OPPOSITION TO RECIPROCITY GROWING

Ministers in Trouble With Their Constituents—May Be Motion to Give Measure the Six Months' Hoist—Montreal's Protest Will Be a Surprise When it Comes.

OTTAWA, March 3 (Special).—The opposition to reciprocity grows in every quarter and it is plain now that the Liberals have made the blunder of their lives.

Montreal is slower in speaking than Toronto, but it is more opposed to the deal than even Toronto.

Need Not Come Back. It is now known that only Sir Wilfrid Laurier and Fielding and Patterson of the cabinet knew anything of the deal until it was signed.

It is now known that only Sir Wilfrid Laurier and Fielding and Patterson of the cabinet knew anything of the deal until it was signed.

So that the whole country has been committed to a transaction without any consultation whatever, and that Canada is only to be saved from their blunder by the inaction of the American senate.

It is said Sir Wilfrid Laurier will speak early next week. In all likelihood a motion will be made in the commons by some of the Conservatives of reciprocity to have the proposal given the six months' hoist.

The government are planning a retreat in the meantime. The Conservatives as a body are in distress over the situation, and they are getting ready to say that the thing was done over their heads.

STRUCK DOWN BY AUTO THEN LEFT TO HIS FATE

Edward Jacobs in Hospital Seriously Hurt—Reckless Motorists Sought.

As a result of being knocked from his bicycle by a speeding automobile on Bloor-street near Clinton, at 10:30 last night, Edward Jacobs of 289 Clinton-street is lying in Grace Hospital seriously injured.

The injured man was hurried to the hospital in a semi-conscious condition and put under an anæsthetic. Jacobs' scalp was cut, while a big gash showed over his right eye, and his right leg was broken below the knee.

At an early hour this morning the hospital physician said that the man was out of danger, the recovery from his many injuries would be very slow.

CRYING FOR A NEW MOON

WASHINGTON, March 3.—Having abandoned seeing reciprocity passed in present congress, President Wilson to-day, after returning in his usual long afternoon walk, declared that he had noticed the setting sun, but that he also had seen a new moon in the heavens.

Big Public Meeting in Brockville Denounces Reciprocity—Much Enthusiasm Shown.

BROCKVILLE, March 3.—(Special).—"Be it resolved that in the opinion of this meeting, the proposed reciprocity agreement will be a serious menace to the best interests of Canada and the British Empire, and should be opposed by all true Canadians of party allegiance."

The foregoing was the substance of a resolution adopted amid great enthusiasm at a largely attended mass meeting of the citizens of Brockville and surrounding districts, held to-night at the Victoria Hall, and presided over by H. A. Stewart, K.C.

The various phases of the pact were set forth to an audience that gave a patient and intelligent hearing in the home town of the minister of railways and canals.

FOR WOMAN'S SUFFRAGE

Representative Deputation to Wait Upon Premier This Morning.

Sir James Whitney and colleagues of the Ontario Government will receive a deputation at the parliament buildings at 11:30 this morning in support of the Studholme-Proudfoot Suffrage Bill.

The deputation will include Dr. Augustus Stowe Gullen, president Canadian Suffrage Association; Dr. Margaret Gordon, president Toronto Suffrage Association; Miss Annie A. Gray, president Teachers' Suffrage Association; Dr. Margaret Johnston, president Medical Alumnae of the University of Toronto; Mrs. Flora Macdonald Denison, president Women's Suffrage Headquarters, Ltd.; Mrs. F. C. Ward, president W.C.T.U.

OPENING OF CEMENT SHOW

Exhibits at Armouries Will Include Most Modern Devices.

From present indications the Cement Show which will open at the St. Lawrence Arena on Monday evening at 8:30 o'clock, promises to be one of the most notable affairs of the kind ever heretofore essayed in Canada.

Sentiment Didn't Save Him. Despite the fact that he had given "his old, best mother" \$50 last summer, Joseph Vance was sent to the Central Prison for four months when it was shown in police court yesterday morning that he had assaulted and robbed James McMillen.

To Protect Buyers. Hon. J. J. Foy received a board of trade deputation yesterday requesting that an individual or company selling Ontario stock on bloc should be required to make a statutory declaration respecting the number of his creditors.

THOUSANDS JOIN IN MONTREAL PROTEST

Anti-Reciprocity League a Popular Movement in Metropolis of Quebec—Monster Meeting to Be Held in About a Week—Sir William Van Horne on List of Speakers.

MONTREAL, March 3.—(Special).—The speeches of Hon. Clifford Sifton and W. Gorman have stimulated the opponents of reciprocity to active work here, and it is understood that in a few days a monster meeting of protest will take place in Montreal.

The following is the declaration they sign: 1. I am a citizen of the Dominion of Canada, and a British subject.

2. I am opposed to any commercial reciprocity agreement between Canada and the United States at the present stage of our development.

3. I believe that it is in the best interests of the Dominion to conserve her vast resources for the benefit of her own people, and that we should maintain an absolute independence of action in respect to such measures as we may find it advisable to take, in order to market our products in the highest finished forms, employing the maximum of labor within our own borders.

4. I agree to use every legitimate means to prevent the placing upon our statute book of the reciprocity agreement now under discussion in the house of commons at Ottawa, and if same should become law to work for its abrogation at a later date.

LIBERALS ORGANIZE PROTEST

Campaign Against Reciprocity to Be Launched at Mass Meeting.

While the proposed reciprocity agreement with the United States has already received many smashing blows, it is felt to assume that the protest meeting called for Massey Hall next Thursday night will be one of the most important public demonstrations of feeling yet drawn forth.

The official announcement says: "The meeting will inaugurate a non-party campaign of opposition throughout Canada to the agreement now before parliament, in which all persons who believe that the commercial and political status of the Dominion should not be jeopardized are earnestly invited to co-operate."

NO SPLIT ON RECIPROCITY

Premier Declares That Proposed Resolution is Solidly Favored.

Sir James Whitney was indignant yesterday over a report that the Conservative caucus in the legislature was divided on the question of introducing a resolution in the legislature condemning the reciprocity pact.

One of the largest hotel strikes in recent years in Toronto started yesterday, when over 50 of the waiters of the King Edward Hotel walked out without giving any notice.

As provided for in the Lemieux Act, after application has been made to the government for a board, a condition of statu quo will prevail between the contending parties, until a decision has been reached by the conciliators.

For the Men Who Desire the Very Finest in Shirts

A Stock of Some of the Most Elegant Qualities Procurable

The man who aims at achieving that air of elegance and distinction that is invariably associated with clothes, that are rich yet selected with taste, will appreciate the care and good judgment shown in the selection of the stock of shirts, as well as other furnishings now on display in the Yonge Street Annex. There are procurable here some of the most elegant shirts in the country, and in the rare quality of material used, in the great care shown in the finish, and particularly in the perfect fit, there is a distinctiveness about these shirts that recommends them to those who desire the very finest procurable.

Particularly pleasing are those with the soft turn back cuff and collar band—a style that's becoming most popular, especially for early Spring wear.

This section is devoted entirely to the very high class qualities, being entirely apart from the regular furnishing department. Here you'll see representatives from the best factories in England, Austria, the States and Canada. If you prefer the neat, quiet effect there are plenty here from which to choose; if you favor the more elaborate tucked effects here are beautiful styles in figured and striped designs. The sizes are 14 to 17½, and perhaps a most pleasing feature of the entire display is that prices are in keeping with the good values you'll find in the Store. Prices 2.00 and 2.50

The Elegance of the New Ties for Spring

The latest arrivals at the Yonge Street Annex show a beautiful effect.

The very last word from Styledom in Men's Ties is now to be seen in the Yonge Street Annex. The Ties are the long open-end style, made of a beautiful quality of silk, the feature being a diagonal bordered stripe on plain grounds. The colors are mostly rich subdued tones, made more beautiful by the high-grade quality of silk employed, and for the young man seeking the height of elegance in ties for spring there could be no more pleasing selection. Price is, each 2.00

Formal Spring Display of Blouses and Petticoats Takes Place Monday

Presentation of New York and Paris Styles in a Magnificent Showing of Waists and Underskirts.

In a setting of green foliage and Helen Taft pink—a background subtly suggestive of the verdant season and the popular model—in this setting will be revealed on Monday all the loveliness of fashion's creating in the world of blouses and petticoats. Chiffon, beaded and embroidered in rare and delicate design; mull, voile, and lawn hand-wrought into exquisite softness and beauty of effect; and linen, cut and tailored with immense smartness of simple line—all this will be found in the offering of French and American waists. All the soft tones of green and grey and tan, the sundry tints of blue, and the pale evening shades of pink, sky, Nile, and helio add their variety

to the large showing of black underskirts. As an interesting exhibit of two indispensable items in women's attire, the display should be widely appreciated.

Special Buying Inducement of the Display

As a particular price attraction of the display there will be offered on Monday a plain tailored shirt-waist, in white linenette, the fronts embroidered and showing four wide pleats; laundered collar and cuffs; sizes 32 to 42. Very specially priced at 1.25

THE T. EATON CO LIMITED

WILL ENLARGE POWERS OF HYDRO COMMISSION

It Will Have Entire Jurisdiction Over Poles, Conduits and Wires.

Sir James Whitney made an instructive statement with respect to the privileges of members at the sitting of the Ontario Legislature yesterday afternoon. An important measure defining the future authority of the hydro-electric power commission was introduced by W. K. McNaught. Considerable progress was made with a number of local municipal bills. Mr. McNaught moved the first reading of a bill to amend the Hydro-Electric Power Commission Act. It is designed to give the hydro-electric power commission absolute jurisdiction over the location of poles, conduits and wires of any municipal corporation using power furnished by the hydro-electric commission.

No Restrictions on Poles.
It states that in all cases where, in the opinion of the commission, it is desirable that conduits should be laid or maintained on lines of poles erected upon any street on which other conduits or poles have previously been placed, the commission may order that, notwithstanding any law to the contrary, the poles, conduits or wires of any municipal corporation using the commission's power may be placed at such positions as the commission may order, notwithstanding the proximity of existing conduits or poles.

Better Than Spanking

Spanking will not cure children of wetting the bed, because it is not a habit, but a dangerous disease. The C. H. Rowan Drug Co., Dept. 445, Chicago, Ill., have discovered a strictly harmless, yet never failing cure for this distressing disease and to make known its merits they will send a BIG PACKAGE securely wrapped and prepaid ABSOLUTELY FREE to any reader of The World. This remedy also cures frequent desire to urinate and inability to control urine during the night or day in old or young. The C. H. Rowan Drug Co. are an Old Reliable House, write them today for the free medicine. Cure the afflicted members of your family, then tell your neighbors and friends about this wonderful discovery.

terest that two lines of poles should not be erected, the commission may order that stronger poles be erected, to be used by both systems. The municipal corporation must erect the new poles and remove the old ones, making all necessary connections, at its own expense, and shall indemnify the existing company for any expense in connection with the change. The substituted poles become the property of the private corporation, subject to the right of the municipal system to string and maintain wires thereon. The commission's power is extended to cover removing of poles and conduits.

Mr. Studholme Vindicated.
Allan Studholme was exonerated by the government regarding the complaint of one of the members of the member for East Hamilton had been quoted in the newspapers as having disrespectfully spoken of the members of the legislature. He had been reported as saying that the local parliamentarians were a "lot of loafers" a term which Sir James Whitney said, in opening the question, the house was not familiar with. "But," added Sir James, "I have examined into the question and I am convinced that the honorable gentleman did not say such things."

Stoves County Grafting.
The provincial treasurer presented a measure which will prevent the fraudulent collection of government bounties of \$15 a head for wolves by merely producing the ears of a critter. It has been found that ears were clipped from animal's hides that were not bountiable. Mr. Matheson now proposes that when a bounty is produced, and upon suggestion of Mr. Gandy the ears will be left intact.

H. P. Innes (N. Norfolk) withdrew his bill to do away with "conditional sales." Hon. J. J. Foy requested the withdrawal because the bill would upset some of the clauses in the proposed amendment to the chattel mortgage act. Mr. Innes will have something to say when this act is considered. His aim was to do away with a system that was an imposition upon the farmer,

mechanics and laborers. Manufacturing plants had been sending agents to sell articles to men who were unable to buy, and inducements of considerable time and easy payment would be held out. It was represented so nicely that people were persuaded to buy not only something they could not afford, but did not really want. The ownership remained with the vendor and no right to the article was held by the purchaser until it was fully paid for. If he was unable to fulfil the entire contract he lost it and the money paid in.

PRACTICAL COURSE IN LAW

Osgoode Legal and Literary Society Suggests Radical Change.
For about 20 years the constitution of Osgoode legal and literary society has been intact. Last evening, after much discussion the moth and rust were swept aside and by a unanimous vote the society decided to introduce a modern constitution. The proposed change is supported by leaders in the profession and would introduce into the law school course a branch giving the students careful instruction along the lines of actual practice—a system in vogue in several of the leading universities in the United States.

SHEFFIELD CHOIR IS COMING

Famous Organization Doing Valuable Work in Promoting Empire Spirit.

One of the most important musical events in the musical history of this country will be the forthcoming visit of the Sheffield Choir, which will take place beginning about the middle of March. It is interesting as being of the utmost importance to the development of choral singing throughout the British Empire. It is a task of no mean magnitude to take a body of 200 vocalists on a tour throughout the British dominions, visiting all the great cities and endeavoring to foster the cause of musical development. Yet that is the idea that has been in the mind of Dr. Harris for the past ten years, and which is now being brought to fruition.

It is difficult to estimate the results of this great enterprise. Apart from the artistic effect of the tour there is the further result to be obtained of the bringing into contact the various parts of the empire, and this can by no means be exaggerated. It is generally admitted that the promotion of the spirit of international brotherhood is one of the best means of bringing about the entire cordiality, not only with foreign nations, but between the integral portions of the empire. Consequently the forthcoming world's tour of the Sheffield Choir is bound to have the most far-reaching effects not only in fostering a unity of sentiment, but also in promoting greater commercial respectability with England.

Teachers to Visit Gotham.
Inspector J. L. Hughes left last night for New York to make arrangements for the large party of school teachers who will visit that city on April 14 next. This will be the 14th excursion of the Toronto teachers. All that is worth seeing in and around New York from an educational standpoint will be shown to the teachers. "It is likely that we may indulge in a boat ride to Atlantic City," stated Mr. Hughes. "Many of the teachers have never been on the ocean. Over 300 applications have already been received from teachers who intend to go on the excursion to New York next April."

What's Worn in the Cities Must be Right in Style

Tense interest is taken everywhere in the progress of Semi-ready Tailoring. There must be good and sufficient reason for the tremendous growth of this business. We tailor high-quality goods. We put price and guarantee on them. We guarantee their standard, uniform value. We naturally evidence our belief that Semi-ready clothes are tailored better than the best tailor's best. Over a quarter of a million well-dressed men agree with us. There are merchants who say that there's no profit to them in high-quality tailoring at \$15.00 and up. There is. We prove it every way. Small profits and High Quality make lasting customers. We depend on a big volume of trade. ED. MACK, LIMITED 81 Yonge Street

swung on the first one that came through the door. "Come in," I roughly yelled, and the door opened, and there entered a man whom I had never seen before. He turned out to be the Rev. Dr. Miller of the Reid Memorial Baptist Church, on William street.

Asked how the present regeneration came about, these are his words: "Well, it all happened this way: I had been on a tour, one of those old-time ones that lasted a week or more. My wife and myself at that time had a few rooms at the corner of Canal and Commercial streets, and we boarded a number of the girls who worked in the concert hall down that way.

"Well, one day my wife was hurt—badly injured, I had been full for some time, and wasn't in a very amiable mood. The doctor came and went away again. I had been awakened to let him in. Then came another fit of slumber. Finally came a third interruption, and I was ready to

"Toughie" or some other name of that kind added to with oaths, and years, and I stopped just as I was about to rip out a hot one and tell him to go some place where snowballs don't last more than a million years. But there was something about his kindly face and his quiet ways that stopped me, and I sat down shamefacedly, and said:

"You can see the old woman if you want to. I am going back to sleep, and I started for the couch.

"But I couldn't sleep any more. I was sore at the minister; I was sore at my wife, at the chorus girls, at myself, at the whole world, and my head was aching like blazes.

"Then spoke up Mr. Miller again, asked me if I had ever thought of changing my ways, of reading the Scriptures, of trying to lead just a little bit better life. I didn't feel like lending any kind of a life just then. In fact, I was nearer a suicide's grave at that moment than I was before or since. I didn't tell Mr. Miller that, but I did tell him that I hadn't thought of religion or the Bible or the Scripture for years.

"When I came up here an hour ago, said Mr. Miller, I was told not to dare put my foot on your stairs; that you had been on a tear, and that you were in an ugly temper, and that it was a good bet that if I came in you would toss me out again through the window. But I took a chance, and you don't look anything like or act anything like the rough and tough I expected.

"I don't know whether his words tickled my vanity or not, but when he began reading the fifth Psalm, and a few weeks later I was converted, and so was my wife, and since then, please God, we have tried to do the best we could to atone for our past, and to help others to see the light."

Every Sunday now this ex-fighter is to be found in some pulpit. He is attached to the Reid Memorial Baptist Church, whose pastor is the same man, Mr. Miller, who converted him.

Well Attended Sale At the Repository Extra Sale Next Week

The week-end sale at Burns & Shepard's Repository yesterday was well attended, but there were not as many buyers present as the managers would be pleased to see. There was a good deal of business done, still, prices were far from satisfactory, and the dealers complain that they cannot get nearly as much for their horses here as the breeders ask for them in the country.

There were some grand specimens paraded yesterday, but prices were too low to let a dealer out. A great many of the cheaper class of horses were sold, and some of the extra good ones, but trade was somewhat slow.

W. Fawcett of Alliston bought a carload for shipment to Leamington, Sask., at prices ranging from \$10 to \$60. They were a good, fair lot. Jos. Judge of Halifax, N.S., bought several for shipment to his home town—roan geldings, a little under-sized, but a good driver, \$6.50; brown mare, \$8.50; black gelding, \$10.50; brown gelding, \$11.50; SATURDAY MORNING, MARCH 4, 1911

CITY POWER SITUATION.

The Telegram has done good service in emphasizing what it states to be the main cause of delay in the completion of the city's power plant. That, it says, is the desire to buy out the Toronto Electric Light Co. We have already stated that we do not believe the Light Co. will sell at a figure which would justify the city purchasing the property.

This, however, has only an incidental bearing on the question of delay. The engineers of the electrical department are not supposed to have been following the negotiations with the Electric Light Co., and moderating or hastening their work according to the cheerful or dismal prospects of the "widows and orphans" who constitute Sir Henry Pellatt's corporation.

The Telegram states that the delays have been due to these negotiations. We take it then that the city's electrical engineers were instructed to put on the low speed or the high if the deal has really been due to these fluctuating negotiations for the last two years. The Telegram seems to know about this, which we confess we don't, and the people will unquestionably want to know. Who has been giving instructions to the engineers to go slow and delay the construction work on the city plant on the off chance that Toronto might be willing to pay through the nose for the Electric Company's outfit? The city made a fair offer of \$135 a share for the Electric Light Co.'s stock in the reign of Mayor Oliver. The Telegram recognizes that "disaster is certain to wait upon them when the city's electrical department commences the serious business of competition."

Citizens are not concerned about the disaster, having done all that could be done to prevent it, they are mightily concerned about "the serious business of competition." That is the main point which cannot be covered up by concrete poles or delay through negotiations, or the alleged incompetence of The World, or the loyalty of Mayor Geary to The Telegram, or any other issue.

When is "the serious business of competition" to begin? Why has the city not co-operated with the other municipalities in attending the joint meetings of engineers, standardizing the equipment, and availing itself generally of the expert advice of the Hydro-Electric Commission?

There is no object in multiplying questions except to press for an answer to the main one. When can the city take the power which the commission is now ready to deliver?

WE WILL SEE. "No case, abuse the attorney." It is the old game, and we are not surprised that such an old parliamentary hand as The Telegram should adopt the policy. The artificial omniscience of The Telegram on this occasion, the measured by the ton, is not equal to a pound of fact. The news columns of The Telegram are concise enough—

"Engineer won't talk, Mayor Geary is silent." "It is worth while wasting time or thought on the chatter of a journal that prints the following" asks The Telegram in its best big bludgeon style, so popular and effective on the village green. Why no, of course, certainly not. But then The Telegram proceeds to devote three columns of time, and what The Telegram supplies as "just as good" as thought upon our "chatter."

There can be no harm in facing the facts at the present moment, which will have to be faced later. The Telegram thinks that a scientific delivery of power is not as effective as a commercial delivery. Science is usually more accurate than commerce, and as the only thing lacking to make the scientific delivery on Feb. 23 was the inability of the city to take delivery, we do not see what good it will do to call the announcement of the readiness of the power commission, and the unreadiness of the city to receive it, "chatter."

There is not the slightest necessity for making a personal affair out of this question, as The Telegram seems anxious to do. The World in a very mild article called attention to the serious character of the city's power situation. We blamed no one in particular. Mayor Geary and those to whom the matter, and assumed a personal tone with regard to it. The World did not know what it was talking about, he said, and The Telegram agrees, mainly, we believe, because The World got there first. The World was told it did not know what it was talking about a little while ago, when it stated

that the hydro-electric rates were about to be placed under the railway board's control. We regret to have to oppose our natural ignorance to The Telegram's artificial omniscience. However, we will set.

EFFICIENCY THE BEST ECONOMY.

A proper business education, we are told by our useful contemporary, would have taught us that the proper way to treat prospective customers and makers of contracts was to tell them when they asked for prices that they really must go to the rival concern, as there would be a danger if prices were quoted, that the rival would cut below them.

When we reflect upon this we confess it takes all the sting out of the hard things that have been said. The hydro-electrical power commission was able to estimate its expenditure, base its rates on that expenditure, and finally justify them. We do not see why the city should not have been able to do as much. And we do say that it would have been cheap to have it done even by a \$25,000 man.

A CENSORSHIP COMMISSION.

Nothing can be more undesirable than the periodical advertising through police prosecutions of the literature which lies on the borderland of art and science, philosophy and psychology, which has been sanctioned by the scholarship and taste of all nations, and which embodies a range of human experience which cannot well be obliterated without risk. Such literature is admonitory to the wise as well as tempting to the foolish. It has to be reckoned with.

But the classical examples of such literature are well-known and as easily distinguished from the prurient and debasing imitations. There should be little difficulty in deciding what belongs to one class and what to another. No jury of scholars would have any difficulty over such a question.

The suggestion has been made that a competent commission should be set up to which such problems might be referred. The police can only administer the law as it exists. Under the bald phrasing of the act they should as readily seize Shakespeare's "Venus and Adonis" as the Decameron, and Defoe's complete works with De Maupassant's. But they make fish of one and fowl of the other, and they can hardly be blamed.

There must be some standard of discrimination. When the police have any doubt they ought to be able to refer to such a body and if the book or books be regarded as undesirable booklets should be warned before being haled into court. As the law is now administered there is not a firm in the city selling general English literature which might not be subject to prosecution.

The matter should be dealt with, and dealt with exhaustively, so as to be satisfactorily settled. Convictions in such cases would be outrageous until the position is properly defined.

ONTARIO AND WOMAN SUFFRAGE

Much of the original trouble between the British suffragettes and the present government arose out of the refusal of Premier Asquith to receive the deputation who were desirous of presenting their petition for redress to him in person. The ladies championing the cause of woman suffrage asserted their right to be heard and its denial led immediately to the determined efforts to board the prime minister in his parliamentary den with consequences which are now matters of history. Sir James Whitney has more gallantry and moral courage than the imperial premier and has always readily responded to the request that the ladies of Ontario who want the franchise should be given the opportunity to plead their cause face to face with the leader of the party in power. Doubtless Sir James found these interviews not the least pleasant episodes of his political career and has been anticipating the visit to be paid him to-day without any qualms other than the conclusion that the reform so ardently and assiduously pressed is one which ought to be conceded. At 11:30 this forenoon in the parliament buildings the premier will again be asked to introduce a bill extending full franchise rights to women and with the experience of Australia and New Zealand and various states of the United States to profit by, he should have no hesitation in lending a receptive ear to the voice of reason and justice. No community that has admitted women to the electoral rolls but has benefited morally, politically and socially.

BRITISH AMERICAN ASSURANCE COMPANY (FIRE).

Elsewhere in this issue will be found the statement for the year ending Dec. 31 last presented by the directors of the British American Assurance Company to the annual meeting of shareholders. The premiums totaled \$1,664,868.45; the losses reached \$822,094.89 and the expenses \$857,237.70, these together amounting to \$1,549,327.39. The difference of \$115,540.06 with \$45,243.45 of interest and other receipts made the profit on the year's trading \$168,812.67. The president, Hon. Senator Cox, was enabled to report that notwithstanding a succession of serious fires and the more than normal loss sustained through the conflagration at Campbellton, N. B., and upon railroad property, the loss ratio upon the company's business was just about the same in volume as that of the previous year. Two half years' dividends at the rate of 3 1/2 per cent. each have been paid, and the prospect for the future was declared very satisfactory.

When the Cook Leaves

don't fret or scold—lay in a good supply of Shredded Wheat—the food that is ready-cooked, ready-to-serve—contains all the nutrient in the whole wheat grain, steam-cooked, shredded and baked a crisp, golden brown—a food that is good all the way through—tempting in its nutlike flavor—a delight to eat and to serve.

SHREDDED WHEAT BISCUIT

is without doubt the most perfectly balanced, most easily digested food ever given to man. It is not flavored or compounded with anything—not a "patent-medicine" food—not a "pre-digested" food—just plain, simple, wholesome, steam-cooked whole wheat, shredded and baked. It is better than mushy porridges because you have to chew it, thereby getting from it all its rich, body-building nutriment.

Try it for breakfast with milk or cream (hot milk in Winter). Being in biscuit form it is easy to prepare a nourishing meal with it in a few minutes in combination with fresh or stewed fruits. Always heat the biscuit in oven to restore crispness before serving. Two Biscuits with milk or cream and a little fruit make a complete nourishing meal. Your grocer sells it.

TRISCUIT is the Shredded Wheat wafer—a crisp, tasty, nourishing whole wheat Toast, delicious for any meal with butter, cheese or marmalades. Always toast it in the oven before serving.

J. HERBERT SMITH, Manager.

W. E. FINDLAY'S AMENDMENT
To Shorten Playing Field; Also to Have Ten Instead of Twelve Players.

President Murphy received the following amendment to go before the N.L.U. meeting on April 8, from W. E. Findlay of Montreal:

"I beg to give notice that I will move at the annual meeting of the N.L.U. on April 8 next, that the teams shall be composed of ten men each, instead of 12, and that the playing field shall not be less than 120 yards or more than 180 yards in length, the distance from goal to goal to be 100 yards, the width of the field not to exceed 80 yards (Wm. E. Findlay)."

The present rule says that the goal posts must not be less than 120 yards apart, with no restriction how wide or how long the playing field may be.

Charles Quercio of the Tecumseh appears to have a high opinion of Mr. Findlay and believes there may be a lot in the amendment. He was not prepared to say which way Tecumseh would vote on the matter, as it was intended to hold an executive meeting at an early date, when the amendment in question would be thoroughly discussed.

The first question to arise is, would the playing of ten men improve the game or would it be a detriment. As far as the change in the grounds is concerned, the M.A.A. grounds in Montreal will be the only ones on which much change will be made, as the other fields in the union are not much larger than the distances mentioned in Mr. Findlay's amendment.

The reduction of players would mean two salaries less to pay, also traveling expenses on the trip. This is a consider-

MANY CLOSE FINISHES AT JACKSONVILLE RACES

Effendi, Well Played Favorite, Lost Feature to Third Rail—Jockey Gullet Suspended.

JACKSONVILLE, March 3.—Only a fair lot of horses went to the post to-day, but close finishes resulted in most of the races. Effendi, the heavily-played favorite in the feature race, proved a disappointment. Third Rail won the race, with Star Blue second. The judges indifferently suspended Jockey Gullet and refused further entries from W. Y. Conran.

FIRST RACE—Breeders, purse \$400, three-year-olds and up, seven furlongs: 1. Flarney, 109 (Musgrave), 9 to 2, 8 to 9 and 4 to 5.

Cornwall Lacrosse Club.
CORNWALL, March 3.—(Special).—The annual meeting of the Cornwall Lacrosse Club will be held on Wednesday evening of next week, March 8, when the reports of last year's business will be submitted, officers elected and general business transacted.

There will be several contests for office, despite the fact that a large number of the gentlemen nominated have resigned. The following names will appear on the ballots: President—J. E. MacPhee and Geo. A. Siles.
For first vice-president—W. T. O'Neil, J. A. Cokers and G. A. Stiles.
For second vice-president—W. T. O'Neil and A. L. Killaly.
For committee—G. H. Barber, A. L. Killaly, W. T. O'Neil, J. W. McLeod, G. A. Siles, J. A. Cokers and F. Throckmold.
R. E. Stetinger has been elected treasurer, and E. J. Cleary secretary, by acclamation.

The following who were nominated had their names withdrawn: J. B. Atchison, D. G. McDonald, J. B. Brodie, W. V. C. Burns, Dr. Knight, George A. Milnen, W. Fitzgibbon, P. J. Lally, T. E. Fletcher and J. A. MacCormick.

Those who are nominated for more than one office have more than one chance of being elected.

British United Notes.
All members of the British United Club are urgently requested to attend the general meeting on Sunday, March 5, at 3 p.m., in the clubrooms, 499 West King street, as there is some most important business to be discussed.

A number of boxers in training for the Canadian championships, under the hands of Geo. Brand and Wm. Turley, are likely to be quite a few classes when the event comes off.

The wrestlers are also carrying on the good work, and are being well looked after by Jacobs and Johnson.

The club purposes running a smoking concert in West in the month when some good decision boxes may be put on.

All members are invited to enter in the competition for the Sutton Billiard Trophy, or any other of the games now being held, are requested to come up and "show their heats off, or they will be scratched."

Scratch's General Office Baseball Club.
The general office baseball team of the R. Eaton Company (Ltd.) had an organization meeting on Thursday evening, when the following officers were elected for the coming season: President—Mr. R. Y. Eaton.
Hon. president—Mr. J. J. Vaughan.
President—Mr. E. W. Robinson.
Vice-presidents—Messrs. H. Cummins and H. Laurie.
Secretary-treasurer—W. J. Smith.
Manager—Allan Stuart.

The majority of last year's players are on hand, and with the addition of some new blood, prospects are exceedingly bright for the coming season.

We shall have our usual large number and variety of classes for our two sales, but we wish to call your attention in particular to the two carloads of lumber horses advertised below. These are the FIRST LUMBER HORSES OF THE SEASON, and they, as described below, will be sold here on

MONDAY NEXT
A CARLOAD OF LUMBER HORSES FROM THE PARRY SOUND LUMBER CO.
AND
A Carload From The Petersen Lumber Co.

These horses are good young horses, in the most perfect working condition, having been worked right up to date for their respective owners. The lot includes some very choice mares, some of which are in foal. They all have the size and weight, and are consigned to us only on account of their work in the bush being finished. THEY WILL BE SOLD ON Monday for the high dollar.

CONSIGNED TO US BY DR. J. H. MEDD, V.S., DUNGANNON, ONT., a MATCHED PAIR OF ROANS, 4 and 5 years old, weighing 2500 lbs., sound and right. This is a beautiful team, and is to be sold on Monday. The owner advises us that these are two out of a load of exceptionally high-class heavy horses he is sending us for positive sale on Monday next.

AND
CONSIGNED BY A CITY GENTLEMAN who has no further use for him, a Bay Gelding, 6 years old, a high-class driver and perfectly broken and quiet in all harness. We have received positive instructions to sell without the slightest reserve.

CONSIGNED TO US WITH A LOAD OF HORSES, a Jersey Cow, 6 years old, fresh calved two weeks. This cow would be very suitable for a private gentleman, and will be sold for the high dollar.

AND ON MONDAY AND THURSDAY WE SHALL ALSO SELL a number of serviceably sound workers and drivers consigned to us by city people who have no further use for them, also an unlimited number of Robes, Blankets, Sleighs, Buggies, sets of New and Second-hand Harness, etc., all sold without reserve every sale day.

We Sell Strictly on Commission
COMMISSION: 5 per cent. ENTRY FEE: (if not sold), \$1 per horse.
ALL HORSES sold with a warranty are returnable by noon the day following day of sale, if not as represented.

Mistake Almost Fatal.
A mistake in a bottle almost caused the death of Lillian O'Neill, 305 East Queen-street, on Thursday night. On the prompt attention received at St. Michael's Hospital saved her life.

In mistake for some medicine she took some of a solution of bichloride of mercury. When she discovered her mistake she called for help, and was hurried to the hospital in the police ambulance. Her condition is much improved.

Annoyed His Wife.
A. Allen was fined \$20 and costs for annoying his wife after an order of protection had been granted. He had been coming to the house and threatening to kill her if she refused to see him. He was fined in police court yesterday morning.

HOW YOUR AUTO WOULD APPEAR WITH KENNEDY SPRING WHEELS

PART OF OUR PROFITS.

The steel rim can be rolled out and should be cheaper than wood rims. The hub is malleable iron; it will be moulded and should be cheaper than a wood hub. Each spring spoke, it is estimated, can be stamped out at a cost of about 1 cent. Allowing for material, etc. 10

Making the cost per spoke 11 Or for a set of new spokes 1.60 The estimated cost to manufacture a spring wheel is less than 2.00 Profit over the cost of a wooden wheel, about 1.00 According to statistics, there are over 400,000 wheels manufactured for new vehicles each year; provided we get one-quarter of this trade, it would represent about \$100,000 profit, or about 50 per cent. on our entire capital.

Only a limited number of these shares are offered for sale at \$10.00 each, payable 20 per cent. with the application and 20 per cent. each 30 days until paid in full. The Company reserves the right to cancel all or any subscription.

NOTE—Each shareholder investing \$1,000 or more in this Company will receive a new spring wheel buggy within two years from the time of their subscription until 15 buggies are distributed. Each shareholder investing \$500 or \$1,000 will receive one spring wheel wagon within two years from the time of their subscription until twenty wagons are distributed. These offers are for advertising spring wheels. They will become our silent salesmen. Auto spring wheels will be given instead of buggies and wagons if desired, but without rubber tires.

For Wagons.

Tetrazzini's Triumph

There were no two opinions in Massey Hall last night about the wonderful voice that had gathered 3500 people to hear it. Tetrazzini is one of the great singers of the world. The great singers do not come in choirs, but only one or two in a generation, and it is idle to attempt to reckon the merits of one generation with another. Those who heard Jennie Lind could never admit a rival, even in Tietjens. Those who came after and heard Tetrazzini could admit no supremacy. The great singer last night, from one of the finest audiences Toronto has ever seen, representative, critical, musical, fashionable, gave full assurance of her popularity. She was good-natured enough to respond to four encores, and took part in singing the national anthem at the close.

Much curiosity was felt about Madam Tetrazzini's personality. She is much more charming in appearance than her photographs suggest, and her playful coquetry and naive pleasantries established her on the best of terms with her audience. The finest of astonishment at the sight of the magnificent audience when she first entered was an excellent little bit of flirtation. This human side of Tetrazzini makes a strong appeal to people everywhere. People will remember her rushing forward with hastened steps, hobbie skirts to the contrary notwithstanding, to receive her gorgeous bouquet, when they have forgotten some of her roulades and trills. They will remember her blue eyes given with the wonderful golden trills, the work that covered it and the great bows on the left front of the skirt, and they can never forget the tipping cups across the big stage while the applause grew deafening. And when they remember these externals they will say thirty years hence—'You ought to have heard Tetrazzini.' She was the greatest singer I ever heard.

Some of us who can remember thirty years in the other direction might not quite agree, and yet few will be inclined to dispute the judgment that places her in the first rank. It is not a question of technique. There she is admittedly a superb, an supreme, as great as the greatest. It is a question

of tone and perhaps also of power. On the latter score no great singer of the last generation can challenge her. As the question of tone is largely one of taste, there is likely to be disagreement. Patti's voice was of the nature of the cornet at its best, its sweetest and mildest, and most velvety. Emma di Murska sang with the pure clarity of a flute at its best. In Tetrazzini's voice there is more of the quality of the clarinet in its ideal perfection than of the other two instruments. There is the subtlety of the reed, the power and penetration and also the carress and the plaintiveness which thrills. Perhaps there might be more soul in control of such a perfect voice, and one does not know whether Tetrazzini touches the heart as she does the intellect; but then she ambuscades one, and slips from a forte passage to the most delicate tenderness, and in the latter smoothness there lurks a tiny nook where pure music lies like dew in a flower. And when you have caught a glimpse of that, you are swept away once more on the soaring flights of the most florid vocalism one needs to hear. Cadenzas, trills, shakes, and a gift of staccato singing in which she is surely without a rival. If there is any music written that should suit her voice, it is Thomas's polonaise, 'If an Italian.' At the same time she showed in her singing as an encore of Mozart's lovely 'Vol Che Sapete,' a plaintive simplicity and depth and richness in her lower register which betrayed a capacity for tender feeling. The same evidence was to be found in the final encore, 'The Last Rose of Summer,' but it was the brilliance rather than the warmth that shone. It would be worth a quarter of a million to Tetrazzini to Pletcher's. But she would need the philosophy as well as the regimen.

Porcupine Miners Are Getting Below Surface

Diamond and Shot Drills at Work on Various Properties—Others to Start Soon.

Porcupine City, March 1.—(From Our Man Up North.)—Diamond and shot drilling to determine ore bodies and depth of veins in the district in various places, and at the rate the work is now being pushed, it will not be long till parts of the district, where some of the biggest and best appearing veins lie, will be well explored. A diamond drill was set to work on the Babylon claims near Gilles Lake. In an endeavor to learn what the big leads contain, so that there may yet be time to get in machinery should conditions warrant it. The Babylon claims are well located in a district where gold is found in big reefs.

Other properties where diamond and shot drills are at work are as follows: Rea Mines, shot drill; Crown-Chartered and Armstrong-McGilbon, diamond drill; Ross property, diamond drill; Foster, two shot drills. Drills were worked on the Holinger and Dome last spring.

Plans are laid to start drills on claims in Langmuir within a short time, and before long the public may know something more of this action. The work in Porcupine is getting rapidly to the point of finding out what lies beneath the surface in as many different localities as possible. Chas. Fox.

SPECULATIVE FEVER SLOWLY PASSING AWAY

Porcupine is Getting Down to Real Business—Camp is Coming to Its Own.

Porcupine City, March 1.—(From Our Man Up North.)—There are more good propositions lying loose around Porcupine to-day, for a man with a little money than there ever were, said an engineer to The World to-day, 'and an engineer to The World to-day, 'and just at this time, when the outside public are waiting for spring weather, to see the ground, as they term it, is the accepted time for the man with a little money to get into the district. 'At first when it was announced during January that big buyers were on their way to the gold fields, and when several buyers' agents were here practically bidding against each other, some of the prospectors and middle men were a bit chafed, and got the idea that to ask was to receive. That erroneous impression has passed and men are again sane in their views on gold-claim development. 'And the one who has spent some time here and knows the district is the one who is reaping the benefits. There were a few persons in Porcupine who did not get excited and pass into the chaotic state when several big leads were opened during the month of January, which has been named the month of 'big deals,' and those are the ones whom the money-man is able to deal with now. Working options are being granted more freely, and in the end the system which was in vogue, to get all you could and get it quickly, is passing slowly away. By the time the big rush comes in the last of April and the first of May, the one who has remained steadfast on the ground and quickly picked up the goods, will be the one who will reap big benefits. 'The camp is coming to itself,' he went on, 'and by the time the public are ready to come in to see what is here, the man who played the game quietly and unostentatiously will be the one at the top. He will be in a position to dictate terms, and the terms will not necessarily be outrageously ridiculous, as far as terms and prices are concerned. The man who wants to put in his money and develop will be given a chance. He will not be asked to bow to an edict laid down by an unthinking man who has had no experience in mining. 'When those who have the money to spend are given that kind of a chance, Porcupine will start up the ladder in real business. Then the crowds will come in and then Porcupine will give results.' Charles Fox.

Don't go too fast, young man, even if the road is smooth. If a man has a bad reputation it's easy for him to live down to it. The essential to domestic strife are a fussy husband and a nagging wife. It makes a mother mad if her son's wife is deeper in the social swim than herself. Here's another explanation: Perhaps Mother Eve started to talk before she started to think.

Reo

The car you are sure of

Buy the car that you know will do what you ask of it. Demand proof. You want reliability—the kind of reliability that belongs to the car of 1911. You want power, speed, smoothness, and particularly comfort. The Reo 10½ day-and-night record from New York to San Francisco proves conclusively that the Reo has all these qualities in high degree.

YORK PIONEERS' SOCIAL. Men who lived in York County when Toronto was called York, who had gone with the Queen's Own and 10th Royals to repel the Fenians in 1866, assembled last night in St. George's Hall at the annual social of the York Pioneers, to renew the acquaintances formed in the fifties and sixties. A fine-concert program was rendered by Mrs. Will Merry, Miss Alva Banks and Messrs. Harry Boulter and Frank Bemrose. Between each number of the program a ten minutes' interlude, in which the members got better acquainted socially, caused many of the hardy old pioneers to hold forth on the country and situations in the old days. Among those present were: President Daniel Lamb, Secretary J. W. Millar, Capt. William McLean, John Harvey, Capt. D. J. Jessop, J. G. Hughes, William Crocker, W. N. Eastwood, Alex. Wheeler, Inspector Stevens, Geo. H. Briggs and J. R. Mills.

Catholic Union Debaters. An interesting evening was spent in St. Peter's Hall last night, under the auspices of the Toronto Catholic Debating Union, when Albert J. Heck and Victor Conlan of St. Peter's C.Y.M.A., and A. Gorman and W. Cannon of the Riverdale Catholic Club, took part in a debate on the subject of 'Resolved, that a business education is more beneficial for a young man than a college education.' M. P. Roy, J. Colgan and J. S. Coughlin, the judges, gave the negative side the benefit of the doubt. A musical program was rendered by Miss Margery Conlan and Messrs. Victor Conlan, Cyril Costello and John Bradley. D. V. Reddin was in the chair.

Knights of Pythias. Last night the Knights of Pythias were entertained in the Temple Building by R. H. Wilson of San Francisco, who delivered the play, Damon and Pythias, in monolog. The gathering was held under the auspices of the various Pythian lodges of the city.

U. S. DECLINED TO ARBITRATE QUESTION

That Was Why Alleged Rights of American Fishermen in Bay of Fundy Are Not Included.

OTTAWA, March 3.—(Special.)—C. Jamieson (Digby) introduced a discussion in the commons today on the failure of the Hague tribunal's decision to apply to the Bay of Fundy, and asked by whose advice this important body of water had been omitted from the award.

Sir Alan Aylesworth said that the matter was closed when Lord Aberdeen in 1864 addressed a letter to the American ambassador at the court of St. James, where maintaining legal right of Great Britain to exercise foreign fishermen, agreed to re-assert the rights in so far as the fishermen of the United States are concerned.

Mr. Jamieson referred to the correspondence quoted by Sir Alan, to prove that such was not its meaning. He said the fishermen of the bay were anxious to know what their rights are. If the bay was British territorial waters, Canada has the right to control the fisheries from shore to shore. In time of trouble, the fishermen could be relied upon to fight for the empire, and it was the duty of the government to see that they got their rights. He believed that in this instance the government had failed in its duty.

No Arbitration.
Sir Alan Aylesworth said that the burden of Mr. Jamieson's complaint was that something had been given away in regard to Canada's rights in the Bay of Fundy. He would point, however, that whatever were Canada's rights before the negotiations, they were just the same today. The reference to the Hague tribunal did not affect the Bay of Fundy one way or the other, and there had been no arbitration in reference to it. The position of Canada might possibly be stronger today on account of a settlement of the other points dealt with by the award, but otherwise the position was not changed.

Reason for the Bay of Fundy not included in the negotiations, he said, was because the United States absolutely declined to arbitrate on this point. Great Britain, no doubt wisely, decided not to let this refusal stand in the way of a settlement of the other important matters involved in the fisheries dispute.

Polluted Streams.
E. N. Lewis introduced an act respecting drinking water, its purpose being to prevent cities and towns using the water of polluted streams without having it purified. The bill provides a fine of \$500 per day for municipalities which contravene the provisions of the act. Mr. Lewis referred

to the serious conditions existing in Ottawa as a result of the typhoid outbreak, and asked Sir Wilfrid Laurier to note the serious considerations which exist here and in other parts of the Dominion.

Martin Burrell asked if there was any truth in the Washington despatch to the effect that a Canadian minister had gone to Washington to confer with President Taft in reference to the reciprocity agreement.

Mr. Fleckinger replied: "No Canadian minister had gone to Washington."

J. E. Armstrong (E. Lambton) asked the minister of customs to withdraw a statement made in debate that the Dairywomen's Association of Western Ontario had approved of the reciprocity pact.

Mr. Madden (Cape Breton) supported the contention of Mr. Jamieson, and Hon. Mr. Brodeur moved the adjournment.

Music Notes

A unique and comprehensive collection of organ pieces, reaching to over one thousand compositions by old and modern writers is contained in the new Organ Syllabus, just issued by the Toronto Conservatory of Music. The collection is prepared by the musical director, Dr. Edward Fisher, outlines the scheme of the work and pays a well-deserved compliment to T. J. Palmer, the well-known organist, for his share in drawing up the syllabus. Composers of every age and style are included, from the great Sebastian Bach, Merkell, Rheinberger and Dr. Bull to Max Regner, one of the most advanced modern writers. Legitimate music expressly composed for the instrument forms the chief material drawn upon, although the collection strikes one as most thorough and cleverly arranged thru the various intermediate, senior and post-graduate grades of primary, junior, conservatory and university.

Organists should find the syllabus of great practical use and value, and a specification of the Conservatory Music Hall is included in its seventy-five pages. Miss Marie C. Strong will give a studio recital at the Margaret Eaton School of Expression on Wednesday evening, March 15. Several of Miss Strong's prominent students will also appear on this occasion. The program will be exclusively in English. Miss Strong is an earnest and enthusiastic advocate of singing in English, and her instruction is one and always tone, with an intelligent and comprehensive study of English diction.

Mr. Maclean Borthwick, the Scottish baritone, announces his first recital in Toronto to be given in the music hall of the Conservatory of Music on the evening of Tuesday, March 7, when he will be assisted by Mr. Richard Tattersall, accompanist. Tickets may be had at the office of the Conservatory, or of Mr. Borthwick. The program will be very attractive, embracing several compositions.

Mr. LeRoy Pelletier, who has been identified until recently with the E. M. F. Company as advertising manager, leaves Detroit next week for California where he will remain until spring. Mr. Pelletier has received from his recent illness and goes to the land of sunshine for a well deserved rest, following the most successful career ever enjoyed by a motor car advertising manager.

There is no question at all about the popularity of the E. M. F. "30" in Battleford, Sask., if the enthusiasm displayed by Chas. Angle over his 1911 model E. M. F. "30" is any indication. The factory was favored with a visit from this gentleman a few days ago. Says Mr. Angle: "I have driven this car over 6000 miles, over all sorts and conditions of roads and have never seen the slightest difficulty. It is an actual fact that I have spent only 75c for repairs during the season. The gasoline consumption is remarkably low."

"You'll sell 3 or 4 E. M. F. '30's" in our town in 1911," remarked Mr. Angle as he left the office. He returns to the west in a few days, and like all westerners, he is enthusiastic for next country.

That the E. M. F. "30" motor cars stand the test of time, hard usage, and thousands of miles of touring is exemplified by the following letter to the Detroit office from C. W. Williams of Bloomington, Ill.

"We are sending you a countershaft with gears for E. M. F. No. 1041. It is gratifying to me, and I know it will be to you, to learn that I have driven a car over 24,000 miles. While the gears are a little worn, I certainly have no fault to find with the car. No car, regardless of price, could ever give better service and stand the 'graff' as had the E. M. F. '30.' Put me down for one more 'booster' for your car."

THE SELLEW-ROYCE CARS.
Sellew Motors, Limited, is the addition to Toronto's manufacturing circles. This company was organized by Detroit and Toronto capitalists for the purpose of placing a big, a automobile on the Canadian market.

This is strictly a Canadian company. All the machinery has been purchased in Toronto and from Toronto dealers. All parts of the car will be manufactured here and everything that can be purchased in Canada will be obtained locally.

The Sellew-Royce, the company's handsome powerful car, built on unusual lines of comfort and convenience. It attracts unusual attention at the automobile show. In it are incorporated many of the features that have made the English Rolls-Royce car famous.

Proven Reliability. These cars are the advance type of mechanism and modern development of engineering science, with no "experiments" and no features that have not been tried and proven by scientific test. The motor, clutch and transmission are in one unit, and are simple, powerful and reliable motor, which cannot be thrown out of alignment by rough use or bad roads. Note the design and general arrangement; all unnecessary levers, handles, brackets are hidden. The chassis construction with its graceful lines and perfection in body building, the three-point suspension, the high tension magneto, the power and efficiency of the motor, the unique oiling system, the full equipment, the minimum of expense in operation, and a dozen other equally strong recommendations this car to a discriminating public.

Our Success at the Show

Our newspaper announcements and our exhibit and demonstrations have attracted a great deal of attention during the week. The special features of our car—full equipment, life-long guarantee, advanced 1912 features, reasonableness of price, design and construction—have appealed to the mind of interested buyers, and the results of the week have been exceedingly gratifying.

We are having a most successful exhibit, and are highly satisfied that we have a Car that is eminently practical and meeting the most exacting demands. Let us send you our Illustrated Catalogue.

AUTO BUSINESS WILL GROW.

Walter E. Flanders, president and general manager of the E. M. F. Company, makers of the E. M. F. "30" cars, is all out and optimistic, and makes the statement that it is his belief that the surface has only been scratched as far as automobile production is concerned.

"When the farmers and the people of the remote sections fully awaken to the wonderful possibilities of the automobile for utility purposes," says Mr. Flanders "then this great industry will develop even more rapidly than in the past. There is practically no end, so far as I can see, to the future use of the motor car."

PUBLIC HEALTH BULLETIN

M. H. O. to Distribute 40,000 Copies Monthly—New Hospital Rules.

Dr. Hastings, medical health officer, will soon commence the monthly issue of a public health bulletin. It will deal with communicable diseases and special attention will be paid to the prevalent contagious disease if there is one.

About 40,000 copies of the bulletin will be distributed at all the public and high schools and a number will also be mailed.

It is the intention of Dr. Hastings to have an investigation of the barber shops and similar places where careful methods are necessary in the interests of public health.

A new set of rules for the benefit of the physicians, nurses, and other attendants at the Isolation Hospital have been issued by the health department. Assuming that the infection is generally due to contact and that serial infection is of secondary importance, the rules emphasize the fact that the same care as regards cleanliness and disinfection should be observed in communicable diseases as in a surgical operation.

The estimates of the medical health officer, which were discussed by the board of control in secret session during the past couple of days, have been passed with a few deductions. The amount requested for milk and meat inspectors was slightly reduced, and there was a desire to cut down the printing appropriation. Regarding the latter, however, Dr. Hastings explained that it was for educative work in the tuberculosis campaign, and it was passed.

ANGELIC MISSION SERVICES

The 10-days' mission and series of special services, morning, afternoon and evening, which began in St. John's Anglican Church on Thursday night, showed a decided increase in interest and attendance yesterday, and reports from the various churches indicate a much greater attendance for the remaining days. The meetings close on March 12.

They are conducted as follows: St. Alban's Cathedral, by Rev. E. J. Donoherty of Norfolk, England; Holy Trinity, Rev. T. S. Davidson, Guelph; St. Stephen's, Rev. A. W. STRENGTH AND HAPPINESS FOR WEAK MEN

If you are losing the strength of youth, and can see evidence, from day to day, that your physical system is going to decay, you should, in common justice to your future happiness, take steps to check this.

Don't make the mistake of thinking that this can't be done; it can and has been done in thousands of cases.

Don't deceive yourself into believing that it is natural for any person to thus exhaust his power.

Nature is appealing to you every moment to save yourself. The slight pains that you feel; the momentary spells of weakness; the periodical loss of memory, dullness of brain, drowsiness—all point to the necessity of curing yourself now. I have a positive cure for you in my

Dr. McLaughlin's Electric Belt

It will make you strong. It will send the life blood dancing through your veins, you will feel the exhilarating spark warm your frame, the bright flash will come to your eye, and a firm grip to your hand, and you will be able to grasp your fellow-man and feel that what others are capable of doing is not impossible to you. This grand appliance has brought strength, ambition and happiness to thousands of men in the past year.

It is a quick and lasting cure for all Nervous Debility, Weakness, Varicocele, Rheumatism, Pains in the Back and Hips (Sciatica), Lumbago, Constipation, Indigestion, Weak Kidneys, Failing Memory, and all evidences of breaking down. It cures when all else has failed.

My arguments are good, my system is good, but I know you haven't time to study these. You want proof, and I give you that, and lots of it. When your own neighbors tell you I cured them you will know I did it.

If you are skeptical, all I ask is reasonable security for the price of the Belt, and you can use it on the condition of

TERRIFIC EXPLOSION AT NIAGARA POWER STATION

Three Workmen Killed and Seven Injured—It is Believed Drillers Struck Pocket of Gas.

NIAGARA FALLS, Ont., March 3.—(Special)—Three men were killed and seven injured in an explosion at the generating station of the Ontario Power Company below the bank, immediately at the base of the horseshoe falls this morning.

The dead are: David Hendershot, Niagara Falls, N.Y.; Arthur Orchard, Niagara Falls, N.Y.; Chas. McGonigle, North Tonawanda.

The injured: Geo. Rowe, Chippewa, internal injuries; John Otto Carpenter, cut about body and face; Geo. Garvey, cut about face; James Nelson, cuts on head, body; Henry Byron, scalp wounds; Robt. Moran, bruises about legs, scalp wounds; D. McKinnon, bruised about head and face.

The exact nature of the explosion has not been determined, but the idea of the majority of the officials of the power company, who have looked over the scene, is that it was caused by the drillers opening a pocket of gas in the whelplet under machines Nos. 3 and 4.

Local Option in Alexandria. Local option was carried in the town of Alexandria by a majority of 17 over the three-fifths, but the trainmen being unable to negotiate the slippery curve at Riverside station, caused a lot of trouble to people going to work at an early hour yesterday morning.

OXFORD GRAFT CASES William Smith Swears Youngs Offered to Buy His Influence.

WOODSTOCK, March 3.—John Youngs, ex-reeve of West Zorra, was this afternoon committed to stand his trial for attempting bribery.

The charges against ex-Warden M. T. Buchanan were held over until next Thursday, when the one case, income tax, of the three laid against ex-Councillor B. B. McCarty will be taken up.

Smith went into the box and told of having had a talk with Youngs in regard to the sale of the road which lies north of the city. Witness told Youngs that he wanted \$5,000 for it. Youngs replied that he didn't think the county would pay that much, but he stated that if he Smith, would pay him \$5,000 for the road. Under cross examination Smith said he was inclined to take Youngs' offer as a joke, as he knew he would be warden the next year.

A BROKEN-DOWN SYSTEM. This is a condition of disease which few of us really understand. It is simply weakness—a breakdown, as it were, of the faculties that sustain the system. No matter what may be its cause (for they are almost numberless), its symptoms are much the same: more prominent being sleeplessness, sense of prostration or weariness, depression of spirits, etc. It is a condition which is essential to the health of the body, and if it is not cured, it will lead to a more serious condition.

VITAL STRENGTH & ENERGY To throw off these morbid feelings, and experience the joy of a night's sleep, the day may be more certainly secured by a course of

RANDOLPH, SING, MURRAY
CITY'S WATER EXPERTS
Controllers Agree on Appointments
-Levee Investigation Approved
Without Opposition.
The board of control nominated a
board of three experts to enquire into
Toronto's present and future water
supply. Those selected are T. Alro
Murray, consulting engineer; J. G.
Sing, resident Dominion Government
engineer, and J. Randolph, the Chicago
sanitary expert, who was one of the
chief witnesses for the city in the
last investigation. These names will
be submitted to council at Monday's
meeting, and if passed upon, will con-
stitute the board on their consenting
to act.

Mr. Fleming Drops In
Mr. Fleming was present to re-
quest that the city perfect the in-
terests of the street railway in leasing
Federal-street to the Poison Iron
Works. There is a water pipe thru
which the power house gets its supply,
and he wished assurance that the pipe
could be extended when the slip was
filled in. He was assured that ar-
rangements for the extension of the
pipe would be provided for in the
contract.

WOODPILE THE ACID TEST
Victor Institute Finds It Invaluable
in Separating Shred From Goats.
The wood-yard has been a boon
to the men who are anxious to
work for what they require and
satisfied at the night. The wood-
pile is the best place for the
separation of lazy loafers for help.
This statement is contained in the
official report of the annual meeting
of the Victor Industrial Institute.
Reports were presented by the treas-
urer, Mr. A. M. Featherstone, the
manager, Mr. H. Chapman, and the
secretary, Mr. W. D. Dean.
During the thirteen months of its
operations the institute has more than
held its own way. Twenty-two thou-
sand and eighty-eight beds and forty-
eight meals were supplied to men
at a minimum price. Of this number
thousand eight hundred and
ninety-four were provided with work,
and thirteen thousand seven hundred
and eleven indirectly helped.

Had Severe Pains In His Back. Could Hardly Work.
Mr. Alfred E. Davis, Guelph, Ont.,
writes: "For some years I suffered from
severe pains in my back and could hardly
work at all, and when I stooped down
to pick up anything fell as if my back
must break. I was advised to try
Doan's Kidney Pills, and after taking
two boxes I was completely cured, and
feel that I cannot speak too highly in
your favor."
"This was nearly four years ago and I
will remain cured."
These who have never been troubled
with kidney trouble do not know the
suffering and misery which those afflicted
undergo.
Weak, lame or aching back comes
from the kidneys, and when the kidneys
are out of order the whole system becomes
deranged.
Doan's Kidney Pills are a specific for
all kidney troubles.
They help the kidneys to flush out the
acid and poisonous impurities which
collect, thus relieving the
kidneys, bladder and urinary passages.
Price 50¢ per box or 3 for \$1.25, at all
dealers or mailed direct on receipt of
price by The T. Milburn Co., Limited,
Toronto, Ont.
When ordering direct specify "Doan's."

SWOOPED ON THE CROWD
Woman Decapitated by Propeller of
Aeroplane.
MADRID, March 3.-M. Mauvais, a
French aviator, while giving a de-
monstration here to-day, drove his
machine into a crowd of spectators
who ran into his path in the aero-
drome, killing one woman and seriously
injuring four other persons, in-
cluding Col. Vallary Villars, a brother
of former Minister of War Gen. Villars.
Mauvais himself was unharmed.
The accident was due to the spec-
tators breaching thru the barriers and
rushing out on the field before the
Frenchman got the aeroplane well
into the air. The woman who was
killed was decapitated by the propeller
of the machine.
Some Going, This.
LAREDO, Texas, March 3.-A world's
aviation record was broken when
Lieut. Ben. D. Fouls, U.S.A., and
Aviator Philip C. Parmelee, drove an
amphibian plane 106 miles in 2 hours
and 7 mins.
At Elm-St. Methodist.

THE CZAR'S GOOD INTENTIONS.
ST. PETERSBURG, March 3.-In an
imperial rescript published to-day Em-
peror Nicholas announces his intention
to complete his grandfather's work for
the emancipation of the serfs by trans-
forming the peasants into not merely
free, but economically strong land-
owners. This may be achieved, says the
emperor, by affording the peasants
facilities to leave their communes
and by improvement in agricultural
science.

MODERN MILLER SAYS CROP HAS MADE IMPROVEMENT

Chicago Market Makes Another Small Gain, But Cash Wheat Shows No Improvement.

CHICAGO, March 3.—Assertions that the reciprocity bill would fall and that there were serious doubts about an extra session of congress had much to do with an advance in the price of wheat to-day.

The market closed firm, with a net gain of 1/4 to 1/2. Corn finished 1/4 to 1/2 down; oats 1/4 to 1/2, and provisions a rise of 1/4 to 1/2.

It was a day full of nervous changes in the wheat pit. Shorts showed unmistakable signs of being easily frightened, but there was not enough buying to cover the part of speculative bulls to cause a genuine stampede.

Receipts at Primary Centres. Receipts of wheat at primary points, with comparisons, were as follows:

Chicago To-day, ago. Minn. 15 23 14 Wis. 18 18 17 Duluth 13 12 13

European Grain Exchanges. The Liverpool market closed to-day 1/4 to 1/2 lower on wheat, and unchanged to 1/4 lower on corn.

Winnipeg Inspection. Winnipeg receipts of wheat graded to-day as follows: No. 1 northern, 9 cars; No. 2 northern, 6; No. 3 northern, 49;

Argentine Shipments. This week. Last wk. Last yr. Wheat, 2,380,000 2,254,000 4,250,000

Liverpool Wheat Market. The wheat market in Liverpool yesterday, and values were unchanged to 1/4 higher.

World's Estimates. Broomhall estimates wheat and flour shipments for the week, exclusive of North America, at 3,600,000 bushels against 3,468,000 bushels last week.

Australia Shipments. Australia wheat shipments, 1,180,000 bushels, against 2,063,000 bushels last week, and 2,180,000 bushels last year.

India. Wheat shipments, 1,250,000 bushels, against 983,000 bushels last week, and 960,000 last year.

Crop Reports. Modern Miller says Reports from winter wheat millers on the crop are nearly all favorable, considering the season of this year.

MASSEY-HARRIS DRILLS CAN BE DEPENDED ON

The work of a Drill can only be accurately judged at harvest time, for its results that

factory work under varying conditions. Perhaps the best proof of their superiority is the steadily

It's worth while, therefore, to select a Drill that has a reputation for reliability as proved by actual results, and you will save yourself a lot of worry and uncertainty.

"A good start is half the battle." Sowing your grain with a Massey-Harris Drill is a big factor in securing a good start of grain and a beautiful harvest. Uniformity in sowing is a characteristic of all Massey-Harris Drills. They sow the desired quantity at the desired depth and always cover satisfactorily.

increasing demand for these Drills. Where most used they are most appreciated. They are made in a great variety of styles and sizes to meet all sorts of conditions—Hoe Drills, Shoe Drills, Disc Drills, Fertilizer Drills, etc., so that no matter what your requirements, there is a Massey-Harris Drill to suit.

MASSEY-HARRIS DRILLS have been in use for many years in all parts of the grain-growing world and have won a very enviable reputation for their satisfactory results.

him to say that this will be the best and most important sale ever held at these stables; that is, judging from the number of entries and the quality of the horses entered. The quality of a large number of the

horses entered. Mr. Smith assures us, is of the best, and that the present sale will eclipse anything ever held at these stables in the past, as a large number of the horses to be sold are prize-winners, both at home and abroad.

IT IS FAR BETTER TO BE AN OLD MAN WHO FEELS YOUNG THAN A YOUNG MAN WHO FEELS OLD

HERE ARE THE BOOKS THAT GIVE THE SECRET OF PERPETUAL YOUTH. LET ME SEND THEM TO YOU FREE.

HERE IS AN OLD YOUNG MAN. Years count for nothing if you have the vitality. You can feel young all your life where there is ample nerve force to back your courage. Let me make you a "HEALTH BELT MAN." Let me supply you with that vim, vigor and manly strength which conquers all obstacles. A man at 60 should be in the prime of life; early decline unfit you for the world's work. I have talked with more than 100,000 debilitated men; the lack of vital vigor is responsible for most failures; you can't command the attention and admiration of women or even men if you lack personal vitality. My HEALTH BELT fills you full of vital force; it strengthens weakened parts; it gives you courage to meet squarely any enemy which may look into your eyes. You become as attractive in your personal influence as the strongest, most full-blooded man you know. Thousands upon thousands

have been cured by my HEALTH BELT. Worn night for two or three months, it sends the continuous tonic current of electricity into your system all the time you are sleeping. No privations, no medicines, no restrictions, excepting that all dissipation must cease. Cures weak back in one night; benefits from first hour. It has special attachments which carry the current to the weak end parts. Used by both sexes for rheumatism, kidney, liver, stomach, bladder disorders, etc. John Mulholland, Truesdale, Ont. writes: "Your Health Belt restored me to manly vigor. Use my name as you see fit." If in or near this city, call and see the Belt in my office, otherwise send for the free books which explain all and tell you how, for a few dollars, my Health Belt will give you back your manhood. No charge for advice at office or by mail. Use the coupon if more convenient.

C. B. a la Spirite Corsets

Highest Standard of Fashionable Corset—“Simpson's” is the only store in Toronto carrying a full range of the new spring models of the famous C. B. a la Spirite Corsets. These wonderfully successful garments are undoubtedly the most popular corset of the day with women of fashion.

C. B. a la Spirite Corsets, fashionable shape, create an ideal foundation for the new spring suit or dress.

Close, long corsetting is a necessity if the right contour is to be gained—hips curving but controlled—long, sweeping, graceful lines.

C. B. a la Spirite Corsets are comfortable, standing, sitting or walking, whatever the posture. It will pay to see the new models for spring. They are the last word in corsetry.

Try a “C. B. a la Spirite” and you will feel and know that you are perfectly corsetted. We have the new spring models for every figure, ranging in price from a pair. 1.00 to 9.00

A Fine Programme for Monday in the Basement

Monday, as you know, is the day to shop in the Basement. March 6th will be a specially good Monday to you. Our Electric and Gas Fixture Dept. is aspiring to the 5th Floor, where new quarters are nearly ready. Everybody knows what "moving" is, and the prices show plainly that we prefer your taking the fixtures at a big reduction to carting them upstairs.

Our China buyer is busy on "the other side." The next mail will probably bring news of big shipments, and we must have room for the new immigrants. This gives you an opportunity to pick up many a real bargain now.

The Kitchenware, Hardware, Laundry, Bathroom Fixtures and kindred sections are replete with thousands of necessities; better qualities cannot be obtained. You can readily understand that to a department carrying a big stock of small articles a "clean-up" day once a week is a necessity. Next Monday will afford the usual chance to economize, for hundreds of articles are marked down on that day in order that unbroken lines may take their places on Tuesday. How about a Kitchen Shower? Toys, Brassware and Groceries, with the departments already mentioned, complete "The Basement." It is like a museum in order and a gemment (and much more interesting to the practical housekeeper), but unlike a museum as far as works of antiquity are concerned.

Remember that next Monday holds out inducements to make your shopping there specially worth while. This list is merely illustrative; fifty such would not cover a tenth of the articles in sight.
