UNIVERSITY FOR ALL IS PROJECT

Colossal British Education Scheme in Commons

THE MAIN FEATURES

Great Money Grants to Carry Out the Provisions—All Modern Appointments in Connection With the Old Country Schools

(Canadian Press)

London, Aug. 23.—The government's colossal scheme to provide a "golden road" by which the hundreds of children in the elementary schools may reach a university, was sketched in broad outline in the House of Commons last night.

The universities, the technical schools, the secondary schools, and the elementary schools, will be co-ordinated into one great scheme. Baths, playing fields, nurseries, gymnasia, national inspection, nursing, housecraft, cooking, and other domestic subjects to be given to local authorities and supported with extra money; intermediate education for all who desire it and for all classes.

Free meals to be provided for school children on Sundays and holidays. Strong powers to be given to local authorities to prosecute in cases of cruelty to children.

WRITTEN CONSENT TO DIE BY HER HUSBAND'S HAND DOES NOT SAVE HIM

Lyons, France, Aug. 23.—Sentenced by a Lyons court to five years' imprisonment, a contractor named Dorat, with his wife, took all their savings, \$600, and went off for a tour in the United States, France, and the north of Italy.

REORGANIZING THE POLICE FORCE OF PARIS

Paris, Aug. 23.—M. Hennion, the new prefect of police, to whom Paris already owes a series of traffic regulations which have proved effective beyond all expectation, has undertaken the reorganization of the police force.

SERIES OF THEFTS BY EXPRESS TRAIN ROBBERS

Geneva, Aug. 23.—An international gang of express train robbers who "work" in Switzerland every summer season have made several victims lately. An Englishman, Mr. Stewart, was robbed between Lugano and Milan in the express, his pocket-book containing \$400 in notes being taken, while a Baltimore merchant lost \$8,000 in a similar fashion between Munich and Lucerne.

Hon. Mr. Samuel's Visit

Ottawa, Aug. 23.—Hon. L. P. Pelletier, postmaster-general, will meet the British postmaster-general, Hon. Mr. Samuel, on his arrival in Canada next week and will accompany him as guide and exponent of things Canadian on a tour through western Canada next month.

POLICE COURT

Two prisoners were fined \$8 or thirty days in jail for drunkenness.

QUEBEC SURPLUS FOR THE YEAR MORE THAN \$400,000

Gouin Government's Good Showing — Succession Duties More Than Million

Quebec, Aug. 23.—The statement of the receipts and expenditure of the province of Quebec for the fiscal year ended June 30, 1913, shows that the Gouin administration has a surplus of \$429,892.85, receipts being \$8,988,877.84 and expenditures \$7,558,984.99.

MAKE TRIPOLI CENTRE OF WHITE SLAVE TRAFFIC

Arrests of Leaders Effected — Campaign by Italian Government

Milan, Aug. 23.—The Italian government is making an energetic effort to suppress the white slave traffic in Tripoli, where it has assumed alarming proportions owing to the flight thither of many infamous dealers, who have been chased away from England, France and Northern Italy.

Liberal statesman naturally is triumphant over these convincing proofs that the government policy of taxing wealth has neither checked, properly nor driven capital from the country, as the opposition predicted.

CANNOT TELL YET WHETHER COYLE WILL SURVIVE OR NOT

The condition of Hartley Coyle, who was found last night with a bullet hole in his left breast, was reported to be very serious this morning. The hospital authorities could not say for sure whether or not the wound would prove fatal.

EDITOR SURE OF TWO GOOD DRINKS A YEAR

Berne, Aug. 23.—The editor of a Swiss weekly paper has just received a legacy which astonished him exceedingly. A Swiss resident in Moscow, who was a regular subscriber to his paper, died recently, leaving a sum of money in a bank, with instructions to the banker to pay the editor twice every year \$5 for the duration of his life.

Austrian Admiral Killed

Pola, Austria, Aug. 23.—Admiral Count Von Wellenburg of the Austrian navy, died yesterday as the result of injuries received by the bursting of the breech block of a large gun, which was being tested.

STRAYING CATTLE

Considerable annoyance has been caused to residents in Bellevue avenue lately by the depredations of straying cows and horses. The owners tell the property owners to put up fences; this they are not expected to do by law.

NOT SPORT

The boy who was using a small mirror to train the sun's rays into the eyes of the St. Croix players at yesterday's game was doing something which merited his prompt ejection from the grounds.

VITAL STATISTICS

The birth of seventeen children, ten girls and seven boys, and two marriages were announced in the last week with Registrar J. B. Jones.

England Joyous With The Times Very Prosperous

The Poorhouses Closing, Wages Rising, Business Firms Flourishing

Only Dark Cloud is Fear of National Strike in Some Sections of Labor—Chesterfield Election, it is Thought, Strikes Blow at Labor Party—The Panama Exposition

(Times' Special Cable) London, Aug. 23.—Every day supplies fresh evidence of the amazing present prosperity of England. Pauperism is declining rapidly. Many workhouses are closing. The wards or branches of one prominent London district, the Strand, recently closed altogether.

English theatrical managers are seriously debating what is wrong with the stage. During the last season it was impossible to find sufficient good new plays; many prominent houses having to depend upon revivals.

Liberal statesman naturally is triumphant over these convincing proofs that the government policy of taxing wealth has neither checked, properly nor driven capital from the country, as the opposition predicted.

THE PANAMA EXPOSITION

A powerfully backed agitation, led by the Times, still continues here to compel the British government to rescind its decision not to participate in the Panama exhibition.

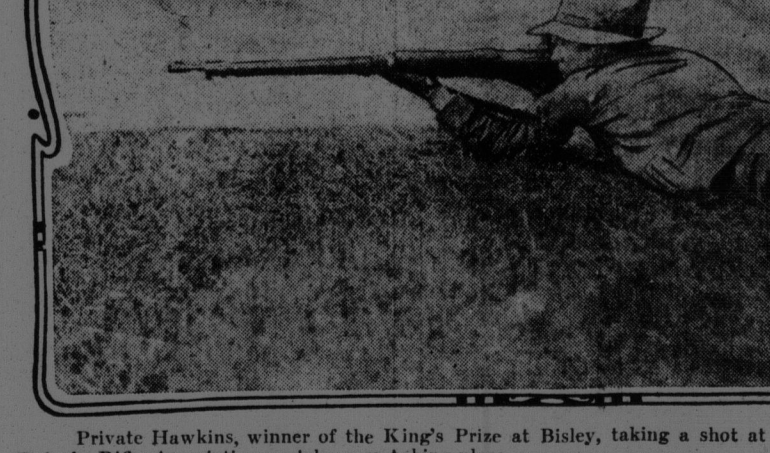

OTHERS, TOO, GUILTY OF MASSACRES

London, Aug. 23.—Closely following the report of the Russian inquiry into the atrocities at Adrianople, which showed the barbarity of the Bulgars towards the Turks, comes a report of a consular investigation showing that the Kurdish cavalry in the Malagras regions, destroyed ten Greek and eight Bulgarian villages and massacred all the males and many females.

FOURTEEN DEATHS

Fourteen burial permits were issued by the Board of Health during the last week. The causes of death were: Cholera infantum, two; infantile ascariasis, two; senility, paratyphoid, one; meningitis, tuberculous typhoid fever, one; chronic Bright's disease, one; intercurrent of bowel, tuberculosis of stomach and intestine, one each.

THE KING'S PRIZE WINNER IN ACTION

Private Hawkins, winner of the King's Prize at Bisley, taking a shot at the Long Branch rifle range, where the Ontario Rifle Association matches are taking place.

REV. LEANDER A. PALMER IS DEAD

Former Baptist Clergyman Here— Wife Was Miss Sullis of St. John

Dorchester, Aug. 23.—A telegram from Somerville, Mass., announces the death of Rev. Leander A. Palmer, B.A., of Kamloops, B.C., son of the late Alpheus and Mary Palmer, of Dorchester.

SYDNEY HAS HAD 408 SMALLPOX CASES

Type Declared Mild—Believe it Carried From United States By Mormon Missionary

Sydney, N. S. W., Aug. 23.—Smallpox broke out here on April 25. Since then there have been 408 cases of the mildest form. There have been no deaths, although the population of the city is 700,000, and nine-tenths were unvaccinated.

MONEY IN THE WEST

Winnipeg, Aug. 23.—The financial situation in western Canada has never been any more acute than in the older countries of the world, according to an opinion expressed yesterday by H. Y. Meredith, vice-president and general manager of the Bank of Montreal.

TO DESTROY LETTERS LEFT BY KING EDWARD

London, April 23.—During the visit of Queen Mother Alexandra to Balmoral in the private correspondence of King Edward is to be destroyed. The letters have been in charge of King George's bankers, King George wishing to destroy them all but his mother's first refusal. She has now agreed to their destruction, with the exception of a few of which she has personally taken charge.

THINK TYPHOID HAS BEEN SUCCESSFULLY CHECKED

With the cause of at least part of the contagion removed the typhoid situation in this city has shown a marked improvement. The first of August thirty-two cases were reported and of these three have died, one death occurring during the last week. There have been few new cases recently and it is believed that the prompt action of the health authorities has put an end to what threatened to become an epidemic.

IN THE MARKET

There was a good supply of all kinds of vegetables in the market this morning. Green corn made its first appearance at 27 cents a dozen. Peas and beans are still plentiful, peas at 85 and beans at 40 cents a peck. New potatoes still continue to sell at 25 cents a peck. Good tomatoes were scarce. The best sold at fifteen cents, celery sold at eight and ten cents a bunch, radishes, red and white, and carrots all went at five cents.

NEW POWERFUL TORPEDO FOR JAP BATTLESHIP

London, Aug. 23.—The Japanese cruiser Kongo completing the taking on of stores at Devonport for home, carries forty torpedoes of a new secret design, made in the Whitehead works. The new torpedo is propelled by heated air. It outranges the British torpedo by from two to four thousand yards.

FIVE REAL ESTATE SALES IN THE CITY REPORTED TODAY

Purchase of Cruikshank Property by H. A. Doherty is Among The Number

The following five sales made by Allison & Thomas go to show that St. John real estate is being bought and sold regardless of the fact that the real estate business in practically every city in Canada has been very inactive of late.

A large freehold property at the corner of Dover street and City road, 53 1/2 blocks, formerly a portion of the Guyon estate has been sold to an outside purchaser; also a freehold lot on the east side of Charlotte street extending to City line has been sold by Allison & Thomas to a local buyer.

Harold Chadwick to Lloyd Chadwick et al. property on Ludlow street, Corner T. P. Charlton to R. M. Burden, property on Douglas avenue. Harold Chadwick to Lloyd Chadwick, property on Britannia street.

STARTS ANOTHER HOME RULE SCARE

Unionist Press Predicts Martial Law in Ulster

London, Aug. 23.—"Ulster is to be dragged into accepting home rule, probably under martial law," is the assertion of the Unionist Standard. The recent Londonderry riots furnished the Unionist newspapers with texts for articles predicting gruesome doings, if home rule is enforced.

CALLS IT COERCION

Puts Together Alleged Programme of Action by Government—Reported That Belfast Merchants Are Taking Out Riot Insurance

London, Aug. 23.—"Ulster is to be dragged into accepting home rule, probably under martial law," is the assertion of the Unionist Standard. The recent Londonderry riots furnished the Unionist newspapers with texts for articles predicting gruesome doings, if home rule is enforced.

TO TEACH PRINCES FRENCH

Geneva, Aug. 23.—It is announced by the Swiss newspapers that King George of England proposes to send his two younger sons to Lausanne this autumn for a long stay for the purpose of learning French. Although at the British consulate at Geneva and Lausanne, nothing of the project is to be learned officially, it may be correct, as inquiries are, it is understood, being made in both towns concerning suitable professors. The king, with the late Duke of Clarence, spent the winter of 1882-1883 at Lausanne to learn French.

"Know-How-Itiveness" Stick-to-it-iveness.

These two words embrace the motto of the most successful manufacturing drug man in the country. He is one of the largest advertisers in the daily newspapers in the United States.

He began using them after a careful study of the best means of reaching the consumer and interesting the retailer. He knew how. And he stuck to it. He has got rich in a few years and he has the most loyal following of retailers of any manufacturer in the world.

TWENTY BANDS AT FREDERICTON FAIR

Several St. John Musical Organizations Will Take Part—Jubilee of Exhibitions Being Observed This Year.

Never in the history of Fredericton's exhibitions has there been so much public interest displayed as there is towards the coming fair which will be held under the auspices of Agricultural Society No. 34 at the capital this September. The fact that the 1913 exhibition will be the fiftieth anniversary of Fredericton's fair life will prove a pleasing feature and the many extra amusements and attractions which will be presented especially to honor the occasion will add to the brilliancy of the festive week. It is understood that several of New Brunswick's most prominent speakers will participate at the opening ceremonies, and a stupendous array of fireworks will be displayed on opening night in commemoration of the exhibition's fiftieth birthday.

Twelve Years Horrible Torture

Ontario Lady Suffered Tortures for 12 Years With Burning Eczema. "Fruit-a-tives" and "Sootha-Salva" Completely Cured Her.

NEWINGTON, ONT., Jan. 21st, 1913.

"I was a dreadful sufferer from that awful complaint Eczema, or Salt Rheum, and this trouble bothered me for about 12 years. My hands and arms were chiefly attacked, and the pain and irritation were terrible. I consulted several doctors and tried every remedy I heard of, but nothing did me any good. Last June, when in Ottawa, a friend asked me to try 'Sootha-Salva' Ointment and to take 'Fruit-a-tives' at the same time. I had little hope that this would be any better than the other remedies, but after I had taken two boxes of 'Fruit-a-tives' and used one box of 'Sootha-Salva' I was entirely cured and all the irritation and annoyance left me. My hands have been, ever since, perfectly free from the Salt Rheum, and I have had no return of the disease. I look upon the cure as wonderful, inasmuch as no physician was able to cure me, and I had tried every remedy that I had been told about, yet without the slightest benefit, until I used 'Sootha-Salva' Ointment and took 'Fruit-a-tives.' 'Fruit-a-tives' cooled the blood, and practically relieved the disease and the Ointment completed the cure.

I cannot sufficiently thank the proprietors of these medicines for my relief and I make this statement with the hope that some sufferers from Chronic Eczema or Salt Rheum, will read my testimony and try this wonderful ointment and 'Fruit-a-tives,' and get well. No one can estimate the torture of this terrible disease who has not suffered from it, and I want the good news that a remedy has been found, to be known everywhere.

(MISS) LAURA E. MATTHEW

"Fruit-a-tives" and "Sootha-Salva" will cure any case of Eczema, no matter how severe or how long you have suffered. Eczema is caused by impure blood, chronic indigestion, constipation and nervousness, but there is usually a tiny parasite or germ which attacks the skin and causes the burning and itching. "Fruit-a-tives," removes all impurities from the blood, tones up the stomach, improves digestion, and regulates the bowels. "Sootha-Salva" kills the germs of Eczema, allays the burning and inflammation, and stops the intense itching. If you are suffering with Eczema, no matter what you have tried for it, take the advice of Miss Matthew and use the wonderful combination of "Fruit-a-tives" and "Sootha-Salva."

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c. "Sootha-Salva" is 50c. box. Sent on receipt of price by Fruit-a-tives Limited, Ottawa.

A Horse Census.

Sussex, Aug 23—An officer of the permanent militia is on a tour through the province on a motorcycle, taking a census of the horses which can be mobilized in case of war. He is following the line of the railway and will also take in the St. John river. He will secure the names of the owners, and will report on the total strength of horses which the province can muster. In the cities, it is believed, the officer will investigate the possibilities of motor-trucks.

FALLING HAIR

Dandruff and Itching Scalp are Caused by Microbes

There is no doubt about it. Doctor Sangremond proved it when he infected a guinea pig with dandruff germs and all its hair disappeared in a short time. The entire medical world has accepted Dr. Sangremond's discovery as final. Ask any worthy physician.

Paris leads the world in knowledge of diseases of the hair and remedies for the same.

Parisian Sage, which can now be obtained at leading druggists all over Canada is the one great remedy that kills the dandruff germs.

That is why all druggists say to every reader of the Times-Star if Parisian Sage does not banish dandruff, stop falling hair or itching scalp in two weeks, they will refund the purchase price.

Dandruff is the forerunner of baldness. Take care of your hair while you have hair to take care of. Kill the dandruff germs now before the dandruff germs kill your hair.

Use Parisian Sage, the guaranteed dandruff cure and delightful hair dressing.

It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair. Comes in large 20-cent bottle at all druggists and leading druggists everywhere. Get with Auburn hair on every package. Made in Canada by The R. T. Booth Co., Ltd., Fort Erie, Ont. Mail orders filled, all charges prepaid.

Daily Hints For the Cook

Orange Sherbet

Take two tablespoons of gelatin, dissolve it in a little cold water, let it stand an hour, and then pour over it a little boiling water. Mix the juice of ten oranges with one pint of sugar, and one quart of cold water, add the gelatin and freeze.

Chocolate Icing

One cup of sugar, one-third cup of milk, butter one-half the size of an egg. Put these in a pan and boil until they begin to thicken. Scrape a square of chocolate and let it melt in a bowl over the kettle. Pour the other ingredients over the chocolate and beat until it begins to thicken. Add a little vanilla before using. If any one likes fudge I think they will like this. It is very nice, nice, thick, but rather hard to get just right at first. It makes enough for a large loaf of cake. Some one please try.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous surfaces of the ear. When this tube is inflamed you have a running nose, imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of the system the hearing will never be restored. Deafness is caused by Catarrh of the Eustachian Tube, which is nothing but an inflamed condition of the mucous surfaces of the ear. We will give you Catarrh of the Eustachian Tube, which is nothing but an inflamed condition of the mucous surfaces of the ear. Deafness cannot be cured by local applications. Send for our book, "The Catarrh Cure," 25c. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

FURNITURE At Bargain Prices

When we say "Marcus For Bargains" don't make the mistake of thinking that it is just another of those time-worn, much-over-worked, meaningless expressions.

SAFETY AND PROFIT GUARANTEED

Bonds yielding five and six per cent and mortgages yielding six and seven per cent well secured are considered good investment but the guaranteed Debentures yielding eight per cent and secured by trust mortgage on the valuable properties being acquired by J. S. Gibbon & Co., Ltd., furnish an investment having all the essential features of safety together with most attractive interest earning power.

First applicants for these Debentures can secure them at par value of \$100 per share. The Company has the right to redeem these Debentures at \$115 per share.

RECENT DEATHS

The death of Mrs. Michael Devine occurred yesterday at the residence of her mother, Mrs. Sarah McManus, 90 Brussels street, after a lingering illness. Besides her husband and mother, the deceased is survived by five brothers, William, Frank and John, of this city, and Harry and Charles, of Montreal; and two sisters, Helen and Annie, at home.

After an illness of about two weeks, John Kilpatrick, of this city, died yesterday afternoon at the General Public Hospital, in his seventieth year. Mr. Kilpatrick had for some time been employed by the city as a watchman on the Pettigall wharf. He was well-known in the city where he had spent the greater part of his life as a boatman, and was greatly respected by his brothers, Joseph, of this city, and Alec, of St. Stephen. The funeral will be held this afternoon at 4 o'clock from Mr. Kilpatrick's undertaking rooms. Interment at the Church of England burial ground.

Mrs. Elizabeth Miller, widow of Samuel Miller, died in the Mater Misericordiae Home yesterday morning after a lengthy illness. She was 85 years of age, and leaves two daughters, Mrs. Jarvis Lyons, St. John, and Mrs. J. D. Warner, Cambridge (Mass.), and one son, James Miller, in Colorado.

Daniel J. Collins, a former resident of Pleasant Point, but for some years living in Boston, came here for the benefit of his health, and died at Pleasant Point on Thursday, aged about 55. Mr. Collins was a widower, with one daughter and two sons in Boston. Two brothers and one sister at Pleasant Point also survive. The body was taken to Boston by steamer last night for burial.

In Russian and German hospitals for children much use is made of goat's milk as being more nourishing than cow's milk, and also free from the risk of spreading tuberculosis.

DEATHS

HARLEY—In this city on the 21st inst., Norman Patrick, for some time residing in Boston, came here for the benefit of his health, and died at Pleasant Point on Thursday, aged about 55. Mr. Collins was a widower, with one daughter and two sons in Boston. Two brothers and one sister at Pleasant Point also survive. The body was taken to Boston by steamer last night for burial.

MCKINDLEY—In this city on the 21st inst., Teresa May, daughter of James T. and Annie McKindley, aged seven years, leaving her father and mother, four brothers and one sister to mourn. (Boston papers please copy).

Funeral from 86 Charlotte street on Saturday afternoon at 2.30 o'clock.

X-RAY SKIRTS

Mayor of Portland Orders Arrest of Every Woman Wearing One

Portland, Ore., Aug. 22—Mayor Albee today ordered Police Chief Clark to have every woman arrested who wore "X-ray" dresses in the streets. The mayor said the order must go into effect immediately.

The action of the mayor followed his observations during a trip in the downtown district.

The question whether a gown is really an "X-ray" or otherwise objectionable is to be left to the judgment of the policeman who views it.

It was made plain to Chief Clark that it made no difference who the woman was who was wearing an objectionable gown.

One pound of good tea makes about 600 cups. One pound of good coffee makes only 60 cups. Therefore tea at \$1 a pound is more economical than coffee at 30 cents a pound.

The Best Quality at a Reasonable Price

Measuring The Eye

Suppose that you had a very delicate instrument, and wanted to increase its usefulness by making another instrument to connect with it.

You would make very careful measurements of the first instrument so you would adjust the second to it.

The eye and the lens which corrects its defects are two such delicate instruments. To make a lens perfectly adapted to the eye requires first an accurate measurement of the eye. This is what our opticians do in their examinations.

Let us examine your eyes and supply you with glasses that will properly correct their defects.

AN IMPORTANT SUIT

British Columbia Financial Firm Brings Suit Against "Saturday Night"

Vancouver, B.C.—The Canadian Home Investment Company, Limited, whose head office is located in this city, have brought suit against the Toronto "Saturday Night," and have obtained from the Supreme Court of British Columbia an order for the issue of a concurrent writ of summons for service on the Saturday Night, and on Mr. Paul, the editor, in Toronto. This writ will be served in Toronto and the case tried in Vancouver. Confidence is expressed by the company of obtaining full redress as far as the court grant same.

The Canadian Home Investment Company is becoming quite a factor in Canadian financial circles. In fifteen months the loans made and pending to contract holders have increased from \$18,861.14 to \$480,795, while their assets have increased from \$111,598.60 to \$327,789.99 for the same period. This fact clearly demonstrates the feasibility of the contract or co-operative loaning plan, when correctly managed. When taken into consideration that this money is loaned at 2 per cent per annum, simple interest, and on a monthly repayment plan spread over a period of ten and one-half years, it is remarkable how easy it is for a person to own their own home.

In figuring from the rent payer's side, he pays out enough in rent in ten years to purchase a home, and has nothing but rent receipts to show for it. This company attributes their success to the hearty co-operation of their contract holders. They have brought the small investor in direct touch with the borrower, to the mutual benefit of each. This result can be obtained only through the co-operative plan. At the rate this company is growing, in another six or eight months they will be in the million dollar class.

KEITH PUTS STOP TO CHEAP JOKE

Suffrage No Longer Subject for Comedians on Stage of Well-Known Circuit

(Woman's Journal)

B. F. Keith has issued peremptory orders to the managers of his ten score theatres throughout the United States to suppress all ridicule of the woman suffrage movement.

Mr. Keith has become a zealous believer in votes for women, and in his order to his managers points out that it is time to put an end to the disrespectful habitually paid women by American comedians. As president of the United Booking Office, Mr. Keith will use his influence to secure the co-operation of vaudeville managers throughout the country.

Popular songs deride women in many instances and many time honored variety jokes make light of wives and mothers, and give witty auditors the impression that women are merely subjects for law comedy. The mother-in-law joke was barred by the Keith houses last winter, along with certain violent epithets.

From now on Keith vaudeville will give a cold reception to comedians who seek to make laughter by libeling at women, either in the family or in suffrage work.

SULLZER SAYS HE WILL RUN FOR MAYORALTY

Threatens to Give Boss Murphy and His Tammany Candidates the Fight of Their Lives

Albany, Aug. 22—Governor Sullzer said today, whether he is found guilty or acquitted by the court of impeachment he will enter the mayoralty contest in New York city and make the fight of his life against Charles F. Murphy and his Tammany candidates.

"I do not fear the trial at the hands of the court of impeachment," declared Governor Sullzer to one of his friends, "and I have a satisfactory explanation for these charges. But no matter what the decision of the court, I intend to vigorously enter the New York mayoralty campaign."

"I shall review the life history of Charles F. Murphy as it has never been reviewed before, and not only will the people listen to me but the newspapers will print what I say. Murphy is making a hero and a martyr of me and the children of the future will be reading of me in their school books as they do now of Hastings and Johnson."

Governor Sullzer is chafing under the restraint imposed upon him by his counsel and is declaring to his friends that the hardest part of the situation is the refusal of counsel to permit him to talk while his enemies are getting all the publicity in attacks which he is not allowed to answer.

"BACK TO SOIL"

Booker Washington Says Colored People Must Teach Each Other

Philadelphia, Aug. 21—"Go back to the soil; for the sake of your health and your posterity, go back to the farms; go back now before the land and the opportunity is gone."

This is the message Booker T. Washington brought to the delegates of the National Negro Business League at their fourteenth annual convention here. Dr. Washington said:

"Our object is to bring together the men and women who have been successful and let them tell the story of their success in their own way."

"If a white man were to address a gathering of colored men to tell them of his means of success the negro instinctively feels that his success is due to his color and the lesson falls, but when the speaker is a negro the listeners say to themselves, 'If this man was successful why can't I do the same thing?' and their ambition is kindled."

Dr. Washington added that the negro has better chances in the south because he supplies most of the skilled labor.

New Use for Rubber

It is predicted that with the output of the plantations yearly increasing rubber will be put in many new uses. One authority thinks that before long the flooring of every new public and commercial building will be covered with rubber in some form or other; the article deadens the sound, it is more sanitary and it wears longer than any other material, and it pays over and over again the initial cost. The war against today's large mercantile steamers use a very large amount of this commodity, and he thinks that it will be used in many other places.

"ORANGE LILY SAVED MY LIFE"

These words or expressions having the same meaning are contained in hundreds of the letters I have received during the past year. Many were from women who had suffered agonies from falling of womb, others from women who had escaped dangerous surgical operations, as the tumors and ulcers had been removed by the action of Orange Lily, and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific, never-failing cure. It is a trial actually proves its merit. I hereby offer to send, absolutely free, a box with 30c. sufficient for ten days' treatment, to every suffering woman who will write for it. Enclose 3 stamps. **MRS. FRANCES E. CURRAN, Windsor, Ont.**

MR. JARVIS' LETTER

Mr. W. M. Jarvis, in his letter which is published in today's Times, makes two remarkably strong arguments against the three-decker tenement house. One is that the development of the tenement system is bad for the health of the people, and bad for them in other respects. The other is that the three-decker increases the cost of insurance.
Mr. Jarvis has just visited the town of Amherst, where the three-decker is almost unknown, and where each workman aims to have his cottage home. Similar conditions exist in other provincial towns. Why should not the like be true of St. John? So long as the citizens are content with present conditions no improvement need be hoped for, but once it is decided that there shall be no more three-decker tenements, better accommodation will be provided as fast as it is demanded. The citizens should not take a reactionary step on Tuesday next and vote in favor of that which is condemned in other cities, and which unquestionably is opposed to the really best interests of the community; but should support the new by-law and keep St. John headed in the right direction in the matter of housing.

WHAT ST. JOHN NEEDS

It is a most gratifying evidence of the growth of the trade of the port of St. John that the harbor master should be compelled to say that he does not know where accommodation could be found for a steamer making weekly trips between this city and New York. With the sense of gratification, however, there comes the consciousness that if the trade of St. John is to grow, additional facilities must be provided at once. The citizens should take this matter up and lose no time in having plans prepared to meet new demands for terminal facilities on the water front. Apparently the Borden government does not propose to erect the needed grain conveyers at West St. John. What the Intercolonial Railway may be willing to do to meet the congestion at the south end of the city is another matter of great importance. Mayor Frink has very pointedly directed attention to the unsatisfactory conditions which exist today, and action must be taken to place the port in a position to handle the more traffic, and above all to meet the needs of industries which require traffic accommodation.

MARITIME CO-OPERATION

Two of the speakers at the press banquet on Thursday evening, President Robinson of the board of trade and Col. Baxter, referred to the importance of more and more co-operation between the maritime provinces, and Col. Baxter expressed the view that if the three provinces were actually united their position in the confederation would be improved. It is at all events true that co-operation is needed, in order that this section of Canada may be able to hold its own and receive its share of consideration from the government at Ottawa, no matter which political party may for the time being control the country's affairs. It is still true that in the opinion of too many people in Quebec, Ontario and farther west, the Dominion of Canada begins at the mouth of the St. Lawrence, while the lower provinces are of comparatively little importance. It may be hoped that the exertion of manufacturers to Halifax at an early date will enlighten many who are still ignorant of the greatness of our resources. Perhaps also their coming will suggest to the people of these provinces the importance of co-operation and united effort, when important results are to be accomplished.

ENGLAND'S PROSPERITY

Today's cable from London says that every day supplies fresh evidence of the amazing prosperity of England. Pauperism is declining and work houses are being closed. The number of outdoor paupers is decreasing. Wages continue to rise, and industrial concerns are making large profits, while some of them report difficulty in securing enough labor. This news is gall and wormwood to the Tory party, who have been predicting that Lloyd George and his policies would ruin the country. The government has gone steadily forward with its great programme of legislation to ameliorate the condition of the common people, and has met with unbounded success. That which has been done by the Liberal government in England is the aim of the Wilson Democrats of the United States, and the aim of the Liberal party in Canada. However differently the plans may be worked out, the underlying principles are the same, the purpose of legislation being to improve the conditions under which the great mass of the people live.

It is true that along with the great prosperity in England there is labor unrest, but this is a world-wide condition, and must be faced in every country. Naturally, the greater the prosperity the stronger will be the agitation in favor of improved conditions for every class of work-people. England has thus far come out of her labor troubles without

very serious disturbances, and it may fairly be assumed that the like will be true in relation to troubles which may now threaten. The abounding prosperity of the country will be one factor making a settlement less difficult.

THE BUILDING BY-LAW

Calgary's building regulations (by-law No. 1,364) contain the following: "Every apartment house of over two stories in height shall be built of slow burning construction, and of over three stories in height shall be of fire-proof construction, and have all external windows and doors fire-proof, nor shall any building be altered for use as an apartment house unless same is made to conform to the above condition. "No apartment house shall have living rooms in basement, except quarters for janitor, unless basement ceiling is at least six feet above grade level, in which case the basement shall be considered a storey. "No wooden apartment house shall hereafter be erected, nor shall any wooden building be hereafter altered or converted to such use, when such buildings exceed two stories in height, exclusive of basement; nor shall any wooden tenement house wider than thirty feet and deeper than sixty feet, or the equivalent in area be hereafter erected unless the interior be subdivided by fireproof walls to that size."

We will all be relieved when Thaw is sent back to the United States. The three-decker wooden tenement does not cheapen rents. It does cheapen human lives.

Col. the Hon. Sam. Hughes wants to know how many horses can be mobilized in New Brunswick in the event of war. Where is the enemy?

If conditions are so serious at Nanaimo that a garrison must be established, there for at least a year, it is very evident that Nanaimo contains a good many very undesirable citizens.

St. John needs more wharf and warehouse accommodation. Now that the hot season about over, the citizens should turn their attention seriously to this matter, and, after determining what is immediately needed, go after it with a determination not to fail.

New Brunswick will probably have large quantities of potatoes to export this year. It is worthy of note that the price being paid to Maine producers at the present time is, as usual, considerably higher than is being paid on this side of the line.

It is contended that people should be permitted to go on building three-decker wooden tenements until so many one and two-family houses are built that there will be no need of the three-decker. If this course were pursued there would never be any improvement. The landlord would prefer the three-decker, because he would get a larger return proportionately than from a two-story house. The tenant would be the one to suffer. The thing to do is to put the three-decker out of business, and nobody need be at all alarmed but that enough of a more desirable class of buildings will then be erected to meet the requirements.

"The bill met with an ominous reception," said former Mayor Bachr of Cleveland, discussing a measure that had failed. "Its reception was, in fact, as ominous as that accorded to the Christmas melodrama in the two-night stand. "A melodrama, 'Murdered Christ-mas,' for two nights in a small town. The first night there was a fair audience but when in act 3 the senior villain said to the junior, 'Hist! Are we alone?' a voice from the gallery growled, 'No, Hamlet, not to night, but you bet you'll be tomorrow night.'"

Accidents are bound to happen. Sometime or other something will be broken—then Seccotine is your only sure relief. Mended with it the article will be as strong as ever and the crack almost invisible.

SECCOTINE

has greater adhesive power than any known cement. No need of throwing away rubber, rubber boots or coats because there is a hole. Put a patch on with SECCOTINE—no moisture can get through. Write today for a sample tube. Sold everywhere in 25c, 15c & 10c tubes. Sole Agents for Canada: HAROLD F. FITZGIBB & CO., Ltd., 10-12-14 McCaul St., Toronto, Ont. Made in England. BIRTHDAYS OF NOTABILITIES

SATURDAY, AUGUST 23.

The Hon. Charles Langellier, judge of the Sessions of the Peace, Quebec, and a brother of the lieutenant governor, was born on August 23, 1851, at Ste. Rose, P. Q. He practiced law for many years in Quebec City, and also had a lengthy political experience, which he has set forth in a book of reminiscences. Major Charles Alfred Hodgetts, head of the Health Department, Royal Conservation Commission, Ottawa, was born in Toronto, on August 23, 1852. He was for many years medical inspector of the provincial board of health of Ontario and later its secretary. George Hans, famous publicity man of the Canadian Pacific Railway, reaches his sixty-sixth birthday today. He was born in Trenton, Ont., and was connected with the press. He entered the employ of the C. P. R. in 1891.

SUNDAY, AUGUST 24.

That is the natal day of Baroness Macdonald of Earncliffe, widow of Sir John A. Macdonald. She was born in Jamaica on August 24, 1836, and married Sir John in 1867. She was granted the title of baroness after her husband's death. Alfred Brunet, Montreal, celebrates his sixty-ninth birthday today. He was long engaged in business in Montreal and was for a time manager of the Banque Nationale there. Latterly his interests have been wider and he has been placed on the directorate of several companies, including the Grand Trunk Pacific Railway.

LIGHTER VEIN

"I had a dream the other night," said the joker at a luncheon table recently. "I dreamed I was in business with a rich man, selling potted flowers. But business was bad and we decided to discontinue business. I wanted the pots and flowers and took them." "What did the rich man want?" asked one of the guests, innocently. "He wanted the earth," replied the wit.

The amenities of political campaigning are amusingly illustrated by a story told by a southern congressman. It appears that during the course of a stump speech delivered at the grounds of a man in the audience. "I have been robbed by pickpockets!" "I did not know that there were any Republicans present," promptly suggested Mr. Williams, in order to get a laugh. "O, there ain't no Republicans!" roared the other man. "I'm the only one!"—Lippincott's.

CLOSING OF ALLISON MEMORIAL PLAYGROUNDS

At the closing of the Allison memorial playgrounds yesterday afternoon an interesting programme was carried out. W. C. Allison, donor of the grounds, was present. Those in charge were: Mrs. Matthews, Miss Dorothy Matthews, Miss R. Turner, Miss M. Melick, and G. Howard. Miss Mabel Peters, president of the association, was also present. The following programme was given: Folk games, including German klapp dance, Danish dance of greeting and "I See You." Piano solo—Alice Powers. Recitation—Florence Roberts. Folk games, including Shoemaker dance and Swedish klapp dance. Piano solo—Mollie McQuade. Recitation—Edmund Lowe—Minnie Man. Piano solo—Lottie Heffer. Kindergarten games, including Oats, Peas, Beans; Did You Ever See a Lassie; Three Deep Tags. God Save the King.

Jet is formed, like coal, from wood and vegetable matter, but differs from coal in that it contains a much smaller quantity of earthy impurities.

The Ever-Present Gillette

Wherever you see men buying razors, in drug, jewelry or hardware stores—wherever you see men shaving, in club or Pullman or home—there you will inevitably find the Gillette Safety Razor purchased and used.

It has won the approval, almost the affection, of busy men whose time it saves—of thrifty men whose cash it saves—of particular men who value a clean, smooth face—of average men who never could shave comfortably with any other razor.

That's why over six million men use the Gillette, and why you can buy Gillette Safety Razors and Blades at practically every good Hardware, Jewelry and Drug Store in this town.

Standard Gillette Sets cost \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets \$6.50 up. 6 double-edged blades, 50c.—12 Blades (24 shaving edges), in nickel-plated box, \$1.00.

Politicians Censured. The convention of the Grand Lodge I. O. G. T. this week at the Narrows was a decided success. At the various sessions reports were received, including one from the political committee in which the members of the local house, who previous to their election had pledged their support to the prohibition movement, were censured for their inactivity. The report of the other committees showed that the organization had increased in membership 109 during the last year, and also that the financial condition of the body is good, being a balance of \$300.

SHIPYARD WAGES
MATTER IS SETTLED

Employers and Men in Old Land Come to Terms

LONDON NEWS LETTER

A Look at General Industrial Conditions - Upsetting Some Ideas About Criminals, After an Investigation Which Has Been on Since 1901

(Times' Special Correspondence)

London, Aug. 12.—The prolonged and at one time acute dispute between the shipyard trades and the Shipbuilding Employers' Federation reached a definite conclusion a few days ago, when the representatives met in conference in Edinburgh. In June the employers offered an advance of 1s. a week, or a farthing an hour, on the time rate, and an increase of 2 1/2 per cent. to the piece-work riveting squads on behalf of their hold-outs. They refused, however, to concede the demand for an all-round advance of 6 per cent. on piece rates. A ballot of the employees upon the offer resulted in 15,702 voting for acceptance and 5,882 against, a majority of 10,120 for acceptance.

At the close of the conference the following official communication was made: "It is mutually agreed that an advance in wages of 1s. a week, or 1/4d. an hour, where payment is made by hour to time workers, and a special advance of 2 1/2 per cent. to riveters employed on piece-work for behoof of holders on, shall take effect on and from the commencement of the first full pay in August, 1913, no further general alteration in wages, piece or time, to be taken for a period of twelve months from the date named."

There were various other points discussed, some of which were adjusted and others referred to the districts immediately concerned. These districts include all local conditions only.

General Industrial Situation

With regard to the general industrial situation in England, *The Morning Post* says: "We are all such a happy family just now in the industrial world that politicians are inclined to forget there was ever such a thing as a strike in England. Politicians have no memories as to things unpleasant, and we are certain that when the next industrial war breaks out—let us hope it may be far hence—they will be as completely unprepared for it as they were for the coal strike. But the Industrial Council, an excellent body of business men, are not so oblivious. They have been busy since June of last year on industrial agreements, which impress us far more than the cockade dogma of some of our saviors of society."

"Industrial strife is a complicated business, involving principles that vitally concern the liberty of the subject and the safety of the state. To legislate in such matters in a hurry is to legislate badly, to do more harm than good; it is uncertain even—extremely uncertain—if legislation ever has achieved or can achieve anything in this department. The much-vaunted legislative systems of conciliation, arbitration, and so forth, compulsory and voluntary, which various countries have devised, amount to very little when we come to examine their results. And in this main reason, that industrial peace depends, when all is said, upon good and human relations between employer and employee."

"To substitute what Mr. Lloyd George has hopefully but vaguely called 'some machinery' for the direct relations between master and man may only add a new complexity and a new cause of friction and ill-feeling. If masters get out of touch with men they suffer, and they will deserve to suffer; if the state thrusts employer and employee apart, and steps in as a go-between, then the relations are further complicated and humanized; the resulting indirectness and want of good feeling add a new cause of unrest."

"The pity is that modern life, with its high concentration and specialization, its joint stock companies, its trusts and combines, tends to obliterate the human factor as between employer and employee. And it is not only one side that retreats from the other; both sides retreat; for the tendency of labor is to collect itself into larger and larger organizations, embracing not merely one district and one trade, but in some cases several trades throughout a whole country, so that masters and men are divided almost into national armies in opposite camps. Such tendencies are bound to result, and have already resulted in great evils. But to introduce the machinery of the state, the grinding wheels of an act of parliament, may still further intensify these evils."

"In medieval times trades were organized into guilds, or trade unions, as we may call them, which included masters and men. This, surely, is the true organization of a trade, an organization which brings the employer and employee upon the same council board in all such matters as wages, prices, conditions, hours, and so forth. But we have got beyond that, and now we have a lateral division splitting every trade into the frequent hostile parties of employer and employee. And both sides are organized to negotiate, or in the last event to fight. There is even a school of labor agitator which holds that the interests of employer and employee are necessarily at variance, and that capital is to be fought, injured, destroyed if possible, wherever and whenever the opportunity occurs."

"To us such a doctrine seems utterly false and vicious. There are points of difference between employer and employee in wages, hours, and conditions, but surely in the main their interests are common. If the trade is destroyed, both are destroyed; if the trade flourishes, both are secured, the one in his capital, the other in his livelihood. Existence is surely a bigger interest in common than any question of wages in opposition. It must be fatal, as much for labor as for capital, if the idea should prevail that the object of the employed is to injure the employer. Good relations and stable agreements; these are the ends that both sides must have in

Tremendous Reduction Sale of Furniture Coverings and Portiere Materials

Moquettes, Monastery Cloths, Velours, Silk Plush and Tapestry at Positively the Lowest Prices We Have Ever Placed Upon Such High-Grade Fabrics

Think of it! \$1.25 per yard for a \$3.00 material. \$2.50 for a \$4.50 grade. \$An \$8.25 fabric for \$3.75. Never have we had a sale presenting such amazing chances for money saving. Every home can make use of some of these goods and housekeepers all should purchase liberally, as this is the most wonderful sale in point of value giving we have ever attempted.

It is necessary to move the goods, so come and take them at the smallest prices for similar qualities in your whole shopping experience. Almost everybody ought to be interested and marvelous bargains such as these should be taken up, even if they have to be kept a while before using.

Commencing Monday Morning

- MOQUETTE COVERINGS**, 50 inches wide, in rich oriental designs and Persian stripe effects. - Regular price, per yard \$8.25, sale price, per yard \$3.75.

SALE WILL START AT EIGHT O'CLOCK IN HOUSE FURNISHING DEPARTMENT.

MANCHESTER ROBERTSON ALLISON, LIMITED.

view if both sides are to get the best out of their respective industries."

Criminals and All

"As individuals, criminals possess no characteristics, physical or mental, which are not shared by all people. The only difference is one of degree." Such is the result of a remarkable statistical investigation, based on measurements of prisoners in Parkhurst, which began in 1901, and which is now set forth by Dr. Goring, medical officer of that prison, in a monograph which is of extraordinary scientific and human interest.

Dr. Goring's measurements shatter the theory, propounded by Lombroso, that there is a definite type of criminal, and that it is even possible to know various kinds of criminals by their faces. The nose of the thief is not, as Lombroso taught, "short and large"; the eye of the homicide is not "glazy, cold, and ficed." Crime does not reveal itself in the man's outward visage.

The general characteristics of the English convict are these: He is a defective man—defective in physical strength, weight, stature, and mental capacity. In height and bodily weight the discovery has been made that he is very markedly inferior to the general average of the population. This is the only solid fact ascertained which might suggest that there is a criminal type. In head measurements the criminal does not differ perceptibly from Oxford or Cambridge undergraduates.

"Oxford students,"

states Dr. Goring, "are almost identical with criminals in mean head index," while "in mean circumference of head criminals and Scottish students correspond in a singularly close degree."

The Low Brows and the High

Another venerable superstition is incidentally laid to its last rest by Dr. Goring—that a low forehead connotes criminality and a high forehead intelligence. Different classes of criminals, he shows, do not differ markedly among themselves or vary much except in height and weight, from the standard of the population, while hospital inmates, who are quite free from crime, but weak of physique, in many characteristics significantly resemble the malefactor. Thieves and burglars, it is true, are usually puny, while fraudulent offenders are commonly as tall and heavy as the average man. But this is because the fraudulent offender is drawn from a higher class of the population than the thief.

The remarkable inferiority of the criminal in height and weight is explained very simply. Stature and physique are endowments which enable a man readily to obtain honest occupation. "We might easily produce statistics," says Dr. Goring, "to show that all other things being equal, a poor man's physique serves frequently as a casting vote in determining whether he will easily find employment or be unemployable." It is for this reason, but apparently for no other, that crime is to some extent hereditary.

etary, how stature being transmitted by the parents to their progeny.

The criminal's health appears to have no effect upon his proclivity to crime. Nor is it true that drink is a cause of crime, except in the case of violent offences against the person. Social equality, often paraded as the true cause, appears to have even less to do with making the criminal. But a low standard of intelligence, often amounting to mental deficiency, is found in the vast majority of criminals.

two-story buildings are constructed in and will be both dangerous and detrimental to all classes in the community; on the other hand there are sections in this city where three-story wooden buildings constructed under a building law properly enforced would be good enough for the over-boomed city of St. John for years to come.

In conclusion, Mr. Editor, I believe that the building law as proposed is of very little interest to the working men of this city and should be left to those more directly interested but it will certainly place a restriction and prevent the building of several houses under consideration. It will also prevent the building of self-contained two and a half story residences such as those on Douglas avenue and Alexandra street which would mean curtailment of work for the building trades. Let us enforce the present law, in other words "let well enough alone."

Yours, etc.,
JAMES L. SUGRUE.

Romeo Writes Letter to Juliet on Typewriter

Here's to the fertile brain of an American type writer agent who lived up a performance of Romeo and Juliet down in South America. It happened in Cochabamba, Bolivia. He induced the management to place one of his machines on the stage, so that in the course of the play Romeo could write a letter to Juliet!

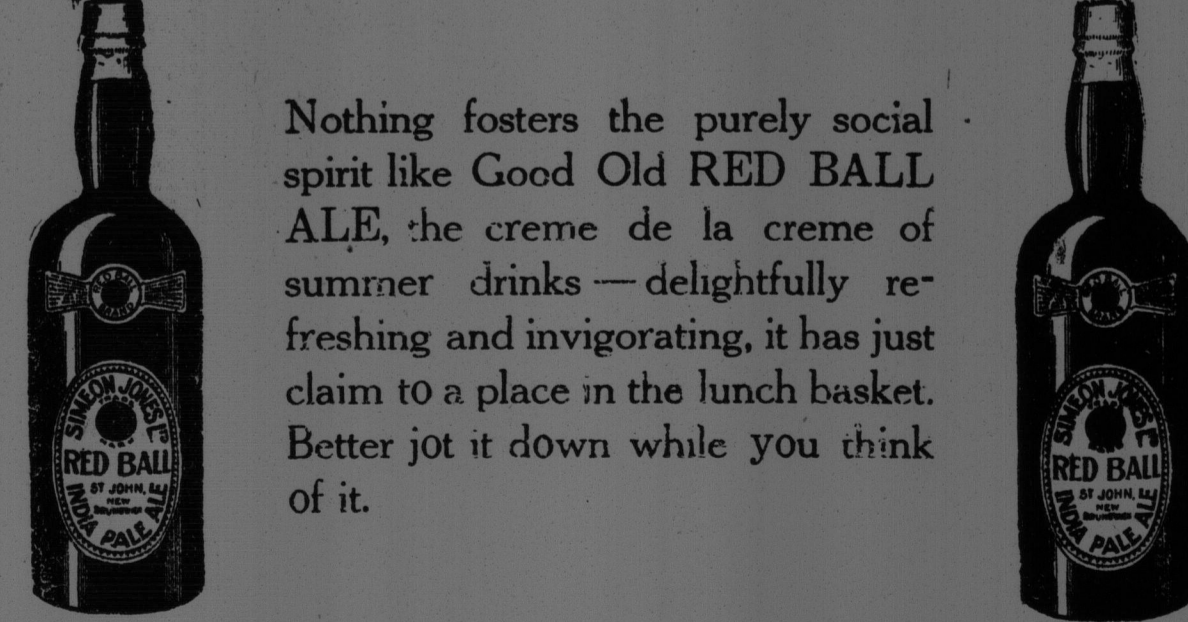

LETTERS TO THE EDITOR

To the Editor of The Telegraph:
Sir,—On Wednesday, August 20, The Telegraph contained a letter from F. Hyatt, secretary of the St. John Trades and Labor Council advising workmen to vote for the proposed by-law prohibiting the erection of three story houses.

To my mind the secretary exceeded his authority in giving such a statement to the press, without first consulting the executive officers of the council. It is an open question whether enforcing the present building laws or passing such a law as will be voted on Tuesday next will make for the future betterment of the city. There can be no doubt that there are certain sections in the city where three story wooden buildings constructed as some of the three and even

For Week-End Outing Parties

Nothing fosters the purely social spirit like Good Old RED BALL ALE, the creme de la creme of summer drinks—delightfully refreshing and invigorating, it has just claim to a place in the lunch basket. Better jot it down while you think of it.

COMPPLICATION OF WOMAN'S ILLS

Yields to Lydia E. Pinkham's Vegetable Compound. Athens, Texas - "I had a complication of diseases, some of them of long standing. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound, and some other things that you suggested. I must confess that I am much better in every way and have been relieved of some of the worst troubles. My neighbors say I look younger now than I did fifteen years ago." - Mrs. SARAH B. WHITNEY, Athens, Texas, R. F. D. No. 3, Box 22.

We know of no other medicine which has been so successful in relieving the suffering of women, or provided so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound. In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the good it has been doing among suffering women for the past 30 years. In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of them state that it has saved them from surgical operations.

AUCTIONS

L. POTTS, auctioneer, 388-8-28.

THINGS WORTH KNOWING TO THOSE INTERESTED IN THE DRINK CURE

One year ago we opened a Neal Institute treating the drink habit at 40 Crown street, St. John (N. B.). To demonstrate to the public that we had a treatment that would cure all desire and craving for alcohol in three days time, some few call it a "fake" while others test it with the remarkable result we cured several cases of men and women. St. John was only one of our sixty branches that we have established throughout Canada and the United States and foreign countries. After running it at a big expense for one year we closed our eastern branch as well as several other places where there was a danger of it people had taken the drink treatment. For the same reason we established a large central hospital at the Capital City Ottawa some two years ago, where we have every convenience, bath and every modern convalescent guarantee to the outside patient. Our twenty-two private rooms with electric light and every modern convalescent guarantee to the outside patient. Our treatment is not a matter of time, but a matter of fact. While the tide may seem rather low, when starting, it is well for the patient to know that it is not necessary for him to arrive here perfectly sober. Inasmuch as we never cure a patient in thirty days, we guarantee to return all the money paid if it is not perfectly satisfied that all craving and desire for liquor has been destroyed. If you have a loved one at home who is near and dear to you, speak kindly to him and try and persuade him to take the Neal treatment. P. S. - There is no charge should the patient wish to stay with us a few days longer; after completing treatment to make sure he is perfectly cured.

NEAL INSTITUTE OF OTTAWA 373 Cooper Street Write or wire in advance as our hospital is mostly filled to capacity.

THE STAGE AND ITS PEOPLE; MANY WELL REMEMBERED HERE

HARRY THAW'S WIFE DRAWS THROUGHS TO NEW YORK THEATRE

Receipts for the first week more than \$20,000—A lot of old friends figure in today's theatrical news

The latest star to come under the management of Oliver Morosoff is Henry Kolker, who played here in "The Christian" some years ago. The actor will play an engagement of a few weeks at Morosoff's Burbank Theatre, Los Angeles, opening with "Our Wives," and presenting "The Great Name." However, Mr. Kolker has manuscripts of two plays, in one of which it is said, he will return to Broadway under Mr. Morosoff's management. The play is called "The Survivors," by William Vaughn Petis, and Mr. Kolker is described as a serious three-act drama with plenty of comedy.

Joseph Bennett and Henry Weaver, former Harkins chorists in St. John, opened this week in Chicago in a new play "The Elsie of Youth," a farce comedy. The first week of Evelyn Nesbit Thaw's engagement every Hammett's New York, ending this week, broke all box office records for the house. Never has the theatre either upstairs or down held the crowds Mrs. Thaw drew.

The weekly gross receipts were between \$20,000 and \$21,000. Matinees ran \$1,000 daily, while the night business held up at around \$1,500. The box office sale was stopped at every performance by the fire department.

Irvin Cobb's first offense as a playwright, after years of building up a reputation as a comedy newspaper writer, is a one-act skit with six characters, shortly to be produced by Homer Miller who played leads here with the Daley Stock and Shely Young companies under the name of Mulloney. Under a picture of herself published this week the "Billboard" says that Frances McHenry has signed with Charles Frohman to head the Western company in "The Conspiracy." She is now playing a special four-week engagement with the Davidson Stock Company at Milwaukee.

George Broadhurst has made into English a play that had great vogue as an example of Yiddish drama in the Ghetto of New York City. He calls it "Styke." There is a good deal of interest in the report that Ada Rehan contemplates returning to the stage. It is said that Miss Rehan has recovered her health and has only been deterred from resuming her profession by lack of a suitable role. That obstacle has now been removed, she is reported to be in a play with a part ideally suited to her, and will probably make her appearance in it some time this fall or winter. No further details are forthcoming at present.

Matheson Lang, who will most likely be seen in St. John in repertory with an English company during the coming season, made a big hit as the French Canadian "trapper" in "The Harrier," adapted from Rex Beach's novel of the same name. The London critics, however, consider the novel better than the play. They are not placing the play very high, but they are sound in their judgment all the same. Theatrical people who visit Chicago will soon have a hospital of their own. A wing is to be built to the American Hospital, which will accommodate 100 patients. This wing will be devoted to

ITALY CELEBRATES THE ANNIVERSARY OF THE GREAT VERDI

Italy's national celebration of the anniversary of the birth of Verdi was formally opened in Parma, Italy, last week, and will continue until October 15. The house in which Verdi was born was opened to the public with elaborate ceremonies, as was also a national theatrical exhibition, devoted entirely to the history and development of the stage in Italy from the days of the early Greeks and Romans down to the present day. A good section of the display is devoted to the works of Verdi.

There are daily concerts of the opera composer's music. Choral Societies from all over Italy have planned pilgrimages to give concerts and enter in the competitions which have been arranged for the purpose of popularizing Verdi's music. An opera season will be begun the first week in September in the Royal Opera House at which all of Verdi's masterpieces will be presented in their chronological order under the direction of Camparini of the New York Metropolitan Grand Opera House who was born in Parma. The casts will include practically every great opera singer in the world today, all of whom have donated their services for the centenary exhibition.

Later in September an immense concert hall, the largest in Italy to be known as "Sala Verdi" will be opened, and a national monument to Verdi unveiled. The culmination of the ceremonies will come on October 10, the anniversary of Verdi's death, when a worldwide pilgrimage will be made to the tomb of the composer at Milan. Assurances already have been received that the principal musical societies of practically every country will be represented at this pilgrimage.

GREAT RISKS RUN TO GET SOME OF THE SCENES FOR THE MOVIES

Perilous Cliff Climbing by Miriam Nesbitt and Marc MacDermott — Frank Powell Back From Europe

The "movies" are now giving employment to those picturesque and vagrant adventurers who have been denied for years an outlet to their foolhardy daring. Men who find a subtle intoxication in risking their lives in mad exploits are now in brisk demand.

Almost daily the motion picture theatres one may see films in which some disaster has nearly occurred, or in which, by the abrupt cutting off of a film, we know that the record of an actual mishap has been humanely denied the observer. For instance, while viewing the exploits of a dare-devil Italian cavalryman, we may see a horse plunge over a precipice, and an officer grasp a broken arm—and then the film changes to another scene, sparing the spectator the spectacle of pain. In recent pictures, incident to the Gettysburg reunion, there were at least two films in which accidents were abruptly cut off from view.

Not long ago a motion picture machine caught a parachute jumper in the act of leaping from an airplane. Railroad wrecks have been reproduced, and the pictures have shown the engineers jumping from their cabs at dangerous speed. A few days ago Rodney Law, who visited St. John a few months ago to go over the reversing falls went over the Rainbow Falls in New York under the eye of the motion picture camera. He landed safely and now plans to go over Niagara. Not long ago a man equipped with a patent parachute leaped to his death from the St. Lawrence in New York harbor and the camera operator, with stately ground away until the very last. The picture was never shown.

The lure of the camera seems to exert an irresistible spell upon the daring spirits of the adventurer. But some of the resulting films have been and will be of a revolting and lamentable record of foolish deeds. Miriam Nesbitt and Marc MacDermott have comparatively seldom been called upon to do especially perilous scenes before the camera, but their work in a recent picture certainly falls under that classification. The British Coast, in the neighborhood of Ball Point Light, is famous for its perpendicular cliffs. When the story was written, requiring the leading players to climb the full height of the treacherous cliff, Director Bralton intended to "double" Miss Nesbitt and MacDermott—that is, to hire natives of the island to undertake to make the climb in their place. To his consternation, however, he found that only two of the natives were willing to climb the cliff and none of these remotely resembled either of the Edison players.

The only girl, in fact, was about Miss Nesbitt's size. It was decided to use the substitutes and place the camera in a neighborly position to witness their feat. The conformation of the cliffs, however, made that impossible and the director decided that the players should make the ascent themselves. So, with the water at their backs, they began their perilous climb, slipping and sliding with treacherous footholds giving way beneath them as loosened rocks fell into the waves below. It will be tremendously effective on the screen, but it will never be as thrilling to any audience as it was to the players who fought their way to the top of the cliffs. Frank Powell, who was here with Harkins some years ago, is now direct-

ed. Laertes killed, the king killed, Hamlet killed. On the final tragedy the curtain started down. The audience was spellbound. "Come on, Tommy!" he shouted back to his companion. "Hustle! Dorell! he extras out on dis."—Harper's Monthly. In the gallery there was a clatter and a crash as one of the boys mentioned started for the door.

Prominent Politician TOOK GATLIN

3 DAY LIQUOR TREATMENT!

A prominent politician who was constantly under the effects of strong drink, becoming obliged to get free from the habit, took the Gatlin Treatment. He was cured of the habit in three days, and expressed grateful appreciation of the satisfactory results.

This is only one of many such cases of people in all walks of life.

Remember this cure is not an experiment, but a scientific treatment for the Liquor Habit, no case being too difficult, and a written guarantee to cure is given each patient.

Write, call or telephone today for Booklet and full particulars.

DREDGING NEEDED IN RIVER

A Case in Point—First Corn is Brought to Indian-town—Business and Personal Notes

The Majestic was aground at Coles Island yesterday morning for more than an hour before the crew swung her off into deep water.

At several of the wharves in the Washademoak lake a little dredging is badly needed. The government promised, it was said yesterday, to have all these places attended to more than a year ago, but nothing has yet been done to make navigation possible at the time of the year when the water is lowest and says if the work is not done soon it may be necessary to take the Majestic off the route altogether, as the water is very low now and is still falling.

Great quantities of produce are coming down on the river boats now; potatoes especially are very plentiful. Cabbages are also plentiful and are selling from forty to sixty cents a dozen; tomatoes are quite plentiful at seven to eight cents a pound; cucumbers, at \$3 a barrel are only a fair crop. Squash are just beginning to come in and are selling for two and a half cents a pound. A small quantity of corn has also appeared on the market and is selling at

twenty-three cents a dozen. There promises to be a good crop. Very few apples have made their appearance yet. The crop this year will be small, due partly to the heavy early frosts.

The work of remodeling Perry J. Steel's store in the North End is progressing rapidly and it is expected that the work will be completed in two weeks time. A cellar has been dug large enough to install a hot water furnace and a concrete wall has been built all around the excavation. The work was done by R. A. Corbett. After the work has been completed the store will have a complete glass front with deep recesses for two large front entrances.

There will be a buy meeting at the corner in Elm street, and the store will also be enlarged back, removing the stairs leading to the upper flat to the front in Main street. The work is being done by J. M. Belyea.

Mrs. J. R. Vanwart, of Albert street, left last evening on a trip through Upper Canada. She will visit friends in Toronto and Hamilton and return home via Niagara and Buffalo.

MORNING LOCALS

As a result of a raid on the car in which he keeps his store, Peter Hostock, an Austrian, was before Magistrate Ritchie yesterday afternoon charged with selling liquor to the workmen employed at the C. P. R. excavation work on the west side. J. A. Barry, who appeared for the defendant, charged with selling liquor to the workmen employed at the C. P. R. excavation work on the west side. J. A. Barry, who appeared for the defendant, charged with selling liquor to the workmen employed at the C. P. R. excavation work on the west side.

Miss Nellie Evans and Miss Agnes O'Connor suffered very painful injuries recently when they had their hair caught in the machinery while at work in the C. P. R. excavations. Both girls lost their hair, but otherwise their injuries were not serious.

Detective Killen left for Boston yesterday and is expected to return on Monday with Richard Isaacs who will stand trial for uttering alleged forged documents in connection with western land deals.

Information was laid yesterday by J. J. Carleton, building inspector, against Postmaster Edward Sears for having a wooden structure in the rear of his building in King street, contrary to building regulations. Commissioner McLean and Fire Chief Blake, who were in court with Mr. Carleton, told of having warned the postmaster against the building after a fire which had occurred in it a few weeks ago, but he said he did not remember having been warned. Mr. Sears said he had spent more than \$100 in repairs upon the structure late. He asked for an adjournment until Monday, which was granted.

OUR TEACHERS IN THE METROPOLIS

The Outing They Gave London Slum Kiddies

SAD CONDITIONS

Bringing a Day of Happiness To These Unfortunate Children Gave One of the Best Days To The Canadians

(Times' Special Correspondence)

London, Aug. 12—Sprinkling his sentences with the rude words which the child of the east end of London learns almost before the alphabet, one of the young boys who went to Epping Forest with the Canadian teachers last week wound up by saying—"I'd like to get to Canada to be with teachers like you. It was a compliment the teachers appreciated.

We have seen no more enthusiastic admirers of the institutions of Great Britain than the Canadian teachers who have been so splendidly received in all parts of the country, and we have perhaps had no visitors who were more affected at the condition of these little grey-faced children of the East End. The Canadians had lately spent a day at the famous Eton seat of learning; they had been to the Universities; the noble mansions of the wealthy of the country had been open to them, and they had touched hands with what is fairest and most graceful in English life. Then they came into touch with the thousand children from the poorest in London to whom they gave a day of gladness in the forest at Epping. Stamped on the stunted bodies of the children one could see the marks of privation and suffering, and of unfortunate parentage.

"This condition appals me," said one of the teachers, "more particularly because I am told that it is permanent. It gives us very great pleasure to give these victims of Slumland a happy time, but we are sad to think that we cannot do anything to remedy their permanent state. We are told that there are hundreds of advertisements appealing for funds to perform such work as is being done today—appealing sometimes in vain—and we cannot help thinking of the immense wealth of the country and of the contrast between this and our recent visit to other parts of the country."

Visiting Canadians have many times expressed similar sentiments. They are always oppressed with the condition of poverty that meets them, poverty which many of the best minds of Great Britain are always endeavoring to cope with and to exterminate. But it seems, as these Canadians remarked, a feature of English life which has become inevitable.

Fortunate it is in one way that their grey existence does not oppress the children themselves. Happiness was present in full measure at the Canadian Day in the Forest. Some children crippled by the loss of a foot hobbled along on crutches. Some had no shoes or stockings. Some were without hats, coats or warm shirts, but all were very clean and all supremely happy. Some of the little mites who were not among the party chosen got up early in the morning and

MORNING NEWS OVER THE WIRES

A north-bound train in charge of Conductor McGibbon on the Gibson branch of the C. P. R. yesterday left the rails and the line was blocked for about twenty hours.

The schooner Elfin May, owned by her captain, Elmer Tingley, and Mrs. Howard Carter, and valued at \$12,000, without insurance, went around yesterday coming out of Two Rivers, N. B., with lumber, and is a total wreck. A report is current in Montreal that the Canadian Express Co. will soon sever connection with the American Express and National Express Companies.

panies. There has been no disagreement but merely an accumulation of business, and the other two will take over their delivery business in the larger Canadian cities, now conducted by the Canadian Express Co.

Montreal, Aug. 22—Driven by fire to the roof of the Hideshoe Manufacturing Company building in Maisonneuve, this afternoon, a score of employes, including half a dozen girls, were forced to jump sixty feet into fire acts. Many of them who took the leap were badly bruised but only one, Patrick Kernan, was seriously injured. He was taken to a hospital.

Mexico City, Aug. 22—Nine fights between the federals and constitutionalists are reported to have taken place during the past twenty-four hours. All are recorded as federal victories.

HARTLEY COYLE SERIOUSLY WOUNDED BY RIFLE BULLET

Says He Shot Himself Because Girl Left Him—Woman in Case, Coyle's Father and Brother Held as Witnesses

What is believed to have been an attempted suicide took place last evening in an alley in Brimley street when Hartley Coyle, aged 26 years, was found with a bullet wound in his side, and a 22 bore rifle close at hand. He was taken to the hospital where nothing definite can be said as to his chance for recovery. His father, Patrick Coyle, his brother, Albert, and Mrs. Thomas Kelley, alias Miss Snow, alias Miss Amelia Dunham, have been held as witnesses in the affair by the police, who took them to the central station early this morning.

Mrs. A. Carr, who lives at 5 Brimley street, returning home last night a little before 9 o'clock, heard some one groaning in the alley adjoining her home, and found Coyle suffering from a bullet wound. She summoned help and Edward Riley, who owns the houses in which these people lived, called the ambulance and had Coyle taken to the hospital. Mrs. Carr said that Mrs. Kelley, mentioned in the foregoing, had been living with Coyle and his brother for the greater part of the summer as their housekeeper. Soon after she came to the house the mother of the two young men left. As Mrs. Carr was on her way home she saw Mrs. Kelley running from the house at top speed.

Mrs. Kelley when seen last night by a reporter said that Coyle had asked her to marry him, but she had replied that "she couldn't and wouldn't if she could." She had been in Coyle's house last night, she admitted, and he had again asked her to marry him, receiving the same reply. She had gone to the house to get some clothing which she intended to wash for Mrs. Coyle, mother of the two young men. That was the last she had seen of Hartley and she knew nothing of the shooting until Sergeant Smith and Policeman O'Neil called at her house, 184 Sheffield street, last night.

Coyle is reported to have said that he was "hindered" and "wounded" by himself because his girl had left him," he said.

"Big Ed" Walsh, of the White Sox, is resting up at the Coniskey camp at Moberly, Mo. It is said that the great spitball artist is not likely to be able to return to the game this season.

THE EVENING TIMES AND STAR, ST. JOHN N B., SATURDAY, AUGUST 23, 1913

Four Thousand Dealers will Handle These Cars for the Season of 1914

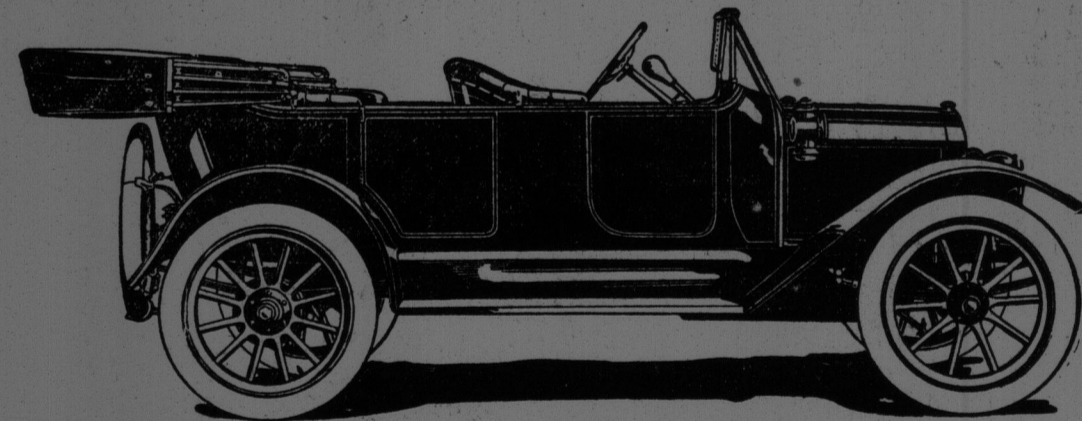

1914 Maxwell "50-6"—\$2700

The sweetest running thing on wheels. Six-cylinder motor, bloc-cast, 50 h. p. 130" wheel base; electric starter and lights; Bruce Ott body; 5-7 passengers; disappearing seats; 36 in. x 4 1/2 in. tires all 'round. Luxuriously finished, long, easy riding springs and full equipment, including ventilating windshield, top and Jiffy curtains—even an electric cigar lighter. Left or right side drive optional.

1914 Maxwell "35-4"—\$1485—\$1675

Powerful, silent, sweet running; bloc-cast 4-cylinder motor; 111 in. wheel base; 33 in. by 4 in. tires all 'round. Left hand drive, center control. Electric starter and lights, at \$1675. Three-quarter elliptic springs. Bruce Otto body, ventilating windshield and full equipment, including Jiffy curtains.

1914 Maxwell "25-4"—\$1025

The year's sensation. Four-cylinder, bloc cast; 25 h. p. motor; magneto; weight 1600 pounds; 103 in. wheel base; 30 in. by 3 1/2 in. tires all 'round; 3 speed selective transmission; full five-passenger body designed by Bruce Ott; complete equipment, including tire holders, ventilating windshield; top, Jiffy curtains.

Maxwell Motor Company
of Canada, Limited
Windsor, Ont.

THEY SAID—what did they say? What mattered what they said? They were competitors much perturbed—so what could they say? What must they say—being competitors—much perturbed?

4,000 DEALERS will handle Maxwell Motor Cars for the season of 1914. Season dated from August first—deliveries at new prices now being made.

THAT'S OUR ANSWER to all they said. That tells the story. What is it they say about "he who laughs last?"

MAXWELL CARS WILL DOMINATE the trade for 1914 in the three big classes which command the greatest popularity.

THE FULL SIGNIFICANCE of the line "4,000 dealers," may not have occurred to you. It means, in a word, that we not only have the cars the connoisseurs desire, but that we are now ready to manufacture them in numbers sufficient to supply the insistent demand.

YOUR DEALER SEEMS TO HAVE a kind of sixth sense when it comes to picking the winner in the selling field from season to season.

HE KNOWS: He has his finger on the pulse of the buyer, his eyes on the makers all the time. And he seldom guesses wrong. The successful dealer never—that's why he succeeds.

THIS IS A FAST-MOVING, quick-forgetting business. Watching it is like looking thru a kaleidoscope. It is ever changing.

THE DEALER KNOWS—and you can't go wrong by following his lead for, you see, he is looking for the same things you are seeking—only from a different angle.

HE WANTS CARS that sell themselves. You never knew a dealer to go gunning for trouble, did you? Or looking for hard work?

NOT HE. HE FOLLOWS THE TREND of fashion in design, the progress of the science of metallurgy and manufacture. And when he sees a concern leading in these, he goes hot-foot after that line of cars.

WE HAVE CONCENTRATED our tremendous factory facilities; re-arranged and re-equipped the plants for economical production of automobiles in large quantities.

AND EACH MODEL WILL dominate its class—because a better car—better material, better workmanship and better finish for the same or less money.

DO YOU WONDER dealers are clamoring for the Maxwell line for 1914? They would belie their reputation for astuteness if they didn't.

WHY, LAST WEEK we shipped the first 50 cars of the Maxwell "25" model to 50 points in the United States, and invited all dealers to come and see and try out this wonderful car.

THEY CAME, they saw and the new "25" Maxwell conquered. It was great to see their enthusiasm when the car, carrying five dealers aggregating 1010 pounds, sped up "Abbey Hill"—the stiffest grade on Manhattan and a double-S turn—on high gear as if it were on the level.

OVER AND OVER AGAIN they put the car to the test—climbing the hill at all speeds down to 8 miles per hour on high gear—just a 'pullin' all the time.

BUT WE ARE DIGRESSING—so enthusiastic about that wonderful "25" we forgot our text for the moment. Let's discuss the entire line—for there isn't a dead one in it—no model that is a load on the others. Each is supreme in its class.

TAKE THE "50-6" for example—now thoroughly tried and proven. 1913 output all sold. Deliveries of 1914 model—left-hand

drive with right side drive optional—begins August 15th.

1914 PRICE is \$2700.

THERE'S A LINE that will create consternation in the trade. They all expected it would be \$3200—in fact, we said so. That was the price we had decided on, but—

PERHAPS, YOU'VE NOTICED there's a wicked war on for supremacy in this class of car. We concluded that, so long as other makers had started it we would give them a real six at a real price and see how far they can go. Watch it—it will be interesting—and the buyer will be the beneficiary.

IT WILL BE UP TO makers of \$4500—\$5000, yes, and \$6,000 sixes to demonstrate where in they give the difference in value.

AND WHAT ABOUT the manufacturer who stuck to fours for one season too long? Having himself failed to progress he would stop all progress. He would sweep back the sea with his tiny whisk broom! He protests that folk will still pay \$2500 for fours—and convinces no one but himself.

IN SEVEN PASSENGER CARS the six is now supreme. It is not coming; it is here.

THEN THE MAXWELL "35"—This is, we firmly believe, the greatest car ever made in the so-called intermediate price class—a big five passenger car for that great class of buyer who wants all there is of comfort and power, at a price he can afford.

1914 PRICE IS \$1485 without and \$1675 with electric starter and lights. Equal this if you can—in a car of anywhere near the quality.

BLOC-CAST MOTOR—fourth year unchanged. A motor such as you can't surpass in a \$2500 car. And all other features equally excellent. This car will lead—distance at others in its class, which is to say anything under \$2000.

AND FINALLY THE "25"—the car the trade has been talking about, looking for, waiting for.

IT IS HERE—WE ARE DELIVERING—and while we may not hope to supply all who want them, we will be able to appease 30,000 buyers during the next twelve months.

YOUR ENTHUSIASM will know no bounds when you see and ride in this "25."

THIS IS A REAL AUTOMOBILE—full 25 horsepower, bloc cast motor; 103 in. wheel base; same size tires all 'round, 30 by 3 1/2; full five passenger body; 3 speed selective transmission; cone clutch; worm and sector steering gear; left-hand drive; center control; magneto—all the features of a high priced car.

AND AT A PRICE no other maker has ever before been able to produce such a car—\$1025 plus the freight.

THE RESULT OF MORE concentrated experience, engineering and metallurgical knowledge, manufacturing skill and financial resources than any other, this car justifies our efforts and fulfills our fondest hopes.

IT WAS DESIGNED to meet the ideas and the needs of tens of thousands of discriminating buyers—not beginners but experienced motorists—who must consult the purse and yet who detest and decline to wear a uniform and are willing to pay a little more for a car that is a lot better.

WE WILL BUILD 30,000 of this model; 12,000 of the "35" and 2,000 to 3,000 of the Maxwell 50-6 in the next twelve months.

THAT'S SECOND LARGEST in the world—and still we are not satisfied. Watch the Maxwells.

A Hunch Is a Hunch Anyway You Get It

By "Bud" Fisher

GREEKS WON FROM ST. CROIX IN FAST GAME

N. B. and Maine League Standing

Table with 2 columns: Team Name and Record. Includes Fredericton, Marathons, St. Croix, and Bangor.

The Marathons and St. Croix showed a return to form in yesterday's game which the Greeks won after an exciting pitchers' battle between Tarbell and Howard.

O'Brien, Pinkerton and Waterhouse played well for the locals while Parker Lynch and Wilkes of the visiting team were frequently applauded for their clever work.

The Marathons put over their first run in the first inning on a pass issued to O'Brien, who was sacrificed to second by Pinkerton and came home on Riley's hit to left. O'Brien scored the second run also on a single to left and being sent home on Riley's three bagger.

Singles by Gross and Parker aided a wild pitch gave St. Croix their only tally in the fifth.

Fredericton 11; Bangor 3. Fredericton won from Bangor yesterday 11 to 3 by hitting their old team mate Ahearn hard.

Fredericton worked well throughout being especially effective in the pinches. Fredericton started in the first inning by getting three runs on a base on balls, two singles and a triple by Duggan. Except in the third and eighth they scored in each inning.

LEAGUE SEASON DRAWS TO CLOSE Today's Game With St. Croix—Plans for Next Week Are Changed

The Marathons and the St. Croix will play this afternoon on the Marathons grounds at three o'clock. Both teams will present their strongest line up and an exciting contest is looked for.

Yesterdays game proved that these two teams can play the classic kind of baseball. Conley will probably do the pitching for the Marathons with White, the new catcher, as backstop.

While this week's playing has not been up to the standard, all clubs have their slump and today's report of the New England League shows the three leads in the scoring in yesterday's game were far beyond any scores made by any team on the Marathons grounds.

On Friday the Marathons resumed their former good playing and the result was one of the finest games seen this year between these two teams. It is to be hoped the fans will turn out in force today and help the players along all they possibly can, as the season is now fast drawing to a close and in two weeks' time, baseball will be a thing of the past.

Fredericton, J. Carson, a pitcher recently signed by the Boston American League club, who has been playing with the Beantree club this summer, has been given his unconditional release so that the number of Red Sox players under contract would be down to the limit of 25, which is all that any club can carry at this time, according to the regulations.

Although Griffith refuses assent or denial it is reported that the Washington Club had completed a deal with Montreal whereby Outfielder Gilboisley will shortly be a Senator. It is understood that the deal involves a Washington player as well as cash.

Paris, Aug. 23—Successful trials of an automatic photographic apparatus for judging races have been conducted at Maisons Laiffite, and it will be used at the next Paris international race meeting.

Sport News of A Day; Home and Abroad

YACHTING

R. K. Y. C. Races

Six boats will start this afternoon at 2:45 o'clock in the yacht race for the Commodore Thomson cup, over a course from Millidgeville to a buoy opposite Riverside and return.

A sailing dingy race will also be run off at 8 p. m. for which four entries have been received, two from E. N. Harrington and one each from T. T. Lantalam and S. B. Bustan.

AMERICA CUP RACE

New York, Aug. 22—Contracts between the New York Yacht Club and the Royal Ulster Yacht Club for next year's race for the America cup have been signed, sealed and delivered, and now nothing stands in the way of the contest.

MOTOR BOATING

Cachoua Wins Trophy

By a margin of only five seconds the motor boat Cachoua, owned by Peter Clinch, won the Norton Griffiths Challenge Shield race from P. D. McAvity's Bobs on the harbor course yesterday afternoon.

The race was a very close one throughout and was watched with much interest by the thousands of spectators who lined the water front. All the boats were troubled by shipping water in the heavy sea which was running. Both the Cachoua and Bobs, the two leading boats, were delayed several minutes by water getting in the gasoline, the winning craft losing ten minutes from this cause.

The officials in charge were W. C. Howarth, E. P. Howard, J. F. Gregory and A. P. Patterson.

The following is a summary of the races: Cachoua, Clinch—time allowance, 9:01; time over course, 1:09:28; corrected time, 1:18:55.

Bobs, P. D. McAvity—Time allowance, 6:50; time over course, 1:07:53; corrected time, 1:18:05.

Dixie, J. Prosham—Time allowance, 1:18; time over course, 1:28:00; corrected time, 1:38:00.

Keonick, Dr. Barton—Time allowance, 6:06. Did not finish.

Patricia, Colwell Bros—Scratch. Did not finish.

Two other boats, the Bumble Bee, owned by Ronald McAvity, and the E. M., owned by F. L. Corey, which were entered, did not make the start.

THE TURF

St. Stephen and Calais Races

The list of races in connection with the St. Stephen Fair has been announced as follows:

2:27 Class, trot and pace, purse \$250; fourteen entries.

2:22 Trot and 2:25 pace, purse \$250; sixteen entries.

2:17 Trot and 2:20 pace, purse \$250; twelve entries.

2:15 Trot and 2:18 pace, purse \$250; twelve entries.

2:18 Trot and 2:16 pace, purse \$250; eleven entries.

FOOTBALL

Public School League

The final plans for the organization of the teams representing the different public schools of the city into a football league, which is being started by C. D. Howard, physical director of the Y. M. C. A., in this city, will be arranged at a meeting of the committee which is called for next Wednesday evening at 7 o'clock in the Y. M. C. A. rooms.

CRICKET

Rains Cut Down Play

Toronto, Aug. 22—Only one hour and a half of cricket was possible in the match between the All-American and the Australian crickets teams at Rosedale today, heavy rain of the morning rendering the wickets unplayable until after four o'clock.

THE RING

A Knock-Out

Los Angeles, Aug. 23—Jess Willard knocked out "Ball" Young at the Vernon Arena tonight in the eleventh round of a scheduled 20 round bout.

AQUATIC

Jim Ten Eyck Sr. to Row

Duluth, Minn., Aug. 22—James A. Ten Eyck, father of James E. Ten Eyck, coach of the Duluth Boat Club, has accepted a challenge to row James H. Riley, a veteran oarsman of Saratoga Lake, N. Y., in a three-mile sculling match.

BASEBALL

Leading First Sacker

First Baseman Konechey, who is still with the St. Louis team in spite of the rumors that he was going to join the New York Giants, to replace Merkle, stands at the head of the first sackers in the league.

The Royals The major league clubs are still hot after Burns and Gilhooly of Montreal. President Lichtenhein has received letters from five of the big league clubs, asking if he had any players whom he wanted to sell before the day for the drafting of players arrived.

LOCAL NEWS

ALLAN LINERS
 Allan liner S. Scotlan from Havre and London is due at Quebec tonight and at Montreal on Sunday.
 Allan liner Grampian from Glasgow, was expected to reach Quebec this forenoon and Montreal on Sunday morning.

TO STUDY NURSING
 Miss Vera Earle who has been telephone operator with the Times-Telegraph Publishing Co. for some time past, severed her connection with the company today and her departure causes much regret amongst her associates on the staff, by whom she was very well liked. She will leave next week for Providence, R. I., where she will study nursing.

DEATH OF MRS. ELIZABETH JAY
 The death of Mrs. Elizabeth Jay widow of William Jay, occurred on Friday at the home of her son, William Searle, 557 Main street. Mrs. Jay, who was eighty-five years of age was a native of Cambridge, England, and came to St. John about five years ago to make her home with her son. The funeral service will be held at Mr. Searle's residence on Sunday afternoon at two o'clock and the funeral will take place at 2:30 o'clock.

FUNERAL TODAY
 The funeral of Daniel J. Collins was conducted this morning, the body being taken on the Eastern Steamship Company's steamer to Boston, where interment will be made. Services were conducted yesterday afternoon at St. Rose's church by Rev. Charles Collins, pastor.

The funeral of John Power was held this morning at ten o'clock from the home of his sister, Mrs. Mullin, 182 Waterloo street to the Cathedral. Rev. M. O'Brien officiated at the services and interment was at Black River. A large number of friends attended the funeral.

MRS. G. L. PECK DEAD
 After an illness lasting for some time Mrs. E. Isabelle Annie Peck died this morning at her home, 40 St. Andrews street. She was only twenty-six years of age and was the wife of G. Leonard Peck and daughter of the late Mr. and Mrs. James Calder. Many friends will learn with sincere regret of her death. Besides her husband she is survived by two small children, two sisters, Mrs. W. Johnson, and Mrs. Samuel Worth of this city and one brother, William of Vancouver. The funeral will be held on Monday afternoon at 2:30 o'clock from her late home in St. Andrews street.

AT THORNE LODGE
 At a meeting of Thorne Lodge last evening in their rooms, Haymarket Square, E. N. Stockford, Grand Chief Templar, was welcomed home after the recent convention at the Narrows, and was congratulated upon his election. Arthur Cook presided. There was a large attendance, among them present being Grand Secretary J. E. Milton, A. Morrell and J. E. VanBuskirk, of Moncton, and Mr. and Mrs. J. Hawkins of Montreal. Each of these gave short addresses and John Beamish gave an address on the history of the association since its infancy.

EXCAVATING FOR NEW POST OFFICE GOING ALONG VERY RAPIDLY

Some of the Material Being Used For Concrete, the Rest for New Wharf Cab Filling

Rapid progress has been made on the work of excavating the site for the new post office in Prince William street during the last six weeks since the job has been under the direction of Robert F. Campbell. From July 12 to the end of the month the amount of material removed equalled that taken out during the full month before and the excavation this month will almost equal the entire amount of work done during the first part of the summer.

The difficult work of excavating to the line of the Seaman's Institute property, where the cut is six to eight feet lower than the foundations of the latter building, has been accomplished without even loosening the cement in the adjoining rock foundation.

The progress has been so rapid that the contractors will soon be able to commence the work of constructing the concrete foundations for the new building. For this purpose a large part of the material excavated will be used. The better grade of stone has been hauled to the Canterbury street side of the lot and a stone crusher placed in position to convert the stone into material for concrete. The balance of the material excavated, which was not suitable for concrete, is being taken to Sand Point and used there as filling for the cribs on the new government wharf.

Store closes tonight at 11 o'clock

**School Days Will
 Soon be Here**

Start the boy out with the proper kind of clothing and he will look better, feel better and learn better. **OUR SUITS FOR BOYS** are made from the best of cloths and every garment is cut and trimmed in the best possible manner. ST. JOHN'S LESSON FROM HOUSING IN AMHERST

Letter From W. M. Jarvis on The Question of the Three Decker

To the Editor of the Evening Times:
 Sir,—Will you allow me to express briefly my views with regard to the reasons put forward by the Builders' exchange in favor of the erection of three story wooden buildings in this city.

It may be in the interests of these gentlemen to state that three family wooden buildings are no more unhealthy than a three family brick house, which I doubt is true—if anyone proposed the erection of a brick tenement of the kind which is unlikely to put forward the other reasons they give; but can anyone fairly claim that it is preferable that three or more families should be crowded into a three story tenement house rather than that each family should have its own home with its garden to interest the mother and her children, which is far better for the mother if they could be cultivated even in a border at the cottage home?

I have just returned from Amherst, N. S. where each busy workman has his cottage home and the three story tenement is almost unknown. It is the generally in our country towns. Why should St. John continue an exception? Is it that our people love to crowd together the children brought in contact with others who may not always be desirable companions—without privacy, without the comforts of the cottage home. Or is it that the selfishness of land owners and house owners and the house builders compels the development with us of the tenement system—a little money being made or saved and health and perhaps I should add even morality sacrificed as the result?

I am not writing from the standpoint of the insurance agent. His interests are rather in the perpetuation of the three story tenement system. It cannot but have its influence in maintaining and even increasing the rates of insurance, in fixing the rates on dwellings all schedules provide for an additional charge for each family they contain. Conflagration hazard also is allowed for. The more rate paid the more premium does the agent collect and the more commission does he receive. I am, dear Sir,

Yours truly,
 W. M. JARVIS.
 St. John, N. B.
 22nd Aug. 1913.

GOVERNOR WOOD WILL ATTEND THE OPENING

His Honor Accepts Invitation of Joint Committee on New Theatre Performance for Orphans—Other Letters

Hon. Josiah Wood, Lieutenant Governor of New Brunswick, has accepted the invitation of the joint committee in charge to be present at the opening performance in the new Imperial Theatre, the proceeds of which are to be devoted to the orphans. His Honor writes that he will be pleased to be present provided the date does not conflict with his other public duties.

The following letters also have been received by the secretary of the committee:

St. John, N. B.,
 July 31st, 1913.
 Frank I. McCafferty, Esq.,
 Sec'y Committee Imperial Theatre,
 City.

Dear Mr. McCafferty:—

On behalf of our directors, before whom I placed your letter of the 28th inst., I have much pleasure in accepting the very generous offer of Messrs. Keith & Albee to divide the proceeds of the opening entertainment in the new Imperial Theatre between the Protestant and Catholic Orphanages in this city.

Speaking especially on behalf of the Protestant Orphans' Home the offer comes at a most opportune time as we are in greater need of money than for some time past, our receipts last year having fallen short of the year previous and our expenditures having been more owing to the larger number of children we cared for.

We must thank you also for your personal interest in the matter as shown by your taking the Secretaryship of the Committee having the entertainment in hand.

Faithfully yours,
 (Sgd.) T. H. ESTABROOKS,
 C. P. President.

St. Vincent's Convent,
 St. John, July 30th, 1913
 Mr. Frank I. McCafferty,
 Evening Times Office,
 City.

Dear Sir:—

Your favor of the 28th inst., informing me of the generous offer of Messrs. Keith and Albee—to give the orphans the benefit of their opening entertainment—has been received, and in reply, I beg to extend these gentlemen my most cordial thanks and appreciation for their generosity and charity, and assure them of my most grateful acceptance on behalf of the orphans.

Gratefully yours,
 (Sgd.) MOTHER MARY THOMAS,
 Gen. Supt.

The committee is sending out today and will send out at the first of the week invitations to prominent local talent asking them to cooperate.

**THE RURAL GENTLEMAN,
 THE ELUSIVE BOTTLES
 AND THE MISSED TRAIN**

"It never rains but it pours," might be an appropriate way to describe a little incident which took place at the Union Depot on Thursday.

Three rural gentlemen who had evidently been enjoying a quiet celebration in the city were returning to the station a little while before the five train pulled out. Each carried a suspicious looking parcel wrapped in brown paper. It was very near train time and they were hurrying with all speed when suddenly a black bottle shot forth from its paper covering and fell with a crash to the pavement. The unfortunate's companions thought it a huge joke and laughed loud and long until suddenly remembering their train all started off with a rush again. They had scarcely gone five steps when a second black bottle eluded its chuckling owner and to his consternation fell with another loud bang.

This was the end for the other fellow to leave and he and the third man did so with hilarious enjoyment. Suddenly the thought struck them that all this would not do much to quench their thirst in the evening and they became very sober. A minute they looked at the puffing train about to leave, a minute at the sign down the street, then all suddenly turned and dashed for the sign. Hardly had they passed the door when the conductor's chery "all aboard" sounded and the train pulled out. Their remarks on their return are not recorded.

THEIR CHILD DEAD
 Friends will extend deep sympathy to Mr. and Mrs. F. J. O'Grady of 20 Castle street in the loss of their infant son, Francis J., aged six months.

COMPLAIN OF DELAY

Citizens who use the Douglas avenue for driving are complaining of the delay in the street work being done there upon which practically no progress has been made for the last two or three weeks. A resident of Fairville who makes use of the avenue as a driveway almost daily complained yesterday because the obstructions in the road were not cleared.
