WALLACEBURG'S ROLLER RINK

Was Formally Opened To
The Public Last
Evening

Chathamites Attend And
Show 'Burgers How To
Do It

Wallaceburg's new roller rink was formally opened to the public last evening. The opening was a grand success from every point of view, and the Burgers can now feel happy in the possession of an up-to-date little place of amusement.

The Wallaceburg rink building is a substantial little affair. It is not nearly so large as the Tecumseh Roller Rink of this city. The floor of the rink is not a great deal longer than the Chatham rink is wide, and the roof being lower, the ventilation is not so good. The skates used on the Wallaceburg rink are made of iron, the rollers being of the same material. They are heavy, stick to the floor, and are not as fast as the Tecumseh roller rink skates. The iron skates have the effect of cutting up the floor and making it rough and uneven. But then, it is quite a creditable little rink for a town the size of Wallaceburg, and the Burgers should be glad to have a pretty fair imitation of the swell, up-to-date place of amusement in which Chathamites disport themselves.

One feature of the opening of the Wallaceburg rink which deserves special mention, was the music rendered by the band. This was all that could be desired, and there were many complimentary remarks passed about it. The music was very appropriate, and the band played up well, so that it could be distinctly heard above the roar of the skates. Two big carloads of Chatham young people went to Wallaceburg last evening to attend the opening, and showed the Burgers how they do the stunt in Chatham. The result was that the majority of the skaters were from this city. The grand march, held during the evening, was led by George Watt and Miss Burnie.

All who went from this city greatly enjoyed the event, and were much pleased with the courtesy shown them by the management of the rink, and the Wallaceburg people in general. Had the event been properly advertised the attendance from this city would have been much larger.

W. L. M. KING TO RUN

That W. L. Mackenzie King, Deputy Minister of Labor, will be the Liberal candidate in North Waterloo, is the latest political rumor. Joseph Seagram, M. P., is at present North Waterloo's member, and he has stated that he will run no more. The Liberals are hoping to redeem the constituency, and the drift of their talk indicates that they think the young Deputy Minister is the man to do it.

He was born in Berlin, and received his early education there.

TO-DAY'S NEWS AT BRADLEY'S

MR. COSTE WILL RUSH THE INSTALLATION OF PURIFIERS

Well Known Oil And Gas Man Says That The Project
To Pipe Tilbury Gas To Detroit Is A
Wild-Cat Scheme

D. A. Coste, of the Volcanic Oil and Gas Company, arrived in the city from Niagara yesterday. Mr. Coste will return to Niagara at once after concluding some important business. Seen by a reporter yesterday, Mr. Coste said:

"Yea, it is right that our purifiers were ordered weeks ago, and I cannot understand the reason that they have not arrived before this, unless there has been some delay in transportation. However, once they arrive here there will be no delay on our part in getting them set up and in working order."

Mr. Coste had also something to say about the exclusive article appearing in this journal a few days ago, relative to the American capitalists who are talking about piping gas from the Tilbury fields to Detroit.

"It is a wild-cat scheme," said Mr. Coste. "These Detroit fellows have no more idea of doing that than I have of flying. Why, the Tilbury

field could not supply Detroit with gas. The product could not be found there in sufficient quantities to make it pay. There is just enough gas there to supply Chatham, Blenheim, and a few of our towns on this side of the line."

"How do you account for their engineer being in the city, then, if the American capitalists were not thinking seriously about doing something?"

"Oh, possibly he was sent here by some fink company who are selling stock in an alleged concern to pipe Detroit with gas. These sort of fake companies are a common thing over there, and the fact of their sending a well-known engineer over to look over the field would have a tendency to make the easy marks believe there was something in it, and take a chance with their money. It's a fact, I don't think the thing will ever materialize. In the first place, I don't think our Government would ever allow them to pipe our gas over to Detroit anyway."

The Site Has Been Selected For Wolverine Brass Works

The site for the new Wolverine Brass Factory has been selected, and was made known to The Planet this afternoon by Mr. L. A. Cornelius. The new building will be located in North Chatham on the corner of Stone and St. Clair streets. The lot is 150 feet by 400 feet. The building will be set back about 25 feet from the street and the front lawn will be modern and up-to-date. A fine row of maple trees which are along the front will be left standing, and flower beds, etc., will also add to the beauty of the lawn.

The contract for the building has been let to John Piggott & Sons, and according to its terms the factory must be completed by November 20th. The specifications have been somewhat changed. The front will be of pressed brick and instead of it being a two story and basement building it will be a three story building. The price of the contract has been raised and a better building than was contemplated will be erected. It has also been enlarged, an additional boiler and engine room 20x20 feet having been added.

The site is a good one, and undoubtedly in the course of a few years North Chatham will be one of the best business portions of the city.

THIS CASE LOOKS MYSTERIOUS

A Tilbury Man And Young
Girl Have Evidently
Eloped

They Left Their Rig At
Lethbridge's Stables—
Police Notified

Last night the police of this city received a telephone message from Tilbury to the effect that a livery horse and rig had been taken from that place and not returned. It was thought that the parties who took it drove to Chatham. The description given was as follows: Sorrel mare, 12-year-old, red geared buggy, black top. Tall man, about 30 years old, wearing a brown hat, accompanied by a girl about 15 years old. Shortly afterwards Officer Daulton located the rig at Lethbridge's livery stables. It talked exactly with the description, and Harry Lorry told the policeman that it had been left there by a man and a girl Tuesday night.

A Planet reporter called at Lethbridge's this morning, and saw the rig and horse. The horse is rather a lean, worn-out looking affair, but the buggy is quite new and up-to-date.

"Some fellow called here with it Tuesday night," said Harry Lorry. "Mr. Lethbridge was out at the time, and there was no one here but myself. I did not take particular notice to either the man or the girl, but they did not seem to know very much about the city, as they asked where the Rankin House was located. The man told me he came from Fletcher, and that he would be back for the horse and buggy Wednesday. He never showed up."

Underneath the seat of the buggy the reporter found some paper in which a lunch had evidently been wrapped up, as there were pieces of cake lying around. Mr. Lorry says that the man carried a telescope valise.

Very little could be found out about the mysterious pair, outside of the information that they left for Detroit, and it was thought that they were a runaway couple from Tilbury or that vicinity.

GEORGE WON THE WAGER

Popular Manufacturers'
Agent Is Game And No
Mistake

Doc. Smith And Teller
Thompson Have To Pony
Up As A Result

George Heyward, the genial tea and oil merchant, figured in a new role last night. Pedestrians on King street last evening were much amazed to see Mr. Heyward's erect and dignified figure perched on the driver's seat of Marsh Anderson's hack. George looked neither to right nor to left, but held the reins daintily, in English fashion, and drove straight ahead. Some of his friends have since been inclined to believe that he missed his profession, and think that he might have lent honor and dignity to the calling of the Jehu, as an illustrious driver of hacks.

There are two sides to the story. One is that while Mr. Heyward, Dr. Neil Smith and Cashier Thompson of the Standard Bank were standing in front of Hotel Garner last night, a bet was made that the former would not drive the two other gentlemen around the block in Marsh Anderson's hack.

"I'm game," said George, and he quickly jumped up on the driver's seat, Dr. Smith and Mr. Thompson getting on the inside looking out. Sure enough, Mr. Heyward drove around the block all right.

"I've won the wager," he proudly announced.

Just then the other two gentlemen came from behind him, and commenced to give him the haw haw laugh. They claimed that they got out unnoticed to the driver at the Harrison Hall corner, and walked the rest of the way to the Garner, thus winning the wager that Mr. Heyward would not drive them around the block.

"They did no such thing," Mr. Heyward says. "They couldn't get out of that hack without me knowing of it. Let me tell you they had to pay the wager, too."

SUCCESSFUL CONCERT

A very successful concert was given on Fred. Collins' lawn, Victoria avenue, Tuesday evening, under the auspices of Victoria Avenue League. C. H. Mills presided over the program, which was as follows:

Addresses—Robert Milner, Rev. W. H. Graham, B. A., A. B. McCoig and the chairman.

Solos—Miss Clements, Miss R. Maggs, Miss Cameron, Mr. Cunningham, Mr. Wightman and Mr. Gam-mage.

Recitations—Miss Mattie Haviland, Duett—Misses Cameron and Maggs.

Selections were rendered by the mixed quartet and the ladies' quartette.

The accompaniments were rendered by Miss Pearl Maggs.

RINK OPEN TO-NIGHT

The Tecumseh Roller Rink will be open to-night. The band will be in attendance and the Grand March will be put on. A large crowd is assured and a good time expected.

Business Office 222 Editor's Room 102

INCREASED COST OF LIVING.

That there has been a marked increase in the cost of living admits of no question. It exists pretty well alone the whole line, and is general, not local. It is not to be wondered at, either, for it could not reasonably be otherwise with the increased cost of manufacturing or carrying on business. The increases in wages and the shortening of the hours of labor in all lines of work which is responsible for the other is perhaps not a matter of great importance. It is a condition, not a theory. The civil servants at Ottawa are making the increased cost of living the basis for a request for increase in their salaries, and have presented a remarkable document to the Government in regard to the increased cost of the necessities of life. These figures are given and compare very well with the condition generally prevailing in Ontario.

Meats: Fresh meats and bacon have increased from 45 to 50 per cent. in the past ten years. This is a thoroughly conservative estimate. In some lines, as for example, poultry, the increase has been much higher, ranging from 40 to 116 per cent. The lowest rate of advance shown in the whole table is 25 per cent., the advance which is recorded for sausage. Bacon has advanced 45 per cent.; beef 50 per cent.; veal 57 per cent.; and 75 per cent. advance on mutton.

Tinned meats have increased about 30 per cent.; and tinned fish in the neighborhood of 25 per cent.

Fish: Staple fresh fish, including salmon trout, white fish and halibut have advanced 30 to 50 per cent. Fresh herrings have doubled in value; rarer varieties, such as the brook trout, have trebled. Salt fish have remained in some lines unchanged, but salt herrings have increased 40 per cent. Tinned salmon and sardines have advanced 20 per cent. and tinned lobsters 20 per cent.

Dairy produce: The most advanced price is demanded for eggs, the statistics showing that eggs are fully 50 per cent. higher than they were ten years ago. Butter is on an average 25 per cent. dearer, and milk 20 per cent., while Canadian cheese costs 28 per cent. more than in 1897.

Groceries and other provisions: It is difficult to generalize with precision, but householders probably find that food products other than meats and dairy produce have increased 20 per cent. It is noticeable that the commodities which have shown the largest advances are among the most important to the housekeeper.

Some of the most representative advances are: Flour, 20 to 25 per cent.; rolled oats, 20 per cent.; tapioca, 50 per cent.; macaroni, 20 per cent.; bread, between increase in price and decrease in the weight of the loaf, 40 per cent.; confectionery, 30 per cent.; tinned vegetables, probably 30 per cent.; tinned fruits, 25 per cent.; potatoes, 40 per cent.; maple syrup, 20 per cent.; spices, 15 to 20 per cent.; tea, cheaper grades, 16 per cent.; dried apples, 60 per cent. Under fruits, apples have advanced 40 per cent.

Pickles and sauces, jams and jellies, soaps and the few other lines which have not shown material increases, are upward in tendency and promise to move forward in the near future. Sugar is subject to periodical fluctuations and has been on a considerably higher level for the past six months than at the same time ten years ago.

Dry Goods—General dry goods have shown a decided advance. Typical examples are: Shirting, 20 to 27 per cent.; sheeting, 24 to 29 per cent.; factory cottons, 25 to 60 per cent.; prints, 25 per cent.; muslins, 20 to 25 per cent.; ginghams, 20 to 25 per cent.; flannelettes, 20 per cent.; flannels, cashmeres, mohairs, lustras and silks, 20 per cent.; linens, 25 per cent.; tweeds, 30 per cent.; threads, 20 per cent.; ribbons, 25 per cent.; blankets, 30 per cent. Many other staple lines also show decided advances. It would be safe to estimate the general increase at 20 to 25 per cent.

Clothing—It was the consensus of opinion that clothing had advanced to the same extent as dry goods. Men's suits cost 20 to 30 per cent. more, and underwear about 20 per cent. more. Men's furnishings are on the whole 20 per cent. higher, advances being promised for the autumn.

Millinery has greatly increased, and such lines as have not increased in price have decreased in quality.

Footwear—The average advance shown is probably 20 per cent. The \$3.50 boot of '97 now sells for \$4.00 and \$4.25. Repairs are 25 per cent. more expensive. New soles were pre-

MANY WERE SUCCESSFUL

The West Kent Entrance Results Have Been Issued

There were Comparatively Few Failures—Clever Kent County Pupils

The West Kent Entrance examinations yesterday afternoon completed their work of examining the papers of the candidates at the various centres outside Chatham. A list of the successful candidates is given below, with the total marks obtained by each. The marks of the unsuccessful candidates have been mailed them. Successful certificates of the successful candidates will not be forwarded till later in the summer.

MERLIN.

L. Armstrong 404, M. Armstrong 466, J. Barry 395, H. Beattie 404, F. Bell 399, E. Bennett 407, C. Blue 395, B. Broadbent 404, F. Coates 399, E. Cumming 428, A. Dillon 397, E. Dillon 391, G. Freeland 399, E. Gardiner 391, M. Gardiner 407, C. Gernaey 417, E. Johnston 467, C. Little 498, M. McCutcheon 392, G. Mills 452, E. Murray 441, M. Murray 441, O. Pardo 390, W. Pardo 401, G. Pilon 392, A. Powell 405, F. Randall 439, L. Sales 392, C. Shadd 398, M. Shanks 396, W. Shepley 406, C. Simpson 441, A. Smart 474, L. Sykes 397.

Out of 42 candidates at Merlin, 34 were successful. The average age of the successful candidates was 12.5, the lowest of any centre in West Kent. The leading candidates were, Carl Little, S. S. 10, Raleigh, Miss Margaret Gray, teacher, 498 marks; and Addie Smart, S. S. 4, Tilbury, Miss Swisher, teacher, 474 marks.

TILBURY.

M. Beno 395, R. Beno 407, F. Benoit 338, F. Bourdeau 401, A. Buchanan 422, H. Buchanan 405, A. Caron 396, G. Chalmers 395, S. Chalmers 394, M. Denner 408, A. Duquette 390, M. Ferguson 395, M. Henderson 390, N. Keith 460, M. Leboeuf 400, I. Lefave 449, M. Marchand 399, E. Middleton 399, F. Mills 399, M. Mills 393, H. MacPherson 392, J. McKibben 404, W. McKibben 396, M. Norry 393, W. Ouellette 437, K. Quinn 432, H. Rozeal 410, A. Sales 399, A. Soules 408, F. Sylvestre 391, L. Sylvestre 392, N. Traebaud 454, E. Tremblay 394, P. Trepanier 410, W. Vickerman 432, A. Walker 393, A. P. Wilson 429.

Out of 48 candidates, 37 were successful, the average age being 13.2. The leading candidates were, Nettie Keith, Tilbury Public School, Miss Pearl Code, teacher, 460 marks; and second, Nellie Traebaud, S. S. 3, Tilbury North, Miss Valeri Phaneuf, teacher, 454 marks.

WALLACEBURG.

G. Anderson 443, H. Brown 396, H. Buttermann 536, I. Cameron 436, S. Clancy 588, L. Clancy 519, E. Clark 447, M. Clutterbuck 439, D. Cosins 560, B. Coveny 461, A. Coveny 397, P. De Gurs 490, C. Dayo 411, N. Fisher 461, R. Fourn 461, I. Gillard 432, E. Haley 429, M. Harper 402, B. Harris 459, M. Harvey 396, E. Heath 449, M. Heatherington 495, E. Irwin 396, J. Johnson 437, M. Johnson 437, G. Leonard 474, M. MacDonald 436, V. McDonald 500, J. McGuire 472, R. Murphy 415, A. Neaves 421, E. Normandin 395, L. O'Donnell 557, R. O'Donnell 395, M. Rennie 398, C. Richardson 393, W. Riddle 391, B. Schaaf 488, J. Scott 402, E. Shaw 481, F. Smith 392, R. Stewart 425, C. Stonehouse 494, L. Taylor 392, A. Taylor 412, E. Teeter 396, P. Teeter 475, I. Wallace 439, G. Wickens 394, H. Wilson 392, M. Zavitz 499.

Out of 80 candidates, 51 were successful, the average age being 13.8. Head of the list, Stanley Clancy, 588. He is a pupil of Wallaceburg Separate School, being taught by the Ursuline Sisters. He is not only head of the Wallaceburg list, but head of the list for the entire inspectors of West Kent and Chatham, leading the highest candidates at Chatham by a few marks. Second on the list, DeWitt Cosens, Wallaceburg Public School, Miss Sara Walker, teacher, 560 marks.

WHEATLEY.

M. Bachelard 408, L. Crew 463, M. Derbyshire 417, I. Derbyshire 567, A. Emerson 531, W. Imeson 453, D. Kennedy 391, F. Livingstone 494, F. Liddle 391, M. Merrifield 408, G. McLean 392, E. Nash 393, M. Peew 450, R. Plaster 394, H. Reynolds 401, H. Warner 464, K. Warner 395, R. Watson 541, L. Wharram 461, M. Wickwire 449.

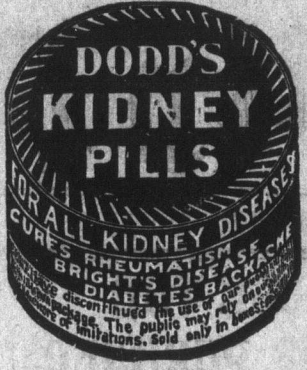

Out of 25 candidates 20 were successful, the average age being 13.8. Head of the list, Ivan Derbyshire, S. S. 1, Mersea, Miss V. Lowry, teacher, 567 marks. Second, Rheta Watson, S. S. 1, Mersea, Miss Lowry, teacher, 541 marks.

The memorial also draws attention to the increase of house furnishings, house rent, professional charges, etc.

STEEL KNIFE IN THE FLESH.

That's the sensation experienced by Robert Price, of Heston, Ont. He knew it was scalding and of course used "Nerviline." As usual, it cured and he says, "No liniment except Nerviline." He says, "I was like a steel knife running through the flesh. I rubbed in lots of Nerviline, and was completely cured." A regular snap for Nerviline to ease Sciatica and rheumatism. It sinks into the core of the pain, cures it in short order. Large 25c bottles at all dealers.

To say little and perform much is the characteristic of great minds.

SOCIAL AT OUVRY

Under the auspices of the English Church at Ouvry a very successful lawn social was held Tuesday evening on the lawn of Wheeler De Clute.

The crowd was large and a varied and lengthy program was given. G. W. Sulman acted as chairman.

The following was the program: Remarks—Rev. G. McQuillan. Chairman's Address. Vocal Solo—Ross Robinson. Solo—Miss Laura Smith. Violin Solo—Alfred Barker. Speech—H. S. Clements, M. P. Solo—Dr. Oliver, Merlin. Solo—C. O. Wragg. Solo—Miss M. Toll. Speech—G. W. Sulman. Solo—Douglas Cameron. Solo—Silby Wood.

The evening was brought to a close by the singing of God Save the King.

HOW'S THIS.

We offer One Hundred Dollars' Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. Cheney & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Walding, Kinnear & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

THE LATE JAMES HOWE

The late Mr. James Howe, eldest son of Simon and Margaret Howe, was born in the Township of Madoc, Hastings County, April 27th, 1852. After receiving an education, he began business in the village of Bridgeport, where he married Eva A. Empey. Thirty years ago he, with the other members of the family, moved west, locating in Sydenham Valley, Chatham Township.

The deceased was an active, successful business man, of a genial, reserved disposition. He entered into the joys and sorrows of others in a real yet quiet way. To his home and family he was most devoted. Mr. Howe was a member of Salem Methodist church, which he attended as his failing health permitted. A little over a year ago he sought medical help in Chatham Hospital, and later in Victoria Hospital, London, but in spite of the combined efforts of physicians and nurses, anemia developed so rapidly that he passed away in London in the closing hour of July 3rd. His patience and fortitude during his illness were very marked. The family and friends derive much comfort from his expressions of confidence in God.

The funeral service was conducted by his pastor, Rev. G. J. Moorhouse, at his late residence, on the afternoon of July 6th, when a large number of sympathizing friends gathered to pay their last respects to the memory of one whom they all esteemed.

The Orange Order, of which he was a member, led the procession to the Dresden cemetery, where they conducted an impressive service.

The departed is survived by his wife, one son, two daughters, his mother, two brothers and four sisters, who know that their loss in his eternal gain.

THE AGONY OF PILES

ZAM-BUK GIVES SURE RELIEF.

A Farmer's Wife's Telling Testimony.

There is one sure way to ease for sufferers from piles! Just apply a little Zam-Buk and lie down for a few hours! Do it before going to bed, and you will be grateful for the ease which follows.

Mrs. Wm. Verriou, of Whittemouth, Man. says: "I must admit that Zam-Buk is a wonderful balm for piles. I had piles so bad that I could hardly walk, and I suffered intense agony. I used several ointments, but got no relief until I tried Zam-Buk. It cured me, and I have had no return of the trouble."

Mrs. E. Taylor, of Greenwood avenue, Toronto, writes: "For four years I suffered acutely from bleeding piles. During that time I spent an immense amount of money on 'remedies' and doctors' prescriptions, but got no ease. Zam-Buk was different to everything else I had tried, and it cured me."

Zam-Buk is a sure cure for all diseased, suppurating, inflamed, ulcerated skin areas, ulcers, abscesses, eczema, old wounds, chafed places, cuts, burns, insect stings, sore feet, sunburn, etc. All stores and medicine vendors at 50c a box, or Zam-Buk Co., Toronto, for price, six boxes for \$2.50.

There is always room for a man of force, and he makes room for many.

The Northway Co., Lt'd.

DISTRICT

BLLENHEIM

Blenheim, July 10.—Arch. O. Pickering, of Detroit, is visiting his brother, J. B. Pickering, Blenheim.

The local Orangemen will attend the celebration at Chatham July 12.

Misses Lela Crookshank and Eva Green attended the strawberry festival at Ouvry on Tuesday.

Charles Hall, of Thornduff, is visiting his daughter, Mrs. W. J. Baird, Blenheim.

Charles Ordish, of Toledo, has been a Blenheim visitor for the last few days.

Mayor Shillington was a London visitor on Tuesday as a member of the executive of the London conference of the Epworth League.

Misses Victoria and Lilla White are visiting at the home of Mr. Leslie English, near Chatham, at present, the guest of Miss Reeve.

The strawberry festival held at Mr. Wheeler D'Clute's last Tuesday evening was a decided success, financially and otherwise. Among those present were Messrs. H. S. Clements, M. P., and G. W. Sulman, of Chatham.

One rink of Blenheim bowlers will go to London on Monday, July 16, to take part in the tournament to be held there next week. They are W. C. White, J. H. Ferguson, J. W. Shillington and R. L. Gonnell skip.

Miss Nellie Labadie entertained a number of girls to tea last evening in honor of her friend, Miss Belle Bousall, who is here from Hamilton.

Not a little excitement was caused yesterday afternoon among the boys

by the swarming of a hive of bees, which took up a position on a telegraph pole at Dr. Langford's corner. After quite a lot of work Mr. A. Samson succeeded in getting them down and into a hive.

Mr. Geo. Featham, who has been visiting his father, Mr. Wm. Featham, Blenheim, left for Detroit on Monday en route for his home at the Soo by boat. His mother and sister accompanied him.

Mr. Herbert T. Baird, B. A., has been appointed to a position on the staff of the Bank of Commerce in Blenheim.

The Rev. G. Gilmore has moved down to Erieau and will occupy T. B. Shillington's cottage, "Genevieve," for a time.

Miss Sarah Labadie has returned to Blenheim after visiting in Chatham for some time.

Miss Alma Gibb left yesterday for Toronto, where she will spend the holidays with her grandfather, Mr. Arnold.

Mrs. J. K. Morris, who has been staying at "Brackstone Lodge" with her son for the past week, returned to town to-day.

Miss Clara Morgan has returned home to Blenheim from Woolsey, Sask., where she has spent the last six months.

Mr. A. A. Merritt, principal of the Blenheim Public School, left for Toronto this morning, having been appointed one of the associate examiners in connection with the Departmental Examinations held in that city.

TILBURY

Tilbury, July 11.—Miss Grace Vacher, of Windsor, is visiting relatives here.

Mrs. McMacken, who has been the

guest of the Misses Stewart, Carlyle avenue, left yesterday for her home at Ridgeway.

Miss Mary Milliken, of New Boston, Mich., is visiting friends here.

P. McArthur has severed his connection with the Sovereign Bank, and left on Tuesday to spend vacation at his home at Hensall. He will join the Home Bank.

J. I. Hill has returned from a business trip to Toronto.

The local chartered banks have issued notices that their business hours will be from 10 a. m. to 3 p. m. daily, and 10 a. m. to 1 p. m. on Saturdays.

Mrs. I. Wallace leaves to-day to spend a week at "San Juanita" cottage, Lake St. Clair.

Miss Ethel Godbolt, of Comber, was the guest of Miss Frankie Lee yesterday.

Mr. and Mrs. W. A. Johnson, Miss Gertrude Johnson and Miss Gertrude Sager leave to-day in their launch on a week's visit with friends in Dresden.

Mr. and Mrs. Wallace spent Tuesday in Leamington.

DYING FROM HEAT

Chicago, July 9.—Five persons died in Chicago yesterday from the heat. Ten more were stricken, and three of these may die.

The day was especially hard on young children, especially in the poorer sections of the city, and it is believed that many deaths occurred which were not attributed to the heat, but which in reality were caused by it.

I know of no failure, save failure in believing to the purposes which I know to be the best.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz., pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and purgative, nutritive and soothing demulcent.

Glycerine plays an important part in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, nervous feeling, constipation, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the Golden Medical Discovery is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvis. It is also a powerful and safe remedy for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchitis, throat and lung affections, except consumption to its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, long-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Golden Medical Discovery" is not good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or by treatment, lead to consumption, it is the best medicine that can be taken.

Support Bond.

London, July 10.—(C. A. P.)—The Scotsman has an able article on the deadlock on the Newfoundland question, supporting Premier Bond and pointing out that while the position demands conciliatory action on either side, Britain has hitherto conceded more than the United States.

Will Continue Legation.

Rio Janeiro, July 10.—The Chamber of Deputies yesterday rejected the amendment to the Foreign Office budget, suppressing the Brazilian legation to the Vatican.

IT RINGS IN YOUR EARS.

That same cough is everywhere you go, deep and hollow because consumptive. First it was catarrh, which could have been cured by Catarrh Remedy. Moral, never neglect a cold, never trifle with catarrh, go to your druggist and get Catarrh Remedy. It's instant death to colds, cures them in a few minutes. Throat trouble and catarrh disappear as by magic. Catarrh Remedy is the great throat, nose and bronchial remedy to-day. Thousands use it, doctors prescribe it—why, because it does relieve quickly and cures thoroughly. Two sizes, 25c. and \$1.00, at all druggists.

NEEDLEWORK NOTES.

The chief things to remember in cutting a dress skirt are not to stretch good edges and to allow enough length so that it can be lifted in the back without making it short at the sides.

In cutting out, so some tailors say, it is better to cut with the nap up, instead of down, as in cloth. This method is said to prevent rubbed spots, the material retaining its bloom for a much longer period.

Darning a tear in wool or silk or cotton material should always be done with ravelings, and where two kinds of thread are used in making the material it is well to use them in the same way in darning.

If you have a mottled bamboo screen frame, make panels for it from brown burlap with a border of a much lighter shade of the same material, four inches wide all around, burned with a big chrysanthemum design, and a handsome screen will be the result.

Minard's Liniment cures Dandruff

CUT OFF LIQUOR SUPPLY

Government Take Action in Regard to Cobalt Strike.

Hotels Must Not Sell—Express Companies Not to Carry Liquor—Penalty Will Be Cancellation of Licenses—Special Officers Appointed—Struggle May Be Prolonged—Miners and Lemieux Act.

Ottawa, July 10.—Mr. F. A. Acland, Secretary of the Labor Department, left for Cobalt at noon yesterday to explain to the striking miners there the provisions of the Lemieux act. The miners are evidently under the impression that the act does not apply to silver and other metalliferous mines. The act, however, compels investigation by a board of conciliation and investigation before a strike or lock-out can take place in any mine. Mr. Acland will endeavor to induce the strikers to apply for a board of conciliation and return to work pending its findings.

Hon. W. J. Hanna had a telegram from J. J. Finlan, mayor of Cobalt, and Foreland Reeves, chairman of the committee, yesterday, asking, on account of the strike, if the Provincial Secretary could prevent the express companies from carrying liquor to the town until the strike is settled. The hotelkeepers at Halesbury and Latchford, it was stated, had promised not to sell any liquor in packages.

The Government, Mr. Hanna said, had taken the matter up with the T. & N. O. railway commission and the express companies operating, and had urged that no express packages whatever containing liquor be forwarded pending the settlement of the strike.

The Government also gave instructions to the license commissioners in the district to see to it that the hotels at New Liskeard and Latchford do not sell any package liquor.

Should the hotels be found contributing to drunkenness the commissioners are so to report, and the licenses will be suspended or canceled.

The action of the Government is due to a fear entertained that the supply of liquor to the miners on strike might lead to serious mischief, and would seem to indicate that the struggle is likely to be a severe one.

It is definitely stated that the owners of Cobalt mines have banded together and have already taken steps to enlist the aid of the Ontario Government in settling the strike of miners.

Frank Loring, who arrived from Cobalt yesterday and wed upon the Attorney-General is credited with being the representative of the mine owners.

Mr. Loring says that the Government is expected to provide protection further than a special force of constabulary, and that the owners have determined that they will not recognize the union of miners and will employ whoever they choose. Many of the men would return to work if they were given protection. He says the men have practically gone out in a body in every mine, but the Foster. He considers the agitation largely the work of miners from the Western States.

It is estimated that about 2,000 men have quit work, and in local brokerage offices the outlook is regarded as serious.

GUNS FOR JAP WARSHIPS.

'Big Orders Were Placed With German Firm.

London, July 10.—The Berlin correspondent of The Daily Mail says that Admiral Yamamoto's naval commission, which has just left Germany, placed a big order with the Krupp for 12-inch guns for the new Japanese Dreadnoughts, which are being built in Japan and England. The order will take nine months to complete.

It is stated that it was given in Germany because the British works are already working to their full capacity to turn out Dreadnought armament for British and foreign ships. As many as 120 12-inch guns are now being built in England. The Japanese commissioners found that the British gunmakers had not expanded their plants proportionately to the demand for big guns created by the general adoption of the Dreadnought armament, while the Krupp, within two years, have enlarged their plant at Essen by extensions costing \$15,000,000, and increased the staff from 24,000 to 30,000 men.

Engine Turned Over.

Cobalt, July 10.—Between English and Earlton, on the northern extension of the T. & N. O. Railway, there are several bad stretches of track, which have given great trouble to the railway.

As a result of the heavy rains, a short distance from Earlton a portion of track sank yesterday morning, when a pulp wood train was going over it. The engine turned completely over, and the engineer, Thomas Gould, was buried under his engine.

The deceased was a popular resident of New Liskeard, and leaves a wife and two children and a sister there.

Traffic was delayed several hours.

No Bail for Schmitz.

San Francisco, July 10.—Judge Dunne yesterday refused to admit Mayor Schmitz to bail and denied him the privilege of visiting his attorneys.

Schmitz appeared in court to ask for bail and to answer the indictments charging him with accepting bribes from the gas company and the United Railroads. In the first he failed.

The second was a formality and was carried through without incident.

Australian Sugar for Canada.

Ottawa, July 10.—The Australian correspondents of the Department of Trade and Commerce have written that the Commonwealth is contemplating the sale of its surplus sugar in Canada under the preference.

Australia produced last year 204,000 tons of sugar.

CATARRH CAN BE CURED

Kill the Germs by Breathing Hy-O-mei—Gives Quick Relief.

Many people who have suffered with catarrh for years naturally feel that the disease cannot be cured, and become discouraged.

Their failure to get relief is due to the fact that they have not used the right remedy. Catarrh is an affection of the head, throat and lungs, and cannot be cured by stomach dosing.

The only scientific and natural treatment for this disease is Hy-O-mei, which is breathed through a neat pocket inhaler, so that its healing medicated air reaches the most remote air-cells, kills all catarrh Hy-O-mei is the only cure for catarrh that has ever been sold with the understanding that it was to cost absolutely nothing unless it cured. C. H. Gunn & Co. sell Hy-O-mei in this way and are always ready to refund the money if it does not relieve and cure catarrh.

The healing and antiseptic balsam of Hy-O-mei perform their purpose to perfection, and by using this remedy for a few times each day, you can soon cure yourself of any catarrhal troubles.

A complete Hy-O-mei outfit, consisting of a bottle of Hy-O-mei and an inhaler, costs but \$1.00.

One's duty may have to be performed at one time with the hand and at another time with the foot, but the heart should always be in it.

The hot weather is now well advanced and people are looking around to find the most desirable point to spend a holiday where they will derive the benefit of cool breezes as well as a change of air. W. E. Rispin, city passenger and ticket agent, has a number of cheap and short excursion tours to Muskoka Lakes, the famous Temagami country, Georgian Bay or Mackinaw and Lake Superior, and a great many other summer places, and would be pleased to give intending tourists full information as to rates, routes, etc., and those desiring to enjoy a nice summer outing would do well to consult him.

Man projects all his life and dies without realizing.

MILLIONS ON NEW SHIPS

Russia Intends to Spend \$15,500,000 in War Vessels.

To Be Spread Over Period of Four Years—Emperor's Prerogative Enlarged—Female Assassin Sentenced to Death—Strike of Agricultural Laborers at Kiev—May Use Military Force.

St. Petersburg, July 10.—The Council of Ministers has authorized an unusual expenditure of \$15,500,000 from 1908 to 1911 for the construction of new warships and their armaments.

Imperial Prerogative Enlarged. St. Petersburg, July 10.—An enlargement of the Imperial prerogative was announced yesterday in a decision of the Council of Ministers to add the frontier guards to the army and navy as being a force beyond the competence of Parliament to interfere with.

Woman Rebel Sentenced.

Moscow, July 10.—Mme. Fromkina, who in March last attempted to assassinate Gen. Rheimbolt, the ex-Prefect of Police, and who on May 13 made an attempt to murder the Inspector of the political prison here, wounding him with a pistol which had been mysteriously smuggled into her cell, was yesterday sentenced to death.

Farm Laborers May Strike.

Kiev, Russia, July 10.—A big strike of agricultural laborers is being prepared. The governors threaten to have recourse to military force if necessary to meet the situation.

COULD NOT PLACE BOMB.

Orchard's Testimony Again Contradicted By Two Witnesses.

Boise, July 10.—There were few spectators in the courtroom when the trial was resumed yesterday. The day began with the testimony of J. W. O'Reilly, who lived near the Bradley apartments. O'Reilly declared he had passed the apartment-house but a few minutes before the explosion, and saw a Japanese servant cleaning the stoop and vestibule. He did not believe it was within the range of possibility for anyone to have placed a bomb there in the manner indicated by Orchard in the time which elapsed between his passing and the report of the explosion.

The next deposition taken up was that of Mrs. Charles Pickard, who, as Mrs. Crow, had been employed by the Bradley's as cook. She told of having smelled gas in the house for several days prior to the explosion and had called up the Gas Company to complain of it.

Mrs. Crow denied absolutely that she had gone to the theatre with Orchard, as he had testified.

Haywood is expected to be called on Thursday.

The defence in the Steunenberg murder case yesterday charged that Detective James McPartland has been guilty of an attempt to manufacture testimony against Wm. D. Haywood, but was unsuccessful in getting the basis and details of the charge before the court and jury.

Alva A. Swain, a newspaper correspondent, who represents The Pueblo Chieftain at Denver, was called to the stand and questioned as to a conversation he had with Detective McPartland in Denver last fall.

It is claimed by the defence that McPartland told Swain that he had a letter from Harry Orchard saying that when Haywood paid him for the vindicator job he took him to one of the Denver banks to draw the money and that when they came out of the bank Swain was standing at the door and saw them. It is said that Swain told McPartland that he could not remember the incident, whereupon McPartland impressed him with the importance of it as evidence and significantly urged him to recall it and become a witness in the case.

Detective McPartland denies that he ever suggested anything improper to Swain.

Quite a number spent Sunday at Pardo's Grove, enjoying the cool breezes of Lake Erie.

CROTON.

One of the largest weddings which

Falling hair is caused by germs at the roots of the hair. Dandruff is caused by germs on the scalp. Your doctor knows why Ayer's Hair Vigor, new improved formula, quickly destroys these germs. Makes the scalp clean and healthy. We publish the formulae of all our preparations. J. C. Ayer & Co., Lowell, Mass.

DISTRICT

VINEGAR HILL.

have occurred here for some time took place July 3, the contracting parties being Mr. John Vance, a wealthy former of Camden, and Miss Minnie Huston, for many years organist at Croton Methodist church, and a general favorite with all. The ceremony was performed on the lawn of her mother's farm at Spruce Hill by the Rev. W. J. Ashton, of Boonville, at six p. m., after which about 150 invited guests sat down to a sumptuous repast. The presents were numerous and costly. The Croton band serenaded Mr. and Mrs. John Vance. Mr. and Mrs. Chas. Childs, Mr. and Mrs. Benson

C. AUSTIN & CO.,

DIED.

WAND—On Thursday, July 11, 1907, Jannette, relict of the late Frank Wand, and daughter of the late James Balfour Robertson.

The funeral will take place on Friday afternoon at 2:30, from the residence, Delaware Ave., to the C. P. R. station, and the remains will be interred in the family vault at Mount Royal, Montreal.

LOCAL

Robert Ralph is spending the day in Detroit.

A new frame house is being erected on O'Neil street, off Park avenue west.

Mrs. Geo. W. Cowan and family have moved to their summer home at Port Lambton.

Hazel Houser, Grey street, spent yesterday in the City of the Straits. Miss Lillian Wemp is spending her vacation in Toledo and Columbus, Ohio.

A Sheldrick is in Brantford attending the convention of the Ontario Library Association.

Mr. and Mrs. Smithat, of Toronto, are in the city for a few days. Mr. Smithat is a special representative for the Confederation Life Insurance Company.

Strayed or stolen from Fair Grounds, Chatham, Tuesday night, light brown mare, no marks, three-year-old. Any person seeing mare answering description, kindly hold her and notify D. McLachlan, Chatham.

Court Pride of Kent, Branch No. 9, Juvenile Federation A. O. Foresters, met last evening in the Workmen Hall, King street. One candidate was put through the Foresteric portals. The society meets monthly and is strong numerically and financially.

J. Little, of Blenheim, was a city visitor yesterday.

Mr. and Mrs. Ed. Moir, of Eberts, are in the city to-day.

Miss Gertie Barkley, of Detroit, is visiting Mrs. Schwenker, Park street.

Mr. and Mrs. Lyde Stone, of Woburn, Mass., are visiting friends in this city.

Judge Houston and family are moving to the cottage at Erieau today.

Mr. and Mrs. Roy Dawson spent yesterday in this city and left last night for their home in Vancouver.

Miss Otta Belle Polle, Raleigh street, left yesterday to spend a couple of weeks with friends in Chicago, Ill.

Miss Edith Kerr, Grand avenue, left yesterday for Detroit, where she intends to spend a week with relatives.

The Misses Lizzie and Florence of Hull, Quebec, are spending a few weeks with E. E. Parrott and family.

Mrs. Reagle, of Detroit, is the guest of Mrs. W. E. Merritt, Wellington street.

Mr. and Mrs. Mac. McPhail, of Aurora, Ill., left for their home yesterday after spending a pleasant holiday in the Maple City.

An influential citizen suggested to the Planet this morning: "I would like to suggest to the powers that be, that a new pavement be put down on Fourth street from the Rankin dock to the King street pavement. This would, he thinks, improve the appearance of the street very materially, to the delight of the many strangers who visit us by way of the 'City.' Probably wood blocks would be preferable in this case, as it would secure to the horses a sure footing in taking heavy loads up the inclined roadway. It would certainly make a great improvement to that part of the city, and could be made without a very heavy outlay.

It is easy enough to promise forgiveness, but a mighty hard thing to actually forgive.

Toronto, July 11.—11 a. m.—Easterly winds, with rain. Friday, fresh northwesterly winds, fair and cool.

THE KING IN IRELAND

Dublin, July 11.—King Edward and Queen Alexandra, who arrived here from Kingstown yesterday afternoon, visited the exhibition.

Subsequently their Majesties passed in procession through the streets of Dublin to the viceregal lodge.

The dense crowds of people everywhere accorded the King and Queen the heartiest reception.

At Kingstown, where the royal yacht anchored in the harbor before daylight, the streets were bedecked with flags and triumphal arches. All the vessels were dressed with bunting and thousands of people poured into Kingstown from the country in order to witness the landing of their Majesties.

Suspect Arrested.
Holyhead, July 11.—Plain clothes officers who are accompanying King Edward and Queen Alexandra on their tour of Wales took a suspiciously acting individual into custody.

The man had hidden in the bushes alongside the approach to the residence of Sir Richard Bulkeley, just before the arrival of the King and Queen. As soon as he was discovered he made frantic efforts to escape, but was captured after a lively chase and lodged in jail.

The police had difficulty in protecting the prisoner from the vengeance of an excited crowd of people.

Wm. Drago, the infant son of Thos. Drago, Richmond street, died yesterday after a short illness. The child was seven months old and died from dysentery. The funeral will take place tomorrow at three o'clock from St. Joseph's church. Interment will be made in St. Anthony's cemetery.

Good temper, like a sunny day, sheds a brightness over everything.

There is nothing either good or bad but thinking makes it so.

Strictly Fresh Beets

3 Bunches for 10c

We get these every day, and you can depend on them being good. That is true of all our Vegetables, as they come in fresh each morning.

CARROTS, 3 bunches, 10c.

ONIONS, 3 bunches, 10c.

DRY ONIONS, 5c. a pound.

CABBAGE, 6c. to 12c. a head.

FRESH CUCUMBERS, 8c. to 10c. each.

Our English Breakfast Tea—40c. a pound—makes a delicious drink.

cians.

FARM FORESTRY.

Ontario Department of Agriculture
Helping On Useful Work.

The Ontario Department of Agriculture is taking active measures with a view of encouraging farm forestry in the province.

With this object in view, it will, as far as the assistance at its disposal will permit, and where this is desired, give instructions through one of its officers as to the preparation of the soil for tree planting, varieties to plant, manner of planting, and care after planting. It will also endeavor, so far as resources at its command will allow, to furnish seeds, seedling trees, and cuttings, free of charge, for the purpose of planting, the cost of transporting same to be paid by the party receiving the supplies.

Two acres will be the largest area for which the department will undertake to furnish planting material in any one year for one individual. Larger areas may, however, be planted by arranging to continue the planting through successive seasons.

What Those Aided Are Expected to Do

The owner on his part is expected to prepare the soil, plant and care for the trees, and do all the actual work in connection with planting, and this work is to be done in accordance with directions of an officer of the department. The one doing the planting is also to agree to provide protection for the planted trees against animals, and, where necessary, against fire as well.

The owners of the land will be required to allow public inspection of the planted area whenever this can be done without injury to the crops. No trees will be furnished for town or village lots, or for ornamental purposes, and all trees sent out, with the exception of those for rural schools, must be either for use as windbreaks or for the production of wood.

The department does not undertake to distribute nursery stock of such species as oak, walnut, and other trees which grow from nuts, but where the owner can obtain nuts in his own locality, the department will give advice as to methods of collecting and storing.

Those who desire to take advantage of this offer for planting during the present spring should apply at once to E. J. Zavitz of the O. A. C., Guelph. Formal application can be had on writing that gentleman. The department reserves the right to refuse applications when, in the opinion of the officer in charge, the location offered is not a suitable one.

Some Varieties Available For Planting

The planting material which the department has at command at present, for windbreaks, consists of Norway spruce. Where only one row of trees is to be planted, they could be spaced eight feet apart. Where two rows are desired, they should be ten feet apart in the row, with eight feet between the rows. The plants available for this work are 12 to 15 inches high, and it may be advisable to plant these in a garden and cultivate them for a year or two before transplanting. If they are to be placed in their final location at once, it is advisable to cultivate in some manner.

Planting material available for the protection of stock in permanent pasture consists of native elm and box elder, or Manitoba maple. Trees for this purpose should be planted six feet apart each way, and cultivated for two or three seasons. The trees will, of course, be required to be protected from stock until they become large enough to take care of themselves.

For Wood Lot Planting.

The department prefers that regular wood lot plantations shall be made in waste portions of the farm, such as steep hill sides, sandy, rocky, or gravelly spots, swamp lands, or portions of the farm cut off by streams or otherwise. Such lands, the department maintains, can usually be profitably devoted to wood production if the proper species of timber is planted.

Where waste land is to be planted with such timber as white pine, the work of planting can be carried out at the rate of one acre a day by from two to four men. In some waste sandy lands a man and a boy can plant one acre a day. If a farmer has several acres of such land, he can obtain from the O.A.C. enough material to plant two acres each year for a number of years, until the whole area is covered.

Trees As Fence Posts.

It is suggested that a solution of the fence post problem may be found in planting trees along permanent fence lines, to be used as posts when large enough. This can be provided for by fastening a light strip of soft wood to these trees, and fence wire may then be attached without injury. The planting material for this purpose available consists of box elder or Manitoba maple, black locust, and hardy catalpa. The catalpa should be used only on the best soil in the southern parts of the province, and trees for this purpose should be planted 16 feet apart.

Trees sent out should be either "heeled in" or planted as soon as possible. A safe method in handling trees from the "heeling in" place to point of planting is to carry them with the roots submerged in a pail half full of muddy water.

The Way They Hunted.

A captain in the Russian imperial guards rented from a vice president of the Austrian Jockey club a hunting estate, for which, after taking possession, he refused to pay on the ground that there was very little game. The vendor brought an action in the courts of Eger, Bohemia, for recovery, and produced evidence to show that the captain and three friends had spent five weeks on the estate, but passed all their time in drinking. They had consumed 1,280 bottles of champagne. On these facts a compromise was effected.

Cod Liver Oil.

Small doses of cod liver oil are very useful for children who catch cold easily. They should be given two or three times a day directly after food. It is a great mistake to give large doses of cod liver oil; they are not digested and really do more harm than good.

It's Nutrition

Beaver Flour contains all the nutrient
—all the blood, brain and muscle-building
properties—of the wheat kernel.

Beaver Flour

is a blend of the choicest Manitoba Spring Wheat
Ontario Fall Wheat.

The grade of wheats selected for Beaver
Flour—being the finest grown in
Canada—require no bleaching
or chemical treatment. If
you want ideal Bread,
Cake and Pastry, just try
Beaver Flour.

Your grocer will
supply you.

KEEP ON SMILING.

I think we walk too gloomily
Along Life's solemn road,
And heavily plod on the way of God.
When smiles would lighten the
load!

Our hopes fly low, aims stunted grow
In fear of Fate's rude fling,
Yet the best ideal can be made real
To those who keep on smiling.

Troubles don't come every day
(Tho' their shadows fall on most),
And cheeriness makes many sun-
bright breaks
In the sombre ranks of the host.
Trailing cares may clog our track,
Or worries ever riling—
We shall yet win through, and
doughtily, too.

If we only keep on smiling.

Our suffering frame is seldom sound—
There's an ache or a break here
often,
Faults (of our own) and failings to
mourn
Hard times we faint would soften.
But think of the many glad hours
we've had,
And of more in the future beguiling.
If there's much to annoy, there is
more to enjoy
For those who keep on smiling.
—J. W. Winson.

TURKEY IN CHURCH.

Stories of Amusing Experiences Told
By Clergymen.

Although the average person would
scarcely look for humor in church
services, ludicrous incidents arise
now and again which make it an ex-
tremely difficult matter for the offi-
ciating clergymen to preserve the
solemnity of the occasion and main-
tain a dignified countenance. How
many men, for instance, could have
successfully resisted the impulse to
laugh outright if placed in the cir-
cumstances related by a clerical cor-
respondent of the Church Family
Newspaper?

This correspondent tells how he
had just commenced taking service
one Sunday in a village in southern
Manitoba, when on looking down the
aisle he saw to his consternation that
a turkey had strayed into the church.
"The novelty of the situation filled
me with an almost uncontrollable de-
sire to laugh," the minister continues;
"so partly on this account I resolved
to ask the church-wardens to eject
the intruder. But before I could do so
a dog appeared and seated himself
just inside the door. Visions of a tur-
key-dog squabble forced me to aban-
don ideas of offensive operations."

Meanwhile, it must be admitted,
the turkey was behaving itself most
devoutly, except that when the con-
gregation stood up it exhibited symp-
toms of perturbation by protruding its
feathers and stretching upward its
neck to the furthest limit. Imagine
the difficulty of preaching before that
bird and maintaining one's equilib-
rium, especially when we sang
"Happy Birds That Sing and Fly."
Fortunately the turkey did not take
the hint, but remained quietly seated
on the floor to the end of the ser-
vice, when it walked out with the
people.

Stop That Cold

To check early colds or Grippe with "Preventics"
means sure defeat for Pneumonia. To stop a cold
with "Preventics" is safer than to let it run and be
obliged to cure it afterwards. To be sure, "Preven-
tics" will cure even a deeply seated cold, but
better early—at the onset stage—before it breaks, or
before of these early colds. That's surely better.
That's why they are called Preventics.

Preventics is little Candy Cold Cure. No quinine,
no phos, nothing sickening. Nice for the
children—and thoroughly safe too. If you feel
chilly, if you sneeze, if you ache all over, think of
Preventics. Promptness may also save half your
trouble. And don't forget your child. If there
is feverishness, night or day, here's probably
his Preventics' greatest efficiency. Sold in
6c boxes for the pocket; also in the boxes of 48
Preventics. Insist on your druggists giving you

Preventics

MRS. P. C. HOLLAND.

The Only Woman Expert in the New
Identification of Finger Prints.

Undoubtedly the only woman in her
profession is Mrs. P. C. Holland, ex-
pert in the new system of identifica-
tion by finger prints.

Mrs. Holland confidently entered up-
on the work of mastering the system
under J. K. Ferrier of Scotland Yard
at the St. Louis exposition and in a
year was able to classify hundreds of
prints without mistake. Many men to
whose interest it would have been to
learn the art qualified at the task and
ignored opportunities to learn from the
English expert.

Mrs. Holland, however, was natu-
rally drawn to the work by reason of ex-

perience in helping her husband in his
work of making detective and police
supplies and collecting pictures of
criminals and later as assistant man-
ager of his paper, the Detective. She
is an honorary member of the Police
and Sheriff's association and of the
national prisons congress.

"The advantage of finger print iden-
tification of criminals," says Mrs. Hol-
land, "is that not only has each person
a distinguishably different print, but
the impress of a baby's finger shows
exactly the same characteristics
through its life. Even in old age the
lines due to shriveling or hardening
skin break, but do not change the print
beyond easy identification. The iron-
bore with the Bertillon system is that
bones grow up to a certain age, and
the large number of juvenile criminals
dealt with make this a big handicap
without a surer method to supplement
it."

Grandmother Is Gay.

Even grandma is a matinee girl now.
A careful estimate indicates that more
than 200,000 "girls" ranging in age
from under seventeen to seventy at-
tend the afternoon performances in the
metropolis every week.

There are 225 matinees given each
week in the season. That is counting
only those houses that are patronized
by women. This means that nearly a
quarter of a million damsels and dames
are at the theater each week. What is
perhaps more remarkable is that the
majority of these women are "regulars."
They go every week and some of them
more than once a week.

A poetic glamour was thrown about
the matinee girl of yesteryear. She
had her ideals and her idols. She was
a sweet young thing who put some
actor upon a pedestal and wasted her
pin money on his photographs.

Now the matinee idol is a drug on
the market, and the matinee girl is a
practical person. She may still be a
sweet young thing or a merry matron
or a dear old grandma, but she is practical.
No squandering of money upon
actors' photographs for her! Her coin
goes into the box office to see another
favorite or to purchase a box of cho-
colates.

The "regulars" among these matinee
goers are remarkably well primed with
gossip of the stage and its people. Be-
tween the acts they chatter blithely of
the players' personal affairs, blending
action and fact with a facility that
ought to make the press agent ashamed
to take his salary.

They are especially numerous at the
best class of vaudeville houses. They
are critical too.

Not the least joyful are the white
haired women, looking so unworriedly
and so grandmotherly that they don't
seem to harmonize with their environ-
ment. Still, the harmony is there just
the same. The dear old ladies are hav-
ing the time of their lives. Indeed
they are very much at home. All seem
to realize that they missed a heap of
fun while bringing up their children
and are intent upon catching up. What
is more, there is nothing too up to date
for them.

A fireman in a theater had a few re-
marks to make upon the venerable
matinee girls.

"Take it from me," he said, "the old
ladies nowadays are hot sports. No
more of the Alice-Sit-by-the-Fire for
them. Not much! They're live ones."

To Keep the Hair Light.

As the years pass blond hair always
grows darker. While the process can-
not be arrested, there are several sim-
ple shampoos that help to retard the
change.

Really golden hair is hard to treat

successfully. Both soda and borax,
which keep it light, are very injurious
in their effects, so must be used very
carefully. The shampoo of rhubarb
stalks and honey, equal parts, in three
parts of white wine is one of the most
effective for light hair. It is this that
the Swiss women use on their blond
hair. Let it stand twenty-four hours
strain, have the hair perfectly clean
and dry, wet with the decoction and
dry in the sun if possible, then rinse
with clear warm water, finishing with
cold.

For the brunette who wishes to re-
tain the glossy darkness of her hair a
fine shampoo is a cup of California
claret with the yolk of an egg beaten
in it; wet the head all over with clear
water, use the egg and wine in place of
soap and rinse well in several waters;
it leaves the hair very soft and clean.

In brushing the hair use the brush
made of pig bristles, long and flexible.
Any first class shampoo establishment
keeps these in stock. Separate the
hair into strands and always brush
from the crown, either forward or
back, in order to not go "against the
grain" and so break the hair. If this
is done with a regular, gentle stroke,
touching the scalp each time, the hair
soon shows the good effects. The brush
should be washed at least once a week.

The Hot Water Bag.

Boiling water should never be put
into a rubber bag. Do not place more
than half fill the bag, then place it in
the lap before putting in the stopper
and carefully press out the steam.

This makes the bag softer, as it is
relieved of the pressure the steam
makes if left in it.

After using the bag drain out the
water, let it hang bottom side up for
a little while, then take it down and
with the mouth blow a little air into it,
just enough to keep the inside from
coming together, as it will often do if
there is no air in it, in which case the
bag is almost sure to be ruined in
pulling apart.

If the bag ever should stick, put into
it some hot water with a few drops of
ammonia, let it remain a few minutes,
then with a thin, dull edged stick, try
to separate the inside carefully.
Never fold a bag after it has once
been used. A flannel bag covering for
the rubber bag is very useful.

Dustless Way of Sweeping.

A stair carpet should never be swept
with a long handled broom, but always
with a short one and a dustpan held
under each step.

This in the end saves work, for the
dust does not fly and therefore the
halls are not made dirty by it.

Another thing to remember about
carpets when they are to be taken up
for cleaning is that the floors if washed
shall be quite dry before the carpets
are tacked down again. Otherwise the
nails will rust and cause bad places in
the wool.

Grease spots may be removed by
means of a paste made of boiling wa-
ter poured on equal quantities of mag-
nesia and fuller's earth. This paste,
while it is hot, must be placed on the
spots and brushed off when quite dry.
—Exchange.

Sewing Hints.

Metal eyes which protrude beyond
the edge of the material, where a hook
and eye fastening is employed, should
always be carefully and neatly covered
with buttonhole stitching.

Needles should never be kept in fan-
nel lined needlebooks, as sulphur often
enters into the composition of this
material. Sulphur invariably rusts the
needles in time.

Bent pieces of whalebone can be
straightened by being placed in cold
water for two or three hours. This
will make them pliable. They should
then be pressed under a heavy weight.
When making a skirt, it is always
best to try it on the first time on the
wrong side, then reverse it and finish
it on the right side.

Sweetbread Pates.

Wash and blanch the sweetbreads.
Cut into neat dice and mix with equal
quantity of canned mushrooms (cham-
pignons), cut into pieces of correspond-
ing size. Blanch a dozen almonds and
shred into tiny bits. Have ready a
cupful of good drawn butter rather
highly seasoned. Stir sweetbreads
and almonds into this and set over the
fire in a double boiler. Heat a dozen
shells of pastry in the oven, and when
the mixture in the inner boiler is very
hot fill them with it.

Mattresses.

When mattresses are stained, make a
paste by mixing starch with cold wa-
ter. Spread the paste on the stains,
first putting the mattress in the sun.
In an hour or two brush off the starch,
and if the stain has not disappeared
repeat the process. It is a good plan
to cover mattresses with cases of un-
bleached calico, which are easily taken
off for washing, and keep the mattress
clean a very long time.

For the Teeth.

One of the most effective methods of
whitening the teeth is to take an
orange wood stick, dip it into fine wood
ashes and rub the teeth both on the
inner and outer surfaces, when tartar
and all stains will disappear as if by
magic. This treatment should not be
repeated more than once a month.

The elbows of children are very apt
to wear through their sleeves. To pre-
vent this place a piece of velvet or
velveteen between the lining and the
material just at the elbow when the
froek is new.

To prevent wooden pails or tubs
from shrinking when not in use paint
them over with glycerin.

Fruit stains may be removed by pour-
ing boiling water over the article, then
washing.

SUNSHINE FURNACE

UNBREAKABLE FIRE-POT

The lower portion of a fire-pot is usually nearly
or partly filled with dead ashes, leaving the live,
red-hot coals in the upper part. The result is that
the upper portion expands much more than the
lower.

This uneven expansion causes a strain
too great for a one-piece fire-pot to stand.
Sooner or later it will split, allowing precious
heat and sickening gases to
escape.

But the fire-pot of the Sunshine
is constructed to meet this con-
dition. It is in two sections. The
upper half expands, as much as
necessary, independently of the
lower. When cool, it contracts
back to its original size, fitting
to the lower half perfectly.

And this strong, unbreakable,
gas and heat-tight, two-piece
fire-pot is just one of the many
superior features of the Sunshine.

It's The Tone That Proves the Quality Of A Piano . . .

In outward appearance one make of piano may resemble
another very closely. The real difference lies in the tone,
which is concealed within the case.

It's the tone every time that proves the quality of a piano.
Run your fingers over the keyboard of a "Nordheimer"
and just listen to the superb tone. No doubt about the
quality of the "Nordheimer" piano with such a tone as it
possesses.

Those who know the real value of tone-quality naturally
select the "Nordheimer"—the unrivalled Canadian piano.
Will you not come in and play over a selection and judge the
quality of the "Nordheimer" tone from what your own ear
tells you?

Our Mr. R. V. Carter will visit Chatham frequently in
our interests, and will be pleased to furnish you with any in-
formation you may desire. Correspondence addressed to
him, in care of the Garner House, will receive careful atten-
tion.

MILLINERY AT REDUCED PRICES
IN MANY INSTANCES ALMOST HALF

Do you want a stylish hat? A hat that you would feel at home with in a stylish gathering in a metropolitan city? It is just such a hat you'll find at the Foreman store, reduced to nearly half for instance, \$6.25 hats for, each, \$3.50.

Good Goods At Half

Many lines that should have been sold have not sold, the prices have in many instances been cut in half to affect a quick clearance.

Embroideries at Half and Less

These embroideries could not be bought and sold at their original prices to-day. They are slightly soiled. They have been used for edge trims, etc., and you'll buy them at half because they are slightly soiled.

Dainty embroideries, with good edges, regularly sold here at 8c., 10c., and 12c., for per yard, 5c.
Embroideries that were special at per yard 6c., for per yard 3c.

\$1.25 Dress Goods 50c.

All new, this season's goods. You would have paid the full price for them two months ago without a murmur had the weather been right and you were needing a skirt or suit.

Wash Fabrics Half Prices

These are possibly the highest class of wash goods ever offered in this store for such little money.

Stylish, all pure linen suitings in a canvas weave, in colors, pink, sky, Duth blue and resida, regular per yard, 40c., to clear, per yard, 25c.

60c. exclusive summer wash suitings per yard 25c.

50c. linen, colored, sheer muslins, with mercerised stripes of navy and sky, to clear per yard 25c.

38c. stylish zephyrs in white grounds, with stripes of pink, linen, and sky, per yard 15c.

The days are at their longest, but the gas meter and electric light meter are still doing business at the same old stand.

NOTES FROM ERIEAU

Rev. George Gilmore and family, of Blenheim, are spending a fortnight at the Eau in the cottage belonging to Mr. Shillington.

Mrs. Ryan and the Misses Ryan have taken up their residence in their comfortable cottage "Fleur-de-Lis," for the summer.

Mr. Walter Ferguson, of Thameville, has rented Dr. McKitchie's summer home at Government Park. Mr. Fred Weir, proprietor of the boat livery at this place, has built a large gasoline boat for hire.

Mr. D. W. Swigart, of Cleveland, is a Bungalow guest and is enjoying the fishing at this resort.

Miss E. Abram spent Wednesday in Chatham.

Mr. George B. Merritt and family, who have spent a great many seasons at Erieau, are very much missed this summer. Their property has been purchased by Mr. Leitch, of Buffalo.

Miss Clara Morgan, of Blenheim, who has been in the Canadian West for the past year, is here for the summer.

Mr. and Mrs. C. C. Greening and Miss Bonnie are at "Osceola," which is always a bright spot on the bar.

Mr. W. H. Lugsdin and party held up a fine string of fish on their way home at sundown yesterday.

Mrs. M. Campbell was a Chatham visitor yesterday.

There are no more welcome visitors here than Mr. and Mrs. A. C. Woodward. It is hoped their stay will be of some length.

Mr. and Mrs. J. Prentiss and family left yesterday for their home in Pittsburg, Penn., after spending a pleasant holiday of two weeks at the Bungalow.

Rev. Mr. and Mrs. McQuillin, of Blenheim, were Erieau visitors to-day.

Mr. and Mrs. W. D. Samson and Miss Allie Samson returned to Drum-trochy Lodge this evening.

Mr. F. Sanbacher, of Cleveland, is a guest at the Bungalow.

The "Robert Hall" was at work again to-day dredging off a bar in the lake. This bar was the cause of

the Pere Marquette and Bessemer running into the pier the last week of June and damaging it to the extent of hundreds of dollars. The channel has already been dredged and the work is being completed now at the approach on the lake side.

Mrs. Jim Park is spending a week with friends at Centreville.

Mrs. Dobson, of the Alexander Block, who has rented "Happy Days," was out to-day getting the cottage in readiness for the summer. She is expected back next week, when she will be joined by Miss Nona Dobson, Mrs. McKie and daughters, Mrs. Slagg and Miss Gladys Slagg.

Mr. Armstrong, of Pittsburg, Penn., is a visitor at the Bungalow.

Mr. Smythe, the popular Wellington street grocer, enjoyed a fine day's fishing in the bay.

Mr. L. Tilton's cottage near the "Y" has undergone extensive alterations and is now ready for occupation.

Mrs. Albert Merritt, of Queen street, is spending the week with Mr. and Mrs. W. H. Bennett at "Outlaw's Inn."

THE DUST NUISANCE

Several complaints have arisen on account of the dust nuisance at the Rankin dock. On a windy day the dust comes up from around the dock in clouds, and to the people passing by the Rankin House and Post Office the dust is sometimes very offensive and blinding. Pavements are being laid in many parts of the city where they are not all so necessary as in the street leading down to the dock. The board sidewalk leading from King St. to the dock is also in need of repairing. Several ladies in wheeling baby carriages down to the boat have had the unpleasant experience of getting the wheels caught in the cracks between the boards, which afford an excellent means of taking off a wheel. In any case the experience is a very disagreeable one.

First impressions are very apt to be lasting ones, and as the roadway leading to the boat landing is about the first thing presented to the vision of the visitor to the city by water the Board of Works should at once consider the paving of this piece of street, and seeing to it that it is well kept after it is paved.

SPLENDID ATLAS OF CANADA

An interesting atlas of Canada has been issued by the Department of the Interior, giving the fullest particulars regarding the Dominion and its resources. The most interesting feature is the series of the forty-four maps. These show where the natural resources, such as minerals and forests, are situated, and give an excellent idea of not only the character of the country but also the climate. There are carefully detailed maps giving the railroads, telegraphs, telephones, canals, etc. Interesting charts are those which show the density of the population and the origins of the people in the various provinces. The comparative figures of the population throughout the Dominion are given. The remainder of the volume is filled with diagrams dealing with almost every subject of national interest, such as trade, commerce, agriculture, finance, vital statistics, population and areas and currency. The book contains a tremendous amount of information about the country, put in a handy form.

GRANT FRANCHISES

Blenheim, July 9.—Harwich Township Council had a busy time at their regular meeting yesterday, and not the smallest item of business was the passing of by-laws confirming several franchises, as follows:

A franchise to the Blenheim and Harwich Telephone Company to erect poles and run telephone lines through the municipality.

A franchise to Wm. K. De Gruy, of Boston, and others, to pipe natural gas along the highways.

A franchise to the C. W. & L. E. electric railway to operate a trolley service along the roads of the municipality.

A by-law was also passed by which a loan of \$2,000 will be made to the union school section at Charing Cross to erect a school building to replace the one recently burned.

The tourist's season is now on, and we are advised by W. E. Rispin, general passenger and ticket agent, that he has some especially attractive tours for the present summer season, reading to all the summer resorts of Canada, including Muskoka Lakes, the Temagami District, Georgian Bay, Lake Superior, River St. Lawrence, and Gulf and Atlantic Coast points, and would be very pleased to furnish information to any intending passengers.

Moonlight dips in the ocean bring out the latest things in bathing suits.

Lord Lake is the best 10c. Olgar in the market—made by O'Brien Bros.

Some fellows never pay up till you run them down.
