Nº 1.

Mr. MEARS's MEMORIAL, dated 30th April 1790.

(14 Inclosures.)

To the Right Honourable William Wyndham Grenville, One of His Majefty's Principal Secretaries of State.

The MEMORIAL of JOHN MEARS, Lieutenant in His Majefty's Navy,

Moft humbly fheweth,

THAT early in the Year 1786, certain Merchants refiding in the Eaft Indies, and under the immediate Protection of the Company, defirous of opening a Trade with the North Weft Coaft of America, for fupplying the Chinefe Market with Furs and Ginfeng, communicated fuch Defign to Sir John Macpherfon, the Governor General of India, who not only approved of the Plan, but joined in the Subfeription for its Execution; and Two Veffels were accordingly purchafed, and placed under the Orders and Command of your Memorialift.

That in the Month of March, your Memorialist dispatched One of the faid Vessels, which he named *The Sea Otter*, under the Command of Mr. Tipping, to Prince William's Sound, and followed her in the other Ship, which he named *The Nootka*.

That on your Memorialif's Arrival in Prince William's Sound, in the Month of September, he found the *Sea Otter* had left that Place a few Days before; and, from Intelligence he has fince received, that Ship was foon after unfortunately loft off the Coaft of Kamfchatka.

That your Memorialist remained in Prince William's Sound the whole of the Winter, in the Course of which Time he opened an extensive Trade with the Natives, and having collected a Cargo of Furs, he proceeded to China, in the Autumn of 1787. That in the Month of January 1788, your Memorialist having disposed of the Nootka, he,

That in the Month of January 1788, your Memorialist having disposed of the Nootka, he, in Conjunction with feveral British Merchants residing in India, purchased and fitted out Two other Vessels, named *The Felice* and *Iphigenia*; the former your Memorialist commanded, and the latter he put under the Direction of Mr. William Douglas. That your Memorialist proceeded from China to the Port of Nootka, or King George's Sound, which he reached in the Month of May, and the *Iphigenia* arrived in Cook's River in the Month of June.

That your Memorialift, immediately on his Arrival in Nootka Sound, purchafed from $f_{\rm M}$ Maquilla, the Chief of the Diftrict contiguous to and furrounding that Place, a Spot of $f_{\rm M}$ of Ground, whereon he built a Houfe for his occafional Refidence, as well as for the more convenient Purfuit of his Trade with the Natives, and hoifted the Britifh Colours thereon; that he alfo erected a Breaft Work, which furrounded the Houfe, and mounted One Three-pounder in the Front; that having fo done, your Memorialift proceeded to trade on the Coaft, the Felice taking her Route to the Southward, and the Ipbigenia to the Northward, confining themfelves within the Limits of 60° and 45° 30' North, and returned to Nootka Sound in the Month of September; that on your Memorialift's Arrival there, his People, whom he had left behind, had nearly compleated a Veffel, which previous to his Departure he had laid down; and that the faid Veffel was foon after launched by your Memorialift, and called *The North Weft America*, meafuring about 40 Tons, and was equipped with all Expedition to affift him in his Enterprizes.

That during the Absence of your Memorialist from Nootka Sound, he obtained from Wickananish, the Chief of the District furrounding Port Cox and Port Effingham, situated

in the Latitudes 48° and 49° , in confequence of confiderable Prefents, the Promife of a free and exclusive Trade with the Natives of the Diffrict, and also his Permittion to build any Storehoufes, or other Edifices, which he might judge neceffary; that he also acquired the fame Privilege of exclusive Trade from Tateache, the Chief of the Country bordering on the Straits of Juan de Fuca, and purchased from him a Tract of Land within the faid Strait, which One of your Memorialift's Officers took Posseficient of in the King's Name, calling the fame Tateache, in honour of the Chief.

That the *Ipbigenia*; in her Progrefs to the Southward, alfo vilited feveral Ports, and in confequence of Prefents to the Chiefs of the Country, her Commander had Affurances given to him of not only a free Accefs, but of an exclusive Trade upon that Coaft, no other European Veffel having been there before her.

That your Memorialift, on the 23d of September, having collected a Cargo of Furs, proceeded in the *Felice* to China, leaving the *Iphigenia* and the *North Weft America* in Nootka Sound, with Orders to winter at the Sandwich Iflands, and to return to the Coaft in the Spring. That your Memorialift arrived in China early in the Month of December, where he fold his Cargo, and also the Ship *Felice*.

That a few Days after your Memorialift's Arrival in China, the Ships Prince of Wales and Prince's Royal, fitted out from the Port of London by Meffrs, John and Cadman Etches and C°. came to Canton from a trading Voyage on the North Weffrs, John and Cadman Etches and C°. came to Canton from a trading Voyage on the North Weffrs, John and Cadman Etches and C°. came to Canton from a trading Voyage on the North Weffrs, John and Cadman Etches and C°. came to Canton from a trading Voyage on the North Weffrs, John and Cadman Etches and C°. came to Canton from a trading Voyage on the North Weffrs, John and Cadman Etches, and your Memorialift finding that they had embarked in this Commerce under Licences granted to them by the Eatl India and South Sea Companies, which would not expire until the Year 1790, and apprehending at the fame Time that the Trade would fuffer by a Competition, he and his Partners aflociated themfelves with the faid Meffrs. Etches and C°, and a formal Agreement was executed in confequence between your Memorialift and Mr. John Etches, then Supra Cargo of the Two Ships, making a joint Stock of all the Veficls and Property employed in that Trade; and under that Firm they purchafed a Ship, which had been built at Calcutta, and called her *The Argonaut*.

That the Prince of Wales having been chartered to load Teas for the East India Company, foon after returned to England, and the Prince's Royal and Argonaut were ordered by your Memorialist to fail for the Coast of America, under the Command of Mr. James Colnett, to whom the Charge of all the Concerns of the Company on that Coast had been committed.

Mr. Colnett was directed to fix his Refidence at Nootka Sound, and, with that View, to erect a fubftantial Houfe on the Spot which your Memorialift had purchased in the preceding Year, as will appear by a Copy of his Infructions hereunto annexed.

That the Prince's Reyal and Argonaut, loaded with Stores and Provisions of all Defcriptions, with Articles effimated to be fufficient for the Trade for Three Years, and a Veffel on Board in Frame, of about 30 Tons Burthen, left China accordingly in the Months of April and May 1789. They had alfo on Board, in Addition to their Crews, feveral Artificers of different Profeffions, and near 70 Chinefe, who intended to become Settlers on the American Coaft, in the Service and under the Protection of the affociated Company.

That on the 24th of April 1789, the *Iphigenia* returned to Nootka Sound, and that the North Weft America reached that Place a few Days after; that they found, on their Arrival in that Port, Two American Veffels, which had wintered there, one of them was called the *Columbia*, the other the *Wafbington*; that on the 29th of the fame Month, the North Weft America was difpatched to the Northward to trade, and allo to emplore the Archipelago of St. Lazarus.

That on the 6th of May, the *Iphigenia* being then at Anchor in Nootka Sound, a Spanifh Ship of War, called the *Princeffa*, commanded by Don Eftwan Jofeph Martinez, mounting 26 Guns, which had failed from the Port of San Blas, in the Province of Mexico, Anchored in Nootka Sound, and was joined on the 13th by a Spanifh Snow of 16 Guns, called the San Carlos, which Veffel had also failed from the Port of San Blas, loaded with Cannon and other warlike Stores.

That from the Time of the Arrival of the Prin effa until the 14th of May, mutual Civilities paffed between Captain Douglas and the Spanish Officers, and even Supplies were obtained from Don Martinez for the Ufe of the Ship; but on that Day he (Captain Douglas) was ordered on Board the Princeffa, and, to his great Surprife, was informed by Don Martinez, that he had the King's Orders to feize all Ships and Vessels he might find upon that Coast, and that he (the Commander of the Ipbigenia) was then his Prisoner; that Don Martinez thereupon instructed his Officers to take possels of the Ipbigenia, which they accordingly did, in the Name of his Catholic Majesty, and the Officers and Crew of that Ship were immediately conveyed as Prisoners on Board the Spanish Ships, where they were put in Irons, and were otherwise ill-treated.

That as foon as the *Ipbigenia* had been feized, Don Martinez took pofieffion of the Lands belonging to your Memorialit, on which his temporary Habitation before mentioned had been erected, hoifting thereon the Standard of Spain, and performing fuch Ceremonies as your Memorialift understands are usual on fuch Occasions, declaring at the fame Time, that all the Lands comprized between Cape Horn and the 60th Degree of North Latitude did belong to his ecution who a Th

to his Catholic Majefly; he then proceeded to build Batteries, Store Houfes, &c. in the Execution of which he forcibly employed fome of the Crew of the Iphigenia, and many of them who attempted to refift were very feverely punifhed.

That during the Time the Commander of the Iphigenia remained in Captivity, he had frequently been urged by Don Martinez to fign an Inftrument, purporting, as he was informed (not understanding himself the Spanish Language) that Don Martinez had found him at Anchor in Nootka Sound ; that he was at that Time in great Diffrefs ; that he had furnished him with every Thing neceffary for his Paffage to the Sandwich Iflands, and that his Navigation had in no respect been molested or interrupted; but which Paper, on Inspection of a Copy thereof, delivered to Mr. Douglas, and hereunto annexed (N° 2.) appears to be an Obligation from him and Mr. Vinania, the Second Captain, on the Part of their Owners, to pay on Demand the Valuation of that Veffel, her Cargo, &c. in cafe the Vice-roy of New Spain should adjudge her to be lawful Prize, for entering the Port of Nootka without the Permiffion of his Catholic Majefty; that Captain Douglas, conceiving that the Port of Nootka did not belong to his Catholic Majefty, did frequently refufe to accede to this Propofal, but that Don Martinez, partly by Threats, and partly by Promifes of reftoring him to his Command, and of furnifhing him with fuch Supplies of Stores and Provifions as he might ftand in need of, ultimately carried his Point; and having fo done, he, on the 26th of the fame Month, was reflored to the Command of the Ipbigenia, but reftrained from proceeding to fea, until the Return of the N. W. America, infifting that he fhould then difpofe of her for 400 Dollars, the Price which One of the American Captains had fet upon her.

That during the Time the Spaniards held Poffeffion of the Ipbigenia, the was stripped of all the Merchandize which had been provided for trading, as also of her Stores, Provisions, Nautical Inftruments, Charts, &c. and in fhort every other Article (excepting 12 Bars of Iron) which they could conveniently carry away, even to the Extent of the Mafter's Watch, and Articles of Cloathing.

That the Commander of the Iphigenia, finding himfelf thus diffreffed, applied for Relief, and after much Solicitation obtained a trifling Supply of Stores and Provisions, for which he was called upon to give Bills on his Owners. The Articles fo fupplied were charged at a most exorbitant Price, and very unequal in Quality or Quantity to those which had been taken from him.

That notwithstanding what had been infisted on by Don Martinez, respecting the Sale of the N. W. America, he had conftantly refused to difpose of that Vessel on any Ground, alledging that, as she did not belong to him, he had no Right to dispose of her; that the N. W. America not returning to foon as was expected, he' (Captain Douglas) was told by Don Martinez, that on his ordering that Veffel to be delivered to him for the Ufe of His Catholic Majefty, he fhould have Liberty to depart with the Ipbigenia; that he accordingly, on the Firft of June, wrote a Letter to the Master of the N. W. America, but cautiously avoided any Directions to the Effect defired *, and availing himfelf of Don Martinez's Ignorance of the English Language, he instantly failed from Nootka Sound, though in a very unfit Condition to proceed on fuch a Voyage, leaving behind him the Two American Veffels which had been fuffered to continue there unmolefted by the Spaniards, from the Time of their First Arrival; that the Iphigenia proceeded from thence to the Sandwich Iflands, and after obtaining there fuch Supplies as they were enabled to procure with the Iron before mentioned, returned to China, and Anchored there in the Month of October 1789.

Your Memorialist thinks it necessary upon this Occasion to explain, that in order to evade the exceffive high Port Charges demanded by the Chinefe from all other European Nations, excepting the Portuguefe, that he and his Affociates had obtained the Name of Juan Cawalho to their Firm, though he had no actual Concern in their Stock ; that Cawalho, though by Birth a Portuguele, had been naturalized at Bombay, and had refided there for many Years, under the Protection of the East India Company, and had carried on an extenfive Trade from thence to their feveral Settlements in that Part of the World.

That the Intimacy fubfilting between Cawalho and the Governor of Macao had been the principal Caufe of their forming this nominal Connection, and that Cawalho had in Confequence obtained his Permifion that the Two Ships above mentioned, in cafe it fhould be found convenient fo to do, fhould be allowed to navigate under, or claim any Advantages granted, to the Portuguese Flag.

That this Permission had answered the Purpose of your Memorialist, fo far as respected the Port Charges of the Chinefe, until the Return of the Ipbigenia; but the Portuguefe Governor dying foon after her Departure, and Cawalho becoming a Bankrupt, his Creditors demanded his Interest in that Ship; that your Memorialist having resisted their Claim, an Application was made by them to the fucceeding Governor for Poffeffion of the Ship; that the Governor had, in Confequence, inveftigated the Transaction, and finding that Cawalho had no actual Concern or Interest in the Property, obliged her to quit the Port; that this Proceeding had fubjected the Iphigenia at once to the increased Port Charges, which were inflantly demanded by, and paid to the Chinefe.

Your Memorialist has stated this Transaction thus fully, in order to shew, that the Istigenia and her Cargo were actually and bona fide British Property, as well as to explain the Occasion

Your Memorialist further begs Leave to state, that after the Departure of the Ipbigmia, Don Martinez became apprized of the Purport of the Letter with which he had been furnished, and that on the Return of the N. W. America, off the Port of Nootka, on the gth of June, the was Boarded and feized by Boats manned and equipped for War, commanded by Don Martinez; that he did tow and convey the faid Veffel into the Sound, and Anchoring her close to the Spanish Ships of War, did then take Possession of her in the Name of his Catholic Majefty, as good and lawful Prize; that the above mentioned Veffel was foon after hauled alongfide of the Spanish Frigate, and that the Officers and Men, to-gether with the Skins which had been collected, amounting to 215, of the best Quality, and alfo her Stores, Tackle, and Furniture, Articles of Trade, &c. were removed on Board the Spanish Frigate; that the Commander of the N. W. America, his Officers and Men, were accordingly made Priloners, and Mr. Thomas Barnett, one of the Officers of that Veffel, and fome of her Men were, as appears by the Affidavit of William Graham, one of the Seamen belonging to that Veffel, hereunto annexed (N° 4.) afterwards put in Irons.

That the Princess Royal arriving a few Days after the Seizure of the N. W. America, and being allowed by Don Martinez to depart, the Skins collected by the last-mentioned Veffel (excepting 12 of the belt Quality, which Don Martinez thought fit to detain) were returned to the Mafter, and, with the Permiffion of Don Martinez, were fhipped on Board the Princefs Royal, for the Benefit of the Owners; and that Ship, as appears by her Journal, put to Sea on the 2d of July, to purfue the Trade upon the Coaft.

That Don Martinez, after feizing the N. W. America in the Manner and under the Circumstances above stated, employed her on a Trading Voyage, from which she returned after an Ablence of about 20 Days, with 75 Skins, obtained by British Merchandize, which had either been found in that Vessel at the Time of her Capture, or had been taken from the Ipbigenia; and that the Value of the Furs to collected cannot upon a moderate Calculation be effinated at lefs than 7,500 Dollars, and which Don Martinez had applied to his own Advantage.

That the Argonaut arrived off the Port of Nootka on or about the 3d of July, 1789. That Don Martinez on obferving her in the Offing, boarded her in his Launch, and with Exprefions of Civility, promifed Mr. Colnett, her Commander, every Affistance in his Power; that before the Argonaut entered the Sound, Mr. Thomas Barnett (who had belonged to the N. W. America, and who was then a Priloner) came off in a Canoe, and informed Mr. Colnett of the Proceedings which had taken place, and of the Danger to which he was exposed; but that, under the Assurances given by Don Martinez, that the Argonaut should remain unmolested, and being in want of Refreshments for the Crew, Mr. Colnett proceeded into Nootka Sound.

That, notwithstanding the Assurances given by Don Martinez, he on the next Day fent the First Lieutenant of the Princeffa with a Military Force to take possession of the Argonaut, and that Ship was accordingly feized in the Name of his Catholic Majefty, the Britilh Flag was hauled down, and the Spanish Flag hoisted in its stad. That on the Seizure of the Argonaut, her Officers and Men were made Prisoners, and Mr.

Colnett was threatened to be hanged at the Yard-arm, in cafe of his refufing compliance with any Directions which might be given to him.

That on the 13th of July, the Prince/s Royal, as is stated in her Journal, again appeared off the Port of Nootka; that her Commander, approaching the Sound in his Boat, in Expectation of finding there the Commander of the Expedition (from whom he was defirous of receiving Inftructions for his future Proceedings) was feized and made Prifoner by Don Mar-tinez, and under Threats of hanging him at the Yard-arm, forced him to fend Orders to his Officers to deliver up the Prince's Royal without Contest.

That a Spanish Officer was dispatched into the Offing with these Orders ; and that the Veffel was accordingly feized in the Name of his Catholic Majefty, and brought into Port; that her Crew were in confequence made Prifoners ; and that her Cargo, confifting of 473 Skins (including 203 which had been put on Board her from the N. W. America, as appears by the

inclosed Receipt, N° 5.) was feized. That Mr. Colnett, from the Circumstances of his Capture, became fo deranged, that he attempted frequently to deftroy himfelf; and that, according to the laft Accounts received, the State of his Mind was fuch as to render him unfit for the Management of any Bufinefs which might have been intrusted to his Care; that in this melancholy Situation however, Don Martinez (notwithstanding the Veffel and Cargo had before been formally feized) attempted to procure from him the State of the Copper, of which a principal Part of the Cargo of the Prince's Royal had been composed, and that fuch Sale would actually have taken Place, had not the other Officers of that Veffel, feeing Colnett's Infanity, prevented it.

Your Memorialist farther begs leave to represent, that the American Ship Columbia intending to proceed to China, the Crew of the N. W. America were ordered by Don Martinez

Martinez on Board her, principally, as your Memorialist understands, for the Purpose of assisting her in her Navigation to China, the greatest Part of her own Crew, as well as of her Provisions, having been previously put on Board the *Washington*, in order that she might be enabled to continue on the Coast.

That the Columbia having reduced her Provisions confiderably from the Supplies fhe had fpared to her Confort, was furnished from the Argonaut, by Order of Don Martinez, with what was necessfary for her Voyage, faid to be intended however for the Supply of the Crew of the N. W. America; that previous to the Departure of the Columbia, 96 Skins were also put on Board her, as appears by the Paper hereunto annexed, N° \mathcal{A} , to defray the Wages of the Officers and Crew of the N. W. America, under a Supposition that their late Employers would be unable to liquidate their Demands, first deducting, however, 30 per Cent, from the Sales which Don Martinez had agreed should be paid for the Freight on the faid Skins to the American Commanders.

That the Columbia thus supplied left Nootka Sound accordingly, and proceeded to the Southward; that a few Days after she entered Port Cox, where she was joined by her Confort the Washington, from whom the received a confiderable Number of Skins, conceived to be the whole (excepting the 96 before-mentioned) which had been collected by the Americans and Spaniards, as well as by the British Traders, and with which, after sparing a further Quantity of Provisions to the Washington, the Columbia proceeded to China, where the arrived on the 2d of November, and landed the Crew of the North West America. That the Crew of the North West America, previous to their leaving Nootka Sound in the

That the Crew of the North Weft America, previous to their leaving Nootka Sound in the Columbia, faw the Argonaut proceed, as a Prize, to San Blas; and that her Officers and Men, who were Europeans, were put on Board her as Prifoners; and that the Prince's Royal was fhortly to follow with her Crew in Confinement in the fame Manner. The Wafkington, on joining the Columbia in Port Cox, gave information that the Prince's Royal had also failed for San Blas.

That Don Martinez had thought fit however to detain the Chinefe, and had compelled them to enter into the Service of Spain; and that on the Departure of the *Columbia*, they were employed in the Mines, which had then been opened on the Lands which your Memorialift had purchased.

Your Memorialift begs leave to annex a Deposition of the Officers and Crew of the N. W. America, together with an Extract of the Journal of the Ipbigenia, and also fome Letters which he has received from Mr. Duffin, Second Officer of the Argonaut, which Papers will ferve to throw confiderable Lights on the feveral Transactions alluded to in this Memorial: He also has fubjoined a Statement of the actual as well as the probable Loffes which he and his Affociates have fulfained from the unwarrantable and unjutifiable Proceedings of Don Martinez, in open Violation of the Treaty of Peace fublisting between this Country and the Court of Spain, and at Times and in Situations where, according to the common Laws of Hospitality, they might have expected a different Conduct.

Your Memorialist therefore most humbly begs leave to submit the Cafe of himself and his Affociates to the Consideration of Government, in full Confidence that the proper and neceffary Measures will be taken to obtain that Redress, which he and his Affociates have, as British Subjects, a right to expect.

London 30th April 1790.

(Signed) JOHN MEARS.

Your Memorialist also begs leave to annex an Acknowledgment given by Don Martinez, of his having obtained posseficient of the North West America. Nº 11.

SO foon as the Argonaut is ready for Sea, you will proceed on your Voyage, and put into Execution the feveral Plans we have laid down, and with which you are to thoroughly acquainted; you are also so perfectly informed of the Basis they are founded on, that any Re-capitulation here would be needlefs. We place the strongest Reliance on your Perfeverance, Temper, and Prudence, and are convinced that our Hopes can only be matured but through an Exertion of those Difpositions; we strenously recommend a moderate Use of the Powers you are invefted with, not only in your Transactions with Ships of Foreign Nations, who must be treated with that good Faith and Generofity which is the Characteristic of the English Nation, and which must turn ultimately to the Honour and Credit of your Employers, but to all Ships of our own Nation, to whom we defire you to be particularly attentive in cafe of Diftrefs, or any other calamitous Situation they may be thrown into, we im-prefs on your Mind this Point, not only for the Honour and Credit refulting to us from fuch a liberal Line of Conduct, but from the absolute Neceffity of avoiding all Subject of Difpute with Foreign Powers; we hope that no Motive whatever will induce you to deviate from this Point, as we affure you, that a Commerce that is not carried on with Honour and Respectability, as well as Humanity, would be entirely repugnant to our Feelings as Men, and Characters as British Merchants, a Character which appears to us in so respectable a Light, that no Emolument, no Advantage whatever would perfuade us to countenance the fmalleft Deviation from it in the Perfon and Acts of those we employ.

Reports having been fpread of great Acts of Cruelty and Inhumanity being committed by the Crews of various Veffels on the Coaft of America, in their Commerce with the Natives, we now embrace the earlieft Opportunity of expreffing our utter Abhorrence of fuch hoftile Acts: We fincerely hope that no Perfon or Perfons in our Employ will have Caufe to be reproached of any Thing in this Kind; Acts which we never will countenance or protect; on the contrary we fhall ufe every Means in our Power to have the Perpetrators punifhed; we therefore moft particularly order, that in the Courfe of your Command, if any Perfon or Perfons whatever in our Employ fhall commit any Murder on the Natives of America, or on others, that you feize the Offenders, and put them in Irons, and fend them to the Agents in China, in order that they may be brought to condign Punifhment; we are here neceffitated to dwell on this Subject, from the ftrong Reports of fuch atrocious Acts being committed, which are at once not only deftructive of the Commerce, but of every Sentiment of Humanity; we recommend a fteady Purfuance of, a mild Conduct, as the only Means to cultivate the good Will of the Natives, and draw them within the Verges of civilized Life.

We recommend to you, if poffible, to form a Treaty with the various Chiefs, particularly near Nootka. If you happily accomplish this, you at once become possefield of the Furs of a great District with Honour and Credit, and without incurring a Stigma; and, if there is a Possibility of conquering our Competitors, we beg it may be in a Mode to honourable to ourfelves as Generofity and Humanity, and also a strict Attention to our Business.

On the Strength of a Treaty we form confiderable Hopes, for although at the Moment it may not be productive, yet in Time it will be found the moft ftable Way of accomplifting our Wifnes, and gaining the Confidence of the Chiefs, who are known to manage the Commerce of their Subjects; for this Purpofe we have fupplied you abundantly with every Article known to be had in Effimation among them; and fo auxious are we to have a good Understanding, and the perfecting a Treaty, that we authorize you to take under your Protection all our Allies, and protect them from Infult from all Perfons whatever. Our Sentiments on this Head you will make known to all Perfons whom it may concern, in order that they may govern themfelves accordingly.

may govern themfelves accordingly. You will keep a Diary of your Proceedings, in which every minute Occurrence is to be recorded; and you will forward this Account of your Proceedings, from Time to Time, by all Opportunities.

In.

In planning a Factory on the Coaft of America, we look to a folid Eftablifhment, and not One that is to be abandoned at Pleafure. We authorize you to fix it at the most convenient Station, only to place your Colony in Peace and Security, and fully protected from the Fear of the fmalleft finitter Accident. The Object of a Port of this Kind is to draw the Indians to it, to lay up the finall Veffels in the Winter Seafon, to build, and other Commercial Purpofes. When this Point is effected, different trading Hours will be eftablifhed at Stations that your Knowledge of the Coaft and its Commerce point out to be the most advantageous.

In the Courfe of the Summer we recommend your leaving fingle Perfons to refide with fome of your Friends, the Chiefs of the Charlotte Isles, in order to collect the Furs; the Natives, in full Perfuasion of your returning to them, would keep back from our Competitors; and here at once you will perceive the Advantages to be derived from conciliating their Confidence and good Will. To fuch People who are fo prone to ferve their Employers Rewards should be given, which should be agreeable to their Success.

You are fo well acquainted with the American Commerce, that it would be needlefs to dwell on the Neceffity of hufbanding your Articles of Trade; of guarding againft the Impolitions of the native Merchants, and of imprefing them with an Idea of the Superiority of your Merchandize, &c. &c. The Tide of Fancy of those People may be turned; the Ficklenefs of their Difpolition is well know to you, as well as your Ingenuity to us in combating those Difficulties. The Fall of the Year we wish all the small Craft to be laid up at the Factory, which you will name Fort Pitt.

You will inveft Mr. R. Duffin with the Superintendance of this Station, and ftrenuoufly recommend to him to keep good Order and Harmony therein; to build Store-houles for the Reception of the Tackle and Furniture of the Shipping that you may order to be laid up, and above all, to recommend to him to use every Precaution against the Scurvy by Exercise and the unremitting Use of the Decoction of Pine Tops.

You will in the Winter Scafon fend what Veffels you judge proper to the Sandwich Islands for Provisions, &c. In their Return we imagine that fome of the Natives of those Isles, both Men and Women, may be embarked and transplanted to America, and made useful in our Employ; this must be done with their own Consents, and with every Precaution with regard to their Health as well as Happines.

We defire the Argonaut may be returned to China the End of this Seafon with the Furs. You will deliver her to Captain William Douglafs, and receive from him the Iphigene and America, fhifting the Crews &c. &c. You will alfo receive his Surplus Trade, and all other Stores of that Nature, and in Return fupply him with Refreshments to carry him to the Islands where he can procure a Supply.

The Furs you fend to China, we defire may be well cleaned, and otherwife dreffed, claffed, and put into Chefts; Mutters of each Quality muft be put into a feparate Box; every Skin, Piece, and Tail, muft be numbered, and a Register kept of the Whole, and transmitted to us, with your other Dispatches, by Captain Douglas; in these you will be very particular in advising us of all Articles wanted for the Year 1790.

We recommend to your Attention the State of the Markets in China; the vaft Difference between good and bad Skins, as a Guidance to your Purchales on the Coaft, as 100 prime Skins are most affuredly worth 500 bad, independent of lessening the Value of your Articles of Commerce. All Collections of Furs, to the latest Period, you will fend Home in the Argonaut.

Sea Otters Tails and Seal Skins now become an Object, from the Price they bear.—It will be entirely needle(s to direct you in the Purchafes of Furs, where you are fo well acquainted; this we leave entirely to yourfelf; but we cannot avoid reminding you, and to defire a ftrict Attention is paid, that no illicit Commerce is carried on by any Perfons in our Employ; on any Circumftances of this Kind, the Offenders may depend on our availing ourfelves in the ftricteft Manner which a Breach of Articles may occafion. The Pay of Officers of every Defcription is extremely liberal; and we fhall effeem it the Duty of every Individual to make known fuch Circumftances of illicit Commerce as may come within their Knowledge, as in our Eyes it is equally Criminal, and fhews a great Neglect of their Employer's Intereft, to either hide or ftifle fuch Difcovery; and you have our moft pofitive Orders, on fuch Points coming to your Knowledge, to inftantly difmifs fuch Perfons, and those concerned, from our Service; nor will we permit any Deviation from this Point, except your Reafons are ftrong and fufficient for purfuing a different Line of Conduct.

We also authorize you to difinifs from our Service all Perfons who fhall refufe to obey your Orders, when they are for our Benefit, and, in this Cafe, we give you to underftand, the Princels Royal, America, and other finall Craft are always to continue on the Coaft of America; their Officers and People, when the Time of their Service is up, muft be embarked on the returning Ship to China; and on no Account whatever will we fuffer a Deviation from those Orders.

Should you meet with any of the Ships of Meffrs. Etches and C^{\circ} on the Coaft, you will of Courfe afford them every Affiftance in your Power; but as we fhall have no Intereft in

thole Ships, if you can induce the Commanders to trade on our joint Account, it will be most agreeable to us; but no trading Connections whatever must be, except on Account of the prefent Company. To the Perion intrusted with the Command of thole Ships you will make known the Nature of our Connections with Mr. Etches; you will in Confequence make a Demand of all their Surplus Stores, or Articles of Commerce, &c. that they have to difpole of, in Order that they may be left in the Factory; and a particular Account must be taken of all that are delivered, as they must be accounted for to Mr. Etches by the Company. We have no Doubt but that your Requisition will be complied with, as it ultimately tends to the Good of their Employers.

The Number of Competitors you will meet with on the Coaft will, we fear, formewhat diminish your Collection of Furs, as well as enhance their Price; we have no Doubt of your Activity and Perfeverance, as well as Addrefs in your Negociations. We place the ftrongeft Reliance on your Vigilance and Caution, and as we have conferred on you the most ample Powers, in Return we look for confiderable Refponsibility, and a happy Completion of our Plans. In a full Perfuaiton of this we shall take our Leave, with a strong Recommendation of Unanimity amongst your Officers, and the strictett Discipline over your People. We wish you Health and a prosperous Voyage, and remain, &c.

EXTRACTS of a Letter from Mr. Mears to Captain Colnett; dated Macao, 25 April 1789.

In Mr. Mears's Memorial of the 30th April 1790.

To accompany Inclosure (Nº 1.)

"WE have well-founded Information, that Mr. Jaques, Mate of the Princefs Royal, gave Copies of his own and Captain Hudfon's Journals and Charts to Captain Metcalf, who commanded an American Ship when he was in China. This Act of Mr. Jaques we effect to militate for extremely against himfelf and our Service, that we defire you to return him to China.

Our Difpleafure is no lefs pointed againft Mr. Gibfon, one of your Officers, whofe Acts of Inhumanity, exercifed on the Coaft of America, render him extremely unfit to be employed in our Service; you will therefore return him to China. Those Circumftances relative to the above Perfons did not come to our Knowledge till after the Departure of the Princefs Royal from China, or we most affuredly would have embraced the earlieft Opportunity of diffinifing them our Service; but, with regard to Mr. Gibfon, we have put the finall Stock of his remaining Merit against his Situation, and our Promifes prior to the Difcovery of his Character, and we have formed the Refolution of employing him but one Seafon.

As the Difinifion of those Officers may put you to fome Inconvenience, we shall write to Messers. Sheppardson and Barnet to remain under your Command; and though they are, yet we are convinced of their Value, being entirely attached to Interest and Service."

" As it is probable, that in Autumn 1790 you may meet with a Store Ship from England, on the Company's Account, we have the ftrongeft Hopes, fhould that Event happen, that from her you will form the entire Eftablifhment of the Coatton fuch reafonable Terms under the prefent, that will meet our Satisfaction, and enable the Company, through the Medium of Economy, to deftroy our Competitors. It is probable, however, that all those Engagements may be fettled in England prior to the Departure of the Store Ship; in this Cafe you will refign the Charge of our Concerns to those who are appointed to manage the fame, and retura with the Officers and People who are impressed from China on the Store Ship, or the Argonaut, which ever you think most eligible; but we rather apprehend that, by the above Period, you will have so much Tonnage on the Coast, that it will be needlefs detaining the Argonaut, more particularly as we shall want her in 1791, to return her again to the Coast. We have nothing more to repeat, in Addition to the former Orders."

EXTRACT of the Journal of the Iphigenia.

In Mr. Mears's Memorial of 30th April 1790. (Nº 8.)

REMARKS, &c. on Board the Iphigenia Nubiana.

1789. AT One P. M. a Breeze fprung up from NW. ftood in for the Sound. At 7 20th April. Ditto, the Tide and Wind failing, dropped the Stream Anchor in 50 Fathoms Water. One Mile from the Shore and Two Ditto from Friendly Course. At 10 A

Water, One Mile from the Shore, and Two Ditto from Friendly Cove. At 10 A.M. weighed with a Southerly Wind. Shortly afterwards came along-fide Captain Kendrick and Officers; they had Wintered in Friendly Cove, and had only removed a few Days with their Ship up to Moweena, about 8 Miles higher up the Sound. At 11 Ditto dropped Anchor in the Cove, and Moored with the Pieces of Junk. Employed unbending Sails, and getting the Top-gallant Mafts and Yards down on Deck,....This Log at Midnight.

21ft April. Light Winds and variable. The Limbers being all choaked with the Sand Ballaft, fo that the Water could not find its Way into the Pump Well, fet all Hands to work in the Morning to clear the Hold. Departed this Life Acchon Aching, a Seaman, he was delirious from the Time of his Fall from the Crofs-trees till he died; interred the Corpfe on Shore.

22d April. The Wind from the NW. and SW. with fair Weather ; fent fome Sails on Shore, and erected a Tent for to put our empty Cafks in : Employed in the Hold, the Cooper overhauling the Provisions, and putting fresh Pickle in the Cafks.

23d April. First Part light Winds and variable: Employed heaving out Ballast; in the Morning moved the Tank to get to the Limbers. At 10 A. M. arrived the Sloop Washington from the Southward: I found that they had been out 6 Weeks, and had procured about 300 Sea Otter Skins.

24th April. Strong Gales and hazy Weather, with Rain: Employed moving the great Guns in the Hold, which we found a very laborious Piece of Work; every Rope we had in the Ship gave Way, fo that we were obliged to borrow a Fall from the American Sloop. Having Intelligence that a Sail was in the Offing, difpatched the Long Boat to her Affiftance; found her to be our Confort, the N° Weft America; at Noon fhe Anchored in the Cove. Sailed out of the Cove the Sloop Wafhington for Moweena.

25th April. Frefh Gales and cloudy Weather, with the Wind from the SW. Having Intelligence that the American Sloop was bound to the Northward as foon as they could get Trade wrought up, I gave Orders for the Schooner not to unbend her Sails, but to be hauled on Shore immediately to ftop her Leaks. At 6 P. M. having ftopped her Leaks as well as we could, by nailing Lead over them (for we had neither Pitch or Tar on Board) and fcrubbed her Bottom, at Ten hauled her off the Ways.

26th. In the Morning hauled the Schooner alongfide, and ftruck her Guns and other Stores in; fent likewife on Board her the following Articles, viz. All the Canvas I had got, One Puncheon of Bread, One Cafk of Yams, One of Pork, Two of my beft Men, and Second Officer, who was well acquainted with the Part of the Coaft I intended to fend her: I fent on Board her as Trade 50 Bars of Iron, 30 cut up, 200 Choppers, 3 Dozen of Adzes, One Dozen of Wood Axes, and a Quantity of large Blue Beads.

28th. Moderate and clear Weather, with the Wind from NE. At Day-light towed the Schooner out of the Cove, the Long Boat attending her out to Sea about Two Leagues.

May 6th. Moderate and fair Weather. Having Intelligence from the Natives that **a** Veffel was in the Offing, in the Morning I ordered the Long Boat to go off with the Chief Officers (being unwell myfelf); about 10 I was acquainted by my People that the Veffel 3

appeared to be a Ship, and not the Felice Adventurara. At 11 Ditto the dropped Anchor, and faluted me with 9 Guns, which I returned; my Boat came on Board, and acquainted me the was a Spanish Ship of War, commanded by Commodore Don Stephen Joseph Martinez, on Difcovery; that there were Two others a Ship and a Snow, that had parted Company about 14 Days ago: The Commodore fent his Compliments to me, and requefted my Company on Board the Princeffa (for that was the Name of the Ship) to Dinner ; I went on Board, and carried him a Prefent of a long feathered Cloak and Cap. He told me on my going on Board he came from Oonalafhka; that he had been in Prince William's Sound and Cook's River; and fhewed me a Copy of a Letter I wrote in Anfwer to One I received from Mr. Ifmyloff on the 25th Day of June 1788. At the Time I wrote this Letter I was in Cook's River, he was at Anchor then off Montagu Ifland. How we came to pais One another, he failing from the Sound to Cook's River, and I failing from Cook's River to the Sound, I am at a Lofs to know. He fell in with the Washington to the Northward, and supplied her with feveral Things the was in Want of. I acquainted him with my diffreffed Situation; that the Veffel had like to have foundered before we made the Port, for Want of Pitch and Tar to ftop her Leaks; that I expected my Confort from Macao every Day; if the did not ar-rive, I muft beg his Affiftance, which he promifed me. Captain Kendrick arriving from Moweena, after Dinner we went on Shore, accompanied by Don Joseph, and Three Padries that were to make all the Indians Christians. I thought they had taken a hard Talk in Hand.

7th May. Foggy Weather, People employed in cutting up Fire Wood.

8th. Moderate Breezes and fair Weather; compleated our Fire Wood, waiting with great Impatience for the Arrival of the Felice.

9th. D° Weather. In the Morning I accompanied the Commodore, the Padries, and his Officers to Moweena, to dine with Captain Kendrick. In the Evening we returned.

toth. Pleafant Land and Sea Breezes. This Day Captain Kendrick and Officers, the Spanish Commodore, and the Padries dined on Board the Iphigenia; having One Sandwich Ifland Hog left, and a few Yams, I fent the Hog on board the Spanish Ship and had it dreffed after their own Fashion; they added Two or Three other Dishes; so that we made it out pretty well.

11th. Cloudy Weather and heavy Rain. In the Morning the Spanish Commodore went up to Moweena, taking his Cot and Bedding along with him. He promifed to let me have the Articles I was in Want of at his Return. In the Evening we had Intelligence by the Natives of a Veffel being in the Offing.

12th May. Moderate and cloudy Weather. In the Morning, having got fome Pitch and Tar from the Princeffa, hauled the Long Boat ashore, and fet the Carpenter and Caulker to work to caulk her Bottom. At Three P. M. having finished the Long Boat, I intended to fend him down to Week-a-nannishies. At Five Dº Mr. Adamson acquainted me that Captain Meares was in the Offing, that the Natives had fold him fome Fish; (having been unwell for fome Time paft, and now confined to my Bed) I ordered him to go off with the Long Boat to his Affiftance. At Six D' I was acquainted fhe dropped Anchor One Mile to the Northward of the Port, and hoifted Spanish Colours.

13th. Moderate and cloudy Weather. At Ten A. M. came in and dropped Anchor in the Cove the Spanish Snow St. Carlos, commanded by Captain Arrow. He fent his Compliments to me, and requested my Company to Dinner; being unwell I declined his Invitation. In the Afternoon he paid me a Visit; and in the Evening the Commodore came down from Moweena, accompanied by Captain Kendrick, and fome of his Officers.

14th. At Nine in the Morning of the 14th the Spanish Commodore sent for Mr. Viana and me on Board the Princeffa. As foon as I was on Board he took out a Paper, and told me, that was the King of Spain's Orders to take all the Veffels he met with on the Coaft of America; that I was now his Prifoner. I urged the Diftrefs we were in before we reached the Harbour; the Veffel without Cables; no Pitch nor Tar on Board to ftop her Leaks; no Bread on Board, nor any Thing to live on but Salt Pork; that if I had fteered for any Port in South America, the Spaniards would not have feized my Veffel, but fupplied me with the Neceffaries I was in Want of, agreeable to the Laws of Nations; to take me a Prifoner, in a Foreign Port that the King of Spain never laid Claim was a Piece of Injuffice that no Nation had ever attempted before : But that, fooner than be detained as a Prifoner (although the Veffel had like to have foundered before we got into the Harbour) if he would give me Permiffion, I would inftantly leave the Port. This was denied. Forty or Fifty Men, with fome Officers, went on Board, hoifted the Spanish Colours, and took Poffeffion of

of the Iphigenia Nubiana. The Keys of my Cheft was demanded ; my Charts, Journals, Papers, and in fhort, every Thing that was in the Veffel, they took Poffeffion of. I was not fo much as allowed to go on Board. I enquired the Caufe of his not taking the Walhington Sloop, as he had Orders from the King of Spain to take every Veffel he met with on this Coaft. He gave me no fatisfactory Anfwer; but told me, my Portuguele Papers were bad; that they mentioned, I was to take all English, Russian, and Spanish Vessels that were of inferior Force to the Iphigenia Nubiana, and fend or carry their Crews to Macao, there to be tried for their Lives as Pirates. I told him, they had not interpreted the Papers right; that although I did not underftand Portuguefe, I had feen a Copy of them in Englifh at Macao, which mentioned, if I was attacked by any of those three Nations to defend myfelf, and if I had the Superiority, to fend the Captain and Crew to Macao to answer for the Infult they offered the Portugueze Flag. The Padries and the Clerk read the Papers over, and faid they had interpreted the Papers right. The Portugueze Captain Viana was filent, although he must have known to the contrary. In the Evening of the 15th, Captain Kendrick came down from Moweena; having been informed Captain Kendrick was privy to my being taken Prifoner, and that it was fettled when the Spanish Commodore was last at Moweena, when he came on Board the Iphigenia I refused to see him. This being reported to the Spanish Commodore, I was ordered, at Ten o' Clock at Night (although I was very unwell) to turn out, and carry my Bed on Board the Spanith Snow, it both raining and blowing at the Time. Here I remained for fome Time without a Soul to fpeak to. My Servant, that was a Manilla Man, and spoke the Language very well, was not permitted to come near me, for fear of his difcovering fome of their Proceedings that was carrying on. In fhort, they ftole a Number of Things, and afterwards laid the Blame on my Servant. My People were divided between the Two Veffels, and every Method made Ufe of to entice them to enter. The Sails were bent, and fome new running Rigging wove. A Captain was appoint-ed, and Officers, to carry me and Mr. Viana to St. Blaws. My Officers were to be detained, and One Half of my People on Board the Two Spanish Ships, and 1 was requested to choose the quieteft of my Men to go along with me. A Lift of them I was defired to give to the Commodore, as we were to fail in a few Days. This I would not comply with, but told him, he might fend Home if he thought proper; that the Iphigenia was not fit to go to Sea till the was caulked, and her Leaks ftopped. This they immediately fet about. After taking every Thing out of her, Copper, Iron, Trade of every Kind, and all my Sandwich Island Pork, they filled the Afterhold with Sand Ballaft, that we had been at to much Pains to get out. The Schooner N. Weft America, and the Felice Adventurara, being daily expected in, none of us were permitted to speak to the Natives, although I found an Opportunity to acquaint Me Quilla, and the other Chiefs, as did Mr. Ingraham, Chief Officer of the Columbia. We requefted them to have Boats ready to go off to Captain Mears and Captain Funfter, and acquaint them not to come in to Nootka. That I was Cap Chetled they told us they underftood. They wanted to know if I was now a Colt, that is, a Slave-that if I would go with him, they would fend Boats to watch for an Opportunity to carry me off. They inftantly fhifted their Village about Four Miles to the Northward, fo that I am in great Hopes both Captains Mears and Funter will have Intelligence of my being captured. One of my People on Board the Iphigenia, the Servant, was bargaining with the Natives for fome Fish they had in their Boat; the Spaniards, not understanding what was faid, he was ordered on Board the Commodore's Ship, and put into the Stocks, where he was flriftly examined, and threatened feverely, if he did not tell whether he had mentioned to the Natives for them to go and acquaint Captains Mears and Funter not to come into Nootka. When they found he had not mentioned any Thing about the other Veffels, they wanted to know if the Natives had not told him they had feen a Veffel in the Offing. He told them they had not. He was after this fet at Liberty, but ordered never to *converfe with the Indians, nor fpeak to them in future. I afterwards had a Conference with Captain Kendrick ; he denied being accellary to my being taken; that the Spanish Commodore had mentioned to him he would take Captain Mears Prifoner as foon as he arrived in the Harbour; that he had faid every Thing, and had made Ufe of all his Intereft to prevent my being taken Prifoner. How far this is true I shall leave it for him to difcover. On the 22d the Irons arrived from Moweena, which were made by Captain Kendrick's Armourer. We were now to proceed inftantly to St. Blaws, and I was once more requeited to choose One Half of my Men, as the other Half was to remain with my Officers. Finding not One of them would enter, or delert me, 1 declined giving the Preference to any. Before we failed, 1 requefted my own private Papers might be delivered up, likewife a Copy of my Portuguese Papers, which was promifed me. The Interpreter, when he came to that Part which mentions my defending myfelf in cafe I am attacked, and, if I had the Superiority, to carry the Aggreffors to Macao to be tried for the Infult, he mentioned to the Commodore, in my Prefence, he thought the Papers very good. I told him, if that was the only Caufe he had to alledge against me, it would not be difficult for me to cast him in any Court of Justice in Europe. He had now got every Thing out of her that he took a Liking to; and what Things I had belonging to myfelf he robbed me of in as gentle a Manner as he poffibly could, by letting me know

he muft have my Gold Watch, my Sectant, my Stove, and all my Charts; likewife all my

long

long Feathers, Cloaks, and Caps, that Tyana and his Relations prefented me with; even my Shoes and Boots, and very Bed Cloaths went; as a Reafon for doing fo, he told me fome of those Things could be got at Mexico. He now proposed to return the Vessel, and supply me with Provisions to carry me to the Sandwich Islands, if I would fign a Paper that was already prepared and prefented me. This I refused to comply with, till I had Witneffes, and knew the Contents of the Paper. Mr. How, Supercargo of the Columbia, was re-quefted to write a Letter to Captain Kendrick and Mr. Ingraham, to come down from Moweena, to be Witnesses to the Papers I was to fign. On the 24th they arrived; the Papers were interpreted to me, which mentioned he arrived on fuch a Day, and found me in the Bay of St. Lawrence, Nootka; that I was in Diftrefs, and in Want of every Thing; that he had not ftopped my Navigation, but fupplied me with every Neceffary I was in Want of to carry me to the Sandwich Islands. This Paper I refused figning, for Two Reasons; One was, he had not only stopped me in my Navigation, but had taken Possession of the Ship, and every Thing that belonged to her; another was, the Spaniards could lay no Claim to a Port they had never before feen, nor had any of the King of Spain's Veffels ever entered. The Commodore faid, in the Year 1775 he was Second Officer on board a King's Frigate that was on Discovery, that faw the Port, and named it the Bay of St. Lawrence. I told him, having the Chart of that Voyage by me, I begged Leave to differ in Opinion from him. If I did not choose to fign the Papers, he told me he would keep the Vessel, and fend her along the Coast as a Privateer to trade with the Natives. The Papers were instantly laid aside, and Captain Kendrick went up to Moweena. The fame Evening he told me his Orders were to take Captain Kendrick, if he flould fall in with him any where in those Seas; and mentioned it as a great Secret, that he would take both him and the Sloop Walhington as foon as fhe arrived in Port. The 24th and 25th, a heavy Gale blew from the S.W. the Spanish Veffels had each Four Anchors a-head; the Commodore requested I would go on Board the Iphigenia Nubiana with my Officers and People, and fecure her; having nothing on Board to fecure her with, I declined having any Thing to do with her; he was therefore under the Neceffity of fending Two Hawfers of Eight-Inch, and making her fast to Hog Island. As I was not permitted to go on Shore, I did not know much of what was carrying forward; they were bufy in crecting Forts on Hog Island, and by what I learned, they were cutting down large Trees to build Houfes. The Commodore acquainted me, that last Year when he was at Oonalaska, Mr. Ismyloff told him he expected Three Vessels from Kamschatka with a Number of Men; that on their Arrival at Oonalaska, he was to take the Command, and conduct them to Nootka Sound, where they were to form a Settlement; that he expected to arrive at Nootka by the Middle of July, or 1st of August 1789; that Two Russian Frigates were to fail from Petersburgh by the Way of Cape Horn, and join them in Nootka Sound with Stores and other Necessaries that they might want. On his arrival at St. Blaws laft Year he fent an Express to the Viceroy, who ordered him to fail immediately or Nootka, and erect Forts to keep the Russians out. He likewise acquainted me, that in the Year 1786, Two English Vessels were cast away, one was drove ashore at her Anchors on the Island Maidenoi Offroff; that all the Hands perished except Three Men that happened to be on Shore; they were fent over land to Petersburgh. The Officers of the other Veffel being on Shore they put to Sea, and as there was no Perfon on Board that could navigate the Veffel fhe was never afterwards feen or heard of. As they now had got Poffeffion of my Charts and Journals, the Spanish Commodore intended to fend the St. Carlos, Captain Arrow, to the Northward as foon as they could get her Bottom cleaned and her Sides caulked. Captain Kendrick was likewife ready for Sea, and he was going to pufh to the Northward. My People were after me every Hour of the Day, requefting I would fign the Papers that they might get on Board their own Veffel. Although the Commodore had promifed to fupply me with what he thought would be neceffary to carry me to the Sandwich Islands, and made this Promise before Mr. How and Mr. Ingraham, still there was no Dependance to be put in his Word; however on the 26th this Paper was once more produced. The Portuguese Captain Viana faid it was a Pass for him, and figned the Paper. I was under the Neceffity of doing the fame. At Eleven o'Clock on the 26th I carried my People on Board, and took Poffession of the Iphigenia Nubiana. I was not above Half an Hour on Board when a Meffage came, that I was wanted on Board the Princeffa. When I went on Board, I was told by Don Stephen Joseph Martinez (in the Presence of Mr. Ingraham) that although he had given me back the Iphigenia Nubiana, he would not permit me to fail till the Arrival of the Schooner N. W. America, and that I must fell her to him for the Price that Captain Kendrick and Officers should fet on her. I told him the Schooner did not belong to me; that I had no Power to fell her; that he might act as he thought proper on the Occasion. In the Afternoon the Spaniards left the Ship, each carrying off what he could lay his Hands on.

May 27th. Cloudy Weather with the Wind from the W.; loofed the Sails to dry; employed heaving out the Sand Ballaft. In the Evening the Commodore acquainted me he had Intelligence from the Natives that the Schooner was in a Port a little Way to the Northward. He got out fome Ink and Paper, and requested I would write a Letter to Captain

29th. On the 29th, I made out a Lift of what Articles I was in want of; I defired the Portuguefe Captain to write it off and prefent it, as my chief Demand was One Cable of Eleven Inch, Bread, fome Pitch and Tar, together with Forty Fathoms of Four Inch Rope for Top Sail Sheets, and the Rope that was wove when the Veffel was in their Poffefilon. The Commodore fent me Word he would let me have what Things he thought neceffary, and what he could beft fpare, fo that I received on Board the following Articles; viz. One Cafk of Beef for Three Cafks of Sandwich Ifland Pork that was kept; Four Bags, weighing each 20 lb.; One Box of Bread, weighing about 150 lb.; Two Bags of Rice, Four of Beans, Eig'ar D' of Flour, One Cheft of Pitch, One Bladder of Tar, and One 18 Gallon Keg of Spaich Brandy; Rope of Three Inch, 18 Fathoms; O me Coil of One and an Half Inch, containing 50 Fathoms, and 30 Fathoms of Two Inch. The reft of the Cordage and other Things were wove and fent on Board when I was a Prifoner.

May 30th. Employed rigging the Top Gallant Mafts. In the Afternoon an Account of the Articles we had received was brought on Board, charging Five Times the Quantity and Five Times the Sum they coft; in fhort, I was going to return most of them, but I found if I returned any I must return the Whole. As I had made no Charge against him of my Pork, Iron, Copper, Watch, Stove, Sextant, my Cloaks, Caps, and Charts, which he had deprived me of; on this Account I granted him the Bills he requested. There was another Thing I was obliged to comply with; my Servant being a Manilla Man, by great Promifes he got him to enter on Board the Princeffa.—I was therefore under the Neceffity of discharging him, and paying his Wages up to the Day he was discharged.

May 31ft. As I was determined to be detained no longer, I went on Board in the Morning of the 31ft, and acquainted Don Stephen Jofeph Martinez, that the Moment the Wind favoured me, I would fail for the Sandwich Iflands. I found there were Objections made.— The Commodore acquainted me, he had Information and was told I intended to go to the Northward. As I had taken great care not to give the leaft hint to any Perfon of my future Intentions, I mentioned, That whoever he was that told him fo, could not be fo well acquainted with the State of my Veffel as he was himfelf; that by his own Calculation I had not above Six Weeks Provifions; that he had only left me 10 or 12 Bars of Iron, which would only purchafe me as many Sea Otter Skins, and if I was even to difpofe of them, the Confequence would be but fmall; we fhould only be ftarved before we got to Macao, as he had left us nothing elfe to purchafe our Hogs with at the Sandwich Iflands; befides he had not left me a Chart to carry me to China, let alone along the Coafts of America. My People, I told him, were on high Wages, and that it was neceffary for me to make the beft of my way to Macao, having no other Profpect but to leffen the Expences of

the Voyage as much as lay in my Power. I gave Orders to unmoor, and re-June 1ft. quefted he would let me have my great Guns, fmall Arms, and Ammunition, which he complied with. Captain Kendrick and Officers having come down from Moweena, they acquainted me the Columbia would fail the Day following to the Northward. Another Paper was produced, which the Commodore requefted I would fign, and to be witneffed by Captain Kendrick and Mr. Ingraham, the Contents of this Paper they told me was, if my Portuguese Papers were bad, the Vessel was to be delivered up at Macao. It was easy to fee through those Artifices. I figned the Paper after the Portuguese Captain, and requested a Copy, but this was not complied with. A Dinner being provided on Board the Princeffa, every Method was made use of by Captain Kendrick and others, to find out if I intended to touch to the Northward. I gave them the fame Answers as before, telling them I had no Intention to throw away the Lives of my People. On this Day they drank my Health, withing me a good Voyage to Macao, and accompanied it with Thirteen Guns. As foon as Dinner was over I went on Board, accompanied by Captain Kendrick and Officers and the Spanish Commodore. A light Breeze fpringing up from the Northward, I gave Orders to get under Way. The Commodore told me I must leave a Letter for Captain Funter if he should arrive in Nootka Sound to fell the Schooner. I acquainted him, Captain Funter nor myfelf had neither Power nor Authority to fell the Schooner; that I would write a Letter and leave it with him to be delivered in cafe of his returning to Nootka Sound. I shall here infert a Copy of the Letter I left.

The Moment I had finished my Letter I gave Orders to flip the Hawfer, and made fail out of the Cove, the Fort on Little Hog Island faluting me with Five Guns, which I begged to be excused returning. At 3 P. M. the Spanish Commodore and Captain Kendrick left me and went on Shore. As the Wind was from the Northward I stout to the Southward under all Sail, at Sun-fet Nootka Sound bore N. Half W. Distance Seven or Eight Leagues.

June 2d. Having got out of the Hands of my Enemies, I was now at liberty to judge for myfelf, knowing it would be a Length of Time before the Spaniards could have their Snow ready which they intended to fend to the Northward, and being of Opinion they would not permit Captain Kendrick to fail before he was ready, the Interval was therefore mine. I had no Idea of running for Macao, with only between Sixty and Seventy Sea Otter Skins which I had on Board. My People had been accuftomed to fhort Allowance, I therefore gave Orders at Midnight to put the Ship on the other Tack, and ftand away to the Northward. I was in great Hopes I fhould fall in with Captain Funter, and I am fully refolved if I do, to take the People and Cargo out of her, and fet her on fire, if I find I cannot carry her along with me. At Noon we had thick hazy Weather; Nootka Sound bore NE, Half E, Diftance Fourteen Leagues. 25

COPIES of Letters from Mr. Duffin to Mr. Mears.

(Nº 9). In Mr. Mears's Memorial of 30th April 1790.

Nootka Sound: July 12th 1789.

BEG to inform you, per Favour of Mr. Barnett, with our fafe Arrival in Nootka Sound, after a pleafant Paffage of Nine Weeks, and Four Days, during which Time nothing materially happened. We lived in the greateft Harmony and good Friendship during the Time we have been together, and every Thing promifed fair for a Continuation of the fame, every Officer on Board feeming ftrenuous for their Employers Intereft. We made the Coaft of America, July 3d, at Woody Point, and ftood along fhore under eafy Sail during the Night. In the Morning feveral Natives came off, with the reft Counna Keelah (that was brought by L you from Macao to Nootka) from him we learnt there were Five Veffels in Friendly Cove, but could not learn of what Nation they were; however he informed us they had Captured the North West American Schooner, commanded by Mr. Funter. We immediately conjectured that the Veffels were fome belonging to Mr. Etches, and the American Ship and Sloop. We made all the Sail we could, intending to get in that Night if possible. On our nearing the Sound, we faw a Sloop coming out, which we were informed was the Princefs Royal, belong-ing to our Concern. We then had not the leaft Doubt but there were fome of Mr. Etches Veffels in the Cove. When we were about Two miles from the Entrance of the Sound, we faw a Boat coming towards us; it was then between Nine and Ten o'Clock, fo that we could not difcern of what Country they were. They hailed us in Spanish; and asked if they might be permitted to come on Board. They were answered in the Affirmative; on which they came alongfide, and the Officer, with feveral other Gentlemen, stepped up. We found the former to be the Spanish Commodore; those who accompanied him were of his Ship. After having welcomed them on Board, Captain Colnett asked them down in the great Cabin; what their Conversation was there I am unacquainted with; but Captain Colnett soon told me his Intention was to go into Friendly Cove, and the Spanish Launch took us in tow accordingly. About Ten Minutes after this, came on board Mr. Barnett, whom I directly introduced to Captain Colnett, who informed him that there was a Spanish Frigate of 26 Guns, and a Snow of 16 lying in the Cove, as also the American Ship and Sloop; that the former had creeted a Fort on Hog Island, on which 16 Guns were mounted, and had taken Possession of the Sound in the Name of his most Catholic Majesty, Carolus the 3d, King of Spain; that they had Captured the Schooner, and plundered the Iphigenia Nubiana, but had permitted Captain Hudfon to proceed without any Molestation. As the Commodore heard this Intelligence, he immediately gave Captain Collnett his Word and Honour that he would not offer to detain him, but give him every Affiftance in his Power, in doing which, he only complied with the King of Spain's Orders. Under these Circumstances, and depending on his Honour, Captain Colnett entered the Cove, and brought up between the Frigate and Snow, though I must add, Mr. Barrett, with others of our Well-wishers, advised us to Anchor without Side the Cove, that we might take a View of the furrounding Objects in the Morning. Every Thing that Night, and the next Morning, feemed to wear a favourable Afpect, no Obstacle arising that might ftop our Departure. In the Afternoon Captain Collnett went on Board the Commodore's Ship, and requested his Permission to go to Sea immediately, which at First was granted, but on Second Confideration, the Commodore defired to fee his Papers. Captain Colnett left the Commodore and came on Board of his own Veffel, where, after having put on the Company's Uniform, and his Hanger, he took his Papers on Board the Commodore. He was then informed by that Gentleman, that he could not Sail that Day, on which fome high Words enfued between them, and Captain Collnett infifted on going out immediately, which he faid he would do unlefs the Commodore fired a Shot at him; if fo, he would then haul down his Colours, and deliver himfelf up a Prifoner. Hardly had he uttered this, but he was put under an Arreft, his Sword taken from him, the Veffel feized, and the Officers and Crew taken out, and fent Prifoners, fome on Board the Ship, and the Reft on Board of the Snow; but what is most particular, he defired Captain Kendrick to load his Guns with Shot to take a Veffel that had only Two Swivels mounted, fo that it was impoffible to make any Refiftance against fuch Superiority; indeed it would have been Madness to have attempted it. The Commodore's Paffion now began to abate a little, and he fent for me from the St. Carlos, where I was imprifoned. When I came to him, he feemed to profefs a very great

great Friendship for me, and appeared to be exceeding forry for what he faid his Officers compelled him to do. He declared to be that he had given Captain Collnett Permiffion to depart, and would have affifted him all in his Power, but that Captain Collnett infifted on erecting a Fort opposite his, faid he represented the King of Great Britain, and that he came to take Possession in His Britannic Majefty's Name. The Spaniard quoted the fame, and faid he was Reprefentative of his most Catholic Majesty the King of Spain ; but I have every Reason to suspect there was a Misunderstanding between the Two Parties, for the Linguist fpoke English very imperfectly, and in all likelihood interpreted as many Words wrong as right. This is a particular and impartial Account of the above Transaction as it is in my Power to relate; but as this will be accompanied by Mr. Funter, and Barnett, who are permitted to take their Passage in the American Ship, and who were Eye-Witness of every Transaction, it will enable them to explain every Particular concerning it more explicitly than I am able to do in Writing. Since our being Captured Captain Collnett has been in a high State of Infanity : fometimes he starts, at other Times he asks how long he has to live, who is to be his Executioner, what Death he is to be put to, with all fuch delirious Expressions, accompanied by a Number of fimple Actions, which induces me, and every other Perfon who fees him, to believe his Brain is turned, owing to the great Charge that was under his Care; and I am forry to add, that he has not Fortitude enough, in this critical and difagreeable Situation, to support this unexpected Stroke. He has delivered me his Instruc-tions and the South Sea Company's Grant, and requests I will act in his Name. I have en-deavoured to convince the Spaniards, had we known this Place had been taken Possession of by the King of Spain, we would not on any Confideration have come near it. I have likewife wifhed to perfuade him to peruse the South Sea Company's Grant, and our Instructions, which he refules, and tells me it would avail nothing now to do it, as his Officers infift on his going on with what he acknowledges he too rafily and hallily began, and without deliberating what hereafter might be the Confequence. He defired me to inclose the Grant and our Instructions in his Prefence; he took and put a small Note with them, and afterwards fealed it with his own Signet. He put it under my Care, defiring that I would deliver it to the Viceroy of Mexico.—The Veffel is going to St. Blas, a Settlement they have in the Lat. of 21° 30' N. on the Coaft of California, where we are going, to de-termine whether we are a Prize to the King of Spain or not; if we are not, as we have every Reafon to expect, fhe will be delivered up, with every Thing in her, and be anfwerable for all Damages received, or Stores deficient, fince his making a Prize of us; but this undoubtedly will be fettled between the Two Crowns.

Captain Collnett, myfelf, Mr. Temple, and Reid, the Carpenter, are permitted to remain on Board the Argonaut. Mr. Hanfon on Board the Commodore Ship, and Mr. Gibfon and Ludlow on Board of the Spanish Snow.

From what I can learn at prefent, all the English Men are to be fent in the Argonaut to St. Blas, and Preparations are now making to accommodate us in that Veffel. They have also built Cabins between Decks for the Seamen, where they are to be confined in. Irons during the Night, but fuffered to walk out in the Day. The Officers, I believe, are also to be used in the like Manner.—I am at prefent in Poffefion of my Cabin, as are also the reft of us, and the Commodore behaves with great Civility, by obliging us in every Liberty that can be expected as Prisoners. Whatever Deficiency may be left concerning our prefent Transactions will be explained to you in its true Light by Mr. Funter or Barrett: For I confess that I am very unhappy, unfettled, uneasy, and, in stort, feel every Anxiety that is the Companion of a Perfon involved in fo difagreeable a Situation as I am.

I am,

Dear Sir,

Your's most obediently, (Signed) B. DUFFIN,

P. S. I am forry to inform you that the Spaniards have taken the Chief Part of our Copper, all our Guns, Shot, and Powder, with the fpare Canvals, &c. The former he means to trade with, as I am informed he fends his Furs to Macao by Captain Kendrick, who also trades for him on Shares.

To Captain John Mears.

Nootka Sound, July 13th, 1789.

Dear Sir, Captain Collnett has been in fuch a State of Infanity ever fince the Veffel has been Captured by the Spaniards, that we are obliged to confine him to his Cabin. He Yefterday Morning jumped out of the Cabin Window, and it was with great Difficulty his Life was faved. His conftant Cry is that he is condemned to be hanged. I fincerely hope for his fpeedy Recovery, but am apprehensive he never will recover his former Senfes again. I understand from the Boy Ruffel that it is a Family Diforder, and that they all have Symptoms of Madnefs, more or lefs. I have written the whole Tranfaction concerning our being Captured, &c. &c. 1 hènfi what much ately We Port to th Guns quai Boar Blas. fhall Veffe they Suffe there have á Cơ If I wil this more

&c. previously to this, as minutely as at prefent Circumstances will permit, for I am apprehenfive, if I am feen writing, they will take my Book, Paper, Pens, Ink, &c. from me, fo tha whatever I have written is by ftealth; but Mr. Barnett has been to obliging as to affift me as much as lay in his Power to do it. Gibson was seen writing One Day, and they immedi-ately took the Paper and Ink' from him, and told him Prisoners had no Business to write. We are To-morrow to fail for St. Blas, with all our Officers and Seamen, both English and Portuguele, except those that have entered with the Spaniards. They have taken of our Stores to themfelves, all our Pitch, Tar, Canvas, Twine, fome Provisions of all Kinds, our Guns, Annunition, the Chief of our Copper, and many other Articles that we are not acquainted with. All the Officers being Prifoners, fome on Board One Veffel, and fome on Bourd the other, we have great Expectations that the Veffel will be delivered up at St. Blas. The Commodore promifes me if the is, every Thing that he has taken to himfelf thall be replaced at that Port; but there has been a Number of Things taken out of the Veffel by Theft that he knows nothing of; nevertheless if any, and the Veffel is returned, they must undoubtedly make it good; but you, Sir, and the reft of our Employers must be great Sufferers, as it has frustrated all our Expectations. Had not we met with this Misfortune; there were firong Appearances of our procuring a great Quantity of Furs, as the Americans have no Copper to purchase with, so that the Natives referve all their Prime Skins expecting a Copper Ship.

If our Veffel is delivered up to us, our Stores, Trade, &c. returned, you may reft affured I will do all that is in my Power for the Benefit of my Employers, and the Captain remains in this State of Infanity; if he recovers, he will undoubtedly do the fame. I can fay nothing more, but beg you will prefent my Compliments to all enquiring Friends; and remain,

Dear Sir,

Your's, most obediently, B. DUFFIN.

To Captain John Mears.

Dear Sir,

Nootka Sound, July 14th 1789.

Yesterday at 2 P. M. a Sail was feen in the Offing, coming round Breaker's Point from the Southward, standing into the Sound : As the neared the Shore, we perceived her to be the Sloop Princefs Royal, Captain Hudson .- At 7 she came to an Anchor about Two or Three Miles from the Cove, and Captain Hudson himself came into the Cove in his Boat, with Four of his People, when inftantly as he made his Appearance in the Cove, the Spanifh Boat boarded him, and took him and his People on Board the Commodore as Prisoners. His Motive for coming in, from what I could learn from himfelf, was to fee if Captain Collnett was there, in order to receive his Orders how he was to proceed in future. Whether Captain Hudfon's Conduct in this Proceeding is blameable or nor, I leave to your fuperior Judgment.

We are now out of the Cove into the Mouth of the Sound, and are pofitively to fail To-morrow Morning for St. Blas. The Sloop is towed into the Cove within all the Shipping; and the Spaniards from every Appearance have finally Captured her.

Captain Hudson seems very much hurt from his Misfortune, and candidly declares that it is entirely from his own Simplicity, and being too credulous of the Spaniards Honour, that has brought him into this difagreeable Dilemma.

Captain Collnett is much better To-day, and in general difcourfes very rationally. I have endeavoured to perfuade him to draw out every Particular concerning our being Captured, to fend to his Employers, which he refuses: His Objection is, that he has involved himfelf and every One elle into Difficulties that he is not able to extricate himself from, and therefore declares to me that he will have no more Concerns with the Charge of the Veffel, but leaves every Thing entirely to me, which I have, but most reluctantly, complied with, knowing that I cannot acquit myfelf with Satisfaction to myfelf, nor undoubtedly more fo to my Employers. Neverthelefs, if the Veffel is delivered up at St. Blas, as the Commodore gives me every Reafon to hope that the will, I will endeavour to the utmost in my Power to do every Thing in my Power that may be any Ways beneficial to my Employers.

The Commodore wanted Captain Collnett to fell all his Copper to him, and he'd give him Bills for the as he valued it, which Captain Collnett had complied with; but I objected, as I thought if his Orders tolerated him to Capture the Veffel, they would un-doubtedly tolerate him to Capture the Cargo likewife. We are deficient in a great deal of Copper, as I mentioned in my former, but Mr. Barnett will be able to inform you I imagine where it goes to.

Accompanying this, I fend under the Care of Mr. Barnett a Copy of my Journal from Macao, wherein you will find the principal Occurrences that have happened to us fince our Departure. I have nothing more to add; neither have I Opportunity to do it, the Veffel being
