The copy filmed here has been reproduced thanks to the generosity of:

Library of Congress  
Photoduplication Service

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library of Congress  
Photoduplication Service

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## EXTRACTS FROM CUSTOMS ACT.

Corrected to 23rd June, 1888.

8. The value of all bottles, flasks, jars, demijohns, casks, hogsheads, pipes, barrels, and all other vessels or packages, manufactured of tin, iron, lead, zinc, glass or any other material, and capable of holding liquids,—crates, barrels and other packages containing glass, china, crockery or earthenware,—and all packages in which goods are commonly placed for home consumption, including cases in which bottled spirits, wines or malt liquors are contained,—and every package being the first receptacle or covering inclosing goods for purpose of sale, shall, in all cases not otherwise provided for, in which they contain goods subject to the *ad valorem* duty or a specific and *ad valorem* duty, be taken and held to be a part of the fair market value of such goods for duty, and shall be charged with the same rate of *ad valorem* duty as is to be levied and collected on the goods they contain; and when they contain goods subject to specific duty only, such packages shall be charged with a duty of Customs of twenty per centum *ad valorem*, to be computed upon their original cost or value; and all or any of the above packages described as capable of holding liquids, when containing goods exempt from duty under this Act, shall be charged with a duty of twenty per centum *ad valorem*; but all packages not hereinbefore specified, and not herein specially charged with or declared liable to duty under regulations, and being the usual and ordinary packages in which goods are packed for exportation only, according to the general usage and custom of trade, shall be free of duty. —42 V., c. 16, s. 1; 44 V., c. 10, s. 1.

8. If, in any case, the true value for duty of any goods, as finally determined under this Act or as determined in any action or proceeding to recover unpaid duties, exceeds by ten per centum, or more, the value for duty as it appears by the bill of entry thereof, there shall be levied and collected upon the same, in addition to the *ad valorem* duty payable on such goods, when properly valued, a sum equal to the same percentage of the whole *ad valorem* duty so payable as the percentage of undervaluation in the original bill of entry; and if the owner, importer or consignee refuses or neglects to pay the said duty and additional sum within six days after notice so to do has been served upon him personally or by leaving the same at his domicile or place of business, the goods shall be seized and forfeited. 46 V., c. 12, s. 102.

9. Whenever any difference arises as to whether any or what rate of duty is payable on particular goods, and there is no previous decision in the matter by any competent tribunal, or there are decisions inconsistent with each other, the Board of Customs may declare the rate of duty payable on the kind of goods in question, or that such goods are exempt from duty, subject in each case to an appeal, by any person interested, to the Governor in Council; and any decision of the Board of Customs when approved by the Minister of Customs, or any Order in Council made upon appeal, containing such declaration and fixing such rate of duty, if any, shall have the same force and effect as if such rate of duty had been fixed and declared by statute; and every Order in Council made under this section shall be published in the *Canada Gazette*. 46 V., c. 12, s. 11.

11. Whenever duties are imposed according to any specific quantity or to any specific value, the same shall be deemed to apply in the same proportion to any greater or less quantity or value, and to any fractional part of such specific quantity. 40 V., c. 12, s. 13.

12. Whenever duties are charged according to the weight, tale, gauge or measure, such allowances shall be made for tare and draft upon the packages as are prescribed by regulations made by the Governor in Council. 40 V., c. 12, s. 14.

13. On each and every non-enumerated article which bears a similitude, either in material or quality, or the use to which it may be applied, to any enumerated article chargeable with duty, the same rate of duty shall be payable which is charged on the enumerated article which it most resembles in any of the particulars before mentioned. 40 V., c. 12, s. 6.

14. If any non-enumerated article equally resembles two or more enumerated articles on which different rates of duty are chargeable, the duty on such non-enumerated article shall be the same as that on the enumerated article which it resembles, paying the highest duty. 40 V., c. 12, s. 7.

15. On all articles manufactured from two or more materials, the duty shall be that charged on the article, if there is a difference of duty, which is charged with the highest duty. 40 V., c. 12, s. 8.

16. If an article is enumerated in the tariff under two or more names or descriptions, and there is a difference of duty, the highest duty provided shall be charged and collected thereon. 40 V., c. 12, s. 9.

17. Spirits and strong waters, from whatever substance distilled or prepared, having the flavor of any kind of spirits or strong waters, subject to a higher duty than whiskey, shall be liable to the duty imposed on spirits or strong waters of which they have the flavor. 40 V., c. 12, s. 10.

18. Goods derelict, flotsam, jetsam or wreck, or landed or saved from any vessel wrecked, stranded or lost, brought or coming into Canada, shall be subject to the same duties and regulations as goods of the like kind imported are subject to. 40 V., c. 12, s. 60.

19. If the duties on goods referred to in the next preceding section are not paid within eighteen months from the time when the same were delivered to the proper officer, as hereinafter mentioned, the same may be sold in like manner, and for the same purposes as goods imported may, in such default, be sold; and if they are sold for more than enough to pay the duty and charges thereon, the surplus shall be paid over to the person entitled to receive it. 40 V., c. 12, s. 62.

20. The collector or any appraiser may take samples of any goods imported, for the purpose of ascertaining whether any and what duties are payable on such goods; and such samples shall be disposed of as the Minister of Customs directs. 40 V., c. 12, s. 65.

31. If any goods are brought in any decked vessel, from any place out of Canada to any port of entry therein, and not landed, but it is intended to convey such goods to some other port in Canada in the same vessel there to be landed, the duty shall not be paid or the entry completed at the first port, but at the port where the goods are to be landed and to which they shall be conveyed accordingly under such regulations and with such security or precautions for compliance with the requirements of this Act, as the Governor in Council, from time to time, directs. 40 V., c. 12, s. 45.

34. Every importer of goods by sea or from any place out of Canada shall, within three days after the arrival of the importing vessel, make due entry inwards of such goods, and land the same; and every importer of goods imported by inland navigation in a decked vessel of one hundred tons burthen or more, shall, within twenty-four hours of the arrival of the importing vessel, make due entry inwards of such goods, and land the same; and every importer of goods imported by inland navigation in any undecked vessel, or in

any vessel less than one hundred tons burthen, or by land, shall, forthwith, after the importation of such goods, produce the same to the proper officer and make due entry thereof. 46 V., c. 12, s. 40.

35. The person entering any goods inwards shall deliver to the collector or other proper officer, an invoice of such goods showing the place and date of purchase and the name or style of the firm or person from whom the goods were purchased, and a full description thereof in detail, giving the quantity and value of each kind of goods so imported, and a bill of entry thereof, in such form as is appointed by competent authority, fairly written or printed, or partly written and partly printed, and in duplicate, containing the name of the importer, and if imported by water, the name of the vessel and of the master, and of the place to which bound, and of the place, within the port, where the goods are to be unladen, and the description of the goods, and the marks and numbers and contents of the packages, and the place from which the goods are imported, and of what country or place such goods are the growth, produce or manufacture. 46 V., c. 12, s. 41.

36. Unless the goods are to be warehoused in the manner by this Act provided, the importer shall, at the same time, pay down, or cause to be so paid, all duties upon all goods, entered inwards; and the collector or other proper officer shall, immediately thereupon, grant his warrant for the unloading of such goods and grant a permit for the conveyance of such goods further into Canada, if so required by the importer. 46 V., c. 12, s. 42.

38. The quantity and value of any goods shall always be stated in the bill of entry thereof, although such goods are not subject to duty, and the invoice thereof shall be produced to the collector. 46 V., c. 12, s. 46.

41. No entry shall, except in cases in which it is otherwise provided herein, or by regulation of the Governor in Council, be deemed perfect unless a sufficient invoice of the goods to be entered, duly certified in writing thereon as correct by the person, firm or corporation from whom the said goods were purchased, has been produced to the collector, and duly attested as required by this Act, and in the case of consigned goods, verified by the oath of the consignor. 46 V., c. 12, s. 119.

52. The collector or appraiser shall not regard as evidence of the existence or amount of damage any price realized at an auction or forced sale of the goods, nor shall he estimate nor shall any damage be allowed which has originated from decay, dampness or other cause existing before the voyage commenced and which has rendered the goods unfit to withstand the ordinary risks of the voyage of importation, nor shall he estimate nor shall any allowance be made for or duty refunded for rust on iron or steel or any manufacture thereof, except on polished Russia iron and Canada plates, and on such only to the extent of fifty per cent., nor shall any allowance be made for stains or injury to any packages holding liquids, or the labels thereon, unless the contents of such packages have, at the same time, received actual specific damage by the admixture therewith of water or other foreign substance, nor shall any allowance be made for damage to sugar or any other saccharine product on which the duty is to be computed according to the polariscope test; but the Minister of Customs may make a deduction from the percentage of saccharine matter shown by the polariscope to be contained in such sugar or other saccharine product, whenever the same has been damaged by salt water during the voyage of importation, equal to five times the percentage of salt actually present in the excess of water found in such damaged sugar or other saccharine product, over and above that found in samples of the same which have not been so damaged, as established by a certificate from the Customs experts employed by him to make such test.

58. Whenever any duty *ad valorem* is imposed on any goods imported into Canada, the value for duty shall be the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada. 46 V., c. 12, s. 68.

61. When parts of any manufactured article are imported into Canada, each such part shall be charged with the same rate of duty as the finished article, on a proportionate valuation, and when the duty chargeable thereon is specific or specific and *ad valorem*, an average rate of *ad valorem* duty equal to the specific or specific and *ad valorem* duty so chargeable, shall be ascertained and charged upon such parts of the manufactured article.

64. The fair market-value of goods shall be taken to include the amount of any drawback which has been allowed by the Government of any other country, and in cases where the amount of such drawback has been deducted from the value of such goods, upon the face of the invoice, under which entry is to be made, or is not shown thereupon, the Collector of Customs or proper officer, shall add the amount of such deduction or drawback, and collect, and cause to be paid the lawful duty thereon.

67. No deduction from the value of goods in any invoice shall be made on account of charges for packing, or for straw, twine, cord, paper, cording, wiring or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall, in all cases, be included as part of the value for duty. 46 V., c. 12, s. 73.

74. Except as herein otherwise provided, if the importer, owner, consignee, or agent, having complied with the requirements of this Act, is dissatisfied with the appraisement made by the appraiser, hereinbefore mentioned, of any such goods, he may, within three days, give notice in writing to the collector of such dissatisfaction; on receipt of which notice the collector shall at once notify such importer, owner, consignee or agent, to select one disinterested and experienced person familiar with the character and value of the goods in question, and shall select a second person of similar knowledge, and notify such importer, owner, consignee or agent of such appointment:

The persons so selected, together with a third selected by the Minister of Customs from among the members of the Board of Customs, shall examine and appraise the goods in accordance with the provisions of this Act, and the decision of such persons, or of a majority of them if they are not unanimous, shall be reported to the collector and shall be final and conclusive, and the duty shall be levied and collected accordingly:

Such decision shall in no way apply to any case, except that submitted for the consideration of such appraisers.

120. Any package of which the importer or his agent declares the contents to be unknown to him, may be opened and examined by the collector or other proper officer, in the presence of such importer or agent, and at the expense of the importer, who shall also bear the expense of re-packing. 46 V., c. 12, s. 47.

122. If any goods are found in any package which are not mentioned in the invoice or entry, such goods shall be seized and forfeited. 46 V., c. 12, s. 107.

123. If any goods are found which do not correspond with the goods described in the invoice or entry, or if the description in the invoice or entry has been made for the purpose of avoiding payment of the duty or of any part of the duty on such goods, or if in any entry any goods have been undervalued for such purpose as aforesaid, such goods shall be seized and forfeited. 46 V., c. 12, s. 108.
