The

The post of film

Ori beg the sio oth firs sio or i

The sha TIN wh

Maj diff enti beg righ requ met The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CON-TINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le prernier plat et en terminant coit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la darnière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents.
Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The

PREFACE.

The favorable reception which our preceding geographical publications have obtained, together with the desire, which the heads of several educational establishments have manifested, to see our course completed, have induced us to undertake the compilation of the present work, which is chiefly designed to supply the want of an elementary treatise, for the pupils of the middle course. This volume is necessarily less complete than that of our Illustrated Geography, but it is sufficiently developed, however, to satisfy the exigencies of the course for which it is intended. In this, as in other works of the same nature, we follow, throughout, a rational and systematical method, so that the pupil having thoroughly mastered one lesson, will experience but little embarrassment in the subsequent ones.

In order not to augment too much the size of the volume, and consequently the price of the book, we have decided to dispense with the system which is now generally adopted in all didactic works of annexing questions to each lesson of the text: to supply, however, the deficiency arising from the want of enough of catechetical matter to render the lessons sufficiently lucid, and in order to enjoy the advantages of the method without at the same time assuming its defects, we give, as an instance, the questions in connection with the 17th lesson only. The first sixteen lessons, containing the preliminaries and definitions, have questions inserted also. In the other lessons, as the matter is presented in the same order, it will be easy to adapt the questions to

suit, since, for the most part, a change of a few words is all that will be required.

This work comprises two distinct parts, each of which has its own particular importance: the text, or the part which the pupils require to commit to memory, and the exercises, which refer to the demonstrations on the maps.

The text, although occupying but a comparatively small space, nevertheless embraces a complete whole, and about as much as the pupils of this section absolutely require to know, as:

situation of countries, population, religion, government, &c.

The exercises afford an easy and agreeable means to impress upon the mind of the learner the contents of the maps, without fatiguing the memory with nomenclatures as tedious to learn as they are easy to forget. Every day experience proves the excellence of these exercises both on account of the great attraction which pupils find in studies of this nature, and the progress which is the result of them, for success almost invariably accompanies a study which pleases; and, in effect, ought not the chief aim of all educational works be to furnish a pleasing and easy means of acquiring knowledge.

The volume concludes with a few tables showing the districts, counties, towns, villages, &c., of the different provinces of Canada. These tables contain information which could otherwise be found only after long research: with a few explanations from the teacher, they can be referred

to by the pupil when necessary.

The maps need no commendation; a single glance at them suffices to prove their excellence. The maps of the Provinces of the Dominion of Canada were engraved expressly for this work.

PRINCIPLES AND DEFINITIONS.

LESSON L-PRELIMINARIES.

ons.

... 32 ... 29 ... 16 oia 19 ... 22 ... 7 ... 19 ... 35 ... 18

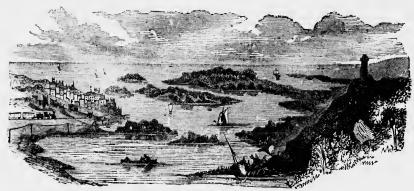

- 1. What is Geography?-Geography is a description of the earth and the people who inhabit it.
- 2. Is the Surface of the Earth level?-The Surface of the Earth is not level, it presents a large number of Physical Features.
- 3. What do you mean by Physical Features?— Physical Features are portions of various forms which bear different names; as, monntains, seas, rivers, &c.
- 4. How are the physical features divided?-The physical features are divided into Land and Water.

LESSON IL-NATURAL DIVISIONS OF LAND.

5. What are the natural divisions of Land?-The natural Divisions of land are continents, islands, peninsulas, isthmuses, capes, hills, mountains, volcanoes, &c.

- 6. What is a Continent?—A Continent is a vast division of land which can be traversed without crossing seas. Ex.; America, (a)
- 7. What is an Island?—An Island is a portion of land entirely surrounded by water, Ex.: The Island of Orleans, near Quebec.
- 8. What is an Archipelago?—An Archipelago is a group of islands.
- 9. What is a Peninsula?—A Peninsula is a portion of land almost surrounded by water: Ex. : Nova Scotia.
- 10. What is an Isthmus?—An Isthmus is a narrow neck of land which connects two larger portions. Ex: The Isthmus of Panama,
- 11. What is a Cape?—A Cape is a point of land which extends into the water, Ex.: Cape Sable, of Nova Scotia.

⁽a) If any of the physical features are in the vicinity and well known by the pupils, they should be cited in pre-ference to those given as examples.

CITY, PENINSULA, ISLAND, MOUNTAIN, &C.

LESSON III.—CONTINENTAL FEATURES.

12. What is a Mountain?—A Mountain is a great elevation of land. Ex.: Mount Royal.

13. What is meant by the altitude of a mountain?—The Altitude of a mountain is its height above the sea or a river

14. What is meant by a Mountain Chain, or Range?—A Mountain Chain or Range is many mountains joined together. Ex.: Notre Dame Mountains, in Rimouski County, P. Q.

15. What is a Ilill?—A Hill is a small mountain. Ex.: The western part of Mount Royal.

16. What is a Volcano?—A Volcano is a mountain which emits burning matter. Ex.: Mount Vesuvius, in Italy.

17. What is a Plain?—A Plain is a flat tract of country, or apparently of the same level. Ex.: The Plain of Chambly.

18. What is a Plateau Table-Land?—A Plateau or Table-Land is an elevated plain. Ex.: the Plains of Abraham, at Quebec, are a plateau.

19. What is a Valley?—A Valley is a plain between mountains or hills, ordinarily crossed by a river. Ex.: the Valley of the St-Maurice.

20. What is a Desert?—A Desert is an uninhabited and barren tract of country. Ex.: the northern part of the North West Territory.

LESSON IV.—NATURAL DIVISIONS OF WATER.

21. What are the Natural Divisions of water?— The Natural Divisions of water are oceans, seas, gulfs, straits, havens, streams, rivers, lakes, etc.

22. What is an Ocean?—An Ocean is the largest body of salt water separating continents Ex.: the Atlantic Ocean, east of America.

23. What is a Sea?—A Sea is part of an ocean. Ex.: the Mediterranean Sea.

24. What is a Gulf?—A Gulf or Bay is a part of the sea which stretches inland. Ex.: the Gulf of St-Lawrence; the Bay of Fundy.

25. What is a Strait?—A Strait is a narrow passage of water which unites two larger portions. Ex.: the Strait of Belle Isle, between Labrador and Newfoundland.

26. What is a Haven?—A **Haven** is a portion of water which extends inland and affords security for ships.

27. What is a Reef?—A Reef is a chain of rocks lying near the surface of the water on which ships are sometimes wrecked.

28. What is a Current?—A Current is a part of the sea in which the water flows as in a river.

LESSON V.—CONTINENTAL WATERS.

29. What is a Lake?-A Lake is a portion of water almost surrounded by land; if very small it is called a pond.

30 What is the Valley or Basin of a river?-The Valley or Basin of a River is the tract of country drained by the river and its affluents. Ex.: the Valley of the St-Lawrence which extends from its two banks to the sources of its tributaries.

31 What is a slope?—A Slope is part of a basin.: Ex.: the River St-Lawrence has a north and a south slope.

32. What is a Water-Shed?—A Water-Shed is the separation of two slopes. Ex.: the Mountains of Gaspé are the water-shed between the St-Lawrence and the Bay of Chaleurs.

33. What is a River?—A River is a large stream of water which flows into a larger portion Ex: the St-Lawrence.

34. What is a Stream?—A Stream is a smaller body of water than a river.

LESSON VI.—CONTINENTAL WATERS.— (Continued).

35. What is an Affluent or Tributary?—An Affluent or Tributary is a river that flows into an other river; the place where two courses of water unite is called Confluence. Ex.: the City of Sorel is situated at the confluence of the River Richelieu with the St-Lawrence, and the Richelieu is an affluent or tributary of the St-Lawrence.

36. What is the Source and the Mouth of a river? -The Source of a river is the place in which it takes its rise or commences; the Mouth is the place where it empties, or flows.

37 What is meant by Up a River and Down a River?-Up a River is towards its source, and Down a River is towards its Mouth.

38. Where is the Right Bank and the Left Bank of a River?-The Right Bank of a River is

the bank on the right hand of a person turned towards its mouth, or going down the stream, and the Left Bank is the one on his left hand.

39 What is a Cutaract or Falls ?—A Cataract or Falls is the falling of water over a precipice. It is also called a Cascade. Ex.: the Falls of Niagara.

10. What is a Canal?—A Canal is an artificial river or channel filled with water for the passage of vessels. Ex.: Rideau Canal.

41 What is a Torrent?—A Torrent is a rapid current of water occasioned by rain or the melting of snow.

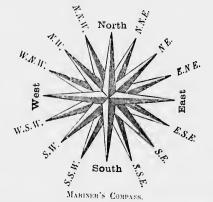

LESSON VII.

42. How may the Position of the different points on the surface of the earth be determined?-The Position of different places is found by means of the Mariner's Compass and the Circles.

43. Which are the Cardinal Points?—The Cardinal Points are North, South, East, and West.

45. What side is the East?—The East is the side towards which the sun rises.

46. What side is the West?—The West is the side towards which the sun sets,

47. Where is the South ?-The South is the side on which the sun is at noon.

OF

ter?ceans, lakes, ie lar-

nents cean.

ı part Gulf

rrow porween

rtion secu-

n of r on

part

in a

- 48 Where is the North?—The North is the point opposite the South.
- 49. How may the Cardinal Points be found out?
 —The Cardinal Points may be found out by a person turning to the sun at noon, he will face the south, his back to the north, his right hand to the west and his left to the east
- 50 How are the intermediate Points named?—The intermediate **Points** take their name from the two points between which they are. (See the Illustration, page 3).
- 51 Where are the Cardinal Points on maps?—On maps, the N, is at the top, the S., at the bottom; the E., at the right; and the W., at the left.

LESSON VIII.—MOTIONS OF THE EARTH.

- 52. Of what shape is the earth?—The earth is **Round**, nearly like an orange
- 53. How is it known that the earth is round?— The earth is known to be round: Irst, because it was several times circumnavigated, 2nd, because the shadow of the moon during an echipse is always round; &c.
- 54. What is the length of the Circumference of the earth?—The Circumference of the earth is 25,000 miles.
- 55 What is the length of the Diameter of the earth?—The **Diameter** of the earth is nearly 8.000 miles.
- 56 What is the Diameter called around which the earth seems to revolve?—The **Diameter** around which the earth appears to revolve is called the **Axis**.
- 58 How many principal Motions has the earth? —The earth has two principal Motions: one, on its axis; the other, around the sun
- 58. In what direction does the earth revolve on its axis?—The earth turns on its axis from West to East.
- 59 How long does the earth take to revolve on its axis?—The earth revolves on its axis once in twenty-four hours

- 60. How long does the earth take to describe its revolution around the sun?—The earth revolves around the sun once in about 365‡ days.
- 61. What effect is produced by the diurnal, or daily revolution?—The **Diurnal** revolution of the earth produces day and night.
- 62. What effect is produced by the revolution of the earth around the sun?—The **Revolution** of the earth around the sun produces the seasons, which are Spring, Summer, Autumn, and Winter.

LESSON IX.—CIRCLES.

- 63. What are Circles in Geography?—Circles in Geography are imaginary lines passing around the earth on its surface
- 64. How are Circles in Geography divided?— The Circles of the earth are divided into two kinds; Great and Small Circles.
- 65. Into how many parts is each circle of the Sphere divided?—Each circle of the Sphere is divided into 360 degrees, each degree is divided into 60 minutes, and each minute, into 60 seconds.
- 66. Which are the Great Circles?—The Great Circles are the Horizon, the Meridians, the Equator, and the Ecliptic

M

ar

di

Εŧ

sp

cal

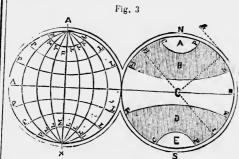

- 67 What is the Horizon?—The Horizon is a great circle which divides the earth into two equal parts.
- 68. What is the Sensible Horizon?—The Sensible Horizon is the circle which bounds our view and where the earth appears to touch the sky.

Each part of the Globe has its particular Horizon.

- 69 What is the Equator ?—The **Equator** is a great circle which runs from east to west at an equal distance from the Poles.
- 70 What are the Poles?—The Poles are the two extremities of the earth's axis (No. 56).
 - 71 How many Poles are there?—There are two

Poles: the North, or Arctic Pole (a) and the South, or Antarctic (b) Pole

72. How does the equator divide the earth?—
The equator divides the earth into two equal parts: one called the Northern Hemisphere (c); and the other, the Southern Hemisphere.

Circles and Zones.

III. Rational Ho hi. Sensible Ho AB. Equator, N. North Pole, S. South Pole, AX. Axis of the I MD, LT. Meridians. TR. Tropic of Car TE. Tropic of Gar	rizon. PL. Parallels. AP, PP. Latitude. ML, LL. Longitude. C. Torrid Zone. Sarth. B. N. temperate Zone. S. temperate Zone.

LESSON X.—CIRCLES.—(Continued).

73 What is a Meridian?—A Meridian is a great circle which extends north and south around the earth passing through the poles, and divides the earth into two hemispheres; the Eastern Hemisphere and the Western Hemisphere.

74 Why is this circle called Meridian?—It is called Meridian, because when the sun reaches

this line, it is noon, mid-day for the people who live on the illuminated portion.

75. What is a First Meridian?—A First Meridian is a particular meridian, varying with different countries, from Which longitude is reckoned Ex.: In England the First Meridian passes through Greenwich; in the United States, through Washington; and in France, through Paris, &c.

76. Which are the Small Circles?—The Small Circles are the Tropics, the Polar Circles, and the Parallels of Latitude.

77. What are the Tropics?—The **Tropics** are two circles parallel to the equator, at a distance of $23\frac{1}{2}$ ° from it.

78. How are the Tropics distinguished?—The one north of the equator is called the Tropic of Cancer; and that south, the Tropic of Capricorn.

79. What are the Polar Circles?—The Polar Circles are two smaller circles parallel to the equator, and 23½° from the poles; the one at the north called the Arctic Circle, and that at the south, called the Antarctic Circle

LESSON XL-LATITUDE AND LONGITUDE.

80. What is Latitude?—Latitude is the distance of any place, north or south from the equator

81. How are the Degrees of latitude counted?
—The Degrees of latitude are counted on the meridian, beginning at the equator.

82. How can north or south latitude be distinguished on maps?—Latitude is north when the degrees are counted in going upwards, looking towards the top of the map, and south when they count in looking towards the bottom of the map

83. What is Longitude?—Longitude is the distance of a place east or west from the first meridian.

84. How can east or west longitude be distinguished on a map?—Longitude is east when the

degrees count towards the right, and west when they count towards the left.

LESSON XII.—ZONES AND CLIMATES.

85. What are Zones?-Zones or Belts are divisions made on the terrestrial globe by the tropics and polar circles.

86. How many zones are there?-There are five zones: one, Torrid; two Temperate; and two Frigid.

87. Where is the Torrid Zone?-The Torrid Zone is between the two tropics.

88. Where are the Temperate Zones?-The Temperate Zones are comprised between the tropics and the polar circles.

89. Where are the Frigid Zones?-The Frigid Zones lie between the polar circles and the poles.

90. What is meant by Climate?—By Climate is meant the different degrees of heat or cold at the surface of the earth. (a)

91 Which Zone is the hottest?-The Torrid Zone is the hottest. (Torrid means burning).

92. What is said of the Climate of the Frigid Zones?-The coldest Climate is in the Frigid Zones.

93 .- What is said of the Climate of the Temperute Zones? - The Climate of the Temperate Zones is milder and more agreeable than that of the other zones. However, the climate of these zones varies more or less according to the proximity of distance from the others.

LESSON XIII-THE PRODUCTIONS OF EACH ZONE.

94. What effect has the climate of the Torrid Zone on the human race?-The climate of the Torrid Zone renders man weak, languid, and indolent.

(a) This definition only refers to heat and cold, the Climate may also be considered as healthy or unhealthy, dry or damp. When places known by the pupils possess any of these conditions, they may be advantageously cited as

95. What sorts of animals does this Zone produce?-The animals of this Zone are numerous and generally very ferocious; the serpents and other reptiles are generally very venimous. The birds are very beautiful.

96. What are the vegetable productions?-The vegetables in the Torrid Zone grow with great luxuriance. The fruits are delicious and refresh-

ing, the flowers beautiful.

97. What is the effect of the climate of the Temperate Zones on man?-In the Temperate Zones man enjoys better health, is more active, happier, and more civilized.

98. What effect does this climate produce on animals?—The animals of these Zones are less fero-

cious and more useful.

99. What is said of vegetables in the Temperate Zones?—The vegetables of these Zones are more useful, the fruit more substantial, and grain for the use of man and other animals more abund-

100. What effect has the climate of the Frigid Zones on mankind?-The climate of the Frigid Zones renders man, stupid and mactive, and generally impedes the growth of his body and the development of his mind.

aı

V

 \mathbf{pl}

coi

eq

033

pro

pro

rice

101. What is said of the productions of the Frigid Zones?-These Zones produce a large quantity of furry animals; but there is little vegetation.

LESSON XIV.—THE THREE PHYSICAL, OR NATURAL KINGDOMS.

THE ANIMAL KINGDOM.

102. Of what does the Animal Kingdom consist? -The Animal Kingdom comprises all living creatures on the earth and in the waters.

103. What are Carmvorous Animals?—Carnivorous Animals are those that feed upon flesh; as, the lion, the tiger, the bear, the wolf, the fox, &c.

104. What is meant by Domestic Animals?-Domestic Animals are those that live with Zone pronumerous pents and nous. The

rnivupon wolf,

ls? with man; as, the horse, the ox, the ass, the sheep, the dog, the cat, $\&\varepsilon$

105 What are Birds?—Birds are animals which have wings and feathers.

106. What are Birds of Prey?—Birds of Prey are birds that live on flesh or fish; s, the condor, the vulture, the eagle, the owl, &c.

107 Which is the largest bird?—The ostrich. This bird is a native of Africa, it does not fly, but runs very quickly

108 What are Fishes?—Fishes are animals that hve in the water; as, the whale which is the largest of fishes, the dolphin, the shark, the cod, the salmon, the porpoise, the wolf-fish, the herring, &c Some of them are very voracious.

109. What are Reptiles?—Reptiles are creeping animals; as, crocodiles, alligators, serpents, worms, lizards, &c

110 What are Amphibious Animals?—Amphibious Animals are those that live on land and in water; as, the crocodile, the tortoise, the frog, &c

111 What are the Insects?—Insects are small animals without bones, having the body jointed.

LESSON XV.

THE VEGETABLE KINGDOM.

112 What is the Vegetable Kingdom?—By the Vegetable Kingdom is meant all trees and plants.

113. Do all Trees and Plants grow equally in every country?—Trees and Plants do not grow equally in all countries, each country has its own peculiar trees and plants.

114 What does the most part of Trees and Plants produce?—The most part of Trees and Plants produce flowers and fruit.

115 Where do the most beautiful Flowers and richest Fruits grow? — The most beautiful

Flowers and richest Fruits grow in the Torrid Zone.

116. Which are the principal Fruits of hot, or tropical countries?—The principal Fruits of hot countries are the oranges, pine-apples, bananas, nutmegs, figs, olives, &c.

117. What are the principal Fruits of the Temperate Zones?—The principal Fruits of the Temperate Zones are grapes, apples, pears, peaches, plums, melous, encumbers, &c.

118 What are the principal Grains of these regions?—The principal **Grains** of the Temperate Zones are wheat, oats, barley, corn, rice, &c.

119. Where are Coffee and Tea produced?—Coffee is produced in Arabia and the tropical regions of America, and Tea principally in China and India.

120 Where are Sugar and Cotton produced ?— Sugar and Cotton are produced principally in tropical countries and in the southern portion of the United States. Beet-root sugar is produced in temperate regions

LESSON XVI.—THE MINERAL KINGDOM.

121 What is meant by the Mineral Kingdom?— By the **Mineral Kingdom** is meant the various kinds of stones, metals, and ores which are drawn from the earth.

122. What are the principal metals?—The principal **Metals** are gold (the most precious of all), iron (the most useful), silver, platma, mercury, copper, tin, lead, &c.

123. What are Precious Stones?—Precious Stones are stones which are very scarce and brilliant, as, diamonds, rubies, sapphires, emeralds, amethysts, &c.

124 What is Coal?—Coal is a very useful mineral, and is used for fuel; from it gas is made to light our streets and houses

AMERICA.

THE LANDING OF COLOMBUS AT SAN SALVADOR.

LESSON XVII.

THE WESTERN HEMISPHERE

COMPRISING NORTH AND SOUTH AMERICA.

- 1. The American Continent was discovered by Christopher Columbus. He set sail from Palos on the 3rd of August, 1492, and on the 13th of the following October, arrived at one of the Bahama islands to which he gave the name of San Salvador.
- 2. America was so named after Americus Vespucins, it is often called the New World, on account of its recent discovery and to distinguish it from the Eastern Continent, or Old World, which was known long before the discovery of America.
- 3 The aborigines, or original inhabitants are called Indians. They inhabit the woods and subsist chiefly on fishing and hunting; their number is rapidly decreasing.
- 4. The arts and sciences are making rapid progress in the New World, particularly in North America where they are reaching nearly as high a degree of perfection as in the Old World.

LESSON XVIII.

EASTERN HEMISPHERE.

1. The Eastern Hemisphere comprises Eu rope, Asia, Africa, and part of Oceania.

2. Europe, although the smallest, is the most enlightened, most industrious, and compara / tively, the most populous of the great divisions of the Globe. It was peopled by the descendants of Japhet, the third son of Noe.

3. Asia is noted for having been the cradle of the human race, and that of the Christian religion It was peopled by the descendants of Sem, the eldest son of Noe.

4. Africa is the residence of the Black Race. It was peopled by the children of Cham, the second son of Noe. It is especially remarkable for the intense heat of its climate, and the barbarism of the greater number of its unhabitants.

5. Occania comprises numerous islands in the Pacific Ocean, the principal of which are the largest of the globe. (Australia, the largest, is now generally known as the Australian Continent, on account of its size.)

ANIMALS OF NORTH AMERICA

LESSON XIX.

NORTH AMERICA.

Area . 14,712,000 sq m.—Pop 82,956,000

- l. North America occupies the northern part of the W stern Continent; it extends from the Isthmus of Panama to the Arctic Regions. It is divided into several countries: Greenland, Dominion of Canada, United States, Mexico, Central America, and the West Indies.
- 2. A vast plain extends through the central portion of North America from the Arctic Ocean to the Gulf of Mexico, and from the Alleghany Mountains, on the east, to the Rocky Mountains, on the west
- 3 It is watered by a great number of beautiful rivers, the principal of which are: the Mackenzie, in the North; the St. Lawrence, in the east, and the Mississippi, in the south. Its lakes are the finest on the globe
- 4. Greenland and Iceland belong to Den mark. These countries are extremely cold and barren, they are, nevertheless important fishing-stations. Iceland is noted for its fine breed of sheep—Area, 790,000 square miles.—Population,

about 74,000, of which 65,000 belong to Ice. land.

5 Alaska Territory belongs to the United States, they purchased it from Russia. This country is watered by the Kwichpack or Yucon, the cold is excessive. *Arra*, 567,000 square miles.—*Population*, 54,000.

LESSON XX.

DOMINION OF CANADA.

(British America.)

Area, 3,400,000 sq m.—Population, 3,459,000.

- 1. The Dominion of Canada is that part of North America which lies between the Arctic Ocean and the United States; the Atlantic and Pacific Ocean.
- 2 It comprises seven provinces, viz.; Quebec, Ontario, Nova Scotia, New Brunswick, British Columbia, Prince Edward Island, Manitoba, and one Territory, the North-West.
- 3 The inhabitants of the Dominion may be classified as follows, French Canadians inhabit ing principally the Province of Quebec, English, Irish, and a few thousand Negroes and Indians.
- 4. The French language is spoken by the French-Canadians and the Acadians, the English language is spoken by the others.
- 5 The government of Canada is a federal constitution—The Federal Parliament is composed of the Governor-General, a Privy Council, of a Senate and a House of Commons.
- 6. Each Province has a Local Government, composed of a Lieutenant-Governor, an Executive Council, and a Legislative Assembly
- 7. About a million and a half of the inhabitants profess the Roman Catholic religion, the others belong to different Protestant sects
- 8. Education is not inferior to that of any other country in the world; a great number of educational establishments, both religious and secular, work with a zeal worthy of praise.

FALLS OF NIAGARA.

9. The surface of the Dominion is very picturesque and interesting. Two chains of mountains of moderate elevation extend along the valley of the St. Lawrence. The Province of Ontario contains the finest lakes in the world; they discharge their waters into the Atlantic through the majestic St. Lawrence.

10. Most of its rivers are rendered interesting by their falls, among which may be particularly remarked the Falls of Niagara, one of the greatest marvels of nature.

11. The products of the Dominion in most part arise from agriculture and the fisheries, which are the most productive in the world. Mines of gold, copper, coal, petroleum springs, etc., also abound

12. Industry and Commerce are very prosperous, principally of late years. After the United States, it is the most commercial country of America. Numerous railroads and canals which run through various parts of the country, are favorable to its commerce. Telegraph lines connect the different Provinces of the Dominion (and messages are sent to foreign places.)

13. Ottawa, capital of the Dominion, is beautifully situated on the right bank of the Ottawa River; it is making rapid progress since it was

chosen as the seat of Parliament. The Chaudière Falls, near the city, are very remarkable, and attract many tourists.

LESSON XXI.

PROVINCE OF QUEBEC.

Area: 193,355 sq. m.—Population; 1,191,600.

bı

ar

12

th

7,5

Jo

1. The Province of Quebec is situated on both sides of the St. Lawrence from the Province of Ontario to the Atlantic. Its scenery is very picturesque.

2. The Laurentides, in the north, and the Alleghanies, in the south, are the principal mountain ranges

3. The *climate* is severe in winter; but in summer and autumn, very agreeable, and salubrious at all times.

4. The principal river is the St. Lawrence, one of the finest in the world; it traverses the Province in all its length; its principal affluents on the north are: the Ottawa, the St. Maurice, and the Saguenay which forms Lake St. John, the largest lake in the Province; those on the south are, the Richelieu, St. Francis, the Chaudière, and several others.

5. Five-sixths of the inhabitants are French-Ca-

nadians, the remainder are Irish, English, Scotch, and a few thousand Indians.

- 6. The great majority of the population profess the Catholic religion.
- 7 The soil is very fertile, producing wheat, corn, oats, barley, etc Pears, apples, plums, and cherries are produced in great abundance in the district of Montreal. The forests are area with maple-trees from which sugar is made in large quantities.
- 8 Industry and commerce are developed with great activity, particularly, in Montreal which rivals some of the large cities of the United States.
- 9. Quebec, population 59,000, is the capital It is built on Cape Diamond and overlooks the river and surrounding country.-Montreal, population 120,000, is the largest city in the Dominion and the emporium of commerce. Three Rivers, pop 7,570 -Levis, pop 6,691. -Sorel, pop 5,636 -St John, and Sherbrooke are flourishing towns

LESSON XXII.

PROVINCE OF ONTARIO.

Area 177,780 sq. m.—Population: 1,620,900

1 The Province of Ontario is situated west of Quebec and north of the United States. It forms a triangular peninsula, partly bounded by the Great Lakes; its surface is undulating

- 2. Being farther south than Quebec, its climate is milder
- 3. The principal rivers are, the St Lawrence, the Ottawa, the Grand, and the Thames.
- 4 Lakes Superior, Huron, Eric, and Ontario. with the St Lawrence, form the largest body of fresh water on the globe. These lakes are especially remarkable for the limpidness of their waters and for the tempests to which they are subject. Between Lakes Erie and Ontario are the lamous Falls of Niagara
- 5. Its population is composed of Irish, Scotch, French Canadians and a few thousand Indians.
- 6. The Protestant religion prevails; one-sixth of the population are Catholics, the English language is generally spoken
- 7 The soil is generally fertile and produces nearly the same staple as the Province of Quebec Copper, petroleum and lumber are abundant.
- 8. The articles of commerce are, lumber, grain, flour, potash, and petroleum. These are exported in great quantities to England and the United States.
- 9 Toronto, population, 56,092, is the capital of the ' vince. It is a very flourishing city

situated on a beautiful bay of Lake Ontario, its harbor is safe and capable of containing a large number of vessels. Besides the capital there are many prosperous towns; the principal are: Hamilton, pop 26,716, Ottawa, pop. 21,545; London, pop 15,826; Kingston, pop 12,407

LESSON XXIII

NOVA SCOTIA.

Area · 21,730 sq m — Population · 387,800

- 1 Nova Scotia, formerly called Acadia, is a pennisha situated south of the Gulf of St. Lawrence, it is divided into 18 counties, including 4 of Cape Breton Island, it is connected with New Brunswick by the Chiegnecto Isthmus
- 2 The coast of this Province is indented with many harbors which are very favorable to navigation. It has no considerable rivers.
- 3 The *climate* is not so cold as that of the Province of Quebec.
- 4 The population is composed of Irish, Scotch, English, Acadians, (descendants of the first French settlers). The Processant religion is professed by the three-fourths of the population and the Catholic religion by the remainder
- 5. The principal products are those arising from the gold and the coal mines. The most productive of the latter are those of Pictou, and Sydney in Cape Breton. In the north west, great attention is paid to the cultivation of fruit-

trees, and on account of the fine orchards, this portion is called "The Garden of Nova Scotta."

6. The chief products are those of agriculture, the fisheries, gold and coal mines, and ship-building, &c. The exports are fish, coal, gold, gypsum, and potatoes, &c The imports are flour, liquors, silk, wool, cotton, and other wares

7 Halifax, population 29,582, is the capital, its harbor is one of the finest in the world. It is the chief naval station of Great Britain in America, and the terminus of the Intercolonial Railroad. Yarmouth and Picton are the most important towns.

LESSON XXIV.

NEW BRUNSWICK.

Area, 27,322 sq m -Population, 285,594.

1 New Brunswick hes south-east of the Province of Quebec and is connected with Nova Scotia by the Chiegnetto Isthmus; it forms a rectangle about 230 miles long and 190 miles wide. It is divided into fifteen counties

ıl

 P_1

th

St.

the

- 2. The *Surface* is generally undulating. The loftiest mountain are scarcely 2,000 feet high; they are situated in the north-east.
- 3. Its *climate* is not so cold as that of the Province of Quebec
- 4. The St. John is its principal river, it crosses the Province from north to south, and is navigable as far as Fredericton. At the distance of 225 miles from its mouth, it forms a beautiful

perpendicular fall of 80 feet high—It flows into the Bay of Fundy, near the city of St. John.

- 5 The population is composed nearly like that of Nova Scotia. The Irish are the most numerous. One-third of the population are Roman Catholics
- 6 The *products* are those arising from agriculture, and from the forests Potatoes are extensively cultivated.
- 7 Industry is little developed, but domestic and foreign commerce is actively carried on.
- 8 Fredericton, population 6,000; is the capital, it is agreeably situated on the right bank of the River St. John—St. John, population including Portland, 41,000, is the most important city of the Province—Moncton and Chatham, are flourishing towns

LESSON XXV

PRINCE EDWARD ISLAND.

Area: 2,134 sq m.—Population, 94,021

- 1. Prince Edward Island is the smallest Province in the Dominion, but proportionally the most populous—It is situated in the Gulf of St. Lawrence, north of Nova Scotia, from which it is separated by the Strait of Northumberland
- 2 The coast is indented with numerous bays, the principal of which are Hillsborough and

Richmond. These penetrate the Island from opposite directions and divide it into three peninsulas

- 3 The *climate* is milder than the adjoining Provinces; the atmosphere is exempt from fogs, and is very healthy
- 4. The inhabitants consist of Scotch, Irish, Acadians, and English settlers. Roman Catholics constitute half the population, Protestants the other half.
 - 5. The products are chiefly agricultural.

AGRICULTURE.

- 6 Its industry consists in farming, fishing, and ship building. The commerce consists in the exportation of the products of the Island, and the importation of merchandise and other articles of domestic use.
- 7. Charlottetown, population 7,500, is the capital; it is built on a slight elevation near Hillsborough River

LESSON XXVI.

PROVINCE OF MANITOBA.

Area: 13,340 sq m-Population, 12,000.

- 1. Manitoba, is so called from the lake of the same name which is partly in this Province. It is situated on the Red River, whence it was called Red River Settlement which name it bore until 1870, when it became a Province of the Dominion
 - 2 The surface is leve, and (vered with

prairie land which is diversified with some groups of trees.

3. The climate is very severe in winter, and the temperature very changeable.

- 4. It is drained by the Red River, the Assinihoine, and the Saskatchewan. In the north it is watered by the southern extremities of Lakes Maintoba and Winnipeg.
- 5. The population is composed of Metis, generally speaking the French language. The majority profess the Catholic religion.
- 6 The agricultural capabilities of the soil cannot be surpassed for several productions.
- 7. Winnipeg, population 5,000, is the capital. It is situated at the junction of the Assiniborue and Red River It is the commercial metropolis of commerce of the North West.-St. Bomface, on the opposite bank of the Red River, is the Ar. chiepiscopal See.

LESSON XXVII

BRITISH COLUMBIA.

- Area: 350,000 sq m.—Population, about 60,000. 1 British Columbia, formerly called New Caledonia, is situated at the western extremity of the Dominion, between the Rocky Mountains and the Pacific Ocean Vancouver Island at the south-west, forms part of the Province
- 2 This Province is very mountainous; the principal ranges are the Rocky in the east, and the discade in the west.
- 3 1. Admitte is generally agreeable and salubrious; - a cold is not so intense as in the other Provinces of the Dominion. Winter is comparatively scorter than that of any other country in the same latitude.

; the t, and

saluother comintry 4. The Columbia, the Fraser and its chief branche, the Thompson, are the principal rivers.

5. The population consists of about 8,000 Whites, 1,600 Chinese, 500 Negroes, and 50,000 Indians. The Catholic religion prevails.

6. The Gold Mines of this region are very productive. Agricultural pursuits and lumbering are the principal resources of the Province.

7. Victoria, population 4,540, is the capital. It is situated at the southern part of Vancouver Island. Its environs are remarkably beautiful.—New Westminster is the next in importance, it is situated on the north shore of the Fraser River, 85 miles from Victoria; its site is magnificent and its climate incomparable.

LESSON XXVIII.

NORTH-WEST TERRITORY.

Area: 2,450,000 sq. m.—Pop.: about 80,000.

1. The North-West Territory is a vast tract of country lying in the north of the Dominion of Canada, and extending to the Arctic Regions.

2. This country has no remarkable mountains; but it contains many fine lakes, the chief of which are: Great Slave, Great Bear, Athabaska, Winnipeg, and Manitoba.

3. The *climate* is extremely cold and is opposed to all cultivation, except the western part called the *Prairies*, which, being milder, can be easily cultivated. The other parts are useful only for fishing and hunting.

4. The principal rivers are the Mackenzie and its tributaries; the Nelson, the Saskatchewan, and many others.

5. The population is composed of the employees of the Hudson Bay Company, and a large number of Indians, the most remarkable of whom are the Esquimaux.

- 6. This Territoy belongs to the Dominion since 1870. It is governed by the authorities of Manitoba.
- 7. Furry animals are very numerous, and the rivers and lakes abound with excellent fish.

LESSON XXIX.

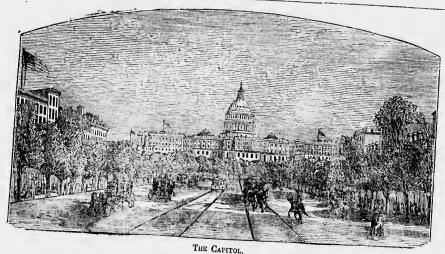

THE ISLAND OF NEWFOUNDLAND.

Area: 42,000 sq. m.—Population: 130,000.

- 1. The Island of Newfoundland is situated in the Gulf of St. Lawrence. Its coast is indeuted with a great deal of bays.
- 2. The climate is not so subject to changes as that of the continental provinces; it is a little moist, but salubrious.
- 3. The *takes* are estimated to cover one-third of the island; the *rivers* are not considerable.
- 4. The population is composed, in great part, of Irish.—Its government is similar to that of Canada. Catholics constitute five-sixths of the population.
- 5. The quality of the soil in the interior, is but little known; potatoes are of an excellent kind.

Coal, gypsum, copper, silver, lead, iron, and other minerals are abundant.

- 6. The *Banks* of Newfoundland are very remarkable, and cannot be surpassed for fishing, especially for cod.
- 7. Newfoundland is the only British color yin North America that has refused to enter into the Dominion of Canada.
- 7. Heart's Content, at the east, is the terminus of the Trans-atlanetic Cable.
- 9. St. John's, population 22,000, is the capital it is situated at the east, on Avalon Peninsula. Its harbor is sheltered by two mountains, and has a very difficult entry.

LESSON XXX.

UNITED STATES.

Area: 3,010,000 sq. m.—Pop. · 38,549,500.

- 1. The United States comprise that part of North America bounded by Dominion of Canada on the north, and Mexico on the south, the Atlantic on the east, and the Pacific on the west.
- 2. At the Declaration of Independence, in 1776, the number of States was thirteen; they now number thirty-seven, eleven Territories, and one Federal District.
- 3. The *climate* is variable. In the north it is very warm in summer and very cold in winter; in the middle, temperate.
- 4. Between the Alleghany and the Sierra Madre Ranges flow the Mississippi and Missouri rivers from north to south. The former has many branches, the principal of which are: the Arkansas, the Ohio, the Kansas, and the Yellow Stone.
- 5. Four of the great Canadian lakes form part of the boundry between the States and Canada. Lake Michigan lies entirely in the States.

- 6. The population of the United States is composed of different races, each having its character, its aptitudes, its language, and its religion.
- 7. The Protestant *religion*, divided into several sects, is the most numerous.
- 8. The english language is generally spoken.
- 9 The government of the United States is a Federal Republic of which the chief officer is called the *President*. Each State has its own local government.
- .10. Industry is exercised in all branches of trades and arts.
- 11 Commerce is as considerable as that of any of the commercial countries of Europe, except England. The numerous railroads and canals which are spread over the Union afford great facilities to commerce.

is

te

in

an tie

- 12 The products are numerous and valuable. The chief minerals are, gold, silver, quicksilver, iron, coal, copper, lead, lime, gypsum, and salt. All kinds of fruits and cereals are raised: Oranges, pine-apples, bananas, apples, pears etc.; wheat, corn, cotton, sugar, etc.
 - 13 Washington, population 109,200, is the capi-

tal. It is a well built city situated on the Potomac; its principal ornament is the capitol.

14. New York, population 943,000, is the largest city in America, and one of the most commercial cities in the world.—Philadelphia, 674,000. There are about twelve other cities whose population is more than 100,000.

LESSON XXXII. CENTRAL AMERICA.

Area: 213,000 sq m.—Population, 2,891,500

1. Central America connects the two American Continents. It is situated between Mexico and the Isthmus of Panama. The Sierra Madre traverses it from one extremity to the other.

SUGAR CANE

- 2. The States comprised in this country are five viz: Guatemala, San Salvador, Honduras, Nicaragua, and Costa Rica. They form independent republics having a military form of government. British Honduras, or Balize, belongs to Great Britain.
- 3 The Sierra Madre traverses it from one extremity to the other. It has a variety of climates.
- 4. The Riv. San Juan, north of Costa Rica, connects Lake Nicaragua with the Caribbean Sea.
- 5. Two-thirds of the *population* are Indians and Metis; the rest are Whites and Negroes The *religion* is Roman Catholic.
- 6. The products are the same as those of Mexico. Mahogany and logwood are largely exported. The Isthmus of Panama is crossed by a railroad, from Aspinwall to Panama. This is the great thoroughfare for American commerce, between the Atlantic and Pacific Oceans

LESSON XXXI

MEXICO.

Area: 668,000 sq. m.—Pop:,8,744,000.

- 1. Mexico lies south of the United States, between the Gulf of Mexico and the Pacific Ocean.
- 2 Mexico is traversed by the Sierra Madre (Mother Range), which forms a plateau so level and extensive that a wheel-carriage can be driven along it without obstacle, for 1400 miles.
- 3. Between Puebla and the City of Mexico are the volcanoes Popocatepetl and Istaccihualt. The former is more than 17,000 feet high.
- 4. Its *climate* is hot and unhealthy on the coast and temperate in the elevated regions.
- 5. Its population is composed of the descendants of Spaniards (called *creoles*), of Negroes, Indians, and Mestizos.
- 6. Its government is Republican. The religion, Roman Catholic. This country formerly belonged to Spain; but became independent in 1821. It is in an unsettled condition ever since.
- 7. Its products are wheat, barley, oats, in the temperate regions; tropical fruits are produced in the hot regions.
- 8 Industry and Commerce are paralyzed by anarchy, brigandage, and also by want of facilities of communication.
- 9. Mexico, population 205,000, the capital, is situated near Lake Tezcuco, on an elevation of 8,000 ft.

It was frequently destroyed by earthquakes.—The other cities are: San José, capital of Costa Rica, population 30,000; San Salvador, population 18,000; Nicaragua, capital of Nicaragua, population 35,000.

LESSON XXXIII.

WEST INDIES.

Area: 95,000 sq m.—Population: 4,202,400

- 1. The West Indies include all the Islands in the *environs* of the Caribbean Sea. They are divided into Greater and Lesser Antilles.
- 2. The Greater Antilles are Cuba and Porto Rico, belonging to Spann; Jamaica to England, and Hayti, which forms two republics They are mountainous in the interior, and sloping towards the coast.
- 3 Their climate is hot and unhealthy near the coast, but very agreeable in the interior. Hurricanes, or violent storms, sometimes sweep over the land and sea, blowing down trees, destroying houses, and wrecking ships...
- 4. The *inhabitants* include Europeans and their descendants, Negroes, and mixed races
- 5 Their *soil*, generally fertile, produces sugar, coffee, cotton, pine-apples, bananas, and other tropical fruits.
- 6. The Lesser Antilles are divided into Windward and Leeward Islands; those of the north are called the Windward, those of the south, from Martinique Island, the Leeward. They belong to different nations: England, France, Holland, Denmark and Venezuela.
- 7 Havana, population 206,000, is the capital of Cuba.— Spanishtown, population 6,000, capital of Jamaica.—Port au Prince, population 21,000, capital of Hayti.—St. John, population 18,000, capital of Porto Rico.

ANIMALS OF SOUTH AMERICA.

LESSON XXXIV

SOUTH AMERICA.

Area: 6,552,000 sq. m.—Population: 25,880,000.

- I South America is that great division of the Western Continent, which is united to North America by the Isthmus of Panama. It is remarkable for its long and beautiful rivers, high mountains, and vast plains; for the variety of its vegetable products, minerals &c.
- 2. On the western coast are the Andes which extend from north to south. They contain many high peaks and some active volcanoes.
- 3. The most remarkable among the many valleys of this part of the world are the region of the *Llanos* or Savannahs (level grassy tracts), which occupies most of the basin of the Orinoco; the *Sitvas*, or forest plains, in the lower part of the basin of the Amazon; and *Pampas*, or prairies of the Argentine Confederation.
- 4. The population of South America includes the original Indian tribes, Whites and Negroes. The Whites, who are mostly Spaniards and Portuguese, are the ruling people. The Indians form more than one-half the population.

6 The native productions of South America are the potato, vanilla, Indian corn, the cocoa, or chocolate-tree, the Peruvian Bark, and the caoutchouc, or Indian-rubber-tree South America also produces sugar, cotton, coffee, indigo, bananas, and, in general, all the tropical fruits The chief mineral productions are gold, silver, platina, mercury, copper, iron, lead, tin, coal, salt, diamonds, rubies, and other precious stones.

7 The most remarkable animals are the jaguar, a species of tiger; the puma, or American lion; the ant-eater, the lama, the alpaca, &c. Large serpents, called boa-constrictors infest the forests. There are also many birds of beautiful plumage.

LESSON XXXV

UNITED STATES OF COLUMBIA.

Area 457,000 sq.m.—Population: 2,795,000.

l. The United States of Columbia (New Granada) are situated in the north-west of South America. They are bounded on the north by the Caribbean Sea, and west by the Pacific Ocean.

2. The western part is very mountainous; the principal chain is the Andes which traverses it from north to south

3. On account of the numerous ravines and mountains defiles, traveling is greatly impeded, the only means of conveyance in the mountain region is a kind of basket-chair, carried by the Indians

4. The *climate* is hot and unhealthy, except on the elevated table-land.

5. This country is watered by the Magdalena, the Cauca, its affluent, and by several branches of the Orinoco and Amazon rivers.

6 The soil of the low lands produces sugar, coffee, cotton, and tropical fruits, the elevated regions, grains and fruits of temperate climates

7 Bogota, population 45,000, the capital, is situated near the centre about 8,500 ft. above the

level of the sea. Carthagena is the chief scaport and the naval arsenal of the republic

1º VENEZUELA.

Area: 410,000 sq. m.—Population. 1,565,000.

I Venezuela is situated at the east of the United States of Columbia; it consists of vast plains, watered by the *Orinoco* and its branches.

2. Nearly one-third of the country is covered with mountains, the principal of which are the Parime, or Eastern Andes, which extend along the south

3 Its soil and climate are nearly the same as those of Columbia. All the tropical fruits grow here luxuriantly

4. The cocoa of Venezuela is the best in the world

5 Caracas, population 47,000, the capital, is situated on an elevated plain. It was nearly destroyed by an earthquake in 1812, but has since been rebuilt. La Guayra is the chief seaport.

2º ECUADOR.

Area: 208,000 sq. m — Population 1,040,000

1. Ecuador is situated south of Columbia and north of Peru.

2. It contains some of the most elevated peaks in the Andes, many of which are volcanoes; Catopaxi and Chimborazo are the most remarkable.

3. Its climate, soil, and products are similar to those of Columbia. The celebrated Peruvian Bark from which Quinine is made, is found here plentiful.

4. Quito, population 76,000, the capital, lies nearly under the Equator, on the slope of the volcano of *Pichincha*, at an elevation of 9,000 ft. above the sea. Guayaquil is the chief seaport.

3. GUIANA.

1. Guiana is situated south-east of Venezuela, and north of Brazil. Along the coast the land is low, flat, unhealthy, and subject to mundations

5,880,000.
vision of the control of to the control of the control

s which contain noes.

region tracts), inoco; part of prairies

cludes egroes. ls and ndians In the south the surface is mountainous, and the climate more healthy. The interior is inhabited by Indians.

2. Guiana is divided into three parts, viz: Dutch Guiana, capital *Paramaribo*, population 22,000; British Guiana, capital *Georgetown*, pop 30,000; and French Guiana, capital *Cayenne*, population 5,000

3. The *soit* is exceedingly fertile; it produces coffee, sugar, cocoa, cotton, Indian corn, indigo, and tropical fruits.

LESSON XXXVI.

BRAZIL.

Area: 2,724,000 sq. m.—Population, 10,045,000.

1. Brazil is a large empire in the centre and eastern part of South America.

 It is noted particularly for its vast plains called Silvas, covered with dense forests. The eastern part is traversed by the Brazilian Mountains.

3. Its *elimate* is mild and generally healthy.

4 The Amazon, called the "King of Rivers," and its numerous tributaries fertilize the country.

5. Two-thirds of the population are Whites of Portuguese origin; the remainder includes negroes, mulattoes, and about half a million of uncivilized Indians.

6 The *language* is a mixture of Portuguese and French. The Roman Cotholic religion prevails

7 Its soil, remarkable for its fertility, produces coffee, sugar, manioc, wheat, Indian corn, cotton, tobacco, rice, and fruits—Brazil produces more coffee than any other country.

8 On the grassy plains immense herds of horses and horned cattle roam about; they form one of the principal sources of wealth for the country

9. There are many mmes of gold and silver. Diamonds and rubies are found in greater abundance than in any other part of the world.

10. Manufactories are yet in their infancy, but commerce is very extensive.

11 Reo Janeuro, population 420,000, the captal, is the largest city in South America and the

principal seat of foreign trade in the empire.— Bahia, the second city in extent, has a fine harbor.

CULTURE OF COFFEE,

LESSON XXXVII.

PERU.

Area: 540,000 sq m.—Population, 3;500,000.

1. Peru is situated south of Ecuador and west of Brazil and Bolivia.

2. The central region is an elevated table land about 12,000 feet above the level of the sea; its climate is mild and agreeable.

3. On the coast, which is very sandy, it is uniformly hot, and no rain ever falls, though the dews are very dense and of frequent occurrence; east of the mountains the rainy season lasts one-half of the year.

4. Peru was the most civilized country of South America, when it was discovered by the Spaniards under Pizarro In order to extort gold from the Inca (king) and his people, Pizarro and his adventurers had recourse to the most unheard of cruelties.

5. Its chief products are cotton, sugar, Indian corn, tobacco, Peruvian-bark, and fruits.

Lima, population 121,000, the capital, and largest city, is built on a small river, flowing into the Pacific and about six miles from its mouth. It was destroyed several times by earthquakes.—Callao, is the chief scaport.

LESSON XXXVIII.

BOLIVIA.

Area: 480,000 sq. m.—Population, 1,987,000.

- 1 Bolivia, (1) formerly called Upper Peru, is situated between Brazil and Peru.
- 2 It is mountainous in the west; in the east are extensive plains; the centre is a vast and elevated plain, cold, but in certain places very fertile
- 3. It is watered by the Madeira and its affluents, tributaries of the Amazon
- 4. The people inhabit the valley of the Andes which is fertile and salubrious.
- 5. All the grains and fruits of the temperate zone are produced. There were formerly very rich mines of silver, in Bolivia, but little of that precious metal is now found.

Chuquisaca, or Sucre, population 24,000, the capital, is built on a table-land about 9,500 feet above the level of the sea.—La Paz, population 76,000, is the chief city.

LESSON XXXIX.

CHILI.

Area . 260,000 sq m.—Population, 2,146,000

- 1 Chili is a long narrow tract of country lying between the Pacific coast and the Andes
- 2. The *Andes* contain many volcanoes which cause frequent and violent earthquakes that often destroy whole cities.
- 3 Its *climate* is salubrious and temperate the *soil* is very fertile, except in the north where rain seldom falls.
- (i) The name Bolivia was given to this vast country in honor of Bolivar, its deliverer.

- 1. Its products are hemp, wheat, Indian corn, potatoes, barley, fruits, wine, and oil. Its minerals are gold, silver, iron, copper, tin and mercury
- 5. Off the coast of Chili are situated the Juan Fernandez Islands, on one of which Alexander Selkirk lived for many years, and gave rise to the story of Robinson Crusoe
- 6. Santiago. 115,000, the capital, is situated on a very high plain.—Valparaiso (vale of Paradise), population 70,000, is the chief scaport on that side of the Pacific.

LESSON XL.

ARGENTINE CONFEDERATION, OR LA PLATA.

Area. 880,000 sq m.—Population, 1,737,000.

- I. The Argentine Confederation, known formerly under the name of *La Plata*, lies south of Bolivia and east of Chili. It is almost entirely covered with plains called *pampas*, which afford pasturage to a multitude of wild horses and cattle. In the north lies the desert of Gran Chaco.
- 2. Its *climate* is generally healthy and temperate.
- 3. This country is watered by the *Parana*, the *Paraguay*, and their affluents, and by many other rivers which flow, for the most part, into lakes without outlets.
- 4 The western part is fertile and produces sugar, cotton, grapes, tobacco, wheat and other grains, but raising cattle is the principal source of wealth.
- 5. The commerce with Chili is very active; merchandize is carried across the Andes, by means of mules.
- 6. Bucnos Ayres, population 200,000, situated on the south-west side of the Rio de la Plata, is the most flourishing cit...Rosario, population 20,000, on the Parana, is the capital.

LESSON XLI.

I. PARAGUAY.

Area: 74,000 sq. m.—Population, 1,337,000.

- I Paraguay is a small country situated south of Brazil, its surface rises gradually towards the centre.
- 5 Its climate is mild and healthy, and its soil fertile; its chief products are grain, rice, cotton, tobacco, sugar, and Ferbu Mate, or Paraguay tea. The raising of cattle is the chief pursuit.

Asuncion or Assumption, population, 15,000, the capital, lies on the left bank of the Paraguay

2. URUGUAY.

Area: 70,000 sq. m.—Population, 387,000

- 1. Uruguay is the smallest state of South America; it is situated between the Argentine Confederation and the Atlantic Ocean.
- 2 Its *climate* is temperate and its *soil* fertile. There are several mountain chains in the north 3. It is watered by the Uruguay river and its

affluents.

4. The cattle and horses which roam over the plains, form the chief wealth of the inhabitants

5 Montevideo, population, 126,000 on the Rio de la Plata, is the capital—Muldonado, is the chief seapert.

3. FATAGONIA.

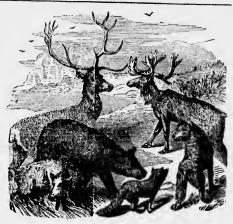

Area: 280,000 sq. m.—Population, 120,000.

1. Patagonia is a cold barren region in he southern part of of South America; it is inhabited by Indians who live by hunting and fishing

2. South of Patagonia is situated the island of Tierra del Fuego, (Land of Fire) so called from its volcanoes, it is separated from the mainland by the strait of Magellan (discovered in 1520).

3 South of Tierra del Fuego is Cape Horn, the passage of which is very difficult on account of the winds and currents.

4. East of Patagonia are the Falkland Islands, which belong to England

ANIMALS OF EUROPE

LESSON XLII.

EUROPE.

Area: 3,764,388 sq m.—Population, 296,043,000.

- 1 Europe, one of the five great divisions of the Globe, forms a part of the Old World; although it is the smallest of the five great divisions it is comparatively the most populous
- 2. It is traversed by many mountain *chains*, the principal of which are the Alps; Mount Blanc, 16,000 feet high, is the culminating point.
- 3 Its climate varies considerably; in the north and east it is cold and severe; in the west and centre, mild and agreeable; below the 45° of latitude, perpetual summer generally prevails
- 4. Among the many rivers which water this part of the world, may be mentioned the Volga, the longest river in Europe, the Rhine, and the Danube
- 5. Christianity prevails throughout Europe, except in Turkey where Mahor etanism still exists The religion of Russia and Greece is the schismatic Greek. Catholic. In the north Protestantisme prevails, in the south, Catholicity

6. The European *governments* are principally monarchies; the most part are mild, but some are very oppressive.

7. Europe possesses a great number of institutions which disseminate *education* among the people; the arts and sciences are much attended to.

8. In the south the vine is cultivated to a high degree of perfection, and the lemon, orange, olive, fig, and other tropical fruits are produced All sorts of grain and fruits, for the use of man and beast, are raised in abundance

9. Europe is remarkable for its civilization, commerce, industry, and its magnificent cities which contain numberless works of art and science.

10. The principal cities are London, Paris, Vienna, St. Petersburg, Rome, etc. They are magnificently built and ornamented

LONDON.

LESSON XLIII.

GREAT BRITAIN.

Area. 122,550 sq. m.—Population, 31,817,000.

This great division including England, Scotland, and Wales, together with Ireland forms what is called "The United Kingdom of Great Britain and Ireland." They are also known as the British Isles. Its colonial possessions are found in every quarter of the globe.

1. ENGLAND.

Area. 53,320 sq. m.—Population, 21,487,688.

1 England is the most important division of Great Britain; it is separated from France by the English Channet, and from Ireland by St. George's Channel and the Irish Sea.

2 In the north and west, the surface is undulating.

3. Its *climate* is mild and humid. The principal *rivers* are the Thames in the east, and the Severn in the west.

4. The Anglican is the established religion, about one-third of the inhabitants are Catholics.

5. Its soil is fertile, and agriculture is carried to the highest degree of perfection; the chief products are wheat, barley, oats, potatoes, &c. It is also remarkable for its abundance of useful minerals.

6. England is eminently industrious and commercial; it is noted for its *commerce*, the number and variety of its manufactures, and for the number of its ships which cover the seas and fill every port.

7. There are few countries, that contain in

rope, ll exthe Proty proportion as many railroads as England.

8. London, on the Thames, population 3,883,000, is the capital and the most densely peopled city of the globe; it contains many superb buildings, the most celebrated are St. Paul's Cathedral and Westminster Abbey.

9. The other principal cities are *Liverpool*, population 500,000, the second most commercial city of the world; *Manchester*, population 356,000; *Birmingham*, population 344,000; *Leeds*, population 259,000; *Sheffield*, population 340,000, all manufacturing cities; *Bristol*. population 183,000, is the chief seaport.

2. SCOTLAND.

Area, (comprising the adjacent islands): 31,324 sq. m.—Population, 3,358,613.

I Scotland, formerly called *Caledonia*, is situated north of England from which it is separated by the Cheviot Hills; it is divided into two parts, the Highlands in the north, and the Lowlands in the south.

2. The Highlands are cold and mountainous, but they contain many picturesque sites, the Lowlands are level and well cultivated.

3. The principal products are those arising from agriculture; there are several coal and iron mines. Its fisheries are very important.

4. Edinburgh, population 197,000, the capital, is remarkable for its castle and aucient royal palace (Holyrood).—Glasgow, population 477,000, is the city most important for population and manufactures.—Dundee, population 119,000.

3º IRELAND.

Area, about 33,000 sq. m.—Population, 5,402,759.

1 Ireland, is an island situated west of England; from its constant verdure it is called the Emerald Isle.

2. Except a few mountains near the coast, Ireland consists of a vast plain covered with prairies and peat-hogs.

3. Its climate is very humid, its soil is fertile and produces wheat, oats, barley, flax, and the

best of "Potatoes," which last constitute the principal food of the peasantry.

4. A great number of Irish emigrate every year to America. The greater part of the inhabitants are Catholics.

5. Dublin, population 246,000,the capital, is built on the Liffey, its many magnificent edifices rank among the first of Europe. — Belfast, population 174,000, and Cork, population 79,000, are the chief seaports.

LESSON XLIV.

DENMARK

Area: 15,900 sq. m.—Population, 1,900,000.

1. Denmark consists of the Danish Archipelago and the peninsula of Jutland; it is situated south of Norway and Sweden from which it is separated by a part of the Baltic Sea, which bears the names Skager Ruck and Cattegat.

3. Their climate is cold but salubrious. In the north vegetation is very rapid in summer, which lasts only three months.

4. Their government is a constitutional monarchy; each country has its own legislature and laws. Protestantism prevails.

5 South of the *Lofoden* Islands is a very dangerous whirlpool much dreaded by mariners.

6. Sweden is remarkable for its iron mines which are said to be the best in the world. The other products are agricultural.

Stockholm, population 135,000, is the capital, of Sweden.—Christiania, population 70,000, capital of Norway.

LESSON XLVI.

RUSSIA IN EUROPE.

Area: 2,095,000 sq. m.—Population, 68,390,000.

- 1. Russia in Europe occupies the eastern part of Europe and includes almost half the continent.
- 2. Its surface consists of low plains. The principal rivers are the Volga, the largest river of Europe, the Don, and the Dnieper.
- 3. Russia is separated from Asia by the Ural mountains; in the south the *Caucasus* and the Black Sea separate it from Turkey in Asia.
- 4. Its climate, in the north-east is very rigorous, but in the south it is more temperate. The central part produces wheat, barley, rice, hemp, flax, and tobacco. There are several mines of iron, copper and platina. The platina mines of the Ural Mts. are the richest in the world.
- 5. The government is an absolute monarchy The religion, of which the Czar is the head, is the schismatic Greek.
- 6. St. Petersburg, population 667,000, the capital, is a magnificent city; it was founded by Peter the Great.—Moscow, population 368,000, the ancient capital, is the most remarkable city; it

was burnt by the inhabitants in 1812 at the approach of Napoleon I.—Warsaw, population 255, 000, on the Vistula, is the capital of Poland.

LESSON XLVII.

FRANCE.

Area: 198,000 sq. m.—Population, 36,592,000.

1. France is separated from England by the English Channel, from Spain by the Pyrenees, and from Italy by the Alps. In the south and east it is mountainous; the rest forms a part of the great northern plains.

NOTRE-DAME, OF PARIS.

2. The four principal rivers of France are the Seine, the Rhone, the Gironde, and the Loire.

3. France, before 1790, was a kingdom but since that time it has successively been a republic, an empire, a kingdom, and is, at the present time (1876) a republic. The French are for the most part Roman Catholics.

4. The *climate* of France is mild and healthy; the *soil* is very fertile; it yields, in abundance, all the fruits and products of the temperate zone; in the south, wine, oil and silk; in the north

wheat and all other grains. There is also a great quantity of beet-sugar made.

5. Paris, population 1,825,000, the capital, built on the Seine, is one of the fluest cities of Europe; it contains many superb churches, magnificent monuments, splendid galleries of art, and libraries, not surpassed by any others in the world. The National Library contains over 700,000 volumes & 80,000 manuscripts.

6. Lyous, population 824,000, on the Rhone, is noted for its silk manufactures.—Marseilles, pop. 300,000 is the oldesticity of France: it was built by the Greeks 600 years before Christ.—Bordcaux, pop 194,000, is famous for its wines.

AMSTERDAM

LESSON XLVIII

BELGIUM.

Area: 11,313 sq m.—Population, 500,000

1. Belgium is a small kingdom situated N E. of France; it is the most densely populated country of Europe in proportion to its size. The coast is very low, the centre undulating and the south mountainous

2. Its government is a constitutional monarchy. Catholicity prevails.

3. Its climate is cool and moist. Agriculture is carried to a high degree of perfection; grain, hemp, flax, hops, chicory, clover and tobacco, are raised in abundance. Iron and coal are also found.

4. Among the manufactures, the principal are its lace and carpets, which are known all over the world under the names of Brussels lace and Brussels carpet

5. Belgium was the theatre of many bloody battles; the most famous is that of Waterloo, in 1815, which decided the fate of Napoleon I

6. Brussels, pop 314,000, is the capital.— Antwerp, pop 127,000.—Ghent, pop 121,000, and Liege, pop 106,000, are the other principal cities.

LESSON XLIX

HOLLAND.

Area: 13,890 sq. m.—Population, 3,700,000.

1. Holland is a small kingdom N of Belgium. The sea-coast is so low that dikes are necessary to prevent a total inundation.

2. The country is watered by the Rhine, and the Meuse, which form a great number of islands at their mouths.

3. Its government is a constitutional monarchy The Presbyterian religion prevails, but there is a great number of Catholics and Jews.

4 Its climate is humid and disagreeable, its soil, naturally sterile, has been rendered fertile by the industry of the inhabitants, the products are the same as those of Belgium.

5 Foreign *commerce*, especially with the East Indies, is very active.

6. Hague, pop. 93,000 is the capital—Amsterdam, pop. 282,000, the ancient capital, is the principal city.—Rotterdam, pop. 123,000, and Utrecht, pop. 61,000, are also fine cities.

LESSON L.

GERMANY.

Area: (Prussia included). 210,785 sq m.—Poputation, 40,110,000

1 The German Empire is a vast country of Central Europe extending from Beigium and the North Sea to Austria—in the north the surface is level, but in the south it is mountainous About one-third of the surface is covered with forests.

2. This empire is divided into several small states, the principal of which are Prussia, Bavaria, Wurtemberg, Baden, and Saxony, the king of Prussia is emperor of Germany since 1870

3 Germany is the birthplace of the protestant religion which predominates in the N of the empire while Catholicity prevails in the south.

4 The principal rivers which water Germany are the Rhine, the Weser, the Elbe, the Oder, and the Vistula,

5. Its climate is generally cold, becoming gradually colder and more humid towards the north. Its soil is fertile and well cultivated, it produces all sorts of grain in abundance. The vine is cultivated in the south, there are also mines of gold, silver, and other metals.

6. Foreign commerce is limited, but internal trade is carried on activery. The highways are good, and railroads are numerous. Instruction is more spread in Germany than in any other country of the globe

7. The principal cities are, Hamburg, pop-225,000, a free city; Munich, pop-171,000, capital of Bavaria; Dresden, pop-156,000 capital of Saxony

LESSON L1

PRUSSIA.

Area: 136,000 sq m.—Population, 24,040,000

1. Prussia occupies the central part of Europe, it extends from Russia on the east, to Holland on the west, and from the Baltic on the north, to Austria on the south

2. It is watered by the Elbe, the Oder, and the Vistula.

3 Its government is a limited monarchy—The majority of the population are Protestants; but there is a great number of Catholics

4 Its climate is very agreeable. Its fertile soil produces grain, flax, hemp, tobacco, and beet, which last is cultivated for the manufacture of sugar. Prussia is also noted for its iron and copper nunes.

5 Berlin, pop. 702,000, the capital, is a magnificent city. The other great cities are Breslau, pop. 172,000.—Cotogne, pop. 125,000, possesses the finest ogivale cathedral that exists, and Aix-la-Chapetle, pop. 68,000, ancient capital of the empire of Guariemagne

LESSON LII.

AUSTRIA.

Area: 240,000 sq m.—Population, 36,000,000 1 Austria is an empire of central Europe it comprises the kingdom of Hungary, the provinces of Bohemia, Galicia, Dalmatia and others. Its surface is mountainous except in Hungary and Bohemia.

0. Bels are

its rtile lucts

East

sterthe and

- 2 It is watered by the Danube, and several of its affluents.
- 3 The government of Austria is a constitutional monarchy; that of Hungary is administered separately from the rest of the state. The majority of the population are Roman Catholics.
- 4 Its chmate is cool and clear in the north, but moist and warm in the plants. Its soil is generally fertile and produces grain, in abundance; wine, silk, and oil are also important articles of commerce. The mines of gold, silver, mercury, iron, and copper are very rich.
- 5 Vienna, pop 825,000, the capital, is situated on the Danube.—Pesth, pop 202,000, capital of Hungary—Trieste, pop. 120,000 on the Adriatic Sea is the chief scaport

LESSON LII

SWITZERLAND

Area: 15,250 sq. m.—Population, 2,510,000

- 1 Switzerland is situated between Austria and France; it is very mountainous and presents some very sublime and picturesque scenes
- 2. The mountains are covered with large fields of ice called glaciers; from time to time enormous masses detach themselves, and precipitously fall to the bottom of the valleys, bringing everything with them in their passage, destroying entire villages.
- 3. The largest expanse of water is Lake Geneva, which is traversed by the Rhone. The north and north-easiern part of the country is watered by the Rhine and its affluent the Aar.
- 4. Switzerland is a federal republic and divided into a number of free states called *cantons*, the people are industrious and attached to their country
- 5. Its climate varies with the elevation The country, though mountainous, is fertile in many places, it produces the fruits and grains of ordinary temperate climates. The principal occupation of the inhabitants is the raising of cattle

6. Geneva, pop. 49,000, situated on Lake Geneva, is the most remarkable city in the history of the country.—Basle, pop. 38,000—Berne, pop. 29,000, is the capital since 1848

LESSON LIII.

SPAIN

- Area. 177,000 sq. m -Population, 16,732,000.
- 1 Spain, the most southern part of Europe, is situated south-west of France, from which it is separated by the Pyrenees. The surface is irregular; the interior consists of vast table-lands and mountains
- 2 Its principal rivers are the Ebro, the Guadalquiver, the Guadiana, the Tagus and the Douro.
- 3 At the present time (1876), there is no government permanently established. 'Ine Spaniards profess the Catholic religion, which was for a long time the only one tolerated in the kingdom; but, at present, all denominations are permitted
- 4 Its climate, temperate on the coast, is subject to excessive heat and cold on the table-lands. Its soil is good and fruitful, but agriculture and commerce are much neglected.
- 5. Madrid pop. 317,000, situated on one of the branches of the Tagus, is the most elevated capital of Europe.—Barcelona, pop. 250,000, is the principal commercial port.—Seville, pop. 152,000—Valencia, pop. 146,000, surnamed the Beautifut, are time cities.—Granada and Cordova are remarkable for their ruins of Moorish att.

LESSON LIV.

Ca

PORTUGAL

- Area: 34,500 sq. m.—Population, 3,830,000.
- 1 Portugal is situated west of Spain. The natural features of this country greatly resemble those of Spain.
- 2. Its government is a constitutional monarchy. The Catholic religion prevails.
 - 3 Its climate is healthful, and its sail fertile.

The productions are similar to those of Spain. The wine of Oporto is one of the chief exports.

4. Portugal was formerly much renowned for its discoveries and *trade* with India; but of late years it has greatly fallen.

5. Lisbon, pop. 225,000, the capital, is built on the river Tagus, it was nearly destroyed by an earthquake in 1755.—Oporto, pop. 89,000, is the chief commercial port.

CATHEDRAL OF MILAN,

LESSON LVI.

ITALY.

Area: 116,000 sq. m.—Population, 26,254,000.

1. Italy is situated south of Austria and Switzerland. It consists of a peninsula in the shape of a boot, and lies between the Mediterraneau and Adriatic Seas.

2. Its surface is greatly diversified; the Alps occupy the north, and the Apennines traverse it in all its length.

3. The majority of the inhabitants are descendants of the ancient Romans, and profess the Catholic *religion*.

4. Its climate is very fine, but excessively warm. Its soil is generally very productive.

The Plains of Lombardy are the most fertile of Europe. The products of Italy are grains, rice, sugar, olives, grapes, oranges, figs, &c.

5. Italy is remarkable for its fine arts; music, painting and sculpture have flourished nero more than in any other country

6. Rome, pop. 240,000, is the capital of the Christian world and the residence of its head, Our Holy-Father the Pope.

7. Naples, pop. 419,000, capital of the kingdom of Naples.—Milan, pop. 196,000, capital of Lombardy, it has a magnificent cathedral.—Venice, pop. 114,000, capital of Venetia, is built on seventy-two small islands; communications between the different parts of the city is carried on by means of light boats called gondolas.

LESSON LVII.

TURKEY IN EUROPE AND GREECE.

· TURKEY

Area: 203,500 sq m.—Population, 16,437,000.

1 **Turkey** is a country south of Europe. It is an undulating region of hills and valleys, traversed by mountain ranges of considerable height.

2. It is watered by the Danube and its affluents.

3. Its government is despotic, the ruler is styled Grand-Seignior or Sultan; he is also head of the religion which is the Mahomedan.

4. Its climate is very severe in the north; the south is milder but very variable. Its soil is fertily, particularly in the valley of the Daniube, but addy cultivated; the products are maize and other grains, silk, cotton, rice, grapes, olives, &c.

5. Constantinople, pop. 1,075,000, the capital is built on the Bosphorus, or strait which unites the sea of Marmora with the Black Sea.

2º GREECE.

Area: 19,250 sq. m.—Population, 1,349,000.

- 1. Greece, is situated south of Europe; it consists of two peninsulas separated by the gulf of Lepanto.
- 2. Its government is a constitutional monarchy. The religion is the schismatic Greek.
- 3. Its climate is temperate but changeable. Its soil is fertile; it produces grain, fruits, the vine, and olives. Marble of an excellent quality is abundant.
- 4. Athens, pop. 48,000, the capital, is situated near the gulf of Egina; it is famous for its ruins and in ancient times for its fine arts and litterature.

ANIMALL OF ASIA

LESSON LVII.

ASIA.

Area: 15,196,000 sq. m. — Population, 629 - 329,000.

1. **Asia**, is the largest of the five divisions of the globe, it is noted for its mountains, its great rivers, its extensive table-lands, plains, and deserts.

- 2. It is particularly remarkable, as having been the cradle of the human race, and of the Christian Religion.
- 3. Its population, which exceeds half the population of the world, is composed of three classes, viz: The Caucasian, which occupies the west; the Mongolian and the Malay, which occupy the centre and the east.
- 4. The people are oppressed by their governments which are, for the most part, despotic. Asia is the seat of all religions; the greater part of the population are idolaters; many profess Mahometanism. The Catholics are not numerous.

- 5. Some of the principal animals are the elephant, rhinoceros, lion, tiger, camel, and jackal. Among the birds may be mentioned the peacock, pheasant, and crane.
- 6. Asia, on account of its large extent, possesses almost every sort of climate and a great variety of minerals and vegetable productions; gold and diamonds are abundant, and on the coast the pearl fisheries are carried on by persons called pearl-divers.

LESSON LVIII.

SIBERIA.

- Area: 5,249,000 sq. m.—Population, 8,329,000.
 1. Siberia occupies all the north of Asia. It consists of a vast dreary plain, and belongs to Russia.
- 2. In the north the *climate* is extremely cold and the ground freezes to a very great depth; the valleys, near the south are fertile, but badly cultivated.
- 3. Gold, silver, and platinum are found in the Altai and the Ural mountains; but the chief articles of commercial are furs, principally those of the sable and ern ine.
- 4. Siberia is used by Russia, as a place of banishment, for political offences; it is regarded as a great punishment to be transported thither.
- 5. Irkutsk, population 28,000, in the south, is an agreeable place of residence.—Tobolsk, popula-

tion, 17,000, in the west, is the chief commercial emporium $\,$

LESSON LIX

CHINESE EMPIRE.

Area: 4,088,000 sq. m.—Pop. 369,000,000

1 The Chinese Émpire comprises China, Mongolia, Mantchooria, Thibet, and Tartary; these provinces are little known.

2. The principal mountain chains are the Altai and the Himalaya, containing Mount Everest, the highest point on the globe. The Hoang-Ho and Yang-tse-Kiang are the principal rivers.

3. The government of China is absolute, but possesses a patriarchal character. Buddhism is the dominating religion, while the doctrine of Confucius is followed by the emperor and the learned.

4. Its climate, in the north, is colder than that of Europe in the same latitude; in the centre it is temperate, and in the south pretty warm—Its soil is well watered, fertile, and highly cultivated.

5. Tea is the chief *products*. Rice and other grains, sugar, cotton, tobacco, and indigo are also raised.

6. Among the curiosities of China, may be mentioned the *Great Wall*, which is 1,500 miles tong; it was built to protect the country from the Tartars

7. Pekin, population 1,800,000, the capital, is one of the largest cities of the world.—Canton, population 1,000,000 and Shanghai, population 200,000 are the chief seaports.

Lesson LX. JAPAN.

Area: 260,000 sq m.—Population, 35,000,000.

1. Japan, situated east of China, is composed of many islands, the principal of which are Niphon and Yesso.

2. The mountains are elevated and contain many active volcanoes. The rivers are numerous but inconsiderable.

WATER SPOUT.

3. Its government is an absolute monarchy; the emperor is called *Mikado* The prevailing religion is Buddhism.

4. Its climate is changeable, and in the north very cold. Its soil is sterile but carefully cultivated; it produces rice, wheat, barley, tea, cotton, and silk. The camphor and varnish trees are native of Japan

5. The Japanese had no commerce with foreigners previous to the year 1854, but since that time their ports have been free and they have adopted many American and European in ventions.

6. Yedo, population 2,000,000, the capital, situated on Niphon Island, is one of the most populous cities in the world.— Yokohama is a new city and depot for the Europeans.

LESSON LX1

INDIA.

Area: of Hindoostan, 1,250,600 sq. m.—Population, 130,000,000.

Area: of Farther India, 920,000 sq. m — Population, 42,000,000.

is la1. India comprises two large peninsulas south of Asia; Hindoostan and Farther India also called Indo-China and India beyond the Ganges.

2. The principal mountain chains are the Eastern and Western Ghants and the Himalayas. The Ganges, Indus, and Cambodia are the largest rivers.

3. The greater part of India belongs to England. The other petty states are governed by despots. Nearly all the inhabitants are idolaters.

4. Its climate is excessively warm, except in the mountain regions, which are temperate. The chief products are rice, cotton, indigo, sugar, silk, &c. Diamonds are found in the mountain defiles.

5. India is noted for the Banyan tree, whose branches grow downwards and take root again, so that one tree may produce a whole forest.

6. Calcutta, pop. 616,000, capital of Hindoostan.

—Hue, pop. 100,000, capital of Cochin China.

—Mandeley, capital of Birmah, and Bangkok capital of Cambodia are the chief cities

LESSON LXII.

TURKESTAN, AFGHANISTAN, AND BELOOCHISTAN.

Area: 1,200,000 sq. m.—Population, 12,000,000

1. Turkestan, or Independant Tartary, is situated W. of China. Most of the inhabitants are hunters or shepherds and lead a wandering life, however, a good number live in the cities.

—Bokhara, pop. 150,000, and Samarkand are the principal cities. The chief manufacture is silk Commerce is carried on by means of caravans.

2. Afghanistan and Beloochistan belonged formerly to Persia. The surface of Afghanistan is a succession of mountains, valleys, and high table-lands; while that of Beloochistan consists of rocky and sandy deserts.

3. The raising of cattle constitutes the wealth of the country

4. The government of both is despotic. The religion is Mohammedanism

Cabul, pop. 60,000, is the capital of Afghanistan and Kelat, pop. 15,000, that of Beloochistan.

LESSON LXIII.

PERSIA.

Area: 470,000 sq. m.—Population, 9,000,000

1. Persia is situated east of Turkey; it is diversified by clusters of hills and chains of mountains, with extensive salt and sandy deserts.

2. A great part of the inhabitants lead wandering lives and live in tents.

3 Its government is despotic, the sovereign is styled the *Shah*. The prevailing religion is Mahommedanism.

4. In the north, its climate is cool and moist; in the centre it is subject to extremes; and in the south hot and unhealthy. Its soil is fertile, produces wheat, rice, cotton, sugar, and different sorts of fruits.

5 Teheran, pop. 81,000, is the present capital.
—Ispahan was the ancient capital.

LESSON LXIV.

TURKEY IN ASIA.

Area: 669,000 sq m — Population, 16,400,000.

1 Turkey in Asia, formerly Asia Minor, Is a part of the Ottoman Empire and the most west ern country in Asia

2 Its population is composed of Jews, Greeks, Turks and Arabs

3 Its government and religion are the same as in Turkey in Europe.

4. This country presents a variety of climates. Its soil is fertile, but cultivation is neglected, the products are the fruits and grains of temperate climes, cotton, tobacco, and the poppy, or opium plants.

5. Palestine, or the Holy-Land, is the country which was the scene of nearly all the events, recorded in the Holy Scripture; Bethlehem, where Jesus Christ was born; Nazareth, where He lived, and Jerusalem, where He was put to death

the

is si sepa of A Suez are found here. The Dead Sea is situated in this country—It is supposed to cover the sites of the cities of Sodom and Gomorrha.

6. Smyrna, is the principal port. The ruins of Babylon and Ninive are of great interest; Tyre and Sidon, formerly renowned for their commerce, are, at present, only small villages.

LESSON LXV.

ARABIA.

Area: 1,200,000 sq. m.—Population, 8,000,000.

1. Arabia is a peninsula in south-western Asia; it is noted for its great deserts and its want of permanent rivers. Mount *Sinai* is situated at the head of the Red Sea,

2. The Arabs, descendants of Ishmael, are divided into families, or tribes. The inhabitants of the desert, called Bedouins, lead a roving life and live in tents. The Arabian horses are fine animals, they are treated by their masters as members of the family Camels are used as beasts of burden.

3. Its climate is hot and dry; rain is rarely seen except on the mountains. Its soil is fertile on the coast of the Red Sea, but the rest of the country is sterile—The products of Arabia are coffee, dates, indigo, spices, gum arabic, etc.

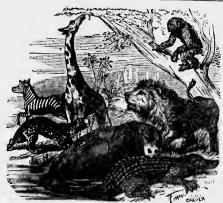

4. Muscat is a flourishing city.—Mecca is remarkable as having been the birth-place of Mahomet, it is the holy city and place of pilgrimage for the Mahommedans.

LESSON LXVI.

AFRICA.

Area: 10,936,000, sq. m.—Pop. 75,000,000.

t. Africa, is one of the five great divisions of the globe and forms a part of the Old World. It is situated south of Europe, from which it is separated by the Mediterranean, and south-west of Asia to which it is joined by the Isthmus of Suez. In the north is the Sahara desert, the largest of the globe.

ANIMALS OF AFRICA.

- 2. The states of Africa are generally of small extent; the governments are despote. The retigion, in the north is Mahommetanism, in the other parts idolatry
- 3. Owing to its burning *climate*, and its want of bays and navigable rivers, this country has never been wholly explored, and much of the interior is entirely unknown.
- 4 The north only is inhabited by whites, the other parts are peopled principally by the negroes
- 5. Its soil is little cultivated, but the natural products are various and luxurious. The principal are ivory, gold dust, found in the rivers, and ostrich feathers.
- 6. The vegetable productions are the gigantic baobab teak, acacia, mangrove, ebony, cocoanut, date, and ail palm.
- 7. The most remarkable animats are, the lion, rhinoceros, hippopotamus, giraffe, and elephant. More than sixty species of the antilopes have been discovered in Africa. Serpents are numerous in the forests and crocodiles in the rivers. Insects are exceedingly numerous, many of them, as the ant and locust, are very destructive.

LESSON LXVII.

BARBARY.

Area: 532,000 sq. m.-Population, 16,221,000.

1. Barbary is situated north of Africa bordering on the Atlantic and Mediterranean; it derives its name from the *Berbers*, the original inhabitants of the country, whose descendants still inhabit the Atlas Mounts, which traverse the whole country The States are Morocco, Algeria, Tunis, and Tripoli.

2. The Mocrs inhabit the towns and villages, the Arabs lead a wandering life. Those tribes were, for a long time, the terror of mariners, by

their piracies.

3. In the north its climate is excellent and the soil productive; all the grains and fruits of Europe are cultivated. The leather of Morocco, called morocco, is the principal article of trade.

4. The capital of each state bears the same name as the state. Barca and Fizzan belong to Tripoli. Algeria is a French colony since 1830

LESSON LXVIII.

EGYPT.

Area 180,000 sq. m.—Population, 5,214,000.

- 1 Egypt is situated on the Mediterranean in the north of Africa. Its primitive history is given in the Bible.
- 2. The country is rendered fertile by the annual overflow of the waters of the Nile.
- 3. Most of the inhabitants are of Arabic descent; the remainder are Copts, Turks, Greeks, Jews, etc.
- 4 This country subject to Turkey, is governed by a *Pasha*. The prevailing *religion* is Mohammedanism.
- 5. Its climate is extremely warm. Its soil produces rice, grain, cotton, sugar, indigo, tobacco, and the mulberry-tree.
- 6 Egypt is famous for its antiquities, the runns of which are found at the present day, the principal of which are the pyramids, obelisks,

colossal statues of men and animals, and magnificent temples.

7. Cairo, pop. 282,000, the capital, is built on the Nile.—Alexandria, pop 181,000, is the principal commercial town.—Thebes, contains many famous ruins.

LESSON LXIX.

NUBIA AND ABYSSINIA.

Area: of Nubia, 320,000 sq. m. — Population, 500,000; of Abyssmia 280,000 sq. m.—Population, 3,000,000.

1. These two countries are situated south of Egypt and are washed by the Red Sea, and by the Nile and its affluents.

2. Abyssinia is mountainous, but very fertile. Nubia consists of sandy deserts inbabited by Arabs, who rear great number of cattle, including sheep and goats.

3. Their governments are despotic.

- 4. The climate of Nubia is hot and dry, but healthy; that of Abyssimia is mild and agreeable. These countries produce barley, cotton, indigo, tobacco, coffee, &c., &c.
- 6. Khartoum is the capital of Nubia.—Gondar, that of Abyssinia.

LESSON LXX.

EASTERN AFRICA.

- 1. This division comprises a strip of country extending about 3,000 miles along the east coast of Africa. Very little is known of the interior of this region; the coast is generally flat, and in some places marshy.
- 2 The climate is hot and unhealthful; the soil, fertile.
- 3. Berbera, or the country of the Somolis, is S-E of Abyssinia. The capital is Berbera.
- 4. Zanguebar, is south of Berbera; a great commerce of gold, ivory, and slaves, is carried on; capital Zanzibar.
- 5. Mozambique, belongs to Portugal; capital Mozambique.

6. Caffraria is inhabited by savage tribes.—
Natal and parts of Caffraria are English colonies.

7. Madagascar is a large island S-E. of Africa, separated from terra firma or the main-land, by the Mozambique Channel. Tananarivo, is the capital. The islanders are called Malagachers, or Malgachers.

SOUTHERN AFRICA.

LESSON LXXI.

- 1. Southern Africa extends to the south of Ethiopia and comprises Cape Colony and many other districts; it is diversified with lofty mountains, elevated plains, and arid tracts of desert.
- 2. The inhabitants are composed of British settlers, Dutch farmers, Hottentots, and Caffres.
- 3. Orange river bounds it on the N. and the Snow mountains traverse it.
- 4. Its climate is temperate and agreeable, its soil fertile; the products are cotton, sugar, coffee, indigo, tobacco, etc.
- 5. Cape Colony belongs to England; it is an important place for the ships in the East India trade.
- 6. Cape-Town, is the capital, the inhabitants are nearly all English or Dutch.

LESSON LXXIII.

WESTERN AFRICA.

- 1. This region embraces many states, principally Guinea and Senegambia.
- 2. These countries are remarkable for great fertility and luxuriant vegetation. The greater part of the surface is undulating and mountainous. In Upper Guinea and Senegambia, it is low and swampy, to a considerable distance inland.
- 3. Senegambia, situated east of Scudan, derives its name from its great rivers Senegal and Gambia.

- 4. The inhabitants are principally Negroes who live in a savage condition under despotic governments. The Europeans are established along the coast.
- 5. Its *climate* on the coast is hot and unhealthy, especially to strangers; in the interior it is more salubrious.
- 6. Guinea extends from Senegambia to the river Nourse, and is divided into two parts Upper and Lower Guinea. The principal states of Upper Guinea are Ashantee and Dahomey. In lower Guinea are the Portuguese colonies of Congo, Angola, and Benguela.

LESSON LXXIV.

CENTRAL AFRICA.

- 1. **Soudan** is divided into a vast number of petty states only partially known, but differing widely in magnitude, population, and character. It is a highly fertile region with a diversified surface and a hot *climate*.
- 2. The inhabitants are principally Negroes, said to be more civilized than those of the West.
- 3. The Sahara, or Great Desert, is a vast tableland, covered with rocks, sand, and salt. Its sterility is due to the almost total absence of rain.
- 4. In some places in springs form sorts of little isles called *Oasis*; they are cultivated carefully and produce dates and a few other products.
- 5. Gum-arabic is obtained from the acacia tree; salt, from the mines, and ostrich feathers, are the chief articles of exportation.
- 6. The southern part has been visited by Dr. Livingstone who represents it to be a fertile plain.
- 7. The sources of the Nile have been recently discovered on the great plateau of Central Africa.

LESSON LXXV.

OCEANICA or OCEANIA.

Oceanica comprises all the islands of the Pacific Ocean, and is generally divided into three parts: Malaysia, Australasia, Polynesia.—
Area: 4,500,000 sq. m.—Population, 25,924,000.

ANIMALS OF OCEANIA.

LESSON LXXVI.

MALAYSIA.

Area: 760,000 sq. m.—Population, 23,000,000.

- 1. Malaysia lies wholly in the Torrid zone and comprises many islands, the principal of which are Borneo, Sumatra, Java, Celebes, the Philippine Islands, the Moluccas, or Spice Islands.
- 2. This division was called Malaysia, from the fact that the greater number of the inhabitants are Malays.
- 3. Its *climate* is hot but healthful except on the low coasts. The principal productions are sugar, camphor, pepper, nutmegs, &c.
- 4. The Banda Islands are given almost exclusively to the cultivation of nutmegs. The chief minerals are diamond, gold, and iron. When

under the influence of opium, the people are very cruel, they sometimes remain in the public ways and kill all they meet.

- 5. Batavia, on the Isle of Java, is the capital of the Dutch possessions.—Manilla, in the Philippine, is an important city.
- 6. The greater part of the inhabitants profess the Catholic religion; a considerable number are still pagans.

LESSON LXXVII.

AUSTRALASIA.

Area: 3,590,000 sq. m.—Population, 2,470,000.

- 1. Australasia comprises Australia, Papua, or New Guinea, New Zealand, and many of the adjacent islands.
- 2. Australia, on account of its immense size, is often called a continent. A few mountain ranges, of little elevation, line the coast; the interior is not much known and appears to be nothing but a vast sterile plain.
- 3. The natives belong to the tribes of Oriental negroes; they are very ignorant.

- 4. Its elimate, in general, is salubrious, there are very fertile plains on the south and east, but gold mining occupies the traders more than agriculture.
- 5. The remarkable animals are the orang outang, kangaroo, black swan, lyre-bird, &c.
- 6. Sydney, is the capital. Melbourne, is the gold region and capital of Victoria district.
- 7. Tasmania, or Van Diemen's Land, is an island south of Australia, the inhabitants rear a great number of sheep and other flocks.
- 8. New Zealand, consists of three islands, its surface is mountainous, its elimate, agreeable, and soil fertile. The forests abound in shiptimber.
- 9. Australia, Tasmania, and New Zealand belong to England.

MELBOURNE.

LESSON LXXVII.

POLYNESIA.

Area: -50,000 sq. m.—Population, 452,000.

1. Polynesia, "the region of many islands," comprises all the islands of the Pacific not included in the other two divisions; it is the largest part of Oceania.

- 2. Many of those islands are the work of little insects that form calcareous lodgings for themselves these are afterwards covered with sand and marine herbs, and in this manner become habitable.
- 3. The inhabitants of these islands are Malays, and European colonists.
- 4. The Sandwich Islands form the principal group and are the best known; they are in the line of commerce between North America and China, and are often visited by English and American vessels.
- 5. The Society Islands are remarkable for their beauty and fertility.
- 6. The *Caroline* Islands are an immense group of which we know very little, it is said their inhabitants are able navigators.
- 7. The inhabitants of the *Friendly* Islands are mild and affable although ferocious in appearance.
- 8. The Marquesas Islands, belong to France; their natives are said to be more finely formed than any other Polynesians; they are, however, very ferocious.

CLIMATE OF THE DOMINION OF CANADA.

The climate of Canada is nearly the same as that of Norway, Sweden and St. Petersburg. Both the heat of summer and the cold of winter are much greater than in the corresponding latitudes of Europe. The climate of Nova Scolia is extremely temperate, considering its western latitude. In Halifax and the eastern countries the mercury seldom rises in summer above 86° in the shade, and in winter it is not often down to zero. In the interior the winter is about the same, but the summer is considerably warmer. The climate of New Brunswick is subject to great extremes of heat and cold: the thermometer sometimes rising to 100° during the day and falling in the forest during the night of the same day to 50°. Still the climate is exceedingly healthy and favorable to agricultural operations. The climate of Prince Edward Island is much

milder than that of Nova Scotia or New Brunswick, and is remarkably salubrious. The winter is long and cold, but the summer is eminently fitted for the growth of ordinary cereals. Manitoba and the Saskatchewan country have the same summer temperature as the most favored parts of the St. Lawrence valley. The winter isothermal is that of Quebec. The climate of British Columbia varies according to the locality, owing principally to four causes; viz: greater or less distances from the vicinity of the mountain regions, difference in the nature and the quantity of the vegetable growth, and difference of level. The low portions near the sea and on Vancouver Island have a moderate climate with a general range of from 20° in swinter, 10 80° in summer.

COMMERCE. (1)

Commerce is the exchange of certain colonial commodities or merchandize. There are two sorts of commerce: foreign commerce, which is carried on between countries; inland commerce which is carried on in the same country. (Transit commerce is passage of goods through a state for which they are not destined.)

By exportation is meant the natural of manufactured productions that a country furnishes a foreign one, and *importations* is to bring from foreign countries those productions which we have not in our own.

Industry is the art by which man adapts to his own wants the productions of nature.

COMMERCE BETWEEN CONTINENTS.

Principal objects of exchange between the five continents of the World.

Relative Importance.—Europe, notwithstanding its small extent, but including the most active and intelligent population of the globe, produces a quantity of merchandise superior to any other continent, and it is a great source of commercial movement between all the parts of the world.

America, by its white population of European origin and rich natural productions, holds the second rank.

Asia, is the third in order, on account of its Chinese and Indian population who are very laborious.

Oceania, is the fourh in rank, by its Dutch and English colonies

Africa, on account of its unfavorable physical features and its thinly scattered population, barbarous and savage, holds the last rank.

Exchange takes place particularly between

England (for more than two-thirds), France, Germany, Belgium, Holland on the one part, and the United States, Canada, China, the Indies and Australia on the other

Exportation — Europe exports to foreign counties:

- 1° Its manufactured productions: cotton, wool, silk textures, ready made clothing, fancy wares, linen, furniture, &c, articles of jewelry: clocks works, musical and drawing instruments, objects of art and science and library requisites.
- 2° Alimentary substances: wines and spirits, refined sugar, flour, preserves, &c., &c.

America exports:

- 1° Furs, potash, pearlashes, fish, lumber and petroleum oil, from Canada.
- 2° Cotton, corn, flour, Indian corn, (1), tobacco, corned meat, gold, and petroleum (2) from the United States.
 - 3º Silver from Mexico.
- 4. Colonial commodities (3), Sugar coffee, cocoanut (4), India-rubber (5), dye-wood and cabinet wood from the Antilles and Brazil.
- 5° Wool, hides, dried meats from the Argentine pampas.
- 6° Gold, copper, guano (6) from Peru and Chili.
- $1.\ Indian\ corn$ is a gramineous plant of America, having large ears, and which forms the principal food in many countries.
- 2. Petroleum, or stone oil, is a substance resembling tar or bitumen, it is extracted particularly from coal bogs.
- 3. By colonial commodities is generally meant the vegetable productions coming from colonies.
- 4. Cocoa, from which chocolate is made, is the bean or grain of the cocoa-nut tree.

cu

ba

sm

an

- India-rubber or caoutchouc and gutta-percha are substances produced by the dessication of a milky juice extracted from several trees.
- 6. Guano is the excrement of sea birds which is found in considerable quantity on the coast of certain warm countries. It is an excellent manure.

⁽¹⁾ Among the powers of the world, says Mr. Walsh, an honorable place should be given to commerce; and when carried on with fidelity, it is, after religion, one of the best means of civilization. (Recollections and impressions of voyages.)

Asia furnishes:

1º Gold, silver, platina (1), diamonds, precious stones (2), and the furs of Siberia (3).

2º Tea (4), silk (5), silk-worms' eggs and the silk-goods from China and Japan.

3º Cotton (6), dyeing drugs (7), rice (8), spices (9), opium (10), ivory, carved wood, paper and porcelain from China, Japan and India.

4° Brass from Japan, pearls (11) from Ceylon, cashmere shawls (12), goats hair and musk (13), from Thibet.

5° Coffee (14), gum (15), meense (16), coral (17), from Arabia and Persia.

1 Platina is a metal of a dull white, it is rare and precious.

2. The precious stones employed in jewelry are: the diamond, topaz, emerald, &c.

3 Fur bearing animals live in cold countries, the principal are. the ermine, zibellina, martin, white fox, beaver, &c.

4. The lea-tree, is a shrub always green, whose leaves, when infused, give a stimulating beverage, much used in China, England and America.

5. Silk is a textile production of the silk-worm, which is a caterpillar of a species of butterfly; this caterpillar feeds on the leaves of the mulberry-tree.

6. Cotton is a flaky down which envelopes the seed of the cotton-tree, a herbaceous and arborescent plant found in warm countries.

7. Due druis or coloring substances, are particularly taken from plants; indigo leaves, sandal-wood, log-wood, Brazilian-wood and the root of the madder. Cochineal is produced by an insect.

8. Rice is the grain of a gramineous plant cultivated in damp soil and in warm countries; it forms the principal food in China and India.

9. The spices are pepper, the seed of the pepper-tree; nulmegs, the seed of the nulmeg-tree, cloves, the dried buds of the clove-tree; cinnamon, the bark of the cinnamon-tree; vanilla, the cod of the vanilla-tree.

10. Optum is a juice extracted from the head of the poppy, it is narcotic,
11. Peart is a substance produced in certain sea shells.

12 Cashmere shawls, like the French shawls which rival them, are made with the goats hair of Thibet. 13. Musk is an aromatic production furnished by the

musk-stag in India.

14. Coffee is the stone of the coffee-tree fruit, a shrub cultivated particularly in Brazil and the Indies.

15. Gum is the viscous substance which comes from the bark of certain trees.

16. Incense is a species of resinous and odoriferous gum.
17. Red coral is a calcareous substance produced by small marine animals called polypes. In the warm seas of Oceania a multitude of reefs, sub-marine coral island and islets are likewise formed by polypus.

6° Figs, raisins, carpets from Smyrna, Damascus sword blades, tobacco, olives (18), leeches from Turkey in Asia, sponges (19) from the coast of Syria.

Africa furnishes:

- 1º Marble, iron, and the early fruits of Algeria.
 - 2° Cocoa-nuts (20) and Madeira wines.
 - 3º Palm-oil (21), earth-nuts (22) from Senegal
- 4° Ostrich feathers, ivory (23), and dates (24), from Sahara and Soudan.
 - 5. Cotton, corn and gum from Egypt.
 - 6° Wool and hides from Cape Colony.
- 7. Sugar (25), coffee, and vanilla from the Bourbon and Mauritius Islands

Oceania furnishes:

- 1. Gold, copper, cattle, wool, and flour from Australia and other English colonies.
- 2º Colonial commodities: coffee, sugar, indigo, and spices from Java and the Moluccas (Dutch possessions); pewter from Branca, and cigars from Manilla
- 18. The olive-tree is a small tree the fruit of which is pulpy, it contains a stone, and gives olive-oil.
- 19. Spunge is a very porous substance , it is produced by small marine animals.
- 20. Cocoa-nuts are large fruits with shells, milky, produced by the palm-cocoa-tree.
- 21. The palm is a tree with a simple strait trunk terminated by a cluster of long leaves, it produces wine, palmoil, fruits : dates and cocoas,
- 22. The earth-nut is a creeping plant the seeds of which
 - 23. Ivory is the substance of the elephant's tusks
- 24. Dates are the juicy fruit of a kind of palm-tree
- 25. The sugar-cane, a tall kind of reed, is a gramineous plant cultivated in worm countries and in damp soil It produces a sweet liquor, from which sugar, syrup and rum are made In Europe sugar is obtained from the

REMARKS.

1. Comparative statistics of the commerce of several American states, taking Canada as the basis, and supposing it to be of \$1,000; we shall have: the United States, 4,500; Mexico 250; Central America, 90; Antilles 1,000, Ecuador, 35; Peru, 250. Bolivia, 50; Chill, 220; La Plata, 250; Paraguay, 20; Uruguay, 80.

2. The production of coffee on the globe is about 5,000,000 bags of 200 pounds each, the half of which is furnished by Brazil; the other countries which produce it, are Java, Ceylon, Hayti, and other Antilles, Mauritius, Bourbon, Arabia, Abyssinia, &c.

3. Production of sugar in 1866.—Cane-sugar: Cuba, 1,000 millions of pounds; English Antilles, 360 m.; French Antilles and Bourbon, 260 m.; Java, 260 m.; Brazil, 240 m.; United States and others, 400 m.—Beet sugar: France, 360 m.; Germany, 360 m.; Austria, 120 m.; Belgium, 50

m.; others, 200 m.—Total, about 4,000,000 pounds of which Cuba alono produces one-fourth. Canada produces 18,000,000 of pounds of maple sugar.

4. Tea—China exports 160,000,000 pounds of tea, which it sells about 10 cents per pound, and which is sold at London 40 cents. The English consume one-half of it, the Americans one-fourth, and the other fourth by the rest of Europe.

1 0 R K (9/11

- 1. How is this Province bounded on the south-east? N.B., Me. | 16. Name the first four counties lying west of the St. Maurice.
 - 2. What states south? V., N-Y.
- 3. What large river crosses the Province from south-east to 17. Which counties border on the St. Lawrence, from Joliette
 - 4. Into how many counties is the Province of Quebec 18. divided ?-(61)-Point the Richelieu river? (73 L)
 - 5. Point out the counties bordering on the left bank of the Richelieu. Ru., Vs., Cy., St.J.
- between the state of New York and the Richelieu River. 6. Point out the counties bordering on the St. Lawrence Hn., Bs., L.P., Cy., Vs., Ru.
 - Which counties in the same section, neither border on the St. Lawrence nor on the Richelieu? Cy., Ne.
 - 8. Point out the St. Francis River. (721)—Which counties
- are drained by this river? Be, We, Gn, Se, Rd., Dd., Ia. 9. What counties border on the right bank of the Richelieu ? Ru., S-II., Re., Ie., Mi.
- the Richelieu, but bordering on neither of these rivers. 35. 10 Point out the counties lying between the St. Francis and
 - drained by this river? Cn., Be., Dr., Ls.
- between Yamaska and Levis. Nu., Le.—Those which were Point out the counties bordering on the St. Lawrence not yet named, between the St. Francis and Chaudiere?
- Name the remaining counties bordering on the St. Law- 29. Point out Lake St. John.-Name the three rivers which rence from the Chaudiere to the gulf. Be., My., Lt. Ka.,
- Which county on the north bank of the St. Lawrence is opposite Rimonski? Sy. 14.
- Point out the rivers Saguenay and St. Maurice.-Which 15

- St-M., Me., Br., Je.-Poir: out the Ottawa River.
 - to the mouth of the Ottawa River? Mm, L.A., & Te., T.M.
- Name those which are situated on the Ottawa River. Al., 0a, Pc.—The two lying between the St. Lawrence and the Ottawa. 17., Ss.
- Point out the Islands of Montreal and Jesus .- Which counties on these two islands? Ha., J-C., Ll.
- 21. Point out the following cities: Montreal, Three Rivers, What is the capital of the Province of Quebec ? Qc. . 20. 30.
 - Point out the county in which your school is situated .--St. Hyaciuthe, Sorel.
 - Which counties lie North ?-East ?-South ?...... Which is chief city in this county?
- What rivers lie between the St. Francis and the Chaudiere? -By what river is it drained? 5,4
- Which lie between the Saguenay and the St. Maurice?
- islands in the St. Lawrence, below the Island of Orleans? 11. Point out the Chaudiere River (71).—Which counties are 26. Point out the Island of Orleans.—Which are the principal My., Ge., My., J.C., S.A., Bn. Ge., Ce., Cs., Ha., Ve., Bc.
 - Name the capes around the Gaspe peninsula. Gc., Rr., Be., Me., Mn., Ci. 27.
 - 28. What remarkable point on the coast of Rimouski? Pc.
- 30. What lake is formed by the St. Lawrence below three flow into it. Cn., Mi., Pa. Rivers? St. P.
 - What lake at the junction of the Ottawa with the St. Lawrence? T.M.
 - counties lie between those two rivers? Ci. Cx, My, Qc., 32. Point out Lake Champlain.—Lake Memphremagog.—Lake Temisconata.

EXERCISES ON THE PROVINCE OF ONTARIO.—(Map No. 5)

- 1. What country bounds this Province on the north-east? | 25. What counties border on Lake Huron? Ln., Hn., Be.,
 - South-east and south? N-Y.-West? Mn.
- What river separates this Province from Quebec? Oa. What river separates it from New York? S.L.
 - What lakes in the south? Oo., Ee.
- What river connects Lakes Erie and Ontario? Na.
 - What remarkable falls in this river? Na.
- What island above the Niagara Falls? Gd.
- 9. By what lake is this Province bounded on the west?
 - 10. What river connects this lake with lake Erie? St.C.
 - 11. What large bay in the east of Lake Huron? Gn
 - 12. What other bay in the west? Sw.
- 13. Which is the largest island in this lake? Mn.
- 14. Name four of the principal islands in the environs of Mani. | 33. toulin Island? St.J, Cn., Ce., Fm.
 - Point out French River.-What lake does this river con. nect with Lake Huron? Ng.
 - What lakes south east of Georgian Bay? Ru., Ma.
- 17. Point out Rideau Canal.—What two cities does this canal connect? Oa., Kn.
 - Name the counties bordering on the St. Lawrence. St., Ds., Ge., Ls.
- Name those bordering on the Ottawa. Pt., Rl., Cn., Lt., Rw
 - Point out the city of Toronto.
- What counties bordering on Lake Ontario between Kingston and Toronto ? Fc., An., Lx., P-E., Nd., Dm., Oo., Yk.
 - Which three counties of the same section not bordering on the Lake ? Hs., Ph., Va.
- Which are those that border on Lake Ontario from Toronto to Niagara River ? Pl., Hn., Wh., Ln., Wd.
 - Which are those on Lake Erie? Wd., Hd., Nk., En., Kl., Ex.

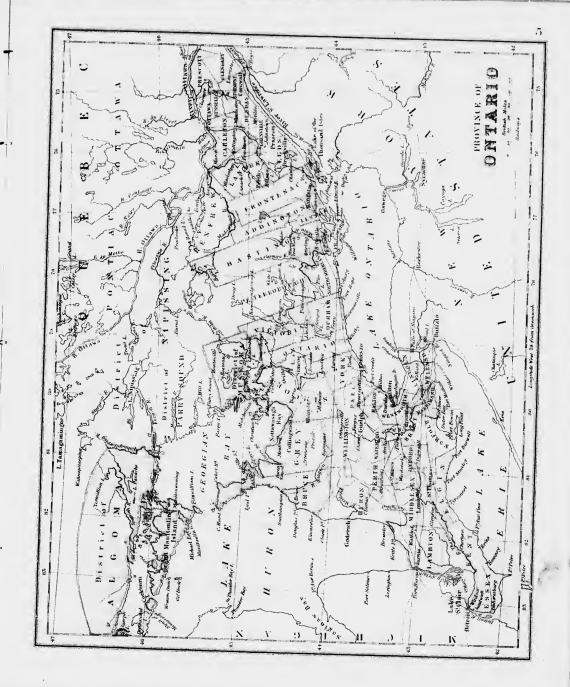

- Which of the Peninsula border on no lake? Mr., Ph., Od.,
 - Point out the District of Algoma.-That of Nepissing.-That of Perry Sound.—That of Muskoka. 27
- Point out lake Simcoe.-What river connects it with What large river flows into lake St. Clair ? Ts. lake Huron? Sn.
- 30. What river flowing from north to south empties into lake 31.
- Point out Quinte Bay. (44).-What two rivers flow into this bay? Tt., Ma.
 - What peninsula formed by Quinte Bay? P.E What What lake between the District of Nipissing and that of river drains the District of Algoma? Lh.
- What five rivers in the Province of Quebec empty into the Perry Sound? Ng. 34
- Ottawa ? Le., Gu., Ce., Ne., Me.
 - Which six in the Province of Ontario flow into the same rivel ? P-N. Mi, Ma., B-C., Pa., Mn, 35.
 - What large island formed by the river Ottawa ? Ac., (771.) Gy.,
 - 38. Name three of the principal islands in this lake. 37. Point out the lake of a Thousand Islands. (76 l).
- 40. Point out the principal cities and tell their population: Hamilton, London, Kingston, St. Catherines. Ss. (For popula-39. What is the capital of Ontario? To.
