Peace Will Be Ratified On December 1.

GERMANS, HOWEVER, HAVE NOT STATED WHETHER THEY WILL RATIFY

PARIS, Nov. 21. — The supreme council today agreed upon Dec. 1 as the date when the German peace treaty will be formally ratified.

Further informal discussions have been held with the German representatives now here in connection with the notification of the allies that a protocol must be signed by Germany guaranteeing fulfillment of the armistice conditions. These discussions have been confined chiefly to methods of procedure in considering the protocol. As yet the Germans have not stated whether they will sign the document.

The United States delegation is still without instructions as to its participation in the peace conference following the failure of the senate to ratify the treaty, but Henry White attended the meeting of the supreme council today as representative of the United States.

Under-Secretary Polk being absent in London, and the entire delegation is continuing its work in belief that a compromise ratification resolution will be agreed to in the U. S.

This view is apparently shared by most of the members of the council peace-making body. The council, however, is working out plans so that the enforcement of the treaty will not be hindered if the U. S. fails to ratify the treaty later.

PARIS, Nov. 24. — The German delegates have suddenly and without giving any notice as to their intentions left Paris for Berlin.

Allied statesmen presume that the Germans intend to exploit the situation created by the action of the U. S. Senate. It is therefore still doubtful whether peace will be signed on December 1.

Considerable Increase in Crime Shown Throughout The Dominion

Temperance Laws in Most Provinces Evidently Failing to Justify Claims of Prohibitionists

OTTAWA, Nov. 23. — A considerable increase in crime throughout the Dominion is shown by the Blue Book dealing with criminal statistics for the year 1918, just issued from the office of the Dominion statistician. According to the returns there were, during the year, 21,474 charges and 17,370 convictions for indictable offences in the several provinces, as compared with 19,559 charges and 15,559 convictions the year before, being an increase of 2,293 or nearly twelve per cent. for charges, and an increase of 1,811 or slightly over eleven and one-half per cent. for convictions during the year. A number of convictions increased during the year in all the provinces except Alberta, British Columbia and the Yukon. The higher increases were in Ontario, Quebec, Manitoba and Nova Scotia and the larger decrease in British Columbia.

The number of summary convictions jumped from 98,432 in 1917 to 105,899 in 1918. Of these less than 8 per cent. were women offenders. Eighty-two per cent. of the number of persons convicted of minor offences were fined; three per cent. sentenced to imprisonment without option of fine, and fifteen per cent. were allowed to go on suspended sentence. Of the minor offenders against the law 21,026 were convicted for drunkenness as against 27,882 during the previous year.

Drunkenness decreased by nearly 25 per cent. in Canada during the year, increases being confined to the provinces of Manitoba and Alberta. In the last named province convictions numbered 825, as compared with 391 the previous year, an increase of 111 per cent., while in Manitoba convictions grew from 1,085 to 1,123, an increase of 3.12 per cent.

LAST MINUTE WIRES

TWO KILLED IN TRAIN COLLISION

MONTREAL. — Two men are known to have been killed and six were injured Saturday night when a head-on collision took place near Ferre Baune on the Canadian Pacific railway, between a special carrying passengers from the Empress of France, which docked yesterday at Quebec for Toronto, and the Montreal-Quebec express.

The men killed were members of the train crews, while the injured were, with one exception, in the Montreal-Quebec express. Passengers on the special escaped with nothing more serious than bruises.

PRINCE BIDS FAREWELL TO NEW YORK

NEW YORK. — The Prince said good-bye to New York Saturday and sailed for Halifax. The cheers of hundreds of thousands of New Yorkers, whose friendship he had won during his brief visit, rang in his ears as the great battle cruiser Renown weighed anchor and steamed down the North River.

COMPULSORY VOTING

BASEL. — Voting is made compulsory in the Hungarian elections on December 20, at which members of the new national assembly will be chosen, the decree fixing the date for the election stipulating that those who abstain from voting may be punished by imprisonment.

BALTIC STATES FORM UNION

LONDON. — Reports that union of Baltic States has been formed are confirmed by the foreign minister of Finland, according to a Copenhagen despatch to the Central News, quoting Helsingfors advices. It is stated that representatives of Ukraine, Finland and Poland were present at the negotiations, but took no active part in discussions there. The foreign minister

is said to have indicated the possibility of extending the league by taking in other states.

THREE MEN SHOT DEAD IN FIGHT

BOGALUSA, La. — Three white men were shot dead and two wounded in a pitched battle at a garage on Saturday, in which a small band of men attempted to prevent special police deputies from arresting a negro labor leader, suspected of inciting negroes; and two white men who had carried shot guns to protect him while parading him down the main street of the city.

EMBARGO ON WHEAT REMOVED BY U.S.

NEW YORK. — Embargoes on wheat and wheat flour will be lifted Dec. 15, it was announced by the United States Grain Corporation.

Lifting of embargoes on both exports and imports followed the action of President Wilson in Washington in signing a proclamation completely terminating the embargo control which has been in effect for more than two years.

MONTREAL UNIVERSITY DESTROYED BY FIRE

MONTREAL. — The main building of the University of Montreal, better known as Laval university, containing the medical departments, was destroyed by fire Saturday night. The damage is estimated at \$400,000, and is covered by insurance. The cause of the fire has not been definitely settled but a smoking concert was held in the building in the early part of the evening, and it is thought by the firemen that a lighted cigar butt may have been left around afterwards.

Several of the medical students had a narrow escape when the fire broke out.

The Doings in Soviet Russia

Red Terror Is Spreading While People Desperately Hungry

ARCHANGEL, Nov. 22. — The situation in soviet Russia daily is growing more serious. In several towns workers are without employment and desperately hungry and have revolted against the Bolsheviks. Factories are closed and the people are living on vegetables. No sugar is obtainable.

The Red terror is spreading throughout the country. The Red army is becoming demoralized and troops which were forcibly mobilized are deserting in streams.

Omsk Burned Before Being Evacuated

NOVO NIKOLAIIVSKA. — Omsk was occupied by the Reds the morning of the fifteenth. The evacuation was hastened by an uprising at Koulanino, a railroad town at the east end of the long river bridge, which for a long time has been a Bolshevik centre. The bridge was blown up by the Siberians.

Omsk is reported to have been partially burned, following the destruction of the ammunition supplies, which it was impossible to move from the town.

Gen. Kappel, with the Siberian troops, retired ten miles east of Omsk. Admiral Kolchak and Gen. Sakharoff are expected to arrive here shortly to visit the new headquarters.

Bolsheviks Ready to Accept Peace

LONDON. — The Estonia legation in London asserts that M. Litvinoff, the representative of Russian Bolsheviks, who attended the Dorpat conference, told the representative of the press at Dorpat that the Bolshevik were prepared to yield their Gulf of Finland fleet as a guarantee of peace and to establish a neutral zone between Russia and the border states.

NEW REVOLUTION AT VLADIVOSTOCK

WASHINGTON. — Revolution has broken out at Vladivostok, according to information received at the State department from Siberia. Thus far only Russians are involved, the advice said.

Comments Upon Failure Of U.S. To Ratify Treaty

British Leaders Disappointed

LONDON, Nov. 22. — Nearly all British public men are silent concerning the United States senate's dealings with the peace treaty. The reason for this is that they understand United States citizens regard the question as United States domestic political affair and fear that any expression from them might give offence, and be taken as attempts to influence United States politics.

Lord Robert Cecil and Lieut. Gen. Jan Christian Smuts were the British sponsors for the League of Nations and are largely responsible for the details thereof and both have registered their disappointment at the latest turn of events. Gen. Smuts in his appeal to the United States, and Lord Robert Cecil in a brief speech in the house of commons Monday.

Lord Robert stands on that speech and refers all questioners to it as being all he has to say on the subject for the present.

It would be impossible to try to summarize public opinion. The first view reflected by the newspapers was that the United States had gone back on her agreement. Later advices from Washington, however, softened this feeling.

French Paper Has Bad View of Action

PARIS, Nov. 23. — Commenting upon the failure of the United States senate to ratify the peace treaty L'Humanite says: "Peace without America means continuation of a state of war. The American and Anglo-French alliances crumble with a crash and an American-Japanese conflict appears in its full light. A League of Nations would simply be reverting to pre-war alliances without America."

Winnipeg Strike Leaders' Trial To Open This Week

WINNIPEG, Nov. 24. — Practically all the smaller cases on the docket of present cases have been cleared away and the charges against the eight strike leaders and Fred Dixon, M.L.A., and J. S. Woodsworth should come up this week.

When the court, presided over by Judge Metcalf, opened on Friday, Robert Cassidy, K.C., leading counsel for the defence of the strike cases, asked that the charges against all the defendants be not heard until after the municipal elections, claiming that the present political conditions and the press comment on the civic elections would be against the interests of justice.

A. C. Campbell, acting for the crown, agreed to let both cases stand over until Tuesday, when the matter will be brought up again.

Joe. Moss, proprietor of a fruit store, was convicted of riot and unlawful assembly and remanded for sentence, as his counsel will appeal for a reserved case to the court of appeal on Monday.

He was held in custody. Peter McCook was sentenced to two months in jail on being found guilty of unlawful assembly, to which he pleaded guilty himself.

The grand jury in its report, in addition to returning a true bill on the charge of seditious conspiracy, declared the men were a public nuisance.

Murder of Jacob Runge is Suspected in Horizon District

Has Not Been Seen Since Nov. 3rd and Had Large Sum of Money. It Is Stated

Another mystery has been given to the provincial police to solve in the disappearance of Jacob Runge, of Horizon, who has not been seen since November 3, according to reports. Friends of Runge are greatly excited and have freely expressed the opinion that he was murdered, his body hidden and all clues obliterated. They further add there are good reasons for this theory, as Runge at the time of his disappearance was said to have had with him almost \$3,000 in cash.

On the afternoon of November 3, Runge went to a neighbor named Mayer and arranged with him to go to a sale the next day. Before leaving the Mayer homestead Runge stated he was going out to collect some money with which, he said, he intended to buy horses at the sale the following day.

Mr. Mayer looked for Runge the next day, but saw nothing of him. Runge left a large number of animals unattended and when neighbors found these took care of them.

During the past week a diligent search has been made in the district for Runge, but no trace or clue of him had been discovered up to last night.

EIGHTEEN SAILORS PERISHED

STEAMER MYRON FOUNDERED IN TERRIFIC GALE ON LAKE SUPERIOR

SAULT STE MARIE, Mich., Nov. 23. — Eighteen persons, comprising the crew of the steamer Myron, are believed tonight to have been added to the victims of Lake Superior's fury of the past two weeks. Caught in a terrific northwestern, the Myron foundered a mile and a half off White Fish point last night and early today, sank in four fathoms of water.

Futile efforts were made by two steamers to throw lines to the men clinging to the cabin. So wild was the sea, however, that the men

Poland To Be Mandatory Over Galicia

PARIS, Nov. 23. — The arrangement in the supreme council to grant Poland a mandate over Eastern Galicia, under the League of Nations, settled one of the most disturbing questions with which the allies have had to deal concerning Poland. By the terms of settlement, Poland is to be the mandatory for 25 years, which is believed to be long enough to secure immediate peace in the trouble territory. Suggestions of a mandate of five years were vetoed by the Poles who declared that this would mean five years of disorder in Galicia and that it would not satisfy Polish national ambitions. At the end of 25 years the League of Nations will have the right to decide how Galicia's future is to be determined, or whether a plebiscite will be held. But the Poles say in 25 years they will have had time to reconcile the race differences and give an effective administration which they believe will win over the Ruthenian population and reconcile them to Polish sovereignty.

U.S. Must Help in Austria

Lloyd George Declares Nation Cannot Bear Greater Part of Burden

LONDON, Nov. 23. — Premier Lloyd George, replying to questions in the house of commons today, said he saw no hope of amelioration in the economic situation of Vienna without the help of the United States. The British had already given aid to the Vienna government amounting to three and one-half million pounds sterling, but the premier announced that Great Britain did not intend to continue to bear the greater part of the burden of the famine in that country.

Double Murder and Suicide Near Lemberg

MR. AND MRS. FRED HANSON BUTCHERED IN COLD BLOOD BY J. R. SULLIVAN, A GRAIN BUYER OF LEMBERG

NO CAUSE OF BRUTAL DEED DISCOVERED SULLIVAN WAS INVITED TO THE HOUSE OF HANSON AS A FRIEND

Three orphans, Florence, aged 18; Clara, aged 16, and Edward, aged 13, are today mourning the death of their father and mother, Mr. and Mrs. Fred Hanson, who were foully murdered, shot to death in cold blood at their home between Lemberg and Abernethy about 3.30 o'clock on November 22 by J. R. Sullivan, a grain buyer, of Lemberg. Alfred Hanson, the eldest boy, lies between life and death with a serious wound in his neck, a gash made by a bullet from Sullivan's revolver. According to latest reports Alfred will live, unless complications set in. Sullivan, the murderer, is a suicide, having sent a bullet through his brain after he had wounded Alfred Hanson.

Home a Shambles

The once happy home is a shambles, for nothing has been disturbed. The blood of the murderer-suicide still stains the floor of the house where he had received hospitality from friends.

Neighbors yesterday volunteered to assist in every way, and the three children are being cared for. Constable Laroque, of the provincial police, is on the scene with Constable Light, of Melville, and Corporal Derorsiers.

No cause for the brutal deed has been given by the police, as only meagre reports were obtainable yesterday. Sullivan was a friend of the Hanson family and is reported to have been on the best of terms with them. That the murders were planned deliberately is not questioned, the police being of the opinion that under the shield of friendship Sullivan in cold blood thought out his plans, procured the gun and ammunition and finding a splendid opportunity in the hospitality offered by Hanson on Saturday evening to spend the Sunday with him, went out with murder in his heart and carried it through.

Details of Crime.

The reports of the affairs received yesterday by the provincial police at headquarters are to the effect that Mr. and Mrs. Hanson, Saturday afternoon, drove from their farm into Lemberg in their automobile. After supper, the Hansons prepared to return home and J. R. Sullivan was invited to go out with them. The three set out and about half way home got stuck in a bad place in the road. Being unable to move the auto, they decided to walk to the Hanson home, arriving there about 3 o'clock Sunday morning. Mrs. Hanson got a light lunch ready in a hurry, and with her husband and Sullivan, sat down to eat. After finishing the lunch, Mr. Hanson said he would go to the barn to see if the stock was alright. Sullivan said he could help him, and the two men walked out. In about five minutes Sullivan returned to the house and told Mrs. Hanson that one of the horses had killed her husband, then asked her to go out and see about it. Mrs. Hanson wakened her son Alfred and together they started for the stable. Sullivan followed them. As Mrs. Hanson stepped into the stable she saw the body of her husband and heard him groaning. She turned around to face Sullivan, when he sent a bullet from his revolver crashing through her brain, killing her instantly. Mrs. Hanson fell in a heap, clearing the body of her son Alfred, who was immediately behind her. Sullivan levelled his revolver a second time and sent a bullet through Alfred's neck. Alfred ran in front of the horses and hid in the manger. Sullivan followed him and dragged him out. He then told him that he would not hurt him further but that he must keep his mouth shut. Sullivan went to the house where the two girls, Florence and Clara, and the youngest son, Edward, were sleeping. He

awakened them, ordering them into the back room. The three children huddled together and cried piteously. Sullivan brandished his gun a couple of times making wild gestures, then stopped short and ordered the three children out of the house. As the eldest girl, Florence, stepped out, Sullivan told her that her father, mother and brother were dead in the stable.

Took Refuge In Stable.

Florence and Clara started for the stable and when about half way they heard the report of a shot in the house. Alfred, the eldest boy, who was shot through the neck, had made his way to the outhouse and his faint cry attracted the attention of Florence, who went to him and rubbed him with snow to revive him. Edward and Clara then started for the house of Bert Atkinson, a neighbor, and after informing him of what had occurred, went back to the house. They found Florence in the barn with the brother, Alfred, very weak from the loss of blood, trying to assist his father, who was still alive, and groaning. Florence volunteered to go to the house. Arriving there, she went to the kitchen window and looked through. The place was in darkness. She went around the house and saw a faint light in the bed room. Peeping through the window she saw a body on the floor. Mr. Atkinson arrived at this time and going in with Florence, found the body of Sullivan in a pool of blood, dead. A little hole in the temple indicated the manner of death and the revolver, tightly clasped in the right hand, offered further and convincing proof of suicide.

When Mr. Atkinson went to the stable he found Clara and Edward trying to assist her father, who was still alive.

D'Annunzio's Troops Are Spreading Terror In Zara

BELGRADE, Nov. 23. — A semi-official statement just issued says: "D'Annunzio's troops are spreading terror in Zara. Those of the inhabitants not wearing the armband of Italian colors inscribed 'Italy or Death', are insulted and attacked. The Iugo-Slavs are unprotected and have taken refuge in the houses. "Italian officers have informed the Iugo-Slavs that D'Annunzio will arrive at Sebenico, seventy miles southeast of Trieste, on November 23, as Liberator of Dalmatia, and 'Protector of Montenegro,' which is groaning under the most barbarous slavery." According to a despatch from Spalato, D'Annunzio intends to occupy the whole of Dalmatia, as far as Narenta and liberate Montenegro, giving to it Cattaro. The operations are being supported by a large part of the fleet and many troops. Dalmatia, accordingly, is awaiting prompt decisions by the Belgrade government against the Italian rebels. ROME, Nov. 23. — A semi-official Stefani communication, detailing D'Annunzio's raid on Zara, says there are indications that expeditions have been planned for other Dalmatian localities and that the government will do its utmost to prevent these. It points out the danger to the country from acts by hot-heads seeking to turn Fiume events to account. The government has taken all necessary measures, the communication asserts, and will consider as a crime any tending to disturb the peace of the realm. Complete order, it adds, reigns throughout the country.

NEW REGULATIONS UNDER HEALTH ACT

The Public Health act, which was consolidated and amended at the last session of the legislature, was so changed as to necessitate the revision of several regulations made under its authority, and this work has now been completed.

The regulations "relating to the public health and prevention of nuisances" have been amended in several respects, and brought up to date in accordance with the requirements of the act. The most notable provisions are those dealing with the control of sanitary conveniences at exhibition or fair grounds; the construction, keeping and licensing of slaughter houses; the proper disposal of the carcasses of the animals which have been killed on account of or have died from contagious disease; the disposal of articles of food which may have been seized as unfit for human use or consumption, and those provisions which deal with unsanitary dwellings.

Regulations "For the control of Hotels, Restaurants, etc." are now divided so as to deal with hotels and restaurants separately. All such places are subject to inspection, and whether the public is catered to, either for lodging or victuals, certain provisions as to sanitary conveniences, cleanliness, ventilation, and warming must be complied with. Caterers, too, at exhibition or fair grounds, whether serving refreshments from stalls, tents, or buildings, must do so under certain conditions which will safeguard patrons from contagion, by using paper cups and containers which will exclude dust.

Several regulations, such as those dealing with tenement houses, plumbing, and communicable diseases have all been recently revised, and a new regulation for the "management, maintenance, functions, duties and jurisdiction, of boards of health, medical health officers, and sanitary inspectors" has been made and passed.

Canada's population in 1918 was 8,540,000. Every one should own a Victory Bond.

Quit Laxatives, Purges; Try NR

OUR ORGANISED GRAIN GROWERS

STRICKEN DISTRICTS NEEDING ASSISTANCE

Much foolish discussion has been indulged in by those newspapers dominated by that section of the community, who do not accept the principle of the Grain Growers of "A square deal for all and special privileges for none," regarding the alleged "Profiteering" which western farmers have been indulging in during the last years of the war. Judging, however, from a communication received at the Central office, by Mrs. M. L. Burbank, secretary of the Women's Grain Growers Association, from Hon. C. A. Dunning, Acting Premier, there is considerable evidence to the contrary.

Much Want and Suffering
Mr. Dunning's letter conveys the information that there is likely to be much want and suffering amongst the farmers of Saskatchewan, during the coming winter, as will be seen from the following copy of Mr. Dunning's letter.

Premier's Office, Regina, Sask. Nov. 24, 1919.

Dear Mrs. Burbank:
With further reference to correspondence which you have had with Hon. W. M. Martin, regarding the work of your organization in connection with the collection of clothes for needy settlers in the drought-stricken areas, I have been asked by Mr. Martin to send you the following figures, which have been submitted to us by the Bureau of Labor:

Total applications received, to Nov. 1st, 153 families; comprising 799 persons.

Total number dealt with to Nov. 1st, 26 families; comprising 159 persons.

"From these figures you will see that the amount of clothing received so far is totally inadequate to meet the need. You will appreciate, too, that the unusual severity of the weather makes the matter all the more urgent. I know that your Association is willing and anxious to do everything possible to be of assistance in this connection and I feel sure that you will believe that in writing you I am impelled only by a desire to be of assistance to you in bringing the need for immediate action more strongly before your members.

Very sincerely yours,
Chas. Dunning,
For Premier of Sask."

Losses by Drought

During the last week a member of the Central office staff spent four days in the southwestern portion of the province; where he witnessed abundant evidence that the charge of profiteering is an entirely baseless one. A farmer residing in that locality complained that eleven years ago he came there, like many other American farmers, to find land for his family of boys. He sold his farm and holdings in the Southern States and landed in Canada with \$20,000. During those eleven years they have only had two successful years; with the result that, having spent the whole of his savings of a lifetime, in his old age, he is strictly "up against it."

Another farmer in the same neighbourhood, who owns nearly 3,000 acres of land, put in a crop last year of 1,600 acres and only harvested 1,500 bushels of wheat. In the same district is another farmer, who has resided there for the last nine years and for the last three has had successive crop failures; and but for the fact that he has been experimenting during this period, with corn crops, he would also have been with any crop, or feed for his cattle.

Another farmer in the same district informed the writer, that owing to his crop failure, it will cost him between \$2,000 and \$3,000, this year, to purchase feed for his stock. And so the story of loss and disappointment might be prolonged and multiplied. Suffice it to say, that but for the fact that much which the Saskatchewan farmers require for their domestic consumption is produced on the farm, there would be mainly and more distress and want in the rural districts of this province, than is actually the case.

GRASSHOPPER POLITICIANS

Percy Arkle of Horizon, who has taken a deep interest in the political activities of the Saskatchewan Grain Grower's Association, has forwarded to the Central Office, the following article on "Grasshopper Politicians":

Grasshopper Politicians
"It has been said that our purpose is to establish a more democratic form of Government, than that which we have possessed under the old political groups, that

is true; but the contest in Assiniboia has impressed me with the danger facing our efforts, that danger is the "Grasshopper Politicians." I have no doubt you will agree that the best interests of a democracy are defeated when those seeking office as a representative of the people, hop from one constituency to another and have no abiding constituent rest. If it is desirable that all voters shall be resident in a district for a certain period previous to election, it is equally important that the prospective candidate shall be resident in the Constituency for a similar period previous to nomination.

It has been the practise in the past for prospective candidates to either run in two Constituencies, as in the case of the Premier, and the leader of the opposition, to frustrate the will of the people; or for one to resign in favour of another who was repudiated by the people. In this Assiniboia contest, we have the case of the Grasshopper Politicians who, representing one Constituency, boldly hops across country and foists himself upon a district which has selected one for itself. It may be contended that the politician in question is a good man, but that is not the point, if a man has been rejected by a district it is reasonable to assume that he was turned down by the electorate on good grounds. If not adjudged eligible by one body of electors by what law of reasoning does he become qualified to represent another Constituency?

Fictitious Greatness
Again, it may be said that were the electoral law changed to grant a prospective candidate for nomination to be resident in the district he wishes to represent for a definite period of time prior to his nomination, that many good men

will be kept out of public life. This is a fallacy, under our present electoral procedure, many a good wholesome and practical citizen has been eliminated for all time by the appearance of the Grasshopper Politician; who mainly trades upon a fictitious greatness, fostered by a loyal yet biased party press.

The "Unknown quantity" theory, so skilfully applied by the "Grasshopper Politicians" to the farmer candidates, is a silly illusion. Saul the son of Kish was a known quantity and failed miserably in a crisis. David was an unknown quantity but succeeded gloriously. Moses was a joke to Pharaoh but Moses succeeded. Christ was merely a carpenter to the old line parties but he drew millions and revolutionized the world.

History records the success of every movement for better because of the "Unknown quantity". The world has always repudiated that which basks in the sunshine of past achievements. The old cry "Watchman what of the night?" found no response for the Watchman of the political night. The old line parties were sound asleep and the "Morning cometh" with its promise of a new day which is also an "Unknown quantity". It is the known quantity and we seek to forget it. May it come to pass that the will of the people shall be done by one chosen from the people, and by the people in this New Day; when notice shall be served upon the fraternity of Grasshopper Politicians" that their services are no longer required.

Cured His RUPTURE
I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned although I am doing hard work as a carpenter. There was no operation, no last time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me, Eugene M. Patten, Carpenter, 601 1/2 Marquette Avenue, Massachusetts, U. S. A. He will cut out this notice and show it to any other who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.

Grave Riots in Cairo

Students Carried Egyptian Flags And Shouted "Down With Milner"

CAIRO, Nov. 22 — Students carrying Egyptian flags and shouting "Down with Milner", began the rioting here. Roughs joined with them and got the upper-hand of the native police. The infantry was compelled to fire on the mobs storming the police stations, further infuriating the rioters.

The British troops finally restored order, driving off the demonstrators who were armed with rifles and sticks.

Tonight the city is heavily patrolled. The rioting was in five different localities. The object of the mobs in storming the police stations was to release demonstrators who had been arrested. They were successful in freeing several such prisoners.

The number of minor casualties cannot be estimated with any approach to accuracy because many of the slightly wounded were carried to their own homes. The Egyptian infantry fired into the crowds at two places where rioting was going on, killing two persons and wounding several others. No Europeans were injured, although the rioters entered several European houses and accused the inmates of firing on the crowd. The European community generally went about its business as usual.

British troops have been posted at strategic points about the city, and armored cars and cavalry are patrolling the streets. There have been no further disorders in the city, however. At the funeral of a man killed during the disturbances late last week there was an innovation, girls walking by the coffin and boys forming a vanguard and rearguard for the cortege.

An officer was saved by a conductor when members of the mob entered a street car last night, the officer hiding in the folds of his protector's robe. There was a general search for officers in the street cars during the night.

Egyptians Ordered To Leave Cairo

CAIRO, Nov. 23 — Gen. Allenby, the British commander-in-chief, has requested four prominent Egyptians in the Nationalist movement, including the local president of the Nationalists, Mahmud Pasha Suliman, to quit the city and retire to their provincial estates. They all have decided to ignore the request.

SINN FEINERS RAIDED SHIP

BELFAST — Fifty armed Sinn Feiners boarded the steamship Minniehorn, lying in Cork harbor, late Saturday night and held up the crew with a revolver. They searched for arms, firing shots to intimidate the ship's crew and badly damaged the wireless room.

GEN. YUDENITCH HAS RESIGNED

LONDON — General Yudenitch has resigned the command of the Russian Northwestern army, according to the Daily Mail from Helsinki. General Laidoner, commander-in-chief of the Estonian army has succeeded him. It is said that the change is not connected with the failure of his offensive, the object being to avoid internment of Yudenitch's army of entering Estonia.

UKRAINIANS DIE OF HUNGER

TOO MUCH WEDDING

Last leap year I did not wish to embarrass my best girl by letting her propose to me so I asked her to be my wife, but she said she would rather be excused, so I foolishly excused her, but I got even with her because I married the girl's mother and then the girl became my daughter, and when my father married my daughter, he became my son. When my father married my daughter she became my mother. If my father is my son and my daughter is my mother, then who am I? My mother's mother who is my wife, must be my grandfather, I being my grandmother's husband, I must be my own grandfather.

LAST CHANCE TO GET LIQUOR IS HERE

For those who enjoy a good glass of beer or a stronger drink, there is one chance left for them to gratify their desire. The only way that this may be accomplished is to make it yourself. Home brewing and the making of strong liquors without the use of stills or machinery is as yet in its infancy in this country. In Europe, however, it is a daily task of the average housekeeper. To meet the demand for a reliable book of instructions and recipes for the Home Making of Liquor, a Master Brewer has revealed his precious formulas and trade secrets in a new, copyrighted book—"SECRETS OF HOME BREWING". This wonderful book contains OVER 200 of the choicest professional recipes and full instructions for the making in your own kitchen of beer, wine, gin and whiskey. These beverages can be easily and successfully made from farm products, with ordinary kitchen utensils. The present Prohibition Law allows the advertisement, sale and shipment of this book thru the mails. But act after the National Prohibition Law becomes effective, on January 18, next. Every day that passes without your having this wonderful book means that you are missing one of the joys of life—a good glass of beer or whiskey. And remember that the sale of this book will shortly be stopped. This in itself should be sufficient recommendation that "SECRETS OF HOME BREWING" is the real goods. Disorders in South Ireland

Sinn Feiners Make Scene in Court
TORONTO, Nov. 22 — The Telegram today has the following cable from its Belfast correspondent: "Dublin district and the south of Ireland are fast approaching a condition of disorder rivaling the accepted ideal of the worst days in the wild west. Last night the Talbot street police in Dublin was forced by an armed gang who secured three hundred pounds in cash and escaped without detection."
Dr. Roman, who has only recently returned from France, was held up on Baggot street, Dublin, by an armed man. The doctor put up a determined resistance and put his assailant to flight.
The premises of Messrs. Murray, Guinness, Cork, were raided by Sinn Feiners yesterday who took a number of guns and a supply of ammunition without the slightest interference.
Amendments have been made to the restrictions existing against the importation of arms and ammunition into Ireland following the repeated success of the Sinn Feiners in getting possession of weapons and ammunition.
James Dolan, the Sinn Fein member of parliament was arrested at Manor Hamilton the other day.

BELEST, Nov. 22—In the crimes court of Arrah today, Edward Donnelly, Sinn Fein organizer for Ulster; Edward Hughes, a farmer; and William O'Brien, a Galway professor, all charged with unlawful assembly at Tynan in October, and soliciting funds for the Dail Erran (Irish parliament), created a scene by declaring they did not recognize the authority of the court.
The accused men were carried into the court. Mr. Donnelly said the Dail Erran was a legitimate body in the eyes of Irishmen, and the only body that had the moral right to legislate for or to rule the Irish people.
"Your authority," he added, "is that of a usurper, backed by the military machine guns, tanks and rifles."
Mr. O'Brien made a similar statement.
Mr. Hughes declared that he had been born a Sinn Feiner and would die one.
Donnelly and O'Brien each were sentenced to three months' imprisonment.
