STRIKEN CITY IS BEING RESTORED

Work of Renewing Paris Undertaken With Enthusiasm by Citizens and Authorities.

Paris, February 1.—At 1.05 this morning the Seine had risen an inch at Meulan and was still slowly rising. It remains stationary at Alfortville, but a rise is expected at Paris today. It is reported that there is much indignation at Gennevilliers, where it is said, the dykes were cut, inundating the town in order to save Paris.

The medical authorities are somewhat reassured as to the suggested danger of an outbreak of enteric fever. The director of the sanitary service estimates that the volume of water which overflowed into the city and suburbs was 400 millions cubic metres, or about 130,000,000 cubic yards. As the normal amount of residential sewage matter in the drainage never exceeds a one-hour's worth, it is said, it is now believed that the water that overflowed has not been polluted to any extent. Bacteriological tests at various points show that the percentage of disease-bearing germs is much smaller than might have been expected.

Still Twenty Feet Above Normal. The Seine has dropped almost a metre at Paris. The water is drawing back from the inundated streets and squares. The river is still twenty feet above its normal level, however, so that the situation cannot be said to have greatly improved. The authorities are taking hold of matters with a strong hand, and as soon as the water receded from the streets, the work of disinfection began. All pits, excavations and ditches were sprinkled with a mixture of chloride of lime and carbonic acid. The need is fully realized by the city fathers of the flooded districts, where the sewers burst and the odors were almost overpowering. Those who were not driven from their homes by the original flood are now fleeing from the aftermath.

Rats Add to Terror. Many houses have been invaded by rats from the cellars under the city. Fox terrier dogs, with which Paris is fortunately well supplied, are doing a great work of extermination. The Rue Royale dam has been torn down and the street, one of the city's busiest thoroughfares, is at least open to traffic. So also is the Rue Saint-Honore, and many other streets, relieving the traffic situation greatly. Three bridges that have been "dosed" are also free to pedestrians. On the Champs de Mars, the water is removed within a thin sheet of ice. If the frost holds, Paris will be able to set up another record, for there will be skating there.

REMBEY PEOPLE WANT PROPOSED C.N.R. LINE. Agitation in Progress to Get the Canadian Northern Railway to Build Other Lines Further West of the City. Than Surveyed Plans Now Show.

Bulletin News Service. A mass meeting was held at Rimby on Monday last to enter a protest to the Minister of Railways at Ottawa and the Provincial Government in regard to the proposed line at Rimby. The Canadian Northern Railway from Strathcona to Calgary. The line has been surveyed practically parallel to the C. & E. from Strathcona to Red Deer at a distance of only four to ten miles apart. The districts of Blindman Valley and Medicine Valley are well settled with settlers who have been there from six to ten years, and the prospects of railway facilities look brighter than when they first came in. Now that there is a chance for a line west of the C. & E. it is proposed to be built where it will be most helpful to the settlers in these districts.

A resolution was also passed indorsing the resolution sent in by the Strathcona Board of Trade asking the Minister of Railways to endeavor to get the proposed line moved to the west side of Gull Lake, where it would be advantageous to the settlers west of the C. & E. The western portion of the Province has been greatly neglected with regard to obtaining railway facilities for the settlers living west of the C. & E. Railway and it is greatly feared that unless something is done during the coming summer to help them out many of the best settlers of these districts will leave, as already many have gone and left their lands with the intention of returning as soon as the required railway additions are made.

A large petition was signed to be sent to the Minister of Railways asking him to induce the Canadian Northern to change their route to the West side of Gull Lake. Settlers have taken up land in these districts some forty to sixty miles, and at Rimby which is thirty-six miles from the nearest railway town, the farmers have been to work. In many cases they have more than 100 acres under cultivation. The time has arrived when these farmers have got to have some way of getting their produce to market as it is impossible for them to haul their grain over these long trails and realize any money out of it.

Meetings are to be held all over these districts with the purpose of asking the government to help the settlers. Dr. W. A. Campbell, M.P.P., was at the meeting and spoke in sympathy with the city. It is an interesting coincidence that the calamity has thrown life in Paris back more than a hundred years than the only bridge left open to foot passengers is that of Louis XIV., built in his period.

Small Loss of Life. One of the most remarkable features of the great flood has been the small loss of life. Many are dead, but deaths have not yet been recorded, and never may be. Spectators see many corpses swept along in the torrent. Occasionally a swim coffin has been seen, doubtless bodies that had been prepared for burial when the flood burst into the villages. The

HAVE KING AND PREMIER CLASHED

Failed to Obey Summons to Appear at Windsor—Political World Wants His Return.

London, Jan. 31.—Politicians today are discussing the evidence that a clash has taken place between King Edward and Premier Asquith. On Tuesday the King invited the Premier and Mrs. Asquith to pay a week-end visit to him at Windsor Castle, presumably to discuss the political situation. Such invitations are usually a prelude to demands to discuss the situation, which would amount to an affront to the King.

On last Saturday Premier Asquith left for Cannes, France, for brief vacation and yesterday a court circular was issued announcing that Premier Asquith was not present at Windsor "owing to his departure for the continent." It is inconceivable that he would refuse to discuss the situation with the King unless something had occurred to make his acceptance of the Premier's invitation impossible.

Dr. Debove, chief of the Academy of Medicine, was comparatively optimistic today. He said that malaria, which entered the blood through the respiratory organs, can be avoided. The principal danger is from typhoid, the germs of which may be taken in the digestive organs if impure water is drunk.

Donations from America are materially swelling the relief funds. Among the amounts cabled direct from the United States are \$20,000 from the Standard Oil Company, \$10,000 from Spier & Company and \$5,000 from Frank J. Gould.

Two Weeks to Subside. It is estimated by the Fuvial Department that it will take at least two weeks for the river to get down to its normal level. The fall today was at the rate of about a quarter of an inch an hour.

EAST AND WEST CLASH IN HOUSE

Western Members Oppose Maritime Provinces Move for Larger Representation in Parliament

Ottawa, Ont., Jan. 31.—There was a slight clash between the East and the West in the House of Commons today over the question of representation of the Maritime provinces in the House. W. G. Kye, of Richmond, N. S., proposed a resolution assuring that the representation of the Maritime provinces should not be further reduced. Among those who opposed it were J. G. Turfitt, and E. C. McCreagh.

The former said he was prepared to resign his seat in parliament if the resolution were adopted. Mr. Wm. Pugsley and Sir Wilfrid Laurier agreed that under the Confederation compact the Maritime Provinces had no legal basis for their representation, but that little harm would be done if the larger provinces would agree to accept the basis for their representation. This could not be done, however, without the consent of all the provinces before the House. Dr. Spruille, the only Conservative front bench, to speak, expressed the opinion that the Maritime provinces should be granted. Sir Wilfrid Laurier moved the adjournment of the debate. Before the House rose the Premier announced that it had been intended to proceed with the consideration of the naval bill on Wednesday but in view of the fact that it might not be possible to dispose of the railway extension bill on Wednesday, it was desirable in view of the early departure of J. H. Butler, the retiring Deputy Minister, it would not be taken until Thursday.

Monk's Co-operative Bill. E. D. Monk asked that an opportunity be given the House to send to committee his bill respecting co-operative societies and a similar bill by Mr. Monk asked that last year a similar bill of his, being dealt with by a select committee of the House, was unanimously adopted by the Commons. Thereafter, it went to a stage which was defeated by only one vote. He thought it would be a hardship and a calamity to those interested in the bill, if it were not afforded an opportunity of being put through.

A New York Despatch. Col. Hughes read a despatch published in the newspapers dated from New York in which Capt. Bernier is quoted as having said that he had asked the Canadian government to ask representatives of other nations to accompany him on his proposed expedition in order to limit the boundaries of territories in that region claimed by the United States. In his interview Capt. Bernier is stated to have said that besides Canada six other nations including Britain would be represented on the expedition. He used the term Canadian nation. Col. Bernier was asked the Premier had received any such request from Capt. Bernier and in reference to the expedition of Canadian soldiers as well as the inclusion of Great Britain among the "other nations" said that Canada was still a part of the British Dominion and intended to remain so. Sir Wilfrid Laurier replied that he had seen the despatch. "Capt. Bernier would go next year to assert the sovereignty of Canada in northern waters. I believe if Capt. Bernier and every problem for all farm uses—vertical and horizontal (both stationary and portable) engines on skids; sawing, pumping and spraying outfits. It also includes gasoline tractors—first prize gold medal winners—the best all-round farm tractors.

YOU would soon get rid of a servant who did only half the work in double the time of a capable one. Then why continue using a flour that gives half the nourishment and double the work to digest?

Ogilvie's Royal Household

is made from selected spring wheat—a wheat that is rich in nutriment. It is the whitest and finest flour made; it makes fully one-third more bread to the pound than any soft wheat flour and is more dependable in every respect.

Ogilvie Flour Mills Co., Limited.

AN IHC GASOLINE ENGINE THE BEST HIRED MAN

THERE'S no doubt about it. Thousands of farmers have proved and are proving every day that one of the simple, dependable IHC gasoline engines makes and saves more money for them than the best hired man they can get.

Don't let the up-to-date farming ways get away from you. You can make your IHC engine work when and where and as long as you please. It is something you can own. It is all yours. You don't have to talk to it about getting up early or argue about quitting time. It is always ready and willing—just as well pumped a tank full of water after dark as in the daytime. It is ready to start the saw, pump or any other machine going before daylight, if you are.

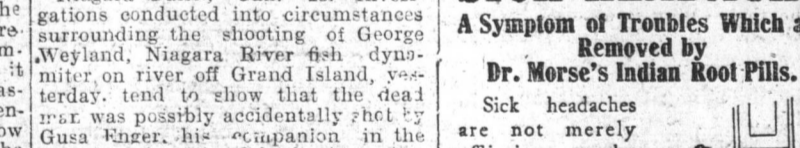

If you have a full day's work for it at grinding, you will get more out of it than you would get out of a half dozen hired men. It's just the same with all kinds of work. Your IHC gasoline engine will work with all your machines—will push them—keep them going steadily—make them really valuable to you. You have nothing to pay it in wages; no fear that it is growing tired and thinking of quitting you. Its only requirement for its faithful service all day—every day or night—is a small amount of oil and gasoline.

Why not let an IHC gasoline engine be your hired man? There are a dozen ways you can use it. You will have it going at some kind of work pretty nearly every day. Attach it to a power-house and, whenever you do start it going, you know you will get at least as much work out of it as you would get out of two or three men.

The IHC gasoline engine is the latest and one of the greatest real aids to the farmer. You ought to have one for your steady hired man. Thousands are going out on the farms. There are many styles and sizes, from 1 to 25-horse power, in engines for stationary and portable use. Engines on skids; sawing, pumping and spraying outfits. It also includes gasoline tractors—first prize gold medal winners—the best all-round farm tractors.

Call and take the matter up with our local agent in your town. Or, write the International Harvester Company of America at nearest branch office for catalogue and further information.

INTERNATIONAL HARVESTER COMPANY OF AMERICA

SICK HEADACHE

A Symptom of Troubles Which are Removed by Dr. Morse's Indian Root Pills.

Sick headaches are not merely afflictions to be borne as patiently as possible—they are danger signals. They never come unless the digestive system is out of order, and their regular recurrence is proof positive of serious trouble and a warning that should be heeded promptly.

Sick headaches are caused by Indigestion, Bilelessness or Constipation, and no amount of "headache powders" will do more than temporarily relieve them. The only way to get rid of them entirely is to cure the Constipation or Indigestion that is causing them, and nothing will do this quicker or more effectively than Dr. Morse's Indian Root Pills.

Dr. Morse's Indian Root Pills are purely vegetable in character, and are free from any harmful drug. For over fifty years they have been in constant use in Canada, and have proved most effective in regulating the bowels, aiding digestion, vanishing sick headaches and restoring vigorous health.

Dr. Morse's Indian Root Pills have stood the test for over fifty years, 25c. at all dealers. W. H. Constock Co., Ltd., Brockville, Ont.

SHE IS NOT MRS. GUINNESS

Woman Alleged to Be Arch-Murdess Proves She is Not. Whitman, Minn., Jan. 31.—Mrs. Zelle Casoy, housekeeper for Gustav Kirby on his farm fourteen miles from here, who, Gustav's brother Samuel says, is Mrs. Guinness, the arch-murdess today proved that she was not the woman named Guinness by the photograph and description of the Le Porte, Ind., woman near whom she was shot.

Broken Glass Found in Wounds.

Sudbury, Jan. 29.—In connection with the death of Thomas Hayes, P. R. C. surgeon, who died of the Webwood disaster, it is stated that the C.P.R. surgeon who dressed the wounds of the arch-murdess, today proved that she was not the woman named Guinness by the photograph and description of the Le Porte, Ind., woman near whom she was shot.

TRANSCONTINENTAL WINNIPEG ENTRANCE

Hon. Geo. P. Graham and Judge Mabee to Confer on Question—Minister of Railways Will Announce Results of International Meeting to Grant to French Food Sufferers.

Ottawa, Jan. 31.—Hon. George P. Graham, Minister of Railways, and Judge Mabee, Minister of Food, are expected to confer on the question of the proposed Transcontinental Railway into Winnipeg. This will be the first time that the Canadian Railway and the Canadian National Railway have constituted a joint tribunal for the purpose of settling the question of a railway.

Waiting for Asquith.

London, Jan. 31.—All the political world waits for Asquith, and Asquith, the public announcement declares today, in strict privacy at Chateau de Cannes, as the guest of Lord Rendel. Even the King is among the waiting ones, and in the absence of the monarch, to confer with whom he had arranged to come to London today, he is delaying his return from Windsor.

Assistance to Flood Sufferers.

The government, acting on the suggestion made in the Senate last week that Canada might appropriately offer assistance to the flood sufferers in France, has cabled to the Canadian commissioner at Paris, Mr. Fabrice, requesting him to ascertain any offer of assistance from Canada would be acceptable to the French government, to which reply has yet been received, but if no objection is taken in France, on the score of national dignity to receiving a cash contribution from Canada in aid of the flood sufferers, it is probable the government will make arrangements to send a substantial grant to help meet the loss sustained by citizens of France.

Supplies on Intercolonial.

It is understood that Mr. Graham will be able to announce tomorrow the certainty of a substantial surplus on the Intercolonial at the end of the present fiscal year. There will be no change in the present policy of administering the road. Requests for a resolution passed by the management committee of the board of education, Inspector Hughes has been asked to take up the matter.

Special Classes for Deficients.

Toronto, Ont., Jan. 29.—That special classes for pupils in the public school who are deficient mentally should be formed was a resolution passed by the management committee of the board of education, Inspector Hughes has been asked to take up the matter.

French Novelist Dead.

Paris, Jan. 31.—Edmond Rostand, the celebrated French novelist, is dead.

The government, acting on the suggestion made in the Senate last week that Canada might appropriately offer assistance to the flood sufferers in France, has cabled to the Canadian commissioner at Paris, Mr. Fabrice, requesting him to ascertain any offer of assistance from Canada would be acceptable to the French government, to which reply has yet been received, but if no objection is taken in France, on the score of national dignity to receiving a cash contribution from Canada in aid of the flood sufferers, it is probable the government will make arrangements to send a substantial grant to help meet the loss sustained by citizens of France.

Supplies on Intercolonial.

It is understood that Mr. Graham will be able to announce tomorrow the certainty of a substantial surplus on the Intercolonial at the end of the present fiscal year. There will be no change in the present policy of administering the road. Requests for a resolution passed by the management committee of the board of education, Inspector Hughes has been asked to take up the matter.

Special Classes for Deficients.

Toronto, Ont., Jan. 29.—That special classes for pupils in the public school who are deficient mentally should be formed was a resolution passed by the management committee of the board of education, Inspector Hughes has been asked to take up the matter.
