## CHATHAM AND NEWCASTLE TO PLAY OFF IN THREE GAMES

A meeting of the Miramichi League Executive was held here last evening in the Police Magistrate's Office, with Newcastle, Nelson and Chatham teams represented. Dr. J. A. M. Bell, President of the league was in the chair.

The meeting was called to discuss the three protested games viz:—Newcastle vs. Nelson, Chatham vs. Newcastle and Nelson vs. Chatham.

After full discussion of the several protests, it was realized that a deadlock had resulted when Nelson refused to play the Chatham called game. It was proposed to eliminate the three protests and play the three games over again. Newcastle and Chatham were willing to accept this proposition but Nelson refused. This caused a deadlock and Nelson withdrew from the league. The withdrawal of Nelson annulled the league standing and in order to decide the winner of this year's series, it was necessary for the executive to arrange a play-off between Newcastle and Chatham. This was done and a series of three games between Newcastle and Chatham the best two out of three, will be played to decide the winner of the league series and the league cup. The first of these final games will be played in Chatham on Wednesday evening of this week, game to commence at 6.15 sharp. The second game of the series will be played in Newcastle on Friday evening at 6.15 o'clock. If the third game has to be played the place of play will be decided and announced later.

## FATAL ACCIDENT AT O'BRIEN'S MILL

Joseph Savoy, who lived until a few weeks ago in Chatham, was fatally injured in O'Brien's mill at Nelson on Thursday morning. He had been employed about the edger when he was struck by a piece of wood from the machine which broke one of his legs at the thigh. This was the only mark on the body and it is supposed that his death at the Hotel Dieu Hospital at noon on the same day was due more to shock than to injuries received.

Deceased was 34 years of age and leaves a wife and two small children. The funeral was held this morning at 8.30 and was very largely attended. Rev. Mgr. O'Keefe officiated.

The pallbearers were Messrs Angus Kenny, Benj. Robichaud; Maxim Muzzeroll, Jerome Bennett; Octave Savoye and Joseph Richards.

Mrs. John Dalton left Wednesday for a few week's visit at Oversteps Tabusintac.

## DELIGHTFUL CAMP HELD BY SCOUTS AND CADETS

The Newcastle Scouts and Cadets under Scout Master Gordon Petrie and Cadet Captain and Troop Leader Waldo McCormick, spent a delightful week under canvas at Manderson Beach, near Loggieville from August 3rd. to August 8th. About sixty boys enjoyed the outing made possible by contributions received from citizens of the Town of Newcastle. The weather was very favorable for the first four days, but the last two days it was disagreeable, but throughout all the boys were happy and conducted themselves in a very creditable manner. The bill-of-fare served by Russell Ward the very efficient cook was everything that could be desired, and the boys stated that he was the best scout in the camp.

Each day during the camp, physical training was indulged in as well as bathing, games ect. under the supervision of one of the officers. The discipline of the boys was such as to do them credit, and during the whole camp it was unnecessary to bring any one of them up before the officers for any breach of orders.

On Thursday the corps paraded to Loggieville to the home of Dr. and Mrs. McKenzie who entertained the boys most hospitably. During the camp Dr. McKenzie made daily visits to look after the health of the boys. On Saturday camp broke up and all the boys returned by auto to Newcastle and paraded through the town, headed by the Cadet bugle band, and they seemed thoroughly satisfied with the outing and loud in their praise of the officers and many friends who helped to make the camp a success.

The Scouts, Cadets and Scout committee take this opportunity of thanking Dr. J. B. McKenzie who permitted them the use of his grounds at Manderson Beach, Major Duncan of Chatham and Major Barry of Newcastle who secured snare drums, Dr. J. A. M. Bell for the loan of his bass drum, Major A. L. Barry for securing camp equipment from the Government stores at St. John, A. and R. Loggie for the use of stove and cooking utensils, also for the use of trucks, etc.; and the citizens who so kindly contributed funds for the camp expenses and those who gave the use of their cars to convey the boys to and from the camp. Scout Master Gordon Petrie and Cadet Captain Waldo McCormick are to be congratulated on the great success of their camp held by the Boys Scouts and Cadets. The Bugle Band under the direction of James Chambers was the life of the camp and kept the boys in good spirits.

On Friday Col. Snow and Major A. L. Barry inspected the cadets. (Continued on page 4)

## TO OFFER 4 COURSES AT NEWCASTLE HIGH DURING NEXT YEAR

The next term which begins Sept. 8, opens a new period in the history of Newcastle schools. Hereafter the High School will be separated from the Elementary grades, and will be conducted in the new building, which is planned to arrange for certain phases of Vocational training. This arrangement will permit the offering of four optional High school courses as follows:

- (1)—The ordinary Academic (leading to college and normal school) as given in the past,
- (2)—Household Science,
- (3)—Commercial,
- (4)—Shop (wood and metal work) course.

This means that a pupil, on completing Grade VIII, may enter on and be graduated from any one of these courses. All but the last will be offered immediately after the re-opening of school. All of them will be full 3 year courses beginning with grade IX and ending with graduation from grade XI.

A portion of the time, of students in Household science and Commercial courses will be devoted to certain cultural subjects, such as English, French, History, Geography, Arithmetic, of the Academic.

As far as possible the Household science course will be organized to suit the needs of pupils who expect to become teachers or registered nurses.

The Commercial course will include training in Book-keeping, Type-writing, etc., and will be offered to pupils of either sex. It is altogether likely that there are many not attending school who would like the opportunity to secure a commercial course at home. For these, if a sufficient number make application, a special one-year course will be offered for the year 1925-26 only. Such persons should make application to the Principal before the end of August. Instruction will be free to residents (not exceeding the age of 25) of the town.

## THE CHURCH ARMY CRUSADERS

This week Newcastle is being visited by a group of the Church Army Crusaders, in connection with the Church of England. The men, 12 in number are Lay Evangelists and are licensed to preach or address assemblies. Yesterday they held services in front of the Post Office and in St. Andrew's Church and will continue these services throughout the week. The party will visit Chatham on Friday, Saturday and Sunday, and will probably go to Bay du Vin on Monday. The Crusaders have been visiting several dioceses of the American Church and the diocese of Fredericton at the invitations of the Bishops. In the past they have done splendid evangelistic work in Great Britain, where they travel on foot from place to place, living a simple life and accepting such hospitality as may be offered. They are all ex-service men of the great war and bear emblems of distinction. They are men of musical ability and their services are being much appreciated by the citizens of Newcastle.

### ENJOYABLE DANCE

Rattray's Five Piece Orchestra from Campbellton gave an enjoyable dance last Friday evening, in the Town Hall. The music and dancing were much enjoyed by the young people, who were present.

## DELIGHTFUL FANCY DRESS PARTY

On Friday evening, Aug. 7th, Mr. and Mrs. E. H. Sinclair entertained at a fancy dress party in honor of their children and their guests, Miss Constance Burns and Master Forbes Morlock of Toronto. About twenty children were in fancy costume and made a pretty sight as they marched down the stairs and before the judges, Mrs. C. F. Harris, Moncton; Mrs. W. A. Park and "Miss Bernina" Ferguson, who awarded the 1st prize to Miss Isabel Stables, dressed as a "Peacock", the 2nd to Miss Mary Crocker as a "Flame" and 3rd to Miss

- Aileen Aitken as a "Spanish Lady" and 4th to Bill Sinclair as "Friar Tuck."
- The favours at supper were French gilt toys and the party ended with a baloon dance and fire works.
- Among the guests in costume were:—
- Miss Constance Burns, Toronto—Pierrette.
- Miss Florence Stables—Rainbow.
- Miss Isabel Stables—Peacock.
- Miss Mary Crocker—Flame.
- Miss Aileen Aitken—Spanish Lady.
- Miss Eleanor Hill—Pigadee.
- Miss Henriette Hill—Japanese Lady.
- Miss Marie McKenzie, Loggieville—Pierrette.
- Miss Doris McKenzie, Loggieville—Pierrette.
- Miss Adele Buchanan, Toronto—Spanish Lady.
- Miss Elsie Chapman—Lady in Waiting.
- Miss Marjorie Ferguson—Old English Lady.
- Miss Mary Sinclair—Rabbit.
- Miss Yvonne Brown—Butterfly.
- Miss Jean Forsythe—Butterfly.
- Master Kenneth Brown—Newcastle Tennis Club.
- Master Norman Edgar Regina—Spaniard.
- Master Forbes Morlock, Toronto—Mexican Brigand.
- Master Ned Sinclair—Pierrot.
- Master Bill Sinclair—Father

### Tell It to the Tourists

Italy boasts of cherries, Spain of raisins a big; France about the fiber; Smyrna of the fig. California's peaches, Pacific coconuts round, are in the race for price of place with cinnamon from Ceylon.

Texas talks of peanuts, Arabia of her dates, cocoa beans from Trinidad and Africa are mates. Then in the ring comes Canada; the whole world meets and beats; she takes the best from all the rest and puts them in her sweets.

A grocery sign says: "We can supply everything but the appetite." "Misses Chocolates supply that also."

## VICTIM WAS STRUCK FATALLY DURING DRUNKEN QUARREL

HARVEY, Albert County, Aug. 12—Lawrence Doherty is being held here in connection with the death of Edward Cairns Tuesday night, following a fight between the two men, both of whom according to evidence given at the coroner's inquest here Wednesday afternoon, had been drinking. The jury brought in a verdict to the effect that Cairns came to his death in a fight with Doherty, against whom a charge will be laid.

Dr. Carnwath, who made a post-mortem examination, testified that a great many blows had been struck any one of which might have proved fatal. There was a penetration of the brain in one place where a piece of wood with which Cairns was struck had broken off and pierced his skull.

**HAD QUARRELLED BEFORE**  
The jurors were George M. Russell, foreman; Charles Bishop, Solomon Prosser, Frank Geldart, Alfred Stuart, Harvey Wilbur, Arthur Russell.

Both men had quarrelled some time before the final fight took place. Cairns resided with his mother-in-law, Mrs. McKinley. Doherty and his wife, who had been brought up by Mrs. McKinley, were visiting at the home. They left the house shortly after 7 o'clock and did not return until about 9.

**CALLED FOR LANTERN**  
According to the evidence of Mrs. Mary Ann McKinley, Mrs. Doherty and John Daley, who live in the Cairns home, they heard the men arguing for some time, then in a few minutes there was quiet and Mrs. McKinley said that she went out. Doherty was there calling for a lantern and saying that he thought he

**Put Real Mustard in Your Kit**

Right at the top of the list of camping necessities is a tin or two of real Mustard.

Men who fish and men who shoot know that a spiciness and flavour mustard freshly mixed with cold water, adds to the ham, bacon, fowl, venison and other good things they eat in camp.

## WOMEN'S RIGHTS IN CHINA NOW A LIVE QUESTION

Fighting for women's rights in China has taken on a fresh burst of vigor. It is not a case of the timid products of sheltered garden seeking to break the languishment of their secluded lives beside lotus ponds; it is a definite demand by enlightened, practical women, led by women who have lived in the United States, for a bigger share in local and national government and a larger measure of freedom and equality. One writer humorously scorning the strength of the feminist movement remarked that the only occupation in which Chinese women had engaged with distinction was banditry. Woman bandit leaders frequently feature in the news. The woman retaliated by showing that there were woman doctors, dentists, teachers; nurses; editors; bankers; business employes; mill workers in silk and cotton and other industries. Shanghai; being the center of western enlightenment in China; is the headquarters of the movement, which has resulted in meetings and demonstrations all over the country. The signal for action was Marshal Tuan Chihpiu's recent refusal to permit women to send a delegation to the rehabilitation conference at Peking. "There are a hundred million women in China employed in many occupations and they must be granted representation," say the leaders.

### COME FOR CLOTHES

The evidence went to show that Doherty and his wife who had been brought up in Mrs. McKinley's home had come out from their home at Broad River on the Shepody Road, 12 miles from Albert to the Cairns' house at Harvey to get some clothes that belonged to Mrs. Doherty. They arrived about 5 p. m. and were to stay the night.

According to the evidence submitted, every thing went smoothly until supper time when both Cairns and Doherty started drinking. Later on during the evening the two went out. Between 10 and 11 o'clock Doherty returned to the house alone and on entering inquired about "Howie" as he called Edward Cairns. Cairns had not returned at that time but he came in about 15 minutes later, and was the worst for liquor. Cairns asked Doherty if he was as good a man as he had been awhile ago and he wanted to fight Doherty. Cairns then asked Doherty where the bottle was and when Doherty said he hadn't any, Cairns retorted that Doherty was a "D—n liar." Other epithets went back and forth for some time.

### INVITED INTO YARD

In the evidence at the inquest it was stated that Doherty finally told Cairns to come out in the yard, if he wanted to fight, and they would have it out. Mrs. McKinley said she heard the two quarrelling for ten minutes or so and then all became quiet. She went out, she said, and found Cairns lying on the ground in a pool of blood and Doherty, who was calling for a lantern, was standing over Cairns supporting his head. The witness said that Doherty exclaimed "My God, I've done it now. I don't believe he will come to."

Dr. Carnwath, who was summoned from Riverside, and arrived about midnight, found Cairns dead and went back and brought the coroner, Dr. Murray, who had the body removed to a shed to await the inquest.

### VICTIM STRUCK AT HIM

Doherty stated that when he went out to fight with Cairns, the latter struck at him with a stick and he dodged the blow, picked up the stick and cut back, not thinking he was striking as hard as he did. Doherty says that he does not remember whether he struck Cairns more than once or not.

After the inquest Sheriff Lynds took Doherty to the jail at Hogswell Cape.

## CRIPPLE CURED BY LIGHTNING

BAKERSFIELD, Cal., Aug. 17—Lightning struck the Shell Oil Company's 750,000 barrel oil reservoir of oil at Coalinga, yesterday, and caused damage estimated in excess of one million dollars. But the storm brought good luck to Noah W. Miers, 67, who has been suffering with paralysis in his left arm. Lightning struck him and he has regained the use of his arm.

## Good Prospects For Cheap Wheat

On Tuesday morning two harvest trains passed through Newcastle en route for Western Canada. Many young men from Newcastle and Charleton and the outlying districts left on Tuesday afternoon, among whom were: Stafford Russell, Charles Geikie, Fraser White, Claude Masson, Allie Fallon, Marshall McLean, Bob Woods, James Bernard, Jr. Hubert Black, William Bernard, Frank Leslie Hugh Holt, Baxter McFarlane, Whitfield Vye, Morris Crocker, James Hachey, Frank McLean, Sorbet McLeod, Jacob Rubenstein, Harry Thibideau, Chester Duplcey.

## On The Road to Nelson

(1) A Canadian Pacific Lake Steamship plying between Nelson and Kaslo on the British Columbia lake district. (2) "The Canyon" near South Slocan on the Kootenay River. (3) Bonnington Falls. (4) "The Pool" near Nelson on the Kootenay Lakes, B.C.

On the road to Nelson, whether one enters from the east or west, new beauties charm the eye at every step. Murmuring pines and fir trees cast their shadows along sunny roads, while wayside flowers gladden the eye.

Even in winter, it is equally picturesque, when snow crystals adorn the trees and shrubs, with flowery jewels; their shadows cast strange pictures across the soft snow covering the sleeping earth. For winter in the mountains of British Columbia is a season of joyous sport and out of door life!

Along the way, as the Kootenay makes its downward dash to the Columbia, appear falls and rapids. Two of these are utilized for electric power, by the West Kootenay Power and Light Company, which distributes power for three hundred miles, and the City of Nelson power company, which provides its citizens with heat and light and power from this source. Beyond another of these rapids is the famous fishing ground, known as Slocan pool, where fishermen from all over the world have tried their luck through dark and sunny days.

While the fishing may take time and patience, if the season or the bait is not just right, not so the scenery, for the beauty of the entire riverside may be seen from the car window when passing between Nelson and Castlegar, whence two routes are provided to the Pacific coast.

—Mrs. W. Garland Foster.

## Silence That Is Not Golden

The merchant, who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down street or by mail order route to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store!

Tell your buying public what you have—ADVERTISING in "The Union Advocate" will invite the whole community to your store. And—

WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

## There is only one way to kill all the Flies

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place as many Wilson's Fly Pads as possible on plates (properly wetted with water but not flooded) on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

## The right way to use Wilson's Fly Pads

### THE PAPER BOX AND BAG INDUSTRY IN CANADA

Report for 1924 shows New Brunswick ranks fourth among provinces of the Dominion.

Fredericton, N. B. August 15th. In connection with the forest industries of New Brunswick the public mind generally visualizes the milling or the pulp and paper manufacturing as the chief branches. In addition to those leading divisions there are a number of comparatively small industries which in the aggregate are of marked importance.

One of those is the Paper Box Industry. It may surprise many to know that this is an industry based on the forests but it is. The Forest Products Branch of the Dominion Bureau of Statistics, located at Ottawa, deals with the industry in a preliminary report just released. Statistics generally are dry and uninteresting but those relating to this particular industry give some instructive information.

The making of paper bags and boxes is classed as one of the most important of the secondary manufacturing industries depending on the pulp and paper industry for raw material. The lines of manufacture generally turned out are stiff folding and corrugated boxes, cartons and other paper board containers and paper bags, but in addition there are made envelopes, egg-case fillers, paper drinking cups, bottle wrappers, mailing tubes and other products.

The statistics concern the industry in the whole of Canada with each province dealt with separately. This province is placed fourth in order of importance. Ontario being first, Quebec second and Manitoba third. New Brunswick possesses four establishments devoted to this line of business with a total capital investment of \$192,667; and a total number of 51 classed as employees on a total of \$42,577. and the value of product was \$130,513. Materials were valued at \$58,922. In New Brunswick the manufactured is chiefly confined to stiff and folding boxes but there is ample opportunity for development in the other lines.

### ONTARIO WOMAN REGAINS HEALTH

Wants Other Women to Know About Lydia E. Pinkham's Vegetable Compound

Mount Forest, Ont.—"Before I took Lydia E. Pinkham's Vegetable Compound I felt weak and miserable, and had pains all through me. I was living in Ailsa Craig at the time, and one day a friend came in and told me her experience of using the Vegetable Compound and advised me to take a bottle, which I finally did. I began to get stronger and those pains left me. I am glad I found out about this medicine as I think there is none equal to it for women who have troubles of this kind. I cannot praise the Vegetable Compound too highly for the good it has done me. Whenever I know of a woman suffering I am glad to tell her of it."—Mrs. Wm. RIDSDALE, R. R. No. 1, Mount Forest, Ontario.

Women throughout the Dominion are finding health in Lydia E. Pinkham's Vegetable Compound. Non-harmful drugs are used in its preparation—just roots and herbs—and it can be taken in safety even by a nursing mother. For sale by all druggists.

#### THE CHARM OF RAIN

There is a certain fitness in a rainy day for serious thought and the reflections it arouses are not gloomy, at the reverse. Longfellow's poem on the rainy day, sad but tempered by resignation, is not so well known as his lyric rejoicing over the fall of the rain after a parching season. Not only is rain necessary for growth, but it cleanses the air, and in the accompanying sound there is something soothing and enjoyable. These are pleasures which happily the blind may share. They, like their more fortunate brothers and sisters, may "listen to the pattering of the rain upon the roof" and breathe the odors which the shower brings forth from earth and grass, leaves and flowers. Fun has been poked at the novelists who began their stories with a sentence like this: "It was a dark and stormy evening." But it may be that the frequent recurrence of this opening was not merely imitative but the touch of nature which makes the whole world kin. The weather is a topic of absorbing and undying interest. Mark Twain scoffed at the old habit, and said that he would put all the weather into one chapter of one of his books. But his own description of a thunderstorm in "Huckleberry Finn" is a classic. The eternal charm of rain held him and made his readers sharers in his pleasure.

#### YOUR SUBSCRIPTION

The date of the expiration of your subscription appears on the colored label on your paper. For instance, Aug. 22, means that subscription terminated August, 1922. Look at your label and see if you are a year or more. If you are, we would appreciate a remittance.

#### TO CURB SCANDAL

Lord Darling's judicial procedure bill, which when introduced in the House of Lords was described as "an act to regulate the publication of reports on judicial proceedings to prevent injury to public morals," has just been published and contains some drastic provisions.

The measure forbids publication by the press of "any indecent matter or medical, surgical or physiological details, being matter or details the publication of which would be calculated to injure public morals or otherwise be to public mischief."

Newspaper reports of divorce actions may contain no more than the following: "The names and addresses and description of the parties and witnesses, the grounds on which the proceedings are brought and retested and set forth in the petition and answers and particulars thereof and submission of any point of law arising in the course of the proceedings and the decision of the court thereon summing up of the judge and the finding of the jury, and judgment of the court and observations made by the judge in giving judgment."

### A SICK PARLIAMENT

Looking back over the past five months, the Ottawa Journal sees "the worst session of perhaps the worst Parliament that Canada has known in years." It finds the five months barren of achievement and their concluding weeks such as to inspire disgust and amazement, with grave public questions sidetracked or compromised and millions of dollars voted without scrutiny. It wishes that the nation could have been congregated in the galleries of the House of Commons to witness the spectacle, the inference evidently being that were the people to see the performance of government under its present leadership they would be quick to make a change. The Journal recites the reasons for its conclusion in part as follows:—

"Of the long list of promises in the Speech from the Throne practically nothing got to the statute books. The pledged solution of the railway rate question brought little but compromise to cover retreat from an impossible position; the much heralded measure to control ocean rates ended in a Cabinet bout; high cost and humiliation; amendments to the Grain Act so favored elevator over farmers, that even the Progressive worm turned and rent its erstwhile leader; a \$10,000,000 rural credit scheme, an evident deliberate fake was luckily killed by the Senate; a high-sounding coking scheme, brought in at the last minute, was either still-born or the victim of infanticide; a transferable vote bill, promised repeatedly, never made an appearance; the Home Bank depositors bill had to be taken in hand and put into half decency by the Senate. Incapacity, muddle, and mismanagement most of the Ministry's record.

"Of the vital needs of the country—check of extravagance, reduction of taxation and debt, prevention of the drain of human and raw material to the United States, a vigorous immigration policy—this session brought not a hope. Continued heightening of debts the world over was met by Government fiscal tinkering based on an electoral map. Industrial depression, unemployment and mounting obligations saw the Government march on in extravagance, oblivious to world conditions, careless of business stagnation, heedless of the strain and drain on the nation through taxation, emigration and debt. Decline of immigration, declared and admitted to be a vital necessity, saw the Government but confess impotence and failure. Manifestly dishonest budget statements, enormous increases in debt, sustained high taxation, patronage millions distributed like manna from Heaven to favored constituencies—these were the Ministry's only reply to a condition growing increasingly grave.

"The truth is that this is a sick Parliament. Weakened by the loss of men like Fielding and Gouin; still further weakened by retention of men like Motherwell; the combined disease of insigme within its ranks and of log-rolling and barter with Progressives without its ranks, destroys the Government's usefulness and makes it a national menace. Without a sure majority, it improvises from day to day, living on hand to mouth policies, keeping one on St. James Street and the other on the West, a creature of the arithmetic of division lists, with office its central aim.

"And the Progressive record is no better. This party coming to Ottawa to sanctify politics has been an influence towards hypocrisy and dishonesty and sectionalism in Parliament. The old parties had and have their faults, but never possessed perfection. The chief evil of the Progressive party has been its insincerity, a deceit greater even than its incapacity. Through four years when its numbers were great enough to

control legislation, it has divided its time between selling out its principles or proving its incapacity to promote them. Foaming for Free Trade in the constituencies, it has slyly voted for tariffs. Challenged to move its platform in Parliament, it has never had the courage of the act. Its professed passion for economy was reduced to oyster-like silence in the face of a great deal of extravagance, and of clamor for a great deal more. In its feebleness in debate, in its inability to take the initiative in anything, in its failure to achieve cohesion, or unity, or discipline in its own ranks, and, lastly, in its downright recreancy to principle and its willingness to play mean politics, it has lowered the tone of even this Parliament and made Government less honest and stable.

"Mr. Meighen, contrasted with this story of his opponents, has united and vitalized his party. His programme, resting upon unchanging principle, but applied intelligently to change, is the ablest earnest statement of policy that the country has had in years. And Mr. Meighen is the puppet of nobody. Nobody owns him. Nobody controls him. His policies are his own policies. His principles are his own principles. His mistakes are his own mistakes. Beside the wavering, the back-sliding, the meddling and vote-baiting of Liberals and Progressives, his clear-cut, uncompromising advocacy of a Canadian policy for Canada, the old tried historic policy that builded Confederation, stands out in hopeful relief.

"The country, we are convinced, is turning to that policy. It is sick of this Government and of this Parliament. It is sick of log-rolling and bartering for votes. It is sick of Government by listening; sick of extravagance; sick of debt, of taxation, of drift and impotence; sick of the things which, in four years of bountiful harvest and favorable opportunities, have seen Canada move backwards, her industry languishing, her people becoming exiles, her riches being exploited by others. It is preparing, we think, to wipe out this Ministry and this Parliament, and to give Canada a leader who will lead and a Government that will govern."

##### Here and There

Since the first of April up to the present time approximately seven million pounds of various fish have been landed at North Sydney, N.S., by local fishermen. The catch made so far this season is far in excess of any previous year's catch in the history of this port.

All tourist and motorists records are being broken at Banff this year. There are three times as many campers as in any other year and 2,400 more bathers than in 1924. The Canadian Pacific hotel here and at Lake Louise reports bookings as being unusually heavy.

More Alberta provincial savings certificates were sold in the first six months of this year than in any full year previously, even including the big record year of 1920. Since the beginning of the current year up to the end of June, the total sales amounted to \$1,401,600. There is now close to \$7,000,000 outstanding in savings certificates.

Radio receiving licenses held in Canada at the end of last month numbered 56,063, according to a statement issued by the Federal Government. Ontario leads all provinces with a total of 28,507. Quebec occupied second place with 7,852 licenses, followed by Saskatchewan with 6,551; Manitoba, 4,443; British Columbia, 3,392; Alberta, 3,004; Nova Scotia, 1,436; New Brunswick, 736; Prince Edward Island, 87; Yukon, 22; and Northwest Territories, 5.

A consignment of 21 fox hounds from the famous Mendip Hunt Pack, in Somerset, England, was brought to Canada early in August by the Dominion Express Company for the Toronto Hunt Club. The English papers published photographs of these splendid animals and expressed gratification that good British hounds were being used on the hunting fields of Ontario. This is the third such consignment brought out by the Dominion Express within recent weeks.

The delegates to the Empire Press Conference at Australia who came from Britain and passed through Canada recently spent several days in the Canadian Pacific Rockies and enjoyed themselves trail-riding and hiking among the beauty spots that surround Banff and Lake Louise. Lord Burnham and several other distinguished British journalists established new walking records in covering the distance between Wapita and Emerald Lake in two hours, while it took the trail-riders on ponies two hours and a quarter to cover the same ground.

Representing education authorities and the public and secondary schools of Great Britain, about one hundred teachers from the United Kingdom arrived recently at Montreal on the "Empress of Scotland" and are now touring the country before their departure they received a congratulatory message from King George and on their arrival were tendered an official reception by representatives of the Quebec provincial government prominent educationists and were entertained to dinner at the Chateau Frontenac by E. W. Beatty.

In a recently published monograph on "The Transportation of Canadian Wheat to the Sea" Miss L. M. Fair, M.A., makes the following comparison of Canadian and United States rates to show to what extent the resources of our railways are organized for the benefit of western producers:—

To Fort William	Miles Rates per U.S. bu. wheat. Rates
From:—	cents cents
Winnipeg	420 .08 .12
Portage la Prairie	475 .09 .13
Carberry	525 .09 .13

The One Sure Way To Good Health

Is Keeping the Blood Pure by Using Dr. Williams' Pink Pills.

Impure, weak blood is the cause of most of the troubles that afflict people. This is the cause of the wretched feeling of languor and faintness, pains in the back and side, headaches and breathlessness, that afflict women and make her daily life a torture. To get new health and strength the blood must be enriched. What Dr. Williams' Pink Pills do in cases of this kind is told by Mrs. Augusta Emery, Woolford Station; Alta, who says: "Living on the prairie, and knowing that there are thousands of women like myself miles away from a doctor, I want to tell them what Dr. Williams' Pink Pills have done for me. After my first baby was born I seemed to have little energy. I felt weary and run-down and unable to do even my ordinary household duties. I felt I needed a tonic and as I had long seen Dr. Williams' Pink Pills advertised I decided to try them. I got a supply and carefully followed the directions and before very long the results was wonderful. Day by day I regained my former strength and energy. The pills seemed to give me a keen appetite and I gained in weight and soon was able not only to do my work about the house but to help with many chores on the farm. For this reason I would advise women, particularly those on the prairie or the farm, to keep a supply of these pills always on hand. One trial will convince you of their worth I have recommended them to many of my friends and never have they failed to produce good results."

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Delightful Camp Held By Scouts and Cadets

(Continued from page 1)

and stated that they made a very creditable showing.

The following is a statement of the receipts and expenditures for the period of the camp:

Table with columns for Receipts and Expenditures. MARITIME SUMMER SCHOOL Closed August 15th, 1925

The Maritime Summer School, Mount Allison University Sackville, N. B. closed on Saturday, August 15. The session has lasted six weeks and has been most successful. During the same period the Provincial Vocational School for the training of teachers has been in session, and the students of both schools, one hundred and twenty in all have boarded in the University Residence. In the University school ninety were registered, divided among the Provinces as follows: New Brunswick 55, Nova Scotia 28, Prince Edward Island 4, Elsewhere 3. The great majority are teachers while the most of them came primarily to take University subjects such as Science, Mathematics, Latin and French, almost all registered for some course dealing directly with the work of teaching. About forty teachers took the courses given by Dr. Amoss in Educational Psychology, General Psychology and Methods in Primary and Kindergarten Work. All claim these courses were helpful beyond expectation. The following did intensive work with Dr. Trueman discussing the question of the Administration of Public Education. Karl C. Bishop, Teacher of History, Fredericton, N. B. L. E. A. Fraser, B. Sc. Vice Principal Academy, Windsor, N. S. Carman Wells, Principal of the Superior School, Port Egin, N. B. Bonar F. Mundle, Prin. of Superior School, Upper Sackville N. B. R. G. Mowatt, B. A., Prin. High School, St. Stephen N. B. L. W. Shaw, Inspector of Schools, Georgetown, P. E. I. Basil Silver, Principal of Academy castle, Doaktown, N. B.

Nearly a year ago we purchased our stocks to protect you against a rising market--what we saved by early buying we pass along to you.

Make a Memo-Creaghan's Underwear and Blankets--lower than manufacturers present price, and when you want them later on come here for them and save.

THE DAIRY COW IN UNITED STATES

Every now and then someone bobs up with a declaration that this, or that is "the greatest achievement of America in 100 years." Sometimes it is an invention; sometimes it has to do with social problems; sometimes it refers to the conquest of the continent; and not infrequently it is a matter of accumulation of cash and wealth. After such ambitious suggestions it is refreshing to find someone willing to stake his reputation on humbler things; and Prof. O. E. Baker, an expert, affiliated with the Department of Agriculture, has done just that at the Williamstown Conference. The greatest achievement of the United States during the past century, he proclaims "is the dairy cow." Prof. Baker points to the growth of milk-drinking and the simultaneous decline of meat-eating among the public. We are, he finds, eating more wheat and sugar than we used to, and developing an allegiance to the moo cow, based upon the realistic and profoundly moving urge of a more highly developed taste. Of course, this will appear to many quite shocking. To claim the cow as our triumphant contribution to modern life may bring challenge. India may not like it, for India considered the cow a heroine long before America was sighted by Columbus. Other lands may insist upon a prior claim to the cow. But to the United States, however, goes honors for a more substantial regard. There can be no dispute with a people who testify to regard for the ruminating bovine by creating the most extensive and persistent market for her lactical secretion in history. Verily, the moo cow is our national heroine, and only careless neglect to pay honor where honor is due has delayed recognition of the fact. Institutions, States, the

THE DAIRY COW IN UNITED STATES

government itself are filled with those whose debt to her will never be paid. Nor is it too late to spread the words of tribute into every corner of the land, from the rock-ribbed coasts of Maine to the sun-kissed sands of California. Come, brethren and let us join to boom the cow, symbol of America's greatness singing the words of that prophetic song: "The friendly cow all red and white I love with all my heart." FOUR POISONED BY EATING PIE NEW YORK, Aug. 10--Mrs. Margaret Ryan, Woodside; L. I. baked a pie yesterday and by mistake used insect powder for baking powder. She served it for dessert at dinner to her 15 year old daughter, Katherine; and Mr. and Mrs. Charles Ittmar, who live in the same house. She also ate a piece herself. Within a few minutes all four were stricken with severe pains. Mrs. Ryan managed to get to a window and summoned a policeman who in turn called an ambulance from St. John's Hospital. The ambulance doctor treated them and they were able to remain at home. N. B. Child Badly Wounded By A Dog Fredericton, N. B. Aug. 14--Doris M. Anderson, the three year old daughter of Mrs. Alma Anderson of Ripples, Sunbury county; was so badly bitten about the head and face by a dog yesterday afternoon that between 20 and 30 stitches had to be taken to close the wounds at Victoria Hospital here. The dog is said to have attacked the child while she was playing out a house where her mother was employed.

## OBSERVATION CAR FOR THE C. N. R. OCEAN LIMITED

Montreal; Que. Aug. 13—Commencing Saturday August 18 the Ocean Limited running over the Canadian National Railways from Montreal to Halifax will carry on observation type car. The introduction of this service will fill a long felt want as hitherto the equipment has not been available to permit of this type of car being used and passengers travelling this route have not been able to view to the best advantage such scenic spots as the Matapedia and Wentworth valleys, the Tantramar Marshes and the picturesque run along the south shore of the Bay of Chaleur.

Equipped with Radio

Like all observation cars in use on the National system these cars will be radio equipped and will also carry a library. The rear end is provided with a wide open observation platform. Unlike observation cars in use on the service between Montreal and Vancouver which are named after forts, those for service between Montreal and Halifax will carry the names of well known capes in Eastern Quebec and the Maritime Provinces.

## BISHOP BIDWELL IS COMING

LONDON, Aug. 7.—Right Rev. Dr. E. J. Bidwell, Bishop of the Diocese of Ontario, whose resignation was submitted to the House of Bishops of the ecclesiastical province of Ontario, and was recommended by the executive committee of the Synod, Kingston Ont., for acceptance intends to sail for Canada on August 21. The Bishop says his resignation is final. Bishop Bidwell is going to Canada to settle his personal affairs there. He purposes to reside in England.  
 The resignation of Bishop Bidwell was due to the fact that his wife had joined the Roman Catholic church in Kingston. Bishop Bidwell went to England two months ago in connection with the Church of England emigration settlement scheme, he being chairman of the Canadian Anglican Committee. Mrs. Bidwell sailed for England on July 18.

## CASTORIA

 In Use For Over 30 Years

## DEPARTMENT OF AGRICULTURE CROP REPORT AUGUST

Haying has been seriously retarded by showery weather. Only in Carleton and Kent counties are haying operations nearing completion. Cutting will be general on St. John river valley meadows and Westmorland marsh after the 15th. The crop for the Province will average 1 1/2 tons per acre on 525,000 acres. Mid-summer pasturage has been excellent and the milk flow has been abundant.

During August, to date, a rainfall of 1.46 inches is recorded. Grains fields which gave promise of an abundant yield of good quality crop show serious lodging. Root crops are making excellent progress. Some turnips have been shipped to market during the past week.  
 The potato crop shows a luxuriant growth of vines, and; at present the indications are that the acre yield will be up to the average. No "Late Blight" has been observed and with the cooler weather now prevailing the early crop will be sound. It is expected that the earliest digging will be the 25th. of August.

The acreage for which applications for inspection for certification were received is much less than last year. Only 1300 acres of Irish Cobbler variety and 1700 acres Green Mountain variety were inspected. The first inspection was completed August 1st.

The forecast of the crop yield for the Province, issued August 10th by the Dominion Agricultural Statistics Branch, is as follows:—

	1925
Wheat	240,000 bushels
Oats	6,231,000 bushels
Barley	117,000 bushels
Buckwheat	878,000 bushels
Mixed Grain	75,000 bushels
Potatoes	4,347,000 hundred-weights
Turnips	1,904,000 hundred-weights
Hay	794,000 tons
Fodder Corn	21,000 tons

Mrs. W. R. Cumming, who has been the guest of her sister, Mrs. A. C. Crocker, Millerton; for the past month has returned to her home in Montreal. She was accompanied by her niece, Audrey Miller, who will reside with Mrs. Cumming in the future.

## BELIEVED RICHEST GOLD FIND MADE IN NORTHERN ONTARIO

Toronto, Aug. 13—News of a sensational nature concerning a new gold discovery on the property of the Northwestern Ontario Gold Mining Company, near Schreiber east of Fort William, has been received here, according to the Toronto Star today.

Reports tell of the encouraging of a vein carrying gold running in value as high as \$250 to the ton. The whole width of the lode has not been ascertained but engineers believe that it will spread from ten to twenty, as further progress along the hundred foot tunnel made.

At the point where rich bearing ore was found the same vein was tapped at 400 feet below the surface. It is the belief of engineers that an enormous body of rich ore lies down to that depth. It is the present sensational prospects are

sustained it is the consensus of opinion among mining men at Schreiber that the Northwestern Ontario Company has uncovered one of the richest gold mines in Northern Ontario.

## Cabinet Makers Are Kept Busy

### Rumors Which Reach the Capital

Federicton Mail: Cabinet-makers are still busy and one guess is as good as another. E. C. Atkinson of this city member elect for Sunbury being boomed by his friends for a cabinet position. The Portfolio of Lands and Mines is mentioned. Dr. A. Stewart of Restigouche, Mr. Atkinson's senior also is pressing his claims to the same and E. Leonard O'Brien of Northumberland also is named by some. E. D. Richards of Fredericton is believed to be likely for choice as Provincial Secretary with E. A. Reilly of Moncton, as Attorney General. The N. B. Water Power Commission also affords opportunities, for the appointment of several members of the House.

## WEDDINGS

### CLARK-GALLAN

The wedding took place at the United Church Parsonage, Derby; on Monday 10th inst. of Miss M. Gallan of Upper Nelson to Mr. Vincau Clarke of McKinleyville. The bride was attended by Miss May Gallan a sister of the bride, while the groomsmen was Mr. Pearly McKinley. The happy couple left on Tuesday for the West. Their friends wish them every success and happiness.

## OBITUARY

### GEORGE CLARK

We regret to announce the death of Mr. George Clark, Upper Nelson who died on Monday Aug. 10th at the age of 78 years. His passing being one of peace. He was in the true sense "A Good Man". The funeral was held on Wednesday there being a large number present, coming as far as Moncton, Woodstock and Fredericton. A short service was held in the house when the Pastor Rev. Robert M. Brodie officiated. The party then proceeded to the Church where the deceased loved to meet in fellowship and prayer with his God and brethren. The service being conducted by the Rev. Robert M. Brodie and Arthur W. Brown. At the graveside Mr. Brodie conducted the burial service. Mr. Brown pronouncing the benediction.

The grave was covered with beautiful floral tributes. The sympathy of the residents go out to the dear widow and her family and to Mr. T. Clark of Newcastle, who is the only brother left of the family. Mrs. Clark desires to thank all for their kindness and sympathy in this her sad loss.

A service of commemoration was held in the Church on Thursday evening, beautiful spirit prevailing throughout the service. "Blessed are the dead who die in the Lord; they rest from their labours and their works do follow them."

### NATHANIEL N. MOUNTAIN

Following an exceedingly short illness, Nathaniel N. Mountain passed away at his home at Blackville on Tuesday afternoon, August 4th. Deceased was 67 years of age, and is survived by his widow, two sons, Frank and Trueman J., and one daughter Janet, Mrs. Grace Brown of Newcastle and Mrs. Margaret Glidden, of Woodstock, are the only surviving sisters. One brother, George, of Blackville, also survives. The funeral was held on Wednesday afternoon, Aug. 5th, at 2:30 o'clock and was conducted by Rev. William Gathore, after which interment was made at the Blackville cemetery.

### MISS MARY BENSON

Aged 83 years, Miss Mary Benson who had been ill for some time, died at Chatham, Tuesday. She is survived by a brother, P. H. C. Benson Ottawa; three sisters, Mrs. Susan Crombie, Ottawa; Mrs. Martha Johnston, Chatham; and Miss Sophia Benson. A niece, Miss Sophia Benson also survives.

## Forest Fire Losses for present year in N. B. Lowest Ever Recorded

Damage mostly to private lands. Very little Crown Land burned

Fredericton, N. B. August 14th. With the number of forest fires to August 12th ninety-five, total acreage burned over 6,200 and total damage to timber \$25,355, the season of 1925 has the lowest fire loss on record. As the season for fires runs into October there is ample reason to "knock wood" when making that statement but the conditions at present are so encouraging that those in charge of the protection of the forests against fires feel most optimistic. The acreage covered in the former record season was 8,400 in 1922.

There is every indication that the public has learned and is learning the lesson that fire must be kept out of forests. This attitude which is in contrast to that displayed not so many years ago is the result of the publicity and other work done by the Department of Lands and Mines and various interested organizations, for the purpose of showing to all the importance of forest protection. The press has been a most valuable instrument in this connection.

Educational as well as publicity work has been carried on and today New Brunswick and Nova Scotia stand as the only two provinces of Canada with Forest Fire Prevention prescribed by the Department of Education as a part of the curriculum of the public schools. Teaching in this connection is having a far-reaching influence.

The number of fires to the end of July in New Brunswick was just half the number which occurred in 1924, when the total to that date was 190. For the five years preceding 1923 the average number of fires to that time was 278. For the past seven year

## PEOPLE SHOULD GUARD AGAINST DANGERS OF HEAT

Light and heat are great and, as we would have said lately, rare luxuries but it does not follow that we can always make use of them indiscriminately and unrestrainedly to our advantage.

A young City clerk cooped up all the week in a dingy office takes a drive on the top of a 'bus and removes his hat the better to bathe in the life giving warm h. In evening he finds his head throbbing, his heart beating weakly and a cold damp sweat breaking out on his skin. That sun bath has done him no good.

I find a distinguished medical authority saying: "The sun is our greatest physician. It is a healer, an antiseptic, a life bringer." Yes, that is true but not always when other circumstances are taken into account. Some infective diseases are more prevalent during hot weather than in cold.

Colds are also prevalent during heat waves. The ser-

the average damage to timber caused by fires was \$729,020, the heavy losses of the year 1923 serving to bring the average up. The past month of July had just four fires compared with 71 in July, 1924 and a seven-year average of 78. This makes the month the record July for small number of fires reported and low losses.

Few fires of consequence have occurred so far during the season of 1925. Of ninety-five reported only three spread over more than five hundred acres and sixty per cent of the fires were extinguished before covering five acres. Crown Lands escaped with less than one thousand acres burned and damage to timber about \$2,500. The 5,200 acres of private lands which were burned over, however, sustained damage to the amount of \$14,000 and property damage arising from forest fires totalled \$42,140, a high figure.

Classification of the causes of forest fires shows that 26 were from railways, 18 from pleasure parties of various kinds, 16 from uncontrolled land clearing fires burning in violation of the fire law, 6 from lightning, 3 from burning buildings, one from children playing with matches and 25 from causes unknown.

A feature of the classification is the decreasing number of fires caused by those in the woods for recreation and pleasure. Education and propaganda are showing their work there. The lookout system which now covers almost the entire province proved most valuable in reporting and locating fires. Those in private lands have been fought by private persons under the direction of municipal councillors most effectively.

ies of events is of this kind. The heat wave often come quickly. The average man sallies out in his average clothes. He becomes unduly. He perspires. Then, perhaps he sits in a draught or even if not, he remains long enough in his moistened wear, to endure the same effects as would follow from being "wet to the skin" in a downpour of rain. He is, in fact, wet to the skin.

But let us come to a few practical hints. For headgear a turban is the best, but as we can hardly dare to appear in that fashion, then the nearest approach may be used—a white hat of soft material. Straw hats should be protected round the temples. Black hats can be worn only by the most sun drilled individuals.

Light colored clothes are also better. Next to the skin a light silk singlet may be worn. If flannel has been used, it should not be too readily discarded but a thinner set substituted.

For drinks—it is best to drink as little as possible. The best of all is a cold drink of water and oatmeal or, again, cold weak tea or something of the mint julep or der sucked through a straw.

## LITTLE CHANGE IN CANADIAN TRADE

No material change in Canadian business conditions is noticeable, according to dispatches to Dun's Review from branch offices of R. G. Dun & Co. in the principal cities, midsummer quiet being still the rule in numerous lines. The continued favorable progress of crops in almost every section, and the belief that remunerative prices will be realized for most products of the soil, however, result in a marked increase in the confidence with which the future is regarded, and expectations are general that an active buying movement will develop in all staple lines with the termination of the vacation period.

Although the weather has not been wholly favorable at Montreal, retail distribution is in well-maintained volume for this period, and the number of orders being received in moderate amounts for prompt and future shipment encourage expectations of an active Fall and Winter trade. Payments are fairly prompt.

Business in both wholesales and retail lines at Quebec is fully up to the average for this period, and wholesalers are preparing for a substantial merchandise with the ending of vacations and the harvesting of the crops. Collections are fairly prompt.

Retail trade is maintained in satisfactory volume for this period at Toronto, and sentiment in wholesale lines is decidedly optimistic regarding prospects for the coming season. Orders covering wide variety of commodities for Fall shipment are being received in encouraging numbers, reflecting the confidence derived from favorable crop reports and the promising industrial outlook, and collections are improving steadily.

The business outlook in the Far West and Northwest is slowly, but steadily improving, and, though buyers are still practicing conservatism to a considerable extent, there is a perceptible increase in the confidence with which they enter into engagements for the future. Retail distribution is about normal for this period, but both inquiries and orders are making favorable comparison with those of this time a year ago and, if present crop promises are fulfilled, there seems to be every reason to anticipate an active Fall and Winter trade. Collections show some improvement.

### FIRE ALARM

The Fire Department was called out Wednesday morning at 12:25 o'clock for a blaze in Mr. William Hogan's wood-working shop in the rear of the Empress Theatre. The fire was quickly extinguished on the arrival of the department, with no damage sustained.

## SUPPLEMENTING SHORT PASTURES

(Experimental Farms Note)

When pastures become dry and unpalatable during mid-summer they should be supplemented with grain and either green feed or summer silage. Otherwise the milk cows will drop so badly in milk yield that they cannot be brought back to profitable production when stable feeding starts in the fall.

Grain feeding is advisable with heavy milking cows. Cows yielding twenty pounds of milk or over, should receive one pound of grain for every six to eight pounds of milk which they produce.

Pasture grass contains a higher percentage of protein than mature hay, and for this reason the summer grain ration need not contain so high a percentage of rich protein feed; such as oil cake and cotton seed meal, as the ration fed in winter. It is more economical to depend largely on green feed or summer silage than grain as a sole supplement to scant pastures. Cost of cutting and hauling green feed each day makes it more expensive than silage, but owing to the danger of spoiling, summer silage is seldom practical unless a farmer has at least fifteen cows.

Last year at the Experimental Station, Fredericton, owing to the dry weather during June and the first two weeks of July, pastures were poor. Oats and pea green feed was fed to the heavy producers from July 20, and to the entire herd from the first of August. They were changed to oats and pea silage on September first. There was no appreciable difference in the milk when the cows were changed from green feed to silage. The mixture used was Banner oats, 2 bushels, and Canadian Beauty peas, 1 bushel sown at the rate of three to three and one-half bushels per acre. The cows were fed from 25 to 40 pounds of roughage. This feed, together with a small grain allowance, maintained the milk flow and kept the cows in good flesh.

If cattle are allowed to fall away in flesh and milk yield in mid-summer, it will take much more feed to carry them through the winter. Therefore, every effort should be made to maintain the flesh and milk flow during the period of short pastures. If green oats are available they will give fair results, although not so good as oats and peas. In grain feeding the farmer should bear in mind that while he may not get immediate returns, the improved condition of the cows will reflect itself in greater production during the winter as well as during the ensuing lactation period.

## First Impressions Are Important

In a world where appearances are valued as indexes to character, *Your Stationery* should represent you worthily—always and everywhere.

That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

## Letter Heads, Bill Heads, Shipping Tags, Office Forms, Envelopes, Statements, Etc.

they will reflect the dignity and self-respect of the discriminating, and be an excellent advertisement for your business, for a business man may be judged by the quality and style of his printed matter.

## The Advocate Job Printing Department

is without doubt the best equipped on the North Shore, and consequently in a position to turn out all kinds of Job Printing *Neatly, Promptly and Satisfactorily*, at very reasonable prices.

We are constantly adding new type and material to our already up-to-date equipment, and we have recently put in several of the newest type faces manufactured.

**THREE BOYS HIT  
BY LIGHTNING**

In a severe electrical storm the  
visited Grand Mere, Que.; three  
brothers by the names of Gerard, 17  
Louis, 12, and Marcel Thibault; 9;  
were hit by lightning while they were  
taking refuge in a shack in a base-  
ball field. The youngest of the three  
Marcel, was the worst sufferer. His  
garments were set afire by the light-  
ning. He was severely burned and was  
saved from death only by the quick  
work of his brother, Gerard, un-  
dressing him and putting out the  
flames.

Gerard and Louis Henri Thibault  
got a severe shock and were knock-  
ed down but soon recovered.

Many other boys were in the shack  
with them when they were struck.

**Man Should Live 150 yrs.**

That the span of life can be ex-  
tended to 150 years at the cost of  
a sixpence a head, is the argument  
of Sir Ronald Ross, the English scien-  
tist, whose researches have led to  
cures for malaria and sleeping sick-  
ness. Sir Ronald claims that a six-  
pence from the pocket of every  
Englishman spent in scientific knowl-  
edge would keep germs and old age  
away for at least 150 years.

The scientist thinks that the al-  
lotted span of three score years and  
ten should find man in the prime of  
life instead of edging his pedal ex-  
tremity toward the grave. We live  
shortened lives, he says, because we  
are the prey of countless germs. Con-  
quer the germs and man can easily  
reach the age of 150 and maybe  
longer.

"Eighty years ago," said Sir  
Ronald in a lecture, "the average life  
of a London man was about thirty-  
four years seven months and of a  
woman thirty-eight years four  
months. Today it is thirty-three years  
nine months and fifty-nine years.  
Thus medical science in eighty years  
has given us twenty years more of  
life."

This start on cheating eterni-  
ty has just begun, the speaker con-  
tinued. Nowadays the equivalent  
of one penny head is being spent  
in Britain for research, and he as-  
serted that the spending of a six  
pence a head would make the mon-  
key gland useless.

A scientist of the Pasteur Insti-  
tute in Paris has predicted that in  
100 years from now the average man  
will live to be 150 years old. Mech-  
nikoff, the Russian scientist, has  
made the same prophecy. These  
visions of a future race of Methu-  
selahs are to materialize through the  
agency of the research laboratory, in  
Sir Ronald's opinion.

The laboratory worker in the  
next generation, if allowed full scope  
will trace all destructive diseases to  
their source and exterminate them  
instead of combatting them after  
they have appeared, Sir Ronald said.  
Already research laboratories are  
at work on important medical prob-  
lems. The Pasteur Institute is work-  
ing to destroy cancer and tubercu-  
losis, and the Ross Institute in Lon-  
don is working for the eradication  
of leprosy.

Advanced English scientists hope  
to see research laboratories in every  
large city in the world, financed by  
the State or municipality. In them  
the search will be carried on for  
unseen enemies of the human family  
until the last germ has disappeared.  
If the medical world could spend  
\$10,000,000 annually instead of \$900-  
000 as now, Sir Ronald avers, our  
children's grandchildren would all  
be centenarians, and at that be only  
pikers to their posterity.

**How Teachers Federation Will Tour Canada**

(1) One of the Great Lakes steamers which will convey the party from Port Williams to Port McNicholl.  
(2) The ferry boat "Master Princess" plying between Vancouver and Vancouver Island.  
(3) The Special Train which makes a record run across the entire country.  
(4) An open observation car used on all trains passing through the Rocky Mountains.  
(5) A Lake Kootenay steamer.  
(6) An automobile awaiting to take passengers over the famous Banff-Windermere Highway.  
(7) Sight-seeing bus used at various interesting points of the trip.

Robert Louis Stevenson crossed  
the Pyrenees on a donkey. He  
even enjoyed the trip. Whatever  
physical discomforts he had to put  
up with were more than compensat-  
ed for by the amount of knowledge  
he accumulated and by the deep  
pleasure he derived from coming into  
close contact with the beauties and  
wonders of nature. But the don-  
key, whatever his good points may  
be, is not now regarded as the most  
satisfactory means of transportation  
and we in Canada have a decided  
preference for the more comfortable  
and rapid conveyances depicted above.

The picture illustrates the general  
system by which the various points  
of the Dominion have become linked  
up with one another by Canadian  
Pacific steamers, trains and automob-  
iles. It also shows the means  
by which Dean Laird's special party  
of school-teachers will make their  
educational trip across Canada, from  
coast to coast, leaving Toronto on  
July 20th, arriving at Vancouver  
July 27th, and returning to Toronto  
early in August. A special train,  
(No. 3 in the illustration) will be  
utilized, and reduced rates are being  
offered to teachers who desire, as it  
were, to complete their own educa-

tion by increasing their personal  
acquaintance with the country  
about which it is their duty to in-  
struct the rising generation. Al-  
though the tour is arranged primar-  
ily for the benefit of school teach-  
ers, it is not restricted to them, and  
other professional and business peo-  
ple are taking advantage of the op-  
portunity to make this combined  
pleasure and educational trip across  
the country.  
The party will travel by rail, with  
several stop-overs, to Vancouver, and  
from there will cross to Vancouver  
Island by a Canadian Pacific ferry

boat (No. 2). From there by train  
they will proceed from Vancouver  
to Nelson, B.C., and thence via steam-  
er (No. 5) over Lake Kootenay to  
Kootenay Landing. By rail again  
on to Windermere, from where the  
automobiles (No. 6) will convey  
them over the famous Banff-Wind-  
ermere Highway to Banff. Entraining  
once more, the party will go on to  
Edmonton, returning from there to  
Fort William, from which point they  
travel by one of the Canadian Pacific  
Great Lakes Steamers to Port  
McNicholl (No. 1) and complete the  
tour from there to Toronto by rail.

**All Set For the Calgary Stampede**

1. Cowboys in the Parade. 2. "Bucking Sally." 3. Cowboys in the making. 4. The old coach resurrected. 5. Hoot Gibson and Sgt. Kendall, late of the R.C.M.P.  
6. The Old Chief. 7. Roy Hutchison does his stuff. 8. "Coyote" Frank gets dumped. 9. The Covered Wagon.

The Jubilee Historical Pageant  
and Stampede commemorating  
the 50th anniversary of the coming  
of the Mounted Police to Calgary  
and the birth of the city will be the  
centre of attraction of the West for  
all Canada, and commences July 6  
lasting to July 11. It will furnish  
the chance of a lifetime for tourists  
to get something entirely out of the  
ordinary from the usual trip to the  
West and the Mountains. Among  
the attractions there will be Hoot  
Gibson, the well-known movie cow-

boy star, who will be making special  
motion pictures of the celebrations,  
and who will be supported by fifty  
of a staff from California. In the  
Historical Pageant some 15 to 20  
floats will be used representing dif-  
ferent periods in the history of the  
West and Calgary's development.  
The plan for the Pageant involves  
the representation of twenty epis-  
odes which show in colorful detail  
the history of the West before and  
after the coming of the white man.  
There will be the pre-civilization

Indian period, then the coming of the  
Explorers, Fur Traders and Adven-  
turers of the 18th century, the ar-  
rival of the Catholic Fathers, the  
lawless period of the first settlers,  
the coming of the mounted Police,  
the Riel Rebellion, the coming of the  
railway, the intensive development of  
the West, the Great War call to  
arms, and finally Calgary and the  
West as they are to-day, the Granary  
of the World.  
The high lights of the Stampede  
will be the individual exhibitions of

buck-jumping by the best cowboy  
riders of the West who will gather  
from far and near to the celebra-  
tion. Somewhere around 1,500  
horses will be used in the Grand Par-  
ade, which it is estimated will be  
about five miles long. Universal  
Film Company are making a rousing  
Western feature out of the Show and  
will aim at producing a Canadian  
"Covered Wagon" from the spectacle.  
The Stampede will undoubtedly be  
the high light of the West and will  
surely stand as a great record of  
achievement for many years to come.

## Local and General News

### STEAMER IN PORT

The river seems a busy spot these days. No less than six steamers are here for loading at different wharves within a mile or so of the Newcastle bridge.

### BENEFIT NIGHT

Many citizens enjoyed the "Fire Patrol" Moving picture presented last Wednesday and Thursday evenings in the Opera House, under the auspices of the Newcastle Fire Department.

### BAND CONCERT

The Newcastle Band gave a delightful open air band concert from the band stand last Friday evening. A large number of citizens enjoyed the music and it is hoped we will have more band concerts during the balance of the summer months.

### LAWN SOCIAL

The Young People's Club of the Methodist Church held a very successful lawn social on Thursday evening, Aug. 13 on the lawn of the Methodist Church. The grounds were very prettily decorated with bunting, flags and Chinese lanterns and presented a very pretty appearance. The Church orchestra furnished music during the evening, while ice cream and cake were served by the members of the club.

### MADE LIFE MEMBER

The Women's Missionary Society of the United Church (Methodist) with some other lady visitors; held a pleasant gathering on Tuesday evening at the home of Mrs. Kethro when they surprised her in making her a life member of the Missionary Society. Mrs. Follansbee and Mrs. Lord made the presentation and spoke felicitous words and the pastor also made a short address. A dainty lunch was served.

### DECLARATION DAY

Friday was Declaration Day at Newcastle when Sheriff Skidd after the usual preliminaries declared Messrs. Heckbert, Lavioie, Holmes; and O'Brien duly elected to represent the County of Northumberland at Fredericton during the next Parliamentary term.

The official figures, while slightly different, do not effect the result:

O'Brien	5372
Heckbert	5268
Holmes	5206
Lavioie	5110
Tweedie	4982
Morrissey	4951
Price	4908
Savoy	4870

Mr. Heckbert at the close of the official proceedings, on behalf of himself and colleagues, returned thanks to his supporters and workers and the voters generally for their support and the Sheriff for the ability and impartiality in the conduct of the election. Mr. Savoy expressed the same sentiments for the defeated candidates and the proceedings closed.

There were 397 spoiled ballots that were of course rejected. "World."

## Presbyterian Church In Canada

Newcastle, N. B.  
Sunday, Aug. 23rd.  
Service at 7 P. M.

## OPERA HOUSE

Rev. J. A. Hiltz, of Davenport Road Church, Toronto, will be the speaker.  
Bring your Bible and Hymn Book.  
All Are Welcome

### BORN

In Miramichi Hospital, on Aug. 12th, to Mr. and Mrs. Wilford Comfort, a son.

### TENNIS TOURNAMENT

The Bathurst Tennis Club defeated the Newcastle Tennis Club in a return tournament played here last Saturday. In the evening a dance was held in the Town Hall.

### PRESBYTERIAN SERVICE

Presbyterian Service was held in the Newcastle Opera House last Sunday morning by Rev. Mr. Davis, of Toronto. The reverend gentleman preached an eloquent and inspiring sermon to an interested and attentive congregation.

### HARVESTERS' EXCURSION

This year's harvesters' excursion was by far the largest of any leaving the Miramichi. There were 90 from Chatham, 20 from Loggieville and 200 from Newcastle. Many of those going away will return after the harvest is gathered but there are always some of our young men who find permanent employment in the West and remain there.

### WORLD TOURISTS

A Ford Travel Car with four ex-soldiers, who are making a world tour, were in Newcastle last week and attracted a great deal of attention. One Canadian and three Americans comprise the quartet. As they are incapacitated soldiers they are in receipt of pensions from their governments and these are augmented by the sale of souvenir cards, so that they make a good living along the road.

The party started out from El Paso Texas, in 1921 and have gone practically all over the world travelling nearly 135,000 miles. They came here from Halifax and are making their way to Quebec and Montreal.

The car is completely covered with souvenir license plates and trophies. One of the latter is a dried alligator skin.

## Canadian National Railways Earnings

The gross earnings of the Canadian National Railways for the week ending August 7, 1925 were \$4,529,220.00 being an increase of \$520,719.00 or 13% over the corresponding week of 1924.

The gross earnings of the Canadian National Railways from Jan. 1st to August 7, 1925 have been \$130,445,377.00 being a decrease of \$8,414,152.00 as compared with the corresponding period of 1924.

## HARVESTERS AT WINNIPEG THURSDAY

Winnipeg, Aug. 14—Harvesters from the east numbering 2,100 arrived here last night, and continued their journey west, the majority being re-ticketed through to Moosejaw. Today, nine special trains, carrying five thousand harvesters, are due to reach here from the east.

## Barn Burned by Lightning at St. Louis Kent County

Richibucto, Aug. 11—During the severe electric storm that swept over a portion of Kent county last night, a barn owned by Firmar V-tour at St. Louis, was struck by lightning and burned to the ground. The contents of the barn included five tons of hay, a mowing machine; horse; rake, double set of harness and other farming implements. Mr. Votour's loss will be between \$1,000 and \$1,200 with no insurance.

## CHATHAM DEFEATED BY NEWCASTLE

The local baseball team defeated Chatham last Wednesday evening in an interesting Miramichi League fixture on the College Diamond. The game went full five innings and at the end of the score stood 5 to 1 in favor of Newcastle. A large number of fans from Newcastle and Nelson were in attendance and the game was thoroughly enjoyed. T. Mayes umpired the game to the satisfaction of all. Graham performed for the locals and pitched an excellent game of ball, while his team-mates were all "on their toes" and gave him stone-wall support. Martin, a new one, pitched for Chatham; but the locals soon found him and hit his deliveries without trouble.

Chatham secured its lone run in the first, being unable to score again in the other four innings. Newcastle scored three in their third and two in their fifth.

The score by innings was as follows:—

	R.	H.	E.
Newcastle	0	3	0
Chatham	1	0	0

## Cholera Infantum

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes so suddenly; especially during the summer months and unless prompt action is taken the little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent the dreaded summer complaints. They are an absolute safe medicine, being guaranteed to contain neither opiates nor narcotics or other harmful drugs. They cannot possibly do harm—they always do good.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Beaverbrook In Newspaper Deal?

Said to be One of Purchasers of Montreal Star.

(Toronto Telegram)

MONTREAL, Aug. 13—Further information received in regard to a recent transaction affecting the Montreal Star is to the effect that Lord Beaverbrook is edging his way into Canadian journalism.

This information which comes from usually reliable sources, is that Lord Atholstan has disposed of his newspaper under a provision that gives him control of the Star's editorial policy as long as he lives. The price is given at \$4,000,000.

Associated with Lord Beaverbrook in the deal are said to be Sir Campbell Stewart, formerly managing director of the London Times, and J. A. McConnell, a prominent Montreal financier, who is credited with having political ambitions.

(Lord Atholstan has denied the sale of his paper.)
