HOW THE NEWS CAME TO HER

Mrs. McKinley Was Not Informed of the President's Death Till 9 a.m. Saturday.

SHE ENQUIRED IF HE WAS SLEEPING

"He is sleeping the sleep that knows no awakening."

She Was Awakened.

Buffalo, N.Y., Sept. 14.—Funeral formalities and the outward manifestations of a nation's grief are all that now remain. With these over, the curtain falls upon the career of William McKinley past into history.

Already the machinery of the executive branch of the government has resumed its routine. By a brief ceremony, deeply impressive from its simple dignity, Theodore Roosevelt this afternoon became the President of the United States and the seat of government was established for the brief interval between now and Monday morning in the stately old home of Ansel Wilcox, 641 Delaware avenue, which now has become the Buffalo White House.

Mrs. McKinley Hears Up Well

The condition of Mrs. McKinley, as reported by those who are in attendance upon her, remains surprisingly good. It is said that she is undergoing the usual calmness and fortitude that is not suspected she had in reserve.

She was not definitely informed of her husband's death until about 9 o'clock this morning, although when she left him last night she knew he was ill.

Mrs. McKinley had been sleeping, and when she awoke the first question she asked was about the President.

LATE PRESIDENT'S INSURANCE

Chicago, Ill., Sept. 15.—President McKinley's life insurance is placed by Chicago general agents at \$65,000. At one time he was known to have had considerable over \$100,000 in various companies.

In 1873 he took out a policy of \$5000 in the Michigan Mutual Life of Detroit, which was increased about ten years ago by an additional \$5000.

For a few years he carried a policy of \$2000 in the Connecticut Mutual Life, and shortly after his nomination to the Presidency he took out a policy of \$50,000 in the New York Life. This was afterwards increased by an additional \$50,000.

REQUEST FOR EXTRA \$5000 REJECTED

Ald. Sheppard Says Loyalty is in Hearts, and Not Lumber Piles.

There was a pitched battle between the Board of Control and the City Reception Committee on Saturday. The cause of the fray was the Reception Committee's report, asking for another \$5000, making in all \$15,000 for the general expenses of the city's part of the reception. All the Controllers were present, and were opposed to the cost being more than \$10,000.

Cox, Oliver, Lynd, Urquhart and Russell sustained the request of their committee, but the board was obstinate and the committee was sent away to prepare estimates that will come within an expenditure of \$10,000.

Citizens Failed to Turn Up.

The representatives of the Citizens' Committee, who were turned down by the Reception Committee, were invited to be present, but none of the seven gentlemen turned up.

DISGUISED AS A POLICEMAN

Zolozog Said to Have Been Spirited Away to Escape Fury of the Mob.

ASSASSIN PLAYED THE PART WELL

Showed No Fear and Was Safely Landed in the State Penitentiary.

New York, Sept. 15.—The Sunday Herald contains the following story from Buffalo: Bold and desperate methods were resorted to by Superintendent Bull to insure the safety of Leo Zolozog from mob attack. When the news spread Friday afternoon that President McKinley was being escorted to Buffalo, Zolozog was spirited away to escape the fury of the mob.

MAJOR ON THE TOWN

The refusal of the seven representatives of the Citizens' General Committee to accept the plan of the Reception Committee was most unfortunate, and the action of the Reception Committee, which was to have been the result of the resolution to invite the operation of the Citizens' Committee never passed through the board.

THE ASSASSIN AND THE TRAIL

Of the principal characters in the terrible drama there remains only to speak of the wretched creature down in the police headquarters dungeon, who does not know whether his murderous shots did their work or not, and to whom not an echo of the wild turmoil of excitement that has been raging in the city has come. His life now will be a short one, in all human probability he will die in the electric chair in Auburn next week.

THE STEEL STRIKE IS SETTLED

MEN RETURN TO WORK ON MONDAY

Agreement Was Not Made Public, But Is Signed By the Interested Parties on Both Sides—Three of the Big Concerns Are in the Arrangement.

New York, Sept. 14.—The great steel strike, which began on June 30, was brought to an end in a conference held today between the leaders of the Amalgamated Association and officers of the subsidiary companies of the United States Steel Corporation.

An agreement was signed under which the men will return to work in the mills that have been idle on Monday morning. This announcement was made at the office of the American Tin Plate Company, where the representatives of the workmen and the officers of the companies having been in conference from 9 a.m. to 11 p.m. on Friday.

STAKE RACES AT SHEEPSHEAD

Ward of Harlem Won the Champion Stakes From a Field of Three.

SISTER JULIET WON THE FIFTH

The Great Eastern Handicap Went to Endurance, By Right-Outsiders' Day.

New York, Sept. 14.—The Coney Island Jockey Club would have postponed today's races had the stewards been able to arbitrate the rule. Three important features were decided, chief of which, from a money value, was the \$25,000 annual champion race. Only three starters accepted the issue, with Rockton a prohibitive favorite at 1 to 5. Rockton made the running for two miles, with Hancock close up and the Maid of Harlem trailing. The latter passed Hancock on the far turn, the second time round, and gradually wearing Rockton down, caught him at the last furlong pole, and, coming on, won easily by five lengths. Rockton pulled up very lame. Endurance by Right at 3 to 5, beat a big field in the Great Eastern Handicap of \$7000. She was always well up, and came away easily at the end. Zanibar won the Westbury Steeplechase in the easiest way.

First race, Westbury Steeplechase—Zinif bar, 135 (Vetch), 4 to 1; Fulminate, 135 (Glatra), 5 to 1; Grand Trillium, The Bachelor, Chesapeake also ran.

Second race, \$25,000 Champion—Rockton, 125 (McGee), 7 to 1; King Pinner, 125 (McGee), 10 to 1; Redwood, 125 (O'Connor), 3 to 1; Time 1:13 2/5.

Third race, \$7000 Great Eastern Handicap—Endurance by Right, 125 (Wood), 3 to 1; Somberey, 125 (Wood), 10 to 1; Ota, 114 (Bullman), 12 to 1; Time 1:13 1/5.

Fourth race, \$5000 Sister Juliet, 105 (Woodward), 5 to 1; City Bank, 100 (Henderson), 8 to 1; Eddie Bush, 104 (Wood), 12 to 1; Time 1:10 1/5.

Fifth race, \$1000 The Amazon, 106 (Woodward), 5 to 1; Deland, 106 (O'Connor), 12 to 1; Kinkaid, 110 (McGee), 4 to 1; Time 1:18.

Sixth race, \$1000 The Amazon, 106 (Woodward), 5 to 1; Deland, 106 (O'Connor), 12 to 1; Kinkaid, 110 (McGee), 4 to 1; Time 1:18.

THERE'S MONEY IN OIL

NOTICE ADVANCE IN PRICE In the Shares of THE ONTARIO and CALIFORNIA OIL CO. (LIMITED).

"Whereas, owing to the result of recent negotiations and developments, it has been decided to advance the price of the Treasury Stock of the Ontario and California Oil Company, but owing to certain options, formerly given on portions of said stock extending to the 25th day of September next, it would be impracticable to do so until that date: RESOLVED, that the Treasury Stock of the Ontario and California Oil Company, Limited, no personal liability, at present selling at six cents per share, be advanced to twenty-five cents per share—such advance to take effect after the 25th day of September next."

ONTARIO-- Contracts will be let within the next few days for the sinking of twenty additional wells on the Company's Ontario properties.

TEXAS-- Look out for some surprising results on the California properties, controlled under option for development agreement by the Ontario and California Oil Company.

The Ontario and California Oil Company have secured the option on the control of the stock of the "Blue Bonnet Oil Co." of Galveston and Beaumont, Texas, owning valuable oil lands on Spindle Top Heights, about half a mile from the famous Lucas "Gusher," which has been gushing liquid money at the rate of seventy thousand barrels per day; also three more blocks of valuable oil lands at Sour Lake, Damonds Mound, and close to the Town of Beaumont—all in the very richest oil-bearing lands so far discovered in Texas. The Blue Bonnet Oil Company and its directors are highly endorsed by Walter C. Jones, Mayor of Galveston, Texas.

The above advance is gratifying to the Company's Directors and Shareholders, but is only an earnest of what may be expected in the Ontario and California Oil Company, and looks ahead when compared with some other, oil stocks which have actually advanced from fifty cents to two hundred dollars per share.

All orders for the present issue at six cents per share must be forwarded before the above date, accompanied by the cash or equivalent, payable to

J. L. FINCH, Sec.-Treas. Ontario and California Oil Company, 21 Adelaide St. East, Toronto.

Or to FOX & ROSS, Stock Brokers, Toronto.

CHAMPIONSHIP BIKE RACES

The Provincial Meet Held at the Island on Saturday Afternoon.

Q. C. B. C. WON BOTH TROPHIES

Jack Smith's Parent Race, Moore Took Mile and Willett the Novice.

The annual provincial championships of the Canadian Wheelmen's Association were run off at the Island Saturday afternoon before a crowd of 400 enthusiastic wheelmen and ladies. The track was in perfect condition, and the different events had all been keenly contested. There were a couple of falls, but no one was hurt. The principal event of the day, the W. G. & H. Trophy, went to the Queen City Club, while the five-mile championship and the American Tire Company's Cup went to Mr. Vanclose of the Royal Canadian. The mile novice was won by Willett of the B. C. Club. The professional mile race was a cinch for Harley Davidson, who won by about ten lengths. The two-mile handicap had the largest entry list, and was won by the driver of the B. C. Club. The time was 2:45. The events were fairly fast for a city track. Frank Moore, in winning the mile championship, made the best time by going the distance in 2:17.5. The following are the results:—

A LETTER FROM KIMBERLEY.

A GRATEFUL MOTHER. KIMBERLEY, Ont., Feb. 5th, 1901. The T. Milburn Co., Limited, Toronto, Ont. Dear Sirs,—I write you to tell you that a good thing I have found in DR. FOWLER'S EXTRACT OF WILD STRAWBERRY.

We always kept it on hand in my mother's house, because we found it invaluable for Diarrhoea, Dysentery and Summer Complaints of all kinds.

Since I have been married we use it in our home, and I can truthfully say that it saved my baby's life when he was nearly dead from Diarrhoea.

Yours truly, Mrs. J. I. WEBER.

SITUATION IN WALL STREET
Likely Effect of President McKinley's Death on Stocks.

Event Has Already Been Largely Discouraged—Exchange Nearly Closed on Saturday—Better Statement Than Had Been Expected—News and Gossip.

World Office, Saturday Evening, Sept. 14.
Out of respect to the memory of the dead President of the United States, the stock and grain and cotton exchanges were today closed all over the world.

As to the effect of President McKinley's death on the stock markets, it is pointed out that the worst has happened in a market that is over the dead of an event in which there was the realization thereof, and that may be the case in this instance.

Moreover, the disaster did not come suddenly, but the banks had a good week to prepare for the worst, and no emergency occurred before hand. Leaders of the street market were quiet this morning as expressing this opinion.

As the Amsterdam exchange was open to-day, it was observed that the transaction on that board were encouraging for American securities, but the closing of the New York exchange, which is the equivalent of the American stock market, is a matter of great importance.

As for the general future, it is likely that the accession of a new administration will result in a more liberal policy, but it is not likely that the event will result in a more liberal policy, but it is not likely that the event will result in a more liberal policy.

Views of Wall Street after the situation was expressed at the Waldorf after the death of President McKinley was received.

Partridges the Fad This Week. Today the thoughts of sportsmen all over the province will turn to partridges.

Partridges for the opening of his regular matinee at the Princess Theatre to-night and his "partridges" will no doubt attract the interest of many more people during the coming week than will the real birds.

"A Brace of Partridges" has been here before, and has been pronounced "a bird of a show," at no time in the least.

Autopsy Shows That Nature Did Nothing to Repair President's Wounds.

MYSTERY OF THE MISSING BULLET

Doctors Agree That Nothing Within the Knowledge or Power of Science Could Save.

Buffalo, Sept. 15.—President McKinley never had a chance to recover from the assassin's bullet, according to the widespread report of the autopsy held Saturday noon.

Nature, doctors say, was at fault, and did nothing to help along the work of the surgeons.

The President died of "toxaemia caused by necrosis of the tissues." That is another way of saying that gangrene killed him. This could not have been prevented, the doctors say, by any surgical or medical treatment.

The world was permitted to believe that President McKinley was on the road to recovery, because some of the attending surgeons in talking for publication consented to construe the President's condition as highly favorable after a considerable period of time had elapsed without unfavorable symptoms being made manifest.

Professional etiquette restrains the fellows who were responsible for this. Dr. McBurney, the abdominal expert of New York, made the statement that he had not seen the bullet.

Some of the doctors, notably Dr. Wadsworth, are inclined to believe that President McKinley was shot with poisoned bullets. This is not proved. The only way in which it could be proved is by examination of the remaining bullets, and particularly the bullet which struck the President.

there is a strong probability that the bullet shot into President McKinley was not poisoned by Colquhoun, the assassin.

Dr. Myer, who was in attendance upon the President almost from the moment he was struck down, said: "The assassin's bullet, from that examination demonstrated, passed first thru the abdomen, then thru the front and back of the stomach. From there it tore thru the mesentery of the colon transversely, and passed thru the rear wall of the peritoneum. After that it disappeared in the muscles of the back, and we could get no trace of its resting place. It would not have been possible to cut in and reach it."

"I have treated hundreds of gunshot wounds in my experience as a surgeon, but never before have I found that conditions developed such as have come up in this case. From the point of entrance of the bullet, it disappeared there, and had developed a gangrenous course. There was no perforation."

"You ask me if the bullet was poisoned? I must tell you that I do not know. I have never come in contact with an instance of a bullet being poisoned, but there is this gangrenous course, such as neither I nor any of the other surgeons attending the President had ever encountered. I cannot account for it."

"The President's stomach was simply capable of retaining what food was given him, but the gangrenous spots in the wall of the organ were working the mischief. Had he survived the night, I am sure that the contents of the stomach would have been emptied, and then death would have ensued quickly."

"Most assuredly the solids given him would not have been vomited. We only permitted him to have a few sips of toast, that he might chew on them and get the secretions from his tongue. It was absolutely necessary and worked no injury. The coffee was beneficial, what else he ate or drank was not a stimulant where people suffer from heart trouble."

Never an Impulse Toward Recovery. Dr. Matthew D. Mann, the surgeon who performed the operation on President McKinley immediately after the shooting, and who was principally in charge of the case during the President's prostration, said that the autopsy showed two unquestionable facts:

First, that the President never had the chance to recover. Second, that the surgical steps taken immediately after he was shot were what he needed to save his life under favorable conditions.

Dr. Mann said that the President's hurt was not nearly as serious as it appeared to be at first. In the case of a young man in perfect health and vigor the same injuries might have saved his life.

"The evidence we saw after the autopsy," Dr. Mann said, "is to this effect: Even if the President had recovered, he would not have been able to do so. The bullet would have done absolutely nothing to mend the damage. It would have done absolutely nothing to mend the damage. It would have done absolutely nothing to mend the damage."
