Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

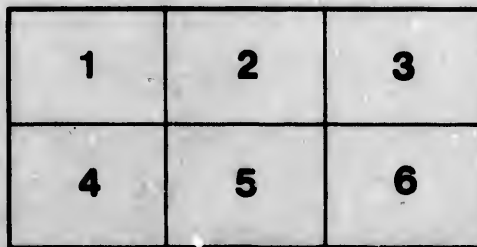

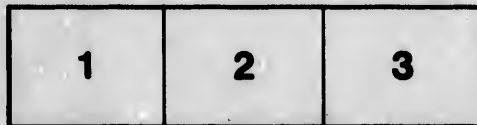

Library Division
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

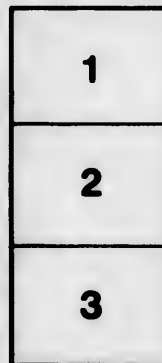

Library Division
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaît sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE.

In presenting the sixth volume of the British Columbia Gazetteer and Directory, the publishers desire to say that the same exertions, the same degree of ability and a greater degree of perfection in the organization of the forces and data necessary for the collection and compilation of the information essential to the value of the Directory have been employed to make this volume superior to its predecessors; and the knowledge that those who frequently use the Directory and are most competent to pass upon its merits appreciate our work and are always ready to commend its trustworthiness acts as an incentive to greater effort on our part to make it correspond to the standing of the Province it represents. The volume this year is divided into six parts, viz.—(1) Mining Companies doing business in British Columbia; (2) Incorporated Companies; (3) a Gazetteer Index showing the names of all places in each Electoral District; (4) Gazetteer and Directory of all cities, towns, villages, post-offices, mining camps and steamboat landings; (5) Complete Street and Alphabetical Directories of the Cities of Vancouver and Victoria; and (6) Classified Business Directory.

The compiling and publishing of Directories is our exclusive business. We have a complete plant and every facility for turning out a first-class work. The principal work pertaining to our Directories is done by men trained to the work, and who are all engaged in it the year round.

The Gazetteer section has been considerably increased by the addition of the names of principal residents in our lists of country towns. The Cities and the principal towns have been carefully revised and the information brought down to a late date and will be found to be very complete.

The Directory of Mining Companies is the only work that shows the names of all the Mining and Development Companies doing business in this Province. The feature was a popular one last year, and great care has been taken in its revision and in the addition of new matter of which there is some twenty-five per cent

Attention is directed to the fact that in the Gazetteer all places are found in their proper alphabetical order. The present edition gives descriptions of 844 places, last year there were 817 places. The lists of places by districts will be found a great convenience when used in connection with the Gazetteer.

For convenience of reference, sub-heads show the first and last names on each page of the City Directories, and the first and last places contained on the pages of the Gazetteer.

The preparation of Directories, perhaps as vividly as anything else, impresses the compiler with a sense of the progress of the country in all that constitutes material prosperity. Vancouver during the past year has made rapid progress. 1693 new names having been added [*the book now having 10,375 addresses*] the city has the largest population of any in the province. The Victoria City Directory also shows a very satisfactory increase over last year. The cities of the Kootenay District are fast settling down to a permanent basis.

To make a Directory absolutely correct is impossible; but we believe that this volume is as nearly correct as it is possible to make it with the rapidly changing population.

To our many kind friends who have revised proofs, and without whose assistance it would have been impossible to secure reliable information, we take this opportunity of returning our sincere thanks.

Thanking our patrons for their encouragement, courtesy and liberal support, our endeavor will be to merit a continuation of their favor.

Respectfully,

HENDERSON PUBLISHING COMPANY, LTD. LTD.

ANTLER CREEK MINING CO., Ltd., filed Feb. 27, 1896; capital stock, \$1,000,000 in \$5 shares; office, Vancouver.

ANTOINE MINE; owner George Alexander, Kaslo, gen. supt., M. R. W. Rathborne; sec'y-treas., W. F. Whellams, Box 122, Kaslo.

Property—**ANTOINE claim**, in McGuigan basin, 3 miles from McGuigan station, on K. & S. Ry. The **ANTOINE** lead is one of the strongest and best in the country. It varies in width from three to five feet. The ore runs from eight to eighteen inches in width, and is found in chutes never far apart. It is steel galena and gray copper. In 1896 a steam hoist and pumping plant was put in, which, with shaft and ore houses, gives the mine complete equipment. The mine has stood this and the expense of development and has been self-sustaining from the start, at the same time paying large cash dividends.

The first ten cars shipped gave smelter returns at 270 oz. silver and 45 per cent lead, uniform in grade. One car containing 15 tons returned \$3,757. The next ten cars varied in grade, ranging as high as 386 oz. silver and 49 per cent lead, making the average of the 20 cars shipped over 240 oz. silver and 43 per cent lead. This is believed to be, next to the Reco and Good-enough records, the highest average grade ore yet shipped from Slocan.

APEX GOLD MINING AND DEVELOPMENT CO. (foreign), filed Feb. 17, 1897; capital stock, \$1,500,000 in \$1 shares; head office, Spokane; reg. office, Rossland.

Property—BLACK COCK GROUP, situated 6 miles from Ymir, in Wild Horse Creek. A shipper in winter 1898-1899.

BLACK CREEK HYDRAULIC MINING CO OF CARIBOO, Ld., filed Feb. 20, 1895; capital stock, \$300,000; head office, Vancouver.

BLACK CURRANT MINING CO., Ld., filed April 30, 1897; capital stock, \$1,000,000 in \$1 shares; head office, Kaslo. Pres., Dr. J. F. B. Rogers; sec'y, Dr. A. S. Marshall; treas. and mgr., Frank Watson; other directors, A. W. S. Sugel, E. E. Coy.

Property—PAUPER'S DREAM, sold to Whitewater West Mining Co.

THE BLACK DIAMOND MINING AND DEVELOPMENT CO., Ld., filed April 3, 1897; capital stock, \$600,000 in 50c shares; treasury, 200,000 shares; head office, Kaslo. President, Maj. S. B. Steele, Macleod, Alta; superintendent, Treve M. Gibson; secretary-treasurer, Fred Steele, Kaslo; accountant, A. G. Fraser; solicitor, J. B. Clark, Q. C., Toronto, Ont.

Property under bond to Maxwell Stevenson, of Philadelphia.

Property—2 claims, BLACK DIAMOND and LITTLE DONALD, located 1 1/2 miles south and west of Ainsworth, Kootenay Lake; reached by good wagon road, which runs through the property. The mine has been worked since 1888 and is a well developed property. It has extensive development, shafts and tunnels.

Prior to 1897 some 700 tons of ore was shipped from the two claims. On Jan. 27, 1897, the new company took over the property and have been opening up the mine. From that date to the 1st of April about 100 tons have been shipped. On a shipment of 66 tons made in 1889 from the Little Donald return were received of 95 oz. silver and 65 per cent lead. The ore generally will average 100 oz. silver and 65 per cent lead.

Plant, 35 horse power boiler, 20 horse power hoist, 1 sinking pump and 1 Rand steam drill.

BLACK FOX MINE; managing owner, Henry Croft, Victoria.

Property—BLACK FOX, DAISY and CALIFORNIA, situated on south fork of Kaslo Creek, 4 miles from K. & S. Ry at Forks and 9 miles from Kaslo.

There are two well defined leads; assays average 80 oz. silver and 75 per cent lead.

BLACK HAWK CONSOLIDATED MINING CO., Ld.; head office, Rossland.

Property—2 claims, BLACK HAWK and WELCOME STRANGER, situated at the head of Champion Creek, 3 miles east of the Columbia River and 13 miles from Trail. Development—No. 1 shaft, 28 feet in depth, all in ore and no walls reached; No. 2 shaft, 75 feet 9 inches in depth, where the foot wall was reached and a crosscut made at that depth 25 feet across the ledge without any sign of reaching the hanging wall, showing the vein to be very large and strong and of high grade, assaying in gold \$22.73. A New York syndicate has now an option for a bond for \$100,000.

BLACK HILLS MINING CO. OF BRITISH COLUMBIA, Ld., filed Feb. 26, 1897; capital stock, \$100,000 in 10c shares; treasury, 300,000 shares; head office, Victoria. President, Moses McGregor; secretary-treasurer, William Christie.

Property—BLACK HILLS claim, located on the south fork of Kaslo Creek, 1/2 mile from K. & S. Ry, and 9 miles from Kaslo. It is reached by trail of easy grade, the

elevation being 500 feet. Development—A 100-ft. driven to tap the vein, which averages the surface, is a con and blue limestone v face of surface cropp oz. silver.

BLACK HORSE, W Rossland.

MINING COMPANIES.

WISCONSIN CONSOLIDATED MINES, Ld., filed April 2, 1897; capital stock, \$1,000,000, in \$1 shares; treasury, 400,000 shares; office Kaslo. President, Arch. Guthrie; vice-president, Peter R. McPhee; secretary, treasurer, Frank M. O'Brien; superintendent, Daniel M. Bongard, Cody; consulting engineer, W. J. Tretheway, M. E. other directors, David W. King and Chas. Beheman.

Property—3 claims, **WISCONSIN, NELLIE B.** and **KOOTENAIAN FRACTION** situated on Noble Five Mountain, 1,500 feet from Cody, and lay parallel with Noble Five group, below Goodenough and Grey Copper mines. The Noble Five tramway crosses the property. Development, 2 tunnels being driven. The Grey Copper lead is said to run the full length of the Nellie B. and Wisconsin. There are three ore showings on the lead on this property. It is believed that the Kootenaiian has the Goodenough lead, as it lies just below that property. Assays from early development work averaged 130 oz. silver and 60 per cent lead.

Development, 2 tunnels, 120 feet and 80 ft. **WISCONSIN GOLD MINING CO.** (foreign), filed March 6, 1897; capital stock, \$1,000,000 in \$1 shares; head office, Spokane.

WOLF HILL MINES CO., Ld., filed Nov. 6, 1896; capital stock, \$100,000 in \$1 shares; office, Victoria.

Property—**WARHORSE** and **EMPRESS** claims, Wolf Creek, Sooke District.

WOLVERINE GOLD MINING CO., Ld., filed May 23, 1896; capital stock, \$500,000 in \$1 shares; treasury, 150,000 shares; head office, Trail. President, E. S. Topping; vice-president, W. deV. LeMaistre; secretary, Joseph C. Bishop, Tra'l, B. C.; treasurer, other directors, E. B. Marvin, Ralph White, L. C. Crawford, C. R. Hamilton and William Claffy.

Property—**WOLVERINE** on the west slope of Lookout Mountain, 2½ miles from Trail, and 1½ miles from C & W Ry by trail. Development—Shaft.

WONDERFUL GROUP MINING CO., (foreign), filed June 25, 1896; capital stock, \$1,000,000 in \$1 shares; head office, Spokane; reg. office, Sandon. President, W. W. D. Turner, vice-president, C. H. Thompson; secretary, H. C. Bell, 311 Hyde block, Spokane; manager, F. A. Davis, Sandon.

Attorney, E. M. Sandilands, Sandon. Has produced nearly \$60,000 in ore from placer workings.

Property—3 claims, **WONDERFUL, COLUMBUS** and **LOOKOUT**, on the western slope of the south fork of Carpenter Creek, 1 mile west of the Ruth, and a little over ½ miles by trail to Sandon. This property is said to be the only galena placer mine in the world. Development—Over 3,000 feet of tunnels, the main tunnel being 1,400 feet. The placer gully is 100 feet wide, and over 30 feet deep, with a large quantity of second grade ore in sight. Shipments have been over 500 tons, which average from 113 to 133 oz. silver, and from 70 to 76 per cent lead.

WOODBURY MINES, Ld. Registered April 5, 1890. Capital stock \$1,000,000, in

\$1 shares. Head office, Spokane; reg. office, Rossland. Samson Wm. Hall, attorney. Pres., Col. I. N. Peyton; vice-pres., Austin Corbin (2nd); secy.-treas., A. T. Herrick, Spokane; supt., Chas. F. Caldwell, Kaslo.

Property—**SUNSET** and **MAYFLOWER**, on Woodbury Creek, 10 miles from its mouth by trail.

Dev., shaft 62 feet in ore, tunnel 160 feet, tunnel 180 feet. Vertical depth, 110 feet. Shipped 3 cars ore to smelter, net return \$72 per ton; gold, \$31, 38 oz. silver, and 38 per cent lead.

W. THOMAS NEWMAN GOLD AMALGAMATING, CONCENTRATING AND MINING CO., Ld., filed May 4, 1897; capital stock, \$1,000,000 in \$1 shares; office, Victoria. Trustees, Fred J. Claxton and William Dalby.

WYCOTT HYDRAULIC MINING CO., Ld., filed Sept. 27, 1893; capital stock, \$500,000; office, Vancouver.

YALE DREDGING CO., Ld. Licensed March 27, 1890. Capital stock \$19,000, in \$1 shares. Head office, 54 Miller street, Glasgow, Scotland; reg. office, Vancouver. Charles Wilson, attorney, Inns of Court building, Vancouver.

ALBERNI,

See also Beaver Creek.)

A money order postoffice and settlement, at the head of Barkley Sound, Alberni district. Mails twice weekly. Nearest express and railway station, Nanaimo, dis. 54 miles. Alberni is a valley probably 25 miles long by 10 wide. It is situated pretty near the centre of the Island, 35 miles north from Cape Beal lighthouse, at mouth of Barkley Sound. The water is navigable for the largest vessels right into the settlement. Distance 110 miles from Victoria, by steamer.

There is also a wagon road connecting Nanaimo, by which the mails are brought. Alberni is a good settlement. Farming is the principal industry. Timber and coal, also gold and silver quartz have been found, and no doubt this will be an important place in the future. A saw mill is located here, capacity 1,000 M per day. Has Presbyterian and Catholic churches and two public schools. Has telegraph office

ASHBOURN,

(See Vevey.)

ASHCROFT,

An important town on the main line of the C.P.R., 203 miles east of Vancouver, in Yale district. Mails daily: money order and savings bank, post-office, telegraph and Dom. and B. C.

express offices. It is the forwarding point to Cariboo mines. Stage leaves for Clinton, connecting with stage for Cariboo.

Ashcroft is a customs output of New Westminster and has Anglican Methodist and Presbyterian churches also weekly newspaper. The water works system gives supply for domestic uses, fire protection and irrigation of the flat surrounding the town, besides driving electric light and power plant.

The Ashcroft, Water, Electric and Improvement Co.'s works comprise a 75 Kilowatt dynamo, 3 phase, alternating system, driven by double turbine wheels, with 43 foot-head on the Bonaparte River, four miles from Ashcroft. The waterworks supply comes from two tanks, having a capacity of 100,000 gallons. To these at height of 250 feet, the supply is pumped by electricity. Pressure 70 lbs. The company also irrigate a considerable portion of the Bonaparte Valley, and contemplate erecting a steam power saw mill of 25,000 feet capacity per day.

Population, 1899, 600.

Postmaster, James Charles Shields.

COLUMBIA

(See also Grand Forks and Carson.)

Incorporated May 1st, 1899.

Columbia, on the C. & W. extension of the C.F.R., is situated on the nearest benchland to the junction of the North Fork with the main Kettle River, one mile north of the International Boundary, Yale District. The site is very beautiful and could not be surpassed as a place are clear, level and unbroken, while to build a city. It is a prairie among the mountains, side. The municipal limits include 960 acres of fine land, 640 of which

COLUMBIA.

the remaining 320 are well wooded and are traversed by the picturesque windings of the Kettle River. The town is at the branching of the roads which lead to Greenwood, Republic and the rich mines and mineral claims of the North Fork. Daily stage to Republic, Wash., dis. 40 miles, for which camp it is the distributing point, both for travel and freight. The camps directly tributary to Columbia are White's, or Central, Wellington, Summit, Brown's, Evans, Greenwood, Knight's, Pass Creek, Hardy, Mountain and Seattle. Outside of the mining operations there is a great extent of undulating and fertile agricultural land being successfully and profitably tilled, which makes it a most valuable adjunct to the mining fields. In this respect the Boundary country is superior to any portion of the Kootenays. Population, 1899, 400.

 Gordon, J. D., H. M. Customs officer and rancher.
 Vicary, Ancil C., rancher.

Cumberland.

CUMBERLAND,

Formerly called Union.
 (See also Comox, Courtney & Sandwich.)

A coal mining town (inc. 1898), finely situated on the foothills of the Buford Mountains, about 500 feet above the waters of the Georgian straits, and 60 miles north of Nanaimo. It is connected with Bayne Sound, Union Wharf, by railway, 13 miles. Its principal industry is coal mining. The Union Colliery Company turns out from 700 to 1,000 tons a day of the best steam coal. The fine coal is manufactured into coke. The town is the market place for.

the Comox farming settlement, and contains 3,000 population. It has money order, postoffice and savings bank, telegraph office, four churches, weekly newspaper and two sawmills. It is reached by steamer weekly from Victoria.

Mayor, L. W. Mounce.

Town Clerk—L. W. Nunns.

Sayward Mill Logging Camp, Deneean William, forman logger.

GRAND FORKS,

(See also Columbia and Carson.)

An incorporated city at the junction of the north and south forks of the Kettle River, two miles from the International Boundary line.

Situated on the C. & W. extension of the C.P.R. — miles from West Robson.

Grand Forks owes much of its growth to the Kettle River Valley, which stretches east and west a distance of over twenty miles, with a width averaging three miles. This represents an area of 45,000 acres. The grain, fruit, and vegetable crops are very prolific, while the grassy hillsides afford splendid ranging ground for cattle. The rich agricultural resources of the valley are simply illimitable. The climate is very mild, with no extremes of heat and cold, while the rainfall is light. Its position makes it the supply point for a large portion of the Boundary mining district. The tributary mining camps include Summit, Greenwood, Wellington, Central, Pass Creek, Knights, Brown's and Hardy Camps.

The city owns its own waterworks and electric lighting plant. The systems were installed at a cost of \$25,000. The electric light plant has a capacity of 1,500 incandescent 16 c.p. lights. Seven incandescent arcs are used for street lighting. The waterworks reservoir has capacity of 50,000 gallons, with a pressure of 160 lbs.

The Granby Consolidated Co.'s Smelter being located on the North Fork of Kettle River is tributary to Grand Forks.

GRAND FORKS.

Has Customs House, Mining Recording office and resident Gold Commissioner, three saw mills, two breweries, etc.
Has Presbyterian, Methodist, Anglican, Baptist and Roman Catholic Churches and Public School.

Population, 1890, 1,500.

Postmaster—Geo. H. Hull.

Mayor—Lloyd Allan Manly.

 City Clerk—George
 Police Magistrate—

CITY OF GREENWOOD

(See also Anaconda, Midway & Phoenix.)

An incorporated City and Mining Camp on the Columbia and Western extension of the C.P.R., 89½ miles west of Robson.

Greenwood is pleasantly situated between the hill, the corporation boundaries are all within the Boundary Creek Valley. The townsite is two miles in length and half a mile in width. The business portion is on a low bench sloping both ways to lower ground.

It stands about 2,400 feet above the sea level, and in summer is climatically a delightful spot to live in, while the winters are not sufficiently severe to prevent mining operations being carried on at all seasons of the year.

The future success of the city is dependent upon the development of the rich and varied mineral resources of Greenwood, Central, Wellington, Skylark, Providence, Summit, Long Lake, Kimberley, Pass Creek, White's, Deadwood, Copper, Smith's, Brown's, Graham and Knight's Camps, which encircle the town, and none of which are at a greater distance than nine miles. All these camps are at a higher altitude than Greenwood, so that ores can be handled down hill on an easy grade. An ample supply of water and water power for smelting or other purposes can be secured from Boundary Creek or any of its numerous tributaries.

Has three chartered banks. Roman Catholic, Presbyterian, Methodist and Baptist Churches and public schools. Two newspapers, one semi-weekly and one weekly. Private hospital.

The waterworks supply is taken from Twin Creek at a distance of 800 yards, and at an elevation of 250 feet above the city.

Population, 1899, 2,000.

Mayor—Thomas J. Hardy.

City Clerk—George Birkett Taylor.

Police Magistrate—I. H. Hallet.

Chief of Police—John McLaren.
Assessor and Collector—Walter S. Keith.

INVERNESS,

A fishing and trading station on the
 northwest coast, in Cassiar district.
 Victoria, dis. 550 miles. Has Metho-
 dist church and Indian school during
 summer by Church Missionary So-
 ciety. The Inverness cannery is the
 only industry; it employs from 150
 to 200 people during the fishing sea-
 son, which lasts about 2 months. We
 have about 200 Indians here during
 the fishing season, but after work is
 over there, and no Indians who re-
 side here, only those that are work-
 ing. Inverness is an important camp-
 ing place, as it can be reached at all
 season of the year. Telegraph, Vic-
 toria, three miles from mouth of
 Skeena River.

CITY OF KAMLOOPS.

(See also Morrisville, Campbell Creek, Anderson Creek, Louis Creek and North Thompson river.)

A town on the main line of the C.P. R., 250 miles east of Vancouver, called the "Inland Capital." The name Kamloops is aboriginal, meaning, meeting of the waters, the town being situated at the confluence of the North and South Thompson rivers—the main tributaries of the Fraser—two magnificent streams, one of which (the North Branch) is navigable for 80 miles above the town, while the other is navigable for twice that distance. Its situation is beautiful, healthful, and its climate delightful. In no place in Canada is there longer summer, and consequently a shorter winter—that can be called winter. Though its winters are short and sharp they are bright, and would not be dispensed with if such a thing were possible. Has money order postoffice and savings bank, express telegraph and telephone offices, Bank of B. C., two weekly newspapers. Anglican, Methodist, Presbyterian and Roman Catholic churches and public school, daily attendance about 200. Court house and jail; steam saw mill, capacity 16,000 ft. per day. A good system of water works supplies the town for fire and domestic purposes. The incandescent electric light is used for street and private lighting. K.M.A.A. Hall, seats 750. Steamer run occasionally to Enderby and Savona. The Dominion Industrial school is near here. It is the headquarters for the ranchers in Nicola, the Thompson and the Okanagan valleys. Stage weekly to Spence's Bridge, dis. 110 miles, through Nicola Valley, connecting at Nicola Lake with

stage for Granite Creek and Princeton.
Stage to Louis Creek, 47 miles and to Coal Hill tri-weekly.

CITY OF KASLO.

A city incorporated in 1893, on the Upper Kootenay Lake, at the mouth of the Kaslo river. The terminus and headquarters of the Kaslo & Slocan Ry., which was opened in 1896 and extends to the head of the Slocan mining district, Sandon dis. 23 a daily trip from Nelson, and once a miles and Cody dis. 30 miles. It is also the headquarters of the Kootenay and Railway and Navigation Co. who despatch two steamers a day to Nelson, 45 miles, and twice a week to Bonner's Ferry, 110 miles. The C. P. R. Co.'s steamer Kokanee makes week to Lardo at the head of Kootenay Lake. It is one of the important distributing points for the main camps of the Slocan district and Kootenay Lake points. Has money order postoffice, savings bank and telegraph office.

Kaslo is considered a fine townsite. It is situated on a couple of sloping benches overlooking the lake. The assessed value of property for 1898 is \$18,520. The city owns a \$30,000 system of waterworks, consisting of 3 miles of main from the head works up the Kaslo river, 2 miles of which is 12 inch wood pipe, having a capacity of one and a half millions of gallons per 24 hours, and a reservoir with a capacity of 350,000 gallons, located on the hill back of the city. There are four churches, Church of England, Methodist, Presbyterian and Roman Catholic.

Industrial enterprises comprise large saw and planing mills, a brewery of 25 barrels per day capacity and soda water works. The Kootenay Electric Light & Power Company furnish incandescent light to the majority of buildings and also light the business streets.

Kaslo has a fine athletic grounds,

with grandstand accommodation for four hundred people.

The Kootenian, the leading paper of the district, was originally established as the Kaslo Claim in 1894, and changed to its present name in 1896. Kaslo is an important ore shipping point. In 1893-4-5 the ore was brought from the Slocan by pack trains, and in 1896, on the completion of the K. & S. railway, these have shown a steady increase and now are large volume.

The sampler operated by the Kootenay Ore Co. has a capacity of 150 tons per day, and handles a large percentage of the ore shipped from this point. Has two chartered banks, money order post office, telegraph and express offices.

Distributing point for South Fork of Kaslo Creek and the Lardo-Duncan country.

Population about 2,500.

Postmaster, S. H. Green.

MAPLE GROVE,

A station on the Mission branch of
 the C.P.R., 4 miles from Mission
 Junction.

MAPLE RIDGE,

A municipality on the banks of the
 Fraser river in New Westminster
 district. It has an area of 50,000
 acres and a frontage of 18 miles
 along the Fraser River. The soil in
 the vicinity of Port Haney is a
 heavy clay, suitable for brick mak-
 ing. In the vicinity of Port Ham-
 mond it is exceptionally rich, and is
 adapted to market garden'g, as the
 soil is very prolific. On the Lillooet
 river, two miles in rear of Port Han-
 ey, are extensive tracts of timber
 limits. At the extreme western
 boundary of the municipality are the
 Pitt Meadows, richer land than
 which cannot be found. The C.P.R.
 runs through it and has the following
 stations: Haney, Wharneck and
 Hammond. Daily communication by
 steamer with New Westminster and
 the up-river points. (See also Port
 Hammond and Port Haney.)

CITY OF NANAIMO.

An incorporated city on the Esquimalt and Nanaimo Railway, 73 miles from Victoria and 33 miles from Vancouver. It has a regular steamboat connection and a daily mail (except Sunday), with Vancouver and Victoria.

The city fronts on a well-sheltered harbor, and is the centre of the coal mining industry of the island. Since its incorporation in 1874, the city has made continued progress. It has two Anglican and Methodist churches, a Presbyterian, Baptist and a Roman Catholic Church, besides a number of public schools, a convent (R.C.), a saw mill, an electric light plant and waterworks, a fire department, a Court House and Jail, a Post Office and Custom House, Money Order Post Office, telegraph office and telephone exchange.

There are two branches of banks here, the Bank of British Columbia and the Merchants' Bank of Halifax. Three newspapers are published in Nanaimo, the Free Press and Herald (daily and semi-weekly) and the Review (semi-weekly).

The principle staple industry of Nanaimo is the production of coal, immense quantities of which are carried from here to all coast points and many foreign ports. The colliery works of the New Vancouver Coal Mining & Land Company, Limited, employ over twelve hundred men, which is the largest pay roll on the Pacific Coast.

The streets and sidewalks are very poor and means of transportation very limited, there being as yet no electric cars. The city possesses a fire department with a staff of over thirty call-men and up-to-date fire apparatus. It is lighted by numerous arc lights, and is supplied with

water by a reservoir about three miles from town. Among the many boats that run to Nanaimo are "Joan," from Vancouver; "The City of Nanaimo," from Comox and the "Dunsmuir" from New Westminster. Nanaimo is at present in as prosperous condition as it has ever been, and its future can hardly yet be ascertained.

Population, 4,500.

Postmaster—A. H. Horne.

Mayor—Mark Bate.

Aldermen—Wm. Manson, A. E. Planta,
J. S. Knarston, Richard Kenyon, W.
E. Webb, H. McAdie, E. C. Barnes,

CITY OF NELSON.

An incorporated city (1897) on Kootenay outlet, which is also known as the West Arm of Kootenay lake, 22 miles from its mouth. The terminus of the Columbia & Kootenay railway, which follows the Kootenay river 28 miles to Robson, where connection is made daily with the C. P. R. steamers for Nakusp (89 miles) and Revelstoke (188 miles), also for Trail (25 miles) and Rossland (34 miles). The Slocan branch railway from Slocan Crossing to Slocan City puts Nelson in direct connection with Slocan lake points. It is also the northern terminus of the Nelson & Fort Sheppard railway to Waneta (60 mls). International Boundary and Spokane (200 miles).

Nelson is the government headquarters for the southern district of West Kootenay. The offices of the government agent and gold commissioner and deputy registrar of the supreme court being located there. It is also a port of entry for Kootenay customs district and headquarters for superintendent and district freight and passenger agents of Kootenay branches of the C. P. R., and will be the western terminus of the Crow's Nest Pass Railway now under construction. This it is believed will establish Nelson more firmly as the business centre and distributing point for Southern Kootenay.

There are four chartered banks there; weekly newspapers; two saw mills, with respective capacities of 30,000 feet and 5,000 feet per day, sash and door factories, foundry and machine shops. Waterworks pressure is adequate for fire and domestic uses. Electric light plant is operated by the Corporation. The electrical generating station of the West Kootenay Power and Light

Co., at Bonnington Falls, on the Kootenay River, 17 miles distant will furnish an abundance of power for all requirements.

The principal industry is the Hall Mines and Smelter, which give employment to four hundred men. There are also a number of other mines on Toad Mountain, just back of the city, and others that are tributary, on Salmon river, Quartz creek, Kookanee creek, and other camps on Kootenay lake. It has money order post office, telegraph and express offices and telephone exchange; Church of England, Roman Catholic, Presbyterian, Methodist and Baptist churches and public schools. Kootenay Lake General Hospital. Opera House, seats 750.

Population, 1899, 5,000.

Mayor—Hamilton George Neelands.

Spring, Charles, general store, Amos Ellis, mgr.

NEW DENVER,

(See also Denver Canyon.)

An important town on the east side of Slocan lake, at the mouth of Carpenter Creek. The C. P. R. station, on Nakusp & Slocan branch, called Denver Canyon, three-quarters of a mile distant. Is 32 miles from Nakusp and 9 miles from Sandon. There are a couple of saw mills near by, one a modern mill at the head of the lake, and the other a small water power plant just across the lake. There is first-class steamer accommodation daily to Rosebery, 3 miles (railway transfer to Slocan Lake points), Silverton four miles and Slocan City 19 miles.

Has money order post office, chartered bank, telegraph and express offices and telephone exchange having trunk line connections.

There are a number of promising mining properties in the immediate vicinity. New Denver has a desirable location for a residential town, and is appreciated as such by number of mining men working Slocan Lake properties, who make their homes there.

Population 300.

Postmaster—Geo. L. Estabrooks.

Allan, Major M., agent C. P. R. at Denver Canyon.

Anderson, Gustav, bartender St. James' Hotel.

Anderson, Miss, dressmaker.

CITY OF NEW WESTMINSTER.

(See also Sapperton.)

Is beautifully situated on the north bank of the Fraser river, 75 miles from Victoria, 16 miles from the Gulf of Georgia. Sea-going ships load at the wharves with lumber and canned salmon. It contains eight churches, Episcopal, Reformed Episcopal & Salvation Army. Most of these have copal, Roman Catholic, Presbyterian, Methodist, Baptist, Swedish two or three church buildings. The residences of Episcopal and Roman Catholic bishops are here also, Columbia Methodist college, Central public school, also Roman Catholic convent and college, and some private schools, as well as the Provincial Asylum for Insane and Dominion Penitentiary.

There are two public hospitals, The Royal Columbia Hospital and St. Mary's Hospital, a Roman Catholic institution, and which are both self-supporting. The public and business buildings are of brick. The city owns its electric light system, which is self-supporting. The city also owns waterworks with a supply by gravitation from a mountain like, giving in business district 170 to 190 pounds pressure. There is communication with river and Vancouver Island ports, daily or oftener, by steamer. A station on the Can. Pac. Ry. is in the city, and of the Great Northern Ry., immediately opposite, on the south bank of the river. There are two daily papers. Electric cars run to Vancouver city every hour, distant 14 miles. Saw mill, iron foundries, carriage and furniture factories, wood working establishments, a feed mill and a tannery are among

its principal industries. New Westminister is the headquarters of the salmon canning and agricultural interests of Fraser Valley, and the distributing point for the river trade.

On September 11th, 1898, a disastrous conflagration overtook this place and headed by a strong wind it completely demolished the business portion of the town in a few hours. This set the town back for a considerable time but there is every indication by the building here at present that New Westminister will not only occupy its former position, but in a short time show a marked increase in its many lines of industry and business.

The buildings which have been erected since the fire are not of so costly a nature as before, but are, as a rule, two stories high and of brick or stone. These are much better suited and adapted for the population and business of the place.

The streets are well kept, with good sidewalks. The climate is mild and equable.

Population—7,000.

CITY OF NEW WESTMINSTER.

Mayor, Thomas Ovens.

 and grocer.
 Weeks, Arthur, fireman SS. Aberdeen.

OKANAGAN MISSION,

(See also Kelowna and Trout Creek.)

A post settlement on the west side of Okanagan Lake, 35 miles from Vernon, from which it is reached by regular steamer. Nearest railway station, telegraph and express office Vernon, dis. 35 miles. Has a flour mill, Roman Catholic and Presbyterian churches. Nearly all the valuable farming land is taken up. This valley is about 10 miles long, in some places 6 miles wide, in others but 2 miles. There are a number of smaller valleys connecting with this valley, but they all go to form the Okanagan Mission Valley. For fruit growing this valley has few equals in B. C. Apples, pears, plums, grapes, and peaches are grown in abundance. These latter trees have just found their way into the valley. In the woods are found black brown, and grizzly bears, wolves and coyotes, lions and wolverine. Of amphibious fur-bearing animals we have otter, beaver and fisher. Deer, cariboo, marmots, grouse, fowl-hens, partridges, ducks, geese, crane and many others much sought after by sportsmen are abundant. Trout and salmon are plenty. The weather is exceedingly mild in summer, it is rarely over 90 degrees in the shade, while the evenings are cool.

Postmaster, Bernard Lequime.

Bartley, J. H., farmer.
 Berard, Maxime Alexander, farmer.

REDGRAVE.

A station on the main-line of C.P.R., 453 miles east of Vancouver.

REFUGE BAY,

A fishing station on Porcher Island. Skeena river distant 40 miles.

Cunningham & Son, Dog Fish Oil Factory and Clam Cannery.

Jackson, Samuel, manager C. & Son.
RENFREW,

(See Port Renfrew.)

REVELSTOKE,

A town on the main line of the C. P.R. 379 miles east of Vancouver, at second crossing of the Columbia river; has money order postoffice, telegraph and express offices and two chartered banks.

Has Methodist, Presbyterian, Anglican and Roman Catholic churches, public schools. The Bell Telephone Company have an exchange here. It is the distributing point for the West Kootenay district. The Columbia is navigable south to the international boundary, a distance of 200 miles. Steamers are operated by the C.P.R., and make connections with their trains.

The C.P.R. district superintendent and train dispatchers have their headquarters here. There are two newspapers, one semi-weekly and the other weekly. Also sawmill, three breweries, one modern establishment with a capacity of 25 barrels per day; public hall, seating capacity 200. It is the distributing point for the five camps of the Revelstoke district, viz., Illecillewaet, Albert Canyon, Trout Lake, Lardcan and Big Bend.

Population, 1898, 2,000.

Population, 1899, 2,500.

Postmaster, F. B. Wells.

Postmaster at station, H. J. Bourne.

VANCOUVER Headquarters for
FLORAL CO., Roses and Carnations.

Finest Assortment of
DECORATIVE AND HOUSE PLANTS.

Corner Burrard and Melville Streets,
VANCOUVER.

CITY OF ROSSLAND.

The city of Rossland is situated at the base of Red Mountain, 7 miles in a direct line west of the town of Trail on the Columbia river, and 8 miles north of the International boundary line, at an altitude of over 4,000 feet above the Columbia river. It is reached by the Canadian Pacific Railway Company's steamers from Arrowhead to Robson, and the Columbian & Western Railway. The Red Mountain Railway also connects with Northport, Wash., 18 miles distant on the Columbia river, and thence to Spokane, a distance of 150 miles. The mines which have given the city its impetus were first staked in 1890, but for one reason or another they attracted no general attention until the autumn of 1894. Since that time the whole ground immediately surrounding Rossland has been staked off into claims, which are now numbered by the hundreds.

Ross Thompson took up the original townsite as a pre-emption in 1892, and had it surveyed in 1894, calling it after himself.

Incorporation was granted the new city in the summer of 1897, and shortly afterwards work progressed rapidly, opening out streets, laying sewers and putting the city in the right shape for its ever-increasing development. A water works system and electric light plant are already in operation under the management of a private corporation. An electric power plant, to be utilized principally for mining purposes has been installed at Boddington Falls on the Kootenay river, over 30 miles distant, and affords cheap and convenient working power. There are also saw mills, breweries, opera house

with a seating capacity of 1,300, telephone exchange and trunk line connections with Trail, Nelson and Spokane.

The principal religious bodies have their own church buildings, and the secret societies are well represented. The head offices of a large number of mining companies operating throughout the Kootenay district are located here. Has five chartered banks, telegraph, express and money order post offices. The population is increasing rapidly, and the city now ranks as the third in the province.

Population, 1899, 8,000.

SAVONA

(Formerly called Savona's Ferry)
 Including Deadman's Creek.

A station on the main line of the C.P.R., 225 miles east of Vancouver, at the west end of Lake Kamloops; has telegraph and express offices. Copper and quick silver mines, said to be the only cinabar mines under the British flag. Savona is a good summer resort, there being excellent fishing and boating in the summer and game in abundance at all times of the year, both large and small. Favorable site for saw mill.

Postmaster Geo. V. Ogle.

Allen, Fransi, cattle rancher.
 Armstrong, G. B., rancher.
 Avosti, Dominic, rancher.
 Beeton, Neil, rancher, Cherry Creek.
 Brusseau, Louis, rancher Dead Man's Creek.

SOMENOS,

(See also Corfield.)

A station on the E. & N. Ry., 43 miles from Victoria and 35 miles from Nanaimo. It is situated in the North Cowichan Municipality, Cowichan District. Agriculture is the principal industry. The Somenos Post Office is about half a mile from Somenos railway station. Telegraph station at Duncan, 3 miles away.

Steamer la Comiakem In Somenos Nativity (A Church, an is a daily n still and w to be the p district and inently suit is claiming especially on the Leonora being steady which promi properties, a sion of men w as business Scotch and lo ed in them, enos station i the line from the trail being from and the half from the Trunk road, v enos station i district also h mills and loggi borhood. The also a special, trict, some ver tities being t the best farms trict are so be The land is of ly diversified Mount Prevost land mark. So the honor of a three Premiers Parliament, two Attorney-Gener Commissioner o The Messrs. A Davie, and Wm able improveme on many of the together the dis progressive one. a fine sheet of fishing during th attraction to th chan Lake is clo and Cowichan I miles from the station is about Cowichan Lake

Postmaster, Mrs. M Addington. The Ho retired captain, an Bailey, Joseph, farm Bell, Angus, farmer. Bell, Hugh, farmer. Bell, John, farmer.

SOMENOS.

Steamer landing at Maple Bay Comiaken District, 6 miles distant. In Somenos are the Church of the Nativity (Anglican), and Methodist Church, and Public School. There is a daily mail. While agriculture is still and will likely for some time to be the principal industry of the district and for which it is pre-eminently suited and situated, mining is claiming considerable attention, especially on Mount Sicker, where the Leonora and the Tyee Mines are being steadily developed, both of which promise to be most valuable properties, and being in the possession of men who intend to work them as business propositions, English, Scotch and local capital being invested in them, privately so far. Somenos station is the nearest point on the line from which to reach them, the trail being about a mile therefrom and the trail four miles and a half from the Victoria & Nanaimo Trunk road, where it enters. The district also benefits from the saw mills and logging camps in the neighborhood. The Somenos district is also a specially fine residential district, some very nice residential properties being therein, also some of the best farms in the Cowichan District are to be found in Somenos. The land is of good quality and nicely diversified in character, having Mount Prevost as its outstanding land mark. Somenos has also had the honor of giving no less than three Premiers to the Provincial Parliament, two of them being also Attorney-General and one Chief Commissioner of Land and Works. The Messrs. Alex. and Theodore Davie, and Wm. Smith. Considerable improvements have been made on many of the farms, and taken altogether the district is decidedly a progressive one. Somenos Lake is a fine sheet of water, affording good fishing during the season, and is an attraction to the district. Quamichan Lake is close to Somenos Lake and Cowichan River is about three miles from the station. Somenos station is about twenty miles from Cowichan Lake by road.

Postmaster, Mrs. Mary Jane Kier.

Addington, The Hon. Herbert Hiley, retired captain, and farmer.
 Bailey, Joseph, farmer.
 Bell, Angus, farmer.
 Bell, Hugh, farmer.
 Bell, John, farmer.

YMIR,

(Formerly called Quartz Creek.)

A mining camp on the Salmon River
at the mouth of Quartz Creek.
There are three other tributary
streams coming into Salmon river
within two miles of the mouth of
Quartz Creek—Wild Horse, Bear
Creek and Porcupine Creek. Wild
Horse is the largest and has on it
a very large area of mining country.
All these streams have many min-
ing locations on them. Nelson & Ft.
Sheppard Railway to Nelson 18
miles north and Waneta (Internat-
ional boundary), 30 miles south-
west. Has post office, telegraph
express office and weekly newspaper.
chartered bank and brewery of 20
bbls. capacity.
A waterworks plant has been estab-
lished by a private company, with a
reservoir capacity of 50,000 gallons,

YMIR.

situated one-half miles southwest of the town, giving a fall of 285 feet through an 8 inch main. There are a number of rich mining properties in the vicinity which are being developed, and many promise to be valuable mines.

Has sawmill, capacity 5,000 feet. Methodist and Presbyterian missions and public school. Population 800, with 200 men employed in the vicinity.

Postmaster, John McLeod.

HENDERSON'S
VANCOUVER CITY DIRECTORY
1899
STREET AND AVENUE GUIDE.

The system of numbering adopted by the City of Vancouver is that known as the Philadelphia or Decimal System. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

Even numbers on the east and south sides of street; all short streets to take their number from the through streets and correspond with them.

Carroll street is taken as a base for the streets running east and west, with 100 numbers to the block; on streets running west, Carroll to Abbott, 1 to 99, Abbott to Cambie 99 to 199 (on Cordova the numbers 200 to 299 are skipped, so as to keep it in unison with the other east and west streets), Cambie to Hamilton 300 to 399, and so on to western boundary of city.

Streets (west of Cambie) running north and south are numbered from the Inlet as a base. Burrard Inlet to Water 1 to 99, Water to Cordova 100 to 299, Cordova to Hastings 300 to 399, and so on to False Creek.

Streets lying east of Carroll use Carroll as a base for east and west streets, Carroll to Columbia ave., 1 to 99; Columbia ave. to Westminster ave., 100 to 199, and so on to Boundary ave., the eastern boundary of the city. North and south streets take Burrard Inlet as a base; Burrard Inlet to Alexander, 1 to 99; Alexander to Powell, 100 to 199, and so on to False Creek.

MOUNT PLEASANT.—New Westminster ave., over False Creek, starts at 1,500 and continues 100 to the block to 3,099, the southern boundary of the city. Streets running east and west of Ontario street are numbered from Ontario street as a base, starting at 1 and going eastwards, 100 to the block, and again starting at 1 and going westwards, 100 to the block.

HENDERSON'S CITY OF VANCOUVER DIRECTORY. 1899---1900.

This wonderful young city is situated at the western terminus of the Canadian Pacific Railway, 15 miles north of the mouth of the Fraser River. The principal part of the city occupies a peninsula, bounded north by the waters of Burrard Inlet, south by a small indentation called False Creek, and west by English Bay, of which the other two are arms. The city is extending to the east, and to the south across False Creek.

The site of Vancouver could scarcely have been better chosen for a large city. The peninsula on which it is located rises to an altitude of about two hundred feet at the highest point, and from the central ridge there is a distinct descent to the water's edge, on either side. This affords the most perfect drainage at all times. Burrard Inlet is always safely navigable for the deepest draft vessels, and is one of the finest harbors in the world. The passage at the narrows or mouth of the Inlet is about an eighth of a mile in width. Opposite the city front, however, it is three miles wide, with a depth varying from six to twenty fathoms, and extends inland about twelve miles, and affords access to a considerable area of rich country, the products of which Vancouver governs; in this respect serving the commercial purposes of a large river. On the west and south, English Bay and False Creek also afford accommodation for shipping. The capacity of the city for marine commerce can never be outgrown, no matter what magnitude it may attain.

A few wooden buildings occupied by fishermen and lumbermen were known by the name of "Gastown." After a time it assumed more importance, and was called Granville. When it was settled that the Canadian Pacific Railway would make this point its western terminus, the hitherto insignificant village suddenly sprang into prominence, and it was incorporated under the name "Vancouver" on April 6, 1886, the population being about 600. The name is in honor of Capt. Geo. Vancouver, R. N., who, one hundred years ago, discovered, explored and named Burrard Inlet. Its prosperity in the near future is a matter of certainty, and it is sure to increase until it attains the proportions of a magnificent city.

Twelve years ago nine-tenths of the present area of the city was a dense, unbroken forest of high firs, with but a single street and a few rough logging roads leading into the forest; one of these to New Westminster. The timber was being removed at a cost of about \$300 an acre, and the place was being transformed from a wilderness to a city, when, in a few hours, on the 13th June, 1886, a fire swept the place, and only left a few buildings standing. Phoenix-like, it has sprung from its own ashes, for on the completion in May, 1886, of the C. P. R. into Vancouver, and the arrival of the first through train from Montreal, an impetus was given the growth of the city, and the advancement made is marvellous.

CITY OF VANCOUVER.

The climate is temperate; the thermometer seldom registering above 90 degrees in the summer, and lower than 10 degrees in winter. The rainy season may be considered from November till March. The driest months in the year are June, July, August and September. Spring is early and mild. Summer is warm, even temperature, cool and pleasant evenings, even after the hottest days. Autumn bright and pleasant. Winter is damp, snow falling occasionally, remaining but a short time, interspersed with clear, beautiful weather, when the majestic snow-capped mountain peaks across the Inlet look dazlingly beautiful in the sunshine.

The city is laid out on a magnificent scale, and is being built up in a style fully in accordance with the plan. The street names are placed on the houses at the corners. The system of street numbering which allows 100 numbers to each block is fully explained in the street directory.

Handsome blocks of buildings three and four stories high, built of granite and brick, with all modern conveniences. The residence portion is not lacking in houses that would do credit to any of our Canadian cities.

Nearly all the streets are graded. The important business streets are paved with asphalt, and others are planked. Good wide sidewalks. Streets are well lighted with the electric arc light. Electric tram cars are in successful operation in the principal streets, and are a great boon in bringing the outlying residence portions within a few minutes' ride of the business centre, and also connects with New Westminster, distance 14 miles.

The water works system is second to none. The elevation of the reservoir on Capilano River across the Inlet is over 400 feet above high water mark, the average height of the city being about 100 feet; extreme height south of False Creek (Mount Pleasant) 200 feet. Over 60 hydrants are provided for the Fire Department, and they can supply abundant water to deluge any fire. A sewerage system of wooden boxes is giving satisfaction.

The Fire Department was established as a paid department in 1890. It has three stations; each containing a steam fire engine and hose reels, all of which are drawn by horses. There is also a hook and ladder truck at the central station.

Stanley Park, a peninsula of 950 acres, almost surrounded by water, is encircled by a beautiful ten-mile driving road, and intersected by drives and walks.

East End Park contains 160 acres granted by the Local Government. The city has also 40 acres of land on south side of False Creek reserved for park purposes.

Its docks present a lively appearance. From them regularly arrive and depart steamers and ships for local and foreign ports. Several sailing ships are generally anchored in the harbor discharging general cargo or loading lumber at the saw mills, as a large foreign export trade is carried on through them.

That great chain, the C. P. R., binds British Columbia to the eastern part of our Dominion, first giving existence to Vancouver, and is now doing much for its prosperity as well as for the general good of the Province. The Company have been true to their word in making Vancouver their terminus, of which the centralization of their work and machine shops, car factories, etc., in the portion of our city called Yaletown gives the best proof. Vancouver, by reason of its transportation facilities, is rapidly becoming the point of the Canadian North Pacific for the transmission of freight and passengers to and from the Orient and Australia.

The Board of Trade are indefatigable in their endeavors to extend the trade of the port, which has already assumed a large proportion of the commerce of the Province, and is steadily increasing.

As to the industries of the city, it is only necessary to examine the following pages and also the classified business directory, to realize that Vancouver has a great future before it. Other places have sprung up rapidly, but there is no record on this continent of the building of a similar city with all the improvements of modern civilization in so short a period.

HENDERSON'S

VICTORIA CITY DIRECTORY

1899---1900.

Victoria, the capital of British Columbia, is one of the beautiful cities of the Pacific Coast, and is situated in the southeast part of Vancouver Island, about an irregular indenture from the strait of Juan de Fuca on the south. The city is built on moderately undulating ground, and contains an area of about eight square miles. The nearest mainland is about 20 miles distant south to Port Angeles, Wash. The nearest Canadian mainland is about 65 miles northward by the main route of travel. Vancouver is 90 miles, San Francisco 750 miles and Tacoma 127 miles. Vancouver Island extends some 40 miles farther south than the 49th parallel, so Victoria faces U. S. territory to the south and east.

The Hudson's Bay Company established a trading post at Victoria early in the present century. In 1847 a fort was built. Five years later, the town was platted, and in 1862 it was incorporated. The first vessel arrived from England in 1845. For many years the Hudson Bay Company practically owned the entire Vancouver Island, and whatever industrial operations were engaged in were related in some manner to the Company's interests. This condition of affairs prevailed to a considerable extent till about the year 1858, when the Fraser River gold excitement drew throngs of miners to British Columbia. In a few months then Victoria developed into a flourishing city, though but few of the twenty-five or thirty thousand miners who spent the winter in the vicinity remained as permanent residents. Still its real growth began at that time, and it has had a gradual and healthy increase since.

No evidence of growth is more satisfactory than that supplied by the liberal expenditure of capital on business blocks, handsome private residences and church edifices.

The city's mercantile, manufacturing and shipping interests have been developed by the support which it commanded as the central trading point of the Province. Victoria has always been the chief trading point of the entire British possessions west of the Rocky Mountains, because it was so accessible by water, which was the great highway for all commerce.

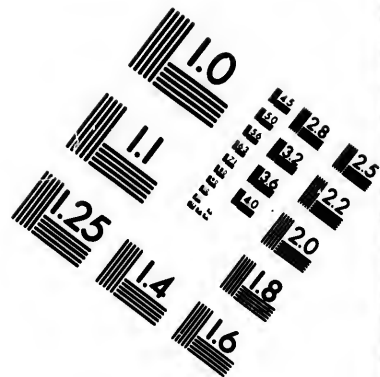

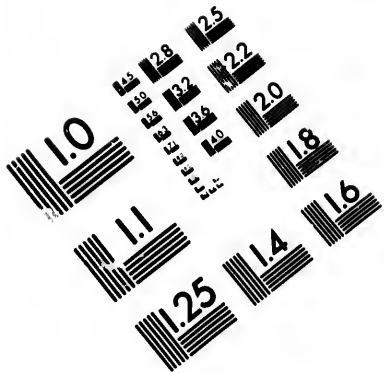

Until the completion of the Canadian Pacific Railway, Victoria was the only place of importance in British Columbia, now other places are springing up. It could not be expected, with a province so rich in coal, minerals, lumber and fish, that one city would long remain the only distributing point for so vast and rich a territory. It is the ocean gateway to the Province, and must ever command and receive a large portion of the interior and coast trade.

Until the completion of the northern transcontinental railways, the chief route of travel and traffic was by way of San Francisco or Portland, so it was no small advantage that Victoria was situated comparatively near these great commercial centres to the south. It is the oldest city in the province, and also the commercial metropolis and social centre. Shipping from all parts of the world enters the harbor, making it an important port of the Pacific seaboard.

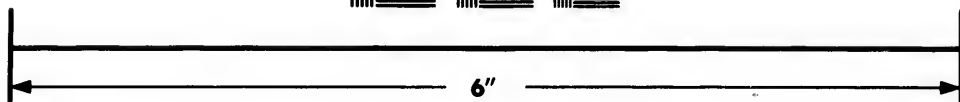

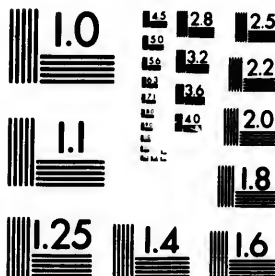

No limit is known to the scope for industrial development on the Island, which is three hundred miles in length, northwest and southeast, an area of about twelve thousand miles, which territory may be considered as tributary to Victoria, and from the smaller islands of the adjoining waters and from the mainland much business flows to the capital city. The government is administered from here, and, if no other reason existed, that alone would have a tendency to draw business. The Victoria custom house shows by far the largest business of any port of the Province, and ranks as fifth port of the Dominion.

The main thoroughfares are clearly defined for long distances, but in all parts of the city are streets of varying widths, joining each other at every conceivable angle. Many streets are lined with shade trees. The streets and roads are

all macadamized. An electric tramway is in operation on the principal streets. The city owns its own water works system, which cost upwards of \$400,000, and returns a very handsome revenue on the investment. The commercial value is said to be \$1,200,000, and is ample for the needs of the city. The street electric lighting plant is also owned and operated by the city. There is also a gas works plant. An efficient paid fire department with the latest improved equipment gives ample fire protection.

Victoria is a city to delight the heart of the tourist. In a drive over any of the excellent roads leading out from the city, the eye rests upon an enchanting landscape, handsome residences with well kept ground and gardens, and on every side evidences of wealth and culture.

It is a favorite winter resort, not only for the people of British Columbia, but for many south of the line, while in summer it is filled with tourists. No place on the Pacific coast offers more comfort, better climate or more beautiful scenery; and no city of its size in the Dominion has so many wealthy residents retired from active business.

Beacon Hill Park is the favorite resort. It occupies a large tract of ground in the eastern side of the city, being washed by the waters of the Straits of Juan de Fuca. A slight elevation, around which is a race track, gives the park its name. The park itself is a rare combination of the beauties of nature and artistic design. Three artificial lakes have been excavated, into the smaller one of which goldfish have been placed. A number of wild animals and birds are in cages or inclosures. Good roads and footpaths enable visitors to go comfortable all over the park. This is a great resort for all kinds of athletic games, and a favorite one with tourists, especially as the outlook from it is most grand, overlooking the broad strait, with the snow-capped Olympian Mountains plainly in view, on the mainland of Washington to the south, and the majestic peaks of the Cascades relieving the landscape to the southeast and east. From the higher points of the city can be enjoyed perhaps the finest landscape views of mountain, water and islands that are to be seen in any part of the world.

The north arm of the harbor, which forms "The Gorge" about a mile from the city, is a favorite resort for boating parties.

The city is amply provided with educational facilities, both public and private, and has a free public library. The churches are well represented.

The Royal Jubilee Hospital, built in the outskirts of the city, on a tract of 19 acres of land. There is also a private hospital.

Not alone as a growing City of promising prospects does it attain its full importance. The strategic point which it occupies as a national post of observation, supply and defence entitles it to the consideration it receives from Her Majesty's home government.

Esquimal harbor, about three miles to the westward of Victoria, is the site of Her Majesty's Pacific Naval Station. It is probably the best one on the shores of Vancouver Island. It being a perfectly land-locked refuge, and easy of access for vessels of the deepest draught, war vessels are stationed there constantly, and it is general headquarters for Her Majesty's navy in the Pacific. Facilities are provided for doing all sort of repairing for ships. A dry dock, 450 feet long and 27 feet deep, with an entrance 55 feet wide, was constructed at a cost of \$900,000. The arsenal contains large quantities of stores and ordnance supplies of all descriptions. The Royal Naval Hospital and cemetery are located there. Quite a town has been built up about the dry dock.

Though located on an island, Victoria does not suffer from the lack of outside communication; as that fact might imply. The harbor is generally a lively place, especially during the summer season, for then the ships that do the carrying trade between here and England generally arrive with large cargoes of merchandise of all kinds, for general distribution in the Province, and by them are returned those cargoes of salmon, lumber and furs, principal exports of the Province, and for which she is noted. The Alaskan steamers of the P. C. S. S. Co. make Victoria their clearing port north bound, and entry port south bound.

Victoria is a metropolitan city, and betrays it to the eye of the least practical observer. Its position is such that it will always be the distributing point for a large amount of territory, and its numerous banking corporations have given it a prestige as a financial centre that the commercial revolutions of the next few years will be powerless to disturb.
