HOCKEN REPLIES TO TELEGRAM DIATRIBES

Persistent Persecution Since His Election and Attempt to Put Him at Loggerheads With Hon. Adam Beck Causes Mayor to Reply at Public Meetings.

In his address to the meeting of the Bathurst Hill Ratepayers' Association, in Hillcrest school last night, Mayor Hocken for the first time since his election expressed his views most emphatically upon the policy of the Telegram regarding himself.

"On Jan. 1 I was elected chief magistrate of this city by the citizens, and on Jan. 1 the Telegram published a story, accusing me of holding back the Harris report on the filtration plant, when they could have discovered by telephoning the city hall that such a report was not handed to me, and that their entire story was false. They have pursued the same policy towards me from that day until the present time, when they charge me with trying to block the reduction of the hydro rates."

Where Hat Values Are Extra Today

The nearer Christmas the greater the hat values at Dineen's, 140 Yonge street, who has always been noted for outstanding values in headwear, but today certainly caps all and will not likely be exceeded. The variety of hats is what greatly appeals to men and it is what pleases all visitors to Dineen's. No matter what your occupation or recreation, you will find something to suit your taste and requirements at this well-known house. Decide to make your way to Dineen's as early as convenient—this forenoon if possible.

LIBRARY STORY HOUR

New Candidate for Third Deputy Reeve in York Township.

The auditorium of the Humberdale Collegiate Institute was filled yesterday afternoon with pupils and parents at the annual commencement exercises, and an unusually large number of prizes and diplomas were awarded. The principal, J. C. Colbeck, B.A., presided, and his annual report showed that the collegiate has completed one of the most successful years in its history. The principal, J. C. Colbeck, B.A., presided, and his annual report showed that the collegiate has completed one of the most successful years in its history.

The monthly "story hour" for children of the Runnymede Library Board was revived with great success in the library building, Millard avenue, last night, and the large attendance of children and parents proved the popularity of these meetings. Chairman Nathaniel Schuch and Harry Durrant were the story tellers last night, and interested their juvenile audience for two hours with tales of "Canadian Pioneers" and "Oliver Twist" respectively.

The candidature of William French for the office of third deputy reeve of York Township has been approved by the Runnymede Ratepayers' Association. Mr. French is at present chairman of the township board of education.

The funeral of the late Maude Guest, the young woman whose body was recovered from the Humber River on Wednesday, will take place this afternoon from Speer's undertaking parlors, Dundas street.

It is generally expected that Dr. W. A. Sangster will be reeve of Blouville for another year. Those who have had opportunities of observing the doctor in action in municipal affairs at council or county council meetings, will have no hesitation in returning him again to a field for which he is well fitted by education and a knowledge of human nature count considerably in municipal affairs, and the doctor has both. Rev. W. A. Sangster should attend the January meeting of the York County Council.

Do you like the back button-hole to be horizontal or perpendicular?

We have them in both styles. The vertical or perpendicular button-hole has been long in vogue—it is the English and the Canadian style.

The American makers invented machinery that could not make the vertical, and they popularized the horizontal button-hole.

The fanciful button-holes in the front of a collar, designed to overcome the bad workmanship of easily-broken threads and cheap linen, are not shown in the R. J. Tooke Collars.

They are not necessary where the sewing and the material used are of the higher grade.

ON THE LEVEL, IT IS NECESSARY

Since the proposed highway thru Mount Pleasant Cemetery has had a new lease of life, and the city works committee is taking the thing in earnest, a short review of the history of this street of North Toronto's dream might not be unwelcome to those who will have to bear the brunt of the legislation and the cemetery trust towards getting the road put thru.

We will pass over the long germ stage, way back in the last century, when the cemetery road was hot stuff for every really progressive council candidate, and a budding ratepayers' association sicked them on, and began with the year 1898, when the perennial agitation culminated in an appeal to the legislature.

In the year an act was passed, giving the Township of York power to put the road thru. Not that the Township of York cared much, but had listened to the importunities of North Toronto, and realized the necessity for such a highway. Time passed with its usual swiftness, however, practically nothing was done, and as the only held good for a year, an extension of time was secured from the legislature in 1910, and a report was submitted to an official arbitrator.

At this juncture the cemetery trust suggested that an agreement be drawn up between the Township of York, the Township of North Toronto and the cemetery trust. This was done, terms were laid down, and the Township of North Toronto passed a bylaw for the amount required. The bylaw was carried by the electors and the agreement was accordingly endorsed by the town and the township.

The cemetery trust then claimed that legislation would be necessary to confirm the agreement on the ground that the town's bylaw was invalid as the town did not have the legal right to spend that amount of money on an improvement outside the boundaries of the municipality.

The Township of North Toronto had not only passed the bylaw, but had actually signed a cheque for \$15,000, and sent it to the trust, which was the cash payment to be made under the agreement. That cheque was never cashed. Annexation took place, and North Toronto became a part of the city, with the result that the city had then the right to put thru the road as arranged by North Toronto, which meant the construction of a bridge over the Belt Line Railway, and the payment of \$15,000 to the trust for land damages and the construction of bridges between the east and west ends of the cemetery over the new highway.

The city board of works has risen above trusts, towns and townships. They have decided that the road must go thru on the level. That necessitates new legislation. More power to the board of works, and the payment of \$15,000 to the trust is necessary. Certainly not the legislature.

CANDIDATES' NIGHT AT NORTH TORONTO

Members of Board of Control and Prospective Aldermen Invited.

This evening will be candidates' night at the North Toronto Ratepayers' Association, and it is expected that present representatives and new candidates will seize the opportunity to state their views to the most active organization in the district. The North Toronto Ratepayers' Association was a very live factor in the municipal government of the old town, and evidently intends to be no less powerful in city affairs. One thing is certain, that everyone will receive a fair hearing, as of yet, whether you are invited or not. President Donnelly hopes that the ratepayers in the district will realize their responsibility and attend the meetings between now and New Year's, so that they may cast their ballots with added intelligence on Jan. 1.

Candidates for Wards 3 and 3 and members of the board of control are invited to address the meeting.

BAD CONDITIONS IN CEDARVALE

Four Houses to Fifty Foot Frontage—Also Poultry, Wells, Pigs, Etc.

WORK FOR THE M. O. H.

First Anniversary of Church of the Resurrection Takes Place Sunday.

Altho various cases of typhoid fever have been reported in Cedarvale lately, no citizen of Toronto knows under what conditions and in what circumstances some of the houses in the northern section of the district especially. A World reporter went over the district yesterday and inspected some of the properties in which conditions are simply appalling.

The sanitary state of affairs which exists to a certain extent all over the district is not merely a matter of the outer portion as in the north, where cattle, horses, pigs, dogs and poultry appear to be invaluable even to small holders. While these things prevail it is no wonder that typhoid cases are reported, and unless something is done immediately it will not be surprising to have diseases of an even more dangerous character reported.

Dr. W. G. Fenner, a well-known Danforth avenue doctor, told The World yesterday that a large number of the people living in what is termed professionally a typhoid state. This is due to a large extent to the environment in which they live. He explained that several families live in conditions in which all the laws of sanitation are outraged. Perhaps a man and wife with two or three children live in two rooms with the only entrance being the opening and shutting of doors. He also stated that cases of typhoid in the district, but the people have managed to doctor themselves and the houses were never quarantined.

A Death Trap.
On inspecting the place where little Irene Jackson died from typhoid last Tuesday, the reporter found the houses on a fifty foot lot, three on the rear and one on the front. It was also learned that it is the intention of the owner to build two more on the front, thus making a total of six houses on fifty feet frontage. There is one well, from which thirty people drink; six closets within the immediate vicinity; with poultry running around.

A little further up the street a twenty-foot lot houses a family, a horse, a cow, pigs and poultry. Such is the state of affairs in two places, and it is clear that the county board needs to take a visit to Cedarvale.

Mr. Wickens, one of the oldest residents, called The World's attention to the west side of Cedarvale avenue, where the backs of the houses on the east side of Cedarvale avenue are for a distance of 100 yards. He said that the sidewalks on that side of the street were made a dump for the refuse of the people who live in these houses. This is another case for the M.O.H.

There is a petition before the city council to have the city limits extended further outside the city limits, but there are only about sixty or seventy houses in this radius and two hundred further out. Mr. Wickens thinks that the only way is for the city to supply water to all houses or annex the district.

Anniversary Services.
The Church of the Resurrection celebrates its first anniversary next Sunday. The special preacher at the 7 o'clock service will be Rev. E. J. Peck, the veteran missionary of the Arctic regions.

Twelve months ago under the energetic leadership of Rev. E. M. Quaretti, whose operations had so far progressed that services could be conducted in the church. Today, altho the exterior is not quite completed, the interior is one of the most complete in the city. The church, those who helped in the erection of the whole being done by voluntary contributions. The church is now ready for the children on Sunday, and so that they may cast their ballots with added intelligence on Jan. 1.

A CONSERVATIVE OYSTER SUPPER

Ward Seven Association Will Hear Addresses by Prominent Members.

There will be an oyster supper under the auspices of Ward Seven Conservative Association on Monday night at James Hall, corner Pacific avenue and Dundas street. W. F. Maclean, M.P.; Dr. Godfrey, M.L.A.; R. R. Gentry, M.L.A., and other prominent men will speak. This will be the initial meeting for the season and regular monthly meetings will follow. The Excelsior Orchestra will also be present, and President Ald. Ryding is desirous of having a full house.

FAIRBANK

The old school house was filled last night at the meeting of the Ratepayers' Association. The committee appointed on letter carrier delivery reported in favor of changing the names of some of the streets and of numbering the houses. W. F. Maclean, M.P., was present and commended the work of the committee, and promised that when it was completed, he would do his best to get the postmaster-general to give them a daily service. Delegates from west of Prospect Cemetery were added to the committee, with a view of getting a service in their section.

St. Alban's Cathedral

Rev. Canon Morley will preach in St. Simon's Church, Toronto, at 11.00 a.m.

The question may be fairly asked: What influence can a cathedral exercise on a diocese, or on the religious life of a community, which is at all commensurate with the great expenditure of money and thought and labor? Might not the funds be far better spent in increasing the stipends of underpaid clergy, in providing extra clergy for larger parishes, in building new churches, mission halls, and in training men for the work of the ministry.

Of the paramount importance of these objects there can be no question, and it is because we believe that the building of a cathedral will insure, with God's blessing, these very results most swiftly and surely, that we regard its erection as so eminently desirable. No great and far-reaching work can be carried on without a strong and vigorous centre. A leading bank or insurance society, with its many branches scattered through a neighborhood, or a whole country, takes care to secure for itself a head office worthy of its wealth and of its name, and sufficiently spacious to possess every facility for keeping up an active supervision of its various departments. It does not regard the tens of thousands of dollars which are freely lavished on an imposing building as wasted, or as a bad investment. The fine central office is a visible embodiment of its greatness. It is the source of its commercial inspiration, and the main spring of the carefully-splintered machinery by which its business is efficiently conducted and constantly extended.

A cathedral plays much the same part in a diocese. It is not only a building, it is an institution. It is more. It is a House of God—a centre of spiritual life and a main spring of the church's activity.

Housekeeping, Nursery, Gardening and News of Interest to Women

ST. ELIZABETH NURSES HELD ANNUAL MEETING

Nearly a Thousand Calls Have Been Made During the Past Year.

The fifth annual meeting of the St. Elizabeth Visting Order of Nurses was held yesterday afternoon in St. John's chapel, Church street, in the absence of the president, Mrs. McLean French, the chair was taken by the first vice-president, Mrs. H. T. Kelly.

Mrs. Grace Archbishop McNeil, Rev. Father Clive, the new superintendent of charities, and Rev. Fathers Minahan and McGrand were present, in addition to the nurses and members.

Miss Lucy Hynes, the secretary, reported that the nurses had made 9,392 calls, 705 of which were night calls. The five nurses had worked under 277 doctors, and in addition, nurse has been employed, the she has not yet been secured as a permanent.

The nurses present told of their experiences in many homes where financial aid as well as medical assistance was needed.

His grace the archbishop said those found to be in need must be helped at any cost. Foreigners must be shown that a sincere interest is taken in their welfare. His grace also spoke of the work of the Carmelite Sisters in connection with the day nurseries and the general foreign community, but urged that a good deal more be done in this direction.

Rev. Father Clive, from the reports read he hoped for still better things from the association.

"Women have met and mastered all emergencies of life," said Father Clive. From the reports read he hoped for still better things from the association.

A plea for better organization was the subject of Father Minahan's address. Better business methods would ensure more effective work and better results.

Cases reported to Rev. Father Clive as needing assistance were distributed among the ladies of the parishes present.

THE WOES OF MRS. NEWLYWED

"The bristles of my hair brushes get soft very quickly," said Mrs. Newlywed. "What can I do to keep them stiff?"

"When the bristles of my hairbrush become soft, I stiffen them in the following manner: Wash the brush well in about a quart of hot water, to which a desiccating agent of ammonia has been added, then dissolve a large lump of salt in cold water; dip the brush in several times and leave to dry in the open air."

A DAILY STORY FOR CHILDREN

The Copper-Toed Boots.

By Virginia Vale.

Once upon a time, a great many years ago, there was a small pair of copper-toed boots whose home was in the country. They were made out of heavy leather, with high tops and loops on each side, so they could be pulled on, for they did not have buttons or strings to lace as your boots have, and at the top they had a piece of bright red leather. That made them look so pretty that even if, at the toes, there had not been a tip of copper, every boy would have wanted a pair.

This pair of boots was bought for a little boy who lived in a long way from any other children, and he was so glad when his father brought them home to him that he asked if he could not take them to bed with him. This was a great many years ago, you know, and little boys didn't have so many toys and pretty things as they have now.

He used to wear his boots as often as his mother would let him, and felt quite grand. But he grew so fast that one day his mother found they were too small for him.

So she said, "I will have to give them to your little cousin." He was sorry to part with them, but very proud that he was growing big.

So the boots went to live in another home. That little boy wore them almost all the time, and one day his mother said, "Your boots that he gave you are almost worn out, we must give them to some little boy who hasn't any."

One day a little boy came to the house on an errand and he was barefooted, so the mother said, "Now we will give him the boots," and he begged his mother not to throw them away, so she took them up in the attic.

A great many years after this, oh a great many years, a little boy was playing in the attic and he found the boots. He took them down to his mother, shouting, "Look, mother, at the funny boots. I never saw shoes like these before. May I take them home when we go?"

So he took them home and is very proud to show them to all his friends.

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Some Hints on Carving

EXPERIENCE is the best teacher a would-be carver can possibly have, but a few hints may be given that will be of practical assistance to the amateur called upon to perform before friends, if said amateur can only call the following hints to mind when they are needed:

Most carving knives are too large for the ordinary fowl or roast served on the average table, so if you are investing in a carving set do not choose the largest knife thinking it will help you thru a disagreeable duty quickly.

A thin, short blade, well-pointed, can be handled to much better advantage. The fork should be two-pronged, for game and meat, and have a finger guard.

For fish, a special knife and five-pronged fork is made, and there is also a third piece, called a fish-slide, in the set. The fish-slide, fork and knife are all of silver or nickel, as steel is never used about fish.

Articles to be carved should be placed upon dishes sufficiently large to admit them being turned about; the joint or whatever should be near enough the carver to allow him free use of his arms.

Unless loins, breast and necks of mutton, veal or lamb are jointed by the butcher before they are cooked the most arduous carver will be puzzled before bringing it to the table. The carver has enough to contend with and should have all the help possible from any source.

"The nearer the bone, the sweeter the meat," is an old proverb, and carvers soon discover that choice tid-bits are found between the bones and easily lifted out. If a joint is stubborn it is better to cut around it than to attempt to cleave thru it by main strength, frightening your guests, threatening the china and certainly paving the way, Mr. Man, for a curtain lecture after the meal.

In serving fish try not to break the flakes, which give beauty to the dish. Help a little milk, or roe, to each portion. The heads of carp, part of the heads of salmon and cod, and the fins and sounds of cod and turbot are esteemed as delicacies by some diners. Do not put sauces or gravies upon the portions served; some persons dislike them greatly and lose the pleasure of their meal if meats are moist.

Carve beef tongue thru the middle, and work towards each end; serve a little fat with each slice. Broken beef is carved in thin slices across the bone. Call's head is not served hereabouts, so I am avoiding describing its disagreeable carvings.

With the fowl, a few slices of breast are cut first, then the legs are removed with the thighs and separated at the joint. A little white meat must be placed on each plate with a section of the dark meat. "It is not etiquette to ask the preferences of your guests, you must presume," says Fashion, "that all you have to offer is equally good"; however, it is only kind to make sure that all are well served, and I do not know how you are to ascertain this unless you do ask what is liked.

Venison, veal and mutton are all cut across the grain of the meat. Sirloin roasts are cut parallel with the bone.

The Wise Goose Says

Jennie Duck urged her to stand up for woman votes, but as household duties kept her on her feet all day she refused.

WAR TIME SONGS

Songs That Deserve a Place in History

The songs that were sung during the great civil war of the United States—that had their origin directly from the hearts of the people while the fierce four-year struggle was going on—these songs deserve a place in history. They served to soothe the fears and allay the anxious moments of many a crisis when the humming wires might flash a message that meant the destruction of the union and the birth of two hostile Anglo-Saxon nations. They calmed and comforted the women who were left at home—with grief and suffering paramount in each of the days that dragged out their weary length. They served as the outpouring of that silent agony which must find utterance or break the heart. They were the audible and visible supplications of the millions that could only watch and pray—while the gallant boys in blue and gray fought the battles at the front.

The music and the words of these war songs cannot be reproduced today. It needs the inspiration of a momentous war to produce their like. And it is eminently fitting that they should be put into one volume such as "Heart Songs."

This unique book, offered by this paper, almost as a gift to its readers, contains nearly every song, either of the north or south, that brought solace to the dear ones at home, or the gallant boys in the ranks—during the thrilling days of the greatest war ever fought. We consider that we are fortunate in being able to offer this treasury of songs on such terms that every home into which this paper goes can own at least one copy. The coupon printed elsewhere in this issue affords fully now the reader can procure the book.

Make Your Christmas Gift to the Family An Extension Telephone

In the home where there is only one telephone there could be no more thoughtful and appropriate gift than to have a second telephone installed before Christmas.

On the remaining 364 days of the year, the convenience and comfort from its use will remain a constant reminder of the giver.

An Extension Set if placed upstairs in the hall, sewing room, den, or bedroom, will save endless stair climbing. For then, no matter whether the call finds you upstairs or downstairs, your telephone will be close at hand.

An order left now with Contract Department, Adelaide 4000, will ensure having the Extension Telephone in place before Christmas. Rates and particulars given upon request.

WANTS INCREASED RIGHTS FOR WOMEN

Deputation of Montreal Suffragists Waits Upon Quebec Premier.

QUEBEC, Dec. 12.—(Can. Press.)—With a view to having certain amendments made to the laws of the Province of Quebec, a delegation of members of the Montreal Suffrage Association, headed on St. Lomer Gouin in the parliament buildings today. The delegation submitted by Dean Walton, of the McGill law faculty.

First—The right of a wife to control her own earnings.

Second—To grant one consort a share in the estate of the other when deceased, as against distant relatives.

Third—To enable a woman to manage her own property.

Fourth—Equality as to rights in case of separation.

The delegation further asked that an amendment be made so as to have women eligible to act on school boards. Also the extension of the municipal vote to married women.

The existing marriage law does not allow the wife to dispose of her own earnings, and this method would remedy. Also to have the wife rank as heir in the case of the husband's death. At present the wife is classed as a twelfth degree relative in the case of no will being made by the late husband.

As to equality of rights in case of separation, the women's council asks that wives be granted separation if the husband be guilty of adultery just in the same manner as the husband is granted it in the case of the wife being unfaithful.

Premier Gouin promised careful consideration.

Questions and Answers.

Some weeks ago we spoke of the value of oxalis bulbs, their easiness of culture, and gave instructions as to their management. A query from one who followed directions, but yet was not getting any, in a few days, however, they turned yellow, and now look as if they will wither up.

Inquiring near the probable cause for this unfortunate happening. When the plants were watered they were replaced upon the window-sill, and the water allowed to shine upon those wet leaves. The sun shining thru glass on wet leaves spells ruin to those plants.

An inquiry leads to the fact that when the plants were watered they were replaced upon the window-sill, and the water allowed to shine upon those wet leaves. The sun shining thru glass on wet leaves spells ruin to those plants.

A pot of oxalis is so rarely like a pot of shamrock, that few people can tell the difference between the two, and why you should not have your pot of green.

Another young "gardener" has managed to grow two splendid plants this summer from seed! And had some flowers, too! From seed!

An inquiry leads to the thought that there are others who might benefit from the answer.

Those clematis plants were grown in pots. When the plants were watered and the roots in the cellar? Or take the roots out and let dry? No.

By far the safest and best way is to sink the pots, roots and all, about six inches below the level of the earth, out in the garden. This will keep the roots from frost, will allow of a certain amount of moisture to seep thru the earthen pots to the roots, and will also allow the plants to rest without the roots having been disturbed. Next spring, the roots may be planted in their permanent places by simply breaking off the pots and planting the bulbs. Good luck to this successful enterprise!

Dr. Neil Westminister. Church assisted by Prof. Gandler of Knox College. The funeral took place in Mount Pleasant Cemetery.

The Magnetic Girl.

How She Compels Others To Obey Her Will.

100,000 Copies of Remarkable Book distributed by mail to readers of The Toronto World.

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, etc., that you will, can easily be acquired by everyone, no matter how untalented or uneducated," says Mr. Elmer Ellsworth Knowles, author of the new book entitled "The Key to the Development of the Inner Forces." The book lays bare many astounding facts concerning the practices of Yoga, Esotericism, and other occult systems, and describes a simple, practical, and scientific system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to cure the most obstinate diseases and habits without the use of medicines; even the complex subject of telepathy is explained. Davis, the popular stage favorite, whose portrait appears here, declares that Prof. Knowles' book opens the door to success, health and happiness to every man, woman and child, and that it is the most important mental study of the human race.

The book, which is being distributed broadcast free of charge, is full of photographic reproductions showing how these unusual forces are being used all over the world, and how thousands upon thousands have developed powers which they little dreamed they possessed. Free distribution of the 100,000 copies is being conducted by a large London institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to do so may enclose 5 cents (stamps of your own country) for the book. Address: National Institute of Sciences, Free Distribution Dept., 324 E. No. 255, Westminster, Bridge Road, London, S.E., England. Simply say you would like a copy of "The Key to the Development of the Inner Forces," and mention The Toronto World.

Secrets of Health and Happiness

Do You Know Your Own Mind? Science Says "No"

By Dr. Leonard Keene Hirschberg, A.B., M.A., M.D. (Johns Hopkins)

YOU often hear about the pseudo-science of telepathy. It claims to be a plan, scheme, science or sort of legitimate hocus-pocus by which one person knows in an occult way what another person thinks...

Unluckily for all of these enthusiasts, every time unprejudiced experimenters perform tests upon alleged mind readers beyond the reach of unconscious duplicity or even real fraud, the so-called power of telling what one is thinking about falls to the ground...

Unaware of Your Thoughts Man says the new psychologists see and feel only the things that most concern him only at each moment. The perceptions—what you see, feel, hear and smell—of any instant and your reply to them by action may take various appearances according to your needs at any particular time...

Hard to Know Your Mind Thus, if you study your own mental behavior your efforts to decide whether you will go to a certain baseball game, or read a certain paper, or will examine your thoughts while you are playing tennis or cards, or, as you recall in detail your last vacation, there is in all of these examples a question of how much you did, are doing or intend to do that you are absolutely unaware of...

Answers to Health Questions. Dr. Hirschberg will answer questions for readers of this paper on medical, hygiene and sanitation subjects that are of general interest. He will not undertake to prescribe or offer advice for individual cases. Where the subject is not of general interest letters will be answered personally if a stamped and addressed envelope is enclosed. Address all inquiries to Dr. L. K. Hirschberg, care of this office.

Attention to be considered: The alleged credit of the C.P.R. has not depended upon the... The Toronto World has been based upon the vast land holdings of the company worth at least 250 million dollars.

What would be thought of a farmer under chattel mortgage who sold a team of horses upon the ground that they were "extraneous assets"? Would it help his credit? Would he maintain a "dominant position" in the community by that sort of high finance?

FOR THE LIEUTENANT-GOVERNORSHIP. Probably no part of the province is so much concerned in the choice of a lieutenant-governor as Toronto. Other cities at the best may only hope to have one of their most desirable citizens removed for a term of years to the provincial capital.

MORE USES OF ELECTRICITY. Some months ago the sub-committee of the health committee of the city council of Liverpool, England, concerned with infant life preservation, was authorized to install bacteriological laboratories in the university for the purpose of testing the utility of electricity as a milk-sterilizer.

Recklessness can no further go. When it is found necessary to deceive the public and misrepresent and falsify in this flagrant way, some deeper motive than one for the interests of the citizens is being played. It is evidently desired to stop the purchase of the franchise, and to keep the citizens in bondage for eight years longer at double fares, strap-hanging and wretched as inefficient service can make them, until the time shall come when the lure of promises of better conditions may lead to the extension of the franchise.

Officially we are told that the latest fantastic melon cutting was resorted to by the Canadian Pacific Railway company in order to preserve its high credit—their dominant position—in the London market. The object was commendable. But if we credit the directors of the C. P. with good faith as to the object of the melon, they must frankly admit in return that they plundered most egregiously and failed most ignominiously in achieving the end in view.

STEPS OF CITIZENSHIP. "Man never is, but always to be, blessed," was a line written by the most epigrammatic and cynical of poets. It was truer in his day than in this, and is true in Canada now. He had no conception of the wealth of opportunity that the new countries of the world would open to the self-reliant and the enterprising who responded to a call that appealed to their spirit rather than their knowledge.

What an unscrupulous person with no regard for the truth can do in the way of assertion is only to be found out by careful attention to what appears in LARGE CAPITALS. Lindsay and Return Only \$2.05. union rests not only protective strength but that higher individuality which is conditioned by more than personal and local affinities. Just as the loyal individual subordinates private interests to national advantage, so will he learn that as an integral part of a greater unity he is leading the nations of the world along the only path that leads to recognition of their own interdependence, and a still larger ideal of world citizenship.

PAPER CLIPPINGS LURED INVESTORS. Radio-Wireless Promoters Represented British Government in Making Contracts.

NEW YORK, Dec. 12.—(Can. Press.) Stockholders of the Radio Wireless Telephone Company received in 1909 dividend notices with newspaper clippings attached setting forth that the British Government was under contract to equip all its naval vessels with the wireless telephone, according to evidence introduced by the federal authorities today in the trial of Leo Deforest, James Dunlop Smith, Elmer J. Burlington and Samuel W. Darby. These four officers of the Radio Company and subsidiaries are charged with having made fraudulent use of the mail to promote the sale of stock.

Dr. J. M. Beattie, the city bacteriologist, has recently issued a report testifying to surprising results. He asserts that the electrical method of sterilization is much superior and more economical than the older method. It resulted invariably in the complete destruction of all obnoxious bacilli, and in an enormous reduction of bacteria of all kinds. We have this proof, Dr. Beattie says, that the organisms which are chiefly responsible for children's diseases are killed and that milk sterilized by this process is rendered eminently fit for infantile use. Moreover, the keeping qualities of the milk were very greatly improved. It thus appears that with the gradual opening up of the wonderful qualities of electricity the installation of a government system will prove infinitely more of public benefit than was originally surmised.

CANADIAN INSTITUTE. The members of the Canadian Institute will hold their usual meeting at the library, 198 College street, this evening at 8 o'clock. W. G. To Cure Catarrhal Deafness and Head Noises. Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated by an internal medicine that in many cases has effected a complete cure. Sufferers who could scarcely hear a watch tick when held near the ear, restored to normal hearing, and the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know someone who is troubled with head noises or catarrhal deafness, and hand it to them, and you will have been the means of saving them from suffering perhaps from total deafness. The prescription can be obtained at home and is made as follows:

Secure from your druggist 1 oz. Parmitin (Double Strength), about 75c worth. Take his home, and add to it 1-4 pint of hot water and 1 oz. of moist granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucous droppings from the nose, and other symptoms that show the presence of catarrhal poison, and which quickly overcome by this efficacious treatment. Nearly nine per cent. of all ear troubles are directly caused by catarrh; therefore, there are restored by this simple hearing cannot be regained in any form, should give this prescription a trial. There is nothing better.

Secure from your druggist Parmitin at once, if you want to cure your deafness; your druggist has it, or he can get it for you; if not, send 75c to the International Laboratory, 74 St. Antoine street, Montreal, P. Q., to make a specialty of it.

Andy Kyle to Get Try Out at Ottawa

OTTAWA, Dec. 12.—(Special).—There is no chance of the Ottawa Hockey Club considering the offer made by George Kennedy to trade "Newy" Lalonde for Skeene Ronan and Jack Darragh. The locals do not consider Lalonde worth as much to them as either one of the two players alone. However, they made a counter proposition to the Canadian manager to let Ronan go in exchange for Donald Smith, while they also offered to trade Jack Darragh to the Wanderers of Hyland.

Bike Riders Six Miles Over Record

NEW YORK, Dec. 12.—Ten teams had covered 224 miles 4 laps at 11 o'clock tonight at the end of the 11th hour of the six-day bicycle race at Madison Square Garden. This was six miles and nine laps ahead of the record. Three other teams were a lap behind the leaders, and the fourteenth remaining pair, more than 13 miles to the rear.

TINKER WAS SOLD TO BROOKLYN SUPERBAS

Herzog, the Giants' Star Third Baseman Goes to the Reds.

NEW YORK, Dec. 12.—Three of the most important baseball trades made in the National League in recent years were consummated here tonight involving more than half the clubs of the league. Chief among the deals is the disposal of Joe Tinker, recently deposed as Cincinnati's manager. Tinker was bought by Brooklyn for \$25,000. If he agrees to play with the team he purchased him he will receive \$10,000 of the sum, the rest of the money going to the Cincinnati Club.

MILLARD KNOCKS OUT "ONE ROUND" DAVIS

BUFFALO, Dec. 12.—Jess Willard of Kansas knocked out George (One Round) Davis of Buffalo in the second round tonight. A record-breaking crowd witnessed the bout, which was to have been a ten round affair.

WRESTLED NO FALL

The wrestling competitions were keenly contested last night at the West End Y.M.C.A. before many spectators. Eight bouts were decided, all by falls, under the limit of six minutes, except one, at 145 lbs., which H. Kakee won by one minute's decision without a fall.

MAHER'S HORSE EXCHANGE

16 to 28 Bayden

Canada's Leading Horse Market

AUCTION SALES

MONDAY, Dec. 15th. 10:00 a.m. THURSDAY, Dec. 18th. 10:00 a.m.

Buy those horses you need now!

You will find that this is the time you have been waiting for. Prices of horses of all classes are arriving in our stables daily, and prices are much lower now than they have been for the last year. You cannot gain anything by delay, so act at once! With the new year prices will rise in the horse market, so come early and avoid the rush.

For this big sale on Monday next we shall have a large number of consignments of first class horses, in addition to the usual city horses consigned for unreserved sale. Our rigid guarantee fully protects you and makes mistakes impossible. We have the stock; we are in the business to sell, and WE WILL SELL. Come and look over our offerings.

Special for Monday—A Bay Driving Mare (Registered)
"MELLY BROWN" by Tarentum, dam Cass—A sound, registered driving mare, is to be sold at public auction on Monday next by order of the court to pay accrued expenses. She would make a first-class driver or light delivery mare, and is to be sold without reserve to the highest bidder.

THURSDAY, DECEMBER 18th,

Fresh shipments of horses will be on hand for this sale, and our stock, therefore, will be the very best in the market. A number of curiously marked city horses and others will also be at auction, and, in addition, we will offer a number of horse blankets and fur robes of the best quality and at the lowest prices.

EVERY GOOD FELLOW DECIDES JUST HOW MUCH HE CAN AFFORD

A Merry Christmas for a Little Child is the Best Investment for Your Spare Money—Hundreds of Cases Exist Where Help is Needed.

The World Good Fellow is still in need of a large number of names of people who are willing to take care of a child or family this festive season. Several very distressing cases have been brought to notice during the past few days, and unless something happens very quickly it is feared that several children will go without a visit from Santa Claus. One case which was investigated by the Good Fellow personally is of a young woman who has been left with three young children to provide for. This she does by taking in boarders. Her income is \$7.50 a week, on which she has to keep her little ones and feed the two boarders. The husband left her in February, and she has not received any support from him since, nor does she know where he is. She was fortunately placed before her husband deserted her, and was paying off her little house, on which there is \$500 paid. An instalment is due, and she cannot find the money to pay it, neither can she sell the property, as it is in her husband's name. The taxes are still unpaid. There will therefore be but little chance of a "Merry Christmas" for these three little tots unless a "Good Fellow" steps in.

PUMPS VIM INTO THE ENTIRE SYSTEM

If you feel tired and stupid, with no ambition to get out and hustle, if you have spells of despondency and a desire to give up the fight, you need new energy. The race is to the strong. Show me a failure, and I'll show you a weakling, lacking in courage, strength and ambition. Three essentials to the make-up of a successful man.

I can take a man like that and pump new energy into his body while he sleeps and in a few weeks' time transform him into a giant in strength and courage.

It is proven that energy and electricity are one and the same thing. If you want this energy, you can get it only by filling your nerves with electricity. Dr. McLaughlin's Electric Belt does this. Wear it while you sleep. Feel the invigorating stream of electric life in your nerves, its vitalizing effect in your blood. You wake up in the morning full of new life, new energy, and courage enough to tackle anything.

My Belt sends a steady current of electricity into the nerves and blood, building up vitality and strength, and removing the cause of illness. No man can take in too much electricity.

You can have no rheumatism, no weakness, no inactive parts, for the life generated by this appliance gives health and strength to every organ.

Dr. McLaughlin—
Dear Sir—I am pleased with your treatment. I feel like a new man. I have gained over twenty pounds. I would not be without it for any money. DAVID CRAWFORD, Oso Station, Ont.

I GIVE IT FREE
Get my 89-page book describing my Electric Belt, and with illustrations of fully developed men and women, showing how it is applied. This book tells in plain language many things you want to know and gives a lot of good, wholesome advice for men.

WANDERERS' HILL CLIMB
The Wanderers' Motorcycle Club will hold their annual hill climb this afternoon, on the Riverdale toboggan slides. The course has been roped off to prevent accidents, as a large crowd of spectators will be on hand to witness the daring stunts of the two-wheelers. The program will consist of both fast and slow climbs, for four horse-power and seven horse-power machines. As the slides now have a good hard surface, some records will be broken. The first event will take place at two o'clock.

Unique Ring Career Of Georges Carpentier

George Carpentier, who whipped Bombarde Wells for the heavyweight championship of Europe before the National Sporting Club in London, Eng., in the first round on Monday night, has a claim to distinction of a freak nature. He is the only boxer on record who competed in every class of pugilism. Carpentier started his ring career as a bantam, but grew so rapidly that he was obliged to abandon the various divisions almost as soon as he entered them. As a bantamweight, featherweight, lightweight and welterweight, he acquired those titles in France, where practically all of his work was done. As the middleweight ranks, then the titleholder in England, at Monte Carlo in two rounds. Previous to his meeting on Monday with Wells, Carpentier knocked the Englishman out in four rounds, but the Frenchman's victory was said to be in the nature of a fluke. Carpentier's latest feat proved it wasn't, however, and establishes him the undisputed heavyweight champion of Europe and crowns a career as strange to the average ring follower as it is satisfying to Georges. There have been many boxers who were forced to abandon one or two classes, but not when anybody save Carpentier competed legitimately in every division from bantam to heavy. Carpentier's only defeat was at the hands of the light middleweight Billy Paake.

LOEW'S THEATRE OPENS MONDAY

New Vaudeville and Motion Picture House Ready for Business.

By 12 o'clock tonight every workman will have finished his duties at Loew's Yonge street theatre, and this magnificent new playhouse will be ready for its grand opening on Monday evening. On Monday night Mr. Loew and a party of friends, all of whom are prominent in New York theatrical circles, will arrive in a special car. The opening of this theatre promises to be one of the greatest events in the theatrical history of Toronto. Its policy will be an innovation from the entrance to the exits, and it will certainly prove a great boon to those who prefer and enjoy bright, clean entertainment. It is the hope of the management that it will become the greatest family resort in the city. It is a place where a whole household can visit without incurring much expense, and it is quite likely that after the first visit, everyone will become a regular patron of this, one of the most luxurious and comfortable theatres in America. The management desire to inform all drivers of vehicles that the most convenient way for them to reach the theatre will be from the south, and at the close of the performance the audience will exit on Victoria street. The public is also requested to take notice that owing to the length of the program the performance will start promptly at 8 o'clock.

"The Glad Eye." which is to come to Toronto next week, played by the All-British Company sent out specially by Louis Meyer, direct from its fifteen months success at the Strand Theatre, London, has had a number of experiences, and one in particular, in connection with a special "flying" matinee in England. This was arranged for the Theatre Royal, Birmingham, and a few days before the date of the performance the whole of the railway service through Britain was suspended on account of a big coal strike. Mr. Meyer chartered, therefore, a fleet of motor cars, and on April 1, the company assembled in the early morning at the stage door of the Strand Theatre, and proceeded to the railway station, where accidents as tire-bursts, or breakdowns would not spoil matters. To accomplish the journey in time for the performance, the speed limit had to be ignored, and the Auto Society placed scouts all along the road to keep the enterprise free from snags and police traps. Birmingham was reached half an hour before the rise of the curtain. The performance over,

the company left about 5 o'clock, and reached London just in time for the evening performance at the Strand. A record time in the realm of theatrical enterprise. The play has had its Canadian premiere at Montreal, and was splendidly received on two counts, by the press, who described it as a perfectly joyous farce, splendidly played, and by the public, which packed the house the whole week.

George Arliss in Disraeli. On Monday night at the Princess, George Arliss, the English actor, will begin his second engagement in Toronto as Benjamin Disraeli, Earl of Beaconsfield, in Louis N. Parker's masterpiece, "Disraeli." The engagement will continue through the week. Mr. Arliss will be supported here by the same superb company that appeared with him during his brilliant engagement here last season. Mr. Parker has set his play at a very interesting period of English history. The big theme is the purchase of the Suez Canal. Disraeli knew that it was most important that his country should control this gateway to Great Britain's possessions in the far east. There was opposition without opposition within, and foreign spies dogged the great prime minister. By a masterstroke of diplomacy he accomplished his end, and added to Queen Victoria's title that of Empress of India. Mr. Parker has written "Disraeli" in four acts, for which the Lieber Company has provided most sumptuous settings.

Stratford-Upon-Avon Players. Few actresses coming for the first time to a city without advance heralding have made a more complete conquest of the play-going public than did Miss Dorothy Green, leading woman of the Stratford-Upon-Avon Players, when she appeared here with that organization in October. The return of that fine organization to the Princess Theatre on January 5, has already been announced, and those who were charmed with Miss Green's Beatrice, and also with her Juliet will be glad to know that during the week she will be seen as Viola in "Twelfth Night," and as Mistress Ford in "The Merry Wives of Windsor." She will also be seen once more as Juliet, and many lovers of the drama who were unable to see this beautiful performance because it was done at a Wednesday matinee will have an opportunity of attending it; since "Romeo and Juliet" is announced for the second evening of the week's engagement. The Miss Dorothy Green is famous through England thru her association with Mr. F. R. Benson and

the Shakespearean Memorial Theatre at Stratford-upon-Avon, she is no stranger to modern roles, and has been leading woman to both Sir George Alexander and Mr. H. B. Irving in their London productions.

Noted Canadian Actress Coming. Among the few cities outside of the metropolitan centres of the east embraced in Margaret Anglin's present tour is Toronto. At the termination of her present road tour, Miss Anglin will begin an extended engagement in Boston, after which she will play the remainder of the season in New York. Miss Anglin's engagement here will afford local playgoers the opportunity of seeing her in the most delightful plays in her Shakespearean repertory. Her company is large and the scenic equipment elaborate in every detail.

"Milestone" To Return. So great has been the demand for the return of "Milestone" the famous comedy drama of Arnold Bennett and Edward Knoblauch, which made such a sensation here last season, that Klav and Erlanger, and Joseph Brooks have arranged for a return visit of the delightful play in the near future, although there are many other cities that have not yet seen this most successful production of a generation. The present tour will include every big city of the United States and Canada and it seemed at first impossible to play any return engagement, but so great was the pressure brought to bear upon the managers by those who wanted to enjoy this sweetest of all dramas again, as well as those who were unable to see it last season, that the tour was completely rearranged in order to provide for another visit here. The exact date will be announced soon. "Milestone" will be presented with a distinguished company of London actors, including several of the brilliant men and women seen here last season as well as others who interpreted the very difficult roles all last year in the company playing at the Liberty Theatre, New York City.

"The Inner Shrine." founded on the novel of the same name, by the author of "The Wind in the Willows" and "Home," will be the offering at the Grand next week. "The Inner Shrine," as a book, has proved one of the best sellers of a decade, and as a play, it is showing itself the equal of any that has had a novel for its inspiration. The story is one of unusual strength and teaches a severe moral lesson to the type of man who handles about a woman's name. It is a story of an unrequited love, not the wistful, washy kind, but love born of tragedy and great sorrow. A remarkable cast has been engaged to interpret the story. The winsome Justina Wayne has been especially engaged to create

the part of Mrs. Diane Eveleth. Albert Andrus, well remembered for his work in the original company of "Seven Days," and "The Way We Live Now," Jeanette Cass, formerly of "The Bird of Paradise" Company; William Phillips, formerly leading man with Blanche Bates; Hazel Harroun, formerly with Mrs. Pliske; Frederick Bond, Jr., late of "The Fortune Hunter"; Zola Teague, the celebrated Mexican Beauty; Roy Hollinghead, who made a hit in "The Pink Lady"; Cecile Yeomans, formerly with "The Family"; Edwin Dudley, of "When Bunt Pulls the Strings" Company; Millie Butterfield, of the Drury Lane Theatre; London; Arthur Newberry, of the "The Olive"; and Miss Edna Carter, of the Frohman forces; Valdo Sanderson, of "Peg O' my Heart"; Maurice Kummerer, of the Brady and Shubert forces.

The Redheads. Manager Shea offers at Shea's Theatre next week James L. Lasky's latest production, a vividly-colored musical comedy called "The Redheads," in which James B. Carson is featured. The Redheads is a musical spectacle, and Mr. Carson is assisted by a company of 20 girls, who sing and dance and add to the general attractiveness of the offering. This is the first of "The Redheads" has been seen outside of New York. The special extra attraction for the week is the Melick Sisters, four young women gymnasts. These girls perform a routine of gymnastic and contortion feats which are always exciting and at times sensational. An added charm is given to their performance by their grace and beauty. The Melick Sisters have one of the best acts of the sort that has been sent from Europe in many seasons. A pleasing feature of the week's bill is McDevitt, Kelly & Lucey "The Piano Movers and the Actresses." The actress, Miss Lucey, finds the rough piano movers are musicians and dancers and a merry and entertaining act is evolved by the three. Leon Kemberly and Halsey Mohr present their original singing novelty, "Clubland," a story in rhyme and song. The advisability of the marriage knot is the theme of "Clubland," the scene is set in the interior of a club house, and the characters are the Bachelor and the Benedict. The scene is set in the interior of a club house, and the characters are the Bachelor and the Benedict. The scene is set in the interior of a club house, and the characters are the Bachelor and the Benedict.

Queens of Paris. Messrs. Jacobs & Jermon have spared no expense to the "Queens of Paris," headed by Koler, Hall and Morton, who are to appear at the Massey Theatre next week. One of the best burlesque shows on the road. The play is a two-act frolic of mirth and music, entitled "We're Us and Co. At Home," which was produced under the personal direction of Mr. John G. Jermon, whose ability to do things and do them right, has never been questioned by patrons of burlesque. Mr. Jermon has for many years been looked upon by the Columbia Amusement Company as one of their best producing managers.

Healey Willan's Lecture. The eighth of a series of special analytical lectures which are being given fortnightly by Healey Willan in the concert hall of the Toronto Conservatory of Music, will be delivered on Wednesday morning next, Dec. 17, at 11 o'clock the subject being "Chopin, as Harmonist." In order to adequately illustrate this lecture a number of the preludes will be drawn upon by Mr. Willan. It being felt that in this particular form of composition Chopin's marvelous genius as a harmonist was convincingly demonstrated. It is the prelude, Nos. 1, 2, 3, 4, 5, 6, 7, 8, 14, 15, 22, and 23, the grandioso in A flat, Op. 62, will be played by the Vico Kral of the conservatory, who will be assisted by Mr. Willan in this important lecture.

National Chorus Subscription Sale. Assurance of a crowded house at the annual concert in Massey Hall on Tuesday evening, Jan. 20, are given by the reports of subscriptions being turned in by the members of the National Chorus of Toronto. These lists close on Monday evening, the 22nd inst., and those who have not as yet arranged or locations are advised to do so at once. This year's concert promises to be the best in the history of the chorus, as, in addition to the

show closes with a new and exclusive picture on the cinematograph. Musical Director Augustus Naumann has prepared a special musical program, to be played by Shea's Theatre orchestra before each performance this week.

"Eva Mull and Her Big Beauty Show." Next week's attraction at the Star will be the best show of the season, Dainty "Eva Mull and Her Big Beauty Show," with a cast of well known players, presenting a two-act musical satire, entitled "The Littlest Leading Lady," which was written by George Tuten Smith, the author of many successful musical comedies. There are many bright lines through the two acts that give the clever players exceptional opportunities to display their abilities. Heading the clever company is Dainty Eva Mull, considered the cleverest little comedienne in burlesque; Anna Yale, a prima donna with an exceptional voice; the funny character comedienne, and Fred Russell, the funny actor, who has many new and funny stories.

Toronto Symphony Orchestra. The Toronto Symphony Orchestra has just returned from St. Catharines, where its most successful concert was given on Thursday evening in conjunction with the Philharmonic Society. The next event will be the popular concert next Monday evening at Massey Hall, at which Miss Hicks-Lynn will be the soloist. The popular nature of the program is indicated by the orchestra's work, which will be performed, including the overture to the "Barber of Seville," an unusual combination of English horn, clarinet and flute in "Humoresque." The group of songs by Miss Hicks-Lynn will include "Leaves and the Wind" (Leon); "The Joccund Dance" (Leo Satter), and "The Cry of Rachel" (Salter). Seats are now selling at the box office, Massey Hall.

Fionzaly Quartet. The announcement that the world-famous Fionzaly Quartet will give a recital of chamber music in Foresters' Hall on Saturday, Jan. 10, is one that is of interest to all local music-lovers. No string quartet has achieved as high a reputation as the Fionzaly Quartet, as Philip Hale's criticism of the concert in Boston on Dec. 5 would emphasize. "It would be almost impossible to dilate on the characteristics of the Fionzaly performance, which is now a matter of international history, as reported in the Boston Herald. I would almost beyond measure for their precision, unanimity, exquisite balance, poetic spirit and wondrous euphony in every European capital, let them not forget that they have warmer admirers than in Boston, where they have won favor by their superb art."

National Opera Company. The National Opera Company of Canada, which comes to Toronto in a few weeks, under the local management of L. S. Soman, is a new organization, which promises to rival, if not to excel, the best of the Boston Opera Company and the Chicago-Philadelphia Opera Company. The home of the company will be at Montreal, where a season of eight weeks is now being given. The entire season will last twenty-six weeks. A few weeks will be filled with engage-

ments in smaller cities, and for the rest of the season Mr. Rabinoff, the managing director, will take the company through certain parts of the United States. It is said that by arrangement with the Chicago and Metropolitan directors, Mr. Rabinoff will have some of the principals of these two houses as guest-artists of the Canadian company. At the end of the operatic season in Montreal Mr. Rabinoff will have a short series of symphony concerts, with high-class instrumental soloists. The repertoire announced for the season contains "Carmen," "Heraclides," "Thalia," "Louise," "La Navarraise," and "Samson and Delilah." Manager Rabinoff has appointed Mario Lombardi as regisseur generale.

Omar, the Tentmaker. A big production of a big play is one description given "Omar, the Tentmaker." Richard Walton Tully's Persian play, which comes to the Royal Alexandra Theatre the week of Dec. 22. Based on the life, times and history of Omar Khayyam, it is said to give a most interesting picture of that most interesting man.

William Faversham's New Production. Mr. Faversham is conducting in New York the final rehearsal of his new production of "Romeo and Juliet" and "The Merry Wives of Windsor," which will be presented by Mr. Faversham's forthcoming engagement of two weeks at the Royal Alexandra Theatre beginning Monday evening, Dec. 23. The all-star cast which Mr. Faversham has assembled is a most distinguished one, including besides Mr. Faversham, Miss Cecelia Loftus, Miss Julie Opp, Miss Odette Tyler, R. D. MacLean, Pedro De Cordoba, and a company of more than one hundred. During Mr. Faversham's engagement "Julius Caesar" will also be presented a few times in response to the hundreds of requests that have come to Mr. Faversham for further representations of the Caesarian drama, from persons who were unable to procure seats during Mr. Faversham's engagement here last season.

Mail orders are now being received at the Royal Alexandra Theatre for all performances, and special attention is called to the fact that the regular box office sale of seats will open on Monday morning, Dec. 23, three days earlier than customary.

The repertoire for the first week is as follows: Monday and Tuesday evenings, "Romeo and Juliet"; Wednesday evening, "Othello"; Thursday matinee, "Romeo and Juliet"; Thursday evening, "Othello"; Friday evening and Saturday matinee, "Julius Caesar"; Saturday evening, "Othello."

Queen Quality SHOES

What Customers Say:

"I LIKE Queen Quality shoes because they feel as comfortable as old shoes at the first step. They are so flexible that there is no 'breaking-in' process."

"Queen Quality shoes are always correct in style."

"They don't get baggy as other shoes do—they always hold their shape."

Women appreciate these features. It is evidenced by the constantly growing demand for Queen Quality shoes.

The new Fall and Winter styles are now displayed. May we show them to you?

My Old Kentucky Home. Musical notation and lyrics for the song.

400 Songs selected by 20,000 People all over the World Four Years to Complete the Collection 500 Pages of World-Wide Music

Imagine an old Kentucky blue grass plantation "befo de wah!" The month is June—queen of all the months. The grass is at its greenest—long, lush and wavy—caressed into ripples now and then by some wandering zephyr. "The meadow's in the bloom"—and the flowers are yielding their sweetest perfume.

The mocking bird is trilling his marvelous notes—bubbling over with ecstasy. His rivals and neighbors are stirred into song likewise—and the scene, indeed, is a place "where music dwells Linger and wandering on as leth to die."

The gently sighing trees, the rustling corn, the brook winding in and out, through grass, leaf and flower—and over all, the marvelous blue depths of a southern sky—ah! what a scene for a painter, a poet or a musician.

NOW, imagine the best type of the old, slave-time plantation negro, forced by the failing fortunes of his master to be sold into a distant land. Parted from his Black Dinah and their little, shining pickaninnies—and carried to the cane-fields of Louisiana—so unlike his old home—we can picture his loneliness—his desolation—his intense longing, as "the days go by like a shadow o'er the heart"—till the grave seems near and welcome; only a "few more days for to tote the weary load."

Foster expresses all this in his "Old Kentucky Home." The ineffable sadness of the music—the heartbreak in the words—the divine inspiration of both—that only comes to genius—have made this song one of the genuine treasures of American music.

PRESS COMMENTS ON THE C. P. MELON

Montreal Mail: Conclusions unfavorable to Sir Thomas Shaugnessy and his board of directors are inevitable. They are making a profit for shareholders, at the expense of the public, out of land assets which were a gift from the Canadian people. By

incurring unnecessarily large interest charges on the notes issued against these land assets, the company will be forced from its point of view to maintain the cost of transportation at a high level so that profits from railroad operations will be large enough to make up the money spent in "bonuses" to stockholders. By "divine right" or what-not, C.P.R. stockholders consider themselves entitled to regular dividends

of 10 per cent. a year. Not content with charging the public for service just enough to maintain that high dividend rate, the company is juggling with its assets so that it can indirectly "milk" the public by capitalization of extraneous assets, and still earn ten per cent. and more on its capital stock per cent. and more on its capital stock after all charges, the balance of earnings available for the common stock

was within a fraction of 20 per cent. Now the company appears to be getting about to conceal some of its profits from general notice, presumably with the intention of keeping earnings on its stock just as high as ever. How long will the public be content with present charges for transportation, facilities so that stockholders of the C.P.R. may periodically divide a "melon."

SCHMIDT'S CONFESSION RELATED BY INSPECTOR

"I Killed Her Because I Loved Her," Words of Priest.

NEW YORK, Dec. 12.—(Can. Press.)—Hans Schmidt's confession of the murder of Anna Amundson, the body of which was found in the Hudson river, was read today to the records of his trial by Police Inspector Faurot in command of the detective bureau. It was Faurot who arrested Schmidt, and to him the one-time witness told the story of his crime.

Leaving the witness chair Faurot stepped before the jury box and in dramatic gesture and word, re-enacted the scene of the confession. From his seat in the prisoner's box Schmidt viewed the unusual proceedings with unchanged solidity of expression.

"I slapped Schmidt on the back when I first saw him," said the inspector, "and said, 'Come now, tell us the whole truth about this.' Schmidt sank into a chair, buried his face in his hands and began to cry. Presently he said: 'I killed her because I loved her.'"

"Before we left, Schmidt tried to embrace Father Quinn, but Father Quinn avoided him. Father Quinn asked: 'Are you a regularly ordained priest?' and Schmidt replied: 'I was ordained by St. Elizabeth's.'"

FEWER FROM U.S. BUT BETTER CLASS

Immigrant Returns in West More Satisfactory Than Appears on Surface.

BUILDING DEPRESSED

Smaller Influx of Skilled Mechanics is Blessing in Disguise.

(Special to The Toronto World.) WINNIPEG, Dec. 12.—A highly satisfactory state of affairs is to be observed in the report of the department of immigration of immigrants coming to Canada from the United States, according to the statement of J. Bruce Walker, commissioner of immigration, today. Fewer are coming, but they are bringing more with them in the way of wealth to the country.

"Immigration from the United States," said Mr. Walker, "through western boundary points shows a considerable decrease for the months of October and November, so far as the number of immigrants is concerned, but a most gratifying increase in the wealth of settlers in stock, effects, and the number of carloads of goods which they have with them."

"For instance, the actual number of immigrants thru western boundary points for October is 2040 less when compared with the number for the corresponding period last year. The increase, however, during that period of the wealth of the new settlers, as compared with the former periods is in cash \$388,000 and in effects \$156,000, while there was an increase of no less than 94 carloads of effects during that period."

"For the month of November the figures were 1012 less in actual settlers and \$125,000 increase in cash, with \$65,724 in value of effects."

Fewer-Skilled Mechanics. Commenting on these returns Mr. Walker said: "The decrease is due entirely to the depression all over in building trades, and illustrates that the stream of skilled mechanics and skilled laborers of all kinds and others engaged in the building trades has fallen off on account of the lesser demand."

"This is a most gratifying state of affairs and if we are going to have a decrease in any direction we should prefer to have it along the lines of the supply of skilled labor under the present conditions of the labor market."
