Canadian Institute for Historical Microreproductions / Institut canadien de microreproductions historiques

© 1995

Technical and Bibliographic Notes / Notes technique et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- ☐ Coloured covers / Couverture de couleur
- ☐ Covers damaged / Couverture endommagée
- ☐ Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- ☐ Cover title missing / Le titre de couverture manque
- ☐ Coloured maps / Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- ☐ Bound with other material / Relié avec d'autres documents
- ☐ Only edition available / Seule édition disponible
- ☐ Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- ☐ Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages / Pages de couleur
- ☐ Pages damaged / Pages endommagées
- ☐ Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- ☐ Pages detached / Pages détachées
- ☒ Showthrough / Transparence
- ☐ Quality of print varies / Qualité inégale de l'impression
- ☐ Includes supplementary material / Comprend du matériel supplémentaire
- ☐ Pages wholly or partially obscured by errata slips, tissue, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- ☐ Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

10x		14x		18x		22x		26x		30x	
☐	☐	☐	☐	☐	☐	☐	☐	☒	☐	☐	☐
12x		16x		20x		24x		28x		32x	

The copy filmed here has been reproduced thanks to the generosity of:

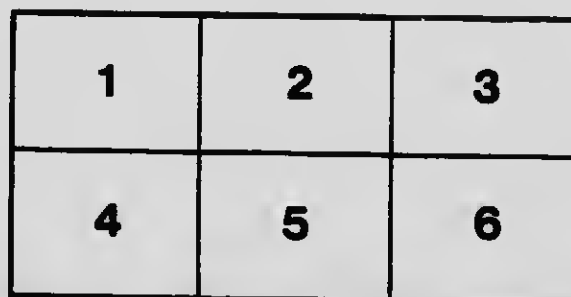

D.B. Weldon Library
University of Western Ontario

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\Rightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

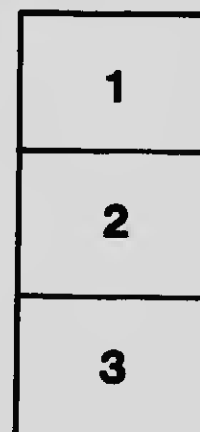

D.B. Weldon Library
University of Western Ontario

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

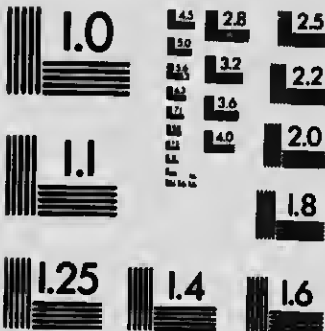

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\Rightarrow$ signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

WESTERN UNIVERSITY

Special Bulletin No. 1

A Bibliography of Publications of the Faculty to 1917

London, Ontario, May 1918

I.

VOLUMES, and 1929

- 1 W. Sberwaad Fax. *The Mythology of Greece and Rome*, Boston, Marshall Jones, 1916, pp. lxii x 354, with numerous illustrations. (Vol. I. of series, *The Mythology of all Races*).
- 2 W. Sberwaad Fax. *The Johns Hopkins Tabellæ Defixionum (Curse Tablets)*, Baltimore, Johns Hopkins Press, 1912, pp. 68 with six plates.
- 3 Hibbert Winslow Hill. *New Public Health*, New York, MacMillan, 1916, pp. xii x 193.
- 4 Hibbert Winslow Hill. *Microbiology. A text-book of Micro-organism general and applied*, Philadelphia, P. Blackiston and Son, 1912, pp. 700 (in collaboration).
- 5 Hibbert Winslow Hill. *Essentials of Milk Bacteria*, New York, W. R. Jenkins, 1909, pp. 232-292 in Part II. of *The Production and Handling of Clean Milk*, by Kenelm Winslow.
- 6 N. C. James. *Die englische Kirche in ihrer Verhältniss zum Pabst- und Koenigum bis zum Ende des achten Jahrhunderts*, Halle, Inaug. Diss., 1893, pp. 42.
- 7 Artbur Livingston. *The Montessori Elementary Material*, translation and adaptation of Montessori, *Auto-education*, Vol. II., New York, F. A. Stokes, 1917, pp. xix x 465 with numerous illustrations.
- 8 Arthur Livingston. *La vita veneziana nelle opere di Gian Francesco Busenello*, Venezia, Callegari, 1913, pp. 483.
- 9 Arthur Livingston. *I sonetti morali ed amorosi di Gian Francesco Busenello*, Venezia, Fabris, 1911, pp. 144.
- 10 Duncan McArthur. *Canadian Constitutional Documents, 1791-1818* (in collaboration with Arthur T. Doughty, LL.D.), Ottawa, Government Printing Bureau, '910.
- 11 Duncan McArthur. *Political, Financial and Constitutional History of Canada, 1759-1841* (as contributing editor of *Canada and its Provinces*), Toronto, Publishers Association, 1911.
- 12 Duncan McArthur. *A Canadian Impeachment*, Queen's University Studies in History and Political Science, Kingston, 1907.
- 13 F. R. Miller. *Visceral Sensibility and especially that of the Stomach*, Munich, Inaug. Diss., 1911, pp. 8.
- 14 K. P. R. Neville. *The Case Construction after Comparatives in Latin*, New York, Longmans, Green and Co., 1901, pp. lii. x 87.
- 15 W. F. Tambllyn. *The Establishment of Roman Power in Britain*, Hamilton, Ontario, McPherson and Drope, 1899, pp. 106.
- 16 Charles Cameron Waller. *The Date of the Epistle to the Galatians*, London, Marshall Bros., 1910, pp. viii. x 103.
- 17 Charles Cameron Waller. *Canada Land for Me, A Song*, Toronto, Nordheimer, 1911.
- 18 Lauls A. Waad. *The Form and Origin of Milton's Antitrinitarian Conception*, London, Ontario, 1911, pp. 96.
- 19 Lauls A. Waad. *The War Chief of the Six Nation*, Glasgow, Brook and Co., 1914, pp. 147, in *Chronicles of Canada* series, third edition, 1916.
- 20 Lauls A. Wood. *The Red River Colony*, Glasgow, Brook and Co., 1915, pp. 152, in *Chronicles of Canada* series; third edition, 1916.

II.

ARTICLES, REVIEWS, PAMPHLETS, EDITORIALS, REPORTS, ETC.

ERNEST FRANKLIN BARKER, Ph.D., *Professor of Physics.*

Instructor in Mathematics and Assistant in Physics, University of Rochester, 1910-1912; Assistant in Mathematics, University of Michigan, 1912-3; Fellow in Physics, University of Michigan, 1913-4; Assistant in Physics, University of Michigan, 1914-5; Instructor in Physics, University of Michigan, summers 1915 and 1917.

- 1 Selective Radiation from Osmium Filaments, *Physical Review*, New series, viii., 1916, pp. 451-471.

EDWARD ERNEST BRAITHWAITE, B.D., Ph.D., *President of the University.*

Fellow in Semitic Languages, University of Chicago, 1896-7; Chairman of the Congregational Union of Nova Scotia and New Brunswick, 1899-1900; Acting Professor of Semitic Languages and Literature, Oberlin, 1900-12; Fellow in Semitic Languages, Harvard, 1902-3; Pastor of the West Somerville Congregational Church, Somerville, Mass., 1903-08; and of the Northern Congregational Church, Toronto, 1908-11; Dean of the University of Calgary, 1912-13; President of Western University, 1914.

- 2 Why did Amos predict the Captivity? *Bibliotheca Sacra*, 1902 (lxxii.), pp. 192-197.
- 3 Is the Book of Amos Post-exilic? *Bibliotheca Sacra*, 1902 (lxxii.), pp. 366-374.
- 4 The Semitic Museum of Harvard University, *Records of the Past*, Washington, 1905, pp. 243-251, six illustrations.
- 5 Some Principles for Scripture Interpretation, *The Biblical World*, 1912, Vol. XL., No. 2, August, pp. 118-129.
- 5a The Tercentenary of the Authorized Version, *The Westminster*, Feb., 1911.
- 6 Higher Education in Western Canada, *The Westminster*, December, 1911, pp. 433-442, 9 illustrations.
- 7 Travelogues, *The Westminster*, 1912-1913, illustrated:
 - a Venice, 1912, pp. 137-144.
 - b Florence, 1912, pp. 9-16.
 - c A day in Algiers, 1911, pp. 41-46.
 - d Naples and Thereabouts, 1911, 247-256.
 - e A Call at the Azores, 1911, pp. 94-98.
- 8 Journalistic contributions:
 - a The World's Sunday Schools at Rome, *The Congregationalist and Christian World*, June, 1907, pp. 794.
 - b The University of Calgary, *The Albertan*, Feb. 28, 1913.
 - c The Fourth Ecumenical Methodist Conference, *The Canadian Congregationalist*, Nov. 23, 1911.
 - d New Canadian Colleges, *Boston Transcript*, Dec. 6, 1911.
 - e Calgary's Educational Work, *Monitor*, Boston, April 15, 1913.
 - f New Universities and Colleges of the West, *Globe*, Toronto, Jan. 27, 1912.
 - g Universities in Western Canada, *Canada* (London, England), July 6, 1912.
 - h Reports, *Congregationalist and Christian World*, 1911.

D. A. CRAIG, M.D.,

Lecturer on Diseases of the Chest.

Sometime Superintendent of the Alexandra Sanatorium; Consultant on Diseases of the Chest. Medical Department, District No. 1.

- 9 The Notification of Phthisis, *The American Practitioner*, July, 1912, and *The Canadian Public Health Journal*, *ibid.*
- 10 Tuberculosis Problems from a Public Health Standpoint, *Canadian Public Health Journal*, 1913.
- 11 The Cutaneous Tuberculin Test, *Journal of the American Medical Association*, Chicago, 1916.

W. SHERWOOD FOX, Ph.D.,

Professor of Classics.

Professor of Greek, Brandon College, 1900-1909, Fellow by Courtesy, Johns Hopkins University, 1909-1910; University Fellow in Classical Archaeology, Johns Hopkins University, 1910-1911; Assistant Professor of Classics, Princeton University, 1911-1917.

- 12 Submerged *Tabellæ Defixionum*, *American Journal of Philology*, 1912, pp. 301 ff.
- 13 Two Curse-tablets (Greek) in the Royal Ontario Museum, Toronto, *American Journal of Philology*, 1913, pp. 74 ff.
- 14 Mummy labels (Greek) in the Royal Ontario Museum, Toronto, *American Journal of Philology*, 1913, pp. 437 ff.
- 15 Mummy-labels in the Royal Ontario Museum, Toronto, (second paper), *American Journal of Philology*, 1914, pp. 463 ff.
- 16 Horace, *Odes*, I. 27, 21-24, *Classical Philology*, 1913, pp. 226 ff.
- 17 Juvenal, X, 188-89, *Classical Philology*, 1914, pp. 193 ff.
- 18 Old Testament Parallels to *Tabellæ Defixionum*, *The American Journal of Semitic Languages and Literatures*, 1914, pp. 111 ff.
- 19 A Problem of *Cultus* and Agriculture, *Proceedings of the American Philological Association*, 1915, pp. xvi ff.
- 20 An Infernal Postal Service, *Art and Archaeology*, 1915, pp. 295 ff.
- 21 Hellenistic Tapestries in America, *Art and Archaeology*, 1917, pp. 161 ff.
- 22 Editorial, *The Classical Journal*, March, 1917.
- 23 Review of C. H. Moore, "The Religious Thought of the Greeks," *The Classical Weekly*, X (1917), 27, 214.
- 24 Greek Inscriptions in the Royal Ontario Museum III., *American Journal of Philology*, 1917, 3.
- 25 Editorial, *The Classical Journal*, November, 1917.
- 26 Greek Inscriptions in the Royal Ontario Museum IV., *American Journal of Philology*, 1917, 4.
- 27 Nature and Nature Gods (Roman), *Hasting's Encyclopedia of Religion and Ethics*, Vol. IX.

HIBBERT WINSLOW HILL, M.B., M.D., D.P.H.,

Director of Institute of Public Health.

Graduate in Medicine with Honors and George Brown Post-Graduate Scholarship, from Toronto University, Medical Department, 1893. Demonstrator of Pathology and Bacteriology (Toronto University Medical Faculty) and in charge of Clinical Laboratory (Toronto General Hospital), 1894-95; post-graduate in Bacteriology, Johns Hopkins Hospital, 1895; first assistant in Bacteriology, Louisville Filtration Experiments; acting first assistant, Philadelphia Board of Health, 1898; Biologist, then director and finally Chief of Bureau, Brooklyn Health Department, 1896-98; Director Boston Board of Health Laboratory, 1898-1905; and Instructor in Bacteriology, Harvard Medical School; assistant Director Minnesota State Board of Health Laboratories, and assistant Professor of Bacteriology, University of Minnesota, 1905-08; Epidemiologist, and Director of Division of Epidemiology, 1908-12; Director of Institute of Public Health, London, Ont.; Professor of Public Health and Chief of Division of Epidemiology, Vital Statistics and Sanitary Engineering, 1912; Examiner in Public Health, Council of Canada, 1913; Executive Secretary of Minnesota Public Health Association, 1914-15 (on leave of absence from London Institute of Public Health); Director of Institute of Public Health, City of London, and Medical Officer of Health, City of London, 1915 (on return from leave of absence); Dean of the Faculty of Public Health, Western University, 1916; D.A.D.M.S. 4c S., and Camp Sanitary Officer on Headquarters Staff of M. D. No. 1, with rank of Captain, 1916. Inve-
n-
tor of Porous Top for Petri dishes; pressure filter for sera, etc.; hanging blocks for micro-
scopic observation of growing bacteria; and many minor technical improvements in apparatus,
media making, etc. Registered by examination, Medical Council of Canada, Winnipeg, 1915,
and in Ontario, Lecturer in Bacteriology, Medical Faculty of Western University, 1905; Direc-
tor Institute of Public Health, Western University, 1912-1914. First Professional Bacteriolo-
gist in Canada; first Official Epidemiologist in the United States; first D. P. H. of Toronto
University, and first Director of first Institute of Public Health in Canada; organizer of the
first Health Department Laboratory in Boston; of the first division of Epidemiology in the
United States and of the first Institute of Public Health in Canada. Member of A.F. & A.M.

- 64 Sources of Errors in Bacterial Diphtheria Diagnosis, *Transactions of the American Public Health Association*, 1902.
- 65 Sterilizing Instruments for Bacteriological Autopsy Work, *Journal of Applied Microscopy*, 1902.
- 66 Strong Sterilizable Dialyzing Membrane, *Journal of the American Chemical Society*, 1905.
- 67 Survival of *B. Typhosus* in Tea and Coffee (read at the Winnipeg Meeting of the American Public Health Association), *American Journal of Public Hygiene*, 1908.
- 68 Teaching Bacteriology to Mothers, *Journal of Home Economic Science*, December, 1910.
- 69 "Hanging Block" Preparations for the Microscopic Observation of Developing Bacteria, *Journal of Medical Research*, March, 1902.
- 70 Reports of the Boston Board of Health Laboratory, 1898:
New Methods devised:
 - 1 Glam rod method for testing disinfectants.
 - 2 Aluminum sheet outfit for Typhoid Blood.
 - 3 Modification of fermentation media.
 - 4 Method and formula for malachite green media; since adopted in substance as standards by the Laboratory Section of the American Public Health Association.Special Investigations:
 - 1 Chemical and bacteriological examination of electrosone, proposed as a municipal disinfectant.
 - 2 Concentration of rabies poison by consecutive inoculations in rabbits.
 - 3 Branching in Diphtheria bacilli.
 - 4 Statistical work on Diagnostics. Examinations relating to diphtheria, typhoid and glanders (continued thereafter from year to year).
- 71 Reports of the Boston Board of Health Laboratory, 1899:
New Methods devised:
 - 1 Artificial milk from nutrose, for bacteriological purposes (with A. A. Wheeler).Special Investigations:
 - 1 Telephone transmitters as sources of infection.
 - 2 Sulphur dioxide as a disinfectant for plague bacilli.
 - 3 Suspected pollution of certain sources of ice supply for Boston.
 - 4 Agglutinin reactions from rabbit's blood after inoculation with *B. typhosus* and *B. coli* (with A. A. Wheeler).
 - 5 A case of suspected Bubonic plague.
 - 6 Handling of tuberculosis in different cities and states.Special Notes:
 - 1 Guinea-pig test for glanders (with Dr. Burr).
 - 2 Preparation of mallein.
- 72 Reports of the Boston Board of Health Laboratory, 1900:
New Methods devised:
 - 1 Rapid staining of large numbers of specimens of sputum.Special Investigations:
 - 1 Further test of sulphur dioxide for killing plague bacilli.
 - 2 Examination of clams from the Charles River for sewage contamination.
 - 3 Examination of oysters and clams from Marion, Mass., supposed sources of Boston typhoid.
 - 4 Examination of blank cartridges for tetanus (lockjaw) bacilli.
 - 5 Examination of calcimine and blackboard paints in school houses for arsenic.

73 Reports of the Boston Board of Health Laboratory, 1901:

New Methods devised:

- 1 Decimal system for recording cultures genealogically.
- 2 "Hanging-blocks" for examining growing bacteria.

Special Investigations:

- 1 Morphology of *B. diphtheriae*; snapping and branching.
- 2 Boston ice supply, natural and artificial, with inspection of all sources.
- 3 Infected clothing in laundries, the risk to workers on laundry and other clothing, and the degree of sterilisation of wools attained in ordinary laundries.
- 4 Cams in Mystic River.
- 5 Survival of typhoid bacilli in cooking shellfish.
- 6 A case of ptomaine poisoning.
- 7 Candy making in Boston.
- 8 Distribution of Westbrook's types of diphtheria bacilli in well persons—2,000 special cultures.

74 Reports of the Boston Board of Health Laboratory, 1902:

New Methods devised:

- 1 Atomisation of formaldehyde with steam as a method of disinfection.

Special Investigations:

- 1 Comparative Morphology of *B. diphtheriae*, *B. xerosis*, *B. pseudo-diphtheriae*, and fifteen other bacteria, with assistance from B. R. Rickards, A. I. Kendall, L. O. Rettger, F. P. Denny.
- 2 Reinvestigation of formaldehyde gas.
- 3 Carbolic acid as a gaseous disinfectant.
- 4 Comparative distribution of *B. diphtheriae* and *B. tuberculosis* in rooms of patients.
- 5 Drying experiments with *B. diphtheriae* and *B. tuberculosis*, etc.
- 6 Distribution of *Anopheles* in Boston.
- 7 Distribution of Westbrook's types of *B. diphtheriae* in routine diagnostic examinations.
- 8 Note on a type of *B. diphtheriae* approximating but differing from the D 2 type.
- 9 Bactericidal power of dust-laying preparation used in the Boston schools.
- 10 Effect of aluminum on agglutination of blood.

75 Reports of the Boston Board of Health Laboratory, 1903:

New Methods devised:

- 1 Machine for steam atomizing of formaldehyde for room disinfection.
- 2 Method of growing anaerobic bacteria.

Special Investigations:

- 1 Comparative value of liquid disinfectants.
- 2 Summer diarrhoea; search for Shiga bacillus with A. I. Kendall and Paul Lewis (Rockefeller research).
- 3 An electrolytic process for disinfection of woollens in laundries.
- 4 Diarrhoea outbreak at the Boston Insane Hospital.

76 Chairman's Address On the Laboratory Section of the American Public Health Association, *Journal of Medical Research*, March, 1902.

77 The Interpretation of Bacteriological Findings in Diphtheria Diagnosis, *Boston Medical and Surgical Journal*, March 7, 1901.

78 Method for Making the Three Principal Artificial Media, *Journal of Applied Microscopy*, 1901.

79 The Mexico City Meeting of the American Public Health Association, Dec. 3-7, 1906, *American Journal of Public Hygiene*, Feb., 1907.

80 Modification of the Fermentation Tube for Bacteriological Work, *Journal of the Boston Society of Medical Science*, Jan., 1899.

81 New Formula for the Permanganate-Formaldehyde Method of Disinfection (read at the Winnipeg Meeting of the Public Health Association, 1908), *American Journal of Public Hygiene*, 1908.

- 82 A New Method of Differentiating *B. coli* and *B. typhosus*, *Canadian Practitioner*, 1895.
- 83 Notes on the Morphology of *B. Diphtheriae*, *Annual Report of Boston Board of Health*, 1901.
- 84 Personal vs. Public Hygiene (Editorial), *American Journal of Public Hygiene*, Nov., 1908.
- 85 Porous Tops for Petri Dishes, *Journal of Medical Research*, 1904-5.
- 86 Preliminary Report of the Committee on Diphtheria Bacilli in well persons, *Journal of the Massachusetts Association of Boards of Health*, 1901.
- 87 Present Status of Morphological Types of *B. Diphtheriae*, *American Journal of Public Hygiene*, May, 1907.
- 88 The Quantitative Dimension of the Communicable Disease Problem in Minnesota, *Minnesota Alumni Weekly*, Feb. 13, 1911.
- 89 The Real Significance of Bacterial Standards (counts) for Milk, *American Journal of Public Hygiene*, Aug., 1906.
- 90 Refuse Disposal in Boston, *Transactions of the American Public Health Association*, 1902.
- 91 On the Regulation Requiring Two Consecutive Cultures for the Release of Diphtheria Cases, *Journal of the Massachusetts Association of Boards of Health*, 1898.
- 92 Report of the Boston Board of Health Bacteriological Laboratory, 1905.
- 93 Report of Committee on Technical Progress of the Laboratory Section, *American Journal of Public Hygiene*, May, 1908.
- 94 Report of Committee on Typhoid Fever, *American Journal of Public Hygiene*, May, 1908.
- 95 Report of the Committee on Disinfectants and Disinfection, *Transactions of the American Public Health Association*, 1902.
