

The Acadian

DEVOTED TO THE INTERESTS OF WOLFVILLE AND EASTERN KINGS

Vol. XL. No. 19.

WOLFVILLE, NOVA SCOTIA FRIDAY, FEBRUARY 25, 1921.

\$2.00, payable in advance

Public Health Pictures

Shown at Opera House to Large Audience

Notwithstanding the severe storm which prevailed last Sunday evening every seat at the Opera House was occupied when an interested audience assembled to witness the health pictures exhibited under the auspices of the Social Service Council. Among the pictures shown were those featuring Public Health Nursing, Child Welfare and the Red Cross Caravans of Nova Scotia. Some of the latter were shown for the first time, including those of the Health Van at Grand Pre. Dr. Craig, the Provincial Commissioner for the Red Cross, was present and took advantage of the opportunity to launch the Peace Time Red Cross Campaign. All of the pictures were most interesting and were very clearly and extensively explained by Dr. Craig.

At the close a silver collection was taken to defray local expenses when something over fifteen dollars were received.

The following is a summary of Dr. Craig's address, which was listened to with close interest by those present:

The War has opened up an interest and a great field for Public Health work. This is particularly emphasized by a Conference of the leading Public Health authorities of the World, in France in May 1919.

Thirty-one National organizations agreed to join hands in forwarding a Peace Time Programme for the Red Cross. It was decided that no organization could better stimulate and assist in Public Health work than the Red Cross, which has been of such inestimable value during the War.

The Peace Time Programme of the Red Cross has three outstanding features:

1. The Prevention of Disease.
2. The Improvement of Health.
3. The Alleviation of Suffering.

The number of men called to the army in Great Britain during the year ending October 31st, 1918 was 2,425,184. A summary of the results of the medical examination of them shows the following results: of every nine men, three were fit and healthy, two were in infirm health, three might be described as physical wrecks, and one as a chronic invalid with a precarious hold on life. Since that was the physical condition of the men at their most vigorous age, what would be the condition of health among women and children? In other countries, the examination of men called to the colors revealed conditions somewhat similar. In Canada, of the 361,605 draftees under the Military Service Act, the medical examination found 181,229 of them, or about one-half of them, physically unfit for full service in the field. It is not reported that the disabilities were the result of active disease; they were evidently in most cases the consequences of poor nutrition, neglect of physical hygiene and unsanitary conditions of working and living.

These figures are alarming. In the Province of Nova Scotia last year the estimated economic loss from preventable illness was in the neighborhood of ten millions of dollars. There was an average of nine days loss of work per individual, from unnecessary illness. The Red Cross has offered every assistance possible to the Provincial Health Authorities, and other organized bodies in the effort to reduce this loss and to improve health conditions in Nova Scotia.

There is as well a problem which we must never forget and in which the Nova Scotia Red Cross can greatly assist, and that is the consideration of the disabled soldiers who have given much for his country and to whom there is owing an inestimable debt of gratitude.

The Red Cross Caravans in this Province were the first to be used anywhere in the world, and apart from the Educational value and the benefit to individuals they have brought this Province prominent before the world. Letters have come in from New Zealand and New South Wales concerning them.

Nova Scotia has jumped into the lead in both her Caravans and her Public Health Nursing Course. If this valuable work is to be carried on efficiently, the Red Cross must have membership and public interest. An appeal for membership throughout this Province is to be carried on in May next.

The Dominion Atlantic Railway are revising their list of Hotels and Boarding Houses published in book form for distribution in the United States.

Those who have not already supplied information should forward at once to the office of General Passenger Agent, Dominion Atlantic Railway, 117 Hollis Street, Halifax, N. S., their Address, Name of Hotel, Proprietor's Name, Number they can accommodate, Rate per day, and Rate per week.

These books are published without cost to the hotel keeper.

At a recent meeting of the Berwick Board of Trade, it was stated that about \$5,600 in cash was sent to Mail Order houses each month from that village.

CARUSO FIGHTING FOR LIFE

Famous tenor who is lying critically ill at the Hotel Vanderbilt, New York, with heart trouble. His physicians are hopeful of his recovery.

PLEASANT CHURCH RECEPTION

On Thursday evening of last week a very pleasant reception was held in the Lecture Room of the St. Andrew's Church, in honor of Rev. W. R. Foote, D. D., recently returned from mission work in Korea. During Dr. Foote's residence in Wolfville as a student of Acadia he was a member and active worker in St. Andrew's and old friends of that time, who have followed with interest his career in that far-away land, were delighted to again welcome him to Wolfville. In addition to members of the congregation, a number of former friends were present with Dr. Cullen, Dr. Oakes, Revs. Dixon, McDonald, Watts, and others. Rev. Mr. Miller, pastor of the church, extended in a few appropriate words the welcome of the congregation, which was gratefully acknowledged by Rev. Dr. Foote. A programme consisting of selections on the violin artistically rendered by Mrs. (Dr.) Thompson delightful vocal solo by Mrs. W. D. Withrow, and a well-rendered duet by Messrs. Davis and MacDonald, of the College, was heartily enjoyed. Mrs. Withrow has a sweet and exceptionally well-trained voice and was heard as on former occasions since coming to Wolfville with real pleasure. The ladies of the Church served dainty refreshments and the evening was pleasantly spent in a social way. Dr. Foote was evidently much pleased with the opportunity afforded of renewing old acquaintances, and all present found the occasion exceedingly enjoyable.

I. O. O. F. HOCKEY

An interesting game of hockey between the bachelors and benedicts of Orpheus Lodge I. O. O. F., was played at Evangeline Rink on Wednesday evening, resulting in a score of 8-3 in favor of the bachelors. The ice was not in good condition owing to the thaw, and the exceedingly disagreeable weather and roads prevented a large attendance. There were many amusing features during the progress of the game and those who witnessed the contest considered themselves well repaid for the effort required in order to be present. The single men showed the better form and were evidently too fast for their opponents. In the second period the married men however, showed themselves to be more adept in the use of the broom although they were unable to score. The game was very satisfactorily handled by Mr. J. W. Williams, who showed he still retained the ability to skate although one foot is already in the grave. It is not likely that there will be a return match.

CO-EDS. PLAY BASKETBALL

The Acadia Girls' Basketball team went to Windsor last Saturday and played a game with the Kings College girls. The game was closely contested and resulted in a win for Kings by the score of 35 to 34. A return game will be played at the Acadia Gymnasium to-morrow. The Acadia team in Saturday's game was composed of the following: Marjorie Wickwire and Isabel Murray, forwards; Jean Foote and Marion Brown, centres; George Spicer and Margaret McCurdy, guards; Isabel McPhail, Ruth Hennigar and May Proctor, spares.

At the morning service at St. Andrew's Church last Sunday, the congregation listened to a very interesting address on mission work in Korea, by Rev. Dr. Foote, recently returned on furlough from that country. Dr. Foote is a native of Grafton, this county, and a graduate of Acadia in the class of 1895. He first went to Korea twenty-three years ago, after completing his theological course at Pine Hill college, and has done splendid service in the mission field of that far-away and interesting country. In recognition of which he received the degree of D. D. from Pine Hill at the meeting of the Synod at Pictou last autumn.

Wolfville Defeats Stellarton

In Fastest Game of Hockey Ever Played in Wolfville

Those who attended the hockey game at Evangeline Rink last Friday evening, when the local boys defeated the Stellarton team by the score of 5-2, witnessed a brand of hockey never before seen in Wolfville. The visitors wanted the ice confidant of adding another to the unbroken string of victories, but they counted without their hosts, who proved themselves second to none in the art of playing hockey.

The Stellarton team was as follows: A. Kirby, goal; R. Bennet and P. Nowlan (Capt.); defence; D. Sullivan, centre; R. MacDonald, left; J. McLean, right; A. Howards, substitute.

Wolfville line up: W. Spicer, goal; H. Fraser and A. Parker, defence; Paul Tingley (Capt.), centre; K. Mason, right; W. Kennedy, left; H. Baird, A. Woodman and M. Beardsley, substitutes.

T. Stackhouse refereed in a most excellent fashion.

The Wolfville boys opened the attack but the visitors soon carried the play into home territory and Spicer saved a score. Very fast and pretty, clean hockey followed, both teams straining their utmost. Kirby had most of the anxiety, Kennedy and Tingley pouring in shot after shot. Kirby played the star game for the visitors, and it was only his superb playing in goal that prevented the home team from piling up a much larger score. Fraser scored the only goal in this period.

Upon commencing the second period the home team again carried the play to the Stellarton goal. The visitors however, carried it back and D. Sullivan scored twice in quick succession, putting Stellarton in the lead. The Wolfville boys forced the pace and Beardsley and Parker each scored within a minute of each other. The teams retired with a score 3 to 2 in favor of Wolfville.

The third period was the most exciting. Play ruled evenly for a couple of minutes then Wolfville shot ahead. Kennedy, top form scoring twice in rapid succession. Wolfville continued a regular bombardment in which Tingley and Spicer were conspicuous. Kirby cooled several shots until one at close range hit him over the eye and he was carried to the dressing room. He was soon replaced by Spicer, who scored twenty minutes. He received a rejuvenation and again saved many straight shots. Play ruled very keen till the end but neither again scored, Wolfville winning by five to two.

HOCKEY NOTES

The U. N. B. hockey team won the championship of the Western Inter-Collegiate League by defeating Mt. Allison last Friday night at Sackville by the score of 7 to 3. The same night Dalhousie defeated St. Francis Xavier at Stellarton and became the champions of the Eastern League. Dalhousie and U. N. B. will play to-night for the Maritime Intercollegiate Championship.

The game between Acadia and Amherst which was to have been played last Saturday night, was cancelled on account of the Amherst boys not being able to come.

On Thursday evening of last week Dartmouth defeated Canning in the Canning rink by the close score of 3 to 2.

On Wednesday evening the U. N. B. team defeated Kings at Amherst in a close over-time game, by the score of 6-5, and became the winners of the Summer trophy.

A fast game is assured at Evangeline Rink to-night when Wolfville meets Windsor. Windsor won the last game but the home team are not going to let them do it again. Give them your support by being present at the game.

Is it easy to fool a woman? Well, see the picture "What's Your Husband Doing" at the Opera House, Wednesday and Thursday M. R. 23.

Electric Commission Holds Important Meeting

A meeting of the Electric Commission was held at the Town Hall last evening, at which all the members were present, including Mr. J. E. Hales, the new appointee.

Superintendent Chisholm made a request for supplies to improve the system including a number of lightning arrestors to save the line in case of electrical storm such as did so much damage last year. The Commission also decided to secure a time clock for street lighting. This appliance will automatically control the street lights and save loss. It was decided to ask permission of the Council to cut off the water-shed lands to provide for the extension east and south.

The matter of improved street lighting was discussed and it was decided to make a thorough investigation as to the best equipment to use on Main Street.

It was also decided to proceed at once with the necessary repairs on the steam plant in order that it should be put in condition for use when required.

The Commission ordered that the new by-laws should be printed and distributed among citizens.

BOSTON SOPRANO IN RECITAL

Miss Helen Choate, the young American artist, who is to appear at the Baptist Church on March 10, 1921, is a soprano who is rapidly making her way to the front in Boston musical circles.

She has a voice of unusual range, beautiful and of limpid sweetness. In her repertoire of the coloratura type Miss Choate is equalled by few singers in New England. She is equally capable in singing simple songs.

Miss Anna Mae Schneider, of the Conservatory Staff, will be at the piano. Miss Choate's programme will be as follows:

- Del Riego
- Lady Moon
- Coleridge-Taylor
- The Unforseen
- Cyril Scott
- What's in the Air Today
- Eden
- Il Trovatore
- from Cavalleria Rusticana
- Mascagni
- Les fleurs avaient des yeux
- Masseuet
- Gravier
- Sale
- Wackerlin
- Protheroe
- Scott
- Dennore
- Strauss

Don't Come in Sir, Please, or (d) I Know Where a Garden Grows.

God Save the King

Tickets on sale at Rand's Drug Store, Seventy-five Cents to all parts of the Auditorium.

BOY SCOUT HOCKEY

The Boy Scouts of Berwick visited Wolfville on Saturday last and spent a very enjoyable day. The junior Scout team of Wolfville played them a game of hockey in the rink in the morning. They were entertained at dinner by the parents of the Wolfville boys and spent the afternoon in playing games at the Club Room.

Those in charge of the boys work in Wolfville are very grateful to the people who so kindly entertained the Halifax Tuxis Boys on the occasion of their recent visit to our town.

The Wolfville Tuxis Boys hope to play a return game in Halifax. This team defeated the senior team of Waterville by the score of 6 to 3. The Wolfville team was as follows, Gordon Kennedy, Val Rand, Gil Rand, Harold Wetherbee, Gilbert Wetherbee, and Blair Elderkin.

The sessions of the Men's Bible Class are being held each week with increasing interest. The attendance is on the increase and the teacher, Mr. Ernest Robinson, makes the lessons very interesting. These Sunday afternoon gatherings are most pleasant and the discussions on the subjects assigned are very interesting and profitable.

CANADA GIVES THANKS TO STEFANSSON.

Famous Arctic explorer whose service rendered to the nation in exploring the uncharted Canadian lands has been formally acknowledged by the Privy Council.

AN ANXIOUS RATEPAYER

TO THE EDITOR OF THE ACADIAN:

DEAR SIR:—A recent contributor to your worthy columns gave us some very interesting if rather inaccurate data about Wolfville. He stated that if it were not for the College, Wolfville would still be known as Mud Creek, and he points out our indebtedness to Acadia. We believe it is an honor to have Acadia University in our midst. It has been the means of bringing many cultured people to our town (but alas, many come with empty purses). It affords our children educational opportunities for which we are indeed grateful. It does many other beneficial things for the town, but it also prevents us from being an industrial centre. It is the means of prohibiting the establishment of manufactories and is opposed bringing in the labouring element. It causes Wolfville to be one of the most expensive towns, in which to live, throughout Canada and at present is causing embarrassing situations in our town finances.

Mr. Cohoon, in a late number of THE ACADIAN, offered what he considered a very easy and effective method of reducing the town debt by water and sewerage taxation. It seems strange that some of our municipal officials, who are the brains of the problem before us, do not consider these ideas are good, but he does not go far enough. The College is buying up the cream of our taxable property and therefore decreasing the town revenue. I understand the law reads that buildings for educational institutions are not taxable. That, I think, would mean the students' residences, Library, Manual Training Hall, etc., but not professors' houses. The churches of the town are also exempt but not the residences of the ministers—the parsonage, rectory, manse, etc. Why should professors' homes be exempt, especially where there is such a deficit? The newly acquired DeWitt property, together with the residence of Dr. Cullen, would net the town at least \$300 per annum.

Is not this matter worthy the serious thought of every rate-payer in the town? Not only that, but should not the trustees of Acadia University be interested enough in the welfare of Wolfville to do their share in decreasing our expenses. It not be may as well substitute the name "Acadia" for Wolfville now as well as later.

Yours truly,

ANXIOUS RATE-PAYER.

Mr. and Mrs. Joseph Howe have moved from Sackatoon to Brandon, where Mr. Howe has accepted a professorship in Brandon College. This college has as its head, Dr. Howard Whidden, a graduate of Acadia. Mrs. Howe is a daughter of Mr. and Mrs. Ross Chipman, of Chipman Corner. The health of Mrs. Howe's three girls is better since going to Brandon. —Advertiser.

Wolfville Board of Trade

Held Successful Session Last Evening

There was a good attendance of members and citizens at the annual meeting of the Wolfville Board of Trade last evening, indicating a continued growth of interest in civic affairs.

In the absence of the President, Mr. H. W. Phinney, who is spending the winter in the South, the chair was occupied by Vice President, Calkin.

The minutes of the last general meeting were read and adopted and the secretary reported the doings of the Council during the year.

The election of officers for the ensuing year was then taken up and resulted as follows:

President—H. E. Woodman
Vice-President—J. E. Hales
Sec.-Treas.—H. P. Davidson
Council—H. A. Peck, Dr. M. R. Elliott, B. O. Davidson, H. E. Calkin, W. C. B. Harris, J. L. Franklin, W. D. Withrow and Dr. Leslie Eaton.

A number of new members were elected including, J. C. Mitchell, R. B. Blauvelt, D. W. Withrow, E. H. Johnson, J. Elliott Smith, Dr. Leslie Eaton and G. K. Prescott.

It was decided to appoint a membership committee to thoroughly canvass the district and particularly to interest newcomers in the work of the Board. The following compose the committee: H. P. Davidson, Mayor Fitch, G. K. Prescott, A. M. Wheaton and Dr. Coit.

An item of special interest which came up for discussion was that relating to the wharf and harbor conditions at this port. Correspondence with the department of Public Works and Sir Robert Borden, representative of the County, was read. It was learned that the government does not intend to repair the old wharf outside the creek, but that extensive plans have been prepared and estimates furnished for harbor dredging and improvement and the construction of new wharves, and that land on the water-front has already been secured. The undertaking is a large one and will be of great value to the town if carried out. The Council was instructed to have nothing done in order to secure the carrying out of this important work.

A letter from the Parrsboro Board of Trade, asking for assistance in the construction of a wharf, was also read.

Mr. J. L. Franklin reported that there was some doubt as to the calling of the steamer here this summer owing to the bad conditions of the government wharf. The opinion of the meeting seemed to be that in order to render the best possible service the steamer should come to the town wharves and that this could be possible if a suitable boat were placed on the route. The Prince Albert, it was declared, is not of sufficient carrying capacity to do the summer work and draws too much water.

The Council was instructed to cooperate with the Parrsboro Board and attempt to secure the desired changes.

Dr. Wheelock brought up the matter of asking the Nova Scotia Government to provide free treatment for tubercular patients at the Kentville Sanatorium in view of the increased accommodation there and the need of doing more to check the progress of the dread disease. A resolution was passed approving of this and ordered to be sent to the government representatives for the county.

Another matter which came up was the proposition to appoint a town manager. A number of gentlemen spoke on the subject and gave interesting information concerning Pictou and Woodstock where the plan had been successfully tried. In other towns the appointment of a manager has been attended with good results. Owing to the lateness of the hour it was decided to continue the discussion at a later meeting. A more lively interest in the affairs of the Board was evident than has existed for years and it was urged that frequent meetings be held during the coming year. The Board was instructed to get all data possible concerning harbor improvement and town management, and call another meeting within a fortnight for the discussion of these subjects.

Coming to the Opera House Monday and Tuesday, March 7-8, is that sensational race between Sir Barton and Man O' War. No doubt everyone is anxious to see this race in pictures. The race was run at Windsor, Ontario for a purse of \$50,000.00 and Man O' War beat Sir Barton by 8 lengths. The race was taken by twelve cameras stationed all around the track so that you can see the race from start to finish in two thousand feet of film.

This is positively the fastest race ever run and it is your chance to see this race at the Opera House Monday and Tuesday March 7-8, and you will see it just as good as if you were present in Windsor where the race was run last summer.

HERE'S THE NEW CANADIAN CHALLENGER. This picture taken at Lunenburg, N. S., shows the hull of the new Canadian Challenger for the International Fishing Vessel Trophy, presented last year by W. H. Dennis of the Halifax Herald for an annual fisherman's race between the fastest vessel in the Nova Scotia fishing fleet and the fastest vessel in the Massachusetts fishing fleet. His Excellency the Governor General drove the first spike in the new Challenger. It is expected that the Challenger will be launched in about a month's time.

Canning AND VICINITY

Hon. A. M. and Mrs. Covert, entertained at a Valentine party Thursday evening in honor of the sixteenth birthday of their daughter Julia.

A Dramatic Club has been organized in Canning with the following officers: Managing Director—Bernard Norris; Asst. Director—Mrs. Reid Pelton; Advertising Agent—Miss Ada Reynolds; Scenic Committee—Mrs. Spura Woodworth, Miss Katherine Blenus, Frank Northup; Property Manager—Colonel Northup; Outside Manager—Jack Mullett; Chairman—Mr. Paul; Musical Director—Mr. Norris; Sec. Treasurer—Mrs. Alfred Ellis; Accompanist—Mrs. A. D. Payzant.

The club has been called the "Canning Dramatic Club" and will meet Monday evenings. The first meeting was held at the home of Mrs. Alfred Ellis, on Monday.

The Missionary Circle of the Methodist Church held a social evening and supper at the home of Mrs. L. F. Blenkhorn, Monday evening.

Miss Bessie Hennigar is visiting in Halifax.

Miss Kathleen Pineo, of Waterville, is the guest of Mrs. Scott Blenkhorn. Mrs. Davis of Truro is the guest of Mrs. Allan Clarke.

A PREFERRED CREDITOR

(From the Boston Transcript) A man who had been running a dubious business failed and at a meeting of his creditors all but one agreed to accept his four months note for 10 cents on the dollar.

When the others had departed, the man said, "Well, now, I should like what's coming to me."

"Oh," replied the debtor, "you won't get anything, any more than the others."

"But I thought I was a preferred creditor."

"So you are. These notes won't be paid when they fall due but it will take the others four months to find it out—you know it now, so you see you are preferred."

"MARITIME SEPARATION"

(From the Sydney Record.) "Some people talk about Maritime union," says the St. John Standard. "Maritime separation would seem more in order in view of the very cavalier treatment that these Provinces of ours get from the Ottawa authorities."

A gentleman who was a lover of art noticed two small boys looking at a statue. In order to see how it affected them he listened to what they were saying.

Advertising is not a matter of guesswork. It requires skill and knowledge and experience. It is not something to be lightly undertaken, but it can be undertaken with assurance of success if it is done properly.

Rich, Red Blood Means Health

Pale Cheeks and Bloodless Lips Are a Danger Signal

To be pale is no longer the fashion; to be languid is an affliction. Today the most winsome girl is the one with the pink tinge of health in her cheeks, lips naturally red, and eyes sparkling with life.

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia and nervousness. Build up your blood and note how the purer and richer blood fights your battles against disease.

CANADA'S FISHERIES

For a country in which fish of all kinds are available, Canada uses entirely too little fish. The average consumption of fish in Canada is approximately nineteen pounds per head per year.

Mrs. Banks—I always have a little siesta after lunch, and find it so refreshing.

Mrs. Prim—So I've heard, but my husband would never allow a drop of anything like that in the house.

NEVER AGAIN

(From "Foresight.") John Clay, of Clay, Robinson & Co., relates the following story:

"I visited the old farm in Scotland, as was my custom each year, and when talking with the old Scotchman who had been a part of the farm organization since my boyhood days, I noted that he was not wearing the big fur cap with the heavy ear flaps which he had always worn in winter time."

"Where is your cap, Sandy?" I asked. "Mi cap, mon, why I ha na wore it since the accident."

"Accident," I said, "I had not heard of any accident."

"Ah, yes, it was, when McGregor came over an' we were out together, an' he asked me to have a drink—an' I dinna hear him."

A Bill is now before the Legislature of Quebec which provides for imprisonment without the option of a fine, for drunken drivers of automobiles.

Mr. Rowell's glowing picture of the goal to which the League of Nations points may be regarded by some as merely idealistic. But it is a goal towards which the world must press on, and Canada must be in the front line of march.

Canada has an area of 3,729,665 square miles, or 111,992 more than the United States and Alaska combined.

"The Acadian" WOLFVILLE

AN UNEXPECTED REACTION

(From the Boston Transcript.) The teacher was trying to illustrate and bring out the word "perseverance."

"Now suppose," she said, "some one were to go on day after day being good, and doing good, despite all temptations and hindrances, what would that be?" A small hand shot up. "Well, Johnny, what would you call it?"

"Monotonous," replied the boy.

HAVE YOU SEEN THIS PLANET?

During the recent clear nights, those who have looked toward the west will doubtless have observed in the heavens a star which was of unusual brilliance. Inquiries have been made several times as to what it is. This "star" is the planet Venus and is getting nearer the earth with each day. It will be at its closest point to us in April, but at that time will have passed from the realm of an evening star to a morning star and will be observed by few except the very sleepless.

HOTELS LIKE PROHIBITION

(Rockford Republican Star)

Hotels were supposed to be pretty hard hit by the prohibition regime. Now according to the president of the Southern

Interstate Hotel Association, most hotel proprietors would not go back to the unrestricted sale of liquor if they could.

Very few of them would like to see even the sale of beer and light wines resumed. He adds: "The most rabid proponents of liquor admit their business is much more easily conducted since John Barleycorn was laid to rest."

TOO MANY LONG SPEECHES

(From the Toronto Star)

Sooner or later there will be a general election in Canada, and before it arrives, those of us—and there are millions of us—who object to the tedious length of political speeches and the way meetings are drawn out into all hours of the night, ought to organize to abate the nuisance. No living man can talk for two hours to an audience and leave on his hearers as good an impression of himself and his cause as he could if he had compressed the pith of the matter into a well-shaped half-hour speech.

In making this assertion we believe that political journalists of long experience whose business it is to hear speeches and observe the immediate effect and subsequent results of them will endorse it. Not only are most speeches too long, but there are too many speakers at most meetings. The crowd is talked to until the thought in every mind is how to escape without seeming to show disrespect to the man who is spouting statistics at the moment, or the man who is going to speak next, and who is squirming in his seat and wishing the other fellow would quit and let somebody else speak before the audience perishes from starvation.

"Why don't you and your mamma go to the big church on the corner?" asked the new neighbor's child. "Cause we belong to a differnt abomination," answered Dorothy.

Young Wife—Are my doughnuts like those your mother used to make? Hub (sampling them)—Well—er—the holes are just the same.

Winter Hard on Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

ENGINEERING EXPERTS AT CONVENTION IN TORONTO

The 35th annual convention of the Engineering Institute of Canada now being held at the King Edward Hotel is said to be the most successful in its history. Prominent engineers from all parts of Canada and the United States are present.

Photo shows a few of the prominent delegates, left to right: R. A. Ross, City Commissioner of Montreal, Past President; J. M. R. Fairburn, Chief Engineer of the Canadian Pacific Railway, President; Col. J. S. Dennis, Chief of the Colonization Department of the Canadian Pacific Railway, Past President; and Fraser S. Keith, Montreal, General Secretary.

Our History

We purpose from time to time to give sketches of the history of the town and country about Wolfville. Every old resident who has died within twenty-five years could have given us interesting details concerning the families and growth of the place. Much is lost because we are not realizing the value of these matters, and those who follow will wish that more effort had been made to preserve what the older generations knew of the past, much of which is gone that would be of value and interest today.

Between Scott's Corner and Willow Hollow, nine lots running from the marsh to the ridge road were granted to the first English settlers from Connecticut, in 1760. The lines at that time were run by the Magnetic North. This accounts for the fact that at the present day the boundaries are not true north by several degrees.

When the Wickwire Dyke, so called, was yet marsh without dikes, the Great Discharge dike of Grand Pre and Wolfville Creek bounded about 1637 acres of fine high marsh. For over forty years the marsh hay had been cut, as during the Acadian period. The Great Discharge was a navigable river as far south as the rail way, and east towards Grand Pre. On Nov. 15, 1803, Oliver Lyman, Deputy Surveyor, completed a survey of the West Marsh as it was called, for the proprietors, who were about to build a dyke to enclose their land. We have the names of the owners and acreage. We thus get the names of some of our early settlers, among which, no doubt, were the first grantees in 1760.

The following names are recorded, who owned 460 acres of the New Dyke:

Wm. Eagles	9
Abijah Scott	6
George Johnson	6
Israil Harding	11
Joseph Allen	4
Elijah Fowler	4
Jason Forsyth	10
Davis Harris	40
Abel Benjamin	3
John DeWolf	20
Jacob Benjamin	17
Jeremy Kinzie	6
James Duncanson	4
John Moss	5
John Davis	5
Saml. Reed	11
Perez Martin	17
John Coldwell	15
Stephen Benjamin	12
Eliphalet Coldwell	17
Abraham Duncarsly	8
Elisha DeWolf	10
Elijah Forsyth	21
Daniel DeWolf	20
Theodore Harding	1
Jonathan Crane	12
Samuel Avery	4
Robert Crow	6
Robert Laird	33
John Coldwell	24
John Coldwell	22
Mary Hill	30
Benjamin Cleaveland	6
Cyprian Davison	2
Robert Lowrie	6
John Palmeter	16
Wm. Muihall Wallace	20
Caleb Forsyth	30

4601

These names are of men who lived in Grand Pre, Wolfville and Gaspereau, and probably in other places. Because of their fertility, the undiked areas are valuable, even though producing only the coarse

grass. The wealth of the country, in the Acadian as well as the English period is largely due to the richness and productivity of the marshes, especially where the dykes have been built to keep out the tides.

Difference of opinion arose as to the location of the Great Discharge aboiteau, and several resolutions of the owners were recinded before the work was undertaken. Finally on Dec. 27, 1805, the matter was definitely settled as to the whole work to be done.

James Graham bid off the Great Discharge sluice work. This was to be 60 feet long with two water courses, and built of 10 inch timber with gates of oak, and to cost 45 pounds, fifteen shillings. Two other sluices cost 12 pounds each, and were 45 feet long. The whole length of the dyke to be built was roughly estimated at two miles. The material for the aboiteaux would cost 540 pounds, to consist of 2600 loads of brush 23000 12-foot pickets, and 600 binders. The estimate for building the dikes was 1200 pounds, exclusive of the cost of constructing the aboiteaux.

This dike, now called the Wickwire dike, went out during the Saby gale of 1869, and the land was not recovered for several years.

THE BACKBONE OF A NATION

In addition to the fundamental necessity for the cultivation of farm lands, are the social and political factors involved. The rural population by reason of its conservatism and traditional thrift and industry, has long been looked upon as the nation's vertebrae. National traditions live longest in the country where the isolation from ephemeral currents and the peacefulness of the occupation keep intact Great Essentials and protect the individual from the faddism and restlessness which are characteristic of the city.—Louisville Courier-Journal.

If you wish to do a lot of work with your head, emulate the woodpecker and keep your mouth shut.

THE NEED FOR DISARMAMENT

More than three years ago that wise man Count Czernin, when groping about for the peace which might then have saved his unhappy country, declared that after the war disarmament would be a necessity of all the European nations. Are we not learning the truth of his words now? Yet since they were spoken Austria has been destroyed and Germany disarmed, and the way made that much easier for the other nations to move in the same direction. Surely, if we start off in the other, we shall deserve every consequence which folly and perversity can bring upon us.—London (Eng.) Truth.

The rich man usually has a twin six, and the poor man six twins.

Box 462 Wolfville, N. S.

(Advertising Copy is not "Barred")

Lord Reading talked at a Washington dinner party about the cockney accent. "A cockney cook," he said, "came over and settled in America. Her mistress, who was a widow, told her one day how she came to lose her husband.

"I lost my husband on the western prairies," the lady said. "He was killed by a bison. I suppose you know what a bison is?"

"Laws, yes!" said the cockney cook. "I'd like to 'ave a quid for every one I've made a puddin' in."—St. Louis Globe-Democrat.

EPITAPH

Here lies in peace Sylvester Stew. He learned to make His own home brew.

Canada has approximately one telephone to every eleven persons of population. A computation issued by the Dominion Bureau of Statistics shows that at the end of 1919 there were 778,758 telephones in the Dominion with an estimated population of 8,835,000.

The grocer who recommends to you Red Rose Tea, on which he makes less profit than he does on other teas, can be trusted when he recommends other goods.

"How Much Does Your Policy Cover?"

Are you carrying sufficient fire insurance to fully protect you against total loss?

A policy covering only the house does not pay the loss on household goods which may be destroyed.

Nor will it pay the loss in profits and your necessary employees salaries during a period of reconstruction after a fire.

The Fire Insurance Company I represent issues policies that fully protect you against all fire hazards.

Ask for full particulars.

THE ACADIAN

(Established 1883)

Published at Wolfville, N. S., every Friday by

DAVIDSON BROS., Printers and Publishers

Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per week. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Editorial Notes

THE ACADIAN is receiving many pretty compliments these days on its enterprise and improved appearance. From the Pacific Coast to the far-away isles of the sea these messages of approval come to us and we are gratified with the comments of subscribers. We are doing our best to furnish our readers with an interesting and readable newspaper and are glad to note that our efforts are appreciated. However, we have other things in store which the future will develop and which we know will make our paper still more popular.

The proposal made by THE ACADIAN about a year ago to appoint a town manager appears to be meeting with considerable favor of late. Citizens are evidently giving the matter careful consideration and investigation. The town of Pictou in this province and the town of Woodstock in the neighboring province of New Brunswick, both of which have been under a town manager during the past year, report most satisfactory results. There is no doubt but what if the proper man could be secured that he could easily save Wolfville a sufficient amount to pay his salary and at the same time effect a great improvement in the operation of the different departments of the town's activities. Last evening the matter was considered by the Board of Trade and received the hearty support of that body. THE ACADIAN will be glad to open its columns for a full discussion of the subject.

There appears to be an impression abroad among some people that the giving of complimentary tickets to a newspaper carries with it the right to demand as much advertising space as may be required. Such, however, is not the understanding of newspaper people who often feel that instead of being placed under an obligation when they accept a ticket that the favor is on the other side. Originally the complimentary ticket was presented as an inducement to the reporter to attend the entertainment and prepare an account of the same for his paper. The average journal is not seeking for an opportunity to dispose of free advertising space but is looking for news for its readers. In many cases it is a sacrifice for the scribe to forgo some other amusement or pleasure in order to attend a

rather dull affair and write a report, but it is all in a day's work. It is just as well for the public to understand that complimentary tickets only afford the newspaper an opportunity of reporting some event which the promoter desires might receive mention.

GRAND PRE AND HORTONVILLE

The W. M. S. held their meeting at the home of Mrs. G. W. Whitman on Feb. 10th. A number of visitors were present and the meeting was greatly enjoyed by all.

Miss K. B. Harvey left last week for the Sanatorium, where she will receive treatment.

Mrs. S. W. Rodgerson and little daughter Grace, have returned home after spending a few days at Millville, guest of Mrs. O. T. McNeil.

NORTH GRAND PRE NOTES

Mr. Ernest and Miss Mary Eagles spent the week-end at their home here. Mrs. Wm. Biggs gave a small birthday party on the 17th for her son Henry Biggs. The small guests were Misses Mable Palmeter, Margaret Fullerton, Edith Palmeter, and Vivian and Myrtle Gould, and Masters Albert and George Allen and Charlie Palmeter. Miss Evelyn Palmeter, spent Sunday with her parents.

BRITISH AND FOREIGN BIBLE SOCIETY

THE EDITOR OF THE ACADIAN: Dear Sir: You will kindly report that the collections solicited for the British and Foreign Bible Society from Wolfville, amounted to \$89.79, and from Greenwich, \$15.25, making a total of \$105.04. If you will please insert this in your next issue of THE ACADIAN, it will greatly oblige.

Yours truly,
W. H. CHASE, President.
G. S. FITCH, Secretary.

Foreign Basic Slag

Farmers who may be offered Foreign Basic Slag should carefully look into the question of quality and not allow themselves to be hoodwinked into thinking they are getting a better article than is actually the case. For instance the importers of this Slag talk of it as containing 17% Phosphoric Acid, or even 18%, whereas the foreign sellers offer the goods on the basis of 16 to 18% Phosphoric Acid, with a minimum guarantee of 16%, of which only 75% is Soluble. Divested of all camouflage, this means a Slag containing 18% Soluble, or in other words Available, Phosphoric Acid. Then again the guarantee of Fire ness given with the Foreign Slag is only 75%, whereas the Sydney product is guaranteed 85%. This is a difference of vital consequence in getting results. Another thing that should be known to Nova Scotia Farmers is that sampling of this Foreign Slag is done at the foreign ports of shipment, and analysis is determined by foreign chemists. If any agricultural organization or individual is foolish enough to do business on such terms, why should Canadian Farmers risk their money in buying goods purchased on such ridiculous conditions? It is wise when offered Foreign Basic Slag to ask for:

- (1) Guarantee of Soluble or Available Phosphoric Acid.
- (2) Guarantee of Fineness.

and compare same with the guarantees given in connection with the Home Product. Do not allow yourself to be fooled into buying a Foreign Basic Slag simply because it is offered as a 17% or an 18% article. Invest gate U.S. and so avoid useless regrets later.

FRANK W. BARTEAUX

Items of Local Interest

It is expected that the Provincial Legislature will be opened on Thursday, March 10.

Rev. Dr. Spidle occupied the pulpit of the Baptist church at Bridgetown very acceptably on Sunday last.

We can't speak for other methods, but we know that it pays when you advertise in THE ACADIAN. Get our rates and into line for business.

The Court of Appeal for the recent Town Assessment met at the Town Hall on Tuesday afternoon. A number of cases were heard and some charges were made in the rate roll.

A small fire occurred at the home of Mr. and Mrs. Frank Godfrey on Monday afternoon. The blaze was quickly extinguished although not before considerable damage had been done.

The Wolfville branch of the G. W. V. A. has again opened a Club-room in town, having secured a comfortable quarters over the Regan harness shop, which have just been fitted up for their use.

An unusually interesting service was held at the Tabernacle last Sunday evening when Mrs. (Rev.) John Hardy gave a most instructive address on India. An attractive feature of the programme was the presentation of a number of choruses, duets and violin solo by ladies of Acadia Seminary. Mr. C. A. Partiquin Superintendent of the Tabernacle school presided.

The heaviest snow-fall for a number of years occurred on Sunday night and rendered the roads practically impossible on Monday. Trains were delayed and railway men had a hard day. The train from Annapolis did not reach Wolfville until after noon and the express from Halifax did not arrive until 5 o'clock in the afternoon. Snow-plows and shovellers were busy on Monday and Tuesday clearing the streets. The fall was probably about two feet on the level.

Mr. F. W. Barteaux has purchased the Dr. Bowles property on Main Street, and will take possession the first of June. This property is one of the finest and most central in town, has only been on the market a few days and quickly found a purchaser. We understand it is Mr. Barteaux's intention to occupy the dwelling and erect an up-to-date store alongside for his own business. This will be an important addition to the business places of Wolfville and we congratulate Mr. Barteaux on his enterprise.

Mrs. A. W. Bleakney, of this town, was recently the recipient of a handsome birthday gift in the form of a "Friendship Quilt" from the members of the Ladies' Club of the Congregation of which her son, Rev. Clair Bleakney, is pastor at Bridgewater, Mass. The quilt contains the name of each of the members of the club, and is an artistic piece of needlework. Mrs. Bleakney while visiting her son, attended the meetings of the club, and became acquainted with the members and it is needless to say that she prizes the gift very highly.

A "Young People's Society" in connection with the St. John's Church was formed last Tuesday evening, at a meeting held in the new parish room. The rector presided and there was a good attendance. The officers are: President, the Rector; 1st. Vice-President, L. Rudolph, 2nd. Vice-President, Miss Jean Creighton; Sec.-Treas., Miss Angela Herbin. There is an Executive Committee composed of the officers and six elected members. The inaugural meeting will be held in the Hall on Friday evening, March 4th, at 7.30, when an address will be given by Professor McPhee. The general public are cordially invited.

Coming Events

Notices under this heading are inserted at 10 cents a line. Each repeat, 5 cent a line; minimum charge, 30 cents. Contract rates on application.

The regular monthly meeting of the W. C. T. U. will be held on Monday afternoon at the home of Mrs. W. O. Taylor.

A general meeting of the Sir Robert Borden Chapter I. O. O. F., will be held in Horton Parish Hall, Tuesday, March 1st, at 3.30 p. m.

Don't forget the pantry sale to be given by the ladies of the Methodist Church on Saturday afternoon at the Town Hall, from 3 to 5 o'clock.

Mr. W. C. Miller, of the Canadian Archives, will deliver an address on "The Growth and Decay of Responsible Government" before the Civic Club on March 17th.

The public are cordially invited to attend a lecture by Prof. A. B. Balcom in the Baptist Church, Thursday, March 3rd, at eight o'clock, on the subject, "Woman's Place in the State."

Mr. Charles Porter, of Lower Wolfville, met with a painful accident recently. He was chopping in the woods when he cut his foot very severely. The injury was more severe than was at first realized and he pluckily remained at his work during the day and did not realize how badly he was hurt until returning home. Dr. Elliott dressed the wound and we are glad to know that Mr. Porter is now well on the way to recovery.

Mr. Herbert Stairs reports the first robin of the season which visited his premises yesterday morning. This is an unusually early appearance and we hope indicates that spring is not far off.

AUCTION!

At the store in MCKENNA BLOCK WOLFVILLE

Saturday, Feb. 26th

afternoon and evening

AGENTS FOR DIMITY STATIONERY

HIAWATHA DUSTERS

First Orchard Dusting Machine Built in Canada

Advantages

More than double Air Pressure of any other Duster built. Fan bearings built to stand seven thousand revolutions per minute. Simple design, with larger capacity than any other Duster. Shut-off so constructed that it is quick acting and tight. Agitator so constructed as to assure an even feed. No brushes to corrode or gum up. This is a reliable machine, built in Kentville, Nova Scotia, for the United Fruit Companies of Nova Scotia, Limited, a concern who are doing their utmost to further the interests of the Fruit Growers of Nova Scotia.

We invite inspection of this machine at our office, Webster Street, Kentville, N. S. Only a limited number to offer. Order at once.

MAIN STREET EAST

If You Were Building a Home, You Would Not Allow Second-hand Bricks and Lumber to be Used When You Were Paying for Brand New Material! THEN---Why Have Your Printing Done With Battered, Worn-out Type, Rules and Borders, Which Have Been In Use For Years?

Monotype Casting Machine

WE have now installed in our printshop, a Monotype, which not only composes all of our straight reading matter in perfectly justified lines up to 10 inches wide, at one operation, but makes for us all our material, such as Rules and Borders of numerous designs, Leads and Slugs in any length desired, Display Type with any combination of type faces.

AFTER a job is delivered to a customer, every particle of type and material is "Dumped" and remelted into "Pigs" of Metal. Thus, brand new, clean-cut, sharp-edged type, rules and borders, are used in all the job printing done in our printshop.

THROUGH the installation of the Monotype machine, we are now able to turn out double the volume of work, because we have

no "Washing Days"--in other words, we do not have to stop production in order to distribute the type and material from finished work to enable us to get started on the next job.

THERE is no machine (or a combination of machines) made that can do what the Monotype does. No job is too big for us, and the more intricate, the better we like it. We have the machine and the operator at your service!

To the Trade

WE will cast your rules, leads and slugs, in 2 ft. lengths, and type in all sizes from 6 pt. to 36 pt., and credit you at market prices for your worn-out, battered type. Prices on application. Send for literature.

ANNUAL REPORT

Of Chairman of the School Board.

Wolfville, N. S., Feb. 14th., 1921.
To the Gentlemen of the School Board:
As Chairman of the School Board, it devolves upon me to give a brief summary of work done during the year.

We have had twelve regular meetings and two extra special meetings. The first to consider buying the Schofield property; the second to ask the town for \$20,000 for a new School Building—the latter was granted.

The first work taken up by the Board was enforcing the Compulsory Educational Act, (this as you know has been the law of the town but was not put in practice) I consider the results excellent for the time the law has been enforced. Children of the ages of eleven and nine years not having attended school before are now making splendid marks.

To get attendance is all a matter of education and if the School Board will persevere children will soon attend school as naturally as some of them now stay at home. It means constant vigilance.

Another important move was increasing our teachers salaries. Our female teachers have been working in the past for a mere pittance. I am pleased to say that the Board was unanimous in advancing the salaries 50%. They are still insufficiently paid, but this is a step in the right direction.

The seats in the rooms were next considered and raised to a proper height. You may be interested to know I received messages and congratulations from old pupils who attended this School and were cramped in seats too low for them all their school days. This is a matter which needs earnest attention and is too often neglected throughout the Province generally. Ill adjusted seats and the lack of sufficient Physical Drill is the cause no doubt, of the round shoulders and contracted chests of many of our children.

I think we may hope for good results amongst our boys from the Cadet Drill under the leadership of our Principal, Mr. Ford. It would be well if teachers and parents would work together on these subjects. A "Teachers and Parents Association Club" to include High School pupils such as they have in many parts of Canada and United States would be very beneficial. They hold sociable meetings, talks and entertainments, the proceed, to go towards improving school equipments I feel sure it would be the means of parents visiting the schools more often than they do and taking more interest.

We need a better library than we have at present. We have certain standard works but we should have some new books and magazines and make it attractive. We have tried to obviate this by placing tables in several of the rooms and encouraging the children to bring books they are willing to lend, and I think it has given a great deal of pleasure. I would like the library open to the pupils. I think it is a great thing for children to browse among books and learn not only to read them but to use and not abuse them. The school maps were all gone over and repaired as well as they could be but the only satisfactory way will be to buy new ones. More new black-board is needed. I would strongly urge a course in 'Manners' in our School. This has been adopted in some of the Provinces. Many of our best papers are writing this matter up, I have noticed several references lately in the Halifax Chronicle and in our own ACADIAN. A course in manners for our School Children would be of more importance and more far reaching than many of the studies they are poring over today.

Owing to the overcrowding of the Primary department, the Board found it necessary to provide a new room. A bright and sunny room has been fitted up. Miss Haley was engaged as teacher for this department and opened the school with thirty pupils.

During the summer vacation both school houses were renovated, walls calcimined, much of the woodwork painted, floors thoroughly scrubbed. The latter have been washed three times in the year and swept with dustbane two or three times a week. They should be swept every day. The county nurse has inspected most of the grades in the School. She reports round shoulders and contracted chests prevalent. We might call the county nurse a pioneer. We should have a school nurse to do "follow up work."

The school rinks under the superintendence of Mr. Percy Brown might be called a "Happy Thought". It has given so much pleasure and amusement to the children.

As regards the financial statement: The amount set aside by the Town for School purposes was \$8500.00
Income from other sources \$1138.51

Total \$9638.51
Expenditures \$8362.70

Credit Balance \$1275.81

I would like to call attention to the fact that \$500 of the above expenditures was bills contracted last year and paid out of the estimate of this year, really adding \$500 more to our balance.

I wish to thank the Board for the courtesy and consideration they have always shown me and for their ever ready assistance.

Respectfully submitted
LAURA HALIBURTON MOORE
Chairman.

Nothing Like Internal Bathing for Constipation

If people only knew what internal bathing is doing for thousands of others there would be fewer Pills and Laxatives swallowed and very much less suffering from Constipation and the accompanying Stomach and Nervous Troubles resulting from it. J. A. Darrach, Copper Cliff, Ont., writes: "I have been using your J. B. L. Cascade for the past three months, and am convinced that it is the most modern and scientific method of dealing with Constipation that has ever been devised, and I will lose no opportunity to promote its use among my friends, as I can speak truthfully and enthusiastically as to its merits."

By the proper application of Nature's cure, warm water, by means of the J. B. L. Cascade, the lower intestines are kept free from all poisonous waste. Drugs force Nature. Internal bathing assists her.

Dr. Chas. A. Tyrrel of New York, a specialist on Internal Bathing, invented and perfected the J. B. L. Cascade which has done more during the past twenty years in restoring health and lessening disease than all other means combined.

Ask A. V. Rand, Druggist, Wolfville, for booklet, "Why Man of To-day is Only 50 per cent. Efficient." They will also be pleased to show and explain the J. B. L. Cascade to you, or write to Tyrrel's Hygienic Institute, 163 College Street, Toronto.

THE CUT IN WAGES

Prices are dropping, and so are wages. Almost every day the newspapers contain reports of cuts in wages by manufacturing concerns in the United States and Canada. The same condition prevails in the Old Country—only they are harder hit there, for food is still very high and there is a great shortage of work, as well as much lower wages.

Of course there is really no need to be pessimistic, especially in the great Country of the Maple Leaf. The prospects for the future are bright if only we all put our shoulder to the wheel. As a matter of fact, it is inevitable that wages drop, if we are to have lower prices.

We must remember that during the period of higher prices wages have been high, too. However, there has been a general complaint among working men that they were no better off with higher wages because commodities were proportionately higher. Eventually, conditions will right themselves, and working men will find that they are equally as well off with lower wages because prices are lower too.

SHORT SKIRTS AND COLDS

Short skirts worn by women and stockings that leave the knees bare on children are blamed by several medical authorities for the prevalence of colds. "These short stockings worn by young children are absolutely dangerous," said one health expert. "It is a foolish style. Some folks think it toughens children, but I doubt it. The delicate tissues of the knee are exposed to the cold winds and the entire body is chilled."

"The women wear furs. But they are for ornamentation not for protection against the cold. They clothe their bodies and leave their necks and limbs virtually bare. Short skirts and exposed necks and knees cause more colds and pneumonia than more persons realize. Of course poor ventilation and overcrowded quarters supply their quota to the ranks of the sick, but when we cater less to fashion the health of the nation will be improved."

—N. Y. Sun.

GOVERNMENT PAPER WASTE

(From the Ottawa Journal)

It is said that the Government at Washington wastes a vast volume of paper. Probably it does. It is the disposition of governments to be prodigal in such matters. The habit was formed when paper was cheap, and somehow there grew up a notion that the measure of consumption was the measure of work performed. But cellulose fibre is now a precious commodity. What could be bought at one time for \$20 now costs \$120. This refers to newsprint. Finer grades have probably risen higher in proportion, and Government uses a very large quantity of the more expensive varieties. It is just possible that our own Government could do something in reducing the waste of paper. Any economy which might be brought about by the larger consumers of paper would be worth while. Owing to the alleged scarcity of raw materials, and the increasing cost of manufacture, the paper people insist on holding over their customers the prospect of further advances in price. While there does not appear to be any particular sympathy with the newspapers, which have been driven to despair over the matter this is really a thing which concerns everybody. Government might at least set the example in reducing the present waste to the minimum. It would help. If a premium, or some other form of recognition were given to clerks who effected the highest measure of saving in the use of paper on Parliamentary Hill the thing might become infectious. If such efforts became general there would be results of a positive nature. Prices might be arrested; they might even be reduced. As it is, the waste goes on at a frightful pace. Everybody in one way or another, has to pay for it.

Cause of Early Old Age

The celebrated Dr. Michenhoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 18 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

PLANTING A TREE FOR EACH TREE CUT DOWN

Sometimes it is said that in certain European countries the law compels the planting of a tree for every tree cut down and it is urged that such a law should be enacted in different provinces of Canada. The expression, however, is only metaphorical. What Europe an countries do provide is that for every acre of forest cut down in certain areas unsuitable for agriculture another crop of trees must be started by natural or artificial methods of regeneration on that area. When forest trees are planted, the trees are set, say 2,000 to the acre, and when they are harvested, sixty or seventy years later, they stand from 150 to 200 to the acre. If they had been planted 200 to the acre they would have grown short and full of limbs from the ground up, and would be useless for lumber. Planted thickly they reach upward for the light, making long clear trunks. The trees which never reach maturity are thinned out with the axe after they have served their purpose. Important facts about tree growth are set out in Forestry Bulletin No. 69 "Care of the Woodlot" which may be had free upon application to the Director of Forestry, Ottawa.

VIRTUE IS ITS OWN REWARD

(From the Boston Globe.)
"Six years ago," said Smithson, "I made up my mind that I was smoking too much. It didn't seem to affect my health in the least, but I thought it a foolish waste of money and I decided to give it up."

"A very sensible idea," remarked Brownlow.

"So I thought at the time. I reckoned up as closely as I could how much I had been spending each day on cigars and tobacco. That sum I set aside each morning and started a banking account with it. I wanted to be able to show exactly how much I had saved by not smoking."

"And how did it work?" inquired Brownlow.

"At the end of six years I had a thousand dollars in the bank."

"Good. Could you let me—"

"And a few days later," interrupted Smithson, "last Tuesday, in fact, the bank failed. You haven't got a cigar about you have you?"

Personal Paragraphs

Mr. W. H. Chase returned home Monday from a short trip to Montreal.

Mrs. John Cross left on Friday last to spend a few weeks in New York visiting her sister.

Mr. W. G. Mould, of the Lanston Monotype Co., spent Sunday and Monday in Wolfville.

Mr. and Mrs. H. VanZoost and family left on Saturday en route to their old home in Holland.

Mr. Geo. A. Chase, of Port Williams, returned home this week from a business trip to New York.

Mr. and Mrs. Owen Porter returned on Friday last from a visit to Virginia at the home of the latter's mother.

Mrs. J. L. Read returned on Friday from Boston, where she has been spending a few weeks with her daughter, Miss Edythe Read.

Mr. Chas. H. Wright has been spending the past week in the United States investigating the latest things in electrical equipment.

Dr. Cutten left on Friday last for Boston where he will be the chief speaker at the Canadian Club annual meeting to-morrow.

Miss Gladys Elderkin who has just completed her training at the Lawrence, Mass., General Hospital, is home for a few weeks before graduation from that institution.

Dr. and Mrs. E. H. Freeman arrived from Vancouver, on Wednesday and will take up their residence in Wolfville. THE ACADIAN gives them a cordial welcome to our town.

Mr. and Mrs. J. W. Smith left last week on a pleasure trip of a few weeks. Mrs. Smith will visit her sister, Mrs. Dodds, in New York while Mr. Smith will go as far as Winnipeg.

Mrs. R. K. Hennigar and little son Bernard left Wednesday morning for Chester Basin, where they will spend a few weeks with the former's parents, Mr. and Mrs. N. I. Countway.

Mr. and Mrs. L. H. Eaton, who have been absent from Wolfville during the past month, have returned and are occupying their home on Locust Avenue. Mrs. Eaton was in Halifax visiting her sister, and Mr. Eaton was at Canard, his old home.

We had a call yesterday from Mr. Robert W. Starr, now residing at Chipman Corner, with Mr. and Mrs. Ross Chipman. He is looking well and is able to move around considerable, and is in full possession of all his faculties. No man can give particulars of ancient events as well as he. He is 91 years of age and comes of a long-lived family. His father died aged 93, his mother was 85, his grandfather 87 and his grand-mother 90 when they died.—Advertiser.

What might have been a serious fire occurred at Calkin's Acetylene Welding Plant on Tuesday, when a gasoline torch exploded, fortunately without serious results.

Mail Contract

SEPARATE SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 18th March, for the conveyance of His Majesty's Mails, six times per week, over the following routes:

(1) CANNING NO. 1 RURAL MAIL ROUTE.

(2) KINSMAN'S CORNER & WATERVILLE.

under proposed contracts for four years, dating from the 1st July next.

Printed notices containing further information as to conditions of proposed Contracts may be seen and blank forms of Tender may be obtained at the Post Offices of the terminal and route offices, and at the office of the Post Office Inspector:

W. E. MACLELLAN
Post Office Inspector.

POST OFFICE INSPECTOR'S OFFICE,
Halifax, 1st February, 1921.

REPLY TO U. X. L.

EDITOR OF THE ACADIAN:

Dear Sir:—One of the seven wonders of the world is why people who do not play Bridge object so strenuously to those who do. Why? There can be only one reason. There are reformers so encrusted that if they should see others thoroughly enjoying themselves engaged in silent prayer they would take steps to prevent it. From time immemorial our favorite indoor amusement has been objecting to what other people do. Why not now in 1921 go one step higher and look behind what they do and see what they are. If they are animated by the spirit of goodwill and friendliness with kindness toward all, if their desire is for justice, peace, and integrity, they are an asset in our town and should be encouraged to live.

The Bridge player differs in no respect from his neighbor who plays chess. He supports his church, he gives liberally, he supports law and order and is in no way set apart from others. Bridge as played in Wolfville during the few winter months is as innocent a diversion as checkers, crokinole or jenkins up. Undoubtedly there are individuals who carry it to excess, but lack of consideration can claim its adherents in any business or pastime. Time can also be wasted in Bridge as in any other pleasure, for instance—hockey. Let U. X. L. contemplate his mathematical problem worked out in terms of hockey.

No. of matches per week—2
No. of fans gazing—500
No. of hours spent—2
No. of hrs. per week—2000
No. of weeks per week—12

Twelve weeks per week spent in hockey gazing in a cold rink with Flu germs bombarding! Shocking! Incredible!

In our pastimes we have, as yet, no standardised pattern. Each must get the recreations his nature demands. To some, a new book by the fireside, an evening at the pictures, a quiet game of chess or cards makes an appeal, to others skating, snow shoeing, coasting, tennis or golf holds more allurements. Why should we occupy the cynic's chair because others choose a form of recreation different from our own?

Wolfville is an educational centre and should march abreast of the times, and the times say that Bridge is one innocuous method of recreation: it has as little to do with the warp and woof of a man's

NOTICE TO PUBLIC

Wolfville.

character as to whether or not he drinks coffee. Why occupy our minds with matters so trifling when the world fairly teems with live and interesting topics?
X. L. C. Or.

SPLENDID DRAMATIC RECITAL

The auditorium of the Baptist Church was filled on Tuesday evening when Mrs. Jessie Eldridge Southwick, B. L. T., of Emerson College of Oratory, Boston, read Charles Rann Kennedy's famous play "The Servant in the House". Mrs. Southwick is gifted with an exceptionally fine stage presence, and her interpretations of the various characters were artistic in every detail. Her recital was nearly the equal of a stage production, and greatly enjoyed by an attentive audience. During an intermission in the reading, Miss Stephens, of the Acadia Conservatory staff, sang a group of songs which were much appreciated.

MOVING PICTURES OF ACADIA

Messrs. Stevens and Berry, of Moncton representing the Eastern Film Company, have been in town with a staff of "movie" artists taking motion pictures of the life of the student body at Acadia. There have been over 20,000 feet of film and emphasis has been laid on class and laboratory work of all the institutions, as well as the library and the new gymnasium with interior views, showing various games being played.

The swimming pool was featured, as was also the student body headed by the college band, celebrating a victory.

The views have been taken for the million dollar campaign, and will make vivid to friends and graduates living at a distance the growth and life of "old Acadia."

The Ladies' Bridge Club was entertained on Monday evening at the home of Mrs. E. H. Johnson, Greenwich.

There was a good attendance of children at the Health Pictures exhibition at the Opera House on Saturday afternoon, and the young people appeared to be much interested. Such entertainment could not fail to be of real benefit.

De Valera complains that British troops are waging war on the Irish people "contrary to all the rules of civilized warfare." Unfortunately for Ireland, the De Valera forces also are waging warfare on the Irish people contrary to all the rules of civilized warfare.

Dry Goods Department

For the woman who likes to get her Spring Sewing done early.

We have just opened three cases of new Spring Sheetings, bleached and unbleached cottons, Gingham, Galatea, etc.

Fine bleached sheeting, 72 in. wide, 55 cents per yd. Superior one quality, 81 in. wide, \$1.25 per yd.

500 yds. heavy Factory Cotton to sell at 22 cents per yd. width 34 inches.

Extra fine quality full 40 inches, price 32 cents yd.

As each lady sees the new Gingham she is heard to exclaim, "wouldn't I like a morning dress of that!" or "what pretty rompers this would make for Baby!"

New shadow cretonnes, chintz, satens, and Curtain Scrims are on display.

A list of the following articles will be found in the small-ware department.

Jet Pins, Safety Pins, Common Pins, Toilet Pins, Buttons, Middy Laces, Sewing Needles, Darning Needles, Bias Tape, Rick Rack Braid, Lingerie Tape, Barrettes, Side Combs in amber and shell, Bone hair Pins in shell, amber and grey.

Wire Hair Pins, Mending Cotton & Cashmere, in all colors, Thimbles in Celluloid and steel, Coat's Crochet Cotton, Clark's Cotton Spools, Knitting Needles, steel and bone, Crochet Hooks, steel and bone, Elastic, Rubber Sheetting, Hat Pins, Finishing Braid, etc.
