The first two gentlemen having received appointments, Mr O'Dea was telegraphed and accepted the position.

BASEBALL.—A game of baseball was played on Wednesday afternoon on the Agricultural Park grounds, between the Rovers, of Seaford, and the Goderich club. Score—Goderich, 27; Seaford, 9. Umpire, Mr Anderson. Luckily for the twirlers a heavy north-west gale was blowing, and consequently very little batting was done by either side. Robertson pitched a good game and was well supported behind the bat by H. Donogh.

Mr Peter White, M.P., was in Ottawa recently. He informed a correspondent that he attended two meetings in accordance with an invitation to give his reasons for his vote on the Jesuit Estates Bill. He received a good hearing, and whether he convinced the audience as to the justice of his vote or not he cannot say, but he accepted his explanation without any dissent. Mr White regrets that the Government did not refer the matter to the Supreme Court for its opinion.

DIED IN TEXAS.—A telegram was received by Mr F. W. Johnston, informing of the death of his father, Hugh Johnston, formerly of this town. The late Hugh Johnston was well known by all the old settlers of the Huron tract, having for many years been a resident of the section, and a prominent figure in local politics. Some years since he located in Texas, and in conjunction with his sons, went largely into cattle ranching in that State.

THE I. O. O. F. EXCURSION.—The excursion to Fort Huron on Thursday of last week, under the auspices of the I. O. F., was largely attended and successful throughout. The weather was fine, the accommodation on the Campana good, and the conduct of the excursionists exemplary. The annual excursion to Sarnia and Port Huron is becoming a popular institution, and has been a financial success to the society that instituted it.

HE IS QUITE A SCULLER.—The Sarnia Sun has the following description of a sculling match at that point, where A. B. Henderson, formerly of Goderich, and well-known as a bicycle rider and singer, has gained honors as an amateur sculler.—It was about 7:35 when Henderson and Stillington came to the starting point. The boats were clinker-built, with sliding seats. In the toss for position Henderson got the north side and Stillington the south. The two started with the word go and Stillington got his oars in the water first. His start however was not a good one, Henderson's being smoother and cleaner. Away they went, both rowing at a lively pace. It was not apparent that Stillington was getting out of the thing with an opponent who was steering a perfect course, and as he got towards his turning point it was seen that he was away behind in turning. Trethewey kept a pretty straight course and came home a good winner in 9 minutes and 40 seconds. Mitchell working away off his course when near home and Goderich being cheered. After the lapse of about 20 minutes the two winners pulled out ready for the finishing heat, and Henderson winning the toss chose the north side. Henderson's fine and steady stroke had won him many admirers, and Trethewey's sinewy frame and good pull also made many pick him out as the winner. They got away well and both bent to their oars in good style. Trethewey worked off his course a little and as they worked away up the course towards the turning buoys Henderson got a little the advantage. He was first to turn and was closely followed by Trethewey. Coming home they both kept in their best lick. Darkness had about settled and it was difficult to keep the course. Along they came with Henderson increasing his lead and coming in winner by considerable distance. It was so dark that he did not come in between the Referee's boat and the float, but passed to the outside of the latter. He was heartily cheered, and the last heat was not caught owing to the excitement caused by the winner getting out of his course in finishing. The winner is subject to challenge from any of the other three on being given three weeks' notice and it must be won three times in succession before he is made for an other contest between Henderson and Trethewey, the latter challenging the former. For the same evening there will probably be a double scull race, if it can be arranged. The date will be given later.

SPACE AT THE NORTHWEST EXHIBITION.—A number of applications for space at the Northwest Exhibition have been received, and the committee desire all parties who held space last year, and who require to hold the same space this year to notify the management at once.

DIED IN TORONTO.—Mrs C. F. Straubel, who had been suffering from a cancer for some months, died at the residence of her daughter, Mrs Bastedo, Toronto, on Wednesday morning last. The sorrowing relatives have the sympathy of their many friends in Goderich in their bereavement.

Studio open as usual in charge of Mr T. Brophy, who will give his careful attention to all. R. R. Ballows.

CHANGE IN BUSINESS.—Mr Robert Proudfoot, after carrying on the grocery, dry goods, and flour and feed business for the past fourteen years, has retired, and has been succeeded by his son, Mr J. M. Proudfoot, who will continue to carry on the business at the well-known stand, corner of Hamilton and Victoria sts. See advertisement.

DEATH OF COLONEL WALKER OF LONDON.—Colonel Walker, of London, Ont., who went with some friends two weeks ago to fish at Grand River, was struck with paralysis on August 8th, and Wednesday evening, the 14th, died at Mr J. Carberry's, Grand River. Mrs and Miss Walker arrived in the afternoon but were too late to be recognized by the sufferer, who died about two hours after their arrival.

THE GODERICH SPRING BED CO.—The latest manufacturing industry of Goderich is the "Goderich Spring Bed Co.," which has been established on Kingston at. Already a number of excellent mattresses have been turned out and placed on the market, and thus far a ready sale has been obtained. The intention is to put in new capital and labor, and increase the present capacity for turning out work. In addition to making new spring beds, all kinds of repairing will be promptly and cheaply done.

Mitchell Recorder: Goderich has issued a very handsome prize list in pamphlet form for their fall show, to be held September 17, 18 and 19. Besides the usual display of exhibits the people of Goderich have added a number of special attractions to their fall show program, and are going into the thing with an enterprise worthy a town of wider extent and far greater pretensions. We wish them every success and will, weather and circumstances permitting, go and see their show.

TEACHERS' EXAMINATION.—Following are the names of the successful pupils who wrote at Goderich at the midsummer examination for teachers' certificates: Third Class—S. Boyd, M. Cook, M. Craigie, C. Cesar, C. Durbin, B. Dalton, L. Finlay, E. Hall, T. Hawkins, H. Henning, Albert Johnston, N. MacCormac, M. Parsons, A. Smith, R. Strang, A. Thinn. Second Class—E. Addison, B. Finlay, T. McLaughlin, W. McCloskey, E. McMath, L. McLean, L. O'Leary, S. Stafford, E. Watson, M. Watson, A. McKay.

The following item from the *Peel Banner* of last week refers to the roller mill recently erected in Brampton by Pearen Bros., of which firm Mr J. V. Pearen, formerly of this town, is a member:—Steam was got up in the new flour mill last week and everything moved off but-rates. So well kept the shafting and machinery were lined that two men on the main belt can move all the machinery in the building. For several days the mill has been running light to enable the machinery to wear to its bearings and become thoroughly oiled. The Pearen Bros. hope to start grinding wheat today.

GODERICH TURF ASSOCIATION MEETING.—The first annual meeting under the auspices of the Goderich Turf Association will be held on Wednesday next, Aug. 22nd, and promises to be one of unusual attraction to lovers of horse racing. The association is on a good financial basis, and the committee has spared no effort or expense to put the Agricultural Park track in a condition second to none. The program will consist of four races as follows: 3 minute trot, purse \$100; 2:40 trot, purse \$150; free for all, purse \$175; and green trot, purse \$75. All races eligible to pacers or trotters; entries close on August 17. Mr A. Murdoch, Goderich, is secretary.

NEWSPAPER DUNS.—We suppose many people think newspaper men are persistent duffers. By way of comparison let us suppose that a farmer raises 1,000 bushels of wheat a year, and he sells this to 1,000 persons in all parts of the country, a great portion of them saying: "I will hand you the dollar in a short time." The farmer don't want to be small, and says all right. Soon his 1,000 bushels of grain are gone, but he has a little to show for it, and he then realizes that he has frittered away his whole wheat crop and that its value to him is due in a thousand little dribbles, consequently he is seriously embarrassed in his business because his debtors, each owing only \$1, treat it as a small matter, and think it would not help much. Consider this kind of business done in and year out, as the publisher does, and how long would he or could he stand it? A woman's thought will convince anyone that a publisher has cause for persistent dunning.

GODERICH ORGAN COMPANY.

First Regular Meeting.—The Permanent Board of Directors.

A meeting of the shareholders of the Goderich Organ Company was held in the council chamber on Monday evening, August 12, for the purpose of thoroughly organizing the company, and electing a permanent board of directors. The attendance was large. After the stock-book had been signed by the shareholders present, it was

Moved by Mr M. C. Cameron, seconded by Mr R. S. Williams, and carried, that Mayor Butler take the chair.

The Mayor in opening the meeting congratulated the shareholders upon the success that had attended the submission of the bylaw to the people. It argued well for the future success of the company. The permanent board of directors, he said, would require to be elected at the present meeting, and it was necessary to have the best available men on the board. Early action would have to be taken towards selecting a site for the works, as no time was to be lost in beginning operations.

Moved by Mr M. C. Cameron, seconded by Mr Horace Horton, that the following gentlemen comprise the permanent board: Messrs Garrow, Holt, Butler, Smeth, Humber, John Acheson, and Joseph Williams, together with two representatives from Clinton.

Moved by Mr Proudfoot, seconded by Mr Crabb, that the board of directors be limited to seven members.

After some discussion the amendment was put and voted down. The motion was then carried, and the gentlemen named constitute the board of directors.

Moved by Mr Cameron, seconded by Mr Crabb, that the directors be instructed to make all necessary enquiries as to sites and prices, and to report at a meeting of stockholders to be called at the earliest possible date. Carried.

The Mayor stated that any suggestions that could be given with regard to eligible sites might facilitate the work of the committee, and the following were named: The old Victoria salt well, the Huron salt well, Canada Cove park lot, Mr Cameron's salt well, the Weatherall lots, Robert McLean's lots, the old agricultural grounds, the foundry property on East street, the Seymour property at the harbor, and others.

Moved by Mr Horace Horton, seconded by Mr R. S. Williams, that the matter be left in the hands of the directors to report upon next Thursday evening. Carried.

On motion the meeting adjourned.

WHAT "FAITH FENTON" SAYS.

The "Empire's" Correspondent keeps Her Eyes Open After Dark.

Over the dinner table we discussed the sermons, while the Canada set full speed for Goderich, which we reached at 10 p.m. We drove with the inspector through the streets, so still in the late night hours. Each street seemed a tree-lined avenue, or else, in the star-light, the foliage became more darkly prominent.

Goderich is beautifully situated. It stands over 100 feet above lake level, on a high bluff or tableland, and from the dock a multiplicity of steps must be climbed before reaching the town. The streets run like the points of the compass from the court house square in the center. The effect is decidedly unique and pretty.

The lighthouse is only twenty feet in height, but the high ground upon which it is built brings it 140 feet above lake level. We climbed the short tower and stood in front of the lamps that were sending their radiance lakeward, but it was too late to remain long. We exchanged a few words with the keeper, and then the little iron box with dial face that measures the wind's velocity. It owns a long name that I intended remembering, but quite forgot. Then drove back to the boat.

Upon the wharf we met Mr William Campbell with copies of the *Signal-Star*, a neat magazine illustrating the scenic beauties and commercial interests of Goderich; also Capt Wm Babb, who kindly invited us to see the life boat that, during the four years since its establishment, has already saved 21 lives. Capt Babb explained the intricacies of the boat and the provision made for the safety of the crew and the rescued, regretting that the hour of the Canada's arrival prevented us witnessing a practical test of the crew's skill.

COLBORNE.

WHOSE WAS THE FAULT?

THREE PERSONS KILLED AND SEVERAL BADLY HURT.

Terrible Railway Collision On the Rome, Watertown and Ogdensburg Railway—Coaches Crushed to Splinters.

ROCHESTER, Aug. 10.—A terrible railway accident occurred on the Rome, Watertown and Ogdensburg road at Forest Lawn about 7.45 o'clock this morning, in which one person was instantly killed, two others have since died from injuries received and six others were seriously injured. The cause of the accident has as yet not been explained. A "stub" train which runs up to Forest Lawn from Windsor Beach every morning for the accommodation of Rochester people had just backed down in front of the Forest Lawn station. About twenty people had congregated at the station to take the train, two gentlemen had entered the smoking car, and there were about five on the board the train when someone observed the express from the Thousand Islands dash around the curve about 15 rods east of where the "stub" train was standing. Alarm was given in time for the people on the platform to escape.

The engineer of the express train saw the train standing in front of the depot in time to set the brakes, he and the fireman then jumped from the train, escaping without fatal injuries. The express, however, dashed into the "stub" train at a high rate of speed. The two rear cars of the "stub" train were piled in a ruinous mass upon the station platform. The baggage car of the express train telescoped the engine. The baggage man, who was on the car at the time, in some miraculous way escaped without a bruise. The day coach, which was next to the baggage car, lay there upon the track, a complete wreck. Of the ten persons in the car only one escaped injury. The other coaches were not affected by the disaster.

The killed are: JOHN DAY, engineer of the steamer Hazelton, Oswego, N. Y. Miss ELLA PERLIN, St. John's Michigan. Miss ELLA C. BROWN, Sherman, N. Y. The injured are: Mrs. LEWIS MOORE, Gratiot, N. Y. Miss SARAH M. SWICK, Wolcott, N. Y. FRANCIS BELL, Sheshegan, Wis. Mr. and Mrs. H. M. PERLIN, St. John's, Mich.

A special train was immediately despatched to the scene of the accident from Rochester and the injured placed on cots and City Ambulances were brought into requisition and the injured taken to the hospital. One affecting scene witnessed was when Mrs. Perrin, mother of the girl who was killed, asked for her daughter. She did not know that she was dead and it was not thought wise so to inform her, so she was told that her daughter had sustained severe injuries and could not get to her. Henry M. Perrin, father of the young lady killed, was severely crushed. He is 60 years old and the shock upon learning of the sad death of his daughter may prove fatal.

A Kansas Collision. TOPEKA, Kan., Aug. 11.—The Caldwell express on the Rock Island road collided with a freight train this evening on a curve two miles west of this city. The baggage and express cars of the passenger train, many freight cars and both engines were wrecked. Expressman Courtney was crushed to death, Fireman Pat Donovan was fatally injured and Lew Ball, a brakeman, had a leg cut off and was otherwise injured, but may recover. No passengers were hurt.

Telegraph Operator at Fault. BRADFORD, Pa., Aug. 11.—Two freight trains were wrecked at Whitetown this morning. B. Anderson, an Erie brakeman, was killed and two engines and twenty-five cars were wrecked and burned. Telegraph operator at fault.

NOAH'S ARK IS NOT OLDER. Dr. Oiler's Opinion of the Elixir—Known for 5000 Years.

HAMILTON, Aug. 11.—The Herald tonight prints an interview with Dr. Oiler, now of the medical faculty of Johns Hopkins University, formerly of Dundas, Ont., a brother of Judge Oiler and B. B. Oiler, Q. C., of Toronto, who is visiting in the city. "The elixir," Dr. Oiler, "is as old as the hills. Yes, you can say even Noah's Ark is not older or more antediluvian. It was known to the ancients centuries before Dr. Brown-Squard was ever heard of. I am credibly informed that there is a distinct record of it having been written or traced on the Ebers Papyrus and if this is the case, and I believe it is, then it must have been known for at least 4000 or 5000 years.

"Do you think that Dr. Brown-Squard is in his dotage?" "No, decidedly no. My idea is that he has discovered the benefit of it after experimenting on animals and finally tried it on himself with some exhilarating effect."

"Is Dr. Brown-Squard likely to lend his aid and name to anything that might be called a 'fake' or a 'scheme' to make money?" "No, I don't think that either. My opinion is that there is really some merit in the so-called elixir of life, but I also firmly believe the reports circulated as to its merits contain about one grain of truth to two bushels of mendacity."

THE CRONIN CASE. Alleged Important Evidence Against Martin Burke and Dan Coughlin.

CHICAGO, Aug. 8.—The police authorities claim to be in possession of evidence which proves that Burke was one of the actual murderers of Cronin. At the same time they intimate that both Burke and Conroy were in this matter the dupes of Coughlin and Coughlin's bosses. They hold, therefore, that they are not responsible for the murder; that it grew out of Burke's and Conroy's Irish fanaticism. A rather startling admission was made by a police captain yesterday. He said: "We have evidence showing that Dan Coughlin was in the Carlton cottage when Dr. Cronin entered. This evidence is not hearsay, but straight and direct." It supplies a much needed missing link. The State's attorney is after a north side city employee who is a senior guardian of one of the Clan-na-Gael camps, and who threatens with bodily injury any Clan-na-Gael who urges his fellows to tell all they know about the Cronin murder. This man is frequently drunk, carries a revolver which he sometimes flourishes, and is quite free in using the epithets "traitor" and "spy."

Oshawa's Belt Line Bounced. OSHAWA, Aug. 10.—The voting on the bylaw granting a bonus of \$15,000 and 20 years exemption from taxes to the Oshawa Railway and Navigation Company took place today, resulting as follows: For the bylaw 326, against the bylaw 101. The road is to be run from the Oshawa harbor, connecting with the Grand Trunk system and forming a belt line around the town.

BRAVE BILL BERESFORD.

Incident of the Zulu War—How the Victoria Cross was Won.

Their flight was a calculated snare; those fugitives were simply a wild decoy. Suddenly from out a deep, sharply-cut water-course crossing the plain, an invisible at two hundred yards' distance, sprang up a long line of Zulus, some two thousand strong, confronting at once and flanking the horsemen. Simultaneously the whole plain around them flashed up into vivid life. Hordes of Zulus had been lying hidden in the long grass. Buller's alert eye had caught the impending danger, and his voice had rung out the command "Retire!" ere yet the bullets of the sudden Zulu volley whistled through and over his command. Three men went down smitten by the fire. Two were killed on the spot and never stirred; we found their bodies lying dead, shot abjectly mangled. The third man's horse slipped up in the abrupt turn, and his rider for the moment lay stunned. But Beresford, riding away behind his retreating party, looked back at this latter man, and saw him move up into a sitting posture.

He who would succour in such a crisis must not only be a brave man, he must be prompt, quick to decide and as quick to act. The ISSUE OF LIFE OR DEATH HANGS at such a time on the gain or waste of a moment. The Zulus, darting out from the water course, were perilously close to the poor fellow; but Beresford, used to the racecourse to measuring distance with the eye, thought he might just do it, if he were smart and lucky. Galloping back to the wounded man, he dismounted and ordered him to get on his pony. The wounded man, dazed as he was, even in his extremity was not less full of self-abnegation than was the man who was risking his own life in the effort to save his. He bade Beresford remount and go; why, he said, in his simple manly logic—why should I die when death was inevitable but to one? Then it was that the quaint resourceful humour of his race supplied Beresford with the weapon that prevailed over the wounded man's selfishness. The recording angel perhaps did not record the oath that buttressed his threatening men when he swung with his clenched fist that he would punch the wounded man's head if he did not allow his life to be saved. This droll argument prevailed. Bill partly lifted, partly hustled the man into his saddle, then scrambled up somehow in front of him, and set the good little beast going after the other horsemen. He only just held another moment's delay and both must have been assaged. As it was the swift-footed Zulus chased them up the slope, and the least mistake made by the pony must have been fatal. Indeed, as Beresford was the first gratefully to admit, there was a critical moment when escape would have been impossible but for the cool courage of Sergeant O'Toole, who rode back to the rescue.

SHOT DOWN ZULU AFTER ZULU with his revolver as they tried to close in on the path of the wounded man, so that Beresford in keeping the wounded man in the saddle until the safety of the laager was attained. There was danger right up till then; for the hordes of Zulus obstinately hung on the flanks and rear of Buller's command, and the irregulars had over and over again to shoot men down close quarters with the revolver; more than once the fighting was hand to hand and they had to club their rifles. If the Zulus had kept to their own weapon, the assegai, the loss among Buller's men would have been very severe; but they had extensively armed themselves with rifles that had fallen into their hands at least in part with the proper handling of which they were unfamiliar. The pursued, right up to their own bank of the Umvalooi, and blazed away at our fellows long after the river was between them and us. Of course, cumbered with a wounded and fainting man occupying his saddle while he perched on the pommel, Beresford was unable to do anything towards self-protection, and over and over again on the return trip he and the man behind him were in desperate straits, and but for O'Toole and other comrades must have gone down. When they alighted in the laager you could not have told whether it was rescuer or rescued who was the wounded man, so amended was Beresford with borrowed blood. It was one of Ireland's good days; if at home she is the "distressed country" wherever bold deeds are to be done and military honour to be gained, no nation carries the head higher out of the dust. If originally Norman, the Waterford family have been Irish now for six centuries, and Bill Beresford.

AN IRISHMAN IN HEART AND BLOOD. Sergeant Fitzmaurice, the wounded man who displayed a self-abnegation so fine, was an Irishman also; and Sergeant O'Toole—well, I think one runs no risk in the assumption that an individual who, in spite of all temptations, remains an Irishman. So, in this brilliant little episode the Green Isle had it all to herself.

It will ever be one of the pleasantest memories of my life that the good fortune was mine to call the attention of Sir Evelyn Wood to Bill Beresford's conduct on this occasion. By next mail his recommendation for the Victoria Cross went home to England; and when he and I reached Plymouth Sound at the close of our voyage the Prince of Wales, who was then in the Sound with Lord Charles Beresford, was the first to send aboard the "Dunelm Castle" the news that her Majesty had been pleased to honour the recommendation. Lord William was commanded to Windsor to receive the reward "for Valour" from the hands of his Sovereign. But there is something more to be told. Honest as valiant, he had already declared that he could not in honour receive any recognition of the service he had been his good fortune to perform, unless that recognition were shared in by Sergeant O'Toole, who he persisted in maintaining deserved infinitely greater credit than any that might attach to him. Queen Victoria can appreciate, not less than soldierly valor, soldierly honesty, generosity and modesty; and so it came about that the next Gazette after Lord William Beresford's visit to Windsor contained the announcement that the proudest reward a soldier of our Empire

can aspire to had been conferred on Sergeant Edmund O'Toole, of Baker's Horse.—Arch. Forbes.

A New Use for Watermelons. New Orleans Times-Democrat: The watermelon crop of Carolina, Georgia, and Florida is rapidly getting too large—more than the market can absorb. Col. William Duncan of South Carolina has therefore made a suggestion, which has received the approval of a number of Carolina newspapers and melon growers—this is the manufacture of syrup from the melon. Col. Duncan insists that the melon can be more easily and more generally raised than the sugar cane, and as it grows above the ground it is more conveniently cultivated than the sugar beet. He has experimented in the manufacture of syrup from melons, and finds it excellent, more like preserves than the cane syrup, he says, and likely to become popular with every one who tries it. He has made the syrup and sold it, and found no difficulty in getting a good price for it.

FRIDAY, AUG. 16, 1889.

THE REASON WHY.

Will some of our Tory friends be good enough to tell us how it is that whilst vast sums of surplus British capital are at this moment being invested in the United States—in coal mines, iron mines, oil wells, lumbering and other industries—the British investor is giving Canada a wide berth? Have we no iron, coal, lumber, copper or oil to be developed? Why, yes. The natural wealth of the Dominion is very nearly as great as that of the United States. Probably if a thorough exploration were made of the James Bay and Hudson's Bay regions, and of the huge territory watered by the MacKenzie River, it would be found that our natural wealth is actually larger than that of our neighbors.

Last Friday evening the cheerful form of Goderich's far famed (Raphael R. R. Sallows was seen, not with pencil however, but gazing intently from his trusty camera in an easterly direction on a group of the members of the I. O. G. T. No 213, in front of their hall, outside of which can be seen the words "Erected 1879—I. O. G. T. No 213."

It almost looks as if the so-called Equal Rights agitation had received its quietus. The fire-eating politicians will now take a rest, the pious (?) newspapers will furnish their readers with other pabulum, and the "craft-in-danger" preachers will probably betake themselves to preaching the good old Gospel, "Peace on earth; good will to men."

At the last regular meeting of Clinton town council it was stated that the county rate of the town had been reduced to \$755.67, and the revee stated that it might eventually be reduced to "almost nothing."

A NUMBER of the township voters lists over the county have been badly botched in the printing, and it is quite possible that the Judge will send them back to the municipal clerks with instructions to have them properly printed.

Mr P. O'SULLIVAN, the Chicago ice man and Cronin suspect, recently endeavored to hang himself in his cell, but the authorities interfered. By this time Mr O'Sullivan ought to have a good idea of what he deserves, and it does seem peculiar that the authorities who are doing Kenneth McDonald, who is back to Scotland. He has been in Paris and Rome; and, after visiting the latter city,

THE EDITOR'S TABLE.

A Word or two About New Publications That Have Come to Hand.

We have received a copy of the "Defence of the Jesuits," by Rev. W. Flannery, of St. Thomas, associate editor of the London Catholic Record, which is a reply to Principal Austin's attack on the Jesuits. The pamphlet is written in the breezy yet erudite style of Rev. Father Flannery, and every one who has read the other side of the question should get a copy and compare notes.

DUNGANNON. Weather just now is changeable; however, rain will benefit root crops, etc.

Quite a number of farmers in this locality are preparing the soil to sow fall wheat. The dominions are beginning to look in the direction of their seminaries, which they intend to occupy next week.

Our village is still further being improved. Messrs W Echlin and George Begley have put up new picket fences in front of their residences, which improve the appearance of their property, as also the village.

The shrill sound of the steam thrasher whistle may be heard at all points of the compass. Fall wheat in this vicinity thus far averages about eighteen bushels. The barley crop on the whole is a pretty well secured and in good condition.

The municipal council of West Wauwasch, according to notice, held a meeting in the town hall on Saturday, the 10th inst. All the members were present, reeve Jas Johnston in the chair, and considerable municipal business was transacted. Next meeting to be held on September 7th.

LEEBOURN. Saturday morning the shrill and cheery whistle of the Elliott steamer from the peninsular township was firmly but gently blown by its genial engineer, Thos Bettles, who made such a deep impression on many hearts when in this section ten months ago.

Mr Jas. Ball, of Hallett, last week delivered some cattle at Clinton that he had sold to Mr McLean, and among the lot was a four year old steer that stood 5 feet, 4 1/2 inches high, girthed 7 feet, 10 inches, and turned the scales at exactly 2000 lbs. This animal heads the list, and it will have to be a pretty good one that will beat it.

We have made arrangements with Dr B. J. Kendall Co., publishers of "A Treatise on the Horse and his Diseases," which will enable all our subscribers to obtain a copy of this valuable work free by sending their address (enclosing a two-cent stamp for mailing same) to Dr B. J. KENDALL CO., EXOSBURGH FALLS, Vt. This book is now recognized as standard authority upon all diseases of the horse, as its phenomenal sale attests, over four million copies having been sold in the past ten years, a sale never before reached by any publication in the same period of time.

We regret to announce the death of Mr Alex Campbell, who returned from Duluth last week. He died on Sunday morning. His remains were interred in the Kintail cemetery. Mr Campbell has the entire sympathy of a large community, as this is the seventh person out of the family in four years—his wife, two daughters, three sons and a grand child.

One day last week, as a little boy at Henry Brown's was going to the field with a horse rake, the horse broke to run away and the boy, instead of hanging to the lines, dropped them and hung to the seat. When the horse was stopped both the wheels were broken off, but the boy still hung to the seat. The boy was not hurt in the least, although he was badly frightened.

On Monday last, as Mr Duncan McKenzie was unloading brick at the Lochalsh school house, a young man went up to the ladder with a bunch of shingles, at which the horse was frightened and ran away. Mr McKenzie succeeded in catching the horse by the bits, but they threw him under the wagon. He escaped with a few scratches. The team was stopped by John Martin, of the 12th concession of Ashfield.

LOOK OUT FOR HIM!

Who has a trumped up tale to tell?
Who claims below the cost to sell?
Here is his name—you know it well,
'Tis Ananias.

Who says no one has goods so nice,
And claims he loses on the price?
Who is as shippy as ice?
'Tis Ananias.

Who says he seeks the public weal,
And claims to give the squarrest deal,
Then skins the buyer like an eel?
'Tis Ananias.

Who is it has the awful gall
To say his profits are so small
They hardly let him live at all?
'Tis Ananias.

Who shaves the price so very fine?
Who makes the dollars ninety nine?
His name is—not upon the sign,
'Tis Ananias.

Who is it that is down on cheats,
And no competitor defeats,
And with the honest truth just beats
Ananias?

I am now able to work, and feel that I cannot say too much for your excellent remedies."—F. A. Pinkham, South Molunness, Me.

"My daughter, sixteen years old, is using Ayer's Sarsaparilla with good effect."—Rev. S. J. Graham, United Brethren Church, Buckhannon, W. Va.

"I suffered from

Mrs. Ann H. Farnsworth, a lady 79 years old, So. Woodstock, Vt., writes: "After several weeks' suffering from nervous prostration, I procured a bottle of Ayer's Sarsaparilla, and before I had taken half of it my usual health returned."

THE POET'S CORNER.

The Little Ones.

The little ones are pests, we sigh, And lots of trouble make us;

Ere golden morning opens her eye They from our slumbers wake us.

Nay, oft ere half the night is o'er, They start us from our dreaming,

And we must rise and walk the floor Until they cease their screaming.

Perhaps our rashness we deplore; Indulge in wishing, maybe,

We had remained a bachelor While stargazing "Sleep, my baby."

We wonder why we took a wife, While wrath within us nursed is,

And think of all the ills of life A squalling babe the worst is.

But when grim death is hovering nigh, (Far distant may that day be)

"Take all we own, O Lord!" we cry, "But spare to us the baby!"

Ayer's Hair Vigor restores color and vitality to weak and gray hair. Through its healing and cleansing qualities, it prevents the accumulation of dandruff and cures all scalp diseases. The best hair-dressing ever made, and by far the most economical.

A Right Start. A young man was recently graduated from a scientific school. His home had been a religious one.

He was a member of a Christian Church, had pious parents, brothers and sisters; his family was one in Christ.

On graduating he determined upon a Western life among the mines. Full of courage and hope, he started on his long journey to strike out for himself in a new world.

The home prayers followed him. As he went he fell into company with older men. They liked him for his frank manner, and his manly independence.

As they journeyed together they stopped for a Sabbath in a border town. On the morning of the Sabbath, one of his fellow-travellers said to him, "Come, let us go off for a drive and the night."

"No," said the young man, "I am going to church. I have been brought up to keep the Sabbath, and I have promised my mother to keep on in that way."

His road acquaintance looked at him for a moment, and then, slapping him on the shoulder, said, "Right my boy. I began in that way. I wish I had kept on. Young man, you will do. Stick to your bringing up, and your mother's words, and you will win."

The boy went to church; all honor to him in that far-away place, among such men. His companions had their drive, but the boy gained their confidence, and won their respect by his manly avowal of sacred obligations. Already success is smiling on the young man. There is no lack of places for him.

Freeman's Worm Powders destroy and remove worms without injury to adult or infant.

Doing and Being. A young girl had been trying to do something very good, and had not succeeded very well. Her friend, hearing her complaint, said:

"God gives us many things to do; but don't you think He gives us something to be, just as well?"

"O, dear! tell me about being," said Marion, looking up. "I will think about that for you, if you will help me."

Her friend answered: "God says: 'Be kindly affectionate one to another. Be ye also patient. Be ye thankful. Be ye not conformed to this world. Be ye therefore perfect. Be courteous. Be not wise in your own conceit. Be not overcome of evil. Be not overcome of evil.'"

Marion listened, but made no reply. Twilight drew into darkness. The tea bell sounded, bringing Marion to her feet. In the firelight Elizabeth could see that she was very serious.

"I'll have a better day tomorrow. I see doing grows out of being."

"We cannot be what God loves without doing what He commands. It is easier to do with a rush than to be patient or unselfish or humble or just or wonderful."

"I think it is," returned Marion. The stomach, the liver, the bowels and the blood are the four cardinal points of health. These Burdock Blood Bitters acts upon to strengthen, regulate, cleanse and purify, thus restoring and maintaining perfect health. B. E. B. is nature's true tonic and renovator.

Robt Jamieson, of the Golden Lion, Mr John Casmore, of Tuckersmith, and Wm Finlayson, of Edmondsville, have left for a visit to the Old Country.

Severe Attack. Miss Bella Elliot, of Pontypool, Ont., writes—"My brother and I were both taken ill with a severe attack of diarrhoea, having tried other remedies, we tried Dr Fowler's Extract of Wild Strawberry, which gave immediate relief."

"They have a larger sale in my district," says a well known druggist, "than any other pill on the market, and give the best satisfaction for sick headache, biliousness, indigestion, etc., and when combined with Johnson's Tonic Bitters, Johnson's Tonic Liver Pills will perform what no other medicine has done before for suffering humanity." Pills 25 cents per bottle. Bitters 50 cents and \$1 per bottle. Sold by Goodie Druggist, Albion block, Goderich, sole agent.

On Monday evening of last week while Mr Andrew Tennant, a son-in-law of Mr John Casmore, near Wingham, was coupling cars at Palmerston his foot caught, and he was thrown down and both his legs broken, one below the knee and the other near the thigh.

HER PET NAME.

She—What does a Chinaman call his sweetheart, I wonder? He—"Dovey," I suppose. You know they speak pigeon English.

Boecher asked Park Benjamin why he never came to hear him preach. He replied—"Why, Boecher, the fact is, I have conscientious scruples against going to places of amusement on Sunday."

"EAR, EAR." A garrulous fool, who had annoyed by his frivolous remarks his partner in the ball-room, asked whether she had ever had her ears pierced. "No, but I have had them bored."

TOO MANY TRAMPS. Back from the country.—Policeman—What, returned to the city so early in the season? "Tramp—Yes, boss, the city's good enough for me. P.—Why so? I supposed the country was a paradise in summer to those of your kind. T.—So it was once, but the farmers are all takin' summer boarders, and work of their cold wittes on 'em.—Boston Budget.

WHAT IT COST. A couple of par-birds were drinking together, when one of them took out his watch. "Bless me!" exclaimed his astonished companion, "you've got a watch?" "I took like it."

"And how much did it cost you?" "Six months."

OUTRAGEOUS EXTRAVAGANCE. Mrs Skinniphint—Johnny, what did you mean by telling Harry Plunkat he could come and fly your kite; all he wanted to do. Johnny—I was just giving him taffy, mamma.

Timely Wisdom. Timely wisdom is shown by those who keep Dr Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhoea, dysentery, colic, cramps and all summer complaints or looseness of the bowels. 2

Had His Way. Among the passengers on the St Louis Express yesterday was a woman very much over-dressed, accompanied by a bright-looking nurse girl and a self-willed, tyrannical boy of about 3 years.

The boy aroused the indignation of the passengers by his continued shrieks and kicks and his screams, and viciousness toward the patient nurse. He tore her bonnet, scratched her hands, and finally spat in her face, without a word of remorse from the mother.

Whenever the nurse manifested any firmness, the mother chided her sharply. Finally, the mother composed herself for a nap; and about the time the boy had slapped the nurse for the fiftieth time, a wasp came sailing in, and flew on the window of the nurse's seat. The boy at once tried to catch it.

The nurse caught his hand, and said, coaxingly: "Harry mustn't touch! Bug will bite Harry!"

Harry screamed savagely, and began to kick and pound the nurse. The mother, without opening her eyes or lifting her head, cried out sharply: "Why will you tease that child so, Mary. Let him have what he wants at once."

"But, ma'am, it's—"

"Let him have it, I say." Thus encouraged, Harry clutched at the wasp and caught it. The scream that followed brought tears of joy to the passengers' eyes.

The mother awoke again. "Mary," she cried, "let him have it!" Mary turned in her seat and said, confusedly: "He's got it, ma'am!"

How a Dude Taught Cold. A slim young man in the height of fashion was violently sneezing in a street car, when a companion remarked, "Aw, Charles, dear boy, how d'ye catch that dreadful cold?" "Aw, dear fellow, left my cane in the lower hall tother day, and in sucking the ivory handle, so dreadful cold, it chilled me almost to death."

If Charles had used Dr. Harvey's Red Pine Gum his cold would not trouble him very much, or sale at J Wilson's prescription drugstore. 1f

More Trouble May be Expected. if you do not heed the warnings of nature and at once pay attention to the maintenance of your health. How often we see a person put off from day to day the purchase of a medicine which if procured at the outbreak of a disease would have remedied it almost immediately.

Now if Johnson's Tonic Liver Pills had been taken when the first uneasiness made its appearance the illness would have been "nipped in the bud." Johnson's Tonic Bitters and Liver Pills are decidedly the best medicine on the market for general tonic and invigorating properties. Fills 25c. per bottle. Bitters 50 cents and \$1 per bottle, sold by Goodie the druggist, Albion block, sole agent.

COUNTY CURRENCY.

Items of Interest from over the County.

A Weekly Digest of the County News Served up to Suit Readers of "The Signal," Fifth and Point, Clipped and Condensed from Every Section.

The following parties from this county have passed their examinations for junior matriculation in Toronto University: A. Bodge, T. L. Gray and A. J. McKenzie, Clinton; E. E. Harvey and W. H. Moore, Goderich; J. S. Muldrew, Seaford.

The voters' lists for the town of Wingham have been issued. There are on this year's list 449 voters for municipal and parliamentary purposes, 213 for municipal only and 50 for parliamentary only; against 429, 111 and 23, respectively, last year.

The Rev. James Fritchard, of Forest, Blyth Presbyterian church on Sabbath, the 18th inst. Mr. Fritchard's congregation having given him a few weeks' holidays, he has taken a trip up the lakes, and will be in Blyth on his return.

The amount raised by the Methodists of Nile circuit, for the last financial year, was by envelopes, quarters and loose collections, \$555 85; the various other funds of the church as follows:—Parsonage trustee board, \$615.10; missionary fund, \$117.90; Sunday school, \$75; s. s. extension fund, \$2.41; Sunday school aid, \$1; educational fund, \$8.44; general conference fund, \$4.11; union church relief, \$2.15; contingent fund, \$3.44; woman's missionary society, \$9; college fund, \$55; all other purposes, \$351.12; grand total, \$1839.63.

A base ball match was played on the Recreation grounds, Seaford, on Wednesday 7th, between Brussels and Exeter. The match was for the championship of Huron and a money stake of \$100. It elicited a great deal of interest in the towns from which the respective clubs came. The people of Brussels and Exeter seemed to have turned out en masse, while both Clinton and Mitchell furnished their due quota of spectators. Judging by the gate receipts there were over five hundred people on the ground. The match was very keenly contested and there was some excellent playing on both sides. The result was a score of 19 to 14 in favor of Brussels. The game was umpired by Mr. Alex. Murdoch, of Goderich, who seemed to give the best of satisfaction to all concerned. Both clubs seemed to be on the best of terms and the match was pleasantly and creditably conducted throughout.

A meeting of the officers and directors of the Ontario Mutual Live Stock Insurance Company was held in Seaford on Monday last week. The directors are using every exertion to get the machinery in operation as soon as possible. The company will be incorporated by the Government as soon as the deposit is made, all the preliminaries having been complied with, and the money for the deposit is being collected in as rapidly as possible. A committee have now in hand the work of preparing the by-laws and forms, and so soon as they complete their work, and the forms are printed, the company will be in a position to commence business. From assurances already received there is no doubt but a large business will be done from the very start, and that a strong and reliable company will be formed which will be of the greatest advantage to stock breeders and importers, and which will aid materially in encouraging the breeding and importing of the very best animals.

The death of Mr. G. Ament, of Seaford is announced. Mr. Ament went to Seaford from the county of Waterloo about seventeen years ago and engaged extensively in the stove and barrel manufacturing business, which enterprise he conducted until his death. He was a good business man and was thoroughly upright and honorable in all his dealings, while his social qualities were of a high order and his genial disposition and warm heart made him a universal favorite with all who enjoyed the pleasure of his acquaintance. He leaves a widow and large family who will ever cherish with loving affection the memory of a kind husband and indulgent parent. The funeral took place on Monday and was very largely attended, some of his old neighbors from Waterloo being present to pay a last tribute of respect to an old and esteemed friend.

GODERICH TOWNSHIP.

From our own correspondent.

COUNCIL MEETING.—Council met today, August 3th, 1889, at Holmesville, pursuant to adjournment. Members all present. Minutes of last meeting read and passed. Letter from county clerk read stating that \$3 533 13 is required from Goderich township for county purposes. This includes \$360 Legislative school equivalent. Moved by John Beacom, seconded by Thos. Churchill, that a rate of 2-1-5 mills on the dollar be levied on all the real rateable property in the township for county purposes; that a further rate of 2-1-5 mills in the dollar be levied on same property for township purposes. Also the amounts for the several school sections required by trustees to be levied on same property—Carried. A bylaw confirming the above was read and passed. Mrs. Bray, indigent, was paid one month's board per Mr. Tremblay; News-Record, for printing, \$26. Council adjourned to meet again per notice from records.

JAMES PATTON, clerk.

Sir Richard Cartwright, says the Belleville Ontario, is an enthusiastic yachtsman. In latter years he has developed a great fondness for the water, and the way he can handle a main sheet is a caution. He is summing on his farm and is as brown as a berry and as robust as an ox. He is laying up a fine stock of strength for the coming campaign.

Mr. John McKinnon, who is now working at the G.T. station house, Clinton, is fifty-seven years old. His father and mother are both living and well. He has been working for 30 years on the G.T.R. What is remarkable is that his father is an only son, he is the only son of his father, and he has but one son.

The Deputy Minister of Fisheries says that double the number of licenses under the *modus vivendi* have been issued this year as compared with last season. This is an admission on the part of the Government of the United States, so the department here thinks, that they were wrong in the position they took on the fishery question.
