LEGISLATURE TO TACKLE LAW REFORM

May Be Feature of Session—Other Matters That Will Be Brought Up.

Law reform, after all, may be the novel feature of the fourth session of the 11th parliament of Ontario, which is to be opened at 3 o'clock this afternoon.

In connection with this the work of the commission on the revision of the statutes will probably be given effect so far as progress has been made in a number of acts.

Redistribution has already been fore-shadowed and will undoubtedly be mentioned in the speech.

Bill to effect more or less formal amendments to the Railway Act, the Liquor License Act, the mining law, the Ontario Shops Regulation Act, the Free Grants Act and the Supplementary Revenue Act, may be looked for.

The Big Three. Three questions of interest to those who cherish the principle of public ownership on the T. and N. O. Railway, the Ontario silver limits, and the electric power policy of the government.

The visit of Hon. Nelson Monteth to England in connection with the migration work of the government will probably lead to a reference to the new arrangements by which the supervision of the distribution of the silver is left to the Dominion, while the province devotes attention to the selection of a desirable class of immigrants from the old country.

The Dominion is also concerned in whatever allusion may be made to the proposed division of the territory beyond the northern boundary, and as a decision is expected soon some hope may be expressed of a recent favorable to the province. The payment of the additional subsidy for the first time is another matter of Dominion concern.

Important Reports. Reports are due from the departments in charge of the treatment of the insane and of prisons and prison labor. Traveling commissions have dealt with these matters, and it is expected that they will receive some notice.

As the revenue department shows a surplus, the revenue budget for the expenditure, it will be a matter of congratulation, and new channels of expenditure may be suggested. An analysis of the revenue has been evolved, and a grant to be made to urban schools in extension of the policy of the government to increase grants for educational purposes.

The satisfaction that may be expressed over the prosperity of the province in general should be more than formal, and if it has not been quite so marked as in the previous year it has been sufficiently so to warrant a contrast with the financial stringency that has overtaken our neighbors.

Ontario has her own expanding destiny and as she expands her frontiers, an indication of which is the establishment of a new de-mentation farm in the far north.

A Self-Affair. The opening of parliament is unfortunately not an event in which the masses of the people can participate. This is unfortunate, for nothing is more truly democratic than these invocations in human government than these invocations of the Britons beyond the seas.

Our immigrants, brethren, escaped from the tyrannies, more or less benevolent of the old world, might learn much about their new and mighty heritage in studying the spectacle of this union of all the povers and the rich, bound by a common interest, and crowned by a common liberty.

The guard of honor which accompanied his honor, the speaker, will this year be furnished by the

A Blizzard Due To-Day

Coming From Chicago-way—Yesterday the Coldest in Toronto for Years.

Now it's a big snowstorm that is headed for Toronto! On Monday it began operations in California. Last night its centre was in the State of Kansas, but it spread as far as Chicago with a flank movement into Manitoba.

The snowstorm is bringing with it a gale of wind and higher temperature. In Chicago last night the wind was blowing fresh from the southeast, but the temperature was 24 above zero.

The cold wave Toronto has been under is making way for the snowstorm by travelling eastward. Therefore, as the temperature rises in this locality it will be falling in the east.

The following figures show the lowest official registrations in various places yesterday:

DIAMONDS AND JEWELRY.

New York Looks to See the Prices of 1907 Cut in Two.

NEW YORK, Feb. 4.—The inflated values which have characterized the diamond trade in the United States and Canada has come to an end.

Diamonds are a drug on the market here, and notwithstanding the strenuous efforts of the London dealers to save the situation, all the indications point to a great reduction in the price of diamonds.

A sudden end has also come to the enormous profits made by the houses here, and all over the continent on jewelry, plate, fancy goods and objects of art, a great deal of which has been bought in 1907, within a few weeks.

The widespread abuse of the term "diamond" has done much to demoralize the so-called silver trade.

WHERE CANADA ERRED.

Conformation With Policy of 1897 Would Have Prevented Trouble.

(Canadian Associated Press Cable.) LONDON, Feb. 4.—The London Post, dealing with the Asiatic immigration question, criticizes the Dominion government and says that had Canada conformed to the policy adopted at the conference of 1897, her national development would be larger than to-day and her immigration laws would be uncharacterized by racial discrimination, so that the recent troubles in British Columbia need never have arisen.

MILITIA STORES FOR THE NEEDY

A suggestion was made to The World last evening that the Dominion government, having brought so many immigrants to Canada who are in want, it would be a thoughtful and charitable act to distribute among them the hundreds of blankets, coats and other things that are each year sold at the old fort by auction by the militia department.

QUALIFICATIONS OF ALLEGIANT PROBES

Endeavor Being Made to Find Grounds to Disqualify Some Members of Council.

Acting on behalf of several hotel proprietors Charles Miller, head of the legal firm of Miller, Ferguson & Hunter, is causing the investigation to be made of the property qualifications of those members of the city council who voted to grant 34 licenses.

The scrutinizing of the assessment rolls is being carried on in the city clerk's department, and it will probably be several days before there will be any definite results to announce.

Under the Municipal Act, applications for the unseating of a member of a municipal council must be filed within six weeks after the date of the election or one month after the date of accepting office, so that in the present instance, such application may be received up to Feb. 13.

Those Under Fire. The members of council whose qualifications are under scrutiny, with the amount of property qualifications as assessed, are as follows:

Downfall of the Dictator is Complete and a Reversal of His Policy of Repression is Assured.

LISBON, Feb. 4.—Lisbon is beginning to recover from the shock and horror of Saturday's bloody tragedy, but a strong undercurrent of popular and governmental nervousness remains.

The political tension is slackening, although the Progressists refuse to join in the construction of the cabinet, which Admiral Ferreira de Amaral is forming from all the monarchical elements.

Admiral de Amaral, the devoted friend of the queen, who assumes power, is committed to the reversal of the entire policy of the dictatorship, the abolition of repressive measures, and the restoration of the old Liberal monarchy.

On Saturday, government by decree will be withdrawn, amnesty accorded political offenders not implicated in the recent events, and the embargo on the press raised.

Francis Down and Out. Franco's downfall is complete. He recognized that it was impossible to saddle the youthful king at the outset of his reign with the stern program involving the immediate banishment and deportation of several hundred political offenders to which he had committed himself.

A high official said to-day that Franco wanted to exercise even a more despotic power, and that at the interview with the new king he said it was quite impossible for him to join the revolution movement.

Practically no headway has been made in unravelling the plot of which the murder of the king and crown prince was but one step. The police now admit that the three men arrested from the treasury of the uniforms they were not involved. Every one of the

OTTAWA, Feb. 4.—(Special.)—Another full day was taken up with the discussion of the resolution of Mr. Lake (Qu'Appelle) asking for an enquiry into the administration of the lands branch of the interior department.

Mr. Oliver defended the system of alienating lands, urging that for twenty-five years the policy of the two governments had been to encourage the manufacture of lumber without respect to the revenue derived from timber lands.

The debate on Mr. Lake's amendment to motion to go into supply, asking for committee to probe the lands branch of the interior department, was resumed by Mr. Boyce (Conservative, Algoma).

Mr. Boyce proceeded to give some instances of apparent collusion in tendering for limits. Many cases were mentioned to show that limits had been prematurely sold by tender, and that the excess of the second bid was no wonder, said Mr. Boyce, that the present minister of the interior had taken little interest in the present situation.

Mr. Boyce, continuing, referred to the Ames motion, which wrested the original papers in connection with the timber limits from an unwilling government.

Portugal is Tranquil

New Cabinet Promises To Restore Confidence

Another new cabinet formed with Admiral de Amaral as premier, who is committed to a reversal of the Franco policy.

The ex-premier has fled the country, and is said to be on board a British steamer.

The situation through Portugal is authoritatively declared to be quiet, but Lisbon is practically under martial law.

The Portuguese minister to Great Britain has left Lisbon for London. Some believe Britain advised Franco's retirement, but an official note published in Paris denies this and says the powers will allow Portugal to settle its own affairs.

desperate band, except the three men killed, escaped in the confusion.

The identification of these three thieves but little light upon their connections. While it is believed by some that they were involved in the conspiracy which were unmasked in the latter part of January, it is possible that the regime was planned and executed on the spur of the moment by a small group of militant revolutionists, or anarchistic socialists, who may have

10,000 MOORS FALL IN BATTLE

Report to London News Agency Tells of a Sanguinary Fight in Morocco.

LONDON, Feb. 4.—A London news agency publishes a despatch from Tangier, saying there has been a battle between the French and the Moors near Settat, Morocco, in which 10,000 Moors were killed or wounded, and in which the French losses amounted to 150 men, including four officers.

The Moors, with intrepid bravery, charged right up to the mouths of the guns until their corpses lay in great piles on the ground.

It was charged that there was dishonesty in opening tenders, and that a spurious tender was put in, and that these tenders came under the supervision of Mr. Turfitt when he was commissioner of Dominion lands, and when such grave reflections were cast upon his (Turfitt) in parliament all the reply he had to make was: "Stop making insinuations."

Did the fact that Mr. Turfitt had a seat in parliament now exonerate him from blame? Mr. Lake had made definite and distinct charges. No one who has seen papers brought to the attention of Mr. Lake, namely, that one of the tenders was a spurious and improper one.

Did the man who opened tenders know it was a spurious tender? was asked. "We say yes," said Mr. Boyce, that these documents contained on their face

Revolted beyond credence. Woman disemboweled by her insane husband.

LONDON, Feb. 4.—(Special.)—The murder of old Mrs. Hartwick at Cobblehill by her insane husband, James Hartwick, who is now in London Jail, was revolting almost beyond credence. No weapon was used, but the unfortunate woman was disemboweled by her assailant's hand in a manner which cannot be stated in print.

The jury looked at the body to-day. Dr. Ford of Thorndale was appointed to make the post-mortem, and the inquest was adjourned to meet at Thorndale on Thursday.

SIDETRACK PASSENGERS TO PASS FAST FREIGHT

Brother Duff of the L.O.L. Tells of Some Experiences in Western Ontario.

T. A. Duff, agent for the Orange Mutual, writing to The Sentinel, thus relates a railroad experience:

On the morning of the 16th Bro. Dick drove up to Tillsonburg to take train for Moulton, which is located between Canfield Junction and Port Erie. The only train that stops between Canfield and Welland Junction is No. 72 on the Grand Trunk, and it is a "mixed." It is due to leave Tillsonburg at 8.50 a.m., but did not get away until 10. Of all the delays I ever experienced, this was the "big one."

The despatcher deliberately held this train up at every station without apparent reason or necessity; the only object being to give right-of-way to Washburn freight trains of American cars. To give one illustration, we arrived at Jarvis about 4.05 p.m., and by 4.30 all work was done and No. 72 ready to leave, but orders were issued to meet two freight trains.

Another illustration: A commercial traveler got on the train at Courtland. He got off at Simcoe, went up town, saw his customers and caught this train before it left the station. He then went to Jarvis, went up town, wrote three orders, and was back in time to catch Washburn No. 2 and go as far as Cayuga, getting his business done there, and there boarding our train again.

The conductor and train hands were very courteous and kind. Besides myself, there was a young lady and a little girl bound for Moulton, and the train hands offered to share their food with us. No. 72 is due in Moulton at 2.30, but did not arrive until 10 p.m., occupying exactly twelve hours to run 66 miles, or at the rate of 5 1/2 miles per hour.

Also there are many passenger trains running east between Canfield and Welland Junction this No. 72 is the advantage of Canada, and received large sums by way of municipal bonds and government aid, but to-day it appears to be run "for the general advantage of the Grand Trunk, and a preference for American freight and passengers (at 2c a mile), to the detriment of Canadian freight and passengers (at 3c per mile)." It is felt that at least one passenger train per day should make the round trip over this road between Canfield Junction and Port Erie, and serve the towns on the line.

The above state of affairs is said to be the cause of the delay, and the day before, this same train, due at Moulton at 2.30 p.m., did not arrive until 3 a.m. From 8 a.m. Thursday, until 3.30 a.m. Friday, is too long for even "yours truly" to go without a meal.

The manner in which this train is regularly used and run should be brought to the attention of the railway commission, and the Grand Trunk compelled to give Canadian passengers as fair share as least they give to American freight.

PACKING PEOPLE INTO HAMILTON STREET CARS

Service So Inadequate Passengers Cannot Find Room Inside—General City News.

HAMILTON, Feb. 4.—(Special).—Harry Brown, 11 Fairmount-avenue, was summoned this afternoon on the charge of riding on the platform of a street car after being ordered inside the car by the conductor. This is the first prosecution the company has made under a new rule forbidding passengers to ride on the platforms.

On the other hand the company is coming in for considerable criticism because the service is so inadequate that the cars are so crowded that even women have to stand outside on the platforms. This is a real hardship in this kind of weather.

Before entering into a scheme for general roadway improvement the board of works to-night decided to wait for another week to get a proposition submitted by the Hamilton Railway Company as to what it would be willing to do with reference to renewing part of its tracks and roadbed, as the city engineer said it would be wise to lay permanent pavements while the tracks are in their present condition.

Mayor Stewart thought the city could get an order from the Ontario Railway Board compelling the company to renew its roadbed on any streets which the city wanted to lay permanent pavements, but the aldermen decided to wait for the company's proposition. If it is not made, application will be made to the railway board.

Two schemes are suggested—a money-bidder or the introduction of East Promoters' street Railway Company into the city. At a meeting in December the aldermen claimed that Mr. C. Hawkins of the Ontario Railway Board had promised to install thirteen street lamps. Mr. Hawkins attended the meeting this evening and explained that the lamps would be installed, but he had made the promise that the lamps would be installed.

The Laymen's Mission Association inaugurated its campaign this evening by holding a banquet in the Arcade. George Hope presided, and the speakers were W. T. Ellis, Philadelphia, and J. Campbell White, New York.

The Sabbath School Association of the Presbyterian Church in Hamilton afternoon meeting in St. Paul's Church. Rev. R. Anthony, Waterdown, presided at the afternoon session. The speakers were Rev. J. C. Robertson, Toronto; Rev. D. Anderson, Burlington; Rev. John W. H. Smith, and James Johnson, York. Mr. McLaren presided at this evening's session, and the speakers were Mr. Robinson, and Mr. Robertson.

C. P. Freight Spur. Ex-Mayor Biggar and other local promoters of the Hamilton and Quebec Railway were met upon Mayor Stewart's invitation at the C.P.R. building to-day, and said that the C.P.R. was prepared to start the construction of the line as soon as granted a right-of-way thru the northern part of the city for a freight spur. The mayor called a meeting of the board of works and finance committee next week when the subject will be considered. The only objection raised to the spur is that it would run thru the City Hospital grounds.

Arthur Brodie was allowed to go on deferred sentence this morning on the charge of passing a worthless check us for \$5 on George Roach. It was shown that he had committed the fraud in order to buy food for his family after he had been out of work for three months. His wife fainted in court during the progress of his trial.

The county councilors, after legislative session, they considered an item advertising the Star Theatre, Young Toronto, which is stuck upon a sign in the city. The councilors discovered to-day that the land occupied by the sign had been leased to Connor & Ruddy, Toronto, and while others receive the minimum of \$3600. Now it is conceivable that the higher salary might be assigned to men of great distinction, of high character and high standing in their particular subjects. It is conceivable also that the additional sum might be given in recognition of the services of men of loyal service to the institution. But neither of these standards appears to have been adopted; in fact, no standard is evident, and the board has carelessly and mysteriously neglected to make public the reasons or method—if method there be for the cases of special preference.

The fact is that the staff of Toronto University shows a general level of capacity; there are few if any of the members of it who stand out prominently above their fellows. Justice demands that all should receive equal emolument, especially in view of the fact that they are engaged in the service of the university under an equal scale. But it cannot be on the ground of distinction that preference has been made, since those advanced are, with one or two exceptions, if we must discriminate, rather less distinguished than their unfortunate brethren who have been passed over. Nor can the criterion be service, for among the neglected ones are some who have given their lives to the needs of the university and have advanced beyond the ordinary rank of the staff. It is not possible to discover any likelier reason for these promotions. Certainly those preferred are not generally held to be better administrators, more successful teachers or more scholarly investigators than the professors in the lower class; in fact a canvass of students and faculty, in a way that would not compose the university would probably reverse the judgment of the board.

And this brings us to the important

H. S. SPECIALISTS SALARIES. Editor World: In view of the request of the High School Teachers' Association for a revision of the salary schedule, there are certain phases of the problem which the members of the board should have clearly brought home to them. From a financial standpoint, the more recent increases have been the heaviest sufferers. For instance, the salary of one teacher in a country town, in which living is cheap to come to Toronto on a salary of \$1200. To be in as good a position here, he should be receiving at least \$2000, as in rent alone he pays more than \$200 more than the average of the population of the entire province, this niggardly treatment of colleagues is unjustifiable.

Another instance is even more striking. For instance, the head of a department of one of our collegiate institutions to accept a position on the staff at a salary of \$1400, which is less than he is now receiving in wealth and expensive Toronto. Nor must it be forgotten that the member of the board appointed to the Toronto staff at \$1200, after learning the conditions in the city, refused to come, having secured a position in outside towns, where living is a great deal cheaper.

In London, a city where the lowest initial salary of a collegiate institute teacher is \$1400, which increases in three years to \$1800, total \$12,000. Can Toronto afford to ask more to come to Toronto, one of the most expensive cities in America to live in, than small country towns? It is absolutely certain that if the teachers were fully aware of the conditions, they would not come to Toronto. The board of education would have serious difficulty in securing competent men for Toronto's secondary schools. It is equally certain that every intelligent citizen, who is not a member of the board, might take in providing more adequate remuneration for the most underpaid profession in the city.

A friend of Secondary Education. SALARIES AT VARSITY. Editor World: Under the above caption a statement was made in the Evening Telegram of Jan. 8, to the effect that the board of education had arranged salaries by the board of governors were current.

The writer of the article hastened to add, however, that references to "one of the officials of the university" and to the president, elicited the remark that while a few disgruntled professors might have a fancied grievance, justice had nevertheless been done.

This impression is so very far from the truth that it has seemed well that the World, which has ever been the champion of the oppressed, be placed in possession of the facts, so far as the board has allowed them to become known.

In the case of the full professors in the faculty of arts a number have been given the maximum salary of \$4000, while others receive the minimum of \$3600. Now it is conceivable that the higher salary might be assigned to men of great distinction, of high character and high standing in their particular subjects. It is conceivable also that the additional sum might be given in recognition of the services of men of loyal service to the institution. But neither of these standards appears to have been adopted; in fact, no standard is evident, and the board has carelessly and mysteriously neglected to make public the reasons or method—if method there be for the cases of special preference.

APPEAL TO THE BOARD. Looked at from any reasonable standpoint, the action of the board of education, in granting substantial increases in salary to the male staff of the schools, down to the caretakers, and refusing redress for the undoubted grievances against which women teachers appealed, save the raising of the minimum salary in their case from \$400 to \$500, is neither fair nor encouraging.

INSANE MOTHER KILLS BABE. Overpowered After Desperate Struggle and Officer Called. MONTREAL, Feb. 4.—While in a fit of insanity, Mrs. Thomas Doucette dashed out the brains of her two-year-old child and was in the act of killing another child when discovered by her family.

BRITISH POLITICAL MOVEMENTS. How misleading the talk was that declared the movement for tariff reform in Britain to have sustained with difficulty a precarious existence, and to have been finally extinguished at the last general election can be easily gauged from the comments made on the recent by-election in Mid-Devon.

CHICAGO, Feb. 4.—"Never in the history of Chicago have anarchists and other enemies of law and order been more dangerous than they are at present," declares Chief of Police Shipley, after a police report of a meeting of Chicago anarchists, at which the assassination of King Carlos and son, and that of President McKinley, were approvingly referred to.

CHILD TERRIBLY BEATEN. Man Administered Cat-o'-Nine-Tails at Mother's Behest. "To make a beating like that which to beat a little child is a piece of devilish ingenuity," declared Crown Attorney Corley when Bertrand Cadley, 12 Regent-street, was arraigned in yesterday's police court, charged with inhumanly beating 14-year-old Mary Bartlett, with whose mother the man was living.

MANAGER GETS \$500. Erastus Miller, former manager of the Terra Cotta Brick Works at Terra Cotta, Ont., was given judgment by Chief Justice Mulock in the non-jury assizes yesterday, for \$500 in his suit to recover \$1050 salary and damages, alleged to be due him as the result of wrongful dismissal. The company claimed that Miller did not know his job, but the judge thought that he was the only man about the concern who did know how to make brick.

PETITION AGAINST WOMAN CAUSE OF SLANDER SUIT

Residents of York County Defendants in Action for \$10,000—The Evidence.

Mrs. Isabella Pherrill of Woburn, York County, asked the jury in the assize court yesterday to grant her \$10,000 damages against John Sewell and William Jones, farmers of Markham Township, for alleged slander contained in a petition circulated around Markham and Box Grove in November, 1906, asking the township council to take steps to have the family removed from the house of the late W. Stoner in Box Grove. Mrs. Pherrill occupied the house at the time. The defendants denied malice in circulating the petition and at the same time claimed justification on the grounds that the woman was of reproachable character.

The jury handed in a sealed verdict which will be announced at this morning's sitting.

Several witnesses who signed the petition were all given a reverse cross-examination by J. M. Godfrey, who appeared for the plaintiff, on their gossiping tactics, and when the latter was giving his address to the jury, in which he referred to the witnesses "as the dear good people of Box Grove," he asked the Box Grove contingent to leave.

Mrs. Pherrill during her evidence broke down and cried and was excused from further attendance by Justice Mabey. She said she kept Stoner's house for years after his death, it having been left to her by Stoner, if she would look after his four children. Cross-examined by Mr. McCullough for the defence, she admitted that she had two men at her house at various times of the year and had been a boarder for some time.

"Has that husband of yours done anything for your children since he left four years ago?" asked Mr. Godfrey in re-examination.

"Nothing," answered Mrs. Pherrill in a whisper.

"And why did you drop the suit for alimony against him?"

"Because I could get nothing out of him."

"And did those good ladies of Box Grove, those who belong to the Ladies Aid Society, ever visit you?"

Here Mrs. Pherrill broke down and began to sob violently. A chair was put into the witness stand and seating herself Mrs. Pherrill turned her face to her arms and cried.

William Jones swore he had never said that the house was used for immoral purposes. He considered Mrs. Pherrill was doing wrong when she sold the fruit which grew on the lot.

YORK COUNTY AND SUBURBS

EAST TORONTO BRAKEMAN MEETS DEATH ON TRACK

Falls from Freight Train While Coming Home—York County Roads in Bad Shape.

TORONTO JUNCTION, Feb. 4.—The annual meeting of the York County Lodge of West York was held this afternoon in St. James' Hall. There was a large attendance of representatives from all over the district. These officers were elected for 1908: County master, Capt. T. G. Wallace; deputy master, W. A. Baird; chaplain, Wm. Douglas; recording secretary, John McClure; financial secretary, J. G. Wright; treasurer, Edward Connelly; director of ceremonies, Charles J. Cassman; lecturer, Torry Hopkins; deputy lecturer, Nelson Boylan.

While working on a telephone pole this morning at the corner of Humber-street and Keele-street, an employe of the Bell Telephone Company had one of his feet badly frozen. He came to No. 1 firehall, and with the assistance of one of his fellow employes got the blood circulation started again by having his foot rubbed with snow.

A local carrier named John lost \$2 in bills last Saturday evening on Keele-street, near Herbert-street. He notified the police, but nothing was heard of the missing bill till yesterday, when it was returned by a Mr. Gundy of Lapp-street, who, by chance, found out the name of the owner.

Gets Off Easily.

Daniel Kigman, roadmaster of the Suburban Railway, was this morning fined \$2 without costs for disorderly conduct in attempting to run a suburban car to Humber-street on Jan. 2 in the presence of the local police, who had instructions from the mayor and council to prevent the cars running east of Keele-street.

The death occurred to-day unexpectedly of the mother of Joel Williams of Clendenan-street, who was held to last night.

Improvements in Progress.

The end of February will see the new organ installed in Victoria Presbyterian Church. Work was commenced yesterday in removing the pulpit. The cost of the organ itself, together with the necessary alterations in the church in connection with it, will amount to \$1,000, which will include a large platform for the choir, will exceed \$450. The organ has already been shipped.

The collegiate institute board will hold a meeting to-morrow evening.

The annual report of the board below zero at 7 a.m. this morning, and 14 degrees below zero at 9 o'clock to-night.

RICHMOND HILL

Conditions Are Improved But Travel is Still Almost Impossible.

RICHMOND HILL, Feb. 4.—The tie-up on the railroads has been pretty thorough here. Metropolitan cars are now moving freely, although one car was stalled below the station for an hour yesterday for the occasion will be Mayor McMillan, Councillor Phelan and Dr. Deming.

George F. Empringham is president and Harry Ormerod secretary-treasurer of the school teachers' association. The petition of the school teachers of the town for an increase in salary from a minimum rate of \$350 to \$450, and a maximum rate of \$700 instead of \$650, was carefully filed away at last night's meeting of the public school board. In the present state of the town's finances the proposal is not likely to be seriously considered.

A largely-attended meeting concerning the weather conditions was held in the Y.M.C.A. Hall to-night, representative of all the religious bodies in town, with a view to formulating ways and means for the relief of the deserving poor. The meeting was presided over by the Rev. Dr. Wm. Galbraith, and occupied two powerful discourses.

Mr. J. Deary, engineer of the outgoing passenger train, was buried to death last night in a snow-drift. The local hockey team play Thornhill here on Thursday evening. There should be some meat on the table.

The minister supplying the pulpit of the Presbyterian Church took all night Saturday to get here, arriving about daylight.

The W.C.T.U. meets on Tuesday afternoon at the home of Mrs. C. Mason at 3 o'clock.

The high school concert on Wednesday evening bids fair to be of the best. Aid J. Deary is always a stirring card with his chalk sketches.

EAST TORONTO.

Local Curriers Down the Malvern Cracks—Don't Favor Raise.

EAST TORONTO, Feb. 4.—Fred Blouw, a G. T. R. brakeman, living on Norwood-road in this village, met with an accident shortly before 7 o'clock this morning, which later in the day caused his death.

Blouw was working on a freight running between York and Belleville, and it was while the train was between Scarborough and York, and just before entering the village, that the unfortunate man, presumably in running along the footboard on the top of the car, by some means lost his footing and fell to the ground, fracturing his skull. His fall was not noticed for some time, and the first to notice the body was the engineer of the outgoing passenger train. He was laid on the train and taken to Scarborough Junction and later brought back to York station, where he was attended by Dr. Walters. From the station he was taken to the Y. M. C. A. Hospital, where he died at 1:45 p.m., without regaining consciousness.

The freight was manned by Engineer Dan Kerr and Conductor A. White. Blouw was a married man, 27 years of age, living at 28 Norwood-road,

THE KIDNEY PILLS

and was personally very popular among his fellow-railway men.

BRACONDALE

Funeral of Young Man Takes Place to Prospect Cemetery.

BRACONDALE, Feb. 4.—The funeral of the late George Gaudre, who died in the General Hospital last Saturday, took place to Prospect Cemetery yesterday, Rev. W. A. MacLellan officiating. Deceased was 24 years of age and an indefatigable member of the Presbyterian Church. He had no relatives in this country, and while in the hospital received a letter from his aged mother in England, who was never sufficiently conscious to open the letter, less to understand its contents. A cable despatch conveyed the sad news of his death to the sorrowing mother.

Mr. and Mrs. Jordan of Christie street entertained a large number of friends at a luncheon given this evening. The Rev. C. W. Follet acted as chairman. After a beautiful supper was partaken of singing and speech-making was indulged in, and the company broke up by singing the national anthem.

W. H. Edwards of the firm of J. E. Edwards & Sons, has returned from a business trip to Montreal and other eastern cities.

The Alban's Cricket Club will hold their annual banquet at Bracendale on Thursday evening.

DEER PARK

Laymen's Missionary Promoters Have Fine Social Time.

DEER PARK, Feb. 4.—With the temperature outside at 12 below zero it was rather comfortable to sit at the banquet table of the Presbyterian Church to-night at the luncheon given by the laymen's missionary movement committee of this church. The menu was elaborate and tastefully served by the ladies in charge. Sufficient food was left over to satisfy twice as many hungry men.

The S. W. Edwards, an indefatigable member of the church, presided, and welcomed the committee's guests. In outlining the work of the committee he said that if a church will not do good missionary work, as hundreds of thousands of foreigners will come to our country taking up land, he new barons, David Forrester, Alf Pollet, Miss Ethel Bickle, Miss Laura Levery, Miss Dora Pollet and others. Joe Dobson, the young pianist, who is rapidly coming to the front in concert work, will act as accompanist. The choir will be taken by R. Boggs, and owing to the length of the program the concert will commence at 8 o'clock sharp. There is no charge for admission.

MARKHAM MAN ARRESTED

Brought Before High Constable and Allowed Out on Bail.

Sidney Findley of Dollar, Markham Township, was arrested on a serious charge on Monday night by County Constable Hobbes of Agincourt. He was brought before High Constable Ramsden yesterday, remanded for a week and released on \$250 bail.

Tenth Royal Grenadiers. An officer and a dozen men of the Royal Canadian Dragoons will form the travelling escort. B. Battery of the Royal Canadian Horse Artillery will fire the salute of 18 guns when at 3 o'clock his honor drives up to the buildings in Queen's Park. In the legislative chamber thirty officers are expected to disassemble the sergeant-at-arms with a gold lace display more than twice as brilliant as anything ever before seen at the legislature.

The house will really be given over to the lady relatives and friends of the members and such distinguished citizens as desire to be present. The chamber is temporarily seated with this view, and invitations issued with the intention of preventing too great a crush. No doubt the display of fashion will be very notable.

Absentees and Newcomers.

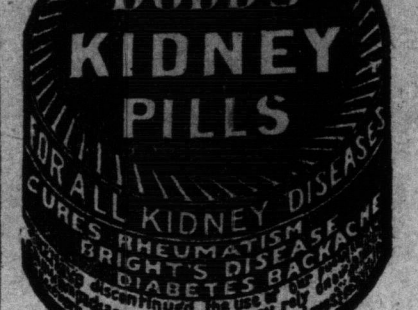

The members are usually crowded into the background so that the absence of Hon. W. J. Hanna may not be remarked. He will be at the Lambton convention in his own constituency, the date for which was set when it was expected the house would meet on the 6th. Wm. Anderson, the Liberal member for East Peterboro, has been indisposed for some time past and will be unable to be present.

An interesting feature to visitors will be the presentation of three new members. Two of these will be distinguished to-morrow, as the World noted some time ago, by being selected to move and second the address to the speech from the throne. They are C. R. McKeown and A. E. Duvoisin.

Mr. McKeown succeeds the late Dr. Lewis in Dufferin, and will be introduced by the attorney-general and George H. Ferguson of Greenville. Mr. McKeown will sit next Alex. McCowan on the back row to the left.

Mr. Donovan, the gentleman who assisted Brockville in its fighting change act when Ont. G. P. Graham was promoted to Ottawa. He is likely to be sponsored by the prime minister.

HAD A STAB-LIKE PAIN THROUGH THE HEART

MILBURN'S HEART AND NERVE PILLS CURED HER AND SAVED HER LIFE.

There is no one, we imagine, sets about deliberately to do injury to the heart, yet in the excitement and excesses of present-day living, the nervous system is done violence to, and the heart and nerve system so intimately bound up with one another, that the disorder of one means disorder of the other.

When you find your heart the least bit out of rhyme, your nerves unbinged, don't wait until you are prostrated on a bed of sickness. Take Milburn's Heart and Nerve Pills. They'll put you in such a condition you'll never know you have a heart, make your brain clear and active, your nerves strong, your blood rich and pure, and your whole being thrill with a new life.

Mrs. John C. Yensen, Little Rock, N.B., writes: "I was troubled with a stab-like pain through my heart. I tried many remedies but they seemed to do me more harm than good. I was advised by a friend to try Milburn's Heart and Nerve Pills, and after using two boxes I was completely cured. I cannot praise them more highly. They saved my life."

Price 50 cents per box or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
