IMMIGRATION OF ORIENTALS BEFORE HOUSE

Vote of \$60,000 to Cover Salaries, etc., in This Connection.

\$600,000 for British Empire Settlement—Conference this Year on Labor Agreements—English Woman to Represent Dominion at International Labor Meet.

(By Canadian Press)

Ottawa, March 24.—Hon. W. S. Fielding, Minister of Finance, gave notice in the House of Commons yesterday that he would move an interim supply bill on Monday.

Twenty-four divorce bills were given their final reading.

An appropriation of \$600,000 was voted for assistance to immigration in connection with the Empire Settlement Act of Great Britain.

Oriental immigration was discussed at some length in connection with the vote by the committee in favor of \$600,000 to cover salaries and contingencies in connection with Chinese immigration.

It was contended by members from British Columbia that the Japanese coming in on their ships found it comparatively easy to evade immigration officers. Demands were made that Chinese merchants only be admitted on temporary permits, and that legislation be provided by which Chinese students could be deported after concluding their university course.

The House adjourned at 10.50 p.m. until Monday afternoon.

Labor Matters. The Dominion Government has fulfilled its obligations under the International Labor Convention of 1921, according to a statement presented by Hon. James Murdock, Minister of Labor. The treaty, he explained, provided that the signatories should call the various agreements contained to the authorities competent to deal with them by legislation.

The Government had received notification recently of the date of the meeting, and had tried to arrange for a substitute for the regular Canadian representative on the governing body of the International Labor office in Geneva.

Monday in parliament. In the Commons on Monday private members resolutions were in order. The first two on the order papers are to the effect that the Bankruptcy Act should be amended or abrogated, and to the effect that Canada should withdraw from the League of Nations.

The Senate stands adjourned until April 11.

Fortieth Victory in Seventy-five Annual Contests, with One Dead Heat—First Win for Dark Blue Since the War.

(Canadian Press Cable)

Putney, Eng., March 24.—The 75th annual inter-variety boat race between Cambridge and Oxford, rowed on the Thames four and one-quarter mile course between Putney and Mortlake this afternoon was won by Oxford by a length.

Previous Contests. On thirty-nine previous occasions Oxford supplied the winning crew, the Cambridge eight was victorious thirty-four times and a dead heat was rowed in 1877. Since the resumption of the race following the five year interruption due to the war, Cambridge has furnished the winning crew, last year beating the dark blue by four and one half lengths in 19 minutes and 27 seconds.

The record time for the course is 18 minutes 29 seconds, made by Oxford in 1911.

Crews and Weights. The crews and weights at starting time were:

- Oxford—Bow—P. Mallam (Lansing and Brasenose), 166 pounds. 2—P. R. Peace (Canterbury and Brasenose), 174 1/2. 3—A. C. E. Irvine (Shrewsbury and Merton), 178 1/2. 4—J. E. Redier (Canterbury and Brasenose), 181 1/2. 5—J. G. Mower-White (Rugby and Brasenose), 183 1/2. 6—C. H. Stoker (Shrewsbury and Worcester), 185 1/2. 7—G. O. Nickalls (Eton and Magdalen), 180. 8—W. P. Mellen (U. S. A. and Brasenose), 182. Cox—G. D. Clapperton (Magdalen School and Magdalen), 108. Cambridge—Bow—W. Smith (Shrewsbury and Brasenose), 168 1/2. 2—F. W. Law (St. Paul's and Lady Margaret), 160. 3—K. N. Craig (Cheltenham and Pembroke), 182. 4—S. H. Heap (Eton and Jesus), 182 1/2. 5—B. G. Ivory (Bedale and Pembroke), 192. 6—T. D. A. Collet (Oundle and Peterborough), 175. 7—R. E. Morrison (Eton and Third Trinity), 169. 8—H. B. Sanders (Eton and Third Trinity), 166. Cox—R. A. L. Balfour (Eton and Third Trinity), 124 1/2.

DRAMATIC BATTLE TO SAVE LIVES

Fight Fire to Ward Off Big Explosion and Rescue Seamen—Thousands Witness Scene.

New York, March 24.—Thousands of spectators on Staten Island and New Jersey shores watched Standard Oil tugboat men fight to save nine seamen from a burning death and to prevent the Bayonne oil tanks and docks from going up in flames when the steamship Postmaster General caught fire in Staten Island Sound.

The vessel, leased to the Government to take mail from incoming ships, had completed her day's work, and was bound for New Brighton for repairs, when the fire broke out in her hold.

Masters of four Standard Oil tugs, seeing the danger, pushed into the Sound and played the hose on the burning vessel. The fireboat Purroy took off the captain and his men, landing them exhausted, but uninjured.

For a while it looked as if the Postmaster General would crash into the Bayonne docks and explode the millions of gallons of oil stored in nearby tanks. The blazing vessel drifted with the tide, now swept toward the docks, and then veered off by the wind. The flames had gained such headway that efforts of the crew of eight were futile. Within a few minutes the engine was disabled and the postmaster general, flames shooting up from port to starboard, was swept by the strong tide toward Bayonne.

AGED 73, HAS EIGHT WIVES AND THERE MAY BE A SCORE

Arrested in Wilkesbarre When Matrimonial Bureau Brings Him to Marry His Deserted Wife, Thinking Her to be Another Woman.

(Canadian Press)

Wilkesbarre, Pa., March 24.—Charles W. Davis, alias Taylor, aged 73, veteran Lehigher held here on a technical charge of larceny has no fewer than eight wives now living, according to "early returns" received by county and city authorities. Police officials are inclined to believe that the number will have mounted to a score by the time all sections of the country are heard from.

Pictures of the much wedded man have been prepared by the state police and are being distributed in all sections of the country in order to check up on his activities in the various places in which he may have been located. Davis is known to have corresponded with dozens of women and wives, thinking her to be another woman, letters began to pour into local police headquarters from all parts of the east.

The closing is a measure of precaution taken by the Government against forest fires.

THE PARIS POLICE ROUND UP A GANG OF CROOKS

Arrest an American Named Morton and Nine Alleged Accomplices—Believed Responsible for Big Robberies.

Paris, March 24.—The arrest early this morning of an American, Daniel John Morton, and his band of nine alleged accomplices, the Paris police declare they have ridged Europe of its most important and daring group of international crooks.

The police of the French capital have been on the lookout for some months for a band which has been devoting itself almost exclusively to American and English visitors, using the method known here as "la Americaine"—the pushing of the victim by a part of the gang, while others steal or exchange his baggage.

The vessel, leased to the Government to take mail from incoming ships, had completed her day's work, and was bound for New Brighton for repairs, when the fire broke out in her hold.

Philadelphia, March 24.—A bull ran wild yesterday in the streets of Philadelphia and, dashing into a house, attacked a woman and her two daughters. After leading a chase for almost two miles, the beast dropped with sixteen pistol bullets in its head and body.

World Surplus of Sugar; Price Rises To 10 Cents

U. S. GOVERNMENT DECIDES TO FIND THE REASON WHY

Cuba Meeting, "Attended by Montreal Bank President," to be Brought to Attention of Grand Jury—Holds Hoover Responsible.

(By Canadian Press.) New York, March 24.—Four agencies of the U. S. Government were at work yesterday on investigations of the recent manipulations of sugar which have resulted in an increase in price of ten cents a pound despite the fact that there is a world surplus of sugar this year estimated at nearly half a million tons.

Washington, March 24.—A suggestion that the U. S. Government will bring to grand jury attention a meeting alleged to have been held in Cuba in January last attended by the president of a Montreal bank will be read by a director of the People's Legislative Service, according to a statement on the sugar situation, which he issued last night.

"I am informed," asserted Mr. Manly, "that means of further increasing the price of sugar were discussed on this occasion." Mr. Manly said he would suggest that the Department of Justice bring to the attention of the jury to a meeting which is alleged to have taken place in Cuba about the middle of January, 1923, between the president of the National City Bank of New York, the president of the Colony Trust Company of Boston, the president of a prominent bank, all of which hold large quantities of sugar paper, and certain prominent Cuban sugar producers.

New York, March 24.—The United States Department of Justice said yesterday that charges that there was a conspiracy in the sugar trade to raise prices were of sufficient gravity to warrant a preliminary enquiry.

The Fundy Chapter, I. O. O. F., held a successful rummage sale in the lobby of the Queen Square Theatre this morning.

The Imperial Meeting Is Off

Latest Arrival of Vessel Prevents Address of Sir Michael Sadler—Boy Scouts Head Sends Wireless.

The latest word received by Canadian Pacific steamship officials today was that the S. S. Metagama would reach port tomorrow at 1 o'clock, and that the Marloch would arrive at 6 o'clock.
On the Marloch are coming Sir Robert Baden Powell, head of the Boy Scouts of the world, and Lady Baden Powell, also Sir Michael Sadler, who was to have addressed a meeting in the Imperial Theatre tomorrow afternoon. Of course the late arrival of the steamship prevents the holding of the Imperial meeting and Sir Michael's arrangements are such that he can give no other time. It is with great regret that those in charge of the meeting announce that it has been found necessary to cancel it.
Sir Robert Baden Powell was in touch by wireless today with Guy Short, district commissioner of the Boy Scouts here, relative to matters in connection with his visit to St. John.

THE MONTREAL POTATO MARKET NOT FAVORABLE

(Fredericton Gleaner)
That the potato market in Montreal is not in a satisfactory condition, that many of the reliable brokerage firms there are going out of the business altogether and that the demand is dropping off so that New Brunswick growers and shippers cannot look to that market much further, was the statement of LeBaron R. Bull, of W. W. Boyce & Co., produce dealers, who has just returned from a business trip there.
Mr. Bull expressed the opinion today that New Brunswick's 1922 potato crop is now pretty well cleaned up as a result of the heavy shipping which has been going on to Cuba, and said that while he was in Montreal not a single carload of potatoes from the St. John valley territory of New Brunswick arrived there.

Rev. Father Connolly, C. S. S. R., who is rector of the Redemptionist church in Quebec, and Rev. Father McCormick, C. S. S. R., of Quebec, both came to officiate at the funeral service. Both were particular friends of Mr. McDade.
The funeral of Malcolm M. McLeod was held at three o'clock this afternoon from his late residence, 131 Erin street, to Fernhill. Service was conducted by Rev. Dr. George Steel and Rev. W. H. Spencer, Johnstone L. O. I. and sister lodges attended, and the Orange society, in charge of the cortege, directed by Worshipful Master W. M. Johnston.
The funeral of Henry S. Daly was held this afternoon at 2:30 o'clock from his late residence, 263 Charlotte street, to Fernhill for interment. Service was conducted by Rev. A. F. Fisher.

TIES GUN TO BEDPOST; PULLS TRIGGER WITH STRING; SHOT IN HEART

Charlottetown, March 24.—Worried over financial and litigation troubles John Dowling, aged eighty, a farmer at Rocky Point, near Charlottetown, shot himself through the heart yesterday. He had attached a shot gun to the post of his bed and with a string pulled the trigger. He lived with his nephews and niece.

MRS. JOHN B. EAGLES

The death of Mrs. John B. Eagles occurred about noon today at her home, 405 Main street, after a short illness. Mrs. Eagles had reached the advanced age of 81 years and had a host of friends who will learn with regret of her death. She leaves to mourn her husband, one son, John S. Eagles, of this city; one daughter, Mrs. Elizabeth M. Sullivan, and six grandchildren. The funeral will take place on Monday afternoon at 2:30 o'clock.

Rev. Dr. George Steel delivered an interesting address in the Natural History Society room last evening under the auspices of the Ladies' Aid of Portland Methodist Church. The address was illustrated by lantern slides, shown by William McIntosh. A musical programme followed and those taking part were: Miss Vickers MacLaughlin, Miss Isabel Rowley, Miss Smith and Miss Laura Fanjoy. Home made candy was sold and the proceeds donated to the church funds.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, MARCH 24, 1923

THE UNSOLVED MYSTERY

J. Ambrose Small, the wealthy Toronto theatrical magnate, who disappeared completely and mysteriously early in December, 1918. The case has been the subject of unlimited court action since that time, and the entire subject is again being thrashed out following an application for a declaration of his death.

RECENT WEDDINGS

Gordon-Sullivan.
On Thursday evening at the home of Mr. and Mrs. H. B. Cunningham, Simonds street, when Miss Augusta A. Sullivan, daughter of William and the late Mrs. Sullivan, St. Martins, and Abner Gordon, of Devon, were united in marriage by Rev. Dr. David Hutchinson. The bride was given away by her brother-in-law, H. B. Cunningham, and wore a dress of navy blue. The bride received many beautiful and attractive gifts from her large circle of friends. The happy pair will reside at St. Martins.

A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you get 16 ounces—a family supply—of much better cough syrup than you could buy ready-made for \$2.50. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

MRS. AMBROSE SMALL

Charles F. Lee of Brockton, Mass., son of Mr. and Mrs. Henry Lee, of West St. John, were united in marriage. Rev. Norman Ralston officiated. They will reside in Brockton.

The wife of the missing theatrical magnate, who has made application to the courts to declare her husband legally dead, in order to make a settlement of the estate. The picture was taken at the Pyramids in Egypt several years ago.

IRISH FREE STATE EXPERIENCES CALM

Vatican Representative Negotiating—A Rebel Publicity Office Raided.

(Special Cable to the New York Times and Montreal Gazette.)
Dublin, March 21.—The Free State is passing through a period of calm and quiet, though individuals here and there are made victims of reprisals for executions, and the revolver, rifle and petrol tin are still ready weapons on private persons and property.

The criminal investigation department men continue operations, and here again have tracked down the republican publicity department, many men and women of which must now be in jail. They searched houses in North Great George street last night, and found the headquarters of that department in one, with a daily bulletin in course of preparation. They seized everything and carried off fourteen women members of the republican women's league, also a prominent male republican, the head of the publicity department.

Recent captured letters give an impression that the republican cause in America is in an unhealthy condition, and that those in charge do not constitute a happy family. Still de Valera, in a St. Patrick's Day message to the Irish race, said: "The Republic of Ireland, the shrine of the tradition of centuries and the symbol of the determination of an unchallenged independence, still stands undefeated despite all our adversaries."

Nothing has been heard of or from Miss McWiney for some time but her constituency of Cork seems bright high for peace. It is learned that proposals are put forward by Archbishop Hart and other clerical and lay men of prominence have been under consideration by the republican executive, and it is expected that a decision will be arrived at before the end of the present week, in southern Republican circles the feeling prevails that those proposals put forward by Archbishop Hart is Deputy Doctor McCartan's motion, "that the Daily records satisfaction over the development in the south in favor of peace, and expresses the opinion that the proposals made afford a fair basis of settlement." He intended to move today the resolution, but the reasons he preferred not to state, he considered the present time inopportune for discussing it.

It will be remembered also that Monsignor Lusio is here from the Vatican. He has begun to prosecute the object of his mission. He left the Shelbourne Hotel today and will not return for some days, and obviously has gone to meet the cardinal, archbishops, and bishops to discuss the entire situation.

A meeting of the executive of Luxor Temple was held yesterday, Frederick M. Tweedie of Chatham, the potentate, presiding. It was decided to celebrate the twentieth anniversary of Luxor Temple in June, to take the form of a grand ceremonial session in the afternoon and an entertainment, supper and dancing in the evening.

RED RASH ON HANDS AND BODY

Itching and Burning Terrible. Cuticura Heals.

"I was troubled with eczema on my hands and body. It broke out in a red rash and later formed sore eruptions containing water. The itching and burning were terrible. My hands had to be bandaged, and my clothing aggravated the breaking out on my body. The trouble lasted about three months.

"A friend advised me to try Cuticura Soap and Ointment. I did and found they helped me, and after using two cakes of Cuticura Soap and two boxes of Ointment I was healed." (Signed) Mrs. Russell Woodhouse, Sand Point, Nova Scotia.

Cuticura Soap, Ointment and Tablets are all you need for every-day toilet and necessary purposes.

Manufactured by Cuticura, Inc., 155 N. 2nd St., St. Paul, Minn. Sold every-where. Beware of cheap imitations. Cuticura Soap always without soap.

BUILDING COLLAPSES.

Quebec, March 24.—(Canadian Press.) The parish hall of Limoulin collapsed last night, the walls of the building burst out and the roof, upon which there was a quantity of snow, crashed into the body of the building. No one was injured. The loss is estimated at \$6,000.

Get Easter Clothes Without Buying 'em

Several Morals and Some Lack of Morals Shown by This Story — Lure of Ready-to-wear.

Detroit, March 24.—This tale may serve to give point to one or all of the following axioms, to wit: Firstly, you can't keep a sleuth off his scent;

second, men and women, including shoplifters, would be happier if wives were punctual in keeping appointments with their husbands, and third, a department store rest-room is no place to change clothes.

Lieutenant Henry Snook of Police Headquarters was waiting at Gratiot and Woodward avenues for his wife. At 5 o'clock Mrs. Snook was nowhere in sight. Snook was sure she would appear for another half-hour. He strolled around, and his detecting instinct told him there might be prey in a nearby department store.

As he entered the store basement a private woman detective recognized him. She pointed to a couple of young women whose cloaks displayed suspicious bulges. Snook, with the store detective, trailed the suspects through the store. As they trailed the bulges on the girls grew larger. At one corner the girls were seen to present each other with fox chokers, whereupon Snook and the store detective followed.

As the girls were about to leave the store they were arrested. In the private offices the woman detective stripped the girls to solve the mystery of the bulges. Every stitch on them was new stuff stolen from the store.

The discarded articles of apparel were found in the rest-room.

At headquarters the girls gave their names as Bernice Johnson, 17, and Dolly Patton, 19, both of 3644 Cabot avenue. They are held, charged with simple larceny.

66 YEARS A REPORTER.

T. L. Haskell of Portland Will Have Made This Record by April 1.

Portland, Me., March 24.—Thomas L. Haskell, veteran newspaper man,

who is said to be the oldest active reporter in active service in the country, will complete sixty-six years of continuous newspaper work in Portland on April 1. "Captain" Haskell, as he is known along the waterfront, the beat he has been covering for years, was 80 years old last Christmas Day. When he began reporting work he received 60 cents a week. Sometimes he got it, but more often, it is said, he received his editor's cast-off clothes instead. Before starting to gather news for The Argus in 1867 he was a newsboy. He remained with The Argus until it was taken over by The Herald, and continued with The Press-Herald when it absorbed The Herald.

The arguments of Dr. F. R. Taylor, K. C., and W. G. Pugsley, K. C., of Ottawa, were finished yesterday in the case of the Attorney-General of New Brunswick vs. the Canadian Pacific Railway, arising out of objections to the new railway bridge at the Reversing Falls. The argument of Hon. W. P. Jones, K. C., of Woodstock, was being heard when adjournment was made.

WALL PAPER Solves every decorating problem

Now is the time to freshen and beautify the home interior. Do not let this Spring go by without that re-decorating which every home requires. If you would have your new wall decorations in accord with the latest conceptions of the best authorities, insist on papers bearing the name

BOXER

Master Makers of Wall Papers

In their collection you will find just what you are looking for. The patterns are applicable to any interior.

These new patterns are 2 1/2 inches wider than the old type of Wall Paper; which, besides enabling you to paper a room with fewer rolls, means easier hanging, more beautiful designs and the improved appearance which results from fewer seams.

Look for the name "Boxer" on the selvage.

Enter The Jacquette With a Flourish of Trumpets

NO SOONER than a Radio reports the new Paris rage than in steps the Jacquette—decidedly blousy and decidedly dashing. Here's a ripply Camel Hair, a shimmering beige and navy a button but those on the bell cuffs. It folds over to left so the long lapel ends in a cabochon buckle. A four-cornered skirt adds further swishiness—\$44.75.

A simply plaided Polo repeats the blousiness, noted at waist, in a gathered cuff. Over it goes to the left, looping on a large fancy button—\$29.75. Both are silk lined, the first one in Turquoise and this in a light navy.

Longer Coats, Larger Value

Look around and see where you'll find the right range of spring things—you not merely inspect but actually decide upon. Those boyish Topcoats like the Lancaster, for instance—where will you locate the ones that mean full length and full value, not to speak of color, tone and cut? There's a full choice here between \$19.75 and \$39.75, with equal emphasis on any figure in between. Soft Blues and Sandy Shades in Polos and Polairs, Herringbone Tweeds, Tomato and a whirlwind of fresh Plaids.

Or, coming to Wraps, you'll quickly fix your fancy on one like this—a Silk-lined Velour with large drop sleeves that come down from the shoulders in a nail head and silk stitch tracery that's as recent as the robins. The yoke gathers in the back and the garment wraps over to left, where caught by large iridescent buckles—\$44.75.

And the Camel's Hair Suit

Just as illustrated in Franklin Simon's latest Fifth Avenue catalog—five distinct styles. A typical case—the only fastening being a sash that ties so the ends fall low, the coat drape off to the left. Genuine Camel's Hair and \$54.75. Look where you like, every point of value brings you here.

Baker's Cocoa

is the ideal drink for growing children
Not only does its delicious flavor and aroma appeal to the palate but it supplies the body with a considerable amount of pure, wholesome and nutritious food.

Children, owing to their almost ceaseless activity, frequently require as large an amount of nourishment as adults, and good cocoa is a valuable aid in the carefully arranged diet. But its quality must be good and no cocoa can quite so well meet the requirements of dietitian, physician, nurse or housekeeper as "BAKER'S"

More and Tougher Felt - More Asphalt

Another Vulcanite Patented Shingle
The Vulcanite Self-Spacing Shingle—the self-spacing shingle makes laying easy and economical and seals the roof against the worst ravages of the weather by sealing the upper half of the slot between shingles and effectively prevents rain, snow or sleet from being driven through to the roof boards.
THE felt base of all Vulcanite Roofing is the best, toughest, heaviest roofing felt which can be produced. The asphalt is rolled in by our exclusive Glendinning Process, because this alone will supersaturate the felt with asphalt and make it really fire-resisting and weather-proof.
Vulcanite Hexagon Slabs (shown above) are the preferred choice of architects, builders and owners for beauty, protection and economy. The double butt construction throws a heavy shadow, giving the attractive appearance of the most expensive tile. Beautiful slate surface in red or green. They cover your roof with a double thickness in every place—proof against fire, wind and weather.
It costs less to lay Vulcanite Hexagon Slabs, for each automatically spaces itself, insuring quick work and true work. You can get them surfaced with green or red crushed slate.
Vulcanite Roofing of the same high quality also comes in individual shingles, four-in-one slab shingles, and in rolls—both slate surface and smooth finish—for home, farm and industrial buildings. You can identify the genuine by the Vulcanite name and the Beaver trademark. Ask your dealer for full information or write us. We will send free samples and a booklet on request.

Canadian Exhibition Train To Boost Trade With France

Montreal, March 24.—France offers for prosperity and I feel confident that Canadian manufacturers will have reason to congratulate themselves on exhibiting their wares in France. Trade associations, representatives of groups of manufacturers from coast to coast have contracted for practically all available space on the train, the schedule at the Canadian Exhibition

ANTI-FAMILY LANDLORDS

Now Subjected to Heavy Fine by French Chamber.

Paris, March 24.—The Chamber of Deputies, discussing rent laws voted an amendment which should bring relief to many unfortunate tenants. France, and especially Paris, like New York, has been a difficult place for tenants with large families—or even with small ones—to find lodging. Many house-owners simply refuse to allow children in apartments, going so far as to insist on a clause in the lease whereby the arrival of a baby entails cancellation.

The legislators, by an overwhelming majority, today decided that henceforth house owners or their agents who refuse to rent premises to families with children, or who make children a pretext for raising the rent, shall be liable to fines varying from 500 to 5,000 francs.

THIS IS A STUDEBAKER YEAR

FEMALE REGIME ENDED.

Job "Too Tough" on North Dakota Village Marshal.

Des Lacs, N. D., March 24.—After a year's reign Des Lacs' women administration was defeated this week, the voters in the village election returning a complete male ticket. Carried into office by a vote of two to one, a year ago, the women are now beset by approximately the same ratio, according to unofficial returns. The feminine officers were elected in March, 1922, and Des Lacs stepped into a unique place on this continent by claiming to be the only community that had elected a complete set of women officers, and married women at that.

Mrs. F. H. Ward was elected marshal at that time and she held the job for several months, but finally announced her intention of giving up the office to a woman who had fewer children to care for. She found the job was "too tough," she said, and declared that "a woman's real place is in the home."

A section foreman, Daniel Olson, was appointed to the office for her unexpected term.

Fine of \$1,500 and Costs Is Imposed by North Bay Magistrate.

North Bay, March 24.—In a crowded court room Frank Scappatura, proprietor of the Mackey House, North Bay, and Kuntz Brewery, Ltd., of Waterloo, through their counsel, pleaded guilty to charges of receiving and selling liquor, respectively, both charges being laid under the Liquor Transportation Act of Ontario. A fine of \$1,500 and costs was imposed by Magistrate C. S. McLaughlin in each case. On two charges of bribing police officers, laid in connection with the seizing of a carload of beer by Provincial Constables Ataman of North Bay and Elliott of New Liskeard, Gordon Waldron of Toronto, acting for Scappatura, pleaded not guilty and was granted an eight days' remand in which to prepare his case. Bail was renewed at \$1,000.

How to Avoid the Pitfalls of Prosperity

There is universal agreement that America is out of the slough of industrial depression and is again climbing the heights toward prosperity. Admitting this condition, it is of the utmost importance to every merchant, manufacturer, and in fact, to every man and woman to know if the United States, as a nation, is standing on firm, level, high ground or is making a perilous ascent from which business must almost inevitably fall headlong, perhaps, with another "buyers' strike," and plunge downward again into the depths of depression, unemployment, and epidemics of bankruptcy. As one financial writer sees it, American business is at a "cross-roads" where it may choose between a safe path to continued prosperity or the more tempting climb to the dizzy heights of inflation and the inevitable downward crash. That LITERARY DIGEST readers may know just where the country stands and that they may know how to choose the safer path, the leading article in that magazine this week presents expert opinion upon present and future business conditions. This news-feature, coming at this time, and because of its comprehensive scope, will be read carefully. Other news-articles in this week's DIGEST of more than usual interest are:

MOTORS And Their Care

To Steady the Bouncing Car.
A light car that is inclined to bounce around in the rear should be weighted down with sand bags. A bouncing car is bad on tires.

Battery Readings.

The minimum charge of a battery is 1200; the maximum, 1208. The lowest state of this charge, without injury, should never register below 1160.

Overheated Engine Causes Trouble.

Overheating of an engine burns up the oil, causing friction, loss of power, scored cylinders, broken parts and possibly a bent crank shaft and cracked crank case.

Greasing Gears.

When the hole in a gear case is so small that it makes the feeding of grease through a gun extremely difficult, screw into the hole temporarily an ordinary compression grease cup of large size, by which means a full charge may be inserted.

Cleaning the Windshield.

Washing the windshield with water will not remove grease, and will usually result in spreading it over a larger area. The best way to clean the glass is to dip a clean cloth in gasoline and rub over the surface; then use a dry cloth to dry the glass.

The New Car.

A wise motorist, when breaking in a new car, will not only drive less than 25 miles per hour, but will make a careful inspection of every working part, paying particular attention to the oiling system, the amount of water in the radiator and the adjustment of the brakes.

Care of the Battery.

Never fill the battery with water to too high a level. The water will tend to work through the top, starting corrosion of the terminals and quick destruction of the wooden box. The top of the box should be kept dry, and the terminals should be cleaned and covered with vasoline, so that moisture may not collect upon the metal parts.

Worth Knowing.

To loosen a screw that is so tightly screwed that it is quite impossible to move it with the leverage of the screwdriver handle, apply a wrench to the screwdriver blade, pressing down firmly,

on the top of the screwdriver with one hand and turning it by means of the wrench.

Efficient Ignition.

To prevent wires from breaking, every ignition wire should have a terminal soldered at each end. This will also insure firm contact.

Keeping Parts Separated.

When an automobile engine is to be disassembled, the mechanic will find

that a great deal of time is saved if all parts are separated into different sections. Reserve a box for all parts pertaining to one unit or system, such as carburetor, magneto, valve system, pump, etc. The value of this plan appears when the task of assembling begins.

Skidding.

When a car begins to skid, the thing to do is to instantly throw the wheels so as to make the front of the car

In every one of its manufacturing processes the good Maxwell receives precisely the same high-principled treatment that is accorded a car produced to sell at three times the price.

The good Maxwell engine is enduring and exceptional in its goodness. It is built under the close and continuous supervision of a group of men who have been associated with some of the largest and finest achievements in the industry. F. O. B. move in the same direction as the rear is skidding. Thus if the rear of the car were to skid to the right, the front wheels should be thrown toward the right. The wheels must be straightened again the instant the skid stops. Do not apply the brakes suddenly.

Keeping the Brakes in Order.

Apply brakes slowly. Test both brakes before starting. Adjust the brakes every 30 days. An equal pressure should be had on the right and left wheel brakes.

Clean the brake lining with kerosene, and keep the surface clear of oil, road grit and metal particles.

Kerosene or crude oil is very good to remove rust.

Buy the best gasoline that gives the most mileage. Oversized tires on the rear wheels will give greater traction.

Never "dope" the battery by adding chemicals to improve its activity.

Leaky inlet valves will cause an annoying backfire through the carburetor.

Under normal conditions, tires on front wheels of an automobile will out-run rear tires.

Beauty

Your first impression of the new Gray-Dort Six will be of a car much larger and finer than you expected at its price. Never before has been offered so much grace of line, beauty of finish, smartness of equipment, at such an astonishingly low price.

DODGE BROTHERS TOURING CAR

As Spring days approach, the demand for Dodge Brothers Touring Car mounts swiftly.

Dodge Brothers one problem, at present, is not how many Touring Cars they can sell, but how many they can build.

Never was public approval of Dodge Brothers product more obvious, and never was it more richly deserved.

Improvements, rarely spoken of but constantly being made, have brought the car to a state of perfection which can only be described as remarkable, even for Dodge Brothers.

Every part which takes a major strain is built of chrome vanadium steel. Many more pieces of alloy steel are used in vital parts than normal wear requires.

Transmission Lock
On the lower end of the gear shifting lever is a reliable theft-lock—standard equipment on the new McLaughlin-Buick Models. This is one of the safety features in the 1923 models that has lowered insurance rates for owners. Among equipment features are, bumper, scuffplate, Dumbell radiator filler cap, full crown fenders, drum type headlamps, etc.

A glance at this beautifully proportioned two passenger four-cylinder roadster is an invitation to get behind the wheel.

The speed and power suggested by its graceful lines and low-hung body are fully realized on the open road. And its ease of manipulation and instant response to the throttle insure unusually satisfactory behavior in traffic.

INDIANS CLAIM RENT IN CORN FOR 150 YEARS USE OF ISLAND

Brantford, Ont., March 23—Efforts to collect 900 bushels of Indian corn, being the rent for 150 years of Pelee Island, at the rate of six bushels a year, are to be made by the Caldwell Indians, R. H. Abraham, agricultural expert of the Indian Bureau, was advised recently.

Mr. Abraham, who has just returned from Chatham, said the Indians claimed to have leased the island in 1760 or thereabout, for 999 years to an Indian agent named McKee. Mr. Abraham added that at a meeting of the tribe the Indians had elected a chief and two councillors as the first step in negotiations with the Canadian Government for the establishment of a reserve. He suggested that Walpole Island, Lake St. Clair, would be suitable, there being about 10,000 acres of arable land there.

VALLEY CONFERENCE ENDORSES OLD HOME SUMMER AND FORMS TOURIST ASSOCIATION

Kentville, March 23.—Representative citizens gathered from Halifax to Yarmouth from all the western counties of the province at the Cornwallis Inn Monday to consider the Old Home Summer scheme, endorsed the project and decided upon immediate organization. Horatio C. Crowell, promoter of

the Old Home Summer, and representing The Morning Chronicle, urged that immediate action be taken and that the citizens assure the government that their energy and voluntary effort will be behind the scheme. He said the hour has struck, as the Premier of the

province in his pronouncement upon this matter, gave him the confidence of support.
P. J. Giffin, of the Halifax Herald, was the next speaker, and said that the Herald was in complete accord with the project and would give it every support.
James Sealy, M. P. for Kings County, and member of the Parliament Committee dealing with the tourist problems, said that he was so intensely in sympathy with the Old Home Summer project, that he felt at times the idea must have been of divine inspiration. He urged that citizens realize that the government could not do much without public support, and pleaded that all get a realization of the great undertaking the province was as-

suming in recalling its people from the ends of the earth.
A. E. MacMahon was chairman of the afternoon and evening meetings. George E. Graham, president and spoke briefly and F. G. J. Comeau, representing the Halifax Board of Trade, very aptly reviewed the growth of the tourist business and the development of transportation facilities, when such men of vision as the late Hon. L. E. Baker of Yarmouth was alive, and exhibited his faith in Nova Scotia by doing big things. He felt that men of such vision today must place themselves behind this great development movement.
Before conference broke up at a late hour tonight the delegates organized a Valley Tourist Association with A. E. MacMahon president, Prof. Saxby Blair, vice-president, and H. M. Chase, secretary. All towns from Windsor to Digby will be included in the organization.

The Tourist Conference.
The tourist conference of the Boards of Trade and newspapers of Nova Scotia met in the afternoon with a large number of delegates. President A. E. MacMahon, of the Kentville Board, was in the chair. Prof. W. S. Blair outlined the object of the conference, the value of and importance of the tourist trade to this province.
J. W. Bowers, of Halifax Board, spoke of the need of good hotels. Last year there were 600,000 tourists in the State of Maine. He quoted from the Montreal Star that about 180,000 people from the cities of Montreal, Toronto and Ottawa go to the State of Maine each year. These should be diverted to this province. One of the advantages to the country is the added valuation to properties and land that was formerly valueless has increased very materially in various sections because of the tourist trade, consequently adding to assessment and more taxable property.
L. M. Fortier, of the Commercial Club, Annapolis, thought that we should have an organization for the promotion of the tourist trade and travel combined, should work in conjunction with the Department of Immigration. Mr. Fortier outlined the work he was doing as honorary superintendent of the Old Fort at Annapolis Royal. Ten thousand people had visited the Fort last summer.
F. G. Comeau, Vice-president Halifax Board of Trade, thought that a bureau might be established in different towns for the gathering of information and publicity purposes. Volunteer work must be done by citizens of the different localities. He spoke of the great work which the Dominion Atlantic Railway had done in advertising the Province.
F. E. Cox, Middleton, advocated the Old Home Summer idea being developed. Different towns could take a week, and all finally centering in a week or more at Halifax.

The Resolution.
The resolution on the Old Home Summer follows:
"Whereas the Government of Nova Scotia has appointed a Parliamentary Committee to investigate and consider the possibilities of the development of the tourist travel to Nova Scotia, and whereas that Committee will make certain recommendations to the Legislature as to ways and means of developing the tourist trade and whereas there is now before the Province a proposal to hold an Old Home Summer in 1924 and appeal to all Nova Scotians living abroad to visit their native land in the summer of 1924, we, the delegates of the tourist conference at Kentville, resolve, that we strongly endorse the Old Home Summer Movement for 1924 and urge upon the Government of Nova Scotia to grant all legislation that will give the official sanction and assist in its organization and successful conduct.
"Further resolved that this conference will take immediate steps to organize the committees necessary to carry on the work of the Old Home Summer in all the towns and counties here represented. Moved by Fred Cox, Middleton, seconded by J. L. Peters, Digby."
The resolution on the Tourist Association follows:
"Resolved that the delegates to this conference will form themselves into the nucleus of an Annapolis Valley Tourist Association for the counties here represented and arrange for completing organization embracing all the western counties from Windsor to Yarmouth."
The tourist resolution was:
"Whereas, this meeting has been held for the purpose of studying and formulating plans for the development of the tourist travel in the Annapolis Valley, and whereas the Government of Nova Scotia has appointed a Parliamentary committee to investigate the possibilities of tourist travel to Nova Scotia, and recommend legislation that will assist in this development, therefore resolved, that the attention of the Government be directed to the necessity for more aggressive action in the dissemination of information throughout New England and other parts of the United States and Upper Canada, in reference to the attractiveness of our Province as a tourist resort through a central and unified source, and that they be urged to at once set aside a sum not less than \$15,000 as a start in the organization of a publicity campaign for the purpose outlined above, and establish a central information bureau for tourists for the Province of Nova Scotia, it being understood that voluntary information bureaus will be established by local Boards of Trade or organizations."

IMPERIAL TOBACCO COMPANY OF CANADA, LIMITED.

Note the Improvement In Power and Pick-Up

The development of the new Champion marks an almost revolutionary advance in spark plug manufacture.

You will note the difference and the betterment in the way your car performs, from the day you equip every cylinder with this new plug.

You will experience more power, and snappier, quicker pick-up. The lousy-sluggish feeling will be gone. You will even note a saving in gas and fuel.

Until you get Champions in your car—a full set—you cannot realize, of course, how much better they are.

Champion's wonderful new core makes all the difference. This core is the product of science.

It was developed in Champion laboratories after years of tireless research and experiment. There it was brought to its present perfection.

That is why dependable Champions last longer than other spark plugs. But all spark plugs lose

efficiency in service. They do not ignite the mixture with sufficient intensity. The charge does not burn fast enough.

This wastes gas and oil. It lowers power. Often it leads to serious injury to the engine.

But all this is overcome if Champions are installed in every cylinder at least once a year. Engine performance is wonderfully improved. Oil and gas are saved. Serious trouble is avoided.

More than 30,000,000 new Champions have gone into service in the past year—enough to equip 60 per cent of all the motor cars of the world.

The difference in this Champion,—the improvement a set makes in car performance—are so important that you are not justified in driving your old plugs another day.

For your own protection, be sure you get the Champion with the Double-Ribbed core,—and install a set at the first opportunity.

Champion Spark Plug Co. of Canada, Ltd. Windsor, Ontario

For ten years Champion X has been standard spark plug equipment on Ford cars. It is composed by Ford users and Ford dealers the world over as the best spark plug for Ford cars, trucks and tractors. For sale everywhere.

You will know the new Champion by the Double-Ribbed core. Buy them by the set. The dealer who values your good will, will recommend Champions. A type and size for engines of every make and model.

the concurrence of New York to lower the rates?
Mr. Cunningham—No more than that we are members of the conference together.
Mr. McMaster—All members one of another?
Mr. Cunningham—That was the agreement.
Referring to the minutes of another meeting in Montreal, Mr. McMaster showed that the United States Shipping Board, at the request of the United States Government, had offered to lower ocean rates on cereals and flour. This news was passed on by the North Atlantic Conference in New York to Montreal, suggesting that it might be necessary to meet the proposed rate. It also developed that the Montreal rate-fixing conference sent back word to New York protesting against any reduction.
Mr. McMaster—The Montreal meeting was protesting against this reduction in ocean rates on cereals and flour. The Canadian Government Merchant Marine joined in the protest?
Mr. Cunningham—Yes, because we thought the reduction was not justified.
Here Thomas Sales (Saltcoats) quoted Major Curry of Montreal at last year's hearing as saying that the C. G. M. man attended the Montreal meetings only as a listener. "That is hardly borne out by today's experience," added Mr. Sales.
Mr. McMaster—Is it not strange that the United States Government forced a reduction in ocean rates on cereals and our own shipping lines protested? We also find that our Government steamship institution was combining with the other Canadian lines to maintain those rates. Does this situation not constitute a prejudice to our national producers and millers?
The speaker revealed that the proposed rates on cereals were unwarranted.
Mr. McMaster—Here is the Government of one country urging the reduction of rates and the Government of another country, in effect, maintaining the same rates.
In a series of preceding questions Mr. Cunningham admitted that New York was notified, by way of courtesy, of any reduction in Canadian rates; that reductions were not made without consulting the North Atlantic conference.
Mr. McMaster—The G. M. M. on the part of the New York conference extended over the Gulf of Mexico.
In the minutes of one of the Montreal meetings it was shown that the Canadian lines, especially the C. G. M. M., had communicated with the North Atlantic Conference to the effect that in the hope of its courtesy, the G. M. M. was underquoting them on agricultural implements to be shipped to London.
Mr. McMaster—The G. M. M. on the part of its association with the other lines, was not free to quote a rate to meet the Jacksonville rate?
Mr. Cunningham did not agree with this interpretation.

SUBSTITUTE FOR COTTON IS SOUGHT BY GERMANY

Research Experts Hope to "Lace Nation Independent in Textile Line"
Berlin, Feb. 15.—(By Mail)—Research work designed to develop a substitute for cotton has been taken up again by German textile scientists. It is hoped that ways and means may be found of making Germany's textile industry independent of foreign markets by the perfection of a new process of "cottonizing" various other fibres.
Before the war Germany's requirements for raw materials were about 2,000,000 tons a year, consisting chiefly of cotton, wool, jute, hemp and flax. Twenty thousand tons, or scarcely 1 per cent, were actually produced within the country. Nearly half of Germany's bill to outside countries for raw products for the textile mills went for cotton alone.
A special bureau of the Emperor William Institute for the Furthuring of Science has been established in connection with the textile fibre research work and the professors claim that attempts to "cottonize" some fibres, such as hemp, flax and jute, by mixing them with cotton, have yielded very satisfactory results. The professors contend further that perhaps a way will be found of utilizing refuse fibre from the fabrication of flax, hemp and jute, and turning it into high grade yarns by means of the new processes now in course of development.
While Germany's climate is not suitable for the cultivation of adequate quantities of cotton, since the war the local supply of sheep wool has shown an increase, and special efforts have been made by the government to develop the growth of flax, hemp and jute. Most of the cotton bought now by Germany comes from the United States.

ATHLETIC. To Raise Olympic Fund. London, March 24.—The British are

rapidly rounding out their plans for the Olympic games at Paris next year, and more than one-fourth of the proposed fund of £20,000 for support of the team has been raised. The entire United Kingdom is helping to foot the bill. Each town of 5,000 population has been asked to contribute at least £10 to the fund. Before this appeal went out London had subscribed £3,000.

Lord Cadogan, chairman of the British Olympic Association, is being helped in the work of preparation by Lady Cadogan. The King has allowed his name to appear as patron of the Olympic Association, and has contributed £100 toward the fund. The Prince of Wales and his brother, the Duke of York, are vice-patrons and contributors.

APRIL ROD AND GUN. The April issue of Rod and Gun in Canada contains several features which should instantly recommend it to lovers of the out of doors everywhere. There are a number of articles and narratives portraying experiences and opinions of hunters and sportsmen, among them "Are You Going To Do About It?" by W. C. Motley, "Seal Hunting in the Northern Atlantic" by Bygonic Dale, "Point Pelee: A Public Shooting Ground," and a host of others. There is an account of the annual meeting of the Ontario Hunters Game and Fish Protective Association, dealing with all the matters taken up at the recent convention in Toronto. The departments contain some particularly interesting material, and on the whole the magazine is one of the best numbers yet published.

Rod and Gun in Canada is published monthly at Woodstock, Ontario, by W. J. Taylor, Limited.

DANCING TEACHERS SEEK ANOTHER JUDGE LANDIS. New York, March 24.—Dancing is to have a supreme potentate. He may be called a dean or a pope or a defender, but whatever his title, he is to have the same power over the torch-bearer as Judge Landis exercises in baseball and Will Hays in the films.

Representatives of forty-six dancing associations who attended a meeting of the American Conclave of Dancing Teachers' Societies, at the studio of Louis H. Chaffin, decided that a potentate was a necessity, and started a campaign for funds to make the new job attractive.

The supreme potentate's duties will consist mainly of consolidating the dancing profession, leading opposition to state regulation and censorship and adding to the dignity of the dancing profession.

CANADA'S PART IN THE OLYMPICS Elimination Meets to be Held in Provinces Eastern and Western Meets to Follow—Suggestion of Special Olympic Days in Dominion—A. W. Covey Member of General Committee.

Winnipeg, March 24.—Canada will be represented at the Olympic games to be held in Paris in 1924 in ice hockey, speed skating, figure skating, skiing, speed skating, jumping, track and field events, rowing, lawn tennis, swimming, boxing, gymnastics, cycling and wrestling, so it was suggested at a meeting of the Canadian Olympic committee held here yesterday. Entries must be made through the Canadian Olympic committee.

A recommendation from the Canadian A. H. A. that the Toronto Granites, Canadian amateur champions, represent the Dominion in the hockey events at St. Moritz, in the French Alps, between February 2 and 10, 1924, was accepted, providing it be endorsed at the fall meeting of the C. A. H. A.

It was decided to ask the A. A. U. of Canada to grant a sanction to the Canadian National Exhibition at Toronto for competition in gymnastics to be held on their sports day in September.

At the request of the Canadian A. Lacrosse Union it was decided to apply to the International Olympic Committee to have Canada's national game included in the official Olympic programme. In this connection it was said that more lacrosse was played in Australia than in Canada.

Provincial Eliminations. Special Olympic trials will be arranged for wrestling, from which the winner showing prominence will be selected to represent the Dominion. All provincial associations will be asked to hold elimination trials in track and field events, to be followed by eastern and western meets. A suggestion from Manitoba that special Olympic days be observed throughout

the Dominion, in connection with provincial tests, was favorably received. It was said that no coach to the Olympic team had been appointed, the matter never having been formally discussed.

The general committee includes A. W. Covey, St. John, N. B.; John De Gruchy, Toronto; A. Murphy, Fort William; Capt. Maple, Ottawa, and C. E. Racine, Montreal, allied members and delegates at large, including representatives of each body affiliated with the A. A. U. of C. This committee

was empowered to appoint an executive or select committee of five, who will organize sub-committees thoroughly representative of the whole of Canada, to assist in the work now delegated to the executive or select committee and will be responsible finally to the general committee.

J. H. Crocker, Y. M. C. A., Toronto, will have charge of the track and field sub-committee. Each branch is asked to nominate a representative on this committee.

Chairman P. J. Mulqueen of Toronto and W. E. Finlay of Montreal will go into the question of transportation.

It was further urged that the various branches organize provincial committees, writing in conjunction with the general committee.

About thirty-five Y. M. C. A. members who attended the Wagescamp camp last summer held a reunion banquet last evening in the association building. A diary and the camp newspaper were read and songs and music were enjoyed. A number of those present signified their intention of going to camp again this year.

A large congregation attended the evangelistic service conducted by Rev. A. E. Kochaly in the Tabernacle Baptist church last evening. Considerable interest has been manifested in the services and Rev. Mr. Kochaly has been prevailed on to remain for another week. Rev. A. L. Tedford, pastor of the church, will leave this afternoon for Rusagong to conduct the services there on Sunday.

A meeting of the bills and by-laws committee of the Municipal Council was held yesterday afternoon, with Councillor J. T. O'Brien presiding. A bill to repeal a law giving immunity

of city taxation to railway employees living in the county but working in the city was considered. A bill relating to fire protection for Lancaester was approved by the committee. There is a provision in the bill to take in Beausoleil in case that district cannot reach an agreement with the city.

MT. A. WINS DEBATE. Windsor, N. S., March 23.—Mount Allison University debating team won the unanimous, though close, decision of the judges in the intercollegiate debate here tonight with Kings' College. The resolution was to the effect that the United States should demand payment of war debts from the Allied nations rather than cancel them.

Kings' College upheld the affirmative and Mount Allison the negative.

HYDRO AND HOCKEY. Sussex hockey fans are more than pleased with the coming of hydro to their bustling town, according to an enthusiast in the city last evening. Previous to connecting up with the Musquash current the lighting arrangements at the rink were not satisfactory and were quite dim at times. But since the advent of hydro a marked change has taken place, he said. "There is not one dark corner in the rink now," he said, "and play can be followed much easier than in the past."
