Mr. and Mrs. Gilbert Peters and their son, Ernest, were before the magistrate yesterday for sentence on the charge of keeping a disorderly house. The magistrate referred in the most scathing terms to the conduct in debauching the young girls of the family. The parents were sentenced to six months in jail without option of fine and additional three months or \$50, the father in jail and the mother in the Home of the Good Shepherd. As the military authorities will not take the son back and the police will not allow him to remain around the city the magistrate deferred sentence.

GERMAN BRUTALITY.

In the British parliament yesterday the inhuman treatment of British prisoners by the Germans was proclaimed to the world, and denounced by Lord Kitchener himself, as well as by other members of the house of lords and of the house of commons.

The cry is for men and more men, and only the other day Lord Kitchener said that "the time would come and sooner than some people expected when he would ask for additional and redoubled sacrifices."

THE Y. M. C. A.

It was an inspiring sight last evening to see such a large number of young men, with a sprinkling of older men, at the banquet closing the season of the physical culture department of the Y. M. C. A.

The news of the serious wounding of Major C. J. Mercereau is heard with the deepest regret in this city and province.

THE MEN IN KHAKI.

The Times has not hesitated to criticize the conduct of those soldiers who have disgraced the king's uniform by getting drunk and conducting themselves in such a manner as to bring them into the police court.

A fearful story was told to City Seal-Janssen of the fact that a man who had been using on his scales all winter in reselling his junk and said that only a few days ago he had discovered that the weight belonged to another scale, and although the police found it held the beam down to 200. All winter, he said, he had been giving double weight.

When kerosene is hard cover then with boiling water and stand them aside to cool. They will then appear fresh and full of juice. Neither will the juice seem in the least diluted by any water absorbed.

LIGHTER VEIN.

Impossible. His Wife—'Dearie, do you think hoop-skirts will ever come in again?' Her Husband—'Not in this apartment, love.'

Concerned.

Private Smith (getting anxious over the non-arrival of a German attack which his company had been told to expect)—'Hope nothing's happened to the blighters!'

No Duplicants.

Customer—'Walter, this is the first tender steak I've had in your shop.' Waiter—'My goodness! You must have got the gov'nor.'

The Veiled Woman.

Young Tury—'The haven women throughout the nation are making a threatening anti demonstration.' Grand Vicar—'More of those veiled threats, eh?'

Of Course.

Oh, e'en the meekest man will say, When speaking of bad people, 'they'; And then, contrariwise, will be, When speaking of the good, say 'we!'

Family Routine.

The new vicar was making pastoral calls in his parish, and stopped to converse with a small boy at the garden gate.

Probably He Was Bluffing.

'I did not think so, but he must be.' 'Why?' 'I heard him say the other night that he let his wife have all the money she wants.'

'Are you going to the fancy dress ball?'

'Oh, yes.' 'I shall wear one of the quaint old costumes of 1808.'—Kansas City Journal.

A German who fought on the Alamo.

Went out for a stroll in the rain, but a seven pound shell sent him promptly to—well, where hell never see rains fall again.

Allen, an enthusiastic motorist.

Speaking to his friend Maude in relation to the slowness of a certain young man at proposing.

'Charlie seems to start easy,' she remarked.

'And he speeds up well; but jerked at the critical moment he always slides.'

A man had been asked before a magistrate for not supporting his wife, or so such offense.

'But let me see,' the justice said, 'aren't you the man who was married in a cage of wild man-eating tigers and leopards?'

'Your Honor, "Eating the man," was the reply.

'Exciting, wasn't it?'

'Well, Your Honor,' said the man, 'it seemed so then. It wouldn't now.'

"The man who is on top in this world is the man who has not forgotten how to play. When the stock exchanges of the world closed, and it was feared they might never re-open, the men who saved the situation and raised the \$100,000,000 necessary to begin the equipment of an army which was to preserve the freedom to the world were the men who left their offices at 3 o'clock donned their cricket tops and played on the green until 6. These are the men who mastered the seven seas and who are destroying our enemy which looks back 100 years and seeks to govern by enslavement of the people."

THE LATE JOHN CUDAHY.

John Cudahy, Chicago Board of Trade operator, banker and pioneer packer, who died at his home in Chicago last week, had never completely recovered from an operation for appendicitis which he underwent four years ago.

He sought to renew his health in California several months ago and then had been in the care of physicians. He is survived by his wife, two daughters and two sons.

No other men bore a higher reputation on the Chicago Board of Trade or in commercial circles there than John Cudahy. He was born in Ireland on Nov. 5, 1844, and in 1849 moved with his family to Milwaukee.

There he was educated and as a boy entered the packing industry, being employed in turn by Edward Rodda, Layton & Co., and John Plankington, large packing house firms. He was the first appointed general provisions inspector for the Board of Trade of Milwaukee.

He became a partner of Chapin & Co. in Chicago, in 1875, the firm becoming Chapin & Cudahy in 1877 and later the Cudahy Packing Company. As a speculator he had hardly an equal. He controlled with his brother the largest packing house in Milwaukee, and the principal packing houses in Louisville, the Stock Yards Company there, and a large plant at Nashville.

Nerviline is not greasy, and its pain-removing power is at least five times greater in strength than ordinary remedies.

We guarantee Nerviline will cure neuralgia—not only relieve it, but actually and permanently cure it. Just in the same way will it cure lumbago, sciatica, stiffness and rheumatism.

To conquer all muscular and nerve pain, use Nerviline. A large bottle in the home keeps the doctor's bill small. Get the large 50c family size bottle, it is more economical than the 25c trial size. Sold by all druggists everywhere, or the Cataractine Co., Kingston, Canada.

Slashing Arraignment on Non-Enlistment by Justice Riddell

ADDRESS IN TORONTO

Mr. Justice Riddell Speaks at Veterinary College Commencement—Speaker Disgusted by Crowds of Young Men at Hockey Games

(Toronto Star)

A stirring and powerful address, the dominant note a call to arms, was delivered at the commencement of the Ontario Veterinary College by Hon. Mr. Justice W. R. Riddell, of the supreme court. Commencing with a review of the great advances made in veterinary surgery during the last few years, the speaker urged upon his audience that duty as leaders of men.

The speaker dwelt upon municipal politics, declaring that "Some one must do this work; if you think you can no better, say so, state your reasons and try your hand. There is no disgrace in being a municipal politician, but the disgrace is in not being one." He said that he was a municipal politician with no vision above the petty advantages to be gained by himself or a clique or a party by your being a politician.

"But there is now a more pressing duty than in times of peace," said Mr. Riddell, "and that is to be a citizen of the audience at Convocation hall, 'a duty differing in kind as well as degree.' We are now in the midst of a world war for democracy, for the rule of the people. The right to govern ourselves, whether we do that well or ill, is the birthright of all English-speaking people." Mr. Justice Riddell compared this right with the franchise, and said that Germany dangerous today. He compared the divine right to rule as claimed by the Kaiser with the right of parliament to take or give power representing the people.

"This is a war of aggression, a war of conquest, conceived in greed and brought forth in avarice. It is a war of brutal invasion of a peaceful and neutral country." The speaker charged that the Prussians were content to apply their principles to their own land and would have no complaint. Summed up, the Prussian ideal was that they should take who have the power, and they should keep who can.

"It is a war of aggression, a war of conquest, conceived in greed and brought forth in avarice. It is a war of brutal invasion of a peaceful and neutral country." The speaker charged that the Prussians were content to apply their principles to their own land and would have no complaint. Summed up, the Prussian ideal was that they should take who have the power, and they should keep who can.

"It is our glory and our pride," said the speaker, "that our Canadian boys are at the front in this war. It is where the greatest drama of all time is being played, and we hope and pray that they will not be the only ones to be successful. But more men and more men, and still more men are needed. They are impatiently waiting for us to give them the material out of which soldiers can be made."

"Those of that age who remain behind and fail to fight for the Empire should be of two classes only, the cripple and the coward. It is shameful to see in some places the crowds at hockey matches and the like, of hale and strong young men, whose life has been one of ease under the flag, and who now cannot recognize their duty to fight for it. In England it is the custom in some parts for young women to present those young men of their acquaintance who should, and do not, volunteer, with a white feather. Is there any need of the maidens of Ontario doing that? If so, the white feather will be a burning badge of shame forever to those who wear it.

"Some there are who cannot go; some are too old or too feeble. This is at least open to all who cannot go by reason of age or infirmities; they can give what they can towards the better arm of those who do go. If any man's decision is based upon the thought that by remaining at home he may make more money for himself, do more good to himself, be as bad as a coward, he is a shirk, and will richly earn the contempt he is sure to meet. He will not be able to look in the face the returning heroes in khaki. Heaven grant that there are none such here."

NEARLY TWO MILLIONS INCREASE IN DEBT OF THIS PROVINCE (Chatham World.) It appears by an article in Friday's Globe, evidently dictated to the editor by the provincial secretary, that we are altogether too considerate when we interpret the minister's hazy statements to mean that he had sold the \$2,282,800 of 8 per cents instead of an equal amount of bonds he had authority to issue at 4 1/2 per cent. It appears by the

THAT TIRED FEELING

Relieved by Hood's Sarsaparilla, Which Renovates the Blood.

That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition inviting disease. It is a warning, which it is wise to heed.

Ask your druggist for Hood's Sarsaparilla. This old standard tried and true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better.

Be sure to get Hood's, because it is the best. There is no other combination of roots, barks and herbs like it—no real substitute for it—no "just-as-good" medicine.

ministerial editorial that the minister issued all the authorized bonds, \$2,276,979, except \$288,000, and that he sold the \$2,282,800 of unauthorized 8 per cents in addition. Against his advice there is \$288,000 of bonds held over, showing an actual increase of \$1,889,900 in the

The effort to get from the provincial secretary a lucid statement of the provincial debt is still in progress. Mr. Stewart has asked for a detailed statement of all interest-bearing obligations of the province, but, judging from previous replies of the minister, it is not at all likely that his questions will be properly answered. The government does not want to confess that Mr. Stewart's charge, that it increased the debt \$1,600,000 last year, is correct. It has made no denial, and it is now apparent that the increase is even greater than the amount mentioned by Mr. Stewart.

ANXIOUS TIMES FOR PARENTS

Children Often Seem Pining Away and Ordinary Medicine Does Not Help Them

The health of children between the ages of twelve and eighteen years, particularly in the case of girls, is a source of serious worry to nearly every mother. The growth and development takes so much of their strength that in many cases they actually seem to be going into a decline. The appetite is feeble, brightness gives way to depression; they are often nervous, headache, fits of dizziness, or occasional fainting and a complaint of weariness at the slightest exertion. Ordinary remedies will not bring relief. The blood has become thin and watery, and the child must have something that will bring the blood back to its normal condition. At this stage no other medicine can equal Dr. Williams' Pink Pills. Their whole mission is to make new blood, which reaches every part of the body, bringing back strength, strength and energy. Mrs. James Harris, Port Rowan, Ont., says: "The age of thirteen my daughter began to look very pale, and seemed listless and always tired. She did not take interest in her school work, and she did not eat well, and did not sleep well at night. I took her to our doctor who said she needed more iron, and he gave her Dr. Williams' Pink Pills. She took the Pills for nearly two months, when she was all right and lively as any girl could be, gained nicely in weight, and has since enjoyed perfect health. I am quite sure that the Pills did not do it, but my daughter will do for other pale, weak girls. I have also used Dr. Williams' Pink Pills myself, and with best results and can only speak of them in terms of greatest praise."

To any girl medicine dealer or mail at 60c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

HOUSES FOR WORKERS.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmothers' treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-made product called "Wyley's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyley's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft, leathery and appearance of abundance which is so attractive; besides prevents dandruff, itching scalp and falling hair.

Highlanders LUCKY.

Few Casualties Due to Their Good Behavior.

The good management of the 48th Highlanders is commented upon in a letter from Pte. Stuart James, of Toronto, writing from France as follows: "I am glad to say that our battalion has come off with very few casualties, which is due, I think, to good management and the behavior of the boys. At times we had some hard trials in the trenches, which were by no means very dry and most of the time very cold. It is no great fun when they are shelling you, and the best thing is to duck and take your chance of the shells throwing mud and sand bags into your face, while through it all we seem to keep up a good spirit, and only remark, 'That's a close one.' The third time in the trenches one shell landed right into our dugout. Then we had no home until we got busy and built it up again. You have read in the papers where the Germans destroyed churches and hospitals, and it is too true."

The British War Office is anxious to secure Canadian doctors for service in Europe.

Many Canadians, London reports say, were killed in recent heavy fighting by the use of asphyxiating gases by the Germans.

KIDNEY TROUBLE CURED AT 82

Intense Power of Dr. Cassell's Tablets Again Proved

Back Pains So Severe as to Be Like Knife-Thrusts

Operation Said to Be the Only Chance of Cure

So Weak and Wasted He Could Hardly Drag About

New in Splendid Health Through DR. CASSELL'S TABLETS

Age makes no difference to the extraordinary curative power of Dr. Cassell's Tablets; they cure old or young, from the infant in its mother's arms to the white-haired grandparent bowed with the weight of years. That is the conclusion to be drawn from the testimony to Dr. Cassell's Tablets, which grateful people in the Mother Country are constantly giving to their Canadian brethren and sisters.

Here, for example, is Mr. Benjamin de Grey, of 21 Carlton terrace, Queen street, Sparkbrook, Birmingham, England, telling how Dr. Cassell's Tablets cured him of acute kidney trouble when nothing else tried could ever relieve.

And Mr. de Grey is eighty-two years of age. He says:

"A few years ago I began to have a dull, heavy feeling after everything I ate, and this was very soon followed by swelling pain across my back and other indications of kidney trouble. At all times this pain was with me, but it became sharp as knife thrusts when I had to straighten up from a sitting or stooping position. I was told it was kidney trouble. I knew that, but no sort of medicine I had did any sort of good. I cannot describe the suffering I underwent. I could not rest anywhere, and I was so weak by this time that I could hardly drag about. I had lost flesh terribly, too. Often I was bathed in perspiration from the torture I had to endure. I would have given the world for a little relief, but nothing at all helped me.

"I was told that an operation was the only thing left for me. But at my age I did not like the idea of that, so again I took medicine, which again proved useless.

"I was worn out with pain and want of rest, when at last I got Dr. Cassell's Tablets; yet almost from the first they relieved me. I got better and better till now I am cured and in splendid health." Dr. Cassell's Tablets put new life and

GERMANS WORSE THAN THE BARBAROUS SAVAGERY OF DERVISHES OF SUDAN

Lord Kitchener Declares the Charges of Inhumanity Have been Proved Beyond Doubt

London, April 27, 9 p.m.—The British parliament occupied itself today with discussions on the treatment of British prisoners of war in Germany.

Lord Kitchener's speech in the house of lords, in which, as a soldier, he said he lamented what he was convinced was German inhumanity toward British soldiers, was the most notable expression of the day.

BRITISH RUTHLESSLY SHOT DOWN

Mr. Secretary Kitchener told the house of lords that British prisoners had been insulted, maltreated, and even shot down by their German captors.

"I have been forced with reluctance to accept as indisputably true the maltreatment by the Germans of British prisoners. The Hague convention has been flagrantly disregarded by German officers. Our prisoners have been stripped and maltreated in various ways, and in some cases the evidence goes to prove that they have been shot in cold blood.

THE BRUTALITY OF THE HUMANS

Earl Kitchener said that as a soldier he hitherto had always held officers of the German army in respect, but "constant testimony that has come in, not only from our own escaped prisoners but from French, Russian, Belgian and American sources, has brought it home to all who have sifted the evidence that the inhumanity displayed by the German authorities, towards British prisoners especially, is beyond doubt."

The secretary quoted articles from the conventions adopted at The Hague relating to the treatment of prisoners of war, and asserted that they had been disregarded flagrantly by German officers. He added:

"I think it only fair and right to say that the German hospitals should be exempted in any charges of deliberate inhumanity. There have been indications of a lamentable lack of medical skill and, in individual cases, of neglect and indifference to suffering on the part of hospital orderlies. On the other hand, there are statements from prisoners who have been released as incapacitated, that their experience in the hospitals did not form any ground for special complaint.

"Treatment of prisoners in the detention camp in Germany varies considerably according to locality. Our men in most cases suffered from the want of food and have received differential treatment as compared with their French and Russian comrades, and many acts of violence have been complained of. Lately, however, there does appear to be a slight improvement in some respects, due perhaps to visits of inspection made from time to time through the American ambassador.

"Recently some of our officers have been subjected to solitary confinement in retaliation for the supposed ill-treatment of Germans in this country. The Hague Convention does not admit of such confinement of prisoners of war, except as an indispensable measure of safety, and I hope before long to obtain some evidence of the manner in which these officers are now being treated by the Germans."

WORSE THAN DERVISHES OF SUDAN

"Germany has for many years posed before the civilized world as a great military nation. She has abundantly proved her military skill and courage. But surely it was also for her to set up a standard of military honor and conduct which would gain the respect, if not the friendship, of nations. Instead, she has stooped to acts which will surely stain indelibly her military history, and which would vie with the barbarous savagery of the dervishes of Sudan. "I do not think there can be a soldier of any nationality, even amongst the Germans themselves, who is not heartily ashamed of the sin which has been thus brought upon the profession of arms. The charges of ill-treatment only being outraged by the infliction of cruelties on British prisoners, but by a contrivance which must have arrested your lordship's attention the Germans have, in the last week, introduced a method of placing their opponents hors de combat, by the use of asphyxiating and deleterious gases, and they employ these poisonous methods to prevail when their attack, according to the rules of war, might otherwise have failed."

PROVED TO THE HILT

Lord Lansdowne, leader of the opposition in the house of lords, also spoke. He said the charges against Germany "of callous, inhuman treatment of prisoners had been proved to the hilt," but that England had reason to be grateful to the American government for the manner in which it had seconded the efforts of its secretary of state to secure redress.

Lord Lansdowne said he deplored the fact that the admiralty had been forced to have recourse to a policy of reprisals against captive German submarine crews. The real culprits, he declared, were the German government, "which had given them their ruthless commissions." Lord Lansdowne added that the sufferers at the hands of the Germans might be compensated by levying on German property in Great Britain.

Lord Cromer, former British agent and commandant-general in Egypt, declared there was a strong feeling in the army against the policy of the admiralty regarding the treatment of German submarine prisoners.

Lord Lucas, president of the board of agriculture, stated, on behalf of the government, that the special treatment for captured submarine crews had been adopted, not as a policy of reprisal, but as an expression of the highest moral disapproval of German methods. The treatment of the submarine prisoners, however, conforming to the provisions of The Hague Convention.

He was glad to announce, Lord Lucas added, that the German government had given James W. Gerard, the United States ambassador to Germany, permission to visit the prisoners, and he and the government hoped that Mr. Gerard also would be permitted to investigate the treatment of the thirty-

A Physician's Opinion

A physician who uses Grape-Nuts in his family was recently asked his opinion of this food. He said:

"It is a concentrated, palatable, nourishing and healthy food. Sweetened slightly and moistened with good rich cream, Grape-Nuts makes a very toothsome dish."

There's a reason for these excellent qualities in Grape-Nuts. This food is made of whole wheat and barley, thoroughly baked and processed to render it easily and quickly digestible—generally in about one hour.

Grape-Nuts contain all the rich nutriment of the grains, including the phosphorus, iron, sulphur and other mineral elements so necessary for proper nourishment of body and nerve cells. It's a healthful food, and economical also.

THE BRITISH OFFICERS WHO ARE BEING HELD IN PRISON AS A REPRISAL AGAINST GREAT BRITAIN'S TREATMENT OF GERMAN SUBMARINE PRISONERS. GERMANY WILL BE MADE TO PAY.

London, April 27.—Winston Spencer Churchill, First Lord of the Admiralty, explained Great Britain's policy in the matter of the treatment of German sailors captured on board submarines in the House of Commons this afternoon.

"We cannot admit that the reprisals which Germany has taken against numbers of our own officers can be allowed to deflect us from a policy which we regard as humane and just in itself."

Mr. Churchill also made reference to Germany's answer in this matter. Continuing, the first lord said:

"It is necessary publicly to brand this form of warfare and prevent it taking its place among the methods open to belligerent nations."

The speaker then went on to explain that no special conditions have been applied to the crews of German submarines because they fought as such, but only to those engaged in "wantonly killing non-combatants, neutrals, and women on the high seas."

Incidents like the sinking of the Orizaba at night without warning (the Orizaba was lost early in February, with a crew of twenty men) the sinking of the Falcha (with a loss of over 100 lives) and the blowing up of fishing vessels decided the government, Mr. Churchill declared, "to place all submarine prisoners taken after February 18, and so long as this system of warfare continued, in a distinct category. The speaker pointed out that the conditions under which these prisoners were confined were in every way humane."

"We have offered to allow a representative of the United States to visit these prisoners," he said, "and make a report provided reciprocal facilities were accorded us."

Speaking in the debate on the treatment of British prisoners in Germany, Premier Asquith said:

"It is a horrible story from every point of view—one of the blackest spots on even German methods of war. My object in raising it to say, with all emphasis and all deliberation, that we shall not forget, and we ought not to forget, this horrible record of calculated cruelty and crime."

"We have offered to allow a representative of the United States to visit these prisoners," he said, "and make a report provided reciprocal facilities were accorded us."

Almond, Headquarters Divisional Artillery, in care of Col. Murray, First Canadian Divisional Ordnance, British Expeditionary Force, France—would insure delivery somewhere along the line of trenches—let us hope near Berlin!

I know the men would very much appreciate socks, and I would suggest letter paper and envelopes, towels, shaving soap, razors, pipes and tobacco.

We have been holding a few miles of the front for the past month, and our men are doing splendidly. You will be pleased to hear that Major Frank Magee has been complimented several times on the accuracy of his guns. He is in command of our heavy battery and is a most efficient and popular officer. It is an ever-lasting inspiration to witness these brave boys take their turn in the trenches and march forward to face death to the saving of some popular song—but one feels the atmosphere and can easily detect the seriousness underlying the outward seeming! There is a good deal of optimism in official quarters as to the duration of the war—most seriously that our empire accepts no compromise—German militarism and Kultur must be confined to the pages of history—and it is not much of a legacy to leave humanity!

I should be very glad to distribute any comforts sent to the boys with whom I am associated and I feel this diversion will not hesitate in offering Canada's gift on the altar of empire!

Dear Mrs. Smith—Your letter of March 16 received yesterday, with check for 518 francs enclosed, from the local Red Cross Society of Newcastle, New Brunswick, and writing them also, thanking them for this donation. I wish to tell you that after your first letter and before being up New Brunswick ward, we changed the names of some of the wards and gave New Brunswick one of the best wards in the hospital, on the second floor. We are having lunch up in a most excellent manner for a military hospital. The main operating room is in this ward, also our X-ray department and the operating room for our eye and ear specialists.

I hope, in a short time, to be able to forward the photographs of the buildings and tents, also photographs of the operating room, eye and ear room, and other details in New Brunswick ward, as we expect to have a complete set in the near future.

We are sending the money according to your instructions as near as possible. Of course in the purchase of anesthetics and requisites of this kind, we cannot confine their use to one ward. We will not forget to let patients from New Brunswick know what you are doing for their comfort when they are sick and wounded.

I now have Sister Parks from St. John as well as Sister Margaret Hare and Sister Dunville, who are all doing very excellent work in the hospital. Sister Margaret Hare is particularly proud that so much is being done for us by New Brunswick.

I will write you again shortly and if I can get the photographs passed the censor, will send them along. We feel we have the best military hospital in France and will be very anxious to let you see the pictures. We have now treated about 1,800 patients and up to the present have only had thirteen deaths, and I am glad to say none of them were Canadians.

I made a trip up to the firing line Tuesday of this week, and visited Meriville, Neu Berquin, Bethune and several small villages along the front of the trenches, and saw a great many thousands of the Canadians in their billets along the line.

Thanking you again for your interest in our work, I am, Yours sincerely, A. T. SHILLINGTON, O. C. No. 2 Canadian Stationary Hospital.

Out Boys Cheerful. Mrs. Smith also received yesterday a private letter from her cousin, Rev. Canon Almond, who was one of the five Anglican chaplains to go to the front with the first contingent and who also saw service in the same capacity in South Africa.

Rev. Canon Almond kindly offers to see that the Canadian get any comforts which may be forwarded through him. A portion of the letter follows: Your letter of March 19 received this a. m., and I hasten to reply. I am in close touch with the whole of the Canadian division, and with the Divisional Artillery in particular—8,800 men. Any field supplies or comforts for the men addressed to—Major The Rev. Canon

WOUNDED MAN WHISTLED. Bevery and Sangford of British Tommies is Astonished. The following letter has been received by Miss D. Grover, Chelvey, Ont. from her father, Capt. L. H. Grover, of the 1st Battalion. He tells of the Canadian first experiences under fire, and how the Germans got the range of the trench and dropped about 100 shells in a circle of about 80 yards just back of their position. Little damage was done. "That night we went out. On the way I heard a peculiar 'slap' very close to me. The British sergeant-major at my side what it was. He said, 'Oh, nothing, and started to whistle a tune softly. I must say my surprise when we were safely back to the city, and the sergeant-major showed me where the bullet had cut across the back of his helmet, caused a slight flesh wound. The bravery and sangfroid of these men of England is marvellous. "Our little battalion cemetery is slowly but surely becoming dotted with little crosses. The first officer of the battalion to go was Lieut. 'Billy' Gallagher, of Chatham. He was shot through the top of the head and never knew what happened him."

DOES YOUR STOMACH CONTAIN A GLASSFUL OF ACID? 90 Out of 100 Dyspeptics Have Dangerous Acid in Their Stomachs, Which Must Be Neutralized if Good Health is to Be Maintained. If you had a teaspoonful of hydrochloric acid in your mouth for only a second you would not be surprised at its burning and inflaming all the tissues; yet an eminent specialist states that 90 out of 100 dyspeptics go about with an excessive amount of this powerful acid in their stomachs, and then wonder what causes the burning and aching and why they suffer the discomfort after meals. To put wholesome food into an acid stomach only increases the discomfort because the acid mixes with the food and turns it sour, making a 10 more acid. The acid condition causes food fermentation, which irritates, distends and inflames the tender stomach lining, and it is not surprising that special diets and acid stomachs are dangerous. This decidedly dangerous and uncomfortable condition can be overcome either by following a strict diet or, and this is far easier and more quickly effective, by taking a teaspoonful of bicarbonate of soda in a quart glassful of water at intervals to neutralize the acidity. The latter course is much more satisfactory because it corrects the acidity and banishes discomfort without any need for diet.

The Nationals' Slaughter Of Truro Baseballists

VISIT OF THE ATLANTAS

Games of Halifax Team With Shamrocks and Nationals—Tom Hall's Cycle Race With Jacobs—Daily Beats Farren in Foot Race

Saturday afternoon, July 21, 1888 the Nationals shut-out the visiting Truro aggregation. Wagg, the local twirler, held his opponents to a couple of safes, while his team mates were driving out nineteen singles, two doubles and two triples.

Thursday, July 26, the Shamrocks and the Atlantans, of Halifax, played a great game. It was a pitchers' battle and was a great exhibition. Dan Connolly for the locals allowed only six hits and seven runs, the visiting twirler, held the locals to four safeties. The Shamrocks had been playing in St. Stephen's a day before and did not arrive in the city until three o'clock on the afternoon on which they were to meet the Halifax players.

The visitors had fifteen errors and the locals nine. Time of game one hour and forty minutes. Umpire Jas. Christie.

Nationals and Atlantans

On Friday, July 27, the Nationals defeated the Atlantans, 18 to 9. Wagg was on the firing line for the locals and Manning for the visitors. The following day they again emerged victoriously. Wagg pitched for the visitors. In the first inning the Nationals outplayed the locals and scored five runs. The opponents came back well and succeeded in securing three before they were retired. The Nationals took the lead in the fourth by securing three more runs. They scored again in the fifth and the Nationals sent two men across the rubber and again tallied in the ninth making the score eight to eight. Neither team could score in the tenth, but in the first of the eleventh the Nationals put a man across the plate and eventually won the game. Tom Bell scored the winning run. After two men were down he drove out a fine double, while the third went home on a wild pitch. Paterson resigned until the third man of the visitors was put out.

Tom Hall Wins Cycle Race

On Wednesday evening, August 8, Thomas Hall, a popular athlete, defeated A. E. Jacobs of the Maiden Bicycle Club. The bicycle race was held on the Athletic grounds and attracted a large number of people. Hall went off like a shot and continued to lead his opponent until near the end of the race when both riders were fighting for the lead neck and neck. Hall, by a well timed sprint, jumped into the lead and carried the honors with him. Frank Tufts and C. Souter were timers and D. Robertson acted as judge and starter. Time of the race was 8:17-1/2.

Sprint at Moosepath

On August 28 a large crowd proceeded to Moosepath Park, Halifax, to witness the much talked of race between Daly and Farren, and long before the men appeared on the track an eager, excited throng was present. After the arrival of the five train James Berry was chosen referee, and James Lindsay started the track and measured and sundry other arrangements made. Excited crowds of men clustered all over the field, backing their favorites. Daly was the favorite, odds being given at a basis of 6 to 4. A great deal of money was put up.

Farren was the first to make his appearance on the track. He threw aside his great coat and took a thirty yard sprint, being met with bursts of applause from his admirers. Daly later appeared with Arthur McHugh. He too, was sent for with bursts of applause from his admirers. Daly later appeared with Arthur McHugh. BOY'S HEAD A SIGHT FROM ECZEMA

In Blisters, Itched and Burned Badly. Had to Put Gloves On Child's Hands. Cuticura Healed.

30 Abbott Ave., Toronto, Ont.—"My boy had eczema badly all over, but his head was affected most. It came out in blisters. It was a sight to look at. It itched and burned so badly that I had to put gloves on the child's hands. It came out first on his face near the ears, and then went to his head and then on his body. His head was like a sack. It was made by J. L. Matthews, chairman of the County Board of Forestry, when the blossoms indicated nearly double the quantity of previous years.

The hedge is eight feet high and four feet across the top. In it are La France, La Marque, Henrietta and Papa Gontier varieties. The property is owned by George W. Griffin.

Matthews figured the total number of buds by carefully counting them on a square section. So far as known, it establishes a new record for quantity of roses on one hedge, even in Southern Ontario, where they grow in greatest profusion.

Last Night's War Cables

London, April 27, 10.30 p. m.—On the narrow, rocky Gallipoli peninsula in Turkey, and on a restricted front stretching northward from Ypres in Belgium, two of the most vital struggles of the war are now in progress. Neither has yet reached a stage which would permit of a prediction of the ultimate result.

In the Gallipoli peninsula a picturesque assortment of Allied troops landed Sunday, supported by the fire of the warships and are trying to batter their way through thousands of German-officered Turks in an effort to force the Dardanelles—the main gateway of the Ottoman empire—and reach Constantinople.

Melbourne, via London, April 27, 11.03 p. m.—It is officially announced that a British warship has captured the German trading steamer Delfino, which is believed to have been the last German ship free in the Pacific.

London, April 28, 8.38 a. m.—A dispatch to the Morning Post from the North of France says that a Zeppelin visited Calais Monday and dropped numerous new type of bombs of greatly increased power. The occupants included thirty civilians. A fleet of aeroplanes visited Amiens without serious damage.

London, April 27, 9.35 p. m.—The appeal of the British Committee for Relief in Belgium has resulted in \$300,000 being collected in less than twenty-four hours. New South Wales contributed \$18,000. The Lord Mayor of Melbourne's fund aggregated \$100,000.

SHIP OUTDOES BARKENTINE IN A 6,000 MILE RACE

Boston, April 28.—The 800-mile ocean race between the ship Rhine and the barkentine John S. Emery, which started from New York on April 25, was won by the Rhine, which arrived at her destination on last Thursday, after a passage of fifty-seven days. The Rhine had not yet been heard from. When the pair of square riggers left here for South America the odds were slightly in favor of the Emery.

PIMPLES APPEARED ON HIS FACE AND HANDS.

The primary cause of pimples arises from the blood not being in good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble, they make you appear unattractive to your friends and yourself. What you need, when these pimples break out, is to get a good blood purifying medicine such as Burdock Blood Bitters. One that will build up the system by cleansing the blood of all the impurities and poisons which cause the skin to break out in these eruptions.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent smokes," etc., have failed. WHEN ROOSEVELT WAS SWAYED BY THE "BOSS"

Correspondence Read at the Barnes Libel Trial Showed the Colonel Consulted Platt When He Was Governor and U. S. Vice-President.

Sarasota, N. Y., April 27.—Morphitherto unknown chapters of political history were revealed in the supreme court here today when confidential correspondence that passed between Theodore Roosevelt on one hand and Wm. Barnes and former United States Senator Thomas C. Platt—"The Boss"—on the other, was read to the jury.

The letters that passed between Col. Roosevelt and Senator Platt showed that the two continued to consult on friendly terms until the former was sworn in as vice-president and then president. In a telegram sent to Col. Roosevelt while he was still governor, he had received the signing of a bill for exempting from the franchise tax grade crossings of street railways, and asked that "my friends of the New York Central" and Senator Depew were "anxious." Colonel Roosevelt replied that he had received the telegram "too late."

In another telegram, when Senator Platt indicated that Col. Roosevelt, then governor, attend the meeting of a commission, the colonel, after protesting, agreed to do so, and added: "But you are not an easy boss."

The colonel, when vice-president, asked that his former confidential correspondence be given to the public, but the senator, in other letters, appointments were discussed.

THE LEGISLATURE

Fredrickton, April 27.—The house met at 10.30 a. m.

Hon. Mr. Clarke introduced a bill to amend the law respecting mechanics' liens to amend the New Brunswick mechanics' act, and to amend the audit act.

Mr. Stewart moved for return of the bonded and other indebtedness of the province.

Hon. Mr. Clarke said the papers would be brought down without the formality of an address.

The house went into committee, with Mr. Muir in the chair, and agreed to the bill amending the mechanics' act which enables agricultural societies to make temporary loans; also respecting trespasses on crown lands, which provides power to expel squatters and others who locate themselves without any authority on the crown lands, upon order of the sheriff or other person appointed by the minister of lands and mines; also respecting absconding, concealed and absent debtors. This bill assimilates procedure for dealing with these debtors with that in use under the assignments act. The present form of procedure for dealing with absconding, concealed and absent debtors is expensive and dilatory and the object of the act was to simplify it.

The committee then took up consideration of the bill to consolidate and amend succession duty act.

Hon. Mr. Baxter said that the provisions of bill differed from those in any other province. Its object was to increase the duty at present paid, but to insure that the duty was paid on all property of a testator died possessed of, and not on the property which he had not been his experience that there was any general desire on the part of wealthy men to invest their property outside of the province and thus evade liability for duty. But under the provisions of the bill under consideration such would be difficult. Under a provision of the British North America Act the province has right to tax for revenue purposes property in the province only, and it has been decided by the privy council that the province has no power to levy a duty on property outside their boundaries. A later case, however, also before the privy council, indicated there was some doubt of the correctness of this decision, and it appeared that the right to tax property outside the province depended upon the language used in the law of each particular province. In preparing the bill, under consideration, he had limited its provisions to affect only

A KIDNEY REMEDY ADVERTISEMENT BROUGHT GREAT HAPPINESS

I take pleasure in stating that I have used Dr. Kilmer's Swamp-Root, that I was greatly benefited by the same and have used it in my family. I had a son when quite young he suffered from bladder or kidney affliction. I called in my physician, he attended him, but did him no good. Almost by accident I noticed an advertisement about the curative properties of Dr. Kilmer's Swamp-Root. I procured a bottle and gave it to him according to directions. It cured him of what we thought was almost impossible, and the same with others of my family. I have such strong faith in Swamp-Root that I have never done without it in my family since the wonderful cure of my son as well as myself. I recommend it to all who suffer from kidney or bladder troubles, and I am led to believe that it is one of the best medicines for the purpose for which it is used, that has ever been discovered.

This is my experience from the use of Swamp-Root. Wishing the promoters of this wonderful medicine a large sale to the suffering public, I am, Yours respectfully, W. H. McAFEE, 63 Broyles St., Atlanta, Ga. Witness: E. O. WILLIAMS, Notary Public.

properly situated within the limits of this province. Mr. Tilley asked if a man died in Quebec leaving property in New Brunswick, how would it be affected by this act. Also if man dies domiciled in this province leaving property in some other province, which will exact a duty on it, would the duty have to be paid to this province as well, thus taxing it twice over?

Hon. Mr. Baxter said in the first case the property in this province of a man living in Quebec is liable for duty in this province under the present law and would be so in the future; and in second case it would be a factor in calculating the amount of duty to be paid in this province, that the duty had to be paid in the other province also. He was looking, however, at no distant date to some sort of reciprocity in taxation in matters of this sort between the provinces, when the matter would probably be adjusted.

Mr. Tilley thought that the provision calling for double rate of duty to be paid by a legatee, and living outside province, would work hardships, particularly in the case of a person who was of no relation to the testator, when the duty would be 20 per cent. Some time ago a case came under his own notice where a testator in this province left \$800 to an old friend in Toronto. It seemed to him that it was distinct hardship to deduct twenty per cent, or \$160 from that legacy.

Mr. Slipp agreed and said such a rate was far too heavy and he thought ten per cent duty was ample.

Hon. Mr. Baxter said he would take the matter into further consideration and moved that the section stand.

The committee then reported progress. The house adjourned at 11.15 p. m.

On "family night" at the Chester, Pa. Tabernacle, Rev. Mr. Nicholson announced that he would give to the family presenting the largest membership at the tabernacle a handsome prize and stated that at Shamokin the record was seventeen. "Chester can beat that," announced a voice in the audience, and twenty-four persons, all members of the family of Caleb H. Reed, stood up to be counted.

On Friday, July 27, the Nationals defeated the Atlantans, 18 to 9. Wagg was on the firing line for the locals and Manning for the visitors. The following day they again emerged victoriously. Wagg pitched for the visitors. In the first inning the Nationals outplayed the locals and scored five runs. The opponents came back well and succeeded in securing three before they were retired. The Nationals took the lead in the fourth by securing three more runs. They scored again in the fifth and the Nationals sent two men across the rubber and again tallied in the ninth making the score eight to eight. Neither team could score in the tenth, but in the first of the eleventh the Nationals put a man across the plate and eventually won the game. Tom Bell scored the winning run. After two men were down he drove out a fine double, while the third went home on a wild pitch. Paterson resigned until the third man of the visitors was put out.

On Wednesday evening, August 8, Thomas Hall, a popular athlete, defeated A. E. Jacobs of the Maiden Bicycle Club. The bicycle race was held on the Athletic grounds and attracted a large number of people. Hall went off like a shot and continued to lead his opponent until near the end of the race when both riders were fighting for the lead neck and neck. Hall, by a well timed sprint, jumped into the lead and carried the honors with him. Frank Tufts and C. Souter were timers and D. Robertson acted as judge and starter. Time of the race was 8:17-1/2.

Johnson's New Order
President Ben Johnson of the American League has just promulgated an order to his umpires which will prohibit the players from indulging in bumping around close to the grand stands prior to the starting of the games. This has been done from time to time by all the big clubs and balls very often have been fouled into the stands and there have been several lawsuits. Spectators take their own chances when the games are in progress, but being hit during the preliminary drill when there are many baseballs flying about is a different thing.
Johnson believes that the teams can get all the bumping practice they are in need of in the morning and before the crowds begin to arrive at the ball parks.

Wrestling
"Cyclone" Burns Won.
Portsmouth, April 28—The "Dixie" Bob Allen vs. "Cyclone" Burns wrestling bout here tonight developed into a rough house on the mat, during which "Farmer" Bill Dryden, who was acting as referee, was punched in the face by Allen, in addition to having a brawl on the mat with both performers. The melee was not ended until the police interfered.
Allen won the first fall in 39:30, and after the men had been working six minutes in the second round, they got off the mat. They refused to break their holds and come to the centre, whereupon Dryden attempted to break them.
Dryden pulled Burns out of the way, and was tackled by Allen, and they were having a fine mix-up when the police rushed in. Dryden gave Burns the second fall. The third fall and match

The question of "money and woman" broadens, and now we are alive to the fact that June is not the only woman to whom this problem is a serious one. Any uncertainty as to the permanent interest of this serial vanishes in this installment. We are now prepared for a breathless run. June finds employment in a fashionable dressmaking establishment as a model, but the man with the black handkerchief gets her discharged. (The costumes in this scene are dreams). Detectives are employed by Mrs. Bire and also by June's husband, which cause a very funny mix-up. The interest never flags.

The Man in The Street

Been out fishing yet?
The cub reporter procures a nice cheery "write-up" to the first Watlington who gets his basket filled, but "we're from Missouri", remember.

Wouldn't Any Other Street Do, Also?
Local resident's day of Salisbury Plains—"A little worse than the mud on Main street following a rainy day".

If the Allies keep up their good work in the Dardanelles, the Turks will soon be in the straits of desperation.

Forty-two women met at a peace congress in The Hague yesterday, passing unanimous resolution in favor of peace. Their husbands will probably now have cause for rejoicing.

Little Question of the hour—"Who was to blame in the soldier-police fight in Charlotte street?"

Answered by the police—"Some of those fresh guys in uniform."

Answered by the soldiers—"Some of those new fly cops."

An ordinary day appears insignificant now unless it's got a name. May is this year is to be "Linen and Cotton Day".

First of the Season.
Man wearing straw hat arrived in city from south last evening. If he stayed in St. John it's safe to say some better made a sale.

The lady at the front seem to be happy, according to their letters home, but when they hear that the folks are home—cleaning, they'll have reason to be happier.

Personal and Social.
Glasville correspondent to Harland Observer—"Bill Adam is getting a pile of heavy stock and axe-handle wood now."

Business as Usual.
Overheard in a street car—"Who's your dressmaker?"
"She's the lady who says she can't make my suit till the middle of May."

St. John now has a "chief of its detective staff", says news note. Ah! At last we shall discover what old we were selling ice-cream to the kids on Sunday!

Major Gen. Sam Hughes is protesting against the music furnished our soldiers; apparently he's never heard the bugles of the 20th.

A despatch says that the French now have Hot Sas. Things must have been warm enough even without that.

"Men who play are the men on top," says a lecturer. Seems to depend on what they play, some local citizens had to face the magistrate after their little game.

The Standard will never be happy until ex-Premier Flemming is raised to the rank of the canon.

Banks are going to make a small charge for accounts which do not show an average monthly balance of \$200. Men in the Street says they may as well take his quarter right away.

AN OPPORTUNITY FOR CANADA

(Continued from page 1.)
confusion, which will be caused mostly by the return of vast numbers of soldiers which the contracted trades and industries will not be able to absorb right away, and so the time necessary for the readjustment of those conditions may be somewhat protracted. This should be avoided if possible, minimized at least, and if the plans devised by the London committee are put into practice every soldier properly qualified will fall into "readjustment" just as soon as he gets his freedom from uniform. How this is to be done is being investigated. Colonel Hammond has been interviewed by the premier of Nova Scotia, and tomorrow he will be with the provincial government at Fredericton to discuss matters.

This project, Colonel Hammond continues, is to be an Imperial matter and it is hoped that the dominions will lend assistance. No finances at the present time are in an overly healthy state and if the provinces of the dominion find it difficult to finance any scheme of absorption, the colonel says it is the intention of the committee to ask the Imperial government to loan the provinces money at a low rate of interest. "Canada is the head and frontiers, everyone looks to Canada and Canada's opportunity presents itself."

No definite action has yet been taken up by the committee, of which Earl Grey is the head, but Lord Lytton and several other prominent persons in the motherland have propositions to make. He proposes that every soldier be given free transportation to any part of the empire where there is employment for him. If he settles in Canada, it is also proposed that, within a reasonable time, the government will pay for the transportation of his wife and family to his new home. Widows of soldiers are also to be dealt with generously.

"Of course Canada must make provision to absorb her own soldiers first and then there will be plenty of room for boys of old England who will want to move from there when the war is over. I may have to travel over Canada two or three times, but I want to get an idea of how many can be placed in positions—it may be 200,000, it may be half a million."

"The means of absorption exist in all the colonies, but they must be organized and if the organization is completed before the war is over ten things will readjust themselves automatically and the new economic state of things will dovetail with the moulded preparations."

The colonel left London only a few weeks ago and in speaking of the attitude of the people of England at the present time he said—"It is most extraordinary. But for the soldiers one would not know there was a war. People are cool and collected. There is no flag waving at victories and no outward lamenting at calamities. When the great end has been accomplished then will come the outburst. Nothing is proper when it is premature." He said, however, that they have every confidence of victory and never since the outbreak of war has he heard the possibility of defeat entertained seriously.

BROTHER OF J. C. CURTIS AMONG WOUNDED AT NEUVE CHAPELLE

Bullet Through Shoulder and Out Back—He Has Been in Several Campaigns

The London Chronicle has the following in its war notes:
"Sergeant Arthur Curtis, of the Rifle Brigade and son of Mr. and Mrs. H. Curtis, of Pavilion-road, was among the wounded in the recent severe engagement at Neuve Chapelle. The bullet passed through the shoulder and came out at the back, narrowly escaping a vital part in its passage. Sergeant-Major Curtis, who has been in the army for nineteen years, is expected home in a day or two."
Sergeant Major Arthur Curtis is a brother of J. C. Curtis of the Donaldson Lineas, who is a member of the St. John and who will leave tomorrow for Montreal for the summer. The sergeant major broke out here in London and returned home to take his part again in the army.

LANCASTER WOULD SHARE IN CELEBRATION

Want Representations on Committee to Arrange For Proposed Public Opening of New Bridge

The citizens of Fairville, now that the spring has come, are hoping there will be no unnecessary delay in completing the new bridge at the Falls, for the completion of which the provincial government has provided another \$75,000.

A suggestion has been made and met with the hearty approval of several in authority that the Lancaster Board of Trade and county councillors might be represented on the committee of arrangements for the proposed public opening of the bridge, in which the government and St. John Board of Trade have already intimated they would participate.

If any sections to benefit by the new span across the Falls, Lancaster should, and it seems right that the district should be to the fore at the inaugural ceremonies.

GERMANS WERE WATCHING FOR CANADIAN SOLDIERS

In a letter from "Bud" Tippet of Fairville to his mother, Mrs. George Tippet, he tells of some of his experiences in France. His battalion had seen active service in the trenches and the fact that, even as the first of April, the Germans were making the position of the Canadian soldiers known to them by experience. On the first day in the trenches the Germans opposite them called them an account of their work in Canada. "No 2, age of the boys replied: "We are the Grenadier Guards." "Fought in France," he said, "but you are not, we know you are Canadians." After they left the trenches some of their men went to the rear and were shot by a German sniper. Another man went out to look for them and was shot also. Then the Canadians took a hand and soon the sniper was no more.

PREMIER SYMPATHIZES WITH THEIR DESIRE FOR NEW ASSESSMENT ACT

The following communication in reply to a resolution passed at the recent convention of the New Brunswick Retail Merchants' Association, has been received from Premier Clarke by N. C. Cameron, secretary of the Association: Crown Lands Department, Fredericton, N. B., April 24, 1915.

Dear Sir—I have your letter of April 20 and, personally, have the utmost sympathy with your desire to secure, if possible, a more equitable assessment system for the province.

Your letter arrived at so late a date in the legislative session, however, that it will be impossible to take any step to meet the wish of your Association for the appointment of a commission to secure the information looking toward the end you wish to achieve.

At a subsequent session it may be possible to meet the request of the Association in the matter.

Yours sincerely,
(Sgd) GEORGE J. CLARKE,
Mr. N. C. Cameron,
Secretary, New Brunswick Provincial Board, The Retail Merchants' Association of Canada, 124 Prince William street, St. John, N. B.

Mr. Cameron said this morning that the association will take up the matter at the next session of the legislature and press for action.
