

TERRIBLE EXPLOSION AT PORT COLBORNE MOTH ELEVATOR WRECKS MAM-

Ten Dead, Sixteen Hurt, in Upheaval Wiping Out Big Government Grain Building With Two Million Dollar Loss.

Port Colborne, Aug. 10.—At ten minutes after one o'clock on Saturday afternoon a terrific explosion at the mammoth Government elevator here killed ten men, five of whom were members of the crew of the barge Quebec, loading grain at the elevator, severely injured nearly a score, completely wrecked the building, and caused a property loss of over one million dollars. Fire followed the explosion, and the flames are described by survivors as more like the flash of electricity than an ordinary fire. The immense building of concrete and steel shook as if it were some toy in the hand of a giant, the concrete roof was thrown off, and the concrete floors below were shattered. Two storeys were blown from the lower section of the building, which was 150 feet high, and the higher section, while it is partly intact, is like a rubbish heap, with dangling girders and gaping ends.

The whole countryside was aroused by the tremors of the explosion and the air was filled with flying debris.

One slab of concrete, 30 feet square, was found 150 feet away.

The dead are: Joseph Latour, mate of the barge Quebec, married, Cote St. Paul, Que.; Charles Aston, elevator weighmaster, Port Colborne, married; William Cook, assistant weighmaster, Port Colborne, married; J. P. Hanham, chief spouter, Port Colborne, married; E. W. Mychener, assistant spouter, Port Colborne, married; Alfred Leslie, laborer, Port Colborne, married; Albert Beck, assistant shipper, Port Colborne, married; Albert Dunlap, marine towerman, Port Colborne, single, returned soldier; Clarence Hart, stevedore, Port Colborne, single.

Besides the terrible death toll, the explosion is serious, in that it will paralyze the removal of the Western crop to the seaboard and the world's market. The monetary loss is well over \$2,000,000. The elevator will handle no grain for a year, and the big grain steamer Quebec, which was loading at the time, is almost a complete wreck. Much of the grain can be salvaged.

SOLDIER CENOTAPH MADE PERMANENT

Monument in Whitehall to be Removed to Parliament Square.

London, Aug. 10.—A large number of British people strongly resent the decision of the Government not to allow them to construct private memorials over the graves of relatives killed on the battlefields of France, at the Dardanelles and other places, and to keep all memorials uniform. They say they should be allowed to honor their dead as they wish them to be honored, and all the sturdy independence of mind of the Britishers is aroused. The question affects every home throughout the country.

The question of the permanency of the cenotaph to "the glorious dead" now standing in Whitehall also is being raised. Every day sees the rich and poor, old and young, bringing wreaths to place on the cenotaph situated in the middle of the busy street procession of traffic. It is real democracy; there is no social, nor any other distinction among the people gathered around the simple monument to pay their tribute to relatives lost in the war.

Many tears have been shed, and the spot has become sacred to the men who died. Now it is proposed to remove the monument to Parliament Square in front of Westminster Abbey and to make it marble. But it is pointed out that marble is unsuitable in Great Britain. In eighty years marble monuments fall to pieces, the inscriptions become unreadable, and one marble statue loses one per cent. of its weight in a year in Manchester. Portland stone is recommended, as the "King Charles the First" plinth made of this material, resisted the weather two hundred and fifty years. There is now to be a keeper, preferably a soldier's widow, for the cenotaphs to keep the flowers and wreaths in order.

SCENIC RAILWAY AT MONTREAL DESTROYED BY FIRE WITH LOSS OF LIFE

Number of Victims May Reach Twenty—Wooden Structure at Dominion Park Takes Fire While Horrified Spectators Powerless to Help.

Montreal, Aug. 10.—Charred beyond the possibility of recognition, the bodies of three men, three women and a boy were recovered to-night from the ruins of the Mystic Hill and part of the Scenic Railway, which were destroyed by fire at Dominion Park, an amusement resort near this city. It is thought that several more bodies will be recovered to-morrow, when the wreck is searched. The exact cause of the fire is unknown, but it is thought it may have been started by a cigarette or a match. The flames spread quickly and were fanned by a

LEADING MARKETS

Breadstuffs.
Toronto, Aug. 12.—Man. wheat—No. 1 Northern, \$2.24½; No. 2 Northern, \$2.21½; No. 3 Northern, \$2.17½; No. 4 wheat, \$2.11, in store Fort William.
Manitoba oats—No. 2 CW, 87½c; No. 3 CW, 84½c; extra No. 1 feed, 85½c; No. 1 feed, 83½c; No. 2 feed, 80½c, in store Fort William.
Man. barley—No. 3 CW, \$1.38½; No. 4 CW, \$1.33½; rejected, \$1.27½; feed, \$1.27½.
American corn—No. 3 yellow, nominal; No. 4 yellow, nominal.
Ontario oats—No. 3 white, 84 to 87c, according to freights outside.
Ontario wheat—No. 1 Winter, per car lot, nominal; No. 2, do., \$2.03 to \$2.08; No. 3, do., nominal, f.o.b. shipping points, according to freights.
Ontario wheat—No. 1, 2 and 3 Spring, nominal.
Barley—Malting, \$1.29 to \$1.33, according to freights outside.
Buckwheat—Nominal.
Rye—Nominal.
Manitoba flour—Government standard \$11, Toronto.
Ontario flour—Government standard, \$10.25 to \$10.50, in bags, Montreal, prompt shipment; do. \$10.25 to \$10.50, in jute bags, Toronto, prompt shipment.
Milled—Car lots, delivered Montreal freights, bags included, bran, per ton, \$42 to \$45; shorts, per bag, \$4.4 to \$5.00; good feed flour, per bag, \$3.25 to \$3.35.
Hay—No. 1, per ton, \$22 to \$24; mixed, per ton, \$10 to \$19, track, Toronto.
Straw—Car lots, per ton, \$10 to \$11, track, Toronto.
Country Produce—Wholesale.
Butter—Dairy, tubs and rolls, 36 to 38c; prints, 38 to 40c; creamery, fresh made solids, 50 to 50½c; prints, 50½ to 51c.
Eggs—44 to 45c.
Dressed poultry—Spring chickens, 45c; roosters, 25c; fowl, 30 to 32c; ducks, 32c; turkeys, 35 to 40c; squabs, 40c, 36.
Live poultry—Spring chickens, 36c; roosters, 22c; fowl, 26 to 30c; ducks, 30c; turkeys, 30c.
Wholesalers are selling to the retail trade at the following prices:
Cheese—New, large, 28 to 29c;

THE REAL PILLAR OF SOCIETY.
It's a good rule that works BOTH ways. When the farmer supports the home merchant and the home merchant supports the farmer, you have the real pillar of society. The farmer would have a poor farm if he did not have a good home market. And the merchant can't build up the home market alone. He must have the support of the farmer. Likewise, the merchant has poor business when the SERVICE he gives is not the best possible. The trade must be even. The services must be mutual. So, the picture you are looking at NOW should be true from both ends. If it doesn't quite suit you this way, turn the picture around. NOW you have seen the REAL PILLAR OF SOCIETY. The farmer upholding the merchant and the merchant upholding the farmer.

The New Leader of the Liberal Party

William Lyon Mackenzie King, into whose hands has been entrusted the mantle of leadership laid aside by Sir Wilfrid Laurier, is a direct descendant upon the maternal side of William Lyon Mackenzie, a fact that has been a potent influence in winning him recognition and preferment in the Liberal party. He was Canada's first Minister of Labor, but back of his appointment were years of definite preparation for just such a post. He began his training in the University of Toronto, where he won the Blake Scholarship in Arts and Law in 1893. Later, he took a course in political economy at Chicago in 1896-7, and at Harvard

ORDER OF MERIT FOR LLOYD GEORGE

His Majesty the King Acknowledges Services of Prime Minister.

A despatch from London says:—King George has conferred upon Premier David Lloyd George the Order of Merit as a sign of his appreciation of Mr. Lloyd George's war services. In a letter to the Premier, dated Buckingham Palace, Aug. 5, announcing the award, the King says:—"My Dear Prime Minister,—Honors and rewards to officers of the army, navy and air force have been submitted to Parliament, I feel that my people will share with me regret that it is not possible to express the nation's grateful recognition of the persistent services rendered by the Prime Minister, both in carrying the war to a victorious end, and in securing an honorable peace. To rectify somewhat this omission, and personally to mark my high appreciation of these services, it gives me great pleasure to confer upon you the Order of Merit. Believe me, your very sincerely, "GEORGE R.I."

BRITISH MOTOR CREW SINKS "RED" CRUISER

Libau, Lettland, Aug. 10.—It is now revealed that a British motorboat crew of four men only torpedoed the Bolshevik cruiser Clog, of 6,770 tons, in the Gulf of Finland.

One whole building will be devoted to Canadian war trophies at the Canadian National Exhibition, while the big guns, aeroplanes and other large relics will be distributed around the grounds, giving the Big Fair a truly victory atmosphere.

AUSTRIA REPLIES TO PEACE TREATY

Prepared to Sign But Thinks Conditions Should Be Modified.

A despatch from Paris says:—The Austrian counter-proposals to the peace terms have been handed to the Allied Mission at St. Germain-en-Laye. The counter-proposals were brought at once to Paris and delivered to the Supreme Council of the Peace Conference.

The Austrian observations on the treaty were considered in Peace Conference circles to be very temperate in tone.

The Austrian reply said the delegation realized Austria's position was that of a defeated power, but complained that its territory had been limited in too sweeping a manner.

Particular objection was offered to the loss of Southern Bohemia and the Tyrol district.

The Austrians state they also believe they have been greatly overcharged, as two-thirds of the debt of the Austro-Hungarian State is being loaded upon them. They say that proportion is too heavy, considering their small population, and they are not sure they can live under such conditions.

A special appeal was made by the Austrians for an oral discussion of the treaty. They said they believed such a discussion would result in a more complete understanding of the conditions imposed.

Although the Austrians indicated very clearly their intention of signing, even if the treaty is not modified, yet they expressed the hope that some modification may be effected.

BRITAIN LEADS IN BUILDING OF SHIPS

A despatch from London says:—Great Britain maintains the lead in the world's shipping, although the margin of superiority has been vastly reduced by the United States ship-building output and the losses due to the war.

In the new edition of Lloyd's Register, which is the first issued free of censorship since the beginning of the war, the race between this country and the United States is clearly shown. It demonstrates that in spite of competition from the American side, Great Britain's advantage, in bigger ships particularly, is high, although the tables are incomplete, in so far as they do not take into account the distribution among the allies of 1,768 German boats which at the date of the armistice had not been captured or requisitioned.

BRITISH LABOR SITUATION UNCHANGED

A despatch from London says:—There is virtually no change in the labor situation. The strikes of bakers and Yorkshire miners are still unsettled, but the railway position in London is resuming its normal condition. The situation at Liverpool is greatly improved, but the tramway strike continues and there is a great scarcity of bread.

It was announced in the House of Commons that for the week ending July 26 the coal output was nearly fifty per cent. under the previous average. Other interesting announcements in Parliament were that the Government was preparing a bill for future regulation of the liquor trade and also that, in a few exceptional cases, Germans were being admitted to England to trade under close scrutiny.

AFGHAN AMIR LOSES SUBSIDY

Simla, India, Aug. 10.—The Amir of Afghanistan, under the peace treaty signed with Great Britain last week, not only loses his annual subsidy of \$600,000, but more than \$5,000,000 in subsidy which it appears he had on deposit with the Government of India. Confiscation of these arrears is a hard blow for Raul-bullah.

The victory spirit will dominate the Canadian National Exhibition this year, and the Dominion war trophies, the Canadian War Memorials paintings, Grenadier Guards Band, and German U-boat will furnish a real khaki background for the event.

REPATRIATION DE- LAYED BY STRIKES

Canadian Troops Held Up by Dock Workers' Strike at Liverpool.

A despatch from London says:—As a result of further chapters in the old story of the Liverpool dock workers' strike, military sailings are again delayed and the repatriation of Canada's soldiers is once more in a state of flux. The Caronia is held up indefinitely. The Megantic, Corsican, and Uruguay were booked to sail on Friday, and the Cassandra on Saturday. What the situation will be after that depends entirely on the whim of the dock workers.

The present strike is more or less in sympathy with the police strike, which has been more successful in Liverpool than in London, and the dock workers threaten to tie up all shipping unless the striking policemen are reinstated.

Transport sailings are not the only ones affected by the labor troubles. Departures of all liners have been postponed from a week to two weeks. It is understood, prominent ship-owners have made the statement that if conditions do not improve they will lay up their vessels for two months to bring the workers to their senses.

GERMAN FOKKERS ARE RULED OUT

Barred From Taking Part in Flying Contest Between New York and Toronto.

A despatch from New York says:—Three German Fokker type airplanes, which were to have been piloted by Canadian and American army officers in the international flying contest, between New York and Toronto on Aug. 25, have been ruled out, it was announced by the American Flying Club. The "planes, which are trophies of war surrendered to the British and American armies, were originally entered, according to a statement by the Flying Club, to demonstrate the superiority of allied models over the best type of German machine. But when a vigorous protest was entered by Captain Bose, of the French High Commission, against what he termed the "Advertisement of German-made goods," the club immediately cancelled the entries.

It is understood that Captain Bose has enabled the French Government for permission to enter three French machines in place of the Fokkers.

MANITOBA WILL HARVEST 45,000,000 BUSHELS WHEAT

A despatch from Winnipeg says:—Manitoba will harvest approximately 45,000,000 bushels of wheat this year, according to an estimate given out by Hon. Winkler, Provincial Minister of Agriculture. He predicts the average yield will be fifteen bushels to the acre. The wheat acreage of the province is said to be nearly 3,000,000 acres.

Estimating the price of wheat at \$2.25 per bushel, Manitoba's wheat crop this year will be worth \$101,250,000, as compared with \$112,700,000 last year, when the yield was 51,000,000 bushels and the price \$2.21 per bushel. Red rust is reported in a number

Western Harvest Two Weeks Earlier Than Average

A despatch from Winnipeg says:—The Free Press crop report indicates that in the sixteen days which have elapsed since the last report, conditions in the Prairie Provinces have changed materially for the better in some sections and for the worse in others. To-day wheat harvesting is general, virtually, throughout the West, fully two weeks ahead of the average date of harvesting since 1905. As seeding was not exceptionally early, it follows, says the report, that the crop has not come to harvest under normal conditions in any of the Provinces.

150,000 ITALIAN IRON WORKERS STRIKE

A despatch from Rome says:—Workmen in iron foundries to the number of 150,000 have struck for higher wages.

At Genoa the launching of the Angelo Bondi, the largest steamer built in Italy since the war, has been postponed owing to the strike.

SOLDIERS' WIVES COMING TO CANADA

A despatch from London says:—British wives of Canadian soldiers now going out to settle in the Dominion now number thirty thousand. The movement initiated by the Khaki College to give special training to these for Canadian life, has been remarkably successful.

H.R.H. the Prince of Wales will review the Boy Scouts while in Toronto. An invitation will be issued by the Canadian National Exhibition to the various Boy Scout councils throughout the province, and it is expected that the gathering will be quite the largest scout gathering ever held in Toronto.

STEAM GENERATED WITHOUT FUEL

LUXOSTAT IS INVENTION OF A CANADIAN SCIENTIST.

Sun's Energy is Utilized by This Device to Produce Power For All Industrial Purposes.

Cool and oil have served many generations, and have added much to the enjoyment, comfort, and wealth of civilization. In the near future the world will not be dependent on the mine and the miner for industrial purposes. Steam will be, indeed now is being, generated without fuel.

The increasing cost and diminishing supplies of fuel directed the attention of manufacturers and scientists to other sources of power, and Dr. Walter J. Harvey, of the Royal College of Science, Toronto, who has devoted a great deal of his time and resources to research work in connection with the application of light and heat to various mechanical uses, invented and developed the Luxostat.

The sun pours its rays towards the earth in a never ending stream, giving heat, light and growth to the earth's surface. This sun energy is equal to 5,000 horse-power for an acre of land. More than 500,000 horse-power on a 100-acre farm. The Luxostat enables us to tap in on this enormous power reserve and convert it into heat, light and motion for immediate use for industrial and other purposes or store it for use on future occasions.

Luxostat, Household Word in Future. Luxostat—an unfamiliar word—a word without meaning to the average person with a working knowledge of the English language, and yet a word destined to become as familiar as "telephone," "automobile," "wireless," "aeroplane," "submarine," and some others which in our father's childhood days were unknown terms, and which now are so common and so intimate a part of our everyday life, that life as we now live it would be impossible without them.

The Luxostat is a system of batteries of reflectors, with a mechanical contrivance by which the reflectors may be individually adjusted and collectively operated so that the rays of sunshine falling on any number of reflectors are directed and concentrated upon one common point. There is practically no limit to the number of reflectors that may be used, and as each added reflector means an average increase of more than ten degrees Fahrenheit in the intensity of heat at the point of concentration, it will be seen that any degree of heat required may be obtained and that the "adjustability" of the Luxostat for heat, power, and lighting purposes are unlimited.

Greatly Reduce Manufacturing Cost. The Luxostat then, producing a great surplus of power, during the periods of sunshine, with a system of electrical storage batteries or water reservoirs, to take care of this surplus, means an unlimited supply of power for industrial purposes, at practically no cost, without fuel, smoke or dirt. Its adoption means a great reduction in manufacturing costs, which seems not only desirable, but imperative at the present time.

The commercialization of this invention means that unlimited power will be available for every purpose. The cost of fuel is entirely eliminated. The Luxostat being almost automatic in its operation, the outlay for labor is greatly reduced, while the equipment, when it is manufactured on a large scale, should cost much less than the ordinary steam plant, developing an equal horse-power.

These facts, which Dr. Harvey has fully demonstrated, should make the Luxostat of vital interest not only to every user of power, but to every user of manufactured goods, and more than all to the governments of the various countries who are suffering acutely from the high cost of living due to post-war conditions.

According to Orders. The doctor consulted his thermometer and looked startled. Then he hurriedly tested his patient's pulse. "Good gracious, man!" he gasped. "What have you been doing? Your temperature is up to danger-point, and your pulse is terrific. Have you been limiting yourself to infant diet, as I told you?"

The patient nodded feebly. "Yes, doctor, I have," he whispered. "During the last twenty-four hours I have eaten three apple-cakes, over a dozen match-sticks, and various buttons; but I find considerable difficulty in chewing the coal."

Ostrich Feathers. Ostrich feathers are made into all sorts of interesting trimming devices. It is quite taken for granted that ostrich should be a dress trimming quite as much or more than a hat trimming, and the French have been especially clever in devising ways to make it attractive.

A Good Mathematician. Nevitt: "They say that the person with a strong imagination has absolutely no head for figures." Barratt: "Don't you believe it. When my wife gets her imagination at work upon her age she can make arithmetic look silly!"

Wash the flatirons in soap and water before heating.

Deeper Than the Ocean

Did you ever hear of a "suboceanic canyon?"

The Hudson River is one. Its bed—worn by the flowing stream—is considerably deeper than the offshore part of the Atlantic.

Another such canyon is the channel of the St. Lawrence. Yet another is that of the Congo. Both are deeper than the ocean near their mouths. The Hudson, with the great bay into which it flows, is a "drowned river." That is to say, it is flooded by an intruding ocean. The bay and lower river compose what would be called in Norseland a fjord.

The Delaware is another drowned river. Chesapeake Bay is another. Long Island Sound is yet another.

Why should these rivers be drowned? What has happened to them?

Well, you see, it is like this: The whole east coast of North America has sunk a good deal in the course of ages, owing to the enormous weight of material brought down by the rivers and deposited on the ocean off shore. But geologists are inclined to think that the melting of glaciers has largely to do with the phenomenon.

Once upon a time a river separated England from France. The rise of the ocean drowned it, and today we call it the British Channel. Another river ran between England and Ireland; it was likewise drowned.

The British Channel, by the way, is a suboceanic canyon, its bottom deeper than the ocean nearby, outside.

From Erin's Green Isle

The late J. L. Barrington, tobacco manufacturer of Dublin, left an estate valued at \$300,000.

Dr. L. J. Curran has been appointed to the staff of the Royal Victoria Eye and Ear Hospital, Dublin.

Alderman W. McCarthy, J.P., and J. J. Cahill have been appointed additional film censors for Dublin.

The Dublin Corporation has appointed Laurence J. Kettle to be electrical engineer for the city of Dublin.

The death took place recently at Waterford of Anne Power, widow of R. Power, formerly M.P. for Waterford City.

The death is announced of Rev. J. M. S. Hyderbad, rector of Roscome, and professor of Irish in Dublin University.

Rev. E. H. Lewis-Grady presided at the girls' brigade drill competitions held in Gregg Memorial Hall, Dublin, recently.

The body of Albert William, a stoker on the M. S. Hyderbad, was found floating in the Liffey, at the north extension wall.

The Agricultural Committee of the Royal Dublin Society have decided to hold a winter fair stock show at Ballsbridge this year.

The parishioners of St. Mathias Church, Dublin, have under consideration the erection of a war memorial to cost \$5,000.

A passport was refused to A. M. O'Mara, mayor of Limerick, to proceed to America to raise money for the improvement of the city.

The Housing Committee has recommended to the Dublin Corporation the appointment of P. J. Dillon as superintendent of buildings.

The terms of the Merchant Tailors' Association have been accepted, and the tailors, machinists and pressers have returned to work.

The parishioners of St. Peter's Church, Dublin, have decided to erect a memorial to commemorate their members who have fallen in the war.

Rev. Gordon T. Clements, of Donore Presbyterian Church, Dublin, was presented by his congregation with the piece of plate on his return from France.

Frank Hannington, who died recently in Madras, India, was one of the most popular men of his year at Dublin University, and won the classical scholarship.

Add a cupful of vinegar to water in which colored clothes are washed. This prevents running.

Place a dish of water in the oven to prevent cakes and pies from scorching.

The standardization of wearable and breakable parts of farm machinery would be a move in the right direction.

Customer—"I want a machine that isn't expensive as to gasoline or upkeep, and one that I needn't worry about in the way of punctures." Automobile agent—"All right. I can sell you either a wheelbarrow or a baby carriage."

A certain rich man did not approve of foreign missions. One Sunday at church, when the offering was being taken up, the collector approached the millionaire and held out the bag. The millionaire shook his head. "I never give to missions," he whispered. "Then take something out of the bag, sir," whispered the collector. "The money is for the heathen."

A "man-size" food —builder of brain and brawn. Mighty good also for women and children.

Grape-Nuts

Made of wheat and barley.

THE CAUSE OF SICKNESS

Almost Always Due to Weak, Impoverished Blood.

Apart from accident or illness due to infection, almost all ill-health arises from one or two reasons. The great mistake that people make is in not realizing that both of these have the same cause at the root of them, namely poor and improper blood. Either bloodlessness or some trouble of the nerves will be found to be the reason for almost every ailment. If you are pale, suffer from headaches, or breathlessness, with palpitation of the heart, poor appetite and weak digestion, the cause is almost always bloodlessness. If you have nervous headaches, neuritis, sciatica and other nerve pains, the cause is run down exhausted nerves. But run down nerves are also a result of poor blood, so that the two chief causes of illness are one and the same.

This accounts for the great number of people, once in indifferent health, pale, nervous and dyspeptic, who have been made well and hearty by Dr. Williams' Pink Pills; for no other medicine ever discovered is so valuable for increasing the supply of rich red blood and giving strength to worn out nerves. Men and women alike greatly benefit from a course of the splendid blood builder and nerve tonic. If your dealer does not keep these pills you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TREES 2,500 YEARS OLD.

Lebanon Cedars Were Centenarians When Christ Was Born.

The famous cedars of Lebanon, tradition says, were planted by God at the creation of the world and that they will endure until the last day. That there was a great grove of cedars on Lebanon in the days of King Solomon there can be no doubt, as it was from them that he obtained the wood for building the temple.

At the present day the grove contains 359 trees, of which only fifteen are of large size. It is the cent - of a great basin in the mountains, 4,000 feet above the sea. A Maronite chapel is on a mound, in the shade of the trees, and here mass is said and on the feast of the Transfiguration a great festival takes place.

Several efforts to calculate the age of the cedars now standing have been made by counting the rings in the heart wood of those that have fallen. These estimates, according to Prof. A. Henry, of the Royal College of Sciences for Ireland, vary from 2,300 years to 2,500 years, although it may be that they are of slower growth than the specimens tested in other countries.

The largest of the cedars is thirteen feet in diameter.

EMPIRE'S COPPER RESOURCES.

Canada, Newfoundland, South Africa and Australia Possess Deposits.

Canada is now the largest producer of copper in the British Empire. In Ontario, and particularly in British Columbia, noteworthy progress in output has been made during the war, and the output for the whole of the Dominion has risen from 34,364 tons in 1913 to 52,864 tons last year. Valuable deposits of copper ore exist also in Newfoundland. In South Africa copper-mining is still more or less in its infancy. Steady progress has been made in Rhodesia during the last few years, and large deposits of copper are known to exist in other parts of the country, but their development depends on results obtained on certain other properties, the exploitation of which has as yet not passed the initial stages.

Queensland is the largest producer of copper in the Commonwealth. Tasmania being second in importance. The output in New South Wales has been seriously reduced during the war, but the copper mines both here and in South and Western Australia should not be allowed to languish for want of the necessary support, while Great Britain continues to import copper from abroad.

The Old-Time Epitaph. Many proverbs are likely due to the tendency of a few centuries ago of putting words together to form rhymes, regardless of truth. An example is this epitaph in an English churchyard:

Here lies the body of Thomas Woodcock, the kindest of husbands and best of men.

Directly beneath is this explanation: His name was Woodcock, but it wouldn't come in rhyme.

Temperature of Leaves. Some recent investigation of the temperature of leaves made in the deserts and mountains of Arizona and in the Santa Lucia mountains of California have resulted in the discovery that leaves show a very rapid change of temperature at times. These fluctuations are almost constantly going on, changes of from one to three degrees C. were observed in from 20 to 60 seconds, and if a moderately strong wind is blowing the change may amount to five degrees in 30 seconds.

Mix blueing with hot water before adding it to the rinsing water and the clothes will not streak.

Roller skates were used in France as long ago as 1819. The first English skate had five narrow wheels in a single row.

BITS OF HUMOR FROM HERE & THERE

Reasoning From Kittens.

Little Edward's twin sisters were being christened. All went well until Edward saw the water in the font. Then he anxiously turned to his mother and exclaimed: "Ma, which one are you going to keep?"

The Invincible Army.

Friend—"How's your boy getting on in the army, Mr. Johnson?" Johnson—"Wonderful I feel a great sense of security. An army that can make my boy get up early, work hard all day and go to bed early can do anything!"

Evidently Not.

Bess—"Somebody passed a counter-feit dime on Rob a year ago, and he hasn't been able to get rid of it since." Maiden Aunt (horridly)—"What! Does that young man never go to church, then?"

Chance to Learn.

"No, Bobby," said his mother, "one piece of pie is quite enough for you!" "It's funny," responded Bobby with an injured air, "you say you are anxious that I should learn to eat properly, and yet won't give me a chance to practice."

When Bill Balked.

Bill wanted to slip out of barracks to see his girl. He couldn't get leave, so he went to his friend, the sentry, and stated the case.

"Well," said the sentry, "I'll be off duty when you come back, so you ought to have the password for to-night. It's 'Idiosyncrasy.'"

"Idio what?" asked Bill. "Idiosyncrasy." "I'll stay in the barracks," declared Bill.

Chinese Wisdom.

Banker Earl C. Dodge, of Boston, who had lived some years in China, said in an afternoon speech:

"Anybody who doubts the wisdom of the Chinese should read their proverbs. The Chinese have a book of 10,000 proverbs, and they're all as wise and true as the first line in the volume, which says: 'It is safer to pull a tiger's tail than to call a lady's attention to her first gray hair.'"

Reg'lar Feller.

Here is a tale, told in London, about the Prince of Wales.

The Prince turned up one day at an officers' mess behind the lines on the western front and asked if he could be favored with luncheon.

"Certainly," replied a bright young subaltern, "but who the devil are you?"

"I'm the Prince of Wales," replied the heir to the throne, with a weary smile, "but for pity's sake forget it."

Sold!

A short run, and she rose in the air majestically, ducking, rolling, and diving in the strong wind. Up, up, and still further up she rose, till she was almost out of sight, and a thrill ran through the spectators.

Suddenly an exceptionally strong gust of wind struck her, and down she came—down, down, and still down, till—crash!—she struck the earth with a dull, heavy thud.

And little Willie ran in to ask his mother for a penny to buy a new kite.

Johnny Knew.

The formidable trustees of the little rural school were paying their dreaded annual visit, and the primary class was being examined in nature study.

"Now children," said the nervous young teacher, holding up an apple blossom, "what comes after this flower?"

"A little green apple," shouted the class in chorus.

The teacher felt that the worst was over. "Good!" she said. "And now, Johnny, can you tell us what comes after the little green apple?"

"Yes!" roared Johnny; "stomach-ache!"

His Fate.

The young man brought some verses to his father. "Father, I have written poems."

"What! Let me see them instantly." The father read them over carefully, the tears slowly welling to his eyes as he did so. Finishing the last one, he threw down the manuscript, folded the boy to his breast, and sobbed:

"Oh, my poor, poor son!" "Are they so bad as that, father?"

"Bad! They are excellent. They are real poetry. My boy, my boy, you will starve to death!"

Medicinal Diet.

In a certain hospital the patients were very badly fed, and looked forward to an inspection, when they could lodge a complaint.

When, one day, the inspecting officer came round, one Tommy was determined not to miss this opportunity. "What's your complaint?" asked the officer.

"French fever." "Oh! And what is the diet?" continued the officer solicitously. "Two sucks at the thermometer daily!" was the answer.

Minard's Lintment Cures Colds, Etc.

The Graves of France.

I saw the silent graves of France Lie tranquil in the night. They seemed as though they were asleep With stars for candle-light.

I thought of all the mourning hearts— The sorrow and the loss. The bright moon painted on each grave The shadow of a cross.

I saw again the graves of France Clear in the morning light. Gone were the shadowy crosses then, That lay there in the night.

For flowers bloomed on every side, The leaves stirred, just to make A murmuring, crooning lullaby, Till time should come to wake.

So lay those dear brave lads, in France And, though to us the loss, To them the glory and the prize Of each white lowly cross.

Understanding English.

Lee Fong was brought before a local justice and fined for breaking the law. The judge had great difficulty in making the Oriental understand, as he feigned entire ignorance of English.

Finally, in desperation, the judge said: "Here, man, do you see? That is one dollar. Pay it—or go to jail."

The Chink still appeared to be unenlightened and the magistrate repeated the question.

"Allow me to talk to him, your honor," burst forth the husky cop who had arrested him. "I'll make him understand."

He officer approached the prisoner and shouted in his ear: "Say, you with the teakettle face, can't you hear anything? You've got to pay a fine of two dollars."

"You're a liar!" shouted back the Chink. "It's only one dollar."

Horses, Men and Elephants.

Tests made to determine the respective pulling power of horses, men and elephants showed that two horses, weighing 1,600 pounds each, together pulled 3,750 pounds, or 547 pounds more than their combined weight.

says Better Farming. One elephant weighing 12,000 pounds pulled 8,750 pounds, or 3,250 pounds less than its weight. Fifty men, aggregating 7,500 pounds, pulled 8,750 pounds, or just as much as the single elephant, but like the horses, they pulled more than their own weight. One hundred men pulled twelve thousand pounds.

Minard's Lintment Cures Disasters.

A Prize-Winner.

At a works not far from Manchester some workmen were bragging about the skill of some of the men at their various jobs. After several had related their experiences, one man said that what he had heard was nothing to the skill of a stone-mason he knew.

The curious part of it was that the mason was a nigger who had only one arm.

"How does he manage it if he has only one arm?" questioned one of the men.

"Why," said the other, "he holds his chisel between his teeth and hits himself behind the head with the hammer."

What Did He Say?

The Pastor—So God has sent you two more little brothers, Dolly? Dolly (brightly)—Yes, and He knows where the money's coming from. I heard daddy say so.

It isn't so much what a man has that makes him happy as what he doesn't want.

SUFFERING CATS!

GIVE THIS MAN

THE GOLD MEDAL

Let folks stop on your feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called Freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of Freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

THE PRINCE OF WALES

YOUNG MAN IS GREATLY BELOVED BY BRITISHERS.

Three Times in the History of Our Country, the Heir to the British Throne has Paid a Visit to the Dominion of Canada. Thus Cementing the Bonds of Empire.

THREE times in the history of the Dominion of Canada, the Prince of Wales has visited our country. When the statesmen in the Mother Country began to realize the Canadian conception of the Empire as a federation of self-governing dominions, they felt more keenly the need of those bonds of affection and loyalty which hold the British Empire in a solid whole. It was the Prince of Wales, afterwards King Edward VII, who first crossed the ocean to visit our young country of great areas, and he did a thing that will probably be imitated by all his successors. The visit of King Edward VII was a

THE PRINCE OF WALES.

rather formal affair, largely because the institution of royalty in England was not as democratic in the middle of the last century as it is today. King George and Queen Mary, then the Duke and Duchess of York, visited Canada immediately after the Boer War, and their tour is still fresh in the memories of our people. It is perhaps not too much to say that Canadians are more excited over the visit of the present Prince of Wales than they were on either of the other occasions. Our experiences side by side with the Motherland in the Great War have cemented our relationship in blood. Then the Prince of Wales is little more than a boy, and a boy always wins more affection and sympathy than an adult. What is more he is a magnetic and manly youth. He was associated with the Canadian Forces in France, and every Tommy who saw anything of him "over there" speaks with admiration of his future king.

The officials who have arranged the Prince of Wales' itinerary in Canada have shown a quite unofficial sympathy with the natural desire of a young man of twenty-five to escape occasionally from the round of public functions. The duties of receiving and replying to addresses, opening buildings and exhibitions, visiting institutions, attending innumerable luncheons and dinners, and exposing himself to the public view will be pleasantly varied by fishing in the Nipigon, that king of trout streams, duck shooting near Regina, moose hunting in Northern Ontario, and mountain climbing in the Rockies. The prince will need these recreations to shake off the fatigue of a Journey of 8,800 miles in seventy days. The tour as outlined will take him into every province except Prince Edward Island—though surely Prince Edward ought to see the Island—and nearly every important city in the country. He is a good-natured prince, and no doubt he will perform his daily and nightly tasks with his habitual smile. He has already served his apprenticeship in ceremonial formalities, and is graced for the ordeal. In his first trip from home, or at least out of Europe, he will have a human interest in new scenes, and would be wanting in imagination if he were not impressed by the vastness of a Dominion over which he some day will reign. But he will be forgiven if he finds a relief in disappearing from the public eye once in a while to enjoy the truly royal sport of the Canadian wilderness.

Origin of a Title.

The eldest son of the reigning monarch of Great Britain and the heir apparent to the Imperial throne is always known as the Prince of Wales. It is the only case in which the title of prince as applied to a member of a royal family is a territorial one, and the story of how it came into existence has been told many times. It is one of the most picturesque incidents in English history. King Edward I, one of the early Empire builders, ended the long series of wars between the English and the Welsh by bringing Wales into the union. In the conference, at which peace was concluded with the people of Wales, King Edward promised to give them a prince who could not speak a word of English. Evidently the prejudices of language existed then as they do today. Any way the offer seems to have pleased the Welsh, but they discovered that the canny old king had played them a trick. It was true that the eldest son of the royal household could not speak a word of English, but when he was presented to the Welsh chieftains, they found that their prince was a new-born baby, who spoke no word of any language.

An opal freshly taken from the mine is so soft that the finger nail may be pressed into it.

LIGHTING COUNTRY HIGHWAYS

We expect to see electric lights strung along the country highways within a few years. Is that expecting too much? Certainly not. Many of us can remember when we took our lanterns and rubbers to negotiate the home-town streets after nightfall. Now we walk on cement, and with its electric light globes up to midnight home-town is almost as light as day. The cost is not considered. We want ed lights in home-town and we have them. In the country, too, there will be electric globes swinging at intervals along every pike road. Where water power is available the current for these lights will cost almost nothing. Where it is convenient the wires will be circuited from central lighting plants. In many cases the farmer's own private lighting plant will be used to illuminate the roadway along his land. There will be a light at every crossroad, at every bridge or culvert, and at every turning. Townspeople will co-operate with the farmers in maintaining these lights and will share the cost, not only because the townspeople use the roads but because they are interested in encouraging the fullest and most convenient travel between country and town. The ancient demand for "more light" is being supplied and the world is becoming a cheerfuller place.—Farm Life.

Someone has most wisely written "Every man should have a graveyard of his own. In it he should bury all his mean thoughts, his hatreds, his animosities, and his evil aspirations—bury them so deep there can be no resurrection. If you hear a bit of malicious gossip, bury it. If you have been nursing a feeling of hatred towards somebody for years, bury it. And when you have finally filled the graveyard with the worst that was in you, then you will find the world and all that goes to make it up a much better place to you than ever before. Occasionally some young man attempts to make the mare go by investing a lot of money in wild oats.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.

Mrs. W. W. Stuart's son, Roderick, was taken to London last week for treatment for a serious case of mastoid. An operation was performed on Monday morning which promises to be a success.

At a business meeting of the directors of the Moss and Ekfrid agricultural society on Saturday the opportunity was taken to extend the congratulations of the board to their popular secretary, R. W. McKellar, on his recent marriage. As a tangible expression the board presented Mr. McKellar with a handsome mantle clock.

In its notes on the Strathroy old boys' reunion the Age says:—A notable reunion of the Lamont family was brought about by the celebration, the six boys and two girls being together once more: John, of Ypsilanti, Mich.; James, of Winnipeg; William, of Detroit; Nathaniel, of Lindsay; Stewart, of Chatham; David, of Glencoe; and Mary and Susie (Mrs. Duncan McKellar), of this town. The family circle is yet unbroken, and their combined ages total 557 years.

PERSONAL AND SOCIAL

—Miss Mae McIntosh of Sarnia is the guest of Miss Grace Daigety.

—Everitt Hunter of Detroit spent the week-end at Rye, N.Y.

—Miss Millie McGugan has returned after spending a week at Port Stanley.

—Miss Sadie Coulthard of St. Thomas is spending holidays at her home here.

—Mr. and Mrs. Thomas Abbott of London spent the week-end at Dr. McIntyre's.

—Miss Ethel Kelly spent last week in Thamesville the guest of Mrs. G. C. Hubbell.

—Dr. and Mrs. G. L. Thompson of Toronto visited at Wm. W. Stuart's last week.

—Mrs. John Hodge and daughter Mary of Windsor are visiting Mr. and Mrs. Thomas Stinson.

—Mr. and Mrs. W. H. Ghent of Toronto are visiting Mr. and Mrs. S. Thompson, King street.

—Miss Aretta Farrow of Windsor has returned home after spending a week with Miss Jennie Reynolds.

—Victor and Harold Thompson of Bothwell are visiting their grandparents, Mr. and Mrs. S. Thompson.

—Rev. and Mrs. George Weir and family of Ridgeway are holidaying at their summer cottage in Muskoka.

—Carrie Gardner has returned home after spending a week with Helen and Virgie Clarke at Tyroonville.

—Miss Jessie Currie has returned home from London after spending three weeks with her aunt, Mrs. Wm. Whitlock.

—Mrs. J. C. Graham and Mrs. D. C. Graham and son Innes are spending a few days with Mrs. F. H. Ross, Detroit.

—Mrs. Crocker and little son, accompanied by Mrs. Southin, left for the former's home at Cleveland on Tuesday.

—Miss M. Leggett returned to her home in Rochester, N. Y., on Thursday after spending a week with Mrs. Thomas Tait.

—Mr. and Mrs. H. P. Jeffery and Miss Ainslie of Blythwood are spending a week with Mr. and Mrs. Mitchell Innes.

—Mr. and Mrs. J. E. Walker and two little sons and Mrs. W. H. Soole of Utica, N. Y., spent Tuesday with Mrs. (Dr.) McIntyre.

—Miss Martha Gordon of Newbury of Newbury has returned home from Moosejaw, Sask., where she spent a year with her brother.

—Mr. and Mrs. Will McCutcheon and daughter Helen and Mr. and Mrs. John Hayter are on a motor trip to Niagara Falls and the Thousand Islands.

—Dr. and Mrs. C. W. Trestrain and daughter Maxine of Battle Creek, Mich., are visiting the former's mother, Mrs. John Trestrain, and other relatives here.

—Mr. and Mrs. E. R. Billing and daughters of Erie, Pa., spent a day or two with Glencoe friends during the week while on a motor trip to Detroit. They were accompanied by Mr. Stern of Erie.

—Mr. and Mrs. Daniel Black, Detroit, announce the engagement of their only daughter, Elmer Cornell, to Ainsley Stewart, second son of Dr. and Mrs. Ainsley Thompson, Elmwood avenue, London, who will take place the latter part of this month.

—Rev. R. Fulton Irwin of Lucknow left on Monday for a trip through the West, in company with his brother, J. A. Irwin of Clinton, who has been in ill health. They travel through to the coast to Vancouver, visiting friends and relatives en route. The Methodistists of Lucknow have granted Mr. Irwin five weeks' holidays.

Further particulars and conditions of the real estate will be made known at time of offering.—Mrs. C. Cummings, administrator; McTaggart & McIntyre, auctioneers.

Fortunate is the man who acquires his knowledge from the experience of the other fellow.

Nature is said to be infallible, yet she gave the rooster a comb but no hair.

DANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly Poisons As A Germ Laboratory.

AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-LIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rashes, Eczema and other Skin Affections disappear when "Fruit-a-lives" are taken to correct Constipation.

"Fruit-a-lives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

SPECIAL NOTICES

Wanted—two girls, at the McAlpine House, Glencoe.

For sale—7 shovels, 3 months old—Avery Gillette, lot 8, con. 4, Moss.

Oak heater for sale; burns coal or wood. Enquire at Transcript office.

Girl wanted to assist with housework on farm.—J. H. Walker, Route 1, Glencoe.

Flour and feed for sale at store corner of Main and McKellar streets.—J. D. McKellar, 234.

Wanted a dining-room girl and a kitchen girl; good wages.—McKellar House, Glencoe.

Business Chances.—Sydney Smythe, business broker, 404 Talbot street, London; phone 1889.

Refrigerator and linoleum for sale; both in good condition. Apply to J. A. Hamilton, Glencoe.

The usual weekly lunches will be resumed in McAlpine Hall on Saturday, August 16th, from 4 to 10 p. m.

A hot supper will be served in McAlpine Hall on Wednesday, August 29, from 5:30 until 7:30. Admission, 50 cents.

Lost—between D. J. Mitchell's, Moss, and Glencoe, on Aug. 5, an auto tire cover. Finder please leave at Transcript office.

Burns church, Moss, will hold their annual picnic in A. L. Munroe's grove on Labor Day, Sept. 1. Dinner served from 1 o'clock to 2:30. Excellent program and interesting sports for all.

Having taken over the flour and feed business of Roy Stidell, we would respectfully solicit a fair share of the public patronage in these lines. Prompt service at a reasonable profit. Alex. McAlpine & Son.

Will the girl who picked up purse at Newbury picnic, belonging to Mrs. Henry A. Oestrike, 244 Park Blvd., Detroit, please leave it at Mrs. Nell Campbell's, Newbury, or phone 83, Glencoe.

One Climax ensilage cutter, nearly new, just half price one 16 h. p. portable gas engine; one 10-20 oil-burning tractor, nearly new; two slightly used grain grinders; some good work horses, and eight or ten second-hand cars. Must be cleaned out to make room for new models coming in next week.—Wm. McCallum.

Worms sap the strength and undermine vitality of children. Strengthen them by using Mother Graves' Worm Extirminator to drive out the parasites.

ARE THE DAYS OF MIRACLES OVER?

IS SUPERSTITION AND FALSE BELIEF TO OVERSHADOW FACTS ANY LONGER?

When a woman who has been sick for years becomes well after taking a certain scientific preparation—can you deny that the remedy must be good?

Read these extracts taken from a letter written to us by Mrs. H. Cross, of 362 King Street West, Toronto:—

"I suffered for several years with inflammatory Rheumatism and could hardly get up or down stairs. My husband bought me a box of Templeton's Rheumatic Capsules, and almost immediately I felt relief. The swellings started to go down and the stiffness left my knees. I might say that previously to using T.R.C.'s I had tried almost everything under the sun without success. I am a happier and wiser woman now, and I cannot thank you enough for the aid T.R.C.'s have given me."

It's the same story from hundreds of other Rheumatic sufferers. They tried T.R.C.'s and T.R.C.'s fixed them up. If you suffer, try them.

Sole Agent for Glencoe, H. I. Johnson, Pharm. B. Drugist, Optician and Stationer, or if you live out of town mail \$1.04 to the above address or to Templeton's, Limited, 142 King Street, West, Toronto, and Capsules will be sent postpaid.

THE LATE MRS. MARK WALKER

(Communicated.)

The late Mrs. Mark Walker was the daughter of John Stitt and Annie Brownlee of the township of Edwardsburg, where she resided for some 40 years. She was married in St. John's church, Glencoe, on November 2nd, 1875. She devoted her whole life to the sacred duties of wife and mother, loved and looked up to by all with whom she came in contact. She was possessed with considerable tact, courtesy and patience, which gained for her the respect of all who knew her. In 1914 she had a very serious attack of heart trouble which never left her, and in 1917 she was afflicted with paralysis which considerably disabled her. She bore her trouble with true Christian fortitude and never for a moment lost her faith in the Judge of all the earth "Who doeth all things well." Nothing was left undone to alleviate her sufferings by her husband, sons and daughter-in-law. All that medical aid and good nursing (regardless of expense) could do was done for her. One of the oldest standard bearers of St. John's church has passed peacefully through tribulation to the Church of the New Jerusalem, "having washed her robes and made them white in the blood of the Lamb." The whole community extend their heartfelt sympathy to the husband, sons and dear ones who mourn her loss from the home circle.

The funeral service was in charge of Rev. T. J. Charlton, rector, assisted by Revs. R. J. Murphy and D. Diamond. The choir of St. John's church, led by Mrs. Humphries, sang solemnly the hymns "Nearer My God, To Thee" and "Safe in the Arms of Jesus." There was a large and representative gathering and many floral tokens of love and respect. The last remains of Ruth Elizabeth Stitt (Mrs. Mark Walker) were laid to rest as the solemn words of the burial were spoken:—I heard a voice from Heaven saying: Write, From henceforth blessed are the dead which die in the Lord. Even so, saith the Spirit, for they rest from their labors."

She climbed the steep ascent to heaven Through sorrow, toil and pain. O God, to us may grace be given To follow in her train.

Voters' Lists, 1919

Municipality of the Village of Newbury in the County of Middlesex.

Notice is hereby given that I have transmitted or delivered to the persons mentioned in Section 3 of The Ontario Voters' Lists Act the copies required by the said section to be so transmitted or delivered to the said persons pursuant to said act, of all persons appearing by the last revised assessment roll of the said municipality to be entitled to vote in the said municipality at elections for members of the Council and at municipal elections, and that the said list was first posted up at my office in Newbury on the ninth day of August, 1919, and remains there for inspection. And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law.

CHARLES TUCKER,
Clerk of the Village of Newbury.

Get your name on file at once for a position in an automobile plant as painter, trimmer, assembler, tester, etc. Increased production warrants steady work at highest wages. Immediate employment offered to a limited number in our body plant, at good wages, building automobile bodies. Get your name on file for a good steady position this winter.

Electric Starting and Lighting

NO car has a better starting and lighting system than that now available to purchasers of Ford Cars.

It is a Ford product, built into the motor—

—a positive starter as reliable as the motor itself.

—a powerful lighting system, uniform under all engine speeds.

On the open models—Touring Cars and Runabouts—it is OPTIONAL EQUIPMENT.

On closed cars—Sedans and Coupes—it is STANDARD EQUIPMENT.

On all models the Ford Standard Magneto also provides ignition independent of the batteries.

See the Ford car with this new equipment.

Ford Runabout \$660; Touring \$690
On open models the Electric Starting and Lighting Equipment is \$100 extra.

Coupe \$795; Sedan \$1175. Closed model prices include Electric Starting and Lighting Equipment. These prices are F.O.B. Ford, Ont., and do not include the War Tax.

Alex. Duncanson, Dealer - Glencoe

Boys and Girls Happy

NO wonder, when they each have a fine new RED BIRD bicycle to bring them health and pleasure. Parents! If your boy or girl does anything to deserve a reward, make it a fine new RED BIRD and it will be the best thing you could give.

Men's and Women's Models, \$52.50 and \$57.50
Girls' and Boys' Models, \$45.00

CASH OR CREDIT
\$10 Down Brings a wheel to your station, all charges paid. The balance you pay in small monthly or weekly instalments.

It's a RED BIRD You Want

Think of sending along your first payment and then a day or so later strolling down to the station and claiming a carefully-made crate, addressed to you. Then unpacking it at home and bringing out your beautiful RED BIRD bicycle—all lustrous in handsome maroon enamel, trimmed with bright sparkling nickel—everything in place, trim and ready to run a thousand miles or fifty thousand.

Let us send you free illustrated catalogue. We carry the largest stock of parts and accessories and have the biggest repair shop in Western Ontario. Write or phone at our expense if you want a RED BIRD at once.

CHAPTER X.—(Cont'd.)

"Look at her, Miss Denby," Mrs. Cobb began resolutely. "I'm a plain woman, and I always speak right out. And I'm your friend, too, and I ain't goin' to stand by and see you made a fool of, and not try to lift a hand to help. There's somethin' wrong here. If you don't know it, it's time you did. If you do know it, and are tryin' to keep it from me, you might just as well stop right now, and turn round and tell me all about it. As I said before, I'm your friend, and if it's what I think it is—you'll need a friend, you poor little thing! Now, what is it?"

Helen shook her head feebly. Her face went from white to red, and back again to white. Still determined to keep her secret if possible, she made a brave attempt to regain her old air of manner.

"Why, Mrs. Cobb, it's nothing—nothing at all!"

"Nothin' isn't it?—when a man goes kickin' off ter Alaska, and sendin' his wife ten thousand dollars ter go somewhere else in the opposite direction! Maybe you think I don't know what that means. But I do! And he's tryin' to play a mean trick on you, and I ain't goin' to stand for it. I never did like him, with all his fine, lordly airs, a-thinkin' himself better than anybody else who walked the earth. But if I can help it, I ain't goin' to see you cheated out of your just deserts."

"Mrs. Cobb!" expostulated the dismayed, discomfited wife; but Mrs. Cobb had yet more to say.

"I tell you it's a mean trick, and as for pickin' up off with a measly ten thousand dollars, they shan't—no, no, no!—they shan't try to bring you off with a measly ten thousand dollars, no, no, no!"

"What's all this, Helen?—you're talkin' to me as if I was a fool, and I ain't goin' to let you do that. Why we never thought of such a thing; not for—er—always, the way you mean it."

"What is it, then?"

"Why, it's just a—er—playday," stammered Helen, still trying to cling to the remnant of her secret. "He said it was a playday—that I was to go off and have a good time with Baby."

"It's just a playday, why didn't he give it to you ter take it together, then? Tell me that!"

"Why, he—he's going with his father."

"You bet he is," retorted Mrs. Cobb grimly. "And he's goin' to keep with his father, too."

"What do you mean?" Helen's lips were very white.

Mrs. Cobb gave an impatient gesture.

"Look at her, child, do you think I'm blind? Don't ye s'pose I know how you folks have been gettin' along together?—er, rather, not gettin' along together? Don't ye s'pose I know how he acts as if you wasn't the same breed of cats with him?"

"Then you've seen—I mean, you think he's ashamed of me?" faltered Helen.

"Think it! I know it," snapped Mrs. Cobb, ruthlessly freeing her mind, regardless of the very evident suffering on her listener's face; "and it's just made my blood boil. Time an' again I've thought of speakin' up an' tellin' ye a full-wouldn't stand it if I was you. But I didn't. I ain't no hand ter butt in where it don't concern me. But ter see you so plumb felled with that ten thousand dollars—I just can't stand it no longer. I had ter speak up. Turnin' you off with a beggarly ten thousand dollars—and them with all that money! Bah!"

"But, Mrs. Cobb, maybe he's coming back," stammered Helen faintly, with white lips.

"Pshaw! So maybe the sun'll rise in the west tomorrow," scoffed Mrs. Cobb; "but I ain't pullin' down my winder shades for it yet. No, he won't come back—ter you, Miss Denby."

"But he—he don't say it's for—er—all time."

"Course he don't. But, ye see, he thinks he's lettin' ye down easy—a-sendin' ye that big cheque, an' tellin' ye ter take a playday. He don't want ye ter suspect, yet, an' make a fuss. He's countin' on bein' miles away when ye do wake up an' start somethin'. That's why I'm a-talkin' to ye now—ter put ye wise ter things. I ain't goin' to stand by an' see you bamboozled. Now do you go an' put on your things an' march up there straight. I'll take care of the baby, an' be glad to, if you don't want ter leave her with Bridget."

"I'll be up there?" Helen's voice was full of dismayed protest.

"Sure! You brace right up to 'em, an' tell 'em you've caught on ter their little scheme, and you ain't goin' to stand for no such nonsense. If he wants ter git rid of you an' the baby, all well an' good. That is, I'm takin' it for granted that you wouldn't fight it—the divorce, I mean."

"Divorce!" almost shrieked Helen. "But that he's got ter treat ye fair and square, an' give ye somewhere near what's due ye," went on Mrs. Cobb, without apparently noticing Helen's horrified exclamation. "Now, don't cry; and, above all things, don't let 'em think they've scared ye. Just brace right up an' tell 'em what's what."

"Oh, but Mrs. Cobb, I—I—" With a choking sob and a hysterical shake of her head, Helen turned and fled down the hall to her own door. Once inside her apartment she stumbled over to the crib and caught the sleeping Dorothy Elizabeth into her arms.

"Oh, Baby, Baby, it's all over—all over," she moaned. "I can't ever be a daintily gown'd wife welcome him to a well-kept home now. Never—never! I can't welcome him at all. He isn't coming back. He doesn't want to come back. He's ashamed of us, Baby, ashamed of us!"

Dorothy Elizabeth awoke from her nap and convulsively clutched in a pair of nervous hands, began to whimper restlessly.

"No, no, Baby, not of you," sobbed Helen, rocking the child back and forth in her arms. "It was me—just me he was ashamed of. What shall I do, what shall I do?"

"And I thought it was just as he said," she went on chokingly, after a moment's pause. "I thought it was a vacation he wanted us to take, because we've got on each other's nerves. But it wasn't. Baby—it wasn't, and I see it now. He's ashamed of me. He's always been ashamed of me, way back when Dr. Gleason first came—he was ashamed of me then, Baby. He was. I know he was. And now he wants to get away—quite away, and never come back. And he calls it a vacation! And he says I'm to have one, too, and I must tell him all about it when he comes down next week. Maybe he thinks I will. Maybe he thinks I will!"

"We won't be here, Baby—we won't go anywhere—before he gets here," she raved, burying her face in the baby's neck and sobbing hysterically.

PASSING OF THE GIANT BIRDS.

The Last of the Really Big Birds in Danger of Extinction.

The really big birds seem doomed. There was the "roc" of Sindbad the Sailor, which scientists have identified with a huge fowl, standing ten feet high, that certainly survived in Madagascar (to which it was native) as late as the early middle ages. Arab navigators, voyaging down the east coast of Africa, saw it alive, and brought back stories about it that gave birth to such accounts as are given in the "Thousand and One Nights." A few of its eggs, dug out of clay banks, are preserved to this day.

Then there was the "giant man" of New Zealand, which, while by no means as tall as the "roc," was heavier, a full-grown specimen weighing 1,600 pounds. There were, however, a number of specimens of man, some bigger than others. A striking characteristic of the bird was its massive legs. It was therefore sluggish, and not being able to fly, was soon exterminated after the white man appeared on the scene.

The last of the moas perished probably less than 200 years ago. Sharing the fate, at about the same period, was the dodo—a bird by no means comparable in size, yet a giant of its kind. It was a huge species of pigeon, native to the island of Mauritius. Flightless, stupid and helpless, it had the additional misfortune of being good to eat. So it passed away.

We have still the ostrich, but its feathers have gone out of fashion and it is disappearing. Were it not for the fact that the French Government maintains an ostrich preserve of great extent in Africa, the species might soon become only a memory.

There is in South America a giant bird sometimes called the "American ostrich," that is not really an ostrich at all. It is the "rhea," most plentiful in Uruguay and Argentina, and when full grown attains a stature of five feet.

The rhea produces feathers that have long been an important article of export from the countries to which it is native. But at the present time it is seriously threatened with extermination. This is especially a pity, inasmuch as it is a gentle fowl, readily tamed and might be profitably reared under domestication.

"Forget the hurt. Who carries a grudge, carries a handicap," Jean Blewett.

EXPANDING CANADIAN TRADE

Canadian Voyager under Direction of Canadian National Railways, clearing for the West Indies from Montreal, July 10th, with a cargo of general merchandise. She is scheduled to return with sugar.

Is Your Hard Work Necessary?

Sometimes I wonder if a great deal of the sympathy we extend to overworked women isn't wasted. I do not mean that there are no women who are really forced to do work beyond their strength. For those I have the truest sympathy. But the women who groan the loudest, it seems to me, are women who could seem to their work fifty per cent. easier if they so desired. I often think they go out of their way to do unnecessary things so that they can tell about it and beg for sympathy. They seem to enjoy the martyr role so hugely, I'm almost positive they deliberately overwork.

I have in mind one farm woman who for twenty-five years has carried the water a distance of forty rods. More than that, she has pumped it up with an old wooden pump, hasn't even had a windmill. Of course the water had to be pumped for the stock in the same way, but I'm not just now concerned with the man's part of the story. Times have been none too prosperous for this couple, until the war. Then war prices on their specialty went away up and the cheques they received were beyond even their wildest fancies.

At once the husband wanted to buy a gas engine and install water in the house. He saw a let-up on that twice daily pumping of water for the stock, and his wife freed from the extra work of carrying water. But the wife wanted a parlor! To be sure, she was moaning all the time about how hard she worked keeping up the rooms she already had. But the neighbor across the road had a parlor and living room, both, while our heroine had only the living room. Husband dwelt on the delights of getting water just by turning a faucet. Wife held fast to the notion of having a parlor to usher the preacher into when he called. Husband sang the praises of modern plumbing and held forth on the merits of a whole bathtub of water to splash in, as against a half pint in a basin on Saturday night. Wife arose to heights of eloquence on the necessity of having an extra room for the baby grand piano she was hoping to buy next year. Husband pointed out that she hadn't anything to put into the parlor unless she took everything out of the living room. Wife explained patiently that she meant to have new stuff. Husband roared that furniture and rugs were double their real value and lumber and labor ditto. Wife clung like a barnacle to the main issue, the absolute necessity of having a parlor.

They have the parlor. Husband continues to pump water for the stock, but from the day when he gave the carpenter the order to start building he has never carried a pail of water into the house. When the wife asks him if he can't help her that little bit and complains of how tired she is, he politely suggests that she go into the parlor, lie down on the davenport she is going to get next year and take a nice rest.

Of course, this is an exceptional case, but it is by no means a lone illustration of the fact that many of the things women do are entirely unnecessary. There's the idea of littering mantels and piano with bric-a-brac and photographs. The custom certainly adds nothing to the artistic atmosphere of the room, rather, it detracts from it. One vase, a bit of pottery, a growing plant or a bowl of flowers give the touch we crave. But an accumulation of worthless trinkets make the place a nightmare and add an hour to the dusting time.

One woman woke up to the absurdity of overdoing by the action of her twelve-year-old boy. It was a home where two maids had been employed always until the war. Then it became impossible to keep more than one, and finally that one departed. The mother delegated to the children the task of keeping their own rooms tidy.

This particular boy had a large collection of photos of friends and spots he had visited stuck all over dresser and desk and bookcase.

"Do these things have to be dusted?" he inquired.

"Certainly," said his mother. "Nelly dusted them every morning, and you will have to do it, too. The dust settles on them as much as it does on furniture, and it has to be taken off."

That morning the pictures disappeared from the dresser. The next day those from the desk were put into a drawer. On the third day, two remained, father's and mother's photos on the bookcase. But on the fourth day even these went into retirement.

"I see you folks anyway, and it seems kind of silly to keep your pictures sticking around," he explained cheerfully. "Besides it saves lots of dusting."

The mother immediately took stock of her own rooms. To be sure, good taste had kept her from overloading them, but there were still a good many things which could be removed and never missed. All the furniture with carving was relegated to the attic or sold at good prices. Furniture with few lines and no tufted upholstery replaced the old sort, which meant so many hours a day in keeping clean.

The dining room, too, went through a change. She discovered that it took exactly fifteen minutes extra to entirely clear the table, remove the silence cloth and put on a lace centerpiece. So she compromised by leaving on the tablecloth and placing a small doily and fern dish on this. Everything came off the plate rail and went into the china cabinet, and finally a carpenter called to remove the plate rail.

Needless to say, unnecessary cooking followed unnecessary dusting. Food experts told her that the family needed certain food elements, fresh fruit or vegetables, cereals, meat, eggs, milk, fish or other proteins, sugar fats and mineral matter. The family thought it had to have fancy salads, clear soups, pies, French pasty, chops and steaks. She decided that plain bread and butter, potatoes, vegetables in season, plenty of milk and eggs, a roast that needed little watching, fruit, minus pie crust, and an easily prepared sweet would keep the family in shape and be much less work for her. So the change went through.

This woman, who never before did her own work, has gotten through for six months with only the help given her by her children, and so far has not complained of overwork. She estimates that the unnecessary things she hired maids to do have cost her in the neighborhood of one thousand dollars a year for fifteen years.

"That \$15,000 dollars rightly placed would insure my future and educate my children if I should be left penniless to-morrow," she says. "Believe me, I shall spend no more money in future for things I'm better off without."

Laundrying Wash-Silks and Pongees. Wash-silks and pongees are so popular for making of waists, skirts, etc., that the proper method of laundering these materials should be more generally understood. That the usefulness of such fabrics is greatly prolonged by proper care in laundering is such a well known fact, the following directions may prove of interest to many readers.

Soak the silks in warm water and

sopsuds for a few hours, then squeeze rather than rub them to get out as much dirt as possible in this first water. Wring as dry as possible by pressing with the hands. To wash the silks, have ready the warm water and sopsuds—never hot water, as that is ruinous to the finish of the fibres. Squeeze the material through the hands until the dirt is loosened, then rinse, once in warm water and once in cold. The last rinsing water should contain some gum-arabic water, about a teaspoonful to every quart of water. This helps to restore some of the dressing that has been washed away. The silk should then be pressed dry between the hands and rolled in cotton cloths. Spread the silk out flat, right side up on the board. Place over it a piece of cheesecloth, and run the iron quickly over it, so that it will absorb most of the moisture, remove the cloth and then press the silk smooth. Always follow the warp threads in ironing silks; otherwise the garments are bound to be misshapen. The silks should never be allowed to dry before ironing; the ironing should be done shortly after they are rolled in the cloths.

Flowers at the North Pole.

That one should find sweet blossoms in the ice-bound dreary wastes of the North Pole, seems incredible. It is, nevertheless, a fact that there the explorer has found many thousands of acres of buttercups, heather, bluebells, dandelions and rhododendrons. It is a veritable garden on top of the earth, a land of exquisite beauty at seasons, as well as of midnight sun. June brings the first warm, bright rays of the sun. The Eskimo housewife starts spring cleaning, and soon the flowers begin to show, even up to the most northern point of land in the world, 380 miles from the Pole. A botanist has collected over 125 species of plants and flowers on the roof of the world. Even large, delicious mushrooms are there, while orange-colored lichens are in abundance. And, strange to say, all with but a single exception, are perfectly odorless. Thousands and thousands of acres of flowers, and yet no perfume.

Odors Affect Singers' Voices.

Flowers are said to have a remarkable effect on the voice. One famous singer never cared to smell a rose; he said the perfume of a bouquet of flowers made his throat "off singing for a week." In several cases well known singers have suffered from the odor of tuberoses, and a famous opera singer declares that the odor from a bunch of violets makes his voice quite husky.

Mindard's Lintment Cures Diphtheria.

AGENTS WANTED TO SELL Foster Oil Burners

We want a live man in every district to demonstrate and sell a proved coal-oil burner. Fits any coal-burning range. Cheaper than gas or coal, and has no pressure tanks or holes to block up. No dirt, no smoke, no odor. A real money-making proposition for a hustler.

DOMINION MFG. CO., 115 Balmoral Ave., E. Hamilton, Ont.

MAKING THE DESERT BLOOM.

Turning Into Account the Waste Areas of Great Britain.

We have learned during the past five years that there is hardly any land in England which cannot be made productive. But there are tens of thousands of acres in England which have never been cultivated, great wastes which are regarded as bad land.

Can these be made to grow crops? Can they be turned to account, and make us less and less dependent upon outside sources for the "bread of life?"

Professor Somerville, of Oxford University, has been experimenting to prove what national advantage would accrue from judicious expenditure of capital on some of the poorest land in England. He worked almost entirely with basic slag, together with the natural manures of the stock on the land.

The land improved 100 per cent., and after three years the land had fed 50 per cent. more stock, and the stock itself became much more valuable. His first crop was oats, 16 bushels to the acre, and wheat 12. Five years after taking possession the results were 51 and 37 bushels respectively.

As an indication of the increased yield after one year's farming on this "bad land," the grain sales were \$150 after six years they had risen to \$3,200. Such results speak for themselves, and prove conclusively that there is only a very small proportion of land in England which is not eventually capable of fertility.

Developing Pineapple Industry.

In the Hawaiian Islands the pineapple industry has during the last few years experienced considerable development, causing it to rank second to that of sugar. At present there are about 7,000 acres planted with pineapples.

From the Sunset Coast

William Parker, one of Vancouver's pioneers, died recently at the age of seventy-five.

Lieut. O. Scott, who went overseas with the First Canadian Contingent, in October, 1914, has returned to Vancouver.

A reredos costing \$1,500 is being erected in St. John's Church, Victoria, in memory of the fallen heroes, the work being done by returned men.

Brigadier-General R. F. Clarke, D.S.O., M.C., has assumed charge of military affairs in District No. 11, B.C., and is now acting as representative of G.O.C., M.D. No. 11.

Dr. J. A. J. McKenna, one of the members of the Indian Commission, who has been living at Victoria since the completion of the commission's work, died suddenly, aged 52 years.

The death of Capt. Wm. Sprague, one of the best-known master mariners of the coast, took place at Vancouver, after an illness lasting about six months, at the age of 75 years.

George Cunningham, a prominent pioneer roadhouse keeper at Mayo Landing, Yukon Territory, is dead of tetanus following blood poisoning. He leaves a wife and six children.

An hour after the steel steamer Canadian Trooper was launched at the Wallace Shipyards, the schooner "C-37," one of the vessels being built for the French Government, was launched at the Lyall Shipyards, Vancouver.

The large Bird Society meeting at Vancouver decided to hold a bird exhibition on a large scale for the province.

With Mr. Justice Murphy as president, a Repatriation and Community Service League has been formed at Vancouver.

The Wallace Shipyards, Vancouver, are considering the construction of a drydock in connection with their shipbuilding plant.

A poultryman's union has been organized and incorporated, in British Columbia, to insure the expansion of the industry.

Strong condemnation of the strike's committee in permitting the electric light plant and other plants depending upon electricity to continue operations only by grace of the strike committee has been voiced at Fernie by the citizens.

There have been received 2,545 applications for land at the Vancouver office of the Soldier Settlement Board, and of this number already 1,304 have been approved for loans. In all only 56 men were definitely turned down by the qualification board.

The Trust.

"Over the graves where our heroes lie buried,"

Maples have flung their bright mantles to guard

Every dear comrade asleep from his labors,

Wearily with fighting, with watchings and ward,

Memories gather around the green leaflets,

Trembling with love and delight as of yore,

Echoing voices resounding among them,

Sisters, and sweethearts, and pines galore!

Every breath blowing across these green graves, will

Carry a message from us far away, Breathing a prayer for their happy awakening,

And of the joys at the break of the Day.

Vinyl! The trust we now place on your shoulders,

Faithfully hold till the end of all time,

Maples will shed their winged seeds to enrich you,

Honor you always, with sweetness at time.

In the Cool of the Day.

In the cool of the day, as we rest,

We think of the work we have done, Of the hurry, the sweat and the zest, The faithfulness and heat of the sun

In the cool of the day, we retrace, In our thoughts, the ways we have trod;

And we're proud that we held to the pace, And rode over the mountains rough-shod.

In the cool of the day, we look back On the faces we met by the way; Of the eager, the proud and the slack, The young and the venerable grey.

In the cool of the day, as we rest, There looms from a fast-fading shore,

The face of the one we loved best, Who has gone but a little before.

In the cool of the day, there is peace And joy for a task nobly done; The day's trivial interests cease, With the last full raps of the gun.

What We Should Eat.

Seventeen ounces of food daily are said to be sufficient for a man of sedentary occupation, thirty ounces for a man doing hard work, and forty-five ounces for one who works very hard physically.

New houses, prior to the war, covered some 1,163 acres in London and suburbs on an average every year.

Benson's CORN STARCH

For Tomorrow's Dessert

The question of variety in summer desserts never troubles the woman who knows the possibilities of Benson's Corn Starch, the choicest product of the corn

Benson's Corn Starch is equally fine for crisp, delicate pastries as it is for simple puddings; it is good for cakes and for pie fillings to say nothing of Blanc Mange, Custards and Ice Cream.

Try one of these recipes for tomorrow's dessert—

Write for Book The Canada Starch Co. Limited - Montreal.

ONE GOOD TURN DESERVES ANOTHER

The way the people of Glencoe showed their appreciation of our last Big Sale, is directly responsible for this Great Event. Any shoeman will tell you that during the past fortnight shoe factories have announced an advance of \$1, \$2, \$3 and even \$3.50 per pair. In spite of the \$2 jump that shoes have taken already, we offer nearly 1,200 pairs of Fine and Heavy Shoes for Men, Women and Children at less than today's cost of material and workmanship. A few of the attractive lines listed below.

Men's Dark Mahogany Bal—\$7.48.

Men's Black Gun Metal Bal—\$5.95.

Women's High Top Dark Mahogany—\$7.50.

See display of White Oxfords and Pumps at cut to the limit prices.

W. H. PARNALL NEWBURY

The Transcript.

THURSDAY, AUGUST 14, 1919

CASHMERE

Mrs. Perry Sutton and her mother, Mrs. Marcus, are visiting the former's sister, Mrs. Henry Willick.

Mrs. Davis of Detroit is visiting relatives in this vicinity.

Maxwell Parr of Melbourne preached in the church here on Sunday in the interests of Canadian Brotherhood of Canada. A collection was taken up for the stricken children of Serbia.

A number from here attended the celebration that was held in Newbury on August 6th in honor of our soldier lads who so gallantly did their "bit." There were 14 or 15 medals given to the boys here, all being signed up within the distance of about two and a half miles.

Mr. and Mrs. Parr and son and daughter of Melbourne spent Sunday with Mr. and Mrs. Charles Tunks.

Mr. and Mrs. Cyrus Smith and Mr. Storey spent a few days in Dresden last week.

Mr. and Mrs. D. Smith of Bothwell spent a few days with their daughter, Mrs. Will Saylor.

Melvin Stiller of Detroit and Clarence Tunks of St. Thomas were home for the monster soldier celebration at Newbury August 6th.

Lyle Schweitzer of Chatham is visiting his uncle, Wilkie Taylor.

Mr. and Mrs. Blais Reycraft of Mosa spent Sunday with Mr. and Mrs. Chas. Tunks.

Miss Rillie Wood of Morpeth returned home on Sunday after spending a few days with her aunt, Mrs. Fred Jeffery.

Gold deposits have been discovered in the Abitibi region on the shores of Lake Kienawick, on the farm of a Polish settler when he was cultivating. He has just sold out his claim to a British company for \$550,000.

NEWBURY

Mr. and Mrs. R. B. Brehaut of Toledo spent a few days recently with her cousin, Mrs. Matt. Armstrong.

Mr. and Mrs. Will Cornell of Detroit visited Mrs. Yates a short time ago.

Miss Nellie Archer of Detroit is spending a few weeks with Miss A. L. Tucker.

Mrs. Sinclair is visiting Detroit friends.

Miss Janet Picken of Ridgeway is the guest of Mrs. Will Bayne.

Mrs. Risk of Detroit and Mrs. Dobbyn of Florence visited at G. D. Dobbyn's this week.

Fred Callan spent Sunday in town, being on his way home to Minnesota after a purchasing trip to New York.

D. J. Batsner spent last week in Des Moines, Iowa.

G. L. Murdoch and friend, W. Hawke of Toronto, took a motor holiday trip through some of the eastern cities last week.

Jim Brennan is taking Mr. Murdoch's place in the bank during his absence.

Dr. Owens has been on a vacation, spending last week in Detroit and the previous week in Denfield.

Mrs. Nancy Bracken, Miss Eliza and Percy Bracken of Calgary visited friends in town this week.

Miss Pearl Robinson was home from Port Stanley a few days last week.

There was no service in Knox church on Sunday owing to Rev. J. Malcolm being away.

Mrs. George Fennell and baby Mary of British Columbia are visiting Misses Jean and Lydia Fennell.

John Gray, grandson of Mrs. Dixon, arrived home from overseas Friday evening.

Mrs. Parish left on Thursday for London, where she would remain a few days before going home to Ottawa.

Miss Jessie Gray of Detroit is spending her vacation at her home here.

Miss Freda Dobbyn of London is visiting her grandmother, Mrs. Lamb.

Christ church will be closed Sunday owing to Rev. R. J. Murphy taking his vacation.

Mrs. Elwood of Windsor is visiting her sister, Mrs. Glennie.

APPIN

Appin's monster garden party, held on the evening of August 6, proved to be bigger and better than ever.

The largest crowd in its history listened attentively to what was conceded to be the best program yet put on by the committee of management.

The gross receipts of the afternoon and evening amounted to \$1,445, from which a handsome surplus will be realized to apply to the park improvements.

Gate receipts alone amounted to over \$800.

Miss Mayme Rankin is visiting in Windsor.

It is usually safe to say that when a child is pale, sickly, peevish and restless the cause is worms. These parasites derange the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food.

Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Wedding cake boxes at The Transcript office.

CAIRO

Rev. M. P. Craig of Dungannon, a former pastor here, made a brief visit here on the 12th inst.

Mrs. Heath of Windsor is visiting at the home of Mr. and Mrs. J. A. Wehlann.

Mr. and Mrs. Will Curran of Chatham visited at the home of his brother John and called on other friends during his stay here.

Mr. and Mrs. W. H. McKeown and daughter, Miss Mona, accompanied by Mrs. Ida Hayward, motored to Sarnia on the 9th.

George Miller is engaged sinking wells in this vicinity. His method of pining with tile (his own discovery) is cheaper.

The oat crop is light and potatoes are almost a total failure in this locality.

C. P. Smith of Detroit arrived yesterday and will spend his holidays with friends here.

Mrs. Stuart Smith and little daughter of Detroit left during the week to visit friends at Inwood.

MELBOURNE

William Jeffery and Walter Gould have each purchased a new piano.

Mr. Carruthers of Toronto spent a short time in this village recently.

The Longwoods Road west of the village is being repaired by a quantity of new gravel being put on.

A number of auto accidents have occurred recently within a short distance of half a mile. What might have proved to be a very serious accident occurred to Mrs. Wren of Detroit, who is visiting friends in Ekfrid.

A rod under the car which was being driven by her brother, Richard Eaton, broke, causing the auto to leave the road.

When on the brink of a deep ditch it collided with a fence post, which held the car from going over into the open ditch.

Mrs. Wren, however, was thrown from the seat and through the windshield, cutting her face and fracturing her kneecap.

A number from this village attended the annual garden party at Appin on Wednesday last.

Mr. and Mrs. Grey of Ayr are visiting with the latter's parents here, Mr. and Mrs. Seabourne.

Mrs. and Miss Cornelle have returned home after a short visit with London friends.

Maxwell Parr addressed the Epworth League here on Thursday evening, and preached in the Wardville Methodist church on Sunday last.

Harry Munce has improved his home by erecting a new verandah.

Mrs. Bennett of Strathroy has returned home after spending a few days with her father here, George Sponenburgh.

Miss McGugan spent a few days with Miss Sponenburgh here.

Mr. and Mrs. W. G. Robinson and family are holidaying at Mt. Carmel, the guests of Mr. and Mrs. Watson.

Mrs. James Collier, who has been ill for a few days, is improving, although still confined to her room.

Chopping Tuesdays, Thursdays and Saturdays.—W. R. Stephenson, Appin.

Wedding invitations printed in the latest style and with neatness and despatch at The Transcript office.

MIDDLEMISS

Arthur Wrightman has purchased a lot in town.

Mr. and Mrs. E. Newman have moved to Chatham, where Mr. Newman has secured a job with the Gray-Dort company.

Gordon Richards is seriously ill with typhoid fever.

John Burdon had his Ford towed to Dutton on Friday to undergo some repairs.

Riverside anniversary on August 24 and social on Monday evening, August 25. The usual big crowd is expected. See the bills.

C. T. Halpin has purchased a farm tractor and plow from J. A. McDonald.

Mrs. J. Hare has purchased the Wrightman blacksmith shop and has erected it on her lot for a modern hen-house.

Mr. Wrightman contemplates going into the building business.

P. Campbell shipped a carload of fine cattle from here last week.

D. Love of the Home Bank staff is holidaying for a few weeks.

Miss Logan of Alvinston paid a flying visit to this burg a week ago.

The recent local showers will benefit the wilting corn fields very much.

The village pathmaster, Geo. Lucas, intends making some nice improvements on the sidewalks, which are much needed.

Our local gardener, C. Miller, is now delivering melons, beans, potatoes, etc.

Mrs. Prizer of Rochester, N. Y., and I. Smith of Glencoe made a call at J. A. McDonald's on Friday.

L. Clark has purchased a cabinet Victrola.

Alex. Battin's cottage looks well with the new coat of paint.

Mr. Manshon of Ekfrid called here Saturday on his way to St. Thomas.

Asthma is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvellous preparation, Dr. J. D. Kellogg's Asthma Remedy.

For years it has been relieving and curing the most severe cases. If you are a sufferer do not delay a day in securing his remedy from your druggist.

EKFRID STATION

Mr. and Mrs. Wm. Switzer and John and Mrs. Ben Switzer motored to St. Marys and spent the week-end. They were accompanied home by Miss Sadie Switzer, who has been spending the holidays with friends there.

Hiram Winger has purchased a Chevrolet car.

Mrs. D. A. Campbell and Marion and Margaret visited in Strathroy recently.

Mr. and Mrs. George Smith spent a day with friends in Alvinston recently.

Misses Annie Black and Jessie Gray of Melbourne were recent visitors with Mr. and Mrs. George Smith.

Hert Merritt of Detroit has returned home after visiting with his aunt, Mrs. Hugh Black.

Mr. and Mrs. Sam Lethbridge and Mr. and Mrs. W. G. Lethbridge and son George of Fingal were recent visitors at Mr. and Mrs. Will Cornell's.

Mr. and Mrs. R. C. Marsh of Toledo visited with Mr. and Mrs. Will Cornell recently.

Miss Vera Black and Hugh Beales are holidaying in Windsor.

Misses Ella Galbraith of Drumbo, Jeanette Galbraith of Lansing, Mich., and Mary Jackson of Jackson, Mich., are spending their holidays with Miss Annie Galbraith.

Will Cornell was successful in receiving first prize on oats in the standing field crop competition.

Mrs. Colin Campbell and daughter Mamie spent a few days at Cyrus McTaggart's.

Mrs. Margaret McTaggart was taken suddenly ill on Saturday but is some better.

A large number of friends and neighbors gathered at the home of Mr. and Mrs. Dunc. McCallum on Tuesday evening, August 5, to do honor to some of our returned soldiers by presenting them with a token of remembrance for their service while overseas.

During a lengthy program, which was well enjoyed, Pansy McGugan, Lorne McCallum, Dunc. Black and Harold Payne were called forward and presented each with a purse of money containing \$25.

Mr. McGugan made a suitable reply. Afterwards lunch was served and everyone dispersed, having had a very enjoyable time.

ELMSVILLE

Mr. and Mrs. Morrison and Mrs. Johnson of Brooke visited with friends in this vicinity on Sunday.

Mrs. Edith Plaine spent Sunday with Mr. and Mrs. Will Hillman.

Mr. and Mrs. Fred Baldson and Miss Jean Plaine, he returned to St. Thomas after spending a week with their parents, Mr. and Mrs. Plaine.

Miss Edith Moran, who was removed to the London hospital, is improving.

James Moran and John Brennan attended a picnic at Springbank on Friday.

A number from here attended the celebration at Newbury on August 6.

A slight frost on Friday night made the cucumbers look rather dead.

A Sure Corrective of Flatulency.—When the undigested food lies in the stomach it throws off gases, causing pains and oppression in the stomachic region. The belching or eructation of these gases is offensive, and the only way to prevent them is to restore the stomach to proper action.

Farmelee's Vegetable Pills will do this. Simple directions go with each packet and a course of them taken systematically is certain to effect a cure.

MOSA

J. F. Pack and Miss Olive Pack of London called on friends in this vicinity last week.

Mr. and Mrs. Saunders and Mr. and Mrs. LeRoy of Detroit have returned home after spending a week at M. A. McIntyre's.

Miss Isabel McAlpine of Shields and Mrs. McAlpine of Kerch visited at A. B. McLachlin's last week.

Miss Katie McAlpine of Shields and Miss Katie Leitch and Mrs. Murphy of Strathroy visited at A. B. McLachlin's on Sunday.

Messrs. Mitchell and Munro were sent from the No. 9, Mosa, U. F. O. club as delegates to the convention at Strathroy on Saturday.

Miss Isabelle McAlpine of Corunna is at her home here.

Mr. and Mrs. Archie Purcell visited recently in Aldborough the guests of Dan Purcell and Mr. and Mrs. J. Dewar.

Miss Sarah Ferguson of Detroit is at her home here.

Mr. and Mrs. McBride motored to New Glasgow last week to see his sister, Mrs. Little.

Mr. and Mrs. R. McAlpine and family motored to Springbank to see friends.

Mr. and Mrs. J. Shields of Seattle, Wash., are at Huel A. McAlpine's.

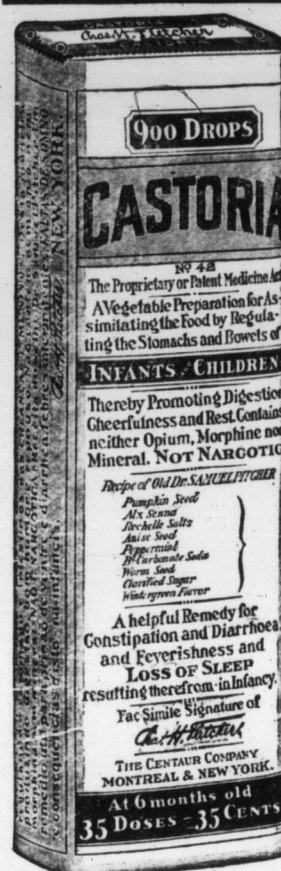

Mrs. Dickey and baby of London are the guests of Mrs. Angus Campbell and Mrs. Archie Purcell.

Mr. and Mrs. Dan Maddock of Walnut, accompanied by his sisters, Miss Belle Maddock, Mrs. Savage and Mrs. Johnston, motored over and spent a day recently with their aunt, Mrs. Nancy Ferguson.

WALKERS

John A. Walker, John McNaughton and Donald Galbraith attended the convention of the U. F. O. at Strathroy on Saturday last. The next meeting of the farmers' club will be held in Walkers school house on Friday evening, August 15th. The delegates will give a report of the convention at the meeting. All members requested to attend.
