WELCOME PARADE FOR NO. 10 UNIT CALLED OFF

TORONTO STRIKE LEADERS EXPECT STREET RAILWAY MEN WILL JOIN

Efforts Are Being Made To Prevent Further Spread of Walkout.

"BUSINESS AS USUAL"

Hundreds of Millions of Dollars of Riot Insurance Taken Out.

Toronto, May 31.—Efforts of civic and provincial conciliators are being continued today to prevent a further spread of the sympathetic strike, inaugurated yesterday to aid the striking workers of the metal trades.

No additions to the number of unions called out yesterday were reported by the general strike committee at the Labor Temple today, though it was stated that the strike leaders confidently expect that the street railway employees will decide, at their mass meeting at midnight, to go out in sympathy with the present movement.

Several important unions are meeting tomorrow, some to take strike votes and others to decide whether to cast a ballot on this important question.

In the meantime, the business of the city appears to be going on as usual. Hundreds of millions of dollars in riot insurance has been written, however, indicating an intense anxiety as to the future.

Mayor Church this morning received a communication signed by a dozen members of the civic firemen's union to the effect that if the salary increases asked for in a schedule presented two months ago are not granted by the city council the men will go out on Tuesday morning at 8 a.m. The ultimatum was sent only by the union, is not said to have the backing of the older men in the department, but is largely directed by the newer members of the civic fire fighting force.

ESTIMATES VARY AS TO NUMBER OF MEN OUT IN TORONTO

Toronto, May 31.—There is wide difference in the estimates given of the number of men on strike here. The newspapers give the figures as from 5,000 to 10,000. The general strike committee of fifteen says that the total is 12,000, with a probable increase to 13,000 today. Seven thousand of these are given as workers of the metal trades, many of whom have been out for some weeks.

Until Monday morning at least, the industrial situation in Toronto will be in the balance. In the meantime there will be several meetings of important and influential unions, to decide whether or not they will throw in their influence with the present sympathetic strike, and make it a "general" movement.

HULL FIREMEN GO ON STRIKE TODAY

Demand Double Platoon System and Bonus of \$100.

Hull, May 31.—Hull firemen went on strike this morning to enforce a demand for a double platoon system, right to join a union and a bonus of \$100. Twenty-five men are affected.

Motormen and conductors of the Hull Electric Railway will submit their demands for an increase of 15 cents an hour to the minister of labor, and if satisfaction is not obtained will strike. A board of arbitration recently awarded the men an increase of 3 cents an hour.

FRENCH PREMIER REPLIES TO LAST TWO HUN NOTES

Paris, May 31.—Premier Clemenceau, president of the peace conference, today replied to the last two German notes. The official statements on the replies have not yet been issued.

"HOW VERA SLIPPED AWAY"

A Two-Act, Old-Fashioned, Hot-Spice Melodrama written by The Advertiser's Near-Playwright

BY JOHNNY TROTTER.

Not a distinguished native son (principally distinguished by the facility he displays in earning a living without working in Toronto), arrived in the city, spent the week-end. He has been putting up at the Don Jail for a while, but last night sent the warden out to reserve him a seat in the chair car, and after getting a shoe nicely enough in the front door. He says he may go back and serve his term if he finds the hotels crowded when he returns to the Queen City, but he complains that the jail hasn't installed electric fans, and that the prisoners won't stand for it much longer. But we started out to say that he told us quietly all about the escape of Vera Lavell, and we are able to fix up a sort of a story about it. (Please don't tip it off to the London police that he is in town.)

ACT I.

"Now, Vera, I'm not going to stand for this much longer. You, the strident tones of the chief turnkey. 'Here you stand this morning when I told you not to, and you spent the time shopping at Eaton's. You gotta stay in this jail, cepin' on Wednesday afternoons, and if you'll do that I'll see you have strawberries and cream after your coming home from the movies.'"

"The young lady addressed laughed gaily and taking the keys from the turnkey went out and locked the front door.

"I'm not going to stand for any of these roughs' comin' in here durin' the evening," she said. "I want to write a line to Frank, and tell him to be ready. You keep that side door locked, too, and stop that checker game in the old man's ward. Send 'em up for a walk in the park, and let them take the kiddie car if they want to. Now you clear out of the office while I find a new way to slip my little tail a SAW. (Business of deep thinking as she wonders how much she could get for another red from the Infamous Slavers.) I have it. Those old corsets. They have steel stays, and Frank ought to be able to live with 'em. I'll go to see him through those rubber boots."

She cried out to the turnkey. "Boy, bring me a pair of scissors, and hurry up," she said to the turnkey, who came on the jump like a belloboy after a long tip.

"Yes, miss. And did you get the new georgette crepe that was left in your suite last night?" he asked.

"Frank and I won't forget when I get him out again," she said. "Scissors are fetched, and Vera dismisses the room-service waiter, and calls the maid.

"Help me dig these stays out of my corsets, kid," says our heroine.

"Oul, mademoiselle, replied the French girl with courtesy, "and will mademoiselle tell me soon be madame, mademoiselle?"

"No, when Monsieur Frank is free again—have her hair done after the Billy, whom they call the Thoo, wants to take to the Gayette."

"Never mind about the hair, kid," said Vera. "But some day, little one, I may ask you to go out and get me a nice long lariat made of horsehair, could wind it about my head, and you know, don't you, how that might help Frank let himself down some night?"

ACT II.

"A rotten shame, I call it," says the lady in the next room to Vera. "They wouldn't bring breakfast to the room, and now they say we have to do our own washing this morning."

"I've a picture of myself washing clothes in a dump like this. Did the laundrymen join the general strike?" said Vera.

"Yes, they did," said Vera. "But she had a mysterious look as she dallied with her grapefruit that morning."

Scene 2.

"There, if I can write these things out and get them in my suitcase, and have someone send me the other things, I'm about ready," said Vera de Lavell, looking at her eyes about as she said it, with a look of regret.

"It's a nice old jail, at that," she mused as she looked around. "But the service is so rotten one can't stay here."

"Did you order that taxi?" says Vera.

"Yes,um, told him to have it waitin' on yonder road, but Miss Lavell, I wish you wouldn't do this. It may get us turnkeys into trouble. If you'd only wait we might arrange a send-off."

"That's all very well, I might have stayed. But do you think I'm going to stand for being made out to common charwomen's work? Did you ever see Theda Bara pull that stuff? Not unless it's character work. And I'm playing this part straight. Did you ever see a telephone that news weekly man?"

"Yes, mam, and he said he'd like to have a couple of us turnkeys clean up over the walls."

"None of that fourflushing. If I want extra men I'll hire them, and besides, it would be an unnecessary risk. Your whippersnappers might try going up the ladder." Peals of merry villainous laughter.

Scene 3.

The heroine and companion come out into the jail yard. A ladder is placed in position, and from nearby a movie director calls "Shoot! A camera man comes over to crank.

"Up they go, and over the top!" Vera does a clever jump to the ground, and the movie director hands her a marked check.

"Very neat, done, Miss Lavell, did the jail authorities know about this?" "You might send them a couple of ducats for the picture, Mr. Director. I must fly now. I must flee, in fact. I'll take the taxi and get Frank for a full reel next week. 'Come, dearie!'"

The other woman demurred. She was trying to look into the jail again.

"I guess they won't ask us to wash again," she said. "Your protest, Vera, will bring about reform, and anyway, home was never like this. Give my regards to Frankie when you get him out."

"Over the river!" cried Vera, as the taxi sped across the Don.

Scene 4.

"That was a gosh darn mean trick," said the Chief Turnkey as he called up the police station and told them that Mack Bennett had sent his Keystone comedy cops to the scene, together with a good bloody bloodhound.

MUST RETURN TO WORK BY MONDAY OR LOSE JOBS

Railway Officials Issue Ultimatum to Winnipeg Employees.

MANY ARE INCLUDED

Employees in Shops, Roundhouses and Freight Sheds Affected by the Order.

Winnipeg, May 31.—At a general conference of officials representing all the railways having headquarters in Winnipeg it was decided to issue a notice to all employees on strike that unless they report for duty not later than 10 o'clock Monday, June 2, they will be considered as having left the service and their places will be filled. These include the employees in shops, roundhouses, stores and freight sheds and clerks. Railway mail clerks today officially called off the sympathetic strike.

35,000 RAILWAYMEN APPEAL TO PREMIER TO ENFORCE SYSTEM

Employees of Railway Companies Want "Collective Bargaining."

Montreal, May 31.—The following message has been sent to Sir Robert Borden, at Ottawa, by Charles Dickie, secretary-treasurer of division No. 4 of the railway shippers: "We, the executive board of division No. 4, railway employees' department, representative of some 35,000 railway men of all Canadian railways and negotiating on wages and working conditions with the Canadian railway board, have established the precedent of collective bargaining last year, which has proved so successful in maintaining harmony on Canadian railways. Do insist that pressure be brought to bear on the different employers of labor involved to accept this method of procedure and are amazed that such a state of chaos should be necessary to accomplish such a generally recognized method. As our membership is very restless owing to the situation that has been created, and our membership is about to become involved, kindly reply what steps your Government are taking to cope with this situation."

MORE TROOPS WILL ARRIVE SUNDAY OR MONDAY AT HALIFAX

Transports Metagama and Megantic Have Been Delayed by Fogs.

Montreal, May 31.—Two transatlantic boats, both carrying troops, are due either tomorrow or Monday. The Metagama, from Liverpool, and the Megantic, also from Liverpool, have both been held up by the dense fogs that have enveloped the Atlantic coast and Newfoundland within the past two days, and indications are that neither of them will dock here until Monday.

Strike Situation to be Discussed by House on Monday

Premier Borden Says Reports Are Reassuring.

Ottawa, May 31.—A meeting of the cabinet was held this morning at which it is understood, the strike situation was discussed. At its conclusion, Sir Robert Borden stated that there was nothing for public attention beyond the fact that reports received were reassuring. The whole situation will be debated in the House on Monday.

CANADIAN FOOD REMAINS UNSOLD BECAUSE OF NEEDLESS IMPORTATIONS

Ottawa, May 31.—Firm measures to insure the consumption of first-class Canadian food in Canada, which was in danger of being left unsold through needless importations from abroad, have been taken by making it imperative that individual licenses must now be obtained from the Canadian Trade Commission, Ottawa, to import either sardines or salmon into the Dominion. There are about 300,000 cases of 48 pounds each of salmon lying idle in Vancouver.

GOVERNMENT INACTIVITY IN DEALING WITH LABOR ISSUES HAS CAUSED MUCH UNREST

Representative of Carpenters' Union Gives His Opinion Before Royal Commission At Montreal—Churches Are Blamed For Certain Amount of Dissatisfaction.

Montreal, May 31.—That the church had a hand in preventing the labor unions from organizing in the province of Quebec or at least representatives of the church, was the statement of Arthur MacNeil, general executive board of the Brotherhood of Carpenters, before the Royal Commission on industrial relations this morning. He said that the workers did not want to crush anyone and if they did, he pointed out to the Commission, that he would have been crushed long ago. He said there was a great deal of unrest among the members of his organization. This was in part due to opposition to organization on the part of the church.

Government Inaction Scored.

Another cause of dissatisfaction was the Government inaction in dealing with the problems of labor. Action was so slow, when it was taken that the effect it produced was greatly lessened.

In his opinion if this unrest were allowed to go on, something might happen which would not be to the interests of the citizens.

Rev. Dr. Lansing Lewis said that Rev. Dr. Lewis was too often referred to by labor as an enemy; capital was not an enemy, but a necessity. He criticized scathingly the past immigration policy by which large numbers of foreigners had been brought into the country without any attempt being made to make citizens out of them. Speaking of the relations between the church and labor, Dr. Lewis said that the church had done all its duty in the past toward the workman. It was a potent force for the betterment of the workers condition.

AMERICAN SEAPLANE MAKES FLIGHT FROM SPAIN TO ENGLAND

Air Trip Is Made in Fast Time.

WELCOMED BY CROWDS

Made 500-Mile Trip in Six Hours and Fifty-Nine Minutes.

Plymouth, May 31.—The seaplane NC-4 completed her long flight from the United States today, arriving here from Ferrol, Spain, on the last jump of her journey at 2:25 p.m. local time.

Keen interest in the event and the fine weather which succeeded a morning brought out large crowds to greet the arriving seaplane, the great wings of which were made out off the harbor at 2:25 o'clock. The machine making a dashy finish, swept quickly landward, and three minutes later had settled down on the waters of the harbor, to the accompaniment of cheers from the crowds and salvos from all the steam craft within sight—her transatlantic trip ended.

Greenwich time, and made the distance of approximately 500 miles in a little more than 6 hours 59 minutes, at the rate of nearly 72 miles an hour.

Lieut. Commander Read, who brought the NC-4 across the Atlantic from Ferrol, Spain, and the crew of the ship, intended making the trip yesterday. He was compelled to postpone the trip in the morning because of engine trouble, but proceeded shortly as far as Ferrol on the northwestern tip of the Spanish mainland, where the plane was moored for the night, proceeding early this morning for this port.

The formal reception by the mayor of Plymouth on the Mayflower pier was set for 4 p.m., and it was planned to conclude all the reception ceremonies to day instead of devoting two days of them, as originally intended.

To a reception on the United States cruiser Rochester there were invitations to British military officers, the American consul and naval officers. Officers of the royal air force will entertain the American airmen this evening at a Plymouth hotel.

PEACE TERMS WILL NOT BE MODIFIED, IS ALLIED VERDICT

Germany's Objections Have All Been Considered by Entente.

NO MORE DISCUSSION

Time Limit For Enemy Notes To Entente Powers Has Expired.

Paris, May 31.—The great part of the objections raised in the German counter proposals have, in the opinion of French diplomatic and political circles, already been set forth in German notes and duly answered by the Allies. Consequently, it is said there can be no modification of the peace terms, and there is no necessity for verbal discussions in which the Berlin Government desires to involve the allied powers. It is understood the council of four will agree in taking this view in answering the Germans.

The German peace delegation has been notified that the period of delay for presenting observations having expired at 3 p.m. Thursday, no further notes will be accepted from the delegation.

It became known today that the German counter-proposals were accompanied by a covering letter of ten typewritten pages. The letter is apparently the work of Count von Brockdorff-Rantzau, as it is more conciliatory and adroit than the counter-proposals which were elaborated by the Berlin Government.

GERMAN FOREIGN OFFICE REPEATS "WE WILL NOT SIGN"

Berlin, May 31.—The German foreign office reiterated categorically and emphatically today a statement made on behalf of the Cabinet on May 29, that "Germany declines to sign the terms of the proposed peace."

ALLIES WILL REJECT ALL DISCUSSION BY ENEMY ON TERMS

Paris, May 31.—The Allied and associated powers, the Paris newspapers declare unanimously, will accept no important modification of the peace terms as a result of the German counter proposals. The Allies also will reject all verbal discussion. The Echo de Paris says that the answer of the peace conference to the German counter proposals will be very short. A few points on the detail of territorial clauses, it adds, may receive some touching.

PRESBYTERIES MUST REPORT BEFORE NOV. 30 ON UNION ISSUE

London, May 31.—The Church of Scotland general assembly, after a heated and prolonged debate, approved by an overwhelming majority the report of the union committee recommending that Presbyteries report before November 30 whether they approve or disapprove the draft articles of union with the United Free Church, and directing that a commission of the assembly be held in December for the purpose of authorizing the union committee, in the event of a majority of Presbyteries approving the articles, to approach the Government as regards the necessary legislation.

AERIAL MARRIAGE TO JOIN OHIO PAIR OVER TEXAS FIELD

Washington, May 31.—The first "aerial wedding" is scheduled to take place at Ellington Field, Texas, tomorrow. The army air service headquarters were informed today, Robert Meade and Miss Handley-Pearce, who will be the principals, will be married by the army chaplain will officiate.

ARBITRATION CONFERENCES NOW UNDER WAY ARE EXPECTED TO END THE WINNIPEG STRIKE TODAY

Veterans and Strikers Parade to Parliament Buildings, But No Disorders Occur—Reports From Mining Districts in B. C. and At Cobalt State the Situation As Acute.

Winnipeg, Man., May 31.—With arbitration conferences actually under way on the basic industrial dispute of the general strike—the walkout of the metal trades—and hundreds of employers returning to work, gradual settlement of the civic and industrial tieup which has been almost complete since May 15, was beginning today. According to Government officials Edmonton dispatches indicated that a resumption of public service functions is now complete there, although strike headquarters asserted workers in thirty-two trades were still out.

Votes on a general strike now being taken at Vancouver and Victoria, B. C., will be completed and announced within a few days.

PARADE TO PARLIAMENT.

Reports from the mining districts in Ontario and British Columbia said that the labor situation at Cobalt and Fernie was acute, though not directly related to the Winnipeg strike situation, as are the general strikes under way or under discussion at other points. Though the first outward demonstration of dissatisfaction occurred in Winnipeg yesterday in a parade of veterans and strikers to the parliament building, no disorders occurred. The veterans promised to return again today to insist on speedy action to legalize collective bargaining, one of the chief points sought by the metal trades in their walkout, which precipitated the general strike. When members of the railroad brotherhoods succeeded in beginning the first arbitration conference, efforts to replace striking workers generally slackened, excepting in the police, fire and postal services. Officials of the brotherhood warned maintenance of way employees in Winnipeg and to the west not to consider sympathetic strike votes or attempt to walk out in violation of their contracts.

HEAT CAUSES CANCELLATION OF CELEBRATION PLANNED FOR NO. 10 HOSPITAL UNIT

Troops Will Detrain At Quebec Street Station At 5 o'Clock and March To Barracks—Party From Carmania Will Reach City At 9:45 This Morning.

Members of No. 10 Stationary Hospital will arrive in this city at 5 o'clock this afternoon via C. P. R. Owing to the hot weather the parade through the city streets has been cancelled by the authorities, and the troop train will not proceed to the downtown station. The troops will detrain at Quebec street station, parading to Tecumseh Barracks for demobilization. Following this will be tendered a banquet by the ladies of the Red Cross and of Western University in the dining hall at Tecumseh Barracks. Speeches of welcome will be of short duration, and the men will be allowed to leave for their respective homes immediately following discharge from the service. The Canadian Garrison Regiment Band will be in attendance at the reception.

There are about 331 men in the party, 90 of whom are members of the hospital unit, but a joint reception, including the banquet, will be tendered to the members of the Western University unit.

At 9:45 p.m. today a party of 47 soldiers from the SS. Carmania will arrive in this city, at the Quebec street station of the C. P. R.

GERMANS MUST BE MADE TO ACCEPT TERMS OF PEACE

London, May 31.—In his speech to the Welsh division at Amiens, Premier Lloyd George concluded: "The future of the world depends on this peace being imposed on Germany. If it is not imposed, you will have to march toward Berlin, if your leave is cancelled, or if your departure for England is delayed, you will know that I alone am responsible so you had better get your firing party out now. See that the seal is put on the document you helped to write, and we shall have a worldwide peace."

OPERATORS' STRIKE, IF CALLED, WILL INVOLVE 900,000

Action May Be Taken As Protest Against Discharge of Girls.

EFFECTIVE ON MONDAY

Railway Telegraphers May Join Others in the Big Walkout.

HAS RECEIVED NO ULTIMATUM. The Southern Bell Telephone and Telegraph Company, and other wire companies here said yesterday they had received no ultimatum from representatives of the International Commercial Telegraphers' Union, in which a nation-wide strike of union workers was threatened unless a number of telephone operators recently discharged in Atlanta were reinstated by noon Monday.

Washington, May 31.—According to an announcement made by F. McDowell, chairman of the executive board of the Washington District Council, President S. J. Koenekamp of the International Commercial Telegraphers' Union, has announced an ultimatum sent yesterday to officials of the American Telephone and Telegraph Company, and other wire companies at Atlanta, Georgia, in which a nation-wide strike of members of the telegraphers' union was threatened, unless a number of telephone operators recently discharged in Atlanta were reinstated by noon Monday.

The strike, which would at the start involve more than 900,000 commercial telegraphers and telephone workers throughout the country, it was said, charging about 100 girls employed and the action of the companies in discharging them. It would become effective at 3 p.m. Monday.

The Postal Telegraph and Cable Company, which employs members of the International Commercial Telegraphers' Union, it was said that later the strike would spread the membership of which numbers about 200,000 men.

Sanction of General Chairman A. W. Carter of the Atlanta district in sending the ultimatum to the employers in his district, was said to have been telegraphed to Mr. Carter from Montreal last night by President Koenekamp.

CANADIAN OPERATORS WOULD NOT BE AFFECTED BY U. S. WALKOUT

Montreal, May 31.—Canadian telegraph operators are not affected by the threatened strike of these workers in the United States. This was made clear by S. J. Koenekamp, president of the International Commercial Telegraphers' Union, in an explanation of the organization's struggle for recognition in the Western Union office.

SWITZERLAND IS COMPLAINING OF ENEMY BLOCKADE

Swiss Federal Council Says Country's Position Growing "More Untenable."

Berne, May 30.—The Swiss Federal Council today gave out a statement which complained that the blockade of the Allies modifications of the armistice of Germany, the maintenance of which, it is said, is putting Switzerland in "a more untenable position."

LONDON REFORM ASSOCIATION HOLD THEIR ANNUAL MEETING; PREDICT ELECTION IN FALL

Delegates To Represent London Liberals at National Convention Meeting at Ottawa Were Elected.

"There was never a time in the history of any country as there is at the present when the great mass of the people were so wholeheartedly desirous of a complete change of politics," said J. C. Elliott, M.P.P. for West Middlesex, at the London Reform Association in Hyman Hall last night. "It is only too bad that the change did not come some time ago," he added.

He predicted a provincial election next fall or at the least, next spring, and declared that if the interest of the representatives of which Liberalism was exhibited as one instance in the enthusiastic applauding members last night was a criterion, it would not be a conservative member who would represent Ontario.

The association last night elected delegates to represent London Liberals at the great National Liberal Convention meeting at Ottawa on August 4, 5 and 6 and at the Provincial Liberal convention at Toronto on June 25 to select Liberal representatives in the forthcoming election.

Delegates to attend the Ottawa convention elected are: Andrew Robson, T. Elliott, M.P.P. for West Middlesex, with alternate delegates in A. S. Sippi, A. Campbell.

Delegates to Toronto will be: J. S. Brown, Mrs. E. E. Reid, Mrs. D. Regan, and Donald Soper, with alternate delegates in Dr. C. Harris, Douglas Graham, Mrs. D. McLean and Mrs. Andrew Robson.

Epoch in Liberalism.

"In the election of these delegates," Mr. Elliott declared, steps have been taken for a great epoch in Liberalism in this country. "We don't know just what the future will be. The meeting of representatives from all over the Dominion on August 4, 5 and 6, will select a successor to Sir Wilfrid Laurier. May the selected leader have the interests of Canada and the welfare of the people at heart, and follow the policy of a true and broad liberalism, as did Sir Wilfrid."

Ontario Greatest Province.

Mr. Elliott described Ontario as the greatest, and at the same time the most complex province in regard to political problems.

Speaking of the dissatisfaction so prevalent throughout the country at the present time, Mr. Elliott pointed to the daily newspapers as the best evidence of conditions now. "Nobody in public life will say that they or the people can be satisfied with conditions as they are," he declared.

Appealing for a closer understanding and relationship between the opposing elements in variance throughout the country today, the speaker outlined the principles of broad liberal policy and declared that this was the policy, which the country must have with special privileges for none.

"More representatives of labor laid down their lives in greater numbers in defence of the country than those of any other class," he said, although he did not wish to infer that capitalists, and the employers of labor did not do their share. "Labor and capital have made common sacrifices, and it will be necessary for both to give and take to a very great extent in the solution of the difficulties menacing the country."

Time for Representatives.

"This is a time for the representatives of the people to be on the job in finding a fair solution of these difficulties," he declared, and mentioned the problem of the consumer and producer as still another difficulty to be considered.

"All this cannot be done with three-quarters of the members of the Cabinet touring Europe," he told his hearers, to loud applause.

In opening his address, Mr. Elliott, who was called upon from the audience to speak, described the large attendance of so enthusiastic an audience as inspirational, and a good omen for the political interest and mutual feeling for betterment displayed in the city. Where he had expected to see only a few of the most staunch advocates of reform on so depressing a warm night, he found scores, with enthusiasm and keen interest an outstanding feature of the assembly.

Amalgamation Outlined.

R. G. Fitch outlined a proposal to amalgamate the Reform Association with the Young Liberals' Club, with a committee to be named by the body resulting from the absorption of the Reform Association to take care of the work now performed by it. Discussion of the proposal left the outcome undecided.

The meeting of the Reform Association was called primarily for the election of officers and a discussion of the work, but this was deferred until a later date, William Heaman presiding as chairman.

LONDON SOCIAL SERVICE; "BABY FARMING" TOPIC DISCUSSED BY MEMBERS

Attention Drawn To Regulations Which Are Not Enforced, But If They Were Much Evil Would Be Done Away With.

The question of "baby farming" received a large share of attention at the meeting of the London Social Service Council, held last evening in the city hall. Secretary W. E. Kelly of the Children's Aid Society introduced the subject, drew attention to the regulations which are not enforced, and which, if carried out, to a great extent would do away with the evil.

The case with which a child can be lost sight of, while every precaution is taken to keep track of automobiles through license numbers, etc., was touched upon.

So convinced was the meeting of the seriousness of the problem that Mr. Kelly, with Mrs. Harrison, and a representative of the Salvation Army, to be named by the committee, were appointed a committee to thoroughly investigate conditions here and bring in a report to the Social Service Council as a preliminary step towards abolishing the evil.

Gratification was expressed over the report of the playgrounds committee, which has been working in co-operation with a similar committee of the London Chamber of Commerce. It was stated that Thames Park is now being put into shape, and that in the near future the children will have in it a well-equipped, properly-supervised playground.

The council placed itself on record as favoring the establishment as soon as is convenient of adequate municipal playgrounds, properly equipped, and fully supervised. The committee added to its report re Thames Park findings in connection with other possible playground prospects.

The need of mothers' allowances was emphasized by several speakers, some of whom voiced the belief that definite steps will be taken by the Provincial Government in the not far distant future.

Roy. Gilbert Agar, provincial secretary of the Social Service Council, was present at the meeting, and expressed himself as much encouraged by the interest in social welfare work which is being awakened in the city and district, and the practical steps that are being taken towards carrying out the program of the council.

NEW CAR RATES TOMORROW.—Commencing tomorrow (Sunday), Sunday fares on the street railway will be 5 cents cash for adults, but the 3-cent cash rate for children, with two tickets for a nickel, will remain unchanged. This new rate for Sundays only, was authorized by the city council recently.

GRAY DORT

The Crowning Virtue

EXPERIENCED motorists determine a car's value by the service it renders. To them this is the paramount virtue.

This is one of the qualities that constitute the crowning recommendation of the Gray Dort car.

You want speed in the stretches, power for hills and poor roads, flexibility and easy pick-up for city driving—the Gray Dort motor gives all these abundantly.

Comfort, of course—over any road. A roomy body, deep upholstery, long springs, insure it. In every phase of motor service that men value you'll find the Gray Dort excels. And this service you get year after year—service far surpassing the price you pay.

The touring car is \$1245; the Gray Dort Special—the car with added refinements and extra equipment, is \$135 extra; there are also a coupe, and a sedan. All prices f.o.b. Chatham and are subject to change without notice.

Anything worth owning is worth preserving

GOOD money put into a home, a barn, a silo, or automobile needs protection as much as good money put into a bank.

A wooden house is a wonderfully enduring thing if given reasonable protection. What is true of wooden houses is true of all things made of wood, be they in the city or country, be they stable or garage, wagon or desk.

And what is true of wood is true of other materials. Steel and iron from bridge and skyscraper to roof of shed—they last or they rust, depending upon whether or not they have surface protection.

If protected the surface is an impassable barrier to rust, rot, friction or disintegration. If unprotected it is an open door.

Whatever other good purpose paint and varnish may serve, in every case they save the surface—their first and greatest service to property.

Your property is safe only when the surface is safe. The chief purpose of all paint and varnish is to save the surface and so save all.

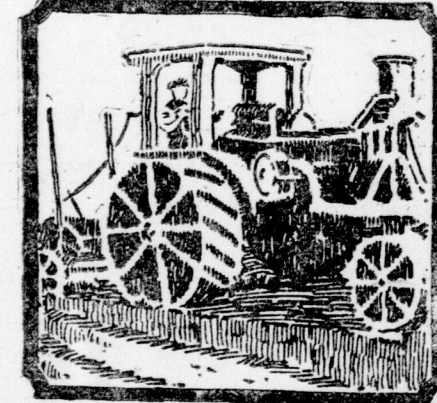

THIS ANNOUNCEMENT is issued by the Canadian Save the Surface Campaign Committee, for the purpose of educating the public in the Preservative and Protective value of Paint, Varnish and Allied Products for the Conservation of Property, and has received the approval of the Canadian Trade Commission in the following words:

"The realization of the above objects will lead to employment during the Reconstruction Period and bears our entire approval."

STAR CAST APPEARING BIG PHOTODRAMA AT THE MAJESTIC ON MON., TUES., WED.

"Better, For Worse" Is a Production of High Order, Featuring Noted Actors and Actresses — Marguerite Clark and Eugene O'Brien in "Come Out of the Kitchen" Next Thursday, Friday and Saturday.

B. DeMille, director-general of famous Players-Lasky Corporation, producer of "For Better, For Worse," which is to be shown at the Majestic Monday, Tuesday and Wednesday, is a stickler for fine acting, and he selects the cast used in each production, often spending weeks work of casting alone. "For Better, For Worse," is no exception to this particular. All of the roles, he leads down to the minor parts, and a list of their names is an assurance that the acting will be the very highest quality.

At the Majestic, who will be remembered as the husband in Mr. DeMille's "The Sign of the Cross," and as the hero in "The Sign of the Cross," has the leading

Forman, a popular leading man, turns to the screen after devoting months to army service, will play the second leading male role. beautiful close-up, or sitting on some beautiful piece of antique furniture which Mr. DeMille is using in some set, I find that my appetite for luxury has increased very much. I now want gowns for myself like the wonderful creations I wear for my pictures, or a picture or piece of furniture for my home like those wonderfully beautiful pieces used in the settings at the studio, and as a consequence spend much of my salary upon things which I would never have thought of affording before, said Miss Swanson. However, there was a look in the wonderful brown eyes which seemed to belie this statement that one of the most beautiful of screen stars was living in seeming poverty.

MARGUERITE CLARK IN COMEDY DE LUXE LAST HALF OF WEEK.

If you were to have the opportunity of seeing two of the world's foremost motion picture stars in one of the greatest stories ever written for the stage, wouldn't you jump at the chance? Well, it is coming your way and soon, too. The stars? Marguerite Clark and Eugene O'Brien! The story? "Come Out of the Kitchen!" This is the play in which Ruth Chatterton was carried to fame almost overnight and which has delighted millions in story form and upon the stage. You really cannot afford to miss it when it is shown at the Majestic on Thursday, Friday and Saturday.

It's hard enough to get girls into the kitchen these days when servants are a luxury, but it's twice as hard to get them out sometimes, especially if they are like Claudia and have a special reason for staying in the kitchen. But perhaps you would have wanted to stay in the kitchen had you been in Claudia's place. Be sure that you see how she gets out. Marguerite Clark explains how in "Come Out of the Kitchen!" Who ever heard of a girl and a beautiful one at that, too—who wanted to stay in the kitchen all the time, instead of being the real society lady that she was? Girls don't do such things today, perhaps, but there isn't a girl in Canada glad of the opportunity of the opportunity of going into the kitchen as Claudia did. And right here we want to say that it will make any girl's heart beat double time is she were to have the opportunity of coming out of the kitchen as Claudia did, especially just now that roses and brides are in full bloom. We can't say any more without giving away the story, but Marguerite Clark tells how it happened in her newest and best picture, Miss Clark is well supported by a picked company, Eugene O'Brien being her leading man.

SPECTACULAR FILM AT THE MAJESTIC ON JUNE 9, 10, 11.

In "Stolen Orders," William A. Brady's big eight reel spectacular film production based on the Drury Lane melodrama "Sealed Orders," are several scenes, which show a big balloon somewhere over the Atlantic. These scenes depict an attempt at flight from a desolate spot somewhere on the Atlantic Coast of an enemy secret agent, personated by Montagu Love. The balloon—one of the largest in the country and capable of long distance journeys—as many as four passengers—in his story, but Marguerite Clark, playing the heroine, is a series of exciting episodes in connection with this flight—including a fight in the basket of the balloon—the fall of the balloon into the ocean hundreds of feet below, and the shelling and final demolition of the big sausage by anti-aircraft guns on the shore, were caught by a battalion of cameras and probably will thrill many a picture-goer. And the thrills experienced by the audiences which see "Stolen Orders," will compare with those experienced by the thousands engaged at one time and another in its production. At the Majestic Monday, Tuesday, Wednesday, June 9, 10, 11.

"DOUG" FAIRBANKS AT THE MAJESTIC ON JUNE 12, 13, 14.

Douglas Fairbanks makes his reappearance as Old Doc Cheerful, in his newest Artcraft picture, "The Knickerbocker Buckaroo," which is to be shown at the Majestic for three days, June 12, 13, 14. Fairbanks has always preached constructive philosophy via the screen route. His latest picture deals with one of life's biggest evils—selfishness. We are selfish because we do not realize that happiness only comes from doing things for others. With this thought as a basis, a distinctive story was developed by the Fairbanks scenario staff, which includes Elton Banks, Joseph Hennaberry, Frank Condon, Ted Reed and Director Albert Parker. The play opens in a fashionable New York club, where a statue of Charles Darwin co-stars with the screen hero, making possible some interesting athletic action, when Doug, in his conversation, concludes: "Perhaps Darwin was right." Fairbanks plays the part of Teddy Drake, a wealthy New Yorker, who decides that his life is all wrong because of his selfishness, and starts out to do unselfish things. His resolve takes him to the Far West, and in a series of amusingly complicated situations. One of the exciting episodes is furnished when Doug climbs out of the window of a speeding Pullman car, continuing up to the roof of the car and running along the top of the train, then jumping to a swinging arm of a water feeder, from which he leaps on to the back of a horse. This is the start of a chase, in which two hundred cowboys pursue Fairbanks for miles up in the hills. Marguerite Clark, playing the heroine, leads, takes the part of Mercedes, a beautiful girl, whom Doug rescues from a band of outlaws. The picture is composed of seven reels packed with thrills, sensations and comedy. Every stunt Doug has ever accomplished is shown, and it is a series of hair-raising laughable episodes.

MISS ESTELLE CARRY SOPRANO, AT THE MAJESTIC SOON.

Miss Estelle Carry, the soprano, who has created such a furore in musical circles of Montreal and Toronto, with her wonderful voice, which was heard in the two biggest theatres of these cities, is to come to London. Miss Carry is a find of a theatrical manager of Toronto, and before her recent debut, was studying quietly with some of the best teachers on the continent, for being a young society woman of means, she had no intention of appearing for the public, until persuaded to do so by her friend. Her wonderful voice, sweet as the notes of a lark, has been the talk of theatre-goers of Toronto for the last two weeks, and the management of the Majestic has induced Miss Carry to appear at the Majestic for the week of June the 15th, so that Londoners may also have the opportunity of enjoying the remarkable voice of one of the world's greatest and most beautiful young artists.

"THE WOMAN THOU GAVEST" COMING TO THE MAJESTIC.

The picture of the year, which when it is released in Canada shortly, is the Paramount Artcraft De Luxe production, "The Woman Thou Gavest Me." In order to make a picture, which would outlive all others of the past and the future, this great organization has presented all its principal stars in one enormous picture, and the scenes are taken in all parts of the world, for the picture has taken over a year in the making. The story travels from scenes in Algeria, amongst the pyramids in Egypt, with colorful pictures of Arab caravans, and costly settings of Algerian palaces, to the far frozen north, amongst the Eskimos, the great

LONDON PLAYERS TO BE SEEN IN CLEVER SKIT, 'DREAM HOUSE'

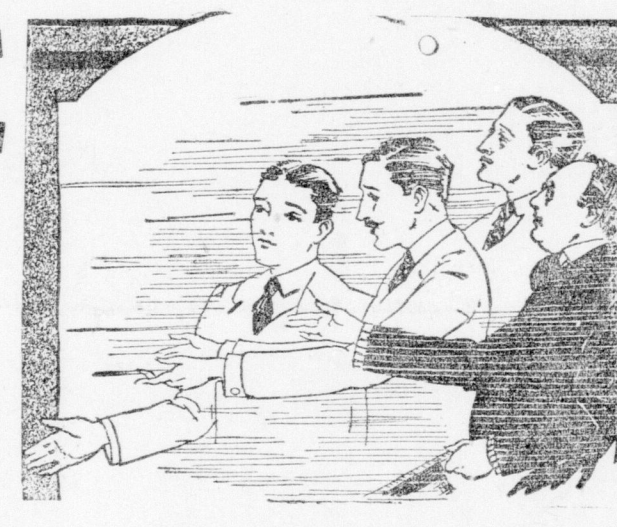

Miss Lena Shortt and Percy Jones in Comedy With Music at Majestic.

During the war, both "movie" screen and stage were filled with war settings and plots. Now theatre-goers are looking for something different. In the after-the-war comedietta that will appear Monday, Tuesday and Wednesday at the Majestic Theatre, two clever Londoners, Miss Lena Shortt and Percy Jones, will provide music with music that promises to be the last word in refined fun-making. "The Dream House," the title of their skit, is suggestive of love, fantasy and fairy, and though these are not altogether absent, yet the playlet is most modern. Esme Vernon (Miss Shortt) has remained at home, while her sweetheart, Capt. Bruce Ireland (Mr. Jones), has fought in France in the Canadian forces. On his return he first meets her in the sitting room at a fashionable ball. What happens after that provides delight for the audience in the form of many laughs.

For those who like music with their comedy, tuneful vocal selections have been added with good effect. Miss Shortt and Mr. Jones are well-known to many Londoners for their excellent work in amateur productions, both having been seen with good effect in the stage offerings of the St. Mary's Church Dramatic Club here. As students of the drama their work has all the hall-marks of success, and possesses a finish that is rarely, if ever, found outside the professional ranks. In "The Dream House" they display their efforts to excellent advantage, and the comedy promises to "go over" with applause to burn.

Making Saving Attractive

Perhaps you have never been strong on saving.

You COULD save a little, but—

If you knew you could get 4½% on every \$4.00 you saved, wouldn't that tempt you?

Well, then—that is what War Savings Stamps will enable you to do.

If you find it hard to save \$4.00 at a time because the quarters slip away unawares, Thrift Stamps will help you.

You can buy a Thrift Stamp for 25 cents, and when you have sixteen, you can exchange them for a War Savings Stamp, for which you will be paid back \$5.00 in 1924.

By doing this you will have become an investor! And you can go on building up that investment every time you save another \$4.00. The odd cents pay the accrued interest.

War Savings Stamps can be bought whenever this sign is displayed.

MY HEART AND MY HUSBAND ADELE GARRISON'S NEW PHASE OF REVELATIONS OF A WIFE

Has Alice Holcombe Come To Aid Madge In A Difficult Situation?

The movie theatre was darkened for the second run when we reached it, and we had difficulty in finding seats.

At last the usher found two about midway down the hall, next the wall, and we climbed over a number of sentimental people to our places. We had no means of knowing whether or not Miss Dean was in the house, and I, to my mind an unusually discreet and uninteresting one, had been run out of the theatre for some time.

There she was, my husband exclaimed in a tone which he forgot or didn't care to lower. At any rate it turned several heads in our direction, and made me blush back flushed and resentfully embarrassed at the attention we were attracting. He nudged me as he spoke, and I followed his glance to a point almost directly opposite us, but on the other side of the theatre, where Bess Dean was seated. The flame-colored gown she wore at the Stockbridge reception, at the time of the "evil eye," the wearing of the head bags around the neck, the rubbing of the skin and catarrhs on the face, had been seen in the picture.

What do you know about that? Alice muttered in a tone that betrayed her interest.

DIARY OF A FASHION MODEL BY GRACE THORNCLEIFF. Solving the Problem of An Afternoon Gown Which Expresses Coolness.

I am in search of an afternoon gown which expresses nothing but coolness, and won't soil easily. Is there such a magic rock, Madame? Inquired Mrs. Roberts.

"I think we can find you one somewhere on the premises," laughed Madame. "The coolness is easy, the fluff is a little more difficult."

"Those are the absolute requirements, Madame, and I know you can be." Mrs. Roberts inquired.

"It is going to be very lovely," parried Madame. "In answer to 'must express nothing but coolness,' I suggest a Georgette crepe. 'Won't soil easily,' means it must not be white, and yet it must be light. There are only two colors to choose from, champagne or grey."

"I like grey, Madame, but I have had so many grey gowns, I think I'll take the champagne color this time," she laughed.

"That would be a lovely choice," replied Madame.

Madame then set her mind upon designing the dress in question. "Champagne Georgette crepe is a delightful summer fabric. It really expresses nothing but coolness, and will not soil easily. I am sure you couldn't

MY HEART AND MY HUSBAND ADELE GARRISON'S NEW PHASE OF REVELATIONS OF A WIFE

Has Alice Holcombe Come To Aid Madge In A Difficult Situation?

The movie theatre was darkened for the second run when we reached it, and we had difficulty in finding seats.

At last the usher found two about midway down the hall, next the wall, and we climbed over a number of sentimental people to our places. We had no means of knowing whether or not Miss Dean was in the house, and I, to my mind an unusually discreet and uninteresting one, had been run out of the theatre for some time.

There she was, my husband exclaimed in a tone which he forgot or didn't care to lower. At any rate it turned several heads in our direction, and made me blush back flushed and resentfully embarrassed at the attention we were attracting. He nudged me as he spoke, and I followed his glance to a point almost directly opposite us, but on the other side of the theatre, where Bess Dean was seated. The flame-colored gown she wore at the Stockbridge reception, at the time of the "evil eye," the wearing of the head bags around the neck, the rubbing of the skin and catarrhs on the face, had been seen in the picture.

What do you know about that? Alice muttered in a tone that betrayed her interest.

DIARY OF A FASHION MODEL BY GRACE THORNCLEIFF. Solving the Problem of An Afternoon Gown Which Expresses Coolness.

I am in search of an afternoon gown which expresses nothing but coolness, and won't soil easily. Is there such a magic rock, Madame? Inquired Mrs. Roberts.

"I think we can find you one somewhere on the premises," laughed Madame. "The coolness is easy, the fluff is a little more difficult."

"Those are the absolute requirements, Madame, and I know you can be." Mrs. Roberts inquired.

"It is going to be very lovely," parried Madame. "In answer to 'must express nothing but coolness,' I suggest a Georgette crepe. 'Won't soil easily,' means it must not be white, and yet it must be light. There are only two colors to choose from, champagne or grey."

"I like grey, Madame, but I have had so many grey gowns, I think I'll take the champagne color this time," she laughed.

"That would be a lovely choice," replied Madame.

Madame then set her mind upon designing the dress in question. "Champagne Georgette crepe is a delightful summer fabric. It really expresses nothing but coolness, and will not soil easily. I am sure you couldn't

Of course, Cousin Bruin would have been cross, but he wasn't so very hungry, for he had had a pretty good lunch of mussels. He had had his swim in the sea, and he was now feeling a coming appetite, and he now felt a "Jimmy Coon" this is a very pretty sight to see all in your pantry shelf. All these little animals seem to enjoy themselves, but what do I get out of it?

to acknowledge that Dicky's criticism was in part justified. Alice Holcombe did look old, and she wasn't her usual well-groomed self. Her wonderful hair had evidently been done up hastily, she had on the same suit she had worn in her classroom that afternoon, and her whole appearance suggested that she had been lying down and had hastily arisen and come to the theatre.

The conviction came to me suddenly that this was just what she had done. With a little flame of anger at my heart I saw the whole mean little scheme of Bess Dean's as if I had been present when she had unfolded it.

With the idea that her own youthful prettiness would stand out more strikingly against a dull she must have pursued a compelling motive for so doing. With a construction of my throat I knew that my friend had come to the theatre regardless of her own appearance because she fancied she might in some way aid me in a difficult situation.

Another realization came to me, Alice Holcombe was too clever to allow her associate to see her unless she had a compelling motive for so doing. With a construction of my throat I knew that my friend had come to the theatre regardless of her own appearance because she fancied she might in some way aid me in a difficult situation.

Health and Happiness

Women of today seem to listen to every call of duty except the supreme one that tells them to guard their health. Home duties, church duties, war activities, and the hundred-and-one calls for charitable enterprises soon lead women to overlook their health, headaches, backaches and female troubles are the inevitable result.

Philadelphia, Pa.—"I was very weak, nervous, my back ached, and I felt sick most of the time. I went to a doctor and he said I had nervous indigestion, which, added to my weak condition, kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness. Health and happiness? Yes, I have both now."—Mrs. J. WORTHING, 2847 North Taylor Street, Philadelphia, Pa.

The majority of women nowadays overlook, there are so many demands upon their time and strength; the result is invariably a weakened, run-down nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. Avoid them by taking in time

Maxwell

—a car made of more brains than metal

SO much material and so much labor go into every car. And so many bookkeepers record the business done. Have you ever stopped to consider the brain power that goes into a car?

Take the Maxwell, and note such men as these employed in its development:

1. The originator of quantity-production in the automobile business and the master mind in the employment of machinery to produce quantity.
2. One of the two leading production men on the continent.
3. One of the two leading metallurgists on the continent.
4. One of the leading foundry engineers on the continent.
5. Probably the leading cost man on the continent.
6. A road testing engineer who has driven a car further than any living man.
7. An accountant who keeps a daily balance in a business that exceeds \$50,000,000 a year.

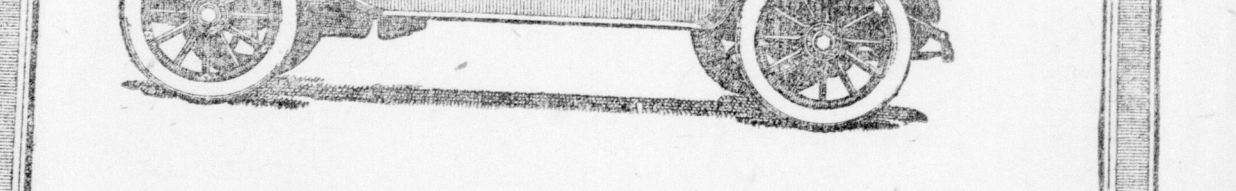

These are but seven of more than thirty men of exceptional capacity who team together in the operation of the Maxwell business. The career of any one of these men furnishes a great human story.

The result is evident in the Maxwell of today—a car with a lineage of 300,000 before it. All designed and built on the original chassis program.

It is a car that grows better day by day. Because more brains than metal are put into it.

IN MEMORIAM.
COMFORT—In loving memory of our darling, Murray, beloved child of Mr. and Mrs. Alfred Comfort, who died one year ago, June 1, 1918.

He, like a little faded flower, was lying quiet and still.

His sweet blue eyes were closing, but little hands were still.

When on that June day the Savior came to ramone his flowers.

He came to gather lilies, that day he gathered our dear ones.

Sleep on, dear Murray, and take your rest.

We miss you most who loved you best—Mother, Father, Brother and Sisters.

"Why, of course! Send them to the Forest City Laundry Dry-Cleaning Department, and have them cleaned and dyed to the latest fashionable shade."

"Well, Kate, I always did like this blouse, and was only too sorry when it got soiled so, but I never thought it could be brought back and made fit to wear."

"Well, that's because you didn't know the Forest City Laundry like I do. See this suit I am sending. That's the third one I've had done over by them. They do such lovely work, and give you practically new things out of your old ones. You'll see."

Chicago, May 31.—Butter receipts turned the corn market downward today, and did much to relieve traders from misgivings that there would be a month-end squeeze of shorts. Selling, however, was not aggressive. Many dealers were absent in consequence of a personal opinion of crop conditions. Opening prices were followed by moderate rallies, lower, were followed by moderate rallies. The close was 1 1/2c net higher and unchanged, July, \$1.66 1/2; 1 1/2c; September, \$1.54 1/2.

Oats were easy with corn. After opening at 1 1/2c, the market recovered somewhat.

WEEKLY FINANCIAL REVIEW. New York, May 31.—Operations on the stock exchange this week were limited to four full days, but this did not materially diminish the volume of trading, the daily turnover, ranging from 1,400,000 to two million shares, indicating an undertone of caution, however, resulting not so much from firmer money, but from general desire to profit over the protracted holiday because of the critical conditions abroad.

This tendency naturally manifested itself in stocks which recently enjoyed special speculative favor, notably today's showing by the large bond market, and the recovery of the bond market and contributed to the success of several heavy capital issues, including a \$10,000,000 South American municipal offering. Rates on London, Paris and Rome were again extremely unattractive, but this long-standing condition was an affirmative effect on British and French war flotations, while the Russian issues in this market strengthened substantially.

TORONTO STRIKE

TORONTO CAR MEN TO TAKE STRIKE VOTE

[Special to The Advertiser.]

Toronto, May 30.—The general strike in Toronto today tied up 255 factories of the metal trades industries, 40 factories engaged in the garment industry, and seriously hampered construction work on many buildings in Toronto, large and small, through the decision of the metal trades shops which had been running since the strike of the metal trades, and they were independent of the policy of the metal trades branch of Employees' Association and had signed the schedule of the council. The metal trades council closed these factories today, and thus tied up industry more securely than during the past four weeks.

Carpenters Out to a Man. The 40 factories of the garment-making industry were forced to close through the strike of 1,600 garment workers, who had been out since last night, when it was estimated 20,000 men would be out. Tonight it was announced that about 5,000 are on strike. It is stated, however, that the plan is to make it a progressive strike, various craft being held in readiness to go out on a moment's notice when summoned by the committee of fifteen.

There are 30,000 union men in Toronto. The general strike, to the spirits most active in the movement, is not a failure. Under the circumstances they declared that they could not expect a larger response, and believe that by Monday the ranks of the strikers will be considerably augmented by workmen from other unions.

Expect Street Car Strike. They are of the opinion that the street railwaymen, realizing that they must fight in any event, will decide on Saturday night to join the metal trades and other strikers. Then, with their strike action for steam engineers, they declare that they can tie up other industries. There are a considerable number of street railway workers who will hold to their agreement with the company until it expires, June 16.

There was considerable feeling among the strikers today through the efforts of certain individuals to lay their responsibility for the present unrest to foreigners.

There was no disorder today and beyond the gatherings of idle workmen at the Labor Temple and throughout the city, there was no evidence of such a general strike as seen.

Firemen Take Ballot. The situation was the decision of the civic council to hold a ballot to determine whether or not they may go out ultimately is a question for future consideration. The ballot was given to understand by the former fire chief that their positions were permanent.

With the best of intentions, the unions whose membership are chiefly in public utilities, formed a public utility council. Its temporary office declared that there was no such thing as a sympathetic strike, but it was admitted that it would be similar in many respects to the different federations of unions throughout the country. Policemen, if the council is constituted, can be admitted to the body. It is along the lines of the recent development of trades unionism. The council would control some 14,000 workers.

The Civic Employees' Union will not join in the sympathetic strike, but they are not sure they may go out ultimately is a question for future consideration. The ballot was given to understand by the former fire chief that their positions were permanent.

Considerable unrest is shown by the members of the Toronto fire department, who are members of the International Association of Fire Fighters. Increases to all men in the fire department below the rank of captain was refused by the city council.

Chief of Police Grasett was authorized by the board of police commissioners to suspend any fireman who refused to accept whatever money was necessary to make the work of the department.

It is in every respect. This is taken to mean special preparations for possible trouble in the city.

It was stated here today that at the Toronto fire department yesterday one of the men who would be asked to arbitrate was made by the metal workers' representatives. Their terms, which the employers rejected, were that the men return to work at the same wages, overtime and general working conditions be arbitrated.

Seemed Near Settlement. It was at this point that Sir Robert Borden thought the parties were very close together, but after considerable discussion the employers would not accede to the 44-hour demand. They insisted on leaving that to be arbitrated.

The situation in Toronto at present is that the metal trades are entering their fourth week of strike. The committee of fifteen were elected at last Monday's convention of organized labor with power to call a general strike on Wednesday morning.

Money, however, deferred until the morning at 10 o'clock. The committee of fifteen are not compelled to call all unions, who voted to strike out at once. They apparently have adopted the method of calling certain unions out each day.

Today they received word from various parts of the city as to the numbers of men who have been called out by the various unions. They are guarding carefully the names of the unions called out, and the next in line.

Street Car Men Stick. The street railway men will not go out on strike this week, at least. Their special committee today called a mass meeting of the men for midnight on Saturday, to discuss the matter.

At this meeting the issue of joining in the sympathy strike will be decided. According to the constitution of the union, a strike vote must have been given by two-thirds of the members present, and voting order to take effect.

N. M. McLean, one of the special committee of the car men, said that it would be awkward for their own cause if they went on strike now because their agreement expires on June 15th.

The street car men are asking on that date for an 8-hour day, and 55 cents an hour, for 15 days. It is estimated would add \$1,750,000 to the T. S. payroll.

Frank Watkinson, business agent of the carpenters, said that 2,000 carpenters went out today in sympathy with the metal trades. The carpenters are being called for a mass meeting in the Labor Temple on Sunday afternoon.

Employers' Offer Withdrawn. The offer of the employers to arbitrate with the metal trades strikers that was made at the conference with the Dominion Cabinet in Ottawa yesterday, has been withdrawn. James G. Merriek, secretary of the Toronto Employers' Association in this connection made the following statement today:

"The offer to arbitrate is off. It was made yesterday, but the metal trades representatives yesterday, when the offer was made, that it was made on two conditions, namely, that no general strike be called in Toronto, and that the men go back to work at once."

The striking machinists have as yet received only one strike pay, though they have been on strike all this month.

They were supposed to have received their first pay at the end of the second week. The rate is \$8 for married men, and \$6 for single men. There was a bit of uncertainty at the Labor Temple as to the date of the next payment.

Mayor Appeals For Order. An appeal by the mayor to the citizens to preserve law and order, and the statement that a citizens' committee had been formed, prepared to assist the authorities in every possible way, if needed, were the outstanding features of developments at the city hall.

Statement by the Employer. The special committee representing the metal trades section of the Employers' Association, which recently conferred, without effecting a settlement, with representatives of the metal trades council, today issued the following statement:

To the Citizens of Toronto: We feel it fair to you, who will undoubtedly be inconvenienced by the strike which has been called in the city of Toronto, that you should know that the employers in the metal trades offered the following proposals on condition that the threatened general strike was not to be called:

1. The adoption of an eight-hour day as embodied in a 48-hour week, arranged so as to give Saturday half holiday.

2. Time and a half for overtime, with double time for Sundays and legal holidays.

3. The reinstatement of the men on strike without discrimination.

4. Acceptance of the principle of "collective bargaining."

5. To pay the same wages per week for 48-hour week as has been paid in the hope prior to the strike for 40, 45 or more hours.

6. Finally, so as to avoid the possibility of a strike, to accept and abide by the decision of an independent arbitration as to what number of hours should

BRONZE MEMORIAL FOR WAR HEROES KILLED IN ACTION
Middlesex County To Erect One For Those Who Laid Down Their Lives.
The London Chamber of Commerce will make an effort to secure the big convention of the Grand Lodge of the I. O. O. F. for London in 1920. It was decided Friday at the meeting of the directors to send a representative of the chamber of commerce to the grand lodge convention to be held in Toronto the following month to present an invitation and urge the claims of London for consideration.
Further, the directors decided to offer a trophy for the canton having the largest representation in uniform in the procession, in the event of the meeting in 1920 being held here. A representative from the city will also go to Toronto to offer the hospitality of London.

Co-operative Advertising.
The chamber of commerce has decided to enter into an agreement with the Heston Agency of Toronto, for a co-operative advertising plan for industries in Ontario. It will be possible by this means, to spread the net further for industries in this city and section of the country. Several members of the chamber who are interested in industrial advertising met with the board of directors today to discuss the matter and give information.
To Meet Outdoors.
A special committee of the C. of C. will co-operate with G. W. V. A. in regard to small holdings of land for soldiers, and will call a meeting in the near future of representatives of municipalities, etc.
The next general meeting, it was decided, will be an outdoor affair, at Port Stanley or Springbank, owing to the difficulty of holding a membership meeting indoors in the hot weather. A special committee will arrange for the meeting-place, date and program.

THE HORTICULTURAL SOCIETY'S TULIP SHOW.
To the Editor of The Advertiser:
The strain and anxiety of the times we have been through have worked upon the nerves of even the most philosophical amongst us, and the horticulturist, whether he be a trade grower or private gardener, has endured greater days for these four years past. It was therefore somewhat of a surprise when a burst of sunshine brought forth clouds and blustering storms just to foregather the tulips and the gardeners, for both of the public utilities building, for both of the sight of the really grand display of tulips and the greetings and chats with old acquaintances helped in a wonderful way to relieve the tension of mind and carry us back awhile to the time when we were wont to enjoy such functions as this more frequently, but which seldom came these days.

Those of us who are familiar with the ways of exhibitors, and have seen how good a show has sometimes been got together, even in most unfavorable seasons, went to the show in full expectation of finding something well worth seeing, but I am inclined to think that nobody anticipated so excellent a show as was there awaiting us.
One exhibitor remarked to me that as he was preparing his exhibit at home he chucked at the thought of the sen-
