

Applications for HOME and FOREIGN PATENTS prepared by DONALD C. RIBOUT & CO. Experts in PATENTS. Established 1897. Canada Life Building, King Street West, Toronto.

### THIRTEENTH YEAR.

## THE SCOURGE OF EUROPE.

### THE OLD LANDS HAVE A HARD BATTLE WITH CHOLERA.

Army Surgeons of Opinion That the English Battle is a Hard One. Great Efforts in Believing the Danger of Cholera Infection by Communication—The Plague on the Continent.

LONDON, Aug. 30.—It is a significant fact that the two deaths from cholera which have occurred at Glasgow as well as the three deaths at Ottawa, are the first cases of cholera in the old lands since the outbreak of the disease in the East Indies in 1817.

While steamer passengers on board ships on which actual outbreaks of cholera have taken place have been detained by the English authorities, many shipsloads coming from infected ports, including Hamburg, have been allowed to proceed.

The English medical authorities are making a grave error in believing the danger of cholera infection by communication to be the only one. It is in fact, in the opinion held by several army surgeons who were interviewed at this season of the year, cholera is not a communicable disease.

The appearance of the disease at Hamburg, said one of these, means a positive danger, not only to England, but to the United States, as the disease is now being carried to the continent by emigrants.

Supervision or any modified form of quarantine is a worse than useless precaution to take in these cases, as it kills to a fancied security and leaves the danger as before.

"Nothing short of an absolute prohibition of immigration to England and the United States will prevent the disease from running a tremendous risk."

Already the indirect outcome of the cholera case in London is a general feeling of uneasiness in the United States, and many American travelers who have out short their continental journey, in many cases at a day's notice, and who have arrived here in order to take passage home.

Unfortunately the principal Atlantic liners are always on their return trip, and at this season of the year, they find it impossible to make room for would-be voyagers.

Quarantine scores are obliged to wait over here until room can be found for them, while others are taking passage by less popular lines, or are being detained in fast steamers in order to reach home at all hazards.

A suspicious case in London. LONDON, Aug. 30.—The first suspicious case of cholera in London is a Frenchman, who arrived from Hamburg on Saturday at the hospital, suffering with symptoms of Asiatic cholera.

Extensive measures have been taken by the East India hospital to meet any demand in the event of an epidemic of cholera. The strictest rules have been formulated to keep both the patients and the attendants isolated.

The sanitary authorities have in no wise relaxed their vigilance. Every day the lodging houses are subjected to a rigid inspection.

Considerable uneasiness is felt here because of the knowledge that cholera is existing in London, and in one of the worst places in which it could appear. Notwithstanding the quarantine which has been established, the steamer from Hamburg are allowed to land and the result of this is shown by the fact that two new cases of cholera have been reported yesterday on the steamer Peregrine from Hamburg. They show that cholera is a disease which is permitted to land. They proceeded to their homes, and to-day the disease appeared. The district is filled with small households, and the disease is spreading.

Hamburgers Treated Like Lepers. LONDON, Aug. 30.—The Berlin correspondent of The News says: The export case of Asiatic cholera in this city did not create a panic. The sanitary authorities have decided to stop the gratuitous distribution of disinfectants in order to prevent their use, and to avoid an unnecessary feeling of safety. At the same time the largest powers of inspection will begin, and ample provisions for the maintenance of the interior has been ordered. Prof. Koch has issued a warning against over-watering of the streets, the disinfecting of the streets with carbolic acid and the rapid consumption of water preventing effective filtration of the water.

The most conflicting reports as to the extent of the epidemic in Hamburg have been published. Hamburgers are treated like lepers in their faces, and it is impossible for them to obtain lodging. Many have been ordered to sleep on railroad trains at a few stations before reaching Berlin and to come into the city by local trains to avoid suspicion. The authorities are ordering departure at short notice and several lines of battle ships are keeping watch on the coast.

The attitude of the Government, so far as can be inferred from these and similar facts, is one of preparation for war. The English authorities are in possession of reliable information that the cholera is spreading in the interior of the continent, and that it has already reached territory that is undoubtedly African.

In honor of Talmage. LONDON, Aug. 30.—The mayor of Plymouth to-day gave a jubilee luncheon in honor of Rev. Mr. T. D. Talmage of Brooklyn, N.Y., who is on a visit to the city. Many of the leading citizens of Plymouth and a number of clergymen were present.

French Successes in Dahomey. LONDON, Aug. 30.—A despatch received to-day from Kolon says that the Dahomeans have abandoned their entrenched camp situated eight miles to the westward of Takou and are now retreating into the interior.

Ten New Cases in Antwerp. ANTWERP, Aug. 30.—Ten persons suffering from cholera were admitted to the hospital to-day. One of the patients subsequently died.

One Death in Brussels. BRUSSELS, Aug. 30.—One death from a fatal case of Asiatic cholera occurred to-day.

A Newspaper Seized. VIENNA, Aug. 30.—The police to-day seized The People's Voice for announcing that a train covered to the nearest limits with fugitives from Hamburg had passed the Bodensee station and entered Austria without having undergone a medical inspection or fumigation.

Deaths at Atlanta. BERLIN, Aug. 30.—There is a slight abatement in the severity of the cholera at Atlanta. From Sunday to midnight Monday the record there shows 20 new cases and three deaths.

## NO BLOOD STAINS FOUND.

### THE ANALYST GIVES EVIDENCE IN THE BORDEN CASE.

He Examined the Stomachs of the Murdered Persons and Found No Trace of Poison—He Also Examined the Axe That Could Not Be Blood Stained on It.

FALL RIVER, Mass., Aug. 30.—The court came in at 10.30 precisely, and the first witness called was Prof. Edward S. Wood, the man for whom everybody has been looking for days. He said he had received a package containing two stomachs on Aug. 4 and 5. All were properly labeled. The stomachs were labeled "Mr." and "Mrs. Borden." The stomachs appeared to be perfectly normal. Mr. Borden's stomach contained 11 ounces of solid food, the food was partly digested and the contents were chiefly meat, and there were no signs of poison. The stomach of the girl was empty, and the digestion seemed to be advanced about two and a half hours. The stomach was tested for prussic acid, but no trace was found. Mr. Borden contained only six ounces, chiefly water. In Mr. Borden's stomach there was only a small portion of starch, thus placing the purchase of disinfecting articles beyond the reach of the police. The newspapers advocate the gratuitous distribution of disinfectants.

On the Canadian Frontier. WASHINGTON, D.C., Aug. 30.—Surgeon-General Wyman has appointed Dr. Mulhern a special inspector. Details to assist the inspectors in examining immigrants and baggage from Canada. The collector of customs at Ogdensburg, N.Y., has been ordered to detain all immigrants and baggage from Canada. The immigration stations on the north include Rouse's Point, New York; Morrisville, Ogdensburg, Washington, Fort Covington, Morris Junction, Buffalo, Charlotte and Niagara. The responsibility of the points of inspection will be stationed to assist the regular immigration inspectors.

Reported in Venezuela. PANAMA, Aug. 30.—It is reported here that Asiatic cholera exists in Venezuela.

Twenty Deaths a Day. LONDON, Aug. 30.—The Times of St. Petersburg correspondent says the average daily cholera record is 100 new cases and 20 deaths. It is the greatest mistake to say the epidemic is spreading in London. The authorities affirm the contrary. In some cases the victims succumb to two or three attacks. The responsibility of the New Orleans cases is the cholera mortality begins to show marked fluctuations, contrasting with the previous increase.

Four Cases at Liverpool. LIVERPOOL, Aug. 30.—Four Russian emigrants were said to sail from this port to-day for America were stricken with cholera. They were all once removed to a hospital.

A Case at the Hague. THE HAGUE, Aug. 30.—It has transpired that the man who was attacked with cholera here last night is a Frenchman, who came to the city by way of Hamburg. The municipal authorities have voted the sum of 30,000 florins, which will be expended in protective measures.

Strick Inspection at New York. NEW YORK, Aug. 30.—The steamship Yucatan from Vera Cruz and Havana, which arrived this morning, was permitted to leave, quarantine being suspended. The ship had a rigid inspection showing that there was no sickness aboard her.

Attended Hamburg. HAMBURG, Aug. 30.—The official returns of the Imperial Board of Health of Berlin, which give the number of cases of cholera and deaths from the disease in this city as 447 and 173 respectively, are being returned to the health office here, as the former returns include the new cases and deaths which occurred in the suburbs and in the interior of the city. The number of cases reported to-day in Hamburg, a village the name of which is not given, is 100. The place contains a number of distilleries, an asylum for the insane, a hospital for the poor, a workhouse and other institutions.

RUSSIANS IN AFGHANISTAN. The Exploring Party a Force of Conquest. LONDON, Aug. 30.—There seems to be much mystery about British operations in India. The Foreign Office and India Office appear to have entered into a conspiracy of silence, and to avoid an unnecessary feeling of safety. At the same time the largest powers of inspection will begin, and ample provisions for the maintenance of the interior has been ordered. Prof. Koch has issued a warning against over-watering of the streets, the disinfecting of the streets with carbolic acid and the rapid consumption of water preventing effective filtration of the water.

The most conflicting reports as to the extent of the epidemic in Hamburg have been published. Hamburgers are treated like lepers in their faces, and it is impossible for them to obtain lodging. Many have been ordered to sleep on railroad trains at a few stations before reaching Berlin and to come into the city by local trains to avoid suspicion. The authorities are ordering departure at short notice and several lines of battle ships are keeping watch on the coast.

The attitude of the Government, so far as can be inferred from these and similar facts, is one of preparation for war. The English authorities are in possession of reliable information that the cholera is spreading in the interior of the continent, and that it has already reached territory that is undoubtedly African.

In honor of Talmage. LONDON, Aug. 30.—The mayor of Plymouth to-day gave a jubilee luncheon in honor of Rev. Mr. T. D. Talmage of Brooklyn, N.Y., who is on a visit to the city. Many of the leading citizens of Plymouth and a number of clergymen were present.

French Successes in Dahomey. LONDON, Aug. 30.—A despatch received to-day from Kolon says that the Dahomeans have abandoned their entrenched camp situated eight miles to the westward of Takou and are now retreating into the interior.

Deaths at Atlanta. BERLIN, Aug. 30.—There is a slight abatement in the severity of the cholera at Atlanta. From Sunday to midnight Monday the record there shows 20 new cases and three deaths.

## WEDNESDAY AUGUST 31 1892

### MASSACRE IN A MEN'S GARR.

A New York Woman Says She Donned the Dress to Look for Victim.

NEW YORK, Aug. 30.—A startling flight of fancy was indulged in by Lizzie Borden in the hours verging on Sunday morning last. What she did was to dress in the attire of a woman of fashion, and to go to the authorities to have her place in the insane asylum examined, pending the verdict of specialists as to the exact quality of her wit.

The woman was first brought to the attention of the public by Officer Timony of the First South-street ward. While patrolling his beat on First-avenue last Saturday night he was attracted by a curious looking figure in masculine garb, and he followed her to the insane asylum. ## HERBERT BOOTH'S DEFENCE.

HE SMITHS BRIGADEIER PHILPOFF REP AND HIS.

A Bomb from the Territorial War Office to Annihilate the Brigadier and His Cohorts—How the Booths Work For Next to Nothing and Almost Starve.

Herbert H. Booth, Commandant of the Salvation Army, has issued his promised explanation with reference to the resignation of Mr. Philpoff, and answers the charges. Replying to Philpoff's charges of extravagant salaries paid to the Headquarters Staff, the Commandant says that this statement is absolutely unfounded. The best proof of this is the fact that there are working at Headquarters 90 persons, 11 of whom divided among these 20 persons, gives an average of only \$85 per head. Among the most of the Headquarters Staff was Mr. Philpoff himself, who, when he was costing the Army, including his house rent as usual, his salary, his house rent, his travelling expenses, his horse, his carriage, his boots, his shoes, his clothing, his food, his fuel, his light, his water, his gas, his coal, his oil, his soap, his paper, his ink, his stationery, his books, his music, his amusements, his recreation, his education, his health, his family, his friends, his enemies, his neighbors, his country, his world, his God, his soul, his spirit, his mind, his body, his life, his death, his resurrection, his glory, his kingdom, his power, his dominion, his empire, his majesty, his grandeur, his splendor, his magnificence, his sublimity, his nobility, his nobleness, his nobility, his

The Toronto World. NO. 2 YONGE STREET, TORONTO. A ONE CENT MORNING PAPER.

Our esteemed contemporary The Globe had an article on Monday in regard to the street railway franchise. It set out to demonstrate the following dictum:

That the street railway franchise will be a less profitable thing because of the fact that the franchisee will have to bear the cost of the street railway.

That the street railway franchise will be a less profitable thing because of the fact that the franchisee will have to bear the cost of the street railway.

That the street railway franchise will be a less profitable thing because of the fact that the franchisee will have to bear the cost of the street railway.

That the street railway franchise will be a less profitable thing because of the fact that the franchisee will have to bear the cost of the street railway.

That the street railway franchise will be a less profitable thing because of the fact that the franchisee will have to bear the cost of the street railway.

That the street railway franchise will be a less profitable thing because of the fact that the franchisee will have to bear the cost of the street railway.

ST. JOHN, N.B. The Fourth Largest City in Canada - A Beautiful Spot For Tourists.

It does not seem to be generally known that the city of St. John, N.B., as regards population, ranks fourth in the Dominion of Canada, yet such is the case.
