MEMORIAL TABLET WAS UNVEILED.

Morris Robinson a New Brunswicker Honored By Canadians.

Career of the Man Who Established Business of Modern Life Insurance in America.

MORRIS ROBINSON
A CANADIAN
BORN IN NOVA SCOTIA, SEPTEMBER 17, 1834.
CASHIER OF THE BANK OF THE UNITED STATES
WHO AS THE FIRST PRESIDENT OF THE
MUTUAL LIFE INSURANCE COMPANY OF NEW YORK
ESTABLISHED ON THIS SPOT THE
BUSINESS OF MODERN LIFE INSURANCE ON THE
AMERICAN CONTINENT, FEBRUARY 1ST, 1843.

THIS TABLET ERECTED BY
THE CANADIAN SOCIETY OF NEW YORK
FEBRUARY 1ST, 1903.

NEW YORK, Feb. 5.—The tablet erected by the Canadian Society of New York to the memory of Morris Robinson, at 56 Wall street, was unveiled with much ceremony and in the presence of a large crowd of people yesterday afternoon. The ceremony at the tablet consisted of an address by Dr. George D. Stewart, of the executive committee of the society, a prayer by Rev. Arthur H. Judge, chaplain of the society, and the unveiling by Miss Harriet Robinson, a granddaughter of Morris Robinson. Immediately following exercises at the tablet, the members of the society and guests assembled at board room of the Mutual Life Insurance Company, where addresses were delivered by Dr. George D. Stewart, Rev. Henry MacCracken, Chancellor N. Y. University; Richard A. McCurdy, president of the Mutual Life Insurance Company; and Clarence Whitman, president of the Merchants' Association. Among the guests of the Canadian Society at luncheon afterwards were: Robert H. Turle, president of St. George's Society; George F. Baker, president of the First National Bank; Charles A. Norris, W. H. Truesdale, president of the Delaware, Lackawanna and Western Railway; John A. McCall, president of the New York Life Insurance Company; Dr. Munn, president of the United States Life Insurance Co.; Robert H. McCurdy, of the Mutual Life Insurance Company; Wm. A. Hutcheon of the Mutual Life Insurance Company; William P. Sands of the Mutual Life Insurance Company; J. P. Ellis of the National Club of Toronto; W. G. Standland, president of the Victoria Club of Buffalo; Henry Duer Stotter of the Metropolitan Life Insurance Company; Dyer in Pont Brock, Franklin Elliman, Andrew C. Field, William M. Carpenter, Henry S. Brown, F. A. Parsons, Frederick D. Kilburn, Superintendent New York State Banking Dept., and Dr.

PUGSLEY'S SCHEME

To Dam St. John River at Van Buren, And Turn All the Upper Country Lumber Cut to Yankee Territory.

What St. John Operators and Men Interested in the Ports Welfare Have to Say on the Matter.

The question of damming the St. John River at Van Buren may seem a small matter at first sight, but when fully considered is a question that interests every citizen of St. John. If the dam which Hon. Wm. Pugsley has undertaken to promote by allowing his name to be used as an incorporator in the bill before the Maine legislature, should by any chance be built, this city would feel the effect in no uncertain way. This enterprise is likely to divert a large part of the supply of logs which now reach mills on the lower St. John. These large establishments, deprived of their raw materials, will be obliged to go into competition with smaller mills which draw their supply from other sources. Not only Maine logs, but those from Quebec and New Brunswick, would be seen, in Maine mills and the situation from which Ontario has been seeking to escape would be contradicted. A government that would permit such an interference would be facilitating the sale of logs in the United States. Instead of the Sun has talked with the parties most deeply interested in the St. John River lumber business, and ascertained that a most strenuous effort will be made to prevent the passage of the proposed legislation. The general opinion expressed is that the people of St. John should take the matter up at once, as the Board of Trade has already done, so that one of our most important industries, one that pays for labor alone fully \$175,000 a year, is not taken away from us.

LEGISLATURE DISSOLVED

General Elections Will Take Place, Saturday February 28th.

Report That the House Will Be Summoned to Meet on the Second Thursday in March.

FREDERICTON, Feb. 5.—The legislature has been dissolved and will issue for a general election, nomination Feb. 21, polling Feb. 28. The government finished its meeting this afternoon, and Governor Snowball went to his home at Chatham. The government candidates in York county will be three present members, Whitehead, Allen and Campbell; also William J. Scott. The latter is a lumberman and mill owner at Springhill, and his son is County Councillor John Scott of Dumfries. He and Campbell are conservatives. The other two are liberals. It is currently reported here that the legislature will be called to meet the second Thursday in March. All the members of the cabinet left tonight for their respective homes, via St. John, where they will hold a caucus, over advice from Hon. Mr. Blair. The government leaders say that Mr. Blair will take a personal hand in the St. John river counties campaign, and that he will have a strong French ally from Quebec to work the North Shore and Westmorland county.

OTTAWA

More Immigration Sheds to Be Erected at St. John.

Pacific Cable Expenditure Account—Other Bits of News from the Capital.

OTTAWA, Feb. 5.—Another good bit has got his reward. Mr. Legria, M. P., has been transferred to the senate in place of the late Hon. Mr. Armand. According to the expenditure under the Pacific cable account for the period ending March 31st last was \$1,044,701. The balance of authorized funds in excess of expenditure was \$16,233,138.44. The payments include the cable contract, \$1,000,000; instruments, \$10,000; telegraph contracts, \$31,978; and engineer's fees and expenses, \$2,915. There is a growing feeling in this city that the Pacific cable board in London is not what it ought to be, and certainly up to the present it has not realized the expectations of those who desire to see the Pacific cable make a success. Cable business has not very much improved since the number of words which have been transmitted being about 20,000 a day. It should be far more, and undoubtedly would be if rates were made lower. At present the charge is 18 cents a word from any part of Canada, and for special messages to points like Sydney and Melbourne 18 cents a word. With such a large staff as is employed by the board it would be better to be engaged constantly during the 24 hours than simply to have to remain on duty and put through on an average less than 100 words an hour. The impression prevails that members on the board in England are too much under the influence of the Eastern Extension Co. and Canada seems powerless in the matter. Strange to say, while Australia and the motherland have each three members on the committee Canada, who guarantee to make up the loss to the same extent as Great Britain, has only two representatives on the board. The official appointees of Canada were Lord Strathcona and Lord Aberdeen, but Lord Aberdeen resigned and Mr. Lewis, London manager for the Bank of Montreal, was appointed in his place.

GIFTS TO ACADIA

Rockefeller's Latest Promised Generosity Has Conditions.

Dr. Trotter Will Remain at the Head of the Maritime Baptist Institution.—The Resolutions of the Board of Governors.

WOLFVILLE, N. S., Feb. 4.—At the meeting of the board of governors of Acadia University today Dr. Trotter reported that he had been in correspondence with Mr. Rockefeller since last May, and that the invitation to meet Mr. Rockefeller's secretary in New York was the final outcome of the correspondence. He learned from Mr. Gates, the secretary, that Mr. Rockefeller was favorably disposed towards Acadia. His gift would, however, as on the former occasion, be conditional on a much more generous scale. The report was received with satisfaction by the board, which before it can be given to the public, must be submitted to Mr. Rockefeller's endorsement. Dr. Trotter will probably go to New York again next week, and not until this visit is over can any authorized statement be made. It is fully decided that Dr. Trotter will decline the call to Dayton, to which was attached a salary very much larger than that which he now receives, and will remain at Acadia without any additional expense to the board. His decision has been determined by Mr. Rockefeller's attitude and by the urgent representations of the board and of others as to the importance of his remaining.

NEWFOUNDLAND

St. John's Blockaded by Ice Flots.

ST. JOHN'S, Nfld., Feb. 5.—This port is now blockaded by ice floes. The Red Cross steamer Rosalind, from New York, and the British steamer Glenora, from Halifax, were unable to enter, and a whole fleet of sailing vessels is unable to leave the port. A fleet of ice floes is being and is being packed along the coast. Arctic ice covers the whole ocean and is driving southwards with the Labrador current towards the Grand Banks and the ocean shipping track.

THE PROVINCIAL ELECTION.
In three weeks and a day the provincial election will take place.

The open vote without ballot would be far better. Then there would be no pretence of secrecy. What would be known to the corruptist and the conscientist would be known to all.

Mr. Hazen has urged the adoption of the secret ballot. The government, for reasons that will be understood, has refused to give the people the privilege which they are allowed in all other British countries.

Mr. Hazen will in all probability be called upon in March to form a government. Fortunately for the province he is a man in whose character and capacity the people have confidence.

As far as nominations have been made they have been eminently satisfactory. Men of influence and established position in the communities have responded to the call made upon them.

or receives one there, and the paper is deposited in the box in sight of all the officers and agents, and of any other person who may be interested.

This statement of the condition of things will be confirmed by any person who has the slightest acquaintance with election methods. The people have seen ballots thrust into the hands of more or less dependent voters who have been dosed to the ballot box and watched as if they were criminals.

VENEZUELA CASE.
Neither Great Britain Nor Germany Desires

To Refer the Matter to the Hague Tribunal—Suggests Procs. Roosevelt as Arbitrator on Details.

WASHINGTON, Feb. 5.—Irritated by the note of Minister Bowen, addressed to the British ambassador on Monday last, refusing to accept the president's proposal for the arbitration of the customs receipts of Lagunaira and Porto Cabello, the allied powers have instructed their representatives here to submit the question of preferential treatment for settlement to President Roosevelt.

At 10 o'clock at the British embassy there will be a conference of the representatives of the allies, in the view of the fact that the London government is now taking the lead in the negotiations, the British ambassador will preside.

It is found that President Roosevelt is not disposed to allow himself to be dragged into the controversy, in the instructions of the allies are such as to permit them to forego the embarrassment of a rejection at the hands of Mr. Roosevelt.

THEORIES ABOUT CATARRH.

Peculiar Ideas Regarding a Common Disease.

Mark Twain's cure for a cold in the head was simple, but, he claims, very effective in his own case; his plan was to eat nothing whatever for twenty-four hours, or, presumably, until the trouble had disappeared. Although not able to speak from personal experience as to the effectiveness of this treatment, it certainly has the merit of extreme economy. But it occurs to us that the application of it to a case of nasal catarrh might be attended with difficulties.

Catarrh, as everyone knows, is a chronic inflammation of the mucous membrane of the head, and Mr. Twain's treatment, if it should become a fad, would make of us a nation of fasters, an army, emulating the example of the immortal Tanager, who achieved the world wide fame of fasting forty days.

Catarrh is certainly becoming a national disease and there is little doubt but that errors in diet, particularly over eating, is a very common cause. Most people, however, are more inclined to the cure of the trouble than to the cause, and modern medical science has produced more effective and less heroic remedies than Mr. Twain's. Hygiene is a new remedy, very effective in some forms of Catarrh. Red Gum is another which on account of its antiseptic properties is very valuable, while many severe cases of Chronic Catarrh have been entirely cured by the sanguinaria or extract of Blood root alone.

Within a year an enterprising chemist has combined all of these remedies in tablet form, palatable and convenient, and the superiority of this tablet over other catarrh remedies is so apparent that all druggists now carry them in stock to supply the popular demand.

They are called Stuart's Catarrh Tablets and it is doubtful if any medicine has achieved a national popularity in so short a time as this. Stuart's Catarrh Tablets are used by thousands of travelling men because they can be carried in the pocket and used any time and in any quantity, being free from cocaine, opiate, or any poisonous drug.

They clear the head and throat from the disgusting secretions of catarrh, very often in a few hours' time. For nasal Catarrh they are far superior to any wash, lotion or ointment, the use of which is often as inefficient and annoying as the disease itself.

For coughs, colds, bronchial catarrh and catarrh of stomach these tablets give immediate relief and a permanent cure where lotions, douches and inhalers make no impression whatever. This preparation is a boon to catarrh sufferers and any druggist will tell you that Stuart's Catarrh Tablets is a remedy that has come to stay.

A CLOTHING OFFER.

That is Bringing Lots of Orders to J. N. Harvey.

For thirty days from Jan. 20th suits and overcoats to measure at \$12; pants to measure, \$5; newest imported and domestic goods.

That is the substance of an announcement made by J. N. Harvey, of Union street clothes, on Jan. 20th. Yesterday he showed a Star man his order book, and the number of pages filled with orders for suits, overcoats, shirts and samples of the finished suits were also shown. Then the surprise vanished, for not only are the clothes of excellent quality and handsome patterns, but the trimming and tailoring of the suits were of high class and good style. Customers who went in to see remained to buy, and quite a number gave larger orders than they had thought of doing.

A large number of orders were from persons who live in the country, and to whom samples of clothes were sent on their application. Mr. Harvey adopted this plan of giving special values for thirty days in order to further introduce his fine tailoring department. He is able to have the suits made up in the quiet season, and delivery is arranged to suit the customer, any time from one week from date of order to the first of May.

The special offer will continue till Feb. 20th, and there's genuine profit in it for the clothing buyer.

PEOPLE WITH BAD BREATH.

Generally suffer from Catarrh and should use Catarrhose Inhaler four times daily and be cured. The pleasant scented Catarrhose vapor spreads through every air passage of the breathing organs, and reaches the very root of the disease at once; it kills the germs, purifies and cleanses the mucous surfaces and eradicates every vestige of catarrh in a short time.

Fare, small breath free from head-ache, sneezing and discharge are quickly derived from the use of Catarrhose Inhaler. Complete outfit, guaranteed to cure, costs \$1.00, trial size 50c. Druggists, or N. C. Polson & Co., Kingston, Ont.

HORSE NEWS.

(Calais News, Feb. 4.) W. J. Eaton has sold to Chas. Berry of Houlton one saddle horse, one handsome stylish brown driver, and the chestnut gelding The Zealot, a handsome 2-year-old, by The Corker, son of Rex American, 4-year-old, record 1:11. The Zealot was bred at the Village Farm, Buffalo, N. Y., and was sold at the Old Glory sale at Madison Square Garden last fall.

J. M. Johnson bought about 15 head of horses at New York last week, seven of them are expected here today. He bought Baroness, a son of Baron Wilkes, and sold him next day at a profit of \$1,000. There are some nice good prospects in the lot that is coming here, some of them ones with very fast trials. Any one wishing good racing material would find it to their advantage to look them over.

The Trotter, Pauley, of Chatham, will be left with Jas. Carpenter, Readville, Mass. This horse has no record, and has gone a mile in 2:10.

CHIPMAN.

How the Grand Mahan Men Broke Smallpox Quarantine.

CHIPMAN, Queens Co., Feb. 4.—Today arrived six boxes of snow ball, and but for the ball that came about dark the increasing wind would make substantial piles. There has been very little snow, but the scarcity of snow in the wood making the roads very rough, being the only objection.

The construction Company have been without mill since last Friday. Today the regular train brought in two carloads and a special followed with four more. As many more carloads are expected this week. Many of the men have not been able to work owing to illness from vaccination. One of the men here, a brother of Bastard's, an army, emulating the example of the immortal Tanager, who achieved the world wide fame of fasting forty days.

Catarrh is certainly becoming a national disease and there is little doubt but that errors in diet, particularly over eating, is a very common cause. Most people, however, are more inclined to the cure of the trouble than to the cause, and modern medical science has produced more effective and less heroic remedies than Mr. Twain's.

They are called Stuart's Catarrh Tablets and it is doubtful if any medicine has achieved a national popularity in so short a time as this. Stuart's Catarrh Tablets are used by thousands of travelling men because they can be carried in the pocket and used any time and in any quantity, being free from cocaine, opiate, or any poisonous drug.

They clear the head and throat from the disgusting secretions of catarrh, very often in a few hours' time. For nasal Catarrh they are far superior to any wash, lotion or ointment, the use of which is often as inefficient and annoying as the disease itself.

For coughs, colds, bronchial catarrh and catarrh of stomach these tablets give immediate relief and a permanent cure where lotions, douches and inhalers make no impression whatever.

This preparation is a boon to catarrh sufferers and any druggist will tell you that Stuart's Catarrh Tablets is a remedy that has come to stay.

WEDDED AT MT. MIDDLETON.

MT. MIDDLETON, Kings Co., Jan. 28.—An interesting social event occurred on the evening of Jan. 21st at the residence of Mr. and Mrs. Jos. W. Chapman, Mt. Middleton, when their daughter, Miss Mabel A. Chapman, was united in marriage to Thos. E. Patterson, also of Mt. Middleton. During the rendering of appropriate music by Miss Nettie Fenwick, the bride, who was charmingly gowned in white, entered the parlor on the arm of her father and took her place beneath a beautiful arch of evergreens intertwined with white. The ceremony was then performed by the Rev. D. B. Beyer. After congratulations had been presented to the happy pair, a most dainty repast was served and a very pleasant evening spent by all. Mr. and Mrs. Patterson left on the 22nd for a trip to Dorchester and other points eastward. They have the best wishes of their many friends for their future happiness and prosperity.

HAMPTON NEWS.

HAMPTON, Kings Co., Feb. 4.—The death of William Mitchell, which took place last Sunday, removes an old and respected resident. Some few months ago he was thrown from his wagon and broke his collar bone. Shortly after he was about again he had an attack of paralysis, from the effects of which he never recovered. His funeral, under the auspices of Hampton U. C. Ch., took place on Tuesday afternoon, service being held by the Rev. W. W. Lodge, in the Methodist church, previous to interment in the graveyard at Passages. His wife died last April. His four sons and two daughters were with him at the last. These, with four brothers and a sister (Mrs. James Newell, sr.) are left to mourn their bereavement.

There was no sitting of the Kings county probate court today, on account of the illness of the judge.

Mr. and Mrs. E. C. Elkin of Saint John were here today, consulting with William Langstroth, contractor, in regard to the erection of a suburban residence at Riverview, on the Kennecasis.

Joseph Merritt of St. John passed through on the eastbound accommodation this afternoon.

Miss Helena M. Crawford, daughter of Samuel R. Crawford of Lakeside, was married last evening in the parish church to Whitfield D. Perry, son of Price Perry of Smithtown. The church was trimmed with evergreens, and an arch was constructed across the aisle in front of the choir, under which the couple stood during the ceremony, which was conducted by the rector, Rev. C. D. Schofield, and all proceeded to the bereaved home.

The prospecting Coal Company at Norton has some twelve or fourteen men mining coal from the thirty-five foot excavation and teams hauling it here for shipment to Portland, Maine, forty tons having been ordered by capitalists as a test of its quality and value, which the company will result in the formation of a working company with a capital of \$100,000. The coal is equal to the finest Lehigh and the expert miners on the ground say the outlook is excellent for the existence of areas of paying quantities.

Mr. E. C. Smith of St. Mary's, York Co., widow of the late Joseph Smith, is visiting friends at Lakeside and Hampton, with Miss Carrie Smith, who is glad to renew old acquaintance.

A lot of land comprising 105 acres, at Havelock, belonging to the estate of the late E. C. Smith, was sold yesterday at the Court House, to satisfy a mortgage given to the late Joseph Brown, and signed by his son, William J. Brown. The property was purchased by John Madigan for \$121.

The veteran miner, H. Price Webster and his company are booked for one night's performance at Smith's Hall, on Saturday, Feb. 14th, of the play founded by Mrs. Edgeworth's story of The Hidden Hand.

LETTERS FROM THE PEOPLE.

WINDSOB, N. S., Feb. 3, 1908. To the Editor of the Sun: Sir—Though the N. S. Farmers' Association have, during the last four years, unanimously asked the government three times for the establishment of an agricultural college, the same has not been made by the Morning Chronicle that the farmers have not asked for the college. At one of the largest and most representative meetings of the association ever held in the province, and after two hours' open and most enthusiastic discussion, the farmers for a fourth time, by a unanimous standing vote, have demanded the establishment of the institution, equipped in a first-class manner for Nova Scotia and either or both of the other maritime provinces which may co-operate with her. A thoroughly representative delegation of ten men were appointed to take the resolution of the association to the government and demand that the institution proposed shall be immediately proceeded with. A similar delegation will probably be appointed by the Fruit Growers' Association meeting on Thursday at Middleton. The farmers of Nova Scotia are united and determined, if they have the co-operation of New Brunswick, to keep ahead in agricultural education with Ontario or the United States. J. B. E. S. F. FRUIT GROWERS (Special to the Sun.)

HALIFAX, Feb. 5.—The annual meeting of the Nova Scotia Fruit Growers' Association commenced in Middleton today. It was stated that last year's apple crop was the most disappointing and unprofitable in the history of the apple culture in Nova Scotia. The average crop is 250,000 barrels annually, making at \$2 per barrel a net income on the quantity exported in the present season of \$500,000, more than double the income from all other agricultural produce exported from this province.

MAYOR UNDECIDED.

Doesn't Know Just What He Will Do in Goodspeed Case.

His Worship Mayor White has returned from hearing the argument in the Goodspeed case at Fredericton, the decision in which will not be given until Friday. Should the verdict be adverse to the mayor he is not yet prepared to say what his action will be. He has not definitely ascertained whether or no it is possible for him to appeal the matter to a higher court. Should the decision of the court be in favor of the mandamus be issued, or should the mayor be allowed to admit Goodspeed to the reformatory he will have no course but to obey. But in so doing he will have the satisfaction, he says, of knowing that the responsibility of the boy's incarceration rests not upon him as chairman of the board of management of the institution. He believes that Goodspeed's presence there will be a great harm to the institution and was determined that all he could do was keep him out of it.

Asked if the report was true that if compelled to sign the warrant he would resign his position as chairman, the mayor said he had made no such statement.

FAIRVILLE NOTES.

Feb. 4.—E. A. Kirkpatrick and William Bonnell of Main street have each purchased a house on Harding street, and will take possession shortly.

The young people of the Epworth League will have their annual sleigh drive on Tuesday week. This is generally a very interesting outing.

The Fairville Hotel, which was injured by a fire a few weeks past, is being repaired and will probably be opened to the public once more. It is much needed.

Rev. Mr. Foster of north end and Rev. Mr. Kibby exchange pulpits next Sunday morning.

LOST CASE AND IS GLAD OF IT.

District Attorney Pleased at Acquittal of Woman Charged With Murder.

(N. Y. Sun, Feb. 4.)

By direction of Judge Aspinall, in the county court in Brooklyn yesterday, the jury acquitted Mary Hutton, 28 years old, who was indicted for murder in the first degree for having, it was alleged, shot and killed John F. Johnson, at 113 Lawrence street on Nov. 19 last. In opening the case, District Attorney Clarke said he had thoroughly investigated the case, and much was to be said in behalf of the woman.

"John F. Johnson," he said, "met his death on Nov. 19 last by a pistol in the hands of the defendant. Right here I may say that she is an unfortunate woman. She met Johnson, and perhaps loved him, but he was a worthless character, a man who lived on his wits, and whose earnings were not treated as his own but as a dog's.

We have no sympathy to express for the defendant, who was the lowest order of mankind, or of animal kind, and I am not standing here and defending that sort of a man.

Mr. Clarke said the district attorney's office did not always seek to convict, but it was the duty of the district attorney to protect the defendant, if possible.

The young woman, who was poorly clad, then told her story. It was one of vice and hardship and degradation. She told how she had to go out on the street and earn money, which Johnson took from her. He would beat her, and she brought in the amount he expected. She explained the cause that led to the fight just before the fatal shot was fired. Judge Aspinall, District Attorney Clarke and many others, when they heard her story, sympathized with her, and District Attorney Clarke was pleased when Judge Aspinall directed the jury to acquit the woman.
