ONE HOTEL OUT OF NINETEEN NOT CAUGHT IN MESHES OF LICENSE LAW

Provincial Officers Make Raid at Niagara Falls, Ont., Following Complaint of Ministerial Ass'n - Eight Scooped at Welland.

Niagara Falls, Ont., Sept. 30.-Eighteen out of nineteen hotel proprietors of this city received their papers yesterday to appear before Police Magistrate Crickchanks Tuesday morning for selling liquor during forbidden hours.

Only one place, the Market Hotel, managed by Chas. J. Flynn, is not included in the list.

It is claimed that the wholesale prosecutions are the result of a resolution of the Ministerial Association at St. Catharines some weeks ago, calling attention to the report that the licensed places of the Counties of Lincoln and Welland had been running open house during Sunday, especially at Niagara Falls.

In Welland towns eight hotels were "scooped" in and all "settled" by paying the fines imposed.

Only once before in the history of the City of Niagara Falls has there been such a wholesale prosecution of licensed places in this city, and that occurred away back in 1878 when the province took over the liquor traffic from the municipalities.

There are a few rumors on the streets that some such demonstration may occur Tuesday.

TOO MANY BANKS. Only Hindrance to Healthy Development of West.

Montreal, Sept. 30.-(Special).-Hon. L. J. Forget, who accompanied Sir Thomas Shaughnessy to the coast, stated today that the abnormal multiplicity of branch banks in the western towns was in his opinion the only hindrance to a healthy development of western business and financial interests.

He also remarked that all the leading eastern bankers were in the north-west about the same time, although they did not appear to be any special significance in this fact.

PINE AND COOL. Lakes and Georgian Bay-Moderate to fresh northerly to easterly winds; fine and cool.

TROOPS ORDERED TO CUBA MERELY AS A PRECAUTION

First Expedition From U.S. Will Consist of 5600 Men-Rebels Are Laying Down Arms and No Trouble is Anticipated.

Washington, Sept. 30.-American troops now are moving towards Cuba. Mobilization of the force will be at Newport News, Va., for the most part, although a part of the first expeditionary force to Cuba will be sent from New York and Tampa, Fla.

Advices received at the departments of the military establishment of the government today indicate that all is quiet in Cuba and that the insurgents intend to lay down their arms.

The probability is that the United States forces in the island will be landed only as a precautionary measure. So far as government officials here are advised, no trouble of a serious kind is anticipated, but in accordance with instructions from President Roosevelt, hurried preparations are being made for the sending of an expeditionary force of the army to Cuba.

In official circles here American intervention was regarded as inevitable. How long it may continue it is impossible to foretell.

Orders for the movement of the troops were sent out last night, but to-day scores of orders were sent to officers who are on leave to join their regiments.

HOLDS STAIRS WITH GUN BUT DETECTIVES GET HIM

Exciting Climax to Eight Mile Auto Ride in Early Morn After Long-Wanted Man.

A quartet of detectives left Toronto early yesterday morning in a hired automobile to arrest David Croble at a farmhouse in Newtonbrook, eight miles up Yonge-street, and they had to face the muzzle of a gun to make the arrest.

The slouts got out of town before daylight. The party was composed of Detectives Wallace, Tipton, Twigg and George Guthrie.

Four or five years ago there was an old man from Western Ontario standing in front of Eaton's. He told a World reporter that he had just been robbed of \$600 in a barber shop.

He demanded the discharge of one of the officials and an additional two and a half cents per hour.

Several vessels were discharging freight and there were not enough men to unload the Athabasca. The tonnage was also unloading at Fort William but when the strike occurred she came to Port Arthur to get rid of her cargo.

The men in the employ of the Canadian Northern learned of the trouble and refused to work on the boat, and at noon today all went out on strike.

FOUR TOWNS ARE WIPED OUT BLOTS ON GULF COAST MARK CITY SITES

Estimate of Devastation Wrought by Storm Places Number of Dead at 250 and Property Damage Ten Millions.

Pensacola, Fla., Sept. 30.-It will be three months before the streets are cleared. Of 22 ships and barks in the harbor one remains, and it is badly damaged.

Some ocean ships of 2000 tons are resting in front yards. Others have been driven thru houses; some have their noses pointed into stores, while others are keeled over on their sides in the bay or piled up on the beach.

Only four tug boats out of a fleet of about 20 remain. About 30 fishing schooners of 50 or 75 tons were moored alongside wharves, and two remain intact.

Wharves were cleared of their shipping and freight.

New Orleans, Sept. 30.-Some estimate of the devastation wrought by the storm along the 150 miles of coast between this city and Pensacola, Fla., was made possible today.

The total loss of life will, it is certain, be less than 250, and the damage to property easily will exceed \$10,000,000.

At least four of the picturesque little towns planted on the brink of the gulf have been wiped out of existence, while the fate of as many more is still a matter of doubt.

In the wrecked and ruined larger cities the greatest misery prevails. The storm added its sting to the horror. A terrific downpour of rain eastward from Mobile to-day increased the suffering.

The coast for a hundred miles is littered with wrecks and scores of bodies have been washed ashore. Light-houses have been swept away, the keeper, his wife and daughter perishing in one.

New Orleans itself escaped in little damage, and so far as reported, the loss of life here does not exceed ten drowned.

The loss was heaviest among shipping. Eight large sailing vessels and about thirty small vessels were wrecked, and ship Island in the Gulf and Horn Island were submerged.

The federal quarantaine station on Ship Island was badly damaged, and about \$1,000,000 damage was done to property on the mainland.

In Mobile the number of dead today is estimated at 100, including six lives lost at Fort Morgan. The property loss in Mobile will exceed \$4,000,000.

At least twenty-five persons are dead and the property loss exceeds \$3,000,000.

No definite news has been received up to a late hour to-day from Biloxi or Gulfport, and it is feared these places have been destroyed, with some loss of life.

Every house in the Village of Navyport, Bayou in existence. Several persons are reported to have lost their lives at Coden.

Every house in the Village of Navyport, where scores of pilots and fishermen lived, was wrecked, and seven lives lost. Greater loss of life is reported from Dauphin Island, which was submerged, and the residents forced to flee in boats.

One boat, with thirteen persons on board, is believed to have gone down in the storm. The entire west shore below Mobile is reported completely devastated. Twenty-five bodies have been recovered, and thirty more were reported as known to have perished.

After the storm subsided one of the saddest stories of the hurricane was brought into Scranton. A tug, which ran before the storm reached its height and ran to Horn Island, out in the gulf, offering to take ashore Capt. Johnson, keeper of the Horn Island light, and his wife and daughter. Captain Johnson refused to leave the light, his wife and daughter would not separate from him. After the storm the tug went out again. The lighthouse has been destroyed, and the search failed to reveal any sign of the fate which overtook the keeper.

NOMINATION OF J. ISRAEL TARTE A FAVOR TO CANADIAN PACIFIC

Same paper states that Hon. Mr. Brodeur seeks to have Mr. Tarte take the job as it would give the support of La Patrie to the Laurier government at the coming general election.

Mr. Asselin's paper says that the nomination of J. Israel Tarte to the chairmanship of the Montreal harbor board would be to place the post in the hands of the Canadian Pacific.

SAVIGNAC RUN DOWN.

Man Who Shot Wife Fights Hard When Captured.

Ottawa, Sept. 30.-Joseph A. Savignac, who shot his wife and mother-in-law at Janesville on Monday last, was arrested yesterday in Beauharnois, six miles from the international boundary.

He was arrested by Detectives Dickson and Ryan of the city police force and made a desperate fight against capture.

The officers were chilled after a twenty-six-mile drive, and for a time had as much as they could do. Savignac pulled a revolver, but was prevented from doing harm. He was searched and had two loaded revolvers, a box of cartridges and \$156 in money in his pocket. He claims to have no knowledge of the shooting. He traveled as a horse buyer and was apparently making for the United States by the back country roads.

The victims of his shooting are recovering.

MAYOR ELLIS WINS OUT.

Judge Inglis Rules Against Consumers' Electric Co.

Ottawa, Sept. 30.-The case of the Consumers' Electric Co. against the City of Ottawa, in which a claim for \$3000 for supplies was sued on, was finished before Judge Inglis Saturday and resulted in a win for the city.

The city bought out the Consumers' and it was claimed that some \$3000 worth of supplies were not paid for when the transfer was made. Judge Inglis ruled against the company.

It was out of this alleged obligation on the part of the city that the libel suits of Ellis W. Black and Black v. Ellis arose. As the spring assizes Mayor Ellis was awarded \$1000 from ex-Alid. W. G. Black. On Saturday the case of Black against Ellis was dismissed, but Judge Inglis did not allow the mayor costs, taking the position that Mr. Black was acting in the interests of the city, rather than from personal motives.

PROBE THE CHARGES
 Jeremiah Collins tells a circumstantial story of wholesale corruption on the part of Liberals in the London by-election of 1905. His charges of bribery implicate many of the known Liberal workers in that election. Attorney-General Foy is determined to sift the charges to the last extremity, and if guilt is shown, to fasten it on the guilty. The matter is now before Police Magistrate Denison.

As to the truth or falsity of the charges, a thorough investigation will tell. Until all the facts are presented, until every man charged with conspiracy is heard in his own defence, it is idle to say the election was bought, even though the subdivision that, in 1904, gave William Gray a majority of 23, placed him in a minority of 67 in 1905. And this is the polling subdivision where Jeremiah Collins says the bought voters voted.

The integrity of Attorney-General Foy repels the insinuation that the prosecution at this time is a political play. He is acting on the sworn testimony of Collins, and has moved at the time that to him seems best fitted for his purpose.

Not is it pertinent to the matter to recount the police court record of Collins, as the London Advertiser does, with every expression of glee. Jeremiah may be a bold, bad man, and yet his charges may be true. The London police court record was made before May, 1905, and yet he was considered sufficiently worthy to be made deputy returning officer in polling subdivision No. 8 in the London by-election. The London Advertiser knew his police court record then, but did not use it against him. If it is effective now, it would have been equally as effective then.

Citizens, irrespective of politics, and public journals should not sit idly by while they may be the work of investigation. The facts must be brought out, and every impediment to the fullest investigation swept aside. The public looks to the attorney-general to probe these charges as similar charges never before have been probed. Corruption in elections must be eradicated, or representative government becomes a farce. The way to eradicate it is to ferret out the corruptists and make public examples of them.

BRITISH RAILWAY LABOR DISPUTES
 Interesting illustrations of the methods of the British Board of Trade in adjusting the grievances of railway servants in connection with their hours of labor, are afforded by the thirteenth annual report of the Railway Regulation Act. By this section, if the board considers there is reasonable ground of complaint as to the hours of labor being excessive, or not permitting sufficient intervals of uninterrupted rest between the periods of duty, it is empowered to order the railway company concerned to submit such a schedule of time for the duty of the servants as will bring the actual hours of work within reasonable limits. Should the company fail to comply with the order, the railway and canal commission take up the case and may require the submission of a schedule within a specified period.

Among the complaints dealt with during last year was one regarding the long hours of signalmen in cabins on the section of the Great Central Railway between Nottingham and Leicester, where, in 1902, the company stated, the traffic would soon be sufficient to

justify a reduction in the then hours of duty. Finding that a considerable increase had taken place, the board intervened, with the result that now no cabin on the section is rated at more than ten hours a day. On the Great Northern Railway at New England, Peterborough, the drivers and firemen complained of long hours, and the board, finding there was reasonable ground for it, ordered the company to submit a revised schedule. Some reductions were made, but at certain periods still seemed too long, further amendment was required. An amended schedule was thereafter received and approved.

Insufficient time for meals was pled by the number takers at Carlton Exchange sidings, and at Leicester, and on the request of the board the Midland Railway Company effected such alterations in their duties as would permit proper intervals for meals on each shift. The same company, on a representation from the board, gave the assurance that the reduction of the hours of engine drivers and goods guards at various places, who had lodged complaints, was receiving the earnest consideration of its officers. Altogether, 823 complaints were received, an increase as compared with the two preceding years—the majority concerning the hours of engine men and conductors. Many of them arose from a large and unexpected increase in the traffic last autumn, due to improved traffic which resulted in delays and long hours. The companies have carried out wirelessly works and in other ways endeavored to mitigate the grievance. These and other examples show the care taken by the board of trade to deal fairly with both employers and companies, and the confidence it commands. The Provincial Railway Commission would do well to establish a similar reputation.

LAND SETTLEMENT IN RHODESIA
 Another competitor for the migrant agriculturist is about to enter the field in the person of the British South Africa Company. Some time ago C. D. Wise was commissioned to investigate the prospects of land settlement in Southern Rhodesia, and his report was recently issued, with a preface by the directors, in which they stated that, being favorably impressed with it, he had been instructed to return to Rhodesia and prepare a central farm on one of the selected areas for the purpose of receiving and training settlers. The company has also secured the services of an Indian government expert to advise on the possibilities of irrigation in the settlement area.

In his report Mr. Wise says that the soil in the valleys is, as a rule, rich, deep black soil, and is well suited for agriculture. The higher land, sandy in most places, where there is granite formation, can carry a fair head of horned stock, and in parts of the country, sheep. At present, with no winter feeding, farmers calculate the land will carry one beast to ten acres. "Where the heavier class of land," says Mr. Wise, "has been broken up and has got mellow, it will carry some grand crops. The chocolate colored and red soil is excellent, and there are large tracts all over the country. It is easily worked and will grow practically anything."

In discussing the policy to be followed, Mr. Wise recommends as the first step, that an area for a central farm be chosen as near the centre of the block set apart for settlement as possible. This farm, he states, should control the main waters to be utilized for general irrigation, and should carry a good head of stock. The company, he adds, should not be too particular as to breed. He favors farms of 1000 to 1500 acres, with smaller holdings of 500 to 600 acres. The 1000 to 1500 acre farm, with say, 15 to 20 acres of irrigable land, would have up to 200 acres fit for being put under the plow. The capital necessary to stock a farm of this size, Mr. Wise puts at \$3500.

The terms on which settlers are proposed to be received include: Temporary accommodation and opportunities for practical experience and a portion of land to be cultivated before arrival of the settler; occupation of land to be enforced; payments to be made over a number of years, with interest on unpaid balances; assistance in providing live stock; co-operation in marketing produce; reservation of alternate blocks by the company. Now that the Australian states are actively engaged in opening up their land for agricultural settlement, it is evident the British farmer will be given considerable latitude in the way of choice. It is all the more necessary, therefore, for Ontario to prosecute an educative campaign and bring its unexcelled opportunities for the British agriculturist before him in an attractive and convincing manner. With conditions substantially similar in the older portions, and the advantage of numerous populous cities, no more inviting prospect can be offered by any other of the imperial states. Full benefit should be taken of the interest which the advertisement of Rhodesia and Australia as promising agricultural fields cannot but awaken.

LATEST ABOUT DENATURIZED ALCOHOL
 To-day the free alcohol bill, passed at last session of congress, goes into operation in the United States. On the eve of its becoming law Intimination is made that the tests in progress for the last two months at the experimental station of the State Agricultural College at Ames, Iowa, have established definitely that denaturated

Watch this space each day if you're looking for a bargain in musical instruments. Our offer for to-day is as follows:

BARGAIN NO. 1
 A beautiful Palmer Upright Piano, dark mahogany case, artistically carved front panel, full 7-1/2 octave, overstrung scale, repeating action, ivory keys, three pedals, fine tone and light touch, 56 ins. high, 28 ins. long and 28 ins. wide, used but little—a great bargain for someone!
\$198.00

 PIANOS RENTED.

alcohol can be easily and simply made from green corn cobs. They show that there are eleven gallons of alcohol in each ton of corn cobs, and the process is simple. The cost of manufacture will be about three cents a gallon. Adding to cost of denaturation a liberal profit for distiller and retailer and other charges, says a New York World special message from Ames, "the product can be sold perhaps for 16 to 18 cents a gallon. The significance of these experiments is readily understood when it is known that gasoline sells for at least 22 cents a gallon. It has been established that a gallon of alcohol will produce at least 10 per cent. more power than a gallon of gasoline."

This discovery will give this continent a considerable advantage over Europe in the manufacture of alcohol. The price for which range of France from 20 to 50 cents; in Italy 22 to 52 cents; in Cuba 29 cents, and in Germany 27 to 29 cents. There higher prices are due to the differing materials used—Germany relying principally on potatoes; France distilling from beets; Italy from grains, and Cuba from molasses. Tho the last is by far the cheapest substance the Cubans, with molasses right on their plantations, have not been able to bring the selling price below 29 cents. In Germany potatoes for this purpose cost on an average 27 cents per bushel, but it requires only 1.26 bushels to produce a gallon of alcohol as compared with nearly 200 pounds of green corn cobs. But the cobs will cost practically nothing, and the discovery of their value as alcohol producers gives point to the prediction of E. J. Hill of Connecticut, that within a few years America will be leading the world in this industry, not only in the production of alcohol, but in the invention of appliances for its use.

Mr. Hill went abroad with Commissioner Yerkes for the purpose of investigating the position of denaturized alcohol in European countries. Germany was found to have made most progress, one of the most remarkable features being the existence of 70,000 small farm distilleries, some of them not producing more than a dozen or fifteen gallons of alcohol in a year. The difficulty of supervising these small plants has been overcome by requiring the use of special tank stills which can be locked and sealed by the government official. When full he notifies his customers and the government inspector, who then removes the seal, measures the contents and collects the duty. If denaturated on the spot the tax is returned, but if not, the duty is added to the cost of the alcohol. A much larger appropriation will be spent this year, along different lines. Last year's advertising campaign has been very successful. Another change of policy is found in the personnel of the agency, for while A. L. Erwin and Mr. Lasker, who have been secretary and treasurer of the company, is only twenty-five years old, but has been with the agency eight years, he is just a simple, strong-natured fellow, who books more business in 1905 than anyone else on the staff. He is just a simple, strong-natured fellow, who books more business in 1905 than anyone else on the staff. He is just a simple, strong-natured fellow, who books more business in 1905 than anyone else on the staff.

MODERN FINANCING
 Monetary Times: Followers of the insurance investigation have become hardened to the spectacle of directors taking their own pockets with profits accruing from the investment of shareholders' money. What surprised Sir John Boyd in the United Kingdom was that directors could go into such transactions with money borrowed from their own company and then come out of it owning practically all the land company stock, the only actual cash, apart from that of the Union Trust, being put up by himself and another small shareholder.

MODERN AGENCY SERVICE.
 Organization and Personality of the Lord & Thomas Agency, Chicago—Now Said to be the Largest Advertising Agency in the Country.

Printers' Ink: The Lord & Thomas Agency in Chicago, with a branch office in New York City, now claims the distinction of being the largest general advertising agency in the United States. Some interesting figures are made public to back up this claim:
 "During 1905 more than \$3,000,000 worth of advertising was placed by Lord & Thomas for their clients. The total for 1906 will reach, it is expected, \$4,000,000. No American agency ago there have been decided changes in Lord & Thomas' methods. One of these has been the introduction of periodicals, seeking new business. Probably no other agency has ever spent so much money on advertising. A much larger appropriation will be spent this year, along different lines. Last year's advertising campaign has been very successful. Another change of policy is found in the personnel of the agency, for while A. L. Erwin and Mr. Lasker, who have been secretary and treasurer of the company, is only twenty-five years old, but has been with the agency eight years, he is just a simple, strong-natured fellow, who books more business in 1905 than anyone else on the staff. He is just a simple, strong-natured fellow, who books more business in 1905 than anyone else on the staff.

FOWLER WILL TESTIFY.
 Expected to Take Stand This Week in the Insurance Enquiry.

Dominion Examiner Shepley has intelligence of the whereabouts of Geo. Fowler, M.P., who has been subpoenaed to attend before the royal commission on insurance, and it is quite probable that Mr. Fowler will be put in the box some time this week to tell what became of the \$500,000 he got from Peter Ryan as his share of the sale of the Kamloops Timber Limit to the Union Trust.

A FINE CHANGE AT MEN'S SUITS

When a man who needs a new suit is offered a genuine tweed, tailored in the season's correct shape, for \$5.50, he'll buy if he's practical and has confidence in the store that makes the offer. Couldn't buy the materials for that: let alone pay for the best tailoring so evident in every garment.

They're not all Scotch tweeds. Some are of extra good (and we mean extra good) domestics—wear like leather. Splendid lot of patterns in the new shades of brown and gray. Coats in latest single-breasted sack shape; sizes 34 to 44.

Nothing whatever wrong with the suits, and not one in the lot that you wouldn't make a great big saving on. Reason: not all sizes in each kind, but all sizes in the lot. The price..... **5.50**

Care to Save Dollars on Trousers?

Good worsteds make the best trousers; and these solid goods best of worsteds.

Dark and medium shades; neat stripes. Good trimmings. Careful workmanship. Sizes 32 to 42. Price, a pair..... **1.69**

Our Friend From Cannington
 Sizes Up a Police Sergeant

Musing Beneath an Umbrella.
 Splash, splash, drip, drip, the steady beat of the rain on the roofs and streaming street—
 Splash, splash, drip, drip, like the hollow fall of a stone on the pavement—
 Of the clotted clay on the faded pall—
 Splash, splash, drip, drip—O dreary day!
 That our best hopes are but a passing show—
 Deftly, drabble, to live's clam
 For to fall at length in the trend of time—
 Deftly, drabble, to live's clam
 For to fall at length in the trend of time—
 Deftly, drabble, to live's clam
 For to fall at length in the trend of time—

duty, too—and because he has a big heart as well, which has little fat about, for all his size, and who, if you ever drifted in the mud out of his reach, he would be too stern to mourn you much. "Poor Bill," he might say, "he wasn't a bad fellow." And there would be an end to it. He would go on just the same, eating three meals a day, unfurried, and handing people over to the timely mercies of Colonel Denison, with whom there are no suits, but all Dona. Oh, glorious indeed is the march to the east under the colonel's banner—if we could only cross the river to Jordan so easily! It's like a love story—a lock to remember you by.

I was down at No. 1 police station Saturday. No. 1 wasn't run in—not this time; but am not blowing about it—there is no telling what may be in store for me. I am not a policeman's whistle. I trust, however, it will not be that of Sergeant Geddes, whom I saw in Inspector Davis' absence. Sergeant Bob Geddes must be six feet three at least, and weighs 230. He is so well-built that he is like a stone wall, so roundly solid that you could not get a grip of him. But his grip of you—well, deliver me! I would prefer to use my knowledge of justice on somebody else. The peculiar thing about his physique is that he is not fat, and he looks as if like an eight-year-old child—he could go for a week without stopping, and breathe easy all the time. Dear me, I am afraid the sergeant has his tragedy, too. All the more so because he is good-looking. He has fine, big, fearless blue eyes, a blocky brow, a blunt, tilted nose, and a red moustache, just the right length to pull—and which looks as if it might be pulled considerably.

But, for all that, the sergeant has no flippancy of character in himself. "Duty" is the word which describes him. It is his first consideration always, and his philosophy of life. If I was hungry and broke a window down on King-street to get something to eat, the sergeant would run me in as calmly as he would eat his breakfast, and without an extra heart-beat—even if we had stolen apples together when we were boys. That would be his duty, clear and bright, and he would get a baton too long to doubt. But when the thirty or ninety days of happiness Denisoned when we were over, and I called around at No. 1 for the old razor or jack-knife, which had carved our names on the same tree together in the long, long ago, the plight of an old comrade would undoubtedly touch the sergeant's heart, and he would give me the razor or jack-knife, and I would follow in this world or the next. The sergeant then would play this second part because he thought it was his

Is Pendens Removed.
 Upon the application of George B. Foster, one of the defendants in the action of Barwick against Radford, an order has been granted by the master in chambers vacating the lis pendens registered Nov. 13, 1905, against certain lands on the southeast corner of Mutual and Carlton-streets, Toronto.

BAPTIST S.S. RALLY DAY.
 Active Work for the Winter Was Inaugurated Yesterday.

Yesterday was "rally day" in the Baptist Sunday schools, special effort being made to enter upon the real active work of the winter season with a full complement of teachers, as well as the pupils attending previous to the summer holidays.

In Bloort-street Church, the turnout was especially gratifying, large accessions being made to the membership. In Dovercourt, the attendance was the largest in the history of the Sabbath school, being more than one hundred in excess of last year.

In Jarvis-street, College-street, Beverly-street and Reid-avenue, increases were especially marked, and in fact all over the city the Baptist Sunday schools yesterday evidenced a strong constitution.

Pure salt is just as important as pure water or pure milk.

IN FIT OF DESPONDENCY ENGLISH SAVANTS AHEAD MEAFORD MAN SUICIDES IN BUILDING DICTIONARY

Wingham Man Killed Crossing Railway Track—Ejremen Crushed at North Bay.

Britons Almost Thru, But French at Rate of Going Will Be at 200 Years.

Meaford, Sept. 29.—In a fit of despondency, brought on by worrying over financial matters, H. Kirkpatrick, a married man, about 40 years of age, committed suicide at his home at Centreville this morning. He shot himself through the heart with a shotgun.

He leaves a widow and five young children. He came here from Dublin, Ireland, some years ago.

Stabbing Affray. Belleville, Sept. 29.—A stabbing affray, in which the victim is an Indian, will be investigated at Deseronto on Tuesday next. It is alleged that Archibald Green and an Indian named Andrew Outbourn had a row, and the latter was stabbed in the back. The wound is over three inches deep, and one of the kidneys has been perforated, but a fatal termination is not looked for at present, unless complications set in.

KILLED AT CROSSING. Wingham, Sept. 29.—James Jobb, a laborer, who has been a resident of this section for a number of years, was instantly killed by the C. P. R. express late last night.

He went about the day at the Wingham fair, and was driving home alone in a buggy when the accident occurred. The engineer saw the light and blew the whistle, but could not stop the train in time to avoid the accident.

Kennedy decided to hold an inquest, which was adjourned until Wednesday. Jobb was about 45 years of age and was unmarried.

CRUSHED BETWEEN CARS. North Bay, Sept. 29.—A sad accident occurred at the Union Station last night, in which Fireman Fred Couwen lost his life.

He was fireman on the Grand Trunk engine which was to take out the Toronto express leaving here at 8.50 p.m. The engine had been coupled to the train, and after the coupling was made, it appears that the engineer tried the air brakes and some coupling between the train and locomotive gave way.

The fireman got down to fix it, and in doing so he raised his head between the bumpers. At that moment the engine moved slightly and the fireman's head was crushed, killing him instantly.

His remains were taken to Eganville, Ont. Gullbert-Chevaller. Yvette Gullbert leaves Paris for New York via Cherbourg, and Albert Chevaller leaves London for New York via Southampton, and they both will meet in New York on Oct. 6.

They have been brought together, these two, each the most famous artist in his or her particular line in France and England, by George Tyler of the firm of Liebler & Co. They have been engaged for a tour of America and Canada, which will last six weeks, and which covers the whole country from New Orleans to Winnipeg, and from Maine to California. During the tour only one engagement will be played in each city.

Toronto is the point of the tour's commencement next Monday. The first of seats begins to-morrow (Tuesday).

POLITICS IN QUEBEC.

Number of Unconstituted Will Soon Be Cleared Up. Montreal, Sept. 30.—(Special)—The Standard publishes the following Ottawa special:

The next few days will clear up a number of political uncertainties which have been the cause of much speculation of late. But for the hurried departure of Sir Wilfrid Laurier for Quebec on Friday, to endeavor to straighten out the political tangle in Quebec County, a number of matters would probably have been announced here this, including the dates for the by-elections in the vacant Quebec constituencies, Sir Anne's and St. Mary's divisions of Montreal; St. John's, Iberville, Quebec County and Nicolet, Hon. Rodolphe Lemieux having decided it is understood, to sit for Quebec.

The supreme court, in the course of the next few days, will give the decision in respect to the proposed Shelburne appeal, which may tend to clarify the political situation as far as Hon. Mr. Fielding is concerned. If the appeal is dismissed the minister will be in a position to seek re-election immediately, but if it is allowed it will mean that the Nova Scotia courts will be authorized to go ahead and investigate the personal charges made against the minister. Even should the appeal be allowed, Mr. Fielding could seek re-election in order to have a seat in the house when parliament opens, a matter of much importance to the government in view of the tariff revision, but if the provincial courts should subsequently disqualify there would be a most remarkable mixup.

The appointment of a new solicitor-general has been announced, and real harbor commissioning of other matters which will receive early attention. Hon. J. Israel Tarte is still regarded as a favorite for the chairmanship of the harbor board. The solicitor-generalship is almost certain to go to Quebec. The Maritime provinces have a full representation in the cabinet, and there are only two or three men of legal training in the Liberal contingent from the west, none of whom are aspirants for the post.

St. Michael's Pope's Militia. The election of officers for the year 1906-07 of the Junior Commandery of St. Michael's Pope's Militia took place yesterday. The following were elected: President, Bartholomew Long; vice-president, Archibald Gilmore; secretary, James Deacon; treasurer, Bartholomew Long; Archibald Gilmore; James Deacon; William Hickey; Edward Ryan; Barry Cronin.

Reported Girl in Toronto. Believed to be a serious affair is reported from Bancroft and John Anderson, a chessmaker at Hyland Grove, has been arrested. The girl, who is believed to be the daughter of Miss Angeline Ragan of Deer Lake in Toronto, is in a delicate condition.

St. H. Bagan, the father of the girl, who issued a warrant for Anderson's arrest, alleges that the latter induced his daughter to go to Toronto and then deserted her.

OPPOSED TO TUNNEL.

London Spectator Sees Danger to England in Undertaking.

London, Sept. 30.—One natural effect of the Anglo-French entente has been to revive the channel-tunnel scheme, and the necessary bill will be introduced in parliament next month.

The Spectator prints an article today in which the objection of the military danger to England is argued and endorsed. It is a curious freak of English conservatism that any attempt to touch the insularity of the country is resented sentimentally almost as much as an insult to the flag.

NEW S.S. OPENED.

Addition to Chalmers' Church, However, is Still Too Small.

The new Sabbath school of Chalmers Presbyterian Church was opened yesterday. But fine as it is, it is found to be too small to accommodate the attendance. The enrollment of the scholars is 1100, while the school is built to accommodate 1000. The ground prevented the school being made larger.

Rev. R. E. Welch, secretary of the Upper Canada Tract Society, preached the dedicatory sermon to a very large congregation. The special children's service will take place next Sunday.

Rev. Thomas Jones of Ireland preached at the church services both morning and evening. Rev. A. Macpherson is pastor of the church.

A Reasonable Plea For the Stomach

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work—Especially When It Wants Nothing to Try!

Not with drugs, but with a reinforcement of digestive juices, as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, an enzyme ferreted out from the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion, and when placed at work in the weak stomach and small intestines, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural digestive elements. Chemical Laboratory, Telegraphic address "Diffindo," London, Telephone No. 11029 Central, 20 Cullum-street, Fenchurch-st., E.C.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Temple Chambers, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adaptable for the purpose for which they are intended.

(Signed) John R. Brooke, F.I.C., F.C.S.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water-brash, inaction, loss of appetite, melancholia, constipation, dysentery and kindred diseases originating from improper dissolution and assimilation of foods, because they are thoroughly reliable and harmless to man or child.

Stuart's Dyspepsia Tablets are at once a safe and powerful remedy, one grain of these tablets being strong enough (by test) to digest 3000 grains of steak eggs and other foods. Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't.

Ask your druggist for a fifty cent package or send to us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 64 Stuart Bldg., Marshall, Mich.

YORK COUNTY AND SUBURBS

DR. GLENNING MADE ADMISSIONS, BUT EVIDENCE DID NOT CONFIRM CHARGES.

Markham, Sept. 29.—(Special.)—Interest in the case of the death of Mrs. Cook of Highland Creek, the adjourned inquest of which was opened before Coroner Wesley Robinson in the morning, has been greatly intensified by the statement of William Cook, husband of the deceased, who gave evidence which caused Crown Attorney Drayton to despatch a special messenger to Malvern, a distance of six miles, to secure the doctor who attended the woman.

The jury was empaneled on Wednesday with T. B. Reive as foreman, and after viewing the body of the mother and child, which were disinterred at Locust Hill Cemetery, adjourned until the morning.

Dr. Glendenning testified that Mrs. Cook came to his office on June 8 and complained of being unwell. He described the treatment which she had asked for and had been given.

To Mr. Drayton witness stated that he intended to deceive her. He treated Mrs. Masher, who accompanied Mrs. Cook, for poisoned ivy. On Friday, July 27, next he saw Mrs. Cook at her home in response to a telephone message and visited here again on July 29, and at different intervals. He detailed the calling in of Dr. G. Sibley of Agincourt, and the necessity of an operation.

To Mr. Drayton witness admitted that he knew the effect of large doses of quinine. He advised the burial of the child in the yard of the Cook home.

He also admitted that he was not a regularly qualified physician, and had not passed the council examinations for diseases of women, physiology and medicine.

Dr. Sibley testified as to the birth of the child, which was still born. He attributed death to shock and collapse rather than to blood poisoning.

Dr. Silvester of Toronto and Dr. Macdonald of Markham conducted a post-mortem examination. Owing to the advanced decomposition, nothing definite could be ascertained. Death might be due to septaemia (blood poisoning).

County Constable Burns brought Dr. Glendenning's books, but nothing wrong was revealed in them.

"Fred Cook, the woman's husband, in his evidence said that he had told him an operation had been performed, and that if she recovered she would never do anything like that again. She had told him an instrument had been used and that she felt as if she had been cut to pieces inside."

To the jury Coroner Robinson said: "I have only to express regret that the practice of abortion so common here, when the patient is in a state of alarmingly prevalent in Canada. Real suicide so expressed is an evil with which every medical man has to contend. It is a crime which has no excuse. I have been approached by many women, not scores, but hundreds of times, by women prominent in church work on just such missions as that with which the accused is charged."

He warned the jury that the evidence given by Cook was wholly uncorroborated and would be accepted in any court other than a coroner's. The statement regarding an operation, which Cook alleged was made to him by his wife, was not an ante-mortem statement, and was made by the latter before her illness became serious.

The jury retired and after being out an hour returned the following verdict: "That the said Mrs. Cook came to her death at Highland Creek, Ontario, about the seventh day of September from natural causes following a premature confinement, and we believe that she did not receive proper nursing during her illness."

Under the auspices of the Ladies' Aid of the Methodist Church, hot meals will be served in the basement of the church on Thursday and Friday, the two days of the fair. The ladies have made ample provision for all. The tickets are only 25 cents, and the proceeds will be devoted to church purposes.

CHURCH.
The new mission church of St. Andrew's, recently erected, and conducted Church, was the scene of a unique event in its history on Sunday morning. A holy rite of baptism was administered to infants—Helen Edith, daughter of Peter Barron; El-Borderstone, and Edith, daughter of William James Barron; and James Crouch—by a pastor, Rev. Frank Vipond, which church on Thursday evening, and the church will be tastefully decorated on the occasion. The pastor will preach on that occasion. The services, which have been hitherto, or since the creation of the church, held in the mornings, commencing on Sunday, Oct. 7, will be held in the evening as well. The average attendance of the congregation since the opening on June 8 has been 35, and that of the Sabbath school 50.

ERINDALE.
Mr. and Mrs. Joseph Lamplier of Erindale celebrated their golden wedding on Thursday last in Association Hall, when about 50 guests, mostly relatives, were present. The hall was decorated with red, white and blue bunting, maple and oak leaves, and flags. The table formed a T, and was most attractive. R. Lloyd of Toronto acted as best man, and supplied the music. Rev. Father Kelley of Dixie, who has charge of the parish in the absence of Rev. Dr. Treacy, presided. The bride, who is 50 years ago looked exceedingly well and young for their years, and when the ladies came they were as young as the youngest. The presents of gold were numerous and appropriate to the occasion.

THORNHILL.
Mrs. Powell of Toronto, who has been ill for some time, at Mrs. Gallanough's, expects to return home in a few days.

M. W. Smith has sold his village property to A. R. Hall, recently of Berlin, for about \$2000.

PICKERING.
Manager Kerr of the bank is recovering from his recent illness.

Mr. Banks has just filed his big

Fairweather
MEN'S FURNISHERS.
84-86 Yonge Street.

silos, where he feeds his fifty cows. He supplies milk to Toronto.

It is reported that another architect has been inspecting the college ruins here with an eye to the cost of rebuilding.

James Richards and Major Rowe attended Bowmanville Fair.

Robert Devereil has several men engaged pulling his crop of sugar beets, near the station.

NORTH TORONTO.
The Junior Girls' auxiliary of St. Clement's Church elected officers Saturday as follows: Mrs. J. A. Giesler, secretary; Maude Grundy; assistant secretary, Stella Drake; treasurer, Margaret, and Dorothy Boulden; organist, Stella Hopkins. The auxiliary will meet every Saturday afternoon at 8 o'clock.

Large congregations attended the harvest thanksgiving services at St. Clement's Church yesterday. Rev. T. W. Powell, rector of the parish, conducted the services himself. A holy communion was celebrated with 32 communicants, and at 11 a.m. 84 Buns, peaches and fruit were distributed to a close and happy gathering. The school room was exceptionally well attended, filling the church and school room, which were suitably decorated.

A song service was held at the Davidsville Methodist Church last night. Those who took part were the Pipers, Miss Ross of Toronto, and Miss Mason. Rev. Newton Hill gave a short address on "Blind Eyes." Speaking of "making money" Mr. Hill said there were three ways of acquiring wealth: by inheritance, which is all right; earnings, which is perfectly legitimate; and stealing, which was not according to God's law.

The Eglington Young Men's Athletic Club will meet in the school room of the Methodist Church to-morrow evening at 8 o'clock to arrange for a football match next week.

The Davidsville Epworth League will open their winter's season with a meeting to-night, at which Wm. Cordringle will take the platform and give a line-light illustration of the setting and represent Lord Roberts' march to Pretoria.

The Senior Epworth League of the Eglington Methodist Church will hold their first regular meeting to-night. Harvest thanksgiving services will be held both the Davidsville and Eglington Methodist Churches next Sunday.

Rev. A. K. Griffin, assistant rector of St. Clement's Church, is ill with blood poisoning, having been stung by an insect.

F. Adams has added another house to the Mount Pleasant Cemetery grounds, and has installed a new steam heating plant.

A quiet wedding was celebrated at Christ Church, Deer Park, by Rev. T. W. Peterson, on Thursday night last. The contracting parties being Mary Burns of Toronto and Louis Ingham of Davidsville. Mrs. A. McEldon was the matron of honor, and Geo. Hall, the groomsmen. An enjoyable wedding supper to the friends of the newly married couple on Saturday evening, at the residence of A. McEldon, Davidsville.

Prof. Jinks of Trinity College presided at Christ Church, Deer Park, yesterday morning, on the occasion of the annual harvest thanksgiving services. The church was filled to its capacity. The chancel and choir were most effectively decorated by the labors of Churchwarden and Mrs. Barwell. The morning sermon was taken from the groomsmen. Let them both go together until the harvest. The speaker exhorted his hearers not to put themselves up as judges of their fellow-men. False and true doctrines, real and counterfeit articles were discernible to experts, but Christ was the only expert capable of judging human character, and he counselled his

hearers to build up such a character as would stand scrutiny at the final harvest. The production given by the choir showed the results of careful preparation.

MARKHAM.
Some anxiety is expressed regarding the delay in pushing forward the work of construction on the proposed new bridge at the southern approach to the town. Mayor Speight is awaiting word from the bridge company having the work in charge, and it is hoped that this fall will see considerable progress made.

Never in the long history of the Speight Manufacturing Company have the firm been more sorely pressed in order to keep pace with their orders than at present. Only the difficulty experienced in securing skilled labor is said to prevent the company from largely increasing the capacity of the plant.

Never in the long history of the Speight Manufacturing Company have the firm been more sorely pressed in order to keep pace with their orders than at present. Only the difficulty experienced in securing skilled labor is said to prevent the company from largely increasing the capacity of the plant.

Comptroller Wylie, who has been a resident of the town for the last seven years, has decided to remove to the Northwest, and within the next fortnight will remove with his family to Theodore, Man., where he has already secured a business.

Yesterday was rally day in the Methodist Church, which was beautifully decorated. In the evening Miss Story contributed a special reading in addition to the regular services.

The Western Machine Company of Stouffville has assigned to Dr. Walter Sangster of that town. The firm has been in business in Stouffville for some months and are said to have owned the Imperial Bank \$1000 when they began operations. It is stated that they effected a loan from Chris. Hart, a retired farmer, giving him a second mortgage on his property, and contents as security. With this money they are said to have paid the bank the sum of \$700 on account and made another payment from the Steury estate of \$500, using the balance to carry on the business. The firm was a progressive one, but lack of capital has forced the assignment. An effort is being made to organize another company to carry on the work for the Markham Fair, which takes place on Thursday and Friday, and is said by Secretary Archie Milne to be away ahead of other years.

TORONTO JUNCTION.
Toronto Junction, Sept. 30.—Alexander Lindsay, 77 Hoskin-avenue, reported to the police that some person entered his cellar thru the window and stole five bottles of beer. This is the second time this has happened.

Mrs. Jas. Dugan of Swanes was taken to Grace Hospital this morning in the private ambulance of Wm. Spens suffering from typhoid fever.

There are 72 cars of stock in the Union Stock yards for Monday's market.

The citizens of Toronto Junction are all at sea respecting the petition filed with the town council last Monday night, praying for certain concessions from the Toronto Suburban Railway Company. There is some reason to believe that the company itself may be behind the petition. The hope is that valuable rights can be obtained from the council ostensibly in exchange for the concessions requested by the petition. They are: (1) That a timetable be established making connection with the Weston, Lambton and Davenport lines; (2) That the petition is rather a case of mystery. It will be remembered that a fortnight ago the council had a meeting, at which an informal and which was certainly a secret meeting, and it was then proposed that the company be allowed to lay double tracks in the town. This whole matter was to come up at last Monday's council meeting, but the petition was quietly taken up, and against it that not a word was said in its favor. This petition, however, which was taken up, is said to be a fear that it may be the only excuse for rushing thru what is virtually a new franchise at the meeting of the council to-morrow night.

LOCAL FRUIT MARKET.
The receipts on the wholesale market on Saturday were pretty much along regular lines, peaches being in supply, while the demand was an average one. The price for fruit of all kinds is rapidly drawing to a close, and taken together, there was a remarkably good one.
