

ROYAL BAKING POWDER

Made from Cream of Tartar, derived from grapes. Makes appetizing and wholesome biscuits, cake, muffins and pastry, free from alum and other ingredients derived from mineral sources. MADE IN CANADA. Used for generations, all over the world.

CANADA'S WATER POWERS

Nearly Eighteen Million Horse Power Available; Only One-Tenth Developed.

(Journal of Commerce)

Water power has played a most important role in the industrial development of the Dominion, and with the advances in electrical science, will play an even more important role in the future. Probably no country in the world is more fortunate in the extent and location of its white coal than is Canada. Practically every commercial centre from coast to coast, except only a few in the middle prairie provinces, have abundance of water power available, not only for present needs, but for all anticipated requirements. Indeed, the fortunate location of Canada's water powers is the outstanding feature of her water-power resources.

Furthermore, where there is not sufficient white coal available to furnish energy requirements, there is an abundance of black coal. So far as sources of energy for power producing agencies are concerned, Canada's position is pre-eminent. Within the provinces of the Dominion of Canada, and extending the Northwest Territories, practically all of the Yukon, and the northern and eastern portions of Quebec, it is estimated that 17,746,000 horse-power are available, this amount being inclusive, in the case of Niagara Falls, Fort Francis and the St. Mary's river at Sault Ste. Marie, of only the development permitted by international treaties, and further, does not contemplate the full possibilities of storage for the improvement of present capacities. The developed powers which are inclusive of all water powers, whether for electrical pro-

duction, pulp-grinders, for mining and milling or for the great many other uses, aggregate 1,712,193 horse-power, the distribution throughout the respective provinces being shown in the table hereunder:

Province	Horse-power Developed
Nova Scotia	21,417
New Brunswick	13,290
Prince Edward Island	500
Quebec	520,000
Manitoba	84,720
Saskatchewan	45
Alberta	23,205
British Columbia	282,345
Yukon	12,000
Total	1,712,193

The extent of the future development can be only limited by the available water powers. Practically all of the 1,712,193 horse-power enumerated above as developed from water power has been created within the last twenty years, and of this the last decade has seen practically two-thirds of the total produced. If such a rate of increase were projected into the future the 8,000,000 horse-power estimated to be available within range of present markets, will be entirely in use within fifteen years, and even by liberally discounting such a rate of increase, notwithstanding our confidence in being upon the threshold of an inconceivably prosperous future, such a condition of development may be readily approached within a generation.

With water power as a fundamental necessity in the industrial future the regulation and conservation of the development is to-day being demanded on a large scale, and this will naturally become more insistent as time goes on. It has been fortunate that, in Canada, the title to the water-

power rights have largely remained under the control of the Dominion or Provincial Governments. The Dominion Government controls navigable streams and their water powers throughout the Dominion and the water powers in general of the provinces of Manitoba, Saskatchewan and Alberta. The administration of all water powers in British Columbia, Ontario, Quebec, New Brunswick and Nova Scotia is under respective provincial control.

The administrative policy of the Dominion Government and the various provinces may be readily studied in the five monographs included in a book recently published by the Dominion Water Power Branch, Ottawa. These treat in a "popular" way of the water powers of British Columbia; the prairie provinces of Manitoba, Saskatchewan and Alberta; Ontario, Quebec; and the maritime provinces of Prince Edward Island, New Brunswick and Nova Scotia. While it is impossible to treat in detail of the various sites and power developments existing throughout Canada, the more important are at least described in the most essential features.

These five monographs were originally prepared and published for distribution in connection with the water-power exhibit of the Dominion Government in the Canadian pavilion at the Panama-Pacific International Exposition, and particularly for distribution to the members of the International Engineering Congress at San Francisco, September 25-25, 1915.

Cotton goods are 25 to 100 per cent higher. Linens have doubled. Woollens are 50 to 70 per cent higher, and carpets have risen 50 to 100 percent.

THE EUROPEAN WAR

French Troops Advance on Verdun Front

PARIS, Oct. 24.—In a powerful series of attacks on the Verdun front the French have captured the village and fort of Douaumont, advanced beyond the Thiaumont Works and Farn, and occupied the Haincourt Quarries north of Verdun, according to the bulletin issued by the War Office to-night. The prisoners captured and counted thus far number 3,500. The text reads: "On the Verdun front, after intense artillery preparation, an attack on the right bank of the Meuse was launched at 11.40 o'clock in the morning. The enemy line attacked on a front of seven kilometres (4.3 miles), was broken through everywhere to a depth which at the centre attained a distance of three kilometres (nearly two miles). "The village and fort of Douaumont are in our hands. "To the left our troops advancing beyond the Thiaumont Work and Farn pushed the Haincourt Quarries, and established themselves along the road from Bras to Douaumont. "On the right of the fort our line runs to north of La Caillette Wood, along the western outskirts of the village and the eastern border of Pulin Wood and continues to the north of Chemin Wood and Dumlay Battery. "Prisoners are pouring in. So far 3,500, including about 100 officers have been counted. The quantity of material captured cannot yet be estimated. Our losses were small.

PARIS, Oct. 27.—Information gathered from the General Staff is to the effect that the recent victory of the French at Verdun was in no way due to the numerical inferiority of the Germans, who were surprised by the rapid offensive. The French attack was carried out by three divisions, which, it is stated, were ample for effective resistance. Battalions from sixteen regiments have been identified in the first line of the Meuse to Gramcourt-Farn Woivre. Among the prisoners taken are ten German battalion commanders.

British are Giving no Rest to the Fifteenth Bavarian

WITH THE BRITISH ARMY ON THE SOMME, Saturday, October 28.—(Despatch to the London Daily Chronicle).—There is no rest for the Fifteenth Bavarians. 70-day again for the sixth time since Monday they have had to fight for that string of shell craters whose line, crumpling together, make some sort of line which is what remains of Hazy Trench. As related previously, this is the position opposite the British lines west of Les Boeufs. The lines have already been considerably straightened and simplified as a result of last week's fighting, and five times already they have come desperately back and tumbled off of it, and five times they have come desperately back.

Dew-drop Trench, a little to the north of Hazy, is also attacked, and already news has leaked out through the shell curtain that British troops have gained a footing in its northern and easterly. The British are giving no rest to the Fifteenth Bavarian. Rainy was the name of it on the trench map, but that troubles the British no longer. A constabulary of machine guns is 150 yards of length has ceased to exist, and its spiny nests have been gouged out of the ground by a week of cannoning.

The Greek Situation Improving

ATHENS, Oct. 29, via London.—The Greek Government officially made it known to-day that following the recent series of visits by the Entente Ministers to the Royal Palace, King Constantine has spontaneously undertaken to discontinue his duties as King of Greece, and to accept the position of a private citizen. The Greek Government has accepted the resignation of King Constantine, and the Sixteenth Division from the Epirus to the Peloponnese, the Southern Greek Peninsula. In both districts only a force sufficient to maintain order is to be maintained. Such an evidence of good will on the part of the Sovereign is taken in usually well-informed circles here to indicate a far distant agreement for the co-operation of Greece with the Entente Allies.

Famous German Aviator Killed

LONDON, Oct. 29.—Captain Boelcke, the famous aviator, during an air flight on Saturday, came into collision with another aeroplane, and was killed. The crash occurred near the town of Breda, in the Netherlands. His machine landed within the German lines. On Friday Captain Boelcke shot down his fortieth aeroplane.

A Paris paper on October 18 reported that Boelcke had been severely wounded by a shell during a recent mission. Since then, however, his name has been mentioned in the German official statements, and on October 23 he was credited with having brought down his thirty-eighth aeroplane.

Holland Protests Against Zeppelin Raids

LONDON, Oct. 27.—The Dutch Government has protested to Berlin against the violation of neutrality by a Zeppelin last week, says a Reuter despatch from the Hague. The Dutch Government has also protested to Berlin against the violation of neutrality by a Zeppelin last week, says a Reuter despatch from the Hague. The Dutch Government has also protested to Berlin against the violation of neutrality by a Zeppelin last week, says a Reuter despatch from the Hague.

WAR BRIEFS

It has been announced unofficially that Ontario will give 1,000,000 dollars to the Patriotic Fund. A secondary fire is expected in several towns in Ontario where war materials are being manufactured. To secure fresh eggs, British and French soldiers working in barges in French canals, keep fowls in "rums" on the docks. The salaries of German officers are being reduced, in some cases 250 dollars a month, in others 12 dollars, by order of the Reichstag. A Berlin wireless says 150 persons have been arrested in that city, being regarded as socialists engaged in agitation against the war. Some people think England should have employed interned Germans in clearing waste land. Fifty thousand acres might by this time have been ready for settlement. The latest German method of plundering Belgium is putting a tax on bank notes. Fifty percent of these notes must be exchanged for war long certificates of equal value. Strong representations have been made to Washington by the British Government that United States territory is being used to foment disturbances against British rule, especially in India. The New York Sun says there is plenty of money in England. The Red Cross and Order of St. John Fund has received more than 20,000,000 dollars, and the Kitchen Memorial Fund now exceeds 1,000,000 dollars. The Germans have taken gas pipes and taps from Ghent, so that gas cannot be manufactured and paraffin oil and candles are extremely expensive. The supply of coal, also, is restricted. The inhabitants fear a dark and cold winter is before them. In reply to a man who accused him of being pro British Press, Wilson wired, "Your telegram received. I would feel deeply mortified to have you or anybody like you to vote for me. Since you have access to many disloyal Americans, and I have not, I will ask you to convey this message to them."

REPORT OF ANNUAL MEETING OF THE LOWER GRANVILLE RED CROSS SOCIETY. For the Year Ending 1916.

The Lower Granville Red Cross Society held its annual meeting on the evening of Oct. 18th, 1916. Officers elected for the coming year are: Mrs. Geo. Anthony, President. Mrs. J. K. Winchester, Pres. Elect. Miss Primrose Elliott, Secretary. Mrs. Edward Parsonow, Treasurer. Mrs. Gilbert Shaffner (Jr.) and Mrs. Joseph Troncup were appointed cutters. Mrs. S. MacKenzie to keep account of work distributed. The Treasurer's report for the past year showed:

Total Receipts	\$147.25
Am't sent British Red Cross	\$11.10
Am't spent for supplies	120.64
Total expenditure	\$131.74
Balance on hand	\$15.51
Value of materials on hand	\$10.00

The Secretary reported that, in Dec. 1915 and in Feb. and April of 1916 shipments were made to Halifax of Red Cross supplies and Field Comforts. These included the following Red Cross Supplies: 24 gray flannel shirts, 42 hospital shirts, 2 pr. wristlets, 1000 mouth wipes, 1 1/2 doz. lead pencils, 2 doz. dress caps, 42 cheese cloth handkerchiefs, 104 pr. socks, 17 sheets, 40 pillow cases, 100 pr. combs, 2 doz. washcloths, 6 gray flannel shirts. The Red Cross has finished work on hand for another shipment to be received by the end of the month. Two barrels of blue yarn have been received from the Field Comforts Committee, Halifax, one containing 1 lb. which has been knitted into socks and returned to them, and one of 24 lb. on which the Society is now at work.

From time to time, teas, suppers, etc. have been held for the purpose of raising funds, a Clam Sapper at the home of Mrs. J. K. Winchester; an Ice Cream Social at the home of Mrs. Geo. Anthony; and three tea parties. Money has also been raised by voluntary contributions. S. E. PRIMROSE ELLIOTT, Secy Lower Granville R. C.

PORT WADE

Oct 30 Miss Elizabeth Burke and Mrs. Herbert Johnson spent Sunday in Digby. Mrs. Fred Adams of Bay View, spent the afternoon with her parents, Mr. and Mrs. John Snow. Mr. Owen McGrath and his wife are in Digby on their way to St. John's, Nfld. Mr. and Mrs. Norman McGrath, Mr. Norman McGrath arrived home on Friday from Montreal to spend a week or so with his family. We are glad to report Mrs. William Westwood is able to get out again after suffering from a heavy cold. We are glad to report that Capt. William Davies arrived home safely after a year's sailing between England and France. Mr. James Johns and daughter Winifred spent Sunday with her son, the Rev. J. J. Johns, of the 29th Battalion, who is now training in Digby and is very sick.

NORTH RANGE

Oct 30 Mr. Sydney Payne was the over-Sunday guest of Miss Mildred MacNeill. Congratulations to Mr. and Mrs. Wm. Andrews on the arrival of a daughter Oct. 18. Mr. Elwood Gidney of Ipswich, Mass., is visiting relatives and friends in this place. Mr. Wm. Crossman of Centreville, Digby County, was the week-end guest of Rev. and Mrs. Langille. We are glad to report Mrs. Jane Andrews who has been confined to her bed for the past few weeks, much better. Messrs. Milton Bragg and Arthur Lamberton have returned home from the West. We welcome these young men home again.

CANADIAN FISHERIES PROSPEROUS

Canadian fisheries in the last fiscal year were exceptionally prosperous. According to the annual report of the fisheries branch of the naval service, the total marketed value of fish products and marine animals amounted to \$2,960,708, which shows an increase of \$4,526,077 over the previous year. The greater part of the large increase is attributed to British Columbia, which alone increased by \$3,322,224. Nova Scotia's output grew by \$222,828, and \$200,000. Ontario, whose fisheries are under the production of the Department of Fisheries, increased by a million while in Quebec augmentation was \$152,421.

PLANS GREAT BRIDGE

San Francisco is planning to build the largest bridge in the world, says the Popular Science Monthly. It is to connect Oakland and its contiguous districts with San Francisco, and it is to relieve five ferry systems of passenger and vehicular traffic. The projected bridge will cost \$22,000,000 and will be five and one-half miles long. Its main portion is to be made up of 16 spans each 350 feet long. Near the San Francisco shore there will be two long and high spans under which the ships will pass.

Lantic Sugar

is packed by automatic machinery in strong white cotton bags and cartons at the refinery. This is far safer and more sanitary than sugar packed by hand in a weak paper bag which breaks at a touch. No hand touches LANTIC SUGAR until you open it yourself. Just cut off the corner of the carton and pour out the sugar as you need it. 2 and 5-lb Cartons 10 and 20-lb Bags "The All-Purpose Sugar"

THE UNITED SCHOOL EXHIBITION

(First Prize Essay written by Miss Lena Foster.)

In September of 1910, there was held in the school-house at Lawrencetown, the first "School Exhibition" in Nova Scotia. Since that time Lawrencetown has had a school exhibition each year. A letter to the centre of the room to year" is the motto, and it can be truly said that Lawrencetown School is living up to this standard. This year, on the 22nd of September, there was held in the new demonstration Building, a United School Exhibition, the schools participating in this being Lawrencetown, Paradise, Central Clarence, North Williamstown, South Williamstown and Brickton, making in all about two hundred pupils to take part in this exhibition.

The new building afforded ample room for the exhibits which were arranged by different committees. Many of the scholars had been busy since early spring, planting and caring for garden plots, the produce from which was brought to the exhibition, the girls from their gardens bringing dainty bouquets of flowers, which were beautifully displayed on a long table in the centre of the room. From the gardens which made a gaily display and shows that the coming generation is being well instructed in agricultural pursuits. There was also a needlework table showing numerous garments, on which the pupils had been working for the past several months, under the instructions of several ladies of the town.

In another part of the room were several show cases, showing a good supply of cake, bread and biscuits which had been made by the scholars of the various sections. Several of the scholars had made collections of pressed flowers, woods, and insects, which were very creditable to the scholars who had laboured in collecting them. In another part of the room was a large collection of paintings, drawings and writings which deserve special mention. Beside the numerous varieties of exhibits, that the children had brought, there were several large tables well filled with beautiful fancy work exhibited by the ladies of the town. In addition to this there was also a farmers table at which the farmers from their own gardens brought their best products and were rewarded with ribbons of different colors denoting the different grades of prizes.

On the grounds outside the building was erected an ice cream booth. There was also a restaurant in connection with these two sources and from the selling of tickets to the exhibit room, the expenses of the exhibition were defrayed.

In the evening the assembly hall was filled with an attentive audience to listen to the speeches by Mr. Robinson, inspector of schools for Kings and Hants Counties; Judge Lonsley of Halifax; Dr. W. R. Morse, returned Missionary from China; Dr. J. R. Hall of Lawrencetown; Dr. M. E. Armstrong and Mr. R. E. Thurber, principal of Bridgetown High School.

Dr. Hall in the course of the evening read a letter from Prof. Frank Wheelock offering a \$50 scholarship to the scholar in Lawrencetown, "B" grade making the average of 70 or over in the forthcoming examinations of June 1917.

All the speakers spoke in the highest terms of the splendid way in which these exhibitions were being carried out and congratulated the people of Lawrencetown on the success they had had in the present United Exhibition, all expressing the wish that these exhibitions may be continued throughout the Province. One of the pleasing features of the evening was the attendance of the Lawrencetown Band, which rendered several selections which added much to the enjoyment of the evening.

CASTORIA

For Infants and Children Always Bears Signature of Dr. J. C. Williams

IMPORTANT ANNOUNCEMENT

Parcels for Prisoners of War in Germany Must be Very Strongly Packed.

Post Office Department Ottawa, Canada. The Post Office Department has been notified by the British Post Office that many parcels sent from Canada to prisoners of war in Germany are being received in London in a damaged condition, so that frequently they have to be repacked before they can be forwarded to Holland for transmission to Germany. The British Post Office adds that in most cases the damage appears to be due to the fact that the parcels were inadequately packed by the senders.

The public are warned, therefore, that parcels for prisoners of war, unless they are very strongly packed, will probably arrive in such a condition as to be of little or no use to the recipients. Ordinary tin cardboard boxes, such as shoe-boxes, and thin wooden boxes should not be used; nor does a single sheet of ordinary brown paper afford sufficient protection. Even where proper materials are used, it is important that the contents should be tightly packed so as not to shake about during transit. The following forms of packing are recommended: Strong double cardboard or straw-board boxes. These made of corrugated cardboard and having lids which completely enclose the sides of the box, are the most suitable. Tin boxes such as are used for packing biscuits. Strong wooden boxes.

The British authorities advise that parcels for prisoners of war in Germany must not be wrapped in linen, canvas, or any other textile material. Parcels posted in Canada for prisoners of war in Germany which have not been adequately packed by the senders will not be returned to the senders, as the British Post Office has notified the Department that parcels which are inadequately packed must be returned to the senders.

MEALS FOR M. P.S.

When next the Parliament of Canada meets in session, probably some time in January, the members will not have to travel so far for their meals. After the fire, when the two houses moved into the Victoria Memorial Museum, there was no room space in which to put one. Members who had been accustomed to travel no further than an elevator could take them, were forced to seek pastures new and often distant. The steward of the restaurant found his occupation gone. To overcome in part this discomfort, a large house across the street from the Museum has been taken under lease and is now being remodelled and equipped as a restaurant for members and senators. There will be a dining-room, smoking-room, etc., and it is probable that the sergeant-at-arms will have quarters in the building.

BODY TRANSPARENT

A new method of giving medical students instruction which, it is said, will largely obviate the necessity of dissection, will be put into practice at the Hahnemann Medical College, Philadelphia, at the beginning of the next term. Physicians and surgeons connected with the department of anatomy are now perfecting the process, which originates through the recent discovery by a French scientist of a fluid by the use of which the human body can be rendered transparent. The fluid, which is composed of several oils, turns the flesh into a sort of transparent jelly when injected, enabling the students to study the veins, muscles and bones far better. It is asserted, than if they resorted to the dissecting knife, it is said to be one of the most valuable discoveries in medical science of late years.

Substantial increase in English merchant shipping under construction for three months is shown by Lloyd's which reports that in Oct. last there were 469 vessels building, representing 1,759,652 tons or about 219,000 tons more than figures for previous quarter and 253,900 tons more than a year ago.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life. If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength. Scott's is strengthening thousands of mothers—and will help you. Try it. Scott & Bowne, Toronto, Ont.

FALL GOODS

Sweaters and Sweater Coats

FOR MEN, LADIES AND CHILDREN

Hosiery

We are showing the best values in Hosiery to be found anywhere.

P. C. Corsets

We have just opened another shipment of P. C. Corsets that are priced right.

Flannelettes

We have a splendid line of Flannelettes. Nice patterns and prices right.

Underwear

Men's, Ladies' and Children's Underwear in Stanfield's, Turnbull's and Pen-Angle makes.

Granville Street - Bridgetown

DOSE TEA "is good tea"

LOCAL AND SPECIAL

Jumpers just opened at J. W. Beckwith's.

The 26th Nova Scotia Highlanders, Reserve Battalion, will be quartered in Halifax this winter with stations at the Armouries and on the Common barracks.

PLOWS FOR SALE.—We have a limited number of Brantford Plows which we are offering at a Bargain Price of \$9.00 each. All new stock.

The Wesleyan says: Rev. C. W. Porter-Shirley of Sambro, has resigned his connection with the Methodist Church and proceeds this week to the United States to take charge of a Unitarian Church.

The camp at Aldershot, N. S. has been closed and Lieut. Colonel Thompson, the Commandant, is expecting to leave shortly with a number of other Canadian military officers for France to observe conditions at the front.

C. C. Blackadar, Esq., of the Halifax Academic Recorder, who is ever ready to assist in all charitable and benevolent enterprises, has offered \$5,000 towards a Hospital for the treatment of tuberculous patients in that city.

Conductor Cecil Ponce, of the D. A. R., met with an accident at Kingston, last week, falling from the step of a car and breaking his collar bone. He was detained at Kingston Station for medical attendance and returned to Halifax in the evening.

The members of Autumn Leaf Rebekah Lodge will celebrate the tenth anniversary of the instituting of the Lodge on Monday evening, November 6th. All members are requested to be present and each member has the usual privilege of inviting a friend.

We have heard reports of quite a number of deer being killed in this county during the open season which lasted for ten days from Oct. 21st to Oct. 31st. Although the open season for moose continues until Nov. 30th, it is unlawful to sell moose meat during November.

Up to last evening \$114.90 had been handed in to the Mayor for the British Red Cross Fund collected on Queen street, Church street, and Centre street. Other collectors are asked to hand in their collections as early as possible, so that the lists can appear in the next issue of the Monitor.

The Town Council having been successful in securing a boiler for the stone crusher to replace the old one which has been condemned, the crushing of stone will begin forthwith and Granite street will receive first attention and be put in good condition. This will be good news to those living to the east of town.

Dr. Goodwin, Grand Master of the Independent Order of Oddfellows of the Maritime Provinces has given Crescent Lodge, L.O.O.F. notice of an intended official visitation to take place on Tuesday evening, November 14th. The Lodge will confer the Third Degree tomorrow (Thursday) evening, and a large attendance of members is requested to make arrangements for the coming visit of the Grand Master.

Mayor Longmire attended the Y. M. C. A. Leaders' and Boys' Conference held in St. John, Oct. 26-29. He was accompanied by his son John and Clarence Pitts. Randolph. The Mayor is most favorably impressed with this great work of the Y. M. C. A. among boys, and especially the scheme as embodied in the Canadian Efficiency Tests for Boys. Loren Crowe, Wiley Stronach and Alexander Fowler attended the conference held in Halifax, Oct. 19-22.

The "St. James Branch of the Anglican Young People's Association of the Church of England in Canada," was organized in the Parish Hall on Friday evening last. A large number of young people was present and signified their intention of becoming active members. Regular meetings will hereafter be held on every Friday at 7.30 p. m. in the Parish Hall. There is every indication of a bright and useful future for the St. James Branch of this Association.

While the majority of lot owners in the Riverside Cemetery have responded promptly to the tax notices sent out some weeks ago, there are quite a number still in arrears. In order to meet the expenses incurred during the summer it is important that all taxes be paid in at an early date. Will those therefore who have neglected this matter kindly attend to it at once and do their part toward the care of a spot in which all should be interested. The care of a cemetery should not become a burden to a few but rather a labor of love in which all may gladly share.

Mr. and Mrs. Andrew B. Clarke have the profound sympathy of their wide circle of friends in the bereavement that has just come upon them. Their four-year-old daughter Thelma, who was severely burned on Monday, Oct. 23rd, passed away early Monday morning, Oct. 30th, after a week of great suffering from the effects of the unfortunate accident. While the loss to the family is a sad one, doubtless the little one has been happily released from a life of probable affliction and suffering. The funeral services were held yesterday afternoon, conducted by the Rev. G. C. Warren, and interment was in the Riverside Cemetery.

WANTED—Butter 34c lb. Eggs 35c doz. W. W. CHEBLEY, Read.

Nine head of young cattle and two general purpose horses for sale. Apply to A. Pitts Randolph, Bridgetown.

Numbers are taking advantage of the bargains J. W. Beckwith is giving in Women's, Misses' and children's coats.

It has been announced from New York that the securities of the Nova Scotia Steel and Coal Company had been formally admitted for listing privileges on the New York stock exchange.

From letters received last week from members of the 112th Battalion, it is learned that A. B. and C Companies of that battalion have gone to France and will be absorbed into the 25th Nova Scotia Battalion.

Our esteemed contemporary, the Annapolis Royal Spectator comes to us under changed management and editorship, Mr. J. W. Dawson Stearns, having taken charge last week. We wish Bro. Stearns and the Spectator much success.

Mrs. E. C. Young received word yesterday from her son, Bandsman Louis G. Young of the 174th Battalion, that he had a pleasant trip across from Halifax to England, and that his battalion was quartered at Witley Camp, Milford, Surrey, England.

A letter received by Mr. Avard L. Anderson this week from the front states that his son, DeBella, has recently been promoted to a Lieutenant. He, with other Bridgetown boys are in the best of spirits, and are proud of the work of the 25th Nova Scotia Battalion at the Somme front.

A quiet but pretty wedding took place at the Baptist parsonage on Oct. 25th, when Thos. S. Burton of Hampton was united in marriage to Isabel Foster of Berwick. Rev. G. C. Warren officiating. The groom was attended by Herman C. Morse, Esq., and the bride by Miss Una Marshall. The happy couple spent their honeymoon in Berwick.

Digby Courier.—A quantity of the best grapes seen in Digby this year were brought from Deep Brook by Mr. Manning Nichols Tuesday morning, having been grown on his farm in that village. They soon brought a number of cash customers. Too few Nova Scotia farmers are raising this kind of fruit. Mr. Nichols also had in his possession a "Baxter" apple measuring 13 inches in circumference.

Next Tuesday, Nov. 7 is Municipal Election Day. There will be an election in but two Wards in this County, namely, Ward 2, candidates O. P. Nelly and Lester Weaver; Ward 13, candidates James C. Gritman and Ernest Freeman. In Ward 6, Samuel C. Shaffer succeeds Councilor Withers, and in Ward 12, Edgar C. Shaffer succeeds Councilor Ernest Gates. In the other twelve Wards the former Councilors will be returned by acclamation.

Rev. M. E. Fletcher a prominent Baptist clergyman in the Maritime Provinces, passed away in St. John, N. B. on Sunday, Oct. 22nd, after a brief illness from a throat affection. Mr. Fletcher was born in England, and was ordained to the Ministry in 1833. He served as a missionary in Burmah, India, for some years, after which he came to Canada in 1860. Of recent years he has held the position of Field Secretary of the Foreign Mission Board of the Maritime Provinces.

This week the Monitor appears in an eight column, four-page form instead of five column, eight-page form, which has been the case the past two weeks. In making this change we are able to give our readers some sixty inches more reading matter than we have been giving the past two issues, and we also believe our advertisers as well as our readers are better served, and the Monitor will present a better appearance. We hope when the paper material improves, should other conditions prove favorable, to go back to the old form, viz. seven column quarto.

A pleasant surprise was given one of our esteemed townsmen, Mr. W. W. Chesley and his estimable wife, last evening, the occasion being their fiftieth wedding anniversary. About fifty of their friends gathered at the home of Mr. William A. Chesley where the evening was most pleasantly spent. A purse of gold and an appropriate address was presented to the bride and groom of fifty years by the members of the Presbyterian Church, Rev. F. C. Simpson making the presentation. The Monitor joins with a large circle of friends in wishing Mr. and Mrs. Chesley many more years of happy wedding life.

Vast quantities of potatoes and dried codfish and hake are being shipped by the B. & Y. S. Co. over the trip to Havana, Cuba. The potatoes from the Annapolis Valley, chiefly from Berwick, and the fish via the H. & S. W. railway from Lunenburg. The potatoes bring \$4.75 per Canadian barrel and \$5 for the American barrel in Cuba, but the former is preferred to any other in the world. The Cubans also prefer Canadian fish to any other on the market. Cod, halibut and haddock caught in these waters are evidently more desirable than the fish that comes from the excellent fishing grounds—near Halifax.—Yarmouth Herald.

PERSONAL PARAGRAPHS

Miss Nettie Cohoon of Wolfville, is the guest of her friend Miss Gladys Reed.

Gerald Hoyt has joined the staff of the Royal Bank of Canada here as a junior clerk.

Miss Lahlia Feener, of Annapolis was a week-end guest of her cousin, Miss Ida Barnes.

Pta. Geo. Gill of the R. C. G. A. Halifax, is spending a short furlough with his mother in town.

Mrs. Eugene Troop leaves today for a visit among relatives in Boston and other New England cities.

Dr. F. S. Anderson returned on Saturday from a trip of two weeks spent in New York and Boston.

Mr. A. R. Bishop has so far recovered from his recent illness as to be able to take occasional walks about town.

Miss Beattie Ruggles returned home on Saturday last after several weeks spent very enjoyably in Boston and its suburbs.

Miss Mabel DeLancey, trained nurse was a recent guest at the home of Mr. and Mrs. Eugene F. Saunders, "Oak Farm."

E. A. Walker of Chelsea, Mass. made a brief visit last week with his sister, Mrs. T. A. Foster and Mrs. John Bath.

Attorney General and Mrs. O. T. Daniels left for Boston last Wednesday to which city they will spend several weeks.

Mr. A. F. Pitts went to Halifax yesterday on a business trip, and today will attend the consecration of All Saints Cathedral.

Mr. and Mrs. William Todd of Dalhousie, are spending the week with their daughter, Mrs. Charlie Murray, Lawrencetown.

Mrs. Elias Messenger returned from Halifax Saturday last accompanied by her sister Mrs. Ida Murray from Moncton, N. B.

Pte. Harvey Sabine who enlisted and went over to England with the 112th battalion returned on Monday, having been rejected as physically unfit.

Mr. Jas. H. Payne, of Albany spent part of last week the guest of friends in Bridgetown. Mr. Payne left on Friday last for Boston going by the way of St. John.

Mr. W. Cook, manager of the local branch of the Bank of Nova Scotia, is enjoying his annual vacation in Kings County. He is being relieved by Mr. Lovitt.

Mrs. G. C. Warren returned yesterday from Glouce Bay where she has spent the past two months with her parents, Rev. and Mrs. A. T. Dykeman. Mrs. Dykeman is slowly improving from her recent illness.

Mr. T. S. Little of Halifax is a guest at the home of his son, Mr. A. P. Little. Mr. Little, who has travelled quite extensively, especially in Great Britain, is a very interesting conversationalist, and is making many warm friends who hope his visit in town will be a prolonged one.

Mr. Wm. G. Purdy of Deep Brook for some time a resident of Bridgetown, left yesterday for Halifax to undergo an operation at the Victoria General Hospital. He will be accompanied by his brother, R. W. W. Purdy of this town, who while in the city will attend the consecration of All Saints Cathedral this morning.

The refining of raw cod liver oil as practiced with the crude equipments available along the Norwegian coast has never squared with the ideals of Scott & Bowne and they have just completed a spacious refining plant adjoining their laboratories in Bloomfield, N. J. which is refrigerated to the climate of Norway and equipped with unusual sanitary devices which will forever insure a supreme quality of cod liver oil in every bottle of Scott's Emulsion and place it above and beyond all commercial substitutes which may contain the usual suspicious or adulterated oils.

Parish St. James Church Notes

The services next Sunday (20th) after Trinity will be at 10 a. m. (Holy Communion) and 8 p. m. (St. Mary's Bellefleur, 10.30 a. m. (Sunday School 9.30.) St. Peter-by-the-Sea, Young's Cove, 2.30 p. m.

WEEK DAYS

Wednesday, 7.30 to 8.30 p. m. "Organized" Bible Class. All interested in Bible study cordially welcome. Subject of study "The Epistle to the Hebrews."

Friday, 4.30 p. m. Service of Intercession on behalf of the war. 7.30 Anglican Young People's Association.

ENEMY IN THE ORCHARD

How Blight, Caterpillars, and Taxes Affect Cyder Trade.

(From London Star)

The condition of the 1916 apple crop is the subject of an interesting report by the well-known cyder-makers, Messrs. H. Whiteway and Co., Ltd., of Whitby, Devon.

The weather conditions during the first part of the year were unfavourable to most of the British orchards they say, and while in some districts there was a good and regular show of blossom, in others were spaces with no blossom at all. In Devonshire such kinds as Lord Suffield, Bramley's Seedlings, and Whimble Wonders were good, but those big favourites, Cox's Orange Pippin and the Ribstone Pippin were a dismal failure.

The Altes

Nor did the prospects improve as the season advanced. Blight made its appearance as well as the caterpillar. The Board of Trade estimate of the yield was never higher than 50 per cent, and was as low as 25 per cent in some places.

The small apple crop is not entirely attributable to the bad weather, however. Scarcity of labour and consequent neglect of culture was partly responsible, for where the trees received treatment during the winter good crops were obtained.

Work in Canada

The state of affairs in the Canadian apple orchards was, if anything, worse than here. The reports that reached the Department of Agriculture at Ottawa said that apple scab was very prevalent, and the crop was further reduced by canker worm and green apple bug.

Messrs. Whiteway are naturally not at all enthusiastic about the effect of the new war tax on cyder. They say "dismal reports as to the effect on sales have appeared in the newspapers of Herefordshire, where it is said that the trade is being ruined."

Bright Prospects

Mr. McKenna was asked either to repeal or reduce the tax, as the sales had fallen 70 per cent, but he replied that he could not see his way to take any such step. The tax has created a great deal of feeling in the cyder-making counties.

However, an optimistic view is taken of the future. The total area under apple cultivation in this country is 251,220 acres, an increase of 2,490 acres, and the report expresses the hope that the increase will be continued.

It suggests that the growing of apples might be a very useful work for wounded soldiers and sailors.

"It is an ideal occupation the spraying, picking, grading, and packing is easy, and as no apple compares in flavour with the best English production, a profitable market is assured especially if suitable storage is arranged for."

KEEPING AHEAD

It was an American business firm who some forty-three years ago showed the world how to perfect the medicinal properties of cod liver oil and make it pleasant to take which immediately popularized cod liver oil throughout the world.

Not content with this great success however, Scott & Bowne have continued to evolve methods and machinery to keep Scott's Emulsion, finer, purer and richer than the imitations which patterned after their plans, and to-day every precaution that human ingenuity can devise is employed to keep Scott's Emulsion the finest and purest medicinal food in the world.

The refining of raw cod liver oil as practiced with the crude equipments available along the Norwegian coast has never squared with the ideals of Scott & Bowne and they have just completed a spacious refining plant adjoining their laboratories in Bloomfield, N. J. which is refrigerated to the climate of Norway and equipped with unusual sanitary devices which will forever insure a supreme quality of cod liver oil in every bottle of Scott's Emulsion and place it above and beyond all commercial substitutes which may contain the usual suspicious or adulterated oils.

NOTICE

The annual meeting of the Wilmot Mountain Agricultural Society will be held at Port Lorne on Tuesday afternoon, November 7th, 1916, at 2 o'clock.

Yarmouth Line

STEAMSHIP "PRINCE ARTHUR" leaves Yarmouth Wednesdays and Saturdays at 5 p.m.

One day through the provincial woods a calf walked home, as good calves should; but left a trail all bent askew...

The trail was taken up next day by a lone dog that passed that way, and then a wise bell-wether sheep pursued the trail...

And many men wound in and out, and bent and turned and dodged about, and uttered words of righteous wrath, because 'twas such a crooked trail.

But still they followed—do not call the first misgivings of that kind through this winding wood—because he wobbled...

His path became a lane that turned and turned again and lane became a road...

Years passed on with swift feet, the road became a village street, and this, before men were aware, a city crowded (broadly). And upon the central street was this of that calf. Each day a hundred thousand routes followed the zigzag path about, and hundreds of thousands went the traffic of a continent.

Lawrencetown

Oct. 30 Mr. D. M. Balcom spent last week at Brookville.

Miss Dorothy Jefferson is attending Mount Allison College.

On Thursday, Nov. 9th it is proposed to hold a birthday party in the subject at the Epworth League on Friday night.

We are glad to report that David Weaver was successful in capturing a fine mouse, Oct. 25, and Aubrey Lee, a nice deer, Oct. 25.

Oct. 25 We are sorry to report Mr. Geo. Brown on the sick list.

Mrs. James Mansfield of Lynn, Mass. is visiting his friends Mr. and Mrs. Geo. Douglas.

Mr. Harry Green and family of Middleton spent Sunday at Mr. Charles Ullman's.

Official announcement was made in New York on Wednesday Oct. 11, 1916, that a new British loan by American bankers, through the National City Bank, has been arranged.

Mr. and Mrs. Howard Cunningham arrived from Montreal, Saturday, and are guests of Mr. and Mrs. W. G. "Lark".

Mr. and Mrs. George Stille and daughters Myrtle and Bessie, accompanied by Mrs. L. H. Crandall, left for St. John on Tuesday.

Mrs. Charles Bryant, who has been the guest of Mr. and Mrs. Arthur Dunn, left for her home in New Brunswick, on Saturday.

The sewing circle of Lake Jolly brought in a number of pairs of socks to the Bear River Red Cross Auxiliary last week.

The auxiliary sent one large box of Field Comforts, 77 pairs socks and a large number of miscellaneous articles, such as soap, tooth paste, ovals, cold cream, writing tablets, etc.

On Tuesday evening, October 24th, the Deep Brook Red Cross Society was royally entertained at the home of Mr. and Mrs. R. V. Dimars.

During the evening an announcement was made by Mr. Smith that the Society was unknowingly celebrating a twenty-second wedding anniversary of the host and hostess.

The Farm

It is not the intention of the writer of this article to lay any hard and fast rules for the running of a 100-acre farm most profitably, but rather to lay a foundation of systematic ideas which will suffice for any 100-acre farm.

Every farmer naturally has methods and ideas of his own which seem to meet the conditions of his own special farm, and therefore is inclined to overlook the fact that these may not be profitable.

The average farmer is asked: "Do you run your farm profitably?" his answer would likely be: "Oh, I don't know, but I hope so."

This brings me to the first and most important point, namely, the use of our intellectual powers, brains, and common sense.

Good management and the application of fertilizer and barnyard manure.

The number of horses kept will vary according to circumstances. A three-horse team and big implement will be found profitable.

The number of cows will vary. Cleanliness, regularity and quietness, together with careful breeding, feeding and "weeding out" those cows which do not reach the desired mark are essential.

A Babcock tester and scales should be kept on every farm.

A silo will furnish green feed for the cattle all the winter and will also supplement the pasture in the summer.

Beef cattle, pigs, sheep, and chickens will all be profitable side lines.

Mr. and Mrs. Howard Cunningham arrived from Montreal, Saturday, and are guests of Mr. and Mrs. W. G. "Lark".

Mr. and Mrs. George Stille and daughters Myrtle and Bessie, accompanied by Mrs. L. H. Crandall, left for St. John on Tuesday.
