

PROB: Showers part of the day followed by fresh southerly wind, cloudy and cooler.

## About Canadian Banking.

### A Scheme to Increase the Bank Note Issue.

Is the country expanding, does it need more money? Rather, a business man said yesterday, "I have been talking to my banker and he says money is getting scarce. I knew what he meant—he was not going to have enough to go round."

The cry in last week's Monetary Times, and referred to later in this column, is a cry from the banks for a lot more money. The directors of the Standard set a good example yesterday: they increased their capital by half a million dollars. Shareholders can take it up at \$200 for a \$100 share. That will produce a million dollars and allow half a million of bank note issue against it—in all a million and a half that will certainly help its customers in a tidy way for a while. But what are the other banks doing to get more banking capital?

The Mail has had the good taste to recover its position in regard to the agitation of the farmers of Western Canada for some kind of state loans on their farms to aid them in agriculture. It will be remembered that we pointed out in this column that The Mail in the interest of some unknown section of the community had started in to describe the western farmers as in substance, soft money, populist agitators. In yesterday's paper, however, it withdraws all this and describes what President Taft is doing in the way of investigating the working out of schemes by the various states of Europe to aid farmers to get cheap money for agriculture, and as much as hints that something of this kind must be done in Canada. The change is a very marked one.

We wish that we could say that our tribute to The Montreal Gazette on the same occasion had been as effectual. In dealing with Mr. Wilkie's report it continues to speak of our suggestion of an increase of government notes, or the substitution of these notes for bank notes, as some kind of financial heresy. But after reviewing all that Mr. Wilkie said The Gazette has nothing to suggest itself. It doesn't even know what kind of bank inspection we ought to have. There is only one kind and that is public. And the inspection does not need to be a detailed one. A confirmation by a public inspector of the sworn statements made to the finance department would do it. Had such an official been charged with the application papers of the Farmers' Bank as sent to the finance department, it would never have gone into business. Public inspection, in spite of The Gazette, will be made the law of the land. The Gazette will yet learn that the people of Canada will have something to say about their banking law, and about public inspection of banks, especially for the reason that more than nine-tenths of the banking capital of the country is supplied by the public and only one-tenth by bank shareholders. Read this extract:

Kingston Standard.—The Canadian banking system lends itself to the creation of a money trust better than any other in the world. The steady decrease in the number of chartered banks in the past few years is an ominous sign, especially as the business of the country has been increasing enormously. The concentration of capital in a few banks would be a danger not only to the business interests of the country but even to our political institutions, for the money power could use its influence to make or unmake governments at will.

The bankers assert that there is no necessity for government bank inspection. The general manager takes good care to see that the branches are properly inspected by his own inspectors; but strange to say or perhaps it is, not the head office is induced to allow the head office to be inspected. Every man entrusted with funds is the better for being subject to supervision. The government will do well to go slowly in allowing any further merger.

And, speaking of an issue of national notes, we notice that The Monetary Times of last week is breaking into the discussion. It is, however, anxious that its banks which are now fighting to make an emergency issue for the six busy months, from September to February, inclusive, ought to be allowed to do the same for the rest of the year, inasmuch as if the crops have not then to be moved, a panic might occur, and in order to meet the panic the banks ought to have lots of their own notes to put out. But the article is so illuminating that we propose to quote the best part of it as it throws a lot of light on existing conditions.

### Note Issues and Panics.

Monetary Times, May 23.—The extension of the season in which the extra issues of bank notes are lawful to include the months of September and February allows the banks to issue their own notes on September 1, to issue their own notes in excess of paid-up capital up to 15 per cent of capital and rest combined, on payment of tax not to exceed 5 per cent. Right of extra issue will continue until the end of the following February. In other words, the banks will be allowed to issue for four months in each year. In connection with this question of the currency there is one feature which has attracted much attention. No doubt what the banks have discussed is, allow the general public has not been enlightened. It is expected that the banks to weather panics, the ability of the banks to weather panics would be extraordinary. At ample supply of currency for counter purposes, the banks are leading and runs on the banks are in evidence. What the banks then need is a plentiful supply of a medium of payment which

Continued on Page 6, Column 4.

## R. C. HARRIS IS MADE WORKS COMMISSIONER BY THE CITY COUNCIL

### Proposal to Acquire Services of Traffic Experts Unanimously Endorsed—Canadians Preferred—Aldermen Indulge in Some Pretty Warm Personal Talk.

### WHAT THE CITY COUNCIL DID

Endorsed the proposal to appoint traffic experts and a permanent traffic official.  
Appointed R. C. Harris as commissioner of works.  
Reported an additional appropriation of \$40,000 in connection with work on the filtration plant.  
Decided to build a temporary fire hall in Earlscourt.  
Deferred the recommendation to discharge Engineer Henning of the Island Pumping Station.  
Decided to close Herlick-street.  
Endorsed the city architect's schedule for building permit fees.  
Decided not to erect a police station on the city property adjoining Ramsden Park.  
Decided to acquire the Goad estate.  
Decided to transmit the Titicaco Fund to the permanent headquarters of the fund in London, Eng.  
Decided to provide temporary quarters for the detention of insane persons usually committed to jail.

At their meeting last night the city council unanimously endorsed the proposal to acquire the services of traffic experts and to engage a permanent traffic official. This with the appointment of R. C. Harris to the new position as commissioner of works constituted the most important matters dealt with yesterday.

The meeting, which lasted four and one-half hours, was an unusually stormy one, in which personal comments were freely bandied about.

It required an hour and a half to finish the traffic experts' debate and at the conclusion the board of control's proposal to engage a permanent traffic official and set \$35,000 aside for additional advice was referred back, and the corporation counsel instructed to secure a report from Canadian experts, if he could find men capable of doing the work. This was virtually a victory for Mayor Geary and those who advocated the previous proposal to this effect, and contrary to all expectations, it was carried unanimously.

There was nothing in the board of control's report to indicate that the \$35,000 for additional advice should be applied to secure a report from a firm of traffic experts, but there was a general understanding to this effect, and the debate largely centred upon this feature. It was also assumed from the outset that an American firm would be engaged, and this brought volleys of vigorous protests while the debate was in progress. The result, however, indicated that the council realized the necessity of expert advice upon transportation matters, but desired that such information should be obtained from Canadian traffic experts if at all possible.

When the traffic expert discussion was resumed, Aid. Anderson argued that Corporation Counsel Drayton required technical data in order to prove his contentions before the Ontario Railway Board. He had appealed to the engineer's department to supply him with evidence, but it could not be obtained from this source. He appealed for advice from other sources—as to

### ROOSEVELT WINS IN NEW JERSEY

### SENATOR GHENT VISITS TORONTO

Taft's Final Stand Proves Unavailing and Friends Admit Crushing Defeat—Woodrow Wilson Leads.

Left Here 15 Years Ago and is Back on His Honeymoon a Year After His Wedding.

NEWARK, N.J., May 28.—(Can. Press).—Theodore Roosevelt's victory in the New Jersey primary election is conceded to-night by the leaders of the state Taft organization. Shortly after midnight, E. W. Gray, secretary of the Taft Business Men's League, said that Col. Roosevelt probably had won the four delegates at large and also the ten district delegates from the counties of Newark, Jersey City and Hoboken, besides a number of the most populous suburban towns.

Indications at 1 a.m., based on scattered returns from all parts of the state, were that Col. Roosevelt would carry three or four of the other districts, and capture at least 22 of the 28 delegates this state will send to the Republican national convention.

Shortly after midnight E. W. Gray, secretary of the Taft Business Men's League, conceded that Roosevelt had carried the state on the preference vote and that he would have four delegates-at-large. "It looks," he said, "as if the president were badly beaten."

### MONTREAL METHODIST CONFERENCE.

KINGSTON, May 28.—(Special).—The ministerial session of the Montreal Methodist Conference will convene Wednesday afternoon, but the general conference will not get down to business until Friday. There are several vacancies to be filled, and there is considerable unrest among ministers as to who will get them. Some are of opinion that they are worthy of promotion, and the work of the working committee will be cut out.

### PRINCESS PRESSES THE BUTTON

NIAGARA FALLS, Ont., May 28.—(Special).—Princess Patricia this afternoon pressed a button that set in motion the new 12,000-horsepower unit in the Toronto-Niagara Power House here. The Duke and Duchess of Cornwall and other prominent people were guests of Sir Henry Pelham at the ceremony. The royal party spent the day sightseeing, arriving in the early morning.

## AN UNPLEASANT SITUATION

### STRATFORD MEN SAW SIR JAMES

Confirmatory Legislation Asked in Connection With Franchise of Electric Railway Company.

Dr. J. D. Montague, A. Waddell and James Torrance, M.P.A., were in Toronto yesterday to interview Sir James Whitney as to the government's attitude toward the compulsory legislation which will be asked for at the next session of the legislature in the franchise of the Stratford Railway Co., which the city council has passed and which the council unanimously asks the legislature to ratify.

### WANT DRASTIC MARRIAGE LAW

Methodist Organ Calls For Agitation to Secure Statute to Prevent Weddings of Physically Unfit.

### MAHOGANY LOGS REACH TORONTO

Sixteen Are Worth \$1000 Each and Will Be Used in New Government House.

### DOCK STRIKERS TO NEGOTIATE

LONDON, May 28.—(Can. Press).—The force of 2000 police mobilized in the vicinity of the London dockyards has, thus far, been able successfully to circumvent the designs of the striking transport workers to inflict famine on the people of London as the quickest means of securing the concession of their demands.

### LIGHTNING DESTROYS FACTORY.

PORT HOPE, May 28.—The large unoccupied brick woolen factory at Garden Hill, belonging to Hix, Tay or of Almonte, was struck by lightning at 3 o'clock this afternoon and totally destroyed. The loss is \$10,000.

### COMING TO VICTORIA

KINGSTON, May 28.—(Special).—W. H. Greaves, professor of public speaking in Queen's University, has been appointed to the chair of elocution at Victoria University, Toronto.

## MANY POLICEMEN ARE LEAVING THE FORCE

### Dissatisfaction Over Distribution of Salary Increases Given as Reason Why Men Will Not Remain—Promotion Almost at a Standstill.

Lieut.-Col. H. J. Grasett, J.P., chief of police, opined yesterday that there have been half a dozen resignations from the force. He said that there might be a few more than this, but said that he could not tell without looking at the books, and the reporter did not have the courage to ask him to perform so arduous a task. The chief said that the number of resignations was not unusual, and said that it had no significance other than the usual spring moving spirit. The views of the first-class constables, and, in fact, of most of the men on the beat, are far otherwise. One of these says that the number of resignations for May is well over the dozen. One man set it at more than twenty, and all declare that there are more and more to come.

Where the "kick" is coming from the first-class constables who at the last distribution of salary advances were left like Old Mother Hubbard's dog, which is in no way to be confused with "Togo," the chief's dashhound, which is the only police dog attached to the force at present. The men declare that the police accepted from council a vote of funds on the ground that it was imperative that salary raises should be made in order to keep the men from leaving the force. They say that having been granted this money upon this understanding, the board of police commissioners proceeded to split up the meagre sum in substantial raises for the heads of departments, leaving the first-class constables, who must always be the backbone of any force, without one cent of an advance. The men declare that salary advances are not required to keep these higher offices tenanted by their present occupants, but that on the other hand nothing short of an earthquake or such like disturbance could shake them out of the cushions. They say, in fact, that this is one of their grievances—that officers hang on to their jobs as long as they are able to walk, and that in this way promotion is well-nigh at a standstill.

### A Living Wage.

The men argue that even if the heads of departments are none too well paid, which is the fact, that at least they are drawing a living wage which enables them to keep themselves and their families at least in comfort and to look forward to rest in security upon their retirement. On this ground they urge that when only a small sum was granted for increases, and that on the ground that it was to be used to keep the men upon the force, that the cash should have been distributed among the men who have to-day not enough to keep their families without the most rigid economic planning.

### Menace to Force

The men declare that this under-payment is a menace to the purity of the force, which has been its pride since its inception. They declare that the man who walks his beat, racking his brain to devise means of meeting the rent collector and the butcher, is not in the best position to resist the wiles of the graft officer.

### On the Thin Edge

They declare that a man cannot perform his duty evenly and fearlessly when he knows that he is on the thin edge of being on the debit side of the account, and that no man can help diverting a considerable portion of his time and thought in looking about for possible chances of betterment when he has to scrape and plan to win a bare living from a hard day's work.

### Last at Popular Prices.

The matinee at the Princess to-day, when vivacious Lulu Glaser appears in the delightful Scotch musical comedy, "Miss Dundas," will be the last at popular prices, as Miss Glaser's present engagement will finish her season and also that of the theatre.

## TWELVE MORE NEW CHURCHES

### Toronto Presbytery Authorizes Purchase of a Dozen Sites—Expect Million Population in a Few Years.

Twelve new churches are to be built by Toronto Presbyterians. The church extension committee's report, presented to the presbytery at St. James-square Church yesterday by Rev. Dr. Neil, recommended that 12 sites for new churches be secured in the outskirts of Toronto.

In supporting the report, members of the presbytery said that it would be prudent and show foresight, and must prove in the highest degree financially profitable for the committee to secure the requisite number of sites, in view of the certain growth of Toronto to a city of probably a million population within a very few years.

### NEW CHURCH TO BE DOUBLE SIZE

Phenomenal Growth of Presbyterian Population at the Beaches—Will Build Imposing Edifice.

Owing to the rapid inrush of Presbyterian families this spring at Kew Beach the church has become inadequate to accommodate more than half those desiring to attend the services. The church session has in consequence decided to double the size of the church.

### C. P. R. EARNINGS

MONTREAL, May 28.—(Special).—C. P. R. net profits for April were \$4,115,762, as compared with \$3,156,875 for April, 1911, an increase of \$958,777. For ten months ending April 30, 1912, net profits were \$35,771,125, a gain over the ten months' period ending April 30, 1911, of \$5,040,060.

## WANT DRASTIC MARRIAGE LAW

Methodist Organ Calls For Agitation to Secure Statute to Prevent Weddings of Physically Unfit.

"Marriages are made in heaven," according to some authorities, but not including the editors of The Christian Guardian. This week's issue of the Canadian Methodist organ advocates drastic legislation against "the marriage of the unfit." The unfit should be eliminated by the necessity of producing health certificates with the marriage license. The Christian Guardian claims, and sums up with this declaration:

"Whether it is due to his misfortune or to sin, the man who is not normal physically and mentally, or who is communicable or an incurable disease, ought not to be allowed, in justice both to the present and the coming generation, to marry and reproduce his kind. And the church has a duty in enforcing this sentiment upon the state for its embodiment in law."

## MAY GET 1914 CONVENTION

Ad Clubs Reorganized as Result of Toronto's Fight—Canadians Might Organize For Themselves.

The Toronto Ad Club luncheon yesterday was mainly taken up with remarks from the returned delegates who attended the Dallas, Texas, meeting.

Mr. A. C. McDermott, president of the Toronto Ad Club, said the delegates had no intention of offering excuses for their failure to bring back the convention to this city. "We are going to prove we are good losers," said he. "Altho three-fifths of the cities voted for Toronto, Baltimore won. Altho beaten, the fight put up by the Canadians has resulted in a reorganization of the ad clubs, and hereafter the place of convention will be agreed upon by seven members chosen by the executive committee."

"I feel Toronto is offered the convention for 1914, and it is for us to accept or reject it. Another thing, I don't see why the Canadians can't organize for themselves a monster convention; we've got the brains and ability, and it only remains for someone to set the ball rolling. "The reason we did not win this year was because we would not enter into a certain questionable arrangement whereby a certain man would be elected treasurer, and we thereby lost the vote of the Waterloo, Iowa, Club who had more votes than Boston, Cleveland or any of the big cities. "Another reason was that a great cry was made that the convention must be held under Old Glory. "The great tribute was paid to the hospitality of the southerners. They received us with open arms and houses, as one member put it, and they are certainly a large hearted people."

The Toronto Daily and Sunday World are now delivered to any address on the island. Residents or transient visitors can receive a copy of their favorite morning or week-end paper by telephoning Main 5308. Subscribers moving to the island for the summer or for a short stay can have their regular copy transferred without trouble.

### WORKMAN INJURED

Jack Craven fell while working on Hospital Building. Jack Craven of 210 Woodbine-avenue, 50 years old, fell from the third to the second story of the new General Hospital on College-street, yesterday afternoon, and broke two ribs. He was taken to the General Hospital. He is resting well. Craven was a workman employed in the erection of the building and slipped thru some flooring onto the floor beneath.

### RACE SUICIDE IN FRANCE

PARIS, May 28.—The French minister of labor in the report of the vital statistics of France for 1911, says the number of deaths was 3,869 more than the total of the year previous, thus continuing the unfavorable situation of France as compared with that of growing nations. The births numbered 742,114, the lowest ever recorded. On the other hand, France compares favorably with other countries in marriages, which totaled 307,788 for the year. Divorces increased over the previous year, numbering 13,068.

### HON. DR. BELAND ILL.

QUEBEC, May 28.—Hon. Dr. Beland, former postmaster-general of Canada, is seriously ill at his residence, St. Joseph of Beauce, suffering from an affection of the throat.

## MANY TRADES TO BE TAUGHT

New Curriculum For Technical School Contains Occupations Especially Suitable For Women as Well as Men.

Principal McKay submitted the new curriculum for the technical school at the industrial education committee meeting yesterday.

The courses of study will include a number of new trades, such as carpentry, cabinet making, painting and decorating, also occupations especially suitable for women.

The committee decided to recommend to the board of education the establishment of the new courses free of charge both for the day and the night classes, as an inducement to parents to continue their sons and daughters to continue longer at the school. Trustees Ellis and McTaggart and Supt. Bishop were appointed a committee to negotiate for the purchase of the remaining properties required for the new technical school site.

### NEW HYDRO CONTROLLER

H. P. L. Hillman has been appointed a controller of the civic hydro-electric department and will commence his duties as head of the accountancy branch on July 1. His first work will be to examine the system of the post kept in the department in order to put this phase of the bookkeeping on a more equitable basis. Mr. Hillman is a Canadian and has a wide experience in all branches of accountancy. He has worked in different parts of the world, and for a number of years was engaged in Peru.

## CAPT. LORD MIGHT HAVE SAVED EVERY SOUL ON BOARD TITANIC COMMITTEE'S SEVERE FINDING

Sinking Steamer's Distress Signals Were Clearly Visible on "Californian," But Were Ignored, Declares Senator Smith—Scorching Arraignment of Alleged Utter Lack of Proper Discipline on "Titanic."

WASHINGTON, May 28.—Blame for the Titanic disaster is chargeable directly to the failure of the dead Capt. Smith to heed repeated warnings of icebergs ahead, but responsibility for the loss of life must be shared by Capt. Lord of the steamship Californian, thru his disregard of distress signals.

This is the finding of the senate committee which yesterday reported the sinking of the Titanic as prepared in a comprehensive speech delivered to-day by William A. Alden, Smith of Michigan, chairman of the committee. Senator Smith declared that responsibility rests upon the British Board of Trade "to whose laxity of regulation, and heavy workload of the world, is largely indebted for the awful fatality."

In denouncing Capt. Lord the senator said the Titanic's distress signals were plainly seen by the Californian, a vessel, a short distance away. America will leave to England the chastisement of those guilty, asserted the senator, but it is the duty of the law to show that Lord might be prosecuted for a misdemeanor.

**Might Have Saved All.** Concluding his speech, Lord, he said: "Why did the Californian display its Morse signal lamp from the moment of the collision continuously for nearly two hours? They saw nothing? Had he been as vigilant in the movement of his vessel as he was active in displaying his own signal lamp, every human life that was sacrificed thru this disaster could have been saved."

"Obsolete and antiquated shipping laws, and antiquated regulations of the parliamentary records of any government, and obsolete administrative boards should be 'pruned' of dead branches, and their precepts taught and applied," said the senator. **Fatal Ignorance.** Other conclusions presented in brief were as follows: Before the Titanic departed on her maiden voyage, there were not sufficient tests of boilers, bulkheads, equipment or signals.

Officers and crew were strangers to each other, and not familiar with the ship's implements or tools, and no drill was held. The ship took place and no helpful discipline prevailed. The speed of the Titanic was 24 1/2 miles an hour at the time of the accident, altho officers of the Titanic had been advised of the presence of icebergs by the steamships Baltic, American and others.

Passengers were not advised of danger, altho President Ismay of the White Star line, who was taking the vessel's maiden voyage, was informed. No general alarm was given, nor any organized system of safety undertaken. Of the 124 passengers and 89 members of crew on board, there was room in lifeboats for only 1178 persons, and because of lack of discipline, 200 were crowded off only 704 persons, 12 being rescued from the water.

Officers of the White Star Line "battled with the death" after receiving information from their Montreal office Monday morning following the accident. **New Laws Needed.** Senator Smith condemned "antiquated shipping laws and over ripe administrative boards," and asked that all nations act together in shipping reforms. "New laws," he said, "will best testify our affection for the dead."

Capt. Rostron, of the rescue ship Carpathia, was praised by Senator Smith, and he urged that congress recognize his valor. At the outset, Senator Smith defended the course of his committee in holding British subjects to secure their testimony without delay, and briefly answered criticism of his lack of nautical knowledge.

"We shall leave to the honest judgment of England its palmtaking phase of the British Board of Trade, to whose laxity of regulation and hasty inspection the world is largely indebted for the awful fatality. Of contributing causes there were very many, in the face of warning signals, speed was increased, and messages of danger seem to have been heeded to action, rather than to persuade her to fear."

**Officer's Fatal Error.** Senator Smith declared that the command of the officer of the watch to avert the disaster actually exposed the most vulnerable part of the Titanic to the ice when the shock came. "Distracted by the sudden appearance of danger," said the speaker, "he sharply turned aside the prow, the part best prepared to resist collision, exposing the stern to the blow; at the turn of the bilge the steel excitement yielded to a glancing blow so slight that the impact was not felt in many parts of the ship, altho representing an energy of more than a million-foot tons, said to be equivalent of the combined broadsides of 29 of the largest guns in our battleship fleet fired at the same moment. With a blow so deadly many of the passengers and crew did not even know of the collision until tardily advised of the danger by anxious friends and even then official statements were clothed in such confident assurances of safety as to arouse no fear."

**MEDAL FOR CAPT. ROSTRON** WASHINGTON, D.C., May 28.—The senate today passed a joint resolution extending the thanks of congress, and appropriating \$1000 for a medal to Capt. Arthur H. Rostron of the steamer Carpathia, and also a vote of thanks to the Carpathia's crew.

**A POPULAR APPOINTMENT** Mr. Alex. McKinnon, long and favorably known in the hotel business in Toronto, was recently appointed manager of the Smith House, at the southwest corner of Queen and Simcoe-streets, and has already entered upon his new duties. His many friends who recognize his genial disposition and exceptional business ability feel assured that he is the right man in the right place, and that in his hands everything will be done to meet the public convenience and secure the comfort of the guests. Mr. McKinnon well deserves his new position, and may be trusted to still further enhance his popularity.

JURY DISAGREED Could Not Say Whether Car Conductor Was Negligent.

The jury disagreed in the case of Percy Dunthorne, charged with criminal negligence in driving a street car. Judge Denton asked if they thought with a little more time they could arrive at a verdict. The foreman did not think so. The accident took place at noon Feb. 27 last. Hamilton McKerhan was crossing Roncesvalles-avenue in a sleigh, which struck in the middle of the tracks. McKerhan waved his hand to the motorman, but he did not slacken speed until within a few yards of the sleigh. The old man, 70 years of age, afterwards succumbed to his injuries.

KNICKERBOCKER ICE CO. OFFICE—81 EPLANADE. Phones—Adel. 351, Main 576, Park 200. Night and Sunday—Main 200.

ICE supply comes from many sources. The purity of some, to say the least, is somewhat doubtful. Our Supply All Comes From THE PUREST FRESH-WATER LAKE IN CANADA. We handle no other kind. Order from us and you can feel certain that you are getting the purest ice on the market, with no chance of the other kind getting into your refrigerator. Order to-day and get your refrigerator cooled off for the hot spell that is coming.

LACE CURTAINS cleaned—repaired and returned ready to hang. Tel. M. 5000. FOUNTAIN—MY VALET—30 Adelaide W. The ante-mortem statement was not admitted. Witnesses agreed that the car was not traveling unusually fast. Claims Payment of \$500 For negotiating the purchase of "The Farming World," and other news, G. G. Mills in the county court yesterday claimed payment of \$500 from Fred W. Hodson. The defence is that the money is not due. Judge Morgan is hearing the case.

# OZONE

OZONE is concentrated Oxygen with greater energy, and it destroys organic impurities, revitalizes the air, eliminates tobacco smoke, kills all objectionable odors, and makes the air wholesome to breathe, the same as that at the sea shore or the mountains.

THE MOST ENERGETIC DISEASE MAKER IS THE BAD AIR WHICH WE BREATHE

# THE AIROZONE ELECTRIC VENTILATOR

introduces free OZONE into the air, making it fresh and invigorating, and producing an artificial coolness by reducing the HUMIDITY.

The apparatus can be attached to an electric light socket and turned on or off the same as an electric light, and the cost for electric current is less than that for a 16 candle power lamp.

MAY CALL YOUNG TRAVERS TO STAND

Ex-Manager's Son Has in His Possession a Box of Papers Received From the Vault of the Farmers' Bank Which May Have a Material Bearing on the Investigation.

"All the money owed to the Farmers' Bank by firms that Dr. Beattie Nesbitt guaranteed, was paid back with Keelley mine stock," said G. T. Clarkson, liquidator of the bank, at the investigation yesterday before Commissioner Sir William Meredith. The doctor was responsible for loans amounting to \$20,000, but he transferred his stock in the Keelley mine to the institution and retained \$2000 to balance the debt.

Mr. Clarkson stated that after he closed the bank, Travers had a box of papers removed from the vault and that they are at present in the possession of the manager's son. These papers have a material bearing on the investigation, and it is likely that young Travers will be called.

Yesterday's session was mostly taken up with the evidence of the liquidator, but there are several complicated transactions which will have to be explained to Mr. Hodgins by the banker. Excessive Commission. According to the books, the total amount paid out for commissions aggregated \$71,000, and the assignee expressed himself as being dissatisfied with this figure, as it appeared to be in excess of what should have been paid at the specified rate of 10 per cent.

"YOU'LL SUFFER ALL YOUR LIFE"

That's What the Doctor Told Him "Fruit-a-tives" Cured Him

CHESTERTON, Ont., Jan. 25, 1911. "For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life. "I doctored with different medical men and tried many advertised remedies, but none of them suited my case. "Nearly a year ago, I tried 'Fruit-a-tives.' I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured. "I give 'Fruit-a-tives' the credit of doing what the doctors said was impossible. "I am now seventy-six years old, and in first-class health."

GEO. W. BARKLEY. In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-tives." This famous fruit medicine acts directly on the kidney—beating and strengthening them—and ridding the system of the waste matter that poisons the blood. 50c a box, 6 for \$2.50, trial-size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

after throwing several glances over his shoulder. The reporter collared him as he was attempting to open the gate and when pined with questions, he said suggestively, "I'll send you a box of fine cigars next Christmas." The enquiry will be resumed to-day.

CONFIRMATION AT SANITARIUM

Bishop of Toronto to Conduct Impressive Service at Consumptive Hospital This Afternoon.

Bishop Eweeny held a confirmation service at St. Cyprian's Church last night. The bishop will hold a confirmation service this afternoon at the Western Sanitarium and at St. John's Church, Weston, to-night. Rev. Canon Ingles has prepared the candidates for confirmation at the sanitarium as Anglican chaplain.

T-H-E-P-O-W-E-R of the People

The Toronto Hydro-Electric System represents the biggest enterprise ever undertaken by this municipality. And more than that, it represents the faith of the citizens of Toronto in public ownership. It stands for the desire of the citizens for better service in electric power and for lower rates. T. H. E. System stands for the right of the citizens to make their own laws and their ability to serve their own wants. When the citizens exercised that right they placed on record their faith in themselves and their faith in each other.

TORONTO HYDRO ELECTRIC POWER for the People

It remains now with the citizens of Toronto to back up their faith with works. Every citizen of Toronto is interested in the Toronto Hydro-Electric—financially interested. Every citizen of Toronto has money invested in T. H. E. System. T. H. E. System has already paid dividends in better service and in lower rates. To increase the value of his investment every citizen should give T. H. E. System his patronage. Every citizen who can use electricity for any purpose should buy that electrical energy from the city plant. The power of the people—Toronto Hydro-Electric Power—is the power for the people. Call at the Hydro-Electric Offices, City Hall, and ask about rates, or 'phone and ask us to send you an expert to explain how you can individually profit through T. H. E. Service.

Get Rid of your Two Tire Troubles

Rim-Cutting Overloading

25% of tire trouble is due to Rim-Cutting. A careful inquiry among thousands of motorists shows that nearly one in four old-style tires are ruined by rim-cutting. The reason is that the hook-shaped ring which holds them in place cuts into the fabric of the tire. No-Rim-Cut Tires are built on a new idea. The round surface of the side ring comes next to the tire. So-called No-Rim-Cut Tires have been sold and not one has been wrecked by rim-cutting. AND they are made 10% oversize—have 10% more carrying capacity than the ordinary tires—enough to provide for heavy extra and overloading. That gives them 25% more mileage with the average car.

GOOD YEAR No-Rim-Cut TIRES

Our Tire Book is full of information for motorists. Yours for the asking. The Goodyear Tire & Rubber Co. of Canada, Limited, 25 HEAD OFFICE - TORONTO Factory - Bowmansville

FOUND GUILTY OF ASSAULT

George McAlynn, Joseph Smith and Dennis McCartney Were Mixed Up in Bloody Melee.

George McAlynn, Joseph Smith and Dennis McCartney, charged with wounding with intent to maim Charles Scarron, were found guilty of common assault in the session yesterday afternoon before Judge Denton. The assault took place at 9 o'clock at night April 18 last. Smith entered Scarron's shoe-making shop and threw two handfuls of sand in his eyes. Scarron, according to his evidence, went out to see what was the matter, and was immediately set upon by McAlynn and McCartney. In the melee he, Scarron, was struck in the forehead with a beer bottle, making a wound which required two stitches to close.

Recognized His Assailant. Scarron swore that he recognized McCartney and McAlynn as the two who assaulted him, but did not know who threw the bottle. Mrs. Scarron corroborated her husband's evidence, and in addition, said that Smith tried to break past her into the store, but she blocked him. The physician who attended Scarron and James Killinger, the constable making the arrest, gave their evidence. McAlynn, whose record is more or less chequered, swore he was two houses away when the bottle was thrown, and never got any nearer. He declared none of the three accused threw the bottle. Knew Who Threw It. "Do you know who did throw it?" asked Mr. Robinson. "Yes, sir." "When questioned by Mr. Greer, for the crown, he swore Young, another of the crowd, was the man who threw the bottle. McCartney, only 18 years of age, said he was with McAlynn when the row started, but came back, and the notice was thrown over his shoulder. He said Young told him afterwards he had thrown it. Smith swore he took the shop for a Chinese laundry, and went in to get a couple of collars done up, but was told to get to h—l out. He swore Scarron grabbed an iron and swung at him, but that Winters received the blow on the face. Winters had left town, he declared, and he wanted time to get him. The request was refused.

Callahan Suspended. CLEVELAND, O., May 28.—Manager Callahan of the Chicago Americans today received notice from President Ben Johnson of the American League of a three days' suspension for Callahan's run-in with Empire Westcott during the Chicago-Detroit game last Saturday. Callahan sent McIntire to the outfield in his place for four games.

Canada's Trap Shooters. MONTREAL, May 28.—H. Kenyon, R. B. Hutcheson and probably W. R. Davies, three Montreal men, will represent Canada in the trap-shooting contests at the Olympic games this year.

RINGLING BROS. TO COME HERE

In Addition to Big Circus They Bring a \$500,000 Spectacle.

Ringling Brothers' World's Greatest Show will exhibit in Toronto at Dufferin Park on Monday, June 17. The lithographs say the circus is bigger and better than ever. The Ringlings are known to fulfil every promise they make. In addition to a new parade, new menagerie and company of foreign performers, the audience will be treated to an enormous \$500,000 spectacle, telling the story of Joan of Arc. The spectacle begins the regular performance. It employs a cast of 1200 persons and 600 horses. An entire train is necessary to transport the portable stage, the scenery, costumes and properties. This is the big show that amazed Madison Square Garden from cellar to roof with its many exhibitions. The Ringlings, one and all, said it was the best circus that ever visited the metropolis. When it appears in this city it will cover 14 acres of ground. The performances will be exactly the same as those given at the beginning of the season. Not a detail has been altered. It is an all-featured show, with a wealth of European novelties. Not content with the reputation of owning the best circus in the world, the Ringlings keep on growing and improving. It is their policy to grow. The foreign agents of the circus searched Asia and Europe last winter for talent. They were unusually fortunate in their selections. Of the 375 artists giving the program, these agents secured over 200 not seen in America during the past seasons. Among them are the Ty-Bell "Human Butterflies," and Caesaro, "The Human Top," from France; Mijarez, the Cuban wire wizard; the Hinez-Kimball family of acrobats and Capt. Hurling's two troupes of trained seals from Germany; the Rooney family of equestrians from Ireland and the Klarkonian acrobats from England. In the foreign workshops of the show at Stoke-on-Trent, England, a corps of Italian and French designers, artists and spectacle builders, devised and built the equipment for a wonderful new parade. Nothing like this street spectacle was ever seen in this country before. It is the most remarkable professional creation ever exhibited.

Montreal Cricketers Collapse. Montreal cricketers collapsed in the first inter-city game at Ottawa. The following is the score: —Ottawa—First Innings.—Gen. MacKenzie, c. Spurrer, b. Hodgson 15 Major Vawdrey, run out ..... 6 D. C. Campbell, c. Gratton, b. Hodgson 0 W. Johnston, c. Spurrer, b. Hodgson 0 Gregory, c. Spurrer, b. Hodgson 0 J. B. Rankin, bowled Marshall ..... 4 F. **R.C. HARRIS IS MADE  
 WORKS COMMISSIONER  
 BY THE CITY COUNCIL**

(Continued from Page 1.)

where this expert opinion could be secured, but it was found that none could be obtained in Canada. It is necessary to go before the Ontario Railway Commission to get an expert opinion. The expert opinion is necessary to be used as evidence, he said. A traffic expert needed to be called in to advise on the construction and operation of railways, he said, and it was men of this kind that the city needed to analyze the transportation matters.

"What is the use of paying a man \$10,000 a year, and then when he comes with a proposition in the best interests of the city, throw him down?" he asked.

**Railway Always Gets Best.**  
 "I made the statement last night that when you get experts you invariably get advice which is in the interest of the Street Railway Co.," said Mr. Maguire, who quoted the papers to the effect that Controller McCarthy had spoken to the same effect. "There will not be a street down town that will not be made by the Street Railway Co.," said Mr. Maguire, "and how is an expert going to relieve the congestion if it is done?"

The alderman pointed out that there was one member of the council who had information about traffic experts which put it in a different aspect than the one he gave. He said that member to let his information be before the mayor.

"There is a doubt in the member's mind that the proposed amendment would be detrimental to the interests of the city. It is better to drop the matter," he said, "and to get the best expert, but I think Canadian men should be hired."

**Not Question of Loyalty.**  
 Mr. Weston thought the question of loyalty had no place in the matter before the council. Everybody, he said, would favor Canadian experts if these were available, but when they are not available it was a matter of fact that he thought it was a matter of fact that Drayton the information he needed.

The legal profession have an influence over each other that nobody can understand," said Mr. Maguire, "and I am sure that the corporation counsel and attorney would be set aside to secure such other additional advice as is necessary instead of \$25,000, as was proposed in the board's report on this, however, was lost by nine to eight."

Controller Foster's motion, that the corporation counsel be instructed to secure the services of Canadian experts. Before this was put to the vote, Mr. Maguire said that the corporation counsel had been instructed to secure the services of Canadian experts. "If such can be found satisfactory to the corporation counsel" he added.

**Came as Surprise.**  
 The vote was taken on the evening of the 27th and the amendment was carried unanimously.

**R. C. Harris Appointed**  
 R. C. Harris, property commissioner, was appointed commissioner of works at a salary of \$8000 a year. The street cleaning department will also be placed under his control. There was much discussion on the board of control's recommendation to the above effect, and Controller Foster was the mover of the amendment.

Mr. Maguire said that the city needed a permanent railway department. Experts reports were not what was wanted, but a department with a permanent staff of American experts, he said, would usually "sell out"; they had nothing at stake, and the highest bidder could get them.

**THE WEATHER**

OBSERVATORY, TORONTO, May 28. (4 p.m.)—The weather to-day in the western provinces has been mostly fair with some local showers. In Ontario and Quebec it has been warm and showery and in the Maritime Provinces fine.

Minimum and maximum temperatures: Victoria, 42-54; Vancouver, 48-58; Kamloops, 50-71; Calgary, 34-48; Edmonton, 42-51; Saltford, 42-51; Moose Jaw, 40-48; Regina, 33-43; Winnipeg, 50-54; Port Arthur, 33-44; Harry Sound, 40-50; Toronto, 53-63; Kingston, 54-70; Ottawa, 58-80; Montreal, 50-57; Quebec, 60-82; St. John, 54-74; Halifax, 48-74.

—Probabilities—  
 Lower Lakes and Georgian Bay, Ottawa Valley and Upper St. Lawrence—Showery part of the day, following with westerly winds; cloudy and cooler.  
 Lower St. Lawrence and Gulf—Unsettled and showery.  
 Maritime Provinces—Fresh to strong south and southwest winds; becoming showery with much fog.  
 Lake Superior—Fresh northwest and west winds; fair and cool.

**BIRTHS**  
 BRYAN—On Monday, May 27, at St. Darling-avenue, to Mr. and Mrs. Wesley L. Bryan, a son.

**DEATHS**  
 COWAN—Sudden, at Walkerton, Ont., on Tuesday, May 28, 1912, George, husband of the late Ann Cowan, aged 68 years (moulder).  
 Funeral on Thursday from 259 Colgate-st., Toronto, to Mount Pleasant Cemetery.

**Interchange of Amenities**  
 During the debate on the usual PULLING clause, the Hon. Mr. Mignault, taking up considerable time, during which he spoke in favour of the bill, was controlled by Mr. Harris. He should be supreme head in this department, and the civic works, he said.

**When the report of Acting City Engineer Powell relative to the findings of Judge Winchester in the recent investigation of the filtration plant came up, Mr. Harris declared that the report was in the hands of the new commissioner of works. Aid. Yeomans strongly protested against the proposed dismissal of Mr. Henning, declaring that this engineer would be a great loss to the department. The council, however, decided to refer the question to Commissioner Harris.**

**Church's Amendment Lost.**  
 The vote was first taken on Controller McCarthy's amendment, to the effect that a permanent traffic expert be secured, who should be nominated by the corporation counsel and attorney. The amendment was carried by nine to eight.

**Controlled Foster's Motion.**  
 The corporation counsel was instructed to secure the services of Canadian experts. Before this was put to the vote, Mr. Maguire said that the corporation counsel had been instructed to secure the services of Canadian experts.

**Came as Surprise.**  
 The vote was taken on the evening of the 27th and the amendment was carried unanimously.

**R. C. Harris Appointed**  
 R. C. Harris, property commissioner, was appointed commissioner of works at a salary of \$8000 a year. The street cleaning department will also be placed under his control. There was much discussion on the board of control's recommendation to the above effect, and Controller Foster was the mover of the amendment.

**Charges and Countercharges.**  
 Mr. Maguire said that the city needed a permanent railway department. Experts reports were not what was wanted, but a department with a permanent staff of American experts, he said, would usually "sell out"; they had nothing at stake, and the highest bidder could get them.

**NO 'BROUGHT' CASTLED' DUBIOUS 'SHEBEC'S' MARRIAGE**

Public Sadly Mistaken in Interpretation Thereof, Declares Counsel Mignault in Impassioned Address—Admission That Marriage of "No Church" Parties Is Null.

OTTAWA, May 28.—(Can. Press.)—What is considered to be the crucial point in the argument of the learned counsel opposing the right of the Dominion Parliament to enact the LeCaster marriage bill, was reached in the supreme court this afternoon when P. B. Mignault, Esq. Montreal, asserted that the general public misunderstood, and many legal lights seemingly deliberately misconstrued, the marriage law of the Province of Quebec in referring to the fact that, under the law in Quebec, a marriage is null and no marriage at all, even though the parties contracting lived together a number of years unless, they being Roman Catholics of course, it was solemnized.

**Gerhard Heintzman Upright**

In dark rosewood cases, 3 plain panels in top door, 2 pedals, 7 octaves, medium size, action, and keys thorough. In good condition. Regular price \$400.00. Special—

**THREE COMPANIES' WIRES ARE STRONG ON ONE POLE**

Evidence Taken at Inquest Into Death of Edward Talbot Showed that Lineman Was Working in a Dangerous Place—William Hurst Died of Injuries Received on Same Pole.

OTTAWA, May 28.—(Can. Press.)—What is considered to be the crucial point in the argument of the learned counsel opposing the right of the Dominion Parliament to enact the LeCaster marriage bill, was reached in the supreme court this afternoon when P. B. Mignault, Esq. Montreal, asserted that the general public misunderstood, and many legal lights seemingly deliberately misconstrued, the marriage law of the Province of Quebec in referring to the fact that, under the law in Quebec, a marriage is null and no marriage at all, even though the parties contracting lived together a number of years unless, they being Roman Catholics of course, it was solemnized.

**Discussion Grew Warm**  
 By far the most interesting discussion took place this afternoon that has marked the hearing started by Mr. Mignault showed his full mastery of the Quebec marriage laws on which he is a recognized authority. All the justices of the court joined in the animated discussion that took place at times, Justice Idington and Duff being particularly anxious to go into the matter deeply and surely.

**Children are always protected.** exclaimed Mr. Mignault with earnestness. "This point, is absolutely misapprehended by the public, by people who are responsible for the agitation. They have no right to misconstrue the law in this way and impute that the children are illegitimate offspring. It is not the law of the Province of Quebec, and never was."

**Were Trespassing**  
 Clarke said that to the particular pole the Toronto Electric Company had attached wires of their own without the consent of the Bell Telephone Co., and that, therefore, they were trespassing. Referring to the accident of Monday last, when another lineman was injured and died, Clarke said that this man had foolishly reached out to see if the wire which had killed Talbot still charged, and that he himself was fatally injured.

**A Dangerous Pole.**  
 L. E. Thompson, a trouble man for the Bell Telephone Company, testified that he was on the pole on Saturday and considered it was dangerous. George Willis also gave the same testimony. He said that the Toronto Electric Light Company's wire was resting on the top of the south side of the pole, that there was no insulation on it, and that on the north side of the pole was a by-wire electric wire, which also showed signs of having been burned.

**Hearing Adjourned**  
 The inquest was not finished yet but heard, and as there was no court stenographer at last night's hearing, Mr. McCollum was forced to make all notes in long hand, which took considerable time, and caused proceedings to be slower than they otherwise would be. The next hearing was set for to-morrow night at 8 o'clock.

**Other Inquests.**  
 Three other preliminary inquests were held last night. The jury viewed the body of E. Thornton, the brakeman killed by a Grand Trunk Railway freight train Monday night, the body of William Hurst, the other lineman killed on the same pole that killed Talbot, and the body of the unknown Chinese found in the waters of Ashbridge's Bay Monday afternoon. Further hearings were set for May 31, June 4 and June 5.

**Street Car Delays.**  
 Tuesday, March 25, 1912.  
 8:04 a.m.—Load of bricks stuck on track, Queen and Spadina; 8 minutes' delay to eastbound Queen and Dundas cars.  
 8:40—Horse fell on track, College and Yonge; 5 minutes' delay to southbound Yonge, Dupont and Avenue-road cars.  
 11:40—G. T. R. crossing held by train; 5 minutes' delay to King cars both ways.  
 3:50 p.m.—Engine on track, Front, near Bathurst, delaying Bathurst cars 8 hours and 30 minutes.  
 8:40—Wheel came off wagon, York and King; 12 minutes' delay to westbound King and Spadina cars.  
 5:40—Ray and King fire; 25 minutes' delay to all cars.  
 8:51—Front-st., an excavator across track; 7 minutes' delay to Bathurst cars both ways.  
 5:50—Front-st., an excavator across track; 7 minutes' delay to Bathurst cars both ways.  
 5:50—Front-st., an excavator across track; 7 minutes' delay to Bathurst cars both ways.  
 5:50—Front-st., an excavator across track; 7 minutes' delay to Bathurst cars both ways.

**TORONTO WATER RATES**  
 Toronto water rates may be paid at branch banks throughout the city until May 31. After that date payment must be made at the City Hall. To secure full discount payment must be made not later than May 31.

# Woman's Realm--the Household, Fashions and Society

## SOCIETY

Mrs. Albert Gooderham has issued invitations to a reception and musicale on Thursday evening at Deane's for the delegates to the annual meeting of the L. O. D. E.

The annual commencement exercises of the Toronto Conservatory School of Expression will take place this evening, when his honor, the lieutenant-governor will present the diplomas.

The lady managers of the Protestant Orphans' Home have issued invitations to their first annual meeting, to be held at 3.30 on Tuesday afternoon, June 4.

The Sir George Kirkpatrick Chapter, L.O.D.E., has issued cards for a pastoral cantata in aid of the Children's Consumptive Hospital, at Trinity College at 3.30 on Saturday afternoon, June 1, under the patronage of Lady Gibson, Lady Pallat, Lady Mann, Mrs. A. E. Gooderham, Mrs. Nordheim, Mrs. A. W. Austin, Mrs. Hurrill, Mrs. Merritt, Mrs. A. H. C. Proctor, Mrs. Dignam, Mrs. Arthur, Mrs. Albert Dymond and Mrs. Bolton. Tickets may be obtained from the patronesses and the following officers: Regent Miss Brodigan, Vice-Regent Miss E. B. Brown, Standard Bearer Miss Alice Burritt, Secretary Mrs. Freda Davison, Treasurer Miss Beryl Beatty.

Mrs. Albert E. Gooderham left yesterday for London, Ont., to attend the meeting of the National Council of Women.

Mrs. de Moberly Bell and Mrs. MacMillan are at the Wingham, Niagara-on-the-Lake, for camp, and Miss Webster, Miss Haldee Crawford and Miss Gladys Foy will be at the Oban for the ball on Friday night.

Miss Kathleen Cosgrave will attend the June ball at Kingston.

Mr. and Mrs. Frank Johnston and their two sons will leave next week for Niagara-on-the-Lake, where they will spend a month.

Miss Haldee Crawford and Miss Gladys Foy spent yesterday at Niagara-on-the-Lake.

Mrs. Oscar Taylor (nee Rose) of Queen's Court, 581 Jarvis-st., will receive the first and second Saturdays in June.

Mrs. Riggs is giving a dance at Niagara-on-the-Lake this week for her guests, Miss Florence Smith.

Miss Gladys Edwards left yesterday for Niagara-on-the-Lake.

Mr. and Mrs. Clifford Gilmour returned to Winnipeg last night.

Col. and Mrs. G. B. Miller will be at Niagara-on-the-Lake for camp.

Mrs. Alfred Wright, Jr., of Vancouver, is visiting her mother, Mrs. Fred Denison of Rusholme.

Sir Thomas and Lady Tait, and Miss Winifred Tait have returned to town and are at the Prince George.

Mrs. Murray of Carlton-st., was the hostess of a luncheon in honor of Miss Sterling, whose marriage takes place next month.

Mrs. Frank Grantham, High Park, left on Wednesday, May 15, for a three months' tour through Western Canada and the United States.

Miss Hillary Thomas has returned to New York after a delightful visit to Mrs. George Hees. She was entertained by a number of people in Toronto, including Miss Lily Lee, Miss Somerville and Mrs. Denison Dana.

Mrs. G. P. Sylvester has left for a visit to Montreal.

The ladies of the Toronto Golf Club will play a match with the Hunt Club on the latter's links on Saturday, June 1.

Mrs. Macemeken and Miss Gladys Stark of Oxford, England, are visiting Dr. Mrs. and Miss Burnham.

Mr. G. T. Somers, president of the Sterling Bank, with his wife and family, 200 left for a short visit to Atlantic City.

Mrs. J. Edward Starr and Miss Nora Starr are the guests of Mrs. Bestie Nesbitt at her island home in Muskoka.

Mrs. J. A. Macdonald is leaving for Winnipeg to meet Dr. Macdonald, who has been in the west for some time. She will go on a vacant seat being reserved for her, and will be absent for two months.

### PIANO RECITAL BY THE PUPILS OF MISS ETTA RUNDLE

A very successful concert was given last night in the Forster's Hall, College-street, by the pupils of Miss Rundle. The program consisted of solos and ensemble work, the appreciation of which was evidenced by the applause accorded to each number. The precision with which the ensemble work was played and expression given by the pupils reflected great credit on the careful training given by Miss Rundle. Readings, vocal and violin solos were contributed by Miss Florence Good, Mrs. Corrie and Madame Ruth Hope respectively, and were greatly appreciated. An interesting item was a trio given by nine young ladies, playing on three pianos, the interpretation of which was excellent, and loudly applauded. The hall was crowded, and a vacant seat being visible, and the entire proceeds are to be devoted to the Toronto Free Hospital for Consumptive Children.

### SOTHERN AND MARLOW TO RETIRE.

CLEVELAND, May 28.—E. H. Sothern and Julia Marlowe announced today that after two more seasons they would retire permanently from the stage.

Mr. Sothern said for Miss Marlowe and himself that it was not their purpose to engage in new seasons, but they had secured a more permanent season to devote to private life and enjoy that domesticity which a dramatic career with its constant travel does not permit.

### The Daily Hint From Paris

The gown shown here is made of silk voile, black combined with white. The yoke and sleeves of the white voile are cut in one, but a line of embroidery gives the effect of a sewed-in sleeve. The embroidery is done in white silk and so placed as to conceal the seam which joins the material.

### Home Helps

Keep a piece of sandpaper handy to the sink where the dishes are washed. When a stubborn spot on a burned kettle refuses to move thru the aid of a wire duster, use a piece of sandpaper. It is an aid in cleaning a gas stove. Fold a piece over a knife and you can quickly remove all grease or dried food that sticks to the corners.

A zinc-top double-decker kitchen table made for the convenience of the housewife whose kitchen room is limited. The zinc top is unimpaired by hot dishes, and makes an excellent moulding-board for baking. The table is mounted on casters, and may be moved wherever it is desired or necessary.

Preventing Cheap Tinware From Rusting.—Give it a coat of melted paraffin wax, and then place the article in a hot oven for a few minutes. After it is thoroughly baked, wipe off the extra wax with a soft cloth, and your work is finished.

"Ready" Laundry Bag.—By all means furnish the man a laundry bag for collars and cuffs only. Then, on getting home, the clean collars and cuffs, the cord and paper wrapping them can be folded and dropped into the laundry bag, where it is at hand for wrapping the soiled laundry to send off the next time.

When Grinding Bread Crumbs.—If a quart fruit jar is slipped over the outlet of the grinder as far as possible and held there while grinding, with the other hand, all crumbs will be caught, instead of a lot of them flying around the room, causing unnecessary disorder.

### LULU GLASER'S LAST WEEK

When the curtain rings down on the last act of "Miss Dudelsack" at the Princess Saturday night, it will mark the closing of the season for this popular theatre, and also the closing of "Miss Dudelsack" for the season.

In this pleasing musical comedy which was introduced by Scotch smearing, Miss Lulu Glaser has scored one of her biggest hits. The matinee to-day, which is at popular prices, will be the last of all matinee matinees.

A grand assortment of superior attractions have appeared at the Princess during the season about to close and it is gratifying to know that a financial standpoint also, the business for the season has been highly successful.

### TO CUT BIAS BANDS

Having decided on the width of the bands, and having calculated the amount of material that will be required for them, cut material on the

IF THIS IS YOUR BIRTHDAY

You may expect some unpleasantness and there is danger of acting too hastily. Anything new undertaken should be carefully planned out. It is not so much the thing itself but the way of advancement and will attend details if they learn to make careful decisions. They will be especially successful under direction.

## SHOULD ADMIT SIKHS

### National Council of Women Votes For Open Door — Theatres Need Closer Watching.

LONDON, May 28.—(Special.)—The work of the National Council of Women progresses, the delegates do not lose interest or enthusiasm, and the reports of the papers are very lengthy, and in the main, the delegates do not doubt but that an enormous amount of useful information is imparted.

The first paper of to-day's session was the report of the national council of dependent classes, read by Mrs. Plumtree. The report dealt largely with the numerous instances in which aged fathers and mothers are left as a burden upon the country. Mrs. Savage, as convener of the Toronto committee on this subject, said that the Associated Charities were taking great interest in the matter.

Mrs. Cummings pointed out that a law existed in Ontario compelling children to support their parents and grandparents, while in Quebec the law extends even to the father and mother-in-law.

Suppressing Obscene Literature.—That much work has been done in the past 12 months by the committee on objectionable printed matter was shown by the report of Miss Liddell, read by Mrs. McNaughton of Montreal. Different councils had made rigid search into the matter of books at the libraries, printed postcards, pictures, theatres and mail matter. Mrs. McNaughton said she had made rigid search into the matter of books at the libraries, printed postcards, pictures, theatres and mail matter. Mrs. McNaughton said she had made rigid search into the matter of books at the libraries, printed postcards, pictures, theatres and mail matter.

### MISS LULU GLASER

Noted comedienne at the Princess this week in the delightful musical comedy, "Miss Dudelsack."

She and her drawing stars, Mr. and Mrs. George, with a pencil and piece of chalk. When this is done, join the lines of the material together so that the ruled lines meet. Press the seam open, and then begin to cut on the ruled lines round and round, starting either at the top or bottom. The result will be one long bias strip which will make nice even bands. This method will accomplish a great saving in time as well as of material, because there is no more tedious task in sewing than joining bias bands.

### The Nursery

Our talk on the training of the reason has been interrupted, because topics of the moment needed discussion. However, since the first talk was purely introductory, it should not be hard to make connections.

We were discussing the logical development of the child, and attempting to find ways of correctly training it in the home. There are those who will tell you that it is impossible to make children reasonable, that you must just take them as you find them, put along with them as you can, let them trot along in nature's way and whip them when they are naughty.

Well, part of that is quite correct—that of letting them follow nature's way. That is what we are doing. Finding out how different instincts are developed, and adapting our training to suit the growth. And while this is necessary before the reason has full control, but I do not think corporal punishment should be necessary after the age of four or five years. The reason is fully enough developed by that time to make all punishment unnecessary.

One cannot count the number of bumps babies suffer daily. When they are little they have to take them, but when older the mother can teach the child to see that it was not the fault of the table or chair or door, but of himself, because he did not see where he was going. Show him the cause and he will avoid further bumps. The mother who can teach her baby to "whip" his table, or "scold" the naughty chair, is training her child to think everything to blame on himself, and later when he is grown, he will feel very much aggrieved at this same mother when she punishes him for some misdeed. He will be quite sure "it wasn't his fault."

A well-known kindergarten tells of two little girls who had quarreled with another. The next morning one said: "When I got home I told my mamma, and she said 'you quarreled' with little girls who quarreled with me." "So did your mamma, didn't she?" "No," said the other, "she said 'you quarreled' with me." "So did your mamma, didn't she?" "No," said the other, "she said 'you quarreled' with me." "So did your mamma, didn't she?" "No," said the other, "she said 'you quarreled' with me."

### PREPARE FOR WAR

Miss Couric, president of the National Council of Women, Dr. Gordon seconded the adoption of the report. The seconded advocated a committee on peace and arbitration in every council.

Mrs. Flora Denison said that in traveling through Europe she had found that the "Nations League" was being organized, and while recognizing the difficulty of the successful solution of this subject, we feel that it is a question that presses for solution, and is a very interesting discussion.

The government is asked to appoint a woman on the central board of immigration, as suggested by Mr. Hawkes, was moved by Mrs. Gurnett, seconded by Mrs. Morrison, and carried.

### Peace Celebration.

The discussion closed by Mrs. Couric, moving her resolution that the National Council of Women be pleased to arrange for the celebration of the centenary of peace between Canada and the United States, and that a copy of the resolution be sent to the prime minister.

Mrs. Short outlined the origin of the peace celebration movement, which originated with Sir Edmund Grey, secretary for foreign affairs in England. Mrs. Calder of Hamilton, who had been at a meeting on this subject in Buffalo, said that the motion picture was just as anxious as the British for the coming public celebration of thankfulness for the hundred years' absence of war.

Mrs. Couric, seconded by Mrs. Bullock, had a divided vote carried by a majority. The carrying of this resolution closed the morning session.

A most delightful luncheon was given the delegates by the Canadian Club of London.

### INVASION OF SIKHS

The question of the admission of the wives of the Sikhs into Canada was brought forward by a resolution from Mrs. Plumtree in favor of the movement, and an amendment by the Vancouver council spoken to by Mrs. White, who said that the Sikhs were already 1 to 2 in the province, and 1 to 9 in Vancouver City, and she thought it unjust in the eastern provinces to

### THE HANDY MAN

When the rounds of a chair have become loose or have come out, secure from your hardware store a little tub of wood glue. Place the glue in the joint to be mended. Get your clothes-line (it need not be cut in two) or any strong cord or small rope and tie it around the chair legs. Then take a small stick and chop it at a right angle. Set the chair away a day or two for the glue to set. Upon removal of the rope the joint will be as good as new. The little device holds at a right angle, which is the secret of mending furniture, and any home has a clothes-line and a little stick.

A useful bracket for the kitchen or bathroom is made for a few cents, as follows: Take one side of a wire broiler, and bending the handle at a right angle to the broiler proper, secure it firmly with two pointed tacks to the wall, just over a swinging gas-jet. If kerosene is used, the bracket is placed over a table, beneath which a lamp may be kept. Place a chair on either side of the gas-jet, and the seat will be as good as new. This is most convenient for quickly heating water for shaving and other purposes, and lasts many years.

## SHOULD ADMIT SIKHS

### National Council of Women Votes For Open Door — Theatres Need Closer Watching.

insist that entry be still allowed. It was pointed out that the Sikhs segregate and will never assimilate.

Mrs. Plumtree said that after studying the question, she had found out that the Hindus were the most troublesome of colonists. She thought the question should be settled by allowing the Sikh women to enter Canada, or else return to the Sikh men to India.

Mrs. Denison supported Mrs. Plumtree.

The amendment from Vancouver asking that no relaxation of the laws of exclusion be made, was lost. The resolution that the wives of the Sikhs should be admitted, carried. Mrs. Plumtree was the mover, and Mrs. Denison was the seconder of the resolution.

Mrs. Cummings announced that an invitation had been received from New Orleans that the next meeting of the national council would be held in that city. Hilarious clapping from all parts of the hall spoke of the appreciation of the council.

### Registration of Children.

"The children of the day will be the citizens of the future," said Miss Matton that the national council do memorialize the governments in the provinces where the education act extended to provide machinery for the registration of all children of school age. The object of the resolution was to increase the educational status of the country. The resolution was seconded by Mrs. Short of Ottawa, but was afterwards withdrawn.

The report on laws for the protection of women and children written by Mrs. Edwards, was read by Mrs. Leathes, seconded by Mrs. White.

The report stated that there is no Dominion legislation on the subject.

### Whitby Ladies' College Concert

Sir John Gibson, lieutenant-governor of Ontario, and Miss Gibson, were among the patrons present at the excellent concert given last night at the Toronto Conservatory of Music by the pupils of the Ontario Ladies' College, Whitby. The program included vocal gems from Faust and Goetz, and readings from Kingley. His Honor and Miss Gibson congratulated Mrs. Hare at the conclusion of the concert on the high quality. Those present agreed that the program was one of the finest in the history of the college.

Principal Hare in addressing the audience expressed great appreciation of the suits attended by the pupils, and at the attendance of Sir John Gibson and so moved by Mrs. Edwards and seconded by Mrs. Cummings.

### Immigration

A comprehensive report from the immigration committee was read by Mrs. Fitzgibbon. The Ontario Government is advancing money for the passage of girls and women. During the past year upwards of \$8000 had been returned to the government by Miss Fitzgibbon, the money having been brought to her at the rate of \$4 a month from the girls themselves out of their wages. The resolution of Miss Fitzgibbon for medical inspection of immigrants when leaving for Canada, and that certain classes be exempted from the regulations, was moved with several amendments. An amendment proposed by Mrs. Short, and seconded by Mrs. Symbing, carried unanimously. The resolution went put on record their earnest desire for a more thorough medical inspection of intending emigrants, which will be made in the coming year. In the home district, and thus obviate that tragedy of emigration, the turning back of the hopeful immigrant at the journey's end, and while recognizing the difficulty of the successful solution of this subject, we feel that it is a question that presses for solution, and is a very interesting discussion.

The government is asked to appoint a woman on the central board of immigration, as suggested by Mr. Hawkes, was moved by Mrs. Gurnett, seconded by Mrs. Morrison, and carried.

### True Patriotism

At the evening session Prof. Walter, Huron College, who presided, said that patriotism was changing and becoming cosmopolitanism. The National Council of Women wanted to develop the man and woman according to high ideals. This is true patriotism.

Mrs. Dignam said that in coming back to London, after 27 years' absence, she was coming back to her home town, which she had rescued her first little medal and had opened her first little studio. Canada had not done much in the matter of art. Ottawa has a Chinese art gallery in the west end, and has done well in the matter of art. The Women's Art of Toronto has done best. It had held 128 exhibitions in 28 years and had branches in Winnipeg and other centres. It was time the council had a committee on art and music and drama.

Mrs. Parsons, representative of Woman's Institutes, was the next speaker. We are only beginning to get the best of our country's resources; we want the right kind of immigration. The little child is Canada's greatest asset. Materialism must not be allowed to enter too greatly into our living. We must try to put our country's best interests into educational system, she said.

Mrs. Parsons advocated the teaching of the Bible in the schools and more manual training in the country schools.

Value of Ideals.—The Daughters of the Empire, Mrs. Plumtree said that ideals were, after all, the most practical thing

## THE STERLING BANK OF CANADA

### Urge Your Children To Be Thrifty

A deposit of one dollar opens a savings account at the Sterling Bank, paying 3 per cent. interest. Withdrawal by cheque discourages unwise expenditures.

HEAD OFFICE, KING AND BAY STREETS, TORONTO.  
BRANCHES: Adelaide and Simcoe Streets, Queen Street and Jameson Avenue, College and Grace Streets, Broadview and Wilton and Keel Streets, Wilton Avenue and Parliament Street.

### Seasonable Recipes

When living is as expensive as it is in Toronto at present, the housewife appreciates any help she receives in preparing dishes that are no less attractive because they are economical. Below are several hints as to using up of cooking foodstuffs.

Cold potatoes may be used in numerous ways. They may be fried, tossed or sautéed, or boiled potatoes should never be wasted, but served again as boiled, for in that guise they have a very peculiar warmed-up flavor which would tell the tale at once. When nicely flavored sauce may be made, useful for making fish cakes, croquettes or cold meat pies. Sliced cold potatoes make an excellent salad if properly and liberally seasoned with salad dressing. A delicious pie may be made of chopped meat moistened with a nicely flavored sauce and put into a fireproof dish, and covered with a good layer of mashed potatoes and baked in the oven. If cold potatoes are mashed up with left-over cold meat, and moistened with a little butter and white sauce, a good material for a pie or croquette is available.

Cooked vegetables are used for salads, either separately or with cold meat or fish or dressing. Cold green vegetables, such as green peas, string beans, globe artichokes and asparagus, make very good salads. If seasoned with an ordinary vinaigrette sauce, made of salad oil and mixture of three parts of the oil and one part of vinegar, salt, pepper and chopped parsley. Again many vegetables, especially peas, beans, artichokes and sprigs of cauliflower, are handy as garnitures for meat dishes and certain soups.

When the whites of eggs are used for clearing jellies and soups, they are not wanted for several days, but the yolks, with a little cold water and put them away in a cool place, and will thus keep good. Egg yolks are most useful as thickening for soups. They should be beaten up and mixed with a small quantity of cream and cold white stock. Cream is more often used than is necessary for soups, and to which this halation is added should be removed, while boiling, to the side of the stove, and a ladleful of water stirred into the egg mixture. Then the egg mixture is poured into the sauce and the whole stirred without a slow fire for several minutes.

When cutting up mixed peel, save the rough sugar with which they are usually coated. This is usually thrown away, but it may be found useful for sweetening custards and milk puddings, imparting a delicious flavor if orange or lemon rinds may be broken up and sprinkled on the top of cakes or cookies.

### Large Increase in Membership

Toronto Branch of Methodist Women's Missionary Society Has Had Very Successful Year's Work.

Mrs. J. B. Willmott presided at the nineteenth annual meeting of the Toronto branch of the Methodist Women's Missionary Society at Bathurst-st. Church yesterday. The reports presented showed a large increase in the membership and money raised. This the president attributed to the systematic methods put into operation by Mrs. Ross.

At Montreal the French Institute, Protestant Orphans' Home and All People's Mission were reported to be doing excellent work.

Mrs. Paul was doing excellent work among the foreigners, and she was the new hospital at Port Simpson. Mrs. McDonald's health has broken down under the strenuous work of the Klatskan Home for Girls, and she had been granted a holiday.

Miss Preston and Miss Harrison were doing effective work in Regina by conducting a kindergarten for Japanese and Chinese children at the Oriental Home. Mrs. Dignam said that in coming back to London, after 27 years' absence, she was coming back to her home town, which she had rescued her first little medal and had opened her first little studio. Canada had not done much in the matter of art. Ottawa has a Chinese art gallery in the west end, and has done well in the matter of art. The Women's Art of Toronto has done best. REAL ESTATE

WILL MARKET LEASIDE FALL

Canadian Northern Believed to Have Decided to Hold Back Offering Until About September Next.

Altho no official word has been given out, it is now thought improbable that the Canadian Northern's lands at Leaside will be placed on the market before next fall.

It was first understood that part of the property would be retained next month; in fact, until yesterday everything was being lined up to market about a half million dollars' worth of the lots almost at once.

The idea that building property cannot be sold in Toronto in the late fall and during the winter is going the same way as the notion that building operations could not be carried on here during the cold months.

RAILWAY WILL APPEAL AWARD

Value of \$238,583 Placed on Twelve Acres Taken By C. N. R. From Robert Davies.

You Can't Cure Catarrh By Swallowing Drugs

Though Syrup, Tablets and Sprays Sicken the Stomach, But Do Not Reach the Glands of Catarrh-Healed.

# Standard Bank Increases Its Capital—Sao Paulo Reaches 240

### MUNICIPAL DEBENTURES

to pay the investor a full 5%  
Special Circulation on Request.

**Wood, Gundy & Co.**  
Toronto, Saskatoon,  
London, Eng. 3617

### STANDARD BK. TO INCREASE ITS CAPITAL

Announcement was made last night at a meeting of the board of directors of the Standard Bank of Canada during the day, it had been decided to increase the capital stock of the bank by a new issue of stock of a par value of five hundred thousand dollars, which will be offered to present stockholders at a premium of 100 per cent. (50% a share).

For every four shares of old stock held, each shareholder will be allotted one new share at the rate of record June 17, 1912, and as the Bank Act requires no fraction of a share shall be so allotted. Subscribers will be allowed to pay for their stock by instalments, and a circular will immediately be issued to the shareholders advising the date upon which the instalments will be payable.

The authorized capital of the Standard Bank is \$5,000,000 and the new stock issue will bring the capital subscribed up to \$2,500,000.

### Now It's a Merger in Milk Trade

With the incorporation of the Borden Milk Company, Limited, under a Dominion charter, another merger has taken place. It is that of the condensed milk business. The Borden interests have merged Borden's Condensed Milk Company, Limited, St. Charles Condensed Milk Company, Limited, and the Borden Condensed Milk Company, Limited, of Truro, N.S.

It has been well known that the Borden interests have had control of the condensed milk trade of the continent. The condensed milk trade is not confined to this continent, however. In Europe the Anglo-Swiss Condensed Milk Company, Limited, and the Nestle Milk Company, Limited, control the trade, and it is well known that the Borden interests have an understanding as to the spheres of activity of each.

The headquarters of the new Canadian merger will be in Montreal.

### IRELAND HARD HIT BY CRASH IN MARCONI

More mention has been made of Dublin in a discussion of the New York stock market in the past week than ever before in history. Yet Dublin speculates heavily, and its bullish interest in Canadian Pacific has oftentimes been referred to in market gossip.

There is a fairly numerous monied class in the Irish capital, who have learned anything but speculation. These are the former Irish landlords, whose means of money advanced by the palatial British Government. The Irish landlords are notoriously a sporting class. They breed fast horses, race them and bet on them. They have sold out their estates and are now investing in the stock market. They are especially fond of Canadian Pacific, which they have always believed in things which move quickly.

The speculative propensity is not confined to that class, however. A race to the track, and he and she "lay something on" in order to have an interest in the history of the shares, and the break in Marconi has forced them to liquidate Canadian Pacific. Reading is another thing. That is why so much has been heard of Irish speculation of late.

Canada Bread common, which has decided advance on the curb. The Toronto Stock Exchange of late has still further to its gain yesterday. The price closed at \$9 1/2 for the first time in the history of the shares, starting at that figure, over a point above the quotation at the first of the month. Bread bonds sold at \$98, against \$91 1/4 the last previous sale.

The Canada Bread Co. is a merger of bread industries in the Montreal-Quebec and Winnipeg, brought about by a month ago, the issue being \$250,000 of 6 per cent. bonds at par, 13 interest, carrying a bonus of 20 per cent. in common stock. The company, which is a Winnipeg corporation, is capitalized at \$1,000,000 in common stock and has issued \$200,000 of the common and \$250,000 of the bonds.

### CANADA BREAD HIGHER

Canada Bread common, which has decided advance on the curb. The Toronto Stock Exchange of late has still further to its gain yesterday. The price closed at \$9 1/2 for the first time in the history of the shares, starting at that figure, over a point above the quotation at the first of the month. Bread bonds sold at \$98, against \$91 1/4 the last previous sale.

### A CURB FEATURE

A firm of King-street brokers had \$20 a share for a block of 100 shares of Stanley Mineral Springs, Limited, on the curb yesterday. This stock was put out in conjunction with a bond offering about a month ago, the issue being \$250,000 of 6 per cent. bonds at par, 13 interest, carrying a bonus of 20 per cent. in common stock. The company, which is a Winnipeg corporation, is capitalized at \$1,000,000 in common stock and has issued \$200,000 of the common and \$250,000 of the bonds.

### SÃO PAULO IN LEAD AGAIN

Traction Issue Makes Sharp Recovery and Overshadows Other Stocks Thereby—Toronto Market Firm.

Sao Paulo ousted Rio from the leadership in the Toronto stock market yesterday, a sharp recovery in the former issue entirely obliterating the record of the latter. In fact, Rio did practically nothing at all, the stock drifting back into comparative quietness and falling within an extremely narrow range for the session. That the recent advance was maintained so well, however, spoke volumes for the strong demand which was in evidence, such profit-taking as came into play being absorbed without any apparent result. New Rio developed considerable buoyancy, and reached a new record at 189 1/2. The old stock held between 184 and 184 1/2.

Sao Paulo advanced by leaps and bounds to within a point of its recent high record. The first sale was made at 227 1/2, a gain of over 2 points over night, and from that 240 was made without a break. There was nothing new out on the security and outside of the fact that local brokers held buying orders from London, no reasons were attributed for the bulge.

The remarkable activity which stamped the Toronto market as an exceptional one a few weeks ago, has dwindled away to a certain extent, but nevertheless, the volume of trading is still being maintained well above the usual mark. This was exemplified in some of the industrial stocks yesterday, but none of these developed any new features. Spanish River Pulp dropped down below 84 again for the first time in about a week. Profit-taking on the advance was responsible for the reaction. Elsewhere price changes were few and far between and so restricted in extent as to be purely negligible from anything but a trader's standpoint. The dominant firmness of the general list was, however, sufficient to bear out the idea that the buoyancy had by no means been eliminated.

### NEW YORK MARKET FAILS TO MAKE ANY PROGRESS—SPECULATION AT A LOW EBB IN WALL STREET.

NEW YORK, May 28.—To-day's session on the stock exchange differed from that of the preceding day only in the sense that it was dull and more uninteresting. The resumption of business in London and on the continent after the triple holiday was of little avail here; in fact, business in the foreign markets was no more active than here.

Some of the matters to which Wall Street gave more or less consideration in the course of the day were the New Jersey presidential primaries, a proposed amendment to the tariff of western freight rates, the refusal of the United States Circuit Court for this district to make permanent the temporary injunction recently granted the government restraining further sales of "valued" coffee, yet another advance in copper and the official weekly weather report. The latter was in some respects the most important development of the day because it outlined a general condition decidedly more favorable than was entertained a fortnight ago.

Steel Trade Improves.

Continued good inquiry for certain manufactured articles of steel and iron were again reported, with "premiums" for speedy delivery. Recent inquiries and other centres of the steel industry relate recent statements of public utility and the likelihood of a record-making output for the month. The utter stagnation of the stock market may be gathered from the fact that in the second hour of trading just about 15,000 shares changed hands. There was a trifling recovery during the morning, but the movement, which was no less perfunctory. Even the open and miscellaneous list failed to register their usual extreme quotations.

### Wall Street Comment

Erickson Perkins & Co. had the following: Stocks were neglected to-day. All of the discussion had to do with news and politics—particularly the news of politics in business. Conceiving that Roosevelt should be nominated next month, it is important to know just how much will keep. Steel orders recently have been the largest on record. Will new business hold its own? There is usually a quiet lull in June, followed by improvement in July. Steel orders are well maintained and the price of copper metal to-day was advanced to 12 1/2 cents by the chief interest. This does not look as if Roosevelt's election of nomination is hurting business. Crops are doing pretty well, which fact is the basis of confidence in the business outlook. But there is a general indifference to the stock market. Bankers seem to be reading, altho they show no uneasiness. Some profess satisfaction at the outlook, but give no advice about securities. Under the circumstances we would adopt a cautious policy.

Chas. Head & Co. to J. E. Osborne: Another excessively dull and featureless day. As an example of the lethargy of business, Lehigh Valley sold only once between 10.80 and 1.10 London quotations, after the holiday, betwixt little interest, being limited to small fractional changes, and no opening was only steady. Equestrian day has been more stagnant than ever, with yesterday only 121,000 shares being traded in up to 2 1/2 per cent. It is still one of uncertainty, but as a market usually presages a break, we would not buy at present, but await the future developments.

### BIG PART OF INCOME GOES UP IN SMOKE

"The entire fuel bill of the railroads of the United States is conservatively estimated at \$240,000,000 a year. The railroads of the United States use annually 3,500,000 tons of coal. This represents a total production of the country. The fuel item amounts to from 8 to 10 per cent of gross earnings."

W. B. Swift, chief engineer of tests for the Atchison, Topeka and Santa Fe, presented these figures yesterday at the convention of the International Railway Fuel Association, at Chicago, as emphasizing the necessity for greater economy in the use of coal by the railroads and methods for securing greater efficiency in firing locomotives.

"The average cost of fuel on large railroads," said Mr. Swift, "is \$4000 per locomotive per year. This means that a locomotive using 4000 tons of fuel for the year is costing \$4000 worth of fuel per year in a locomotive to reduce this cost to \$3333, in order to effect the desired reduction."

### BIG ORE LANDS ON MARKET IN FALL OF 1913

NEW YORK, May 28.—A firm from Montreal, that is, in the autumn of 1913, the Great Northern Ore trustees will be ready to put their ore on the market and sell at market prices to all comers. No leases for all or any part of the ore deposits will be made with any one. If the Steel Corporation, after the expiration of its lease on the Hill ore lands January 1, 1915, wishes to use more of the ore, it will have to purchase it in the open market, just like any other commodity.

Officers of the Hill properties firmly believe that the profits of the company, mining its own ore, will be much in excess of the present earnings. They figure this way. To get a ton of ore to Lake Erie ports, such as Cleveland, for example, will cost \$1.25 for rail and lake freight. It will cost 40 cents a ton to mine the ore, making the total cost \$1.65. Taking an average price for ore of \$2.25 a ton at Cleveland, which is believed to be a conservative figure, the profit on every ton would be \$1.65. The trustees expect to have no difficulty in marketing from 2,000,000 to 7,000,000 tons a year. Annual profits at the lower tonnage would be \$3,500,000, equal to \$5.50 on each of the 1,500,000 certificates. At the higher tonnage, 7,000,000, yearly profits would be \$11,500,000, equal to 7.7 per cent. on the certificates.

There is no mortgage on the ore properties and no charges have to be paid outside of the trustees' salaries and expenses, which would not amount to more than \$100,000 a year.

### Lombard St. Looks For Much Trouble At Next Settlement

LONDON, May 28.—Money was in good demand and discount rates were firmer to-day. The transport workers' strike and fears regarding the outcome of the settlement restricted business on the stock exchange, and price movements were irregular. Consols and home rails eased off from lack of support. But Mexican rail, copper shares and Kafirs were steady. No expansion in the dealings is looked for until after the settlement is concluded.

American securities were quiet during the forenoon. Prices moved irregularly until the late trading, when the market hardened a trifle. The closing was dull.

New York Telephone Co. 4 1/2 per cent. bonds, amounting to \$8,750,000, were offered here at 97 1/2.

### MONEY MARKETS.

Bank of England discount rate, 3 per cent. Open market discount rate in London for short bills, 3 per cent. New York call money, highest 3 per cent, low 2 1/2 per cent, ruling rate 2 3/4 per cent. Call money, overnight, 3 1/4 per cent.

### FOREIGN EXCHANGE.

## Values at the Simpson Store

The Simpson method of merchandising is, in effect, a huge profit-sharing scheme. In many cases where it would be easily possible for us to secure a larger margin of profit for ourselves, we prefer to cut prices very close and depend upon volume of business to compensate us for the loss. The result, a distinct lowering of the cost of living for our patrons. It's the best kind of co-operative buying—a help to you and to us. THURSDAY IS A BANNER VALUE DAY.
