The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

In coming from the southward vessels bound to Salem keep the lowest light open to the east of the high light, and run for it; this guides to the eastward of the South-east Breakers and Searl's Rock. Give Baker's Island a berth of not less than half a mile, leaving it on the port hand, then run for Hospital Point Light, bearing about W by N $\frac{1}{2} N$, until Derby Wharf light is in range with Fort Pickering light, when Salem harbor will be to the W S W of you, and Beverly harbor W by N $\frac{1}{2} N$. Also, on Baker's Island a bell which strikes two quick blows each half minute. For better information, a lens panel has been placed in "Hospital Point" Light, which makes a more brilliant light in the line of the ships' channel from Baker's Island than on either side, and serves to keep vessels from danger on either side.

Hospital Point; grey tower; fixed white light, visible 13 miles; on Hospital Point, north side of entrance to Salem and Beverly Harbor.

Fort Pickering Light; red tower; fixed white light, visible 10 miles; on Winter Island, north side of entrance to Salem harbor. To enter harbor, bring the light to bear N W, and run for it until within two miles of it, then bring it to bear W N W, and run for it, leaving Marblehead Rock (a high rocky islet with beacon at top) 150 yards on your port hand, and when it bears S W run N W $\frac{3}{4} N$ until the light bears S by W, then run S W $\frac{3}{4} W$ into the harbor, and anchor between the light and the town.

Minot's Ledge Light; latitude $42^{\circ} 16m 9s N$; longitude $70^{\circ} 45m 34s W$; entrance to Boston Bay; granite tower, natural color, 100 feet high; fixed white light, visible 17 miles. Davis' Ledge Buoy bears E by S; Boston light bears N W $\frac{1}{2} W$, 7 miles. This course must be kept good, northerly, to pass Bell Boat, off the north side of the Harding's Ledge (about $4\frac{3}{4}$ miles from Minot's Ledge Light). A good mark to clear the Harding's Bell Boat, after passing Minot's light, is to keep Long Island Head light (fixed white) just open to the north of the Narrows Light, which is a red light.

Boston Light; latitude $24^{\circ} 19m 39s N$; longitude $70^{\circ} 53m 25s W$; on Little Brewster Island, north side of entrance to main ship channel to Boston; white tower; white flash light, flashing once every half minute, visible 17 miles. Also, an air trumpet, giving blasts of 7 seconds, followed by interval of 43 seconds. From Cape Cod highlands the course for Boston Light is N W by W $\frac{1}{2} W$, which well clears Minot's Ledge and the Hardings; then, when well past Minot's, bring Boston light to bear W by N $\frac{1}{2} N$ and run for it until

within $\frac{1}{4}$ of a mile of it or until the Beacon light bears about W by N, then run W $\frac{1}{2}$ S until the Beacon light bears W N W, then run W by N leaving the Beacon light 100 yards on your starboard hand, then steer N W $\frac{1}{2}$ W (keeping the middle of the channel) for the Narrows between Galloups and Lovell's Islands, then about N W $\frac{3}{4}$ N for the bell buoy off Nix's Mate, which leave on port hand, then run W by N $\frac{1}{2}$ N for Fort Independence, leaving the lower middle buoy, red can, No. 6, a good berth on your starboard, and State Ledge buoy, red Nun No. 8 close aboard on your starboard; then run about N W $\frac{1}{2}$ N for the upper middle buoy, black Nun No. 9, which leave on your port, then the course to Long Wharf or to good anchorage is about N W $\frac{1}{4}$ W. If making Boston ship channel from Cape Ann, get Thatcher's Island light to bear N N W from 2 to 3 miles, then steer S W $\frac{1}{2}$ W until Boston light bears W by N $\frac{1}{2}$ N. Then proceed as before given.

Narrows Light; brown house; fixed red light, on the right hand side of Narrows, in ship channel entrance to Boston Harbor.

Deer Island Light; on the south extremity of the Spit, making out $\frac{1}{2}$ mile to the southward from Deer Island entrance to Boston Harbor; fixed white, varied by a red flash every 30 seconds; also a bell struck by machinery every 5 seconds in foggy weather. This light was lit January 25th, 1890.

Long Island Light; on the N E end of Long Island and southern side of entrance to Boston inner harbor; white tower; fixed white light, visible 16 miles. In coming up ship channel, and after leaving Nix's Mate buoy on the port hand, and Long Island Light bears W by S $\frac{1}{2}$ S, run W by N $\frac{1}{2}$ N for the south end of the Castle until the Castle North Wharf bears N W by W $\frac{3}{4}$ W, or abreast of the State Ledge Buoy (red, No. 8), then N W $\frac{1}{2}$ N to the Upper Middle Buoy (black, No. 9), which leave on port hand, then the course to Long Wharf is N W $\frac{1}{2}$ W. But if approaching Boston from Cape Ann, via Broad Sound, bring Long Island Light to bear S W by W, and run for it until Deer Island Point Beacon bears N W by N $\frac{1}{2}$ N, three-eighths of a mile distant, then W by N $\frac{1}{2}$ N up the harbor. Strangers should bear in mind that in the middle of Broad Sound there is but 8 feet of water at low tide; but by keeping on the southern side of the Sound, leaving the Graves Whistling Buoy $\frac{1}{2}$ a mile on your port hand and the Devil's Limb Buoy (black can No. 1) $\frac{1}{2}$ mile on port hand, and running straight to Ram's Head buoy (black can buoy No. 5) about W S W, passing Aldrich's Ledge buoy (black can No. 3) $\frac{1}{2}$ mile on port, then leaving Ram's head 50 yards distant on port, and run about W $\frac{1}{2}$ S to clear Deer Island Point Beacon, you can carry 12 feet safely. From the Beacon you will steer W $\frac{3}{4}$ N for lower middle buoy, then W by N $\frac{3}{4}$ N for State Ledge Buoy, when proceed as before given.

Explanatory.

Aphelion—The point of a Planet's orbit farthest from the Sun.

Apogee—That part of the Moon's orbit farthest from the Earth.

Astronomical Day is reckoned from noon to noon through the 24 hours. Thus, July 21, 9h, is 9h A of July 21, and July 21, 15h, is 3h M of July 22.

Conjunction—A Planet directly between the Earth and the Sun is said to be in Inferior Conjunction with the Sun. A Planet with the Sun directly between it and the Earth is said to be in Superior Conjunction with the Sun. Planets are said to be in conjunction with each other, or with the Moon, when they are in the same sign and degree.

Declination—The distance of a heavenly body from the Equinoctial, measured north or south, in degrees or minutes, on a Meridian.

Ecliptic—The plane of the Earth's orbit, so called because Eclipses can take place only when the Moon is on or near it.

Elongation—The distance of a Planet from the Sun as seen from the Earth.

Equinoctial—The circle in the heavens traced by the Earth's Equator.

Node—That part of the orbit of a heavenly body which intersects the Ecliptic. If the body is passing from south to north, it is called the Ascending Node; if from north to south, Descending.

Opposition—A Planet with the Earth directly between it and the Sun is said to be in opposition to the Sun.

Pennumbra—That portion of space around the shadow of the Earth, in passing through which the Moon diminishes in brightness, in consequence of a part only of the Sun's rays reaching her surface.

Perigee—That part of the Moon's Orbit nearest to the Earth.

Perihelion—That part of the Planet's Orbit nearest to the Sun.

Quadrature—Two heavenly bodies are said to be in Quadrature when they are distant from each other by one-fourth of the Zodiac, or three signs apart.

The Sun's Declination and fast or slow of clock are given for apparent noon, or time of passing the Meridian of St. John.

The Moon's Southing is given in Astronomical time for the Meridian passage at St. John; and her Declination, when on the Meridian.

The Rising of the Moon is given from Full Moon to New Moon; and the Setting from New Moon to Full Moon.

TIDES.

The Tides in the Calendar are the Morning and Afternoon Tides at St. John and Charlottetown. In the Tide Table (page 40) will be found Constants for finding the time of High Water at each of the places given in the Table.

In editions of this Almanac prior to 1885 the Tides were only given approximately, but ever since they have been corrected for the varying distance of the Moon from the Earth, and also her angular distance from the Sun. They can now be depended on as accurate to at least the same degree as the Admiralty Tide Tables.

It will sometimes be found that when a Constant is added to the time of High Water at the Port of reference the sum exceeds 12 hours; in this case subtract 12 hours from the sum and the remainder will be the time of High Water at the required Port on the succeeding afternoon or morning, according as the Tide at Port of reference was a Morning or Afternoon Tide.

EXAMPLE.

High Water at St. John, January 10th,.....	11h. 14m. M
Moncton, add.....	54
	12h. 8m.
Subtract,.....	12
High Water at Moncton, January 10th,.....	0h. 8m. A.

It will sometimes be found that a Constant to be subtracted is greater than the time of High Water at the Port of reference: in this case add 12 hours to the Time at the Port, subtract the Constant, and the remainder will be time of High Water at the required place for the previous Morning or Afternoon, according as the Tide at the Port of reference was an Afternoon or Morning Tide.

EXAMPLE.

High Water at Charlottetown, January 13th,.....	0h. 20m. M.
Add,.....	12
	12h. 20m.
Newcastle, Beaubéze Island, subtract,	4 15
High Water at Newcastle, January 12th.....	8h. 5m. A.

FORECASTING THE WEATHER.

Men have, from a very early period, studied the weather, on account of its great influence on their pursuits, in order if possible to predict its nature, and prevent those losses to the Farmer and the Sailor which result from violent storms.

The earlier students based their predictions on the phases of the moon, but an examination of the Greenwich observations for more than half a century has shown that this theory is entirely unfounded. Weather prophets like Moore, Zadkiel and Vennor claim in their Almanacs to be able to forecast the weather day by day for a whole year; but meteorological science in the British Isles, and the Signal Service of the United States, with the Weather Bureau of the Dominion, does not claim to forecast, with any certainty, the weather for more than three or four days at the most.

If an observer could obtain, at regular and repeated intervals, readings of the Barometer at stations distributed over a large area, he would be enabled to trace the march of the storm, for it has been found that the wind always blows towards the place of the lowest barometer reading; and so, by means of the telegraph, he may warn those places the storm is approaching. Still, mistakes are often made, and the forecasts are not always infallible, so that much remains to be done before meteorology can be ranked among the exact sciences.

In this month the day decreases in length 1 hour and 10 minutes--40 minutes in the morning and 30 in the evening.

WE keep our Travellers almost constantly on the road, yet they are unable to call upon our Customers as often as we would like. This we hope to remedy in the near future.

County Courts.

The Courts were established by 30th Victoria, cap. 10, passed June 17, 1867, and are now regulated by the Consolidated Statutes, cap. 51, as amended by Act 45 Vic., c. 9. The Act authorizes the appointment of one Judge for the Counties of Charlotte, Carleton, Victoria and Madawaska; one Judge for the Counties of York, Sunbury and Queens; one Judge for the Counties of Westmorland and Kent; one Judge for the Counties of Northumberland

J. SIME'S (LATE SIME & HAWES), CITY ROAD.

Gloucester and Restigonche; one Judge for the Counties of Kings and Albert; and one Judge for the County of the City and County of St John; provided that Court for the City and County of St John shall not have or exercise any jurisdiction in any cause in which the City Court of St John has jurisdiction.

The act also authorizes the appointment of a Clerk for each Court, who shall be an Attorney. The sittings of the respective Courts shall be held at or near the County Court House in the shire town.

The County Courts have not cognizances of any action—

1st. When the title to land is brought in question; or,

2nd. In which the validity of any devise, bequest, or limitation is disputed.

Subject to the above exceptions, the County Courts have, by Act 45 Vict., c. 9, jurisdiction, and may hold pleas in all personal actions of debt, covenant and assumpsit, when the debt or damages do not exceed the sum of \$400; and in all actions of tort, when the damages claimed do not exceed \$200; and in actions on bonds given to a Sheriff or otherwise in any case in a County Court, whatever may be the penalty or amount sought to be recovered.

The Act 45 Vict., c. 9, would seem to give the County Courts jurisdiction in those classes of cases which were excepted from its jurisdiction by the Consolidated Statutes, c. 51, sec. 7.

Sittings of the County Courts.

The Courts hold Terms every year in each County, which Terms commence as follows:

Albert County—On the third Tuesday in June, and on the second Tuesday in November.

Miscellaneous and Book Packets.—The rate of postage upon all Newspapers and Periodicals posted for destinations in Canada, not otherwise provided for, and on Books, Pamphlets, Occasional Publications, Printed Circulars, Prices Current, Handbills and other matters wholly in print, is 1 cent per 4 ounces or fraction thereof, to be prepaid by postage stamp or stamped postband or wrapper; but when posted for destinations in the United States, Great Britain, Newfoundland and all European countries, the rate is 1 cent per 2 oz.

All communications produced by the typewriter are liable to letter rate.

Upon all Book and Newspaper Manuscript, Printers' Proof Sheets, whether corrected or not, Maps, Prints, Drawings, Engravings, Lithographs, Photographs, when not on glass or in cases containing glass, Sheet Music, whether printed or written,—and on all other miscellaneous matter transmissible by post not otherwise provided for—the rate of postage when addressed to places in Canada, the United States, Newfoundland, Great Britain and any European country, is 1 cent for each 2 ounces or fraction thereof, to be paid by postage stamp or stamped postband or wrapper. School and College Examination Papers, distinctly marked as such, Assessment Rolls, Militia, Statute Labor and Municipal Returns, are permitted to pass in Canada at the rate of 1 cent per 2 ounces.

A book packet may contain a simple invoice of the contents.

No package must exceed 2 ft. in length by 1 ft. in width or depth. Limit of weight for Canada, Newfoundland, Great Britain or United States is 5 lbs.; for other Postal Union countries, 4 lbs.

Seeds, Cuttings, Bulbs, Roots and Scions or Grafts can only be sent to the United States as 5th Class matter; when posted for delivery in Canada, the postage is 1 cent per four ounces, and the limit of weight 5 lbs.

Patterns and Samples.—Patterns and samples of merchandize not exceeding 24 ounces in weight, when posted in Canada for places within Canada, must be prepaid by postage stamp at the rate of one cent per 4 ounces weight, properly labelled, and put up in such a manner as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, or articles sent by one private individual to another, not being actually trade patterns or samples, are not admissible as such.

Patterns and Samples for the United States, 1 cent per 2 oz., the initial prepayment being 2c. Limit of weight 8 oz.; size 2 ft. in length by 1 ft. in width and depth.

Packets of Patterns or Samples, addressed to any place in Canada, can be registered on affixing thereto registration stamps of the value of 5 cents, in addition to postage stamps representing ordinary postage rate, provided such packets be presented for registration.

The limit of weight to Great Britain, Newfoundland, and all countries in Europe, is eight ounces—postage, 2 cents for the first 4 oz., and 1 cent for every additional 2 oz.

No article liable to Customs duty can be sent as a sample or pattern to a Postal Union country.

FOURTH CLASS MATTER.

Parcels.—Closed parcels may be sent to places in Canada, the United Kingdom and Newfoundland, and also to all those Countries and Colonies with which the United Kingdom maintains a Parcel Post. They should be plainly addressed and there must be no correspondence enclosed.

Parcels for Canada must be prepaid 6 cents per 4 oz. They must not exceed 5 lbs. in weight nor 2 feet in length by 1 foot in width or depth, and the sender's name should be written on the lower left hand corner. They may be registered for a fee of 5 cents.

Parcels for the United Kingdom and Newfoundland must be prepaid 25 cents per lb. or fraction of a lb., and must not exceed 5 lbs. in weight nor 2 feet in length by 1 foot in width or depth. The table of rates of other countries, to which parcels may be sent, can be seen on application at the Registry Wicket, front lobby, of this office. A Customs Declaration of the contents and value of each parcel must be filled up at the Post Office by the sender. Parcels for the United Kingdom and foreign destinations are forwarded by Canadian Contract Steamers only, and parcels for Newfoundland are sent to Halifax for despatch by steamer.

FIFTH CLASS MATTER.

Comprises such articles of general merchandise as are not entitled to any lower rate of postage. Postage 1 cent per oz. or fraction of an ounce. Limit of weight, 5 lbs.; size, 2 feet in length by 1 foot in width or depth. Matter claiming to be fifth class must be open to inspection, and there must be no correspondence enclosed. Packages of fifth class matter may be sent to the United States for the same prepayment as is required within the Dominion, but the contents will be liable to Custom inspection and collection of duty in the United States. Sealed tins containing fish, lobsters, vegetables, meats, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents, may be sent as fifth class matter within the Dominion, but no sealed matter can be forwarded to the United States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as fifth class if put up in accordance with the ruling referring to such articles in the Canada Postal Guide for 1889, page 15.

Registration.

All classes of matter addressed to places in Canada, the United States, Newfoundland, Great Britain, or any Postal Union country, may be registered for a fee of 5 cents for each article in addition to the postage; and letters may be registered to most of the countries not included in the Union.

Every article intended for registration must be handed in at the wicket, and a receipt obtained therefor: on no account must it be dropped into a letter box. The registration fee should be paid by registration stamp.

The sender of a registered article addressed to any Postal Union country may entitle himself to a certificate as to the disposal of said article by the Postmaster at the office addressed, on prepayment of an additional fee of 5 cents.

Registered articles should be pre-paid.

Registration stamps cannot be accepted in prepayment of postage.

All letters for Registration should be posted 30 minutes before the hour for closing mails.

Registered Letter Stamps of the denomination of 5 cents, may be obtained at the usual places.

J. P. LYNCH, COMMISSION MERCHANT, MAKES PROMPT RETURNS.

J. SIME'S (LATE SIME & HAWES), CITY ROAD.**Re-Directed Letters.**

Re-directed Letters to places within the Dominion or United States will be forwarded without any additional charge if returned promptly to the office.

Letters sent to or received from a Country of the Postal Union, and afterwards re-directed to any place in Canada, or to a Country in the Postal Union, will be forwarded even if taken out of the office and re-addressed; but if re-addressed to a place where there is a higher rate of postage, the difference of postage will be chargeable.

Post Office Savings Bank.

Any business in connection with depositing and withdrawing money from the Post Office Savings Bank can be transacted at the St. John office, but arrangements have not as yet been made for the opening of new accounts.

Matter which Cannot be Forwarded Through the Post.

Any explosive substance, glass, liquid, or other matter likely to entail risk or injury to the ordinary contents of the mail, will be sent to the Dead Letter Office, Ottawa.

Spectacles and eye-glasses, if securely put in cases not likely to allow the contents to escape if broken in course of conveyance, may be sent by Post within the Dominion on prepayment of parcel post rates.

Letters containing Gold or Silver Money, Jewels or precious articles, or anything liable to Customs duties, cannot be forwarded by Post to any of the Postal Union countries except the United States.

Important.

A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its direction. On no application, however urgent, can it be delivered back to the writer, or to any other person.

Sale of Postage Stamps.

Any person, other than a Postmaster, who engage in the sale of Postage Stamps or Stamped Envelopes without being duly licensed by the Postmaster General is liable, on conviction before a Justice of the Peace, to a penalty of \$40 for each offence.

Useful Hints.

Never send money or other articles of value through the Post Office except either by Money Order or registered Letter.

Make complaints and enquiries in writing.

Envelopes closed and simply clipped at the ends cannot be forwarded by Book Post.

Affix stamps securely, and on the upper right hand corner.

Register all valuable letters.

Send money by Money Order, whenever practicable.

Preserve and request correspondents to preserve envelopes of missent or delayed letters.

Business men should be careful to authorize but a limited number of persons to receive their letters, and only those in whom they have full confidence.

Have a letter box on your office door.

Letters addressed to mere initials, or fictitious names, will not be delivered, unless addressed in care of a resident, or to some box in the Post Office.

ASK J. P. LYNCH TO SEND YOU PRODUCE MARKET REPORT.

FOR NEWEL POSTS, BALUSTERS AND HAND RAILS, GO TO

Mutilated Stamps.

Letters having mutilated stamps, or stamps so soiled and defaced as to make it impossible for the sorting clerks to decide whether they have been used before or not, will be sent to the Postmaster General for his adjudication.

Post Bands and Stamped Envelopes.

One cent post bands for newspaper or book packet wrappers, and one and three cent stamped envelopes are issued by the Department, and may be had at the stamp vendors at a trifle above their face value.

Merchants' Boxes.

Though every effort will be made in sorting letters to place them in the boxes, when the party addressed is known to have a box, the Postmaster does not hold himself responsible for this always being done; the primary rule being that all letters bearing the number of the house and name of street go there by letter carrier.

An order to place in a box letters belonging to another person than the owner of the box cannot be recognized, unless such letters are addressed to the care of the box, or its owner.

Letters for the member of a firm should be addressed to the care of the firm or the number of the box.

Box holders would facilitate the work of sorting by requesting correspondents to add the box number to the address of their letters.

St. John Letter Carriers' Delivery.

Letters and Papers for this delivery should be addressed to Street and Number.

Change of Residence should be promptly notified to the Postmaster in writing.

Two deliveries daily, commencing at 8 a. m. and 5.45 p. m.

All letters mailed at the St. John Post Office within fifteen minutes of the hour fixed for morning and evening deliveries will be dispatched by such deliveries.

Letters not bearing the name and number of street, addressed to parties whose address may be known to the Carriers, will be delivered by them. It is always best, however, to have name of street and number of house supplied.

Synopsis of the Fishery Laws of the Dominion of Canada as regards Salmon and Trout.

Net fishing of any kind is prohibited in public waters, except under leases or license from the Department of Fisheries.

The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays.

The netting of trout is prohibited. A general weekly close-time is provided in addition to special close-seasons. Salmon nets must be raised from 6 p. m. on Saturday to 6 a. m. on Monday, and angling for salmon is prohibited from 9 p. m. on Saturday to 6 a. m. on Monday.

The use of explosive or poisonous substances for catching or killing fish is illegal.

(Notice has been given that a standard regulation salmon net will be established and adopted by the Department of Fisheries, to come into use in the year 1891, and therefore no other net will be sanctioned for the capture of salmon in any of the waters of the Bay Chaleur or elsewhere.)
