PRICES OF BOARD FOR THE SEASON OF 1851:—FIVE SHILLINGS PER DAY, or FIVE POUNDS PER MONTH.

Caledonia Springs, 2nd June, 1851.

[Extract of a letter from P. J. Lacroix, Esq., of Montreal,] to the Proprietor of the Caledonia Springs.

I beg to call your attention to the Springs for the purpose of testing their efficacy in a case of the most violent Rheumatism, under which I had been suffering for several years previous. After remaining at the Springs for about three weeks, and making free use of the Waters, my limbs were entirely relieved from all pain, and my health perfectly restored. Several of my friends, to whom I have recommended the Springs, assure me that they have experienced immediate relief from their use. I consider the Waters of the Caledonia Springs to be most efficacious in cases of Rheumatism.

To the proprietor of the Caledonia Springs.

MONTREAL, 4th June, 1851.

DEAR SIR,—In compliance with your request, I have much pleasure in giving you an account of the extraordinary efficacy of the Waters of the Caledonia Springs, so long and highly appreciated by the Public, based upon the observations of some twenty-five years' experiences, and tested as they have been by a great many, patients of mine and others, laboring under Rheumatic affections and the different forms of disease to which the human frame is liable, I consider them invaluable. Few persons, except those who have suffered from this dreadful malady, can justly appreciate their wonderful curative effects. I have often seen persons carried to this disease, (myself for one during ten years,) which baffled all medical skill, both in England and this Continent, restored to the Caledonia Springs walking on crutches, and others that could not walk at all, soon by unassisted sufferings, and their general health disordered and broken down by confinement and want of exercise, return to their homes free from pain, leaving behind (with unspeakable joy) their crutches, and with health, strength, appetite, and activity perfectly restored. Strikingly evident are the curative action of these Waters, the Intermittent and Sulphur Springs in particular, which are almost as efficient in other diseases, such as Lepra, generally called *Salt Rheum*, and other affections of the skin; in a variety of Dyspeptic Complaints, Chronic Affections of the Liver and Kidneys; and I am sure that a great number of those cases that leave the Spring greatly benefited, but not completely restored, would have been cured by a more extended use of the spa. That these Waters have acted in many diseases as a specific, seems to be generally admitted, and so much respectable testimony to this effect has already been laid before the Public, that any more would be superfluous.

HY. MOUNY,
Member of Royal College of Surgeons, London.

To John L. Wilkinson, Esq.,
Proprietor of the Caledonia Springs.

MONTREAL, 13th December, 1842.

DEAR SIR,—I have much pleasure in recommending the use of the Caledonia Waters a very valuable curative agent in the treatment of many forms of disease. Circumstances favorable to my having had a favorable Certificate with more than usual propriety, many of my own Patients tested the efficacy and derived great benefit from the use, of the Waters. Of all diseases that have come under my notice, in which a perserving use of the Baths and Waters promises the most beneficial results, Chronic Rheumatism ranks the first. Many of my cures in this disease have been truly astonishing. I met with a case last summer, where the individual, a delicate female, had been suffering severely for more than nine months; she had completely lost the use of her hands, and could only walk a few steps with great pain and difficulty. After a residence of six weeks at the Springs, she returned free from pain, and strong enough to walk a considerable distance without support. I have also found the Waters useful in Dyspepsia and Urinary Complaints, in Chlorosis, Secondary Syphilis, and many of the forms of Cutaneous Disease.

In conclusion, allow me to add, from a personal visit to your Establishment, that (independently of the acknowledged virtues of the Waters) the great outlay you have been put to in the improvement of the place, and the unwearied care and attention which you bestow to the comfort and convenience of your Boarders, justly entitled you to a large share of public patronage and support.

I remain, dear Sir, yours very truly,
GEORGE W. CAMPBELL, A.M., M.D.,
Lecturer on Surgery, McGill College.

To the Proprietor of the Caledonia Springs.

Plantagenet Water.

Let all who wish sound health to get
Just try the famed Plantagenet;
Though other waters vainly try,
And gain a market for their stuff,
This only can make good its boast,
The friend of all who need it most.

AS this is the season of the year when the public are most disposed to seek the aid of mineral waters, it is necessary that parties should be strongly warned against the late-dared attempts to give a spurious reputation to certain other Springs, by the unauthorized and unwarrantable use of the names of eminent Physicians. To such an extent has this practice been carried, that one Physician of this city has been lately compelled publicly to declare that he ever gave a certificate testifying to the rare qualities of one of these Springs.

Another artifice had recourse to, by certain parties, is the publication of *old certificates granted to other Springs*, as if they had been given in favor of their own Springs. In fact, such is the spirit of jealousy excited at the ever-whelming success of the far-famed Plantagenet Water, that it can hardly contain itself, and is now seeking the most unfair means to impose on the credulity of the public. Such attempts, however, cannot succeed; every day the fame of the Plantagenet Waters is spreading wider and wider. Whilst it has its place in the Pharmacopœa as one of the most powerful and efficacious of aperients, its use as a pleasant summer beverage is almost unbounded. There never was a mineral water which combined so admirably the two qualities of *useful* and *agreeable*, and to talk of adulteration or suspicion is simply absurd. Such the medical man what is mine cases out of ten is the first thing he prescribes, and he answers, Plantagenet Water. Ask the merchant in his morning's draught, still the reply is, Plantagenet Water. Ask the professional man what lightens his labors and invigorates his health, and again we are told Plantagenet Water. Ask the hard-working mechanic or laborer, what is the cheapest, healthiest drink for himself and family, and he will reply, a bottle of the Plantagenet Water. This extraordinary demand has induced the Proprietor to establish depots in Montreal and the country, to substitute other springs waters for the Plantagenet, of which the Proprietor has been directly informed by Medical gentlemen of this city. In short, no attempt is left untried by these persons who wish to compete with the universally-renowned Plantagenet Water. To guard against deception, therefore, the public are requested to supply themselves *direct from the Depot, Place D'Armes, Montreal.* Price per gallon, 1s.; bottled, 2s. for the bottles returned; and 1½d per glass. The demand for this Water, by the *glass*, averages 300 glasses every morning.

NEW CERTIFICATE.

The following from Dr. Munro, Chief Physician of the Hotel Dieu, adds one more to the overwhelming testimonies borne to the virtues of the Plantagenet Water by all our leading Physicians:

To Mr. LAROCQUE, Proprietor of Plantagenet Water, Place d'Armes.

SIR,—I have hitherto refrained from giving you my opinion of the Plantagenet Water, but the time has now arrived when it is just, both to the public and yourself, that I should do so, I state, then, frankly, that I have the highest opinion of the Plantagenet Water, which I consider superior—in fact, far beyond comparison with any other mineral water with which I am acquainted. I have used it extensively in my practice at the Hotel Dieu Hospital, and with the most remarkable success. As a gentle aperient its use is invaluable, and in numerous cases where other medicines could not be safely employed, I have found it most useful. I consider it a duty, both to the profession and the public, to state thus much in its favor; and I strongly recommend all the friends of families to keep a supply of the water by them, being perfectly satisfied of its great utility.

P. MUNRO, M.D.,
Chief Physician in the Hotel Dieu, and Lecturer on Midwifery and Diseases of Women and Children.

Dollissy Street, 6th August, 1851.

In conclusion, let it be borne in mind, that it is not simply as a saline drink that these waters are beneficial, but because they have no oily, fattening property, unknown to any waters in Canada. There is, in fact, but one Plantagenet Spring, and the more that is known, the higher its reputation, and the more all others sink into insignificance by contrast.

It is enough to read the names given below, of parties who have used the Plantagenet Waters, to be assured of their superior excellency over all others:—

Doctors W. Sutherland, W. Campbell, A. H. Meilleur, A. B. McCulloch, R. L. McDonell, Crawford, J. G. Hilland, E. H. Trudel, H. Mount, J. L. Leprohon, S. C. Sewell, F. Hingley, — Pelletier, J. E. Coderre, L. J. Tavernier, G. D. Gibb, F. E. Pemall, James Gunn, L. H. Masson, H. Pelletier, H. Gauvin, R. H. Schmidt, W. F. Smith, P. Munroe, T. Leduc, W. Wright, L. Boyer; the Hon. A. N. Morin; the Hon. Peter McGill; the Hon. Louis Joseph Papineau; C. Wilson, Esq., Mayor; E. Fabre, Esq., Ex-Mayor; — Belleau, Esq., Mayor of Quebec; J. D. Bureau, Esq.; Louis Bever, Esq.; E. M. Leprohon, Esq.; J. Belle, N. P.; Maurice Prouix, Priest; &c, &c, &c., and many others.

Sold only at No. 4, Place d'Armes, Montreal, where parties from the country, who want it to sell again, can be supplied at liberal rates.

For sale also in Beauharnois by Mr. Robert Tom, and Carillon by Mr. C. W. Schnider.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary Canadian Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Assurance Company t ansacting business in Canada.*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise to be offered to the Public in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of $3,000,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium—the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.

Advantages offered to Insurers.
Very low Rates of Premiums on Young Lives.
The security of a large realised and invested Capital.
Large Bonuses on Policies effected on the high Scale.
Prompt settlement of Losses.
The full value given for Policies when discontinued.
On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid; or to remain as a permanent Loan, at the option of the Insurer.
Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.
The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.
Permission for the Lives assured to reside in any part of Europe, without extra premium or Policy being void, to, at and from California, at a small extra premium.
Insurances, if required immediately, may be effected any day between the hours of 10 and 4.
The Pamphlets published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had, *gratis*, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

BUTCHART'S RESTORATIVE BALSAM.

THIS invaluable Medicine has been sixteen years before the public, and has invariably been attended with unparalleled success,—indeed it may be justly considered INFALLIBLE in the cure of Bloody Flux or Dysentery, and all Looseness of the Bowels, in old or young. Its effects are palpable. Within a few minutes after a full dose has been taken complete relief is obtained. This Medicine is the invention of the late Doctor Butchart, Dundee, who, from long experience and extensive practice, has brought it to its present state of perfection in the cure of the above diseases. The ingredients of which this Medicine is composed are most salutary and beneficial to the human system. A single trial will satisfy any one as to the truth of this statement, and we can with the greatest confidence recommend it to the public as a sure and safe remedy.

To be had only of WM. LYMAN & Co., Montreal, and JOS. BOWLES, Quebec.

## EUROPEAN AFFAIRS.

Halifax Telegraph Office, Tuesday, Oct. 28, 12 o'clock, M.

The steamship *Europa* arrived at 9 a. m. from Liverpool, with 108 passengers, children and servants inclusive, 12 for Halifax. She made the harbor from the westward, having experienced a very heavy blow yesterday, and rough weather throughout the passage.

Since the sailing of the *Pacific* no American steamer had arrived at Liverpool.

**England.**

Kossuth continues to be expected, but had not arrived. It was positively stated he would come to Southampton in the steamer *Madrid*, which would leave Gibraltar the 16th or 17th, and reach Southampton soon after 20th inst. The *Mississippi* had reached Gibraltar, and Kossuth's intention had been learned from himself.

The great Exhibition finally closed on the 15th, as previously announced. The Prince was present, but not the Queen. Many of the lighter articles had been removed on the second day after the close, and prior to the Europa's departure London was already wearing a dreary aspect. The awards of the jurors did not give general satisfaction, and in one instance the council and jury came into direct collision. The jury the next day awarded the great medal for piano fortes to Broadwood & Sons. The council reversed this, and the jury, including the most eminent musician of the day, publicly protested against the act of the council as an injustice to the Messrs. Broadwood.

Beyond the closing of the Crystal Palace and the breaking up of the Exhibition, and the dispensation of the medals and prizes, nothing of interest appears to have transpired previous to the *Europa's* departure.

Kossuth's expected arrival, and the Ministerial crisis of France, attracted some attention, but the current of European affairs appeared to run on smoothly—not a ripple indicative of troubled waters appearing on the surface.

The American Minister, Mr. Lawrence, has just completed his tour through Ireland, and returned to England.

The Roman Catholic Defence Association had held its second great meeting in Dublin, but it was attended by few persons of note, and resulted in nothing more than a fresh manifesto.

**France.**

The resignation of the entire French Ministry, who were only holding office until successors should be appointed, had created much interest throughout Europe, and the more so because the resignation is understood to imply a determination on the part of the President to restore universal suffrage by repealing the electoral law of May 31st. Meantime Paris was perfectly tranquil.

Paris, Thursday.—The Funds rose a half per cent. upon the announcement that the meeting of the Permanent Committee was called. The Ministers of justice, Interior and War, attended, and gave explanations as to the state of the country, which were considered satisfactory, as far as they went; but the Commission meets again on Tuesday.

The news from the departments of the Chesd is alarming, although all immediate danger is at an end, for the peasants of the whole districts are members of Secret Societies, and all rise at a signal from their chiefs.

Bourse firm; Fives opened at 95, closed at 90.50; Threes closed at 55 65 for the end of the Monday.

There was nothing in the papers respecting the new Ministry. Hopes are entertained that the Red party will defeat the President's move.

**Spain.**

American prisoners from Cuba, to the number of 126, had arrived at Vigo, to undergo their sentence to hard labor in the mines.

The *Madrid Gazette* published a royal decree conferring the Grand Cross of the Royal and Military order of San Ferdinando, the highest military distinction in Spain, on Lieut.-General Jose De La Concha, Captain-General of Cuba, as a recompense for the distinguished merit he evinced in the pursuit and extermination of the pirates who had invaded the Island.

The *Gazette* contains, moreover, a long list of favors and recompenses granted by the Queen to the persons who distinguished themselves in the defence of Cuba.

**Portugal.**

Accounts have been received from Lisbon of the 9th instant. The Duke of Terceira still continues a member of the Cabralist Election Committee.

No fresh cases of yellow fever had occurred at Oporto for ten days.

The ministerial crisis in Austria is over, the old ministers having patched up their differences, and continue in office. The Emperor left Vienna for Gallacia on the 11th inst.

**Germany.**

The King of Hanover is recovering from his recent illness.

The Government of Saxe-Coburg-Gotha has prepared a common constitution for the duchies of Coburg Gotha, which have hitherto been under separate administration. It is stated to be as liberal as the present condition of Germany permits. It enacts that there shall be only one legislative assembly for the two duchies. With respect to the succession of the throne, it is stated that Prince Albert, husband of the Queen of England, should be called to it. He may nominate a governor in the event of his declining to fix his residence in the duchy. It is further enacted that if the reigning duke should ascend a foreign throne, he shall vacate the throne of the duchy.

**Naples.**

The Neapolitan government had failed entirely in the attempt to refute the charges of discraceful cruelty brought against them by Mr. Gladstone, and sustained by the whole English press.

**Denmark.**

Danish affairs had become again somewhat complicated, and the ministry so recently formed, seemed on the eve of again being dissolved.

**Cape of Good Hope.**

News from the Cape is most disheartening, since the outbreak commenced on 12th August. British Kaffararia was quiet, but heavy firing was heard in the direction of Fish River, where Stork and Tela were in force. Various districts have been devastated by the enemy. Several of the Boers intended to join the enemy. The *Monitor* says the post brings the usual sad details of devastation and plunder. In the frontier district of Somerset and the neighborhood of Sudbury, a few miles from the former, the Kaffirs were swarming, the inhabitants were flying, and the sheep dying in large numbers from drought.

There was an alarm, apparently but too well founded, of further defection among the Cape corps. At Oatland, universal desertion was prevented by Capt. Seelis, in aid of the British President. Matters were altogether in a very dangerous state, and the residents were compelled to act on the defensive till the receipt of reinforcements.

**The Overland Mail.**

Advices from Triesta of the 13th inst., announce the arrival of the *Italian*, from Alexandria. The dates from Calcutta are to the 8th Sept., from Bombay to 17th, and from Hong Kong to the 23rd Aug. The frontier was undisturbed. The troops in the Punjaub were suffering to an unprecedented extent from fever.

Commodore Lusching has resigned the command of the Indian Navy.

Dost Mohammed was intriguing for the possession of Kandaha, but the Persian troops already occupied Herat.

A further outbreak in Malabar of the Noplo Fanatics had occasioned great loss of life.

**Australia.**

The recent accounts from the Australian diggings report favorably of progress. Large quantities of gold had been found. There were already four thousand diggers, notwithstanding the inclemency of the season, which was midwinter. The government exacts from each digger thirty shillings a month, as a license fee, each party getting fifteen yards frontage to the watercourse. Carriage from Sydney to Bathurst had risen from three pence to 25 pence per ton. All former occupations were at a stand still. Goods, stores and provisions, were doubled in value, and it was necessary to increase the number and pay of the constabulary.

Gold has been found at Bondi, also at Wyo, six miles off from Sydney. A great increase of diggers was anticipated when the season opened, and a large influx of emigrants.

The agent of the Press is indebted to Capt. Long of the *Europa* for the following

**Telegraphic Despatches.**

Paris, Friday Morning.—The ministerial arrangements make no progress. The papers of this morning hardly allude to the subject. The leaders of the moderate party still hope that the President of the Republic, on finding that the Reds will not agree to the revision of the Constitution, in exchange for the repeal of the law of May 31st, will endeavor to make terms with his late ministers, or at least a portion of them.

The latest accounts from the Department of Cher are rather favorable. It appears that the Government accounts, published by the *Moniteur*, have been greatly exaggerated as to the extent of the movement.

Gold from Russia.—The *Times* says that about one hundred thousand pounds in gold, brought by the *Lion* steamer from St. Petersburg to Hull, was received at the Bank this morning, making the total from Russia this week one hundred and seventy thousand pounds.

Kossuth.—Kossuth will not reach Southampton till 24th instant, instead of 20th as stated yesterday.

Arctic Expedition.—The *Service Gazette* says that a most searching investigation will be instituted into the discrepancy of the statements of Capt. Wheton and Capt. Penny, with reference to prosecuting a further search beyond the Wellington Channel for the Franklin Expedition.

Latest Markets.—*Paris Bourse*, Oct. 17th. Fives 90, Francs 60 cents, Threes 55.65.

*Brussels*, Oct. 17th.—Exchange on London, 25.30.

*Antwerp*, Oct. 17th.—Exchange on London, 25.30.

*Amsterdam*, Oct. 16th.—Exchange on London, 11 9.

**English Markets.**

Liverpool, October 18.—Breadstuffs.—There was less activity in the Corn Market, and the upward tendency at last advices checked. A steady consumption business now passing daily, particularly in Flour, which was going largely into Ireland for South Wales. Western Canal quoted at 16s @ 19s; Philadelphia, 18s @ 19s; Baltimore, 17s 6d @ 19s; Canadian, 18s 6d @ 20s. Indian Corn in moderate request; Yellow is without change; White is scarce and bears higher prices; quotations for both kinds at 13s @ 14s for best per barrel. Wheat.—White, per 70 lbs, 5s 7d @ 5s 11d; Red and Mixed, 4s 5d @ 5s. Demand limited. Provisions.—Beef, Pork, Hams, and Shoulders were unsaleable. In the absence of American Pork, dealers supplied their wants with Irish and Hamburg. Lard declined 1s @ 2s; sales limited to about 50 tons, at 50s 3d@51s. Cheese.—Fine is in brisk request; other sorts go off slowly. No Bacon in Market. Tallow.—Market is regular, quotations nominal. Ashes.—Pots and Pearls in fair demand, but prices unchanged. Sugar.—Since opening of Market, fair business done for British plantation; about previous prices maintained. Foreign offered freely, but prices 6d @ 9d lower; Jamaica, &c, 32s 6d @ 38s 9d. Molasses quiet; Barbadoes, 13s 6d. Oils.—Whale in fair request, at 30 @ 31s; Sperm slow, at 83s 10d @ 84s.; Lard, Market bare, quoted at £76; a large business in Palm, at £26 10s @ £27 5s. Oil Cakes much inquired for; fine thin oblong would bring £7 10s.

Trade in Manchester generally dull. A moderate business doing in Goods and Yarns, and prices rather easier.

Money continues to be plenty. The bullion in the Bank of England had been increasing for several weeks; discounts were to be obtained at 3 per cent. The funds had exhibited a great degree of fluctuation. On the 17th Consols reached 97¼.

Foreign securities were quiet, and prices unaltered. Mexican receded to 26¾. Railway shares flat, with a decided decline in prices.

American Stocks without movement. Bell & Son give their quotations, U. S. Sixes. 1861, 167; do, 1868, 111¼ @ 112¼; 1867 and 1868 Stock, 104 @ 105. Penn. Fives Stock, 81 @ 82; Maryland Sterling Bonds, 88¼ @ 90¼. Canada Sixes Bonds, 1 08 @ 1 09. Boston Fives, 1858 and 1868, 91¼ @ 92¼. New York City, 1855 and 1870, 90 @ 91.

The Market for Iron was steady, without variation in price; Merchant Bar, £5; Nail Rods, £5 10s; Hoops, £6 15s; Sheet, £7 10s; Scotch Pig, £2 6s. There was more enquiry for Tin Plates. No change in Lead or Tin.

# THE COURIER.

FRIDAY, OCTOBER 31, 1851.

This being the last morning of the month, the Daily Publication of our Journal ceases for the season. The next number will be published on Monday morning, and will be continued every Monday, Wednesday, and Friday, as usual, for the next six months.

Our Evening Publications will continue to issue, as usual, on Mondays and Thursdays.

We take this opportunity of stating to our Subscribers and to the Public in general, that the *Courier*, from its widely extended circulation, presents to the mercantile community at large a very favourable and advantageous medium for advertising. The *Courier* is one of the oldest established newspapers in Montreal, and from the very considerable additions made of late to its subscription list, it is behind none in the extent of its circulation, nor does it yield to any in the interest and importance of the subjects which its editorials embrace.

Our readers will see in another column an Address of the Hon. W. Badgley to the Electors of the County of Missisquoi, and we must candidly say that we do not remember ever to have seen a more straight-forward manly Address than it: open and frank, free from arrogance and egotism, candidly explaining his past conduct as their Representative, and his views upon the—as he evidently considers, and we consider—the chief points likely to occupy the attention of the next Legislature, without in any way cringing or truckling, to gain favour, or promising, to gain votes. It cannot but be satisfactory to his constituents, and to all men of candid minds and good judgment.

His views upon the residency and non-residency question of candidates in their repective Counties are particularly well expressed, and correct; for it must be acknowledged that no man should be chosen as the Representative of a County who has only the local interests of the County at heart, only local knowledge of the wants of that particular constituency—without any of those more general and extended views of the wants of the whole community, which alone can make the Statesman; while the man of the latter mould may easily become acquainted sufficiently with the interests of his constituents to take good care of, and advance, them. That Mr. Badgley is such an one, that he well knows the wants of the community generally, and is equally well acquainted with the interests of his County in particular, no one can doubt, judging from his past conduct alone, without reference at all to his known character, ability, and standing as a man. In conclusion, we will only say, that we are well informed that he is sure of a re-election in Missisquoi, if he will run. May he "go in and win."

We mention for the information of those who may have Bank engagements to meet, that promissory notes due on Saturday next, must be retired the day previous, Saturday (All Saints' Day) being a legal Holy day.

Messrs. Isidore Marcoux, Joseph Jourdanais, S. A. Beauregard, Pierre Beck, Joseph Green, Francois Lafond, and Raymond Chaput, received each a brevet appointment, for capacity as teachers of elementary schools, at a meeting of the Roman Catholic Board of School Examiners, at their sitting on the 17th inst.

A meeting of the Perseverance Tent Sons of Rechab, will take place on Friday evening, the 31st instant, at the Rechabite Hall, Great Saint James Street. Candidates for membership will please be in attendance at 8 o'clock. All youths of good moral character are respectfully requested to attend. As the above Society has for its object the preservation of the young men of Montreal from intemperance, we would recommend it to the favorable notice of parents and guardians. Applicants must be under 18 and over 12.

Change of Hours on the Ottawa Route.—Until further notice, the steamer *Lady Simpson* will leave Lachine on the arrival of the 9 A.M. train, instead of 8, as heretofore.

Secretary's Office, Quebec, Oct. 28, 1851.

His Excellency the Governor-General has been pleased to make the following appointments, viz.:—

The Honorable Augustin Norbert Morin to be a Member of the Executive Council, and Secretary and Registrar of the Province of Canada.

The Honorable Rene Edouard Caron to be a Member of the Executive Council of the Province of Canada.

The Honorable Malcolm Cameron to be a Member of the Executive Council, and President of the Committee of the Executive Council of the Province of Canada.

The Honorable John Rolph to be a Member of the Executive Council, and Commissioner of Crown Lands for the Province of Canada.

The Honorable Lewis Thomas Drummond to be a Member of the Executive Council of the Province of Canada, and Attorney-General for Lower Canada.

The Honorable William Buell Richards to be a Member of the Executive Council, and Attorney-General for that part of the Province called Upper Canada.

The Honorable John Young to be a Member of the Executive Council, and Chief Commissioner of Public Works for the Province of Canada.

## LAW INTELLIGENCE.

COURT OF QUEEN'S BENCH,

Wednesday, Oct. 29, 1851.

Present:—The Hon. Jean R. Rolland; the Hon. T. C. Aylwin.

The Queen vs Edmund Longley, et. al.—On conviction of forcible entry and detainer.—Mr. Driscoll, Q. C., put in a motion, praying that in the judgment to be rendered in this case, restitution of the property be awarded to the private prosecutor, Sir James Stuart, Bart.

Patrick McGuiggan *alias* Patrick Carroll, on charge of bigamy, was put on his trial; the Indictment charged the prisoner for, that he having been married at the Parrish of Anna Mullin, in the County of Monaghan, Ireland, on the 13th January, 1846, to one Rose Carroll, he on the 7th June last, at the town of Mooers, in the State of New York, did marry one Electa Proper, his first wife being alive.

The evidence of the second marriage was given by the Rev. Elisha Watson, and the first marriage was established principally by the admissions of the prisoner before the magistrate when apprehended. Verdict guilty. Mr. Johnson, Counsel for prisoner.

Alexander Dow and John Brown, two of the petty jurors fined each ten shillings yesterday, not being in attendance to-day, were fined twenty shillings each.

John Padden was put on his trial on charge of having in his possession a plate engraved with part of a foreign bank note. The plate was produced in the trial. It was a plate made to the likeness of a five dollar bank note of "The Lime Rock Bank," a bank at East Thomaston, in the State of Maine. The evidence against the prisoner was of a very strong character, but in the absence of any officer to establish the legal existence of the bank in question, the prisoner was not put on his defence, and was acquitted. Mr. Johnson, Counsel for prisoner.

Whilst upon this subject, we regretted much to learn, in the course of the trial, that although the President of the bank in question had been written to, some time ago, praying that some officer of the institution should be sent in to support the charge, that not the slightest attention had been paid to the request, and that the letter had not even been acknowledged.

The Court very properly remarked, in charging the jury to acquit, that if banks and bankers in the United States were so indifferent to their own interests, as to act in that way, it did not see why we should take a greater interest than themselves in prosecutions, which were designed to protect the interests of both. This want of attention is the more to be regretted, because of the immense amount of forged notes daily manufactured and circulated in the United States and Canada.

The same J. Fadden was again put on his trial for having knowingly had in his possession forged notes of the Champlain Bank at Ellenburgh, in the State of New York, and the Bank of Danville, at Danville, in the State of Vermont; but acquitted for the same cause. In this case also the Crown prosecutor, Mr. Driscoll, stated that the Banks had been written to for the same purpose; but that the communications had been treated in the same manner as that addressed to the "Lime Rock Bank." The prisoner was, of course, discharged. Mr. Johnson also represented the prisoner in this case.

Andrew A. Adams, of Montreal, was put on his trial for an assault upon one Helana Riley, with intent to ravish her, and acquitted. The principal witness established a strong case against the defendant; but she was the only witness, and her evidence was contradicted in its most important particulars by another female witness who was in the house at the time. Messrs. Bedwell & Kerr counsel for defendant.

Postage on Newspapers.—We take the following from the Woodstock *British American*:—During the last few weeks, several numbers of the *British American* addressed to subscribers in Nova Scotia and New Brunswick were returned to this office, marked "postage not paid." As they bore no post mark, and as we were not aware of an existing rule or regulation which required the pre-payment of postage on newspapers sent to any of the British Provinces, the writer of this addressed a letter on the subject to the Postmaster-General and received the subjoined reply, which we publish for the benefit of any of our contemporaries who may be similarly circumstanced:—

Post Office Department, Quebec, 14th October, 1851.

Sir,—In answer to your letter of the 7th inst., I beg to say that the postage on newspapers for the Lower Provinces must be prepaid in Canada.

In New Brunswick there is no postage on newspapers, so that the Canadian postage must be collected in this Province. Your paper has been returned to you from the Quebec Office.

I am, sir, your obedient servant,
W. H. Griffin, Secretary.

John Douglass, Esq.

The Hon. Henry Black is spoken of as a fit and proper person to represent this city in Parliament. Not a doubt of it. If he will only consent to go again into the house, Quebec, we fancy, is at his service.—*Quebec Chronicle, 29th.*

The special meeting of the City Council last night was not, we understand, a very harmonious one. The meeting has adjourned without any action having been taken in the Railway Committee's report.—*Ib.*

Another Railroad Project.—It is proposed to construct a railroad which shall connect the Georgian Bay, Lake Huron, with Prescott, and at the latter point with the Ogdensburgh railroad, forming a complete and direct route from Boston to the great west. This work will be one of immense advantage to Boston, if prosecuted to completion, while its importance to the Province, in throwing open to settlement vast tracts in the interior which are now unoccupied, can hardly be estimated. We observe that the County Council of Peterboro, has voted £200 towards the expense of a survey, and that Leeds and Grenville has contributed £100.—*Kingston News.*

The Weather for the last few days has been wet, cold and uncomfortable. On Saturday evening, there was a brisk fall of snow, which lying upon the fields, covered them with a coating of from one to two inches thick.—*Ib.*

Steamboat Convention.—On the 11th of November, a meeting of Steamboat owners will take place in Kingston to consider on the arrangements of next season. There are now afloat first class vessels sufficient to form a Daily Line from Montreal to Hamilton; another Daily Line from Belleville to Montreal; and a third Daily Line from Ogdensburgh to Hamilton. To form the first Line, there are the Champion, Mayflower, Maple leaf, Passport, Arabian, Highlander, New Era, and Magnet—all steamers well calculated to buffet with the severest weather of Lake Ontario. To form the second Line, there are the Ottawa, St. Lawrence, Elgin, and Gildersleeve; and to form the Third Line, there are the Princess Royal, City of Toronto, and, perhaps, the Chief Justice, with the Canada to spare.—*Kingston Whig.*

On Friday last, the London Independent Artillery Company enjoyed a most pleasant pic-nic on the grounds of William Balkwill, Esq., in the township of London. Fortunately the weather was exceedingly propitious, which imparted a zest as it were, to that buoyancy of feeling and enthusiasm, which on occasions like the present, generally predominate. The delightful situation of this beautiful part of the country, the glittering uniforms of the corps, together with the enchanting strains of their splendid Brass Band, as it echoed and re-echoed through the valley below, created a romantic effect, at once pleasing and sublime. There is no exaggeration in stating that the "Artillery Band," under the assiduous attention of their worthy Band Master, Mr. Wm. Till, as also conduct under the able tuition of their leader, Mr. Peckham, has attained a highly creditable position, and would favorably compete with any other similar Military Band of the kind in Western Canada. We wish the Independent Artillery every advancement, creditable alike to themselves and the town of London.—*London (C. W.) Times.*

Collision with the Steamship Wm. Penn and Loss of Life.—We learn from a communication received at the Merchants' Exchange, that about 11 o'clock, Saturday night, 25th inst., Cape Ann bearing W. by N. 6 miles, the wind blowing fresh from the south, the steamship *Wm. Penn*, Capt. Whelden, from Boston for Philadelphia, came in collision with the whaling schooner *Belle Isle*, Capt. Nye, of Provincetown, striking her upon the starboard bow, so that she almost immediately filled and rolled over. Of the officers and crew of the *Belle Isle*, there were twenty men, of whom four were lost. Capt. Nye, Mr. Allen (mate,) Mr. Smith (2d mate,) and five of the crew saved themselves by jumping into the fore chains of the *Wm. Penn*. Eight others were taken from the wreck by the boats of the steamer. The *Belle Isle* was just returning from a whaling cruise of about seven months, with thirty barrels of sperm oil, and the ship on seeing the schooner, previous to the collision, endeavored to avoid her by putting the helm hard to port, while the schooner supposed the ship was standing to the westward. Capt. Nye, who was on deck at the time, ordered his helm put to the starboard.—This mistake of both parties resulted in bringing the vessels together. The schooner was running eight and the ship ten knots per hour, at the time of the collision. No blame is attached to either party. After taking the crew from the schooner, the steamer lay by her all night, with the hope of finding and rescuing the missing men. In the morning a boat was sent to the wreck, but the men could not be found, and the schooner was abandoned. The four men lost were George Pettes for Boston, Benj. B. Sheriff of East Cambridge, and two natives of the Sandwich Islands. The *Wm Penn* put into Falmouth on Sunday, landed the crew of the *Belle Isle*, and then proceeded on her passage to Philadelphia, having received no damage of any consequence from the collision.—*Boston Journal.*

The First Snow Storm of the Season.—The ground was covered with a white mantle on Monday morning, and the snow continued falling during nearly the whole forenoon. The country was white with snow. The weather was cold, with a strong wind blowing from the Northwest.—Winter seems to be upon us in good earnest. The barometer was very low—29,30—that morning.

The British schooner Brothers, Capt. Clark, of and from Annapolis, N.S., with wood, struck on ledge off Swampscot, on Sunday evening. The crew, seven in number, left her in their boat and pulled for the shore. Mr. E. C. Bates of this city, who resides at Phillips Beach, heard their cries for assistance, and with his servant succeeded in landing them safely at his residence at 12 o'clock that night, where they were kindly provided for. They saved only the clothes they had on their persons. The schooner drifted ashore on the rocks, on the north side of Nahant, near Mr. Tudor's cottage, where she now lies a wreck.—*Ib.*

Fight in Pittsfield.—The *Springfield Republican* has an account of a fight in Pittsfield on Saturday afternoon, between a Mr. Cavanagh, a brother of the Catholic Priest in that town, and a Mr. J. McGowan. A division has arisen in the Catholic Church there, in consequence of doubts among a portion of the people as to the strictly correct deportment of the priest, Mr. Cavanagh. Mr. McGowan has distinguished himself as a leader among the "bolters" from the priestly rule, and as a consequence, he has won the most deadly hatred and persecution of Mr. Cavanagh and his adherents. Cavanagh attacked McGowan first with a raw-hide, then with his fists, and after the parties had clinched, he drew a pistol from his pocket, which he fired without injuring any one. Cavanagh was arrested.—*Ib.*

**European and North American Railway.**

St. John, Oct. 27.—At a meeting of the stockholders of the European and North American Railway Company, on Saturday last, the following gentlemen were elected directors of the Company:—Hon. John Robertson, D. J. McLaughlin, (President of Commercial Bank,) George Botsford, (President of Central Bank,) Edward Allison, R. Jardine, W. J. Ritchie, and C. D. Archibald.

At a subsequent meeting of the Directors, R. Jardine was elected President of the Company.

A young lady complaning of an affection of the heart, was told that she must husband her strength. She replied that a husband was the only thing that would relieve her complaint.

MRS. HAMILTON begs leave to acquaint the Public that she has continued the CHILDREN'S SCHOOL, in Mount Camp Street, lately taught by Mrs. Gibson, deceased.

TO THE ELECTORS OF THE COUNTY OF MISSISQUOI.

GENTLEMEN,—The approach of another General Election throughout the Province, and the announcement of a Candidate for your suffrages, call upon me once more to address you, as the Representative of your County in Parliament.

My public conduct for the last five years, during which your confidence has maintained me in the political position which I have the honor to occupy, remains, at the termination of my stewardship, as freely open to your examination as it is freely offered for your approval or reprehension. I shall claim no merit if your approbation sustain me in the belief of having faithfully discharged the trust reposed in me, nor shall I feel ill will if your censure teach me the difficulty of a satisfactory performance of political duty; permit me to add, however, that the interests of the Province invariably received my earnest and attentive consideration, whilst those of my constituents were supported with my best ability.

Adverting to my connection with the County, it is your rightful privilege to be informed of my opinions, upon the important measures which will probably be submitted to the judgment of the coming Parliament, and without desiring to inveigle you of your support by specious or prospective promises, it will suffice to observe, that a recurrence to my past opinions will serve as an exponent of my future political sentiments.

Whilst affording ready support to the interests of Provincial Agriculture and Manufactures, a reduction of such duties as are alike burthensome to the people and injurious to the trade of the country has been steadily advocated.

Whilst a rigid economy in the expenses of the public departments has been strongly urged, thereby encouraging retrenchment in the most effectual manner, in the general expenditure, a fair compensation to the public servant has been advocated, conceiving that there is no desire in the public mind that efficient services rendered to the public should be otherwise than liberally remunerated.

Whilst enforcing the necessity for an increased representation, as essential to the best interests of the Province, the regulating principle of population alone has been opposed as eminently prejudicial and partial in its operation; but the abolition of the representative numerical equality between the two sections of the Province, according to the spread of population in each respectively, the consequent gradual formation of new Counties, and a limitation in the number of representatives for the present and future electoral divisions will have the effect of connecting the progress of population with a proper increase in the popular Branch of the Legislature.

Whilst every measure of acknowledged Provincial utility, either in the establishment of Railroads or in the construction of Public Works has been cheerfully supported, enterprises of a merely speculative or questionable character have been discouraged, or warmly opposed, as endangering alike the public credit, and eventually increasing the public burthens. Upon these grounds, I was strongly opposed to the Halifax Line of Railway without its extension through the Province, as of itself enormously augmenting the public debt, without affording any prospective advantage or probable return.

The simplification and assimilation of the Provincial Laws appeared to be of paramount importance, and did not fail to engage my attention and occupy my time; in view of which, the Criminal Law, and its system of procedure have been methodised and codified, and finally submitted to the consideration of the Legislature.

Referring to those objects which are of peculiar interest to Lower Canada, I may observe, that the entire abolition of the Feudal Tenure, and the commutation of existing feudal burdens upon fair and equitable terms to Tenants and Seigniors, have been strenuously advocated, and will at all times receive my unqualified support.

The decentralization of the judicial business of Lower Canada from the great cities, and its expansion throughout the country parts, by the establishment of Assizes and County and District Courts, have been constantly and unhesitatingly, though unsuccessfully urged, as a most desirable means of social advancement. The application of the savings in this necessarily increasing branch of legal expenditure, would assist in the erection of County Jails and Court Houses, and at the same time afford ready means for the payment of Jurors and others, who are now called upon to give their gratuitous attendance, upon the administration of justice.

Deeply sensible that there are no means of cultivating the growth of intelligence among the people equal to the establishment of good schools, in which the elements of a sound education may be fully given to form the man and the citizen of an advancing community, the defects in the School system of Lower Canada, and which are universally prevalent, though in different degrees, have been deeply felt; and it has long appeared to me, that the Province has a right to demand, and that the Government are in strict duty bound to enforce, not only the universal establishment of Schools, but their establishment and regulation upon a system different from the present, and better adapted to the popular requirements.

Before concluding, allow me briefly to remark upon the question of residence as a qualification in your representative. It is a sound and important principle, that the Representative ought to be acquainted with the interests and circumstances of his Constituents; but this can only extend to those interests and circumstances, to which the authority and care of the Legislature relate: an ignorance of a variety of minute and particular objects exclusively of Municipal supervision, and of mere local interest, which do not lie within the compass of Legislation, is consistent with every attribute necessary to a due performance of the Legislative trust—and unless some Legislative difficulty exists in the County, which cannot be comprehended by a person of ordinary intelligence, except he be a resident, the application of the qualification of residence would necessarily characterize your representative as a mere Municipal Councillor, and the great popular branch of the Legislature, in effect, as nothing but a Municipal Council. I trust, therefore, that I am not incorrect in assuming, as of course, that the intelligence of your Representative should not be confined to the knowledge of merely local interests, but that rather he should be possessed of information coextensive with the general interests of the Province.

Relying, then, upon the past as a pledge for the future, it only remains to be observed that I fully recognize the Constitutional right of self-government,—that I will sustain the adoption of a liberal policy commensurate with the increasing wealth, intelligence and population of the Province, and that I am prepared to support any measure which will improve the administration of justice, sustain the public credit, and encourage our commercial relations with other countries.

I remain your obedient servant,
W. BADGLEY.

**Analysis of the Water of the Georgian Spring.**

I have made a careful quantitative analysis of a quantity of this Water sent me by the Proprietor of the Spring, Captain Kains. It is a Saline Water, containing earthy Chlorids, with portions of Bromids and Iodids, thus resembling the Plantagenet Water, from which it differs chiefly in the presence of a portion of Sulphates, which are not often met with in Waters of this class in the Province. It has a specific gravity of 1008.78, and contains in one pound avoirdupois, the affixed quantities of the following substances:—

| | *Grains.* |
|---|---|
| Chlorid of Sodium | 66.22000 |
| Chlorid of Potassium | .72800 |
| Chlorid of Calcium | .31003 |
| Chlorid of Magnesium | 3.45982 |
| Bromid of Magnesium | .02016 |

T. S. HUNT, *Chemist to the Geological Commission.*

Office of the Geological Survey, Montreal, May 26, 1851.

Having compared T. S. Hunt's, Esq., analysis of the Mineral Water of the Georgian Spring with the analysis made by him of the Plantagenet Spring Water, I may mention that the Water of the Georgian Spring contains all the ingredients found in the Plantagenet, with the addition of Sulphate of Lime, differing however in some respects as to quantity.

I have delayed giving my opinion of the efficacy of the Georgian Water, in order that an opportunity might be afforded me of speaking more confidently of the advantages to be derived from its employment. I have witnessed beneficial results from its use, as an aperient, antacid and diuretic, and also in allaying the distressing gastric derangement attendant upon the early months of pregnancy. I have no doubt that the Georgian Spring Water will be found equally beneficial in the cure of Rheumatism, Scrofula, and Dyspeptic Ailments, as any other Mineral Water met with in the vicinity of this city.

W. E. SCOTT, M. D., Attending Physician Montreal General Hospital, Lecturer on Forensic Medicine University of McGill Coll.

Montreal, August 12th, 1851. 443

MR. W. E. BOWMAN:

SIR,—With pleasure I give you my opinion of the Georgian Spring Water, of which you are Agent. Being induced by its superior qualities, as shewn me in the Analysis furnished me by T. S. Hunt, Esq., Chemist to the Geological Commission, to give it a fair trial in many cases, both in my public and private practice, and I have not been disappointed in the result. I have found it one of the most valuable of Mineral Waters that I have ever prescribed. I consider it highly advantageous in most cases of Rheumatism, Dyspepsia, and many other diseases requiring Tonics, Alteratives, or Laxatives. In Constipation of the Bowels, caused by Sedentary Habits or Old Age, it will be found extremely useful, and if judiciously administered, it is likewise a most valuable remedy for many diseases incident to women. I have also noticed happy effects from its employment in allaying the inordinate thirst of Fevers, producing beneficial results from its Tonic and Lavative action, and I have no doubt that it will be found equally useful in removing and assuaging that extreme thirst in hot weather, which, by gratifying with ordinary drinks, so debilitates and enervates people generally. Yours, &c., F. MUNRO, M. D., Chief Physician to the Hotel Dieu Hospital, Lecturer on Surgery, "School of Medicine and Surgery," Consulting Physician to the Lying-in Hospital, (St. Pelagie.)

Bleury Street, 13th October, 1851. 465

THE LAST GRAND DISCOVERY!

ALAS for the poor PLANTAGENET WATER!—It has not only to bear its own sins, (if it has any,) but the sins of all other Springs, whether up the river or down the river, whether fresh or salt, sweet or bitter,—no matter where,—they must all rise into fame on the reputation of the Plantagenet Water. The last discovery comes from Georgia Lake, *via* Montreal, or rather gets to Georgia by this route. It appears that, by the *agency* of a most "learned pundit," a notable "analysis" has been furnished of the Georgian Spring Waters, which are said to "contain *all* the ingredients found in the Plantagenet," only with the addition of something else, and a marvelous disproportion of quantities. On this principle, we take it, a cabbage contains *all* the ingredients found in a pine-apple, with the addition, of course, of *something else*, and a slight disproportion *in the quantities!* Certain it is that Georgian is *not* the Plantagenet, and was never yet mistaken for it. If it had been so, it could never have happened that it would have remained for twenty years in hopeless obscurity, in spite of all attempts to puff it into existence? Where is the old analysis too? There was such an analysis, and it might be instructive to see it; how much iodine was there in *that?* Perhaps it was the wonderful discovery of iodine which led Mr. Kain to sell the *magnificent establishment* at Georgia to Mr. Tucker. Potassium, Magnesium, Chlorides, Sulphates, Iodine, and all! The fact is, that the new analysis is only a creation of the new agency: a good "Bow-man" likes to have two strings to his bow, and the famous Plantagenet Spring is a capital mark.

We beg to call attention to the annexed certificate of the efficacy of the Plantagenet water in cramps and rheumatism by Captain Elliot, barque, *Berbice*, of Aberdeen:—

QUEBEC, 18th Oct., 1851.

MR. A. MANN: DEAR SIR,—For sake of humanity I cheerfully comply with your request to certify the benefit I derived from the use of your invaluable Plantagenet water. During last winter I suffered severely from Rheumatism, besides I was very subject to excruciating cramps in my legs, both tortures attacking me more or less from time to time, up to my obtaining from you, in June last, a goodly supply of your Plantagenet. Ever since I commenced its use, no pain of either kind has touched bone, joint or muscle of my body. I cannot attribute this gratifying change to any thing but the use of your water, and I shall take care to deprive you of some of it before I leave Quebec.

JAMES ELLIOT, Capt. Barque *Berbice*, Aberdeen.

Quebec, 23d Oct., 1851. 478

The PLANTAGENET WATER is Sold Wholesale and Retail, only in one place in Montreal, at the Depot, No. 4, Place d'Armes.

THRASHING MACHINES.

LETTERS PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,

SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,

one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shops, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.

We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.

Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.

All orders addressed to us, or our Agent, WM. JOHNSON, will be promptly attended to.

Machines shipped to any port in Canada, and every one warranted to be as good as recommended.

Liberal terms of payment allowed.

B. P. PAIGE & CO.

Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.

All genuine Machines will be accompanied by a Deed signed by B. P. PAIGE, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using said Machines.

B. P. PAIGE.

HEALTH WHERE 'TIS SOUGHT!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND STOMACH, WHEN IN A MOST HOPELESS STATE.

*Extract of a Letter from Mr. Matthew Harvey, of Chapel Hall, Airdrie, Scotland, dated the 15th of January, 1850.*

To Professor HOLLOWAY:

SIR,—Your valuable Pills have been the means, with God's blessing, of restoring me to a state of perfect health, and at a time when I thought I was on the brink of the grave. I had consulted several eminent Doctors, who, after doing what they could for me, stated that they considered my case as hopeless. I ought to say that I had been suffering from a Liver and Stomach complaint of long standing, which during the last two years got so much worse, that every one considered my condition as hopeless. I, as a last resource, got a box of your Pills, which soon gave relief, and by persevering in their use for some weeks, together with rubbing night and morning your Ointment over my chest and stomach, and right side, I have by their means alone got completely cured, and to the astonishment of myself and everybody who knows me.

(Signed,) MATTHEW HARVEY.

CURE OF A CASE OF WEAKNESS AND DEBILITY, OF FOUR YEARS' STANDING.

*Extract of a Letter from Mr. William Smith, of No. 5, Little Thomas Street, Gibson Street, Lambeth, dated December 12th, 1849.*

To Professor HOLLOWAY:

SIR,—I beg to inform you that for nearly five years I hardly knew what it was to have a day's health, suffering from extreme Weakness and Debility, with constant nervous headaches, giddiness, and sickness of the stomach, together with a great depression of spirits. I used to think that nothing could benefit me, as I had been to many medical men, some of whom, after doing all that was in their power, informed me that they considered that I had some spinal complaint beyond the reach of cure, together with a very disordered state of the stomach and liver, making my case so complicated that nothing could be done for me. One day, being unusually ill, and in a dejected state, I saw your Pills advertised, and resolved to give them a trial, more perhaps from curiosity than with a hope of being cured; however, I soon found myself better by taking them, and so I went on persevering in their use for six months, when I am happy to say they effected a perfect cure. (Signed,) WILLIAM SMITH.

(Frequently called EDWARD.)

CURE OF ASTHMA, OF TWENTY YEARS' STANDING.

*Extract of a Letter from Mr. J. K. Heydon, 78, King Street, Sydney, dated 10th of November, 1849.*

To Professor HOLLOWAY:

SIR,—I have the pleasure to inform you that many extraordinary cures of Asthma have been effected here by means of your Pills. One is that of a lady residing near the "Razorback," who after having for twenty years been unable to make the slightest exertion, suffering very fearfully from shortness of breath, coughing and spitting; but is now, to use her own expression, able to run up to the top of that mountain. Another case is that of Mr. Caton, tailor, Hutchinson's Buildings, Clarence Street, who was so dreadfully bad that he was confined entirely to his bedroom for six months, prior to his commencing with your Pills, and attended regularly by his medical man, who pronounced him to be in a dying state; yet he, likewise, to my knowledge, has been restored to perfect health by the use of your Pills, and rubbing your Ointment night and morning into his chest. (Signed,) J. K. HEYDON.

EHE EARL OF ALDBOROUGH CURED OF A LIVER AND STOMACH COMPLIANT.

*Extract of a Letter from His Lordship, dated Villa Messina, Leghorn, 21st February, 1845.*

To Professor HOLLOWAY:

SIR,—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and, at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent of the faculty at home, and all over the continent, had not been able to effect; nay, not even the waters of Carlsbad and Marienbad. I wish to have another box and a pot of the Ointment, in case any of my family should ever require either. Your most obliged and obedient servant. (Signed,) ALDBOROUGH.

*These celebrated Pills are wonderfully efficacious in the following Complaints:*

ANGEL HOTEL, *DALE STREET*, LIVERPOOL.

S. TOWERS, Proprietor of the above Hotel, begs most respectfully to inform the Citizens of the United States and Canada that the "Angel Hotel" is a First Class Establishment. Great improvements and alterations have recently been made, which render it equal to any House in Liverpool.

The Family Department of the Hotel will be found to embrace everything tending to comfort, whilst to Foreigners visiting Liverpool it presents additional accommodations, as a Suite of French Italian, and German Servants form a portion of its arrangements.

The Hotel is situated within a few yards of the Exchange, and the principal business parts of the Town, and within five minutes walk of the Docks, Custom House, and Railway Stations.

S. T. has been the Proprietor of the "Angel Hotel" twenty years, and for the last seven years the Proprietor of the Queen's Hotel, Manchester, which he is now giving up to devote all his attention to the former, where he hopes to have that kind patronage he has so long been favoured with; assuring those who patronise him that every thing will be done to conduce to their comforts, and at moderate charges.

Warm Baths, Smoking Rooms, and Billiard Rooms, are on the premises.

*N. B.*—Captains of Ships will find this Establishment very convenient, being one of the nearest respectable Hotels to the Docks.

TURKISH BLACK SALVE.
UNDER THE PATRONAGE OF THE HONORABLE THE EAST INDIA COMPANY.

THIS SALVE, prepared from the original Receipt, procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the Continent, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes of the community, and the encouragement necessarily precludes entering into any adequate detail of its merits, but, for the information of the public, it is intended to publish, from time to time, such statements of cures as have or may occur. It has been used for the following complaints with the most complete success:—Such as Swollen Glands, Broken Breasts, White Swellings, Rheumatism, Gout, Pains in the Joints, Lumbago, Neuralgia, Chilblains, Fever Sores, explosions, or other causes, Burns, Fever Sores, Scrofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Boils, Frostbites, Ulcers, Chilblains, Ulcerous Sore Throats, and Bunions. If used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains in the Chest, Palpitation of the Heart, Inflammation of the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. In fact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve.

Sold in Montreal by S. J. LYMAN & Co, Place d'Armes; SAVAGE & Co., Notre Dame Street; URQUHART & Co., Great St. James Street; WILLYAMAN & Co, St. Paul Street, and in all the principal Cities in Canada.

R. R. R.
THE PROPHECY FUL FILLED.

IN the month of August, 1849, we promised to the world that we would produce a medicine that would instantly stop the most severe pangs of pain, and speedily remove its cause.

We proposed to Hospitals, and all other Institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce our Ready Relief for their investigations, and to illustrate its merits and miraculous power over pain upon the patients.

We claimed that it would allay, in a few minutes, the most severe Cramps and Spasms—it would arrest the progress of that dread plague, the Cholera—that in a few minutes it would change the hard, knotty, cold, and lifeless body, to warmth, vitality, and vigor.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop all painful and diarrhoea discharges, and impart a genial warmth to every organ and secretion of the body; that it would positively relieve the most severe and disagreeable pains of sick and nervous heads-ache in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pangs of Neuralgic pains, and permanently cure this excruciating affection. That it would stop the most tormenting toothache in a few seconds.

That it would relieve all Rheumatic pains in fifteen minutes, and cure many Chronic cases of Rheumatism in a few hours.

That it possessed a miraculous soothing and relieving influence over all gastric derangements, from Dyspepsia, Neuralgic, Nervous, and Bilious complaints, and that the patient suffering the most excruciating tortures, would feel its soothing influence in a few minutes.

The world was startled at the publication of our discovery. The wise men of medicine, Science shook their heads in doubt. The sick and afflicted hoped yet, feared that, like other remedies, it would cure quicker on paper than in experiments; thousands and tens of thousands were suffering with the most excruciating pains, at once determined to try the humane power we, that from Asia to the most every village, town, city, within 500 miles of New York, we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it good; the most torturing pains were mitigated; weak and feeble victims of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgia, Sick Head-ache, Nervous, Gall Stone, Chilblains, Cramps, Spasms, Cholera Morbus, and, in fact, all painful and distressing complaints, which we could not relieved from their tortures, and restored to health. Its fame spread from city to city, the people sounded its wonderful virtues far and wide, and ere the year had run its yearly course,

FIVE MILLION BOTTLES WERE SOLD!

in every town in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New York, nine cities in Michigan, Wisconsin, Illinois, Indiana, Missouri; the people have tested its merits, and pronounced it a safeguard against disease, and a quick antidote for all pains. In New Jersey, Pennsylvania, Virginia, Maryland, Delaware, the Carolinas, Georgia, Alabama, and Louisiana every town in each State it has made friends, and proved its efficacy.

TO THOSE WHO KNOW NOTHING OF IT.

If you are unacquainted with the merits of Radway's Ready Relief, and if you reside in either of the States mentioned above, we refer you to the Druggists, to Physicians, and the People. Take a bottle of it to any skilful Physician, let him test it, we will risk its reputation on his opinion.

One drop has frequently cured the most tantalizing Tooth-ache.

Forty drops, taken three times per day, will cure Sour Stomach,

Thirty drops, taken four times per day, will cure Weakness and Debility.

Ten drops, taken every ten minutes, will cure Diarrhœa.

Thirty drops has, in fifteen minutes, stopped the Sick Head-Ache.

Sixty drops, taken every twenty minutes, has cured Cramps, Spasms, &c.

Thirty drops has, in fifteen minutes, cured Tic Doloreux.

Thirty drops has, in twenty minutes, stopped the pains of Neuralgia,

Thirty drops has, in fifteen minutes, cured Chilera Morbus.

One application externally has stopped the most painful Rheumatic affliction, and cured Sprains, Strains, and Spasms.

Three applications has cured the Salt Rheum.

Three applications has cured the Rash and Tetter.

Three applications has cured Pimples and Blotches.

Six applications has cured the Erysipelas.

Three applications has cured the most painful Swelling.

Six applications, in twenty-four hours, cured Curved Spine.

One application, in 15 minutes, cured the Lumbago,

SOLE AND PROPRIETOR.

Reader, do not credit the statements on account of the above assertions, we state only what it has done, what we know it will do. Therefore, if you suffer pain, buy it a trial, and, our word for it, you will become a firm friend of our quick and ready remedy.

Price of Radway's Ready Relief, 50 and 25 cents per bottle.

BEAUTY.

Complexion richly tinted with the bloom of health,
Cheeks that vie with the rose, and lips that rival coral,
Teeth as pearl and as the fragrant rose—
Breath as of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
And long, luxuriant tresses gracefully o'er the swan-like neck,
No dark repulsive spots, to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece,

RADWAY'S MEDICATED SOAP,

Composed of the most delicious, rare and fragrant gums, Oil extracts, oils, and costly essences—
Of flowers, roots, trees, and essential oils,
Possessing wonderous virtues o'er skin diseases.
TO THE COMPLEXION IT IMPARTS BEAUTY.
Rendering the skin fair as well as white, in the purest,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,
And a healthy action to the skin restored.
To the teeth, it gives whiteness and prevents decay,
Imparting to the breath a sweet and smooth,
Transforms the most repulsive, and disfigured visage,—
To a clear and beautiful appearance.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the hair,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive.—
To dress the hair, makes it smooth and glossy,—
Strong and beautiful, &c.
*Radway's Circassian Balm is the "ne plus ultra."*

THIS GALVANIC EMBROCATION is an unparalleled remedy for the Cure of Rheumatism, Acute or Chronic, seated in the Head, Joints or Limbs, Tic Doloureux and Gout, in its worst forms, Palsy, Fits, Scrofula or King's Evil, Spinal and Hip Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Chilblains, Fever Sores, Salt Rheum, Ring Worms, White Swellings, Diseases of the Skin, Ecrupelas, Goitre or Thick Neck, It is likewise highly recommended in the most confirmed cases of Scrofula and Scrofulous Affections of the Neck, Affections of the Spine, Mercurial Affections, &c. &c.

It is now generally admitted, by the learned and scientific, that the mysterious power called *Galvanism* or *Magnetism* is in fact the principle of Vitality or Life, and that disease in many of its most painful forms is entirely owing to the absence of this Galvanic or Magnetic power in its healthy proportions, If, then, we can readily supply that wondrous power, when it is thus deficient, we can successfully combat disease; and this has been fully and perfectly sustained by this most wonderful scientific discovery, of combining Magnetism or Galvanism with a Fluid which has cost the inventor of this remedy years of study and labor.

There is not an intelligent Physician, who has kept pace with the progress of science, that does not readily approve of the use of the Magnetic power in various diseases, and there is scarcely a Medical Journal, either in this country or Europe, which makes its appearance, without the statement of various cases, showing some new effects of these wonderful agents, or corroborating previous experiments in the medical use. The inventor of the *Galvanic Embrocation* has great pleasure in being able to state, that a majority of the most distinguished Physicians of New York constantly recommend this Embrocation in their practice, and from many of them he has received the kindest testimonials of approval and commendation.

HUMAN HAIR.—HYPERION FLUID.—This is a composition admirably adapted to the discase of the hair, and has the particular merit of being prepared purely from vegetable ingredients, so that its application is perfectly safe. How often do we perceive young persons with hair nearly grey, or afflicted with baldness, all arising from inflammation of the skin of the head, caused by severe study, violent grief, and other mental afflictions. By a liberal use of the Hyperion, in a short time they will find, to their delight, a complete change will have taken place in the action of the skin, and a rich and luxuriant growth of hair, of its original color, will shortly follow. Its effects in cleansing the hair from scurf and dandruff are also truly wonderful. The Hyperion should be one of the principal appendages to every lady's and gentleman's toilet.—See *Advertisement.* 163

SCROFULOUS AFFECTIONS, &c.

In all these distressing and prevalent cases, there is no question regarding the efficacy of this Medicine, an eminent Physician of this city, writes as follows:—

Dr. Sherwood's Galvanic Embrocation, I regard as the most efficacious of all remedies in Scrofulous affections, some of my children, the daughter of 5 years was much afflicted with a very inveterate and protracted Scrofulous affection, which had continued its ravages nearly two years, various remedies were tried but without effect. The disease exhibited itself in several deep-seated sores the discharge from which was acrimonious and very fœtid. At this crisis, I commenced the treatment with Dr. Sherwood's Galvanic Embrocation—the only remedy used in connection, was a decoction of Sarsaparilla, which soon conquered the disease, and a complete cure was effected. 225.

THE BRITISH PERIODICALS
AND THE
*FARMERS' GUIDE.*

LEONARD SCOTT & Co.,
*No 54, Gold Street, New York,*

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural Work called

"THE FARMERS' GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE,"

By HENRY STEPHENS, F. R. S., of Edinburgh, Author of the "Book of the Farm," &c., &c., assisted by JOHN P. NORTON, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable Work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splendid Steel Engravings, and more than 800 Engravings on Wood, in the highest style of the Art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the *pictorial* feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The Work is being published in Monthly Numbers, of 64 pages each, exclusive of the Steel Engravings, and is sold at 25 cents each, or $5 for the entire Work in Numbers, of which there will be at least 22.

The British Periodicals Re-Published are as follows, to wit:

*The London Quarterly Review, (Conservative,)*
*The Edinburgh Review, (Whig.)*
*The North British Review, (Free-Church.)*
*The Westminster Review, (Liberal.)*
AND
*Blackwood's Edinburgh Magazine, (Tory.)*

Although these Periodicals are conducted by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their *literary* character which gives them their chief value, and as that they stand confessedly far above all other journals of their class. *Blackwood*, still under the able management of *Christopher North*, maintains its ancient celebrity, and is, at his time, unusually attractive, from the serial Work of Lord Mahon and other literary notabilities, written for that Magazine, and first appearing in its columns here in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," "Who'll be Prime Minister," "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reproduced by those publishers from the pages of Blackwood. *After it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

The following TESTIMONIALS, from parties of high respectability, will place its efficacy above suspicion:—

With pleasure I assert, that the use of SMITH'S EXTERMINATOR was attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any inconvenience.
C. F. BAILLARGEON, Pric.
Quebec, 7th March, 1848.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the annoyance, without success. Having been ately recommended SMITH'S EXTERMINATOR, I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.
BENJAMIN HART.

I hereby certify, that by using SMITH'S EXTERMINATOR it has perfectly succeeded in ridding the College Premises of Cockroaches, Crickets, and such like disgusting Insects, which were before very numerous.
S. VILLENEUVE,
Director of Montreal College.
Montreal, April 29, 1848.

*From the Rev. B. Davis. D. D., Minister of the Baptist Church, Montreal.*

I most willingly bear testimony to the good effects of SMITH'S EXTERMINATOR. I found my present dwelling over-run with Beetles; the nuisance bid defiance to all efforts to abate it, until this preparation was applied. One Box has sufficed to exterminate the Insects almost entirely from the house. Similar cases of success have occurred in my neighborhood.

DR. HALSEY'S GUM-COATED
FOREST PILLS.

THESE PILLS are warranted not to contain any Mercury or Mineral whatever. They purge without griping, nauseating, or weakening; can be taken at any time without hinderance from business, change of diet, or danger of taking cold. They neither have the taste or smell of medicine, and are five times more effectual in the cure of disease than any Pills in use.

But a short time has elapsed since these great and good Pills were first made known to the public, yet thousands have already experienced their good effects. Invalids given over by their Physicians as incurable have found relief, and been restored to sound and vigorous health from their use.

Never has any remedy had more reliable and stronger proofs of its good qualities than Dr. Halsey's Forest Pills. Testimonial after testimonial, showing their great powers of curing in almost every class of disease, have been tendered to us by individuals of undoubted character and respectability. The following testimony is from a respectable and wealthy farmer residing near Utica, New York:—

UTICA, Nov. 9, 1848.

Every fall, for several years back, I have had much sickness in my family of Bilious Disorders and Ague and Fever. In the fall of 1848, two of my sons were taken at the same time with Bilious Fever. In former seasons, when sickness occurred in my family, I had always employed a Physician. But at this time having two boxes of your Forest Pills in the house, I concluded to try them. I gave to each of them six Pills, and four hours after I gave them three Pills more. They soon operated, bringing away much black and green matter. On the following day the fever had left them, and they both recovered their health in a few days. Never at any time since have I always kept your Pills at hand, and in all cases of sickness we have used them with the most happy effects.

Almost every day new Certificates are received from persons of the highest respectability bearing testimony to the great cures made by

*DR. HALSEY'S FOREST WINE AND PILLS!*

Certificate of Mr. John Crawford, No. 546, Pearl Street, New York.

This is to certify, that on THURSDAY, June 16, I was attacked with violent spasmodic pains in the stomach, attended with high fever and great thirst. So violent was the pain that I could not sit up. I took a dose of Dr. Halsey's Pills and three half wine-glasses of the Forest Wine, which gave me immediate relief, and in a few hours, the pain was entirely gone. I took a dose of Dr. One Box has sufficed to exterminate the Insects almost entirely from the house. Similar cases of success have occurred in my neighborhood.

KEATING'S COUGH LOZENGES.

A CERTAIN REMEDY for disorders of the *Pulmonary Organs*—in Difficulty of Breathing—in Redundancy of Phlegm—in Incipient *Consumption*—(of which *Cough* is often the unwelcome herald)—there is no remedy efficacy. In *Asthma*, and in *Winter Cough*, they have *never* been known to fail.

KEATING'S COUGH LOZENGES are free from every deleterious ingredient; they may, therefore, be taken at all times by the most delicate female, or by the youngest child; while the *Public Speaker* and the *Professional Singer* will find in them a powerful auxiliary in allaying the hoarseness and irritation incidental to vocal exertion, and consequently a powerful auxiliary in the production of melodious enunciation.

Prepared and Sold, in Boxes, 1s, 1½d., and Tins, 2s. 9d., 4s. 6d., and 9s. 6d. each, by THOMAS KEATING, Chemist, &c., No. 79, St. Paul's Church Yard, London.

Sold Retail by all Druggists and Patent Medicine Venders in the Kingdom.

*N. B.*—To prevent spurious imitations, please to observe that the words "*Keating's Cough Lozenges*" are engraved on the *Government Stamp* of each Box.

IMPORTANT TESTIMONIALS.

*Copy of a Letter from "Colonel Hawker," (the well-known Author on "Guns and Shooting.")*

LONGPARISH HOUSE, NEAR WINTERSLOW, Hants, October 21, 1846.

SIR,—I cannot resist informing you of the extraordinary effect I have experienced by taking only a few of your LOZENGES. I had a cough for several weeks, which defied all the usual remedies, and I got completely rid of it by taking about half a small box of your Lozenges, which I find are the only ones that restored my cough without deranging the stomach or digestive organs.

I am, Sir, your humble servant,
P. HAWKER.

To Mr. KEATING, 79, St. Paul's Church Yard.

{ WILLIAM STREET, EAST INDIA ROAD, Poplar New Town, Nov. 8, 1849.

SIR,—I conceive that it is merely the manifestation of a proper sympathy for the afflicted, to express you obligations for the unlooked for and astonishing relief which I have obtained from the use of your Cough Lozenges. I have for the last four years been afflicted with a distressing cough, with a difficulty of breathing. Accidentally hearing of your Cough Lozenges, I purchased a box of Mr. Sheppard, Agent, Mr. Kernot, Medical Institution, Chrisp Street, Poplar New Town,
