## WHY CANADA MUST NATIONALIZE G. T. P. FOR THE CAUSE OF EMPIRE

### W. F. Maclean Directs Attention of the Government to the Perils in Allowing a Private Corporation to Control Transcontinental.

### PUBLIC FEELING FAVORS OWNERSHIP OF RAILWAYS

OTTAWA, April 20.—(Special.)—During a discussion of the G.T.P. loan this afternoon, W. F. Maclean (South York) entered his protest against any further aid to a road that, while it is called a great national transcontinental system, is not and cannot be under this legislation the property of the people.

His remarks were applauded by many on the Conservative side, and it was admitted that he had hit the nail on the head.

"A great national undertaking," he said, "ought to be controlled by the nation, and especially when the nation supplies the money and credit for the construction of the road. Government ownership can never be realized in connection with this great national undertaking. It has not been in the past and it will not be in this case. It has not been done in regard to the C.P.R.

"The German Empire is dominating the world because it has nationalized its railways. I have been told in this house, and our delegates to Great Britain have told the people of the empire, that the great contribution that Canada has made to the empire has been the building of a transcontinental railway, which makes an intercontinental railway between Europe and Asia. That may be so, as a statement, but as fact this road is not owned or controlled by the nation. It is not being built from a national standpoint, but is being built by a private company in such a way that the control of the N.T.C. may any day pass into the hands of those hostile to this country.

Controlled by Germany. "One can imagine at the very crisis of the empire that the G.T.P. system is owned and controlled by German capitalists and so manipulated for years ahead that the system will fall down, and as being a factor in and a portion of the imperial defence, so many points of weakness would develop that the road would not be of any use to the empire, or business point of view.

"Any day this so-called national transcontinental railway, built by the money of this nation, may be owned by a foreign corporation which might use it to the detriment of the country and the empire.

"Any day it is possible that J. J. Hill, who has a rival transcontinental system in the United States, or a still greater magnate, may buy the G.T.P. Mr. Harriman, may secure absolute control of the so-called national transcontinental railway system, which the people of Canada should not be far, and which they must see thru.

"We are bound to see this road thru as a nation, and if we do see it thru as a nation, why should not the nation control it?"

Speaking of the Panama Canal, Mr. Maclean pointed out how the United States were building the canal, and the undertaking, there being no contractors. On the other hand, Canada was building a transcontinental transcontinental system, but allowing it to pass into the possession of a private company, whose stock is ticked about the money markets of the world. A great mistake had been made and now was the time to correct it.

A Golden Opportunity. "The opportunity has presented itself at this crisis," declared the member for South York, "to recover the control of the transcontinental railway and to make it a great national asset, as it ought to be, for the benefit of the country and the empire.

"Like the C.P.R.," he continued, "the G.T.P. would be administered absolutely for the interests of the shareholders, and we have to-day the experience of the G.T.P. and the C.P.R. treating the people of the United States better than the people of Canada. In the matter of passenger and freight rates, this has been going on for years. There is no way we can control these lines and use them for the benefit of the nation, except by making them a great government property.

"Of course we would be told that the Canadian people were not able to construct and administer a great national highway. But he did not subscribe to any such doctrine as that. He had confidence in his fellow countrymen, that they were quite competent to undertake such a project, and that they wanted was the opportunity to do it.

It. He believed that the people of this country wanted to see the G.T.P. worked as a national enterprise by the king it absolutely out of public hands, and using it for the benefit of the nation and not of party.

He ventured to predict that within the next few years the money and resources of the Canadian people would be devoted to securing control of the great national highways of the country.

Continuing he said:

The Public Role. "Public feeling is running in that direction; public feeling is antagonistic to the legislation we are passing here to-day in favor of the G. T. P. Public feeling is in favor of recovering the ground we have lost in these respects. I have no hesitation in saying that the movement in favor of the nationalization of our railways will grow, and that before the next election it will become the real issue before the people."

The only way, he added, we could relieve the blunder of to-day was to buy the controlling shares of the G.T.P. in the London market, and he believed

## Austria May Sanction Seven Dreadnoughts

VIENNA, April 20.—According to good authority, and as a reply to British anxiety on the subject, the delegations at their next meeting will be asked to sanction an expenditure of 400,000,000 kroner for building seven Dreadnoughts for the Austrian-Hungarian navy.

This is the emphatic reply to the request of Great Britain at the recent unfriendly policy of the dual monarchy.

His remarks were applauded by many on the Conservative side, and it was admitted that he had hit the nail on the head.

"A great national undertaking," he said, "ought to be controlled by the nation, and especially when the nation supplies the money and credit for the construction of the road. ## SIR ROBERT BOND SHOVED IN SEA

### Morris Sympathizers Decline to Listen to Ex-Premier, and Offer Violence.

ST. JOHN'S, Nfld., April 20.—Sir Robert Bond, the former premier, met with a hostile reception to-day when he attempted to land from a steamer at Western Bay, the centre of the Bay de Verde District, for the purpose of addressing a political rally.

Sir Robert is touring the towns and villages along Conception Bay in the interest of his party. He was met by a crowd of voters in sympathy with Sir Edward Morris' party and warned that the voters of Western Bay did not desire to hear him. The former premier charged that the objectors were engaged by the Morris party to prevent him from speaking and announced his intention of landing and making an address.

The crowd made a rush for the landing place and in the confusion Sir Robert was pushed overboard. He was not injured and succeeded in climbing into a rowboat. He rejoined the steamer and made no further attempt to land. The incident is attributed to the intense political feeling which prevails throughout the colony.

Polling will be held one week from to-morrow. The Bonds and Morrisites have nominated straight tickets in every district. There are no independent candidates running.

## CONFESSION OF FAITH HALTED 12 CANDIDATES

### Clause in the "Westminster" Finally Amplified to Suit Convenience of Embryo Pastors.

KINGSTON, April 20.—When candidates for licensing to preach in the Presbyterian Church were being questioned by the Kingston Presbytery, information was given that twelve candidates could not accept the statement that the Westminster confession of faith was "founded on and agreeable to the word of God."

The Presbytery took the matter into consideration, and while it was not able to change the phrase, yet it was decided to intimate to candidates that the phrase that they had objected to could be amplified by the statement that in substance the confession was agreeable with the word of God. This the candidates accepted and were duly licensed. Had they absolutely refused to assent it would have meant the withdrawal of their names from the ministry.

## 41 Licenses Are Cut Off Commissioners Feel Badly

### Chairman Coatsworth Sorry For Those Who Suffer Loss—"The Ward" and Section in the West Become "Dry."

### 3 IN EAST TORONTO ONE AT THE MARKET

The only hotel left west of Yonge Street and north of Queen Street, in the Brunswick at Brunswick Avenue and Bloor Street.

Well, the deed has been done, the "public execution," as Chairman Coatsworth expresses it, has taken place, and 41 hotel licenses have been cut off. Three months from now the places will be closed. The action is the result of the civic legislation following the passage last New Year's Day of a referendum on the question of reducing the number of liquor licenses in the City of Toronto to 110 from 150. There was less than the stipulated number issued, however, last year, so that the reduction of 41 licenses was necessary. This includes the licenses brought in by the annexation of East Toronto and Deer Park.

Two applications for licenses were not entertained, viz.: H. U. Layton of the Caer Howell, University Avenue, and Samuel Thompson, Rossin House, 31 York Street. The former had his license three years ago. Mr. Thompson had arranged to take over the Rossin House to-day, but the Nelson estate insisted on compensation for the license, which was cut off last year and later renewed. The license is renewed to the estate.

In granting licenses, stipulations are attached to several, as follows: A. E. Campbell, Grosvener House, 28 Yonge Street, must transfer the license at once and the house put in good order.

H. G. Clark, of Clark's Hotel, 127 Simcoe Street, must commence, within three months, the construction of the new hotel, plans for which have been laid before the board; and building must continue steadily until completion. Otherwise, the license will be cancelled and a license issued to a brother, Fred Clarke, whose license, for the Traders 28 Yonge Street, is cancelled.

MRS. KATE DEVANEY, of the St. Alban's, Bloor and Bathurst streets, must find a new site. The present location is disapproved by the board and the change must be made within six months to an approved location, otherwise the license is to be cancelled.

PHILO LAMB of the Star, 98 Agnew Street, must also remove within six months. "This license is granted because his son's license is not renewed."

J. J. LATTIMORE of the Power House, 421 West King Street, is at present facing a police court charge of "being a public executioner," said Mr. Coatsworth last night. "I feel very badly. I'm sure we all feel miserably to-night. Personally, I am not sure that I will sleep well, because I realize that in even trying to do the very best thing we have inflicted a great deal of sorrow, trouble and misery on many splendid citizens and families.

"In cutting off 40 licenses I really think we were impudently to do justice, because there was no justice in trying to effect temperance measures the way we were left to go about it, and it would have been done without making trouble.

"I must say this for my colleagues, they were animated by a sense of public duty and a desire to do the best thing that possibly could be done in a very painful situation. There was no doubt a desire to do the best thing, and they were animated by a sense of public duty and a desire to do the best thing that possibly could be done in a very painful situation. There was no doubt a desire to do the best thing, and they were animated by a sense of public duty and a desire to do the best thing that possibly could be done in a very painful situation.

Nothing was finally decided about any house until yesterday. In sacrificing the Woodbine Hotel license they thought they had done what would meet with public favor, and yet inflicted no great hardship as they left the Jockey Club possessed of a club license.

Dry Districts. In deference to the strong temperance sentiment they ordered the district north of Queen Street and west of Bathurst, dry, cleaning out three licenses entirely and ordering one removed to another locality, considering the overwhelming reduction vote polled in this neighborhood.

Then they thought they would please the public in hiding St. John's Ward of hotels, and possibly be instituting a change for the better that might ultimately end in renovating this neighborhood and improving the living conditions of its inhabitants.

In many cases the buildings, furniture and management of houses that were doomed were superior to some that survived, but many places were conveniently located, they hadn't as much accommodation as their location might warrant.

Another factor in arriving at the final conclusion was the fact that they discovered relatives running hotels or a number of houses that were largely controlled by breweries or capitalists springing from the same fountain head.

Mr. Lamb felt that hardship and justice had been done in almost every case. It was not the right way to do, he thought, to deprive men of their business and throw them into bankruptcy without compensation. The government, or the city, should in carrying out a reduction policy, issue debentures and make good the loss to the individuals.

W. P. Frazer, secretary of the Ontario Jockey Club, when informed that the license of the Woodbine Hotel, the club's property, was cut off, expressed great surprise.

"I cannot understand why the commissioners took this action," he said. "There have never been any complaints whatever, as to the way the hotel was conducted. It doesn't affect the race meet, as the liquor license there was abolished two years ago."

The announcement of the license commissioners was anxiously awaited by some and eagerly by many. There were some surprises; others who had hoped against hope that the blow would not fall were disappointed. It's hard enough to lose one's job; it's terribly hard to lose both occupation and business, representing in many cases thousands of dollars—to some no doubt complete bankruptcy.

Particularly unfortunate seem to be those who are sufferers for the sake of relatives. While no doubt the commissioners acted as they thought for the best, trusting that one would look after the other, yet in every instance the households have been quite distinct and the families affected are the Lams, father and son; the Crittalls, father and sons; the Clarke brothers, and the Clancy brothers.

This policy was observable in the cancellation of the license of the Mayflower Hotel, 40 Bathurst Street, kept by Cuthall Bros., while the Pine Tree, 660 1-2 West Queen Street, kept by Geo. Cuthall, Sr., was renewed; refusing a license to the Hotel Trader, 89 Yonge Street, proprietor Fred Clarke, while his brother Harry Clarke, proprietor of the Star Hotel, Agnes Street, and denying renewal to the Maple Leaf Hotel, 771 East Queen Street, proprietor F. F. Clancy, while the license of the Hotel Cecil, 1160 West Queen Street, kept by a brother, M. J. Clancy, stands.

Mrs. Crawford, who has the Duke of Cambridge Hotel, catered to railway men for years, loses her license. She is, however, owner of the Parkdale Hotel property.

Two grades ago Fred Clarke, shortly after being married, paid Douglas & Chambers \$47,000 for the license and purchase of the Hotel. The building was improved, a dining room installed, and a first-class hotel maintained in every respect, free from any suspicion of being "died." The inspector's reports were A1 and he was slated "safe" until a few days ago.

Estimating the value of a license at \$25,000, a figure based on the average transfer price, the cutting off means an aggregate loss of \$1,025,000.

The interest in the board's action thousands down town, and the hundreds of eager enquiries with which the newspaper offices were besieged, William Hassard, proprietor of the Cadillac Hotel, who is president of the Toronto Hotelmen's Association, said last night that he thought the commissioners had acquitted themselves in their unpleasant task as well as they could have done, there were some cancellations which he particularly regretted.

"I feel very sorry for those who have lost their license, but I don't think the association can do any more than meet and pass a resolution of sympathy," he said. "We did all we could when we asked that the increase in the license fees be made a compensation fund."

Rev. John Coburn said the temperance people were "partially satisfied." He said the cutting off of forty was but a trial of strength. He would oppose compensation.

It was given to see that the Dundas Street district has been cleared of licenses," said J. A. Austin, P.G.C. of the Royal Templars. He, too, considered the cutting off of licenses as a trial of strength. He would oppose compensation.

It was an ill-day for the bonifaces of the district south of Queen Street, three are denied renewals, the victims being Thos. Meagher, 1420 Danforth Avenue, John Brewer, 1606 Danforth Avenue, and Daniel J. Morgan, 188 Danforth Avenue. It is understood the commissioners took into consideration the fact that these licensees paid less for their licenses than hotelmen of the city proper.

Mr. Brewer was the instigator of the attack on the license reduction by a few weeks ago. He is peculiarly unfortunate, as he was one of the victims of the reduction by law of 1887. He is a Conservative in politics, and coming to Brockville from St. John, N.B., engaged rooms at a boarding house, where he appropriated two valuable watches and other jewelry.

Wm. Robbins of Gananoque and Wm. Russell of Phillipsville pleaded guilty to-day to a wholesale robbery of cottages in the Thousand Islands region near Gananoque. Four islands were visited and several hostels of general furnishings appropriated. Robbins is a brother-in-law of one of the three victims of the recent Gananoque drowning tragedy.

### Wholesale Depredations From the Thousand Islands.

BROCKVILLE, April 20.—(Special.)—There is a Yorkshire Englishman named Jackson in jail here awaiting sentence on a charge of theft. He was brought out with a party of Salvation Army immigrants, and coming to Brockville from St. John, N.B., engaged rooms at a boarding house, where he appropriated two valuable watches and other jewelry.

Wm. Robbins of Gananoque and Wm. Russell of Phillipsville pleaded guilty to-day to a wholesale robbery of cottages in the Thousand Islands region near Gananoque. ## EFFECTS OF THE BUDGET

### Stock Exchange Not Seriously Affected—Consols Go Up.

LONDON, April 20.—The fresh burdens imposed upon capital by the new budget as announced by Chancellor of the Exchequer Lloyd-George in the house of commons yesterday, has not had much effect on prices on the stock exchange. Consols improved 1/8 at the opening owing to the comparatively small amount, £3,000,000, taken from the sinking fund, and the markets generally opened quite cheerfully on the theory that the stock exchange might have been worse hit.

The increased stamp duties, however, were heartily disliked. It is feared they will drive business away to other countries.

arms hung at his sides and his hands trembled. He said: "I am glad to see you; you English have always been my friends. You are the first European to whom I have given an audience for years. This moment is portentous to the whole Turkish nation. My enemies have slandered me. They said I was a madman, bordering on imbecility and that I shut me up for years. But Allah so willed it.

When waiting to be introduced to the sultan, the members of the delegation carefully examined their holsters and pistols, and had Abdul Hamid shown to them, he would have been shot on the spot.

After much delay the unwelcome visitors, surrounded by black eunuchs, were ushered into the sultan's apartments, where stood the sultan's son, Prince Abdul Rahman. ## OF INTEREST TO WOMEN

### ALL HOLLAND REJOICES AT BIRTH OF PRINCESS

THE HAGUE, April 30.—Wilhelmina, Queen of the Netherlands, gave birth to a daughter this morning. The condition of her majesty is most satisfactory. The infant princess is doing well, and Holland is celebrating the happy event from one end of the country to the other, with expressions of joy and gratification such as seldom before have been witnessed on the part of this placid people.

gratification. The people read eagerly the special news sheets issued free by the newspapers announcing the happy event. Heralds accompanied by trumpeters led in ancient Dutch dress made the rounds of the city, halting at the principal squares and other suitable spots to make, after due fanfare, the following proclamation: "With great joy we announce the news that her majesty, by the grace of God, has been delivered of a princess."

On Wednesday evening at 8 o'clock a public missionary meeting will be held in the Guild Hall, when the Lord Bishop of Toronto will preside, and addresses given by the Right Rev. Bishop Holmes of Athabasca, Hon. A. B. Morine, K.C., and the Rev. E. J. Peck, who has been for so many years connected with Arctic mission work.

**Re-elected President.**  
LONDON, April 30.—Carrie Chapman Cattell, of New York, was today re-elected president of the Women's International Suffrage Alliance, now in session here, without a dissenting vote.

**DELICATE LITTLE CHILDREN MADE WELL AND STRONG**  
The little ones are frail. Their hold on life is slight. A slight disorder may become serious if not promptly attended to. At the very first symptom of trouble Baby's Own Tablets should be given. This medicine promptly cures indigestion and all stomach troubles, constipation, diarrhoea, and brings the little teeth through painlessly. You can give the Tablets with equally good results to the new-born baby or well-grown child. Mrs. R. G. Frewell, Uxbridge, Ont., says: "I have used Baby's Own Tablets, and find them a perfect medicine for stomach and bowel troubles. Sold by medicine dealers, or by mail, at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont."

## Instantaneous Beauty Making

It is no exaggeration to state that the wearing of a PEMBER Pompadour Bang will do more in a moment to create beauty and enhance beauty than any other single aid a woman can find.

## THE NEW PEMBER STORE NEXT YONGE STREET ARCADE

Trustee Simpson Objects—Site of Northwest High School.

**A Woman's Sympathy**  
Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

**TWO DROWN AT SOUTHAMPTON**  
Fall From Bridge Into Fast-Flowing Saugeen.  
SOUTHAMPTON, April 30.—Samuel Cairns, engineer of the Saugeen Electric Light and Power Co. of Southampton, and Andrew Ruxton of Chipewa Hill, were drowned in the Saugeen River, two miles east of here, this afternoon.

**DAMAGE AT THE ISLAND**  
Not Nearly as Serious as Was Reported Yesterday.  
Considering that it was one of the worst storms on the lake in twenty-five years, said J. G. King, government engineer, last night, "the damage at the island has been very slight and I am very well satisfied. Only a small crib is really damaged and this was only a temporary construction."

**APPOINTED TO ARBITRATE**  
WINNIPEG, April 30.—Winnipeg Electric Railway Company to-day wired the department of labor at Ottawa to the effect they had selected W. J. Christie as their representative in arbitration demanded by the men, who appointed J. D. O'Donohue of Toronto.

**Forty-Five Cattle Burned.**  
SALEM, Ont., April 30.—The barn of John Barber, near here, was struck by lightning this morning at 2 o'clock, and burnt to the ground, together with forty-five head of cattle, six horses, and some sheep. The fire was so rapid that nothing was saved. A small insurance only was carried. Loss about \$3000.

**DON'T IMAGINE YOU CLEAN HOUSE**  
—you do not, nor can you, if you use only broom, carpet sweeper, duster—those scrape some of the dirt and dust from carpets or curtains into the air, but they don't get rid of the dirt. Never. Let me bring a Chatham Portable House-Cleaner to your home and prove to you that there isn't an easier—  
—a more effective—  
—a quicker or more thorough way—  
—to really clean any part of any house.

**Sons of Jove.**  
The regular meeting of the Jovian Lunch Club was held yesterday at noon with twenty-five members present. An interesting talk was given by E. D. Strickland, national organizer of the Sons of Jove. This organization is for the purpose of bringing together the members of electric trades into a closer acquaintance. The second rejuvenation, initiation and jovianism will be held at the assembly hall, Temple Building, to-night. It is expected that thirty candidates will be initiated.

**Suggested Forest Reserve.**  
OTTAWA, April 30.—R. H. Campbell, superintendent of forestry, suggested to the committee on forests and waterways this morning that a belt of land from the Crow's Nest line to the international boundary, and from the British Columbia line fifty miles eastward should be reserved and the cut governed. There seems to be about twelve million acres available, he said.

Just send, to-day (please), for C. H. Harris' Crown Life Building, Toronto, who represents the Manson Campbell Co.'s Chatham Portable House-Cleaner. This has power vacuum cleaner is also sold with electric motor for use in connection with electric power in the home. Price \$65.00.

## TORNADOES IN SOUTH TAKE TOLL OF LIVES

**SLAUGHTER AT ADANA TOLD OF BY EYE-WITNESS**  
Missionary Who Saw Outbreak of Massacre Declares That Officials Were Cowardly.

The following account of the disorders at Adana is given by the Rev. Herbert Adams Gibbons, a missionary: "The entire vilayet of Adana has been visited during the past five days by a terrible massacre of Armenians, the worst ever known in the history of the district."

"Conditions have been unsettled for some time and there has been animosity between Turks and Armenians owing to the political activity of the latter and their open purchasing of arms."

"Early last Wednesday morning, while I was in the market, I noticed that the Armenians were closing their shops and hurrying to their homes. An Armenian and Turk had been killed during the night and the two corpses were paraded thru their respective quarters."

"Miller and Cummings have suffered some, but not to the extent of \$100,000, as reported. Such an amount as that is absurd, for their contract is only for the province on Thursday night. Of their breakwater that suffered, \$100,000 was carried here to-day by a majority of 124 votes."

**BYLAW CARRIED.**  
ST. MARY'S, April 30.—The bylaw to guarantee the bonds of the St. Mary's Portland Cement Company to the amount of forty thousand dollars, was carried here to-day by a majority of 124 votes.

Fountain, tailor, on Adelaide-street, entered action for replevin against Dr. Ogden Winter, a dentist at the corner of Portland and Queen-streets. Mr. Fountain claimed he bought the dog from Dr. Scott of Listowel and Whitehead said in the box that while out for a stroll with the dog, Dr. Winter laid a claim to the dog and would not let him go.

TILBURY LOSES ONE  
Decrease in Toronto's Population De-  
manded It.

CHATHAM, April 30.—(Special)—At  
a meeting of the West Kent license  
commissioners, held here to-day, it was  
decided upon an order from the govern-  
ment to revoke the three licenses which  
in 1897 were issued for this area. This  
reverses the action taken by the com-  
missioners at their inaugural meeting  
this year. T. Matlow, the proprietor  
of the Commercial Hotel, was given  
three months to sell out his stock. This  
decrease was necessary owing to Til-  
bury's decrease of population.

## CANADA MUST NATIONALIZE

Continued From Page 1.  
I believe the people of Canada would  
endorse a proposition to secure the G.T.P.  
and the G.T.P., together with the I.C.R.  
make them a great national system.  
The G.T.P. and I.C.R. are not greater  
than on the Grand Trunk from Parry  
Sound to Montreal. As to the  
difference between the G.T.P. and I.C.R.  
grain in winter if need be at a loss in  
order to give the advantage to the  
Canadian ports he pointed out that the  
difference to the railways.

A Serious Problem.  
Srd Wilfrid Laurier, answering Mr.  
Borden's objections, said the collapse  
of the Quebec bridge undoubtedly was  
a serious interference with the practi-  
cable of the contract, but he took issue with  
Mr. Borden that this was the opportunity  
to moderate the contract, and also to  
the statement of Mr. Borden that his  
loan was a modification of the contract.  
It was simply an advance which was to  
be repaid and it was on all fours with  
the advance to the G.T.P. in 1884. The  
one thing that he pointed out was that  
concerned with was to have the prac-  
cable section completed. It did not  
mean that this was the occasion to get  
better terms and conditions, but of the  
dire necessity of the company.

Mr. Borden combated the premier's  
view that there was no modification of  
the contract. If that was not a favor-  
able opportunity to secure the traffic  
for Canadian ports when would the  
favorable opportunity come?  
W. F. Maclean urged the speedy  
completion of the Quebec bridge. Two  
important bridges of magnitude, 70  
miles of Quebec, had just been com-  
pleted in two years.  
Mr. Graham said if it were possible  
to erect the bridge in two years it  
would be put up in that time.  
G. H. Perley argued that, as addi-  
tional security for the loan, common  
stock of the G.T.P. should be taken by  
the government. The same stock of the  
Government would be in a better  
position to enforce its claim than the  
private company. If that was not a favor-  
able opportunity to secure the traffic  
for Canadian ports when would the  
favorable opportunity come?

Mineral Water.  
The late appointment which His Ma-

Purveyors of Mineral Water.

This well deserved recognition has  
undoubtedly very largely increased the  
popularity of Canada's famous mineral  
water in England among fashionable  
people, and shipments are increasing  
rapidly.

country, which he made out of the  
loan.  
Mr. Fielding replied that he would  
feel more comfortable than the Con-  
servatives felt when they made a loan  
on a loan to the C.P.R.  
R. L. Borden commented on the fact  
that some of the rolling stock of the  
G.T.P. had been in use on the old  
Grand Trunk for two or three years.  
Inter Province Competition.  
Inasmuch, replied Mr. Fielding, as  
no part of the government guarantee  
or obligation covers the equipment, it  
was no concern of the government.  
"Where was the equipment obtained?"  
asked Mr. Borden.  
"Some of it in Nova Scotia," said the  
finance minister.  
"Not in Ontario?" interjected W. F.  
Maclean.  
"That must have been because some-  
one in Nova Scotia was willing to  
build it more cheaply," returned the  
minister.

Mr. Blair called on the finance min-  
ister to produce the estimate upon  
which Blair, when minister of  
railways, based his opinion that the  
G.T.P. would cost the people of Can-  
ada \$10,000,000.  
Mr. Fielding did not know if there  
was an official estimate, but Mr. Lan-  
caster contended that Mr. Blair must  
have had that estimate.

Underwood

## For years the Amer- ican Typewriter Trust, makers of old-style machines, decried visible writ- ing, called it a fad; said that they would never adopt it; that it was a disadvantage; that the machine was not durable, in short, ad- vanced every argument to show that it was not a success.

They struggled along trying to  
foist their antique writing  
devices upon the public in  
opposition to the public's own  
better judgment, while secretly  
they were striving to  
produce a visible writer.

When finally they tried to meet  
visible writing competition with  
visible writing, because the public  
would no longer buy their anti-  
quated machines, they found that  
they were many years behind.

The Underwood has seen 14 years of  
development. The Trust acknowledges  
its leadership by placing on the market  
machines patterned as closely after  
the Underwood as the patent laws allow,  
and which make their appeal to the  
public solely on the ground of visible  
writing.

### TO CONSULT MERCHANTS BEFORE REMOVING SIGNS

Works Committee Argue that Business Men Deserve Consideration—City Hall News.

The civic works committee decided to listen to the arguments of the retail merchants before recommending the passing of a bylaw to abolish all existing overhead wooden signs, and to replace them with illuminated ones. Acting Mayor Ward proposed that a sub-committee be appointed to receive the representations of the retailers. He said there were 2500 of them, and that they contributed 40 per cent. of the city's taxes. Ald. Maguire and Welch upheld the argument.

### Loss of Appetite

No Ambition, Lack of Energy, Dyspeptic, Languid

Under the Beneficent Action of Ferruzone Cure is Quick and Certain.

How common these conditions are! They are the outcome of the fast life of our day, proving that waste is immensely greater than the power of our body to rebuild. In order to cure, first reconstruct the blood—change white cells to red ones, fill the blood with nourishment—do this, and the result will be in your case just as it was with J. E. Vanhorne, a prominent citizen of South Alexandria.

Improved in Four Days. The change brought about by Ferruzone was marvelous. In four days I felt stronger and had better appetite. I enjoyed my meals and felt no more nausea. My digestion improved steadily and my general health continued better than ever. Ferruzone made a new man of me, and I know of no tonic half so good.

Ferruzone Cures Indigestion. When you take Ferruzone everything you eat tastes good—all your food is converted into nourishment that supplies vigor and strength to blood, nerves, muscles and heart. Can't you see just why Ferruzone cures? Not a case of weak stomach, heart palpitation, indigestion, gas belching, head-ache or languor that Ferruzone won't cure. It agrees with men, women, children—old and young; harmless and pleasant. Sold everywhere, 50c. per box or six boxes for \$2.50, at all dealers. Try Ferruzone—do so today.

causing no little agitation among the residents. It was agreed that Mr. Rust should send out two petitions, one for sheet asphalt, and the other for block asphalt, the one securing the more signatures to be acted upon.

United West Toronto. Property Commissioner Harris, Fire Chief Thompson and Deputy Chief of Police Stark visited West Toronto yesterday morning to inspect the public buildings which to-day become the property of the city. The city hall will continue to be used as a police headquarters and the police court sessions and the sessions of the eighth division court will be held in the council chamber.

Chief Thompson will recommend the addition of a number of firemen at the two fire stations, and also the installation of up-to-date equipment.

The board of control will visit the new ward this morning to consider what steps should be taken first.

Railway Act Amendment. Acting Mayor Ward is going to Ottawa next week, in connection with several civic matters, will, at the suggestion of Ald. Church, see Hon. G. F. Graham, minister of railways, and request him to bring in an amendment to section 541 of the Railway Act so as to make it clear that the railways have to power whatever use discrimination with regard to freight and passenger rates.

The board approved the sale of a 60 foot lot on the southwest corner of Danforth-avenue and Logan-avenue at \$25 a foot, the assessment being \$10 a foot.

James T. Jackson, city treasurer for West Toronto, was appointed tax collector for the new seventh ward. His present salary of \$1200 will be continued for the present.

The Ward Arbitration. The result of the arbitration to fix the rental payable by the city by William Ward for 2-1-4 acres on Ward's Island occupied by him was announced yesterday. The award must pay \$28 a year for 21 years.

The board was compelled to hire a hack to visit the Geo. H. Hess factory on Davenport-road, although there are five autos belonging to the works department.

The executive of the citizens' committee on the beautification of Toronto will invite the owners of property on Yonge-street between King-street and Wilton-avenue to meet the committee at the city hall next Thursday night to discuss the question of widening Yonge-street.

The permit for the new transportation building at the exhibition grounds to cost \$2,000 was issued yesterday.

ulation in Canada is a counterfeit of gold and secures a transfer of property from one citizen to another, and from our mercantile community, to the bank of issue.

Fact No. 3: At the points at which bank notes enter the channels of circulation in Canada they (always) secure a transfer to some chartered bank of property equivalent in monetary value to the face amounts of the volume of bills issued.

Fact No. 4: An expanding volume of commerce always has meant an expanding volume of bank notes issued in exchange for an expanding volume of property assigned to the bank of issue.

True, indeed, it is that "at the base of social communication lies the principle of exchange," and it is equally true that Canadian manufacturers, farmers and retail merchants associations are not making themselves illustrious by the brilliance of their policy and general attitude to the discount rate, by which route several millions of dollars are secured annually by our chartered banks "for nothing"—at whose expense Henry B. Ashplant, London, Ont., April 29, 1909.

Sales of Sheepskins. LONDON, April 30.—A sale of Cape of Good Hope and Natal sheepskins was held here to-day. The offerings numbered 236,728, of which 172,671 were sold. The selection included large quantities of heavy conditioned skins which sold at unchanged prices. Clean, long woolled and coarse woolled were in strong demand by 1-2d to 2-2d advance. Shorn skins were withdrawn.

Using Fences for Fuel. WINNIPEG, April 30.—The paralysis of industry caused by the coal strike is spreading. Fences are being used for fuel at Swift Current and Gull Lake, and Regina and Moose Jaw are complaining of scarcity. Citizens of Calgary have telegraphed Hon. Frank Oliver, drawing his attention to the holding up of industries by the strike.

Was Troubled With Weak Back For Years. Could Not Perform Household Duties. Doctors Attended Without Avail.

Mrs. Arch. Schnare, Black Point, N.B., writes: "For years I was troubled with weak back. Oftentimes I have lain in bed for days, being scarcely able to turn myself, and I have also been a great sufferer while trying to perform my household duties. I had doctors attending me without avail and tried liniments and plasters, but nothing seemed to do me any good. I was about to give up in despair when my husband induced me to try Doan's Kidney Pills, and after using two boxes I am now well and able to do my work. I am positive Doan's Kidney Pills are all that you claim for them, and I would advise all kidney sufferers to give them a fair trial."

Doan's Kidney Pills are a purely vegetable medicine, realizing quick, permanent relief, without any after ill effects. A medicine that will absolutely cure Backache and all forms of Kidney and Bladder Diseases.

A medicine that strengthens the kidneys so that they are enabled to extract the poisonous uric acid from the blood and prevent the chief cause of Rheumatism.

### BLACKMAILERS ARRESTED

Demanding \$6000 on Threat of Killing Young Speechless.

SAN FRANCISCO, April 30.—An attempt to extort under pain of death the sum of \$6000 from Rudolph Spreckels, son of the late millionaire sugar king, Claus Spreckels, was frustrated by the police last night, and in consequence two men are in jail to-day charged with blackmail.

The police instructed the Spreckels' butler to hand a package containing newspapers to any one who should call. At the appointed time a man called and received the package, whereupon he was arrested.

### EIGHT VICTIMS OF INCENDIARY

"Black Hand" Set Fire to a New York Tenement House.

NEW YORK, April 30.—Eight persons, five of them children, were burned to death and fourteen others were injured, some of them fatally, in an incendiary fire in a five-story tenement house at 37 Spring-street, occupied by twenty Italian families, to-day. The blaze followed a demand by members of a so-called Black Hand society for the payment of \$1000 blackmail.

### STEAL BOY FROM MOTHER

Husband's Method of Dealing With Runaway Wife.

SANTA BARBARA, Cal., April 30.—Detectives employed by J. Shaw, president of the Interborough Railroad Company of Boston, and a member of the Massachusetts senate, to-day entered the house occupied by Mrs. Shaw and her two children, and seized possession of the 10-year-old son of the Shaw's. The boy was taken to the police station and is being held there. The raid was directed early this morning by Lewis Field, the Shaw family officer.

According to the story as learned here, Mrs. Shaw deserted her husband in Brooklyn in June, 1907, and came to California, in the company of Marble, bringing her 10-year-old son with her.

### EVERY DAY BRINGS A FRESH PROOF

That Dodd's Kidney Pills Are a Boon to Suffering Women

Mrs. Rousseau Tells How They Cured Her After Three Years of Almost Senseless Pain.

HINTONBURG, Ont., April 30.—(Special).—Every day furnishes fresh proof that the women of Canada can be cured of ailments which have hitherto seemed to be a part of the inheritance of the sex by the use of Dodd's Kidney Pills. And this place has a living proof in the person of Mrs. William Rousseau of 37 Merton-street.

"For over three years," Mrs. Rousseau states, "I was very ill. My troubles were painful. I suffered very much with my back. My head ached almost continuously, and I scarcely knew what it was to be free from pain. I was very weak and run down. Occasionally my hands would swell up, and this, too, gave me a great deal of annoyance and discomfort. It was only when I used Dodd's Kidney Pills and very soon commenced to improve. Three boxes cured me completely."

Nine-tenths of suffering women's troubles start from diseased kidneys. The natural way to cure them is to take away the cause, that is, to cure the kidneys. Dodd's Kidney Pills always cure diseased kidneys.

### TAXICABS HAVE BUSY TIME IN THE CITY OF TORONTO

Patrons Should Place Orders in Advance if Possible, to Avoid Disappointment.

The management of Berna Motors and Taxicabs, Limited, appreciate to the fullest extent the response of the Toronto public in adopting the modern motor cab service supplied by the taxicab. The number of calls received daily have been very great, and so far as possible these have been attended to promptly.

More taxicabs for Toronto are now on the Atlantic and the company will in a few weeks be able to fully meet the most exacting demands on the service. In the meantime, if patrons could anticipate engagements by telephoning reservations a day or two ahead, they will avoid possible disappointment, which is the last thing that the management desires.

The taxicab is a great twentieth century institution, contributing to its business facilities and diversions. That Toronto has taken it up so quickly is not surprising in a city where the standard of tastes is not surpassed by any city on the continent.

### NATIONAL DEFENCE

A public address on "National Defence and Physical and Military Instruction in the Schools" will be given in the Normal School Lecture Hall, St. James' Square, by Frank Fox, member of executive committee, Australian National Defence League, on Wednesday, at 8 p.m. The lieutenant-governor has consented to preside. The committee are: Canon E. A. Welch, E. H. Keating, C.E., James L. Hughes, Prof. W. Lash Miller, Dr. J. T. Fotheringham, Walter J. Brown and Wm. Hamilton Merritt.

### Cemetery Plot For T.M.A.

The Theatrical Mechanical Association (Toronto branch) at a recent meeting decided to purchase a large plot in Mount Pleasant Cemetery in which their own members or any friendless actors who die here may be interred.

### REORGANIZING BELLEVILLE FIRE DEPARTMENT

BELLEVILLE, April 30.—The fire committee has adopted a report for the reorganization of the department. The plan will dispense with the services of an assistant chief and five of the oldest members of the brigade. It is claimed the efficiency of the brigade will not be impaired, and enough will be saved to pay for a new hook and ladder wagon in four years.

### HOWE'S TRAVEL FESTIVAL

Unusual Spectacular Entertainment at the Royal Alexandra.

Lyman H. Howe, his company of imitators, two hundred mechanical apparatuses and moving pictures of every land under the sun, will be at the Royal Alexandra, beginning Monday afternoon, to present the Traveler's N.Y. Hippodrome Festival. There will be two performances daily. All the realism of the big Hippodrome will be revealed in the production of effects that accompany the scenes.

For the first week the audience will be taken to Egypt and visit Cairo, the Sphinx and the Pyramids of Giza; witness the aeroplane flights of Wilbur Wright at Le Mans, France; take a boatride thru the beautiful gorges of Fern, look out from the coast of Corsica, and witness the review of the Cossack troops, go over the scene of disaster in Sicily before and after the earthquake; watch the daring feats of Italian horsemen, see beautiful waterfalls in South America and ride on the runaway train thru the Tyrolean Alps.

The runaway train picture will be kept on each week, the other subjects being changed each Monday. When the Howe exhibitions were at the Hippodrome the production of the runaway train plunging down the steep grades at terrific speed proved to be one of the most thrilling things ever presented on the Hippodrome stage. It is an authentic reproduction of the experience of one of the Howe photographers, who found himself on the state express when it had broken from the control of the engineer. He plucked his camera in motion until the train was finally stopped and the most startling picture.

Summer prices will prevail during the engagement.

### LAWYER'S TRAGIC DEATH

HARRISTON, April 30.—A Hamilton, a lawyer, who at one time practiced in Palmerston, and later held a government position in the west, came home to sell out for his health, while visiting in the Township of Howick, some four miles out of Harriston, he suddenly left the house Wednesday evening presumably for a walk. His body was found next day in the river.

### ALIGHT IN BLINDING HALLOWS

BERLIN, April 30.—A captive balloon belonging to the army balloon corps was broken from its moorings this morning. In midair it caught fire from atmospheric electricity, and came down half burned. Lieut. Gruber put up a desperate fight with the flames in midair to save his life.

### G.T.R. Pensions Two Employees

BELLEVILLE, April 30.—Daniel and George Pringle of this city, two brothers, the former of whom has worked for the G.T.R. since 1860, and the latter since 1882 have been notified that commencing on May 1, they will be placed on the G.T.R. pension list.

### Have not coughed once all day?

Yet you may cough tomorrow! Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. Your doctor's approval of its use will certainly set all doubt at rest. Do as he says.

Day's Doings in YORK COUNTY

WEST TORONTO COMES OFFICIALLY INTO CITY

Big Gathering of Citizens Attend Closing Banquet—County and Suburbs.

WEST TORONTO, April 30.—There was little of sadness in the passing away of the new City of Toronto, and its formal merging into the larger sphere.

It was a happy thought which prompted the educational interests of the city, represented by the trustees of the collegiate and public schools.

At the hour of midnight amid the cheering of the citizens, the ringing of the city bells and every manifestation of pleasure, the union was finally consummated.

The Founders of the Village, proposed by A. B. Rice, was replied to by Dr. J. T. Gilmour in eloquent words.

Trustee C. M. Hall was in the chair, and the toast of "The King," proposed by Chairman Trustee Dods of the public school board was duly honored.

The names of ex-Mayor Peter Laughton, J. B. Kirkwood, George Synn, Edward Williams, Enoch Ward, Dr. Bull, Mr. Fisher and S. J. Leigh were coupled with the toast.

THORNTON HAINS STOPS AT POINT OF SHOOTING

Counsel For the Defence Asks No Questions—District Attorney's Startling Query.

FLUSHING, N.Y., April 30.—Incidents of the day, August 15, 1908, leading up to the shooting of Wm. E. Annis at the Bayview Yacht Club by Captain Peter C. Hains, Jr., U.S.A., were graphically reviewed to-day on the witness stand by Thornton Hains.

John McIntyre, chief counsel for the defence, plotted the witness at a minute description of movements on the fatal day, but suddenly broke off without asking Mr. McIntyre a single question in regard to the shooting.

There was a dramatic scene in court when the district attorney at the very beginning of his cross-examination, advanced toward the witness an altar.

On June 1, 1901, did you shoot and kill one Edward Hannigan? The lawyers for the defence were on their feet at once.

The Kingston School of Mining has had its board of governors enlarged by four members.

DEADLY CONSUMPTION Starts From Catarrh Thousands Think Catarrh is Cold. Neglect It and Die.

Last year forty per cent. of all deaths were from consumption. These people all had catarrh in the first place, but neglected it.

Can't you realize the awful, horrible, misleadings of the catarrh now? To thoroughly root out all taints of Catarrh, nothing can act so beneficially as "Catarrhine," which is acknowledged by all doctors to be a specific for all forms of Catarrh.

Darting Pains Around Shoulders and Spine

Brocton Merchant in Hospital for Weeks Cured of Rheumatic Pains by "NERVILINE"

"It would be impossible for me to tell how much I suffered with a sort of travelling rheumatism. It wasn't confined to any particular spot, but wandered over all that area from the neck to the small of the back.

"I fortunately read of the strange powerful effect of Nerviline, and I bought a bottle. I rubbed it on the seat of the pain and I could feel it sinking deep into the muscles and sinews that were stiffened and sore.

"No other liniment could have cured me by 'Nerviline,' and I strongly urge its use for Rheumatism, Neuralgia, Sciatica, Lumbago, strains, sprains, swellings and all other muscular affections.

"I am not aware of there ever having been a successful prosecution under this section, and I fear that if these words were allowed to stand, there never will be one.

"Then I have added as sub-clause (6) of the first part of this section (which is in effect an adaptation of similar provisions which I find in the South Australian Gaming Suppression Act of 1907 (see sec. 7, 11 and 24)).

"I think the circle of inhibition necessary to put an end to the business of the professional bookmaker and pool-seller is thus concentrated on our Canadian race tracks, a large number of them swindlers, criminals or moral lepers."

TELEGRAPH BRIEFS H. W. Richardson is the new president of the Kingston Board of Trade.

John Wyzman, a Swede miner, was killed by dynamite at Gold River, Ont. Six persons had their ankles broken in the fall of an elevator in the Washburn's store, New York.

A memorandum of additional information regarding race track betting, vouched for by Rev. J. G. Shearer, reads: "I have taken the trouble to ascertain what the law of the various American states is in regard to race-track betting, and while I need not trouble you with any details, you will be glad to know that in the following states race-track betting is unlawful: New York, Massachusetts, Vermont, Maine, Delaware, W. Virginia, E. Carolina, New Jersey, Pennsylvania, Ohio, Michigan, Illinois, Minnesota, Missouri, Iowa, Kansas, Colorado, New Mexico, and several others, but for the above I have the laws in my possession, and therefore can vouch.

"It will not surprise anyone to be informed that the action of the great majority of American states in putting professional race-track betting under the ban of the law, makes it more important that Canada should be protected against this particular form of the vice of gambling, because the same of the American sporting world is thus concentrated on our Canadian race tracks, a large number of them swindlers, criminals or moral lepers."

COBALT--More Public Interest in Cobalts Than for Some Time--COBALT GO

MINING MARKETS ARE ACTIVE PETERSON LAKE THE FEATURE

Brokers Report Increased Public Interest--Tone of the Market Better Than for Some Time. World Office, Friday Evening, April 30. Brokers report an increase in outside buying orders to-day. The market was active and showed more strength than yesterday.

MARKET FULL OF INCIDENT Bull Position Only One to Adhere to For Large Returns.

Heron & Co. in their weekly letter say: The Cobalt market during the week was again a very two-sided one, especially marked in one or two directions. The manipulation in Beaver, which we referred to in our last letter, was continued, but failed to attract the slightest outside following.

BIG STRIKE MADE Temiskaming Drifts Into Thirty Inches of High Grade Ore.

The following despatch was received over Wallace & Gresham's Cobalt wire yesterday: Temiskaming ran into 30 inches of high grade ore in one of the veins which up to that time did not show any values.

INTEREST TO MINING MEN. A point of considerable interest to mining men was raised the other day before the King's Bench Divisional Court at Toronto in the appeals by Jack Munroe.

Mr. Shepley, K.C., counsel for Downey, who we understand, has raised a similar objection to the validity of a decision of the Ontario Railway Commissioners, urged that the matter should be argued out. The majority of the court hearing the mining case were of the opinion, however, that as this matter might have to be decided ultimately by the privy council, Munroe should be allowed to raise the point independently of the Mines Act by separate proceedings.

## BOND MARKET STEADY PRICES WELL MAINTAINED

Maintenance of Present Level of Prices Expected—Local Opinions Differ.

The opinions of local bond dealers, as to the state of the municipal bond markets in the near future, are somewhat at variance. While some think that the high level has now been struck, and that a setback is at hand, others are equally certain that a 4 per cent. basis or better will soon be reached, as was the case in 1906 and 1907.

The continued cheapness of money and the difficulty of employing it, is certainly a factor for a further rise, but on the other hand the nearness of some large issues, such as Vancouver, Calgary and Saskatchewan, should have a steadying effect on the market. Of course these issues in all probability will be floated in London and thus affect the local market but little.

A maintenance of the present level of prices would seem more in the natural course of events, and whether the proposed increase of 1 per cent. on London Stock Exchange bond dealings, as reported in the chancellor of the exchequer's budget speech, eventuates remains to be seen.

The following purchases are reported by local houses during the past week: W. C. Brent was awarded \$150,000 Calgary Protestant public school 4 1-2 per cent. 20 instalment debentures. The same firm also purchased \$41,400 Township of Osnabrock 5 per cent. 20 year debentures.

The Dominion Securities Corporation, Limited, purchased the following City of Moosejaw (Sask.), debentures: \$47,000 40-year 4 1-2 per cent., exhibition grounds, etc.; \$42,000 20-year 4 1-2 per cent., Collegiate issue; \$19,000, 10-year 4 1-2 per cent., concrete walks; \$1500 6-year 4 1-2 per cent., plank walks; \$25,500 40-year 4 1-2 per cent., sewerage.

Hay & James have bought \$50,000 5 per cent. 20 instalment Town of Estevan, Sask., debentures, due at the end of 20 and 30 years.

Messrs. G. A. Stimson & Co. purchased \$40,000 Brandon City 4 1-2 per cent. debentures, maturing in 1929. Brandon has a population of 11,275. The same firm purchased also \$500 Herchmer, Sask., school district 6 per cent. debentures, due in five instalments.

Messrs. W. A. Mackenzie & Company have purchased \$45,000 Town of St. Pierre, Quebec, debentures, maturing in 1949, bearing 5 per cent. interest, payable semi-annually. The town is a suburb of Montreal.

## PRAGMATICAL JOKES IN NORTH DURING BREAK-UP TIME

Excitement a Plenty, While Men Hang on For the Rush.

Excitement a plenty, while men hang on for the rush. The Gowganda, April 30.—(From the Man on the Trail.)—When a big mining camp settles down to be a lot of rough and ready play.

But the amusement has to be: we are submissively shut in and a lot of our friends are shut out. We haven't had a newspaper for two weeks.

The only word we get from Toronto and the big cities is that so and so got so many thousands for a property, that such and such a deal has been put thru, and our neighbor in the next bunk with his trousers out at the knees has no more of the clanking coin to buy automobiles.

But he doesn't. He gets a new pair of blind pig overalls, and buys out a frolic—and such a frolic as it is. I've seen men spend money in several quarters of the globe, but when a ragged individual saunters thru a town of shacks and tents and lets go of \$100 in one day—thief it's time to study the why of it all.

I mean the use of plugging hard for it. It doesn't appear to be such a covetous quantity after all. That \$1000 stunt is not a big venture in cards and liquid as ventures go up here. It was once, I know a Swede who lost \$2000 in one night and cheerfully borrowed an ox the following day and went to work.

Nothing to do. There are at present some 1000 and more prospectors, and hangers-on by the hundreds around this camp. All are waiting until they can launch a canoe, but in the meantime they get restless and a restless soul has a big wide expanse to stretch around in this country.

We understand the appointed magistrates on his claims on the other side of Obiskong Lake and the policeman-to-be is away at the front. We need both of them.

Last night a man knocked silly in the main street. He was found about 12.30 with a badly bruised face and some ugly cuts about the head. Who did it? Nobody knows, tho a lot of people heard the scrap.

## OSGOODE HALL VACANCY FOR CARNEGIE, M.L.A.

Representative of Victoria Has Been Appointed as Collector of Law Stamps.

John H. Carnegie, M.L.A. for East Victoria, has been appointed collector of law stamps at Osgoode Hall. The office was rendered vacant by the recent death of Dr. James Macdonald. His appointment was signed yesterday by the Lieutenant-governor and took immediate effect.

Mr. Carnegie's father, at one time an old and highly respected member of the legislature, had resigned his seat previous to his appointment, and a new election for East Victoria would take place immediately. The nomination would be on Tuesday, May 18, and the election May 25.

Mr. Carnegie was congratulated at his appointment by a number of his friends yesterday afternoon on his appointment. The new stamp distributor lived until recently at Coborn's. He was a practical farmer, but some months ago removed to Toronto. He entered the legislature in 1894, securing a majority of about 200 votes. This was increased to 100, and his last election was by acclamation. Since his first nomination, he has been the member of the legislature for the party nominating convention.

Mr. Carnegie was chairman of the public accounts committee, and was a trustee of the Ontario Agricultural College. He was also a member of the legislature.

His predecessor, the late Dr. Macdonald, was also a member of the legislature.

## CHINAMAN FEARS FOR LIFE

And Asks For the Arrest of Private Detective.

HALIFAX, N.S., April 30.—(Special.)—Lee Chu, the Chinese, who so cleverly escaped the meshes of the law in Montreal, and made his way to Halifax after giving the authorities at different stages on route the slip, is having more trouble.

Chu has been in Halifax since Friday last, and was endeavoring to take things easy, feeling that he was quite safe from the writs and other processes issued at the instance of the Montreal Pharmaceutical Society.

The Canadian Detective Bureau, who have been following Chu for nearly year, have been busy, and have kept an efficient surveillance since his arrival. Chu says that he has dogged his very footsteps and that he fears that the officers of this detective bureau are preparing to abduct him, and carry him out of the province back to the Province of Quebec. He claims that they have made enquiries at hotels and different places as to whether he goes out alone, etc.

Chu instructed his solicitor, this morning, to prepare for the arrest of H. M. McCorkill, superintendent of the Canadian Agency, and Max Seger, an operative. Chu wants them arrested, and he asks for a warrant. Stipendiary Fielding granted the warrants. Chu also applied for a license to carry a loaded revolver, as he fears assault and abduction, and asks to be permitted under section 105 of the code.

Y. bridge to lock 18 to-morrow. This wall is 27 feet in height and 47 ft. long. The stone, which held down the crib of the coffer dam, built around the break last summer, has been thrown up on the north bank of the canal, and the crib work has been sawn into sections which will be floated down the canal to the foot, where the cribs will be removed, and the masonry piled up at the government sheds.

SMALL CAPITALIZATION. NO CHARGE FOR BROKERAGE. This company does not propose to dissipate its resources on paying commissions for the sale of its stock. It has made the capital stock on its large acreage only \$500,000 in shares of par value \$1 each. The speculative opportunity is therefore not discounted by heavy capitalization. If the mines return all that is confidently expected of them the investment will produce large profits.

As the stock is not subject to commission charges it can be secured only at the office of the company. Send for prospectus, maps and booklet. It is free.

### WIFE OF THE BANKRUPT OFFERS TO GIVE UP HOME

Mrs. Ennis Willing to Surrender All the Property That Had Been Placed in Her Name.

Mrs. Thomas A. Ennis, wife of the senior member of the bankrupt stock and grain brokers, Ennis & Stoppani, was questioned by Lindsay Russell, receiver for the collapsed firm, as to the whereabouts of assets, says The N. Y. American.

She declared she knew nothing of any money or property belonging to the bankrupts, but was willing, if the creditors would accept a compromise and not prosecute her husband, to surrender her magnificent home in Park Place, Brooklyn, all the costly furniture and works of art therein, carriages and every cent she possessed in the world.

"The house and the furniture are in my name," she said. "They were given to me, with the horses, some years ago by my husband. He has not given me anything for more than two years. I will willingly give up everything, however, if the creditors will accept a settlement."

Mrs. Stoppani, wife of the junior member of the firm, has not yet been before the receiver. In respect to the McCarren settlement, it leaked out that the Senator and the youthful receiver had played a game of bluff, in which the receiver had won by the narrowest of margins in the last five minutes of the game.

The Senator's original offer to settle was largely a "feet out," to use his vernacular. He did not believe the cards he had placed with Ennis & Stoppani had been executed. If the receiver did not have the stocks, then no settlement need be made.

"Of course you will deliver the stocks," he asked. "Most assuredly," replied the receiver. "The slightest idea how he could do it. He had no money to buy them, and if he had he would not have dared to have done so for fear McCarren at the last moment might have raised some quibble and refused to take them. On the other hand, if McCarren or his brokers got wind of the situation they might try to put up the price in the market. As for the mortgage to borrow 'them' from a friend."

Then he was in this position: If McCarren settled, he would have to deliver the borrowed stocks and buy others to replace them, in the market before McCarren's brokers learned of it. The cheque which the Senator drew in settlement of the \$450,000 account of the receiver until 11:20 a.m. on Saturday. The exchange closed at noon. He could do nothing until the draft had been certified. A boy sent to the Bank of Commerce did not understand the work and returned at 11:40 a.m. without any certification. Another boy was dispatched. He got back about 11:55 a.m. The cheque was then turned over to the receiver, who rushed to the phone, and the broker who had been waiting for more than an hour at the other end managed to execute the order for the five thousand shares one second before the bell rang.

**Poor Little Girl.**  
Daisy Duval, aged 11, under the guardianship of the Marchmont Home in Belleville, being taken from Milton to Toronto, was a forlorn little girl in the Union Station yesterday. She was brought out from the old country a year ago and had been placed with a family at Milton, but the authorities thought it would be wiser to have her under better home influences. She was sorry to go, tho.

Apple trees need room to develop, which it would be needless to allow forest trees. In fact the system of planting for fruit is just the reverse of that adopted when timber is the object. To grow timber it is desirable to force an upright growth. Close planting makes a tall, straight, self-trimmed tree, because the lower limbs, being shaded, die and drop off. But for fruit a spreading top is needed, with plenty of air and sunshine. The most successful practice puts the trees about 33 feet apart each way.

At the Cornell experiment station the strongest, most vigorous hens that could be selected were put in one pen and the weakest, least vigorous in another. These two pens were fed in exactly the same way, and the eggs from them used for hatching. When the chicks were of market age those from the pen of strong, vigorous hens were worth twenty-five cents more apiece than those from the poorer lot of hens. This emphasizes the fact that one cannot be too careful in selecting the breeding stock.

14 Housefurnishing Departments in One

Window Shades, Awnings, Sun Screens, etc.

SHADES, Awnings, Bamboo Screens, curtain poles and all this class of window fixings have a commodious well lighted section on the north wall of the new store.

Shades have to look well from outside as well as inside, and a house poorly hung with blinds will never look well. Decide on your color and come here where you have two score and more tones to choose from in every width.

As to the different variations in trimming, we cannot begin to give you an adequate idea here in this paper. Just for example:—

Cream Holland Blinds are trimmed with Arab motifs, insertion and lace, or applique effects.

White Holland Shades with Battenberg or Chiny motifs and insertions and lace.

White or cream or off-cream cloth with applique in the new toned effect or Arab trimmings.

Green opaque or duplex, differently colored inside and out, trimmed in all the various styles.

ORDER AWNINGS EARLY. Our Awnings are made of the best American duck, in blue, red, green or brown, equal or broken stripes, and hung with best cotton cord, and malleable iron fixtures.

Bamboo Shades make a summer room of your verandah. Made of natural bamboo splits, either stained or plain. They let the air in, but keep out the heat.

When you are ready for new shades, awnings, screens, or to replace any of the details in connection with those you may already have, think of our new department on the 4th floor of the new store.
