not cross opponent's line ahead of the play. In case of infringement the referee shall order a face on the line. **MARITIME HOCKEY.** NEW GLASGOW, N.S., Feb. 20.—The New Glasgows last night found Sydney the easiest marks of the season and beat them out 11-2.

OVERCOAT DAY TO-MORROW AT GRAFTONS

Broken lines of this season's best Overcoats will be placed on sale TO-MORROW at prices the extreme limit of value giving. When headquarters give the word to reduce it means genuine price reductions. If you are skeptical come in, we are only too pleased to show these wonderful bargains.

MEN'S O'COATS DIVIDED INTO 4 LOTS

HANSARD'S REPORT OF DISCUSSION RELEVANT TO NEW POST OFFICE

Liberal Attack is Answered Effectually --Georgetown Stone Could Not Have Been Secured for Two Years --A Question of Expedience in Interests of This City.

The Hansard report of the discussion in the House of Commons at Ottawa this week on Brantford's new post office, gives the following version of the affair:

Mr. Nesbitt: They were answered, and it is the answers I wish to deal with. Mr. Speaker: If this were held to be referring to a past debate, of course, it would not be in order; otherwise it would be permissible. The rule is that answers given by ministers of the Crown are given in the exercise of their best judgment.

Mr. Nesbitt: The answers are perfectly plain, but I wish to make some comment on them. The questions and their answers are as follows: 1. What stone was specified to be used in the Brantford public building by the architect?

Mr. Rogers: Ontario, was specified. 2. Yes. 3. No detailed estimate was made for the stone. 4. The stone used was Berea, Ohio, sandstone, as the price quoted by the contractor in his tender was considerably lower than the price for Georgetown stone and this tender was accepted. 5. Berea, Ohio. 6 and 7. The cutting of the stone was included in the contract awarded to P. H. Secord and Sons, Limited, Brantford.

One would almost wonder if all the loud-mouthed protestations of Loy-

alty to imperial trade and of desire to patronize home manufactures on the part of hon. gentlemen opposite was merely for the purpose of deceiving the people. In the last election from end to end of this country there were protestations by our friends on the other side that we should trade within the empire and should patronize home manufactures. This referred even to the conduct of private individuals in the carrying on of their business. But here we had the Government itself declaring in the first place by their specifications for a public building that Canadian stones should be used, and then going outside and buying—from whom? From the Yankees, the very people to whom we were going to be annexed to if private individuals were from them, the very people to whom we were going to be made an adjunct if we even trade with them. It seems almost impossible to believe that our friends opposite should stoop so low as the proclaim it, as to buy from people like the Mr. German, that the first place where you suppose this building was constructed. Why in the riding of my hon. friend from Brantford (Mr. Cockshutt), the lord high chancellor of the doctrine of patronage of home manufactures. An act that the earthquake did not commit the other side.

Mr. Nesbitt: Why, he is the John the Baptist of the movement. But that is not the worst of it. I understand from a very reliable person who visited the works that the first man employed on the stone-cutting—and employed in the contrivance of the alien labor law—was a Yankee, and that some of the other men employed on the work were Yankees. In Brantford, think of it.

Now that is the facial side of the question, but there is a serious side. The answer to question No. 4 says that the stone used was Berea, Ohio, sandstone, as the price quoted by the contractor in his tender was considerably lower than the price for Georgetown stone and this tender was accepted. But on a consideration of the question, it was shown that there was a difference of \$28,000 in the cost of this stone. That was the simple and the only reason why the tender was accepted for Berea stone for the construction of the building in the city of Brantford in preference to the stone first specified, known as Georgetown stone.

This is simply a recital of the facts in order that the hon. member for North Oxford may not be carried away with any misunderstanding of the true conditions of the letting of the contract and of the tender which has been referred to in respect of the construction of the post office in Brantford. I say that the contract was let in accordance with the recommendation of the architect of the Department of Public Works. The chief architect of that department is a man known, I think, to every hon. member of this House; and I am sure that no hon. member would say that I would be justified in paying \$28,000 more for Georgetown stone when the chief architect said that the Berea sandstone was really a better stone than the Georgetown stone and could be secured at a cost of \$28,000 less to the people of Canada.

Mr. W. M. German (Welland): I quite agree with the Minister of Public Works that in letting contracts, either in that department or in the Department of Railways and Canals, so far as my experience has gone, and I have had some considerable experience, there is no one who has inside information; and I quite appreciate his other statement, that the chief architect of the Department of Public Works is one of the best men we have in the public service of Canada. I have known him for a good many years and I am not so much criticizing the position which the chief architect took in allowing American stone to be used in this contract as I am in criticizing this particular phase of it, that I do not think the Government should allow American stone to be used at all, I do not think the department should have specified Georgetown stone. We have in the Niagara district limestone quarries, the Queenston quarries and the Beamsville quarries and the Thorold quarries, which produce the finest stone that this or any other country can produce. It has been used to build and construct the heaviest work that has been constructed in Canada and it can be procured at a cheaper figure, I believe, than the Georgetown stone can be procured, and just as cheap as the Ohio sandstone can be procured. The Government specified Georgetown stone, and consequently the men who are interested in the Queenston, Beamsville and Thorold quarries would not tender, although they might have been able to supply the stone at as low a figure as it was supplied by the contractor who got his supply from the United States. It is that phase of it that I desire particularly to criticize, namely that the Government should not specify any particular class of stone except as to it being a good quality of limestone such as would be

MOTHER! THE CHILD IS COSTIVE, BILIOUS

If tongue is coated, breath bad, stomach sour, don't hesitate.

Give "California Syrup of Figs" at once—a teaspoonful to-day often saves a sick child to-morrow. If your little one is out of sorts, half sick, isn't resting, eating and acting naturally—look, Mother! see if his tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours the stomach and the indigestible food and sour bile gently moves out of its little bowels without gripping and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative" because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50 cent bottle of "California Syrup of Figs"; they see that it is made by the "California Fig Syrup Company." Don't be fooled!

The facing stone (excepting granite) on elevations from top to base course to top of coping, tower, penthouse, sills to all windows, lintels to all windows and doors, copings, hand courses and where colored water to be approved Logan stone of Georgetown, Ont., or other approved stone of equal quality, to the entire satisfaction of the chief architect.

We have here the facts of the case. When the tenders were received it was true that Secord and Company tendered using Berea sandstone, a stone which has been used to a very large extent in the Dominion of Canada. It is the stone of which the post office and the Bank of Montreal in the city of Ottawa are built. When it became a question of whether we should accept the tenders of the Georgetown stone or of the Berea sandstone, and the Deputy Minister of my department that we must, if we possibly could, use Canadian stone. But on a consideration of the question, it was shown that there was a difference of \$28,000 in the cost of this stone. That was the simple and the only reason why the tender was accepted for Berea stone for the construction of the building in the city of Brantford in preference to the stone first specified, known as Georgetown stone.

This is simply a recital of the facts in order that the hon. member for North Oxford may not be carried away with any misunderstanding of the true conditions of the letting of the contract and of the tender which has been referred to in respect of the construction of the post office in Brantford. I say that the contract was let in accordance with the recommendation of the architect of the Department of Public Works. The chief architect of that department is a man known, I think, to every hon. member of this House; and I am sure that no hon. member would say that I would be justified in paying \$28,000 more for Georgetown stone when the chief architect said that the Berea sandstone was really a better stone than the Georgetown stone and could be secured at a cost of \$28,000 less to the people of Canada.

Mr. W. M. German (Welland): I quite agree with the Minister of Public Works that in letting contracts, either in that department or in the Department of Railways and Canals, so far as my experience has gone, and I have had some considerable experience, there is no one who has inside information; and I quite appreciate his other statement, that the chief architect of the Department of Public Works is one of the best men we have in the public service of Canada. I have known him for a good many years and I am not so much criticizing the position which the chief architect took in allowing American stone to be used in this contract as I am in criticizing this particular phase of it, that I do not think the Government should allow American stone to be used at all, I do not think the department should have specified Georgetown stone. We have in the Niagara district limestone quarries, the Queenston quarries and the Beamsville quarries and the Thorold quarries, which produce the finest stone that this or any other country can produce. It has been used to build and construct the heaviest work that has been constructed in Canada and it can be procured at a cheaper figure, I believe, than the Georgetown stone can be procured, and just as cheap as the Ohio sandstone can be procured. The Government specified Georgetown stone, and consequently the men who are interested in the Queenston, Beamsville and Thorold quarries would not tender, although they might have been able to supply the stone at as low a figure as it was supplied by the contractor who got his supply from the United States. It is that phase of it that I desire particularly to criticize, namely that the Government should not specify any particular class of stone except as to it being a good quality of limestone such as would be

approved of by the chief architect of the department, whether Georgetown, Beamsville or Queenston stone. And when we come to the point of stone-cutters, we have in Niagara district the best stone-cutters the world can produce. I would call that to the attention of Minister of Public Works and of the Government generally, that if they want stone cutters, all they have to do is to come to the county of Welland, and they can get the best stone-cutters the world can produce. Or they can come to the county of Lincoln. I see my hon. friend from Lincoln (Mr. Lancaster), smiling at that. He has stone-cutters in his constituency, and I am surprised that he has not made something of a disturbance in regard to this.

Mr. Rogers: I would like to draw the attention of my hon. friend to the fact that this was a contract let to Secord and Sons. They had a perfect right to employ whom they wished so long as they did not violate the Alien Labor Act. Mr. German: It has been suggested that the government allowed the Alien Labor Act to be broken so that these stone-cutters could come in. But I wish to call the attention of the minister to this one fact which is within my own knowledge; it is absolutely impossible for a Canadian to go into the United States and to get such a contract talk and for effect generally, but I do not wish it to be so considered. I believe that we in Canada are capable of doing our own work, and of doing it as efficiently and as cheaply as it can be done, and I, for one, am prepared to stand by the principle that we should keep Canada for the Canadians in that particular and use our own stone and our own stone-cutters even if it costs a little more. I do not wish to insinuate that any contractor had any inside information or that he could possibly have got any inside information from the department.

Mr. W. F. Cockshutt (Brantford): I think I know a little about this question, and I would like to say to my hon. friend that he is barking up entirely the wrong tree in his attempt to fasten any wrong-doing on the Public Works Department in connection with the Brantford public building. If we had got one-quarter as good value from the contracts let by the Government my hon. friend has supported so vigorously, he might have got up and criticized this question. He has shown a lamentable want of knowledge of the facts. The Minister of Public Works has made the facts plain. In the first place the specifications called for Georgetown stone or other of equal quality. What are the facts in regard to Georgetown stone? The Minister has shown that the building would have cost \$28,000 more, if it had been built of Georgetown stone instead of the stone selected. Another point was that the Georgetown quarries could not turn out enough stone for that building even if we got the whole output for two years.

Mr. E. M. Macdonald: Why was that stone specified if you could not get enough of it? Mr. Cockshutt: When the specifications were made out, it was not known that we could not get the Georgetown stone. We understood that there was a very large deposit of stone, and that there would be no trouble as to the quantity; but when the tenderer examined the quarry he found that he could not get enough.

Mr. Nesbitt: I did not say they were not. Mr. Cockshutt: My hon. friend just picks out one man on the building. Surely if these Americans come here (Continued on Page 12)

CHAPTER XVII Who Shot Griggs?

FOR a few minutes longer the two men discussed the details of the crime, theorizing over the baffling event. Then Cassidy entered.

"I got the factory at Hartford on the wire," he explained, "and they gave me Mr. Maxim himself. He said this was surely a special gun, which was made for the use of Henry Sylvester, one of the professors at Yale. He wanted it for demonstration purposes. Mr. Maxim said the things have never been put on the market, and that they never will be. I got this man, Sydney Cassidy, who went on, 'on the phone too. He says that his house was robbed about eight weeks ago, and among other things the silencer was stolen."

"Is there any chance that young Gilder shot Griggs?" asked Demerest.

"You can search me!" the inspector answered. "My men were just outside the door of the room where Eddie Griggs was shot to death, and none of 'em heard a sound. It's that infernal silencer thing. Of course, I know that all the guns was in the house."

"Did you see them go in?"
"No, I didn't, but Griggs—"
"Griggs is dead, Burke. You're up against it. You can't prove that Garrison or Chicago Red or Dacey ever entered that house."

"Well, then, I'll charge young Gilder with murder and call the Turner woman as a witness."

"You can't question her on the witness stand. The law doesn't allow you to make a wife testify against her husband. No, Burke, your only chance of getting the murderer of Griggs is by a confession."

"Then I'll charge them both with the murder," the inspector growled vindictively. "And, by —, they'll both go to trial unless somebody comes through. If it's my last act on earth, I'm going to get the man who shot Eddie Griggs."

Burke, after the lawyer had left him watched the door expectantly for the coming of Aggie Lynch, whom he had ordered brought before him. But when at last Dan appeared and stood aside to permit her passing into the office, the inspector gasped at the unexpectedness of the vision. The next instant the inspector forgot his surprise in a sincere, almost ardent admiration.

The girl was rather short, but of a slender elegance of form that was ravishing. Her costume had about it an indubitable air, a finality of perfection in its kind. On another it might have appeared perhaps the merest trifle garish. But that fault was made into a virtue by the correcting innocence of the girl's face. It was a childish face, childish in the exquisite smoothness of the soft, pink skin, childish in the wondering stare of the blue eyes, now so widely opened in dismay, childish in the wistful drooping of the rosy mouth.

"Now, then, my girl," Burke said roughly, "I want to know."

There came a change, wrought in the twinkling of an eye. The tiny, trimly shod foot of the girl rose and fell in a wrathful stamp.

"What do you mean by this outrage?" she stormed. Her voice was low and rich, with a charming roundness that seemed the very hallmark of gentility. "I demand my instant release."

"Wait a minute!" Burke remonstrated. "Wait a minute!"
"You wait!" she cried violently. "You just wait, I tell you, until my papa hears of this!"

"Who is your papa?"
"I shan't tell you," came the petulant retort from the girl. "You would probably give my name to the reporters. If it ever got into the newspapers my family would die of shame!"

"Now, the easiest way out for both of us is for you to tell me just who you are. You see, young lady, you were found in the house of a notorious crook."

"How perfectly absurd! I was calling on Miss Mary Turner."
"How did you come to meet her anyhow?"

"I was introduced to Miss Turner by Mr. Richard Gilder. Perhaps you have heard of his father, the owner of the Emporium."

"Oh, yes, I've heard of his father and of him too."

"Then you must see at once that you are entirely mistaken in this matter."
"You see, young lady, the fact is that even if you were introduced to Miss Turner by young Mr. Gilder this same Mary Turner herself is an ex-convict, and she's just been arrested for murder."

"Murder?" the girl gasped.

"Yes. You see, if there's a mistake about you you don't want it to go any further—not a mite further, that's sure. So, you see, now, that's one of the reasons why I must know just who you are."

"You should have told me all about this horrid thing in the first place." Now the girl's manner was transformed. She smiled wistfully on the inspector and spoke with a simplicity that was peculiarly potent in its effect on the official.

(To be continued.)

HANSARD'S REPORT OF DISCUSSION RELATIVE TO THE NEW POST OFFICE

(Continued from Page 11.)

they have a right to work. I visit the building almost every day, and, as I said, my hon. friend can rest assured that 95 per cent. of the stone-cutters on that building are Canadians and British subjects.

Mr. Secord, the contractor, is doing the best work ever seen in the city of Brantford, and he is giving 100 cents on the dollar on that job. The whole matter from start to finish is being conducted in the most thorough manner. The site was purchased from the city of Brantford, and the property is to-day worth more than double what was paid for it. I do not mean to say that Mr. Brantford intended to be over-liberal but they sold the property on which this building stands to the government so that the public might get the benefit, if there was any benefit in it. The building is being rapidly pushed to completion in a way that could not have been done if we had chosen Canadian stone. I brought to the attention of the minister various Canadian stones, and it was found that every one of these would cost considerably more than the one chosen, and some of them would have to be transported some thousands of miles. It is a lamentable fact that within a distance of one hundred miles of Brantford you cannot find a first-class stone in large quantities, and I say it with all deference to the constituency that has been mentioned by my hon. friend from Welland (Mr. German.) If he has one kind of stone there I would like him to name one first-class building in which it has been used. I do not know of one, and I have looked at several public buildings and endeavored to come to a conclusion as to the best stone. I think the Government ought to be upheld because they have saved the country \$28,000 by using this particular stone. The Chief Architect said that this stone was equal to the best, and therefore I think the criticism of my hon. friend from North Oxford is entirely aside from the question. The whole matter is just as honest and above board as any contract ever let by any Government and if he has any doubt about that, I would be willing to have the most full investigation in regard to the whole matter.

Mr. E. M. Macdonald: It is rather an interesting thing to see my hon. friend rushing to the defence of the proposition that you can get better stone on the United States to build Canadian buildings with, than you can in Canada, and get it cheaper. If my hon. friend has attempted to prove anything in the remarks he has made, that apparently was the object of his ambition. It means that when the Minister of Public Works came to ask for tenders for this work, he apparently was not aware of the fact that somewhere else in this country there was some stone other than the Georgetown quarry stone. All over the country there are quarries producing stone of a most admirable quality, such stone as the large banks and the great commercial buildings are being constructed of in different cities in Canada. Why did the Minister of Public Works confine the tenders for this particular building to a stone that he knew the quarry had run out of?

Some hon. Members: No, no.

Mr. Macdonald: Yes, because he is the hon. member for Brantford says so.

Mr. Cockshutt: I did not say so. Mr. Rogers: My hon. friend from Brantford did not say anything of the kind.

Mr. Macdonald: What did the hon. member for Brantford say?

Mr. Rogers: I will tell the hon. gentleman.

Mr. Macdonald: I am dealing with the Minister of Public Works. What did the hon. member for Brantford say?

Mr. Rogers: The hon. member for Brantford said that it was impossible to get the stone out as quickly as it would have been required for the construction of the building at Brantford.

Mr. Macdonald: Did the Minister of Public Works (or any of the officials of his department) know when they made that a condition of the contract, that they could not get Georgetown stone?

Mr. Rogers: Apparently they did not.

Mr. Macdonald: Well, then, the result is that we have the fact established that the Minister of Public Works specified and prescribed as the one and only stone that could be placed in this building, a stone coming from a quarry in regard to which they had made no inquiries whatever to find out whether they could get any stone or not. The hon. member for Brantford tells us that this stone which could be used came from a quarry where you could not get it inside of two years.

Mr. Cockshutt: The hon. gentleman does not want to misrepresent me. Mr. Macdonald: No.

Mr. Cockshutt: I did not say that I said that the tenders called for Georgetown or some other stone of similar quality. Why does the hon. gentleman leave out the latter part of it?

Mr. Macdonald: For the very good reason that the hon. member for Brantford is not the Minister of Public Works in this Government, and that if any member of this House wants to get a statement as to what was prescribed and approved of for his work, he does not go to the hon. member for Brantford to find out, but he goes to the Minister of Public Works, who, in response to the question of my hon. friend from Oxford (Mr. Nesbitt), who wanted to know what stone of the Georgetown quarry was specified. What is the use of the hon. member for Brantford coming here and, in order to extricate himself and his friends from a difficulty, telling us that this statement of the Minister of Public Works is absolutely incorrect? Contractors were told: You can put no stone in that building but Georgetown stone. The Minister of Public Works has told us that the stone that he specified was the Georgetown stone, and when he found that this stone which had been specified came from a quarry could not produce any stone for two years, what did my hon. friend do? These gentlemen, who did not want any truck or trade with the Yankees, said: You cannot get any stone in Canada; Canadian stone is not good, except this stone that you cannot get out of the Georgetown quarries within two years; we will not bother looking up and down the country to find whether there is any stone to be put in

Canada, but we will take Ohio sandstone; that is the best of all; it is better than any Canadian stone, and besides you can get it cheaper. We, on this side of the House, are all good enough Canadians to say to the Minister of Public Works: If you had used stone from any other Canadian quarry, even if it had cost a little more than Ohio sandstone, we would not have complained about it. We would give the minister some credit for realizing that Canada had some natural industries that deserve to be patronized. It was not necessary, especially in the case of a public building belonging to Canada, to blazen it abroad and to tell the men who are connected with the construction of public works in the country: If you want to erect a public building for the Canadian Government, you must not buy Canadian stone for the purpose of doing it.

Mr. Burnham: What about free food?

Mr. Macdonald: My hon. friend, the alarm clock, is starting again. However, it has been proved beyond the shadow of a doubt to the House and to the country that, in the estimation of this Government, Canadian stone is no good when you can get American stone to be used in public buildings.

Mr. Henderson: I just desire to say that Georgetown is in the county I represent. I know the quarry referred to. The demand for Georgetown stone is certainly very great, and I am not surprised that this contractor could not get a sufficient quantity of stone in time to finish his contract from that quarry on account of the large demand for Georgetown stone. I will undertake to say that there is no better quality of free stone in the province of Ontario than is taken out of the Georgetown quarry.

Mr. Macdonald: It is better than American stone.

Mr. Henderson: It may be far superior, but unfortunately, Mr. Logan, whose name is given as being the proprietor of the quarry, was not able to supply the stone in sufficient quantity at the time it was needed. That does not say one word against the quality of the stone; nor yet does it say one word against the quantity of the stone. There is a mountain of this stone right where the quarry is.

If the hon. member for Pictou (Mr. Macdonald), wanted to erect a very large building within a reasonable distance of the quarry I have no doubt that an abundance of stone could be obtained provided sufficient time was given to take it out.

Mr. Macdonald: Why had you to go to the States to get it?

Mr. Henderson: Well, now, the hon. gentleman had better be patient. I think he has had that fully explained to him. I never heard anything of this matter before, but it appears that the Georgetown quarry was not able to supply this stone in the quantity that was wanted and in the time

provided for in the contract. There is no evidence that the Georgetown quarry could not have supplied the stone if a reasonable time had been given or if they had had sufficient notice. I see the hon. member for West Lambton (Mr. Pardee) smiling. The post office in this town is built from stone taken from the Georgetown quarry. The post office was built by the Government that he supported and I will undertake also to say that he does not find any fault with it and that he will not say that the stone taken from that quarry is not of the best.

Mr. A. K. Maclean: We do not say that there is anything against the stone.

Mr. Henderson: The hon. member for Pictou tried to give a black eye to this stone. The hon. gentleman does not know this quarry. It is being worked all the time full force and were it not for the terrible demand

SICK, SOUR STOMACH, INDIGESTION OR GAS

"Pape's Diapepsin" Makes Upset Stomachs Feel Fine in Five Minutes.

Wonder what upset your stomach; which portion of the food did the damage; do you? Well, don't bother. If your stomach is in revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated; just take a little Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful; it digests food and sets things straight, so gently and easily that it is really astonishing. Please for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

J. S. Hamilton & Co.
Brantford Agents

Machine Phone 788

for Georgetown stone I have no doubt that this building at Brantford would have been built of Georgetown stone. The hon. gentleman must take all these circumstances into consideration. The Georgetown quarry is no one-horse affair. It is not limestone. It is the best quality of free stone. It is not like the limestone that they have in Welland county. It is a very fine quality of stone and as evidence of that let me say that a building was erected in my county during last year and the cut stone required for that building was taken out of the Georgetown quarry. It was approved by all parties and it also had my approval. It had the approval of everybody that looked at it. It was pronounced by everyone as a very superior quality of stone.

Mr. Macdonald: Why was it not put in the Brantford building?

Mr. Henderson: How many times does my hon. friend want to know that? I said that the men who are running this quarry, if they had sufficient notice, might have been able to supply the stone necessary; but owing to the tremendous demand for Georgetown stone, they could not get it out on time. The hon. gentleman had better take a run up to Georgetown and see the immense quantity of the superior stone that is being shipped from there, and then we will hear less complaints from him. I could not sit quietly in my seat and hear the hon. gentleman speak in that way of the quarry.

Mr. Broder: That you represent.

Mr. Henderson: No, but in the county I represent.

Mr. Macdonald: It was the member for Brantford, and not I, who reflected on the quality of the stone.

Mr. Henderson: I listened to the hon. gentleman from Brantford, and I

did not hear him cast any reflection on the quality of Georgetown stone. It has been said that the American stone has been obtained for less money, and I am not doubting that, because I do not know anything at all about the matter; but I do know that if Georgetown stone is not a better stone than the American stone, the demand for it would not be so great as it is. You must take into consideration the superior quality of the Georgetown stone when you remember the demand there is for it. I have no brief from Mr. Logan to praise the quality of this stone; I know it is a hard quarry to work, but I know they dig an immense quantity of stone out of it, and I do say that it is a stone of a very superior quality.

Some hon. members: Hear, hear.

LAWYER KNEW BETTER.
An Alabama negro was defended in court by Senator Morgan. Having cleared the negro of the charge, the senator said to him: "Rastus, did you really steal the mule?"

"Well, Mars Morgan, it was just like this," said Rastus, "I really thought that I did steal dat mule, but after what you said to the jury I know I didn't."

A hot debate is expected in the United States Senate over the Panama tolls exemption question.

Cainsville News
(From our own Correspondent)
Anniversary services were held in the Brant church last Sabbath, large congregations being present at both services. Rev. A. I. Snyder of Sydenham St. Church, Brantford, preached an excellent sermon in the morning, which was followed with wrapt attention throughout. In the evening, Rev. Mr. Taylor of Ancaster, had charge of the evening service, and preached a very thoughtful sermon. The music for the day was of high class. A quartette composed of Mrs. Wilson, Miss Norrie, and Messrs. Smith and Myers giving two very popular numbers in the evening.

Mr. and Mrs. A. B. Rose entertained a number of their friends to a progressive tea last Wednesday evening.
A sleighing party from Brant community attended the tea meeting at the Baptist settlement on Tuesday evening.

Miss Annie Smith went to Aylmer on Friday where she will remain a guest at the home of her brother, Mr. E. H. Smith, for a couple of weeks. League was held on Monday evening, Miss Maggie McCall officiating as leader in a very capable manner. Mrs. Wilson read a splendid paper on the topic, The Conversion of Saul. At the conclusion of this service, the teacher training class held a session, Mr. Fred Sumner being the teacher.

Mr. Jackson of Brantford was the guest of Mr. Yule of the B.N.A. on Sunday.
Miss Irene Shaver returned on Friday from a month's visit at the home of her aunt, Mrs. Haggart, at Blenheim.

Mr. and Mrs. Henning of Jarvis and Mr. and Mrs. Will Norrie of Oakland were guests at the home of Mr. and Mrs. J. D. Norrie on Saturday. The Misses Pierson of Hamilton, were the guests of their uncle, Mr. S. A. Pierson last week.

Mr. and Mrs. Bert Shaver and children spent Wednesday and Thursday at the home of Mr. and Mrs. Wood, at Jerseyville.

Mr. Norrie and Mrs. Henning were guests at the home of their mother, Mrs. Norrie at Bealton. Upon their return their mother accompanied them and she is now the guest of her son here.

Inspector Standing visited the village school on Wednesday and Brant school Thursday afternoon.
Miss Green of Brantford, was the guest of Mr. and Mrs. S. A. Pierson on Friday evening.

Miss Myrtle Young, of Ancaster, is spending the week with her sister, Mrs. H. E. Sumler.
There was quite an exciting run-away in the village on Saturday afternoon, but we are glad to report that no one was seriously hurt, although considerable damage was done.

Mr. Norman Boyd, of Hamilton, spent the week-end at Hillcrest Farm.
The concert given under the auspices of the Epworth League last Wednesday evening was of a very high class and, considering the low temperature that evening, it was well attended. The Brant Quartette certainly delighted the audience with their numbers and their renditions were greatly enjoyed, which was shown by their frequent encores. It is not necessary to comment upon the reader of the evening Miss Daisy Westbrook, as Daisy is so well known and such a general favorite in this community. Suffice to say,

Mr. Charles Davidson of this place is preparing to build a new barn in the very near future.
We are sorry to report that Mr. Chester Lee's little infant son is quite seriously ill.
Mrs. Alexander Wright and daughter Miss Hattie, and friend, of Brantford, have been spending a few days with Mr. E. Messacar of this place.
Mr. and Mrs. W. H. Poole of Norwich were calling on friends here the other day.
A number of the farmers through were shipped their hogs from the depot last week.
Mr. Chas. Almas is on the sick list. We hope for his speedy recovery.
Mrs. Lambert of Saskatoon, Sask, is spending a few days with Mrs. W. Almas.
Miss Maggie Almas has returned home after spending a couple of weeks with relatives in Norwich.
Mrs. Lemuel Kelly and daughter, Miss Aethia, are visiting at the home of Mr. and Mrs. Arthur Kelly's of Vanessa.

A VEGETABLE CONSTIPATION CURE
Because they contain mercury and mineral salts, many pills are harsh. The easiest and safest laxative is Dr. Hamilton's Pills of Mandrake and Butternut. They clean the stomach, intestines and bowels—drive out waste matter, tone the kidneys and forever cure constipation. As a general tonic and system cleanser, nothing is so mild and efficient as Dr. Hamilton's Pills of Mandrake and Butternut. Sold everywhere in 25-cent boxes

When the system gets "all run down" build it up with **O'keefe's Special Extra Mtd ALE**
May be ordered at 47 Colborne St., Brantford.

IF HAIR IS TURNING GRAY, USE SAGE TEA
Here's Grandmother's Recipe to Darken and Beautify Faded Hair.
That beautiful, even shade of dark, glossy hair can only be had by brewing mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.
Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," ready to use. This can always be depended upon to restore the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.
Everybody uses "Wyeth's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning grey hair has disappeared and after another application it becomes beautifully dark and appears glossy, lustrous and abundant. Agent T. George Bowles. 611

GOOD ALL ROUND
aids to good health—and to the strength, comfort and cheerfulness which depend on the condition of health—are the famous, time-tested, safe and speedy **BEECHAM'S PILLS**
Sold everywhere. In boxes, 25 cents.

that all her numbers were encored and these encores were responded to in her usual gracious manner.
Mr. John Carmody leaves on Friday for Oklahoma on an extended prospecting tour.
Mr. John Stark returned this week from Harriston district, where he has been speaking in the interests of the Farmers Institute.
Mrs. Greenwood, of Echo Place, was the guest of Mr. and Mrs. Dawdy on Thursday afternoon.

A large attendance was present at a meeting of the Cainsville Progressive Association held in the school house last Thursday evening. Some new members were added, showing an increasing interest in the work of this organization. A report of the Social Committee stating that a social would be held on or about March 11 was read. Mr. Seace, the conciliator, gave a very instructive address on the new proposed hydro lights, assuring his hearers that there is a strong possibility of having Hamilton road lighted to station 27. The proposed new side walks caused a great deal of discussion, although nothing definite was decided except that sidewalks are to come in the near future. The local improvement plan did not meet with general approval. Reports of some of the committees were then read and the meeting adjourned.

MOUNT ZION
(From our own Correspondent)
Mr. and Mrs. Leslie Reid of Burford have been the guests of the former's parents during the past week at this place.
Miss Pearl Swears was the guest of Mrs. Olive Ryder on Wednesday last.

We are very sorry to report the death of Mrs. Milton Glover on Monday. The funeral took place on Wednesday at Scotland cemetery.
A number from here attended a supper given by the Oakland church on evening last week.
Mr. Baldwin entertained his Sunday school class on Tuesday evening.

CANADA'S STEEL INDUSTRY!
Monetary Times: An authoritative estimate says that during the recent year Canada will make nearly 1,000,000 tons of steel, which is more than the United States produced in 1879. Prior to 1902 Canada made very little steel. The output advanced from 26,084 gross tons in 1901 to 182,037 gross tons in 1902. Five years later, in 1907, it had reached 646,754 tons, and five years later still, in 1912, it increased to 853,031 tons, the largest output in its history.
Mr. R. Hobson, vice-president and general manager of the Steel Company of Canada, says of the outlook in the steel industry:
"At the beginning of January the outlook for the iron and steel business for 1914 had anything but a rosy appearance, but day by day there are signs of renewed confidence, which is evidenced by the fact that the makers of steel in the United States are gradually advancing their price."
"I think that while we may not have as large a business during 1914 as we had from the middle of 1912 to the middle of 1913, the demand for our product is going to be satisfactory, and we have to remember that, as a rule, manufacturing under extreme pressure, such as we had during the period mentioned above, is not as economical as it is under ordinary normal conditions."
Frank Morton, employed by Rev. Stenton, a Harwich farmer, was killed by a cave-in in a gravel pit.
Austria has taken unusual steps to check the inroads upon her army by emigration to America.

RANELAGH
It has been clear and cold during this week.
Several around here have put in the for summer use, during the past week.
Mr. and Mrs. William Walker spent Wednesday at Scotland.
