Interviewed by a Bulletin represen-tative yesterday Mr. Stewart said he nad very little to say regarding the grading operations being carried on by his firm. The work of this year was only just starting. Men were being engaged, supplies freighted to varpoints along the line, and the sub-contractors were moving their men and outfits into position and starting work. Owing to the early spring, construction work was starting fully one month earlier than last year, and favorable weather contractors

expected to finish their contracts well within the specified time. In British Columbia Mr. Stewart stated that supplies had been taken His company have the conof the G. T. RETURN AT OLD SCALE. Hamilton Moulders Go Back To Work

This Morning. Hamilton, Ont., April 23.—The mould-ers employed by the D. Moore company returned to work this morning at the old rate of wages, and it is expected that the other foundrymen will open up shortly. They have been trying to get the moulders to accept a reduction in wages, claiming higher wages were paid not consent, holding that the agreement expire until the month of May. It was eared that there would be a lockout o strike, but the Moore company broke the ice by agreeing to pay the old wages in he meantime until international officers came to settle the matter.

CANADA'S IMMI-GRATION POLI

House of Commons. April Hon. Frank Oliver (Minister Interior)-With a great deal my hon. friend (Mr. Monk) has before the House I can most ally and heartily agree. He said one word too much with rethe importance of immigration character. He declares in his tion that an aggressive immi-policy is desirable, but in his which our immigration policy made successful are undesiration. friend is in the positi successful business man wachieved success by following nethods and who then decide that success. He admits that been successful in our imm efforts, but regarding one ver ing of booking agents, he l everything he could to dispara spoke of Canada as a country and a half million people with

large territory to develop a respondingly great opportuniti responsibilities. He then spoke United States, a country of 80 people, and of the splendid dement which has there taken And he undertook to draw a p with regard to immigration show that because a certain line tion was desirable in the States, a country of 80,000,000, th same line of action was equal and a half million people, b an area equal to that of the I States. I have only to state the tion to show how absurd his co-tion is. My hon, friend did no mind the House that 125 years ag the time the United States becan independent country, it had about population which the Dominion Canada has today. The United S has been 125 years from that da arriving at the position it now pies. Yet my hon, friend under to say that the policy of Cashould be the same now as that United States after 125 years suc

That is sufficient to how unwarranted were my friend's comparisons. tions upon his remarks; but I that although no one in this I has greater ability in expressing self correctly and concisely a transferring his thoughts to the of Hansard without special trust to his memory or the fully his matured conclusions assume that the importance question was one reason for th sual caution on his part. I ta for granted that he voices the ion of his party on this ques That his leader left this charge him when he left the House, a have every confidence that I could have done or perhaps But it seemed to me that there something more than all this i necessity for the special care h in the expressions that he used seemed to me that my hon. had one eye on the effect of marks upon those who are particular interested in the cause of labo this country, while he had an eye just as wide open to the pos effect of his remarks on the fina manufacturing and transportation terests of this country. He was dently travelling on a very na road and it was necessary that should not step off it on either Every one will admit that if i gration is a good thing, if it is cessity for this country in its pre-condition—and I have my friend's word that it is-it mus upheld by methods of business of kind or another. Something mus done if the good result aimed at
