"The Advance House of The North Shore"

The Most Charming of All -

Woolen Skirts \$4.95 to \$15.00

Skirts are always in vogue. But why shouldn't they be? They are so easy to slip into with a fresh waist and a jaunty coat, and you really enjoy the change from a dress or suit. Very pretty new styles at very attractive low prices are being offered. There are skirts that were very much higher priced originally and include skirts of such high quality that you would ordinarily pay even more than twice their present prices. Some are serges, some poplin, some satin, some tweeds. The color combinations in stripes and plaids, bring in some unusual two-tone effects which you will agree are quite stunning. All sizes.

Blouses \$1.25 to \$12.00

A blouse would not be a blouse worth while, if it did not have something that was decidedly different. Peasant blouses that hang in gathers from rounded neckline and are picturesquely embroidered in bright colors that are most attractive. A new shipment of waists of Crepe-de-chine and Voiles are now on display, roll and flat collars are seen on them. Prices go from \$1.25 to \$12.00.

A Decided Bargain

Coats \$10.50, \$15.50, \$37.50, \$47.50

Some in the lot were up to \$90.00.

It matters not, if the season be nearly half spent, when such lovely coats are offered at a price so low. Coats bought this season are sure to be in good style next season, they always are. Besides many of them can be worn for the spring. Coats that were priced very close at the beginning of the season, some as high as \$90.00, are now offered at \$47.50. They are in good style, good material, our very finest and in popular shades. Why not enjoy the comfort of one for the balance of this season, and the large amount you would save if you wait until next season to buy one?

"The Advance House of The North Shore"

RECIPROCITY FOR TRAINED NURSES

Many matters of importance were dealt with at the meeting of the New Brunswick Graduate Nurses' Association, held last evening in the nurses' home of the General Public Hospital with the president, Miss Margaret Murdock, in the chair. Those present from outside St. John were: Miss Whyte, of Doaktown; Miss MacMasters, of Moncton; Miss Branscombe, of St. Stephen; Miss Alice Burns, of Moncton, and Miss H. Melkiohn, superintendent of public health nursing in the province. The members of the council present, besides Miss Murdock, were: Miss Whyte, Miss Fraser, Miss Belding, Miss Mitchell and Mrs. G. L. Dunlop.

The matter of reciprocity with other provinces and with the United States was thoroughly discussed, and it was finally decided, on motion, that the New Brunswick Association would recognize the standing and allow full privileges to the nurses of other provinces and of those states which recognized a fifteen daily occupied bed hospital as a training school and would be willing to allow the same privileges to New Brunswick nurses.

The fixing of the date of the annual meeting was left with the executive to decide.

The much debated subject as to

whether nurses with only two years' training should be acceptable as members of the association was once more discussed and it was decided not to accept the nurses who had not had the three years' course of training.

Information was received concerning the national war memorial to nurses who died or were killed during the war. The proposed memorial is to be erected in Ottawa at a cost of \$65,000, and the share of the cost which the New Brunswick Association would be called upon to bear is \$2,000. The meeting did not favor the plan; but rather than have the names of the New Brunswick nurses who gave their lives left out of the memorial record, it was decided to fall in line with the other provinces. Miss Alice Burns, of Moncton, was appointed general convener of the committee for the memorial fund, and her assistants were named as follows:—Miss Whyte, of Doaktown; Miss Budd, of Woodstock; Miss M. Melkiohn, of Fredericton; Miss McMullin, of St. Stephen, and Miss Cambridge, of St. John.

It was decided to raise the fees for nursing contagious cases from \$25 a week to \$35 a week, but to have this new schedule take effect only after the annual meeting in September.

The meeting was largely attended, about twenty-five of the St. John nurses being present, besides those already mentioned. There are also gathered between 200 and 300 registered nurses members of the association

in New Brunswick. After the business of the meeting had been disposed of, a social hour was enjoyed and refreshments were served.

Revival Of Gold Miners In Nova Scotia This Year

Halifax, N. S., Feb. 8.—According to report received by the Provincial Department of Lands and Mines there will be considerable revival of gold mining in Nova Scotia this year. Many prospectors have taken out licenses, and old companies have been enlarging their plants.

Gold mining has been carried on in this Province for over a century, but the production has not been large, the greatest annual output being valued at \$560,000. Between 1862 and 1920 the production was 967,457 ounces, which at a valuation of \$19 per ounce was worth \$18,229,883. The annual production has ranged between 20,000 and 30,000 ounces.

Nova Scotia gold is derived entirely from vein workings. The auriferous quartz bearing veins occur in groups, running parallel to one another in a system of anticlinal domes. The Atlantic shore from Canis to Yarmouth is occupied by the auriferous strata. The width of this district varies from ten to forty miles and the area in which gold occurs is estimated at 3,000 square miles.

MIRAMICHI LOSES PIONEER CITIZEN

With the passing of John Graham Anderson, the Miramichi loses one of its pioneer citizens. Born at Douglastown, in 1826, one year after the Miramichi fire. Mr. Anderson has resided there all his life and was one of the leading residents of that community. The late Mr. Anderson had been in failing health for some years, but suffered a paralytic stroke from which he passed away. He is survived by three sons, John Anderson, of Brockton, Mass.; Finley, in the West, and Rev. George S. Anderson of Somerville, Mass.; also two daughters, Margaret, Mrs. John Alexander, of Douglastown, with whom he resided, and Annie (Mrs. Cook) Dorchester, Mass.

The funeral took place on Sunday afternoon 12th inst. at two o'clock and was largely attended. Services were conducted at the house and grave by Rev. Aex. Frith, and interment took place in St. James' Cemetery, Newcastle.

BEAVERBROOK'S ACTIVITIES

Max Aitken, or Lord Beaverbrook, shares the honor with Bonar Law of being the most prominent Canadian in England, and both were born in New Brunswick. Bonar Law confined his activities to politics, while Max Aitken dabbled in politics besides continuing his financial operations, became a peer and a multi-millionaire, and is now best known, perhaps, as a newspaper proprietor. Max has a full appreciation of the value of publicity, and he is willing to pay for it, but many generous acts have been placed to his credit. One of his latest adventures is described in a special despatch from London as follows:

That Lord Beaverbrook had offered to lend her husband £25,000 to assist his effort to stave off the crash of the City Equitable Fire Insurance Company here was stated by the wife of G. L. Bevan, chairman of the ill-fated concern, today. Beaverbrook was in no way concerned in the company's affairs, but offered his support a week ago through friendship and a desire to avert a catastrophe, Mrs. Bevan says. The Sunday Express had already hinted that Bevan had made a full breast of the company's affairs to the owner of that newspaper who, although he has announced his retirement from finance, is still regarded as a power in the money world. Whatever Beaverbrook's desire to help, the Express has been very outspoken in ventilating the affairs of the Equitable Company and its vanished chairman. It is understood no Canadians are involved in its losses—Exchange.

Winter Hard On Baby

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels, and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

REQUEST FOR INFORMATION BY CHIEF OF POLICE

The following letter is self explanatory and Chief of Police John H. Ashford would be grateful for any information, which any of our readers might be able to give in connection with this matter.

February 9, 1922
The Chief of Police,
Newcastle, N. B.
Dear Sir:

I am searching for the heirs of BLANCHE LOIS BERDELL, deceased, who are believed to be living in or near your town.

This decedent was born in Canada about the year 1861, and is believed to have gone to New York State (first to Buffalo and later to New York City) somewhere about 1875 to 1880.

Decedent stated to friends during her lifetime that her father remarried when she was 14 years old, which would be about the year 1875, whereupon deceased left home, as "her father marrying that woman broke her mother's heart." This would indicate that there was a divorce between her father and mother. She spoke of other children, which indicates that there were half brothers and sisters. It is also understood that her father was either a lumberman or a "lumberjack," some where on a river.

Will you be kind enough to make an inquiry with a view to locating the heirs of Blanche Lois Berdell, and give my inquiry such publicity as you can, so that the persons entitled to this estate may communicate with me without delay?

Yours very truly,
F. C. COX
(Other papers please copy)

OBITUARY

WALTER SCOTT
Walter Scott died at his home, Whitneyville, on Monday morning, February 13, after two years' illness, aged thirty-three. Mr. Scott was son of the late John Scott and Mrs. Isabel Scott, of Whitneyville. He is survived by his wife (formerly Miss Muriel Eteenger) and three young children, also three sisters, Mrs. William Betts, Millerton, Mrs. Ernest Payne, Lytleton and Mrs. William Cain, Boom Road.

JOHN B. McLAUGHLIN
On Tuesday, January 31, there passed away a much respected resident of Blackville, in the person of John B. McLaughlin at the age of seventy-four years. He had been hale and hearty for his age until stricken with pneumonia.

Mr. McLaughlin is survived by two sisters, Mrs. James Hawes, Blackville, Mrs. Fred Scott, Bellingham (Wash.), one brother, Thomas, in Downing (Wis.)

JOHN T. HAWKE
Mr. John T. Hawke, editor and proprietor of The Moncton Transcript, passed away Friday afternoon at his home, 65 Wesley Street.

Mr. Hawke who had been in failing health for the past two years, having suffered a paralytic stroke on December 31st, 1919 contracted a grippe about two weeks ago, since which time he had been bedfast. About ten days ago pneumonia developed and other complications, which terminat

SUSSEX'S GREAT GAME AT CHATHAM

Sussex triumphed over the Chatham team Friday night in the second game of the play off series by a score of four to nothing. It was by far the finest game of hockey ever played on Chatham ice. It was also a beauty to watch. No rough play by either team made it also the cleanest exhibition ever given. Players of both teams went for the puck and not the man. Frank Brown, of Moncton, who was to referee the match, could not reach here, and his place was ably filled by E. W. Watling, who only had to issue three penalties. This in itself shows how clean the game was.

Although shut out, Chatham was in the game at all times and had the best of the territory play in the last two periods. Early in the first period Sussex notched number one, and try as they could Chatham's attack could not pierce Finnegan, who gave the best exhibition of goal tending seen here this season. In the second period Sussex scored number two and then Chatham uncorked a burst of speed that was terrific, and kept the disc around the Sussex net for practically the whole period, making shot after shot, the majority of which Finnegan handled with apparent ease, but there was a lot of wild shooting which was just inches off the net. This period was productive of beautiful hockey.

In the final period Chatham tried hard to even up but Sussex scored two and were content to play on the defensive.

The whole Chatham line up played well up the ice and used every effort in their power but the man in the Sussex goal was like the rock of Gibraltar. For Sussex the whole team worked like Trojans, and were clearly the best team seen here, and were fast and clean.

Sussex—Finnegan, goal; Radcliffe, point; Hay, cover-point; Leclair, centre; Friars, right wing; Radcliffe, left wing.

Chatham—Eagles, goal; Currie, point; Duncan, cover-point; McMahon, centre; Keoughan, right wing; R. Cripps, left wing.

Spares: Sussex, Miller and Miller; Chatham, D. Cripps

ed in his death at 3.15 p. m. Friday.

The deceased leaves his wife, formerly Miss Della Thornton, of Aylmer West, Ontario; also three daughters, Mrs. John E. Barry and Mrs. Wilson W. Lodge, Jr., of Moncton and Mrs. Melville Howey, of Cereal Alberta. He also leaves six grandchildren Masters Jack and Wilson Lodge of Moncton, are grandsons of the deceased. One brother, Mr. Harry Hawke, of Lapeer, Michigan also survives.

CURLING
The Newcastle and Chatham Curling Clubs will meet tomorrow in the second annual curling match, when they play for the possession of the Silver Medal.

If you don't believe the cost of living in foodstuffs has dropped take your grocery bill for the past month and compare the prices with those of the same month a year ago. It may not be as much as one could wish for—but every little bit helps.

REFEREE MURRAY SENDS IN REPORT AND RESIGNATION

C. M. Murray who refereed the Campbellton-Chatham game has resigned as referee in the N. B. and the P. E. I. leagues.

Mr. Murray's resignation and report of the game to the league president, Dr. Sterling of Fredericton was as follows:

Chatham, N. B. Feb. 9, 1922
Dr. Sterling
Fredericton, N. B.
Dear Sir,—Re Campbellton and Chatham game:

Enclosed you will find a protest lodged by the Campbellton Hockey Team previous to starting the above game. Kindly give this your immediate consideration.

The game started a little late but was voted by the majority of the attendance as the fastest game they had seen in this rink and ended in a tie, the score being 2-2. The teams then agreed to play two 5 minute periods. In the first period Chatham scored 1 goal and just as the first five minute period was over a dispute arose, Chatham claiming that a Campbellton man who was penalized did not leave the ice and Campbellton claimed that a man was in the penalty box for said offence at the time the argument arose. Mr. Thom. Gilbert, the other referee who had penalized the above player, will explain the dispute as he saw it. The game ended in a dispute with the score standing Chatham 3, Campbellton 2.

It was a very unsatisfactory ending and it is impossible for me to express my regret at having had to referee it.

The game was very fast and inclined to be dirty, there was a fistic encounter in the third period which nearly ended in a riot.

My suggestion would be if this game had to be played over again to play it on neutral ice and import a referee who knows absolutely nothing about either team.

Kindly give this your immediate consideration and your final decision as it is very unsatisfactory the way it now stands.

Yours very truly
C. M. MURRAY
No. 46 King St. St. John, N. B.
P. S. Kindly accept this as my resignation as a referee in the N. B. Hockey League—C. M. Murray

TOWN MANAGER
The town manager idea of civic government is steadily making headway. A bill now before the Ontario Legislature authorizes Niagara Falls, Ontario, to appoint a town manager. If this bill is endorsed the appointment will be made so that the manager can take charge on the first of January next.

C. D. RICHARDS CON. LEADER IN THE LEGISLATURE

St. John, N. B., Feb. 9.—At a caucus of the provincial opposition (Conservative) held in the Seamen's Institute this evening, Charles D. Richards of Fredericton and member for York County, was named as the House leader of the party. Arrangements were made for the holding of a party convention at a later date. Lewis Smith, of Coverdale, member for Albert County and chief whip of the party, was the chairman and there was a good representation of out-of-town members and defeated candidates.

FATHER DELORME UNDER ARREST

Montreal, Feb. 14.—Charged with murder, Rev. Adelard Delorme, chaplain of L'Assistance Publique, was tonight held at detective headquarters for preliminary hearing in the arraignment court tomorrow following the finding of a verdict by a coroner's jury that he was criminally responsible for the death of his younger half-brother, Raoul Delorme, a student attending Ottawa University, whose body with the head riddled with bullets and wrapped in a cover from an automobile and the hands tied with twine was found in the early morning of Jan. 7 at Snowdon Junction, a lonely suburb of this city.

Race and Religion
After a session in which J. C. Walsh, acting crown prosecutor, developed the case of the police, Coroner McMahon warned the jury that there was one aspect of the case they must not overlook. He told them that they must not overlook the fact that though they were French-Canadians and Roman Catholics they must not let these facts influence them in considering a case of where crime had been committed. They must not be influenced either by the fact that a priest and a servant of the church might be effected by their verdict. The jury stood seven to one on their verdict, finding Father Delorme criminally responsible for his half-brother's death. The Abbe appeared to be unnerved by the finding and walked off briskly to the automobile in which he was conveyed to headquarters.

MAKE PERFECT BREAD

Railway News in Brief

Montreal.—According to a circular approved by Mr. W. B. Laniagan, Freight Traffic Manager, Canadian Pacific Railway, Mr. H. W. Gillis is appointed Assistant General Freight Agent, Eastern Lines, succeeding Mr. S. C. Hurkett, transferred. Mr. Gillis entered the service of the C. P. R. on May 19th, 1905, at Mile End Station, Montreal; in June, 1906, he became assistant biller in the local Freight Department, Place Viger Station; in November, 1906, he took up the position of junior clerk at Place Viger. Promotions following were: June, 1908, billing clerk, Outremont; December, 1909, clerk General Freight Department, Montreal; July, 1911, clerk divisional Freight Dept., Montreal; July, 1914, Assistant Chief Clerk, office of Freight Traffic Manager, Montreal; March, 1915, chief clerk to Freight Traffic Manager; September, 1918, chief clerk to Vice-President of Traffic; November, 1919, Assistant Foreign Freight Agent, Montreal; from the latter position he takes up his new post.

Montreal.—A conference of the members of the Quebec District Association connected with the Canadian Pacific Railway consisting of superintendents, yardmasters, agents, freight agents, freight and traffic men, telegraphers, and Dominion Express representatives, was held at the Place Viger Hotel, Mr. E. F. Lawson, Terminal Freight Accounting Agent, Montreal, presided. Mr. T. A. Martin, local freight agent, Montreal, was appointed permanent chairman, and it was decided to hold the next meeting at Prescott. There were nearly three hundred representatives present from all parts of the Quebec District and several important subjects were under discussion. During the afternoon Mr. A. Price, general manager, Eastern Lines, and Mr. W. B. Laniagan, freight traffic manager, Montreal, addressed the conference, and among those present were Messrs. I. K. Savage, general superintendent; W. J. Uren, assistant superintendent; W. H. Small, general passenger agent; J. McMillan, manager C. P. R. freight; E. W. Pennington, Dominion Express; and H. H. Lynch, chairman of the Brotherhood of Locomotive Firemen and Engineers. Mr. J. W. Ritchie was elected permanent secretary. Several subjects of a very interesting character were postponed until the next meeting.

New York.—Arrangements for securing traffic for the big addition to the Canadian Pacific fleet were made at the convention of the C. P. R. traffic officials. Passenger agents and other officials from practically every important centre in Canada and the United States attended the meeting.

New steamers with an aggregate tonnage of 130,000 are to be added to the C. P. R. fleet. This will mean greatly increased service out of both Vancouver and the St. Lawrence ports. Competition between ocean lines is now very keen and the C. P. R. men considered plans for securing for their company its share of the traffic. One feature will be the effecting of closer connection between the rail and steamship lines of the company. The C. P. R. will in future be able to book passengers in Chicago for passage to European ports and will carry them to the steamers at Montreal or Quebec in special C. P. R. trains.

The addition to the steamship service as outlined at the convention will include a new fortnightly service to the Orient from Vancouver in addition to the present sailings of the "Empress of Russia" and the "Empress of Asia." The new steamers will be the "Empress of Canada" and the "Empress of Australia."

First sailings will be in April. On the eastbound trip the new steamers will call at Honolulu. Detailed arrangements were also discussed for rail connections with the new St. Lawrence service to Chatham, Southamton and Hamburg. The "Empress of Scotland" and the "Empress of France," the new boats to go on this service, will thus give the Canadian company close touch with Davis and Berlin. The new boats will start as soon as the St. Lawrence navigation opens.

The "Empress of Scotland" will start February 4th for a cruise of the Mediterranean with a large passenger list. She will return to a Canadian port in April.

If every cloud had a silver lining, silver will be plentiful soon. Fattening Europe back on her feet will get her off our hands.

TWO N.S. CLUBS DEFAULT ON THE MCLELLAN CUP

Bathurst, N. B., Feb. 15.—The Westville Curling Club which was scheduled to play Bathurst tonight for the Mclellan Cup, sent word a few days ago that they would be unable to uphold their challenge and therefore defaulted. North Sydney, which came next on the schedule, has also defaulted and next Wednesday the Oxford, N. S., club takes the date allotted to the North Sydney curlers. From information so far received from Oxford it is believed that their challengers will be on hand next Wednesday to endeavor to loosen Bathurst's stranglehold on the famous trophy emblematic of the Maritime Provinces championship.

ADVISED OF SINKING LUSITANIA

New York, Feb. 8.—James P. Keating, magazine writer, today asserted that George Sylvester Viereck, former editor of the Fatherland, had predicted the sinking of the Lusitania four days before it happened. Keating made this assertion in testifying for the Chicago Tribune in the \$500,000 libel suit brought against the newspaper by William Hale Thompson mayor of the Illinois city, in connection with charges of pro-Germanism made against him.

Shackleton To Be Buried On South George Island

Montevideo, Feb. 8.—The body of Ernest Shackleton is to find its last resting place on South Georgia Island, not because the famous explorer died there but because it is the gateway to the Antarctic—the scenes of his exploration. It has been learned that the decision to bury the body there was taken by Lady Shackleton, who is acting in the belief that she is fulfilling her husband's wishes. It became known today that definite instructions had been received from England to return the body to South Georgia.

"Can"

ADVERTISING is the public expression of a master's will and wish—his word of power.

We want to say this to the merchants of this town:

You CAN make the public of this community buy more goods from you.

You CAN teach the public new customs, new tastes, new habits. You CAN make the public do what it is not in the habit of doing. Powerful and persistent advertising has revolutionized modern life. It sends people travelling. It has made the motor-car a necessity. It makes women change the fashion of their apparel twice or thrice a year. It selects the very food we eat.

A WORD TO THE PUBLIC

Does not the publicity expressed will and wish of the merchants of this community influence you in your shopping? Do you not go where you are guided? Are you not very attentive and responsive to the advertisements which appear each week in the columns of the "ADVOCATE"?

SHOWS LACK OF APPRECIATION OF GOOD MUSIC

Under the caption, "Co-operation," Miss Lucia Fyde, head of the Vocal Department of Mt. Allison Conservatory of Music, says: "It is nearly twelve years since I first crossed the Atlantic to come to Sackville, nearly nine since I was in

the great city of London. Last year, when Christmas was almost upon us, I felt a great nostalgia for a big city and a hunger for all that it could give me in the way of Art and Music. My soul was feeling starved and atrophied for lack of anything of the kind in Sackville and the towns and cities of these provinces. My life is a perpetual giving out of all the Art-force I have stored, with nothing to draw upon to revivify it. Really fine outside music so seldom comes this way; it is as much necessary to the artistic soul as ordinary food is to the body. I suddenly made up my mind to go to New York for the holidays and feast on the wondrous music and art in all its presentations now to be found in that great city. My first visit! And how it delighted me in a hundred ways! Its wide, beautiful streets, great buildings, fine churches, clear exhilarating air; but most of all, the evident love of its people for the highest beauty and a thirst for its expression. Nevertheless there is a blemish on all that excellence, a fly in the ointment and that a very big fly, that buzzes and buzzes at you everywhere fairly shrieks at you—money, with a very large M. One sees a house which is pointed out as being the residence of so and so, the richest millionaire in the world so many million dol-

Officers of the "Empress of Scotland"

TERRIBLE POISON GAS.

A Dozen Lewisite Bombs Would Destroy Whole.

Since the war all the great powers have been hard at work on the gas problem. For it seems to be fully recognized that in future international conflicts poison gas will be the chief killer.

To the every-day peaceable citizen this idea is particularly interesting, inasmuch as it is expected that cities and towns will be systematically deluged with gas, dropped in bombs from airplanes. Whole populations—men, women and children—will be wiped out. The rule against killing non-combatants no longer holds.

Gas operations during the recent war were crude and hardly more than experimental. Next time they will be conducted on a huge scale, scientifically, and with chemicals incomparably more destructive to human life.

Soon after this new and frightful weapon came into use, it was realized that what was really needed was a gas that would be invisible and odorless, so as to give no warning of its presence in the atmosphere. It must, of course, be heavier than air, so as to sink into dugouts and cellars, where refuge might be sought, and there remain, as it were, in pools. In addition, it must be wholly satisfactory, it must poison the human system by mere contact with the skin, so that gas-masks would furnish no protection.

The Allies chemical warfare services was working hard on this problem during the war, and solved it. A gas called "Lewisite" was developed which met all of the above-mentioned requirements, and great quantities of it were being manufactured for use in the expected campaign of 1919, when suddenly the armistice came.

A gas bomb is a mere container, its walls only thick enough to hold the fluid chemical; hence nearly all of its weight is represented by its contents. A single such gravity projectile may carry 500 or 1,000 pounds of the lethal stuff, and if dropped upon a town it cannot miss the target. It is estimated that a dozen Lewisite bombs of large size might, with a favoring breeze, destroy the entire population of a big city.

It is understood that since the armistice the chemical warfare service has produced a gas that is even more effective than Lewisite, inasmuch as its spread is far greater relatively to the quantity of chemical used. A mere capsule of it in a small grenade can generate acres of death.

Facts such as these cannot be made too widely known or impressed too strongly upon people's minds in order that fear and horror of war may become so great that nations will no longer undertake that criminal method of settling their quarrels.

Japan Covets Siberia.

Everybody seems to imagine that Japan wants to gobble China. Not so, writes Chase S. Osborn, Jr., in the Fresno Republican. Siberia is the objective. While the world is encouraged to believe that Shantung is just the beginning of an effort to seize the major portion of China, Japan is turning elsewhere. True or not, it would seem good strategy. In search of minerals and food, thus to provide opportunity for industrial expansion, Nippon eyes Siberia, says Mr. Osborn, going on to say: "While Japan has gone as far as she can in a territorial way in China, Siberia, alone and unprotected, and so far without being claimed by any foreign power, offers an attractive plum that makes the Japanese eye shine with an eager desire."

"Siberia, with its untold wealth, iron, coal, timber, tin, gold, fisheries, agriculture—everything and anything in quantities that have defied the science of man to measure—Siberia, a vast storehouse, untouched and unclaimed except by natives, defenceless but for a defiant will—Siberia, that is but a few hours away from Tokio—and Osaka—Siberia, the land that offers a solution for a vexing problem—that is the great prize. Japan is striving to get it with all of her tremendous energy and cunning."

CANADIAN PEACE-TIME HEROES

The Phenicians had no rule to cover it there was nothing in the Amalfi code forcing men to rescue their brethren drowning at sea, but there is that in the heart of every British seaman, born of tradition, which does not permit him to pass by without aiding fellow seafarers in distress. When the call went out from the French liner Hsin Tien asking for assistance last April on the coast of China the crew of the Canadian P.C.O.S. liner "Monteagle" heard the call and hurried to the assistance of the fast sinking vessel. It was in recognition of this act of rescue on the part of both the white and Chinese members of the crew of the "Monteagle" that the presentation of the Liverpool Shipwreck and Humane Society medals and certificates was made recently on board the boat as she lay at the company's dock in Vancouver. Lieut. Gov. W. C. Nichol made the presentation in well directed and impressive language. Particularly did the lieutenant-governor pay attention to the boys receiving the medals admonishing them to even greater shine in the future. Official Proud of Men. Proud of the work of their men the Canadian Pacific Steamship Company planned the presentation, having all company officials present and many prominent business men of the city. In the absence of J. Vaux, assistant governor, Mrs. Vaux received her husband's medal and certificate. The C.P.E.R. recognized the bravery of the Chinese by monetary prizes several months ago when

they were transferred to other ships. The story of the rescue is a thrilling one, though the reports of the officers of the "Monteagle" are not devoted to "high lights," dealing simply with an outline of the actions taken. Captain Hosken's report read: On April 7, noon, we left Hong Kong. By midnight of that date the wind had increased to strong head winds and rough sea. On April 8 the wind continued and the sea was high, the vessel pitching and spraying the decks. At this time a steamer was sighted flying signals of distress. I am pleased to be able to report that we were able to rescue the whole crew of this unfortunate steamer with the exception of four of the Chinese sailors, who were apparently drowned when their own boat capsized on being put into the water. Owing to the strong winds and high sea, and the fact that only two boats of the "Monteagle" were working, it was hard to manoeuvre, adding greatly to the difficulty of the rescue crew. French Boat. The distressed steamer was the French vessel "Hsin Tien," of Saigon. At 9.30 a.m. the "Monteagle" was in a position to lower her lifeboats and two of these were despatched, one in charge of Chief Officer Ferguson and the other under First Officer Campbell. They had Chinese crews. About the same time the officers of the French vessel launched two boats, but one was capsized, and it is believed four other Chinese seamen were drowned at the time. The other boat, with 16 Chinese, got safely away. The

chief officer's boat successfully reached the "Hsin Tien," and called to the men on the steamer to jump, but owing to the high seas running the Chinese on board refused, but one white man made the attempt and was taken on board the lifeboat. The wind and sea drove the first officer's boat past the sinking vessel, and drifted leeward in spite of the efforts of the Chinese crewmen. The "Monteagle" shifted to leeward, picking up the 16 Chinamen in the "Hsin Tien" boat, then took on the officer's draft, and finally at 11.45 a.m. picked up Mr. Campbell and his men. The "Monteagle" Chinese were willing to venture again into the small boats, but Captain Hosken was convinced that they did not have sufficient stamina to stand the long fight necessary to operate the boats, so he called for a voluntary white crew. At 12.30 p.m. the volunteers got away, and an hour later were back with 18 persons. Great difficulty was experienced in getting the men off the wreck owing to the heavy seas. At 2 p.m. the lifeboat with its European crew again left the "Monteagle." The "Hsin Tien" was getting very low in the water, and there were 31 men to save. Owing to the wind and sea the lifeboat, which was working down to the steamer from windward, missed the vessel and was driven to leeward. The "Monteagle" swung around, picked up the boat and towed it to the wreck, bound for Swatow from Shanghai. She was off the Lamook Islands, a very dangerous bit of water, when sighted at 8 a.m. The "Monteagle" was asked to stand by, and an hour later dropping her to

where she could probably make the side of the "Hsin Tien." At 3 p.m. the last person was taken off the French ship, and 15 minutes later all were safe on the "Monteagle." The total rescued was six Europeans and 60 Chinese. At 4.30 p.m. the "Hsin Tien" was sunk. Praise for Rescue. "Early in the morning, when the "Monteagle" was just getting busy to carry out the rescue work, the French mail steamer "Amazon" came along, stopped and endeavored to get out a boat to help, but was unable to do so on account of the weather and sea. "All over the China coast the "Monteagle" and her men were lauded for the splendid work which they accomplished. The manager of the Societe des Transports Maritimes de Chine, the captain and officers of the lost steamer, tendered official thanks to them and presented them with an address of gratitude. The French consul-general at Shanghai wired his heartiest thanks to them. "Mr. G. M. Bosworth, chairman of the Canadian Pacific Steamships Company, Limited, wired to Captain E. Beetham, general superintendent at Vancouver, as follows: "In connection with the rescue of the French steamer "Hsin Tien" by "Monteagle," please convey from directors of the company to Captain Hosken, Officers Ferguson and Campbell and to the members of the European and Chinese crew our appreciation of their gallant action. Directors are greatly pleased to have such brave men in their employ.—G. M. Bosworth."

lars;— such and such a building cost: so many hundred thousand dollars,— that great picture theatre, with wonderful marble stairways, "largest theatre in the world." One thinks involuntarily what an enormous sum it must have taken to build that. The wonderful electric signs on Broadway what thousands of dollars must be spent every night on electricity alone. One feels oneself catching the same spirit of measuring everything by its money-value.

At the same time those millionaires realize that money alone will not make a great people, and they are nobly giving of their vast fortunes to awaken the divine love of the beautiful operating with the art-world. One great soul built a magnificent Art building, architecturally fine in proportions and materials, filled it with beautiful statuary, pictures, china tapestries and treasures of every description. Others of them are providing free orchestral concerts for the people to be held in that Art Museum, the expenses of which are defrayed by those millionaires. Think of the uplift to the soul, beautiful music in such beautiful surroundings! Those concerts are thronged by an attentive, appreciative crowd made up of all sorts and conditions of men, women and children of all ages and all nationalities, the programmes drawn from the noblest masters both old and new.

There are also splendid orchestras in the picture houses all playing good music—in fact one hears comparatively little jazz or rag-time in New York. There are magnificent orchestras and soloists at the opera and in the concert halls, and all are packed with music lovers or those eager to become so. Magnificent Church music. This for New York.

Now the interesting American paper "Musical America" tells us that the same feeling is pervading the whole of the United States. The Americans have decided that their country is to be a musical, an artistic country—one reads of musical societies, fine concerts in their towns, both large and small; artists of greater and lesser fame performing to crowded houses everywhere. It does ones heart good to read and hear of it. No apathy there.

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

TEACHING OF SINGING

Elsewhere in this issue we publish
an article on Cooperation in Bringing
the Best Musical Talent to Sackville
which will no doubt be of interest
to our readers. The Advocate has
always endeavored to create public
interest in the teaching of music, and
to call attention to the great advan-
tages our townspeople would enjoy,
if music was taught in our Public
Schools, but unfortunately many peo-
ple fail to realize the necessity of
such, and also the giving of a musical
education to their children. The
expense attached to such an edu-
cation through the medium of our
Public Schools, would be so trifling
that the tax-payer would not feel it
and before the estimates for next
year are made up by the Board of
School Trustees, we would suggest
that they consider the advisability of
including the necessary amount for
the purpose of having music taught
in the Public Schools during the com-
ing term.

Thanks to Lord Beaverbrook for
donating a handsome piano to Har-
kin's Academy, which would material-
ly assist in the work of teaching the
children music. In other towns sight
singing is being taught in pub-
lic schools, and if such were included
in the school curriculum of Harkin's
Academy, the coming generation
would take more interest in good
music, and have less use for jazz and
other foolishness.

Got No Sleep

But now the neuritis has gone,
the pains have ceased, the nervous
system is restored and the writer
of this letter pays a grateful tribute
to the medicine which made him well.

Mr. John Woodward, P.T.O.,
Lucan, Ont., writes:

"It gives me much pleasure to recom-
mend Dr. Chase's medicines, especially
the Nerve Food. I was a sufferer from
neuritis for several years, and tried all
kinds of remedies, yet never seemed to
get any better. At last my nerves and
whole system seemed to give way
through not being able to get any rest
or sleep at nights for pain, which mostly
used to take me in all parts of the
limbs and feet. My nerves would twitch
my whole body would seem to jerk right
up as I lay in bed. Almost at the
point of despair, I decided I would get
Dr. Chase's Nerve Food, which I did,
and after taking twenty boxes I believe
myself almost normal again. I also keep
a box of Dr. Chase's Kidney-Liver Pills
on hand, and for the past year I seem
to enjoy my usual health."

Dr. Chase's Nerve Food, 50c
a box, all dealers, or Edmondson,
Bates & Co., Limited, Toronto.

What Does Your Mirror Reveal?

Does it Tell You That Your Blood is Thin and Watery.

When a growing girl becomes pale,
complains of exhaustion, dizzy spells,
headache and stomach trouble, she
should know that these things are evi-
dences of anaemia or bloodlessness.
A glance in the mirror will tell the
story. There is immediate need for
a tonic, a system builder that will
completely restore the missing quali-
ties to the blood that every part
of the body will share in the benefit.

A good example of the result of
wise treatment in cases of this kind
is given by Mrs. George R. Smith, of
Queensport, N. S., who says: "I can
not praise Dr. Williams' Pink Pills
too highly for what they have done
for my three daughters. My eldest
daughter, Edna, at the age of 14, be-
came run down, and I got her three
boxes of the pills, and by the time
she had taken them she was in good
health, and is now a healthy married
woman. My second daughter, Mar-
tha, at the age of 16, was awfully
run down and pale. In fact she had
always been a delicate child, but grad-
ually became worse. At last she
could not go upstairs without having
to sit down and rest, and could not
even do any kind of light work with-
out being greatly fatigued. Finally,
I gave her Dr. Williams' Pink Pills,
and after taking them we found they
did her more good than all the other
medicine she had taken, and she is
now in good health. Then my young-
er daughter, Greta, now 15, became
so run down that she had to stop go-
ing to school. But after taking eight
boxes of the pills she is now a big
healthy girl. I feel that after what
Dr. Williams' Pink Pills have done
in my home there can be no doubt in
their value, and I hope someone else
will benefit from our experience."

You can get these pills through any
dealer in medicine or by mail post-
paid at 50 cents a box or six boxes
for \$2.50 from The Dr. Williams'
Medicine Co., Brockville, Ont.

IDEALS OF SUCCESS

A young boy was the owner of a
somewhat forbidding looking mongrel,
and when a dog show was adver-
tized in the town he was anxious to
exhibit his dog. "Why, Johnnie,"
said his mother, "you could not get a
prize for a dog like that." "But,"
said the little fellow, "I might get a
prize for showing the kind of a dog
that a dog oughtn't to be."

Lord Beaverbrook, better known in
Canada as Max Aitken, has written a
book entitled "Success," the chief
value of which, in our judgment, is to
show the kind of a book which a book
on Success oughtn't to be.

Not that Lord Beaverbrook's little
book has no merits. It contains a
good deal of shrewd and sound ad-
vice to young men starting out on a
business career. Our objection is to
the author's ideal of success, which
is altogether material, mercenary and
selfish. There is not a noble senti-
ment in the whole book. The coun-
sels are those of "Mr. Worldly-Wise
man," the goal is wealth and the way
commented is the shortest cut to it.
The writer's advice is, "Succeed
young, and retire as young as you
can." Nothing is to be allowed to
obstruct the path to the "Temple of
Success," whose "inner shrine" is
happiness. The value of a college
education is discounted. From the
author's point of view, "such a course
may be a hindrance rather than a
help to a man entering on a business
career." In any case it is an inter-
ruption of the great pursuit of life
and keeps the aspirant for wealth
back from the shining goal. The
poet Shelley "showed a flash of busi-
ness knowledge in refusing to lend
money to Byron. "He might have
lost something in extending a helping
hand to his brother poet in need."
In fairness to Lord Beaverbrook, it
is to be said that he does not claim
you have to see what is on the hip?

to speak of any other kind of suc-
cess than that of making money, of
which, by inference, he holds himself
up as a shining example. "For my
own part," he says, "I speak of the
only field of success I know—the
world of ordinary affairs." This is
no doubt true. But why should this
clever wizard of finance, knowing his
limitations, presume to shape the
ideals of youth or set up an image of
gold to them to worship. Surely
there are higher ideals of success
than the acquisition of what is popu-
larly spoken of as "a fortune." The
author refers to the Shorter Catech-
ism, which he was compelled to mem-
orize in his youth and which he says
still remains with him. He must
surely have forgotten the very first
question, however, which states that
"Man's chief end is to glorify God
and to enjoy him forever"; not to
make money, and live in an earthly
"temple of success." In Lord Beaver-
brook's estimation, "the money brain
is, in the modern world, the supreme
brain," and "to make money is some-
thing to be desired and striven for,
something worth having in the char-
acter, some proof of ability in the
mind." Thus we are led on through
page after page in which the dominat-
ing thought is materialistic. Money
is everything. "The battles in the
market-place are real duels, on which
realities of life and death and fortune
or poverty and even of fame depend"

If Lord Beaverbrook's ideal of suc-
cess is true the lives of many of the
world's greatest benefactors were
failures. Moses made a great mis-
take and showed a sad lack of busi-
ness acumen when he threw up his
chance for the throne and treasures
of Egypt and chose a life of hardship
in the service of his fellowmen; and
all who make the accumulation of
wealth a secondary consideration in
life, and strive to make their daily
work, whatever it is, a service to God
and to their fellowmen, are making
a similar mistake.

Unfortunately the ideal of success
in Lord Beaverbrook's book is the
goal in the many of our homes
where money and worldly success, in
one form or another, are held up to
the young as the most desirable
things in life. If such ideals were
to prevail, the finest and most worth-
while things would perish out of our
lives and we would be given over to
a dreary materialism in which selfish-
ness would be the ruling force. It is
from such ideals that the world is
suffering and out of which social rival-
ries and all the forms of evil of which
the love of money is the root arise.

In contrast to the ideals and max-
ims of Lord Beaverbrook's book
on "Success" we commend to our
youth a leaflet recently sent out by
Roger W. Babson, the well known
American statistician, entitled "Essen-
tials of Business Success." They
consist entirely of the Ten Command-
ments plus the "New Commandment"
given by Jesus. The young man who
takes these divine laws as his daily
guide may not get rich so quickly as
some of his companions who specu-
late in stocks and watch for chances
to take advantage of the needs or
failure of others, nor make his "for-
tune" out of watered stock; but he
will not lose his soul in trying to win
the world.—Presbyterian Witness.

RIGID ECONOMY TO BE EXERCISED

Fredericton, Feb. 17.—The New
Telephone Company will cut all ex-
penditures to a minimum during the
present year in view of the present
business conditions. It was stated
after a meeting of the executive
board of the company, following the
annual meeting, yesterday. By the
practice of rigid economy it is hoped
to be able to continue the payment
of the usual dividend of eight per
cent per annum to the 2,000 share-
holders, almost all of whom are resi-
dents of this province.

The Emperor of India has a pair of
pants valued at \$50,000. Wouldn't
it be said that he does not claim
you have to see what is on the hip?

BANFF WINTER CARNIVAL

(1) Indian Teepees arranged down the Main Street at Banff. (2) The Ski Slide at Banff.

In a setting of snow-capped
mountains and sombre pines in the
heart of the Rockies, Banff, Alberta,
was at its best for the sixth annual
winter carnival which opened on
January 23rd. Under ideal weather
conditions the wonderful playground
was gay and smiling for the event.
Banff avenue, the main street, was
typical of the mid-west in the unique
arrangement of teepees and pine
trees. Each tent was gaily painted
Indian fashion with elk, bear, buf-
falo head and fantastic designs.
Flags fluttered bravely in the breeze
on the gray highway leading to the
crowning feature, the monster ice-
palace. It is built at the entrance to
the new bridge across the Bow river,
directly in front of the museum. In
a setting of snowy pines, the spec-
tacular palace takes the form of an
old English gateway, forming a
great ice-wall, 60 feet wide, across
the street with drives through it
wide enough to allow motors to
pass. The central tower is 30 feet
high, and the side towers are 18 feet
high. About 500 blocks of ice,
each 44 inches by 22 by 26 9/16
inches were taken from the
Bow river for the construction of
the glistening gateway. Passing
through the palace gates, roads lead
up Spray avenue to the C. P. R.
Chateau, to the Cave and Basin, to
Sulphur Mountain and to the Aiplos
Club of Canada.

That the slogan of the Banff Win-
ter Sports Association, "Let's Go,"
was hearkened to by people from
Vancouver to Montreal was evi-
denced from the registration at the
various hotels. Winter loggers were
everywhere in evidence in the blan-
ket coats in their brilliant coloring
the furs, the moccasined feet, the
bright sweaters, sporting toques,
toboggan costumes, ski-ing suits.
There were Mounted Police in smart
uniforms, pioneers in good old buf-
falo coats, Indians in gorgeously
beaded costumes—the north, south
east and west all mingling in a
happy companionship in God's great
out-of-doors.

Looking up Tunnel mountain it
seemed that one of the most ex-
hilarating of winter sports was
planned for extra thrills. The slide
is constructed on the natural slope
of Tunnel mountain and runs di-
rectly down Cariboo street, a dis-
tance of about half a mile marked
all the way by flags fluttering in
the breeze, giving a bright note of
color to the landscape.

Banff has become one of the most
prominent ski-centres on the con-
tinent. The spectacular ski-hill on
Tunnel mountain was the scene of
some important events in which
jumpers of international fame took
part.

Snow shoe parties were one of the
popular forms of sport and hike-
to the various favorite spots with
bonfire lunches in the mountain
cabins were organized by the vet-
eran snow-shoer, Mr. N. H. Sanson.
One and all declared that conditions
were never better for this form of
sport and it gave the visitors an
exceptional opportunity of enjoying
the beauty of the mountains.

Skating Canada's crowning win-
ter sport, formed important events
on the large open air rink on the
Bow river, with old Mount Assiniboine
frowning down on the merry mas-
sers. Hockey enthusiasts had a week
of sport. Teams from Carstairs,
Cannore, Bankhead, Calgary and
Vancouver took part in the games.

A unique feature was the "Puck-
contest" in which several "old-
timers" as well as Squaws from the
Stoney Indian reserve took part.

Miss Phebe Senker, of Vancouver,
Queen of the Carnival, was a mem-
ber of the association and took a promi-
nent part in the festivities.

The variety of attractions kept
everyone in the real carnival spirit—
the wood chipping contests, the
whippet races, the sleigh dog races,
the trap shooting, the Indian bow
wow when the Indians, old and
young, were out in great numbers,
kept carnival guests busy. It all
led one to declare that in Banff
or winter robes, Banff rich in scene
and conditions is one of the world's
most glorious natural playgrounds.

PERSONALS.

Mr. Wm. Corbett, Jr. is confined to his home through illness.

Mrs. Wm. Russell of Shediac spent the week-end with Miss Agnes Russell. We are pleased to see Dr. McGrath around again after his lengthy illness.

Mr. E. A. Mullen was registered at the Hotel American, Moncton last week.

Mr. E. R. Ryder of the C.N.R. local freight office spent the week-end in Moncton.

Messrs E. J. Parker and Albert Bryenton of Millerton were visitors to town last Thursday.

Mr. Wm. E. Fish entered the Miramichi Hospital last Sunday, suffering from a heavy cold.

Miss Helen McLeod, who has been residing for the past year at Calgary, has returned to Newcastle.

Miss Helen Armstrong was called to Bridgetown, N. S., last week owing to the death of her sister.

Capt. Hurd of Moncton will be visiting Newcastle for a week-end in the near future. Watch for advt.

Miss Fleming entertained a number of her friends last Thursday evening at her home, on King's Highway.

Friends of Mr. James Baisley will be pleased to hear that he is much improved in health after his recent illness.

Chas. J. Morrissey M.L.A., and John S. Martin M.L.A. were registered at the Victoria Hotel, St. John, last week.

Miss Elizabeth Gremley returned to Montreal on Friday after spending a week with her parents Mr. and Mrs. R. H. Gremley.

Mrs. Capt. Goodwin was responsible for the meeting of the Salvation Army at Chatham over the week-end, while the Captain conducted Services here.

Mr. J. L. Stewart, Editor of the Chatham World was in St. John last week, undergoing X-ray examination on one of his feet, which had recently been operated on.

SHOWS LACK OF APPRECIATION OF GOOD MUSIC

(Continued from page 3)

Now what of Canada? What is to prevent Canada from being recognized as a musical, artistic country? Nothing, if all the cities and towns will cooperate to that end. You will say, "We have a very musical city in Toronto". Yes, true, and Winnipeg is trying to become so also. Montreal is not a musical city in the strict sense of the word, but by virtue of her position on the map and the monetary condition of the inhabitants, gets visit from the best artists fairly often. But that is not enough and does nothing for the Maritime Provinces. The first thing is to create musical centres. Every place that boasts a Conservatory of Music and an Art Studio becomes an Art Centre at once and will rapidly become an Art-force if the citizens will co-operate with those institutions to make it so. Here in Sackville we have everything—a conservatory, an art studio, and by the generosity of certain citizens, a fine concert hall that should be humming with fine concerts all winter long, and would be if we all co-operated. The Colleges, being unendowed have not necessary funds to do this unaided, but will not the citizens of Sackville realize the importance of this art-force in the everyday life of a town in the up-bringing of its young people? If the subscription list were long, the subscription per capita would not be large and an interesting series of concerts could be presented with fine professional artists from the outside world as well as talent from the Conservatory.

As a member of the L. O. D. I make me proud to think that this organization is helping to make music

THE MAKING OF A LAWN

A good lawn is one of the first essentials in making a beautiful home. There is nothing that can take the place of a beautiful greensward about any house if it is to be really attractive. Those who are planning to build should include the lawn in the original plan for the home. Draw up a plan of the contour of the ground adjoining the proposed site. The area of this will depend upon the amount of the land available. In the country this should not be less than 4 times the area of the house site in excavating, remove all the rich surface soil separately. The subsoil from the excavation is then used for filling depressions and grading so that the surface water will always flow away from the house. When the house is completed, and the rubbish incident to building removed, the surface soil is brought back and used to make a seed bed for the lawn grasses.

The lawn should be as permanent as the house, and requires careful care in the making. The autumn is a good time to do the grading and filling. This should be done at intervals, allowing heavy rains to settle the transported soil several times before the final grading, ploughing and thorough tillage of the spring. This will prevent depressions developing afterwards in your lawn and tennis court. Before seeding, a finer condition of tith is required than for any farm crop. Keep at it until the soil is like a garden or about ready for seeding onions. If the land is not in good heart, a heavy coat of manure should be worked in during preparation, and when necessary, a heavy dressing of fertilizer will greatly help to make the soil as rich as it should be for growing potatoes or roots.

The seeding should be very heavy. The best lawns are made by having a great many fine stalks of grass. The best grass for shade and open lawns is the Kentucky Blue Grass. It is sown at the rate of about 60 lbs or 4 bushels per acre. It weighs 14 lbs to the bushel. The seed merchants sell reliable mixtures; these usually contain a large percentage of Kentucky Blue Grass and White Clover. Timothy and Red Top, when added to the mixture, are satisfactory grasses for making a permanent lawn. To secure a satisfactory seeding, take about one-half of the seed for the area and sow the area one way, carefully by hand, then take the other half and sow across the first seeding. By this means you would avoid any misses and secure an even stand.

To avoid having the lawn bare during the early summer, sow oats at the rate of from 4 to 5 bushels per acre before the last cultivation in preparation for seeding. This will form a dense greensward within three weeks, and though requiring frequent cutting with the lawn-mower will not only make a beautiful lawn, but will serve as a nurse crop for the grasses until they are well established. Cover your lawn seed with a garden rake and roll from time to time after rain.

a part of the everyday life of the children by providing for instruction in sight singing at the Public Schools. May I hope soon to be proud of my fellow citizens of Sackville (will not my twelve years residence here cede me the right to that honor?) who are helping to maintain an annual series of high-class concerts in Fawcett Hall?"

CONSERVATIVE MEETING
The Rt. Hon. Arthur Meighen has called a meeting of the Conservative members in the last election for March 6. It is expected that about one hundred men will be present in Ottawa.

Showmen and wild men don't draw as big a crowd as wild women.

WEDDINGS

CROCKER—MILLER

Miramichi friends will be interested in the announcement of the marriage in Montreal of Mrs. Jennie Bell Miller of Newcastle to Mr. Alward Crocker, son of Mr. and Mrs. Jas. Crocker of Millerton on Saturday Feb. 11th.

Rev. C. G. Smith of the Temple Baptist church officiated.

After the ceremony a reception was held at the home of the bride's sister, Mrs. W. R. Cumming, "The Trianon," Outremont.

Mr. and Mrs. Crocker spent a few days in the city prior to leaving for Millerton where they will reside.

TOWN TAXATION INTERFERRED WITH

The following letter from W. E. Porter, Secretary of the Board of Trade of Kentville, appears in the Kentville Advertiser of Feb. 3 and will be of interest here as many of the matters complained of are today being enforced in Newcastle.

The Encroachment of Government Taxation on Legitimate Town Revenue

This is a subject that demands the earnest consideration of not only towns and municipalities, but of every citizen, as it directly affects each one more than any other taxes can or do.

We all understand, and are willing to bear such taxation as is necessary to carry on a good economical government. We recognize that in towns we must have order, regulation of traffic and administration of offices. Streets must be kept in order, water service maintained, and provision made for the education of the youth.

This all means money, and money must be obtained somehow. The easiest way is by taxation of property land, buildings, etc. In the past, however, there have been other sources of revenue, such as license from circuses, theatrical companies and other forms of entertainment and amusement. But what do we find at the present time? If a circus wishes to visit our town, an official of the government, stationed in Halifax and paid for by the people from their revenue, grants the license to the circus; and the town has no voice in the matter. The streets are injured by the heavy wagons, more police protection is needed, which you and I have to pay for; and all we can do is smile. The same is true of theatricals of that.

Also take the automobiles, the property of the citizens of the town. I find there are about 150 registered as belonging to Kentville citizens for 1921. Estimating a revenue of \$30.00 each on these, it makes the amount of \$4,500.00 for revenue to be applied to the roads; but, mark you, not the roads in the town.

Then again—and this is a great injustice—a tax on our assessment has to be paid each year to the government to assist them in maintaining not the roads in town, but the roads in the country; while both the residents of the town and county complain of the poor roads in our towns. Last year in this town this amounted to \$945.47; this year it will probably be about \$1,000.00, as our assessment has increased almost \$25,000.00 over last year.

Further, do many who attend motion pictures realize that two to five cents extra paid in and called a war tax is a tax levied by the Provincial Government, and is taken directly from what should go into the town revenue and which would lower our rate of taxation.

I think it is safe to estimate that at least \$10,000 was taken away by direct taxation from our town this year. This was made up as follows:

Moving pictures	\$4,000.00
Autos registered in town	4,500.00
Street tax	1,000.00
Pool rooms	100.00
Circus, etc.	400.00
Total	\$10,000.00

Is it not time for our Town Councilors to awake to this fact? Have we heard any protest against this sort of thing from any town? What is the trouble? Only this week we read in the daily papers of the Pictou County Council refusing to obey the law about assessing an additional 20 per cent. on highway taxation. Is it not about time our voices were heard in protest? It is true we want government, and good government we will have; but we must insist on economy by those who govern us, as well as to practice it ourselves.

In 1920 we passed a resolution calling on the government to refund the town a certain amount of taxes on automobiles, the same to be applied in certain ways. Then, too, I believe a part at least of the tax levied on the circus and motion pictures should be paid to the towns. This would contribute directly to our revenue; and it is only our right and a right we should insist upon in no uncertain tone.

I would suggest that a committee be appointed to take this whole matter under consideration and make such resolutions and back them by actions, before we are taxed for the air we breathe. It is high time our Town and Municipal Councils got busy and let their voices be heard in protest and in protection of the people's rights.

POTATO CANKER

Potato Canker or "wart disease" of the potato is a disease happily only known to most Canadian farmers by its name, perhaps to some few by its notoriously dangerous character to the potato growing industry in other countries.

Some ten years ago the Federal Department of Agriculture succeeded in averting the very near danger of its introduction into Canada from abroad, principally from Europe. The Department then placed an embargo against the importation of potatoes from Europe with the usual emphatic objections generally resulting from such measures. Today Canada has every reason to be grateful for the foresight of the Department. In Great Britain, notwithstanding every effort towards the eradication of the disease, some 22,000 cases and more have been reported during the period of one (recent) year. The disease affects potatoes in various degrees of severity; either there may be slight infection or wholesale destruction of the crop, rendering useless all efforts to harvest a yield. Moreover, the disease persists under certain conditions in the soil for 10-15 years, always re-infecting a crop even when planted after an interval of so many years' duration. The presence of this disease has caused Great Britain and other European countries serious losses, not alone within their own borders but also in the valuable export trade in potatoes. Canada is quite free from this disease which causes such serious losses in other countries; but the danger once more looms on the horizon, since this disease has been discovered in certain areas of the United States.

Canadian farmers are well advised to continue their vigilance, especially as potatoes imported from the States are concerned. The person who through neglect on his part causes the disease to become established in Canada, will cause this country serious injury, probably of a lasting and irreparable character.

PLAY THE GAME

An effort is now being made to 'clean up' the sport situation in the Maritime Provinces. This is no doubt as it should be; but the main thing to do is to try and regard sport as a thing to be taken part in for its own sake, and without any reference to any prize there may be attached to

winning. Naturally in any game, each player wants to be on the winning side and very often the tactics employed to attain this end, are, to say the least, somewhat questionable. It has always been more or less of a mystery to an American for instance, the calm indifference of the Englishman whether he wins or loses a game. The American goes in to win, he believes in winning, whatever the object, and a natural organizer, he sets about his sports in a most business-like manner. The Englishman cares little whether he wins or loses—the game is the thing. This has been often illustrated in recent years in international contests. The Americans train to the minute and go into the events keyed only to win; the English athlete will not go through the hard training course, and takes defeat as part of the game.

Situated next to the United States there is a natural tendency for Canadians to get the American viewpoint. It is impossible to imagine an English cricket game a crowd mobbing the umpire. The decision of the umpire is taken without question no matter how much he is in the wrong. It would not hurt us in Canada if we developed a little more of the spirit of the game for the game's sake. —St. John Standard.

A WOMAN'S WORK IS NEVER DONE

It Seems So in Many Cases and Good Health is Always Necessary

Viscount, Saskatchewan.—"I took Lydia E. Pinkham's Vegetable Compound for weakness of the female organs. I had pains in the back and bearing-down pains in the abdomen and was in a general run-down condition. I could not sleep, rest or work and was quite unfit to do even slight household tasks. A friend told me about your Vegetable Compound and I in my turn truly recommend it, as my severe symptoms vanished and I am better in every way. I do my own work, look after my children and see to chickens, cow and my garden. I also recommend it for young girls who are weak and run down, as my 16-year-old daughter has taken it and is quite her own gay self again."—Mrs. FRED WILBY, Viscount, Saskatchewan.

I Live On A Farm

Upper New Horton, N. B.—"I have taken Lydia E. Pinkham's medicine and they have done me a world of good. Since then I have been able to do my housework and I have a lot of work to do as I live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope this will help someone else."—Mrs. Wm. B. KEVRA, Upper New Horton, New Brunswick.

NADRUGO Syrup of Peppermint
 with Good Liver Oil Compound
 for Colds and Coughs

This standard preparation—used for years in homes from one end of Canada to the other—breaks up colds, relieves sore throat, and stops the irritating, hacking cough.

It is pleasant to take—does not disturb digestion—and may be given to the youngest child.

All druggists have it.

Prepared by NATIONAL DRUG AND CHEMICAL COMPANY OF CANADA LIMITED

TEA CONSUMPTION

The London Grocers' Gazette for January 8th. states that the consumption of Tea in Great Britain and Ireland has increased 34% since 1913. They now use about nine pounds per head per annum in the United Kingdom, and the increase in 1921 over the previous year amounted to 17 million pounds. This enormous consumption accounts for the great rise in the price of tea.

The consumption of Tea in Canada only amounts to 4½ pounds per head per annum, but is increasing.

PURITY FLOUR
 "More Bread and Better Bread" and Better Pastry too

Use it in All Your Baking

You must say **BAYER Aspirin**

Nothing Else is Aspirin—say "Bayer"

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe by millions for Colds, Headaches, Earache, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago, and Pain. Made in Canada.

All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12 tablets, and in bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Make Live Stock Pay Better

PROVINCIAL SKATING CHAMPIONSHIP MEET

Will Be Held at Moncton on February 23rd—Many Fast Skaters Will Compete.

The Provincial Championship skating meet to be held at Moncton on Thursday, February 23rd, will bring together several of the best speed artists of New Brunswick, and some rare sport is looked for.

The Meet will be held in the new Sunny Brae Rink. It is expected many people will go to Moncton to witness these skating events.

The Canadian National Railways are arranging for the expected rush of travel on this particular day

EFFORTS TO SAVE JOHN PARIS

St. John, Feb. 8.—Efforts made here today to save John Paris from the hangman's noose were unavailing when Mr. Justice Chandler in chambers, refused to grant an application for a reserve case. The application was made by G. H. Vernon, K. C., of Truro, and argument against the granting of the application was made by the Attorney-General, Hon. J. P. Byrne, on behalf of the Crown. Mr. Vernon said this evening that he would now bring the matter before the Appeal Court at Fredericton. Failing to receive favorable action at Fredericton the case would be carried to Ottawa as a last resort, Mr. Vernon said.

SWEDEN'S LIQUOR SYSTEM EXPLAINED

Stockholm, Jan. 22.—The consumption of intoxicating liquors in Sweden has been reduced nearly fifty per cent since the beginning of 1914 when Sweden's liquor rationing system went into effect. This is shown by the latest official reports which say that the reduction took place without absolutely excluding anyone from the use of alcoholic stimulants except those who abused the law by drinking to excess.

Under the Swedish rationing system individuals are given cards upon which they can obtain a given amount of distilled liquor or wines. The maximum amount allowed to any individual is about seven and one-half pints per month and this is allowed to married men. Married women receive no allowance except from their husbands' cards, while unmarried women receive as low as one and one half pints per month. On special occasions such as weddings or festivities these allowances are increased if requested.

The rationing cards are revoked in the case of individuals convicted of drunkenness. The official report says that the number of inebriates whose licenses have been taken away have decreased enormously. In 1913 the number of inates who lost their licenses to buy intoxicants was 50,422 persons per thousand; while in 1921 only 16.55 persons per thousand were found guilty of drunkenness.

STOMACH ULCER AND GALL STONES

After Suffering 25 Years, Completely Relieved by "FRUIT-A-TIVES"

MR. EDWARDS
MAPLEHURST FARM, HILLHURST, P. Q.
"I am in my 78th year. About 25 years ago, I began to have trouble with my Stomach. One doctor said I had Cancer; another said, Ulcer of the Stomach; another, Gall Stones; others, Ulcers of the Liver and Inflammation of the Gall Bladder.
Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 74 years old. I said "NO."
Then, I began to take "Fruit-a-tives". I found they helped me a lot, and I still take them occasionally, and I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much."
H. W. EDWARDS.
50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

The consumption of distilled liquors in Sweden in 1913 amounted to 8,541,048 liters, a liter being a trifle less than two pints. In 1921 the Swedish people used 4,920,400 liters. Meantime the population has increased from 5,750,000 to 6,000,000.

A snow flake is a little thing, almost devoid of weight. But enough snow flakes got together on a Washington roof to cause over 100 deaths. Here's a chance for the moralist to point out the crushing effect of the accumulation of little sins; for the banker to show how small savings end in big bank accounts. In fact, the field is unlimited. It is an object lesson in many ways.

THE RAILWAY SITUATION

In a recent issue of this journal, we noticed the fact that Toronto is anxious to keep the headquarters of the National Railways in that city and the Mayor of Toronto, is in favor of the City donating a tree site, for Railway Head Offices. We also referred at length to the very important action wisely and promptly taken by the Liberal Members of Parliament, for the Maritime Provinces, in placing their views before the Government, regarding the relation of the Intercolonial to the Canadian National System.

From our exchanges, and other sources; we gather that the whole Railway question will loom up as the most important business to call for attention when the Federal Parliament meets, and there will be a big fight on in the House, as to where headquarters should actually be, and the future Administration of the National system.

As matters look just at present, there seems to be a spirit of jealousy at work, between the Maritime Provinces; Toronto, and Montreal. The justice of the position of the Maritime Provinces, in demanding their rights in Railway matters, seems not to be thought of by the Advocates of either Montreal or Toronto. The Provinces by the Sea, on the Atlantic coast, can claim certain rights in the Intercolonial which cannot be denied them by any Parliament, or taken away from them, without an absolute breach of faith, and the distinct understanding of confederation. True, there may be members in the House, who like the late Sir Richard Cartwright, look upon us down east as only "the ragged edges of the Dominion", but that does not alter the fact, that Moncton is the only natural and business like headquarters, for that portion of our National Railways, known as the Intercolonial, or Peoples Railway. In that City the Maritime Railways have already offices and equipment, which if more efficiency is necessary, could easily be changed, without the addition of any huge expense, into the best administration possible.

We have no doubt strong efforts will be made to have the headquarters of the entire National System of Railways located in Montreal. Should such be the ultimate decision of the Government; it will mean the spending of millions of Dollars, an outlay, hardly consistent with the political sermons we had from King and Company, about National extravagance, and the squandering tactics of the late government, forcing the present party in power, into the ranks of rigid economists, and watchful guardians of the public treasury. Of course the planting of headquarters in their midst, would mean bigger business for Montreal, add to its already important position, and give it a power in National transportation, which would immensely tickle its vanity, and make it Railway Boss of Canada. We of the Maritime Provinces have no desire for such a change; to impose it upon us, would simply be an act of political robbery; and we have no guarantee that the brains of Mon-

MILLIONS

of thin, run-down people have re-found the joys of splendid health by taking

Tanlac

IT BUILDS YOU UP
and helps you regain your normal weight
Sold by all good druggists

Montreal, or any other portion of the Dominion, could manage our National Railway affairs, any better than the brains to be found in "the ragged edges of the Dominion." In fact if half of what some Montreal papers hand out, is true; that "fast, and festive, and murderous city," had better learn to manage her own civic affairs more efficiently and decently, before seeking to become headquarters for the management of our Canadian National Railways, or any other affair of National importance. Her own local affairs, seem to be more than a match for all her brains, and whatever amount of efficiency she possesses. We don't object to the I. C. R., being a part of the National system, but we do object strongly, and justly, as we believe to side tracking us subject to the whims and orders of headquarters; which would deprive us; of the benefits of local headquarters, such as we have in Moncton, and we trust that when the testing time comes, and our Rail way position before Parliament, that every member from Nova Scotia, New Brunswick, and P. E. I.; regardless of his Party name, will be staunch and true to the best interests of the Maritimes and Moncton.

The following recipe is given for good times; lock up every motor car for a period of 12 months. So far as its being true that many of us have automobiles who can not afford them, or use them more than we ought to, nothing is to be said. It is true that think of the unemployment and the financial upset that would follow the suspension of the automobile industry for a whole year. If it is a cure, it is a mighty drastic one.

Terpsichore was the ruler of the dance before St. Vitus.

SNOW IMPORTED FOR SKI EVENTS

For the first time the Canadian Pacific Railway carried snow as freight when it transported several carloads from Lake Louise to Calgary, where it was needed for the ski jumping in connection with the Winter Carnival.

Local and General News.

DISMISSAL

"His Honor the Lieut. Gov. has been pleased to dismiss Millet Stewart from the office of Justice of the Peace for the County of Northumberland for cause.

REFUSED POSITION

It is reported that H. J. Logan, M. P. for Cumberland, N. S. has been offered and has refused the deputy speakership of the House of Commons.

ELECTED PRESIDENT

Mr. L. B. McMurdo, formerly of Newcastle was unanimously elected President of the Moncton branch of the Retail Merchants' Association for 1922, at the annual meeting held recently in that city.

CORRECTION

Inadvertently in our last week's personal column, the name John Curry was used for John Johnston the popular news-agent, who was indisposed for a few days the preceding week with an attack of rheumatism and grippe.

PROVINCIAL APPOINTMENTS

Northumberland County—Dr. B. A. Marven to be a coroner in place of M. S. Benson, deceased. William Archer Sr. of Loggieville and Israel Barrell of Bae St. Anne, to be justices of the peace. Arthur Doran of Newcastle, to be deputy sheriff for Northumberland in place of William Irving deceased.

DIED

At Lower Derby, Friday morning Jan. 27th Annie Annetta Josaphine little daughter of Wm. J. and Annie Black, age 2 years and 5 months. Burial in Miramichi cemetery. Safe in the arms of Jesus Safe on his gentle breast There by his love o'er shaded, Sweetly thy soul will rest.

WELCOME

Lieut. MacMillan of Florence, C. B. has been transferred to the Miramichi district of the Salvation Army and will assist Captain J. A. and Mrs. Goodwin in looking after the work in Newcastle and Chatham. The new officer is expected on Thursday and arrangements are being made by the local corps to give him a grand welcome to the Miramichi.

SEASON EXTENDED

We are pleased to note that Hon. John Morrissy has taken up with the Dept. of Marine and Fisheries, the matter of extending the season for bag net smelt fishing to March 1st, and that the department has decided that it would be expedient to do so. We believe in giving credit where credit is due, and only hope that this kind of good work will be kept up.

SUCCESSFUL TEA

The Tea given last Tuesday in St. James' Hall by the Miramichi Hospital Aid was a most successful one and was well patronized. The ladies were untiring in their efforts to please their many patrons, and are to be highly congratulated on the success of the evening. During the supper, the Methodist Church Orchestra delighted the gathering with a number of beautiful selections, which were thoroughly enjoyed. A substantial amount was realized for the needs of the Miramichi Hospital, which institution has been greatly assisted by the Hospital Aid and its auxiliaries.

APPOINTED CONSTABLE

Mr. W. J. Black of Millerton has been appointed Constable for the Parish of Derby and County of Northumberland.

CAMPBELLTON LOST

At a meeting of the executive of the N. B. and P. E. I. Hockey League held last Monday in Moncton, the protest of Campbellton in the Campbellton-Chatham game was disallowed.

N. B. FEDERATION OF LABOR

At the closing session of the N. B. Federation of Labor three day convention, Moncton, it was decided that Chatham would be the next place of meeting, the date to be decided upon by the executive.

SPIDER IN HIS PAPER

A famous American humorist once edited a paper, and in answer to a subscriber who told him that he had found a spider in his copy asked if it is a lucky sign, replied: "Finding a spider in your paper was neither good luck nor bad luck for you. The spider was merely looking over our paper to see which merchant is not advertising so that he can go to that store, pin his web across the door, and live a life of undisturbed peace ever afterwards."

DOLLAR DAY

Dollar Day will no doubt afford purchases a splendid opportunity to choose from a wide range of bargains. The merchants will have on display goods at exceptionally attractive prices, and the volume of business should be heavy. The number of persons who look forward to Dollar Day with keen expectation is increasing each year. It has been a day of real bargains in the past, and no doubt it will be appreciated as such this year.

MIRAMICHI HOSPITAL

A bronze tablet to the memory of the late Ernest Hutchison, an expression of appreciation of the splendid gift he made to the community, has been erected at the Miramichi Hospital.

The inscription reads as follows:
IN GRATEFUL MEMORY OF
ERNEST HUTCHISON
OF DOUGLASTOWN

who gave and equipped this Hospital and personally supervised its building. The funds were collected by the Hospital Aid and auxiliaries.

NELSON FIRE

A large dwelling house of John Dunn, at Nelson, and a barn and warehouse were completely destroyed by fire at 4.30 Thursday morning. The fire was well underway when first seen and the family escaped in their night clothes. The live stock was saved. The adjoining house of Alex Carrigan was saved with great difficulty, but a shed was burned. The house of Mr. Doyle, in the next street, was badly damaged. Hose from Sullivan's mill prevented a more serious fire, as deal piles were very near.

PHILANTHROPIC SOCIETIES

It is with the greatest sense of appreciation that the general public have read, during the past few weeks the reports published by philanthropic societies such as the Red Cross, I. O. D. E. and Miramichi Hospital Aid. The public have been impressed with the vast amount of good which these societies are continually performing. These splendid organizations raise money for the benefit of others and the members are most untiring in their efforts. The published reports give a splendid idea of how faithfully the work is done by these societies who have self-imposed the duties attached. Many grants have been made for philanthropic purposes and the good work is still being kept up.

THE LATEST IN CORSETS

Did you get yours yet? If not—Why not?—3-0

SUSSEX DEFEATED

In the Hockey match last night at Sussex, between Chatham and Sussex, the former team was defeated by a 4 to 3 score.

NORTHUMBERLAND NEXT

Mr. Justice Barry has issued orders for the municipalities of Kent and Albert to pay up outstanding demands of their local Boards of Health under the N. B. Public Health Act. Sunbury, Queens and Kings Counties have also been ordered to pay up. All the cases have now been disposed of except Northumberland County. Somewhere in the vicinity of \$10,000 is owing from Northumberland and it is reported that a summons has been taken out but so far there has been no return of service.

TO FORM FISHING CLUB

Mr. John Hare, of Curventon, Northumberland County the well-known guide and fish warden is in Fredericton, where he has been successful in interesting some fishermen in the formation of a salmon fishing club. It is proposed to purchase a fishing concession on the North West Miramichi River at the Government sale in March next.

HOCKEY

The Charlottetown hockey team won the first game of the Championship series which took place between Sussex and Charlottetown at Charlottetown on Wednesday night. The score was 6-3.

The Campbellton Tribune says Campbellton will not go into any hockey league in which the Chatham team is entered.

FANCY SKATING

A large number attended the exhibition of skating given last Tuesday evening in the rink by the one-legged skater Norman Faulkner. The feats performed by this wonderful skater thrilled the audience who gave evidence of their appreciation in hearty applause. After the exhibition the public was allowed on the ice, and several bands of skating were enjoyed.

THE LEGISLATURE

The provincial legislature will meet on Thursday, March 2nd Premier Foster announced this morning. The assembly will open this year eight days earlier than the date of the opening in 1921.

Fred L. Estabrooks, Westmorland, a new member, will move the address in reply to the speech from the throne, and S. R. Leger Gloucester will second the resolution.

The necessary papers providing for the opening were forwarded this morning to the clerk of the executive council and to the clerk of the legislature.

Only 45 members will take part in the legislative assembly in 1922, as there are three vacancies yet to be filled. It is probable that Hon. Dr. Hetherington, provincial secretary treasurer, will also be absent during a portion of the session, as he is undergoing treatment at Johns Hopkins Hospital, Baltimore. He is improving in health, but has been advised by the physicians at the university hospital to remain there until his strength has been more fully restored.
