10 years of proposed expansion

At least \$28-million will have been spent on construction of new buildings and facilties on the Dalhousie campus by 1975, according to the University Grants Committee Report. However, the Gazette has learned the expense will conceivably be closer to \$38-million.

Already under construction are the Law Building (\$1.7million) and the Sir Charles Tupper Medical Sciences Building (\$9.5-million).

A new University Library (\$4-million) and a student union building (\$2-million) are scheduled for completion in 1967. Three more buildings are involved in the expansion program, to be ready for occupancy by late 1968 are: a Biology and Aquatron Building (\$5-million), a Psychology Building (\$1,5-million), and an Arts Auditorium (\$800,000).

The Chemistry Building is proposed for completion in 1969 at a cost of \$4-million.

Dalhousie needs the facilities badly. According to a Report from the Association of Atlantic Universities submitted to the Bladen Commission a year ago, the University's buildings equipment and lands were valued at \$22.9-million, though an additional \$15.5-million was needed to accommodate present

The same report stated that the projected capital expenditure by Dalhousie, 1966-70, would be \$17-million and during the next five year period to 1975, capital projects would cost another \$21.6-million. The Gazette has learned the higher estimated total construction cost includes at least two additions to present resident facilities, a gymnasium expansion and grounds development.

The University Grants Committee says that old buildings will be converted to other uses as the new facilities are com-

For instance, the Forrest Building will be used exclusive ly for biology when the medical school opens. When the biology-aquatron building opens in 1968, the Forrest Building will be demolished - exactly 100 years after it was erected

Meanwhile, the Public Health Clinic Building will be converted to a research area, and the MacDonald Library into Geology Dept. quarters. The Law School will revert to the Arts and Science Faculty, who occupied that building from its opening in 1922 until 1952.

Estimated total enrolment at Dalhousie by 1972-73 is 6,161. At the University of King's College, enrolment is expected to exceed 400 by 1972.

The University Grants Committee has proposed that the King's - the Commonwealth's oldest university (177 years) is preserved because of its history, spirit and tradition. But King's should become a residential college to Dalhousie, while continuing its faculty of Divinity.

Further residence accommodation is recommended for King's, says the Committee, to enable the University to

Fears for the future of King's were expressed last June in the Synod of the Diocese of Noya Scotia when it was reported that \$75,000 in additional funds was required every year to keep the University in operation. However, The Canadian Churchman said earlier this year the University's financial position had improved.

King's facilities once included a school of journalism (recently abandoned) and law (now the University of Nev

The CAUT recommendations, made public Jan. 31, call for a comprehensive system of GOV-ERNMENT GRANTS FOR ALL STUDENTS, covering both fees and living costs.

The faculty group suggests that such a policy, similar to that introduced by Premier Smallwood in Newfoundland, be introduced at once for first year students, and extended later to all years.

It condemns the Bladen Report for basing its enrolment predictions on present patterns of unequal opportunity, and says "conservatism in the forecasts is linked to conservatism in the policy aims."

Showing marked concern for university autonomy, the CAUT advocates provincial Grants Committees, with strong academic representation, to stand between governments and universities, but feels this is not enough to ensure autonomy.

Therefore it recommends indirect support from governments through student grants, retaining the fee system and reducing the amount of direct grants to universities.

All properly enrolled students would receive regular payments of specified sums directly from the government.

The CAUT brief presents statistics showing that 62 per cent of the total cost of a student's education is borne directly by the student and his family, including in this cost both the foregone earnings of the student and the full operating and capital costs

of the university.
This figure is based on the modest assumption that a high school graduate could earn \$50

"EVEN IF A L L DIRECT COSTS WERE PROVIDED BY THE GOVERNMENT, THE STU-DENT WOULD STILL BE PAY-ING A COST IN TERMS OF RISK OF FAILURE, MENTAL STRESS, AND INCOME FORE-GONE," THE BRIEF STATES.

"For many potential students, the probability that income and other benefits after graduation will exceed these costs (fees, living expenses, and foregone earnings) is not sufficient to overcome the deterrent effect."

Delay in income and risk of failure are particularly important deterrents at the first-year level, the brief adds. The effects of geography and non-intellectual

Kee-Saik heads foreign students

By KEE SAIK CHEAH Special To The Gazette

Kee-Saik Cheah was elected president of the International Student's Association at Dalhousie during the society's annual elections in mid-February.

A four-member executive was 'elected' during I.S.A. elections in Room 21, A & A building. In fact, the entire executive was voted into office by acclamation, and took office, Marchfirst.

Other executive members: Vice-President, Peter Hatcher; Secretary, Diane Prevatt;
Treasurer, Errol Francis.
After the elections, "China Night" was presented to a re-

ceptive audience. The Dalhousie Chinese Student's Society gave the audience an entertaining evening. Miss Lucy Chieng, the DCSS President, was MC.

First, there was a movie showing how the Chinese New Year was celebrated in traditional style, with all the people wearing colorful traditional costumes. Then Miss May Lui gave an interesting talk on how Chinese characters had evolved throughout the centuries.

Two slide-shows followed. The first one showed scenes in the everyday life and industry of Taiwan as a progressive country. The second series of slides was in the form of a guided tour of Hong Kong. Quebec battle Raps low grants to McGill campus

MONTREAL (CUP) - H. Rocke Quebec, believing itself to have Robertson, principal and vice- a vital role to play in the scichancellor of McGill University, entific, technological and cultural abandoning the lecture system has asked the Quebec government development of the province. to reconsider the amount of its grant to McGill University for the coming year.

In a written statement Feb. 16 Robertson called the government's treatment of McGill 'inequitable' and 'an error in judgment" and stated that the grant increase of only \$100,000 will face the school with a deficit of about \$3,500,000.

The grants, announced Feb. 15, gave McGill \$7,612,000, or some \$100,000 more than in 1965-66. The Universite de Montreal will receive \$16,367,000, an increase of about \$2,000,000.

Robertson called into question Quebec's system of dividing the province's population according to language for the purpose of university grants and equalizing the per capita sum according to the ratio of English and Frenchspeaking people in the province.

Robertson points out that under this system the government grants McGill only \$502 per student each year, while the Universite de Montreal receives \$1220 and Laval \$1290.

"But, more important than the failure of the estimates to deal fairly with McGill's requirements is the significance of the government's decision as a possible indication of its attitude to McGill," he said.

Since 1960-61, according to Robertson, grants to McGill have increased by only 47 per cent while grants to Laval have gone up 208 per cent, and to U de M

No other virtuoso on this difficult instrument has ever come close to the renown achieved by this boy from Antium. In his formative college years. Nero was something of a traditionalist, but at his apex he came very close to what moderns call "Le Jazz Hot". Those of his contemporaries and relations who survived the era he dominated - and they are regrettably few recall that in his final phase he was strangely preoccupied with torch songs. His career reached its peak in Rome in a blazing performance of his famous lyre solo against a trumpet obligato by a group of cats known as the Praetorian Guardsmen. Rome was never the same

GOODNIGHT IRENE

Thank God it's over.

That's my first reaction to putting the last issue together. I'm tired, scared about my courses, and faced with an incredible amount of work to do between now and the end of the

Just the same it was a rich experience, one that I would not want to have missed. I people. I learned about news leads, typography, paste up, cut lines, kickers, flush left, flush right, steplines and a host of other weird and wonderful devices. More important, I learned that putting out a paper can be fun, especially if you realize that your staff are not a bunch of efficient computers.

We put out a reasonably good paper. Most people seemed pleased or at least indifferent. Somebody told me that he thought it was a bad thing when the newspaper was a bigger topic of discussion on campus than the sports events. I don't think the Gazette is a bigger topic of conversation but if we are I'm flattered. The Liberal club didn't like us or rather me, because they felt I was pushing the New Democrats.

Well, they got more column inches this year than the other two parties combined, much more. Of course the paper had a social democratic slant no doubt about it. But then I don't like antiseptic newspapers, the campus coverage was fair, and anyway I was to some extent prevented from putting forth my views as forcefully as I ordinarily might have because I was too aware of the conflicts between the Editorship and my post as Federal President of the New Democratic Youth. Besides the International Affairs Vice-President of UGEQ said that the problem with the Gazette was it wasn't left wing enough. So you can never win.

The great thing about working on the Gazette is the staff. These are extraordinary people fully alive and exciting to work with. They all did such a great job that I am afraid to mention anyone for fear of leaving out somebody. However I would like to say a special word about the senior masthead.

job and I can only marvel at the terrific competence of David as he takes the copy and turns it into a newspaper page.

The Managing Editor is the person who makes sure that everything is done on and before a deadline night. I don't know anybody other than Linda Gillingwater who could make herself so indispensable that the step from learned a lot -- about newspapers, and about Cub Reporter to Managing Editor could be

> Since Tim Foley knows much more about newspapers than I do it is rather difficult for me to comment on his work. News is the one department that I have never been worried about and have never interfered in. Perhaps the only thing I can say is predict that Tim will run the best Gazette this university has ever seen. (I might say that every Editor traditionally expects that once he goes the entire structure will collapse permanently. I'd sort of like to think so but it just ain't going to be the case.)

I kid Piers Gray by telling him that he's nothing but a member of the Artsy-Craftsy set who never get down to cases. Actually Piers is responsible for more pages than any other editor and by the end of the year he was generating more copy than we could

Bob Tucker has had to take a lot of crap from so-called experts who didn't like what he was doing, and more often, what I was doing. First, he's the nicest guy on the staff; second he's the most efficient editor this year; and third he's, in my opinion, the best Sports Editor of the Gazette for at least three years.

Last year the Gazette cost the students of Dalhousie over \$10,000., this year it will cost under \$6,000. The difference is Jack Yablon. The most difficult problem faced by next year's editor will be replacing Jack Yablon. I suggest that he start lining up

THE FRENCH **PROBLEM**

was an unmitigated disaster.

Most students remained utterly untouched by the event. The publicity was almost nonexistent and no one made any real effort to bring the Week to the attention of the student body. For example, it surely was possible student leader. It didn't work. to notify the Deans of the Faculties and have announcements about the speakers made in class. As it was, the only meeting with any decent attendance was for Claude Ryan, the Editor of LE DEVOIR and even here, much of the audience in Room 21 was made up of faculty and other non-students.

Of all the events that occured this year on campus, French Canada Week was the only one in which the Council didn't seem to have much interest. Council members sold tickets for the Mikado, painted banners and distributed leaflets for Winter Carnival, and worked mightily on other projects like Fall Festival and Orientation Week. But for French Canada week -- nothing.

Mind you there is a fairly simple explanation for this. Of the events named above not, he was constantly snubbed by the Dal-Councillors worked hardest for Winter Carnival. Why? Because the Student Union stood to lose more money on Winter Carnival than on any other activity. In fact, the interest shown by our elected representatives over an event, and the potential loss of that event, seems uncannily proportional.

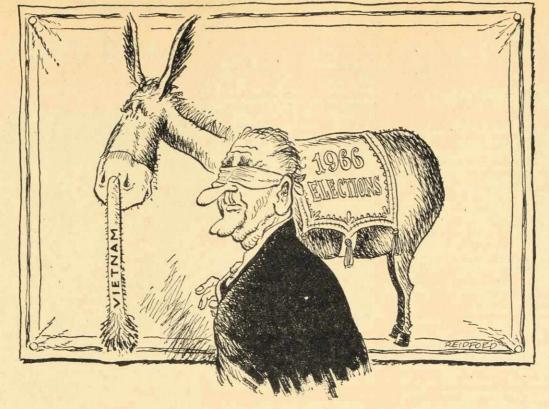

So the real problem with Franch Canada Week was obviously the grant of \$1,000.00 that the Quebec Government so thoughtfully sent to the Student Council. With that thousand tucked away in the bank who gave a damn if anybody turned up to hear the 'frogs', certainly not our student leaders. Surely the Quebec Government could have known that the Dalhousie Student Council thinks of everything strictly in terms of dollars and cents. Well, "c'est la vie".

However this is not the end of the the well-known speakers like Ryan, Brunet and sixtles.

On the surface French-Canada week was Laporte the organizers also invited a member only partially successful, if you dig deeper it of the UGEQ (Union Generale des Etudiants du Quebec) Executives to come to Dal and talk informally to students for the week. We guess that it was hoped that this would establish friendly relations between the Student Union and an influential French-Canadian

> UGEQ sent down their International Affairs Vice-President, Daniel LaTouche, a political science student at the Universite de Montreal. M. LaTouche was put up at the King's Men's Residence and then forgotten. He addressed the King's Student Body one night, but no one at Dal asked him to even meet with the Council executive. John Young took him to dinner his first night here (LaTouche paid for his own) but after that he was left to fend for himself. He was not invited to the reception at Dr. Hicks' home after Pierre Laporte's speech, nor was he invited to the party with Les Cailloux after their performance on Saturday. In short nothing was done to make him feel comfortable in Nova Scotia, and in fact, unwittingly or housie student machine. The Gazette talked with M. LaTouche for some time before he left, and he stated that he was so upset by the treatment he received that he could not in all sincerity send a thank-you note to Dalhousie though he would be sure to send one to King's where the students went out of their way to make him feel at home.

All that can now be done is to apologize to LaTouche, to M. Lamontagne, the Mayor of Quebec City who was treated very offhandedly by Mayor Vaughan, to Pierre Laporte who was totally ignored by the Nova Scotia Government, and to the people of Quebec who provided the money for the insults. We can only hope that the Quebec government will not take the attitude shown in Hallfax as one typical of the rest of English Canada. Some of us have been attending debacle of French Canada Week. As well as to the new Confederation debates of the

Free Vietnam

The problem with the conventional way of looking at the world is that it permits us to think of the Vietnamese conflict as being thousands of miles removed from Canada.

We claim to be a free people, yet we have forgotten that the real use of freedom is not for the purchase of a new automobile every year. Freedom that is real is inextricably connected with moral judgement. As Canadians and as free men we must be involved with the world around us, we must be ultimately concerned about the quality of life in that world, and with the ethical principles that govern human action.

The napalm, the bombings, the use of phosphorus, the scared kids on the front lines of both sides are not simply characterizations of an unreal war in a make-believe place called Viet Nam. They are gut realities for free men and free nations that are not afraid to accept the necessity for moral judgement. The war is an insane, terrifying spectacle for any who desire a rational life in a peaceful

The Canadian government talks a lot about the fine leadership our diplomats have provided at the UN and in the international world. We ask Mr. Pearson and Mr. Martin to show us some of that leadership over Viet Nam. We ask our government to prove to us that the concept of Canada as a sovereign nation is not a mockery, a victim of our continentalist economy. We remind them that in Viet Nam the moral issues rather than the military data reflect the reality of that divided state.

Canada's membership on the international Control Commission makes it imperative that our independent voice be heard. Our duty is clearly to fight for a practical solution within the framework of the Geneva Agreement - a treaty that calls for free elections.

The Gazette joins with the World Council of Churches, with Walter Lippmann, with Senators Fullbright, Kennedy, Morse, Gruening and McCarthy, and with the vast majority of the world's people in demanding that the United States cease bombing, recognize the NLF (Viet Cong) and prepare to give way to an international force that will supervise elections.

The war must be ended now!

The Administration

One of the greatest problems with publishing the Gazette this year has been the attitude of the University administration. That is, on almost all issues they have behaved so reasonably and intelligently that this traditional source of editorial material and blazing headlines has dried up. All that is left for the Gazette is to echo Robbie Shaw's sentiments and hand out kudos to President Hicks and his associates.

However it is with this excellent record in mind that Dr. Hicks' speech to the annual Student Union banquet is all the more unfor-

After patting the Council and particularly Robbie, on the head as being nice, well-mannered boys and girls, he proceeded to attack Peter Herrndorf, '64-'65 Council President because "he never once came into my office without trying to pick a fight in order to gain headlines in the Gazette."

Now whether this is the case or not it strikes us as being very silly for Dr. Hicks to bring it up now that Herrndorf is gone from the campus. We cannot see what has been gained by the speech.

Herrndorf will be remembered as the first Council President to take Dalhousie student government out of the "sandbox". He effectively brought to a close the era where an employee of the administration sat as a non-voting member of Council but with far more influence over Council decisions than any of the elected representatives. Certainly this change could not have been consolidated and made permanent if Herrndorf had not been followed by an excellent diplomat. However there is also no doubt for this newspaper that Shaw would not have been nearly as effective a President if he had not had the independence of the Student Union forcefully asserted by his prodecessor.

The Gazette hopes, however, that no one will attempt to make an issue of Dr. Hicks' speech. For as one looks over the year and recalls the attitude that the President took on National Student Day, on the teach-in ban at King's, on the Married Student's Co-op and a host of other student concerns, one can only be grateful to Dr. Hicks that the editorials condemning the administration could not

State of the Union

It was a good year. Not a great year, but certainly a good year. Under the leadership of Robbie Shaw, who was on the Board of rectors of NFCUS when some of this year's graduate students were still in high school. Dalhousie easily had one of the three or four most dominant voices at the Lennoxville CUS Congress. It was a radical Congress (free education, legalized birth control recognition of two nations in Canada, these measures and others were all overwhelmingly passed) and Dalhousie was near the head of the radical vanguard.

Back on campus the Orientation program proved to be a bomb. Despite some hard work by Council members and an approach that emphasized, quite sensibly, the academic life of the University the organizational chaos that occured pretty well made the event a colossal waste of time for any but the dullest frosh. Aside from an excellent address by Dean Cooke, there was no real attempt to do what the first week at college must do -- break down the feudal state of mind that almost all high school students carry over to university.

Undoubtedly the most disappointing organization this year was the Sodales debating society. In terms of attendance debating is dead at Dal, and in quality terms it is unsuccessful. Sodales is responsible for the Model Parliament, and it completely bungled this job. We can see no reason why the Sodales executive is elected at a meeting (held in the Law School and dominated by a clique of lawyers) when all the other organization heads are appointed by Council, and responsible to Council. The Gazette suggests that for the coming year the President of Sodales be chosen by the Council after the applications committee has ascertained that the person chosen has some ideas for reviving the corpse of debating.

It has been a reasonably good Council this year. Even though the executive was very powerful several members managed to successfully stand up to Shaw et al. and to lead a lively opposition. Going around the table: Dave Simpson, though his speeches were usually too long, usually has something useful to say say; Ruth Manuel, though quiet wat attentive and sensible about the issues; Peter Crawford got his reward for hard work; Kay Freeman brought experience to the deliberations; Cheryl Reid was quiet and helped provide the usual executive majority; John MacKeigan carried a lot of weight but didn't speak often except when the sports establishment was challenged; Dave Seaman did little on Council though he did sit on the important SUB committee; Joe Council, or rather Joe Macdonald, somehow managed to be both the President's executive assistant and the Leader of the Opposition; Frank O'Dea, though a bit technical at times like most lawyers, was a solid member; Ann Rungas understood better than any member except Shaw what the real issues facing the student movement are; Bill MacDonald worked hard; Carl Holm tried but usually didn't succeed; Eric Hillis recalled past Councils a bit too often but can be proud that he was the prime mover (on Council) behind what appears will be a successful conclusion to the whole problem of student relations between Dalhousie and King's; Jim Nickerson wasn't terribly effective on Council but represented his faculty well and did the work; Brom Hart didn't get a chance to do much but he did at least attend meetings; Derek Brown never seemed to be in favour of anything though his position was consistent throughout; John Tilley said very little except about athletics and tended to favour the status quo; Barbara Dexter was very quiet but worked when asked to do so; and Herschie Gavsie -- well --Hersh kept us all amused and aside from his mental lapses was a hard worker and had something to contribute. In sum, it was a good council, but not a great council.

The three Union officers were great however. Robbie, despite a rather unpolitical love for superlatives is at least as good (and far better than the vast majority) as any Council President in this country. John Young was perfect as a Treasurer in a first year situation for that job, and, of course, was amply rewarded with the Presidency for next year. But it was Liz Campbell, who bore the brunt of the Gazette's scorn for student politicians, who really impressed us most this year. She had to operate without Robbie's experience or John's specific area of authority and yet of the top three she seemed to have learned the most from the year. We believe this not simply because she has decided to get out of student politics next year, but because by the end of this year she was carrying out her duties, and many of the President's duties in a thoroughly professional manner. It is unfortunate for the Dalhousie Student Union that she decided not to go back on Council.

Actually, the real reason it was such a good year was that not once did anyone on the Council move to fire the Editor of the Gazette. And that's also the reason why it wasn't a great year.

> What began as an ethical revolt against the immorality of segregation, war and the death penalty, grew slowly during the next few years and began to take on political and economic flesh. Spurred by Michael Harrington's THE OTHER AMERICA, the student movement began to leave the campus to confront the economic roots of racism and poverty. Some went to Hazard, Ky., to work with striking coal miners; others abandoned graduate school and promising careers to join SNCC or work with SDS and the NSM in organizing the black ghettos of the North.

One of the major problems now confronting SDS is the role of those students who revivified it in 1962 and who are now 24 to 26 year old. While they are eager for the newer recruits to become leaders, they themselves have no adult organization into which they can graduate. It is impossible to say how reworked these lectures for publication, but the plaintruth seems us to criticize Prof. Leech's to be, they make very suitable lectures, but are rather thin as which the lectures were not contributions to Shakespearean scholarship. Somehow we expect more from the printed word; we expect new ground to be broken, or at least, a fresh approach to old topics. It is not easy to know, therefore, exactly what standards of judgement should be applied to this publication.

As his title implies, Twelfth Night gets the most attention in these lectures presumably because that play current at the Prof. Leech's visit to Halifax. His view of the play seems to be that it does not contain a great deal of laughter; instead, it offers "delight" which, according to Sir Philip Sidney, is preferable: "Delight hath a joy in it; Laughter hath only a scorn-

We rejoice or delight in the gracefulness of the spectacle. "And yet", warns Leech, "the idea of such a comedy brings with it a necessary doubt." Then follows this assertion: "The more expertly the dramatist writes, the more difficult it is to prevent our mental reservations from getting in the way of a full response to the comedy." I quote this passage for two reasons: It points, in Prof. Leech's view, to an important aspect of the play -- the dramatist's own dubiety; but also, it represents for me a type of statement fairly typical in these lectures. It sits on the brink of significance; as part of the fleeting elements of a lecture, it hints at meaning, but it seems

Better worlds don't just happen. They're made.

etter worlds. The kind ve've come to know. The kind it takes hard work to make. The kind some people in this country may never experience. They're the kind of worlds that are made. They don't just happen.

That's why The Company of Young Canadians was formed. They are joining other Canadians doing what they can to make that better world. You can have that same opportunity.

The Government of Canada has announced to Parliament its intention of introducing legislation giving formal approval to the name and structure of The Company of Young Canadians.

You can start by working right here in Canada. It's work that's not easily accomplished. The steps are slow and faltering. The goal sometimes will seem impossible to reach. But it's there, and the effort is worth every scrap of energy available to achieve it for Canada.

Good old prosperous Canada. How would you feel if you were hearing about the "good times" and that "things have never been better" and you're wondering what you're going to eat? Or what your kids are going to wear? Or what will keep the place you live in warm this winter? How would you feel?

It's this kind of thing that we're working to alleviate. It's this kind of thing that makes you realize that being in The Company of Young Canadians is no two year fling with a picnic hamper and a few relief items. It's 730 days of someone else's life.

It's tough. You'll face problems you've never faced before. There's absolutely no money in it for you. You'll make maybe a couple of dollars a day and survive if all goes well. You might end up some place near the Arctic Circle, in one of the bigger Canadian cities, or in some other area where there is a strong need for help.

But no matter wherever you are you will learn about yourself and from the people about you.

What kind of person do you have to be to join The Company of Young Canadians? You have to be young. Not so much young physically, but young in spirit and attitude. You have to have initiative. You have to be dedicated to a purpose. Most of all, you have to care.

You also have to qualify. You must be over 18 years of age and be willing to give two years of your life with a minimum of financial return. You might be a carpenter, a secretary, a teacher, a mason, a aday. nurse, a plumber, a doctor, a gymnastic instructor, or anyone who can work well

There's a simple way to find out more about The Company of Young Canadians. Write to us and we'll send you our booklets and brochures. Then you spend some time thinking it over. And when you do, remember, better worlds don't just happen, they're made. By you

Duberman's "White America"

Workshop cast superb; glimpse into Negro freedom crusade

is "polished"

M.B. Duberman's documentary play In White America was the Dalhousie Drama Workshop's choice for their second production of the year, presented Feb. 2 - 4 at the Neptune Theatre.

This play, actually a selection of documents, speeches and interviews, attempts to present the history of the Negro's search for freedom in the United States from slave-trading days until the Little Rock integration crisis. The result of presenting these extracts from written and recorded history was something more suitable for televesion documentary yet it gained much in forcefulness from the "live" aspect of the theatre.

The play is in two acts, each ending in an emotional climax, the first the logical conclusion of the Negro slave's agonizing desire for freedom: events in the career of the first unit of freed slaves in the Union armies; the second the pure, naked confrontation at Little Rock, the pivot of the post-emacipation agonies of the Negro. The plot, is the march

the nine man cast approached their task with assurance and apart from a little first night forgetfulness here and there performed as well as anyone could desire. The one noticeable weakness of the evening was the singing and guitar playing of Donna Uniwin but as the play progressed so did she and by the close of the evening she was up to the level of the rest of the cast.

The entire cast really performed as a unit but three performers caught this reviewer's eye. Tom Dunphy, though suffering the most from the occasional forgetfulness of opening night, nevertheless brought emotional spark to a production that occasionally was in danger of a grayness of tone. It wasn't Dylan's pad; he had borrowed it from somebody or other. On the floor, a mink rug played tablecloth for several cups and saucers, ashes and the ashtray that the ashes had been intended for. On a couch opposite Dylan's armchair sat Robbie Robertson, whom Dylan refers to as "the only mathematical guitar genius I've ever run into who does not offend my intestinal nervousness with his rear-guard sound." "Shutup!" said Dylan, "shut up and quit making that racket or else you'll be thrown to the fire inspectors. . .and they are very hungry." "What?" yelled Milly. The car stopped at the corner and Milly, one way or another, was thrown out. . . "Watch the fire inspectors!" yelled Brian. "Nonsense," said Dylan, "I'm just fooling. We really don't have them over in America." The limousine eventually stopped at a bar in the Eighth Avenue district. After everyone in the party had entered, a very muscular woman ran up and very surprisingly hugged Dylan. "You're not supposed to do that without an eyepatch!" he jolted. the bar, but it was already closed. "Back to the pad," said Dylan. There was a small number of people gathered around the mink rug when they returned. Dylan took the Temptations' record out from beneath his double-breasted corduroy jacket and put it on the record player. Then he went into another room and closed the door.

There was a W.C. Fields movie on the TV set. Dylan walked into the kitchen to get a bandage. "I think Marlon Brando should play the life of W.C. Fields," he mumbled. He fiddled around in the kitchen. "I also think that Warren Beatty should play the life of Johnny Weissmuller." Wrapping the bandage around his finger, Dylan returned to his room, stopping to say, "As for me, plan to play the life story of Victor Mature." "Is he serious?"' said the mild-mannered, petite colored girl, who was sitting cross-legged on the floor. She was immediately thrown out,

march

OTTAWA (CUP) - The New Democratic Youth has called a national March on Ottawa this month, to present a brief to the federal government outlining steps to peace in Vietnam.

The NDY has invited all interested peace groups, church groups, labor unions, political parties and individuals to join in what a press release describes as «a significant experiment in participatory demo-

While the main action will take place in Ottawa, similar demonstrations will be held in major urban centres across Canada

A call issued for the march by federal NDY chief Terry Morley states: "Canada's membership on the International Control Commission makes it imperative that our independent voice be heard. Our duty is clearly to fight for a practical solution within the framework of the Geneva Agreement - a treaty that calls for free elections in Vietnam."
