

VOL. XXX

SAINT ANDREWS, NEW BRUNSWICK, SATURDAY, JUNE 28, 1919

Mace had sputinged his miles, and was not really fit to enter the ring; Goas, on the other had, was over-rautions. In the

HIS FIRST FIGHTS uniformly successful, but his first appearance in the London ring, when he beat Bill Thorpe in 18 rounds, created a tremendous sensation. The future champ. ion was at this time 26; he was 5ft, 94in in height—an inch more than Savers and weighed about 11st. 7lb. He was a "scientific" boxer, a master of ringcraft, very quick, and a hard hitter. In the opinen of many he was the equal of Jem Belcher and Jem Ward—that he could be compared with these two at all is to pay him a very high compliment. He was certainly one of the most punishing fight. certainly one of the most punishing fight-went to America. A match was soon arers of his day; his opponents were usually

ship Mace managed to turn the tables on his victor, and knocked out Brettle in 10 minutes. Another noteworthy win was that over Bob Travers in 1860, which lasted 91 minutes, during which 57 rounds

Mace's defeat of Bob Brettle gave him Mace's defeat of Bob Brettle gave him the Middle-Weight Championship, but he was not satisfied with this, and, since Sayers had proved—in defiance of the time-honored tradition—that "a good little un" can sometimes beat a "good big un"—he determined to follow his example, and challenged Sam Hurst, the holder of the Heavy-Weight Champion—ship. Mace was now 30, which, in these days at any vate, would be thought full Make Suffer to Solver, was an instructory sudiness. His opponent was Joe Colputr, an icish American, and a man four years younger than himself. In the first round Macchine honored tradition—that "a good little 'un'" can sometimes beat a "good little 'un'" can sometimes deat a good little 'un'" can sometimes beat a "good litt

in the 19th round, after fighting for nearly

the ring to defend his title. A match had Women tearful, yet unbroken, Mace's first fights were by no means been arranged with Ned Baldwin in 1867, but Mace was arrested on the eve of the fight, and bound over, so that the matter fell through. Apparently, Mace gave the police sent to arrest him a pretty lively time. He was in bed when they arrived, and it was not until he had " lost his shirt" -in every sense—that they managed to

ers of his day; his opponents were usually covered with blood before he had done with them. Generally the coolest of fighters, Mace lost his first big fight by losing his temper; no doubt it was a lesson that he never forgot. The occasion was his first meeting with Bob Brettle; who knocked him out with a blow on the jaw in three minutes. This defeat proved a blessing in disguise, for Brettle took him up and got him some good fights at a moment when his fortunes were at a low ebb and he might have dropped into obscurity. Before he won the champion.

though small compared with our modern extravagant purses. The last fight in Mace's championship career was an unsatisfactory business. His opponent was Joe Coburn, an Irish-

Hail! the Day of Peace new risen on the lands by passion torn,
Hail! the time of life's revision, promise out of anguish born;
Hail! a Unity of Nations, banded for the common weal Hail! a Unity of Nations, banded for the common weal
By the ties of self-negation, blazoned under sorrow's seal;
Hail the Day of Right accomplished! Hail the doom of wrong abhorred!
Fetters riven from the captive, warfare ended Truth restored!

Worn and broken every nation
Ground beneath war's iron hand
To unspoken desolation.
Racked by harrors law has banned; he was a seal of the common terms of the captive of the captive

Who endured through days of strife,
Howso' fearful wore no token
Of the wounds that marred their life: Parted lovers sacrificing All the future might have brought.

Gave for others, this sufficing

"Twas the Right for which they fought—
Gave their nearest, gave their dearest, Gladly, sadly, gave.

Hail the grey old land we cherish! Hail her daughters over sea!

Let all doubts and quarrels perish in redoubled unity!

For the sake of all that mattered we have striven, side by side,

Never may such links be shattered, sanctified by those who died: Hail victorous, ever glorious, Flag of Union! nailed above
By the dying hands of heroes, deathless through immortal love!

GOLF EXPERTS PLAY IN ST. AN-DREWS FOR THE RED CROSS

Five, and possibly, seven of the noted amateur golfers of the United States, will play a series of matches for the benefit of the Canadian Red Cross, beginning at Hamilton on June 23; Toronto, June 24; Ottawa, June 25; Montreal, June 26, and

St. Andrews-by-the-Sea, June 27 and 28. Leading the party of notables is Charles (Chick) Evans, Jr., of Chicago, who is hold over amateur champion of the United States, and who until a few days ago, was also hold over open champion of the United States. He won both in 1916, and this is a distinction unique in American golf. Jerome D. Travers and Francis Ouimet have been both open, and amateur champion, but Evans captured both titles the same year. Evans, who has done splendid work for the Canadian Red Cross in years past, was also the winner of four western amateur champion-ships and on four different occasions a member of the W. G. A. foursome that won the Olympic Golf Tournament. Evans is loud in his praise of Canadian golf courses and is anxious to see and play more of them.

John G. Anderson, of Siwaney Golf Club, near New York, is a golfer of real class. In the national amateur champion-ship he was runner-up to Jerome D. Travers in 1913 and in 1915 to Robert A.

D. E. (Ned) Sawyer is another Chicago player, now playing in the east, who is at the top of his game. Sawyer is former western golf champion and was also run-ner up one year. When H. Chandler Egan won the amateur championship of the United States, Sawyer was runner-up On four occasions he has been a member of the W. G. A. foursome that won the Olympic Cup Tournament.
Oswald Kirkby, of Englewood, N. J., is a

very low man on the handicap list of the United States Golf Association. He has won the Metropolitan Golf Association championship four times and the New Jersey state championship in 1912, 1914, and 1916. On June 7 he won the Metropolitan for the fourth time, retiring the championship trophy from competition.

Grantland Rico, famous as writer and poet, is also a golfer of real merit. He has figured prominently in various matches in the United States.

Jerome D. Travers and Francis Ouime

who accepted invitations to participate in-the tour, have been forced to cancel, but there is still a possibility that one or both of them may participate in some of the matches.—Earle Hooker Eaton.

CHAPTER VII.

Fidelity of a Little Deg. HE returning students that afternoon observed that Penrod's desk was vacant, and nothing could have been more emptiness. The accepted theory was that Penrod had been arrested. How breath taking then the sensa tion when at the beginning of the second hour he strolled in with inimitable carelessness and, rubbing his eyes, somewhat noticeably in the manner of one who has snatched an hour of much needed sleep, took his place as if nothing in particular had happened. This at first supposed to be a superhuman exhibition of sheer audacity, became but the more dumfounding when Miss Spence, looking from her desk. greeted him with a pleasant little nod. Even after school Penrod gave numerous maddened investigators no relief. All he would consent to say was: "Oh, I just talked to her."

A mystification not entirely unconnected with the one thus produced was manifested at his own family dinner table the following evening. Aunt Clara had been out rather late and came to the table after the rest were seated. She wore a puzzled expres-

"Do you ever see Mary Spence nowadays?" she inquired, as she unfolded her napkin, addressing Mrs. Schofield. Penrod abruptly set down his soup spoon and gazed at his aunt with flattering attention.

"Yes, sometimes," said Mrs. Schofield. "She's Penrod's teacher." "Is she?" said Mrs. Farry. "Do you"- She paused. "Do people think her a little queer these days?"

"Why, no!" returned her sister. "What makes you say that?" "She has acquired a very odd man-ner," said Mrs. Farry decidedly. "At

least, she seemed odd to me. I met her at the corner just before I got to the house a few minutes ago, and after we'd said howdy do to each other she kept hold of my hand and looked as though she was going to cry. She seemed to be trying to say something and choking"-

"But I don't think that's so very queer, Clara. She knew you in school, didn't she?"

"Yes. but"-"And she hadn't seen you for sc many years I think it's perfectly nat-

"Wait! She stood there squeezing my hand and struggling to get her voice, and I got really embarrassed, and then finally she said in a kind of tearful whisper: 'Be of good cheer. This trial will pass."

"How queer!" exclaimed Margaret. Penrod sighed and returned some

what absently to his soup.
"Well, I don't know," said Mrs. Schofield thoughtfully. "Of course she's heard about the outbreak of measles in Dayton, since they had to close the schools, and she knows you live

"But doesn't it seem a very exag-serated way," suggested Margaret, "t-talk about measles?"

"Wait!" begged Aunt Clara. "After she said that she said something even

rer and then put her handkerchief her eyes and hurried away."

Penrod laid down his spoon again ind moved his chair slightly back from the table. A spirit of prophecy was upon him. He knew that some one was going to ask a question which he felt might better remain unspoken. "What was the other thing she

said?" Mr. Schofield inquired, thus immediately fulfilling his son's premoni-

"She said," returned Mrs. Farny slowy, looking about the table; "she said. I know that Penrod is a great, great omfort to you.

There was a general exclamation of surprise. It was a singular thing, and in no manner may it be considered complimentary to Penrod that this eech of Miss Spence's should have mediately confirmed Mrs. Farry's doubts about her in the minds of all his family. Mr. Schofield shook his head pity-

"I'm afraid she's a goner," he went

so far as to say. "Of all the weird ideas?" cried Mar-

"I never heard anything like it in my that all she said?" "Every word!"

Penrod again resumed attention to his soup. His mother looked at him curiously, and then, struck by a sud-

Wait! She stood there squeezing my hand and struggling to get her voice.

CHICHETE W

den thought, gathered the glances of the adults of the table by a significant movement of the head, and, by another, conveyed an admonition to drop the subject until later. Miss Spence was Penrod's teacher. It was better, for many reasons, not to discuss the subject of her queerness before him. This was Mrs. Schofield's thought at the time. Later she had another, and it

kept her awake. The next afternoon Mr. Schofield, returning at 5 o'clock from the cares of the day, found the house deserted and sat down to read his evening paper in what appeared to be an uninhabited apartment known to its own world as the "drawing room," A sneeze, unex-

"Where are you, Penrod?" the parent asked, looking about.

"Here," said Penrod meekly. Stooping, Mr. Schofield discovered his son squatting under the piano, near ing beside him.

"What are you doing there?"

"Why under the piano?" "Well," the boy returned with grave sweetness, "I was just kind of sitting here—thinking."

"All right." Mr. Schofield, rather touched, returned to the digestion of a murder, his back once more to the piano, and Penrod silently drew from beneath his jacket (where he had slipped it simultaneously with the sneeze) a paper backed volume entitled, "Slimsy, the Sioux City Squealer; or, 'Not Guilty, Your Honor.'"

In this manner the reading club continued in peace, absorbed, contented, the world well forgot-until a sudden, violently irritated slam bang of the front door startled the members, and Mrs. Schofield burst into the room and threw herself into a chair moaning.

"What's the matter, mamma?" asked her husband, laying aside his paper. "Henry Passice Schofield," returned the lady, "I don't know what is to be done with that boy; I do not!"

"You mean Penrod?" "Who else could I mean?" She sat np., exasperated, to stare at him. "Henry Passioe Schofield, you've got to take this matter in your hands. It's

beyond me!" "Well, what has he"-"Last night I got to thinking," she

began rapidly, "about what Clara told us—thank heaven she and Margaret and little Clara have gone to tea at Cousin Charlotte's—but they'll be home soon—about what she said about Miss

"You mean about Penrod's being omfort?" "Yes, and I kept thinking and think-

"By George!" #

ing and thinking about it till I couldn't

startlingly, stooping to look under the piano. A statement that he had suddenly remembered his son's presence would be lacking in accuracy, for the "What's the matter?"

"Nothing," he returned, striding to the open window and looking out.

"Oh?" she moaned. "It must be kept from Clara And I'll never hold up my head again if John Farry ever hears Hears of what?"

"Well, I just couldn't stand it, I got so curious. And I thought, of course, if Miss Spence had become a little unbalanced it was my duty to know it as Penrod's mother and she his teacher. So I thought I would just call on her at her apartment after thool and have a chat and see. And I did, and-oh"-

"I've just come from there, and she told me she told me! Oh, I've never known anything like this!" "What did she tell you?"

Mrs. Schofield, making a great effort, managed to assume a temporary ppearance of calm. "Henry," she aid solemnly, "hear this in mind, whatever you do to Penrod it must be done in some place when Clara won't hear it. But the first thing to do is to find him."

Within view of the window from which Mr. Schofield was gazing was the closed door of the storeroom in the stable, and just outside this door Duke was performing a most engaging trick.

His young master had taught Duke to "sit up and beg" when he wanted anything, and if that didn't get it to "speak." Duke was facing the closed door and sitting up and begging, and now he also spoke-in a loud, clear bark.

There was an open transom over the door, and from this descended-hurled by an unseen agency—a can half filled with old paint.

It caught the small besieger of the door on his thoroughly surprised right ear, encouraged him to some remarkable acrobatics and turned large portions of him a dull blue. Allowing only a moment to perplexity and deciding after a single and evidently unappetizing experiment not to cleanse himself of paint, the loyal animal resumed his quaint, upright posture.

Mr. Schofield seated himself on the window sill, whence he could keep in view that pathetic picture of unrequit-

"Go on with your story, mamma," he said. "I think I can find Penrod when we want him." And a few minutes later he added. "And I think I know the place to do

Again the faithful voice of Duke was heard pleading outside the bolted door.

Penrod entered the schoelroom Monday morning picturesquely leaning his cap, and Roderick, seated between his mother and one of his grownup upon a man's cane, shortened to support a cripple approaching the age of Mrs. Magsworth Bitts nor her daughtwelve. He arrived about twenty minutes late, limping deeply, his brave young mouth drawn with pain, and the sensation he created must have been a solace to him, the only possible criticism of this entrance being that it was just a shade too heroic. Perhaps for that reason it failed to stagger Miss Spence, a woman so saturated with suspicion that she penalized Penrod for tardiness as promptly and as coldly as if he had been a mere, ordinary, unmutilated boy. Nor would she entertain any discussion of the justice of her ruling. It seemed almost that she feared to argue with him.

However, the distinction of cane and pected both to him and the owner, in-formed him of the presence of another which he protracted far into the week which he protracted far into the week until Thursday evening, in fact, when Mr. Schofield, observing from a window his son's pursuit of Duke round and round the back yard, confiscated the cane, with the promise that it should not remain idle if he saw Penan open window-his wistful Duke ly- rod limping again. Thus, succeeding a depressing Friday, another Saturday brought the necessity for new inven-

It was a scented morning in apple blossom time. At about ten of the clock/Penrod emerged hastily from the kitchen door. His pockets bulged abnormally, so did his cheeks, and he swallowed with difficulty. A threatening mop, wielded by a cooklike arm in a checkered sleeve, followed him through the doorway, and he was preceded by a small, hurried, wistful dog with a warm doughnut in his mouth. The kitchen door slammed petulantly, nelosing the sore voice of Della, whereupon Penrod and Duke seated themselves upon the pleasant sward and immediately consumed the spoils of

their raid. From the cross street which formed the side boundary of the Schofields' ample yard came a fingle of harness and the cadenced clatter of a pair of trotting horses, and Penrod, looking rear line of his lot and rented to neup, beheld the passing of a fat ac-quaintance, torpid amid the conservative splendors of a rather old fashioned victoria. This was Roderick Magsworth Bitts, Jr., a fellow sufferer at the Friday afternoon dancing class, but otherwise not often a companion; a home sheltered lad, tutored privately and preserved against the coarsen ing influences of rude comradeship and miscellaneous information. Heavily overgrown in all physical dimensions. virtuous and placid, this cloistered mutton was wholly uninteresting to Penrod Schofield. Nevertheless, Roderick Magsworth Bitts, Jr., was a personage on account of the importance of the Magsworth Bitts family, and it was Penrod's destiny to increase Roderick's celebrity far, far beyond its

present aristocratic limitations. The Magsworth Bittses were impor-

There was no other reason. And they were impressive because they believed themselves important. The adults of highly sensitized Penrod was, in fact, no longer present. No more was Duke, his faithful dog.

They dressed with reticent elegance and wore the same nose and the same expression—an expression which indicated that they knew something exquisite and sacred which other people could never know. Other people in their presence were apt to feel mysteriously ignoble and to become secretly uneasy about ancestors, gloves and prenunciation. The Magsworth Bitts nanner was withholding and reserve though sometimes gracious granting small smiles as great favors and giving off a chilling kind of preciousness. Naturally when any citizen of the community did anything unconventional or improper or made a mistake or had a relative who went wrong that citizen's first and worst fear was that the Magsworth Bittses would hear of it. In fact, this painful family had for years terrorized the community, though the community had never realized that it was terrorized and invariably spoke of the family as the "most charming circle in town." By common consent Mrs. Roderick Magsworth Bitts officiated as the supreme model as well as ment for all the unlucky people pros-perous enough to be elevated to her

acquaintance. Magsworth was the important part of the name. Mrs. Roderick Magsworth Bitts was a Magsworth born herself, and the Magsworth crest decorated not only Mrs. Magsworth Bitts' note paper, but was on the china, on the table linen, on the chimney pieces, on the opaque glass of the front door, on the victoria and on the harness, though omitted from the garden hose and the lawn mower.

Naturally no sensible person dreamed of connecting that illustrious crest with the unfortunate and notorious Rena Magsworth, whose name had grown week by week into larger and larger type upon the front pages of newspapers owing to the gradually increasing public and official belief that she had poisoned a family of eight. However, the statement that no sensible person could have connected the Magsworth Bitts family with the arsenical Rena takes no account of Penrod Schofield.

CHAPTER VIII.

The Two Families. ENROD never missed a murder, a hanging or an electrocution in the newspapers. He knew almost as much about Rena Magsworth as her jurymen did, though sat in a courtroom 200 miles way, and he had it in mind-so frank he was-to ask Roderick Magsworth Bitts, Jr., if the murderess happened

to be a relative. The present encounter, being merely one of apathetic greeting, did not af- ole one use to grow. Nosuh!" sisters, nodded sluggishly, but neither ter acknowledged the salutation of the boy in the yard. They disapproved of him as a person of little consequence, and that little bad. Snubbed, Penrod thoughtfully restored his cap to his head. A boy can be cut as effectually as a man, and this one was chilled to a low temperature. He wondered if they despised him because they had seen a last fragment of doughnut in his hand; then he thought that perhaps it'was Duke who had disgraced him. Duke was certainly no fashion-

able looking dog. The resilient spirits of youth, however, presently revived, and, discovering a spider upon one knee and a beetle simultaneously upon the other, Penrod forgot Mrs. Roderick Magsworth Bitts in the course of some experiments infringing upon the domain of Dr. Carrel. Penrod's efforts, with the aid of a pin, to effect a transference of living organism were unsuccessful, but he convinced himself forever that a spider cannot walk with a beetle's legs. Della then enhanced zoological interest by depositing upon the back porch a large rat trap from the cellar. the prison of four live rats awaiting

Penrod at once took possession, retiring to the empty stable, where he installed the rats in a small wooden box with a sheet of broken window glass, held down by a brickbat, over the top. Thus the symptoms of their agitation when the box was shaken or hammered upon could be studied at leisure. Altogether this Saturday was starting splendidly.

After's time the student's attention vas withdrawn from his specimens by peculiar smell, which, being followed up by a system of selective sniffing, proved to be an emnation leaking into the stable from the alley. He opened the back door.

Across the alley was a cottage which a thrifty neighbor had built on the groes, and the fact that a negro family was now in process of "moving in' was manifested by the presence of a thin mule and a ramshackle wagon. the latter laden with the semblance of a stove and a few other unpretentious household articles.

A very small darky boy stood near the mule. In his wand was a rusty chain, and at the end of the chain the delighted Penrod perceived the source of the special smell he was tracing-s large raccoon. Duke, who had shown not the slightest interest in the rats, set up a frantic barking and simulated a ravening assault upon the strange animal. It was only a bit of acting, however, for Duke was an old dog, had suffered much and desired no unnecessary sorrow, wherefore he con-fined his demonstrations to alarums and excursions and presently sat down

at a distance and expressed himself by intermittent threatenings in a quaver

'What's that coon's name?" asked Penrod, intending no discourtesy. "Alm gommo mame," said the small darky.

"Aim gommo mame."

The small darky looked annoyed. 'Aim gommo mame, I hell you," he said impatiently.

Penrod conceived that insult was inended "What's the matter of you?" he de-

"Hyub, white boy!" A colored youth doorway of the cottage. "You let 'at brothuh mine alone. He ain' do nothin' to you."

'Well, why can't he answer?" "He can't. He can't talk no better'n what he was talkin'. He tongue tie."
"Oh!" said Penrod, mollified; then, obeying an impulse so universally aroused in the human breast under like circumstances that it has become

a quip, he turned to the afflicted one. "Talk some more," he begged eagerly. "I boe you ackoom aim gommo name," was the prompt response, in which a slight ostentation was mani-

"What's he mean?" asked Penred. enchanted.

"He say he tole you 'at coon ain' got no name.

"What's your name?" "I'm name Herman." "What's his name?" Penrod pointed to the tongue tied boy.

'Verman. Was three us boys in ow fam'ly. Ol'est one name Sherman. 'N 'en come me; I'm Herman. 'N 'en come him; he Verman. Sherman dead. Verman, he de littles' one."

"You goin' to live here?" "Umhugh. Done move in f'm way outen on a fahm." He pointed to the north with his

right hand, and Penrod's eyes opened

wide as they followed the gesture. Herman had no forefinger on that hand. "Look there!" exclaimed Penrod.

"You haven't got any finger!" "I mum map," said Verman, with egregious pride. "He done 'at," interpreted Herman,

chuckling, "Yessuh, done chop 'er spang off long 'go. He's a playin' wif a ax, an' I lay my finguh on de do' sill. an' I say, 'Verman, chop 'er off!' So Verman he chop 'er right spang off up to de roots! Yessuh." "What for?"

"Jes' fo' nothin'."
"He hoe me hoo," remarked Verman "Yessuh, I tole him to," said Herman, "an' he chop 'er off, an' ey ain't airy oth' one evuh grow on wheres de

"Nothin'. I jes' said it 'at way-an'

he jes' chop 'er off!" Both brothers looked pleased and proud. Penrod's profound interest was flatteringly visible, a tribute to their

unusualness. "Hem bow goy," suggested Verman eagerly. "Aw ri'," said Herman. "Ow sistuh

Queenie, she a growed up woman; she ment was alleviated by an inspiration got a goituh." "Got a what?"

"Goituh. Swellin' on her neck-grea big swellin'. She heppin' mammy move in now. You look in de front room winduh wheres she sweepin' you kin see it on her."

Penrod looked in the window and was rewarded by a fine view of Queenie's goiter. He had never before seen one, and only the lure of further conversation on the part of Verman

brought him from the window. "Verman say tell you 'bout pappy," explained Herman. "Mammy an Queenie move in town an' go git de house all fix up befo' pappy git out."

"Out of where?" "Jail. Pappy cut a man, an' de police done kep' him in jail evuh sense Chris-mus time, but dey goin' tuhn him loose ag'in nex' week."

"What'd he cut the other man with? "Wif a pitchfawk." Penrod began to feel that a lifetime spent with this fascinating family were all too short. The brothers, glowing with amiability, were as enraptured as he. For the first time in their lives they moved in the rich glamour of sensationalism. Herman was prodigal of gesture with his right hand. and Verman, chuckling with delight talked fluently, though somewhat consciously. They cheerfully agreed to keep the raccoon-already beginning to be mentioned as "our 'coon" by Penrod-in Mr. Schofield's empty stable. and when the animal had been chained to the wall near the box of rats and supplied with a pan of fair water they assented to their new friend's suggestion (inspired by a fine sense of the artistic harmonies) that the heretofere nameless pet be christened Sherman, in honor of their deceased rela-

At this juncture was heard from the front yard the sound of that yodeling which is the peculiar accomplishment of those whose voices have not "changed." Penrod yodeled a response and Samuel Williams appeared, a large bundle under his arm.

"Yay, Penrod!" was his greeting, casual enough from without; but, having entered, he stopped short and emitted a prodigious whistle. "Ya-a-ay?" he then shouted. "Look at the 'coon!" "I guess you better say, 'Look at the Penrod returned proudly. They's a good deal more'n him to look at too, Talk some, Verman." Verman

"How d'you spell it?" "V-e-r-m-a-n," replied Penrod, having previously received this information from Herman.

"Oh!" said Sam. "Point to sumpthing, Herman," Penrod commanded, and Sam's excitement, when Herman pointed was sufficient to

Penrod, the discoverer, continued his exploitation of the manifold wonders of the Sherman, Herman and Verman collection. With the air of a proprie manded, advancing. "You get fresh tor he escorted Sam into the alley for with me and I'll"— a good look at Queenie (who seemed not to care for her increasing celebrity of Penrod's own age appeared in the and proceeded to a dramatic climaxthe recital of the episode of the pitch

fork and its consequences.

The cumulative effect was enormous, and could have but one possible result. The normal boy is always, at least one half Barnum.

"Let's get up a SHOW!" Penrod and Sam both claimed to have said it first, a question left unsettled in the ecstasies of hurried prep aration. The bundle under Sam's arm brought with no definite purpose

which a slight ostentation was mani-fest. Unmistakable tokens of vanity Sam's mother in her spring house-had appeared upon the small, swart cleaning. There were half filled cans and buckets of paint in the storeroom adjoining the carriage house and presently the side wall of the stable flamed information upon the passerby from a great and spreading poster.

"Publicity," primal requisite of all theatrical and amphitheatrical enterprise thus provided, subsequent arrangements proceeded with a fury of energy which transformed the empty hayloft. True, it is impossible to say just what the hayloft was transformed into, but history warrantably clings to the statement that it was transformed. Duke and Sherman were secured to the rear wall at a considerable distance from each other after an ex-hibition of reluctance on the part of Duke, during which he displayed a nervous energy and agility almost miraculous in so small and middle aged a dog. Benches were improvised for spectators; the rats were brought up; finally the rafters, corncrib and hay chute were ornamented with flags and strips of bunting from Sam Williams' attic. Sam returning from the excursion wearing an old silk hat and accompanied (on account of a rope) by a fine dachshund encountered on the highway. In the matter of personal decoration paint was generously used; an interpretation of the spiral, inclining to whites and greens, becoming brilliantly effective upon the dark facial backgrounds of Herman and Verman, while the countenances of Sam and Penrod were each supplied with the black mustache and imperial. lacking which no professional show-It was regretfully decided in coun cil that no attempt be made to add Queenie to the list of exhibits, her brothers warmly declining to act as ambassadors in that cause. They were certain Queenie would not like the idea, they/said, and Herman picturesquely described her activity on occasions when she had been annoyed by too much attention to her appearance. However, Penrod's disappoint-

which came to him in a moment of pondering upon the dachshund, and the entire party went forth to add an enriching line to the poster. They found a group of seven, including two adults, already gathered in the street to read and admire this work.

WALLACE BROAD, Manager.

ST. ANDREWS, N. B., CANADA.

Saturday, June 28, 1919.

THE BEACON RELIGHTED

HEN we announced in our issue of BEACON would be suspended during the absence of the Editor in England, we did not contemplate such a long suspension. The Editor left St. John for England on February 8 and returned to that Provin cial port on March 24, and arrived in St. Andrews a day later. During the intervening three months the management the BEACON has been endeavoring to place the paper on a different footing and to induce the merchants of the Town to take an increased interest in the paper and use it more extensively as an advertising medium. Our efforts have been partially successful, and we trust they will be completely so in the near future.

Even the temporary suspension of newspaper is accompanied by disadvantages other than the inconvenience caused to subscribers and advertisers, and the most serious is the dispersal of the staff, especially its typographical members.

When we decided definitely to resume publication we found great difficulty in getting together again a staff of competent printers, and the difficulty is not yet completely surmounted. In view of this we confidently bespeak the indulgence of our readers for the obvious shortcomings of this issue, and we can assure them that we shall make every effort speedily to bring the paper back to its old form and further to improve it.

The suspension of the BEACON did not show, as a contemporary editor so kindly and courteously declared that it did, that the management to conduct a good paper. The paper had ingratiated itself with a large number of discriminating readers, and many letters were received from them containing expressions of regret for the suspension of the paper and of hope that its publication would soon be resum-

For the past five years, at least, the paper itself has shown in the most eloquent way that St. Andrews was a town in which it would be difficult for any newspaper enterprise to be a great financial success, because of the limited extent to which the local merchants have advertised. The present issue of the BEACON furnishes proof that an improvement in this respect has been effected; and there is every prospect that the local paper will soon contain the advertisement of every enterprising business man in the Town of St. Andrews.

We hope to make the paper a better one in every way, but some changes and improvements are necessarily held in abeyance pending the thorough reorganization of the printing office staff.

Late Going To Press

There has been unavoidable delay in the publicaton of this issue of the BEACON, and it is quite likely a somewhat similar delay will occur with the next issue; but we earnestly hope that before long we shall be able to go to press on Friday evening, as has been our custom in the past. In the meantime we bespeak the patient consideration of our subscribers.

Do instantly whatever is to be done take the hours of reflection or recreation after business, and never before it. When a regiment is under march, the rear is often thrown into confusion, because the front do not move steadily and without interruption. It is the same thing with business. If that which is first in hand is not instantly, steadily, and regularly dispatched, other things accumulate behind, till affairs begin to press all at once, and no human brain can stand the confusion; pray, mind this-it is one of your few weak points-a habit of the mind it is which is very apt to beset men of intellect and talent, especially when their time is not regularly filled up, but left at their own arrangement. But it is like the ivy round the oak, and ends by limiting, if it does not destroy, the power of manly and necessary exertion. I must love a man so well to whom I offer such a word of advice, that I will not apologize for it, but expect to hear you are become as regular as a Dutch clock-hours quarters, minutes-all marked and appro-

NOTICE TO SUBSCRIBERS

HERE was no issue of THE BEACON on the due dates from February 8 to June 21, twenty weeks in all; therefore a corresponding extension will be made in the date of expiry of subscriptions shown on the address slips on the papers issued February 1, 1919. The extension will be made on receipt of money for renewal of subscription.

To all those whose subscriptions were in arrears on December 33 a bill was sent in January, 1919. A large number of these delinquent subscribers have not yet remitted the amount due as per bill sent, and we must now ask them to attend to the matter and make

immediate payment.

Special attention is also called to the fact that after this date the subscription to THE BEACON will be \$1.50 a year; and for papers going to United States and other places outside the British Empire 50 cents a year must be added for Postage. Single copies of THE BEACON will be 5 cents after this date.

A SPEEDY TRIAL

Judge Carleton held a speedy trial Court on Thursday in the Court House to try Leonard Matthews, a prisoner sent down from Milltown charged with the theft of a watch and chain. The prisoner, who belongs to the North Shore of New Brunswick, pleaded guilty and was sentenced to serve a term of two years in Dorchester penitentiary. N. Marks Mills, K. C., was in attendence as prosecutor for the Crown.

SUBSCRIBERS, DON'T WORRY

We have recently received a few letters from subscribers inquiring when the paper was to be published again and asking the return of the unearned portion of subscriptions if the paper had definitely stopped publication. To those who wrote, and to all other subscribers who have paid in advance, we would say that it is our present hope and intention to continue the paper, but if from any cause we should be unable to do so we shall make a definite announcement to that effect, and shall arrange to refund to subscribers the unearned portion of subscriptions paid in advance, Don't worry.

OBITUARY

Mrs. Robert Glenn

The death of Mrs. Robert Glenn occured on Sunday evening, June 15, at the home of her brother, Mr. David Clarke. Mrs. Glenn had reached the advanced age eighty-two years, and was a much esteemed resident of the Town. She was of most generous disposition and was always active in promoting the welfare of the community. Her husband, who was formerly a prominent merchant here, presurvived by two brothers, Peter and David Clarke, and a brother-in law, Capt. George Lowerey, whose wife died only a short time ago. The funeral took place on the 18th, and was conducted by Rev. W. M. Fraser, B. Sc., minister of Greenock Presbyterian Church.

Mr. Horace Gove, lately returned from Overseas, is spending the summer with his sister, Mrs. Wm. Carson.

Mr. Neil McWharrie and family, of Montreal, are occupying the Macklem cottage for the summer.

Mr. and Mrs. Russell D. Bell, of Montreal, have taken "Linden Grange" for the summer.

Mr. John Stoddard, who was suffering from a broken rib, is now convalescing rapidly.

Mr. Jack Lowery is visiting his parents, Mr. and Mrs. Hayter Reed, at Pansy Patch.

Mrs. Geo. F. Smith, of St. John has taken "The Anchorage" for the Summer.

The Hon. Mrs. Beauclerc and family, of Montreal, are at the Algonquin for the

summer.

Pte. Cecil Ross is visiting his aunt, Miss
Lizzie Keys, before he goes to his home

Mrs. Angus Rigby's friends are glad to hear that she is recovering from her

hear that she is recovering from her recent illness.

Mrs. F. W. Thompson, of Montreal, is

at her summer home, Meadow Lodge. She has as her guests, Mrs. Alexi Wilson and Mrs. Lustgarten.

Mrs. Wm. Woods and little daughter,

'Amy, of Vancouver, are spending the summer with Mrs. Woods' parents, Mr. and Mrs. John S. Maloney.

By invitation of the Misses Ethel Cum-

By invitation of the Misses Ethel Cummings and Elsie Finigan a number of young people enjoyed a picnic supper at Navy Island on Wednesday.

The Rev. Mr. Morse, Mrs. Morse, and Mrs. Susan Morse, of Lynn, Mass., are at the Algonquin for a few weeks on their way to Nova Scotia.

On Tuesday afternoon Mrs. Frederick Worrell entertained for her sister-in-law, Mrs. Percy Hartt. At the tea hour Mrs. Worrell was assisted by Mrs. T. A. Hartt, Mrs. R. D. Rigby, Mrs. Arthur Gove, Mrs. R. A. Clarke and Miss Maude Greenlaw.

On Thursday afternoon Mrs. O. Clarke and Mrs. J. Simpson entertained at Chesnnut Hall. The hostesses' were assisted in serving by the Misses Bessie Grimmer, Ethel Waterbury, Carol Hibbard Alice Elliot. Mrs. Geo. E. Smith and Mrs, E. A. Cockburn presided at the dainty teatable.

To the General Public:

I have opened a GROCERY, HARD-WARE, FLOUR, FEED and GENERAL MERCHANDISE Store in the stand where my father, the late Mr. G. D. Grimmer, and my uncle, Mr. J. D. Grimmer, have done business for so many years. The place has been thoroughly renovated and an up-to-date stock placed therein.

I would earnestly solicit a share of the trade so generously given my predecessors. I will buy to the best possible advantage and sell to you at the most reasonable prices.

Hoping to have a visit from you at an early date.

Yours very truly,

FRANK A. GRIMMER

MARKETING OF POULTRY PRODUCTS

(Experimental Farms Note.) success or failure of any poultry plant.

price possible for his products, and to do this it is necessary to pay particular atwhich the products are sold.

EGGs. Eggs should be gathered regularly and often. All small and dirty eggs should be retained for home use or sold separate from the rest

The eggs should be neatly packed-if for private trade, they are made more attractive if put into neat cartons.

The sooner the eggs are in the hands of the consumer the greater the satisfaction and consequently the better the price

production will be heavy. If at any time during season the eggs become so plentiful as to cause a glut in the market! force ing down the price to the cost of production, it is often advisable to use a good preservative and put away, the surplus for the period of scarcity which

TABLE POULTRY. Immediately following "the spring lay" the flock should be gone over and all useless cock birds and those hens that show they intend to rest for the summer, should be put into crates and fed heavily for a week or ten days and then sent to market either live or dressed according to market requirements. This culling should not all be done at one time but gradually as occasion requires, but it should be the aim to get the culling over with as far as possible before the time for marketing broilers, as the prices for fowl always drop after that.

BROILERS. It will pay to market many of the early cockerels as broilers depend ing on those later hatched for roasters as the season advances. All cockerels of the light weight varieties should be marketed as broilers. When they are eight to ten weeks old either crate or pen feed them for aweek or two so as to finish well before marketing.

ROASTERS. In the general purpose breeds such as Plymouth Rocks and Wyandottes, the main crop of cockerels should be held for roasters. These should be crate fed for from ten days to two weeks or even four weeks, according to three or even four weeks in the crates. Aim to produce the highest quality

To market it in the best condition To ask and to receive the highest

market prices.

HAYING

(Experimental Farms Note)

The cutting and curing of hay is ar operation requiring the exercise of prompt action and sound judgement if a maximum yield of hay of suitable quality is to be Globe. saved. Towards this end there are sev eral factors which should receive consideration. The time or stage of cutting is of prime importance since it affects both yield and quality. Usually the most profitable yield is obtained when the crop is cut when in blossom or just past that stage, say when about one-third of the bloom has disappeared. Ordinarily the tendency is to leave the commencement of haying too late for proper curing during the latter part of the season, due to over serve stocks of clover being carried over Cohen smoothed down the bristling gold ripeness of the crop. It is advisable, therefore, to plan to do this work during red clover seed for autumn delivery adthe period when there is the least possibility of loss. Beginning haying early is good practice. Clover and alfalfa cut slightly inmature will make better hay which may be utilized for hay, seed, and dry period of last summer.

definite rule or rules of procedure can be will give the best chance for a seed crop tables in operation, 5 of them Fan Tan laid down to meet all requirements. -back in the service of Canadian Fishermen

Fairbanks-Morse Type "M" Marine Engines are back on the market. The war over and contracts completed the manufacture of Type "M" Engines has been resumed and deliveries on all sizes can be made by April 1st.

Every fisherman—every work boat owner—knows the record of the

Type "M" 3, 5 and 8 H.P. Engines

—and now the 10 H.P. has been added for heavier duty—a two-cylinder engine, like the 5 H.P., of Fairbanks-Morse construction, with make and break ignition, plunger pump for water circulation and operating with either gasoline or kerosene.

The Type "M" is a salt water engine, designed to withstand the rigors of weather and hard usage, sturdy, simple and economical to operate and keep in repair.

Efficient representatives—familiar with the fishermen's needs and with engine construction and operation are at the service of the buyer of any one of the Type "M" models. Our St. John, N.B., house is a fully equipped service station, carrying all necessary parts, and under the direction of a marine engine expert.

The Type "M" affords an excellent proposition for dealers. Write today for details regarding the handling of this quick-selling proposition.

ward to the Pacific Coast. When in British Columbia early in June he availed himself of the opportunity to address a gathering of business men on the subject of railways in Canada. We reprint from the St. John Globe of June 9 the following report of the address referred tor- . m .s

Mr. E. W. Beatty, President British

eaking very briefly on a matter which a engrussing the attention of the most sertous thinking Canadians, and that is, what is to be the ultimate end of our railays, and under what auspices or method instration are they to be managed.' a system involving 13.770 miles in Canada, of which 8,750 are west of the Great Lake, gives in itself the reason why its officers should have some knowledge and some views on the subject, and if they are of any value those who have an equal voice in the final determination of the question are certainly entitled to the benefit of Leaves Black's Harbon Monday, ment

"I have an additional reason for mentioning this subject in that a great deal of misapprehension seems to exist in some quarters as to just what the problem is. We have private ownership of some railways and we have public ownership o others, both existing in the country new. The fact that the country has been compelled through the financial fallure of some systems to take them over in order to prevent them from falling into utter desuctude is one thing, but that is quite a different problem from the question of a permanent policy of government owned and government managed railways. I do not know that the government could have done anything else than they did do, but I feel that neither the government nor the people of this country are yet in a position to determine finally what the future of all these systems shall be reserve Fraser, B. Sc., Pastor, Services

m. during July and August) Sund shrug our shoulders and say it is politics if a railway man speaks be is said to be prejudiced by his railway association. Not all the men who go to Ottawa are governed absolutely and exclusively by political considerations, and the railway man can still be a railway man and be a good citizen of Canada with an honest desire to see the transportation future of

his country assured no environ tailing and the state of t much to recommend it. It has been said by a very able member of the government that the advisability of it increases as you approach atstate of monoply and directors probably true, but it has not been determined in any satisfactory way up to date, whether government management of our systems is feasible or even possible. Until it is determined I should conclude it would be well for the government and the people to withold their final judgement. Among the advocates of this system are many men who are sincerely and honestly convinced that in the last analysis it will be for the benefit of the people of this country, and that is the only large from which the question can be viewed."

AMERICAN EXPERIMENTS

"It is unfortunate, however, that most of these men have not intimate personal knowledge of the administration of these large enterprises, and the wish for succe is father to the thought that success will result. We have recently had the benefit while I am quite prepared, to admit that the abnormal conditions under which the systems had to be operated during the this method of administration not entirely conclusive, I am strongly of the view that we would avoid the disaster they have experienced and that the difficulties which at least contributed to their failure would. be absent from the administration of Canadian railways under like auspices."

"You will recall that the American system broke down when put to the test. They broke down physically and finan-cially. Both could, think, have been avoided, or at least minimized had a little afever it might be, of mistake or failure,

alarming degree The United States Pacific Railway Company held in Montreal on May 5, the President of the Company, Mr. E. W. Beatty K. C., made a tour of inspection of the railway westtracted experiments." .. #175 , hooM weN

CHANGING BACK AGAIN

As a result of this experience and that which they had through the operation of cables, telegraphs, and telephones, think it may be safely said that the last vestige of desire for government operations of Canadian Pacific Railway, was the guest these utilities has departed from the of the Associated Boards of Trade of majority of the American people. In fact those actually entrusted by the govern-Board of Trade at Nelson. In an interesting address the President of the C.P.R. properties have admitted the unwisdom of the continuance of the system. The Postmaster General has agreed to the receiving very briefly on a matter which regrossing the attention of the most directed the seturn of the sailroads, off Director General of the failroads Mi-Walter D. Hines, who has been connected with the railroad administration from the beginning, aret as assistant Director General, and latterly as Director General, to tell you that in my judgement, based on a very careful study of this subject since the federal control began, the bes interests of the country will be promoted, not through permanent government con-trol but through the return of the ful-roads to private management. I believe the American public wants competition in service, and private initiative is, I think, of the utmost importance in order to get satisfactory public service." sattloid .. Mr. E. N. Hugley, chairman of the

United States Shipping Board, states that it is his belief that combinations between government and business are almost as dangerous as combinations between church and state. The results in the United States will be evailable to this country and the ultimate solution adopted, they will be of use to us in determining what our policy will be because the evils of government administration if present in one country will be difficult to avoid in

"It may be said what my form views are prejudiced, and other aren to the extent that they are the result of eighteen years' intimate association with the workings of one railway company, and an appreciation discussion of this subject has not been from the inside of what factors contributed in Canada up to now. It is true it occupies certain space in the news. It is true long and ardeous work to hammer toreached an efficiency in all ranks, which gives rise to this spirit which comes from within the organization itself, and I would need be assured not only that inthis spirit, before would cast a vote for a permanent policy of government owner-ship, and operation. When I speak of government ownership and operation I do so because interference in the latter is the necessary consequence of the es-tablishment of the former. It is not possible in my opinion to divorce the Marie Frawley, sister of the groom, was responsibility for operation from those the maid of honor, and Kenneth Shea. convinced it will be found litopossible to persuade those who vote the money for these enterprises to exclude themselves entirely from the administration of the properties for which they supply the money. The bride was attractively gowned in the properties for which they supply the money.

IS IT FEFICIENT ? 7 "In the determination of this question I know of no consideration less important than that of political expediency. It the government to carry on enterprise such as this with the same competent and efficiency as private owners. I a not attempting to persuade you to my views they are not unalterable, but views they are not unatterable, but I have not vet found anyone who could adduce evidence of the success as a government operated system in former days, or in other countries, where similar conditions prevail; and before we adopt a by balancing its advantages with its

careful consideration and analysis of deficits have efficiency and seemed to an perience, we can determine it, without it, was united States we will add to our railway mistakes. That ways in wrong places; and at wrong times, but these mistakes, serious as their con-sequences, have been, would be minor compared to the mistake if we adopted a wrong principle for their administration, and add the continuing and pyramiding ng these wrong principles to slat

Tam a great believer in this country, and I believe that our difficulties, economically and commercially speaking, will be the difficulties are not insuperable, Wnor should they be entirely unexpected. It is the most natural thing, and mirte line all cordance with the precedent of history, that following such a terrible four years' world eruption, there should now arise, both nationally and individually, cenditions which it will take extraordinary measures to meet. / Last summer, the railways of the country were threatened with very serious labor troubles; wage raised, but the individual difficulties due to unrest did not entirely disappear. The railways, in conjunction with the govern ment and labor unions, adopted a course quite without precedent in the history of Canada. be Their heads sat found a fable discussed the best methods to adopt, and in the end constituted what is known as "Railway Board of Adjustment No 1,7 composed of six representatives of the of the labor unions and six railway executives. The board was empowered to adjust and make binding upon the parties concerned all disputes arising between railway employees and the railway companies. In the event of failure to agree there was provision for calling in an out side and indepennent referee, who would have the casting vote. Whether or not if was because the number this gentleman would bear was No.113, I cannot say, but thirty-two main disputes, in some cases involving half a dozen minor differences. each one of which might have precipital

board, and in no case has there been an absence of agreement, and in no case have either the executives or the men complained that substantial justice was not done. Now the reason for the extrait occupies certain space in the news papers, and has been discussed in partial ment, but always with the unsatisfactory result that the advocates of the different so widespread in its activities and the war only, but which, I hope, will concase has the board ever forgotten its udicial attitude hor has there heen an evidence of feeling on either side in the

From "Lavengro," chap, GEORGE BORROW. (Born July 5, 1803), died July 30, 1881.

WEEDS

EEDS postulate a weeder, and the severate that it is the practice of this craft which makes the garden "the purest of human pleasures." Bacon could never have been a weeder; he was content to walk in his " alleys spacious and fair." It was in that that he found his delight. was in that that he found his delight. Besides he was, as his monument shows, of a full habit, and the weeder should be lank and lean, as was that prince of weeders, R. L. Stevenson. The Vailima Letters might well be called the locus classicus for the art of weeding. But then Stevenson possessed unexampled advantages for the practice of the craft. He had the jungle at his michael and the stevens child within at his wicket, and the eternal child within him could convert weeding into a game, and invest his attacks on the encrosching vegetation of Samoa with all the glamour of an encounter on the high seas with th bold buccaneer.

spiring a setting for our weeding. We do not we at home, ordinarily slash at the foe with a knife drawn from its sheath on our hip. No; we are content to go into action armed with the weapon which we have purchased from the local ironmonger,

But an English garden has its romance of weeding too. You step out on a sunny March day when Spring is sighing in her sleep, and you listen to her breathing and which, rioting in a sandy border, in a few July 3.—Gettysburg, 1863. Sadowa, 1866. By Love's own hand for salutary, ends watch to see the Sleeping Beauty wake. The tassels of her catkins were hung out vears had become incorporated with Champlain founded City of Quebec, 1608; The tassels of her catkins were hung out every single plant in it. Enchanter's Henry Grattan, Irish politician and patriot. before the frost began, and that earliest of adventurers, the honeysuckle, has long times. And then there is our old friend American naval commander, born, 1801; the dandelion. He, like others, hardly R. B. Bennett, former Canadian M. P. are gone, but the snowdrops are shining plays fair, for not only will he send his born, 1871. Atlantic Cable laid, 1878, in the wood, the daffodils are everywhere interminable and indestructible taproot thrusting up their grey-green blades, and down into the most inaccessible cavities in the rock-garden, where the coral stalks are setting off the white buds of Saxifraga Burseriana, a very short spell of fair weather will bring out its first glories.

But stay! we are neglecting our weeding. The robin, "the under-gardener," as he has been pleasantly styled, is sitting on the fork which you left stuck in the ground while you could not resist rushing matter out of place." And, to do them justice, the same dictum applies to weeds.

Set them in their right surroundings, and all dead, and that black beady weather-

Nudus ara, sere nudus, saye Virgil, and serious weeding too undoubtedly demands serious weeding too undoubtedly demands that you should take off your coat to it. That is to say, when the work lies straight before you, But your weed is not of so simple a nature as to arrange himself always in convenient patches ready for the averaging hoe. He knows a trick worth wo of that. He possesses unrivalled powers of adaption and of peaceful penetration. He will permeate a herbaceous border or a rock-garden in such a way that in order to deal with him effectively you must walk with the wariest footsten lest you work havoc amongst the daintiest and most delicate of your treasures. No less are his powers of dissimulation and concealment. He will masquerade as almost any flower and his dearest delight is to insert himself into the heart of some choice clump and make you think (poor fool) how well it is doing this year, until presently, when concealment is no longer possible, you find that the young leaves which you have so misguidedly been cherishing have smothered your plant, if indeed it has not been already ousted from its home and slain outright by the over-

weening and cuckoo-hearted interloper. The weed is happy in every soil and in every garden. That charming flower which takes its name from the cuckoo is never more at home than in "some wet bird-haunted English lawn." Last spring, after the mowing-machine had been laid up for a couple of war summers, our own lawn showed the finest mass of cuckooflowers which it has ever been our fortune to see. But it is not every weed that offers compensation for its unabashed intrusion by blossoming so exquisitely. No one could grow enthusiastic over the flower of groundsel or of goutweed-par ignobile fratrum. There is no beauty in couch-grass, whose more familiar name squitch" well expresses its demoniacal

nature. We have named some of the most persistent and obstinate of our foes. Who that has tried to grapple with "squitch" dogmatize, for each garden has its own to make you feel what a sweet thing it is master-weed which expellas furca as you deludedly think, tamen usque recurret as punctually as the swallows return. Stevenson's master-weed at Vailima was none other than the sensitive plant. "A fool," says he, " brought it to this island in a pot and used to lecture and sentimentalize" (oh shade of Shelley!) "over Viscount Duncan of Camperdown, British the tender thing." "The tender thing." naval commander, born, 1731; Louis he continues, "has now taken charge of Bonaparte, brother of Napoleon, abdicat-

> clutches to a rock." In English gardens the consentient voice both groundsel and "squitch," bindweed and goutweed, coltsfoot—if it once gets its hoof into your soil—and with it its more civilized but even more evil-hearted brother, which the florists' catalogues shamelessly entice work of the collection of

parted with it. In a light soil Craddock, English naval commander, born, one can hardly conceive the possibility of ever ridding the garden of groundsel: in William LeQueux, English novelist and

ourselves have been driven to desperation by so innocent-seeming a herb as sorrel, night-shade, again, can give you grievous between stones, but when you think you have extracted every fraction of it you look round and find that when your back was turned he had been blowing one of his dandelion clocks all over the borders before ever you had noticed that he had

flowered. " Dirt," says the philosopher," is merely matter out of place." And, to do them Set them in their right surroundings, and they become part of the British Flora

imagine that they would keep in their proper place. Not they I Some thirty let us set to work.

Doctors differ as to the best instrument with which to make the attack. The truth is that, like the practitioner of golf, one needs an assortment of implements in order to play the game with success. One learns as a weeder to sympathize with the country. Again, there is a glorified coins, first issued in England, 1817; Iture, with his pains to describe the ough, the wains and harrows and the order of the ragwort family which for years, for centuries no doubt, has been mainly contented to adorn the grey stone orator, U. S. Senator, born, 1846; Califorfor a new Virgil to sing the garden- walls in the very heart of Oxford. But fork and to tell how many prongs it owns; our friend with his large yellow-rayed to prescribe to us when to use the spade; to make clear the various forms and uses of the trowel. For the earnest weeder station, where he began to ramp about Kubelik, Bohemian violinist, born, 1880. all these to his aid as the goods-yard, and next—there seems to be no question about it-he took train (inspite of Mr. Fisher) for the North, and is now to be seen disporting himself about various stations in Worcestershire. Beyond question we shall soon hear that he has changed at Birmingham and boarded the Scotch Express, and presently find him pretending that he has always lived at Holyrood, and that he is part of the characteristic vegetation of the Cathedral ruins of Dunkeld, where, as he gazes up at the hanging woods of Birnam on the hill opposite, he will reflect with a conceited smile on the prodigious improvement in the facilities for locomotion since the old-fashioned days of Macbeth.-F. G. E., in The Spectator.

was cured of a severely sprained leg MINARD'S LINIMENT JOSHUA A. WYNACHT. Bridgewater.

What do you think made our friend Lord Albemarle, colonel of a regiment of guards, governor of Virginia, groom of the stole, and ambassador to Parisamounting in all to sixteen or seventeen thousand a year? Was it his birth? No: a Dutch gentleman only. Was it his es tate? No he had none. Was it his learning, his parts, his political abilities and application? You can answer these air, his address, his manner and his graces. He pleased and by pleasing, became a

LORD CHESTERFIELD. Are afflictions aught

cup, Medicinal though bitter, and prepared Mallet's Amyntor and Theodora.
