

CABINET SALARY BILL IS ACCEPTED BY LEGISLATURE AS MANY MEMBERS OBJECT

PREMIER ANNOUNCES YORK-SUNBURY DATE
Ottawa, April 15.—The Prime Minister, Mr. B. H. Huggins, today announced that the cabinet salary bill would be introduced in the House of Commons on Monday, April 19, at 10 o'clock. The bill would increase the salaries of the members of the cabinet from \$10,000 to \$12,000 per annum. Mr. Huggins said that the bill would be introduced in the House of Commons on Monday, April 19, at 10 o'clock. The bill would increase the salaries of the members of the cabinet from \$10,000 to \$12,000 per annum.

Members Wonder Why Such a Proposal Was Not Introduced at Earlier Date.

TOO MANY MINISTERS SAYS HON. DR. BAXTER

Others Agree With Him That There Should be a Re-adjustment of Cabinet Duties.

Fredericton, April 15.—The legislature had its first party division of the session at 9:30 o'clock tonight, when by a vote of 23 to 16 re-consideration of the bill to increase the salaries of members of the government was refused.

Leader Fawcett, of the Farmers' party, called for the standing vote in committee of the whole house. The three—Northumberland, Independents present, Martin, Vanderbock and Morrissey, voted with the government. The opposition and agrarians all voted in favor of consideration of the measure.

Fredericton, N. B., April 15.—The House met at 11:30 o'clock.

Mr. Magee presented the following report of the committee on public accounts:

Your committee, to whom we referred the public accounts of the province for the year ending October 31st, 1920, beg leave to submit the following report:

Your committee have held ten meetings during this short session, and since the report of the comptroller general was presented, and have gone into the accounts as carefully as was possible in the time at their disposal.

Departmental officials have appeared before the committee from time to time and have explained the various items under discussion. Your committee find that the accounts are in proper order, the statement of revenues and expenditures for the fiscal year being clearly set out. It is noted that your committee recommend that all carry over in the Government's accounts be carried over in such a way as to show a balance in credit.

Your committee further recommend the payment of \$50 to J. E. Dickson, the secretary.

The House went into committee, with Mr. Hayes in the chair, and agreed to bills relating to partnership, to amend the corporation tax act, 1920, to enable the St. John Board of School Trustees to issue debentures, to amend the Judiciary Act and to amend an act providing for the creation of electoral districts. Consideration was next given to a bill respecting the superannuation of persons employed in the Government service.

The measure was discussed by Hon. Mr. Michaud, Mr. Fawcett, Mr. Richards, Premier Foster and Mr. Young.

Mr. Fawcett said that while he did not approve of some features of the bill, he would not oppose it to the extent of dividing the House. He would much prefer a superannuation scheme to the funds of which both government and civil servants would both contribute.

Mr. Fawcett expressed himself as being strongly opposed to the principle of the bill.

Hon. Mr. Foster replied to the criticisms directed at the bill, and expressed the hope that the House would adopt it.

The House met at 2 o'clock. Hon. Mr. Michaud submitted an amendment to Section 3, adding the registrar and deputy registrar of the supreme court to the list of officials. (Continued on page three.)

BLOCK DAYLIGHT SAVING

Fredericton, N. B., April 15.—Injunction proceedings to prevent daylight saving time being made operative in the province from May 23rd until Labor Day, as ordered by resolution of the city council recently, are being considered by members of the Fredericton labor council.

Upon what grounds an injunction would be sought has not been revealed.

STOLE CANCELLED CHEQUES

Chicago, April 15.—Six armed bandits, who held up two bank messengers on an Illinois Central train early today, captured two checks containing \$98,000 worth of cancelled cheques. The robbery was elaborately planned, two of the bandits following the messengers when they boarded the train at a downtown station and the other four joining them half a mile south. The robbers left the train at Twenty-second street and occupied in a taxi-cab.

KILLED AT LEVEL CROSSING

Owosso, Mich., April 15.—Three persons were killed instantly and another fatally injured today when their automobile was struck by a Grand Trunk passenger train at a street crossing in Perry, a village 16 miles south of here. Mr. Frank Martin and his two children, Arthur, 8, and Robert, 3, were dead when taken from the wreckage of the machine. Frank Martin, the husband and father, who suffered a fracture of the skull and injuries to his spine, died several hours later.

BAR MUNITIONS SHIPMENTS

Washington, April 15.—Blanket prohibition against the shipment of arms and munitions to any country where they might be used for revolutionary purposes has been asked of congress by the State Department.

Canadian Nickels Size of American

Hon. Mr. Fielding Thinks New Cents Are Too Small for Comfortable Use.

Ottawa, April 15.—The bill providing for a new five cent nickel coin in Canada has been given its first reading in the Commons today. Sir Henry Drayton said that it was proposed to make the coin exactly the same as the five cent piece issued in the United States. The Canadian coin would however, be 100 per cent nickel, as distinguished from the United States coin which was 75 per cent copper and 25 per cent nickel. A tender of money in the new coins would be legal tender for payment of an amount not exceeding \$5.

Objects to New Cents.

Hon. W. S. Fielding commended the minister for introducing the nickel. Mr. Fielding suggested that the new one cent piece issued by the government was too small to carry in the pocket. The government had carried economy a shade too far, he thought in making this coin. It would be better a trifle larger. He had heard that people had even silvered over one cent pieces and succeeded in passing them off as ten cents.

Hon. W. S. Fielding commended the minister for introducing the nickel. Mr. Fielding suggested that the new one cent piece issued by the government was too small to carry in the pocket. The government had carried economy a shade too far, he thought in making this coin. It would be better a trifle larger. JUDGES WILL NAME WINNER OF MAXWELL

Statement Made Below Regarding the Special Maxwell Announcement.

JUST ONE MORE DAY OF CONTEST

Which Candidate Will Win the Studebaker, the Gray-Dort, the Ford Prizes?

Just one more day after today and The Standard's big Automobile and Movie Star Contest will be past history. Monday night at midnight is the closing hour of the contest and then bring or mail their returns to the Automobile and Movie Star Department of The Standard the following day (Tuesday), April 19th.

The announcement of the special prize Maxwell and the awarding of the special prize Maxwell will be made by the Judges at the same time the Judges announce the winners of the big 7-passenger Studebaker, the Gray-Dort, the regular prize Ford, the Movie Star prizes, etc.

This decision was made owing to the fact that the majority of the contestants seem to be of the opinion that the winner of the Maxwell will also be the winner of the big Studebaker, as he or she will be in a position to raise funds on the Maxwell and speculate in the contest with the funds so raised. The Standard does not want contestants to be speculating in the contest. We want bona fide subscribers. We feel that every contestant will be given a more equal opportunity to win the big Studebaker or the other two prizes because of the decision we have made regarding The Maxwell.

AT THE IMPERIAL TODAY—"Desert Gold" (featuring an all-star cast).

AT THE QUEEN SQUARE TODAY—Tom Mix in "Three Coins."

AT THE UNIQUE—Wesley Barry in "Dinty."

OPERA HOUSE TODAY—Vaudeville and feature picture.

Two of the prizes to be given away in the contest are big contest are opportunities to become Movie Stars with the Universal Film Company, Filmdom's largest and most important Moving Picture Company.

Sealers Get About 100,000 Good Pelts

None of the Vessels Have Succeeded Yet in Getting Full Load.

St. John's, Nfld., April 15.—All but three of the nine sealers that engaged in the seal hunt this spring have returned to port. The Terra Nova and the Ranger are still trying to pick up scattered seals off the east coast, while the Viking is yet in the Gulf endeavoring to secure sufficient seals to complete her load. The high liners of the fleet and their catches are the Thetis, nineteen thousand, the Viking, seventeen thousand, and the Seal fourteen thousand. In no case has any of the ships out this spring secured a full load. The total catch now in eight slightly less than one hundred thousand seals.

KILLED BY TORNADO

Texarkana, Ark., April 15.—Starting at a point about three miles east of Texarkana, a tornado this afternoon swept northeast, doing extensive damage over an area varying from half a mile to nearly two miles in width and ten miles long, killing six identified persons, three of whom are negroes, and according to reliable reports killing all the members of the Moffitt and Jones families on the Boyce plantation on the Red River bottom.

Tragic Deaths At Newfoundland

St. John's, Nfld., April 15.—Two messages received by the Department of Justice from magistrates in small northern towns, tell of three drowning accidents within the last couple of days. From Bonaville comes the report that Edward Fleming, of Spiller's Cove, fell through the harbor ice and lost his life. A spectator attempted a rescue and narrowly escaped meeting Fleming's fate.

George Hardy, of Magraves Harbor, was drowned while shooting sea birds, at Mrs. Robert Mullins, of Boy's Cove, who has been missing from her home for several days, is supposed to have met a similar fate.

WORLD NEWS TODAY

CANADA.

Short Session of the New Brunswick Legislature is prorogued at one o'clock this morning. New Brunswick cabinet raises its pay on last day of the session. Canadian nickels will be the same size as the United States five cent piece.

UNITED STATES.

Embargo bill passes the Congress by a large majority. Bank cashier in Chicago kills one robber who makes raid on bank, wounds two others and captures two more.

THE BRITISH ISLES.

Four great unions desert the miners yesterday—the railway and transport men, the seamen and the electrical workers.

BANK CASHIER GOT FIVE FROM ROBBER SQUAD

Killed One, Wounded Two and Captured Two More by His Coolness.

ONLY CAR DRIVER MADE HIS ESCAPE

Shot Through Crack in Vault Door Where He Had Been Thrust.

Chicago, April 15.—B. W. Winok, cashier of the State Bank of Cicero, a suburb, successfully defended the bank against a band of six automobile bandits today, killing one robber, wounding two and capturing two others. Only the driver of the car who remained outside the bank escaped. The six men drove up to the bank, turned it upside this morning and five of them entered with drawn revolvers.

The leaders approached the cashier, occupied by Winok and ordered him to the rear of the bank. The other bandits compelled ten other persons who were in the bank, including C. C. Stoffel, vice-president, to follow Winok to the rear of the building where they captured their captives to enter.

Fired From Vault

While two of the bandits stood guard, the other three scooped up the money in the cashier's safe in a matter of minutes. Winok, who was wounded, pushed the door of the vault ajar and fired through the aperture. One bandit fell with a bullet through his head and two others were seriously wounded. Meanwhile, the Cicero police had responded to the bank's burglar alarm, arriving just in time to fire upon the fleeing bandit who had waited outside in the automobile. The other two robbers were captured after a running pistol fight of two blocks and the money recovered.

The slain bandit has been identified as Julian Norwell, thirty years old. The wounded men are Joseph Wagner, twenty-one, and Louis Curtis, twenty.

H. K. Marsland Dies Suddenly

Superintendent of Bathurst Lumber Co's Pulp Mill Victim of Heart Failure.

Bathurst, April 15.—One of Bathurst's leading citizens died suddenly this morning when H. K. Marsland, superintendent of the Bathurst Lumber Company's pulp mill, succumbed to heart failure. Although not in robust health for the last year, Mr. Marsland had been attending to his duties up to his last night. He was a native of Bathurst and formerly occupied high positions in the pulp industry in Chatham and other places. He is survived by two young daughters, Ida and Mary. The remains will be taken to Chatham tomorrow for interment beside those of his wife who died several years ago.

CARPENTERS LOCKED OUT

Sydney, N. S., April 15.—Forty-five union carpenters claim they were locked out today by the Sydney Building Trades Association, following their refusal to accept a wage of sixty-five cents per hour announced by the members of the association yesterday. The men got 75 cents last year and are holding out for the same rate now.

GOMERS TO MARRY.

New York, April 15.—Samuel Gomper, president of the American Federation of Labor, tonight authorized the announcement of his engagement to Mrs. Gertrude Cleaves Neuschler of this city. The marriage will take place in the near future.

TORNADO DOES DAMAGE

Hazelhurst, Miss., April 15.—Several persons are reported injured in a tornado which swept over Copiah county late today. All wires are down and little information has been received here concerning the damage.

Admiralty May Buy N. S. Coal

Cable Wants to Know Lowest Figure at Which It Can be Supplied.

Halifax, N. S., April 15.—There is a possibility of the British Admiralty purchasing Nova Scotia coal, according to a cable received today by Hon. C. H. Armstrong, Minister of Works and Mines, from Mr. John Howard, Agent General for Nova Scotia in London. The cable also states that there is a possibility of doing business in Holland. The Admiralty asks that coal companies quote lowest prices, free on board, and where it will be delivered. An immediate reply is requested. Hon. Mr. Armstrong has submitted the contents of the cable to D. H. Macdonnell, of the Dominion Coal Company, Montreal, and Arch McCall of the Nova Scotia Steel and Coal Company, New Glasgow, N. S.

Seamen at Work

A ballot taken by the seamen and firemen's union on the question whether the union should call a strike in sympathy with the coal miners, resulted in a majority of 57 against a strike. The total poll was 19,000.

The executive body of the electrical trades union and the secretary of the railway clerks association called off the strikes of their organizations upon announcement of the decision of the railwaymen and transport workers not to strike.

Dramatic Changes.

Not since the days preceding the declaration of war has the House of Commons witnessed more dramatic fluctuations of hope and fear than were experienced today in connection with the threatened industrial crisis. Last evening everything looked black, but after it became apparent that the mine owners were prepared to consider a revision of their original position and after the striking statement of Frank Hodges, miners' secretary that he was prepared to discuss the question of wages, leaving the question of a national pool for future settlement, hopes rose and they still were high when the Commons met at noon today.

Miners About Hodges.

On the assembling of the House, rumors were current that Mr. Hodges had been thrown over by the miners' executive and also that he had resigned. Then the news came that the miners had refused to meet the owners.

Raymond's Decision

Meanwhile, under pressure of the conflicting judgments of the executive officials of the miners and those of their partners in the Triple Alliance, the miners withdrew and went to their headquarters to take private counsel. They had not been in conference more than half an hour when unexpectedly a deputation from the railwaymen and transport workers' executive bodies arrived.

Then a final appeal was made by Mr. Thomas and the others who considered that Mr. Hodges' offer to the Commons ought to be used as the basis of an agreement toward a settlement and that Mr. Lloyd George's invitation should be accepted. This last try, however, was futile.

In fact, the majority of the miners' executive officials were obstinate in their stand for pooling and national wage concessions.

INDIAN AGENT CANDIDATE IN N. B. ELECTIONS

New Brunswick Member Challenges Estimates Produced Before the Commons.

MINISTER ASKS TIME TO PROBE

A. T. Leger Charges Indian Agent Was Candidate in October and is Still in Office

Ottawa, April 15.—The statement that the Indian Commissioner for the Province of New Brunswick had been an unsuccessful candidate in the last provincial election in that province, and confirmation of the statement that he still occupied the position under the Department of the Indian Affairs, brought a momentary touch of embarrassment to an otherwise quiet afternoon and evening in the Commons.

Mr. Leger Challenges

The statement came from A. T. Leger, (Kent, N. B.) when the vote for Indian Department administration in New Brunswick was under review. When it was stated that the New Brunswick Commissioner had been a candidate in the last provincial contest, Hon. S. F. Tolmie, Minister of Agriculture, who was piloting the estimates through committee, suggested that as he was not to take part in the facts of the case, the item be allowed to stand over. This was done and the other items carried.

STRANGLER LEWIS WINS

Detroit, April 15.—(Strangler) Lewis, heavy weight wrestling champion, won his match here tonight with Bob Mangoff, of Chicago. The first fall came after 18 minutes and 40 seconds with a headlock. A full Nelson put Mangoff down for the second time in five minutes.

HURT IN TRAIN WRECK

Saskatoon, Sask., April 15.—Five persons were injured when the Canadian Pacific Railway passenger train No. 51, west bound between Saskatoon and Edmonton, jumped the rails near Macklin, Sask., early this morning. The injured are: C. F. Kenny and J. P. Miller, mail clerks of Saskatoon; Brakeman Campbell and Simon, of Edmonton, and M. E. Blah of Macklin, a passenger. None of the cases are serious.

FOUR GREAT UNIONS NOT TO STRIKE FOR SUPPORT OF THE ENGLISH MINERS

Transport and Railway Men Withdraw Strike Order Set for Last Night—Seamen and Electrical Trade Congress Decide to Continue at Work—Rumors of Trouble Within Ranks of the Coal Men.

London, April 15.—Announcement that the railwaymen's strike set for ten o'clock tonight had been cancelled was made shortly before four o'clock this afternoon, by J. H. Thomas, general secretary of the railwaymen's union. No explanation was immediately available of the railroad men's action, but it was thought in some quarters that it might indicate a split in the triple alliance. The transport workers' strike also has been called off, Mr. Thomas announced. "As far as the railwaymen and transport workers are concerned, the strike is cancelled," he added.

Seamen at Work

A ballot taken by the seamen and firemen's union on the question whether the union should call a strike in sympathy with the coal miners, resulted in a majority of 57 against a strike. The total poll was 19,000.

The executive body of the electrical trades union and the secretary of the railway clerks association called off the strikes of their organizations upon announcement of the decision of the railwaymen and transport workers not to strike.

The injured are: C. F. Kenny and J. P. Miller, mail clerks of Saskatoon; Brakeman Campbell and Simon, of Edmonton, and M. E. Blah of Macklin, a passenger. None of the cases are serious.

NEW BRUNSWICK TOWNS PICKING CIVIC LEADERS

Lively Contests in Sight in Newcastle, Chatham and Bathurst.

MANY CANDIDATES GO TO THE POLLS

Four Aldermen Are Elected by Acclamation in Bathurst.

Newcastle, N. B., April 15.—What promises to be one of the liveliest civic contests in Newcastle will take place on Tuesday next. There are two candidates for the mayoralty and eleven men are seeking the four seats on the aldermanic board. Those named today were: Mayor, R. Walde Crocker and Charles E. Fish; aldermen, D. P. Doyle, C. H. G. Gosh, W. J. Keating, John A. Lawlor, Fred E. Leake, Harold R. Rice, John B. Smith, John J. Wilson, Burt F. Somers, Joseph D. Paskin and Charles S. Grant.

Of the candidates for aldermen five have had experience in the office. Mr. Doyle has for the past two years occupied the mayor's chair. Mr. Sargent was for a number of years alderman and Messrs. Ritchie, Russell and Wilson have had some service at the board. Mr. Crocker has been alderman for the past four years while Mr. Fish has been both mayor and alderman.

Interesting at Chatham

Chatham, N. B., April 15.—Considerable more interest is being manifested in the civic elections to be held next Tuesday than has been shown for several years, there being two candidates in the field for mayor and twelve aspirants for the eight aldermanic seats. The nomination proceedings were held this afternoon at the Town Hall and when at six o'clock Town Clerk McIntyre announced the results, closed fourteen citizens had filed their papers as the initial step towards civic honors. These were: Jack D. Johnston and J. Y. McCreary for mayor; W. R. Cassidy, R. D. Walsh, T. H. Fitzpatrick, Arthur Maher, J. R. Bell, M. M. Goggin, James A. Dowse, Dr. G. J. Sprout, M. A. Koenigsmann, Daniel Cripps, Arthur Spray and W. M. Merritt for aldermen.

The Mayoralty Fight

The mayoralty contest should prove an interesting one both the candidates being members of last year's aldermanic board. Mr. McCreary has served six years, the last three of which he has been in charge of the night water and sewerage committee. Of the twelve candidates for aldermen the first four Cassidy, Walsh, Fitzpatrick and Maher were members of last year's board, the former having served a long period as alderman and two years as mayor. J. R. Bell has been a member of the council before while the remaining nine candidates, Goggin, Dowse, Sprout, Koenigsmann, Cripps, Spray and Merritt are new men.

Bathurst Contest

Bathurst, April 15.—Today was nomination day for the civic elections which takes place on Tuesday next. Two candidates were nominated for the mayoralty, four for aldermen of ward 1 and three for ward 2, while aldermen for the other two wards went in by acclamation. The two citizens who will battle on Tuesday for the honor of being Bathurst's next mayor are J. Ernest Hatcher, ex-M. L. A., and F. O. Landry, for nine years an alderman and chairman of the water and sewerage committee. In ward one the repeaters will on Tuesday choose two aldermen from a field of four candidates. They are Wm. F. Sullivan, Timothy Connolly, Sylvester Vinneau and M. Hector Fortier. The last named was a member of the other two wards. Mr. Sullivan sat at the board a few years ago for two years. The other two are new men. In ward two three candidates have been nominated for the two vacancies. They are Hector W. Melanson, S. Lane Bishop and S. R. Shiry, the latter a member of the last council and of every other that Bathurst has had since its incorporation. The aldermen elected by acclamation are W. J. Kent and Arada Landry, two councillors of long experience and Hugh McKinnon.

Sunny Brae Acclamation

Moncton, April 15.—This was nomination day in Sunny Brae for the civic election scheduled for next Tuesday. The nominations were as follows: Mayor, C. T. Andrew Blakney; ward 1, E. J. Lloyd and Milledge Brown; ward 2, J. Irvine Blakney and J. R. Williams; ward 3, J. J. McAllister; ward 4, W. S. Hopper and William

NOW LEON JOHNS RECOMMENDS DODD'S KIDNEY PILLS.

London, Ont., Long a Sufferer From Sciatica, Can Now Cut Wood Without Being Tired.

Shediac, N. B., April 15.—This was also civic nomination day at Shediac, but there will be no contest in the second town. Dr. A. B. Sormany being re-elected mayor, and A. W. McQueen, R. Doherty, F. Richard, P. Theriault, A. E. Hackett, E. Gallant, S. Legere and R. A. Roberts being also returned to the council on a unanimous

EMBARGO BILL PASSES HOUSE BY GOOD LEAD

Vote on Emergency Tariff Was 269 to 112 After Lively Day.

CHARGES DICTATION BY THE SENATE

Measure Adopted is Practically the Old Fordney Legislation.

Washington, April 15.—Republican leaders, supported by all except eight of their party and by fifteen Democrats, pushed the Young Emergency Tariff and Anti-Pumping Bill through the House late today. The vote was 269 to 112.

Passage of the measure came at the end of a stormy session during which a handful of Democrats aided by a few Republicans had harassed the leaders of the Republican tide persistently for more than four hours.

Charges that the Republicans had bowed to the dictation of the Senate, were hurled not only by Representative Garrett, Tennessee, acting Democratic leader, but by Representative Newton, Minnesota, and Representative Luce, Massachusetts, both Republicans, as well.

The bill as passed by the House is practically identical with the Fordney measure, except the last paragraph by President Wilson.

Protection would be given a number of agricultural products, including wheat, cotton, sugar, corn, cattle and sheep, but the bill would be operative for only six months instead of the ten provided for in the Fordney measure.

The anti-dumping provisions also were not included in the Fordney measure, together with a system for estimating the duties imposed on the basis of the United States value of the goods, as determined by the secretary of the treasury.

HORSE RUNS AMUCK; LANDS IN TENEMENT

Cop and Two Drivers Hurt; Car and Wagon Wrecked; Children in Panic.

New York, April 15.—A horse, driven by Alexander Fein of 333 East 100th street, shot at a toy balloon at Second avenue and Ninety-fourth street, last night, and before he could be stopped, a policeman and another driver were badly hurt, an automobile and a wagon were partly smashed, and a half-dozen children were injured. A dozen children played in the horse's path as it pranced upon the sidewalk at Second avenue and Ninety-fourth street, escaped in all directions. The animal had to be tied up at the end of the hallway.

Fein, the first of the three to be hurt, was tumbled out of his seat when the horse, apparently blind by fright, dashed against a police signal box pole at Second avenue and Ninety-third street. His left leg was fractured.

The impact of the horse against the pole knocked down Policeman August E. Trister of the East Eighty-eighth street station, who was using the signal box as a shelter. As he fell the end of the broken shaft jabbed him in the stomach, injuring him internally. He caught the lines and ran with the animal, hoping to get enough to cut off his wind and bring him to a halt.

Fein, screaming women and children marked the path of the horse, which was running up Ninety-fourth street. Half-way the remaining shaft was smashed against a second delivery wagon. The force of the collision threw the driver, Samuel Gluck of 315 East Ninety-fourth street, into the roadway. A score of feet ahead was an automobile truck. The wagon swung against it, crushing the man and his one child.

A crowd was in pursuit of the runaway by that time. The horse swung to the sidewalk, losing the harness with a series of jumps and running among a score of children, entering the hallway of the building at 1808 Second avenue.

Trister, Fein and Gluck were attended by an ambulance surgeon from Reception Hospital. The two drivers were taken there, Gluck suffering from bruises and lacerations of the head. Trister, after receiving first aid, went to his home.

POWER BOAT CLUB

There was a large attendance at the St. John Power Boat Club picnic social and dance held in the club house, Marble Cove, last night. Black's orchestra provided the music. Harley Vanavert proved a most efficient floor manager and auctioneer. Pies and cakes brought good prices and the highest bid was five dollars and fifty cents for a pie.

Shediac, April 15.—This was also civic nomination day at Shediac, but there will be no contest in the second town. Dr. A. B. Sormany being re-elected mayor, and A. W. McQueen, R. Doherty, F. Richard, P. Theriault, A. E. Hackett, E. Gallant, S. Legere and R. A. Roberts being also returned to the council on a unanimous

ACHES AND PAINS—SLOAN'S GETS 'EM

Famous pain and ache Liniment. Kept handy, brings warming, grateful relief.

RHEUMATIC twinges ease up soon. Do not sit still. Rub Sloan's Liniment on the affected parts. It is a counter-irritant that Sloan's Liniment produces.

Always keep this old family friend handy for instant use. Little jars, without rubbing, leaving no skin stains, nits, or clogged pores. Its very odor—healthy and stimulating—suggests the good it will do.

All druggists. Three sizes—35c, 70c, \$1.40. Largest size is most economical.

Newcastle Indians Found Guilty of Having Too Strong Drink.

LUMBERMEN FIRM FOR TEN-HOUR DAY

Sailors on Walk from Montreal to Halifax to Get Work.

Special to The Standard.

Newcastle, April 15.—Rev. E. Mitchell, who has been curate to Rev. Father Dixon of St. Mary's Church here for the past three years has been appointed to the Parish of St. Isadore and left yesterday to assume his new duties. His place here will be filled by Rev. Father Ritchie, a Donatist minister of the mill owners and lumbermen of the Miramichi held here to discuss the labor situation. Among those present were J. W. Brown, W. P. O'Brien, and Leonard James Robinson, W. G. Thurber, J. W. Maloney, Wm. Sinclair, Wm. Sullivan, L. W. Buckley, A. J. Ritchie, Donald Fraser, David O'Brien, and Leonard O'Brien. It was unanimously decided not to operate the mills this season, except on a ten-hour day basis.

Indians From Redbank

In the police court, Stephen Chair and Louis Peter-Paul were before Magistrate Lawlor on the charge of making "bees" beer, containing over 2 per cent alcohol. They were fined \$50 and costs in each case or two months in jail, which he allowed to stand providing they promised to make or drink no more beer. The magistrate also issued a warning to all the Indians that any one brought before him in future charged with making or having such beer in their possession, would be given a two months sentence without the option of a fine.

Navigation Opens

The river season was opened here yesterday when the steamer M. A. Atkins arrived from the north to commence her regular trips on the New-Castle-Chatham-Redbank route.

Little Boy Dead

The death of Percy Wendell Lindon the eight year old son of Mrs. Ruby Lindon, occurred at the home of his mother on Henry Street on Monday morning after a illness of about two weeks from pneumonia and complications. He is survived by one sister, Nan, and his widowed mother. The funeral took place at two o'clock yesterday afternoon and was largely attended. The pupils of Miss Craig's room in Harkness Academy attended in a body and on the casket rested a beautiful wreath of white flowers. The interment took place in St. Mary's cemetery.

Millerton lost one of its most highly respected residents on Tuesday in the death of Mrs. Lombert Fleet, which occurred at the Miramichi Hospital following a serious operation. She was formerly Miss Susan Ambrose, a daughter of the late Thomas Ambrose of South Nelson and was 60 years old. She was a very active worker in the Women's Institute, and temperance societies as well as other organizations of the late Thomas Ambrose Church. She is survived by her husband, and three sons, Leslie and Warren at home; Ursula, Marguerite, (Mrs. Chaloe) Helena, and Lillian of Alberta, Dora and Deloy of Boston.

At a meeting of the Fire Department, Mr. Charles Delano was elected Chief, and Angus McIvor Lieutenant, succeeding Messrs. John H. Sargeant and Wm. Stebbles who recently resigned.

Rob Clothes Lines

Many petty robberies have been reported in Newcastle lately. A large number of clothes lines in the vicinity of the station have been stripped of their contents.

Messrs. John Collier, a native of P. E. I. and John McDermott, a native of Scotland were guests of the Police Station on Monday as protectionists. They had walked to Newcastle from Montreal and were on their way to Halifax in view of work which they hoped to obtain on board an ocean liner, as both were sailors. They left Montreal about five weeks ago and walked from Montreal on Sunday.

Mr. Lucy Bailey, aged 75 years, of Virginia, has been in the government service for the past forty years. She was returned on a pension.

EXPLOSION AND FIRE DESTROYS MUCH PROPERTY

Plant of the United States Fire Works Company is Wiped Out.

DAMAGE DONE IN SIX MILE RADIUS

Loss Will Probably Reach \$50,000—No Serious Injuries Are Reported.

Randolph, Mass., April 15.—Randolph was rocked early today by a series of explosions in the plant of the United States Fire Works Company, which with a subsequent fire, within a radius of six miles around, and tossed sleeping people from their beds, in a shower of falling glass and shattering minor bursts, but none were seriously injured. The property damage was estimated at about \$50,000. The blast was felt within a radius of 25 miles. In Boston, on the edge of a circle, within that radius, buildings were shaken severely. Actual damage from the shock, however, was limited to an area about six miles around Randolph.

Accustomed To It

Residents of this town were not uncommonly so such disturbances, explosions occurring almost frequently at one of another of the fire works factories in the vicinity. The plant destroyed today was the third to be so affected in the past two months. The first explosion merely roused sleepers without great excitement, but when it was succeeded by another explosion, with windows and doors being blown out of houses, and stores, and against other structures in which people were in fear, the effect was one of terror.

Families fled to the woods, seeking the safety of the open places, mothers and fathers carrying or leading their young, all in night clothing.

Fire Breaks Out

With many gathered in the wooded places for refuge, flames broke out in the debris of the fireworks plant and the fire quickly overran the ruins and gained headway in wood lots nearby, a burning brush causing for alarm to the refugees. It was several hours before the flames, augmented from nearby places, daylight broke in the woods, seeking the safety of the open places, mothers and fathers carrying or leading their young, all in night clothing.

Telephone wires in the town were paralyzed for an hour by the explosion and calls for assistance from other towns were sent out by motor cycle.

The plant of the fireworks company which was wiped out was composed of several of fire works structures. Inquiry to determine the cause of the primary explosion was still under way today.

RAILROAD CUTS WAGES

St. Louis, April 15.—A wage reduction of twenty per cent, affecting 2,600 employees of the Mobile and Ohio Railroad, will become effective at midnight tonight, E. B. Norris, vice-president of the road, announced today. Representatives of the employees agreed to the reduction, Mr. Norris asserted.

"Soap and sunlight are health partners." N. B. Health Week, April 24-30.

NERVOUS PEOPLE NEED A TONIC

Dr. Williams' Pink Pills Enrich the Blood, Thus Increasing Your Nervous Energy.

Nervous people who have not yet recovered from such a condition, which is recognized and treated by the medical profession, often have great trouble in finding relief. Irritation, headache, sleeplessness, nervous indigestion, all these ailments make life miserable, but are endured rather than run a doctor's bill.

Such sufferers should know the condition, which, if not allowed to persist, may result in a nervous breakdown. In this condition what is needed is rich, red blood. As a tonic for the blood and nerves, Dr. Williams' Pink Pills have been used with much success. They have a direct action on the blood, and through it easy to the nerves the elements needed to restore their normal function, at the same time improving the general health. The benefits that follow the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Norman Sedgwick, West Montrose, Que., who says: "I would be hard for me to overstate the benefit I have derived from the use of Dr. Williams' Pink Pills. Before I began taking the pills I was very nervous, weak and run down. I could hardly do my household work, and as there is a great deal of work to do about a home I was very much discouraged. One day while reading a newspaper I saw an advertisement of Dr. Williams' Pink Pills and decided to give them a trial. I could not believe the official effects after taking a box of the pills, and by the time I had taken a few boxes, I could again do my work on a farm. I felt very much weaker and nervous, slept well at night, and awoke in the morning feeling well and strong. I am happy to say that the pills so greatly benefited me."

Dr. Williams' Pink Pills are sold by all dealers in medicine or will be sent by mail on receipt of 50 cents a box or \$2.50 for six boxes by writing The Dr. Williams Medicine Co., Brockton, Ontario.

DEAD

0009.—In this city, on the 15th inst., Catherine, beloved wife of Robert Good, in the 79th year of her age. Funeral from her late residence, 51 Richmond street, on Sunday at 1:30 P.M.—at her home 161 Douglas avenue, April 16th, 1921. Hannah, widow of the late Shadrach Holly, in the 88th year of her age. Members Wonder Why Such a Proposal Was Not Introduced at Earlier Date.

TOO MANY MINISTERS SAYS HON. DR. BAXTER

Others Agree With Him That There Should be a Re-adjustment of Cabinet Duties.

(Continued from page 1)

Mr. Richards wanted to know if the bill was the result of representation made by the civil servants...

Hon. Mr. Michaud said the civil servants were taking action to form an association. Although they had not asked for the bill, he understood it met with their approval.

Mr. Fawcett wanted to know why civil servants were more deserving of pensions than other classes who had become advanced in years, and who, no doubt, had given just as faithful service to their employers...

Hon. Mr. Veniot said the bill was merely asking for pensions for servants of the people.

Hon. Mr. Michaud said he thought all would agree that the civil servants of the province were not overpaid, and some of them were underpaid...

Getting Rid of Officials. Mr. Baxter said that to a certain extent he did not agree with either of the previous speakers. He agreed with the minister that the salary of officials was insufficient...

To Protect Everyone. He believed the time was coming when the right of every man and woman to be sheltered from the municipal home would be given consideration.

Hon. Mr. Foster. Hon. Mr. Foster said the bill laid down the principle that public employees should be provided for upon reaching a certain age. No doubt a general superannuation scheme was the proper basis...

Mr. Taylor said he was surprised that the government was coming in at the dying hours of the cabinet. The trouble was that the cabinet was top heavy, and the province could get along with fewer ministers.

Hon. Mr. Baxter. Mr. Baxter said he would feel that he was not doing his duty if he did not give expression to his views on the letter which Mr. Baxter had received indicating that the minister intended to resign...

Mr. Smith (Albert). Mr. Smith (Albert) was surprised that the government was bringing in such an important bill during the dying hours of the session.

Mr. Barlock thought it would be unwise to press the bill. All branches of the government were doing good work, but lack of funds to provide work was a serious obstacle...

Hon. Mr. Veniot. Hon. Mr. Veniot said that a member for York had indicated that the civil servants of the province had expressed the wish to contribute their part to a superannuation scheme...

Hon. Mr. Baxter said he had an objection to progress being reported on the bill, but he hopes that the House had heard for the last time a thorough statement of the civil servants of the province.

Dentes a Threat. Hon. Mr. Veniot said that there had been no message in his statement. He had merely said that if the civil servants, instead of conferring with the government, found it necessary to go outside with their complaints...

Control of Ferries. Mr. Taylor said the bill relating to the control of ferries, said that when the measure was introduced, the Minister of Public Works had stated that it would only apply to ferries which were subsidized by the government.

Too Top Heavy. Mr. Taylor said he was surprised that the government was coming in at the dying hours of the cabinet. The trouble was that the cabinet was top heavy...

Hon. Mr. Baxter. Mr. Baxter said he would feel that he was not doing his duty if he did not give expression to his views on the letter which Mr. Baxter had received indicating that the minister intended to resign...

Public Health. The committee next took up consideration of a bill to amend the Public Health Act.

Mr. Curran. Mr. Curran said that if the province expected good service from its ministers it ought to be willing to pay them for it.

Hon. Mr. Robertson said that as one of the interested parties, he was prepared to vote to increase his own salary. He considered he was worth the money. His friends opposite no doubt felt that it was an opportunity to vote against the government...

New Brunswick Mill Men Take Reduction

But Ten Hour Day Will be Fought to a Finish in View.

Fredericton, N. B., April 15.—Local Union No. 159, International Union of Timber Workers, last night appointed a committee of four to call on W. J. Glenn, manager of the Fraser Company, Ltd., of the Victoria mills, and to confer with the managers of the local timber mills in an effort to reach an adjustment of the differences which threaten to prevent the operation of the mills on the St. John river.

This morning it was said that a committee of four would call on W. J. Glenn, manager of the Fraser Company, Ltd., of the Victoria mills, and to confer with the managers of the local timber mills in an effort to reach an adjustment of the differences which threaten to prevent the operation of the mills on the St. John river.

It is understood that the workers will express a willingness to accept a reduction of pay but at the same time are determined not to return to work upon the ten hour day basis. The employers have insisted upon a ten hour day and have emphatically declared that they will not operate their mills except upon that basis, and it is understood that this agreement holds good for the mills in this district as well as along the Miramichi.

John E. Martin, Labor member of the legislature of Chatham was the principal speaker at the Union meeting last night. He urged the men to fight a return to the ten hour day but told them when they were reaching decisions to always take secret ballots as an open vote often did not give the true feeling of the members of a union.

Hon. Mr. Foster said he had made up his mind that the bill was a proper measure, therefore it mattered little what he said. He brought down the leaders of the opposition had referred to governments in other provinces, but he wished to point out that other provinces were now adding to the membership of their governments.

Mr. Pinder said that the ministers of the government must have been thinking of the bill, and it was strange they had not brought it down earlier in the session. It looked to him as if they were doing something they were ashamed of, and if they were not ashamed of it, they should be. If the government passed the bill they would have to take responsibility for it.

Mr. Richards said he felt members of the government who were performing the amount of work they performed, were entitled to adequate remuneration for their services, and he did not consider the salaries paid at the present time were adequate.

Mr. Curran. Mr. Curran said that if the province expected good service from its ministers it ought to be willing to pay them for it.

Hon. Mr. Robertson said that as one of the interested parties, he was prepared to vote to increase his own salary. He considered he was worth the money. His friends opposite no doubt felt that it was an opportunity to vote against the government...

Public Health. The committee next took up consideration of a bill to amend the Public Health Act.

Mr. Curran. Mr. Curran said that if the province expected good service from its ministers it ought to be willing to pay them for it.

Hon. Mr. Robertson said that as one of the interested parties, he was prepared to vote to increase his own salary. He considered he was worth the money.

Pays Tribute To Faithful Secretary

Hillsboro, N. B., April 15.—A meeting of the Canadian Bible Society was held in the office of J. S. Blight. Those present were: F. M. Thompson, Rev. J. A. Laughlin, Wm. Hargrave, W. H. Duffy, Rev. A. Herwood, Jas. S. Blight, Rev. G. W. Tiley, James S. Blight was appointed secretary.

The secretary's report showed the following collections of 1920: Hillsboro, \$82.15; Albert Mines, \$35; Surrey, \$16.89; Carryville, \$13.25; Edgett's Landing, \$13.25; Weldon, \$11.25. Total amount, \$134.80.

The following resolution was presented and adopted: "Resolved, that the board of the N. B. Bible Society record its deep regret at the loss of Mr. Jas. Blight, who so long and faithfully performed the duties of secretary and that we record our appreciation of his services in the minutes of this meeting."

Mr. Peck said that one-third of the province was against the health act. The counties of Northumberland, Kent, Albert and Kings were opposed to it, and in every other county of the province could be found people who were against it. It was the most unpopular measure ever introduced by the Postor government.

Mr. Hunter said that in his section of York county the act was not popular, because it was too much, was too top heavy, and had too many big salaries attached to it. It might be suitable to a city, town or village, but was a hardship in rural districts.

Mr. Curran pointed out some of the benefits of the act, especially in the collection of vital statistics. The financial loss occasioned by the need for less death of so many children in early years was enormous. The bill was agreed to.

A bill to authorize the sale of a portion of old government house property to the Dominion was taken up. Mr. Richards said that the fund from the proceeds of the sale was intended to provide a residence for the lieutenant-governor, and it was only fair to expect that that residence should be in Fredericton and he argued that provision be made in the bill to that effect.

Mr. Curran said that if the province expected good service from its ministers it ought to be willing to pay them for it.

Hon. Mr. Robertson said that as one of the interested parties, he was prepared to vote to increase his own salary. He considered he was worth the money.

Public Health. The committee next took up consideration of a bill to amend the Public Health Act.

Mr. Curran. Mr. Curran said that if the province expected good service from its ministers it ought to be willing to pay them for it.

Hon. Mr. Robertson said that as one of the interested parties, he was prepared to vote to increase his own salary. He considered he was worth the money.

Mr. Smith (Albert) said that Albert had voted the appropriation for public health the first year the act had been in force. The municipality observed the way the money was expended and refused to vote the appropriation.

**Prayers Not Flowers
Wanted At Funeral**

**Senator Landry Left Estate
Valued at \$130,000, Most
of It Being in Quebec.**

Ottawa, April 15.—It is prayers and not flowers that I want on my grave," reads the will of Hon. Auguste

Charles Philippe Robert Landry, former member of the Senate who died December 29th, 1919, and whose will has been filed for probate at the court house. The total estate left by the late Senator amounts to nearly \$130,000, and is principally situated in the province of Quebec. In Ontario the estate amounts to only \$4,800, all of which is comprised in a property on James Street. The total of the estate is \$129,998.51 of which \$104,949.51 is personal and \$25,049 is realty.

**See, Mama, There is
Your Medicine**

"YES, dear, that is the medicine which made mama well and I am sure neither of us shall ever forget it."
"Are you going to buy some?"
"No, darling, I do not need any more. You know how well I sleep now, those terrible headaches do not bother me any more and we are able to take our nice long walks every day."
"You never used to walk, did you?"
"Not for a long time. My nerves were so bad that I could not do anything, and I am afraid I was often very cross and irritable with you and daddy, but, thanks to

Dr. Chase's Nerve Food, that day has gone by and I know what it is to be well and happy."
"Why don't all the sick people use your medicine?"
"Far more of them would if they only knew of the good it would do them. I have told lots of my friends and they nearly all have been benefited just as I was."
Clear brain, splendid circulation, ruddy complexion, sound, restful sleep, good digestion, greater strength of mind and body and better health are the results of using Dr. Chase's Nerve Food. 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

**Canadian Red
Cross Society**

**Reports of Representatives
from Outside Centres Were
Received at Meeting.**

Great interest in Red Cross activities was shown at a meeting of the Provincial Division held at the Board of Trade rooms yesterday afternoon. Reports of representatives from outside centres were heard and enthusiastically displayed in new undertakings. Colonel Murray MacLaren presided.

Secretary's Report
Miss Ethel Hazen Jarvis, in her secretary's report, told of Montreal's sending six bath-robes to River Glade, New Brunswick. In Ontario the estate amounts to only \$4,800, all of which is comprised in a property on James Street. The total of the estate is \$129,998.51 of which \$104,949.51 is personal and \$25,049 is realty.

Vote of Thanks
C. B. Allan moved a hearty vote of thanks to the Central Council which bore the expenses of the visit of S. B. McCready. Mrs. Kubring, in seconding this, said that thanks should also be sent to the Ontario Red Cross which spared their valuable officer. A vote of thanks to Mrs. Kubring for her address at Moncton was moved by Miss Ryan, Moncton, seconded by Mrs. Cecil McManus, Moncton, and passed.

set shown by their attendance. He asked for reports for centres represented, which were given as follows:
Antigonish—Mrs. E. H. Tibbitts. The circle is not yet re-organized, but hopes to be shortly.
Florenceville—Mrs. W. L. McLean. This circle never disbanded, but meets every two weeks. Knitting and assistance for soldiers and their families are continually given. The circle sees to need for work going on.
Woodville—Mrs. W. P. Jones. Circle not yet working, but ready for any emergency.

Fredericton—The Countess of Argyll. Members are still doing work and helping after soldiers' wives and widows. Soldiers in the D. S. C. R. Hospital and River Glade have been remembered by bound volumes of light periodicals which were highly appreciated. Membership is increasing and work is going on well. Funds are being raised for Victoria Hospital.

St. Stephen—Mrs. Beakin. Meetings held and sewing being done. Helping patient in the hospital and remembering soldiers at special anniversaries.
St. George—Miss McCallum. This circle has made a campaign for membership successfully. The district nurse is much needed and their work is of great interest to the society.

Riverside—Mrs. H. Downing. There are forty-three members in this circle. Sewing is done, the hospital is being helped. Meetings are held fortnightly.
Chatham—Mrs. Marven. Contributions and sewing are sent to those in need. The circle organizes and re-interests those in Chatham.
Milltown—Mrs. Irving Todd. Knitting has been done for soldiers and sewing is being carried on. There is a membership of twenty-one in Milltown, and all are ready to help.
Newcastle—Mrs. Charles Sargent. Sold of sewing and knitting accessories. The circle hopes to re-organize and hold meetings. There are twenty-two members on the list.
Moncton—Mrs. Cecil McManus gave an excellent report from Moncton, showing that the circle has 157 members. Work along health lines was realized as necessary. A Victorian Order of Nurses' Board was formed within the society, and the nurses secured the Red Cross raising the funds. Red Cross materials on hand were used for infants' clothing which is distributed. Miss Burns of St. John is in charge and doing wonderful work. The society bought an automobile for the use of nurses. An opera is now being given for funds for a special Child Welfare nurse. This speaker felt that all members did not understand the close connection between the Red Cross and the League of Nations.

Dorchester—Mrs. Papineau. Local aid is being given. The circle is just waiting for instructions.
Middle Sackville—Mrs. Lawson Smith. Members have kept in touch with the provincial headquarters and been helped by the Red Cross Bulletin. Local needs have been met. An excellent paper read on the peace time policy has spread useful information. Mrs. Smith gave an account of splendid health work done, with the consent of school trustees, in the schools. The Red Cross gave prizes for carrying out health rules, such as the use of tooth-brushes, clean hands, faces and handkerchiefs, and for papers written by older children. This circle has eight life members.
St. John—Mrs. Frank S. White. Incidents are filed for military hospital, clothing supplied to the Canadian Patriotic Fund and the port work carried on by Mrs. Lawrence.
Rothsay—Miss Frances Allison. Bath-robes were made for hospitals, sewing is done, and the society is ready for any call for the sewing committee. Miss Allison said work had been given out and returns are coming in well.

Dr. MacLaren retired and Miss Ryan, Moncton, took the chair. For the Provincial Hospital committee, Mrs. J. V. Abelin explained this work and thanked all who had answered and responded to this committee's appeal for assistance for men after leaving hospital. She asked for definite authority to help sick soldiers' families, and the board of the Provincial Hospital, \$120, be paid, with this grant continued until her case is settled by the government.
On motion of Mrs. Leonard Tilley, board of the nurse will be advised upon the government move in the matter. This was passed. C. B. Allan paid a tribute to the work of the Y. W. P. A., and moved that a case brought before the meeting by Mrs. Anglin and Miss Fairweather be assigned. Passed.

F. Dykeman, convener of the campaign committee, explained his department, asking for strong co-operation. It is proposed to organize 50,000 members in New Brunswick. Nova Scotia expects to get 100,000.
Mrs. Cecil McManus, Moncton, convener of the Emergency committee, asked for provincial representatives in each centre to be responsible for the garment a year, reports to be sent to Mrs. McManus.

Central Committee
C. B. Allan gave a detailed report of the meeting of the Central committee held at Toronto. He suggested a membership survey of all organizations and hoped for great things from the membership surveys. Mrs. C. B. Allan was present at all meetings. All provincial branches are caring for soldiers.
A hearty vote of thanks was passed to Mr. Allan for his splendid services. In replying, Mr. Allan paid a tribute to the work of women in patriotic work, such as Red Cross efforts.
Mrs. Kubring, who has been conducting a chain in light houses for St. John's. R. Armstrong said Mr. Kelly could meet with those interested and would be glad of all. Supplies are abundant in light houses for St. John's. A. E. McLeod and R. B. Armstrong

**Breadth of the Birthday Sale
at the Semi-ready Store**

Most men who formerly went to the Custom Tailor now realize that the real lasting style and good design lies with the creators of the Semi-ready Tailoring System. There are many weak but ambitious imitators.
But my Birthday Sale—to celebrate our coming to the top of the hill on Charlotte street—has the broader idea of convincing the buyer of cheap clothing that he is wasting his money—and that it is a thrifless buy at the best.
Once one knows the better quality, the finer appearance, the more lasting satisfaction, then will Semi-ready Clothes have the first call.
For the week I take a loss on every suit—just to prove that True Dress Economy lies with the garment that keeps its appearance always—and gives the wear you hoped for.
I've had gentlemen come to me with Semi-ready Suits they have worn from three to seven years.

**The Riding Comfort of the
Nash Six Equaled Only
By Higher Priced Cars**

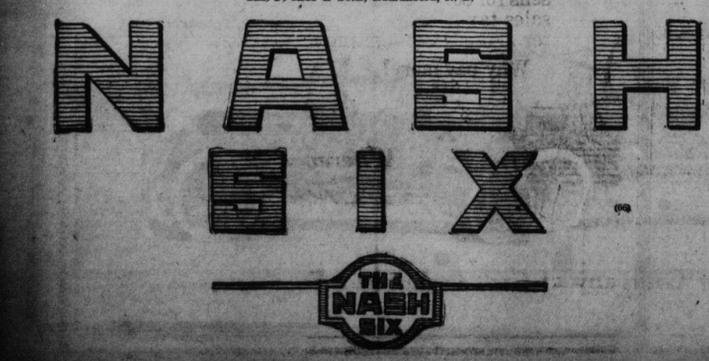

One quality that impresses you with the fact that the Nash Six is the greatest value in its price field is its exceptional riding comfort. Low hung and nicely balanced upon its staunch chassis, this roomy car has unusually long springs, and its broad, restful, deeply cushioned seats are thickly upholstered.
Compare this quality of the Nash Six with that of other cars costing from \$100 to \$600 more and you will have one reason why, from the time it was first introduced, this comfortable automobile has been a sales leader.

NASH SIX PRICES

5-passenger touring car \$3,790	7-passenger touring car \$3,060
2-passenger roadster 2,700	4-passenger coupe 4,200
4-passenger sport model 3,990	7-passenger sedan 4,600

WHY THE PENNY SPRINGS CO.
Story Told by One of the Best of the World's Greatest Newspaper.
By W. ORTON TOWNE
Sixteen years ago this morning I arrived in St. John, with ten dollars in my pocket and a small bag of clothes. I had no money except the suit I had on. I had come from Glasgow—it doesn't matter how long it took me to get here—on a realising my dream of making something of myself. I had been told that the world was full of opportunity, and I was determined to be a farmer. I was going to farm I didn't know how, but I was determined to be a farmer.
I met a good friend of mine, a man who had been in the business for some time. He told me that the best way to get started was to go to the Penny Springs Co. and buy a suit. I did so, and I was very pleased with the result. The suit was made of the best material, and it was very comfortable. I had never worn a suit like that before, and I was very proud of it. I had been told that the Penny Springs Co. was the best place to buy a suit, and I was not disappointed. The suit was made of the best material, and it was very comfortable. I had never worn a suit like that before, and I was very proud of it. I had been told that the Penny Springs Co. was the best place to buy a suit, and I was not disappointed.
I had been told that the Penny Springs Co. was the best place to buy a suit, and I was not disappointed. The suit was made of the best material, and it was very comfortable. I had never worn a suit like that before, and I was very proud of it. I had been told that the Penny Springs Co. was the best place to buy a suit, and I was not disappointed.

WHY THE PENOBSCUIS SULPHUR SPRINGS COMPANY QUIT BUSINESS

Story Told by One of the Partners in the Enterprise—Interesting Story of Arrival and Early Struggles of An English Newspaperman in St. John.

By W. ORTON TEWSON.

Sixteen years ago this month I arrived in St. John, with ten shillings in my pocket and a small grip containing the rest of my worldly possessions except the suit I had on. I had crossed from Glasgow—it doesn't matter how—but on realising my dream of making something of myself—if possible. These meagre little words "my worldly possessions" seem to me now almost comical. I was sixteen years younger then!

I had the faintest idea of what I was going to do, or how I was going to do it. Coming over on the boat I talked the subject over with some others, equally ignorant, with the result that I had determined to be a farmer. Just what I was going to farm I didn't know, but it was soon to be settled for me.

Meets a Good Friend.
Coming up the hill from the ferry, firmly grasping my little bit of gold, I was stopped by an elderly man, in an inquisitive way, in the coin lightened. "Ha, ha!" thought I, "this is one of those gents I've read about. He's after my ten bob."

I took a second look at him and decided I would take a chance. "Just in from the Old Country?" he began. The ferry boat had just landed a dose of would-be Oxonians, so that it was not exactly a wide guess.

"Yes," I answered, rather curtly, wondering what his game was. "What are you going to do?" "None of your business," was on the tip of my tongue. But I switched over and said:

"Ah then, you are going West?" I explained that for very good reasons—one of them insurmountable—I intended to do my farming in the immediate vicinity.

"It is after my money," I thought frantically with him will be the best for him and best for me. His interest in me, however, seemed increased. He broke it gently to me that it was no use my thinking of going farming this side of Winnipeg. By this time we had reached the General Post Office.

"See that drug store over there? That's my place, go and get cleaned up and then come over and we'll have a talk. I may be able to help you. Ask for Mr. Hawker."

He nodded kindly and was gone. Got The Clean Up.
I stood on the corner wondering what it all meant. Then I remembered he had said "go and get cleaned up." I felt my chin. I looked at my hands, boots and finally at myself in a small bit of mirror I kept for this purpose. I remembered my newly found friends. Who was the real ruffian—at all events from appearance? There was only one answer.

Going into the Post Office, I put down my ten bob piece and received the Canadian quid pro quo. (This was in the good old days before English money had lost its self-respect.) My half quid brought me a bill also quite a lot of what seemed then to me to be real money. The next item on the programme was the "clean up." It did not take me long to discover that there are two meanings to the phrase. One I was after, the other the barber got! Sauntering along Prince William street, I saw the friendly looking tri-color pole—the emblem of the craft the world over. I entered and gave the order:

"Hair cut and shave." Learning back or rather pushed back on a tip up chair—the first of the kind I had ever sat in, I rummaged while the "Professor" did his work well—only too well for me. I was trying to solve the problem of how far the Canadian equivalent of ten shillings would see me through before I got work, when I became conscious of what felt like a hot poizole on my face.

"What's up?" I mumbled from under the dish cloth. "Hot towel," came the explanation, and at that moment I became uneasy about my money again. "At Home" had been used to paying four pence (eight cents) once for a haircut and a shave (two cents) for a shave. My fears were not abated when before I could cry "That's enough," the Professor had wheeled some sort of an instrument to my side—my chair having such a tilt that I couldn't right it in time to stand up—and was working on my face like I had once seen a beauty specialist perform on a gentleman in London who wore corsets.

During the agonizing minutes that followed, I resolved to escape. For a brief moment I was left unguarded. The Professor had gone for the manicure set! Seizing my opportunity, I landed on my feet and in frightened tones, gasped:

"How much?" "Seventy-five cents." I handed over one of my pieces of paper and thank God got some change. By quick arithmetic I turned the seventy-five cents into English money and it worked out at three shillings and a penny ha' penny! I don't believe I "tipped" that barber, but I am going back this trip to ask him—if someone hasn't killed him meanwhile.

Felt He Had Been Done.
These were my thoughts as I passed out to the street. Three shillings and a penny ha' penny gone out of my ten shillings—just for a haircut and shave—nowhere to sleep and as hungry as a hunter! What was more natural than that I should think of my newly found friend? So I crossed the street entered the drug store, and asked for Mr. Hawker. When he came he failed to recognize me for a moment.

CONSTIPATION AND HEADACHES

Completely Relieved by this Grand Fruit Medicine, "FRUIT-A-TIVES"

MR. ALFRED DUBOISSEAU

423 St. Catherine St. E., Montreal.
"For three years, I was a terrible sufferer from indigestion, constant headaches and constipation. I took various medicines for the trouble but nothing seemed to do me any good. Then, a friend advised me to try 'Fruit-a-tives'. Now I am free of indigestion and headaches, the constipation is cured, and I have gained considerable weight; and my general health is fine."

"Fruit-a-tives is a grand medicine and I cannot say enough in its favor."
ALFRED DUBOISSEAU
"Fruit-a-tives" are made from fruit juices and valuable tonic—and are pleasant to take, their action being gentle and mild, yet always most effective.

50c a box, \$ for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

paperman and I want you to give him a job." The Colonel plainly didn't want to give me a job, but Mr. Hawker was insistent. The end was I was turned over to C. F. Cradell, then editor of "The Star" (now editor of the Montreal Star and one of the best known and most likeable newspapermen in the world) who hired me as a reporter at six dollars a week. Start right away!

My subsequent misadventures as a reporter on "The Star" (where I stayed six happy months and rose to the giddy height of fourteen dollars a week—big money in those days) matter not. But I found some fine friends and often think of them. Men such as Judge Ritchie, Chief Clerk, Daniel Mullin, K. C., Mr. Baxter, "Paddy" Killen and last but not least, my old friend Sergeant Hywell, all of whom were always ready to help a fellow along.

Finds The Sulphur Spring.
To get back to my musings, I have mentioned my erstwhile pal "Jack" Watson. He Cradell, then editor of "The Star" (now editor of the Montreal Star and one of the best known and most likeable newspapermen in the world) who hired me as a reporter at six dollars a week. Start right away!

One week-end we had taken train for somewhere (I forget the name of the place) for some trout fishing in the Penobscuis river. Towards the end of a day's wading with no luck, we were pulled up by a strong smell of sulphur. Watson, who had a nose for a change, had come out of the earth (he had been a gold digger) followed the scent up and discovered a sulphur spring. Inquiries on the spot showed that it had a big local reputation for curing rheumatism and other "lame" including sciatica. That night Watson couldn't get the sulphur out of his nose and then came his inspiration. We would give our discovery to suffering humanity at a dollar a gallon!

When we left the Sulphur Spring we took with us an agreement whereby we became partners in it for a number of years with an option to purchase. Back in St. John I resigned from "The Star" and Watson switched over to selling stout guaranteed to cleanse internally instead of externally. We took a store in Waterloo street, bought dozens of gallon and half gallon jars from the Potteries, and I drew up a suitable announcement of the virtues of the Penobscuis Natural Sulphur Spring Water.

Getting the Sulphur Water from the spring, some sixty miles from St. John, out in a loud voice that we were taking. He said he knew we filled the jars with ordinary water and added sulphur to it, and furthermore he knew where we bought the sulphur! Other rumblings warned us that all was not well. So that day we settled up our affairs and as dusk came on two young men disappointed with life generally, could have been seen shaking the dust of St. John from off their feet and setting out on a tramp that eventually landed them weeks later in New York City.

I have not been in St. John from that day until today (Wednesday, April 13) and before this is in print I shall be well out of the city. Best for you and best for me.

Honestly we didn't put any sulphur in the water. We never got the chance.

out on a tramp that eventually landed them weeks later in New York City. Grandmother came to this House a Bride

SHE came into it perhaps 60 years ago, she enriched it with all the romance of youth, the experience of maturity and, thanks to its wonderful preservation, she was permitted to spend the evening of her life amid the old familiar walls.

And to-day it still stands—a trifle old-fashioned in architecture perhaps—but in every essential, a home rich in memories and a silent tribute to the wisdom of protection against decay.

B-H PAINT

70% Pure White Lead
30% Pure White Zinc
100% Pure Pigment

No more chipping, cracking or peeling if you use B-H "English" Paint. The above formula stamped right on the face of every can is your guarantee of satisfaction. B-H "English" Paint is a paint that lasts as well as it looks. It covers a greater surface, gives a greater brilliance and lasts longer than ordinary paint.

For Canada's rigorous climate, no better surface never can be found.

Why pay more for speed?

WHY pay more for an over-powered engine? What use is it? How often do you need it? You buy a car to take you from one place to another on business, for pleasure—do you want to race there and back? Speed on the highways is limited by law. Sane driving reduces the risk of accidents and increases the life of your car.

An over-powered engine demands heavier construction of the car throughout. Heavier construction means just that much more wood and metal for your engine to pull, which means increased gasoline and oil consumption—more wear on your tires—heavier repair bills for replacements—it means dollars out of your pocket.

The Ford has sufficient power to meet every road condition—you are not paying for an unnecessary surplus. Ford Touring Car with standard equipment of one-man top, ventilating windshield, non-glare headlights and demountable rims sells for \$675 f.o.b. Ford, Ontario. Federal sales tax of 2% not included. (Self-starter and electric lighting \$100 extra.)

Why pay more?

Wherever you go—*Ford Service*

Ford Motor Company of Canada, Limited, Ford, Ontario.

Aspirin

Nothing Else is Aspirin

Warning! Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all.

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 21 years and proved safe by millions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and pain generally. Made in Canada.

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonyl compounds. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

ST. JOHN, N. B., SATURDAY, APRIL 16, 1921.

THE CRISIS IN BRITAIN

The decision of the Railway and Transport Workers in Britain to withdraw their intention to strike last night in sympathy with the miners, makes a tremendous difference to the latter. A strike of miners, if continued for any considerable length of time is bound to cause a terrible upset in industrial and domestic affairs, but will be trifling in comparison with what it would be at the end of even a few days if the railway and transport men went out. The latter are to be congratulated upon the degree of conservatism they have shown, in refusing their province, somewhat hastily formed intention to join the disgraced miners.

The people of Great Britain would not mind so much if the miners had any real grievance, but they have not. The immediate cause of the trouble is "economic" of the industry. During the war and until March 31 the mines were virtually operated by the Government. It fixed both wages and prices. It paid what were in effect subsidies to the economically unprofitable mines, so that they might continue to be worked. It regulated both the domestic sale and the export shipment of coal. The system was by no means perfect. It provoked many public complaints, some of them well founded, nor did it prevent labor troubles. The great coal strike of last October came when Government regulation was in full swing. To keep up this war rate of wages and cost of coal meant a monthly bill of \$35,000,000. The Government decided this could not continue and so handed the mines back. The miners demanded, on the other hand, a continuation of control with present wages.

Nobody seems to deny that the coal mines are not showing enough profits to pay the present rate of wages; so the wages must come down unless the Government continue to contribute money (alias taxes) to keep them up. As this principle would apply to other industries as well as to coal mining, the steel workers, the shipbuilders, the railway men, the cotton and woolen workers, would all be as entitled as the coal miners to have high wages maintained by taxes. In the last analysis, this would mean that everybody would pay taxes to pay himself wages.

Not unreasonably the Government cannot accept this principle. It cannot continue to find \$35,000,000 a month in order that one particular class of workers may receive wages in excess of what other equally deserving industries are getting, but neither can it continue to subsidize the coal mines. The reasons have been assigned by the miners why the Government should not continue its recent policy, except that they want the present wages to continue. The country will not stand for this and the people are solid behind Premier Lloyd George in his efforts to do everything possible to prevent a strike and to stop disaster. The attempt to coerce the Government was fortunately abandoned. It would have been an act of sheer stupidity. The workers, in so doing, would have destroyed their own means of livelihood, and at the same time levelled a deadly blow at British manufacture and industry.

Premier Lloyd George has, since daily ridden many a storm, whether he can weather this last one, which has been brewing for months, remains to be seen. The chances are that he will.

THE SALARY GRAB

In view of the Provincial Secretary's announcement when bringing down the Budget a fortnight ago, that financial conditions were such that a policy of retrenchment would have to be followed by the Government, and that grants to several deserving objects would have to be refused the Government's action in bringing in a bill to increase the salaries of the members of the Executive by over 20 per cent is a somewhat startling commentary on their previous professions. The salaries at present paid to the six portfolio members, not including the Premier who is not affected by the bill, amount to \$12,600. It is proposed to increase this amount to \$18,500. Three of them, the Attorney General, and the Ministers of Lands and Mines and of Public Works are to have \$2,500 each, and the other three, the Provincial Secretary and the Ministers of Agriculture and Public Health, \$3,000.

Now the question is, would the Province be better served and its business more satisfactorily conducted if instead of having six ministers drawing a few days a month, and remaining with several other equally well paid ministers, who devoted their time to their offices and were

always in touch with each other and the public? With the exception of the Minister of Public Works, who spends most, if not all, of his time performing the duties of his position, no Ministers are ever at their offices where they can be interviewed by such of the public as desire to see them. Audience with them is as difficult to gain as it is with the Pope or the Sultan of Turkey. The province of Nova Scotia is a more populous one than New Brunswick, and its Budget is on a larger scale. Yet it managed to get along very well with only three portfolio members in the Executive Council, who handled a very much greater volume of business than is ever done in this province. Each of these gentlemen receives a salary of \$6,000 a year with an additional \$1,000 for the Premier. Since the Nova Scotia Government entered upon its somewhat doubtfully wise—in view of recent developments—highway policy, it has added another portfolio member as Minister of Highways. A New Brunswick could get along with three Ministers just as well as with six if the three devoted their whole time to their work, and were paid salaries commensurate with their jobs. As things are, the Ministers—except Mr. Veniot—are not as completely in touch with their Departments as they ought to be. Too much is left to the officials, who not only get an altogether too greatly exaggerated idea of their own importance, but it leads them to take too much on themselves.

CANADA'S BANKING SYSTEM

Business and financial conditions of the last few months have shown, as perhaps nothing else could have done, the superiority of the Canadian Banking system over the banking system of the United States. The contrast has been remarkable. The United States has in the neighborhood of thirty thousand independent banks organized under various laws and operating under many different jurisdictions. Canada has eighteen banks with up to four and a half thousand branches. The stress of recent months has caused numerous failures of banks in the republic. In North Dakota alone between thirty-five and forty banks have closed their doors. There has not been a bank failure in Canada, and Canadian banks have met the situation without embarrassment or any suggestion of panic.

In the opinion of the Ottawa Journal it is the centralized control of the banking business that has been the chief factor in saving the situation in this country. The effect has been apparent not only in the absence of bank failures but in the more satisfactory readjustment of business affairs generally. Canadian business and Canadian industry, including agriculture, are passing through the period of difficulty and danger with less disruption and injury to the community than are seen in the United States. The Canadian system has made it possible for the financial needs of the country to be taken care of in the exceptional circumstances in a much more satisfactory manner than would have been the case had Canada had the American system of banking. The present situation in respect of business in relation to the banks is a striking commentary on the situation that was on foot in the Canadian West a short time ago for the importation of the American system into the western provinces.

It is scarcely possible to find language—that would be fit to print—in which to express the disgust that the average man will feel on learning that immediately after largely increasing the salaries of the members of the Executive Council, Premier Foster should announce that the Government had no money to spare for the University of New Brunswick. People will be apt to wonder whether this is really the case, or whether it is that the Government is throwing a sop to that section of the electorate which is opposed to any increased grant to the University. Members of the Government got along very well without any increased salaries all during the period of extreme high prices. Since the war ended, they have had their seasonal indemnity increased, so that salary indemnity, etc., totalled more than \$2,300 with travelling expenses extra. Now this has been increased in some cases by \$1,400 and in others by \$900. Yet nothing can be given to the cause of higher education except a few high sounding words of commendation. It is a pretty contemptible situation. One must, however, at least admire the cool cynicism with which the Government has gone to work in the matter. We know the province is hard up; but we want more money and are going to take it. Others must wait.

In Turkey when a youth takes a girl to the movies a couple of times her parents expect him to marry her.

WHAT OTHERS SAY

This is a Poach.
 But perhaps that Baptist minister in London who called a ministerial brocher "a poor pruss" became an joined the Presbyterian church, is not a reliable authority on the fruits of the spirit.—Hamilton Herald.

The Evil Rat.
 Data have become so numerous in Winnipeg that the health authorities are maintaining a campaign for their extermination. It is not so many years ago that it was the boast of Winnipeg that it was free from rats. This common pest gradually worked its way north from Minneapolis along the railways. It was about 1907 that the first rat was reported at Emerson at the border town; a few years later rats were discovered in Winnipeg and now they are such a pest the Manitoba metropolis is waging war on them.

It is generally agreed by all authorities that there is no other animal or insect which is so dangerous and persistent an enemy as the rat. Not only does it destroy food, but it is a carrier of germs.—London Free Press.

A Little More Charity.
 One outcome of the U. P. O. holding office in Ontario may be a little more charity for the other fellow. Mr. J. J. Morrison and other U. P. O. orators have been going up and down the country for years condemning in the most vigorous language all old-line politicians as rotten, corrupt mass. They were to clean up the whole Augean stables.

A new Farmers' Government is in office in Toronto and one of the Cabinet ministers, Hon. F. C. Biggs, has been in difficulties over a truck contract. Fortunately for his own good name and the good name of the province, he has been able to vindicate himself personally, although his methods of doing so are not all open to commendation. One can imagine how Mr. Morrison and other U. P. O. orators or the Farmers' Sun would rave if, say, Hon. Dr. Reid were to do this, or Mr. Morrison and other U. P. O. orators or the Farmers' Sun would rave if, say, Hon. Dr. Reid were to do this, or Mr. Morrison and other U. P. O. orators or the Farmers' Sun would rave if, say, Hon. Dr. Reid were to do this.

Wanted to Be a Parson.
 "And what dear little boy," asked the minister, "do you intend to do when you grow up?"
 "A farmer, sir."
 "Very good indeed! To supply the natural food—most good."
 "And you?" turning to the second.
 "Please, sir, a schoolmaster."
 "Even better! Filling the mind of the rising generation with mental food—yes, even better."
 "And you?" turning to the third.
 "A preacher, sir."
 "Very good indeed, my dear little boy, for filling the soul with spiritual food is far worthier than either filling the mind or body. And what bids you to become a minister?"
 "We always have chicken for dinner when you come, sir," replied the boy.

A BIT OF VERSE

THE LITTLE GIRL WITH A BROKEN NOSE

Poor little girl with the broken nose,
 Wondering why all the attention goes
 To the baby now, and why daddy's knee
 Isn't all yours as it used to be.
 Oh, it's all so strange and it's all so queer,
 You need to have all of the love, my dear.
 And now there's another to claim a share
 And somehow it doesn't seem just quite fair.

We can read the thought that so plainly lies
 Beneath the furrows above your eyes;
 The mother can't play as she used to do
 And spend so much of her time with you.
 And when folks come into the house
 For milk, they talk to you.
 The lips they offered for you to kiss;
 They dance the baby about the floor
 And don't seem to care for you any more.

Time was for that all eyes seemed to shine
 For you and glow with joy at the things you'd do.
 But now unnoted you seem to be,
 For the amble of the baby is all they see.
 They are kind to you, but in some strange way
 Your world has changed in a single day.
 And somehow you know it won't be the same.
 As it used to be before baby came.

Poor little girl with the broken nose,
 That's ever the way that this old world goes—
 Nothing we have shall we keep for long,
 We must share our laughter and mirth and song.
 And the changes come, and we wake to find
 That always we're leaving some joy behind.
 Time breaks all our noses in just the way
 That your's has been put out of joint today.

THE LAUGH LINE

Working and loafing are habits and it is difficult to quit either.

Money is the grease paint that makes a bad actor look good.

Improvement.
 Tom was trying hard to stop a leak in a water pipe with some paper he had torn from an old magazine.

"How does it work?" asked his wife.
 "Pretty well," said Jones; "it only drips periodically now."

Not His Honor.
 A well-known judge fell down a flight of stairs, recording his passage by a bump on every step until he reached the bottom. A servant ran to his assistance, and raising him up, said—"I hope your honor is not hurt!"

Benny's Note Book

Yesterday in school during logorrhy I rote a poem about Mary Watkins, this being it
 I know a beautiful maid age 7
 And her name is Mary Watkins
 She's so pretty she always looks grave
 And her name is Mary Watkins
 We thinking, G, I'll give it to her on the way home from school. Which I started to do, catching up to her about half way home, saying, its lucky we both live in the same direction, ain't it? And she said, Wy? And I said, I don't mean lucky, I mean pickular.
 Well, it may be pickular, sed Mary Watkins. Sounding like a loss of a compliment, and we kept on waiting, and after a while I sed, Do you want something?
 Meaning the poem, and she sed, Yes, wat?
 O something, I sed, And I started to recite in my inside pocket ware it was, thinking, G, she mite think its krazy, she mite laff like anything.
 And I started to pretend to look in my other pockets as if I thawt I couldnt find something, Mary Watkins saying, Wat? K, Benny, O Im dreadfully excited, wat are you going to give me? O, just a thing, I sed, And I started to take the different things out of my pockets thinking maybe I mite have something she I could give her and she mite think that was it, oay all I had was a long piece of string with knots in it, a long piece of string plain, a diffent seal cork, a cancelled Mexico stamp, a 6 marbles, 2 rubber bands and 2 cigar bands, thinking, Heck, goah, G. And I sed, You dont save cork, do you?
 Certainly not, my goodness, is that wat you were going to give me, sed Mary Watkins looking proud, and I sed, No, I should say not, I just asked you out of curiosity, And I kept on pretending to look, saying, Holey smoke! I must of lost it, it was a artificial butterfly with red wings and glass eyes.
 I dont believe it, sed Mary Watkins. And she wawked in her horse hawty and I kept on going home wishing I had gave her the poem.

DODD'S KIDNEY PILLS
 "No," said the judge, sternly, "my honor is not hurt, but my head is."
 There's Not to Answer Why. Attention, class in stenography! A gentleman is coming to pick out a bright and intelligent stenographer. And did the girls reach for their notebooks?
 No, they all reached for their powder puffs.
 Wanted to Be a Parson
 "And what dear little boy," asked the minister, "do you intend to do when you grow up?"
 "A farmer, sir."
 "Very good indeed! To supply the natural food—most good."
 "And you?" turning to the second.
 "Please, sir, a schoolmaster."
 "Even better! Filling the mind of the rising generation with mental food—yes, even better."
 "And you?" turning to the third.
 "A preacher, sir."
 "Very good indeed, my dear little boy, for filling the soul with spiritual food is far worthier than either filling the mind or body. And what bids you to become a minister?"
 "We always have chicken for dinner when you come, sir," replied the boy.

 Foot Fits
McROBBIE 50 King St. JOHN, N. B.

Old Age Deferred
 By Dr. LEE H. SMITH
 Business men who must speed up the works and make business boom during these days—after the war—must recognize the necessity of keeping fit. When mind is befogged, when you have dull headache or feel lory, when not "up to snuff," keep the bowels free with a mild laxative such as Dr. Pierce's Pleasant Pellets.
 If you wish to prevent old age coming on too soon, or if you want to increase your chances for a long life, you should drink plenty of soft (rain) or distilled water, daily between meals. Then procure at the drug store Dr. Pierce's An-uric (anti-uric acid). This "An-uric" drives the uric acid out and relieves headache and rheumatism, as well as kidney trouble. Anuric dissolves uric acid. Try it now!

SISTER OF LORD FRENCH SOON BE SINN FEIN ALLY

Mrs. Charlotte Despard to Take Active Part in Irish Politics.

POSSIBLY WILL RUN FOR PARLIAMENT

Her Championship Adds Picturesque Figure to Republican Movement.

By MARY HENKE
(Copyright 1921, by Public Ledger.)
London, April 15.—A picturesque figure will be added to the movement in Ireland when Mrs. Charlotte Despard, sister of Lord French, the Lord Lieutenant of Ireland, takes up her residence in Cork. Mrs. Despard will supervise the feeding of school children in Ireland and will take part in any political activities where she feels that she can be of service.

A stately old lady with snow-white hair and a sweet smile, Mrs. Despard is one of the most-loved women in Ireland. She has two of the most marked virtues of her country courage and a generous sympathy for the unfortunate. For years she has lived in London devoting her time to the poor of the city. Her home here is in a poor little street near a settlement supported by English benefactors. She is known as working men and women all over England. Her entrance at any public meeting is the signal for a demonstration.

Supports Sinn Fein
She states flatly that she is a Sinn Fein. Audiences over England are stirred to almost Irish enthusiasm by her recital of Irish history. She often tells how, although she was reared and educated in England, her love of the Irish people and knowledge of her own Irish origin led her to study the history of her country and to sympathize herself with the Sinn Fein movement when it was a literary and artistic movement headed by men like the poet Yeats and George Russell.

Her decision to take up her residence in Ireland resulted from her knowledge of the needs of the women and children there.

"Babies are being born on hill-sides and ditches," she declared, "young mothers and children are dying of exposure. The feeding of school children has been stopped, and the children are starving and underfed."

Mrs. Despard declares her conviction that in spite of the dangers and misery to which they have been subjected Irish women are as strongly rebels as their men.

"Women were elected at the last Sinn Fein elections," she said, "and more women will be elected at the next."

It is very probable that if the Sinn Fein decides to contest the elections to be held under the Home Rule Act Mrs. Despard will be one of the candidates.

Before large English audiences Mrs. Despard defends the activities of the Sinn Fein.

"The treatment of women in Ireland is making their men desperate. It is a human nature and it is man nature. If a crowd of men were withdrawn there would be absolute order in Ireland. What are called ambushes are episodes in guerrilla warfare."

"I am the last to defend murder, but the unjustified murders which have been carried out according to plan in Ireland are the work of desperate men driven into secret societies. They have absolutely nothing to do with the Sinn Fein."

Her relationship to the Irish viscerally gives her access to officials usually closed from the public. She had absolute proof, she said, of the innocence of the man Whelan who has hanged in Dublin, and she presented these proofs to Dublin Castle, but they were ignored.

At an interview which she quoted Sir Nevill McCready, in charge of the troops in Ireland, told her that he has absolutely no control over the "Black and Tans."

"PUTTING CANADA ON WHEELS" IS CONTEST SLOGAN

Willyu-Overland Limited Offers \$5,000 in Cash For Letters From Car Owners

Putting Canada on wheels. That's the keynote of a nation wide contest inaugurated by Willyu-Overland Limited, first to prove that the motor car is a positive necessity for the proper development of Canada as a progressive nation, and incidentally to stimulate the entire automotive industry.

It is a contest unique in the annals of the industry and is calculated to awaken Canada to her opportunities for advancement through the motor car and what it adds to personal and national efficiency.

It is a contest in which the public will have an intimate interest. Mr. Fleming, Overland dealer in St. John will furnish full particulars but here is the plan of the contest in a nutshell—

Willyu-Overland Limited offers \$5,000 in prizes for the best letters from owners of any make of automobile on "What my car means to me."

The judges to be influential Canadians.

Entry blanks for the contest can be secured from any Overland dealer. Winning letter to be published in one of Canada's leading magazines.

Contest to open April 16th, and to close on June 1st.

The letter need not be a literary masterpiece. The thought and clearness with which it deals with the subject will occupy first consideration by the judges.

The prizes will be divided as follows:

\$1,000 for the best letter.

\$500 each for the best letter from a farmer, a doctor, a commercial traveller and a woman motorist.

\$100 each to ten others, \$50 each to twenty others and \$25 each to forty others.

FUNERALS.

The funeral of Mrs. J. E. Kenney was held yesterday afternoon from the Union depot on the arrival of the Montreal train to the Good Shepherd cemetery. Service was conducted by Rev. W. H. Sampson.

The funeral of Edmund Hogan was held yesterday afternoon from 11 Frederick street to Fernhill. Service was conducted by Rev. R. P. McKim.

The funeral of William McCann was held yesterday morning from his parents' residence in Fern street to the new Catholic cemetery.

The funeral of Mrs. Elizabeth Heathfield was held yesterday afternoon from 193 Main street to Fernhill. Service was conducted by Rev. David Hutchinson, D.D.

The funeral of Edmund Hogan was held yesterday morning from 59 Brunswick street to the Cathedral. Requiem high mass was celebrated by Rev. Simon Oram assisted by Rev. Raymond McCarthy, deacon, and Rev. H. Ramnager, sub-deacon. Father Oram administered the final absolution. Interment was in the new Catholic cemetery.

OBITUARY.

Mrs. Hannah Holly.
Widespread regret was voiced about the city yesterday when it was learned that Mrs. Hannah Holly, 161 Douglas avenue, widow of Shadrach Holly, died during the morning.

Mrs. Holly was possessed of a kindly and loving disposition and was dearly loved by all who knew her. She was taken ill on Monday and yesterday lapsed into unconsciousness, passing peacefully away. She was eighty-eight years of age and leaves to mourn her death, Mrs. J. Walter Holly, and two daughters, Mrs. C. P. Sorrell, and Miss Marion Holly, all of this city. The funeral will be held on Sunday afternoon at 2:30 from her late residence.

Mrs. Ward S. Foster.
Grand Manan, N. B., April 15.—On Wednesday, 6th instant, Mrs. Mary Ann Urquhart passed away from the home in Seal Cove. Mrs. Foster had been in poor health for some months, but the end came very suddenly at last. Mrs. Foster was born at North Head, Grand Manan, 70 years ago. She was married to Mr. Foster 48 years ago. Three children were born to her, another, the wife of Mr. Clarence Chassee died a few years since. The only surviving child is Mrs. Orlando Joy of Seal Cove. At eleven years of age, Mrs. Foster became a member of the then Free Baptist Church at North Head and continued in that religion until her death. Almost her entire life was spent on Grand Manan, as her husband was a fisherman, and she will be kindly remembered. A sister, Mrs. Cannon, lived some years in Oranocoto. The funeral services, which were largely attended, were held on Thursday, 8th instant from the home in Seal Cove. They were conducted by Rev. S. Hilyard, assisted by David Forget.

Montreal, April 15.—David Forget, father of the late Sir Rodolphe Forget, died this morning, after a long illness. Mr. Forget, who was 81 years of age, was formerly one of the most distinguished members of the Montreal bar. Besides a widow, he leaves two daughters, Mrs. (Justine) D'Assis, and Mrs. Georges Boulanger.

Mrs. Mary Ann Urquhart.
Special to The Standard.
Grand Manan, N. B., April 15.—On Saturday, the 9th instant, Mrs. Mary Ann Urquhart passed away from the home of her daughter, Mrs. Coombs on Rose's Island, Grand Manan, aged 88 years. Mrs. Urquhart, whose family name was Zwicker, was born in Lunenburg County, N. S. She was twice married. First to Charles Dooley, with whom she lived for some years at North Range, Digby Co., N. S. About fifty years ago, with her husband, she came to Grand Manan, where she has resided ever since. After the death of her first husband, she became the wife of James Urquhart, who predeceased her. During the past three years Mrs. Urquhart was crippled and kindly cared for in the home of her daughter, Mrs. Coombs. She was a model of patience in her waiting for the last call. Besides Mrs. Coombs, two other daughters are Mrs. Mrs. Urquhart.

(Ladies' Underwear Department, 2nd Floor).

Minister Opposes N. B. Railroad

House is Told That Centre-ville-Andover Line Would Not Pay Expenses.

Ottawa, Ont., April 15.—Considerable discussion ensued in the House this afternoon on the second reading of the bill to authorize an extension of

tion of the road's value as a local system. It was important in order to link up the I. C. R. with the G. T. P. With this connecting link constructed, the section already built might earn a profit. Extensive pulp and paper mills were going up at Grand Falls, and perhaps the deficit was attributed to the fact that this important point was not served by the St. John and Quebec Railway.

"Babies are being born on hill-sides and ditches," she declared, "young mothers and children are dying of exposure. The feeding of school children has been stopped, and the children are starving and underfed."

Mrs. Despard declares her conviction that in spite of the dangers and misery to which they have been subjected Irish women are as strongly rebels as their men.

"Women were elected at the last Sinn Fein elections," she said, "and more women will be elected at the next."

It is very probable that if the Sinn Fein decides to contest the elections to be held under the Home Rule Act Mrs. Despard will be one of the candidates.

Before large English audiences Mrs. Despard defends the activities of the Sinn Fein.

"The treatment of women in Ireland is making their men desperate. It is a human nature and it is man nature. If a crowd of men were withdrawn there would be absolute order in Ireland. What are called ambushes are episodes in guerrilla warfare."

"I am the last to defend murder, but the unjustified murders which have been carried out according to plan in Ireland are the work of desperate men driven into secret societies. They have absolutely nothing to do with the Sinn Fein."

Her relationship to the Irish viscerally gives her access to officials usually closed from the public. She had absolute proof, she said, of the innocence of the man Whelan who has hanged in Dublin, and she presented these proofs to Dublin Castle, but they were ignored.

At an interview which she quoted Sir Nevill McCready, in charge of the troops in Ireland, told her that he has absolutely no control over the "Black and Tans."

"Good health is not a luxury; it is a duty."
N. B. Health Week, April 24-30.

HUDSON

Not Enough Hudsons

Hudson shortage is a fact. Buyers know it. Instead of immediate deliveries an increasing number find they must wait.

Total stocks of Hudsons, everywhere in the country, average less than two cars per dealer.

Our own spring demand must be met from such small stocks as we had the foresight to get during the slack season past.

Note What You Save

Now we see better than ever before what hold Hudson quality has among motor car users.

The present market is selective. Hence the emphasis of Hudson value. Its cost advantage gives \$1000 or more saving against any car to which you compare Hudson quality, reliability and performance.

Perhaps you hold Hudson the greatest of all cars. Surely, in many respects, you acknowledge this is so.

For instance the Super-Six motor. It is exclusive to Hudson. For five years it has been the master type. No other has been developed to match its efficiency and endurance. It practically annuls vibration. The smoothness which results is appreciated not only in riding ease. It means absence of strain, and friction. Repair freedom and a long life car results. It accounts for Hudson's five years of sales leadership.

And if you plan to buy soon, bear in mind that deliveries are already difficult and stocks must be even more limited as the season progresses.

SUPER-SIX

TO AMEND MINE ACT.

Halifax, N. S., April 15.—During the brief session of the legislature today, Purman Way, (Labor, Cape Breton) introduced a bill to amend the Coal Mines Regulation Act. The bill proposes that deputy inspectors shall be elected by a referendum vote of the men employed in the mines underground. Another clause proposes the introduction of an eight hour day in the collieries and provides a penalty for any person who pays, or receives payment for work performed in excess of eight hours.

VIVIANI GOING HOME.

Washington, April 15.—The mission of Rene Viviani, envoy extraordinary of France to the United States, was officially brought to a close today with his paying final respect to President Harding at the White House and to Secretary of State Hughes at the State Department. M. Viviani will sail for France from New York next week.

Thankful Mothers

Once a mother has used Baby's Own Tablets for her little ones she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N. S., who writes: "I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the home. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break colds and simple fevers; make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont."

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it after its use for over 30 years has not proven.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

PARLOR MEETING HELD BY W. C. T. U.

Programme of Music and Addresses Enjoyed at Residence of Mrs. E. S. Hennigar

A successful and largely attended parlor meeting was held by the W. C. T. U. at the home of Mrs. E. S. Hennigar, 26 Orange Street, Mrs. David Hill, Provincial president presided. After the recital of the Shepherd's Psalm, Mrs. Seymour led in prayer. Mrs. Charles Morgan was pianist. The programme included violin solos by Harrison Morgan, accompanied by Mrs. Morgan. Reading, Miss Nea Powers; reading, Mrs. Seymour; reading, Mrs. Hansacker; reading, Mrs. Popham; reading, Mrs. Seymour.

A very interesting talk on her work was given by Miss Sutherland, nurse for the Association for the Prevention of Tuberculosis which was listened to with closest attention by those present. Miss Sutherland told of the need for such work and of many cases which have been helped. She asked for 4 or 5 one bottle to be given to her. Co-operation was assured. One new member, Mrs. McTavish was welcomed. At the close of the programme refreshments were served by the hostess. A vote of thanks for kind hospitality was passed.

Women exceed the men in England and Wales by more than 2,000,000.

BONNIE DOONS HELP INSTRUMENT FUND

Give Their Recent Success in Aid of St. Mary's Band—Good Sum Realized.

The "Bonnie Doons" Club of Knox Church presented their success "Twelve Old Males" in St. Mary's school last evening for the benefit of the instrument fund of St. Mary's Band. The house was crowded and a good sum of money was realized from the affair. The band favored the audience with several selections. In addition to the skill by the "Bonnie Doons" the following programme was rendered: Head, Miss Rose; piano solo, Miss Rita McWilliam; musical number, Misses Harrison and Cauton; club swinging, Miss C. Cox; reading, Mrs. McArthur.

OLD COUNTRY CLUB
A box social and dance which proved most successful was held in the Grange Hall, Germain street, last night under the auspices of the Old Country Club. Many men from the ships in port availed themselves of the opportunity to meet their friends from the old land and make other friends. The sale of boxes realized nearly twenty dollars and Jack Honey proved a first-class auctioneer. Songs were rendered by Miss Richmond, Miss Colner, Mr. Findle, and Mr. Johnston. Miss Richmond delighted with a violin selection. Miss Colner, Wallace Brindle and E. Findle were the accompanists. The gathering closed with the singing of the National Anthem.

MILLIDGEVILLE OUTING CLUB BALL

Programme of Nineteen Dances Enjoyed at Pythian Castle Last Night.

A very delightful Spring ball was held last evening by the Millidgeville Outing Club at the Knights of Pythian Castle. A programme of nineteen dances was enjoyed from nine o'clock until two. Davidson's orchestra supplied music. Several hundred people were present. Guests were received by the President, J. Fraser Gregory and Mrs. Gregory and Mrs. F. E. Williams. The success of the affair was largely due to the efforts of the general convener Mrs. W. H. Turner.

PRIZE WINNERS
The "Prestige Boys Fair" enjoyed another large attendance last night. The following were the prize winners: Doves prize, automobile dish, Chas Dyke; man; best gun, shaving set, Roy May; weather; bean loss, silver pickle dish, Roy McDevour; ring toss, electric lighting lamp, B. O'Leary; basketball, half dozen aprons, Hilton Belyea; bowling alley, silver dish, Robert Fox; air gun, fishing rod, John Cae.

Schooner Bluenose Given Trial Spin

Lansburg, N. B., April 15.—The schooner Bluenose, one of Nova Scotia's cup challengers, with a large number of ladies and gentlemen on board, was given a trial spin this afternoon. The wind was rather light for a power trial of speed, but one thing is proven—Bluenose is very fast on the wind. On the way back the schooner proved very satisfactory, making with fair wind. On the outward run she led in with two schooners, and while boating to windward they were cancelled on every tack.

Vocational Class Work Exhibited

Examples Shown in Different Lines Highly Praised—Addresses Given in Evening.

An exhibition of much good work accomplished by members of the Vocational classes was opened yesterday afternoon and was visited by a number of those interested. Examples were shown of fine sewing on blouses, dresses and skirts, as well as examples of difficult parts of dressmaking such as making a placket and putting in a pocket. Much fine hand work was to be seen on the wists. The hats were in many varieties, a well made. In another room, the products of domestic science teaching were displayed in an educational way, giving the food values and what constitutes a well-balanced meal. These were most attractively set forth accompanied by tables of calories and vitamins.

Around this room were good examples of the art of sewing, charts and sound elementary mechanical drawing. The black board drawings illustrating lessons of thrift were much admired. Miss Fletcher was the artist. Mrs. A. Milligan was general supervisor, assisted by Miss Belle Kingston, Miss Mullin, and Mrs. Blaine in the dressmaking branch. Mrs. Satchell and Mrs. Murphy in the millinery branch. Mrs. J. M. Magee was in charge of the domestic science room.

Evening Meeting.
Last evening the chair was occupied by Dr. A. F. Emery, who spoke of his pleasure in seeing such a large attendance and told of his hopes for the future success of the classes. With Dr. Emery on the platform were Dr. Bridges, Dr. W. S. Carter, Fletcher Peacock, K. E. Armstrong, Haxschfeld, Major Lawson, Mrs. W. J. Edmund Raymond, Mrs. Richard O'Brien, Miss Haslam, Mrs. Millikan, Miss Barnett and Alexander Wilson.

Dr. W. S. Carter.
Dr. W. S. Carter was the next speaker. He referred to the manual training and domestic science taught in the public school system. What St. John had hoped to do in the vocational classes he thought would influence the province. Haste should be made. Trade schools are what is required and he hoped that, later day classes might be formed. A building is certainly needed.

Dr. Bridges.
Dr. Bridges praised the work accomplished and agreed with Dr. Carter in regard to trade schools. Fletcher Peacock praised the work done in St. John and brought to the assembly the reports of Fred Magee, who had visited the matter of vocational education should open up avenues of training hitherto denied people.

Miss Barnett.
Miss Barnett, provincial supervisor of domestic science, gave an exact definition of home making, pointing out what those classes teach and the value of such instruction. The home is the centre of the nation and all that tends to make better homes is for the good of the country and its people. The large proportion of students are taking the home making classes in St. John and this percentage is the same elsewhere.

Mayor Schofield.
Mayor Schofield said that it must be remembered that governing bodies sometimes had to come to a decision which might not be their own personal opinion. In regard to the financial situation of vocational schools it is merely a question of how much money the people of the city are willing to be taxed for such schools. The School Board has stated that two new schools are necessary; the vocational board is said to need a large sum to carry on. That means additional tax on the tax payer. In the present business condition he thought it would be reasonable enough to see that it is not possible to ask for larger taxes.

Major Lawson.
Major Lawson, supervisor, reported attendance as 90 per cent. women; 40 per cent. men; 730 enrolled; 450 classes at a cost of \$6,000.17. A portion of this sum being returned by grant. The city will have to pay only \$3,000. Boys and girls under sixteen may not attend. The average age for men is 24 years; for women 26. If \$6,000 is granted the classes can be carried on. If \$10,000, better classes can be arranged, and if \$25,000 small day schools could be started.

ONE LEGS DRUNK
One drunk and two prostitutes were arrested at the police station last night.

MRS. SOLOMON SAYS:

By HELEN ROWLAND
(Copyright, 1920, by The Wheeler Syndicate, Inc.)
Being the Confessions of the Seventh-Hundredth Wife.

My daughter, in the dimming lobby of a great apartment-house re-embodied the data within, so doth Courtship resemble Matrimony. Yes, it is exceeding deceiving. Behold, when a youth wooeth a damsel, he saith: "Beloved, thy cheek is as the rose of dawn, and thy lips are twin pomegranates. But when thou art MINE, thou shalt do nought save what pleaseth thee, and the days of thy 'savings' shall be over forever. For, thy wish shall be my law!" But in his heart, he saith: "Yet, when we are married, I shall care her of roughing; and from that vile lipstick, shall I wear her. Yes, from all these 'advanced ideas' shall I rescue her; and the wild women with whom she now consorts, she shall see no more. For MY friends shall be her friends, and my ways shall be her ways. 'Thou shalt I domesticate her and remodel her according to mine own ideas.' Likewise, when a damsel seeketh to win the heart of a man, she saith: "How wonderful are thy judgments above all other men's, and thy ways, how ORIGINAL! How stunning thou lookest in thy new checked suit, and WHEREIN didst thou get that adorable tie? I pray thee, be not foppish, but take out thy pipe and smoke it for I love it! Yes, this, my dear, thy comfort shall be my first thought, and thy bachelor friends shall come to dinner EVERY night!" But in her heart, she saith: "Go to! When I have him safe, my first action shall be to clean that evil smoking pipe! And as for that vile necktie and that checkered nightgown, I shall bestow them upon the janitor; and each evening he shall don a dinner-coat. Those wild bachelors with whom he consorts, he shall cast out, forever; for they are not good for him! 'Thou shalt I break him to doublecharms!' Thus shall I break his heart, in the hours of peaceful wooing do they prepare for battle! Thus do they talk of disarming, while they polish their weapons. Even while he praiseth her style, doth he resolve that she shall be more economical. Even while she lighteth his merchandise doth she determine that he shall renounce it. For, every woman thinketh to remodel a man, once she hath GOT him; and every man cheerfully expecteth to transform a lady creation into a mutual SURRENDER."

Why, then, do they heat their breasts and complain that marriage is a mutual SURRENDER?
Behold!

Public Health Week Programme Ready

Opens at Imperial Theatre in This City on Sunday Afternoon, April 24th.

The programme for New Brunswick's Health Week Campaign has been completed and arrangements made for the drive to be carried out throughout the Province beginning April 24th. Public meetings will be held in all of the larger centres and there will be at least two meetings in each place addressed by leaders in Health work. The campaign opens in St. John on the afternoon of Sunday, April 24th, at 2:45 p.m. in the Imperial Theatre. This meeting will be under the patronage of His Honor the Lieutenant Governor and Mrs. Pugsley, Lieut. Governor Pugsley presiding. The meeting will be addressed by Dr. George E. Vassell, New York City, President, Rockefeller Foundation International Health Board. Dr. Royer Halifax, representative Massachusetts Health Commission, will also be one of the speakers. Dr. Royer will also address the Rotary Club at their noon luncheon on Monday the 26th.

Second Meeting.
A second public meeting will be held on Friday April 30th, at the Board of Trade rooms, to be addressed by Dr. George Porter, Dr. C. M. Hines and Dr. Gordon Bates, all of Toronto.

PROVINCIAL CHAPTER ANNUAL ON TUESDAY
The Provincial Chapter of New Brunswick, I. O. E. will hold its annual meeting at Fredericton on Tuesday April 19th. The programme is as follows:
10:00 a.m.—Formal opening, Regis-

Mrs. Ralph Smith Speaks in Hamilton

Says Woman Franchise Has Resulted in More Advanced Legislation.

Hamilton, Ont., April 15.—Hon. Mrs. Ralph Smith, of Vancouver, speaker of the British Columbia legislature, gave an address here last night to the local Council of Women and a number of societies affiliated with the local council.

Speaking of the "mother's pensions" act in British Columbia, Mrs. Smith stated that the bill had been opposed by a few women who had no sympathy with the unmarried mother and had objected to her being brought under the provisions of the act.

"We in British Columbia," she said, "feel that the age-old moral code that would have the state separate the unmarried mother from her child, and brand them both, is all wrong."

Hon. Mrs. Smith's address to women in British Columbia has been given the franchise more progressive legislation had been placed on the statute books of that province than in all the countries.

Minutes of last Annual Meeting, Provincial and Primary Reports.
12:00 a.m.—Election of Councilors.
2:30 p.m.—General Business.
8:00 p.m.—Election of Officers.
A number of delegates from St. John and other cities of the Province will attend.

THRILLING ACTION ALL THE TIME!

"Desert Gold" has lost nothing in its translation from narrative English to the silent language of the screen. If anything it has gained, for all of the wonderful country so vividly depicted by Zane Grey in his book is brought before motion picture audiences. The romance is enacted by an all-star cast, including E. K. Lincoln, Marguerite Wilson, Edward Cogen, Ellen Percy, W. Lawson Butts, Russell Simpson, W. Herbert Baldwin, Frank Lanning and Walter Long. Proving themselves true artists, the players have submerged their own personalities to give faithful portrayals of the characters in the wonderful desert story.

Weekly Ch...

My Dear Chum—

Of course I don't see all that this is house-cleaning and dusting. I don't see that the house is clean. Probably there are, or so many evidences all about indoor cleaning, and I do any of the little jobs like to better than the others. I should like to see things or and kept in their proper all the unnecessary things especially dust and dirt which accumulated—and as these not discard themselves it up to some one to do it. There aren't so many good to eat as usual. Rooms are upset and not valuable to rest in. Just say "It must be, so let's make it." That would help much more than complaining and at the many discomforts, be are a great many little things do to help and thus hasten social state of affairs. I think of the cleaning which sary in many of the little minds of many of you—many words which kiddies and not tossing in his pants, either in slang or general talking which so fixed in their vocabulary, are cleaned up and thrown a one answer with pl when called, and children such an unfinished and How much nicer and more "What, mother?" or "Y sounds when you are called, and if by their name could be used e Mary" or "No Mr. Mary" is one kind of cleaning-up without causing any turbulence to anyone—our

Then there are little ma the acts which parents have been endeavoring to for a long time, and you forget. What does look boy meeting a lady or girl and not tossing his cap, down in a room or pub which ladies are standing is the need for more cleaning-up—our manner habits which grow and in ourselves before we they have begun. I could name over the healthy the young as well as the I can tell you that the easier dropped while you than they are later in li all this cleaning-up time I have a pee in the loo out all the good and lo equity—you will know the bad habits, well jus and pretend that they had ed up with the other. I return again and you will ce line of cleaning-up. Then the heart must f too, and if well cleaned up will be more frequen frown. How easy it is to to green. Why some lit girls can frown and grun it rains some days. I know them to actually thinking of course that use the rains to do r so cleaning. It washes and other buffings, treat the air we breathe purer if the rain did not com Mother Nature provide a green carpet which we much and keep to see on the pretty green dresses. So many letters from d girls show me that they all the changes which outdoor world. But the I would have you do. Heaps of love, from

THREE OAKS The Gadabout Kitten

By Abigail Burton.

When little Jane's grandmother was a little lass herself and lived with her grandmother in the country...

There was always a great bustle of preparation among the families that were to entertain the visiting friends...

As soon as Jane heard, one spring, that quarterly meeting was to be held in Baltimore she begged to go...

"I wonder what Midget will think of the city," she said to herself. But when she spoke of taking the kitten to Baltimore...

"Certainly not!" going to the store under Jane's arm was one thing, but going to quarterly meeting was quite another...

Jane tried to take her disappointment cheerfully, but it did seem hard that when she was about to start she could not find Midget anywhere...

The journey was exciting. Jane enjoyed every moment of it. First there was the drive to the station...

In a little while grandmother and Aunt Mary opened the luncheon boxes and spread out fried chicken and oaks...

After that Jane cried up and tried to count the oaks that whizzed by. The oaks looked misty and queer...

"O Sarah!" Jane cried when they were all unpacking their baggage at the little town. "These oaks are Midget!"

"That's not the matter. And then there were her head rolled over against the back of the plush seat..."

"So little Jane smiled. She untied the largest bundle. But the instant she put her hand under the lid she drew it back with a shrill little cry..."

"What animal can save my calf?" said the cow. "None but man can kill the eagle," said the hawk...

"Save my beautiful calf for me," said the cow to the man, "and I shall be your slave for life..."

Being a stone, the man asked the hawk to ride him on his back until the eagle was overtaken...

And since then the cow has kept her word to man and has saved the lives of many human beings with her milk and meat.

THE WAMPUS CAT TELLS WHY THE COW IS THE FRIEND OF MAN.

(Copyright, 1920. All Rights Reserved by United Feature Syndicate.)

The cow which gives us milk, was once wild and was not the milk food of man...

So it happened that this cow, which was named Ned Hooze, because of her beautiful color...

And one day the calf did not come back at feeding time and the mother cow was much worried...

Then the cow went for the hawk who was deemed the most bird of the forest...

"What animal can save my calf?" said the cow. "None but man can kill the eagle," said the hawk...

"Save my beautiful calf for me," said the cow to the man, "and I shall be your slave for life..."

Being a stone, the man asked the hawk to ride him on his back until the eagle was overtaken...

And since then the cow has kept her word to man and has saved the lives of many human beings with her milk and meat.

CAN YOU ANSWER?

Where can a man buy a esp for his knee? Or a key to the lock of his hair?

Can his eyes be called an academy because there are pupils there? What games are found? Who travels the bridge of his nose?

Can he use, when shingling the roof of his house, The nails on the ends of his toes? Can the crook of his elbow be sent to jail?

If so, what did he do? How does he shapen his shoulder blades? I'll be hanged if I know, do you? Can he sit in the shade of the palm of his hand?

Or beat on the drum of his ear? Does the calf of his leg eat the corn on his nose? If so, why not grow corn on the ear?

THE EVENING STAR Bed-time, story-time. Star-time too. In the heavens far away, Winking to you;

Evening-time, glowing-time. The time that I love best— I, in my bed, The birdies in their nest.

—Grace Hudson, age 11 years.

"Yes, Ma'am." Teacher—"What liquid will not freeze?" Pupil—"Hot water."

the calf to his nest, and the man let go his stone and struck the eagle in the head and the eagle fell into a lake which was very deep, but not very large and the calf swam to the land and the man and the hawk led it back to its mother.

Domestic Science Teacher: "How can you improve the work of the Cooking class?" Man: "Make them eat what they cook."

A Regular Saturday Page for the Kiddies

Puzzles

1. The first letter. 2. Unstable. 3. A spring month. 4. Northwest. 5. A consonant.

2-Arithmetical Puzzles. 1. Divide 36 into two parts, that one will be five-eighths of the other.

3-Riddles. What is always behind time? What grows less tired the more it is worked?

4-Bird Puzzle. There is a bird hidden in each one of these words: 1. Walewo; 2. Harthu; 3. Npolice;

5-Old Man Puzzle. L O N G O _ _ _ N _ _ _ G _ _ _ W

6-Riddle-Me-Rec. Why do British soldiers never run away? Ans.—Because they belong to a standing army.

7-Why do the swells of the ocean. Why do a horse look over a wall the more it can't see through it?

8-Why did the samurai roll? Ans.—Because it saw the apple turn over.

ANSWERS TO PUZZLES

1-Acrostic. A P R I L T I E L

2-Arithmetical Puzzles. Answers to first—15 and 21. Answers to second—3.

3-Riddles. 1. The back of a watch is always behind time. 2. A carriage wheel grows less tired the more it is worked. 3. Seat-out.

4-Bird Puzzle. 1. Swallow; 2. Thrush; 3. Pigeon; 4. Quail; 5. Sparrow; 6. Canary.

5-Old Man Puzzle. L O N G O Y E R N E R O W

6-Riddle-Me-Rec. As most people are aware, it is possible to tell the age of a horse by examining its teeth.

The age of a sheep may be known in a similar manner—that is, by its teeth. The number of years a cow has lived is found by a different method.

The age of many birds can be discovered by examining the spurs. Trees often live to a very great age, and while they are standing it is a difficult matter to arrive at the age of these; but when they have been cut down the age of the tree may be reckoned by counting the number of rings visible in the section.

It is a comparatively easy matter to learn the age of growing mistletoe, as each shoot sends off two new shoots each year, and by counting the joints from root to tip of any branch, the number of years the mistletoe has lived may be computed.

New Members

again we have a number of new friends joining our jolly Children's Corner, and I am certain you all join me in extending to these a very cordial welcome.

Arnold Bond, Granville Centre. Stanley Reed, City. Winifred Nye, City.

Phyllis Fitzmaurice, Campbellton. Arthur McCloskey, City. Ray McLean, E. Florenceville.

Helen Somerville, Bristol. Harbor Jean Scamper, E. Florenceville. Douglas Straight, Cambridge.

Margaret W. Colpitts, Grand Bay. W. Ian Derral, Glassville.

DOG STORIES.

Not Very Brave. My grandpa has a funny fat dog named Fritz. According to Fritz Fritz is very brave. He likes to growl at cats and chase them down the street and up the trees.

I have a big cat named Asa. As a street cat don't say much, but Asa says less. He is a quiet cat and does not like to be bothered.

Every once in a while Fritz has been coming over to our house. He used to growl at Asa. For quite awhile Asa tried to avoid him. Fritz thought Asa was afraid of him, and so he grew more and more overbearing.

But one day a few weeks ago, Fritz went out for Asa. Asa had a raw-meat temper that day. Fritz started to nag as usual. Asa flew at him, and the way he fought that dog, it happened so quickly that we couldn't save poor Fritz. In an instant he was tearing through the parlor yelling, with Asa clinging onto his back and scratching furiously.

It was a long time before Fritz would come back. One day he did. We managed to coax him into the house. He was very suspicious, but when Asa could be seen now, he was contented to enter. Suddenly Asa glided into the same room.

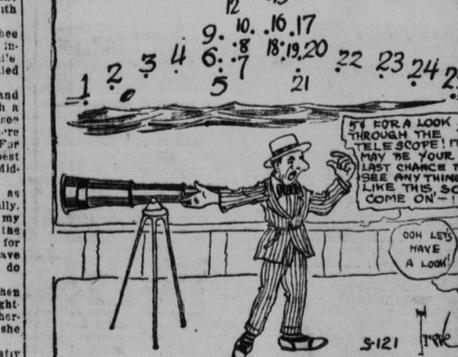

Did Fritz run? Not he. He just turned over on his back, stuck his four feet straight up in the air, and howled.

Daddy, do you love me very much? Daddy (a widower): Why, sonny boy, of course I do.

Then please marry the lady that sells the tickets for the Star Movies.

"I thought you said you earned \$40 a week." "I said I earned that much, but I got only \$10."

BEDTIME PICTURE PICTURES

NOT so long ago little Benjie and his sister were taken to the seashore by their parents for a little visit. While going along the boardwalk one afternoon the kiddies were much interested in a man with a telescope who was charging 5 cents to look through it over the ocean. The kiddies were just willing to hold them up as they could see and as they followed the dots you'll get an idea of what the children looked at, way out at sea.

Ed. Geers Is Real Leader

Veteran Horseman Has Piloted Six Pacers to World's Records.

Chicago, April 15.—Ed. Geers stands at the top of the list of drivers who have made two or more world's records with pacers. He has six to his credit. Four of them were made by Robert J. and one each by Hal Foster and Brown Hal.

In 1892 after the appearance of the like sulky, Geers reduced the world's record with Hal Foster to 2:05 1/4 over Washington park, Chicago, and gave Robert J. a 4-year-old record of 2:09 3/4 in a race. "Pop" started to fame as a pacer record maker was a world's mark at Cleveland in 1895, when he won the free-for-all with Brown Hal, the Tennessee stallion, in 2:12 1/2.

No changes were made in the pacer records in 1920. They are as follows:—
World and stallion record—Dan Patch, 1:56 1/4, made in 1906.
Yearling—Frank Perry, 2:14, made in 1911.
2-year-old—Direct the Work, 2:06, made in 1917.
3-year-old—Anna Bradford, 2:00 3/4, made in 1914.
4-year-old—William, 2:03, made in 1915.

Baseball Results of Big Leagues

AMERICAN LEAGUE

Chicago, 3; Detroit, 2.
Detroit, April 15.—Chicago avenged the count with Detroit today, winning 3 to 2. Faber was strong in the pitcher's box and received good support. Rube's wildness gave Chicago one run in the first inning, while the bunching of two singles and a two-base hit resulted in two more in the third. The score:
Chicago.....183,000,000 R H E
Detroit.....194,000,010 2 1 1
Faber and Schatz; Ehms, Middleton and Bauser.

Washington, 7; Boston, 1.
Washington, April 15.—Erickson was effective at all stages today and Washington defeated Boston 7 to 1. Rice and Ghartry made home runs, the latter's off Fullerton in the eighth with a man on base.
R. H. E.
Boston.....000,010,000 1 1 3
Washington.....100,400,022—7 1 3
Rush, Fullerton and Ruel; Erickson and Ghartry.

Cleveland, 10; St. Louis, 4.
St. Louis, April 15.—Cleveland made it two in a row today by defeating St. Louis 10 to 4. The champions drove Davis and Berne from the box. The locals bunched six hits with two errors in the first inning and scored, but thereafter were helpless before Bagley. The score:
R. H. E.
Cleveland.....020,012,292—3 14 7
St. Louis.....400,000,000—4 12 4
Bagley and O'Neill; Davis, Bayne, Boehler and Severid.

Postponed Game
Philadelphia-New York postponed, rain.

NATIONAL LEAGUE

Boston, April 15.—In a free hitting game, interrupted by showers, Boston defeated Brooklyn 6 to 3, in ten innings today. Miljus passed Ford with one out in the last of the ninth, forcing in Southworth with the winning run. Powell tripled twice, and Nicholson, who hit safely each of the four times up yesterday hit safely his first three times up today. Myers held on emotionally. Scott was hit hard, but had good support in the pitcher's box. The score:
R. H. E.
Brooklyn.....110,100,200—0 11 7
Boston.....100,051,000—6 11 4
Smith, Mameux, Miljus and Krimmer, Scott and O'Neill.

Pittsburgh, 3; Cincinnati, 1.
Cincinnati, April 15.—Poor playing by Cincinnati in the eighth inning today permitted Pittsburgh to score three runs and a 3 to 1 victory. Rixey pitched well and Hamilton was saved repeatedly by his support. Outfielder See of the Reds is in a local hospital with blood poisoning of the left arm. The score:
R. H. E.
Pittsburgh.....000,000,020—3 11 7
Cincinnati.....000,000,100—1 4 4
Hamilton, Yellowhorse and Schmidt; Rixey, Napier and Hargrave.

Chicago, 11; St. Louis, 4.
Chicago, April 15.—A seventh inning rally by Chicago in which Evers and Kirtcher were driven off the mound enabled the locals to come from behind and make it two straight from St. Louis, 11 to 4. The score:
R. H. E.
St. Louis.....400,000,000—4 9 3
Chicago.....100,002,523—11 13 9
Dillhoefer, Clemens, Martin, York and O'Farrell.

Postponed Game
New York-Philadelphia postponed, rain.

Motes and Beans.
"Aunt's people quest" (series 2). "A married friend buttonholed me this morning and poured into my ear a choice bit of scandal. 'Don't do it,' he says furiously, 'Bob's a saint. I'm certainly not,' I said. 'But how did you happen to hear it?' 'Oh, the wife, of course,' he answered. 'She's just like all women. They're just like all women.' 'That's a secret,' I said. 'But you'll see it in the paper.'"

New York A. C. Plans Big Rowing Season

James Wray, Famous Coach, Has Big Squad at Work on Machines.

The New York Athletic Club, which previous to the war was an important factor in amateur rowing circles, threatens once more to regain its former prominence. The first programme is the securing of the services of James Wray, the famous Australian sculler, better known to Americans as the coach of the Harvard crew, who has reported to Coach Wray, who has the men working on the rowing machines at the city clubhouse, and he expects to have the men on the water about the middle of this month.

The rowing committee of the club has outlined a complete programme for the season and expects to have entries in all the regattas in the East, including the National Regatta at Buffalo. This ambitious programme is being carried out with the most diligent and enthusiastically to bring about a revival of rowing in the "Empire City" organization.

The Fifty-ninth street club, with its country home at Travers Island, probably has better facilities for the development of rowing than any other club in the country. With Jim Wray at the helm they expect to equal the success of the crews handled by E. J. Gissinard, the former physical director of the New York A. C. Some of the rowing champions who formerly sported the winged foot have responded to the call for candidates. Tom Roney won three championships in a single shell at Duluth in 1916, is working faithfully to regain his former condition.

Dempsey Will Start Training Next Month

Is Afraid of Going Stale Says Jack Kearns, the Champion's Manager.

New York, April 15.—Jack Dempsey will not start training for the big battle until the middle of May, according to Jack Kearns, his manager. The champion will continue doing theoretical work with a little light training on the side until six weeks before he meets Caporusso.

Ross' Employees Granted Licenses

New York, April 15.—The stewards of the New York Jockey Club have granted licenses to two of J. E. L. Ross' employees, Louis Tamber and Frank M. Miller, it was announced today.

After meeting of the stewards yesterday it was said that Mr. Ross' employees would be welcomed on the Metropolitan tracks if Carroll Shilling, his suspended jockey and Guy Bedwell, his trainer, who was recently denied a license as agent, were banished from his stable.

The appointment of Miller is likely to end the row in Maryland between the state commission and the Pimlico track, says the New York Herald today. It also will tend to prevent a break between the New York and Maryland authorities.

"Bedwell has announced," continues the Herald, "that he would like to see Miller get a license to train the horses Mr. Ross will campaign on the New York tracks. With this desire accomplished it is likely he will step down and make no attempt to handle any horses in the state. It is also likely he will not visit any of the New York courses this season."

Not Sure Himself
Mrs. De Fashion (at a children's party): "Marie?"
Nursing: "Yes, ma'am."
Mrs. De Fashion: "It's time for us to go home. Which of these children mine?"
Pearson's Weekly.

THE MAYOR'S ACTION

To Sporting Editor,
Dear Sir:
In a recent issue of The Standard an article appeared to the effect that Mayor Schofield had placed a ban on all further boxing exhibitions in this city. His action, it was explained, was largely due to the fact that a private club recently pulled off an altogether unannounced bout, which resulted in the suspension of fourteen of the city's clearest young boxers.

The club in question referred to is the New Brunswick Athletic Association, which was recently organized for the sole purpose of promoting good clean sport in this city. The charter members comprise some of the best known sport enthusiasts in the city, who took such pride in their home town that they were willing to spend money to further interest in all athletic endeavors. One of their hobbies was to revive boxing and with this in view they secured a physical instructor, Frankie Burns, and out of their own pocket paid him a salary to teach any boy in the city, who so desired, the art of self-defense. They had ambitions of developing good enough talent to compete in championship events throughout Canada and the United States and were willing to meet all expenses thus incurred. They had no desire to make a money proposition and when they interviewed His Worship regarding receiving a license they promised that every cent over and above actual working expenses would be handed over to him to be devoted to any charitable purpose he deemed worthy.

This goal of the new organization has been shattered by Mayor Schofield's ultimatum. They acted in good faith in holding the recent bouts, considering that it was not open to the public, but merely an exhibition among their instructor's pupils. Only members and prospective members were admitted on the night in question, and one member alone received upwards of fifty enthusiasts desiring to see the bouts as their names had not been submitted to the directors as prospective members. There were no prize awards, no decisions rendered, and during the various contests instructor Burns frequently stopped the boys to point out where they were in the order that their ambitions might be realized. They feel that it is all over now and their puny efforts have gone for naught.

About a month ago they held a formal opening at which Mayor Schofield and the Commissioners were invited to attend. There were a number of young athletes on the bill and all had been examined by a physician before stepping into the ring. In addition the boys were wearing ten ounce gloves, the largest that were in use in the city, and thus do their bit to place St. John on the sporting map. The members are out a large sum of money, but they were only too willing to invest it in order that their ambitions might be realized. They feel that it is all over now and their puny efforts have gone for naught.

Mr. and Mrs. Dill Passed Nipigon

Port Arthur, Ont., April 15.—Mr. and Mrs. Dill, pedestrians crossing the continent from Halifax have passed Nipigon. They made the distance in two days better time than the made hikers preceding them by a few days.

Canadian Amateur Championships

Toronto, April 15.—It is expected that well known boxers from Ottawa and from cities in the Western and Maritime Provinces of Canada will participate next week in the Canadian amateur boxing championships, which are to be held at the Toronto hotel. Charlie Jenkinson, the Toronto boxer who won the United States welterweight title at Boston this week will be one of the contestants.

A misrepresentation of sincere motives has caused a further set-back in sport, which is to be deplored. Thanking you, Mr. Editor, I remain sincerely yours,
A MEMBER.

"Disease riots where sunshine is absent."
N. B. Health Week, April 24-30.

Merry War Promised In Racing Circles

Maryland Commission Represents Action of N. Y. in Barring Bedwell and Shilling.

Baltimore, April 15.—Notification to Commissioner J. K. L. Ross, from all New York tracks that entries from his stables will be refused if H. Guy Bedwell, Ross' trainer, or ex-Jockey Carroll Shilling, are directly or indirectly connected with the same, has precipitated a turf crisis here.

This action, in identical letters, is taken to mean that Bedwell, recognized here by the Maryland Racing Commission, must be dropped from Ross' employ if the Canadian turfman wants to run horses in New York. The Maryland commission, resenting this lack of reciprocity, evidenced in the refusal to accept the recognition of Bedwell, indicates that it may take retaliatory measures. Appointment of a third and deciding member of the commission by Governor Ritchie will force the issue here. Bedwell, according to his counsel, is considering suit against August Belmont and other New York track officials, for damages, he claims, in done him by the New York track's action.

Strike Cancels All Racing Schedules

London, April 15.—Owing to the labor situation the stewards of the Jockey Club, on request of the government, have cancelled all race meetings, including this week's important meeting at Newmarket, turf headquarters.

It is understood that the football fixtures, which include the final of the football cup between Tottenham Hotspur and Wolverhampton Wanderers, April 23, will be pulled off as scheduled, unless the government steps in with a veto.

Mr. and Mrs. Dill Passed Nipigon

Port Arthur, Ont., April 15.—Mr. and Mrs. Dill, pedestrians crossing the continent from Halifax have passed Nipigon. They made the distance in two days better time than the made hikers preceding them by a few days.

Canadian Amateur Championships

Jack Dempsey In New York

Will Commence Training for His Contest With Georges Carpentier on July 2.

New York, April 15.—Heavy weight champion Jack Dempsey arrived here today from the West to begin training for his contest with Georges Carpentier in New Jersey July 2.

Dempsey stated that he weighed 191 pounds and would start active preparations for the bout as soon as the definite date of the match was announced. He will lead up to this work by spending the next two weeks at the home of Freddie Welsh, where he will play golf and do light outdoor training including long walks.

N. S. BASEBALL LEAGUE.

Amherst, N. S., April 15.—The northern section of the Nova Scotia provincial baseball league, with teams entered from Amherst, Joggins and Springhill, was organized at a meeting held here last night. The schedule calls for the completion of all games by the end of July.

ORIGINALS OF 1914 TO MEET IN MONTREAL

Will Gather April 22 to Commemorate Second Battle of Ypres.

WINDSOR HOTEL WILL BE MEETING PLACE

All Officers Who Crossed With First Contingent, Are Invited to Attend.

Montreal, April 15.—Announcement was made today by Lt. Col. R. H. Webb, D. S. O., M. C., C. M. G., that there will be a reunion of the "Originals" of 1914 in the Windsor Hotel, April 22 to commemorate the second battle of Ypres.

Final arrangements were made at a meeting held last night when Brig. Gen. C. Armstrong, C. M. G., C. M. G., acted as chairman, and Colonel Webb, his secretary, in attendance.

It was decided that a reunion dinner should be held in Montreal of the "Originals," who live in Military District No. 4 of the Canadian Expeditionary Force, who were over in the district in Sept., 1914, and to commemorate the second battle of Ypres, and to include, by special desire, all of those who would care to come from any other district in Canada.

TORPID LIVER FOR OVER 4 MONTHS

The duty of the liver is to prepare and secrete bile and serve as a filter to the blood, cleansing it of all impurities and poisons.

New Brunswick Won Gov. General's Medal

Students from This Province Made Good Showing at Truro School.

Truro, N. S., April 15.—Robert C. Parent, of Fredericton, led the classes at the Nova Scotia Agricultural College during the past term and was the recipient at the closing exercises of that institution yesterday of the Governor General's medal in recognition of his obtaining the credit average of 84.9 per cent on his examination.

Two Killed, Six Seriously Hurt

Explosion on Steamer, Due to Ignition of Gasoline, Has Fatal Results.

Buenos Aires, April 15.—An explosion on the United States freighter Terra Haute at her dock here yesterday, killed two stevedores. Six men were seriously injured, including three of the crew of the steamer. The men were engaged in unloading the Terra Haute.

The explosion is believed to have been due to the accidental ignition of gasoline. The material damage to the vessel was not serious.

FOR THE FUTURE IN THE COUNTRY

FERTILIZERS BEST ADAPTED FOR POTATOES

To Bear Well They Should be Heavily Fed While Growing.

BEST METHODS OF APPLICATION

Seed Should Never Touch the Fertilizer Directly as it Will Injure It.

Potatoes thrive on a sandy to gravelly loam soil. This is a type of soil that must be heavily fed, if it is to do its best. The potato crop also requires abundant fertilizer, since potatoes are so much starch, they are great lovers of potash. On normal potato soil without manure, you should apply from 100 to 200 pounds of high grade fertilizer per acre in order to get best results. With a good dressing of manure this application may be reduced to 50 or 60 pounds per acre. The analysis of fertilizer would advise should range not less than 8 to 5 per cent. ammonia, 6 to 8 per cent. phosphoric acid and 4 to 8 per cent. potash.

How to Apply Fertilizer. Fertilizer is best applied to potatoes by the specially constructed potato planter. This machine works in the furrow and works it in beside the seed piece. Some potato growers prefer applying two-thirds of the fertilizer broadcast, and the remainder in the furrow. Follow this method by pulling in a light covering of soil before you drop the pieces of potato, after which proceed as usual. Do not top up the fertilizer or injury will be done to the seed piece. This precaution is taken care of in the potato planter.

Seed Planting Time. Potato planting will soon be here. Be prepared to take advantage of the earliest opportunity. If you have not already purchased your supplies of seed, fertilizer and spray material, these are obtained at the earliest date possible and stored in your barn, so that not a minute may be lost when conditions become favorable for potato planting. Most profitable results are obtained by proper soil management, plant food supply and crop handling.

Preparation of the Ground For Roots

Helpful Hints on How to Get the Best Results from Root Crops.

(Experimental Farms Note.) In preparing ground for roots there are three general principles which are applicable to all conditions: (1) The land must be well plowed at the proper time. (2) A good application of top dressing must be made. (3) The ground must be thoroughly cultivated to incorporate the top dressing with the soil and also make a good seed bed. (4) The soil should be prepared in the following manner: (a) Turnips, in addition, consider the crop's ability to raise and carry the conditions of the soil on which it is growing. (b) Turnips should be prepared the latter to suit conditions and give a maximum crop.

All roots contain a large amount of nitrogen and ash constituents, among the latter, potash is one of the most essential. The average crop of turnips will contain per acre, approximately seventy pounds of nitrogen; forty-eight pounds of phosphoric acid and twenty-two pounds of potash. (Note—Turnips contain more sulphur than any other farm crop.) Turnips, if the land is well tilled before sowing the seed and properly cultivated after, are capable of getting the required amount of nitrogen and potash from the soil. If the soil is fertile, but apparently, they have not the power of appropriating the combined phosphoric acid from the soil. Therefore, on a poor, exhausted soil it is practically impossible to get a profitable crop unless phosphoric fertilizers are applied. Superphosphate or basic slag is recommended for turnips.

Mangels, on the other hand, feed deeper than turnips and so have a greater capacity for obtaining nitrogen, potash and phosphoric acid from the soil. This being the case, the application of phosphoric fertilizers is not so important for mangels as an application of nitrate of sodium. Where commercial fertilizers are used alone, the following quantities are recommended per acre: From four to five hundred pounds of nitrate of soda or three hundred and fifty to four hundred pounds of sulphate of ammonia; four hundred pounds of superphosphate or five hundred pounds of basic slag; four hundred pounds of nitrate of soda or sulphate of potash.

Common Scab And Its Treatment

This, as the name implies, is one of the most common troubles affecting potatoes. Although the occurrence of scab does not, as a rule, affect the yield, it detracts considerably from the value of tubers for both seed and commercial purposes. The seed value is affected owing to the fact that the eyes of scabbed tubers are likely to be injured, and the unsightlyness of scabbed tubers combined with the considerable trouble and waste entailed in preparing them for the table, renders them undesirable for domestic use.

A discouraging experience frequently encountered by potato growers is that notwithstanding the use of perfectly clean and sound tubers for seed, a considerable percentage of scabbed potatoes is in evidence at harvest time. This is due to the fact that the scab organism occurs naturally in the soil, particularly if it has been in evidence in the application of wood ashes, lime, fresh manure, or other substances of an alkaline nature. As an instance, it frequently occurs that where potatoes are planted on land which has recently been cleared and burnt over, or where they are planted immediately after an application to the land of fresh barnyard manure, the result is a scabbed crop. On the other hand, it has been found that the ploughing under of green crops, such as clover, has a tendency to decrease the liability of injury from the disease.

The potato crop should be included in a rotation so planned as to allow for the ploughing under of clover seed during the fall before planting potatoes. This practice, combined with that of seed disinfection by treatment with formaldehyde or corrosive sublimate, while not providing a guarantee that a crop of potatoes will be free from scab, constitutes a reasonable safeguard against its occurrence. The following points should be particularly borne in mind at planting time: (1) Plant only clean tubers. (2) Disinfect seed by immersing it for two hours in a solution of formaldehyde 1 pound to 40 gallons of water, or (3) for three hours in a solution of corrosive sublimate (Glauber's salt) 3 ounces to 50 gallons of water. (4) Use only wooden or earthenware vessels for corrosive sublimate. (5) Corrosive sublimate is intensely poisonous. All tubers treated with this, and left over after planting is completed, should be immediately destroyed.

Powdery Scab.—This disease differs considerably in appearance from Common Scab. The scab spots are darker in color and usually more uniform in size and shape. It is not so common or widespread as Common Scab, and usually occurs only in damp, cool seasons. Potatoes affected with Powdery Scab should not be planted, and in every case all seed which has been in contact with any tubers showing the disease, should be treated with corrosive sublimate. As the organism is known to live for several years in the soil, potatoes should not be planted on the land where it has occurred for at least four years.

GEO. PARTIDGE, Assistant Plant Pathologist.

Farmers Should Keep Accounts And Know Solution For Control of Cabbage Maggot

Good Method of Treating This Destructive Pest—Must be Used With Care.

The whitish maggot which burrows into the roots of cabbages and cauliflower and which, when abundant, destroys them, can be readily controlled by applying corrosive sublimate, 1 oz. in 10 gal. of water, to the roots of the plants. The first application should be made four days after the plants are set out, care being taken to saturate the roots (4 to 6 cups per plant) and then two more applications should be made at intervals of seven days. The solution may be applied by means of a watering can with a long spout, the end of which should be plugged to allow only a small stream to issue. Corrosive sublimate may be procured from any druggist. It is deadly poisonous to man and to animals, and for this reason great caution should be exercised when using it. The cabbage root maggot was very destructive to early cabbages and cauliflower last year, and as it may be again injurious this season, we would strongly urge all growers to take their plants and crops above.

Dominion Entomological Laboratory, Vineland Station, Ont.

THE FIRST ROBIN

When has he come? Along what way? He seeks again the haunts of last year's nest—The cold, stark earth, the bare, unlovely ground, the bare, unlovely ground. Awake no taller in his dauntless breast. He only knows a few more weeks will bring Green grass and leaves, and apple blossoming.

HAVE A WORKSHOP

A workshop on a farm has always been desirable, but since machinery for every purpose has become so general use a shop has become almost a necessity.

LOOK AFTER THE HORSES

Check your harness at night, water them, give a good bed, and water them again after they have eaten their hay so that they will not be thirsty all night. If they rest on, loose or more before they are given. The observation of these simple rules will not cost you a cent, and will make a big difference in their condition.

NEW BRUNSWICK APPLE ORCHARDS SPRAY CALENDAR

Advice to Orchardists on Best Time to Spray Their Trees.

MODIFICATIONS FOR SPECIAL CASES GIVEN

Receipts for Mixtures Best Suited to Individual Needs of Orchard.

First Spray. Time: About five days before the blossoms open. Material: Poisoned Bordeaux made up of 3 lbs. of bluestone, 10 lbs. of other water slaked stone lime or hydrated lime, 1.5 lbs. arsenate of lime to 40 gallons of water.

Second Spray. Time: Immediately after the blossoms fall. Material: Soluble Sulphur 1 lb. arsenate of lime 1.5 lbs. hydrated or water slaked stone lime and 1 lb. of arsenate of lime to 40 gallons water.

Third Spray. Time: Two weeks after the blossoms fall. Material: Poisoned Bordeaux made up of 3 lbs. bluestone, 10 lbs. hydrated or water slaked stone lime and 1 lb. of arsenate of lime to 40 gallons water.

Practice Results in Serious Loss and Will Eventually Destroy Land Says Expert.

"Millions of flowers that would develop food for insect-destroying birds are killed by the common practice of burning over fields and woodlands during the month of May. The result is the loss of the Wild Flower Preservation Society.

Good Breeding Pays. Some three-year-old, yearling and weanling horses were sold at a public auction. The weanlings brought \$25 per head, the yearlings \$30 and the three-year-olds \$40.

Warnings. Do not spray too close to the trees than is necessary. Do not use arsenate of lime alone on apple foliage.

Wings. We praise all the flowers in fancy, Slip the nodder of their eye they're peeped, ignoring the common old dater.

POULTRY NOTES. A good home-made scratch grain ration for chicks consists of two pounds of cracked wheat, three pounds of rolled oats.

BAD POLKOV. It is a bad policy to turn the stock to pasture before the grass has started—bad for the pasture and bad for the stock.

Preparing Corn Land in Maritime Provinces

In the past, the ploughing or early autumn ploughing for corn has generally been deemed advisable. However, it is found that the time and depth at which to prepare a seed-bed varies with the soil, climate, season, and, in some cases, with the previous crop grown on the land.

At the Experimental Farm, Nappan, N. S., we have tried ploughing in early autumn, rolling, top dressing and re-ploughing, either in the fall or spring, preferably the latter, and have obtained fair results. The objection to this method was that considerable labor was required to obtain results with very much less labor is to use the field we have in pasture and top-dress it with good barnyard manure at the rate of 15 to 20 tons per acre. This can be applied in the fall or early winter before manure has frozen. If your field is too sloping to not apply manure to fall but just before ploughing. Otherwise its value will be less.

Just before we wish to seed, as plough to a depth of five inches, if dry. Never use the roller on heavy clay soil when it is very damp as it will make very hard and prevent a good seed-bed being made. After rolling the field is given two cuts with the double cut-away harrow, followed with the smoothing harrow. Generally this makes a sufficiently good seed-bed. If possible, it is gone over once more with the harrow.

It is very important to harrow very soon after ploughing, otherwise the soil will bake, especially if it should rain, which will increase the cost of making a good seed-bed. The latter is absolutely essential in any crop, and as the main object in production is to obtain a maximum crop at minimum cost, every detail in preparation should be carefully attended to.

Spring ploughing helps to conserve moisture by cutting off the capillary action. By so doing it helps a more rapid drying out of the top soil or seed-bed, which in turn allows a greater circulation of warm air thus raising the temperature more rapidly. This is important, as experiments have been conducted which prove that the best germination of corn takes place in the soil at a temperature of from 65 to 75 Fahrenheit. In successful corn growing in the Maritime Provinces, the amount of heat one can secure is a great factor. Especially is this true in the early part of the season. It must also be remembered that the young corn shoots are very tender, hence too early seeding in some seasons may mean a loss of crop from late June frost. Our seeding period ranges from May 20 to June 15, and so far, we have escaped such injury.

Just when the young corn is coming up is a good time to put the spike-tooth harrow over the field; once cross-wise with the teeth slightly slanted backwards. This helps to conserve moisture and kill weeds. Corn requires plenty of moisture and heat to make rapid growth.

W. W. BAIRD, Superintendent, Nappan, N. S.

WHAT JUDGES CONSIDER IS GOOD PLOWING

Directors of Plowmen's Association Give Definition.

RULES LAID DOWN FOR GUIDANCE

Good Plowing is Fundamental Operation in Successful Farming.

In response to frequent enquiries from different sections in Ontario and from other provinces, for rules and regulations defining good plowing for the benefit of farmers who desire to do good work on their own farms and to take part in the plowing matches held throughout the country, the directors of the Ontario Plowmen's Association have prepared up-to-date regulations on this important work, which are now ready for issue in the form of a pamphlet that can be secured from the secretary of the association.

Starting with the declaration that good plowing is the fundamental operation in agriculture, and the basis of good farming, the writers of the pamphlet point out that the object of a plowing match is to encourage good plowing. The rules and regulations of the Provincial Plowing Match are, it is explained, a guide for local matches, but not necessarily borrowed in detail by the branches of the Ontario Plowmen's Association. They are suggestions in order to make plowing matches interesting and educational; the regulations can be varied to meet local conditions. The pamphlet contains, in addition to rules for good plowing, an explanation of local matches, an explanation of the object of a plowing match to encourage good plowing, the rules and regulations of the Provincial Plowing Match are, it is explained, a guide for local matches, but not necessarily borrowed in detail by the branches of the Ontario Plowmen's Association. They are suggestions in order to make plowing matches interesting and educational; the regulations can be varied to meet local conditions. TEST

To Bear Well They Should be Heavily Fed While Growing.

BEST METHODS OF APPLICATION

Seed Should Never Touch the Fertilizer Directly as it Will Injure It.

Potatoes thrive on a sandy to gravelly loam soil. This is a type of soil that must be heavily fed, if it is to do its best. The potato crop also requires abundant fertilizer, since potatoes are so much starch, they are great lovers of potash. On normal potato soil without manure, you should apply from 100 to 200 pounds of high grade fertilizer per acre in order to get best results. With a good dressing of manure this application may be reduced to 50 or 60 pounds per acre. The analysis of fertilizer would advise should range not less than 8 to 5 per cent. ammonia, 6 to 8 per cent. phosphoric acid and 4 to 8 per cent. potash.

How to Apply Fertilizer. Fertilizer is best applied to potatoes by the specially constructed potato planter. This machine works in the furrow and works it in beside the seed piece. Some potato growers prefer applying two-thirds of the fertilizer broadcast, and the remainder in the furrow. Follow this method by pulling in a light covering of soil before you drop the pieces of potato, after which proceed as usual. Do not top up the fertilizer or injury will be done to the seed piece. This precaution is taken care of in the potato planter.

Seed Planting Time. Potato planting will soon be here. Be prepared to take advantage of the earliest opportunity. If you have not already purchased your supplies of seed, fertilizer and spray material, these are obtained at the earliest date possible and stored in your barn, so that not a minute may be lost when conditions become favorable for potato planting. Most profitable results are obtained by proper soil management, plant food supply and crop handling.

Preparation of the Ground For Roots

Helpful Hints on How to Get the Best Results from Root Crops.

(Experimental Farms Note.) In preparing ground for roots there are three general principles which are applicable to all conditions: (1) The land must be well plowed at the proper time. (2) A good application of top dressing must be made. (3) The ground must be thoroughly cultivated to incorporate the top dressing with the soil and also make a good seed bed. (4) The soil should be prepared in the following manner: (a) Turnips, in addition, consider the crop's ability to raise and carry the conditions of the soil on which it is growing. (b) Turnips should be prepared the latter to suit conditions and give a maximum crop.

All roots contain a large amount of nitrogen and ash constituents, among the latter, potash is one of the most essential. The average crop of turnips will contain per acre, approximately seventy pounds of nitrogen; forty-eight pounds of phosphoric acid and twenty-two pounds of potash. (Note—Turnips contain more sulphur than any other farm crop.) Turnips, if the land is well tilled before sowing the seed and properly cultivated after, are capable of getting the required amount of nitrogen and potash from the soil. THE STANDARD'S FINANCIAL SECTION

PROFIT-TAKINGS FAIL TO BREAK NEW YORK GAINS

Active and Strong is Character of Board on Sudden Reversal.

INDUSTRIAL STATE STILL DISTURBED

Prices Soar and Profit-taking Becomes Very General on Exchange.

New York, April 15.—The stock market was active and strong today, suddenly reversing its position of previous days this week as a result of cumulative developments of a highly encouraging character.

Chief among these was the decision of the United States Railway Labor Board abrogating the contracts entered into by the federal administration.

This leaves the transportation companies free to deal individually with their employees and not with the labor organizations.

Improvement in the British labor situation exerted a favorable influence, and the reduction of re-discount rates by the Bank of England advanced 5-8 point to 93 3/4.

Canada Convertibles sales sold 5 1/2 per cent higher than a previous sale in 1929.

Total sales, listed, 4191; bonds \$27,102.

Domestic industrial advices were mixed, but constructive in the main. Tendencies towards trade stabilization were furnished by additional price cuts in steel and iron products.

Heavy selling for profits failed to impair prices, the list being at its best in the last hour. Leading rails made net gains of 1 to almost 3 points.

White steel, streetcar equipments and related specialties registered advances of 2 to 5 1/2 points. Sales amounted to 750,000 shares.

Domestic money rates were again unchanged but remittances to Europe hardened, the only exception being the Italian rate, which forfeited part of its recent rise.

Both Argentine and Chilean rates were at new low records, reflecting more unsettled trade conditions in those countries.

Bonds were dull and benefited only slightly by the day news. Liberty issues, traction and some of the foreign group made moderate gains.

Total sales, par value, were \$9,975,000.

Riordon Leader On Montreal Exchange

Little Activity in Market But General Tone for the Day is Stronger.

Montreal, April 15.—Riordon led the quiet trading on today's local stock exchange and the market showed a much better trend than yesterday, eight prices showing net gains against only three on Thursday.

Losses were also less substantial, only one reaching the dimensions of 4 points, this being Dominion Convertibles down 1 1/2 points at 28 1/2.

Laurentide made the best gain morning up 1 1/2 points to 92 with that price bid for more stock and none offered.

A one point gain each was made by Brighton at 33 1/4; Dominion Steel at 41; Textile at 113 1/2; and Breweries at 40, all of which closed at the day's best price.

Papers Change Little Spanish River common dealings added a large fraction at 72, Riordon continued pegged at 107. Price Bros lost a small fraction and Abitibi went down 1/2 point.

The utilities were not prominent. Montreal was not active in the afternoon, a board lot, Detroit was actively active and lost half point down at a new low of 77 1/2.

The war loans were irregular with changes small except in the 1931 bond which advanced 5/8 point to 93 3/4. Canada Convertibles sales sold 5 1/2 per cent higher than a previous sale in 1929.

Total sales, listed, 4191; bonds \$27,102.

GOSSIP AROUND THE MARKETS

The United States Steel Corporation export subsidiary has received from the South Manchurian Railway Company the largest export rail order placed in the United States in many months, calling for 10,000 tons of steel rails.

The directors of the Minnesota & Ontario Paper Company have made a further reduction of 17 1/2 cents on newspaper paper to publishers. This concession, together with that of 85 cents on the largest export rail order placed in the United States in many months, calling for 10,000 tons of steel rails.

The Humanian Parliament has adopted a law creating a petroleum monopoly to be managed by a corporation in which the government will participate. Export trade will not be affected.

California fruits and nuts, with the exception of oranges, lemons and cherries, showed less production in 1930 than in 1929. The orange and lemon crop of the state was 15,700,000 boxes in 1929, an increase of 3,625,000 over 1919.

The Spanish River Pulp and Paper Mills Ltd has submitted a proposal to its employees in the Soo Espanola and Sturgeon Falls providing for general wage reduction of thirty per cent and that the present eight hour day be increased to nine hours. The company has asked for an answer by next week. The men will take a vote over the week end.

The province of Manitoba has secured an undertaking from a Canadian bank for the next two months that money can be secured at 5 1/2 per cent per annum according to an announcement by the provincial treasurer.

The Merchants Bank of Canada has become affiliated with and is to be the Canadian representative of the New International Acceptance Bank which has been organized in New York with a capital and surplus of \$15,000,000.

May Wheat Lost Five Cent Gain

Spectacular Jump in Winnipeg Prices Occurred During Mid-Session.

Winnipeg, April 15.—After a week opening this morning the local wheat market strengthened and better support was offered, with the result that May, which opened at 1.47 advanced to 1.52 1/8. This advance was not maintained, and May closed 1 1/8 cent lower. July was also showing strength today, reaching a high of 1.36 3/4, and closing at 1.33 1/2, a gain of 7-8 cent from yesterday's close.

The cash offerings were very liberal today with the result that premiums showed a marked decline. During most of the session they were around 14 and 15 cents when a large amount is reported to have changed hands, with the exporters the principal buyers. During the last hour the offerings were larger than could be absorbed and the premium broke to 12 cents over the May for the top trade.

Coarse Grain Dull Less activity was shown in the coarse grain today although prices were firm to strong. Close:

This Egg Would Be Complete Breakfast!

White Leghorn Lays Egg Four and a Half Inches in Length.

Vancouver, B. C., April 15.—This city now lays claim to the championship for the largest hen's egg laid in Canada. Driver Mitchell of the police department who is the owner of a flock of white Leghorn hens, one of which laid an egg on Tuesday four and a half inches in length with a long circumference of eight and three quarters and a short circumference of six and five eighths inches. When opened it was found to contain two perfect yolks and two perfect whites. Ottawa held the previous record for an egg laid last week measuring 8 1/2 inches and 6 and a half inches circumference.

RAW SUGAR MARKET.

New York, April 15.—Raw sugar was unchanged early today with the committee quoting 4 3/4 cents for Cuban cut and freight, equal to 5.77 for centrifugal. Uncontrolled sugars are available at 5.94 for centrifugal. There were sales of 10,000 bags of Peru due next week. Refined was quiet and unchanged at 7.65 to 8.00 for fine granulated, with some re-entries were reported at as low as 7.40.

Futures were irregular and trading was light. Near months were off under liquidation, while distant positions advanced on trade buying. Prices at midday were 1 point lower to 6 higher.

THE BANK OF NOVA SCOTIA

A Start in the Right Direction

The temptation to spend money in your pocket is greater than when your money is in a savings account in the bank. That margin of temptation may mark the difference between an opportunity to go into business later on or of working for wages with nothing saved and nothing ahead, at the end of your working years.

Why not open a savings account in The Bank of Nova Scotia today?

Your account will be welcomed and you will have made a start in the right direction.

MINERS READY TO ACCEPT IN THEIR W

Organizing a Na Pool

ARE OPPOSED TO GOVERNMENT CO

Much Better to Me Satisfaction to Claims.

London, April 15.—The secretary of the Miners' Union, Mr. J. H. Jones, has written to the Dominion Times that the miners have prepared substantial contributions to the arbitration of wages in the direction of wiping out the deficit by agreeing to a reduction of wages in the country.

The letter is a direct appeal for the aid of a national fund, the raising of which would be a charge that the Government is responsible for the current state of the industry.

Capacity Differ

The general capacity varies so considerably, other, says Mr. Hodges, proposals of the owners' basis would have been something but the wide variation

MINERS READY TO ACCEPT CUT IN THEIR WAGES

Miner Leader Urges Need of Organizing a National Pool. ARE OPPOSED TO GOVERNMENT CONTROL. Much Better to Make Terms Satisfactory to Men He Claims.

London, April 15.—Frank Hodges, secretary of the Miners' Union, in a letter to the London Times, says that the miners have refused to make substantial contributions to the industry in the direction of wiping out the present deficit by agreeing to a uniform reduction of wages throughout the country.

The letter is a direct reply to an emphasis of the need of a national pool and in supporting the miners' opposition to a national pool. It charges that the Government action is responsible for the crisis and asserts there is a lack of interest of the members of the federation.

Capacity Differs. "The economic capacity of districts varies so much, says Mr. Hodges, that the proposals of the owners for a national pool would have resulted in anything but the wide variation they proposed in wages."

Mr. Hodges said the owners and workmen need to put into effect the principles governing the national wage movements which he has advocated.

Outlining the federation's scheme for a national pool, he said: "It is not to be applied at once owing to abnormal conditions of trade in this country, and some financial assistance is necessary."

Against Government Control. He expressed a desire for freedom from the "bureaucratic" influence of government control, and concluded: "Whatever restriction there may be on the owner, whatever political view the Government may take, it is now abundantly clear that it is better for the nation that our men should work again with their machinery animated by it, rather than they should be forced back to work with the old machinery and in a spirit of bitterness, anger, and hatred."

Large Halibut Was Landed By Fishermen

Two Grand Manan Men Made Good Haul—Prospects for Season Fair.

Grand Manan, N. B., April 15.—Mr. Howard Wootton, of Grand Manan, who has been very ill, is reported slowly recovering. Mr. and Mrs. Roy Russell, of Grand Manan, are rejoicing at the birth of a son, who arrived in three parts on the 6th instant.

On the 7th instant a daughter was born to Mr. and Mrs. Harold Foster of Grand Manan. Automobiles were allowed the liberty of the roads on Grand Manan on Monday, 13th instant. Great freedom about the highways was greeted with about the wildest snow storm of the season.

Some of our fishermen have begun spring fishing. Many are prepared for the lobster fishing during the remainder of the season. A few boats are engaged in trawl fishing and report good catches. They are obliged, thus far, to seek a market elsewhere than on Grand Manan. Messrs. Edward Ingalls and Owen O'Neill had the good fortune to catch some very large halibut, when a haul of 272 pounds. They found a market for these fish in Eastport. The trade in smoked herring continues as full as ever.

Capt. Jackson, accompanied by a few men, has gone to his spring fishing plant at Point in Chene.

Landis Gives \$96,000 Boy Thief One Year

Chicago, April 14.—Francis J. Corey, 19 year old bank clerk, who confessed to the embezzlement of \$96,000 from the National City Bank of Ottawa, Ill., was sentenced today by Judge Landis to a year's imprisonment in the Government Home for Incurable Boys at Washington. Corey's case became a topic of national discussion in February when Judge Landis deferred sentence, released the defendant on his own recognizance, and criticized the bank officials for the small money paid to the clerk.

Judge Landis immediately was the target of a brigade delivered in Congress by Senator Dial, banker and old-time ally of Corey. The senator's denunciation of the judge's remarks. Subsequently impeachment proceedings were demanded by Representative Welby of Ohio. Out of all this discussion grew a great curiosity as to the penalty that finally would be met.

Landis Gives \$96,000 Boy Thief One Year

Chicago, April 14.—Francis J. Corey, 19 year old bank clerk, who confessed to the embezzlement of \$96,000 from the National City Bank of Ottawa, Ill., was sentenced today by Judge Landis to a year's imprisonment in the Government Home for Incurable Boys at Washington. Corey's case became a topic of national discussion in February when Judge Landis deferred sentence, released the defendant on his own recognizance, and criticized the bank officials for the small money paid to the clerk.

Judge Landis immediately was the target of a brigade delivered in Congress by Senator Dial, banker and old-time ally of Corey. The senator's denunciation of the judge's remarks. Subsequently impeachment proceedings were demanded by Representative Welby of Ohio. Out of all this discussion grew a great curiosity as to the penalty that finally would be met.

Neither Judge Landis nor the former bank clerk had any comment make when final disposition was made of the case. Corey was taken to the Washington tonight by the United States Marshal to be placed in the Federal institution.

The \$96,000 taken from the Ottawa bank by Corey was recovered. He himself received 230 bonds after the discovery of the theft last fall. It was at first thought that he had been locked in the vault because of the sounding of burglary alarms by the bank. Afterward Corey, who had taken refuge in a farmhouse, surrendered, was indicted and came into court with his mother and sister.

THE WEATHER

Table with weather forecasts for various locations including Toronto, Montreal, and St. John's.

AROUND THE CITY

Here the Melo Choir Centenary Church, Sunday services in lovely and because of time lost in making crossings with boat specials.

DELATED HALF HOUR The train from McAdam was delayed a half hour in arriving last night because of time lost in making crossings with boat specials.

START NEXT WEEK Work on the excavation for the extension of the water main will be begun on Tuesday next as the company have enough pipe now on hand to keep ahead of the diggers.

TENDERS NOT AWARDED A meeting of the governors of the St. John's Industrial Home was held yesterday morning. The tenders for work projected were opened but no contracts were awarded.

PAY DAY AT CITY HALL The fortnightly pay for laborers at City Hall, yesterday, showed a total of \$10,036.34, made up as follows: Public works, \$5,547; water and sewerage, \$2,442.19; harbor, \$1,534.66; ferry, \$442.50.

FARMERS ORGANIZE William Irvine, organizer for the United Farmers, was in the city last night enroute to Moncton. He reports success following his effort in organization work. He finds the farmers in all sections of the Province anxious to organize for mutual benefit.

INCREASED SALARIES J. A. Peck, M. L. A., for Albert County, was in the city yesterday to his home from Fredericton. Mr. Peck said the Government voted to increase the salaries of the Cabinet members yesterday. This despite the fact that the cost of living is on the down grade.

SIGNS OF SUMMER First signs of summer, silent policemen doing duty and park benches in place. The silent officers of the traffic department were placed at their stations Friday afternoon, and the green benches were also placed in position at King and Queen Square parks.

RECEIVED TRANSPORTATION The two stranded sailors who have been at the Seaman's Institute since last Saturday received transportation from the Department of Marine and Fisheries and were sent away last night. Mayor Schofield is understood to have wired Ottawa of the matter and then transportation was sent.

CANON ARMSTRONG CHOSEN Rev. Canon Armstrong, rector of Trinity Church, St. John, has been selected as annual orator for the U. S. 50th anniversary which will be held on May 12th. Prof. A. V. Fuller, dean of the Forest School of the University, has been selected to give the address in praise of the founders of the institution.

SEND SAILORS HOME A few days ago the Navy League sent a telegram to Hon. C. C. Bellingham, Minister of Marine, regarding stranded sailors sent to St. John's. A telegram was received yesterday morning by A. Armstrong, president of the Navy League, from Hon. Mr. Bellingham, reading: "When my department is not responsible for having seamen returned to St. John's it is under no obligation to forward them to other ports. Instructions have been sent to J. C. Chesley to furnish transportation to their several destinations."

ADDRESS AT QUEEN THEATRE SUNDAY Sunday afternoon's address in Queen's Theatre by Rev. H. A. Goodwin under the auspices of the Canadian Imperial League, entitled "The Way" is being looked forward to with much interest. Public cordially invited, all seats free.

ORGANIZATION MEETING HELD Last evening an organization meeting for the membership enrollment campaign of the Red Cross was held at the Depot, Mrs. Kehring, convener of the Progress and Activities Committee, presiding. Representatives from the Province were present and all were enthusiastic for the success of such a campaign. Provincial organization was accomplished.

ST. LUKE'S CHURCH Rev. W. E. Williams, of West Chatham, will preach at both services.

Jury Exonerates Auto Truck Driver

Returned Verdict at 3 O'clock This Morning After Hearing Evidence in Case.

"Marion Wilson died at the General Public Hospital on 14th of April, 1921. Death was caused by being struck by an auto truck driven by Albert Corbett. Death was purely accidental. We exonerate said Albert Corbett from all blame. We recommend that the Corporation of St. John's Safety instruct police that all children be kept off public roadways, and that traffic police be placed at all public crossings."

Explains Injury. Dr. Sporan, internist at the General Public Hospital, was the first witness called. He testified that when the child was admitted to the hospital she was found to have a badly bruised right leg, which was broken at about the middle of the thigh. She had bruises over the right eye, and was suffering considerably from shock. Although conscious on her admission she gradually sank into a coma from which she never recovered and expired at 5.25 Thursday morning. The child was brought to the hospital by Mr. Corbett and her father, Dennis Story.

Albert E. Corbett, manufacturer's agent, and motor truck agent, said he was driving his car down Sydney street towards Union street, and at the north side of King Square was close in to the left hand curb. He had an idea that a team in front of him came out of Wilson's, it had a high body. He saw no other teams. Just as he neared the team the "little girl" ran out from behind it. She appeared not to have seen the truck till then, for she threw up her hands. The lumber hit her and threw her over. Judging by subsequent vibration the truck must have run over her.

Immediately on seeing the child thrown on his tracks, jumping on both the internal and external and throwing on the emergency and then turning the wheel hard to the right. The car was a White three ton and a quarter truck, weighing nearly 4,000 pounds. It was a moderately fast car. Corbett said he jumped out and picked up the child and carried her to Watson's drug store. There first aid was rendered after which the child was taken to the hospital. He accompanied her there and spent the night at the hospital, and was there next morning until her death. At the time of the accident he did not think he was exceeding ten or eleven miles. He was testing the brakes at the time and the power was about gone. There was no speedometer on the car but the distance the car went after the brakes were put on would indicate it was not exceeding that speed. He had driven cars for twelve years. In reply to a juror the witness said he had been in one accident before, but no one was hurt but himself. The number plate in the front of the car was not being in the accident, it had been bent before in cranking the car. Immediately on seeing the child witness cried out to her, as he was too busy with his brakes to sound the horn. The child was between two and three feet from the rear wheel when picked up.

Man Swore at Him. After the accident the man swore at him and said he was going 40 miles an hour. There were others who said he was speeding. One man touched him on the shoulder and said it was an accident and gave him his address. Several others said, "Don't worry, it was an accident and you were not to blame."

Ambulance Driver. Harry Earl, ambulance driver, said he saw the car going past the ambulance station on Sydney street. It was going between 25 and 30 miles an hour. Later he took the child in the ambulance to the hospital. Wilson had driven trucks for five years and thought his estimate of Corbett's speed was correct. He could not say Corbett did not exceed the speed of the car after passing him. He thought the car was going fast enough to hit anyone's attention.

Walker J. Logan was standing in Smith's fish store when a man called to him to look quick. Witness got out in the street, hearing nearly been a motor victim himself, he used some suggestive language to the driver of the car and asked him what he meant driving his car forty miles an hour. Fred Monahan stated he was in Smith's fish shop looking out the window when he first saw the car which he thought now was going about fifteen miles an hour. The next he saw of the child was when it was run over. It was after that he called out to Mr. Logan. He knew nothing of cars, but had told Detective Biddecombe he thought the speed was about 35 miles an hour; this was because the people on the street had said that the speed was all the ways from 10 to 40. He now thought it was 35 miles. Robert Wilson, father of Marion Wilson, was standing in an alleyway near Serburn's corner. His little girl

Assaulted Wife And Mother-in-Law

Hazen Brown Got Double Sentence in Police Court—Other Cases Dealt With.

Two months for assaulting his wife and 120 for assaulting his mother-in-law, was the sentence imposed on Hazen Brown in the police court yesterday morning. The accused maintained he was innocent.

A case against Alexander Denerson, charged with leaving his car on Union Street was allowed to stand until Saturday, when it will be disposed of.

Some evidence was taken in the case of Fred Martin and Joseph O'Neil, charged with larceny, and the two were remanded.

The case of the six lads involved in the theft of James McCarthy's horse was taken up and the complaint dismissed. Mrs. Rosa Zebberman, charged with having liquor unlawfully in her possession, pleaded not guilty. Inspector Journey testified that in company with Inspector Hines, he visited a flat occupied by accused at 27 Long Wharf, Thursday afternoon and located two bottles of liquor.

Inspector Henderson told of noticing a nail in the wall behind a bureau and on taking hold of it found that it moved the sheathing. Behind the sheathing he found a bottle of gin.

The accused said that one of the bottles had been obtained on prescription for her own use, but as to the other bottle she knew nothing. Her husband must have put it there before he died. She said he built the closet in the wall so that the children would not know there was any in the house, as he was in the habit of taking liquor.

Her son, Frank, corroborated his mother's evidence, and added that he had seen one of the bottles under the influence of liquor.

The case was postponed until Monday afternoon. W. M. Ryan conducted the prosecution and E. S. Ritchie the defence.

started to come across the street from the other side. As she was coming from behind a motor truck came down the hill. It hit her a little below Watson's drug store. Both wheels on the side struck her. The truck was near the horse's head when the child came from behind the view. When he first saw the car he thought it was going at an excessive rate of speed, 30 or 35 miles an hour. Joseph B. Adams, roofer, was standing near Watson's drug store and suddenly saw a child hit by a truck. He thought she was struck by the bumper and then by the fender, but by another wheel. He immediately ran out, picked the child up and took her into this store. The rear of the truck went about eight feet past the child.

William G. Hammond on the day of the accident was standing near the Chinese restaurant, on Sydney street, and saw a little girl hit by a truck. She was not thrown when struck, but seemed to climb over her. He thought the wheels went over her. He would not say how fast the car was going—it was going at a good speed—too fast to give him a good view—15 miles an hour.

Joseph Mott was in the window of his room, 21 Sydney street, when he heard a yell. In looking out he saw a driver of a motor truck standing on his brakes. A little child was lying on the street. As soon as the car stopped, the driver jumped out and ran to the girl. When he heard the yell the car had stopped. He had often seen children running across the street. They did so heedlessly, without looking for teams, cars, or anything. Thomas Haines, motor mechanic, shut the car off after the accident. He did not see the accident. But after seeing the distance the people said the car went after it hit the child, would swear the car was not going over from 10 to 15 miles an hour. He had considerable experience with trucks, over two years in France. He thought the force of a 4,000 lb. truck going at 15 miles or over would throw its driver over the windshield if the car was brought up short in that distance.

Sand Point Busy Place Friday

Two C. P. O. S. Liners Docked Early, Bringing Many Passengers to Canada.

Two C. P. O. S. liners arrived in port between 4 and 5 o'clock yesterday morning. The Empress of France docked at Nos. 2 and 3 berths, bringing approximately 1,500 passengers from Liverpool. The Tunisian docked at No. 4 brought 372 passengers from Liverpool.

The Empress of France had 136 saloon passengers, 119 British and 17 continental. Five hundred and eighty cabin passengers listed, of whom 470 were British and Scandinavian, 10 continental and one Italian. The passengers were quickly handled and were disembarked without any annoyance.

The Empress had a remarkably quick passage across, making the run from Liverpool to St. John in six days and eight hours. She maintained an average speed of 19 knots to the hour, and would have been able to have made a new record had they not run into one day of foggy weather. Delightful weather was experienced and the trip was uneventful. The liner had 1,600 tons of general cargo and 325 pieces of parcel post.

The Tunisian had 218 cabin and 654 steerage passengers, all British subjects. The Tunisian made a good run and had good weather. The passengers were kept aboard ship until about 3.30 in the afternoon, or until the passengers from the Empress of France had passed through the immigration hands, baggage checked and ticketed to destinations. The majority of the passengers were Scotch, and for the most part, making their first trip to Canada.

Among the passengers were: Mrs. Callan, of this city, and Mrs. Foster and child, of Woodstock. Five special trains were sent out during the afternoon and evening for the accommodation of passengers from the two liners.

Nobles Who Enlisted In The Great War

Through an error the names of deceased members of Luxor Temple were published yesterday instead of the nobles who enlisted in the world's Great War. The following is a complete list of names as appears on the handsome tablet which was unveiled Thursday afternoon.

- Daval, J. L., M. D. Honing, James F. Lockhart, Frederick E. Lingard, Frank H. McKenzie, Lt.-Col. A. E. G. Barr, Fred H. Bell, D. Stinson. Black, Lt.-Col. Frank B. Brown, Capt. Horace S. Chisholm, A. J. C. C. Campbell, Fred W. Crockett, J. Herbert. Donald, Major Alex S. Emery, Wallace A. Logan, Capt. George P. Fouse, Frank P. Frazer, Major Daniel W. Gamblin, Capt. Geo. W. Gilker, R. H. M. Gordon, Capt. Frank A. Haining, Alexander. Hamilton, W. H. A. Harris, George A. Hines, E. E. J. Hopkins, Harry H. Irvine, W. H. Johnson, John A. Munroe, Capt. George A. Logan, Capt. W. Stuart. Connell, E. K. Madden, James W. Massie, Lt.-Col. A. E. March, Major Ralph A. Manser, Guy B. Markham, Alfred. McAvity, Lt.-Col. James L. McLeod, Major Norman P. McKean, Major Fred T. Miller, John M. Munroe, John A. Murray, Louis R. Murchie, Frank. Pickle, John P. Powers, Major Thomas R. Rankin, John A. Ripley, Lt.-Col. Blair. Ryder, Capt. T. Escoff. Simmonds, C. H. B. Stirling, Spencer. Summer, F. Roy. White, E. S. Wright, Chas. H. B.
