For the Christmas Gifts You Make Yourself

The Drapery Department Abounds With Gift Materials

Gay Chintzes, Dignified Tapestries and Soft Velours in Rich Colorings and Charming Designs Lend Themselves to the Fashioning of Bags, Cushions and Table Runners. In the Same Department May Be Had Silk For Lamp Shades, and Lovely Lace Medallions for Panels and Scarfs.

ARE YOU MAKING your Christmas gifts this year—giving the personal touch to your offering, and at the same time spelling economy in large letters? After all, it is an ever-fascinating task, is it not, the fashioning of dainty yet practical presents, whether they be for the beautifying of one's home or for personal use!

There is a wealth of materials in the Drapery Department. Here may be had handsome tapestries for table runners, exquisite bits of filet or Cluny laces for panels or dresser scarfs, and gorgeous chintzes for the ubiquitous knitting-bag. Thus:

Beautiful tapestries in floral, conventional or trellis designs may be had in serviceable shades, among them being blues, green, bronzes and metallic effects. 50 inches wide. Per yard, \$2.50 to \$5.00.

Apsley cloth in metallic finish makes a charming sofa cushion, and is procurable in grey, green, gold, bronze and blue. 50 inches wide. Per yard, \$3.75.

Rich velours, 50 inches in width, is shown in mulberry, taupe, rose, mahogany, blue and green. Also 50 inches wide. Per yard, \$1.35 to \$2.75.

In striped and floral design, decidedly Japanese in type, are lovely chintzes with Japanese lanterns in overprint border pattern. The color scheme is grey, blue, with a tinge of rose. 32 inches wide. Per yard, \$1.25.

Another effective bag chintz is 36 inches wide and has a black background, sprinkled with birds and flowers in artistic array. Per yard, \$1.50.

A reversible shadow cloth is particularly alluring, with its soft grey ground and rose pattern. 32 inches wide. Per yard, \$1.00.

Very effective are hand-blocked Cumberland prints, designed with a happy blending of midnight blue, rose, dull purple and green. 32 inches wide. Per yard, \$1.50.

Such attractive lamp shades may be made from fancy Cheney silk, designed in floral and conventional effects. Colors rose, amber, tan, brown, blue, etc. 32 inches wide. Per yard, \$1.50.

In the same width and colorings may be had plain Cheney silks. Per yard, \$1.25. 27-inch Jap silk, in rose, blue, tan and amber. Per yard, 65c.

Silk fringes in red, tan, green, brown, blue and rose. 2 to 4 inches wide. Per yard, 50c to \$1.25.

Metallio gulimps in heavy and lacy designs, 1/4 to 2 inches wide. Per yard, 18c to \$1.00. —Fourth Floor, Yonge and Albert Sts.

Filet, Cluny and Bruges lace medallions, measuring from 3 to 8 inches. Each, 20c to \$1.25.

Cluny insertion to match medallions. 2 inches wide. Per yard, 20c to 50c.

If You Are Thinking of Embroidering Towels or Bed Linens

Such Attractive Designs May Be Had in Huckaback Towelling in Both Guest-room and Large-size Widths. Linen Sheeting and Pillow Cases Likewise Suggest Interesting Possibilities in the Way of Gifts.

THE PRACTICAL GIFT is the one which is most valued, and linens are essentially useful. Whether it be a pair of initialled guest towels or a pair of handsomely embroidered sheets, rest assured that your present will be deeply appreciated.

The towelling may be had in plain or fancy weaves, and the sheets and pillow cases are procurable either already hemstitched or by the yard. To describe them:

Guest towelling of linen huckaback, patterned in leaf and scroll designs, with border effects and plain centres, or allover conventional effects. 15 inches wide. Per yard, 50c.

In two charming conventional designs is guest towelling, 15 inches wide. Per yard, 60c.

Rose, tulip and chrysanthemum are the designs in 24-inch huckaback towelling. Priced, per yard, 60c.

Ribbons in Plain and Fancy Weaves

Lovely Qualities of Brocaded or Figured Taffetas and Failles, Together With Supple Duchess Satins. In a Veritable Rainbow of Exquisite Colors.

KNITTING BAGS, candle shades, camisoles, bedroom slippers and caps—what a bevy of useful and delightful gifts may be evolved from a few yards of ribbon!

The ribbons themselves are wondrously smart and finely colored, the combination of shades in several handsome weaves being most striking. In the assortment may be found those mentioned below:

"Jewels of Asia" is the picturesque name given a silk faille ribbon in rose, blue and black design. It is 8 inches wide. Per yard, \$2.50.

In a silk tapestry weave may be had a beautiful ribbon 10 inches wide patterned in floral and bird designs on rose, peacock blue, green and black grounds. Per yard, \$2.50.

An attractive taffeta ribbon in large floral designs, with narrow satin edges, is procurable in blues, rose and mauve. 8 inches wide. Per yard, \$1.50.

5/8-inch brocaded satin ribbon with large rose design on plain grounds of midnight blue, wistaria, purple, white and black. Per yard, \$1.00.

Duchess satin ribbons in sky, pink, rose, mauve, red, yellow, brown, purple, green, wine, white, and black. Widths, 1/4 to 1 inch. Per yard, 3c to 60c.

Black satin ribbon, Duchesse quality. 1/4 to 8 inches wide. Per yard, 8c to 60c.

Very dainty are Jacquard wash ribbons in shamrock, rosebud and dainty patterns. Obtainable in pink, blue, mauve, maize, and white. In widths 1/4 to 2 inches. Per yard, 4c to 20c. —Main Floor, Yonge St.

In the same width is a towelling with border design and conventional centre. Also in rose and shamrock patterns. Per yard, 65c.

Embroidery linen, 36 inches wide. Per yard, 55c to 95c.

In a similar quality are linens 40 and 45 inches wide. Per yard, 80c to \$1.15.

Sheeting linen, 72, 80 and 90 inches wide. Per yard, \$1.75 to \$2.55.

Hemstitched pillow cases of fine linen, 45 x 36 inches. Per pair, \$3.00 and \$3.50.

Hemstitched linen sheets, in two sizes, 72 x 99 and 80 x 99 inches. Per pair, \$12.50 and \$13.50.

All white bath towels, soft and spongy, with a place for initial. Size 24 x 48 inches. Per pair, \$1.50.

All white bath towels, woven with plain border ends, suitable for embroidering. Size 27 x 50 inches. Per pair, \$2.15. —Second Floor, James St.

Continuing on Tuesday the Grand Opening Display of

Fashionable Fur

Featuring Smart Neckpieces, Muffs and Coats For

Misses and Children

LA MODE has designed neckpieces of fox, in the modish new tints variously known as Georgette, Poret, Lucille, Yukon and Victoria, as well as the popular red, pointed, white and black fox. These are in flat animal effect, while the long-haired peltries, such as beaver, mole and Hudson seal (seal rat), are frequently fashioned in caprine style.

Particularly chic are coats of Hudson seal (seal rat), cut on slim lines, sometimes belted, oftener slightly flaring. Many have collars and cuffs of contrasting fur.

For Children

Fascinating little sets in white rabbit, squirrel, Thibet and white opossum, fashioned in designs similar to the neckpieces and muffs of grown-ups.

Try the New Cafeteria

WHEN you want to save time and money in the procuring of luncheon, tea or the refreshing bite and sup 'tween times, take advantage of the new cafeteria, with its system of "self-serving," wholesome food and low prices. It is located on the Fifth Floor.

The Overseas Depot

AT the top of the Albert Street stairway, on the Second Floor, you will find a most interesting array of all sorts of nice things to eat, warm things to wear, and those small necessities and appliances so very welcome in camp or trenches. Give your order and the Overseas Depot will see that it is carefully packed and properly despatched.

Free Instruction in Needlework and Shade Making

In a quiet corner of the Drapery Department—facing Albert street—is a secluded spot where you may receive instructions in the making of lamp shades and soft cushions. Lessons are given on every size shade, from the dainty candle covering to that of the larger floor lamp.

The materials for both cushions and shades are procurable in the Department, all the new designs and colorings being available.

The Fancy Goods Department devotes a small section to a class in knitting. Here you may learn the various stitches incident to the fashioning of infants' garments, carriage robes, bedroom slippers, hug-meights, etc.

Then, too, instructions are given in the making of soldiers' socks, caps, scarfs and sleeveless sweaters. The wool may be obtained in the Department.

For the Tailored Girl

Stacks of Pique and Gabardine, in Various Shapes and Sizes.

There is always the girl who is devoted to smart-tailored neckwear, but not for many a year has Fashion smiled upon it as she is doing this season. It is, of course, the fitting accompaniment for the plain-tailored suits, for which there is such a decided leaning in fashionable circles; but the chic New Yorker also sometimes wears it with her serge frocks. At the Neckwear counter are stocks of gabardine and fine and wide-wale pique and fancy vesting in various styles.

Some have little pointed turnover under the ear, some are plain, others are already folded and finished with straight jabot ends. Plain stocks are 50c and 75c, and three with tabs, each, \$1.00 and \$1.25.

The small stock collars of pique with which you may wear a ribbon or a Windsor tie are also worthy of note. Some of them have a little flare in front and long points under the ears; some have long points in front, and others have a turnover tab that is merely slashed in front. Price, 50c. —Main Floor, Centre.

Company (padina Ave.)

SIR JOSEPH GIVES EVIDENCE IN PROBE

Profits on Bacon Did Not Bother Conscience of Prominent Packer.

BUSINESS WAS GOOD

Investigation Continues into Alleged Excessive Profits of Packing Houses.

The outstanding feature of Saturday afternoon's session of the food storage commission investigating the excessive profits alleged to have been charged by the Wm. Davies Company and the Matthews-Blackwell Co. was an academic discussion as to the enormous profits alleged to have been made by the company during the three years ending September, 1917, resulting in Sir Joseph Flavell's confession that he had never and did not suffer any qualms of conscience over these profits. The counsel pointed out that the company had made profits of \$3,400,000 in two years, from the British war office, the market price of the company having been made out of the war. While disagreeing with Mr. Bain as to the exact sum of profits under discussion, Sir Joseph Flavell admitted that the company had made extraordinary profits, most of which had been made out of the war office contracts.

In 1922 \$2,500,000 was invested in the company and \$100,000 paid to the Davies family for the goodwill of the business. Sir Joseph Flavell was elected president of the company in 1907. When E. C. Fox was appointed manager of the company the president's direct management of the company was handed over to Mr. Fox. Sir Joseph Flavell became merely an advisory influence in the concern. Examination elicited the fact that the general manager usually managed the affairs of the company, with Sir Joseph Flavell responsible, subject in very important matters to the advice of Sir Joseph, who held a controlling interest.

What is the value of the shares of the Harris Co? About \$100, I imagine. And those of the Davies Co? I cannot say, offhand. Controls Harris Company. Mr. Bain later touched upon the status of Sheed-Thompsons of Britain. The witness admitted that the William Davies Co. held a controlling interest in the company, but it was a responsible concern with its own general manager.

Mr. Bain—By overwriting the Sheed-Thompsons you could change their policy or bind it up, and divide it up. Yes, 60 per cent. of the capital stock of that concern belongs to the Wm. Davies Co. Mr. Bain—Would you tell us the reason for the increase in your yearly profits from \$175,000 to \$700,000 a year? Yes, the increased demand. Did you inquire as to how you made your immediate gains? The transaction was not one of inquiry, but one of gradually increasing business.

Did the prices you were receiving strike you as being very high? All the prices we were receiving appeared to me high. Due, I believe, to the tremendous demand. Why did the prices of hogs go up so extraordinarily high? That, I think, was due to the great demand. Wherever you have commodities you have the element of advance. Insofar as the Wm. Davies Co. was buying livestock just 83 cents and only 75 cents the company affected the market. The packer does not make the market.

Mr. Fox gave the statement that Matthews-Blackwell was forcing prices. What did he mean? I suppose he meant that he had anticipated normal prices, and found on that day the other company had bought very largely.

Didn't know Details. Mr. Bain now referred to the question of the agreement with Davies Co. as to the minimum cost price on their stock. Sir Joseph himself did not personally know the details of the transaction.

During 1916 the profits of the company were much better than during the preceding year. This the witness stated was due to the increased facilities of the company, larger buildings built, etc.

It was pointed out that the profits of the company were \$1,600,000 in one year, being over 100 per cent. on the capital stock of \$1,500,000. Asked as to his opinion of this very excessive price, the witness gave a long and demotic discourse upon the subject, the sense of which was that they had never and did not now occasion him any qualms of conscience.

On Post Curing. In response to Gordon Waldron, counsel for private interests, Sir Joseph stated that the question of the post-curing of the hams and bacon was one decided by the general manager. He had never discussed the matter with Mr. Fox. Neither did he know that the bulk of the stock in Montreal was put in post cure.

The witness further stated that although he had made a habit of visiting the offices in Toronto once a week, and had read many of the cables, there were some he had never seen. Again he reiterated his conviction that his general manager had accomplished.

Gordon Waldron now considered all the privileges and agreements which formed the features of the Davies Company's business with the war office, and having enumerated them, asked the witness if knowing the facts he still maintained that the Wm. Davies Co. had dealt openly on the open market.

Retracts Statement. Sir Joseph: Do you want me to say we had improper trading relations? No, I merely wish to know if you approve of the methods I have noted. I say again, I do not maintain the details of the transactions conducted by Mr. Fox.

Mr. Waldron: We have witnesses

here to prove that despite all their efforts, the Matthews-Blackwell Co. could not obtain the privileges accorded to your firm.

Sir Joseph—Nothing you may say, sir, will alter by opinion that we deal openly, honorably on an open market. It is not a fact that prices of hogs and bacon in Ontario rose to abnormal figures.

That was the result of keen demand. The witness resented the alleged interpretation of the examining counsel that the Wm. Davies Co. deliberately set out to raise the price of hogs in Canada. He claimed that the increased cost was due entirely to conditions prevailing throughout the world.

Counsel's Summary. At 4:30 James W. Bain, government counsel, summed up the case for the government, stating his opinion that there was no doubt in his mind that the figures he gave for the profits of the company, \$1,623,472 and \$1,877,000 for 1916 and 1917 respectively, were correct; the figures for depreciation, etc., quoted by the company being too arbitrary for consideration. These profits were abnormal, and Sir Joseph Flavell had admitted they were unusual. He would contend that the Wm. Davies Co. taking advantage of strained conditions throughout the world, had set out to make enormous profits out of the war. And, to some extent, this was true also of the Matthews-Blackwell Co. The just of these gentlemen was undoubtedly a material cause of the rise in prices in Canada.

Gordon Waldron followed, outlining the causes which led to the need of an investigation, and severely criticizing the methods adopted by the Wm. Davies Co., and commending the frank and straightforward evidence of the Matthews-Blackwell Co. who had not profited to the same extent as the Davies Co., because of the lack of similar facilities in the trade. The session of the commission concluded at 6 o'clock on Saturday evening.

The Morning Session.

Sir Joseph Flavell was examined in the morning by W. N. Tilley, K.C., for the Davies Company, and by E. C. Fox, K.C., and Gordon Waldron, K.C., for the government. Sir Joseph was questioned regarding his connection with the company, and stated that since Mr. Fox took over the management he had acted in an advisory capacity only. When he went to Ottawa, Sir Joseph stated, he practically ceased to have any direct contact with the business.

Much Work for Hospitals Was Done During Summer.

At the first meeting for the season of the Edward Kyle Chapter, L.O.D.E., Mrs. H. T. Kelly presided. The program showed that a sum of \$100 for the military hospital, Davisville, had been furnished, painting and enameling had been done at the hospital, for several roll chairs given the Central Military Convalescent Home, and \$100 worth of gasoline for cars given the Spadina Military Hospital.

Many Exemption Claims.

Only 7.5 Per Cent. of Eligibles Reported for Service in Saskatchewan District. Regina, Sask., Oct. 20.—According to figures which have been received at the office of A. L. Haining, registrar under the Military Service Act for military district number 16, up to noon today, there was a total of 4,469 men in the province who either reported for service or made claim for exemption. Of this number there were 4126 claims for exemption and 333 reports for service.

Business Women's Club.

The new rooms of the Business Women's Club will be formally opened by a large reception in November.

Plays, Pictures and Music

Barrie Plays Tonight. The announcement that the Charles Frohman Company will present the Barrie plays in Toronto during the fall week, beginning tonight, on the same plan and with practically the same casts with which they were so successfully playing at the Grand Theatre, will be welcomed with much delight by local theatregoers at the Grand Theatre. These Barrie plays—such as a complete work of stage art in itself—are: "The New Word," "The Girl Who Shows Her Medals," and "The Show of Wonders."

Scene painters nowadays vie with the impressionistic school of landscape artists to turn out new and bizarre effects, and "The Show of Wonders," which, under the management of Messrs. J. J. and Leo Schubert, will be the main attraction of the season at the Royal Alexandra, beginning tonight, is the most advanced production in this respect that the mammoth New York Winter Garden has ever turned out. The original New York company will be seen here intact, even Mr. Fox, who has been so successful in the leading run-making roles, has been re-engaged for this week.

"Pag of My Heart." J. Hartley Manners cast aside all stage conventions when he wrote his charming comedy of love and youth, "Pag of My Heart," which is to be seen at the Grand Opera House all this week for its last engagement in Toronto at popular prices. The story of "Pag" is one that grips you every minute. Each of the characters shows the author's thorough knowledge of the people he has depicted, and the comedy is taken by Fred Binder, whose East Side humor is deliciously diverting. Dancing is one of the main features of the show, not only do principals and chorus offer many pretty steps, singly and ensembles, but a wonderful Greek classic dancer, will present from her repertoire one or more Russian, Armenian and Hawaiian dances.

"Civilization," directed from the Critteron Theatre, New York, where it enjoyed a phenomenal run of 150 days, playing to capacity audiences, will be the attraction at Massey Hall this week. The success of this great spectacle is a matter of common knowledge among those who read. Even New York's music critics were not prepared for such a gigantic argument as that presented by Thomas H. Ince in "Civilization," and so it was that their reviews of his masterpiece waxed eloquent and he was acclaimed the master producer of his time. In addition to producing "Civilization," Mr. Ince saw to it that every detail of the presentation was perfect before the public was allowed a glimpse of it. Victor L. Schertzinger's masterful score will be played by Prof. J. Arthur's symphony orchestra in its entirety during the unfolding of the great story.

Fire Bill at Strand. All Chaplin-lovers will rejoice to hear that their favorite will be seen in his latest screen, "The Adventurer," at the Strand Theatre today, tomorrow and Wednesday. In addition to the Chaplin film, a strong melodrama will be presented in "The Outcast," with brilliant and brainy Ann Murdock in the leading role. The heroine is a girl who has been deceived by a heartless villain, and who becomes a housekeeper to a bachelor clubman. He becomes so enraptured of her wit and wisdom and beauty that he marries her and consigns her to a life of oblivion.

Careful Buying Brings Men to Goodyear Tires

Goodyear fares best when the public is buying most carefully. Goodyear sales increased in normal times through goodness—long mileage, comfort, freedom from trouble. But the increased demand for Goodyear Tires in the war years has been phenomenal.

Men who had bought tires thoughtlessly were driven to analyze and scrutinize tire records. They sought greater mileage, lower cost-per-mile, greater safety. And they are buying Goodyear Tires on their records.

It isn't by chance that Goodyear Tires possess this greater goodness. Famous engineers have labored unceasingly to make these tires what they are. Thus they evolved the Goodyear No-Hook Tire—protected against rim-cutting by our No-Rim-Cut feature, against insecurity by our Braided Piano-Wire Base, against wrinkled fabrics and blow-outs by our On-Air cure, against human mistakes by our Tire-Making machine.

Every Goodyear Tire that leaves our factory has built into it unusual mileage, security and comfort. It will go farther

and last longer, and so cost less in the end. It will be extraordinarily free from trouble.

And it will prove these virtues to the greatest degree if you avail yourself of the services of the Goodyear Service Station.

Here is the final link in the chain of Goodyear value—a service that tells you how to get, and helps you to get, out of Goodyear Tires all that we have built into them.

You will enjoy Goodyear Tires—the growing margin of Goodyear leadership assures it.

Buy them of the Goodyear Service Station Dealer near you. Ask him how to get lowest cost per mile.

Today Jane Cowi, the famous actress, makes her first appearance upon the screen in a Goldwyn production entitled "The Spreading Dawn," at the Regent Theatre. Miss Cowi is one of the best known American actresses, and created the role of Mary Turner in "Within the Law." This alone should be sufficient to make interest keen in her screen debut. There are numerous spectacular scenes, including the burning of an entire theatre, Lucille Angiers, mezzo soprano, adds greatly to the excellence of the musical program.

"Baby Mine" at Madison. "Baby Mine," the enormously successful Goldwyn feature, will form the attraction at the Madison Theatre today, tomorrow and Wednesday. This is the swiftest-moving and most laughable comedy that has ever been screened. The situations revolve around a laughter-loving young wife's ingenious scheme to bring her grave, young husband back to her.

"A Little Bit of Old Fashioned" in which May Robson will be seen at the new Princess Theatre next week, is ultra modern. Comedy, drama, pathos and sentiment are interwoven in what has been aptly described as an exquisite play with a knock-out punch. Miss Robson's ability to keep her audience vibrating between tears and convulsive laughter has long been recognized.

DUTY EXPECTED OF HOMES AND CHURCHES

"Every Man a Possible Moral Prince," Says Rev. Dr. Ribourg.

Rev. Dr. A. E. Ribourg preached at St. Alban's Cathedral Sunday evening on "The Men and Women of Tomorrow," showing that the youth of today will be the manhood and womanhood of tomorrow, and the church of Christ must seize the opportunity of moulding their minds and influencing their souls so that the new era may be a true Christian era.

The really important people in this Dominion and in the world at large," said Dr. Ribourg, "are not the great diplomats and statesmen; they are the children who will be diplomats and statesmen in the coming generations.

"Democracy all over the world is trying to find itself and to express itself. The Christian home and the Christian church have a chance to help it. Great things are being expected of Christianity in the new day that is to follow the war. And these great things will come to pass if the new generation is spiritually trained. Every man is born a possible moral prince, and it rests largely with the home and the institutions which attend to his moral and spiritual training whether he shall actually become one."

TRAINS COLLIDE

A C.P.R. freight train bound for Port Burwell, which left the Junction at 8.45 yesterday afternoon, was run into at Milton by the 493 passenger train from Toronto. No particulars of the extent or the extent of the damage done are to hand, but it is understood the conductor, named Harris, was injured.

The Toronto World

FOUNDED 1880
A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited, H. J. Maclean, Managing Director.

MONDAY MORNING, OCT. 22.

Answer the Call.

Some people have been alarmed about the large number of men who have applied for exemption in proportion to those who have reported for service under the Military Service Act.

There are others who wish exemption for different reasons. A few have the idea that they are not fitted for the work of the army.

There is a set of young men, not timid, not cowardly, who do not realize their duty, who think more of sport and pleasure, and often the less manly pleasures, than they do of the duty that belongs to them as citizens.

There is a considerable class of men who think because other people have not done their duty, or their full duty, that they will do nothing at all.

Every man who was born before October 13, 1897, and after December 31, 1882, should report at once for medical inspection, if he has not already done so.

A Time for War and a Time for Peace.
Kohleth tells us there is "a time to kill, and a time to heal; a time to break down, and a time to build up; a time to love, and a time to hate; a time for war, and a time for peace."

It is unquestionably true that until we have beaten the Hohenzollern forces, and rooted out the tradition, the thistle root will seed up new shoots, and will revive the menace which we are now striving to control.

The German Naval Success.
There will be a good deal of sympathy with the outcry of some of the London papers over the activity of the German fleet in the Baltic, without any corresponding movement on the part of the British.

Foreign Manners.
Editor World: I read your letter in the World regarding the foreigners in the city. I was witness to an incident by a Macedonian storekeeper.

Other People's Opinions.
Editor World: Some time ago there was a letter published in The World from Mr. Mark Irish, describing how a woman had come to him demanding work, right away.

Current Errors.
Elsewhere we publish the letter of a Bronte correspondent who does not appear to have read our editorials very carefully or he could not have made the statements he does.

the Baltic. But chagrin and regret do not mend matters, and the question arises whether the policy followed is a wise one, or the correct one under the circumstances.

But how much have they got? It is evident, in the first place, that this activity was the result of the mutiny on German naval vessels.

Hon. Mr. Beck, speaking at the Canadian Club the other day, reminded us that no war is won till it is won, and in the career of Frederick the Great he found a warning in the revival of Frederick's power after Kunersdorf, when he regarded all as lost, but recovered himself and with the aid of Russia, established the Prussian tradition.

The moral of all this is that whatever appearances may be, however pinched the Germans may be for food, or scant of war material, their ultimate defeat is not to be attained by any slowing down or slackening off in our preparations.

Current Errors.
Elsewhere we publish the letter of a Bronte correspondent who does not appear to have read our editorials very carefully or he could not have made the statements he does.

What he called "the tirade on the editorial page" has nothing to do with the worthy young men he mentions, two of whom are the sole support of widowed mothers, and the third of his mother, a crippled father and young sister.

It is one of the difficulties the Military Service Act, and national service generally, has had to contend with, that partisan critics, German agents, and pacifists have been going about misrepresenting the whole policy and the circumstances attending it.

It sounds strange to us to hear a correspondent speak of us as having spared the "wealthy robbers" and denounced the working man.

Other People's Opinions

Editor World: Some time ago there was a letter published in The World from Mr. Mark Irish, describing how a woman had come to him demanding work, right away.

It is the discoverer of free oil, hitherto unworked, that the petroleum bill is intended to work. Besides, the petroleum bill is intended to work.

Recently William Forbes-Leslie, in a paper read before the Institution of Petroleum Technologists, suggested the possibility of a connection between the underground oil strata and the surface aspen, which had been noted at random along the eastern side of the Pennine Chain.

It may be added that a number of prospectors are already preparing the way for the tapping of these deposits, although the time has barely begun.

OIL FEVER SEIZES ENGLAND

By Patrick O'Flaherty.

London.—England is on the verge of the oil fever. The discovery that the geological formations underlying the island are capable of containing oil, coupled with the need for oil, which the war has made acute, has resulted in the passage by parliament of the petroleum bill, making a government monopoly of such oil production as is brought about, and giving official standing to an oil boom.

It is the first time in the history of the world that fields that oil production has been made a government monopoly. About five years ago Hungary passed a similar bill, but nothing ever came of it.

For every ton of petroleum produced the bill exacts the payment of 1s cents royalty, to be expended in compensating owners not only of the land on which the oil is discovered, but owners of the lands immediately surrounding.

This is an equity which also is peculiar to the English petroleum situation. For, wherever an oil flow may be discovered, it is apparent that the oil strata tapped must extend under the properties of owners of contiguous lands.

It is the lack of this recognition which has given rise to line drilling, a practice which also is forbidden in England.

London, Oct. 20.—At an enthusiastic convention of the Conservative Party of East Middlesex today, S. F. C. was nominated as the win-the-war unionist candidate for the riding at the coming election.

Richard Rose, of Glanworth, president of the association, presided over the convention, and called for nominations. George A. Stanley, of Lucean, was the first nominee, and his nomination was immediately followed by those of S. F. C. Glass, Frank Boyce, of Dorchester, and A. K. Hodgins, of Lucean.

R. M. Hobbs, of Birr, said that he thought the convention should be unanimous and should name Mr. Glass, Premier Endorsed.

G. A. Stanley said he had no intention to run for office, but if he thought he was the only man who could carry East Middlesex for the win-the-war party he would do so but before withdrawing he would say that Sir Robert Borden's effort in the last week was the greatest thing ever done.

Blamed the Senate.
Frank Boyce said that Sir Robert Borden was the greatest premier who had ever held office. He has not had smooth sailing. The naval aid bill and

the touching and pathetic appeal from the commander-in-chief of the Canadian forces on the battle line in his letter of August 11, in reply to the win-the-war convention which was held in Toronto, were undoubtedly responsible for the public opinion which has grown up in the country.

Winnipeg, Oct. 20.—"I believe in a union government at this juncture in our history. If I had not believed in a union government I would not have gone into it," declared Hon. T. A. Cregar, minister of agriculture, this morning.

The new minister, when asked concerning the election outlook, said: "The outlook should be the very best. The people of Canada have been asking for a union government for two years, and now they have one. Our policy is a win-the-war policy combined with comprehensive domestic enterprises."

Everything is Ready for Prompt Operation of Military Service Act.
Ottawa, Oct. 22.—The machinery for putting into operation the Military Service Act was started with the proclamation of the governor-general calling out the first class, which appeared in The Canada Gazette and in all the daily newspapers of the country on Saturday, October 13.

Everything is in readiness now for the registration of reports for service or appeals for exemption. A large organization has been built up, covering the territory effectively. There are means of finding men for service in the farthest corners of north, east or west.

The first class is composed of all male British subjects between 20 and 34 who were unmarried on July 8, 1917, or are widowers without children. All such men must report for service or apply for exemption on or before November 10. Severe penalties are provided for failure to do so.

BRITISH AIRSHIP DESTROYS U-BOATS

(Continued from Page 1.) sighted thru the thickest mist on the starboard. The patrol promptly altered its course, and rammed a large submarine abaft the conning tower.

The U-boat rolled completely over with a violent explosion and vanished. Two men were struggling in the water, one of whom was made prisoner.

The officer commanding a motor launch sighted a drifting mine while a heavy sea was running. Attempts to sink the mine by gunfire failed.

Darkness was approaching after which the mine would have been lost to sight, and would have drifted away, menacing navigation.

The legislative bill proposed on the subject is quite comprehensive. It provides that a committee shall call upon President Carranza and prevail upon him to make officially his solemn declaration of benevolent neutrality toward the entente allies.

BIGGEST DISASTER BEFALLS ZEPPEL FLEET

(Continued from Page 1.) zeppelins belong to a new type which lately had been reported to be in the course of construction at Lake Constance.

Two Destroyed; Two Downed. Of the four zeppelins lost, two were destroyed, and two were forced to descend. The two disabled airships, undisturbed by aviators and anti-air defense posts, descended in the Saone Valley and were forced to land in the neighborhood of Sierstein, in Basle-Aargau.

The first zeppelin brought down fell at Saint Clement, 7 1/2 miles south of Luneville, and not at Rambervillers as was earlier reported. The zeppelin was first seen at 5.20 a.m., travelling with two other airships, against a wind blowing ten or eleven miles an hour.

Some what later a third zeppelin, the L-50, landed near Dammarin, not far from Montigny. It was followed by the L-51 and L-52, which were also brought down.

An official note issued by the war offices gives the following summary of the zeppelin raid: The first zeppelin was brought down by artillery at Saint Clement.

The second was forced by an aviator to land near Bourbonne les Ecluses. The third was forced down at Lagrange, near Sierstein. The crew of four officers and fifteen men were taken prisoner after they had burned the airships.

The fourth zeppelin was brought down in the same region about 2 p.m. The fifth and sixth airships were reported passing above Gap, and were cut off.

The seventh landed at Montigny le Reul, debarked its wounded occupants, threw out ballast, and then departed. It was chased by aviators in the direction of Fole and Besnon, and later was signalled, together with the eighth zeppelin, as passing over Pontalier, in Cote d'Or, making for Switzerland.

In its comment, The Mail says the German aerial fleet experienced the most complete disaster it has ever met. Dawn was chosen for the attempt, the time from the valleys favoring concealment.

Brought Down by Battleships. There were eight zeppelins in the raid on France Friday night and Saturday morning, according to latest accounts. Opinions differ as to whether all of the dirigibles belonged to the same group or whether part of the number were returning from a raid on England and the others had crossed the Alsatian frontier from Germany.

The zeppelin brought down at Bourbonne-les-Ecluses, about 50 miles from Neuchateau, was compelled to land by five battleships of an esquadron. All the battleships came down at the same time and rushed the crew of the zeppelin, prevented the destruction of the airship, and made all of the members of the crew prisoners.

The dirigible was absolutely intact. The zeppelin-brought down at Sierstein, in the lower Alps, was burned by its crew, and when taken prisoner one officer and escorted to Lagrange. The other shot down at St. Clement, in the department of Meurthe et Moselle, met its fate at the hands of a section of the anti-aircraft artillery.

Another airship was sighted at two o'clock in the afternoon. It was pursued by a battleship and disappeared over the Mediterranean. When last seen the zeppelin appeared to be helpless and is supposed to have been lost at sea.

The zeppelin which landed near Langres, leaving fifteen members of its crew and one of its cars and taking the air again with four members of the crew, has not been heard from since, and is supposed to have been lost somewhere in the Alps. The zeppelins were seen flying over Gap late in the afternoon, and another in the evening in the region of Lons le Saunier.

TRAGIC RAID STORIES.

London, Oct. 21.—While war search was made for any military advantage gained by Friday night's air raid, several tragic stories came to light. Perhaps the most pitiful was the killing of a widow and her seven children, in addition to a lodger in the house. It appears that the mother went to the front door and enquired of a neighbor whether the "all clear" signal had been given, and turned to go back, when the bomb dropped.

Another remarkable case was that of a young woman who was dug out of the wreckage where several persons with whom she took shelter were killed. She was pinned there for hours, but escaped serious injury. A little boy was found buried under a table in a wrecked house, and several persons were killed or injured, but he was unharmed.

UPPER CANADA WON AT ST. CATHARINES

Defeat of Ridley College the Surprise in Saturday's Rugby.

The surprise in the rugby world on Saturday was the defeat of Harry Griffith's Ridley College team on their own grounds by Upper Canada College, in the Little Big Four series. Scores: U.C.C. 9 to 8. Ridley went over for a touch-down early in the first quarter and in the second quarter kicked across for U.C.C. Another even kicking duel between Todd, for C. C. and Gartshore, for Ridley, with the visitors possibly doing the better team work. Ridley led at half-time 7 to 0. Flying wing, Harvaker, quarter, Macintosh, halves, Menendez, Scriver, scrum-half, Galloway, full-back, Ross; inside, Beatty, Hyland, middle, Geven, McKenna, scrummers, Richards, J. McDougall, W. McDougall. Referee—Simpson. Umpire—Mallett.

It was one of the tightest struggles that has ever taken place on the Ridley campus. A punt by Todd in the first quarter was quickly transformed into a five-point lead, which was tied by a visitors early in the second quarter. Todd made two safety kicks over his own dead line in the same quarter, which again put Ridley ahead two points. A rouse for each team and a kick over the dead line in the last period Upper Canada bucked close to the Ridley line and got possession of the ball, kicking over for one point, making it a tie. The winning point for Upper Canada was made upon a kick over the line, Gartshore muffing the ball untracked.

ST. ANDREW'S WON FROM TRINITY COLLEGE SCHOOL

St. Andrew's College was the winner from Trinity College Schools of Fort Hope, in the first rugby match of the Little Big Four series, played at St. Andrew's grounds on Saturday afternoon. The final score was 19-15. St. Andrew's had the advantage in weight, but Trinity put up a spunky fight and the first half was all in favor of the T. C. S., the score being 11-7.

The teams:
St. Andrew's (19)—Second, flying wing; Kunt, Stonehouse, Harris, halves; Gordon, quarter; Beath, Neelich, Lightbourn, scrum-half; Hendel, Harris, inside; Scott, middle; Strrett, McCurry, outside.
Trinity College School (15)—Hooker, flying wing; Howard, Radburn, Geaves, halves; Harper, quarter; Caproni, Anderson, Henning, scrum-half; Crispo, Byrie, inside; Spontou, Simmonds, middle; McKenzie, Hough, outside.
Referee—"Babe" Burkhardt; umpire, C. S. Crawford.

CAPS BEAT PARKDALE.

Capitals beat Parkdale 18 to 10 in the intermediate series of the O.R.F.U. Saturday afternoon at Scarboro Beach. The first quarter of the game was turned over to the Red Cross. Parkdale led at the end of the first quarter 2 to 0. Caps the second 4 to 2, and also the third 8 to 0. A touchdown by Caps, who had replaced Hennessy, and goal by McLean put Caps ahead 18 to 0. Parkdale added a safety touch. A try by Freeman, the result of a fumble by Caps five more minutes out of the game. Caps five more minutes out of the game. Caps five more minutes out of the game.

ONLY FOUR TEAMS IN THIS O.H.A. GROUP

Dentals, St. Patricks, Parkdale and Beaches Likely to Be the Roster.

With the chill fall days remaining one of the coming winter a review of the local hockey situation for the coming season is in order. Just who the O.H.A. runners-up for the O.H.A. senior title last year, have announced that they will not be in the season. That is one counted out.

The local senior group, composed of six clubs last year, was not a success. It is a certainty that only four clubs will operate this year. Just who the four will be is bothering the fans. Dentals, senior champions, are practicing in the winter and they are sure to be re-presented again in the O.H.A. Now for the other three. St. Patricks are also working on the rink and are counting on taking another crack at the great winter of 1917-18. The Beaches who are playing Rugby this fall are spoken of as re-appearing in the O.H.A. That is one counted out.

It has anything to do with the Dentals. This gives us three clubs and the final entry will surprise everyone. It will likely be another of last year's players who have been so successful in the Beaches League. The Dentals are spoken of as the man behind should the east-end club throw in their lot with the Dentals. This would round out a nice O.H.A. team. The Dentals are still with the Dentals and are sure to pick up some new players if the cry is sent out. Mac Sheldon is stationed with the Dental Corps at the Exhibition grounds and ready for the fray. Our old friend Bill Box, who made such a noise last year, is with the teeth-pullers at the camp. The Dentals are also working on the rink and are counted on. Smilla is another within halting distance. Parkdale, who played such a useful game for Aura Lee seniors last year is to be a member of the Dental Corps, and would fit in nicely with the Dentals. The Dentals are still in town. One or two other grand old clubs are also being mentioned.

Bill Adams, the sturdy worker and the final season, is with the R.P.C. and St. Patricks can only on him at any time. There are another year's players still in town. The Irish can be counted on to round up a good team after last year's success.

Geo. Cruise would soon rally senior outside to his standard for the Beaches outfit. Glen Smith, Collet and McCafferty of the Riverdale are also expected to be playing for George. He would also lead the Beaches in the O.H.A. group.

Six-man hockey will likely be the vogue this year for the amateur ranks, and the managers will not be so hard pressed to round up a team. The six-man of last season will likely have many supporters at the O.H.A. annual.

Directions for Employers

Who Purpose Claiming Exemption for Class One Men in Their Employ

THE following course is recommended for employers who have in their employ any number of men—bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th October, 1917, and whose 34th birthday did not occur before Jan. 1st, 1917, and who propose claiming exemption for any of these men, to continue in work which is deemed to be in the National Interest.

First, it will simplify matters for you and for the exemption tribunals if you instruct Class One men in your employ to go up for medical examination at the nearest Medical Board Centre.

Only Class One men, who upon medical examination are placed in Category A are liable for immediate service under the Act. Class One men placed in Categories B, C or E satisfy immediate requirements if they attach their medical report to their claim for exemption.

Employer's Statement and Schedule

Second, prepare a full statement of the total number of your employees grouping them according to their respective occupations and qualifications and stating the number in each group. Indicate the possibility or otherwise of replacing the labour of Class One men with the labour of those unavailable for military service, or outside the statutory class called up; the extent to which the withdrawal of men in the statutory class would affect the business, the reason for considering that the carrying on of the business is in the National interest, and such other facts and circumstances as may appear to be relevant.

Append to this general statement and classification, a schedule of the names, ages and occupations of all men in Class One, indicating as to those who have been medically examined, the medical Category in which they have been placed, noting against each name whether or not you propose to claim exemption on behalf of the man.

Where exemption is claimed employer should state his opinion whether such exemption should be conditional on the man's continuing to follow his present occupation and whether it would suffice if exemption were granted for one, two or more months, as the case may be.

Forms for Exemption

These forms may be obtained on request from any Post Master, who will transmit the forms when filled in, to the Registrar.

Claims for exemption must be made not later than November 10th.

Notices of any character relating to future events, the purpose of which is the raising of money, are inserted in the advertising columns at 25 cents an agate line.

Recent Announcement of Government Policy Along the Right Lines.

WILL WELCOME ACTION

Farmers and Consumers Will Be Glad to See Results.

In the recent announcement of policy by the union government is included the following significant statement: "The encouragement of co-operation among those engaged in agricultural production, with a view to diminishing the cost of production, and marketing so that the price paid to the producer may conform more closely to that paid by the consumer."

With some reason, does the consumer feel that he is being charged too much for food grown in this province, and he remembers with amazement that the cold storage system invented to lower the cost of living by preventing waste due to the decomposing effect of warm atmosphere in winter, has, however, of government assistance in developing the cold storage idea the cost of products has steadily risen instead of diminishing, and yet a great amount of waste due to atmospheric conditions has been eliminated.

Farmers' Profits Sure? On the other hand the farmer had visions of surer profits as a result of the development of cold storage facilities for the preservation of his produce. He thought that by securing the demand for foodstuffs at all seasons of the year, thus securing profits that are not subject to the fluctuations of the market and with the risk of loss due to produce rotting in his hands eliminated.

Now why is not this process of reasoning bearing fruit, for all three parties are suffering? The consumer and the producer are looking askance at the third party, and will both welcome the first effort put forth by the union government.

It is the view of this writer that the cost of production and marketing so that the price paid to the producer may conform more closely to that paid by the consumer.

INTERESTING FIGURES ON TRACTOR PLOWING

How Two Young Farmers Handled the Situation in Businesslike Fashion, and Won.

Within the next ninety days, I judge that orders for fully 100,000 tractors will be placed by farmers who have come to the conclusion that mechanical power is better and cheaper than horseflesh for heavy farm work. Here is a little incident which some may regard as trivial, but I hope those seriously interested in tractors will appreciate its true significance.

The different threshing outfits in this township are working steadily in an effort to finish up the season's work. The threshing will not be completed until nearly December 10.

Jacob Schmidt, who spent the past six weeks in the west, was unable to secure any feeding cattle as he had hoped. He shipped a few carloads of grass cattle from Calgary to Chicago, however, and made fairly well on the deal.

Asher Dustow, who has been in the west for the past three months, returned home recently, and left to resume his position at Newmarket. He says the wheat crop in the west will average from 10 to 12 bushels to the acre.

Weiler Bros. shipped a carload of potatoes to New York. The price paid was 85 cents per bushel. This firm intends shipping another carload shortly.

MINERAL FIELDS ARE BUSY

Papers Contain Items Showing Considerable Activity Throughout Ontario.

CAPITALISTS ON GROUND

New York Financiers Close Deal for Purchase of Rights.

That there is considerable activity in oil and mineral fields in Ontario is shown by items which appeared during the week in two country papers, The Acton Free Press and The Uxbridge Times.

For some time there has been considerable speculation in the vicinity of Acton, Rockwood and Uxbridge over the discovery of oil. The Acton Free Press contains the following:

Active operations for the securing of oil and gas in this country have not been materialized. Two carloads of machinery arrived at Campbelleville on Saturday, and drilling operations have commenced. The Free Press went to Campbellville on Monday to glean particulars of the enterprise.

The strength which developed on the mining exchange on Friday was mainly due to speculative action regarding Wall Street markets.

The flurry in West Dome caused some short covering, but with this buying on the part of the West Dome, the market, which has not yet been disturbed, and will remain dormant until the market shows sustained advance.

Berlin, via London, Oct. 20.—The statement of the Imperial Bank of Germany, issued October 15, shows the following changes:

London, Oct. 20.—Calculata linseed, October and November, 129 1/2. Linseed oil, 57s 10 1/2.

New York, Oct. 21.—Professional interests and pools dominated today's brief but active dealings in stocks, grain and cotton exchange fluctuations as follows:

London, Oct. 20.—Bar silver, 43 1/2. New York, Oct. 20.—Bar silver, 83 1/2.

London, Oct. 20.—Bar silver, 43 1/2. New York, Oct. 20.—Bar silver, 83 1/2.

HOME MARKET NEEDS WALL ST. METHODS

Any Advances in Domestic Stocks Must Come With the Assistance of Insiders.

The Toronto stock market on Saturday was tame and the buoyancy at New York failed to stimulate any domestic speculation. There was absolutely no feature to the trading, and it is recognized that no movement of consequence can take place unless speculative interests try out the method adopted on Wall Street.

SENSATIONAL DROP MARKS PROVISIONS

Promise of Generous Yield of Corn Depresses This Commodity.

Chicago, Oct. 21.—With husking at hand in the main section of the corn belt, and with the outlook promising generous returns, corn prices Saturday fell downward, and there was a decided crash in the cost of provisions. Corn closed nervous, 1/2 to 1/2 cent lower, at \$1.44 1/2 to \$1.44 3/4 for December, and \$1.09 1/2 to \$1.09 3/4 for May. Oats lost 1/2 cent to 3/4 cent. The setback in provisions ranged from 2 to 2 1/2 cents.

New Velvets! New Plushes! New Silks! New Dress Goods!

The Biggest Showing in Years, Notwithstanding Difficulty of Delivery and Production.

Note These Attractive Values

Our enormous stock of yard fabrics this season embraces the best that foreign, Canadian and American markets could offer.

Notwithstanding the difficulty of both production and delivery the assemblage is the most interesting and attractive and without doubt the most comprehensive we have ever offered.

Silk plushes in the softer fabrics continue to hold first place for dressy outer garments, with broadcloth the prime favorite for smart, dressy-tailored rainment.

Plain silks, satins and velvets, with the new brocades, of which we have over two hundred designs, occupy one whole aisle in the Fabric Section, stretching from the Queen West side to the Queen street elevators, nearest Yonge street, offering a broadly helpful array of the newest and most wanted colorings and weaves. The extensiveness of the display proves the values all through.

Silks

New York's latest, Ivory Satin Shantung, for dresses and waists, also specially adapted for new style collars; 36 inches wide. Per yard, \$1.50 and \$2.00.

Pussy-willow Habutai, Silks, in ivory; one yard wide. Special at \$1.00 yard.

Immense variety in fancy stripes and checks for separate skirts, exclusive designs. \$2.50, \$3.00 and \$3.50 yard.

Black Silk Plushes and Velours, Lister's special finish. \$4.00 yard.

Fancy Crush Plushes, in black, heaver, fawn, purple and blue; suitable for collars and trimmings. Priced, per yard, \$3.00 to \$3.50.

200 yards of Martin of Lyons (the leading French maker) Black Chiffon Velvet. Regular \$5.00 yard. Today, \$4.45 yard.

Showing Collars That Convert Right Up to the Ears and Under the Chin

Hosts of smart styles--select fabrics--skilled workmanship--moderate prices--distinguish this store's coats for young women.

A splendid assortment now awaits you. Coats of broadcloth, velour, pom-pom, burella and tweeds, in all the leading colors and designs.

Gracefully fashioned with rippled bodies, normal or belted waistlines. They are finished with rich plush, kerami or cone, and novelty buttons, and lined or half-lined throughout. Here are two of the many lovely modes:

A striking model of beautiful velour has its ripples held in place by a narrow belt, ornamented with large plush-enriched covered buttons. The large convertible collar is lined with seal plush, while a distinctive touch is lent by the deep panther pockets, plush-edged and button-trimmed. Colors navy, brown, green, taupe. Price 22.50

This handsome tailored coat is of extra heavy taupe burella cloth. The cleverly-cut body has a broad belt ornamented with huge covered buttons. The large convertible collar is lined with seal plush, and the crown of the coat is its great storm collar of grey cone, that rolls high about the ears--But the crowning glory of this coat is its great storm collar of grey cone, that rolls high about the ears--But the crowning glory of this coat is its great storm collar of grey cone, that rolls high about the ears--But the crowning glory of this coat is its great storm collar of grey cone, that rolls high about the ears--

Whether You Dance or Not, or Whether You Need a New Evening Dress or Not, You Must See--

These Beautiful New Evening Gowns

Soft, shimmering satin, fluffy silk net, crisp taffeta or filmy tulle in delicate pastel tones lend themselves in the most delightful ways to the fashioning of this season's evening gowns for women. And, too, a charming simplicity enhanced by exquisitely lovely touches of gold and silver, jets, or French flowers, marks the women's adorable new evening gowns we are showing. The following models will give you a faint hint of their loveliness and variety.

Lustrous satin, that steals its lovely color from the American Beauty rose, gives graceful suppleness to this charming model. The simple, gathered skirt is attached to a low square-necked bodice, lavishly over-draped with black tulle and banded with sequins. Winged panniers and tiny winged sleeves of the tulle harmonize delightfully with the tulle butterfly bow between the satin shoulder straps. Price \$7.50

Fluffy and frilly from its square low neck to the last ruffle at the hem is this frock of apple green tulle falling over ivory charmeuse. Panels of tulle, between the ruffles on the skirt, are richly embroidered in silver. The jumper bodice with satin straps is also prettily befrilled and has just the suggestion of a sleeve in a bit of tulle that lingers over the shoulder. An exquisite French flower on a brushed silver girde gives the finishing touch to this exclusive frock. Price \$0.00
