ELEVENTH YEAR—No. 110

REGINA STORM WAS TORNADIC RATHER THAN CYCLONIC, SAYS NEWSPAPERMAN

Paper Photograph Driven Edgewise Several Inches into Wall of Wood Was One of a Thousand Freaks of the Terrific Windstorm

DRIVING FORCE OF THE WIND, ALMOST INCONCEIVABLE

Roofs Sliced Off as Though Cut With a Knife; a Wagon and Team Blown Away into Netherland; Freight Cars Heavily Loaded With Cement Topped Over

A PAPER photograph card driven edgewise several inches into the wooden wall of a building was one of a thousand freaks of the recent terrific windstorm which devastated the City of Regina. Says Mr. John P. McConnell, managing editor of The Vancouver Sun and editor of The Saturday Sunset, who has just returned from a personal visit to the stricken community. What impressed Mr. McConnell most was the evident terrific rotary force of the wind, especially when it entered buildings. The characteristics of the storm indicated that it was of a tornadic rather than a cyclonic nature, similar to the short lived storms of concentrated fury that prevail during the summer months in the so-called "tornado belt" of the Mississippi valley, United States.

The driving force of the wind was almost inconceivable," said Mr. McConnell last night, in telling how the paper photograph was driven deep into the hard wood. "I saw a tree stripped as clean of its bark as if it had been carefully peeled. At another point, I saw a long silver of pine driven deep into a telegraph pole at right angles to the pole. Another instance of similar nature I noted in the case of a railroad box car which had been overturned. The corners of the car were bound with iron, and it was driven into a building which had been overturned. The wind sliced off as though cut with a knife, and it was so heavy that it drove a long silver of soft pine into the hard wood of the box car at a slight angle, so that it pierced clear through, and was driven against the iron bolts of the iron strip on the other side of the corner.

Wind Flashes Books. In one residence, there was a sectional bookcase standing near an open window. The wind entered, whirled out the central section of the bookcase, and the wind struck him, he ran to shelter. When the blow was over, the team and rig had utterly disappeared, and no trace of them has ever been found. Many canoes and boats were carried out of the water from the lake and deposited blocks away. I heard of a man who was blown across a bridge without injury. I saw a part of one boat near the beach, and other half several blocks distant, lying by the street.

The parliament buildings were in the path of the storm. Between them and the two converging clouds which united into the destructive whirling blast, was the power house with a tall smokestack. The stack escaped injury, but the whirling wind entered the windows of the parliament buildings and here its rotary force was exhibited to the full. Not only was every partition at right angles to the path of the storm blown out, but also those parallel to it, proving its revolving and burning force.

Escapes Are Miraculous. "The miracle of the whole thing to me is that so few were killed and injured, considering the terrific force of the storm. The ground in its path was scathed."

BUMPER CROP IN PROSPECT; REPORTS VERY ENCOURAGING

PRESIDENT TREGILLUS, L. P. STRONG, GRAIN CLARESHOLM DISTRICT OF UNITED FARMERS HAS GLAD WORD EXPERT, IS MOST OPTIMISTIC

Can See the Golden Wheat Grains Being Minted into Good Hard Dollars

Says This Will be the Biggest Wheat Crop We Have Ever Garnered Yet

Thinks Crop Value of Canadian West Will Run to 350 Million Dollars

"Never in my experience, and I have been here ten years, has there been such a promise as now for a bumper grain crop," said Mr. W. J. Tregillus, president of the United Farmers of Alberta, yesterday, discussing the crop situation. "If we realize the present promise, it will be the biggest crop we have ever garnered yet. That applies to hay as well as to the grains."

"I talked with the farmers from all over our province at the Calgary Exhibition and they declared that the crop as a whole promised to be the greatest in all their experience."

Referring to transportation problems, Mr. Tregillus said: "Our organization has not heard anything very definite regarding plans for the handling of the crop except that the Canadian Pacific railway has ordered a tremendous amount of extra rolling stock. It is now estimated that the grain crop for the whole Canadian west will total between three and three hundred and fifty million bushels. I think we will be hunked up all right to some extent when the harvest comes three weeks early, as now appears certain, and we can keep shipping right along, I think we will get through without much trouble."

Early Crops Easily Moved. "A late harvest is what causes the most trouble because as soon as the very cold weather sets in the railways find it impossible to handle one-half the number of cars with the same power as they can in the warmer weather, due to difficulty in keeping steam. With the early crops in prospect this trouble will be eliminated and while there is bound to be some congestion, if we can keep the crop flowing right along in a steady stream, we will get through all right."

The whole west is growing crops faster each year than the facilities can be provided to handle them, but we do not anticipate serious trouble for this season."

Local Showers. Hardisty revived the crops from the effects of the extremely hot weather. Rain last Saturday.

CALGARY LABOR SITUATION CLEARING UP; AN AMICABLE ADJUSTMENT IS HOPED FOR

At Saturday Evening's Meeting Stonecutters Decided to Stay Out Another Week, by Which Time it is Hoped that Difference With Masons Will be Settled

WORD "COMPETENT" IS ISSUE IN CARPENTERS' STRIKE

Excellent Feeling Between the Builders' Exchange and Two Carpenters' Organizations, it is Believed, Will Go Far Towards Adjusting Differences

THE labor situation appears to be clearing up in Calgary despite the fact that three of the most important unions are involved in disputes. The stonecutters decided Saturday night to remain out another week and it is believed that an amicable adjustment will have been effected with the brickmasons by that time.

The carpenters' union has not yet reached an agreement with the builders regarding the proposed insertion of the word "competent" in contracts calling for a wage scale of fifty-five cents per hour. Yesterday, however, both carpenters and builders expressed the belief that a settlement would be effected within a week. The weather has been so unsettled that building operations have suffered considerably and the other labor trouble has also interfered with construction work.

Summing it up briefly, the situation so far as the carpenters strike is concerned is this: The builders insist upon the insertion of the word "competent" in contracts and the carpenters take exception to this demand, urging that as men but competent men should be employed and that the term is unnecessary. Considering that a strike is in progress, excellent feeling prevails and a speedy settlement is expected.

As to the Word Competent

In a communication to The Morning Albertan, a carpenter explains the feeling of the union as follows:

"In answering Mr. Richards' view of the carpenters' strike, I wish to say why we did not want to insert the word 'competent'. When a man serves his time he is supposed to know his trade. When I started to learn my trade I started at five dollars a week, and worked the first year at that price, and paid four and a half for board and room. The next year I got 17 1/2 cents per hour, and the third year 30 cents per hour. In the meantime I had to buy all my tools which cost me about one hundred dollars. Getting back to the word 'competent', there are men who have not learned their trade, and have not got any more tools than a saw, whetstone and hammer, and there are some men who have not learned their trade, and they get the same wages as competent men."

The builders say they are willing to pay competent men 60 cents per hour. Are there ten carpenters in the city of Calgary that are getting that price, or are there three months steady work? A carpenter has to be in the field for 55 cents per hour. Take for instance other trades: Bricklayers are getting 87 1/2 cents per hour, and carpenters 47 1/2 cents per hour. These trades do not have to have more than from five to ten dollars' worth of tools, whereas a carpenter has to carry from one to two hundred dollars' worth of tools. Few persons take into consideration the time a carpenter has to lose. In the first place there are the rainy days, the time a man has to lay off waiting for lumber to come, and the long cold winter when there is very little doing. Take all the idle time and sum it up, a carpenter does not make more than from 65 to 70 dollars a month, about the same as the teamsters get."

Take a look at the government report, it shows that in the last four years living has gone up forty percent and wages only ten percent. The Builders' Exchange says it is not having any quarrel with the carpenters. Why not come forward and sign the agreement and tell the men that are not competent that they will not be employed. It would cause better mechanics, and the owners would have better work done."

KILLED BY BOLT IN FULL VIEW OF CROWD AT BALL GAME

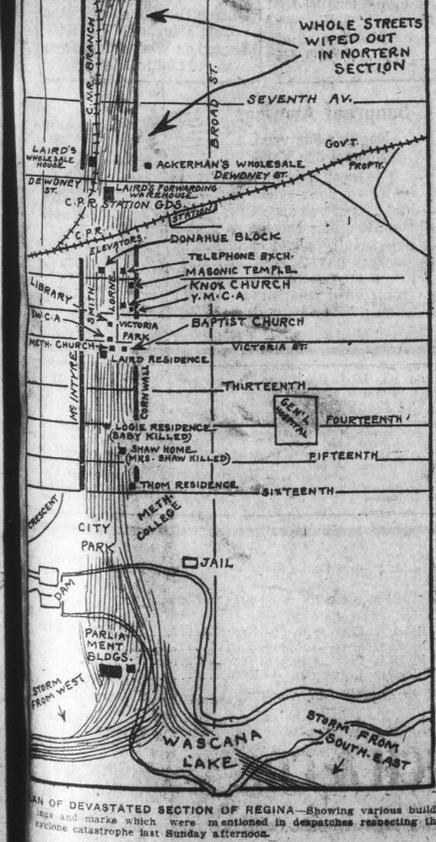

Grand Forks, N.D., July 7.—One man was killed and seven others were injured in a remarkable electrical storm which hit Grand Forks this afternoon. Charles Lundes was the victim of the fatal bolt, and he was killed in full view of the spectators at the Duluth-Grand Forks baseball game, being in an open field adjoining the ball park when he was struck. Adam Shmits, walking at his side, was stunned, but regained consciousness in a moment. Many people in the park were affected by the electrical shocks. Only two bolts seemed to have worked the havoc that was wrought.

FIND ACCIDENT ON FRENCH CRUISER IS DUE TO UNCLEAN GUNS

Paris, July 6.—The naval investigation committee reported today that the accident on board the French armored cruiser Jules Michelet, off Heroon on June 26, by which four sailors were killed and 19 injured, was due to combustible gases remaining in the guns after previous firing and to the gun-cleaning being incomplete.

2,600 PASSENGERS REACH QUEBEC ON 2 VESSELS

Quebec, Que., July 6.—Two thousand six hundred passengers arrived in two steamers from Liverpool this afternoon. The Allen steamer Corsican brought 1,103 passengers and the Empress of Ireland 1,598. The Empress had one passenger added to her passenger list on the voyage, a baby girl being born to Mr. and Mrs. Thomas of the second cabin.

Gained in Weight, Digestion Restored, Health Renewed

Here is More Proof of Quick Cure for All Folds That Are Weak, Ailing, Nervous

More Praise for Dr. Hamilton's Pills

"For a period last summer the thought of food excited feelings of nausea," writes Mrs. C. A. Dodge, of Bloombury. "The heat had made me listless and the distance for food reduced me to a condition of semi-starvation and brought me to the verge of nervous collapse. Tonics were useless to restore an active desire for food. The doctors told me my liver and kidneys were both at fault, but the medicines they gave me were too severe and reduced my strength so that I had to abandon them. At the suggestion of a friend who had been cured of blood and skin trouble, I began the use of Dr. Hamilton's Pills. The difference I first noticed was that while they cleansed the system, instead of feeling weaker I felt better after taking them. Indeed their activity was so mild it was easy to forget I had taken them at all; they seemed to go right to the liver, and in a very brief time not only did all source of nausea disappear, but I began to crave food and I digested it reasonably well. Then began to put on weight until within three months I was brought to a condition of good health. I urge Dr. Hamilton's Pills for all who are in poor health."

Get this best of all medicines today and refuse substitutes for Dr. Hamilton's Pills of Manlyke and Butterput. Sold by all druggists and storekeepers, 25c per box or five for \$1.00. Sent postpaid by The Cattaraugus Co., Buffalo, N.Y., and Kingston, Canada.

BODIES OF 3 MEN ARE FOUND WEST OF EDMONTON

Were on Right of Way Between Tete Jaune and Fitzhugh; Names Not Known

Edmonton, July 6.—That the bodies of three men who had died, either from exhaustion, hunger and exposure, or attacks from bears, had been found along the Grand Trunk Pacific right of way between Tete Jaune Cache and Fitzhugh, is the story told this morning by the men who discovered the corpses.

URGES BOXING FOR BOYS

Dr. Holmes Says They Can Work Off Instinct to Fight

Providence, R.I., July 6.—As an outlet for the barbaric instinct in boys to punch and fight with one another, Dr. Arthur Holmes, of the University of Pennsylvania, at today's session of the American Association to Promote the Teaching of Speech to the Deaf, suggested that to the boys big boxing gloves be given and that they be allowed to work off this fighting impulse.

He immediately qualified this statement, however, by saying that he did not advocate having such public school held prizefights in the assembly hall, with a broken down prizefighter as trainer and referee and the girls of the school as spectators.

He was speaking on "The Psychology of Childhood." He said it was instinctive in boys to throw stones.

THINKS LAURIER'S NAVAL PLAN WILL BE IN PART REVIVED

London, July 6.—Premier Borden and Sir J. D. Haasen promptly but courteously choked off the Queenstown newspaper men who wanted them to talk of naval affairs. The Manchester Guardian thinks Canadian opinion and imperial expediency will cause a revival perhaps of a modified form of Sir Wilfrid Laurier's naval plan.

TORONTO MAKES A RECORD IN CUSTOMS RECEIPTS

Toronto, July 6.—The past month has been the largest for June in the history of the Toronto customs room in the matter of collections. The amount taken in for the past thirty days is something over \$1,500,000 compared with \$1,211,009 for the same month last year.

REGINA'S NEW ENGINEER

Toronto, Ont., July 6.—Mr. J. K. Allen, of Toronto, assistant engineer of roadways for Toronto, has been notified of his appointment as city engineer of Regina. He will take up his new work shortly, succeeding W. W. Thornton, recently appointed commissioner of works for Regina.

MAJOR G. H. BAKER, M.P. for Bromfield, Quebec, who is to be appointed auditor-general of Canada. Major Baker defeated the Hon. Sydney Fisher in the general sweep last September.

NEW GRAND STAND FOR FAIR WILL SEAT 10,000

Many Improvements Planned for Calgary's Growing Exhibition

Plans Have Been Decided Upon Details Will be Worked Out at Once

New Building to be of Concrete and Steel; Four Wings for Industrial Building

A new grandstand capable of seating 10,000 people, a fine new industrial building, a new poultry building, and six or eight new stables—these are a few of the improvements planned for the next annual Calgary Industrial Exhibition. The foregoing improvements already have been decided upon as necessary by the board of directors of the exhibition, said Mr. Richardson, manager of the exhibition, last evening. All the details of the plans will be worked out at the earliest possible moment. The stables, of course, will not be of steel construction, but it is planned to make the other structures of very strong and most permanent of their kind.

The new industrial building probably will be constructed along the same general lines as the present main building except that it will have four wings, while the main building has three, something in the shape of a letter "E". The new industrial building will have the additional wing. It probably will be constructed 200 feet long by 40 feet wide.

Big Poultry Building Needed.
"It is planned to construct a new poultry building to accommodate from 1,000 to 1,500 birds. The present building is entirely inadequate and has been compelled to turn away exhibits for lack of space, and with the growth of the industry about Calgary, more space is imperative."
"The new stables also are badly needed, as we had to refuse large stock exhibits in spite of the temporary quarters we erected. The board already has approved the matter and it now only remains to work out the details of the plans before presenting them to the city council and the people of Calgary."

TERRIFIC CLOUDBURST IN NORTH DAKOTA

Bismark, N.D., July 6.—Reports from New England and Scotland tell of a terrific cloudburst in the Bad Lands yesterday. Three hundred feet of the main line of the Milwaukee road were washed out east of Scotland, and three quarters of a mile of track of the New England branch is gone east of New England. All of the wires are down. The Little Missouri, Cannonball and other rivers are on the rampage, and it is feared that great damage has been done and loss of life is rumored. Crews of men are endeavoring to establish communication with that section.

ENOUGH FENIAN VETERANS TO CAPTURE IRELAND

Ottawa, July 6.—Twenty-five thousand applications have now been received for the \$100 grant to the veterans of the Fenian raid not more than one third of whom can possibly qualify. Already three thousand five hundred applications have been examined and passed upon. Warrants were issued for the hundred dollars in each favorable case, making a sum of one third of a million.

WARREN DIES OF INJURIES

Vancouver, B. C., July 6.—H. G. Warren, manager of the British Columbia Copper Company, of Greenwood, B. C., died at Greenwood last Saturday, aged 62.

J. H. SINGLETON DEAD

Smiths Falls, Ont., July 6.—J. H. Singleton, president of the Eastern Canadian Dairy Manufacturers' Association, died this morning, aged about 90.

The most reliable protector of your curtains and carpets, at the same time keeping the house delightfully cool and shady; navy, red or green stripes to choose from; hard wearing assured; 30 inches wide

PART OF BRAIN MISSING 13 YEARS
Death Resulted Yesterday From Other Causes to a Philippine Veteran

William O'Brien, 42 years old, of Parsons, Kas., died yesterday at St. Margaret's Hospital after living thirteen years with one-quarter of his brain missing. Death was not due to the injury to the brain but to rheumatism contracted previously in a campaign in the Philippine Islands.

O'Brien was a member of the Thirty-second United States Infantry and was wounded in the head during a battle near Manila in the spring of 1899. The bullet entered the forehead, passing out slightly in front of the left ear. The army surgeons removed almost half of the left lobe of the brain. After his discharge from the army he returned to his home and resumed his occupation of machinist. He suffered from loss of memory and at times appeared to lose all recollection. He was taken to the hospital a week ago.

O'Brien is survived by his father, Michael O'Brien, of Parsons, and his brother, James E. O'Brien, of East St. Louis. The body will be taken to Parsons for burial.

Announcement

For a limited time the following lots in Rosedale Heights will be offered at the prices and terms quoted.

Block 4, Lots 3 to 9—Each	\$295	Block 5, Lots 23 to 30—Each	\$240

A REMONSTRANCE

The Saskatchewan election campaign seems to have borrowed something of the force of the recent cyclone. As the date of the election approaches the province presents the appearance of a battlefield in which contending forces are engaged in the final desperate struggle for victory.

It would have been unreasonable to expect so well seasoned a fighter as the member for Calgary to refrain from swelling the volume of sound proceeding from the Tory forces. We are therefore not surprised to read in a press dispatch that he delivered "a powerful address on provincial issues" at Saskatoon on Friday last.

We have no doubt that Mr. Bennett was eloquent even when he was so illogical as to "indict the Scott government for trying to ride home on a dead political horse called 'Reciprocity'."

For sweet unreasonableness we venture to suggest that this indictment is unsurpassed. The prize of power is sought alike by Premier Scott and by Mr. Bennett's friend, Mr. Haultain.

We can only assume that Mr. Bennett is in greater need of advice concerning the code which governs such contests than we would have supposed. Some more experienced and less scrupulous politician, such for instance as the Hon. Bob Rogers, should take him quietly aside and "put him wise."

Mr. Bennett is convinced that Premier Scott's amount is dead he should have said nothing about it. If he were worldly-wise he would satisfy himself by sneaking behind his hand or winking slyly at his friends while watching that fool of a Liberal premier, engaged in the ludicrous exercise of trying to galvanize a dead mount into activity.

Personally, however, we are prepared to place our money on the "dead horse" ridden by Premier Scott. She had a little more than 600,000 backers in the last race and though she was not a winner her performance was quite creditable.

AS OTHERS SEE US

The long expected article on Calgary, under the caption "What's What in Western Real Estate"

REGINA STORM WAS TORNADIC

The foundations of one house where the wind swept it off, but of the others there is not even a trace left. In another case a row of cottages was crumpled up as a child might telescope a row of cards, all crushed in a heap against the house at the end of the row.

tate" in Toronto Saturday Night, has appeared. There are few people in Calgary who have felt any fear of the approaching investigation. The prosperity of Calgary is established on too solid a basis of existing business to justify any anxiety concerning an examination of its claims; its assurance of future development is too well grounded to be shaken in the least by any criticism which Saturday Night or any other journal might offer.

It was to be expected that Saturday Night would apply to Calgary, as it does, the criticism offered after an examination of other towns and cities in the West, that the boundaries are perhaps unduly extended and that property is being sold which can hardly be in demand for business or residential purposes for twenty years.

Of the extension of Calgary's boundaries Saturday Night says: "There are forty square miles of land within the city's limits, an area twelve miles in excess of what Toronto possesses and considerably in excess of Montreal's municipal boundaries. Calgary can nicely accommodate a million people within her present area, not to speak of her outside subdivisions."

Mr. Norman Harris, in his article on Calgary, as in those which refer to other Western cities, ventures to select from the various subdivisions offered for sale some for commendation, others for disparagement. We do not know that his judgment of prospective values, formed after a visit extending presumably over two or three days, is infallible in a matter in which the judgment of some of the most skilled prophets is sometimes falsified; that, however, is a matter between Saturday Night and its readers. Certainly, no harm can result from a warning that there is risk of loss from investment in many sky-line subdivisions.

The prosperity of Calgary, "past, present and prospective, receives its meed of appreciation in the following words:

"Calgary is a C.P.R. town. In time it will be also a C.N.R. and a G.T.P. town. It is going strong, and when the effects of Calgary's real estate dissipation have faded, you will see new business streets opened up from Centre street east and Centre street west, where now are frame residences. You will, I imagine, see tremendous growth in this city within the next five years. Its facilities as a manufacturing and distributing centre cannot be overlooked. Any person who wishes to know more about the glories of Calgary may send for a booklet of two hundred and eight pages which tells the tale to perfection. The Board of Trade will oblige."

Finally, one word of protest. Not satisfied with adorning its pages with two excellent views of Calgary, Saturday Night also publishes a portrait of "Mr. Frank Wrigley, Mayor of Calgary, Alta." Mr. Frank Wrigley, unless we are hopelessly misinformed, is a very capable musician who plays the organ and directs the choir at Knox Presbyterian church. So far as we know he has never been an aspirant for municipal honors, and while possible candidates for the mayoralty at the next municipal election have been discussed, Mr. Wrigley's name has not, we believe, been mentioned.

We believe there are some citizens who are dissatisfied with the present administration at the city hall. Mayor Mitchell, however, is still head of that administration; and is likely to remain so for a few months.

EDITORIAL NOTES

Ex-Alderman Watson thinks the city commissioners should resign in a body and, by standing for re-election, give the ratepayers an opportunity to say by their votes what they think of them. Love of resignations has too strong a grip on the former alderman, who lost much of the esteem of the people by bolting from the council when he did, instead of remaining, as he might have done, to back up the charges which he made. Mr. Watson is right, however, when he says that the report of the committee should be submitted without further delay, its recommendations given the most earnest consideration, and every effort made by reorganization to secure some approach to efficiency in the municipal administration.

The rumor is current that one of the aldermen is buying himself with efforts to persuade others to join with him in rejecting the report of the investigation committee, when it is submitted to the council this evening. The findings and recommendations of the committee are not yet known and this gentleman, for motives that can only be guessed, is said to be anxious either to reject the report or postpone action upon it. Watch the debate on the report tonight.

Toronto Saturday Night publishes a portrait of Frank Wrigley, organist at Knox church, and informs its readers that Mr. Wrigley is mayor of Calgary. It is the intention of Saturday Night to suggest that Mr. Wrigley, in his capacity as musician, would be able to substitute harmony for the discord which now reigns at the city hall.

Monday in India, will address a meeting at the Y.M.C.A. tonight on "The Uragas in India and the Hindu Problem as it Affects Canada." No admission will be charged and the general public is invited to attend.

ON EVE OF REPORT J. GRAVITY WATSON DISCUSSES PROBE

THAT the condition of affairs revealed at the city hall by the enquiry undertaken by the probe committee is sufficiently serious to call for the resignation of all the commissioners, is the opinion of ex-Alderman Watson, who, as a member of the council, precipitated the investigation.

"I think the commissioners should resign and stand for re-election, so that the people can have a chance to say what they think of them and of their work as revealed by the recent enquiry," said Mr. Watson to The Albertan yesterday. "I don't say that none of them would get back, but I think that in view of the bad work done during their term of office they should seek the endorsement of the people."

"I don't think there can be any question now that the charges I made have been sustained by the evidence gathered by the committee. There are perhaps some matters into which they might have gone more thoroughly, but possibly their instructions did not allow of that. In any case the result of the enquiry goes to show that I was right."

"I am strongly of the opinion that the report of the committee should be submitted and acted upon without further delay. Not only was bad work done last year, as the enquiry has shown, but bad work is being done at the present time."

"I have no hesitation in saying that thousands of dollars of the money of the ratepayers is being wasted at the present time. Every day I see on the street teams working for the city and receiving 1-1/2 cents, about \$6 per day, and not doing sufficient work to earn it. With my experience as a contractor I think I know what I am talking about when I say this. I believe there are only about two departments, the street railway and waterworks, that are doing really good work at the present time."

"The report of that committee should be submitted without further delay and the civic machinery so cleaned and repaired that greater efficiency can be ensured."

FORMER ALDERMAN JOHN WATSON ADVOCATES NEW SITE FOR CALGARY EXHIBITION

Suggests Shaganappi Park, Owned by the City, as Desirable Location; Thinks Present Grounds Too Valuable to be Used for Fair Purposes

WOULD INCREASE THE MUNICIPAL RAILWAY REVENUES

Says Grounds are Altogether Too Small for Exhibition of the Future and Considers Suggested Location Most Beautiful in the City

THE present site of the Calgary Industrial exhibition will be entirely inadequate for the handling of big crowds next year following the erection of necessary new buildings, says Mr. John G. Watson, former member of the board of directors of the exhibition, and a former member of the city council. Mr. Watson advocates the removal of the exhibition from the present site to the municipal property known as Shaganappi Park, just within the three miles circle in Section 18.

"It is quite evident that the grounds already are too small," said the former councillor. "Anyone who was there on the last day and saw how the people crowded the buildings and the grounds in almost a solid mass will agree to that. I believe that there were originally about 80 acres in the present site but a large part has been taken up by the city with car barns, power house, etc. The construction of a new grand stand, a big industrial building, public building, and more stables, as the directors properly propose, will make the remaining space entirely inadequate."

"The tract known as Shaganappi Park comprises some ninety-six acres just three miles from the post office which can readily be reached by the extension of three street car lines. The line now being built on Seventeenth avenue could be extended on to touch the site on the north side. An extension up Twelfth avenue would reach it on the north side. Another line is planned next year from Elbow park."

DRILLING FOR OIL WITHIN FORTY MILES OF THE CITY WILL COMMENCE SOON

Segur, Californian Expert, Associated with Local Capitalists in an Endeavor to Develop New Alberta Petroleum District

Drilling for oil within forty miles of Calgary will be commenced within thirty days, according to an announcement made last night by I. E. Segur, the Californian expert, who has been examining property in Alberta for the past six weeks. Articles of incorporation for a development company will be filed at Edmonton early this week and drilling apparatus will be shipped to Calgary shortly thereafter.

While the personnel of the directorate of the development company has not been made public, it is understood that the company will be a close corporation, with Mr. Segur at the head, California and Calgary capital will be used exclusively in financing the corporation. The first drilling will be done at a location selected by Mr. Segur about thirty miles southwest of Calgary. The Californian expert has spent months of endeavor in attempting to trace the oil fields from the northwestern Montana basin through Alberta, and recent analysis made of seepage oil have convinced him that there are valuable basins within thirty miles of this city. Samples are high grade. The discovered near Calgary locality.

Ottawa, July 7.—For his services in the relief of the stricken people of Messina, Italy, following the disastrous earthquake of December 28, 1908, Mr. W. Lidington, of this city, has just received a beautiful silver medal from King Victor Emmanuel. Mr. Lidington was a member of the crew of the S.S. Ophir, of Glasgow, which arrived at Messina a few hours after the earthquake and rendered most valuable assistance in succoring the injured people.'

BANK CLEARINGS FOR WEEK

Table with columns for City, 1912, and 1911. Lists bank clearings for various cities including Montreal, Toronto, Winnipeg, Vancouver, Ottawa, Calgary, Quebec, Victoria, Hamilton, Halifax, St. John, Edmonton, London, Regina, Brandon, Lethbridge, Saskatoon, Brantford, and Moose Jaw. Total for 1912 is \$172,249,385 and for 1911 is \$148,715,827.

CROWDS THROGGED TO CHURCH SERVICES IN SASKATCHEWAN'S STRICKEN CAPITAL

Record Attendance at Services Held on First Sunday After the Great Catastrophe; Driven from Damaged Churches Worshippers Gather in Theatres and Halls

SPLENDID PROGRESS IS MADE IN REPAIRING BUILDINGS

Regina, Sask., July 7.—The congregations of the three city churches met today in borrowed halls but never in the history of the city have the services of all denominations been so well attended or marked with such depth of feeling.

It is just one week after the catastrophe which brought sorrow to so many homes and such a general loss to citizens.

This morning the congregation of Knox Presbyterian church met in the parish hall of St. Paul's Anglican church, while tonight they met in the city hall auditorium where holy communion was solemnized.

The Metropolitan Methodist church congregation met in the city hall in the morning and tonight at Regina theatre.

The First Baptist church, the third wrecked church, met this morning in Regina theatre and tonight in Princess theatre.

The pastors in every case referred to the great catastrophe of last week throughout the services. It was announced that on Tuesday next the governing bodies of Knox and Metropolitan churches would meet with a view to carrying out the plans of rebuilding the wrecked churches along lines best likely to tend to the public good.

Wonderful progress has been made in repairing such houses and buildings as justed reports being made. Work has already been started on a temporary telephone exchange.

Major Birdwhistell, representing the Canadian St. John's Ambulance Society, arrived in the city on Saturday and will remain to assist the city authorities in the handling of relief, until such time as his further presence seems unnecessary.

Tonight he expressed in unmeasured terms his appreciation of the efficient way in which the local committees have handled the situation from the start.

Making Good Progress. The city has made splendid progress in rebuilding, and committees and the authorities are working well and energetically in dealing with the various problems which have arisen. The mounted police and militia have afforded ample protection in the devastated area. Four looters have been severely dealt with by Magistrate Trant as to act as deterrent to any who might otherwise be inclined to steal the property which still lies exposed.

The death list still remains at 28, and it appears unlikely that at the worst, the death roll can possibly exceed thirty. If indeed it reaches that number, the injured likewise are all doing well and every day sees patients being released from the hospitals.

MACLEOD ANTICIPATES LARGE ATTENDANCE AT EXHIBITION

MacLeod residents are anticipating a record breaking attendance at the MacLeod exhibition, which will be held for two days, August 1 and 2, in that city. The official prize list shows that there will be every inducement to make energetic efforts to capture one, and the entries demonstrate that it will be a most comprehensive one.

In the horse division, the exhibition will be notable. Entries in the various classes for thoroughbreds, standard bred, hackney, Clydesdale, Shire, Belgians, Suffolk Punches and Irish saddle horses and ponies, will attract stock raisers' attention immediately. The same is true of cattle, including Shorthorns, Herefords, grades, and also of swine, sheep, Belgian hares, and the like.

The grain exhibit will be a top notcher, and Alberta grown fruits will occupy a most prominent place. Roots and vegetables also will be shown in great variety, and the poultry show promises to outclass anything heretofore attempted at the MacLeod exhibition. The industrial exhibit will attract special attention from the ladies with the showing of embroideries, laces, drawn work, etc. baby's outfits, quilts, mats, etc., and plants and flowers. The classes for school competitions include: kindergarten work, penicil sketching, color work, drawing, needlework, and essays.

The first day's racing program will include trot or pace, mile heats, Gallopway race, for horses and ponies; seven-eighths of a mile open; and one mile, gentlemen's race, for horses bred in Alberta. Purse range from \$25 to \$125. The second day's program will be preceded by a grand stock parade. The races will include a hurdle race, one and one-eighth handicap; five-eighths of a mile dash open, and three-quarters of a mile dash. Arrangements have been made with the Canadian customs to admit foreign horses without delay or expense, and special rates have been made by the railways.

AUTOMOBILE DEPARTMENT

BIG DEMAND FOR AUTOMOBILES IN ALBERTA EVIDENCE OF PROVINCE'S PROSPERITY

Representatives of Leading Motor Car Factories are Here to Establish Branch Agencies in Western Canada

FARMERS FAST BECOMING ENTHUSIASTIC MOTORISTS

Value of Automobile to Agriculturalists is Now Realized and Horse Driven Vehicles are Rapidly Being Supplanted

ALBERTA has recently come to be recognized as the premier field for automobiles in the Canadian North West. This is largely due to the agricultural development of the province during the past few years, a demand for machines has been created, that has attracted the attention of the largest motor car manufacturers in the United States and last week there were nearly a score of special agents, some of them coming from as far east as New York City, in Calgary demonstrating cars.

An automobile to the Albertan farmer is no longer a luxury but a necessity. The wide range of territory that the modern farmer must cover almost daily in looking after his crops has forced the automobile to the attention of the up-to-date agriculturalist. In a country of the climatic and topographic nature of Alberta the cost of upkeep is small. This feature in itself appeals to the farmer and in addition the majority has come to recognize and appreciate the fact that the motor car is a time saver—and time to the Alberta agriculturalist means money.

The most popular type of machine in this province is the touring car, equipped with a canopy top for use in inclement weather. Limousines are too heavy for use as country cars, especially during the winter months when the roads are not in the best of condition.

As the majority of motor cars sold in Alberta are manufactured in the United States, the purchasers here suffer on account of the duty. Some of the more enterprising manufacturers have reduced this charge to a minimum by shipping the engines across the line and having the cars assembled in Canadian shops.

Among the recent arrivals in Calgary's motordom is Charles Jewett, formerly of Chicago, who is representing the Carter car and the Winton "Six". The former, a friction driven machine, attracted considerable attention at the recent fair on account of a unique demonstration arranged by Jewett. The car was driven up a sharp incline especially constructed for demonstration purposes. The Winton "Six" is one of the most reliable medium priced cars on the other side and is now making a strenuous bid for recognition in Canada.

Walter A. Albaugh, special factory representative for the Michigan car, manufactured at Detroit, arrived in Calgary two weeks ago and will install an Albertan agency before he returns to the United States. The Michigan car is extremely popular in Eastern Canada and is rapidly winning favor in the West.

Calgary now boasts practically all of the popular cars manufactured in America and a number of foreign cars are also owned here. The American cars with the underslung frames, are well liked here and the Chalmers, Pope-Hartford, McLaughlin-Buick, Peerless, Pierce, Arrow, Packard, Thomas Flyer, Ford, White, Reo and the serviceable little Hupmobile are offered in the local market.

The automobile supply houses here carry excellent lines of extra parts. The principal tire manufacturers of America are represented in Calgary and all auto accessories are to be found within the local shops.

An idea of the growing demand for automobiles in Alberta can be gained from the size of the shipments of cars from Eastern points. During the past week one firm alone ordered seventy-five cars and another fifty. There is also a demand for motor trucks.

New York City is having more trouble with the speed problem. The New York Telegraph has been conducting a corrective campaign and the following data compiled is of interest even this far West:

During March and April, the committee's report states, there were 103 automobile accidents, 120 street car accidents and 126 accidents to horse-drawn vehicles. The total number of deaths in this city caused by automobiles during the first four months of the year was 54, against 41 killed by trolley cars and 34 by wagons. The number of persons injured by automobiles—344—was more than twice as great as the total injured by trolley cars and wagons.

The committee reports in favor of adopting an ordinance which provides that no vehicle or vehicles propelled by motor power or drawn by horses shall be driven recklessly or negligently or at a speed or in a manner so as to endanger the life or limb or property of any person; that no vehicle shall be operated on any public highway in the city at a speed of more than fifteen miles an hour except that a speed of eighteen miles an hour may be maintained, but not exceeded, on Broadway and Amsterdam avenue, north of Seventy-Second street; Coney Island Boulevard and Eastern Parkway; and that a speed of twenty-five miles an hour may be maintained, but not exceeded, on public highways where the same pass through the country sections which are substantially undeveloped and sparsely settled. The provision against reckless or negligent driving, however, is to hold good in all sections.

Autos to Stop for Cars

Upon approaching a bridge, or in turning a corner of intersecting public highways, or in passing a public school on school days, between 8 a.m. and 4 p.m., an automobile shall not be operated at a rate of speed more than ten miles per hour. In meeting, overtaking or approaching a street car, which has been stopped for the purpose of receiving or discharging passengers, an automobile must be brought to a full stop and shall not proceed and pass between the car and the rear curb or sidewalk until such car has gone on.

The speed regulations, save those against reckless and negligent driving, shall not be enforced against vehicles carrying the United States mail, Fire Department apparatus, Police Department, Military or public service corporation emergency vehicles or ambulances.

Concerning violations of the proposed ordinance, it is provided that any person who shall operate, drive or propel, and also any owner thereof riding therein, who shall cause or permit any vehicle to be operated, driven or propelled in violation of any of the provisions of this article, shall, upon conviction for the first offence be punished by a fine of not less than \$25 nor more than \$100; or by such fine and imprisonment for a term not to exceed 15 days.

Fines and Jail for Offenders

For second offenders the minimum fine is doubled as is the possible term of imprisonment. For third-time offenders, convicted for the third time within six months, the punishment is fixed at \$100 and a term of thirty days. The same is true as to each subsequent offence, although the proposed law is not explicit as to what is to be done with the offenders after the close of the six months' period.

City magistrates are empowered to hear complaints made against automobiles and to pass upon them, the ordinance to take effect, if passed, September 1.

Arrival of the Chauffeuse

College woman, medical student, chauffeuse and chaperone are a few of the claims to distinction of Mrs. Alfred E. Waxham, of 2 West Ninety-Fourth street, New York, who recently entered the automobile business as the only licensed public chauffeuse in the world. In an advertisement addressed to the women of New York, she offered to take them on shopping trips or on rides for recreation, and to act as a chaperone on the automobile rides of the younger people.

Part of her work will be among convalescents, whom she will take for recreational rides. For this reason a low swung electric coupe is used. The electric was selected because it is clean and noiseless, and therefore does not try the nerves of delicate persons. Its easy control commended it for use in the crowded shopping districts.

Mrs. Waxham has driven cars, both gasoline and electric, for many years. In fact she was the first woman of Denver to drive her own automobile. There, long tours among the mountains, with breakdowns in lonely places, made her thoroughly familiar not only with the driver's work, but with the mechanical construction of the

car. She came to New York five years ago and last winter decided to take up this unique occupation.

Starting in with one car which she drives herself, Mrs. Waxham has ordered a second machine. When this is placed in service it will be driven by a young woman who was a classmate of Mrs. Waxham at Wellesley college.

About Speed Maniacs

That distinctly revolutionary type of hilarious individual known as the speed maniac, who became particularly progressive with the advent of the automobile, now looms up as a special menace to the motor truck industry.

Experts interested in the commercial vehicle because of its economic possibilities, declare that the driver who throws reason to the wind in the operation of a truck and hits up too fast a pace, is unquestionably the most expensive feature connected with motor truck maintenance.

Tire manufacturers, in particular, attack the speed maniac and his methods. They argue that speeding is by all odds the most expensive of all the deteriorating influences to which tires are subjected.

A tire manufacturer recently said: "It makes no difference how well solid tires are made, or to what extremes the manufacturer goes to fortify them against the incessant knocks of road travel, they will not withstand the abuses of the speed maniac. Speeding is an evil that can result in but one thing—decreased mileage and increased tire expense. And the particularly aggravating feature of this is that it is a matter that cannot be regulated unless a driver obeys instructions and sends the truck along at a moderate pace. Reliable drivers do this, but there is always the other fellow who, as soon as he is out of sight of the boss, throws open the throttle and burns up the pavement. Such a man is decidedly expensive to the truck owner.

"Demonstration has proved that at an average speed of twelve miles an hour the life of a tire is about twice what it is at an average speed of twenty miles an hour. Still higher speeds reduce the life of the tire proportionately. Therefore, it should not require any great amount of meditation to determine the effect of constant speeding upon an owner's tire bills."

The only way to clip the wings of the speed maniac is to furnish him with a truck that is geared for low or moderate speed and in which the power is limited, that is to say, furnish him with an electric truck. As an economic feature in the transportation of goods, the electric truck would long ago have secured the dominating position, but for the foolish notion some have derived from the gas car craze that high speed and power are essential to the moving of goods.

READ THESE "DON'TS"

Don't accept off-hand capacity ratings. The common tonnage capacity basis is very misleading.

What is a "three-ton truck"? How many kinds and sizes are there—each of a different capacity, yet each one rated the same?

And is this so-called "three-ton" or "one-ton" or "five-ton" rating the normal, everyday capacity? Or is it the maximum overload capacity?

Ask these questions of the next few truck-salesmen who call on you and note the radically differing answers.

Then stop and figure the risk you are running in depending for one second on such off-hand, unstable ratings.

Many an installation of power-wagons has been a costly disappointment because of this faulty system of units.

But, even were the system perfect, few customers are in a position to know just what equipment they need. Each business has its own peculiar requirements, and only a reliable company—and one of wide experience—can so plan an installation as to avoid unnecessary investment in needless excess equipment.

CLARESHOLM DISTRICT L. P. STRONG IS MOST SEA OF GRAIN OPTIMISTIC

(Continued From Page One)

diversified farming is figured on for the coming season. A large number of hogs and dairy cattle purchased from the east have come into the district. The Clareholm Cereals Association has increased the number of contributors fifty percent and there are the brightest prospects possible for a prosperous season along this line.

The output of best cattle in the 44 ranch has been doubled and the new proprietor, Thomas Moore, has added to the herd several imported bulls which will raise the standard of best cattle to a high point. Besides, the Clareholm district has been very strongly interested in poultry raising with a view to supplying the Calgary market. There is no doubt that Clareholm will continue to be a good grower in the poultry supply of this growing city. For some time, the Clareholm district has had a record in horse raising which were sufficiently proved at the recent exhibition in Calgary. From the number of many horse breeders in this district, it is believed that it is but a question of time before the district will soon come into its own in heavy, hackney and light horse breeding.

Clareholm Fair

The prizes just issued by the Clareholm Agricultural Association and also by the Gratum Agricultural Association has proved that these two districts are thoroughly up to date in the quantity and quality of prizes awarded at their exhibitions. It is noted that the Gratum fair, which had but one day of operation, was a general and a success with a splendid program of racing, and highly desirable prizes. Mr. James Blair, the capable secretary, has with commendable enterprise prepared a program not to be excelled in this district.

Brought from Liverpool to be tried in Vancouver

Oppenheim arrested in Britain charged with defrauding Vancouver lady

Montreal, July 7.—Chief Inspector McRae, of Vancouver, B. C., arrived in Montreal yesterday morning from Quebec, with David Oppenheim, who had been arrested in Blackpool, by the officers of Scotland Yard.

Oppenheim, who is twenty-three years of age, has been wanted in Vancouver since January last, when it was alleged he skipped away with \$14,000 belonging to a Vancouver lady. It is stated in the warrant that Oppenheim had been engaged to marry up a married woman, in stead of which, it is alleged, he drew up a check which was signed by the lady.

Oppenheim, who had only been in Vancouver about five months, put up one of the biggest fights against extradition in the history of the Liverpool courts. After a bitter trial, he was handed over to Inspector McRae, who is the guest of Chief Constable Oppenheim has a wife and child in Manchester, England.

The inspector left this morning with his prisoner. Oppenheim was wanted on four counts.

Optimistic Reports

The Gayley agent reports "Ninety per cent of fall wheat in the very best condition, 85 per cent of spring wheat has improved very rapidly, 85 per cent of oats looking the best at this date that they have been for the past five years, 75 per cent barley doing well, rainfall about 1.2 inches."

The Clareholm agent also reports crop conditions very favorable. Winter wheat practically all in head, early sown spring wheat heading out nicely, somewhat short in the straw. At Gratum the spring wheat is starting to head in some fields fall wheat somewhat short as yet of the general standard but fall following hot weather is helping all crops wonderfully. Farmers near Macleod the agent reports, are well satisfied with the outlook. Despite the "rainstorm" some ten or twelve miles west of that place which did considerable damage. Spring wheat is looking well here, oats and flax also. Plenty of rainfall.

Similar reports come from Nanton and Okotoks, at the latter place, fall wheat all headed out and mostly looking good, in shot blade 15 to 20 inches in height, barley excellent from 13 to 20 inches in height, very little flax sown.

Fine in the South

Crops south of Calgary are doing well. At Pincher, steady rain following warm weather has removed all doubts of a big crop. At Purple Springs, the district had not fared so well up to the beginning of this week there was no rain, with hot weather.

First Baptist Church Sunday School Excursion To BANFF

TUESDAY, JULY 9th

Train leaves Calgary 8:10 a.m., returning, leaves Banff at 8:15 p.m.

Tickets—\$2.00 Adults; \$1.00 Children.

The Baley agent reports plenty of rain, fall wheat and oats in good condition. Spring wheat looks well, but not so far advanced. What little flax sown looks well; no barley sown to speak of. Slight showers at spring Coulee caused a material improvement in the crops in that vicinity. Fall and spring wheat is heading out.

Letters to the Editor

Organ Playing and the Mayoralty.

Alack and alas—and again ALAS! Why was "Our Johnnie" so slighted, so outrageously overlooked? We, who are used to seeing the Mayor's sober and philosophic countenance portrayed in the center of every civic group, were profoundly shocked when yesterday morning at the breakfast table we picked up "Saturday Night's" latest diatribe on Western real estate—Calgary this time—and saw, saw, not the familiar phis of the Chairman of the Board of Commissioners, but the countenance of Mr. Frank Wrigley, organist of Knox Church, bearing the interesting legend: "Mayor of Calgary."

A mistake you say? Probably, and yet—might it not be that Toronto's militant—not to say meddlesome—weekly was trying to pick our NEXT mayor? If it's an awfully clever paper, by Jove, and maybe out of the depths of its esoteric wisdom, it reasoned somewhat like this:

"An organist for mayor, why not? That would be a good play to the high-brows of Calgary. Furthermore, it is not reasonable to suppose that a man who is the admitted master of so complex and intricate an instrument as is the pipe organ, might be equally adept in harmonizing the various 'discordant' elements of the present administration, so that even Ex-Alderman Watson and Commissioner Clarke would sing a duet to the vigorous it."

What She Noticed

"How did you like Miss Kazanoff's aria at the musicale last night?" asked Mrs. Oldcastle.

"I didn't notice it," replied Mrs. Galsalotte. "But I thought them black earrings she had on looked kind of cheap."

There was a man in Windsor town,
Of that there is no question,
He dined not wisely but too well
Till he got indigestion,
And finding his digestion spoilt,
With all his might and main
He ate POST TOASTIES right along
Till he got well again.

Written by C. M. HEDDLE,
St. Hyacinthe, Que.

Sale Starts Monday Morning at 9 a.m.

To Keep Stocks Fresh and Clean Radical Reductions in All Lines Are Made in Order to Effect at Quick and Absolute Riddance of Summer Goods.

Midsummer finds us with larger stocks on hand than we ought to have at this season of the year. Nothing wrong with the goods. But we slightly overestimated when buying, and the weather had something to do with it, too, and other various reasons. So it happens that now we find our shelves and counters filled with thousands of dollars' worth of summer goods, which must be moved promptly, even though considerable loss of profit result. We never allow goods to accumulate from one season to another. It is for this reason we hold this

DRASTIC PRICE LOWERING JULY CLEARANCE SALE

An occasion for quick action, decisive price lowering and small or no profits. Help us to accomplish our task and we will help you to some of the most remarkable bargains ever placed at your disposal. Remember, the summer is not yet half over. You'll want and need many of these splendid summer goods long before the summer comes to an end.

BUY THEM NOW! HAVE THE USE OF THEM NOW! AND STILL SAVE ALMOST AS MUCH AS YOU SPENT! Prices below show that we have stopped at nothing within reason to dismiss everything in wanted summer goods.

Never Such Prices as These Ever Attempted Before on High Grade Table Linens

In many cases the prices are just about cut in half, and you must keep in mind that our stock of linens is the very best to be had. We go right across the water to buy our linens, and we buy direct from the mills, and by buying in larger quantities than the ordinary merchant, we get better prices. You have all this to consider when it comes to testing values, and comparing prices, and then this July Clearance brings prices on Table Cloths away down. A grand opportunity for every housekeeper, restaurant keeper, to stock up or refresh their linen supply now. Glance over these prices, and buy as early as you can, for some will buy enough to last them a lifetime.

Table Cloths All Ready for Use

SULTAN HAS TAKEN UP HIS RESIDENCE ON THE BOSPHORUS

When Turkey's Head Goes Out to Pray Mosque Bristles With War Implements

He Smiles Occasionally to His Subjects Since African War Looks Better

Is Man of Nervous Sensibility and Easily Affected by Passing Events

Constantinople, July 6.—The present sultan has re-established the imperial residence on the shore of the Bosphorus...

Leaving the ancient dwelling of the sultans on the Pointe du Serail—the scene of many a sanguinary tragedy—his father, Abdul Medjid, installed himself in the spacious and beautiful palace erected by his architect, Garabet Balian, on a site on the sea shore called Dolma Bagiche.

With the beginning of the present regime Dolma Bagiche was thoroughly overhauled, and it hadly needed repairs, since for half a century the vast edifice had hardly ever been touched.

A square planted with trees and ornamented with a clock tower separates the palace from the mosque. It sometimes happens, however, that the sultan offers his Friday prayers elsewhere, but the proximity of Valide to Dolma Bagiche gives him the privilege of receiving the pashahs in privacy.

When the sultan is about to leave the palace for the mosque all the approaches are occupied by battalions of infantry and squadrons of cavalry. The traffic is not entirely held up, as was the case under the old regime, and the people are allowed to pass between the military lines until the sharp sounds of a bugle announce that

LUMBER At Wholesale Prices

We have ten million feet of lumber in stock. Be sure and get our prices before placing your order. We manufacture our lumber in our own mills; Sash, Doors and Interior Finish we manufacture in our own factory, therefore we can offer to sell at Wholesale Prices. You will save money by getting our prices before placing your order.

Riverside Lumber Co Limited

Phone 1106 West End Yard. Phone 2646 Main Yard. Phone 5806 Sash & Door Factory. Phone 1863 Head Office.

DO YOU WANT CHEAP LUMBER

Fifty-two Yards in Alberta—Two Yards in Calgary

Few people appreciate that there is quality in lumber, the same as there is in tea, or in paint, or in most other articles. Cheap cut lumber or green lumber in better grades will build a house that, when well painted, will look fairly well for a few months. Such a building in our extreme climate soon takes on a dilapidated cheap look, making it difficult to sell, difficult to rent, and uncomfortable to live in.

We have always made a specialty of the highest quality, and owing to the tremendous size of our business we are able to buy on a basis that permits us to sell our lumber for as low a price as would be generally asked for a poorer quality. This has built up our large business—the largest in Western Canada.

Before building inspect our stocks and permit us to give you evidence that quality costs less. Our prices cannot be beaten. Particular people use our lumber. If your contractor obtains his lumber from us it is a sign that he is a particular man and demands the best of everything.

Crown Lumber COMPANY, LIMITED

JOKER WORKS ON HENNING SCANDAL

Phones Judge That Funk Lawyers Want More Warrants, Though None Sought

Calls Up Harvester Man's Office and Says Sought Plaintiff Is in Chicago

Chicago, July 7.—A practical joker projected the sultan and his perverted sense of humor yesterday in the scandal that has followed the Funk-Henning damage suit.

Someone whose identity has not been disclosed, called up Chief Justice Olson of the municipal court in the morning and asked him to issue additional warrants in the affair. He was told to go to Judge Better at South Clark street police station. No one ever appeared there.

Lawyer Denies Seeking Writs The telephone in Judge Olson's office was answered by his clerk. He understood the sultan inquiring for the warrants to state that he was wanted by Attorney Frank Scott, who represents Clarence S. Funk. Mr. Scott said that the office was to the effect that he had been authorized to apply for writs and that none was wanted.

It was asserted that Mr. Funk's office someone who did not reveal his identity also called up that office in the morning and said he knew John C. Henning was in Chicago. Information at the office was to the effect that the man had left town. The stranger rang off without telling where Henning could be found.

No Return on Hearing Warrant The warrant for the arrest of Henning issued immediately after the jury in the allegation suit was returned had returned a verdict in favor of Funk before Judge Olson during the day. As Henning had not been found, no return was made.

State's Attorney Wayman said no evidence in the case yet had been submitted to him. He expects, however, to hear from Mr. Funk or his attorneys in a few days. The grand jury does not meet until July 8.

Mr. Scott said that in addition to the grand jury committee, he had heard much other evidence would be adduced before the grand jury. He would not say what this evidence would consist of. From other sources it was learned that the grand jury had gathered a great volume of facts tending to indicate a conspiracy to blacken the name of the sultan. Some of these confessions had been secured from persons who had played a part in the conspiracy.

Delay Action Against Lawyers No action will be taken by the Chicago Bar association with respect to alleged misconduct on the part of attorneys in the Funk trial until the grand jury has had an opportunity to act. Should indictments be returned by the grand jury the charges will be brought far as the Bar association is concerned.

John T. Richards, president of the Bar association, said during the day that the grand jury committee probably would take action looking to the filing of charges if the grand jury falls to act. This, of course, would be in the event that the grand jury should show misconduct on the part of attorneys.

While the Bar association has not asked directly for a transcript of the evidence in the Funk trial, Mr. Richards said the association would be glad to obtain such a transcript for possible future use in connection with the case.

RIVAL SKY PILOTS

Count Zeppelin Disturbs Church Services at Onasbruck

Berlin, July 7.—Count Zeppelin seems to have acted dangerously near the law which forbids the disturbance of divine worship. While the people of Onasbruck were at church listening to a sermon, the sharp buzz of propellers was heard aloft. The word "Zeppelin" flew from mouth to mouth and acted as the news of a wreck was wont to do on the congregation of the Cornish coast. That is to say, they forgot their devotions, clutched their hats and hurried out of the churches at top speed.

The pastors were naturally a good deal mortified at seeing their flocks melt away in this fashion, and they have issued a manifesto in which, while associating themselves with the general delight that the appearance of an airship over Onasbruck, they urge that the new type of sky pilot should suspend his operations during church times on Sunday, as so not to disturb those of the old.

HEART ON RIGHT SIDE

New York, July 6.—That the heart of a 14-year-old boy is on the right side of his body is a discovery made in the Alexian Brothers hospital, Elizabeth, N. J. The boy is Moses Greenberg, whose home is at 114 First street, following an operation for appendicitis, the attending physicians noticed a beating on the right side of the young patient and an examination disclosed Greenberg is a pupil at public school in the Alexian Brothers hospital, Elizabeth, N. J. and has made a reputation as an athlete.

A NEW HYDRO-AEROPLANE SUCCESS French Aviator Tests British Naval Machines in 30 Mile Wind London, July 7.—A new naval hydro-aeroplane was tested yesterday for the admiralty by the French aviator Fischer, with Commander Samson, who gave some hydro-aeroplane exhibitions at Weymouth when the king was in command, as a passenger.

WOMAN TIES NUPTIAL KNOT Miss Clara Jess First Woman to Unite Pair in California Miss Clara A. Jess, recorder of Daly City, Cal., has the distinction of being the first woman who ever performed a marriage ceremony in that state. She tied the nuptial knot at the marriage of Edward E. Masters of San Francisco and Miss Lillian A. Steader of Oakland.

THE MARKETS

Winnipeg Grain Market Winnipeg, July 6.—Wheat prices were again on the down trend today, and with lower Liverpool cables a poor demand, heavy week-end liquidations and the prairie provinces practically drenched with rain, dispelling all fear of future damage from drought, prices declined for July closing 7-8 lower and for October 1-1-8 lower.

Chicago closed 1-1-4 lower. The Winnipeg cash demand was very slow, especially for low grades, with a strong tendency to await further developments over the week-end. Receipts were light today, 195 cars being in sight for inspection. Deliveries through the clearing house today were: Wheat, 10, Oats 3000 bushels, Feed oats and flax nil. Grain inspection: Spring wheat, One 2, Two No. 1, No. 2, No. 3, No. 4, No. 5, No. 6, No. 7, No. 8, No. 9, No. 10, No. 11, No. 12, No. 13, No. 14, No. 15, No. 16, No. 17, No. 18, No. 19, No. 20, No. 21, No. 22, No. 23, No. 24, No. 25, No. 26, No. 27, No. 28, No. 29, No. 30, No. 31, No. 32, No. 33, No. 34, No. 35, No. 36, No. 37, No. 38, No. 39, No. 40, No. 41, No. 42, No. 43, No. 44, No. 45, No. 46, No. 47, No. 48, No. 49, No. 50, No. 51, No. 52, No. 53, No. 54, No. 55, No. 56, No. 57, No. 58, No. 59, No. 60, No. 61, No. 62, No. 63, No. 64, No. 65, No. 66, No. 67, No. 68, No. 69, No. 70, No. 71, No. 72, No. 73, No. 74, No. 75, No. 76, No. 77, No. 78, No. 79, No. 80, No. 81, No. 82, No. 83, No. 84, No. 85, No. 86, No. 87, No. 88, No. 89, No. 90, No. 91, No. 92, No. 93, No. 94, No. 95, No. 96, No. 97, No. 98, No. 99, No. 100.

Chicago Grain Chicago, July 6.—Grain holders today encountered the most disastrous market of the week. The entire list of cereals became demoralized. Wheat fell below the dollar mark and closed heavy 1-1-4 to 1-1-2 at 5-8 under last night. Corn finished 1-4 to 3-8 to 5-8 down and oats off 1-8 to 1-4 to 2-4. Wheat speculators who had been attempting to lift quotations found themselves facing weather conditions that suggested a larger crop than last year. It was also a stubborn fact that 10,000,000 bushels, in Chicago elevators, seemed to be practically unsalable after being held a year and 6 months. Besides the trade was looking for a considerable movement of new wheat next week. On top of all this Winnipeg sentiment that Western Canada had in sight the biggest and best crop ever known there.

At one time profit-taking by shorts rallied wheat prices a little, but the bulge proved brief and selling resumed proportions altogether too large to credit to miscellaneous commission sources. Some brokers were of the opinion that the most important bull interests should be getting out of all July wheat possible and buying September at 4 1-2 cents difference. The most burdensome liquidation in wheat came during the last hour. One leading house surprised the pit with an order of 1,000,000 bushels. It was at this point that September wheat went down to 5-8 below the dollar mark.

The weather was ideal for growing corn and that cereal held up much better than wheat. Local speculators made a hard fight for the bull side and frightened many timid shorts out of the pit. Late today, however, the influence of wheat weakness could not be withstood.

Cash grades were in poor demand. Oats reached the lowest level of the season with the July option off 15 cents from the recent high figure. That had extreme difficulty in filling stop loss orders. The immediate reason was a report that new oats were being bought in Western Iowa at thirty cents a bushel.

Montreal Produce Montreal, July 6.—A stronger feeling prevailed in butter and prices have scored another advance of 1-4 cent owing to the increased demand for supplies. Receipts for week were 24,365 packages. Last year 20,684. Cheese is quiet and steady. Receipts for week 91,659 boxes. Last year 86,852. Demand for eggs is good. Receipts for week 9,482 cases. Last year 8,900.

Chicago Livestock Chicago, Ill., July 6.—Cattle receipts, 400. Market slow and steady. Beaves, 189 to 260. Texas steers, 180 to 240. Western steers, 225 to 270. Stockers and feeders, 400 to 650. Cows and heifers, 270 to 310. Calves, 600 to 800. Hog receipts, 6,000. Market active. Light, 710 to 760. Mixed, 705 to 752 1-2. Heavy, 685 to 760. Bulk of sales, 725 to 750. Sheep receipts, 4,000. Market strong. Native, 325 to 385. Western, 375 to 425. Yearlings, 475 to 575. Lambs, native, 475 to 800. Western, 600 to 800.

Western Investments of All Kinds HEAD OFFICE 711 First St. W., Calgary

Malcolm E. Davis, H. A. Maclean, L. F. McCausland Managing Director, President, Sec. and Treas.

The Water Tight Dipper Dredge and Mining Co., Ltd.

Calgary, Alta., 342 7th Avenue West. Since putting the stock on the market at \$1.50 per share a good amount has been sold—enough to enable us to at once order a dredge, which will be built and put in operation as fast as it can possibly be done.

From all indications this dredge will be completed and ready for work inside of four months from now. Call and see the samples of gold taken from our property and get our prospectus. This is no doubt the richest gold and Platinum Placer Mine of its kind and size in the country.

Announcement

In conjunction with our present location we have just opened the most up-to-date WAGON AND BLACKSMITH SHOP in the west. With a full line of woodworkers' and blacksmiths' machinery, we are now prepared to build VEHICLES OF ANY DESCRIPTION. Both shops will be fully equipped for SHOEMING AND REPAIRS.

DANGER IN THE LAUNDRY Paris Professor Says Employees Should Wear Rubber Gloves Paris, July 7.—Prof. Poncet of Paris has just pointed out the danger to which laundry employees are exposed in handling the clothes of persons suffering from consumption. His experiments show that such clothes may be infected with germs of the disease even after having been washed.

MAYOR AND CHIEF PLEAD NOT GUILTY Portland Officials Accused of Trying to Bribe Deputy Prosecutor Portland, July 7.—Mayor Rushlight, Chief of Police Slover and Captain of Detectives Batey entered pleas of not guilty today in the state circuit court to the indictment charging them with offering a \$400 bribe to Deputy District Attorney Callier. Similar pleas were made by Fred Reed and Clifford W. Maddux, charged policemen and co-defendants of the three officials. The indictment to which the pleas were made was returned recently by the county grand jury. The defendants assert that the alleged attempt at bribery was meant as a trap for Callier.

CANADIAN NORTHERN THE VENTILATING AND HEATING PROBLEMS OF RURAL SCHOOLS

Large Force of Men Rushing Small Bridges, Culverts and Trestles

Grading is Practically Finished All the Way to Town of Parkview

Construction on Bridge Into Calgary is Expected to Commence Soon

With the grading practically completed all the way to Parkview, just across the Elbow river from this city, prospects continue to brighten for the early entrance of the new Canadian Northern line into this city.

Heating and ventilation problems in the rural schools of Alberta have been sadly neglected when they should have been remedied at little expense and trouble according to Mr. W. G. Carpenter, acting principal of the Calgary Normal school.

Offers Remedies for Problems Suggesting remedies for these conditions, Mr. Carpenter continued, are: "An upright stove placed in one corner of the room near the smoke flue is much superior to a centrally located stove as an outlet for the foul air of the room which will gather along the floor.

When the fire is lighted the fresh air is drawn in from the outside and heated. The warm air rises about the stove and is directed upward by the jacket, scattering throughout the upper portion of the room and to all parts of it.

When the fire is lighted the fresh air is drawn in from the outside and heated. The warm air rises about the stove and is directed upward by the jacket, scattering throughout the upper portion of the room and to all parts of it.

SASKATOON IS SWEEP BY MINIATURE CYCLONE

Saskatoon, July 6.—A miniature cyclone passed over the north end of this city, accompanied by a heavy rain at nine o'clock this morning. A number of garages and smaller buildings were wrecked, but most damaged property was in the neighborhood of the Western Canadian Saw Mills. A large portion of lumber in those yards was whirled in the air to a height of between one and two hundred feet before being thrown to the ground, and smashed to kindling wood. No injuries were recorded.

RALPH JAMES HUMPHREY OF VANCOUVER IS DEAD

Was on His Way to His New Brunswick Home When Illness Seized Him

The death occurred on Saturday at the General Hospital of Ralph James Humphrey of Vancouver, late of Hampton, N.B. Deceased enjoyed a wide circle of acquaintances throughout the west and the news of his death will come as a shock to many.

TRIAL OF CAMORRISTS IS STILL DRAGGING ON

Verdict, Italy, July 6.—In the trial of the Camorristi, the president of the court occupied so much time in summing up that it will be impossible to reach a verdict before midnight Monday, Italy explained.
